Without benefit of *heat* **[Orchid** culture]. 122194
Pasteurization by **plate** *heat* exchangers [Beer]. 116678
Heat **radiation** phenomena from a glasshouse crop canopy at night. IV. Determination of the curtain factor by a simple method [Fuel reduction]. 124596
The effect of the *heating* **rate** on the readiness of forced meat products undergoing ultrahigh frequency power treatment. 116843
Heat **recovery** during cardboard drying. 119778
Reducing *heat* losses in polyethylene covered greenhouses. 124652
Heat **resistance** of ascospores of the genus Byssochlamys [Fungi]. Dependence of saccharose and malic acid in apple juice. 116023
Effect of nisin [an antibiotic produced by certain strains of the common dairy organisms Streptococcus lactis] on *heat* **resistance** and gas production of some spore-formers. 116927
Heat **resistance** of Trichoderma lignorum Harz [Fungi] in submerged culture. 121274
Physiological characteristic of drought and *heat* **resistance** in maize [Varieties, breeding]. 121572
The finishing of surfaces with paper and foils by using a covering process with *heated* **rollers** [Wood pulp]. 119675
Use of smoke and *heat* during **scalded** sausage manufacture with regard to technologies sparing the environment [Air pollution]. 116965
Beer filtration. V. Layer filtration, membrane filtration, **short-term** *heating.* 116669
Scalded sausage manufacture in the meat trade. 10. Effect of exposure to light; cutting, filling, *hot* **smoking** and scalding. 116957
Hot **spray** jet, cleansing devices and detergents [in food sanitation]. 116090
Sun-shade ecotypes of a bluegreen alga [Plectonema notatum] in a *hot* **spring.** 121218
Heat **stability** variants of esterase-6 in Drosophila melanogaster. 124097
The basis of [in-can] *heat* **sterilization** process evaluation. 116811
Effect of partial amelioration of *heat* **stress** on feed and water intake and some blood constituents in buffalo bulls. 117745
Results in oral and intravaginal application of megestrol-acetate for *heat* **synchronisation** of Merino sheep. 118373
Ultrahigh **temperature** *heated* milk and its aseptic conditioning. 116917
Heat **therapy:** method and application to control plant viruses [of pippin and stone fruit trees]. 122829
Constitutional differences of *heat* **tolerance** in sheep. 117716
Modifying effect of daily milk yield on *heat* **tolerance** in cattle. 117720
Quantitative evaluation of *heat* **tolerance** in animals. 117721
Relation between some reproductive characters and *heat* **tolerance** in cattle reared under hot climate conditions. 117722
Relation between *heat* **tolerance,** growth and milk productivity of cattle. 117723
Relation of *heat* **tolerance** of cattle with typologic features of the higher nervous activity. 117727
Studies of *heat* **tolerance** in domestic animals (Review). 117732
The role of different mechanisms of thermoregulation in *heat* **tolerance** of cattle. 117736
Variability of *heat* **tolerance** in pigs. 117737
Variability and inheritance of *heat* **tolerance** in domestic animals. 118317
Heat **tolerant** bacteria in water scalding tanks [Swine, slaughtering]. 116038
Translocated *heat* injury. II. [Pinto beans, cowpeas, cucumbers]. 123015
Heat **treatment** of food. I. 116723
Heat **treatment** of food. 2. 116724
Heat **treatment** of food. 3. 116725
Quality of protein in milk replacers for young calves. II. Effects of *heat* **treatment** of skim milk powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Eradication of seed-borne organisms from imported vegetable seeds by *hot-water* **treatment** [Fungi, germination test]. 122645
Vintage *heating* and the use of sulfur dioxide. 117313
On the components of pileus and stipe of dried shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and *hot* **water** soluble polysaccharides. 117297
Effect of time feeding on performance of laying hens during *hot* **weather.** 118078
Roof insulation and its effect on broiler chicken mortality in *hot* **weather** [Poultry house]. 124653

HECTARES

Second estimate of European sugarbeet **acerages** 1976 *(hectares).* 121915
Gabon, a country with more than 18 **million** *hectares* of forests (forest resources, industry and trade in wood). 119545
Gabon, a country with more than 18 **million** *hectares* of forests (forest resources, industry and trade in wood). 119808

HEDGES

Hedging. 4. **Futures** strategies show advantages [Cattle prices]. 115623
Hedging. 2. **Hedged** and unhedged show losses [Slaughter cattle prices]. 115621
The **nectar-secreting** *hedge* [Symphoricarpos, honey plants]. 122521
Hedging. 3. **Selective** strategy looks best [Cattle, marketing]. 115622
Hedging. 2. *Hedged* and **unhedged** show losses [Slaughter cattle prices]. 115621

HEDYSARUM

Study of natural populations of *Hedysarum* **coronarium** L. In northern Tunisia [to improve its use as a pasture plant]. 119992
Seed rates used in cultural techniques for sulla sweet **vetch** *(Hedysarum* coronarium L.). 122135
Yield response of sulla sweet **vetch** *(Hedysarum* coronarium l.) to different seed types and seeding modalities. 122142

HEIFERS *see* **CATTLE**

HEIGHT

Chemical *height* control of Reiger Elatior Begonia [hiemalis]. 121697
Comparison of soil applied growth regulators on *height* **control** of poinsettia [Euphorbia pulcherrima]. 121662
The effects of nitrogen and **mowing** *height* on the establishment of centipede [Eremochloa ophiurodies]. 125065
Effect of **plant** *height* on soybean yield in the Gulf Coast. 122079

HELENIUM

Flavonoids of *Helenium* **alternifolium** (Spreng.) Cabr. 121232

HELIANTHEAE

Sunflowers: **Helianthus** *(Compositae-Heliantheae).* 121965

HELIANTHUS

Sunflowers: *Helianthus* **(Compositae-Heliantheae).** 121965
Relationship of plant population of the **sunflower** *(Helianthus* annuus L) to NP [nitrogen phosphorus] fertilization and irrigation time. 122132

HELICONIA

A community matrix analysis of *Heliconia* **insect** communities. 123785

HELICONIUS

A **fake** *Heliconius* (Lepidoptera, Nymphalidae) [Nomenclature]. 124461

HELICOPTERS

Helicopters as **frost** protection devices [Citrus, vegetables]. 123041

HELIOTHIS

Composition of *Heliothis* **collections** in Arkansas cotton fields. 123299
Influence of buffers on pH [hydrogen-ion concentration] of cotton leaf surface and activity of a *Heliothis* **nuclear** polyhedrosis virus. 123318
Cotton insect pest management, 1976 *[Heliothis* **virescens,** anthonomus grandis, Heliothis zea]. 123298
A survey of tachinid parasites of Heliothis zea and *Heliothis* **virescens** in North Carolina [Biological control of field crop pests]. 123317
Choice of light bulbs for attracting [the cotton pest] *Heliothis* **virescens** (Fabr., 1871). 123329
Confirmation of biosynthesis and partial structural characterization of the ether-linked ethanolamine phosphoglycerides of *Heliothis* **[virescens].** 123977
Photoperiodicity, 65Zn [zinc] elimination, and egg production in *Heliothis* **virescens.** 124038
Labeling of Trichogramma pretiosum by rearing on eggs from 32P [phosphorus isotope]-fed adults of *Heliothis* **zea** [corn earworm, biological control]. 123282
Results of a three-year cotton pest [Anthonomus grandis, *Heliothis* **zea]** management program in the Hill Section of Mississippi. 123287
Cotton insect pest management, 1976 [Heliothis virescens, anthonomus grandis, *Heliothis* **zea].** 123298
A survey of tachinid parasites of *Heliothis* **zea** and Heliothis virescens in North Carolina [Biological control of field crop pests]. 123317
Yield losses in south Georgia field corn resulting from damage by several insects *[Heliothis* **zea,** Sathrobrota rileyi, Sithophilus zeamaize]. 123321

A natural mortality table for the corn earworm *[Heliothis* **zea]** on peanuts [Trichogramma and Microplitis for biological control]. 123340
The tomato fruitworm *[Heliothis* **zea]**: how to control it. 123417

HELIOTROPIUM
The chemical basis of attraction of ithomiine butterflies to plants containing pyrrolizidine alkaloids *[Heliotropium* **indicum]**. 121176
Indicine-N-oxide: the antitumor principle of *Heliotropium* **indicum**. 121254

HELLEBORUS
Isolation of anemonin from *Helleborus* **orientalis**. 121255

HELMINTHOSPORIUM
In vitro production of transelimanses by *Helminthosporium* **apattarnae** Desh. & Desh. [Isolated from leaf spot in Cynodon dactylon]. 122630
Development of barley root rots in fields surrounded by forest shelterbelts *[Helminthosporium,* **Fusarium,** Alternaria]. 122777
Physiologic specialization in *Helminthosporium* **gramineum** [barley, leaf stripe, resistance testing of Indian and USa varieties]. 122755
Testing of maize hybrids for susceptibility to **helminthosporiosis** *(Helminthosporium* turcicum Pass.) in a provocation trial. 122611
K+ [potassium]-stimulated adenosine triphosphatase of maize roots: partial purificatin and inhibition by *Helminthosporium* **maydis** race T toxin. 122708
Southern corn leaf blight *[Helminthosporium* **maydis]**: ultrastructure of host-pathogen association. 122718
Ultrastructure and mechanics of the conidium-conidiophore attachment of *Helminthosporium* **maydis** [Corn leaf blight]. 122740
Effects of weather conditions on dynamics of *Helminthosporium-Fusarium* **root** rot on spring wheats in Krasnoyarsk territory. 122653

HELMINTHS
Helminths of **domestic** carnivorous animals in Kishinev [Dogs, cats]. 118874
Beetles (Coleoptera) as new intermediate hosts of *helminths* **[Infecting** livestock]. 123674
Dog's **intestinal** *helminth* ova incidence in public parks of the city of Milan. 118616
Preliminary evaluation of butamisole for the treatment of **intestinal** *helminths* of dogs. 118952
A study of *helminth* **parasites** in the gastrointestinal tract of the swamp buffalo, Bubalis bubalis Lydekker, in the Northern Territory. 118619

HEMAGGLUTINATION
Enhancement of *hemagglutinating* **activity** of Haemophilus gallinarum by trypsin [Chicken]. 118629
Hemagglutination by **equine** infectious anemia virus. 118761
Serum fibrinogen-related antigen concentrations in the normal dog as measured by the tanned **erythrocyte** *hemagglutination-inhibition* immunoassay. 117943
Lipid vesicle-cell interactions. I. *Hemagglutination* and **hemolysis** [Sheeep erythrocytes]. 117800
Use of **indirect** *haemagglutination* and agglutination tests for the diagnosis of poultry salmonellosis [Salmonella gallinarum, chicks]. 118936
Indirect *hemagglutination* with the use of glutaraldehyde-treated [sheep] erythrocytes to determine anthrax antibodies. 118985
Haemagglutinating **property** of buffalo pox virus. 118744
Application of freeze-dried, one-day-old chick erythrocytes to viral hemagglutination and *hemagglutination-inhibition* **tests.** 118786

HEMATOBIA
New era in insect [Stomoxys calcitrans, *Haematobia* **irritans]** control [Dimilin]. 123595

HEMATOLOGY
Investigations on the acute toxic effect of pyrethrum [insecticide] on various *haematological* **aspects** of Meriones hurrianae Jerdon, the Indian desert gerbil. 123756
Further observations on the *hematology* and **clinical** biochemistry of the Irish Thoroughbred horse. 117940
Comparative **developmental** *hematology:* animal models [mouse and sheep] to study human fetal erythropoiesis. 117939
Effect of caecal coccidiosis on *haematological* **indices** in chickens. 2. Changes of haematological indices after the invasion of non-immunized chicks [by Eimeria tenella]. 118929
Effect of caecal coccidiosis on *haematological* **indices** in chickens. 3. Changes of haematological indices after the invasion of immunized chicks [by Eimeria tenella]. 118930
Studies on some *hematological* **values** for Bangladesh goat. 117765
Hematologic **values** of conditioned, captive wild coyotes. 117839
Hematological **values** of healthy cats (Felis cati L., 1758). 117903

HEMEROCALLIS
Polyploidy in *Hemerocallis.* **Colchicine-induced** polyploidy in Hemerocallis. 120764
Vegetative propagation of *Hemerocallis*—including **tissue** culture. 122265

HEMICELLULASES
Production and purification of **two** *hemicellulases* from Cephalosporium sacchari [Fungi]. 120993

HEMICELLULOSES
Non-cellulosic beta-D-glucans from bamboo, and interpretative problems in the study of all *hemicelluloses* **[Arundinaria** japonica, Arundinaria anceps]. 120992
Production of glycosyl urea on the basis of hydrolysates of deciduous **wood** *hemicelluloses.* 119741

HEMIPTERA
New **African** *Hemiptera* Reduviidae of the Munich Museum. 124389
Life history and laboratory rearing of Brochymena quadripustulata [on black walnut Juglans nigra] with descriptions of immature stages and additional notes on Brochymena **arborea** *(Hemiptera:* Pentatomidae). 124215
Records of insects taken at light traps in Tanzania. II. Distribution and seasonal change in catches of **Belostomatidae** *(Hemiptera:* Heteroptera) in relation to rainfall. 123250
Geographical variation in the genitalia of three species of **Cicadellidae** *(Hemiptera)* [Agallia laevis, Eupteryx stachydearum, Eupteryx urticae]. 124162
Composition of the scents of eight east African hemipterans. Nymph-adult chemical polymorphism in Coreids *[Hemiptera,* **Coreidae].** 123800
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and **Corixidae** *(Hemiptera,* Heteroptera). 123251
Audiospectrographic analysis of stridulatory signals of some North American **Corixidae** *(Hemiptera).* 123817
Neotropical Miridae. CXCVII. Review of the genera Callichila Reuter and Platytylus **Fieber** *(Hemiptera)* [New taxa, Latin America]. 124416
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and **Fulgoridae** *(Hemiptera,* Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
A new species of Hermatobates [singaporensis] *(Hemiptera:* **Heteroptera).** 124392
New pests on the crops of Castilla la Vieja [Wheat, barley, *Hemiptera,* **Lepidoptera].** 123274
Parasitism of the tarnished plant bug, Lygus **lineolaris** *(Hemiptera:* Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297
Neotropical Miridae. 197. Description of Urubumiris gen. Nov. and two new species of **Minytus** *(Hemiptera)* [Brazil]. 124415
The **mirid** *(Hemiptera)* fauna of Solidago canadensis (Asteracea) in south-eastern Ontario. 124275
Pretarsal structure in the **Miridae** *(Hemiptera)* with a cladistic analysis of relationships within the family. 119928
Notes on North American **Nepidae** *(Hemiptera:* Heteroptera [Ranatra montezuma, new taxa]. 124402
Natural enemies of Bathycoelia thalassina (Herrich-Schaeffer) *(Hemiptera:* **Pentatomidae),** a pest of cocoa in Ghana. 123226
Chemistry of the Coccoidea. II. Condensed polycyclic pigments from two Australian **pseudococcids** *(Hemiptera)* [Nipaecoccus aurilanatus, Pseudococcus albizziae]. 123824
Changes in the total and differential haemocyte counts of Dysdercus cingulatus Fabr. *(Hemiptera:* **Pyrrhocoridae)** related to metamorphosis and reproduction. 124014
Behavioral observations on Aethalion **reticulatum** *(Hemiptera,* Aethalionidae) and associated ants. 123993
Neotropical Miridae. 196. Descriptions of five new genera and six new **species** *(Hemiptera)* [Brazil]. 124414
Miridae of the genus **Termatophylidea** *(Hemiptera)* as predators of cacao thrips [Selenothrips rubrocinctus]. 123233

HEMOBARTONELLA
Note on two cases of feline haemobartoneleosis observed in chad *[Haemobartonella* **felis].** 118904
A case of feline infectious anemia (haemobartonellosis) *[Haemobartonella* **felis]** with simultaneous feline leukemia virus. 119043

HEMOBARTONELLOSIS
A case of feline infectious **anemia** *(haemobartonellosis)* [Haemobartonella felis] with simultaneous feline leukemia virus. 119043

HEMOCYTES
Changes in the total and **differential** *haemocyte* counts of Dysdercus cingulatus Fabr. (Hemiptera: Pyrrhocoridae) related to metamorphosis and reproduction. 124014

HEMOGLOBINS
Effect of urea feeding on the **blood** *haemoglobin* content of Haryana heifers. 118074
Lamb production of sheep with **differing** *haemoglobin* and blood potassium types. 118323
Ontogenetic changes in the *haemoglobins* of **geese,** ducks, chickens and turkeys. 117636

HEMOLYMPHS
Free amino acids & proteins of the *haemolymph,* **Hepatopancreas** & muscle of the scorpion Heterometrus scaber (Thor.). 123971
A carrier protein for juvenile hormone in the *haemolymph* of the **Indian** meal moth [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
Interaction of juvenile hormone with binding proteins in **insect** *hemolymph* [Manduca sexta, Hyloicus chersis]. 123942
Control of circadian rhythm of the trehalose concentration in the *hemolymph* of **Periplaneta** americana. 124187
The binding of juvenile hormone to larval epidermis: influence of carrier protein from the *hemolymph* of **Plodia** interpunctella. 123953
Histochemical characterization of the *hemolymph* **proteins** from the cocoons of Formica species by polyacrylamide electrophoresis. 123979
Purification and characterization of the carrier protein for juvenile hormone from the *hemolymph* of the **tobacco** hornworm Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018

HEMOLYSIS
Autoimmune *hemolytic* anemia associated with lupus erythematosus [Dogs]. 119209
End products of glucose fermentation of Pasteurella multocida and **Pasteurella** *haemolytica* [Bacterial pathogens of animals]. 119064
Lipid vesicle-cell interactions. I. Hemagglutination and *hemolysis* **[Sheeep** erythrocytes]. 117800

HEMORRHAGE
Spleen lesions of *hemorrhagic* **enteritis** [virus] of turkeys. 118641
Incidence of *haemorrhagic* **enteritis** due to Clostridium perfringens type 'C' and its control [in sheep]. 118733
Hyperglycemic and hyperosmolar responses to **graded** *hemorrhage* [Cats]. 119223

HEMP
A practical and natural taxonomy for **Cannabis** *[Hemp].* 120283
Hemp: **Cannabis** sativa (Moraceae) [Fiber crops, drug plants]. 121948
Biological factors of resistance to seed shattering **im** *hemp.* 121571
Hemp for the **paper** industry: aspects and problems for its cultivation. 121893

HENS ***see*** **CHICKENS**

HEPARIN
Nearest neighbor analysis of [beef lung] *heparin:* **Identification** and quantitation of the products formed by selective depolymerization procedures. 117590
Contagious bovine pleuropneumonia pathogeny. Receptive state of cattle **kept** under *heparin.* 118899
Formation of anhydrosugars in the chemical depolymerization of [beef **lung]** *heparin.* 117588

HEPATIC
Research on bilirubin, urobilinogen and rate of serum bilirubin in normal dogs and those with *hepatic* **diseases.** 119188
Studies on the alpha-adrenergic activation of *hepatic* **glucose** output. I. Studies on the alpha-adrenergic activation of phosphorylase and gluconeogenesis and inactivation of glycogen synthase in isolated rat liver parenchymal cells. 117796
Effect of dietary fat on *hepatic* **metabolism** of 14C [carbon isotope]-oleic acid and very low density lipoprotein triglyceride in the gerbil [Coconut or safflower oil]. 116425
Hepatic **steatosis** of poultry [Fatty liver]. 119077
Concentrations of intermediate metabolites in the blood and *hepatic* **tissues** of pregnant and non-pregnant ewes. 117755
Hepatic **venous** compliance and role of liver as a blood reservoir [Cats]. 117538

HEPATICAE
Austral *Hepaticae.* IV. Notes on Lophozia subgenus Protolophozia Schust., with diagnosis of a new South American species. 120102
African hepatics. XXVII. **Bazzania** *[Hepaticae].* 120101
Culture studies on Radula flaccida Lindenb. & **Gottsche** *[Hepaticae].* 121170
Anatomy and development of the sporophyte of Gyrothyra underwoodiana **Howe** *[Hepaticae].* 120487
Hepaticae **japonicae** Exsiccatae series 1-20. Alphabetical list of species. 120116
Induction of apospory, callus, and correlated morphogenetic studies in Athalamia pusilla **Kash** *[Hepaticae].* 120490
Regeneration in Fossombronia himalayensis Kash. And Sewardiella tuberifera **Kash.** *[Hepaticae].* 121189
Herbertus gray 1821, Herbertia Sweet 1827 and Herberta Gray mut. **Lindb.** 1875 *[Hepaticae].* 120105
Variation in the capsule-wall structure in three common species of **Metzgeria** *(Hepaticae),* with special reference to the gametophytic features. 120491
Miscellaneous *Hepaticae,* 141-150 [New taxa]. 120107
Drepanolejeunea subgenus Kolpolejeunea *[Hepaticae],* a **new** subgenus from the Paleotropical region. 120114

Lepidoziaceae, subfamily Lepidozioideae from the Philippines *[Hepaticae,* **new taxa,** Telaranea fragilis]. 120117
Notes on the Asiatic species of the genus Frullania, *Hepaticae.* X. [**New taxa**]. 120123
Notes on the Plagiochilaceae *[Hepaticae,* **new taxa**]. V. Studies in the genus Plagiochila (Dum.) Dum. in the Hawaiian Islands. 120124
A remarkable New Caledonian species of Frullania [tixieri] *(Hepaticae)* [**New taxa**]. 120130
Studies on the Asiatic species of the genus **Porella** *(Hepaticae).* VI. 120127
Electron microscope observations on the sporogenesis in the hornwort, Anthoceros **punctatus** L. *[Hepaticae].* 120489
Lejeuneology: the notion of the leaf node in the genus Cololejeunea **Schiffn** *[Hepaticae].* 120438
Four new Metzgeria *[Hepaticae]* from **South** America. 120115
Metzgeria temperata, a new holarctic **species** of *Hepaticae.* 120120
Cytoplasmic cylinders associated with the nucleus and cell wall of marchantia **spermatids** *[Hepaticae].* 120540
Correlation between protein content and cell elongation in setae of Lophocolea heterophylla *[Hepaticae]* **sporophytes.** 121186
Studies of little known Asiatic species of *Hepaticae* in the **Stephani** Herbarium. 9. Some little-known species of the family Lejeuneaceae. 120126
Memoranda on the type specimens of Radula *[Hepaticae]* **taxa** from Southeast Asia. 3. 120119
Phenotypic variations in Fossombronia himalayensis Kash *[hepaticae]* in **vitro-effect** of sugars, auxins, growth substances and growth inhibitors. 121188

HEPATITIS

Role of the bursa of Fabricius in the pathogenicity of inclusion **body** *hepatitis* and infectious bursal disease viruses [Chickens]. 118639
A note on infectious **canine** *hepatitis* in Punjab. 118750
An attempt to cultivate the agent connected with the antigen of *hepatitis* B in **chicken** embryos. 118675
Effect of sera **containing** *hepatitis* B (HB-ag) antigen upon Nicotiana sylvestris [Tobacco, necrosis]. 122828
Polyethylene/glycol for concentration and purification of **duck** *hepatitis* virus. 118836

HEPIALIDAE

Morphology of the occipital region in *Hepialidae* and **Cossidae** (Lepidoptera) of Japan. 124108

HEPTACHLOR

Chlordane and *heptachlor.* 123698
Utilization of *heptachlor* by **fungi** [Aspergillus, Penicillium, Curvularia lunata, Trichoderma lignorum]. 121143
Heptachlor [**a persistant** organochlorine pesticide]: toxicity to and uptake by several estuarine organisms. 123733

HERACLEUM

Chemical investigation of *Heracleum* **lasiopetatum** [Analgesic activity in the plant extract]. 120870
Content of gibberellin-like substances in the leaves of *Heracleum* **olgae** Rgl. et Schmalh. in relation to the effect of gibberellin and natural ultra-violet radiation. 121106
Identification of unsaturated lactones from the fruit of cowparsnip, *Heracleum* **sosnowkyi.** 121061
Fruit anatomy of some *Heracleum* **species.** 120198
Fruit morphology of some *Heracleum* L. **Species.** 120199

HERBACEOUS

The influence of *herbage* **[grazing]** utilization on pasture production and animal performance. 122065
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the *herbage* **infestation** with infective larvae [Parasitic worms]. 118862
Longevity of the seeds of *herbaceous* **plants** from the [Ukrainian] Carpathians. 120966
The flowering of nemoral perennial *[herbaceous* **plants]** in an introduction experiment [in Moscow]. 120970
Allelopathic properties of *herbaceous* **plants** of the Crimean forests. 121056
Precision on the range [Technique for measuring the increase or decrease of *herbaceous* **plants].** 121839
Rate of development and competition among *herbaceous* **plants.** 122130
Auxinic activity of metabolites of microorganisms from the rhizosphere and soil covered by **tall** *herbaceous* vegetation. 124812
Presence of biologically active substances in soils covered by **tall** *herbaceous* vegetation and meadow forbs. 124820
Evaluation of New **Zealand** *herbage* cultivars overseas [Yields]. 122063

HERBARIUMS

Information management and use of TAXIR in *herbaria* **[Computer** system]. 120043
The data from *herbaria* [for **electronic** processing]. 120048
E.D.P. [Electronic data processing] in major herbaria—the priorities **[Kew** *Herbarium].* 120040
How to prepare a collection of botanical **molds** [for a *herbarium].* 119861
Type specimens of hypogeous fungi in the *herbarium* of the **New** York Botanical Garden. 120222
Data standards for collection-holding **organisations** [including *herbaria].* 120039
Electronic data **processing** the *herbarium.* 120042
Relations between *herbarium* **records** and other records [Electronic data processing]. 120044
The uses of electronic data processing for *herbarium* **specimen** label information. 120052
Electronic data processing of *herbarium* **specimens** data for the Flora of Veracruz program. 120041
Studies of little known Asiatic species of Hepaticae in the **Stephani** *Herbarium.* 9. Some little-known species of the family Lejeuneaceae. 120126

HERBICIDES

Relationship between chemical structure and plant growth-regulating activity of amino acid related compounds *[Herbicidal* **activity** against Echinochloa crusgalli]. 123054
Effect of pH [hydrogen-ion concentration] on metribuzin *[herbicide]* **activity** in the soil [Phytotoxicity]. 123766
DCMU [3(3,4-dichlorophenyl)-1,1-dimethylurea] induced inhibition of growth, photosynthesis and motility in Eudorina elegans cultures **[Algae,** *herbicides].* 123061
Antifungal action of cyanamide added, in vitro, with atrazine *[herbicide,* **Alternaria** brassiciola, Dreschslera maydis]. 122552
Effect of long-term atrazine *[herbicide]* **application** on soil microbial activity. 123204
Is there a relationship between **aquatic** *herbicides* and water quality? [Residues, pollution]. 123748
Metabolism and differential susceptibility of crabgrass [Digitaria sanguinalis] and witchgrass [Panicum capillare] to simazine and **atrazine** *[herbicides].* 123211
Paraquat *[herbicide]* is not **bacteriostatic** under anaerobic conditions. 123098
Cost reduction in aquatic plant harvesting [controlled by *herbicides:* **biological** means]. 123122
Wild oat [Avena fatua] control in spring-seeded wheat and durum wheat with difenzoquat alone and in combination with **broadleaf** *herbicides* during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Wild oat [Avena fatua] control in barley with difenzoquat alone and in combination with **broadleaf** *herbicides* during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123170
Herbicide **combinations** for no-tillage soybean production. 123131
Herbicides for the **control** of weeds in warm-season forage grasses. 123132
Corn *herbicide* evaluations across Iowa in 1975. 123121
1975 no-till **corn** *herbicide* results in northeast Iowa. 123171
Esterification of the hydrolysis product of the *herbicide* **dichlorfop-methyl** in methanol. 123090
Role of pH [hydrogen-ion concentration] on metribuzin *[herbicide]* **dissipation** in field soils. 123767
Control of 2,4-D [(2,4-dichlorophenoxy) acetic acid] resistant weeds in small grains with **Dowco** 290 *herbicide.* 123078
Experimental results obtained with the *herbicide* **Dual,** associated with Gesaprim and Venzar, in controlling weeds in maize and beet crops. 123173
Evaluation of **eight** *herbicides* in container nursery stock [of ornamental plants]. 123071
Farmer evaluaton of penoxalin (Prowl) *herbicide* during 1975 under **EPA** [Environmental Protection Agency] experimental permit. 123128
Control of yellow nutsedge [Cyperus **esculentus]** by various *herbicides.* 123118
The use of *herbicides* in **forestry** in New Zealand. 123101
Effects of pure paraquat dichloride, **"Gramoxone W"** *[herbicides],* and **formulation** additives on soil microbiological activities. 3. Estimations of soil microflora and enzyme activity in field-treated soil. 123215
Use of *herbicides,* **fungicides** and insecticides in forestry with special regard to the special importance of water catchment areas of dams. 123706
Herbicides for **grain** sorghum in Nebraska. 123133
Evaluation of tillage and *herbicides* for **grain** sorghum surface residue management in an irrigated wheat-sorghum-fallow cropping sequence. 123754
Effectiveness of *herbicides* when **growing** sugarbeets in Kirghizia. 123087
Controlling drift of *herbicides.* II. 123200
Controlling drift of *herbicides.* I. 123201
Effects of paraquat and dinoseb *[herbicides]* in **hops** [to control Amaranthus retroflexus, Echinochloa crusgalli]. 123207
Asulam *[herbicide]* for **johnsongrass** [Sorghum halepense] control in sugarcane. 123202
The use of premerge *[herbicides]* at **low** rates as a yield stimulant in corn—a status report. 123158
Metabolism of the *herbicide* **methazole** in lactating cows and laying hens. 123091
Effect of soil pH [hydrogen-ion concentration] on microbial degradation, adsorption, and mobility of **metribuzin** *[herbicide].* 123205
Turfgrass tolerance and weed control with methazole and **metribuzin** *[herbicides].* 123214
Effects of *herbicides* on the **microflora** and some hydrological and physical properties of Chernozem soil in young forest stands. 123758
Herbicides for **no-tillage** corn in alfalfa sod [Weed control]. 123210
Use of **penoxalin** *herbicide* for weed control in spring grains and potatoes. 123160
The **phenoxy** *herbicides.* 123075
Results of trials on wheat (Triticum vulgare, L.) weed control by recent **post-emergence** *herbicides.* 123055
Sensitivity of different [crop] plants to the action of amino ester derivatives **[Potential** *herbicides].* 123060
Potential *herbicide* combinations for weed control in shade trees. 123072
Evaluation of **preemergence** *herbicides* for sorghum grown on sandy soil. 123177
Examination of various Buvinol *[herbicide]* **preparations** in raspberry and currant plantations. 123096
Johnsongrass [Sorghum halepense] control with *herbicides* **prior** to planting sorghum. 123179
Herbicides in **red** clover plantings. 123088
Breakdown and movement of 2,4-D in the soil under field conditions *[Herbicidal* **residues].** 123765
Pesticide applicator training for use of **restricted** *herbicides.* 123749
Rice *herbicide* evaluation for the western rice belt [Echinochloa colonum]. 123180
Stimulating native forage production for livestock and wildlife on fallow **riceland** *[Herbicides].* 123181
Influence of *herbicides* on **roadside** flora composition. 123085
Herbicides for **row** crops [Maize, soybeans, sorghum]. 123198
Effects of **selected** *herbicides* on yield, weed control and nutrient content of sweet corn. 123126
Dinitramine ('Cobex'), a new **selective** *herbicide.* 123068
Adsorption and mobility of metribuzin *[herbicide]* in **soil.** 123764
Investigations into the cause of damage to sugarbeet by the **soil-applied** *herbicide* lenacil [Weed control]. 123064
Effects of preplanting **soil-incorporated** *herbicides* on metribuzin injury in soybeans. 123023
Soybean *herbicide* trials in Nebraska in 1975. 123148
Soybean *herbicide* evaluations across Iowa in 1975. 123149
Equivalent rates of soil **sterilants** *[Herbicides].* 123127
Herbicide **treatments** for watergrass [Echinochloa crusgalli X Echinochloa colonum]. 123178
Effects of glyphosate and siduron *[herbicides]* on **turfgrass** establishment. 123206
Renovation of **turfgrasses** with *herbicides.* 123212
Effects of herbicides in Vietnam and their relation to *herbicide* use in the **United** States. 123074
Herbicidal **weed** control in maize. 123081
Thin-layer chromatographic demonstration of the **Zenkor** *herbicide* [Residues in food and feed]. 116266

HERBS

Flovonoids of the *herb* **Ageratum** mexicanum Sims. (Compositae). 120853
A visit to the **Arboretum** *Herb* Garden. 119905
Herbs **[Culture].** 122287
Aromatic substances in spices and *herbs.* I. 116727
Potpourri is easier than you think [Processing of fragrant flowers, *herbs,* **mint** mixture]. 116805
Producing hybrid seeds in sorghum for grains and sorghum X *herb* **sudangrass.** 120792
Try *herbs* and bran for easier digestion. 116539
Resource division in an **understory** *herb* community: responses to temporal and microtopographic gradients. 120310
The response of **understory** *herbs* to soil depth gradients in high and low diversity communities. 120328

HERDS

Management systems for small **beef** *herds* of 10 cows or less. 115336
Start now, you'll cut costs [of wintering the **beef** *herd].* 115523
Beef production from the **breeding** *herd*—guidelines to management. 118413
Studies on swine fever. VI. Investigations in pedigree **breeding** *herds* in Lower Saxony. 118658
Coliform mastitis in pastured **[cattle]** *herds.* 118959
Planning of random sampling in metabolic control of dairy **cattle** *herds.* 119169
Exploiting *between-herd* genetics [Beef cattle]. 118189
Contagious ecthyma (orf) in a **goat** *herd.* 119049
Healthy *herds* for the [cattle husbandry] complexes [Calf hygiene]. 118570
Use of milk records in **one** *herd* to predict a cow's production in a second herd. 117410
Keeping a finger on your *herd's* **pulse** [Swine rearing, costs]. 117484
Listeriosis in a *herd* of **saddle** horses. 118651
Use of milk records in one herd to predict a cow's production in a **second** *herd.* 117410
Cow culling on first calf weaning weight in record of performance **tested** *herds.* 117408

HERDSMEN

Technician and *herdsman* **inseminator** training [Cattle]. 118289

HEREDITY

Forest reservations—our **biological** *heritage* [Slovenia]. 119325
Hereditary **conditionality** of the type of response to lower environmental temperature in cattle. 118315
Recent findings on the [nutritional and *hereditary* **damage]** of selenium upon livestock. 119173

The effects of interspecific competition in Medicago sativa L [alfalfa]. II. *heritability* **evaluation** of competition effects. 120800
Performance variation and *heritability* of **milk** performance traits in cattle and their correlations as well as with other economically important characters. 118265
Osteoporosis in chickens with *hereditary* **muscular** dystrophy. 119198
A bicentennial salute to Louisiana: The school cafeteria staff played an important role in this tribute to a state's **proud** *heritage* [School lunches]. 116331
Evaluation of strawberry parent clones for easy calyx **removal** *[Heritability].* 120766
Vericillium albo-atrum in lucerne. II. The effect of selection and the *hereditary* **variation** in resistance. 120584

HEREFORDS *see* CATTLE

HERITAGE *see* HEREDITY

HERNIA
Double intervention in the same cow with a cesarean and **abdominal** *hernia* surgery. 118533
Surgical treatment of thoracolumbar **disc** *herniation.* 119221

HERPES
Occurrence of infection by **bovine** *herpes* virus (IBR-IPv) [infectious bovine rhinotracheitis/infectious pustular vulvovaginitis] in bulls at an insemination station. 118834

HERPESVIRUSES
Experimental infection with **Bovid** *Herpesvirus* 2 [Heifers]. 118984
Herpesvirus **sylvilagus** in cottontail rabbits: antibody prevalence and flea burden relationships [Cediopsylla simplex]. 118812
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [**turkey** *herpesvirus]* vaccine. II. Effectiveness of the deptavac HVT vaccine with broiler parents during the egg-laying period. 118972

HERPETOGRAMMA
Biology of the grass webworm, *Herpetogramma* **licarsisalis** (lepidoptera: Pyraustidae) in Hawaii. 123799

HESPERIIDAE
Preliminary descriptions of **new** *Hesperiidae* from black Africa (Lepidoptera, Grypocera). 124332
Larval foodplants, spatial and temporal distribution for five **skippers** *(Hesperiidae)* from texas. 124319

HETERAKIS
Effect of some microelements on *Heterakis* **gallinarum** infection [in birds]. 118981

HETEROAUXIN *see* INDOLEACETIC

HETEROCHROMATIN
Heterochromatin and **timing** of DNA replication in morabine grasshoppers [Moraba virgo]. 123964
Heterochromatin **underreplication** in Tropaeolum [majus] embryogenesis. 120788

HETERODERA
The effect of the cereal cyst nematode *[Heterodera* **avenae**] on absorption and translocation of nutrients by the roots of oat plants. 122894
Scanning electron microscopy of syncytial transfer cells induced in [soybean, tobacco] roots by cyst-nematodes *[Heterodera* **glycines,** Heterodera tabacum]. 122716
On the classification of pathotypes of the potato cyst **nematodes** *Heterodera* rostochiensis and Heterodera pallida present in the Federal Republic of Germany. 122997
The effect of formalin on potato cyst-nematode, *Heterodera* **rostochiensis.** 122890
Study of the interspecific [hybrid] potato resistant to nematodes *[Heterodera* **rostochiensis**] in the Latvian SSR. 122947
Development of *Heterodera* **schachtii** in the roots of winter rape and oil radish. 123047
Scanning electron microscopy of syncytial transfer cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, *Heterodera* **tabacum**]. 122716

HETEROGENEITY
Heterogenous **acid** hydrolysis of monocarboxycellulose. 119733
Alterations of the *heterogeneity* of **mitochondria** in the aerobic growth of the yeast Saccharomyces cerevisiae. 121095
Properties and fiber length of pulp. II. Chemical reactivity of homogeneous and *heterogeneous* **reactions.** 119786
Heterogeneity of **soluble** proteins from the cytoplasm in leaves of wintering plants [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Heterogeneity and **specificity** of non-histone nuclear phosphoproteins [Rats, chickens, mice]. 117635

HETEROGONY
Pollen dimorphism and *heterostyly* in the **genus** Waltheria L. (Sterculiaceae). 120509

HETEROGRAFT
An examination of graft alteration and recipient response to processed mare cortical **bone** *xenografting* [Surgery]. 118485

HETEROLOGY
Light-induced enzyme synthesis in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a *heterologous* **cell-free** system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
Reverse plaque formation by hog cholera virus of the GPEstrain **inducing** *heterologous* interference. 118765
Detection of beta 2-microglobulin in sera from diverse vertebrate species by the use of a *heterologous* **radioimmunoassay** [Goats, immunology]. 118938
Messenger RNA translation in the presence of homologous and *heterologous* **tRNA** [prepared from oviduct or liver of laying hens]. 117664

HETEROMETRUS
Concentration of glycoproteins in the tissue of the **scorpion** *Heterometrus* scaber (Thor.). 123969
Free amino acids & proteins of the haemolymph, Hepatopancreas & muscle of the **scorpion** *Heterometrus* scaber (Thor.). 123971

HETERONYCHUS
A chemical basis for plant [lucerne, Lotus pedunculatus] resistance to grass grub [Costelytra zealandica] and black beetle *[Heteronychus* **arator**] larvae (Coleoptera: Scarabaeidae). 123335

HETEROPEZA
Microtubules and control of insect egg shape [of the gall **midge** *Heteropeza* and the cockroach Periplaneta]. 124021
Effect of synergized allethrin on *Heteropeza* **pygmaea** larva and mycelial growth of Agaricus bisporus [mushroom] in vitro. 123411

HETEROPTERA
The genus Elatophilus Reuter in North America with descriptions of two new species [Elatophilus minutus, Elatophilus antennatus] *(Heteroptera:* **Anthocoridae**). 124274
Chemical protection of alfalfa seed stands against **bugs** *[Heteroptera].* 123323
Altitudinal zonation of the invertebrate fauna *[Heteroptera,* **Cicadidae,** Coleoptera, Araneida] on branches of birch (Betula pubescens Ehrh.). 124361
The mesothoracic tympanic organ of Corixa punctata Ill. *(Heteroptera,* **Corixidae**). 124032
More records of butterflies as prey for ambush bugs [Phymata **fasciata**] *(Heteroptera).* 124063
Diapause development in Aelia acuminata **females** *(Heteroptera).* 124166
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (**Hemiptera,** *Heteroptera).* 123251
A new species of Hermatobates [singaporensis] (**Hemiptera:** *Heteroptera).* 124392
Studies on the mating behavior of Lygaeus militaris Fabr. *(Heteroptera:* **Lygaeidae**). 124185
Notes on North American Nepidae (Hemiptera: *Heteroptera* [**Ranatra** montezuma, new taxa]. 124402
Records of insects taken at light traps in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: *Heteroptera)* in **relation** to rainfall. 123250
Development of Anthocoris sibiricus **Reuter** *(Heteroptera,* Anthocoridae) at constant and fluctuating temperatures with the green peach aphid Myzus persicae (Sulzer) as prey. 123427
Aphelocheirus aestivalis in **Switzerland** *(Heteroptera,* Cryptocerrata). 124335

HETEROSIS
Heterosis and combining **ability** in a diallel cross of chilli (Capsicum annum L.). 120762
Use of biochemical methods in studying the phenomenon of *heterosis* during **breeding** hybrid wheat. 121484
Heterosis from **crossing** two lines of Herefords [Beef cattle]. 118408
Cytophysiological manifestations of the *heterotic* **effect** [in plants and mice]. 120700
Forecasting the *heterotic* **effect** in seeds of agricultural plants by the method of thermal testing. 120704
Some biophysical displays and mechanisms of the *heterosis* **effect** in plants. 120712
Content of phosphorus compounds in winter wheat hybrids differing by the *heterotic* **effect.** 121474
Biophysical prerequisites of **forecasting** *heterosis* in agricultural plants. 120695
Study of physiological and biochemical features of tomato [varieties] in relation to the **forecasting** of *heterosis.* 121686
Combining ability of winter soft wheat varieties for the amount and quality of protein in relation to the creation of *heterotic* **hybrids.** 120697
Methodology of obtaining tetraploid forms of watermelon for the creation of *heterotic* **hybrids.** 120707
Genetic analysis of the **increased** *heterotic* ability of parthenogenetic males of silkworm [Bombyx mori], homozygous at all loci. 124507
Composition of chromatin in cellular nuclei and the modification of histones in **maize** *heterotic* hybrids. 120698
New biophysical approach to studying the phenomenon of *heterosis* [in **maize**]. 120708
Study of bioelectric potentials in relation to **maize** *heterosis.* 120714
Isoenzymatic spectra of peroxidase and nitratereductase from vegetative organs of **maize** *heterotic* hybrids and their parental forms. 121476
Peculiarities of the response of **maize** *heterotic* plants to ultraviolet radiation. 121477
Physiological and biochemical aspects of *heterosis* in **maize.** 121479
The role of heterotrophic nutrition and photosynthesis in the *heterosis* of **maize** hybrids. 121483
Heterosis for **maturing** patterns in Hereford, Angus and Shorthorn cattle. 118339
Structural and regulatory **mechanisms** of *heterosis.* 120713
Laboratory method of early diagnosis in selecting pairs for **obtaining** *heterotic* hybrids of alfalfa. 120706
Electrophysical methods in studying the *heterosis* **phenomenon** in agricultural plants. 120702
Peculiarities of protein metabolism in maize green leaf in **relation** to *heterosis.* 120809
Varietal differences in cabbage of the hydrogen-ion concentration isoelectric point of the pollen and stigma in **relation** to *heterosis.* 121687
Evolutional and genetic foundations of *heterosis* in **remote** hybridization and polyploidy [Wheat, rye, Triticale]. 120703
Biochemical features of **sunflower** *heterotic* hybrids. 120694
Variation of parental forms in the intensity of synthetic processes and *heterosis* in **tomatoes.** 120715
A study of combining ability and *heterosis* in **winter** rye [Czechoslovakia]. 120652

HETEROTERMES
Reaction of termites *[Heterotermes* **indicola**] to weak alternating magnetic fields. 124104

HETEROTHALLISM
Localization and partial characterization of a sex-specif enzyme in homothallic and *heterothallic* **Mucorales** [Mucor mucedo, Fungi]. 120911

HETEROTROPHY
Heterotrophic **nutrition** of the marine pennate diatom Nitzschia angularis var. affinis [Algae]. 121266
The role of *heterotrophic* **nutrition** and photosynthesis in the heterosis of maize hybrids. 121483

HEVEA
Control of South American leaf blight (Microcyclus ulei) of the rubber plant *[Hevea* **brasiliensis**] in Bahia. II. Cost/benefit ratio of aerial spraying of fungicides in the Itubera region, 1972/73. 115546
Rubber: *Hevea* **brasiliensis** (Euphorbiaceae). 122536
South American leaf blight of *Hevea* **brasiliensis:** spore dispersal of Microcyclus ulei. 122566
New technical concepts on the chemical control of South American leaf blight [Microcyclus ulei] of the rubber tree *[hevea* **brasiliensis**]. 122586
Control of South American leaf blight (Microcyclus ulei) of the rubber plant *[Hevea* **brasiliensis**] in Bahia. I. Aerial spraying of fungicides in the Itubera region. 122775
Nutritional and fertilizer requirements of rubber tree *[Hevea* **brasiliensis**] culture. 124960
Leaf spot disease of rubber *[Hevea]* **caused** by Curvularia pallescens Boedijn. 122604
Assessing susceptibility of *Hevea* **clones** to Microcyclus ulei. 122561

HEXACHLORIDE
Elimination of p,p-DDT, p,p-dichlorodipenyldichloroethylene, p,p-tetrachlorodiphenylethane and **gamma-bezene** *hexachloride* from water with aluminum sulfate coagulation. 125370

HEXACHLOROBENZENE
Method of **determining** *hexachlorobenzene,* pentachloronitrobenzene and pentachloroaniline residues in milks. 116031
Behavior of quintozene and *hexachlorobenzene* in the **soil** and its up take by plants. 123711

HEXAMITA
Hexamita **muris** infection in a mouse and European hamster breeding unit. 119065

HEXANE
Cottonseed colour fixed pigments. I. Selectivity of *hexane* **isomers.** 117153
The formation of cis-3-nonenal, trans-2-nonenal and *Hexanal* from **linoleic** acid hydroperoxide isomers by a hydroperoxide cleavage enzyme system in cucumber (Cucumis sativus) fruits. 121607

HEXAPLOIDS
Disturbances at meiosis in octoploid and *hexaploid* **Triticale** forms. 120640

HEXOSAMINE
Changes of *hexosamine* and **acetyl** contents during cultivation of extracellular galactosamine-containing polymer from Aspergillus parasiticus [Fungi]. 120855

HIBERNATION
Mass *hibernation* site for Nymphalis vau-album (Nymphalidae). 124062
The *hibernation* of the **spotted** cutworm, Amathes c-nigrum L. In Tokachi, Hokkaido. 124137

HIBISCUS
A successful technique for **grafting** *Hibiscus.* 122210
Ultrastructure and acid phosphatase in pedicel abscission of *hibiscus* **[rosa-sinensis].** 120405

HIERACIUM
Seed germination of *Hieracium* **pratense,** a successional perennial. 123067

HIGHLANDS
Birth and weaning weights of Herefords and crosses among the Hereford, *Highland,* and **Angus** breeds. 117621
Ranks and relationships in highland ponies and *highland* **cows.** 117956
Site index tables for shortleaf pine [Pinus echinata] in the **Ozark** *Highlands* of northern Arkansas and southern Missouri. 119549
Ranks and relationships in *highland* **ponies** and highland cows. 117956

HILLS
Evaluation of 'Grasslands Huia' and 'Grasslands Pitau' white clover (Trifolium repens L.) varieties on *hill* **country.** 122049
A contribution to the genesis and classification of Polish loess soils **(Lublin** *hill* country). 124861
Initial and residual responses to superphosphate by a legume (Macroptilium atropureum) on **nigrescent** *hill* soils in South West Viti Levu. 124995
Permanent **[pasture]** on the *hills.* 121902
The sitka spruce [Picea sitchensis] as a tree for *hill* **planting** and general afforestation. 3. (With plate.). 119586
Activity of *Hill* **reaction** and the ultrastructure of chloroplasts in maize hybrids and their initial forms. 121473
Effect of infection by arhar mosaic virus on the *Hill* **reaction** and primary productivity of pigeonpea (arhar) leaves. 122840
Results of a three-year cotton pest [Anthonomus grandis, Heliothis zea] management program in the *Hill* **Section** of Mississippi. 123287
Melliferous flora preceding and accompanying the black locust [Robinia] flowering in the **Torino** *Hill.* 119938

HINGES
Air flow through *hinged* **baffle** slotted inlets [Animal housing]. 124650

HIP
Functional recovery of *hip* **dysplasia** of dogs by pectinectomy with special regard to a resulting restoration of service of watchdogs. 119161
Innervation of the **equine** *hip* and stifle joint capsules. 117762
Changes in ascorbic acid content of developing **rose** *hips* [Rosa varieties]. 121728

HIPPOCASTANUM
Fragments of **Aesculus** *hippocastanum* L. Cotyledons grown in vitro; first results on starch and aescin behavior [in the callus]. 120460

HIRSUTELLA
Large-scale production of the fungal **pathogen** *Hirsutella* thompsonii in submerged culture and its formulation for application in the field [to control the citrus rust mite, Phyllocoptruta oleivora]. 123399

HISTAMINE
Histamine **determination** in fish flesh. 116039
Adenylate cyclase of the dog gastric mucosa: stimulation by *histamine* and **inhibition** by metiamide. 117866
Tuna flesh deterioration and *histamine* **levels.** 116044
Action of *histamine* and its **receptor** blockers on uterine circulation in sheep. 117893
Effects of antihistamines on the lung vascular response to *histamine* in **unanesthetized** sheep. Diphenhydramine prevention of pulmonary edema and increased permeability. 117805

HISTIDINE
The reaction of the *histidine* **residues** of [bovine and procine] luteinizing hormone with ethoxyformyl anhydride. 117603
Chemical modifications of *histidine* **residues** in cytoplasmic asparate aminotransferase from beef kidney. 117851

HISTOCHEMISTRY
Histochemical **characterization** of the monoamine-containing cells of the adenohypophysis in the Chinese quail. 117708
Histochemical **characterization** of the hemolymph proteins from the cocoons of Formica species by polyacrylamide electrophoresis. 123979
Comparative *histochemical* studies on avian liver. 4. Relationship of dietary preference of various representative birds with the fat and glycogen contents and distribution pattern of histochemically demonstrable lipids in their livers. 117872
Comparative *histochemical* studies on avian liver. 5. Relationships of dietary preferences with distribution patterns of lipase, esterase and beta-hydroxy-butyrate dehydrogenase in the livers of various representative birds. 117873
Morphological and *histochemical* **data** on the imaginal Malpighian tubules of Pieris brassicae (L.) (Lepidoptera). 123812
Comparative histochemical studies on avian liver. 4. Relationship of dietary preference of various representative birds with the fat and glycogen contents and distribution pattern of *histochemically* **demonstrable** lipids in their livers. 117872
Histochemistry of the **duodenal** glands of the cat and horse. 117518
Anatomical and **linden** *histochemical* study of the shoots of [Tilia] from ornamental plantings in Moscow. 120417
Histochemical **studies** on pigeon definitive feathers during post-hatching, induced and regenerative modes of development. IV. Succinate and malate dehydrogenases. 117874
Histochemical **studies** of the cardiac lipofuscin in the heart of men and dogs related to age. 117904
Histochemical **study** of allelopathic effect of cultivated plants [oats, rape, rye] on quackgrass [Agropyron repens]. 123084

HISTOCOMPATIBILITY
Chemical properties of two antigens controlled by the **major** *histocompatibility* complex of the chicken. 118785
Histocompatibility in **ruminants.** The production and evaluation of allo-antibodies for GL-A typing in goats. 118794

HISTOLOGY
Neuroendocrine control of moulting cycle in mealworms [Tenebrio molitor]: *histology* and **autoradiography** of cephalic components. 123580
Histological **changes** in chronic pyelonephritis [from a crossbred cow]. 118732
Comparative *histological* investigation of receptor structures in aortic wall of some vertebrate representatives [Includes chickens and rabbits]. 117689
Histological **examinations** of parasitized, Entomophthora-infected pea aphids, Acyrthosiphon pisum [Natural control]. 123420
Integument of Tenebrio molitor L. (Insecta; Coleoptera). I. *Histology* of **larval** integument. 123834
Experimental pathologic structures in the oak [Quercus] in relation to *histology* of **natural** tumors. 123031
Histological **observations** on the thyroid gonad relationship in male crossbred (New Hampshire x White Cornish) chicken. 117742
Changes of the *histological* **structure** of the endometrium of sows during the estrus cycle. 118400
Studies on methionine metabolism. 2. Biochemical and *histological* **studies** on rats [Diets]. 117995

HISTONES
Structural studies of chicken **erythrocyte** *histone* H5. 117668
Quantitative study of secondary structure of [calf thymus] *histones* H1, **H2A,** and H4 in solution by infrared spectroscopy. 117666
Changes in subfraction composition of chicken **lysine-rich** *histone* during ontogenesis. 117605
Composition of chromatin in cellular nuclei and the modification of *histones* in **maize** heterotic hybrids. 120698
Heterogeneity and specificity of *non-histone* **nuclear** phosphoproteins [Rats, chickens, mice]. 117635
Peculiarities of *histone* **synthesis** in meiosis and its relation to chromosome structure and behaviour [Lilium candidum]. 120591
Histone **synthesis** & transition during spermatogenesis in the mole cricket Gryllotalpa fossor Scudder. 123972
Histone **transition** during spermiogenesis is absent in segregation distorter males of Drosophila melanogaster. 124159

HISTOPATHOLOGY
Histopathological **changes** in natural and experimental Dermatophilus congolensis infection of the bovine skin. 118711
Histopathologic and **cytological** investigations, in guinea-pigs on cutaneous allergy. 119189
Histopathological **examinations** performed on sesamoid bones from cattle with purulent podotrochlitis. 119080

HISTORY
Aspects of the life and the activities of P. S. Aurelian *[History* of **agriculture].** 115189
A brief *history* of **Alabama's** forest products industry. 119645
We are because of them. XIII. [Apiculturists, **beekeeping** *history,* Europe]. 124496
The Prince family manuscript collection; a register of their papers in the National Agricultural Library [First commercial plant nursery in the United States, *history,* **bibliographies].** 119908
Germpool utilization: Gossypium, a **case** *history* [Cotton, breeding for disease resistance]. 120583
History of **dendrology** in Germany. 119303
History of the **development** of the Institute of Dendrology of the Polish Academy of Sciences. 119943
Early *history* of the plant protein industry [Soybeans]. 117090
A *history* of **fencing.** 124641
History of **fermentation.** 116663
Food safety—then and now *[History,* **food** adulteration]. 116181
The human aspects of **forest** *history.* 119302
Community and authority response to the Saginaw Valley lumber strike of 1885 [Michigan, **forest** *history].* 119353
The forest reserve controversy: Colorado under Cleveland and McKinley **[Forest** *history].* 119354
Trails in **forest** *history.* 119355
The Agricultural Institute of San **Isidro** *[History].* 115126
The twentieth anniversary of the International Society of Biometeorology, 1 January 1956-1 **January** 1976 *[History].* 115176
The morphology and **life** *history* of Acrochaetium dasyae Collins (Rhodophyta, Nemaliales). 120403
A cone weevil, Conotrachelus neomexicanus, on ponderosa pine [Pinus ponderosa] in Colorado: **life** *history,* habits, and ecological relationships (Coleoptera: Curculionidae). 123451
Life *history* of the ragweed plume moth, Adaina ambrosiae (murtfeldt), in Southern California (Lepidoptera: Pterophoridae). 124120
Life *history* and laboratory rearing of Brochymena quadripustulata [on black walnut Juglans nigra] with descriptions of immature stages and additional notes on Brochymena arborea (Hemiptera: Pentatomidae). 124215
The California poppy [Eschscholzia californica]—**natural** *history.* 120239
Ecology and **natural** *history* of Iridaea cordata (Rhodophyta: Gigartinaceae) [Algae]: population structure. 121204
African stations of spiders of the genera Nephila Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of **Natural** *History* [New taxa]. 124251
Results of the studies of some Nepticulidae types from the collection of the National Museum of **Natural** *History,* Paris (Lepidoptera, Nepticulidae) [New taxa]. 124259
The mission of entomological exploration of the Museum of **natural** *History* in French Guiana: Sphingidae (Lepidoptera). 124270
F. Kolpin Ravn, 1873-1920. A contribution to the *history* of **plant** pathology in Denmark in the first two decades on the twentieth century. 122577
Contributions to the *history* of **plant** pathology in South America, Central America, and Mexico. 122895
Timber marketing by the Northern Pacific **Railway,** 1920-1952 *[History].* 119724
Swine dysentery: *history,* **recent** discoveries and new concepts. 118888
A **recent** *history* of orchids in Australia. 122191
Entomology and the State Agricultural Experiment **Stations** *[History].* 123959
One hundred years for forestry in Slovenia *[History,* **statistics].** 119453
100 years with the brewing trade. **Troubled** *history* of the Scientific Brewing Station in Munich. 116683
Late Quaternary **vegetation** *history* of the Yellowstone Lake Basin, Wyoming. 120242
Vegetation *history* studies in the Thur Alps and Fanin area (Appenzell canton, St. Gallen, Graubunden, Switzerland) [Pollen analysis]. 120324
The late-Quaternary **vegetational** *history* of the western interior of Canada [Paleobotany]. 120001
The Quaternary **vegetational** *history* of the French Pays Basque. II. Plant macrofossils and additional pollen-analytical data. 120230
The **vegetational** *history* of parts of south and east Durham. 120231
Great Plains **windbreak** *history:* an overview. 119383

HIVES
Productive honeybee colonies belong in **multiple-story** *hives.* 124502
The utility of an **observation** *hive* for professsional and amateur beekeepers. 124528

HOBBIES
Building *hobby* greenhouses. 124606
Spraying is not a *hobby* **(Septoria** control) [Wheat]. 122695
Harvesting a *hobby* **[Timber** stand improvement, Pinus]. 119637

HOEING
HOE-23408 for **grassy** weed control in small grains. 123134
Effects of the *hoeing* **period** upon the productive behaviour of durum wheat cultivated at different spacings. 122120

HOGGETS *see* SHEEP

HOLOCENE
The flora of the *Holocene* **peat** bogs of Kanevshchina. 120241
A late Pleistocene and *Holocene* **pollen** diagram from Lynch's Crater, northeastern Queensland, Australia. 120229
Observations on *Holocene* **soil** formation and morphodynamic activity in non-calcareous regions of the Iberian peninsula. 124788

HOLSTEIN *see* CATTLE

HOMARUS
Dietary lipid requirements of adult lobsters, *Homarus* **americanus** (M.e.). 118101

HOME
Pollution control **begins** at *home*. 125430
A chest harness and pole-leash for routine transfer of rhesus monkeys from *home* **cage** to behavioral test apparatus and back. 117463
Menace to *home* **canners** [Clostridium botulinum]. 116016
Home **canning** of fruits and vegetables. 116342
Energy management **checklist** for the *home*. 116575
How to spend more sense than dollars on foil art *[Home* **decorations].** 116579
Success in student teaching of *home* **economics** as related to selected factors. 116588
A historical study on "*home* **economics** and homemaking education" of Japan. 116592
Studies on the principles of *home* **economics:** methodology and thought of home economics. 116601
Landscaping **farm** *home* grounds. 122097
Business and industrial loans (B&I) **[Farmers** *Home* Administration, a rural credit agency]. 115529
On the usefulness of the *home* **flour** mill. 117159
Home **fruit** [insect] spray guide for small fruits. 123380
Potatoes for the *home* **garden.** 122288
Using pesticides in the *home* **garden.** 123696
Buying a *home* **grain** mill. 117158
[Home] **management** is the key [4-H club]. 116584
Reactions of the school board on the **parental** *home* [Lunch]. 116319
Small electrical **repairs** in the *home*. 116574
Buy-in or *home-mix?* **Swine** feed]. 117371

HOMEMAKERS
Keeping food safe to eat: a guide for *homemakers* **[Contamination].** 116068
Development of a nutrition education **program** for *homemakers*. 116449

HOMEOWNERS
Comparison of property tax circuit-breakers applied to **farmers** and *homeowners*. 115515

HOMOBASIDIOMYCETES
A **new** *Homobasidiomycete* with anomalous basidia [Chionsphaera apobasidialis, new taxa]. 120202

HOMOCYSTEINE
S-adenosylmethionine:homocysteine **methyltransferase** as a regulatory enzyme in embryos of Musca domestica. 123913

HOMOGENEITY
Preparation of soils for sugarbeets. Research on the *homogeneity* of the **cultural** profile, preparation in flat tillage. 125106
Properties and fiber length of pulp. II. Chemical reactivity of *homogeneous* and **heterogeneous** reactions. 119786

HOMOGENIZATION
Grinding, very fine grinding, *homogenization* and **emulsification** of [food] products. 116718

HOMOGRAFTS
Use of a **corneoscleral** *homograft* to treat proliferative episcleritis in the dog. 119222

HOMOLOGY
Messenger RNA translation in the presence of *homologous* and **heterologous** tRNA [prepared from oviduct or liver of laying hens]. 117664
A study of nucleotide **sequence** *homology* between strains of tobacco mosaic virus. 122873

HOMOPTERA
Fecundity and oviposition period of Aphidius platensis Brethes (Hymenoptera, Aphidiidae) parasitizing Myzus persicae Sulz. *(Homoptera,* **Aphididae)** on paprika [Biological control]. 123255
Identification of nymphal instars of Aphis craccivora Koch. **(Aphididae,** *Homoptera).* 124154
Supplement to the aphid fauna of Switzerland. II. *(Homoptera,* **Aphididae).** 124349
Aphidiidae (Hymenoptera) and **aphids** *(Homoptera)* of Corsica. I. Aphidiidae [New taxa]. 124221
Jumping plant lice of the tribe **Ciriacremini** *(Homoptera:* Psylloidea) in the Ethiopian region [New taxa]. 124247
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, *Homoptera)* and **Corixidae** (Hemiptera, Heteroptera). 123251
Trioza chrysanthemi **Law** *(Homoptera,* Psyllidae) new to Norway. 124384
The genus Thuris Funkhouser, 1943, with a description of a new species [Thuris depressus] *(Homoptera,* **Membracidae)** [Brazil]. 124422
A cottony cushion scale [Pulvinaria elongata] of sugarcane newly introduced in **Morocco** *(Homoptera,* Coccoidea, Coccidae). 123351
Contribution to new systematics presented by the example of two Javesella [azorica, Javesella pellucida] **species** *(Homoptera,* Cicadina, Delphacidae). 124477
Decorosiphon corynothrix Borner, an aphid species new to the fauna of **Switzerland** *(Homoptera,* Aphidoidea). 124338
Further notes on the aphid fauna of Sao **Tome** *(Homoptera,* Aphidoidea). 124201
Biology and presocial behavior of Platycotis **vittata** *(Homoptera:* Membracidae). 123797

HOMOSERINE
Homoserine **kinase** from barley seedlings. 121541

HOMOTHALLISM
Localization and partial characterization of a sex-specif enzyme in *homothallic* and **heterothallic** Mucorales [Mucor mucedo, Fungi]. 120911

HOMOZYGOTES
Genetic analysis of the increased heterotic ability of parthenogenetic males of silkworm [Bombyx mori], *homozygous* at all **loci.** 124507

HONEY
Effect of *honey* **bee** saturation on the pollination of Chinese gooseberries variety 'Hayward'. 121738
The effective information contents of the dance of the *honey* **bee** [Apis mellifera]. 124511
The waggle dance of the *honey* **bee** [Apis mellifera]; a new formulation. 124512
Polarized light orientation of the *honey* **bee:** the minimum visual angle. 124539
The influence of pre-training on the learning process of the *honey* **bee** [Apis mellifica carnica, Apis mellifica ligustica]. 124540
Development in *honey* **bee** [Apis mellifera] rearing [Artifical insemination]. 124542
Feeding *[honey]* **bees**—individually. 124483
Body temperature and flight performance of *honey* **bees** [Apis mellifera ligustica] in a servo-mechanically controlled wind tunnel. 124538
Variability of natural strains of muscardine fungi [Beauveria, Paecilomyces, pathogens of a pyralidid moth, pest of *honey* **bees,** biological control]. 124543
Observations on the seasonal incidence of external mites Acarapis spp. on *honey* **bees.** 124544
Honey from the **Chinese** deserts. 124500
Fundamentals of apiculture **concerning** *honey* chambers. 124569
Something on the **evaluation** of *honey*. 116235
Melliferous **flora** preceding and accompanying the black locust [Robinia] flowering in the Torino Hill. 119938
Development of **hybrid** *honey* bees. 124551
Remarks on **medicinal** *melliferous* plants grown in Piedmont for liquor. 122514
Honey in **medicine** [Includes nutritional aspects]. 116490
Does the future of German apiculture really lie in the *honey* **pail?** 124534
Nectariferous flora *[Honey* **plants].** 122513
Honeybee pasture. 4. *[Honey* **plants].** 122516
The nectar-secreting hedge [Symphoricarpos, *honey* **plants].** 122521
About Phacelia tanacetifolia *[Honey* **plants].** 122543
The Brittany honeybee: the flora and the environment *[Honey* **plants].** 122544
Honey and **pollen** plants of N.S.W. [New South Wales]. 17. 122515
The 1975 red clover flow *[Honey* **production].** 124519
Honey and its **properties.** 116827
Production of **section** *honey*. 124577
Production of **section** *honey*. 124578
A **super** *honey* heater [Beekeeping equipment]. 124531
I'll take *honey,* **thank** you [Nutritive value]. 116530
The **world** *honey* market. 115675

HONEYBEES *see* BEES

HONEYDEW
Improvement of apiculture through planned exploitation of forest pasture *[Honeydew* **flow].** 124548
Some rules in forecasting fir *[honeydew]* **flow** [Apiculture]. 124582
There are also beekeepers who, to use the forest *[honeydew]* **flow,** should know the natural phenomena which prevail in the forest. 124587
Transporation organized to the fir *[honeydew]* **flow** [Migratory apiculture]. 124588
Contribution to black or *honeydew* **paralysis** [Apis mellifera]. 124521

HOOF
Care of *hoof* of **cattle** and sheep. 117511

HOOKERIA
Hookeria **lucens** [Musci, taxonomy, phytogeography, morphology]. 120196

HOOKWORMS
Morphological studies of *hookworms* **infecting** man and dog at Patna, Bihar [Ancylostoma duodenale, Ancylostoma caninum]. 118747

HOPPERS
Bulk **storage** *hoppers* [for swine feed]. 124637

HOPS
Effects of paraquat and dinoseb [herbicides] in *hops* [to **control** Amaranthus retroflexus, Echinochloa crusgalli]. 123207
Noncutting and minimum cultivation in *hops* **culture** of the German Democratic Republic. 122524
Expenditure of fertilizers and limits of its profitableness in *hops* **culture** according to results of soil analyses and surveys in the Hallertau growing area. 124998
Cultural measures against excessive copper contents in the soil of a *hops* **garden** left open [Toxicity of economic poisons]. 122935
Hallertau *hops* culture—retrospect and prospects [Economic aspects, marketing]. 115676
Market stabilization action: producers association and trade take over the entire remaining amount of *hops* in **Hallertau.** 115678
Materials for suspending hops: investigations on the possibility of using plastic materials for **hanging** *hops.* 124681
Hops: **Humulus** lupulus (Moraceae). 122530
A technique for the differential isolation of hop mosaic virus and *hop* **latent** virus. 122827
Hops **marketing** regulation of the European Economic Community; report of the Commission to the Council on the state of hops production and marketing of the 1974 harvest. 115677
A technique for the differential isolation of *hop* **mosaic** virus and hop latent virus. 122827
Influence of reduced spray amounts in the separate methods of application on the quantity and quality of the layer of spray on *hops* **[Plant** protection, equipment]. 122936
Hops marketing regulation of the European Economic Community; report of the Commission to the Council on the state of *hops* **production** and marketing of the 1974 harvest. 115677
World wide *hop* **production.** 1. 122547
From the 1974 annual report of the Bavarian Institute and German Association of *Hops* **Research.** 2. [Drying]. 116752
Annual report for 1975 of the Bavarian Institute for Soil Culture and Crop Cultivation and the German Association for *Hops* **Research.** 1. 122324
Annual report for 1975 of the Bavarian Institute for Soil Culture and Crop Cultivation and the German Association for *Hops* **Research.** 3. [Culture, breeding]. 122522
From the 1974 annual report of the Bavarian Institute and German Association of *Hops* **Research.** 122523
Annual report for 1975 of the Bavarian Institute for Soil Culture and Crop Cultivation and the German Association for *Hops* **Research.** 2. [Plant protection]. 122934
Guided fertilizer application to **separate** *hops* varieties. 125119
Materials for **suspending** *hops:* investigations on the possibility of using plastic materials for hanging hops. 124681
Too much *hops* **throughout** the world [Prices, trade]. 115679

HORDEUM
Barley: *Hordeum* **vulgare** (Gramineae-Triticinae). 121940

HORMONES
Precocious development of UDP [uridine diphosphate]-glucuronyltransferase activity in chick-embryo liver after administration of **adrenocorticotropic** *hormone* and of certain 11beta-hydroxy corticosteroids. 117584
Cortisol concentration in the blood plasma of newborn piglets and after **adrenocorticotropic** *hormone* loading. 117656
Assessment of effect of starvation, glucose, fatty acids and *hormones* on **alpha-decarboxylation** of leucine in skeletal muscle of rat. 116420
Kidney development in newborn lambs: response to water load and **antidiuretic** *hormone* (ADH). 117941
Hormonal **bioassay** of French prune (Prunus domestica L.) seed and pericarp. 121707
Environmental and *hormonal* **control** of turion germination in Myriophyllum verticillatum. 120864
Environmental and *hormonal* **control** of turion formation in Myriophyllum verticillatum. 121319
The imaginal integumental differentiation in Schistocerca gregaria Forsk. III. Phase polymorphism and its *hormonal* **control.** 124005
Neural and *hormonal* **determinants** of sex differences in food intake and body weight [Rats]. 116365
The rough fruit condition [peel disorder] of the Shamouti orange—connections with the **endogenous** *hormonal* balance. 122977
Postprandial glucose, insulin, free fatty acid and **growth** *hormone* responses in [Peruvian mestizo] children consuming all the day's protein in one meal. 116289
Postprandial glucose, insulin, free fatty acid and **growth** *hormone* responses in children consuming all the day's protein in one meal. 116293
Improvement of **growth** *hormone* response to stmulation in primary aldosteronism with correction of potassium deficiency. 116482

Effect of starvation on pituitary **growth** *hormone* cells and blood growth hormone and prolactin levels in the rat. 116495
Pituitary-testicular responses in rams to prolonged infusions of luteinizing **hormone-releasing** *hormone* (LHRH). 118226
Plasma LH [luteinizing hormone] response to LH-RH [luteinizing **hormone-releasing** *hormone]* injection in immature intact, castrated and cyproterone-treated male rats. 118356
Effects of **juvenile** *hormone* analogues on caste differentiation in the imported fire ant, Solenopsis invicta. 123246
Juvenile *hormone* effects on the prepupal and pupal stages of the tobacco cutworm, Spodoptera litura Fabricius (Noctuidae: Lepidoptera). 123301
Feeding effect of **juvenile** *hormone* analogud, ZR 619-5 E, on the epilachna beetle, Epilachna vigintioctopunctata Fabricius [Eggplant pests]. 123390
A carrier protein for **juvenile** *hormone* in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
Juvenile *hormone* action on the intermediary metabolism in Indian meal moth [Plodia interpunctella] larvae. 123543
Activity of the C-18 Hyalophora cecropia synthetic **juvenile** *hormone* in Locusta migratoria, with special reference to the age of the solutions. 123846
Influence of a **juvenile** *hormone* analogue on metamorphosis and reproduction in the cricket, Plebeiogryllus guttiventris Walker. 123868
Effect of a **juvenile** *hormone* analogue on the development of a parasitic insect, Pales pavida (Diptera: Tachinidae). 123903
A genetic approach to the study of **juvenile** *hormone* control of vitellogenesis in Drosophila melanogaster. 123930
Action of **juvenile** *hormone* on imaginal discs of the Indian meal moth [Plodia interpunctella]. 123931
Competitive binding protein assay for **juvenile** *hormone* [Manduca sexta]. 123934
Continuous monitoring of **juvenile** *hormone* release by superfused corpora allata of Periplaneta americana. 123935
Determination of the physiological levels of **juvenile** *hormones* in several insects and biosynthesis of the carbon skeletons of the juvenile hormones. 123936
Ecdysone deficiency in **juvenile** *hormone* treated larvae of the German cockroach, Blattella germanica (L.). 123938
Enzymatic synthesis of **juvenile** *hormone* in Manduca sexta. 123939
Farnesenic acid stimulation of **juvenile** *hormone* biosynthesis as an experimental probe in corpus allatum physiology [Schistocerca gregaria]. 123940
Interaction of **juvenile** *hormone* with binding proteins in insect hemolymph [Manduca sexta, Hyloicus chersis]. 123942
Isolation and identification of **juvenile** *hormones* by means of a radioactive isotope dilution method: evidence for JH iII in eight [insect] species from four orders. 123943
Juvenile *hormone* in retrospect and in prospect [Insects]. 123944
Juvenile *hormone* control of epidermal commitment in vivo and in vitro [Manduca sexta]. 123945
Juvenile *hormone* induced biosynthesis of vitellogenin in Leucophaea maderae from large precursor polypeptides. 123946
Juvenile *hormone* control of vitellogenin synthesis in Locusta migratoria. 123947
On the identity of the **juvenile** *hormone* in insects. 123948
Relationship between DNA synthesis, **juvenile** *hormone* and metamorphosis in Galleria larvae. 123950
Structure activity relationships in some **juvenile** *hormone* analogs [Galleria mellonella, Tenebrio molitor]. 123951
The antagonism between **juvenile** *hormone* and ecdysone [Its role in insect development]. 123952
The binding of **juvenile** *hormone* to larval epidermis: influence of carrier protein from the hemolymph of Plodia interpunctella. 123953
The binding protein as a modulator of **juvenile** *hormone* stability and uptake [Manduca sexta]. 123954
The effects of **juvenile** *hormone* on imaginal discs of Drosophila in vitro: the role of the inhibition of protein synthesis. 123956
The interaction of **juvenile** *hormone* and ecdysone: antagonistic, synergistic, or permissive? [Hyalophora cecropia, Oncopeltus fasciatus]. 123957
The role of **juvenile** *hormone* in diapause and phase variation in some lepidopterous insects. 123958
Identification of a **juvenile** *hormone* from Musca domestica. 123980
Purification and characterization of the carrier protein for **juvenile** *hormone* from the hemolymph of the tobacco hornworm Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018
Recurrent stereospecific synthesis of structures related to those of Hyalophora cecropia **juvenile** *hormone*. 124163
The reaction of the histidine residues of [bovine and procine] **luteinizing** *hormone* with ethoxyformyl anhydride. 117603
Effects of follicle stimulating hormone and **luteinizing** *hormone* on the incorporation of 32P [phosphorus isotope] into the testis of the immature Japanese quail. 117697
Pituitary-testicular responses in rams to prolonged infusions of **luteinizing** *hormone-releasing* hormone (LHRH). 118226
Seasonal Profiles of plasma **luteinizing** *hormone*, testosterone and estradiol in the ram. 118257
Changes in the secretion of ovarian steroids and pituitary **luteinizing** *hormone* in the periovulatory period in the ewe: the effect of progesterone. 118341
Plasma LH **[luteinizing** *hormone]* response to LH-RH [luteinizing hormone-releasing hormone] injection in immature intact, castrated and cyproterone-treated male rats. 118356
Hormonal **methods** for raising the conception rate in swine. 118417
Morphological effects and metabolism of the **molting** *hormone* in Aedes aegypti cultured cells. 123983
Molting *hormone* titer changes and their significance during development of the Colorado beetle, Leptinotarsa decemlineata. 124047
A radioimmunoassay for bovine **parathyroid** *hormone*. 117832
Reflections on the mode of action of **plant** *hormones*. 120950
Advances in **plant** *hormones* [Horticultural crops]. 121626
Progesterone-binding components of chick oviduct: in vitro effects of **purified** *hormone-receptor* complexes on the initiation of RNA synthesis in chromatin. 117789
Hormones and the **responses** of tomato plants to waterlogged soil. 121598
Hormone-like **role** of H-Y antigen in bovine freemartin gonad. 118852
Response of the prostatic complex of protein deficient rats to **sex** *hormones*. 118336
Mechanism of **steroid** *hormone* action: in vitro control of gene expression in chick oviduct chromatin by purified steroid receptor complexes. 117712
Induction of specific proteins in hyphae of Achlya ambisexualis by the **steroid** *hormone* antheridiol [Fungi]. 121296
Demonstration of follicle **stimulating** *hormone* (FSH) activity in hypophyseal extracts of various vertebrates by the response of the Sertoli cells of the chick. 117696
Effects of follicle **stimulating** *hormone* and luteinizing hormone on the incorporation of 32P [phosphorus isotope] into the testis of the immature Japanese quail. 117697
Synergism and antagonism of *hormones* with **stimulation** of metabolism. 117863
The experiment: *hormonal* **studies** on the blowfly [Calliphora]. 123830
Hormonal **studies** of uridine utilization in an insect cell line CP-1268 derived from the codling moth Laspeyresia pomonella. 123967
On the subject of damages to vineyards caused by **synthetized** *hormones* destined for weeding large culture crops [Rice]. 123175
Prolactin-releasing factor (PRF) in porcine hypothalamic extract distinct from TRH **[thyrotropin-releasing** *hormone].* 118256

HORNBEAM
Bark of *hornbeam* and **beech** from dendrometric point of view. 119533
Natural regeneration and development of English oak (Quercus robur L.) and **common** *hornbeam* (Carpinus betulus L.) in the Krakovo virgin forest preserve. 119595

HORNS
Experimental rabies in a great *horned* **owl.** 118811

HORNWORMS
Spectral characterization of microrome P-450 from the midgut of the **tobacco** *hornworm,* Manduca sexta J. 123988
Purification and characterization of the carrier protein for juvenile hormone from the hemolymph of the **tobacco** *hornworm* Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018

HORNWORT
Electron microscope observations on the sporogenesis in the *hornwort,* **Anthoceros** punctatus L. [Hepaticae]. 120489

HORSES
In vivo growth and development of *equine* **adenovirus** in the lung of Arabian horse. 118889
The **African** *horse-sickness*. 118695
Selective scar revision & elective incision techniques applicable to the legs of *horses*. 3. **Application** of combined fusiform excision and W-plasty surgical techniques in scar revision on the upper hind legs. 118579
Horse breeding in Israel with particular reference to breeding the **Arab** *horse*. 118331
In vivo growth and development of equine adenovirus in the lung of **Arabian** *horse*. 118889
The structural proteins of *equine* **arteritis** virus. 119042
Horse **barn** & arena. 124627
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, *horse* **bean** meal, fish meal, maize gluten and waste liq. 117990
The applicability of the chromogen method for determining the apparent digestibility of dry matter in 1/2 Breton blood and 1/2 *Thoroughbred* **blood** mares. 117910
Sagittal fracture of the third carpal **bone** in a *horse*. 119253
Horse **breeding** in Israel with particular reference to breeding the Arab horse. 118331
Investigations of transferrins, albumins, prealbumins and esterase in blood serum of some **breeds** of *horses*. 117701
The autonomic and sensitive innervation of the choledocus in Equus **caballus** *[Horses].* 117618
Histochemistry of the duodenal glands of the **cat** and *horse*. 117518
Glucose metabolism of mammalian erythrocytes [Dogs, **cats,** *horses].* 117803
Feeding grass straws to **cattle** and *horses*. 118060
The pregnancy protecting effect of progesterone against human chorionic gonadotrophin **challenge** in *mares*. 118330
Tetanus [Clostridium tetani] in the *horse*. **Clinical** course, prognosis, and prophylaxis [Bacterial infections]. 118682
Artificial insemination in *horses*—**conference** report. 118411
Measures to prevent and **control** *equine* brucellosis. 118832
A comparison of *horse,* **cow,** and sheep blood in NYC medium: effect on recovery of Neisseria gonorrhoeae and urogenital mycoplasmas. 117702
Septic thrombosis in a *foal* **[Damage** from migrating larvae of Strongylus vulgaris]. 119056
A new concept of normal values [Blood as a means of diagnosing **diseases** in *horses].* 118495
The best weapon against EIA [Equine infectious anemia, viral **diseases** of *horses].* 118592
Clinicopathologic alterations in normal and exhausted **endurance** *horses*. 119196
Stomach capacity of **English** *Thoroughbred* horses [Anatomy]. 117908
Oestrogen injection test for early pregnancy diagnosis in *mares* **[Estrus].** 118250
A method of monitoring heart rate response in the **exercising** *horse*. 117937
Horse **feeding** and nutrition. 118175
Study on the thyroid function of *Thoroughbred* **females** in varying stages of pregnancy, using "in vitro" tests 125I-T3 and 125I-T4 [Iodine isotope, horses]. 118392
Species hybrids within the Equus **genus** *[Horses].* 118424
Clinical use of Osteum in the *horse* [when **handling** skeletal injuries]. 119288
Reference values of blood coagulation of **healthy** *horses*. 117915
Assessment of pevalence of antitoxoplasma antibodies in clinically **healthy** *horses* [Toxoplasma]. 118907
Ranks and relationships in **highland** *ponies* and highland cows. 117956
Innervation of the *equine* **hip** and stifle joint capsules. 117762
Study on the thyroid function of *Thoroughbred* **horses** by means of "in vitro" 125I-T3 modified and 125I-T4 tests [iodine isotope]. 117909
Toxoplasmosis in *Thoroughbred* **horses:** serological study. 118913
Actinobacillus equuli **infections** in *foals*. 118948
The best weapon against EIA *[Equine* **infectious** anemia, viral diseases of horses]. 118592
Equine **infectious** anemia [Viral diseases]. 118681
Hemagglutination by *equine* **infectious** anemia virus. 118761
Equine **infectious** anemia virus: evidence favoring classification as a retravirus. 118802
Apparent propagation of the *equine* **infectious** anemia virus in a mosquito (Culex pipiens quinquefasciatus Say) orvarian cell line. 123597
The use of Orgotein in the treatment of soft tissue **injuries** of the *horse*. 119247
Pelodera strongyloides dermatitis in a *horse* in **Iowa.** 119055
Further observations on the hematology and clinical biochemistry of the **Irish** *Thoroughbred* horse. 117940
Study on the thyroid function of Thoroughbred females in varying stages of pregnancy, using "in vitro" tests 125I-T3 and 125I-T4 [Iodine **isotope,** *horses].* 118392
Intra-articular chip fracture or osteochondrosis dissecans of the fetlock **joint** of *horse*. 119265
Subcellular localization of the F1 and F2 isozymes of *horse* **liver** aldehyde dehydrogenase. 117572
A case of **melanoma** in a *horse*. 119191
Morphological and antigenic relationships between viruses (rotaviruses) from acute **gastroenteritis** of children, calves, piglets, **mice,** and *foals*. 118763
Suitability of serum of pregnant **Mongolian** *mares* to improve fertility of autochthonous cattle. 118374
The fine structure of the *equine* **motor** cortex. 117556
Origin and characteristic of bulls originators of **new** *stud* lines from the Estonian Black Pied breed. 118402
Granulomatous enteritis in **nine** *horses*. 119132
Quantitative determination of **normal** *horse,* cat, and dog haptoglobins. 117942
The role of mixed-supplemented feeds in *horse* **nutrition.** 118185
Observations on [sanitary] problems associated with transport of *horses* from **overseas.** 118438
Human chorionic gonadotropin for controlling **ovulation** in *mares*. 118380
Diagnosis and surgical treatment of cystlike lesions of the *equine* **paranasal** sinuses. 119128
Intrathoracic surgery in the *horse* with a **pictorial** guide to partial lobectomy. 118578
Comparative studies of human, *equine,* **porcine** and bovine erythrocyte membrane sialoglycoproteins. 117634
Diseases of the guttural **pouch** *[Horses].* 118496
Testis metabolism in protein deficiency: effect of PMS **[pregnant** *mare* serum] gonadotrophin and testosterone propionate [Rats]. 117766
Superovulation in the cow using **pregnant** *mare's* serum gonadotropin prostaglandin F2alpha. 118423
Pharmacology of procaine in the *horse:* a **preliminary** report. 118427
Investigations of swabs from prepuce and from nose of *horses* for **presence** of bacteria like Klebsiella. III. Serological investigations on klebsiella strains. 118649

Investigations of swabs from prepuce and from nose of *horses* for **presence** of bacteria like Klebsiella. II. Morphological and biochemical investigations on klebskella strains. 118650
Evaluation of transtracheal aspiration in the *horse* [used **principally** for bacterial isolation]. 118782
An examination of graft alteration and recipient response to **processed** *mare* cortical bone xenografting [Surgery]. 118485
Ear mites **[Psoroptes]** in a *horse.* 123639
Titration behavior of individual tyrosine residues of myoblogins from sperm whale, *horse,* and **red** kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798
Reducing *horse* feeding costs. 115491
Pathogenic agents of *horse* **ringworms.** 119028
Foetal autonomy [in *horses* and **ruminants**]. 117914
Listeriosis in a herd of **saddle** *horses.* 118651
Sabin-Feldman and indirect flourescent antibody tests for detecting antibodies of Toxoplasma gondii in *horse* **sera.** 118910
Original observation on prolans in the **serum** of *mares.* 118393
Utilization of proteins by the *equine* **species** [Feeding]. 117969
Survival of infectious larvae of *horse* **strongylid** nematodes in pasture grass; a preliminary field study. 118956
Diurnal variations of plasma **testosterone** in *stallions.* 118225
Stomach capacity of English **Thoroughbred** *horses* [Anatomy]. 117908
Study on the thyroid function of **Thoroughbred** *horses* by means of "in vitro" 125I-T3 modified and 125I-T4 tests [iodine isotope]. 117909
Further observations on the hematology and clinical biochemistry of the Irish **Thoroughbred** *horse.* 117940
Toxoplasmosis in **Thoroughbred** *horses:* serological study. 118913
Osteoma in the maxillary sinus of a yearling **Thoroughbred** *colt.* 119102
Electrostimulation in the cervix uteri in the *mare;* contribution to the **treatment** of functional disturbances of the ovaries. 118425
A rare case of maduromycosis [Monosporium apiospermum] of the *equine* **uterus.** 119044
SEM [scanning electron microscopy] of vesicular stomatitis virus infection in cell cultures grown on aluminum foil **[Venezuelan** *equine* encephalomyelitis virus]. 118726
Osteoma in the maxillary sinus of a **yearling** *Thoroughbred* colt. 119102
Vitamin D in the diet of *thoroughbred* **yearlings.** 118082

HORTICULTURE

American *Horticultural* Society Plant Records Center [Data bank of cultivated ornamentals]. 12003
Alexandre-Paul Kristof, professor of parasitology at the *Horticultural* **Center** of Lullier. 123032
Empirical measures of risk for selected field and *horticultural* **crops** [Farm planning]. 115450
Advances in plant hormones *[Horticultural* **crops].** 121626
Studies on the natural pigment of *horticultural* **crops.** 3. Some properties of natural yellow color in Curcuma [longa] rhizome and its application. 121724
Studies on the fertilization and cultivation of *horticultural* **crops** under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of nutrient solutions on the trace element nutrition of tomato and cucumber. 122981
Control of nutsedge [Cyperus esculentus] in *horticultural* **crops.** 123117
An employee's view of **current** *horticultural* practices in Europe. 122213
Horticultural **development** of Australian plants. 122228
Horticultural **education** [in the United States]—Does it fall short of the mark? 122229
Soil map of **government** *horticultural* research areas, Pukekohe, New Zealand. 124844
A bright future for *horticulture* **graduates** [Education]. 122332
Can we stem this life blood flow? **[Greenhouse** *horticulture,* labor outlook, Great Britain]. 115862
The role of the Technical Correspondence Institute in the *horticultural* **industry** in New Zealand [Education]. 122261
Integrated *horticultural* activity, a long-term program. 115856
Azalea research **[Ornamental** *horticulture].* 122215
Towards a policy for a career structure in **ornamental** *horticulture* [Education]. 122263
The "whitefly", a serious **problem** for *horticulture.* 123382
Packaging review: Wet strength box developments *[Horticultural* **produce].** 117263
Guidelines on the minimum supply of transportable (pneumatic) sprayers for plant **protection** in *horticulture.* 124705
A Scilly **question** *[Horticulture].* 122326
Rieger begonias, will they catch on ? *[Horticulture* **technique].** 122330
Mr. Alexandre-Paul Kristof, collaborator in the Laboratory for Agricultural and *Horticultural* **Techniques** [Plant protection]. 123033
A list of standard textbooks in **temperate** *horticulture.* 122451
Horticultural **therapy** [and rehabilitaton] how it's working [Training, Canada]. 122230
Flowering plants as a therapeutic/environmental agent in a psychiatric hospital *[Horticultural* **therapy,** chrysanthemum]. 122336
Thirty years of research on food conservation process at the *Horticultural* **University** [Hungary]. 116755
Conveyor handling comes to *horticulture* **[Vegetables,** packaging]. 117262
Horticultural **weed** control in Oregon. 123135

HORTICULTURISTS

Richard L. Sawyer *[Horticulturists,* **potato** research]. 122183

HOSPITALS

Minimal-bacteria *[hospital]* **diets:** an assessment for implementation. 116182
Flowering plants as a therapeutic/environmental agent in a **psychiatric** *hospital* [Horticultural therapy, chrysanthemum]. 122336
Hospital **supplies** [of fresh fruit and vegetables]—a complex question [Great Britain]. 115681
Referral practice in a university veterinary medical **teaching** *hospital.* 118473

HOST

Electrical measurement of feeding by the strawberry aphid [chaetosiphon fragaefolii] on susceptible and resistant strawberries and *nonhost* **plants.** 123368

HOSTS

Protocols for the dominant lethal test, *host-mediated* **assay,** and in vivo cytogenetic test used in the Food and Drug administration's review of substances in the GRAS (generally recognized as safe) list. 116213
Southern corn leaf blight [Helminthosporium maydis]: ultrastructure of *host-pathogen* **association.** 122718
An analysis of *host-parasite* **associations** among feather mites (Acari: Analgoidea). 124077
Contribution to the study of parasitism of foxes (Vulpes vulpes L.) by Ixodidae (Acarina) in northeastern France. Interpretation of the seasonal dynamics of the parasites in relation to the **biology** of the *host.* 123590
Initiation of resistance and *host* **cell** collapse in the hypersensitive reaction of oat leaves against Puccinia coronata avenae. 122707
Studies on the take-all fungus Gaeumannomyces graminis. IV. Entry and growth of the fungus and significance of lignituber formation in the roots of the *hosts* **[Cereals].** 122579
Synergistic effect of a pheromone and a kairomone on *host* selection and **colonisation** by Ips avulsus [Forest pests]. 123482
Host **discrimination** by Hyposoter exiguae (Hymenoptera: Ichneumonidae). 123888
Effect of *host* **enzyme** extracts on the electrophoretic forms and specific infectivity of cowpea mosaic virus. 122853
Tactics of *host* **exploitation** by a thermophilic water mite [partnuniella thermalis]. 124078
Apple trees in the suburban forest as *hosts* for **insects** and mites. 123403
Influce of *host-parasite* **interations** on the population dynamics of ticks. 123645
Beetles (Coleoptera) as new **intermediate** *hosts* of helminths [Infecting livestock]. 123674
Olfactory behavior of Ips pini (Say) (Coleoptera: Scolytidae) during *host* **invasions** and colonization of lodgepole pine [Pinus conterta latifolia]. 123450
Cytological study of Ustilago hypodytes (Schlecht.) Fr. And its relations with its *host* at the **level** of spore formation. 122772
Antiquity and specificity of parasitic mites. Parallel host-parasite development [Especially Myobiidae, **marsupials** as *hosts].* 123589
Biological and ecological studies of the parasitoid Chelonus inanitus (Hymenoptera: Braconidae) in Israel. I. Distribution, abundance and parasitism in **natural** *host* populations [Biological control of pests]. 123232
The establishment and spread of Spilopsyllus cuniculi (Dale) and its location on the *host,* **Oryctolagus** cuniculus (L.) [rabbits], in the Mallee region of Victoria. 123604
Antiquity and specificity of parasitic mites. **Parallel** *host-parasite* development [Especially Myobiidae, marsupials as hosts]. 123589
Physiological *host* specificity of the polyphagous pupal parasites of Pimpla turionellae L. (Hymenoptera, Icneumonidae) and its ecological significance. 123456
Spore yield of pathogens in investigations of the race-specificity of *host* **[plant]** resistance. 122905
Bionomics of the bee-associated Meloidae (Coleoptera); bee and **plant** *hosts* of some Nearctic meloid beetles—a synopsis. 123221
Intraspecific variability, *host* **plant** preference and injuriousness of leaf beetles of the subfamily Galerucinae (Coleoptera, Chrysomelidae) on field crops of the Cauca River. 123358
The use of Skylab data to study the early detection of insect infestations and density and distribution of *host* **plants** [Remote sensing]. 123237
Host **plants** and other foods of the larvae of Lepidoptera of Urguay. 123260
Genetic change in [plant] *host-parasite* **populations.** 122901
Host **range** of Drosophila melanogaster C virus among Diptera and Lepidoptera. 123808
The effect of the size of different *hosts* on the **rate** of polyembryony in Ageniaspis fuscicollis (Hymenoptera, Chalcidoidea). 123856
Studies on the action of the dichlorocyclopropanes on the *host-parasite* **relationship** in the rice blast disease [Piricularia oryzae]. 122719
The biology of Harveyella mirabilis (Cryptonemiales; Rhodophyceae). V. *Host* **responses** to parasite infection [Algae]. 121219
Neohydronomus pulchelus, a weevil attacking Pistia stratiotes in South America: biology and *host* **specificity.** 123222
Oviposition and *host* selection by the **spotted** cutworm, Amathes c-nigrum L. [Among vegetables and upland crops]. 123259
Interactions of permanent foliar pests with their *host* **tree** [Betula, Populus tremula]. 123457
Host **[tree]** selection by Trypodendron lineatum. 123483

HOUSE

Air flow through hinged baffle slotted inlets **[Animal** *housing].* 124650
Total confinement **bull** *housing.* 117448
Bull maintenance on pastures and *housing* of **bulls** with exercise outruns. 117440
Pros and cons of broilers in batteries *[Housing,* **costs].** 117398
A simplified method for demonstration of allergenic mites in small samples of *house* **dust.** 123606
Application of Bathurin and borax in the biological control of Monomorium pharaonis in *housing* **estates.** 123506
Death knell for the *house* **fly?** [Musca domestica]. 123594
Genetic analysis of resistance factors in a wild strain of the *house* **fly** (Musca domestica) resistant to DDT and some organophosphorous insecticides. 123675
House **fly** [Musca domestica] larvae as protein source [for feed] from pig manure. 124150
Group *housing* of bulls. 117441
Vacant **laying** *houses* [Poultry houses and equipment not in use]. 124609
Cage **laying** *house.* 124622
Cage **laying** *house.* 124623
House **location** effects on egg production. 117411
Livestock farming in Soria Province [Sheep, **management,** *housing].* 117390
Use of poster propaganda by agricultural authorities for the day they hold **open** *house* [Legal aspects]. 115798
Root lice as a source for Chloropidae as *house* **pests.** 123657
House **plant** guidelines [Repotting]. 122323
Scale insects [Coccidae] again and again on *house* **plants.** 123435
Rats and mice, Ohio recommendations [Rodent control in **poultry** *houses].* 117412
Effect of high temperatures in **poultry** *houses* on some indices of the carbohydrate metabolism in layers. 117948
Control of dust pollution of air in **poultry** *houses* [Hygiene]. 118567
A case can be made for continuous lighting **[Poultry** *houses].* 124602
Brooder stove dust problems **[Poultry** *houses,* fumes]. 124607
Don't get caught with your air down **[Poultry** *houses,* ventilation]. 124608
Vacant laying houses **[Poultry** *houses* and equipment not in use]. 124609
High temperature **poultry** *house* operation. 124640
Roof insulation and its effect on broiler chicken mortality in hot weather **[Poultry** *house].* 124653
The microbial contamination of air at various distances from the **poultry** *house* [Ventilation system]. 124656
A bird and bee problem in [plywood] *house* **siding.** 119831
New facilities for **sire** *housing* and management [Bulls]. 117442
New facilities for **sire** *housing* and management [Bulls]. 117443
New facilities for **sire** *housing* and management "The Inn Between" [Bulls]. 117444
Sire *housing* and management [Bulls]. 117445
Sire *housing* and management at Universal Semen Service Ltd. [Bulls]. 117446
Sire *housing:* outside lots [Bulls]. 117447
Automatic watering in a **sow** *house.* 117514
Confinement **swine** *housing.* 117494
Bacteria in the air of *housed* **swine** units. 118797
How ventilation systems work **[Swine** *houses].* 124639
A Tuesday at the **White** *House.* 116630

HOUSEFLIES

The accumulation of lipofuscin in the epithelium of the midgut of the **aging** *housefly,* Musca domestica. 124131
A survey of *houseflies* in **Bangkok** and neighboring provinces [Muscidae]. 123666
Phenobarbital stimulation of *housefly* **[Musca** domestica] chromatin template activity. 123984

HOUSEHOLDS

Household **equivalents** of fruit & vegetable retail packs. 116324
Phytochemical and toxicological screening of *household* **ornamental** plants potentially toxic to humans. I. 116212
Characteristics of food **stamp** *households:* a report on the survey conducted by FNS [Food and Nutrition Service]. 116332
New loans to **young** *households* [Agriculture]. 115483

HOUSEWIVES

Food markets today: Have purchasing and eating habits of *housewives* **changed** because of the crisis? 115608
Bread as **revealed** by *housewives.* 116322

HUMARIACEAE

Pezizales of Israel. IV. *Humariaceae* **[Fungi,** new taxa]. 120091

HUMIDITY
Current thoughts on the *humidity* **conditions** of soils. 124767
A climate room for precise regulation of temperature and *humidity* in **connection** with a temperature-regulated nest site for wood ants [Formica polyctena]. 124119
Temperature, rainfall and *humidity* at different **exposures** of the "Monte Pisano" for two years period [Effects of climate on Pinus pinaster]. 119293
Design of an air curtain growth chamber [with **high** *humidity* control system for tropical plant study]. 124651
Cork-board for covering soils; variation of dimensions as a function of **relative** *humidity* and time. 125134
Reproductive performance of Zebu compared with Charolais X Zebu females in a *humid* **tropical** environment. 118211
Diffusion of *humidity* in **wood** from 20 degress to 95 degrees Celsius in function of its state of sorption. 119765

HUMMINGBIRD
Abundant abutilons ("the *hummingbird* **feeder**") [Varieties]. 122435

HUMOR
Inhibition of proteoglycan biosynthesis by hyaluronic acid [from the **vitreous** *humor* of fresh bovine eyes] in chondrocytes in cells culture. 117595

HUMULUS
Hops: *Humulus* **lupulus** (Moraceae). 122530

HUMUS
Stimulation of growth in Scenedesmus obliquus [Algae] (Chlorophyceae) by *humic* **acids** under iron limited conditions. 121217
Effect of agricultural development of peaty-boggy soils on the *humic* **acids.** 124755
Extraction of metals from basalt by *humic* **acids.** 124857
Soil adsorption of *humic* **color.** 124837
Influence of vegetation on *humification* in **ferallitic** soils. 124785
Influence of fertilization on the development of *humus* **form** on pseudogleys [Forest soils]. 125049
Effect of long-term application of fertilizers in a crop rotation on the content of *humus* and **nitrogen** in Sierozem-meadow soils of Kirghizia. 124928
Use of cationic resins in the study of *humic* **substances** [Soil analysis]. 124766
Effect of irrigation on the content of *humic* **substances** and carbohydrates in southern Chernozems and those from the foothills of the Caucasus Mountains. 125179

HUNGER
Brain catecholaminergic mechanisms for **control** of *hunger.* 116353
Appetite and *hunger* in **experimental** obesity syndromes. 116351
Control system for *hunger* and its **implications** in animal and man. 116356
Brain catecholamines and the lateral hypothalamic syndrome *[Hunger,* **mechanisms].** 116354

HUNTING
Hungarian *hunting* dog breeds. 118263
A **nocturnal** *hunt* in Beauvaisis [Lepidoptera]. 124202
Utilization of domestic reindeer in *hunting* in Far **North.** 117438
Hunting **poisons** of the North Pacific region [Aconitum, chemistry, and toxicology]. 120181

HURRICANES
Environmental impact of stream channelization [Floods, *hurricanes,* **water** quality]. 125575

HUSBANDRY
Economic effectiveness of **animal** *husbandry* intensification in the Latvian SSR. 115351
Economics of the output of **animal** *husbandry* products in specialized farms of the Leningrad Region. 115353
Interfarm cooperation as a condition for accelerated transfer of **animal** *husbandry* to an industrial basis. 115390
A contribution to the testing and introduction of new **animal** *husbandry* systems [Livestock management]. 115458
Community **animal** *husbandry* [Legal aspects]. 115792
Salamanca Province: possibilities and future [Programs relating to **animal** *husbandry* and pasture management. 115804
Establishment of an **animal** *husbandry* research and development centre. 117394
Ethics and ethology in **animal** *husbandry.* III. 117460
Ethics and ethology in **animal** *husbandry.* I [Behavior]. 117842
Forward and reverse response to artificial selection **[Animal** *husbandry].* 118412
Ethics and ethology in **animal** *husbandry.* II [Health]. 118487
Forage growing and **animal** *husbandry* in Venezuela. Impressions of a study trip. 122170
Notes on agriculture in midwestern USA [Dairy **cattle** *husbandry].* 117468
Healthy herds for the **[cattle** *husbandry]* complexes [Calf hygiene]. 118570
Proceedings: 9th Beef Cattle Field Day, November 8, 1975, Mealani Experiment Station, Kamuela, Hawaii *[Husbandry,* **feeds,** feeding, pasture management]. 117472
Goose *husbandry* in the light of scientific-technical revolution. 117402
The proper planning of sheep mating, an economically decisive **moment** in *husbandry.* 118403
Merbitz Research Insititute of **Poultry** *Husbandry:* production intensification through science and technique [East Germany]. 117462
Integrated **rabbit** *husbandry.* II. 115325
Shift-working group form of labor organization in **reindeer** *husbandry* in the Nenets National Region. 115368
The role of **reindeer** *husbandry* in the economics of northern collective and state farms. 115369
Ways of development of collective farm **reindeer** *husbandry* in the Yamal-Nenets National Okrug. 115370
Ways of increasing economic efficiency of **reindeer** *husbandry* in the Magadan Region. 115371
Achievements of science in the development of **reindeer** *husbandry* and ways of increasing the effectiveness of scientific studies. 117429
Foreign experience of northern **reindeer** *husbandry.* 117431
Main trends of scientific studies in **reindeer** *husbandry* in the Murmansk Region. 117432
Present condition and prospects of development of **reindeer** *husbandry* in the Yakut Autonomous Soviet Socialist Republic. 117433
Present conditon and prospects of the development of **reindeer** *husbandry* in the Magadan Region. 117434
Results of scientific studies in **reindeer** *husbandry* in the Yakut Autonomous Soviet Socialist Republic. 117435
Trend of scientific studies in **reindeer** *husbandry* in the Magadan Region. 117437
Proper organization of pasture fattening and of planned slaughter of reindeer—the basis for increasing **reindeer** *husbandry* productivity in the Magadan Region. 121991
Present methods of controlling warble flies [Oestridae] and blood-sucking Diptera in northern **reindeer** *husbandry.* 123631
Novelty in technical provision of **reindeer** *husbandry* [Transportation, machinery for establishing fences, communication facilities]. 124684
We ought not to generalize about **sheep** *husbandry* and [natural] resources. 117477
Increasing the efficiency of production (experience of the veterinary service of a **swine** *husbandry* complex). 118572
PGRO [Processors' and Growers' Research Organisation] scheme aims to improve pea **varieties** and *husbandry.* 117211

HUSKS
The **walnut** *husk* fly [Rhagoletis completa, Juglans]. 123400

HYACINTHS
Stimulatory action of Azotobacter chroococcum from **water** *hyacinth* (Eichhornia crassipes Mort Solms) on germination of seeds of rye (Secale cereale). 121568
Water *hyacinths* [Eichhornia crassipes] for removal of phenols from polluted waters. 125382

HYACINTHUS
Effect of ionizing radiation on the **bulbs** of *Hyacinthus.* 121613
Hyacinthus **litivinowii** [from Turkmenia] in Moscow [botanical garden]. 119960

HYALINA
Two undescribed species of Leptosphaeria [Leptosphaeria abuensis and **Leptosphaeria** *hyalina,* Fungi, new taxa]. 120154

HYALOMMA
Effects of 60Co [cobalt isotope] irradiation of the early developmental stages of an ixodid tick, *Hyalomma* **anatolicum.** 124010
Pleomorphism of Rickettsia akari in ticks of *Hyalomma* **dromedarii** Koch. 123836

HYALOPHORA
Activity of the C-18 *Hyalophora* **cecropia** synthetic juvenile hormone in Locusta migratoria, with special reference to the age of the solutions. 123846
The interaction of juvenile hormone and ecdysone: antagonistic, synergistic, or permissive? *[Hyalophora* **cecropia,** Oncopeltus fasciatus]. 123957
Emergence of *Hyalophora* **cecropia** (Saturniidae) blocked by seeds in the cocoon valve. 124060
Recurrent stereospecific synthesis of structures related to those of *Hyalophora* **cecropia** juvenile hormone. 124163

HYALURONIC
Inhibition of proteoglycan biosynthesis by *hyaluronic* **acid** [from the vitreous humor of fresh bovine eyes] in chondrocytes in cells culture. 117595

HYALURONIDASE
In vitro correction of Hurler fibroblasts with bovine **testicular** *hyaluronidase.* 117894

HYBRID
Telomeric association of chromosomes [wheat X rye X **Agropyron** *hybrids].* 120816
Postharvest characteristics and natural preservation of fruits from *hybrids* between **Alcobaca** and some tomato cultivars. 117243
Effect of Fe-EDDHA [sequestrine of iron] on rhizogenesis and success of transplanting in peach **almond** *hybrid* plants. 122497
Patterns of DNA synthesis in polytenic chromosomes of *hybrid* **Anopheles** atroparvus X Anopheles labranchiae (Diptera: Nematocera). 124146
Forest and laboratory evaluations of *hybridized* **Apanteles** melanoscelus (Hymenoptera: Braconidae), a parasitoid of Porthetria dispar (Lepidoptera: Lymantriidae). 123458
Artificial *hybridization* of Ruellia caroliniensis and Ruellia geminiflora (Acanthaceae). 120796
Evaluation of the growth of *hybrid* **aspen** [Populus tremula x Populus tremuloides] on the experimental plots in the Czech Socialist Republic]. 119534
Experimental basis for **breeding** *hybrid* varieties in rye. 120665
Use of biochemical methods in studying the phenomenon of heterosis during **breeding** *hybrid* wheat. 121484
Coconut *hybrid* seednut production. 120629
Response of four **corn** *hybrids* to different plant densities and row spacings on Olivier soil. 121892
Effect of plant density, irrigation and fertilization on grain and forage yield of different **corn** *hybrids.* 122117
Improvement of biochemical features of *hybrids* by **crossing** maize with teosinte [Euchlaena]. 120705
Physio-ecological studies on prolificacy in maize *[hybrids].* I. **Differences** in dry matter accumulation among one-, two and three-eared plants. 121548
Feeding and watering space for *hybrid* **ducks** of the X-11 cross. 118071
Resistance of *hybrid* **elm** [Ulmus] progenies to Ceratocystis ulmi [Tree breeding]. 120791
General and specific combination rate in three-and **four-line** *hybrids* from 288th, 444th and NR crosses [Chickens]. 118302
The California poppy [Eschscholzia californica]—**garden** *hybrids* [Varieties, England]. 122443
Economic aspects of domestic **geese** *hybrids.* 118216
Efficiency of some populations of maize (Zea mays L.) in grain production **[Genetics,** *hybrids].* 120632
Biochemical features of sunflower **heterotic** *hybrids.* 120694
Combining ability of winter soft wheat varieties for the amount and quality of protein in relation to the creation of **heterotic** *hybrids.* 120697
Composition of chromatin in cellular nuclei and the modification of histones in maize **heterotic** *hybrids.* 120698
Laboratory method of early diagnosis in selecting pairs for obtaining **heterotic** *hybrids* of alfalfa. 120706
Methodology of obtaining tetraploid forms of watermelon for the creation of **heterotic** *hybrids.* 120707
Isoenzymatic spectra of peroxidase and nitratereductase from vegetative organs of maize **heterotic** *hybrids* and their parental forms. 121476
Development of *hybrid* **honey** bees. 124551
Studies on the meat quality of broiler rabbits. II. On the chemical composition of the meat of valuable cut-up parts in New Zealand White rabbits and *hybrids* of different. 116234
Dynamics of the development of *hybrid* and **inbred** maize grains. 120837
Protein content in spring wheat varieties and its **inheritance** by *hybrids.* 120831
Testing **interline** *hybrids* for the purpose of developing new crosses [Chickens]. 118312
A new form of pea obtained from **interspecific** *hybridization* [of Pisum sativum ssp. transcaucasicum X Pisum abyssinicum]. 120637
Choice of variety of vat. Origin of material, selection, *hybridization.* **Intervention** of authority: objectives, fundamental basis, ways and means, results [Grape culture]. 122204
Kentucky *hybrid* corn performance test, 1975 [Yields]. 122074
Results of veterinary services on state farm Spreenhagen for **laying** *hybrid* breeding, between 1972 and 1975. 118520
Application of ursokoxalin and vitamin K3 substitution to influence relative prothrombin concentration in **laying** *hybrids* with Eimeria tenella infection. 118825
Particuliarities of the reproduction interrelations and type of sterility in *hybrids* between **Lycopersicon** esculentum Mill. [Tomatoes] and Lycopersicon chilense Dun. 120645
Some old and new interspecific **Magnolia** *hybrids.* 122190
Effect of feeding hay and silage made from **maize** *hybrid* napier [Pennisetum purpureum] and sorghum on the growth of crossbred calves. 118075
Breeding of early maturing **maize** *hybrids* with improved biochemical properties. 120696
Hybridization of **maize** chloroplast DNA with transfer ribonucleic acids. 121425
Multiple molecular forms of nicotinamide-adenine-dinucleotide-specific glutamate-dehyrogenase in lines and *hybrids* of **maize** [Zea mays L.). 121448
Activity of Hill reaction and the ultrastructure of chloroplasts in **maize** *hybrids* and their initial forms. 121473
Study of physiologic and biophysical features of **maize** *hybrids* and their parental forms. 121482
The role of heterotrophic nutrition and photosynthesis in the heterosis of **maize** *hybrids.* 121483
Some problems and possibilities of productivity utilization in *hybrid* **maize,** 1974. 121909
A note on leaf removal in *hybrid* **maize.** 122019
Testing of **maize** *hybrids* for susceptibility to helminthosporiosis (Helminthosporium turcicum Pass.) in a provocation trial. 122611
A comparison of cane diffusion with *hybrid* **milling-diffusion** systems. 117116

Studies on silage making. II. Addition of urea and limestone to *hybrid* **napier** silage [Cross between Pennisetum purpureum and Pennisetum thyphoides]. 117350
Neoteny, evolution and the New Zealand **Parsonsia** *hybrids* (Apocynaceae). 119972
In vitro culture of shoot apical meristem of **Petunia** *hybrida* for Mass production of plants. 121690
The *hybridization* **plan** of Robert Caspary from 1870 and its possible relationship to G. J. Mendel's pea experiments. 120614
Special works in *hybridization* **plots** of maize. 120794
Harvesting plots of seed production in cereals, leguminous plants and of *hybrid* **plots** of maize. 122068
Coat colour, fur patterns, and other peculiarities of the fur in **poodle-jackal** *hybrids.* 117961
Physiological and biochemical basis for the resistance of **poplar** *hybrids* to the fungus Dothichiza populea Sacc. et Br. 122574
Estimating sib percentages from small samples of F1 *hybrid* **populations** [Plant breeding]. 120580
Biological and agronomical properties of new **potato** *hybrids.* 122494
Study of the interspecific *[hybrid]* **potato** resistant to nematodes [Heterodera rostochiensis] in the Latvian SSR. 122947
Producing *hybrid* seeds in sorghum for grains and sorghum X herb sudangrass. 120792
Breeding chickens from a four-line cross NR for obtaining highly **productive** *hybrids* [Leghorns]. 118297
Content of B complex vitamins in the parental forms of the seeds of maize and sunflower and in *hybrids* in **relation** to the combining ability of lines. 120699
Evolutional and genetic foundations of heterosis in **remote** *hybridization* and polyploidy [Wheat, rye, Triticale]. 120703
F. C. Napp's (1792-1867) interest in teaching agricultural science and in **research** of *hybridization.* 115130
Genetic variation amongst swede varieties and their *hybrids* and their **response** to soil fertility. 120761
Functional 70S *hybrid* **ribosomes** from blue-green algae and bacteria [Anacystis nidulans, Escherichia coli]. 120909
Rice *hybridization* in the conditions of the southern part of Ukraine. 120834
Some thoughts on *hybridizing* **[Roses].** 120803
Cytoplasmic male sterility in interspecific **rye** *hybrids.* 120660
Environmental and genetic effects on pseudocompatibility in Brassica oleracea in relation to the production of *hybrid* **seed.** 120772
Somatic *hybridisation* of Penicillium roquefortii with Penicillium chrysogenum after protoplast fusion. 120787
Latitudinal variability in earliness of grain-bearing **Sorghum** *hybrids.* 120633
Grain **sorghum** *hybrid* performance in the Northern High Plains, 1967-1972 [Varieties, yields]. 122080
Species *hybrids* within the Equus genus [Horses]. 118424
Re-examination of a numerical taxonomic study of Solanum **species** and *hybrids.* 120288
Hybridization **studies** in Columnea L. (Gesneriaceae). 1. Jamaican species. 120593
Hybridization **studies** in Columnea L. (Gesneriaceae). 2. The Columnea querceti complex. 120594
Effect of ultrahigh frequency electromagnetic fields on the productivity of **sugarbeet** *hybrids* and their parental forms. 121475
Seed production in **sunflower** *hybrids* created on base of cytoplasmatic androsterility with restored pollen fertility. 120793
Resistance to Plasmopara helianthi, a new property of the **sunflower** *hybrids.* 122765
Meiotic behaviour of F1 *hybrids* between **Triticale** forms of different ploidy level exceedng the parents in fertility. 120644
Studies on lodging resistance of diploid winter rye varieties and their *hybrids* **[USSR].** 120681
Growth analysis & photosynthetic systems in relation to *hybrid* **vigour** in maize Zea mays L. 121504
Content of pigments in the winter soft **wheat** *hybrids* of the first generation. 120824
Inheritance of some features in winter **wheat** *hybrids.* 120830
Content of phosphorus compounds in winter **wheat** *hybrids* differing by the heterotic effect. 121474
Introduction of **wheat-Agropyron** *hybrids* of a forage-grain type in Donbass [Yield, protein and vitamins content]. 121434
Giemsa-banding of MI chromosomes in **wheat-rye** *hybrids.* 120590
Nutrition and density studies on the **Williams** *Hybrid* banana; 1973 progress report. 117303
Williamsianum *hybrids* for small gardens. 122281
The development of genotypical formations as a result of the *hybridization* of **winter** wheats with spring wheats. 120838

HYDATIDOSIS

A case of **bovine** *hydatidosis* [Parasitic worms]. 118771

HYDATIGENA

Serodiagnostic studies on larval and strobilar phase of **Taenia** *hydatigena* with in vitro precipitation test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919

HYDRACHNELLAE

Contributions to the knowledge of the morphology and biology of the larvae of four European Eylais species **(Acari,** *Hydrachnellae).* 123770

HYDRANGEA

Surface active agent to increase effectiveness of surface penetration of ancymidol on *hydrangea* **[Hydrangea** macrophylla] and Easter Lily [Lilium longiflorum]. 121680

HYDRAULICS

An **experimental** *hydraulic* power module for use with harvestaids [Machines for fruit tree crops]. 124734
Repair of *hydraulic* **pumps** of the tractor. 124659
Waste injection into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a **sand-packed** *hydraulic* model. 125568

HYDRAZIDES

Absorption and movement of 14C [carbon isotopes]-labelled mH **[maleic** *hydrazide]* and 2,4-D [2,4-dichlorophenoxyacetic acid] in onions. 121694

HYDRILLA

Controlling *Hydrilla* [verticillata] biologically [with Nymphula diminutalis]. 123056

HYDROCARBONS

Carcinogenic polycyclic **aromatic** *hydrocarbons* in Norwegian smoked meat sausages. 116176
Pyrolytic formation of polynuclear **aromatic** *hydrocarbons* from petroleum ether extractable constituents of flue-crued tobacco leaf. 117123
Accumulation of polycyclic **aromatic** *hydrocarbons* in cultivated microalgae [Scenedesmus acutus]. 121300
Aryl *hydrocarbon* hydroxylase activity in the fungus Cunninghamella bainieri: evidence for the presence of cytochrome P-450. 120900
Gas chromatographic determination of polychlorinated biphenyls (PCBs) in the presence of **chlorinated** *hydrocarbon* pesticides in eggs of wild birds. 123738
Cuticular *hydrocarbons* of healthy and diseased Japanese beetle larvae [Popillia japonica]. 123978
Single cell proteins from cellulose and *hydrocarbons* **[Fungi,** bacteria]. 116750
The presence of **pollutant** *hydrocarbons* in estuarine epipelic diatom populations [Algae]. 125423
Industrial mutagens and potential mutagens. I. Halogenated aliphatic derivates *[Hydrocarbons,* **public** health hazards]. 116227
Mutants of Saccharomyces cerevisiae **utilizing** *hydrocarbons* [Yeast]. 120727
Chromatogrphic determination of *hydrocarbon* **waxes** in tobacco leaf and smoke. 117069

HYDROCHLORIC

The hydrolysis of cotton cellulose by *hydrochloric* **acid** in benzene. 117089

HYDROCHLORIDE

Titrimetric microdetermination of **L-cysteine** *hydrochloride* separately and in the presence of other natural amino acids. 116833
The storage stability of freeze-dried carrots. III. The content of carotene as affected by the addition of **L-cysteine** *hydrochloride* at various temperatures. 117295
Field control of coconut lethal yellowing [caused by mycoplasmalike organisms] with **oxytetracycline** *hydrochloride.* 122859
Rubber *hydrochloride:* useful 'old-timer' [Packaging materials]. 116746
Use of rompun **[xylazin** *hydrochloride]* for breeding bulls. 118421

HYDROCORTISONE

Plasma and **adrenal** *cortisol* concentrations in foetal, newborn and mother guinea-pigs during the perinatal period. 117809
Cortisol **concentration** in the blood plasma of newborn piglets and after adrenocorticotropic hormone loading. 117656
Serum **cortisol** *(hydrocortisone)* values in normal dogs as determined by radioimmunoassay. 117546
Serum levels of progesterone, estradiol, and *hydrocortisone* in **ewes** after abortion due to Listeria monocytogenes type 5. 118605
Role of insulin, thyroxin and *cortisol* in **luteinization** of porcine granulosa cells grown in chemically defined media. 117612
Effect of malnutrition on *cortisol-binding* **protein** in the lens of cynomolgus monkeys. 116453
Serum *cortisol* (hydrocortisone) values in normal dogs as determined by radioimmunoassay. 117546

HYDROCYANIC

Hydrocyanic **acid** content of stone fruit juices. 117249

HYDRODYNAMICS

Hydrodynamic **cleaning** of bottles [Beer industry]. 116675

HYDROGEN

Comparative characteristics of the amino acids composition of the *hydrogen* **bacteria** Hydrogenomonas eutropha in meat and wheat. 117035
Investigation of primary processes of photoinduced liberation of *hydrogen* from **Chlorella** during flash illumination [Algae]. 121034
The properties and composition of wood cellulose decomposition products obtained under the action of *hydrogen* **chloride** at pressure. 119748
A laboratory batch fermenter with differential electrode pH *[hydrogen-ion* **concentration]** control [Cheese manufacture]. 116903
Behaviours of pH *[hydrogen-ion* **concentration]** and volatile fatty acids in rumen juice of sheep afflicted with latent alimentary metabolic acidosis. 119153
Studies into acid-base balance of blood and muscular pH *[hydrogen-ion* **concentration]** of swine exposed to consecutive stress. 119175
Partial purification of intra- and extra-cellular cellulases from Pyricularia oryzae [Fungi]: with reference to optimum pH *[hydrogen-ion* **concentration]** at alkaline side. 120860
The pH *[hydrogen-ion* **concentration]** dependence of kinetic parameters of Penicillium brevicompactum RNAse [Fungi]. 120948
The effect of pH *[hydrogen-ion* **concentration]** on the population growth of three species of duckweed: Spirodela oligorrhiza, Lemna minor and Wolffia arrhiza. 121070
Effect of pH *[hydrogen-ion* **concentration]** and temperature on three mutants of Aspergillus clavatus Desm. [Fungi]. 121358
Varietal differences in cabbage of the *hydrogen-ion* **concentration** isoelectric point of the pollen and stigma in relation to heterosis. 121687
Enhancement by low pH *[hydrogen-ion* **concentration]** of gibberellin effects on dormant celery seeds and embryoless half-seeds of barley. 121746
Effect of soil pH *[hydrogen-ion* **concentration]** on microbial degradation, adsorption, and mobility of metribuzin [herbicide]. 123205
Influence of buffers on pH *[hydrogen-ion* **concentration]** of cotton leaf surface and activity of a Heliothis nuclear polyhedrosis virus. 123318
Interconversion of cholinesterase enzyme activity units by the manual Delta pH *[hydrogen-ion* **concentration]** method and a recommended automated method [Organophosphorus and carbamate pesticide intoxication]. 123694
Effect of pH *[hydrogen-ion* **concentration]** on metribuzin [herbicide] activity in the soil [Phytotoxicity]. 123766
Role of pH *[hydrogen-ion* **concentration]** on metribuzin [herbicide] dissipation in field soils. 123767
Hydrogen **cyanide** production by field-grown sorghums [Toxic when ingested by stock]. 121524
Hydrogen **cyanide** detoxification by Gloeocercospora sorghi [Sorghum]. 122704
Effect of adenosinetriphosphatase and conditions of phosphorylation on the H+/3- *[Hydrogen,* **electron]** relation and proton exchange of isolated chloroplasts [Peas]. 121636
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H *[hydrogen* **isotope]** straw pellets. 117326
Metabolism of 2,4-3H-14alpha-methyl-5alpha-ergost-8-enol and 2,4-3H *[hydrogen* **isotope]-5alpha-ergosta-8,14-dienol** in ochromonas malhamensis [Algae]. 121236
Effects of nutritional characteristics of Streptococcus agalactiae on inhibition of growth by *lactoperoxidase-thiocyanate-hydrogen* **peroxide** in chemically defined culture medium. 118798
Hydrogen **peroxide** generation by the alternate oxidase of higher plants [Mung beans]. 121604
Reaction products of alpha-dicarbonyl compounds, aldehydes, *hydrogen* **sulfide,** and ammonia [Flavor compounds]. 116636

HYDROGENOMONAS

Comparative characteristics of the amino acids composition of the hydrogen **bacteria** *Hydrogenomonas* eutropha in meat and wheat. 117035

HYDROGEOLOGY

Hydrogeological **investigations** in the Pampa of Argentina [Remote sensing]. 125260

HYDROLASES

Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 7. Relationships between the activity of some **selected** *hydrolases* in the liver and small intestine and the functional state of the adrenal cortex [Rats]. 117986

HYDROLOGY

Detection of *hydrological* **conditioning** factors in the building of groundwater models. 125200
Hydrologic **conditions** for bog formation in West Siberia and main trends of hydroreclamation measures (1972-1973). 125228
The role of forests in the *hydrological* **cycle.** 119417
Hydrologic **land** use classification of the Patuxent River watershed using remotely sensed data. 125261
Land use classification for *hydrologic* **models** using interactive machine classification of Landsat data [Remote sensing]. 125262
Effects of herbicides on the microflora and some *hydrological* and **physical** properties of Chernozem soil in young forest stands. 123758
Simulating *hydrologic* behavior on Ouachita Mountain drainages [Watershed management, computer models, Arkansas]. 119414

HYDROLYSIS
Acid *hydrolysis* of cassava. 117315
Heterogenous **acid** *hydrolysis* of monocarboxycellulose. 119733
Hydrolytic **action** of aminoacyl-tRNA synthetases from baker's yeast [Saccharomyces cerevisiae]: "chemical proofreading" preventing acylation of tRNA Ile with misactivated valine. 120927
Captan *hydrolysis* [Fungicides]. 122637
The *hydrolysis* of **cotton** cellulose by hydrochloric acid in benzene. 117089
Enzymatic *hydrolysis* of hardwood xylans. III. Characterization of five isolated beta-I over to 4 xylanases. 119679
Hydrolytic **enzymes** of boar sperm. 118418
Localization of antibacterial activity and *hydrolytic* **enzymes** in subcellular fraction of rabbit and chicken polymorphonuclear leukocytes. 118793
Esculin *hydrolysis* by Streptococcus dysgalactiae [Mastitis control]. 118600
Atomic absorption spectrometric determination of eight trace metals in orange juice **following** *hydrolytic* preparation. 117275
Chemical composition of a *hydrolyzed* **leather** as a protein source [for animal nutrition]. 117389
TEM [transmission electron microscopy] studies of hen's perivitelline **membrane** *hydrolysis* by cock sperm in vitro. 118386
Conbribution to the chemical study of Holocalyx glaziovii [Leguminosae]. II. [Flavone glycoside, *hydrolysis*, **poisonous** plants]. 121345
Growing cucumbers on soil and mixtures of soil and peat aggregated by *hydrolyzed* **polyacrylonitrile.** 124760
Esterification of the *hydrolysis* **product** of the herbicide dichlorfop-methyl in methanol. 123090
Degradation of the texture of fruits processed in syrup. Study on the *hydrolysis* of **protopectin** of apricots. 117267
Readily *hydrolyzable* nitrogen in the soils of the Chimkent Region. 124761

HYDROLYZATES
Production of glycosyl urea on the basis of *hydrolysates* of **deciduous** wood hemicelluloses. 119741
Disc microbiological method for the determination of lysine or methionine in **protein** *hydrolysates* [Nutritional quality]. 116504

HYDROPEROXIDES
Formation of alpha- and gamma-ketols from 18O [oxygen isotope]-labelled linoleic **acid** *hydroperoxides* by corn germ hydroperoxide isomerase. 121455
The formation of cis-3-nonenal, trans-2-nonenal and Hexanal from linoleic **acid** *hydroperoxide* isomers by a hydroperoxide cleavage enzyme system in cucumber (Cucumis sativus) fruits. 121607
Formation of alpha- and gamma-ketols from 18O [oxygen isotope]-labelled linoleic acid hydroperoxides by corn **germ** *hydroperoxide* isomerase. 121455
22 (3): 267-270. Reactivity of alpha-tocopherol with *hydroperoxide* of **methyl** linoleate [Foods]. 116464

HYDROPHILIC
Improvement of fiber bonding of paper fibers with high lignin content through grafting of *hydrophilic* **polymers.** 119779

HYDROPHOBIC
Optimizing soil moisture conservation by mulch of *hydrophobic* **aggregates** using simulation and numerical search procedures. 125172
Metabolic activity of Candida lipolytica [yeasts] adsorbed on bentonites with *hydrophobic* **chains.** 120986

HYDROPONICS
A *hydroponics* **plant** container. 124677
Soilless **potting** media for controlled-environment facilities [Growth of tomato and maize]. 121291

HYDROSTATICS
Effect of a **high** *hydrostatic* pressure on wood membranes. 2. Hygroscopic and mechanical properties of wood. 119766

HYDROTHERMAL
The *hydrothermal* **degradation** of cellulosic matter to sugars and their fermentative conversion to protein [Candida utilis, yeasts]. 121158

HYDROXIDES
Effects of selected ions on the removal of chrome (III) *hydroxide* [in **natural** waters, chromium]. 125506
Reactivity and fine structure of cotton mercerized in **sodium** *hydroxide* or liquid ammonia. 117199
Studies with dairy cows investigating the dietary effect of mixtures of compressed straw + concentrates prepared from crude and NaOH [**sodium** *hydroxide]* treated cereal straw. 1. Digestibility and milk production. 118006
Studies with dairy cows investigating the dietary effect of compressed straw + concentrates prepared from crude and NaoH [**sodium** *hydroxide]* treated cereal straw. 2. Composition of ruminal fluid and protozoa population. 118007
The electrostatic properties of THPOH-NH3 [**tetrakis(hydroxymethyl)-phosphonium** *hydroxide-ammonium]* flame-retardant cotton fibric as they pertain to potential mill problems and performance properties. 117201

HYDROXYCHOLECALCIFEROL
High-pressure liquid chromatographic method for the determination of *25-hydroxycholecalciferol* [**Metabolite** of vitamin D3] in cow plasma. 117549

HYDROXYLASE
Aryl **hydrocarbon** *hydroxylase* activity in the fungus Cunninghamella bainieri: evidence for the presence of cytochrome P-450. 120900
Protein inhibitor of [chick] kidney **25-hydroxyvitamin** *D3-1hydroxylase.* 116521
Submicrosomal localization of **prolyl** *hydroxylase* from chick embryo limb bone. 117797

HYDROXYLATION
Steroid derivatives. LXXIX. Microbial 15 *beta-hydroxylation* of 17 **alpha-acetoxy-16-methylene** derivatives of the pregnane series by the action of Cunninghamella blakesleeana [Fungi]. 121067
Electron spin resonance studies of structure and conformation in anion radicals formed during the autoxidation of *hydroxylated* **coumarins.** 121193
Transformations of steroid compounds with Rhizopus sp. [Fungi]. II. 11 *alpha-hydroxylation* of **delta** 4-3-ketosteroides of the pregane and androstane groups. 120854
Regulation of intestinal calcium absorption in the laying quail: independent of kidney **vitamin** D *hydroxylation.* 117819

HYDROXYMETHYL
The electrostatic properties of THPOH-NH3 *[tetrakis(hydroxymethyl)-phosphonium* **hydroxide-ammonium]** flame-retardant cotton fibric as they pertain to potential mill problems and performance properties. 117201

HYDROXYPROLINE
Distribution of **bound** *hydroxyproline* & cell-wall associated homospermidine in the leaves of sandal, Santalum album L. 121129
Nutritional effects on age at puberty and plasma amino acid level in Yorkshire gilts and on chemical composition, nucleic acid, fatty acid and *hydroxyproline* **contents** of the uterus. 118097

HYDROXYSTEROID
The measurement of 3 *beta-hydroxysteroid* **dehydrogenase** in ovaries of fowls (Gallus domesticus). 117699
Development of 3 *beta-hydroxysteroid* **dehydrogenase** in the ovary of the domestic fowl during sexual maturation. 118348

HYGIENE
Standards for filling casks with beer *[Hygiene,* **beer** quality, cask cleaning and sterilization]. 116062
Hygiene in **calf** fattening—practically tested. 118558
Healthy herds for the [cattle husbandry] complexes [**Calf** *hygiene].* 118570
Hygienic **conditions** in some [chick] hatcheries in the Estonian SSR. 118546
Erecting *hygiene* chains through interruption of infection chains and motivation of co-workers [Food handling]. 116088
Hygienic-toxicological **evaluation** of single used plant protection materials in forest areas. 123705
Disinfection and *hygiene* in **food** processing and their supervision as well as an arrangement of hygiene plans. 116020
Legal and *hygienic* **food** evaluation of fresh sea mussels in consumption. 116076
Food *hygiene* in the sphere of the meat industry. 116100
Are **food** *hygiene* regulations rules for the consumer protection? 116107
Research and development for standards and testing in **food** *hygiene.* 116224
Planning of killing cloven-hoofed game in the view of **forest** *hygiene.* 119551
Control of dust pollution of air in poultry **houses** *[Hygiene].* 118567
Flies [Diptera] and their *hygienic* **importance** in leisure-time and recreational areas. 123648
The Pharao ant [Monomorium pharaonis]: biology, *hygienic* **importance** and control. 123829
Veterinary personnel involved in "food **industry** *hygiene"* sector, results of socialist competition honoring the the IXth Congress of the Socialist Unity Party. 116226
The rotating aeration (system Fuchs) for treatment of liquid animal and municipal wastes. 3. *Hygienic* **investigations** during rotating aeration of slurry from cattle. 125393
The rotation aeration (system Fuchs) for treatment of liquid animal and municipal wastes. 4. *Hygienic* **investigations** during rotating aeration of sewage sludge. 125394
Does the minced meat regulation of May 10, 1976 contribute anything new? 2 *[Hygiene,* **labeling].** 116098
Forest protection measures in the range of economy and **landscape** *hygiene.* 119440
Refrigerated transportation of fresh meat and sausage [**Legislation,** *hygiene].* 115626
Hygiene for **man** and animal and nutritional hygiene. 116117
Milk *hygiene.* 116083
Sanitary-epidemiological station as a training centre of **nutition** *hygiene.* 116567
Hygiene for man and animal and **nutritional** *hygiene.* 116117
Planning *hygiene* in the production plant. 116129
Disinfection and hygiene in food processing and their supervision as well as an arrangement of *hygiene* **plans.** 116020
Optimum **plant** *hygiene,* a basic prerequisite for quality food. 116091
Experience in rearing of young cattle *[Hygiene,* **prophylaxis].** 118569
Pig **slaughtering** *hygiene.* IV. Bacteriological status of carcasses in various sections of the killing line. 116128
Pig **slaughtering** *hygiene.* III. The effects of a number of factors on dehairing. 116991
Hygiene **studies** on frozen ocean fish [Deterioration of the quality]. 116264
Study concerning disinfection and *hygienic* **treatment** of urban wastes by pit composing as well as conclusions about the standardization of control methods. 125086
Experiences and results of **veterinary** *hygiene* inspection in Suhl as an example of the expertise in meat products of the Bureau for Standardization, Measurement and Product Testing. 116222
Veterinary *hygiene* inspection of Rostock district fulfilled tasks in 1971 to 1975. 116225
A study of the physical load and **work** *hygiene* of woodcutter at felling in pre-mature stands. 119532

HYGROSCOPY
Effect of a high hydrostatic pressure on wood membranes. 2. *Hygroscopic* and **mechanical** properties of wood. 119766

HYLEMYA
Incorporation of tritiated thymidine in germinal and somatic cells of the onion fly, *Hylemya* **antiqua** (Diptera: Anthomyidae), as determined by autoradiography. 123889
The effect of dietary cholesterol on the development of [cabbage root fly] *Hylemya* **brassicae.** 124053
Quantitative determinaton ofpopulation movements of various Hylemya species, **especially** *Hylemya* brassicae Bouche (Diptera, Anthomyiidae), during the whole year. 124082
Periodic occurrence of various *Hylemya* **species** in the Welsch Switzerland. 124344

HYLESINUS
Parasites (Hymenoptera, Chalcidoidea) associated with bark beetles [Scolytus, *Hylesinus,* **Ips**] in Norway. 123486

HYLOBIUS
Length of development and survival of *Hylobius* **abietis** as influenced by silvicultural exposure to sunlight [Picea abies]. 123447

HYMENOLEPIS
Further studies on the efficacy of thiabendazole given in the diet of mice infected with *Hymenolepis* **nana,** Syphacia obvelata and Aspiculuris tetraptera. 119007

HYMENOPTERA
The British species of Aphelinus with notes and descriptions of other European **Aphelinidae** *(Hymenoptera)* [New taxa]. 124462
Aphidiidae *(Hymenoptera)* and aphids (Homoptera) of Corsica. I. Aphidiidae [New taxa]. 124221
Notes on Melipona species described by Lepeletier in 1836 *(Hymenoptera,* **Apidae).** 124417
Dicranthidium, a new subgenus of Hypanthidioides Moure, 1947 *(Hymenoptera,* **Apoidea)** [Brazil]. 124413
Bionomic notes: Hypanthidioides **arenaria** *(Hymenoptera,* Apoidea). 124139
Biological control of the beanfly, Ophiomyia phaseoli (Diptera: Agromyzidae), by Opius spp. *(Hymenoptera:* **Braconidae)** in the Hawaiian Islands. 123397
Fecundity and oviposition period of Aphidius platensis **Brethes** *(Hymenoptera,* Aphidiidae) parasitizing Myzus persicae Sulz. (Homoptera, Aphididae) on paprika [Biological control]. 123255
Predatory behavior of the spider wasp, Chalybion **californicum** *(Hymenoptera:* Sphecidae). 124121
Chalcid-flies *(Hymenoptera,* Chalcidoidea) reared from Ips typographus L. and Pityogenes chalcographus L. at some Norwegian localities [Picea abies]. 123485
Descriptions of a new genus and two new species of Pteromalidae (Hymenoptera, Chalcidoidea) reared from **Cynipid** *(Hymenoptera)* **galls,** with notes on some other species. 124255
Permanent culturing of Diprion pini L *[Hymenoptera,* **Diprionidae)** with regard to photoperiodic conditions. 123820
Notes on the type-material of some European **Elasmus** *(Hymenoptera:* Chalcidoidea) and description of a new species from Madeira [Elasmus bicolor]. 124258
Host discrimination by Hyposoter **exiguae** *(Hymenoptera:* Ichneumonidae). 123888

Biological control in Morocco of the wheat bug Aelia germari. Comparative value of two egg eating parasites: Asolcus grandis and Ooencyrtus **fecundus** *(Hymenoptera,* Scelionidae and Encyrtidae). 123283
Quantitative analysis of lipids, nirogen substances and glycogen in the larva of an ovo-larval parasitic insect, Phanerotoma **flavitestacea** *(Hymenoptera,* Braconidae). 123890
Females of Formica rufa L. *(Hymenoptera,* **Formicidae)** with enlarged labial glands. 123996
Food of tropical ants. I. Activity cycle and diet of Camponotus solon (Forel) *(Hymenoptera,* **Formicidae).** 123997
Food of tropical ants. II. Feeding bahaviour and diet of Camponotus vividus (Smith) *(Hymenoptera,* **Formicidae).** Intrageneric comparisons. 123998
The stinging apparatus of Camponotus rufipes (Fabricius) *(Hymenoptera,* **Formicidae)** and its attached structures [Morphology]. 124143
The effect of the size of different hosts on the rate of polyembryony in Ageniaspis **fuscicollis** *(Hymenoptera,* Chalcidoidea). 123856
Contribution to the study of the genera Belonopelta Mayr and Leiopelta new **genus** *(Hymenoptera,* Formicidae). 124337
Revision of the west Palearctic species of the genus Chorinaeus **Holmgren** *(Hymenoptera,* Ichneumonidae) [New taxa]. 124228
A new species of the genus Platytelenomus Dodd, 1914 from **Hungary** *(Hymenoptera,* Proctotrupoidea, Scelionidae) [Platytelenomus unilineatus]. 124559
The western Palaearctic **Ichneumonidae** *(Hymenoptera)* of British authors. 124248
Physiological host specificity of the polyphagous pupal parasites of Pimpla turionellae L. *(Hymenoptera,* **Icneumonidae)** and its ecological significance. 123456
Notes on the sawfly fauna of Nagykovacsi (Hungary). **III-IV** *(Hymenoptera:* Symphyta). 124446
New Australian allodapine bees (subgenus Exoneurella Michener) and their **immatures** *(Hymenoptera:* Anthophoridae). 124467
Biological and ecological studies of the parasitoid Chelonus **inanitus** *(Hymenoptera:* Braconidae) in Israel. I. Distribution, abundance and parasitism in natural host populations [Biological control of pests]. 123232
Comparative survey of the sensory structures on the sting and ovipositor of *hymenopterous* **insects.** 124037
The biology of Dianthidium heterulkei heterulkei Schwarz, with a description of the **larva** *(Hymenoptera:* Megachilidae). 124168
Male inseminative potential in Aphytis **lingnanensis** *(Hymenoptera:* Aphelinidae) [Biological control agents of the armored scale insects Diaspididae]. 123230
More accurate descriptions of three Alysiinae from **Madagascar** *(Hymenoptera,* Braconidae, Alysiinae) [Cratospila seyrigi, Asobara subdentata, Phaenolcarpa bicolor]. 124257
Forest and laboratory evaluations of hybridized Apanteles **melanoscelus** *(Hymenoptera:* Braconidae), a parasitoid of Porthetria dispar (Lepidoptera: Lymantriidae). 123458
A method for the extraction of Sitona (Coleoptera: Curculionidae) eggs from soil and occurrence of a **mymarid** *(Hymenoptera:* Chalcidoidea) in the Mediterranean region. 123900
Notes on the sawfly fauna of **Nagykovacsi** *(Hymenoptera:* Symphyta) II. [Hungary]. 124445
Parasites *(Hymenoptera,* Chalcidoidea) associated with bark beetles [Scolytus, Hylesinus, Ips] in Norway. 123486
The ichneumonid genus **Pseudanomalon** *(Hymenoptera)* [New taxa]. 124464
Parasitism of the tarnished plant bug, Lygus lineolaris (Hemiptera: Miridae), by Peristenus pallipes and Peristenus **pseudopallipes** *(Hymenoptera:* Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297
Descriptions of a new genus and two new species of **Pteromalidae** *(Hymenoptera,* Chalcidoidea) reared from Cynipid (Hymenoptera) galls, with notes on some other species. 124255
The dynamics of larch **sawfly** *(Hymenoptera:* Tenthredinidae) populations in southeastern Manitoba [Larix laricina, pests]. 123454
Studies on the behaviour of Bombus Latr. **Species** *(Hymenoptera,* Apidae) parasitized by Sphaerularia bombi Dufour (nematoda) in an alpine area. 124549
Nematinae of Finland. IV. *(Hymenoptera,* **Tenthredinidae)** The genus Pristiphora Latreille. 124386
Two new species of **Trichogramma** *(Hymenoptera:* Trichogrammatidae) from the U.S.A. [Trichogramma parkeri, Trichogramma minutum]. 124301
A ten-year colony of Sericomyrmex **urichi** *(Hymenoptera:* Formicidae). 123793
Specific structure and pollen gathering of *Hymenoptera* **visitors** of blooming seed onion fields and their food plant relationships. 124152
Interference among females of Nasonia **vitripennis** *(Hymenoptera:* Pteromalidae) and its effect on sex ratio of their progeny. 123858
Contribution to the Braconid fauna of **Yugoslavia** *(Hymenoptera:* Braconidae). II. [New taxa]. 124432

HYPARRHENIA

The **Hyparrhenia** *involucrata-Hyparrhenia* subplumosa (Gramineae) complex in Nigeria: morphological and cytological characterization. 120430

HYPERA

Alfalfa and the Egyptian alfalfa weevil *[Hypera* **brunneipennis]** (Coleoptera: Curculionidae). 123295
Effect of field applications of carbofuran on *Hypera* **postica** [Alfalfa weevil] (Coleoptera: Curculionidae) and its parasitoids. 123296
Alfalfa weevil *[Hypera* **postica]** research [Bathyplectes curculionis, biological control]. 123354

HYPERCOLESTEROLEMIA

Biotin status and lipid metabolism in adult **obese** *hypercholesterolemic* inbred rats. 116492

HYPERGLYCEMIA

Hyperglycemic and **hyperosmolar** responses to graded hemorrhage [Cats]. 119223

HYPERICUM

Vegetational responses following biological control of *Hypericum* **perforatum** in Idaho. 123104

HYPERLIPEMIA

Delayed clearance of chylomicron remnants following vitaminA-containing oral fat loads in broad-beta disease (**type** lil *hyperlipoproteinemia).* 116481

HYPEROMYZUS

The proteins of sowthistle [Sonchus oleraceus] yellow vein virus [transmitted by the **aphid** *Hyperomyzus* lactucae]: characterization and location. 122847

HYPERPARASITISM

Cephalosporium coccorum Petch, a mycoparasite on Ravenelia species *[Hyperparasitism,* **fungi].** 122788
Hyperparasitism in **populations** of Hyphantria cunea [Tree pests, natural control]. 123452

HYPERPLASTIC

Persistent *hyperplastic* primary vitreous in a dog. 119134

HYPERSENSITIVITY

Cutaneous *hypersensitivity* and isoantibody production in cattle injected with live or inactivated Anaplasma marginale in bovine and ovine erythrocytes. 118598
Initiation of resistance and host cell collapse in the *hypersensitive* **reaction** of oat leaves against Puccinia coronata avenae. 122707
Prevention of the *hypersensitive* **reaction** of potato cells to infection with an incompatible race of Phytophthora infestans by constituents of the zoospores. 122712
Hypersensitive **response** of near-isogenic wheat carrying the temperature-sensitive Sr6 allele for resistance to stem rust [Puccinia graminis tritici]. 122705
Changes in soluble proteins in callus cells of *hypersensitive* **tobacco** inoculated with tobacco mosaic virus. 122838

HYPERTENSION

Incidence and pathophysiological changes in chronic **two-kidney** *hypertension* in the dog. 119225

HYPERTHERMIA *see* FEVER

HYPERTROPHY

Male sterility caused by cooling treatment at the young microspore stage in rice plants. XII. Classification of **tapetal** *hypertrophy* on the basis of ultrastructure. 120531
Male sterility caused by cooling treatment at the young microspore stage in rice plants. XIII. Ultrastructure of **tapetal** *hypertrophy* without primary wall. 120532

HYPHAE

Induction of specific proteins in *hyphae* of **Achlya** ambisexualis by the steroid hormone antheridiol [Fungi]. 121296
Fine cytochemical detection of acid mucopolysaccharides in **growing** *hyphae* of Neurospora crassa [Fungi]. 121077
Cytological and biochemical studies on malate dehydrogenase in **growing** *hyphae* of Aspergillus oryzae [Fungi]. 121185
Cell wall formation in zoospores of Allomyces arbuscula [Fungus]. II. Development of surface structure of encysted haploid zoospores, **rhizoids,** and *hyphae.* 120411
Comparative study of *hyphal* **wall** components of oomycetes [Fungi]: Saprolegniaceae and Pythiaceae. 120868

HYPHANTRIA

Hyperparasitism in populations of *Hyphantria* **cunea** [Tree pests, natural control]. 123452
Influence of genetic changes and other variables on the encapsulation of parasites by *Hyphantria* **cunea** [Tree pests, natural control]. 123453

HYPHOMYCETES

Notes on *hyphomycetes.* XI. **Additions** to the genera Cercosporidium, Passalora and Phaeoisariopsis [Fungi]. 120216
Notes on *Hyphomycetes.* X. **Codinaeopsis** gen. Nov. [Fungi]. 120215
Raperia, a new genus of the *Hyphomycetes* **[Fungi].** 120144
Conidium ontogeny in some **monophialidic** *Hyphomycetes* [Fungi]. 120499
Gangliostilbe indica, a new **synnematous** *hyphomycete* from India [Fungi]. 120141

HYPOCOTYLS

Galactose-induced ethylene evolution in mung **bean** *hypocotyls:* a possible mechanism for galactose retardation of plant growth. 121750
Factors influencing the uptake of pesticides by *hypocotyls* **[Radishes,** residues]. 123686

HYPODERMA

Warble fly eradication in Ireland *[Hypoderma* **bovis,** Hypoderma lineatum, cattle pests]. 123637
Greater attention being paid to the prophylaxis of *Hypoderma* **infestation** [of cattle]. 123677
Warble fly eradication in Ireland [Hypoderma bovis, *Hypoderma* **lineatum,** cattle pests]. 123637

HYPODERMOSIS

Latest developments in **planned** *hypodermosis* control [cattle and yak] in the Mongolian People's Republic. 118831

HYPOGYMNIA

Ecophysiological response of lichen transplants to air pollution in the Murdochville Gaspe Copper Mines area, Quebec [Parmelia squarrosa, *Hypogymnia* **physodes,** Usnea]. 122974

HYPOMAGNESEMIA

Motality in breeding cows from *hypomagnesemia* and its **control.** 119093

HYPOPHYSIS

Demonstration of follicle stimulating hormone (FSH) activity in *hypophyseal* **extracts** of various vertebrates by the response of the Sertoli cells of the chick. 117696

HYPOTENSION

Alkaloids of thalictrum. XV. Isolation and identification of the *hypotensive* **alkaloids** of the root of Thalictrum lucidum. 121242

HYPOTHALAMUS

Autonomic components of the *hypothalamic* **feeding** syndromes. 116352
Significance of glucose, insulin, and free fatty acid on the *hypothalamic* **feeding** and satiety neurons. 116375
Hypothalamic **glucoreceptor** response—biphasic nature of unit potential changes [Food intake]. 116360
Brain catecholamines and the **lateral** *hypothalamic* syndrome [Hunger, mechanisms]. 116354
The role of the **lateral** *hypothalamus* in determining the body weight set point [in control animals]. 116384
Situational determinants of the body weights defended by normal rats with *hypothalamic* **lesions.** 116376
Cytophysiological approach of two neuroendocrine interfaces of the *hypothalamus:* the **median** eminence and vascular organ of the terminal lamina. Radioautographic study of the duck. 117567
Prolactin-releasing factor (PRF) in **porcine** *hypothalamic* extract distinct from TRH [thyrotropin-releasing hormone]. 118256
Stimulation of the **rabbit** *hypothalamus:* caudal projections to respiratory and cardiovascular centres. 117831
Satiety: *hypothalamic* **stimulation,** anorectic drugs, and neurochemical substrates [Control of feeding]. 116374
Hypothalamic **unit** activity related to lever pressing and eating in the chronic monkey. 116361

HYPOXYLON

Hypoxylon **[mammatum]** canker of aspen [Populus tremuloides] associated with Saperda inornata galls. 122793
On *Hypoxylon* **serpens** in culture [Populus]. 122665

IATROGENIC

Iatrogenic **pneumothorax** and pneumoderma in a mouse. 118490

ICACINACEAE

Structure of brazilian woods of dicotyledonous angiosperms. XIV. *Icacinaceae* **(Discophora** guinanensis Miers). 120434

ICE

Growth responses to salinity variation in four **arctic** *ice* diatoms [Algae]. 121206
[Ice **cream]** flavor—a quality you experience. 116850
Effect of addition of formalin and storage on chemical composition of *ice* **cream.** 116883
Ice **damage** in a mixed hardwood forest in Connecticut in relation to Vitis [Grape vines] infestation. 122918
Washing of trimethylamine by the water of the **melting** *ice* used for preserving sea bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052
Scorching of grass [from sun burning through a **thin** *ice* cover]—What can we possibly do to reduce winter damage? 122986

ICHNEUMONIDAE

The *ichneumonid* **genus** Pseudanomalon (Hymenoptera) [New taxa]. 124464
Host discrimination by Hyposoter exiguae **(Hymenoptera:** *Ichneumonidae).* 123888
Revision of the west Palearctic species of the genus Chorinaeus Holmgren (Hymenoptera, *Ichneumonidae)* **[New** taxa]. 124228
The western **Palaearctic** *Ichneumonidae* (Hymenoptera) of British authors. 124248

IDIOBLASTS
Electron microscopy of silicon deposits in **foliar** *idioblasts* of Magnolia grandiflora. 120543

ILEX
Propagation of *Ilex* **verticillata.** 122253

ILLIPE
Succession of [insect] infestation in *illipe* **nuts** in Sarawak an example of a cash crop problem. 123559

ILLUMINATION
The role of the gas phase in the greening and growth of *illuminated* **cell** suspension cultures of spinach (Spinacia oleracea, L.). 121688
Enzymic reconstitution of photosynthetic carbon assimilation. Pentose phosphate-dependent O2 [oxygen] evolution by *illuminated* **envelope-free** chloroplasts from Spinacia oleracea [spinach]. 121599
The effect of **environmental** *illumination* on embryonic development in Periplaneta americana. 123806
Investigation of primary processes of photoinduced liberation of hydrogen from Chlorella during **flash** *illumination* [Algae]. 121034
New data on the photosynthesis and respiration of green plants under the conditions of **flash** *illumination* [Maize, kidney beans]. 121449

IMAGINAL
Imaginal **differentiation** of the tegument in the migratory locust, Schistocerca gregaria Forsk. II. Development during imaginal molt and its determination in gregarian males. 123811
Action of juvenile hormone on *imaginal* **discs** of the Indian meal moth [Plodia interpunctella]. 123931
The effects of juvenile hormone on *imaginal* **discs** of Drosophila in vitro: the role of the inhibition of protein synthesis. 123956
Movements and cellular deformations during evagination of **Drosophila** *imaginal* discs. 123851
The development of ommatidial patterning in metamorphosed **eye** *imaginal* discs implants of Drosophila melanogaster. 124172
Microtubules and cell movements in the islets of *imaginal* **histoblasts** of the abdominal epidermis in Calliphora erythrocephala (Diptera). 123850
The *imaginal* **integumental** differentiation in Schistocerca gregaria Forsk. III. Phase polymorphism and its hormonal control. 124005
Morphological and histochemical data on the *imaginal* **Malpighian** tubules of Pieris brassicae (L.) (Lepidoptera). 123812
Imaginal differentiation of the tegument in the migratory locust, Schistocerca gregaria Forsk. II. Development during *imaginal* **molt** and its determination in gregarian males. 123811
Developmental studies on gynandromorphs of Drosophila melanogaster. IV. Comparison of morphogenetic fate maps of larval and *imaginal* **structures.** 124170
Effects of Weismann ring gland on RNA synthesis in *imaginal* **wing** disks of Calliphora erythrocephala. 124044

IMIDAZOLES
R23979, a **new** *imidazole* derivative effective against postharvest decay of citrus by molds [Penicillium italicum, Penicillium digitatum, Geotrichum candidum] resistant to thiabendazole, benomyl and 2-aminobutane. 122760

IMITATION
Adulteration of rums and *imitation* **rums.** 116025

IMMATURITY
Relations of phenolic inhibitors to resistance of *immature* **apple** fruits to rot [Botrytis cinerea, Penicillium expansum, Alternaria]. 122646
In vitro culture of the *immature* **embryo** of Capsella bursa-pastoris Moench. 120562
A comparative study on the effect of various estrogens on the *immature* **female** mouse genitalia and endocrine glands. 118335
Identification of gibberellin A29 and evidence for abscisic acid in extracts from fruits of *immature* **French** prune (Prunus domestica L.). 121708
Plasma LH [luteinizing hormone] response to LH-RH [luteinizing hormone-releasing hormone] injection in *immature* **intact,** castrated and cyproterone-treated male rats. 118356
Effects of follicle stimulating hormone and luteinizing hormone on the incorporation of 32P [phosphorus isotope] into the testis of the *immature* **Japanese** quail. 117697
Life history and laboratory rearing of Brochymena quadripustulata [on black walnut Juglans nigra] with descriptions of *immature* **stages** and additional notes on Brochymena arborea (Hemiptera: Pentatomidae). 124215
Descriptions of the *immature* **stages** and biology of Vitula lugubrella (Ragonot) (Pyralidae; Phycitinae). 124317
Immature **stasis** of two genera of Oribotritiidae (Oribata) [Sabacarus corneri, Paratritia baloghi]. 124194

IMMUNITY
Anticoccidial *immunity* [to Eimeria] in large chicken flocks. 118925
Cellular *immunity* in Listeria [monocytogenes] sensitized young chickens: assayed by an agarose drop macrophage migration inhibition test. 118821
Immune **complex** extracted from acutely infected malarious chicken kidneys: physico-chemical properties of antigen part [plasmodium gallinaceum]. 118746
Immune **defenses** in young calves. 118954
Autoimmune **hemolytic** anemia associated with lupus erythematosus [Dogs]. 119209
Role of milk iron in the development of *immunity* with the **intracisternal** introduction of the antigen [Cattle]. 119032
The immune response of birds from *immune* **layers,** vaccinated on the first and fourth day against Newcastle disease. 119001
The nature of the **local** *immune* system of the bovine small intestine. 118697
Phytohemagglutinins. I. Aspects of *immunity* **reaction** clarifying their properties and role. 121088
Effect of furazolidone in feed on *immune* **response** of turkeys vaccinated with live Pasteurella multocida in drinking water. 118626
The *immune* **response** of birds from immune layers, vaccinated on the first and fourth day against Newcastle disease. 119001

IMMUNIZATION
Immunizing **activity** of a vaccine against Gumboro disease [chickens]. 118922
Immunization of **adult** hens against infectious bursal disease virus. 118633
Aerosol *immunization* of poultry against pasteurellosis. 119016
Effect of caecal coccidiosis on haematological indices in chickens. 2. Changes of haematological indices after the invasion of *non-immunized* **chicks** [by Eimeria tenella]. 118929
Effect of caecal coccidiosis on haematological indices in chickens. 3. Changes of haematological indices after the invasion of *immunized* **chicks** [by Eimeria tenella]. 118930
Uan'e reaction in **cows** *immunized* with the STI [Sanitary Technical Institute] vaccine [Anthrax]. 119036
Problems of **oral** *immunisation* of swine. 118837
Passive *immunization* against oestradiol-17 beta and its effect on luteolysis, oestrus and ovulation in the ewe. 118354
Reactions to subconjunctival inoculation of Onchocerca volvulus microfilariae in *pre-immunized* **rabbits.** 118971
Malaria: **successful** *immunization* against the sexual stages of Plasmodium gallinaceum [Aedes aegypti as vectors]. 123665

IMMUNOASSAY
Serum fibrinogen-related antigen concentrations in the normal dog as measured by the tanned erythrocyte **hemagglutination-inhibition** *immunoassay.* 117943

IMMUNOCHEMISTRY
Studies on lysophospholipases. VIII. *Immunochemical* **differences** between two lysophospholipases from beef liver. 117598
Immunochemical **studies** on pinguinain, a sulfhydryl plant protease [Bromelia pinguin]. 120901

IMMUNOELECTROPHORESIS
Characterization of bovine whey proteins by **crossed** *immunoelectrophoresis.* 116922
Identification of bovine serum proteins by **quantitative** *immunoelectrophoretic* methods. 117928
Immunoelectrophoretic **study** of some nut-bearing pines. 121796
Diffusion precipitation in agar gel and *immunoelectrophoresis* in **studying** Aujeszky's disease virus. 118979

IMMUNOFLUORESCENCE
[Pig] platelet tubulin and [bovine] brain tubulin antibodies: *immunofluorescence* of **cell** microtubules. 117644
A refinement of the *immunofluorescent* **complement** fixation test for Trypanosoma infections [in animals]. 118969
Antigenic relationship of paralytic syndrome virus of chickens with other avian viruses as **detected** by *immunofluorescence.* 118742
Hog cholera. I. *Immunofluorescent* **diagnosis** using tissue sections and blood smears. 118692
Immunofluorescent **localization** of acrosin in spermatozoa by boar acrosin antibodies. 118379
Study on the replication of the Aujeszky's disease virus using the *immunofluorescence* **method** [Chick embryo cells]. 118998
Effect of acetone fixation on **rabies** *immunofluorescence* in glycerine-preserved tissues [Mice]. 118694

IMMUNOGENESIS
Cytoarchitectonics of lymphoid organs in chicks in relation to the invasion by Eimeria **tenella** and *immunogenesis.* 118926

IMMUNOGENETICS
Allo-aggression in chickens. II. Cellular expression of the AA gene **products** *[Immunogenetics].* 118586

IMMUNOGENICITY
On the *immunogenic* **properties** of a polyvalent inactivated vaccine from respiratory viruses (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990
Study on the *immunogenic* **properties** of inactivated vaccines produced with the infectious bovine rhinotracheitis virus. 118997

IMMUNOGLOBULINS
Interaction of epsilon-dinitrophenyl (DNP)-L-lysine with bovine colostral **anti-DNP** *immunoglobulin* G1 (IgG1): concentration independence [Pregnant cows]. 117550
Further characterization of IgA *[immunoglobulin* A] in **chicken** serum and secretions with evidence of a possible analogue of mammalian secretory component. 118696
Occurrence of *Immunoglobulin* A in **milk** of cows with subclinical udder diseases. 118833
Genetic control of the response of chicken leukocytes to a t-cell **mitogen** *[Immunoglobulins].* 118378
Bovine colostral gamma-glutamyltransferase; its localization in skim milk membrane and irrelevance to **secretory** *immunoglobulin* A. 118685
Immunoglobulin G in the **sera** of newborn buffalo (Bos bubalus bubalis) calves. 119008

IMMUNOLOGY
Further studies on the therapeutic and *immunologic* **aspects** of generalized demodectic mange in the dog [Demodex canis]. 123638
Immunological **defense** mechanisms with special reference to bovine animals. 118955
On the *immunological* **detection** of thyroglobulin peptides synthesized in cell-free system [Sheep thyroid glands]. 117600
Use of natural infectious backgrounds in the breeding and pomological studies of fruit varieties *[Immunological* **evaluatin,** fungus diseases]. 122785
Detection of beta 2-microglobulin in sera from diverse vertebrate species by the use of a heterologous radioimmunoassay [**Goats,** *immunology].* 118938
Purification, properties and *immunological* **relationship** of l(+)-lactate dehydrogenase from Lactobacllus casei [Dairy organisms]. 116872
Modern problems of **reproduction** *immunology.* 118987
Immunological **response** to Mycoplasma gallisepticum [Chickens]. 118962
Immunological **studies** of antigenic components of Dermatophilus congolensis [Fungal pathogen of animals]. 118712
Antigenic analysis and *immunologic* **studies** on the uterotropic bacterial strains SH6 and O1 isolated from cows that have miscarried. 118973
Foot-and-mouth disease in Ethiopia: serological and *immunological* **study** of FMDV type A [virus, guinea pigs]. 118900

IMMUNOSUPPRESSION
Cyclosporin A, a peptide metabolite from trichoderma polysporum (Link ex Pers.) Rifai [Fungi], with a **remarkable** *immunosuppressive* activity. 121073

IMPATIENS
Gel electrophoretic studies of proteins in photo-induced and vegetative plants of *Impatiens* **balsamina.** 121755
Studies on data variability and the use of polynomials to describe plant growth [Blackstonia perfoliata, *Impatiens* **parviflora,** carrots]. 121306
Association between defective stigmatic exudates & sterility in *Impatiens* **[sultani]:** chromatographic evidence. 120758

IMPEDANCE
Effects of **mechanical** *impedance* on cell development in young barley roots. 121414

IMPLANTS
The development of ommatidial patterning in metamorphosed eye imaginal **discs** *implants* of Drosophila melanogaster. 124172
Correction of faulty ear carriage in the dog with porous **polyethylene** *implants.* 119211
Uterine proteins and development in vitro of **rabbit** *preimplantation* embryos. 118363
Uterine luminal proteins at the time of *implantation* in **rats.** 118362
The effect of an acute dose of biotin at a *post-implantation* **stage** and its relation with female sex steroids in the rat. 116462
The effect of *implanting* **weaner** calves with growth promotants under feedlot conditions [Finishing]. 118120

IMPORTS
Investigations on the causes of postharvest decay in *imported* **citrus** fruits [Fungus diseases]. 122674
South Korea **cuts** *imports* of U.S. Rice. 115660
Switzerland's poultry and egg output and *imports* **decline.** 115665
Importing **dogs** and cats into Australia [Quarantine requirements]. 118609
The economics of Florida's FCOJ [frozen concentrated orange juice] *imports* and **exports:** an econometric study. 115605
Pakistan's **fats/oils** *imports* to remain high in 1976. 115655

Twilight pests in *imported* **feed** raw material. The copra beetle (Necrobia rufipes Degeer), the sap beetle (Carpophilus spp.) and the Siamese flat beetle (Lophocateres pusillusKlug). 123582
Effects of juvenile hormone analogues on caste differentiation in the *imported* **fire** ant, Solenopsis invicta. 123246
West **Germany** *imported* less U.S. Tobacco in 1975. 115669
East European feed shortage will mean record **grain** *imports.* 115647
Oilseed **meal** *imports* up in six markets. 115654
The procedure for *importing* **meat** into the USA. 115627
American cattlemen continue to suffer [**Meat** *import* infringements]. 115708
Imports help to **meet** Spain's feedgrain, soybean needs. 115650
Finding Aphelenchoides blastophthorus in *imported* **plants** [Convallaria majalis, Narcissus, nematodes]. 123042
Gujarat call to stop **poultry** *imports* [Disease control]. 115728
Flight and survival of alate **red** *imported* fire ants [Solenopsis invicta] after mirex treatment. 123247
World tobacco exports dropped sharply in 1975, but *imports* held **steady** [Statistics]. 115638
Problems of stored products entomology in Britain arising out of the *import* of **tropical** products [Insect pest control]. 123507
Eradication of seed-borne organisms from *imported* **vegetable** seeds by hot-water treatment [Fungi, germination test]. 122645

IMPREGNATION

Slow-release ancymidol for poinsettia [Euphorbia pulcherrima] by *impregnation* of **clay** pots. 122337
Control of **coal-tar** *impregnation* of beech wood with red heartwood; success of impregnation according to thylosis frequency. 119725
Screening of some relatively safe insecticides for *impregnation* of **gunny** bags against stored-grain pests. 123512
Apple **slice** *impregnation* with fruit juices [Storage, processing]. 117264
Control of coal-tar impregnation of beech wood with red heartwood; success of *impregnation* according to **thylosis** frequency. 119725

INACTIVATION

The structure and function of acid proteases. IV. *Inactivation* of the **acid** protease from Mucor pusillus [Fungi] by acid protease-specific inhibitiors. 121165
Cutaneous hypersensitivity and isoantibody production in cattle injected with live or *inactivated* **Anaplasma** marginale in bovine and ovine erythrocytes. 118598
Study on the effect of sodium chloride on the *inactivation* of **Cysticercus** cellulosae in the muscle meat of naturally infected swine [Storage of infected pork]. 116252
Inactivation by **glucose** of phosphoenolpyruvate carboxykinase from Saccharomyces cerevisiae [Yeasts]. 120910
Studies on the alpha-adrenergic activation of hepatic glucose output. I. Studies on the alpha-adrenergic activation of phosphorylase and gluconeogenesis and *inactivation* of **glycogen** synthase in isolated rat liver parenchymal cells. 117796
Near ultraviolet **light** *inactivation* of an energy-independent membrane transport system in Saccharomyces cerevisiae [Yeasts]. 121313
The role of the pentose cycle in the metabolism of Drosophila melanogaster revealed by **mutations** *inactivating* glucoso-6-phosphate- and 6-phosphogluconatedehydrogenase. 123881
On the immunogenic properties of a **polyvalent** *inactivated* vaccine from respiratory viruses (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990
Nitrate **reductase** *inactivating* factor from rice cells in suspension culture. 121535
Effects of photoprotection and **reversible** *inactivation* of yeast Candida guilliermondii induced by 313nm [ultraviolet] light. 121031
High **temperature** *inactivation* of cucumber and alfalfa mosaic viruses in Nicotiana rustica cultures [Tobacco]. 122814
Study on the immunogenic properties of *inactivated* **vaccines** produced with the infectious bovine rhinotracheitis virus. 118997

INACTIVE

Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a toxic **protein** *inactive* on Escherichia coli protein synthesis. 121052

INBREEDING

Effect of *inbreeding* on the **activity** of peroxidase in maize self-pollinated lines. 120701
Some *inbreeding* **effects** in onion, Allium cepa L. 120649
Biotin status and lipid metabolism in adult obese **hypercholesterolemic** *inbred* rats. 116492
Maternal effects and *inbreeding* **insensitivity** in embryos of Drosophila melanogaster. 124103
Consequences of long-term artificial selection, *inbreeding,* and **isolation** in Phlox. I. The evolution of cross-incompatibility. 120625
Analysis of a diallel cross in *inbred* **lines** of rye. 120653
General and specific combining ability in test crosses between *inbred* **lines** of rye. 120666
Studies on the breeding method of the synthetic varieties from the *inbred* **lines** in maize (Zea mays L.). 120797
Performance of maize crosses between *inbred* **lines** developed from a open pollinated Italian variety "Marano" at different plant populations. 122127
Inheritance of some characters in crosses between *inbred* **lines** of Bombyx mori L. for commercial feeds during summer and autumn months. I. Cocoon, shell and pupal weights. 124530
Study on the effect of ethyl methanesulphonate and N-nitroso-N-methylurethan after treatment of seeds from **maize** *inbred* lines. 120650
Physiologically active substances of the B complex [vitamins] in the seeds of **maize** *inbred* lines and in initial forms. 120711
Dynamics of the development of hybrid and *inbred* **maize** grains. 120837
The constancy and similarity of the amounts of free amino acids in *inbred* **strains** of Drosophila [Drosophila subobscura, Drosophila melanogaster] and outbred Calliphora [erythrocephala]. 124052

INCENTIVES

A note on the use of **economic** *incentives* in water pollution abatement. 125573
A new view of **forestry** *incentives* [Stimulating private landowners to practice forestry]. 119523
Making efficient use of **material** *incentives* [Wages, East Germany]. 115512
Improvement of the system of **morale** *incentives* in the competition of the workers of agrarian-industrial amalgamations and interfarm enterprises. 115388

INCINERATION

Interactions between sludge conditioning, vacuum **filtration,** and *incineration.* 125508

INCITE

Carbon requirements of Alternaria solani (Ell. & Mart.) jones and Grout, the *incitant* of **early** blight of potato. 122787

INCOME

Analysis of the annual fluctations of Belgian **agricultural** *income.* Incidence of technical progress and variations of price, 1954-1972. 115543
The effect of price variations of products and of factors of production on **agricultural** *incomes.* 115551
The effect of price variations of products and of factors of production on **agricultural** *incomes:* discussion. 115552
Organization of markets, a tool of a policy of *income* in **agriculture.** 115320
Relationships between technology, prices, and *income* **distribution** in Pakistan's agriculture: some observations on the green revolution. 115911
A method of the calculation of food cost and its application. 2. The index of the basic food cost in relation with the **family** *income.* 116594
Trade-offs between **farm** *income* and selected environmental indicators. A case study of soil loss, fertilizer, and land use constraints. 115456
Farm *incomes* in England and Wales 1974-75. 115493
State **farm** *income* statistics. 115784
Environmental aspects of **international** *income* distribution. 125466
Taxation of *income* from **land** in agriculture and forestry. 115502
Drought may help pig **producers** *[Income].* 115531
A **retirement** *income* simulation model for farm operators. 115555
Income **tax** and poultry farmers' obligations. 115535

INCOMPATIBILITY

Consequences of long-term artificial selection, inbreeding, and isolation in Phlox. I. The **evolution** of *cross-incompatibility.* 120625
Prevention of the hypersensitive reaction of potato cells to infection with an *incompatible* **race** of Phytophthora infestans by constituents of the zoospores. 122712
Reproductive *incompatibility* in pityogenes chalcographus L. , a new perspective of bark beetle control? 123461
Effects of temperature and genotype on pollen tube growth in some *self-incompatible* and **self-compatible** almond cultivars [Prunus amygdalus]. 121704

INCORPORATION

Incorporation and **disintegration** of extra-embryonic epithelia in the egg of the migratory locust (Locusta migratoria L.). 123849
The *incorporation* of **3H-thymidine** during induction of callus of excised barley embryos [by 2,4-D as a growth substance]. 121431
Effects of follicle stimulating hormone and luteinizing hormone on the *incorporation* of 32P [**phosphorus** isotope] into the testis of the immature Japanese quail. 117697
Effects of **preplanting** *soil-incorporated* herbicides on metribuzin injury in soybeans. 123023
Uptake and *incorporation* of **pyrimidines** in Euglena gracilis [Algae]. 120919
Tests of side effects of pesticides on beneficial arthropods and their *incorporation* into **registration.** 123688
Silica *incorporation* in the cel wall of the stinging cell of Urtica dioica. 120550
The regulation of **silica** *incorporation* into the stinging cell wall of Urtica Pilulifera. 120554
Incorporation of **tritiated** thymidine in germinal and somatic cells of the onion fly, Hylemya antiqua (Diptera: Anthomyidae), as determined by autoradiography. 123889

INCREMENTS

Notes on the **diameter** *increment* of silver firs (Abies alba Mill.) of the "Rothwald" in Lower Austria. 119437
A study of loblloly pine [Pinus taeda] **growth** *increments.* III. Refining characteristics of tracheids from kraft pulps. 119840
Investigations on the accuracy of *increment* **measurements** of young spruce [Picea] stands. 119552
Observations on the the interpretation of the second law of [forest **tree**] *increment.* 119427
The *increment* of **white** fir [Abies alba] stands and their dieback on the edges of the Krimmountain (Slovenia). 119458

INCUBATION

Incubation of **eggs** and hatchery management. 117486
California encephalitis virus proliferation in Yukon [Aedes communis] **mosquitoes** *incubated* at low temperatures. 123615
Methods of **obtaining** *incubation* eggs from caged hens. 118305

INDEMNITY

Agricultural calamities. 1976 **barometer** of *indemnities.* 115514

INDEX

The *indexes* of **alkyl** resorcinols content in rye grain [Nutritive value as feed]. 121470
Index to **American** botanical literature. 119885
A new species of Metriocampa [asiatica] (s. Str.) as an *index* of **ancient** relations between the east of the Palearctic and the west of the Nearctic [regions]. 124279
An **annotated** *index* for Jacob Christian Schaeffer's "Bavarian fungi" [New taxa]. 120210
A method of the calculation of food cost and its application. 2. The *index* of the **basic** food cost in relation with the family income. 116594
Changes in some **biochemical** *indices* of the blood in chickens at continuous feeding of Timet and Lebaizid [Phosphorus organic insecticides]. 119286
Effect of high temperatures in poultry houses on some *indices* of the **carbohydrate** metabolism in layers. 117948
Comprehensive *index* to MIRINZ [Meat Industry Research Institute of New Zealand] publications 1-400. 117020
Effect of diethylcarbamazine on *indexes* of **fertility** in the male dog. 118199
Effect of caecal coccidiosis on **haematological** *indices* in chickens. 2. Changes of haematological indices after the invasion of non-immunized chicks [by Eimeria tenella]. 118929
Effect of caecal coccidiosis on **haematological** *indices* in chickens. 3. Changes of haematological indices after the invasion of immunized chicks [by Eimeria tenella]. 118930
Body weight as a **health** *index:* a minicourse in nutrition. 116446
Effect of sampling errors on efficiency of selection *indices.* 2. Use of **information** on associated traits for improvement of a single important trait [Animal breeding]. 118208
Toward a more **meaningful** *index* of sludge quality. 125518
New *index* for selecting sires [Cattle]. 118190
Aroma qualification of wines by gas chromatography. II. Determination of an *index* **number** defining aroma quality; its relationship with gas chromatographic peak areas and conditions of application. 117307
Total nitrogen concentration in leaves of potatoes (Solanum tuberosum L.) as an *index* of **nutritonal** status [Foliar analysis]. 125020
A statistical study of the **oxygen** *index* measurement [of fabrics]. 116834
A basic study on the pattern making for women's clothes: the classification of the physical-type by the **Pignet-Vervaeck** *Index.* 116591
Preparation of *indices* for **planning** industrial vegetable production—goals and way of reaching them. 115466
Effect of malt quality on **polymerisation** *index,* colloidal and flavor stabilities of beer. 116674
Polyphenol content and **polymerisation** *index* of barleys and small-scale malts. 117081
Stomatal distribution as an *index* for **predicting** the growth potential of apple stocks. 121729
Virus-indexed **production** of raspberries and grapes. 122266
Quantity of cells of the mucous membrane of the small intestine in irradiated mice as an *index* of the **protection** degree of this organ by radioprotectors. 119233
The effect of ammonia gas on some *indexes* of the **protein** metabolism of broilers. 117949
Quality *index* of baking characteristics of winter wheat varieties. 121907
Study of correlation dependences of the ionic composition and *indices* of the **quality** of irrigation and carrier-drain water (1971—1972). 125235
Site *index* tables for shortleaf pine [Pinus echinata] in the Ozark Highlands of northern Arkansas and southern Missouri. 119549

INDICATORS

Hair as an *indicator* of the **availability** of calcium and phosphorus for animals. 117934
Chlorophyll A versus adenosine triphosphate as algal **biomass** *indicators* in lakes. 121201
Fixed funds as **economic** *indicators* of the effective use of machines in the transition to industrial production [East Germany]. 115406
Production as **economic** *indicators* of the effective use of machine system capacity in the transition to industrial crop production [East Germany]. 115415

Trade-offs between farm income and selected **environmental** *indicators*. A case study of soil loss, fertilizer, and land use constraints. 115456
Cash flow and working capital as *indicators* of the **financial** economy of agricultural enterprises. 115501
Scars as an *indicator* of **fire** frequency in the san Bernardino Mountains, California. 119352
Key *indicators* of successful logging jobs in the Northeast. 119836
Air quality diagnosis by means of lichens [Pollution, *indicator* **plants**]. 125395
A study of the comparative values of coliform and faecal streptococci as presumptive **pollution** *indicator* in rural drinking water. 125479
Indicator **properties** of tree barks in the emmission area of Frankfurt a. M. [Fraxinus excelsior, Acer platanoides, Tilia]. 120338
Revisions in Leptonchoidea (Nematoda: Dorylaimida). Tylencholaimellus, Doryllium, Gerthus n. gen. and Agmodorus in Tylencholaimellidae; and Aulolaimoides and Adenolaimus in Aulolaimoididae. [Soil nematodes, *indicator* **species** in environmental impact studies]. 124891
Attitudes toward food as *indicators* of **subcultural** value systems. 116336
Attitudes toward food as *indicators* of **subcultural** value systems. 116337
The effects of various components of water pollution on the behaviour of some aquatic macrophytes of the coastal rivers of Israel [Possible use as **toxicity** *indicator* plants]. 125381

INDIGENOUS

A revised classification of the North **Island** *indigenous* forests. 119517
Scientific appraisal of some medicinal plants in the *indigenous* & **modern** systems of medicine [India]. 116782
Seasonal changes and topographic features of the hair coat in **nothern** *indigenous* (Yakut) cattle. 117729
Antifertility screening of plants—effect of four *indigenous* **plants** [Cuminum cyminum, Hyptis suaveolens, Dolichos biflorus, Trianthema pentandra]. 119242
Composition of **soluble** *indigenous* saccharides from sugarcane. 117117
The natural resistance of some *indigenous* **woods** against Reticulitermes lucifugus [Pinus sylvestris, Abies alba, Picea abies, Fagus silvatica, Quercus robur]. 123462

INDIGESTION

Influence of ketonemia on the resistance of pregnant cows and the proneness of **calves** to *dyspepsia*. 119206

INDOLE

Effect of natural ultra-violet radiation on the content of auxins and growth inhibitors in barley [varieties] in Pamir in their natural condition and with artificial treatment with *beta-indole* **acetic** acid. 121487

INDOLEACETIC

Comparison of cytogenetic effects of IAA *[indoleacetic* **acid],** NAA [naphthaleneacetic acid] & 2,4-D [2,4-dichlorophenoxyacetic acid] in callus cultures of Haplopappus gracilis (Nutt.) Gray. 120759
Effect of 1-silatranylmethylic ester of *3-indoleacetic* **acid** on the growth of cultures of isolated plant tissues. 121030
The possible role of *indoleacetic* **acid** in the regulation of the respiration process. 121498
Studies on early seedling growth of rice with IAA, GA, CCC *[indoleacetic* **acid,** gibberellic acid, chlorocholine chloride]. 121569
Effect of cultural conditions on the synthesis of *heteroauxin* by **symbiotic** bacteria of Carex enervis C.a.m. 121099

INDUCERS

Glyceryl guaiacolate paralysis time in rats pretreated with some microsomal drug metabolizing **enzyme** *inducers*. 118458

INDUCTION

Spermatocyte chromosome **aberrations** *induced* by antibiotics in grasshoppers [Poecilocerus pictus. 2. Mitomycin-C. 124157
1,25-dihydroxycholecalciferol and *induction* of **alkaline** phosphatase in organ culture [Nutrition study]. 116463
Diet-induced **alterations** in distribution of multiple forms of alcohol dehydrogenase in Drosophila. 124095
Effects of chronic DDT/DDE exposure on **anesthetic** *induction* and recovery times in rainbow trout (Salmo gairdneri). 123730
Induction of **apospory,** callus, and correlated morphogenetic studies in Athalamia pusilla Kash [Hepaticae]. 120490
A **calcium** *ionophore-induced* secretion in rabbit lacrimal gland in vivo. 117846
The developmental patterns of lysosomal enzyme activities during Ca2+ [**calcium** *ion]-induced* sporangium formation in Achyla bisexualis [Fungi]. III. Ribonucleases. 120917
The incorporation of 3H-thymidine during *induction* of **callus** of excised barley embryos [by 2,4-D as a growth substance]. 121431
Induced **calving.** 118254
Lipid vesicle-cell interactions. II. *Induction* of **cell** fusion [Chicken blood]. 117801
An interpretation of dose-response curves for *light-induced* **cell** elongation in fern protonemata [Onoclea sensibilis Dryopteris filix-mas]. 120863
Scanning electron microscopy of syncytial transfer **cells** *induced* in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
Studies on the chemical **changes** *induced* by the infection of the rootknot nematode (Meloidogyne incognita) in tomato & eggplant & the stunt nematode (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
Induced mutations in foxtail millet (Setaria italica Beauv.). II. Viable mutations in ear **characters** *induced* by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Peculiarities of male sterility in perennial grasses during its *induction* by **chemical** mutagens. 120709
Cation effects on *light-induced* **chlorophyll** a fluorescence in chloroplasts lacking both chlorophyll b and chlorophyll-protein complex II [Barley]. 121538
Changes in canine saliva ion **concentration** *induced* by increased intraluminal pressure. 117533
Ca2+ [calcium ion] *induced* **conformational** changes of spin-labeled g2 chain bound to myosin [isolated from rabbit white muscle] and the effect of phosphorylation. 117779
Protein crystals and bundles of tubules in yeast cells. IV. Biochemical and electronmicroscopical studies on the *induction* of **crystals** of alcohol dehydrogenase (ADH) [Saccharomyces carlsbergensis]. 121389
Decompression-induced **decrease** in nitrogen elimination rate in awake dogs. 117773
Loss of *inducible* **D-galactose** transport by baker's yeast [Saccharomyces cerevisiae] after osmotic treatment. 121065
Action of photoperiod on **diapause** *induction* in Mamestra brassicae (Lepidoptera, Noctuidae). 123814
Calf **diarrhea** *induced* by coronavirus and a reovirus-like agent. 118823
Use of *induced* **dwarf** mutants in breeding soft winter wheat. 120751
Ecdysterone *induced* ovarian inhibition in the cotton bug, Dysdercus cingulatus. 123300
Possibilities of *inducing* **economically** useful mutations in maize by seed treatment with ethyl methanesulphonate and N-nitroso-N-methylurethan. 120647
Correlation between beta-galactosidase and *auxin-induced* **elongation** growth in etiolated pea stems. 121753
Environmentally *induced* changes in mitochondria and endoplasmic reticulum of Saccharomyces carlbergensis yeast. 121174
Light-induced **enzyme** synthesis in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
Galactose-induced **ethylene** evolution in mung bean hypocotyls: a possible mechanism for galactose retardation of plant growth. 121750
Decoquinate in the control of **experimentally** *induced* coccidiosis of calves. 118599
Experimentally *induced* acute gastric dilatation in the dog: cardiopulmonary effects. 119107
Experimentally *induced* acute gastric dilatation in the dog: clinicopathologic findings. 119108
Induced **feline** urethral obstruction: response to hyperkalemia to relief of obstruction and administration of parenteral electrolyte solution. 119110
Qualitative analysis by isoelectric focusing of the protein content of Pharbitis nil apices and cotyledons during **floral** *induction*. 121322
RNA metabolism in apices of Pharbitis nil during **floral** *induction*. 121323
Action of nitrite on **fluorescence** *induction* in algae [Bumilleriopsis filiformis, Scenedesmus acutus]. 121329
Mechanism of the thinning action of NAA [naphthaleneacetic acid] in Japanese persimmon (kaki) fruits. II. Effects of NAA applied at various stages of fruit growth on the *induction* of **fruit** drop and the activity of endogenous growth substances and some enzymes in fruit tissues. 122404
Induced **genetic** sterility in safflower. 120760
Gibberellic *acid-induced* germination of spores of Anemia phyllitidis: nucleic acid and protein synthesis during germination [Pteridophyta]. 120865
Reverse plaque formation by hog cholera virus of the **GPEstrain** *inducing* heterologous interference. 118765
Effects of photoprotection and reversible inactivation of yeast Candida **guilliermondii** *induced* by 313nm [ultraviolet] light. 121031
Juvenile **hormone** *induced* biosynthesis of vitellogenin in Leucophaea maderae from large precursor polypeptides. 123946
A system for *inducing* **hyperthermia** in [pregnant] sheep. 118366
Light-induced **increase** in the activity of maize plastid DNA-dependent RNA polymerase. 121453
DCMU [3(3,4-dichlorophenyl)-1,1-dimethylurea] *induced* **inhibition** of growth, photosynthesis and motility in Eudorina elegans cultures [Algae, herbicides]. 123061
Induction of the **insect** vitellogenin in vivo and in vitro [leucophaea maderae]. 123941
Induction of **juvenile** leaf form in a palm (Caryota mitis) by gibberellin. 120441
Induction of **local** & systemic resistance in Nicotiana glutinosa against tobacco mosaic virus by leaf extract of dahlia. 122842
Induction of **meiotic** anomalies in Allium cepa L. [Onions] by urea. 120474
Barrier-induced **microclimate** and its influence on growth and yield of winter wheat [Windbreaks]. 119377
Effect of *photo-induction* on **micronutrient** content of leaves in Biloxi soybean glycine max Merrill. 121501
UV *[ultraviolet]-induced* **mitotic** recombinations in somatic cells of Drosophila melanogaster. 124090
Ultrastructural changes in tobacco **mosaic** *virus-induced* local lesions in Nicotiana tabacum L. cv. "Samsun NN". 122857
Induced **mutants** in silkworm (Bombyx mori L.). 124529
Improvement of scented rice varieties (Basmati 370) through *induced* **mutation.** 120619
Results from using *induced* **mutation** in cabbage (Brassica capitata Lizg.) [for creating initial breeding material]. 120648
Development of *induced* **mutations** in opium poppy [Papaver somniferum]. 120836
Induced **mutations** in foxtail millet (Setaria italica Beauv.). II. Viable mutations in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Induced **mutations** and plant breeding. 120845
Noise *induced* hearing loss [Noise hazards on the farm]. 125490
Persistence of antibody of feline **panleucopaenia** *induced* by a modified live virus vaccine. 118799
Sequential changes of estrogens and progesterone at *prostaglandin-induced* **parturition** in the sow. 118201
Needle—not the knife! *[Induction* of **parturition** in cattle]. 118251
Chemical structure of glycorticoids and *induction* of **parturition** in the cow. 118395
Preliminary studies of the effects of an *induced* **phosphate** deficiency on carbohydrate-nitrogen ratios in Alternanthera philoxeroides (Centrospermae: Amaranthaceae) and on the feeding of Agasicles hygrophila (Coleoptera: Chrysomelidae). 123905
An ultrastructure study of tumor cells of Haworthia [variegata] **plants** *induced* by 2,4-D [(2,4-dichlorophenoxy) acetic acid]. 120537
Polyploidy in Hemerocallis. *Colchicine-induced* **polyploidy** in Hemerocallis. 120764
Effect of bud-pollination and delayed self-pollination on the *induction* of a **possible** rejection peroxidase in styles of Nicotiana alata. 121582
Requirement of an essential thiol group and ferric iron for the activity of the *progesterone-induced* **procine** uterine purple phosphatase. 117794
Modifications of a cultivar of alfalfa and of its **progenies** *induced* by an initial competition with cocksfoot. 120799
Phenylalanine ammonia-lyase. *Induction* and **purification** from yeast [Rhodotorula glutinis] and clearance in mammals [Rabbits]. 121168
Gamma **ray** *induced* early bulbil formation & growth abnormalities in Kalanchoe daigremontiana H. & P. 121137
Histochemical studies on pigeon definitive feathers during post-hatching, *induced* and **regenerative** modes of development. IV. Succinate and malate dehydrogenases. 117874
On the bud dormancy of grape varieties. 1. Effect of endogenous free abscisic acid and gibberellic acid on the bud dormancy and the *induction* of their **regrowth** during the growing season. 121721
Absence of oxygen effect for *induction* of **resistance** to ionising radiation [Algae, Chlamydomonas reinhardii]. 121292
The X-ray treatments to *induce* **somatic** mutation in Chrysanthemum morifolium Ram. II. The imductive dosage of somatic mutation in Chrysanthemum cultivars. 120771
Temperature-induced **species** competition in mass cultures of marine phytoplankton [Algae]. 120319
Induction of **specific** proteins in hyphae of Achlya ambisexualis by the steroid hormone antheridiol [Fungi]. 121296
The *tumor-inducing* **substance** of Agrobacterium tumefaciens. 122798
The biochemical studies on diapause, its *induction* & **termination** in Trogoderma granarium Everts (Coleoptera: Dermestidae). 123974
Induction of **textural** changes in sweetpotato roots by chilling [Hardcore, storage diseases]. 117281
Stimulation of corneal differentiation by interaction between cell surface and extracellular matrix. II. Further studies on the nature and site of **transfilter** *"induction"* [Chick embryos]. 117648
Gel electrophoretic studies of proteins in *photo-induced* and **vegetative** plants of Impatiens balsamina. 121755
The in **vitro** *induction* of puffing in salivary glands of the mutant l (2)gl of Drosophila melanogaster by ecdysone. 124173

INERTIA

Compensating for environmental variability in the **thermal** *inertia* approach to remote sensing of soil moisture. 124836

INFANCY

Efficiency and effectiveness in the W.I.C. Program delivery system. The Special Supplemental Food Program for Women, *Infants,* and **Children** [intended to serve individuals at "nutritional risk"]. 116484
Plasma amino acids of *infants* **consuming** soybean proteins with and without added methionine. 116436

Obesity in young men after famine exposure in utero and **early** *infancy.* 116491
Development of digestive and absorptive function in the human fetus **[Newborn** *infant].* 116494
Infant **nutrition** in East Harlem. 116346

INFARCTION

Cholesterol among children of men with **myocardial** *infarction.* 116525

INFECTION

Immune complex extracted from **acutely** *infected* malarious chicken kidneys: physico-chemical properties of antigen part [plasmodium gallinaceum]. 118746
Effect of *infection* by **arhar** mosaic virus on the Hill reaction and primary productivity of pigeonpea (arhar) leaves. 122840
Artificial *infection* of scale-insect with entomophagous fungi Verticillium lecanii and Aspergillus candidus [Biological control of the citrus pest Coccus Hesperidum]. 123395
Spontaneous recovery of a dog **artificially** *infected* with rabies. 118911
A line of ring-necked pheasant cells susceptible to *infection* by **avian** oncornaviruses. 119037
Tetanus [Clostridium tetani] in the horse. Clinical course, prognosis, and prophylaxis **[Bacterial** *infections].* 118682
Interesting doctoral work by a Norwegian veterinarian [Pasteurella multocida, **bacterial** *infections* in turkeys]. 118859
Pseudomonas aeruginosa as the causative agent of *infections* in **birds** [Chickens]. 118994
The role of varietal differences and qualitative condition of apples in their *infection* with **bitter** rot [Gloeosporium perennans, Gloeosporium album]. 122627
Extracellular antigens of Moraxella bovis [the principal cause of *infectious* **bovine** keratoconjunctivitis]. 118602
Isolation of a I.B.R *[infectious* **bovine** rhinotracheitis] from a calf after corticosteroid treatment. 118612
Antibody class and complement requirement of neutralizing antibodies in the primary and secondary antibody response of cattle to *infectious* **bovine** rhinotracheitis virus vaccine. 118618
Service infections, especially IBR/IPV *[infections* **bovine** rhinotracheitis/infectious pustular vulvovaginitis], a problem for state animal disease control [West Germany]. 118657
Occurrence of *infection* by **bovine** herpes virus (IBR-IPv) [infectious bovine rhinotracheitis/infectious pustular vulvovaginitis] in bulls at an insemination station. 118834
Determination of antibodies in *infectious* **bovine** rhinotracheitis-infectious pustular vulvovaginitis of cattle. 118876
On the immunogenic properties of a polyvalent inactivated vaccine from respiratory viruses (IBR *[infectious* **bovine** rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990
Study on the immunogenic properties of inactivated vaccines produced with the *infectious* **bovine** rhinotracheitis virus. 118997
Isolation of *infectious* **bronchitis** virus from broiler chickens in Chile. 118635
Serologic differences between strains of *infectious* **bronchitis** virus from New Zealand, Australia, and the United States [Chickens]. 118640
Fowlpox with the symptoms of *infectious* **bronchitis.** 118646
Seasonal development of symptoms of *noninfectious* **bud-failure** in almond (Prunus amygdalus Batsch). 122970
Effect of *infectious* **bursal** agent on the response of chickens to Newcastle disease and Marek's disease vaccination. 118627
Electron-microscope studies on the pathogenesis of *infectious* **bursal** disease after intrabursal application of the causal virus. 118628
Immunization of adult hens against *infectious* **bursal** disease virus. 118633
Role of the bursa of Fabricius in the pathogenicity of inclusion body hepatitis and *infectious* **bursal** disease viruses [Chickens]. 118639
Occurrence of keratinophilic fungi on lifeless organic substance in the environment of **calfs** *infected* by Trichophyton verrucosum. 118847
A note on *infectious* **canine** hepatitis in Punjab. 118750
Dermatophilus [congolensis] *infection* in **cattle,** goats and sheep in East Africa. 118704
Epizootiology of Dermatophilus [congolensis] *infection* in **cattle** in the Accra Plains of Ghana. 118710
Disseminated cryptococcosis [an *infection* **caused** by the yeast-like fungus Cryptococcus neoformans] with ocular involvement in a dog. 118776
Subcellular localization of 3-hydroxy-3-methylglutaryl coenzyme A reductase and other membrane-bound enzymes in sweetpotato roots [healthy and *infected* with **Ceratocystis** fimbriata]. 121760
Erecting hygiene chains through interruption of *infection* **chains** and motivation of co-workers [Food handling]. 116088
Infection of **chick** cells by subgroup E viruses. 119039
Ultrastructure of *infection* of **Cokeromyces** recurvatus by Piptocephalis unispora (Mucorales) [Fungi]. 120415
Histopathological changes in natural and experimental Dermatophilus **congolensis** *infection* of the bovine skin. 118711
The probable relationship of rainfall to Dermatophilus **congolensis** *infection* in sheep. 118715
Influence of shading & dodder [Cuscuta] *infection* on the **content** & nature of alfalfa phenolics. 123089
Disease prevention; sources of *infection* & **control** [Poultry]. 118883
Infection of **dairy** calves with corona virus and bovine virus diarrhea. 118951
The treatment of *infection* by **Dermatophilus** congolensis with particular reference to the disease in cattle. 118717
Thymidine metabolism and DNA synthesis in Newcastle **disease** *virus-infected* cells. 118810
Infectious **diseases** involving sterility and fetal death/abortion in sows. 118855
Double *infection* of sheep and goats in Kenya with orf virus and Dermatophilus [congolensis]. 118708
The best weapon against EIA **[Equine** *infectious* anemia, viral diseases of horses]. 118592
Equine *infectious* anemia [Viral diseases]. 118681
Hemagglutination by **equine** *infectious* anemia virus. 118761
Equine *infectious* anemia virus: evidence favoring classification as a retravirus. 118802
Apparent propagation of the **equine** *infectious* anemia virus in a mosquito (Culex pipiens quinquefasciatus Say) orvarian cell line. 123597
Caution during sterilization [of beekeeping **equipment** *infected* with foulbrood]. 124497
Actinobacillus **equuli** *infections* in foals. 118948
Comparative electron microscopic study of the cysts of Sarcocystis fusiformis (Railliet 1897) in the muscle fibers of naturally infected cattle and after **experimental** *infections* of calves by sporocysts of Isospora hominis and the large forms of Isospora bigemina from cat and dog. 118894
Experimental *infection* with Bovid Herpesvirus 2 [Heifers]. 118984
Experimental *infection* of the nutria with RN strain of toxoplasma. 119026
The efficiency of Praziquantel against tapeworms in **experimentally** *infected* dogs and cats. 118663
Isolation of rabies virus from apparently healthy dogs **experimently** *infected.* 118908
Studies on the etiology of **feline** *infectious* peritonitis, preliminary communication. 118659
A case of **feline** *infectious* anemia (haemobartonellosis) [Haemobartonella felis] with simultaneous feline leukemia virus. 119043
Epidemiological research into Vibrio **fetus** *infection* in cattle. 118648
Changes in the soluble protein constitution of cucumber cotyledons **following** *infection* with two strains of cucumber mosaic virus. 122852
A study of **fungal** *infection* in the dung fly, Scathophaga stercoraria L. (Diptera, Scathophagidae) [Predators of pasture pests]. 123312
Dicrocoelium dendriticum analogous changes in behavior of ants of the genus Formica [pratensis] after *infections* with a **fungus** of the genus Entomophthora. 124175
Effect of some microelements on Heterakis **gallinarum** *infection* [in birds]. 118981
Use of the agar-gel precipitin test to evaluate broiler breeder and commercial layer flocks [chickens] for Mycoplasma **gallisepticum** *infection.* 118642
Some observations on Dermatophilus [congolensis] *infection* in The **Gambia** with particular reference to the disease in sheep. 118713
Morphological studies of **hookworms** *infecting* man and dog at Patna, Bihar [Ancylostoma duodenale, Ancylostoma caninum]. 118747
Survey of Dirofilaria **immitis** *infection* among dogs at Fort Dix & McGuire Air Force Base, New Jersey. 119058
Prevention of the hypersensitive reaction of potato cells to *infection* with an **incompatible** race of Phytophthora infestans by constituents of the zoospores. 122712
Influence of a cutaneous wound on the development of the densonucleosis in larvae of Galleria mellonella L., Lepidoptera, *infected* by **ingestion.** 123904
Infectious **keratitis** [Moraxella bovis] in cattle. 118667
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the herbage infestation with *infective* **larvae** [Parasitic worms]. 118862
Survival of *infectious* **larvae** of horse strongylid nematodes in pasture grass; a preliminary field study. 118956
The role of spores and crystals of Bacillus thuringiensis Berliner in the *infection* of **Laspeyresia** pomonella L. (Tortricidae). 123810
Latent *infections* and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of three Prunus [cerasifera, Prunus mahaleb, Prunus avium] species. 122810
Changes in soluble proteins in potato **leaves** *infected* with Phytophthora infestans. 122741
Dermatophilus [congolensis] *infection* [of **livestock**] in the subtropical zone of South America. 118706
Dermatophilus [congolensis] *infections* [of **livestock**] in the United States. 118707
Beetles (Coleoptera) as new intermediate hosts of helminths *[Infecting* **livestock].** 123674
Epidemic abortion in the dog (Beagle) and the possibility of *infection* for **man.** 118854
Further studies on the efficacy of thiabendazole given in the diet of **mice** *infected* with Hymenolepis nana, Syphacia obvelata and Aspiculuris tetraptera. 119007
On the distribution of **microorganisms** *infecting* the larvae of Euproctis chrysorrhoea L. (Lepidoptera, Lymantriidae) near Kosova, Yugoslavia [Natural control]. 123225
Effect of *infection* by **Microsphaera** alphitoides (powdery mildew) on carbohydrate levels and translocation in seedlings of Quercus robur. 122684
Effect of the systemic fungicide PP 149 on rate of powdery **mildew** *infection,* yield amount, morphology and tissue structure of leaves in summer barley varieties. 122610
Studies on the influence of *infection* with **mosaic** (Beta virus 2) and yellows (Beta virus 4) on the yield quality of sugarbeet seeds. 122836
A messenger RNA for capsid protein isolated from tobacco **mosaic** *virus-infected* tissue. 122872
Sites of coat protein accumulation in turnip yellow **mosaic** *virus-infected* cells. 122878
Immunoperoxidase localization of Sindbis virus antigen in infected vertebrate and *infected* **mosquito** cells [Culicidae]. 123659
Hexamita **muris** *infection* in a mouse and European hamster breeding unit. 119065
Comparison of antigens of Dermatophilus congolensis isolates and their use in serological tests in experimental and **natural** *infections* [Fungal pathogen of livestock]. 118700
Affection rate of reindeer with some *infectious* having **natural** foci. 118719
Use of **natural** *infectious* backgrounds in the breeding and pomological studies of fruit varieties [Immunological evaluatin, fungus diseases]. 122785
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the muscle meat of **naturally** *infected* swine [Storage of infected pork]. 116252
Comparative electron microscopic study of the cysts of Sarcocystis fusiformis (Railliet 1897) in the muscle fibers of **naturally** *infected* cattle and after experimental infections of calves by sporocysts of Isospora hominis and the large forms of Isospora bigemina from cat and dog. 118894
The epidemiology of common root rot [Cochliobolus sativus] in Manitou wheat. IV. Appraisal of biomass and grain yield in **naturally** *infected* crops. 122590
Relationship of fire blight [Erwinia amylovora] resistance of young pear seedlings inoculated in the greenhouse to mature seedling trees **naturally** *infected* in the field. 122811
Nonpermissive *infection* of L cells by an avian reovirus: restricted transcription of the viral genome [Chicken embryo fibroblasts]. 118806
The biology of Harveyella mirabilis (Cryptonemiales; Rhodophyceae). V. Host responses to **parasite** *infection* [Algae]. 121219
On the occurrence of Bacillidium sp. A microsporidian **parasite** *infecting* some thrips larvae [Thrips flavus, Scirtothrips oligochaetus, cotton pests]. 123303
Investigation on the *infection* **pathway** of Drechslera graminea in germinating barley. 122578
Histological examinations of parasitized, *Entomophthora-infected* **pea** aphids, Acyrthosiphon pisum [Natural control]. 123420
Distribution of oil or other diethyl ether extractable material in various fractions of **peanuts** *infected* with selected fungi. 122643
A comparative study of the *infection* of **perennial** reygrass [Lolium perenne] by Fusarum nivale and Fusarium culmorum in sterilized soil. 122560
Genesis and maintenance of a **persistent** *infection* by canine distemper virus. 118788
Mineral contents of the blood and chemical composition of the muscles of *Trichinella-infected* **piglets.** 118970
Giant cell pneumonia associated with lungworm [Metastrongylus apri, Metastrongylus saline] *infection* in **pigs.** 118731
Otomycosis in the dog from *infection* by **Pityrosporum** ovale. 118693
Fluorescence microscopy and related enzyme activity of sunflower **plants** *infected* by Plasmopara halstedii. 122703
Study of ringerpest virus (tissue culture adapted strain) with reference to its *infectivity* and **plaque** formation in different cell system. 118739
Anther and **pollen** *infection* in relation to the pollen and seed transmissibility of two strains of barley stripe mosaic virus in barley. 122826
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the muscle meat of naturally infected swine [Storage of *infected* **pork].** 116252
Post *infection* changes in nitrogen metabolism of pumpkin (Cucurbita maxima D.) as affected by yellow mosaic virus. 122843
Incidence of *[infectious]* **poultry** diseases in capital [India]. 118884
Comparative **primary** *infection* characteristics of Ustilago striiformis and Urocystis agropyri [leaf smuts] on cultivars of Poa pratensis. 122725
Ultrastructural changes in leaf cells of Chenopodium **quinoa** *infected* with potato virus S. 122856
Anti-liver antibody in **rabbits** *infected* with Schistosoma japonicum. 118595
Natural resistance of an African rodent Praomys (Mastomys) natalensis to **rabies** *infection.* 118614
Dynamics and character of *infection* **rate** of tulips by [fungus and bacterial] diseases in the Main Botanical Garden of the USSR Academy of Sciences. 122585
Enzymatic removal of the 5' terminal methylated blocked structure of tobacco mosaic virus RNA and its effects on *infectivity* and **reconstitution** with coat protein. 122834
Localization of peroxidase in **Rhizoctonia** *solani-infected* cotton seedlings [Sore-shin]. 122731
Increased transpiration and the accumulation of root absorbed 86Rb [rubidium isotope] in barley leaves in *infected* by **rhynchosporium** secalis (leaf blotch). 122706
Changes in CO2 [carbon dioxide] and water vapour exchange rates in leaves of Quercus **robur** *infected* by Microsphaera alphitoides (powdery mildew). 122702
Studies on the chemical changes induced by the *infection* of the **rootknot** nematode (Meloidogyne incognita) in tomato & eggplant & the stunt nematode (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
The occurrence and some properties of 3-hydroxy-3-methylglutaryl coenzyme A reductase in sweet potato **roots** *infected* by Ceratocystis fimbriata. 122720

Early post-embryonic changes in protein metabolism and DNA synthesis in the thymus of chicks, normal and *infected* with **Salmonella** pullorum; autoradiographic study. 118928
Relative susceptibility of mammals to *infection* with **Schistosoma** incognitum. 118737
Levels of prostaglandins in the small intestine of rats during primary and **secondary** *infection* with Nippostrongylus brasiliensis. 118768
Effects of nonfumigant nematicides on root populations and manganese and zinc levels in rough lemon **seedlings** *infected* with the citrus nematode, Tylenchulus semipenetrans. 123016
Service *infections*, especially IBR/IPV [infections bovine rhinotracheitis/infectious pustular vulvovaginitis], a problem for state animal disease control [West Germany]. 118657
Dermatophilus [congolensis] *infection* [of **sheep**] in the United Kingdom. 118705
Cytoplasmic changes during and after *infection* of **soybean** root nodule cells with rhizobia [Nitrogen-fixing bacteria, Rhizobium japonicum]. 121530
Effect of host enzyme extracts on the electrophoretic forms and **specific** *infectivity* of cowpea mosaic virus. 122853
The role of [chick] hatcheries in **spreading** *infectious* diseases. 118935
Freeing tobaco from mycoplasmic **stolbur** *infection* by the method of tissue culture. 120343
The influence of Ascaris **suum** *infection* upon growth rates in pigs [Parasitic worms]. 118864
Application of ursokoxalin and vitamin K3 substitution to influence relative prothrombin concentration in laying hybrids with Eimeria **tenella** *infection*. 118825
Effects of viral protein, viral RNA, and some other polyelectrolytes on *infection* of **tobacco** protoplasts by TMV [tobacco mosaic virus]. 122875
Toxic *infections* of Ovidae. II. [Enterotoxemia, sheep]. 118868
A refinement of the immunofluorescent complement fixation test for **Trypanosoma** *infections* [in animals]. 118969
Potato cyst nematode—danger of *infection* with use of **uninspected** seed potatoes. 122985
Immunoperoxidase localization of Sindbis virus antigen in *infected* **vertebrate** and infected mosquito cells [Culicidae]. 123659
Phytoalexin production by lucerne (Medicago sativa L.) in response to *infection* by **Verticillium**. 122710
SEM [scanning electron microscopy] of vesicular stomatitis **virus** *infection* in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Fetal and adult bovine interferon production during bovine viral diarrhea **virus** *infection*. 118760
Serological demonstration of virus-specified proteins associated with cucumber mosaic **virus** *infection* of cucumber cotyledons. 122855
Changes in protein, fat & glycogen in the larvae of rice moth Corcyra cephalonica St. during nuclear polyhedrosis **virus** *infection*. 123968
Insect **virus** *infection* of a poikilothermic vertebrate cell line: electron microscopy [Chilo iridescent virus]. 124127

INFERTILITY *see* FERTILITY

INFESTATION

A flotation method for the analysis of chalcid-fly, Bruchophagus kolobovae Fedoseeva, *infested* **birdsfoot** trefoil, Lotus corniculatus L. seed. 123172
Development of sampling technique for estimating population of Tetranychus neocaledonicus Andre, *infesting* **brinjal** [eggplants]. 123360
Study of plasmatic alkaline phosphate in *infestations* [of **chickens**] by Eimeria acervulina. 118607
Dracunculus medinensis (guinea worm) *infestation* in a **dog** and its treatment with "Flagyl." A case report. 118752
Rhipicentor [nuttalli] *infestation* in the **dog:** a case report. 123662
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the **herbage** *infestation* with infective larvae [Parasitic worms]. 118862
Greater attention being paid to the prophylaxis of **Hypoderma** *infestation* [of cattle]. 123677
Succession of [insect] *infestation* in **illipe** nuts in Sarawak an example of a cash crop problem. 123559
Factors affecting the establishment of ryegrass [Lolium] seedlings in soldier fly **[Inopus** *rubriceps]-infested* land. 123336
The use of Skylab data to study the early detection of **insect** *infestations* and density and distribution of host plants [Remote sensing]. 123237
The importance of taxonomy and of laboratory studies on the biology, nutrition and physiology of **insects** *infesting* stored products. 123567
Note on *infestation* of **Malagasy** lemurs by Spirocerca lupi (Rudolphi, 1809). 118903
Infestation of **melon** seedlings by the larvae of the root-knot nematode, Meloidogyne incognita. 123004
Ditylenchus [dipsaci] *infestation* and the **nematode** fauna of garlic in Moldavia. 123002
The role of sterols in the relations between potato [plants] and **Phytophthora** *infestans* [Blight]. 122609
Behaviour of **Phytophthora** *infestans* (Mont.) de Bary on potato tubers in relation to lenticel resistance. 122701
Prevention of the hypersensitive reaction of potato cells to infection with an incompatible race of **Phytophthora** *infestans* by constituents of the zoospores. 122712
Changes in soluble proteins in potato leaves infected with **Phytophthora** *infestans*. 122741
Fishing for aphids [Acyrthosiphon **pisum** *infesting* alfalfa]: the exploitation of a natural population. 123315
Characteristic of water-soluble fraction of proteins from organs of **plants** *infested* by root-knot nematodes [Vegetable and melon crops]. 123001
Field observations on the resistance of **poplars** *infested* by Melampsora sp. 122573
The susceptibility of different types of maize to **post-harvest** *infestation* by Sitophilus zeamais and Sitotroga cerealella, and the importance of this factor at the small-scale farm level. 123571
The effect of soil temperature and of *infestation* by **Pratylenchus** loosi on the growth and nutrient status of a susceptible and tolerant variety of young tea (Camellia sinensis L.). 123040
The use of chemicals in processing and packaging of stored products to **prevent** *infestation* [by stored-product insects]. 123573
[Insect] *infestation* **problems** in farm-stored maize in Nicaragua. 123577
Synthesis of RNA and protein, with ribonuclease activity, in carrot **roots** *infested* with Meloidogyne hapla Chitw. [Nematodes]. 123014
Chemoprophylaxis for Anoplocephala to *infestations* of **sheep** [Moniezia, Thysaniezia]. 119020
Prophylaxis of gadfly [Oestrus ovis] *infestation* of **sheep**. 123679
Climate and the *infestation* of **stored** cereals by insects. 123526
The conduct of field [insect] *infestation* **surveys** and the economic use of their results. 123562
The effect of gamma radiation on the cysticerci of Taenia solium **[Tapeworm** *infested* swine, meat contamination]. 118871
Black turpentine beetle [Dendroctonus frontalis] *infestations* after **thinning** in a loblolly pine [Pinus taeda] plantation. 123500
Ice damage in a mixed hardwood forest in Connecticut in relation to Vitis **[Grape vines]** *infestation*. 122918

INFILTRATION

Chemical analysis for chitin as a measure of **fungal** *infiltration* of cellulosic materials [Cotton, jute, and paper]. 117195
Prediction of *infiltration* into **layered** field soils in relation to profile characteristics [of a Cecil soil]. 124914
The possibility of using the method of electric resistance for the evaluation of *infiltration* **parameters** of soil (1970-1973). 124811
Urinary *infiltration* of the young bull. 119073

INFLAMMATION

Neutrophil leukocytes and *inflammation* of the **bovine** mammary gland. 118963
Biological and phytochemical evaluation of plants. XIV. *Antiinflammatory* **evaluation** of 163 species of plants. 121245

INFLATION

Lung *inflation* and alveolar permeability to non-electrolytes in the adult sheep in vivo. 117827

INFLORESCENCE

Further investigations on the property of chromatins from apical and axial parts of **cauliflower** *inflorescence*. 121643
Structure of a **perennial** *inflorescence* of Ruscus hypoglossum L. 120423
[Classification of] *inflorescence* **units** in the Cyperaceae. 119936

INFLUENZA

Suppression of glycoprotein formation of Semliki forest, *influenza*, and **avian** sarcoma virus by tunicamycin. 118809

INFORMATION

The Flora North **America** *Information* System [Abstract only]. 120049
Optical vs. Electronic enhancement of remote sensing imagery [for *information* **as** to the **amount** and condition of such earth resources as timber, forage, soils, water, minerals and agricultural crops. 125487
Effect of sampling errors on efficiency of selection indices. 2. Use of *information* on **associated** traits for improvement of a single important trait [Animal breeding]. 118208
Climatic *information* from 18O/16O ratios of cellulose in tree rings. 119760
The **effective** *information* contents of the dance of the honey bee [Apis mellifera]. 124511
South Louisiana remote-sensing **environmental** *information* system [Water resources]. 125275
Interview technique for collecting **farm** *information*. 115137
Information **flow** of land- and water-related data in the state of Wisconsin [Remote sensing]. 115251
The uses of electronic data processing for herbarium specimen **label** *information*. 120052
An efficient method for the capture and transmission of [plant] specimen **label** *information*. 120284
Information **management** and use of TAXIR in herbaria [Computer system]. 120043
Playing with probabilities: one key to **meeting** *information* objectives [Foresters, inventory design and sampling design]. 119477
The large area crop inventory experiment (Lacie). II. Yield etimates from **meteorological** *information* [Remote sensing]. 115157
Flow of *information* in the **network** of institutions concerned with the inspection and chemical analysis of food. 116086
New *information* on weed control in rape. 123106
New *information* in the field of weed control in cereals. 123107
Food: resource *[Information* on **nutrition,** bibliographies]. 116344
Louisiana comprehensive **planning** *information* system [Remote sensing]. 115257
Arrangement of **political** *information* in rural labor collectives. 115163
Aspects and problems of animal nutrition: *information* and **reflections** on the use of meals derived from rape. 117379
European Community study on *information* **retrieval** systems for the field of literature in veterinary medicine. 118494
Documentation and *information* **retrieval** in irrigation research. 125292
Satellite *information* on Orlando, Florida [Land use]. 115267
Contribution of French Lepidoptera to the mapping of European invertebrates. IV. Request for *information* on **Satyridae.** 124205
Selected *information* source perceptions and use patterns in one rural Ohio county: an analysis. 115108
Animal Health Field **Service** *information* (proposal for a change). 118585
Supplementary notes on **taxonomic** *information* in relation to E.d.p. [Electronic data processing]. 120045
A multiple resource **wildlands** *information* system for environmental impact assessment modeling [Forest resources]. 119462

INFRARED

Infrared **examination** of lacquers for containers of preserved foods. 116761
Description of an *infrared* **irradiation** of quartz glass for the determination of mercury in water and food. 116074
The use of *infrared* and **microwave** radiation for control of stored-product insects. 123575
Wax secretion in the *infrared* **sensory** pit of Melanophila acuminata (Coleoptera: Buprestidae). 124136
Quantitative study of secondary structure of [calf thymus] histones H1, H2A, and H4 in solution by *infrared* **spectroscopy.** 117666
Thermal *infrared* photography of forest fire control. 119322
Radiofrequency, *infrared*, and **ultraviolet** radiation for control of stored-product insects: prospects and limitations. 123551

INFRASTRUCTURE

The role of *infrastructure* **development** in IRD [integrated rural development] development projects. 115886

INFUSION

Changes in parotid salivary flow during **intracarotid** *infusion* of potassium chloride into conscious sheep. 117822
Pituitary-testicular responses in rams to **prolonged** *infusions* of luteinizing hormone-releasing hormone (LHRH). 118226

INGESTION

Duck deaths from **accidental** *ingestion* of anthelmintic [2,2-dichlorovinyl dimethyl phosphate]. 118623
Plasma transport forms of *ingested* **fatty** alcohols in the rat. 116479
Influence of a cutaneous wound on the development of the densonucleosis in larvae of Galleria mellonella L., Lepidoptera, **infected** by *ingestion*. 123904
Dynamics of ecdysone metabolism after *ingestion* and **injection** in Locusta migratoria. 123921
Sublethal effects of chronic **lead** *ingestion* in mallard ducks. 119260
[Chicken] poisoning produced by the *ingestion* of the **pesticides** aldrin and dieldrin. 119227
Hydrogen cyanide production by field-grown sorghums [Toxic when *ingested* by **stock**]. 121524

INGREDIENTS

[Feed] *ingredient* **analysis** table: 1976 edition. 117341
Variability in the chemical composition of rapeseed meal **[Feed** *ingredient].* 117330
Quality control of protein **feed** *ingredients* in poultry. 117373
Layers improve with DPW [Dried poultry waste, **feed** *ingredient].* 118146
Raw sausage for spreading-recipes, technology and experience *[Ingredients* and **manufacture].** 116952
Colour changes in vegetables through **phenolic** *ingredients*. 117238

INGUINAL *see* GROIN

INHABITING

Distribution and seasonal periodicity of **sediment** *inhabiting* diatoms in the Waddensea and the Ems-Dollard estuary [Algae]. 120303

INHALATION

A personnel hazard: operating room environment pollution *[Inhalation* **anestherics].** 118461

INHERITANCE

Inherited **behavior** patterns of the honeybee [Apis mellifera] colony as a basis of modern management. 124485
Inheritance of the **characters** of hairiness of leaf blade and root colour in radish. 120643
Inheritance of some **characters** in crosses between inbred lines of Bombyx mori L. for commercial feeds during summer and autumn months. I. Cocoon, shell and pupal weights. 124530
Inheritance of **clustered** spikelets and ligule pigmentation in rice, Oryza sativa Linn. 120820
Inheritance of **dwarfing** and some characters in the mutants of Zeelandzkie rye [Varieties, Poland]. 120668
Inheritance of some **features** in winter wheat hybrids. 120830
Variability and *inheritance* of **heat** tolerance in domestic animals. 118317
Protein content in spring wheat varieties and its *inheritance* by **hybrids.** 120831
Plastid *inheritance* in Chlamydomonas reinhardtii [Algae]. 120607
Inheritance of the **powdery** mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Inheritance of **resistance** to Corynebacterium michiganense in tomato [crosses]. 120790
Inheritance and **synthesis** of chloroplasts and mitochondria of Euglena gracilis [Algae]. 120606
Inheritance of **time** to flowering and its relationship to crop maturity in cucumber. 120767
Inheritance of **virulence** in Puccinia recondita on six backcross lines of wheat with single genes for resistance to leaf rust. 120611

INHIBITION

Inhibition of **chitin** synthesis in Plodia interpunctella. 123535
Inhibition of **cooperative** enzymes by sustrate-analogues. Possible implications for the physiological significance of negative cooperativity illustrated by phenylalanine metabolism in higher plants. 121226
Serum fibrinogen-related antigen concentrations in the normal dog as measured by the tanned **erythrocyte** *hemagglutination-inhibition* immunoassay. 117943
Effects of mating on **female** *inhibition* and egg production in the black carpet beetle, Attagenus megatoma F. 123529
Effect of *inhibition* of **flowering** on improvement of [sugar] cane yield and juice quality under Coimbatore conditions. 122021
Mycotoxins in foods. VIII. *Inhibition* of the **formation** of mycotoxins (aflatoxins) B1 and G1, patulin and sterigmatocystin) in whole wheat bread by sorbic acid and sorboylpalmitate. 116077
Inhibition of **gastric** acid secretion in dogs by neurotensin. 117848
Tip formation is regulated by an *inhibitory* **gradient** in the Dictyostelium discoideum slug. 121299
Effects of nutritional characteristics of Streptococcus agalactiae on *inhibition* of **growth** by lactoperoxidase-thiocyanate-hydrogen peroxide in chemically defined culture medium. 118798
K+ [potassium]-stimulated adenosine triphosphatase of maize roots: partial purificatin and *inhibition* by **Helminthosporium** maydis race T toxin. 122708
Cholecystokinin both stimulates and *inhibits* **human** food intake. 116488
DCMU [3(3,4-dichlorophenyl)-1,1-dimethylurea] **induced** *inhibition* of growth, photosynthesis and motility in Eudorina elegans cultures [Algae, herbicides]. 123061
Lead *inhibition* of chlorophycean microalgae [Toxicity]. 122982
Nutritional requirements and **metabolic** *inhibition* of some acarid mites [Tyrophagus putrescentiae, Caloglyphus berlesei, control]. 123547
Adenylate cyclase of the dog gastric mucosa: stimulation by histamine and *inhibition* by **metiamide.** 117866
Cellular immunity in Listeria [monocytogenes] sensitized young chickens: assayed by an agarose drop macrophage **migration** *inhibition* test. 118821
A mechanism of **migration** *inhibition* involving components of the coagulation system [Swine]. 118937
Inhibition of **Neurospora** crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Ecdysterone induced **ovarian** *inhibition* in the cotton bug, Dysdercus cingulatus. 123300
Rapid appearance of estrogen receptor in chick liver nuclei: **partial** *inhibition* by cycloheximide. 117680
The **peripheral** *inhibition* of the tarsal sugar receptor by sodium chloride in the proboscis extension response of the blowfly, Phormia regina M. 124034
The mechanisms of **photosynthetic** *inhibition* and the development of scorch in tomato plants treated with spray oils. 121594
The effects of juvenile hormone on imaginal discs of Drosophila in vitro: the role of the *inhibition* of **protein** synthesis. 123956
Inhibition of **proteoglycan** biosynthesis by hyaluronic acid [from the vitreous humor of fresh bovine eyes] in chondrocytes in cells culture. 117595
Inhibitory **substances** in the milk supply of southern Ontario [Quality]. 116199
Application of freeze-dried, one-day-old chick erythrocytes to viral hemagglutination and *hemagglutination-inhibition* **tests.** 118786
Inhibition of **thermoregulatory** outflow in conscious rabbits during periods of sustained arousal. 117825
Inhibition of **turnip** yellow mosaic virus synthesis by pyrimidine analogues. 122823

INHIBITORS

Endogenous plant growth substances in developing fruit of Prunus cerasus L. [Sour cherry]. V. Changes in *inhibitor* **(ABA)** [abscisic acid] levels in the seed and pericarp. 121705
The effect of some activators and *inhibitors* on the **activity** of the alkaline phosphatase and the leukocytes [Livestock]. 117951
Pigment degradation in discs of the thermophilic Cucumis sativus [cucumber] as affected by light, temperature, sugar **application** and *inhibitors.* 121751
Pigs' kidneys and the problems they create when applying the **biological** *inhibitor* test. Suggested alternatives to the official method. 117688
Organophosphate insecticide potentiation by **carboxylesterase** *inhibitors* [Mice, rats]. 123752
Comparative effects of several *inhibitors* of **chloroplast** thylakoid membrane synthesis in greening jack bean. 121621
The gradient of phytochrome and *inhibitor* **distribution** in stems of plants of photoperiodically neutral species. 121038
Self-inhibitors of **fungal** spore germination. 121126
The absence of a **growth** *inhibitor* during the log phase of growth of Dictyostelium discoideum [Fungi]. 121025
Effect of 2,3,5-triiodobenzoic acid on te greening process in etiolated Euglena gracilis [Algae, **growth** *inhibitors].* 121071
Phenotypic variations in Fossombronia himalayensis Kash [hepaticae] in vitro-effect of sugars, auxins, growth substances and **growth** *inhibitors.* 121188
Change in the content of auxins and **growth** *inhibitors* in the leaves of barley as a result of ultra-violet radiation in the conditions of West Pamir. 121486
Effect of natural ultra-violet radiation on the content of auxins and **growth** *inhibitors* in barley [varieties] in Pamir in their natural condition and with artificial treatment with beta-indole acetic acid. 121487
Senility problem in the greenhouse cucumber (Cucumis sativus) crop: effect of daylength on yield and content of abscisic acid-like **growth** *inhibitors.* 121603
Influence of a substituted oxathiin, a localized **growth** *inhibitor,* on the stem elongation, branching, and flowering of Chrysanthemum morifolium Ramat. 121709
Mold *inhibitor* prevents cottonseed quality loss [Field stored cotton]. 122588
Utilization of slow-release fertilizers and **nitrification** *inhibitors.* 124950
Relations of **phenolic** *inhibitors* to resistance of immature apple fruits to rot [Botrytis cinerea, Penicillium expansum, Alternaria]. 122646
Isolation of specific **protease** *inhibitors* from Neurospora crassa [Fungi]. 120977
Protein *inhibitor* of [chick] kidney 25-hydroxyvitamin D3-1hydroxylase. 116521
Interaction of Tenebrio molitor L. Alpha-amylase with a wheat flour **protein** *inhibitor.* 123912
Inhibitors of **proteolytic** enzymes and seed proteases. 121086
Studies on frost hardiness in Chlorella ellipsoidea [Algae]. II. Effects of *inhibitors* of **RNA** and protein synthesis and surfactants on the process of hardening. 121325
Effects of some **specific** *inhibitors* on the germination of spores of the fungus Trametes badia (Berk) Cooke. 121021
The influence of a protein **synthesis** *inhibitor* on the acceptance and eventual dependance of the meristematic cells of Allium sativum L. [Garlic] on dimethylsulfoxide. 121596
Suggested alternatives to the *inhibitor* **test:** Rationalizing and ensuring accuracy [Meat inspection]. 116134
Promoting effect of DPX-1840 [3,3a-dihydro-2-(p-methoxyphenyl)-8H- pyrazolo (5,1-a) isoindol-3-one] and other auxin **transport** *inhibitors* on pollen tube growth in vitro. 121178
Studies on the solid-phase synthesis of bovine pancreatic **trypsin** *inhibitor* (Kunitz) and the characterization of the synthetic material. 117820
Tumor *inhibitors.* 114. Aloe emodin: antileukemic principle isolated from Rhamnus frangula L. 121264

INJECTION

Plasma amino acids in reptiles after feeding protein or amino acids and after *injecting* **amino** acids. 116437
Cutaneous hypersensitivity and isoantibody production in **cattle** *injected* with live or inactivated Anaplasma marginale in bovine and ovine erythrocytes. 118598
Plasma LH [luteinizing hormone] response to LH-RH [luteinizing hormone-releasing hormone] *injection* in **immature** intact, castrated and cyproterone-treated male rats. 118356
Permeability of a cell junction during **intracellular** *injection* of divalent cations [Chironomus thummi]. 124068
Injection of **iron** dextran in addition to iron glutamate for baby pigs suffering from iron deficiency. 119270
Dynamics of ecdysone metabolism after ingestion and *injection* in **Locusta** migratoria. 123921
Oestrogen *injection* test for early pregnancy diagnosis in mares [Estrus]. 118250
Protection of woody plants [from insects] by the method of *injection* of **pesticides** [into the stem]. 123449
Root uptake of *soil-injected* **[systemic** fungicide] benomyl and its detection with Ulmus americana. 122640
Waste *injection* into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a sand-packed hydraulic model. 125568
Genetic modification of the waxy character in barley aftrer an *injection* of **wild-type** exogenous DNA. Analysis of the second seed generation. 120783

INJURY

Studies on the pollution of apple orchard-surface soils and its improvement in relation to inorganic spray residues. I. **Arsenic** *injury* to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Situation in **breeding** *injury* resistant potato varieties in the German Democratic Republic. 120628
Watch out for fragments in the bedding [of poultry]! [Litter, wood chips, **chicken** *injuries].* 117399
Ripening, **chilling** *injury,* and respiratory response of 'Hass' and 'Fuerte' avocado fruits at 20 degrees C [centigrade] following chilling. 117282
Root hardiness of woody ornamentals **[Cold** *injuries].* 122940
Association between elemental content of dormant peach trees and susceptibility to short life [Predisposition to **cold** *injuries* and bacterial canker, Pseudomonas syringa]. 122964
Irrigation management of young pecan [Carya illinoensis] orchards for best growth under saline **conditions** *[Injuries].* 123027
Water quality and plant growth *[Injuries* due to **contamination** with pesticides and excess salts]. 122922
Studies on **cool** *injury* in bean plants. VII. Sensitive stages to sterile type low temperature injury during floral bud development in relation to nitrogen status of soybean plants. 123024
Determination of the most sensitive stage to sterile-type **cool** *injury* in rice plants [in Hokkaido]. 123030
Ecology of the African savanna [Forest fires and **grazing** *injuries].* 119301
Hail *injuries* to pome and drupe fruits. 122931
Translocated **heat** *injury.* II. [Pinto beans, cowpeas, cucumbers]. 123015
The appearance of degenerating dorsal columm tract in the clava and cuneate tubercle of the dog after surgical and **ischaemic** *injury.* 117693
A study of autogenous tissues transplants for the repair of canine collateral ligaments of stifle **joint** *[Injuries].* 119243
The effect of bruising *[injuries]* on the **keeping** quality of cranberries. 122923
Intraspecific variability, host plant preference and *injuriousness* of **leaf** beetles of the subfamily Galerucinae (Coleoptera, Chrysomelidae) on field crops of the Cauca River. 123358
Effects of preplanting soil-incorporated herbicides on **metribuzin** *injury* in soybeans. 123023
Regeneration of afferent and efferent fibres to muscle spindles after **nerve** *injury* in adult cats. 117830
Evaluation of some diagnostic methods which may be used for determination of *injuries* on **Norway** spruce [Picea excelsa] by fumes [Air pollution from industrial exhaust smoke]. 123017
The effect of growth rate on tipburn *[injury]* **occurrence** in lettuce [Calcium utilization]. 122976
Citrus: drop the subject [Mold on **peaches** after *injury].* 122554
Injury to **Phacella** tanacetiflia Benth. From fungi. 122673
Maize and **pheasants** *[Injuries].* 123010
Primary **physicochemical** *injuries* in chloroplasts due to toxic concentrations of NaCl [sodium chloride, pea seedlings]. 123038
Growth **plate** *injuries,* diagnosis, prognosis and treatment. 119252
The effect of fluor compounds on the health condition of trees and shrubs near the aluminum smelting works "Konin" [Air **pollution** *injuries].* 122909
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On **salt** *injury* of vegetable crops. 3. Effect of the concentration of nutrient solutions on the trace element nutrition of tomato and cucumber. 122981
Clinical use of Osteum in the horse [when handling **skeletal** *injuries].* 119288
Effect of air pollution on fruit trees: photochemical **smog** *injury* to Japanese pear tree. 122978
The significance of nitrogen nutrition to the seed yield and its relating characters of soybeans, with special reference to cool **summer** *injury.* 125064
Prevention of winter **sunscald** *injury* in Michigan [cherry] orchards. 122969
Cold storage of fresh fruit and vegetables **[Temperature** *injuries].* 117322
Studies on cool injury in bean plants. VII. Sensitive stages to sterile type low **temperature** *injury* during floral bud development in relation to nitrogen status of soybean plants. 123024
The use of Orgotein in the treatment of soft **tissue** *injuries* of the horse. 119247
Poisoning grey squirrels: a threat to wildlife? [Forest **tree** *injuries].* 119361
Warfarin: a question of balance [Forest **tree** *injuries,* squirrels chemical control]. 119362
Effects of nematodes on the physiology of vegetable crops. V. Influence of farmyard manure application on the root-knot nematode [Meloidogyne incognita] *injury* in some **vegetable-crops.** 122979

INNOVATION

A cattle **feeding** *innovation.* 118127
Three **significant** *innovations* in the agricultural law of France. 115797
Food development, *innovation* or **stagnation** [Policies, laws, regulations]. 116747

INOCULATION

Isolation of Eutypa armeniacae from grapevines in New York and *inoculation* to **apricot** [Dieback, Cytosporina]. 122752
Studies on fireblight [caused by Erwinia amylovora] in the German Federal Republic. 1. Disease development on fruit trees and ornamental plant after natural attack and **artificial** *inoculation.* 122808
Experiment on the isolation of tumor viruses from cell cultures of human neoplasms by *inoculation* into **chicks.** 118677
Mycorrhiza effects following soil fumigation [**Citrus** *inoculation* with mycorrhizal fungi]. 122235
A temperature **controlled** *inoculation* room to increase the efficiency of preselection for resistance to coffee berry diseae [Colletotrichum coffeanum]. 122648
Inoculation **experiments** with Bordetella bronchiseptica strains in SPF [specific pathogen free] pigs. 118861
The development of corn smut on *inoculated* **maize** plants. 122657
Production standard for raw pickled products according to the *inoculum* **method** [Ham curing]. 116950
Findings made in the cultivation of **mycorrhizal** *inoculum* [to be used for tree seedling propagation]. 120999
Production of tomatine and rishitin in tomato **plants** *inoculated* with Fusarium oxysporum f. sp. lycopersici. 122713
Effect of plant residue amendments and chemical treatments upon the *inoculum* **potential** of Cylindrocladium floridanum in soil. 122728
Effects of the concentration of uredospores of brown rust causal agent, Puccinia recondita Rob. ex Desm., on *inoculation* **rates** of wheat plants. 122652
Effect of *inoculation* with **Rhizobium** [japonicum] and Azotobacter [chroococcum] on nodulation, growth and yield of soybean. 121442
Responses of two legumes to **rhizobium** *inoculation* and trace elements. 121457
Inoculum [**Rhizobium** bacteria]: a substitute for nitrogen fertilizer. 124982
Relationship of fire blight [Erwinia amylovora] resistance of young pear **seedlings** *inoculated* in the greenhouse to mature seedling trees naturally infected in the field. 122811
Nitrogen fiexaton in grasses [Pennisetum americanum, Panicum maximum] *inoculated* with **Spirillum** lipoferum. 121570
Development of Sarcocystis hirsuta (=Sarcocystis fusiformis) in tissue culture [of chick fibroblasts] after *inoculation* with **sporozoites** [obtained from dog intestine]. 118927
Reactions to **subconjunctival** *inoculation* of Onchocerca volvulus microfilariae in pre-immunized rabbits. 118971
Changes in soluble proteins in callus cells of hypersensitive **tobacco** *inoculated* with tobacco mosaic virus. 122838

INORGANIC

Absorption of nutrients by fiber flax and the effectiveness of *inorganic* **fertilizers** on Sod-Podzolic loamy soils in the Udmurt Autonomic Soviet Socialist Republic. 121395
Effect of organic and *inorganic* **fertilizers** on the transformation of sulfuric compounds in winter wheat plants, yield and quality of grain. 121401
Effect of *inorganic* **fertilizers,** manure and lime in long-term application in a crop rotation on the yield of field crops and on soil fertility. 124925
Effect of *inorganic* **fertilizers** and plant density on the accumulation of nutrients in castorbeans and on their productivity. 124926
Effect of *inorganic* **fertilizers** on the yield, chemical composition of meadow foxtail [Alopecurus pratensis] and the regime of nutrients in Peat-Bog soils of the Kola Peninsula. 124927
Effect of long-term application of *inorganic* **fertilizers** in a crop rotation with sugarbeets on the nitrogenous regime of Light-Chestnut soil in the southeastern part of the Kazakhstan. 124929
Effect of long-term application of *inorganic* **fertilizers** on agrochemical properties and fertility of deep Chernozem. 1. 124931
Effect of long-term application of *inorganic* **fertilizers** on agrochemical properties and fertility of deep Chernozem. 2. 124932
Effect of organic and *inorganic* **fertilizers** on the productivity of sugarbeets. 124934
Effectiveness of *inorganic* **fertilizers** on eroded calcareous Chernozem. 124939
Effect of different levels, ratio of *inorganic* **fertilizers** and irrigation regimes on the productivity and technological characters of sugarbeets. 125006
Effect of *inorganic* **fertilizers** and sowing rates on the sowing and yielding properties of spring wheat seeds. 125083
Inorganic **salts** & differentiation of protocorms in seed callus of an orchid & correlated changes in its free amino acid content [Dendrobium fimbriatum]. 121691
Studies on the pollution of apple orchard-surface soils and its improvement in relation to *inorganic* **spray** residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Nitrogen retention in men fed isolated soybean protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or *inorganic* **sulfate.** 116435

INOSITOL

A proton magnetic relaxation study of the interaction of isolated sheep methaemoglobins A, B and C with *inositol* **hexaphosphate.** 117748

INPUT

Agricultural *inputs* and rural development. 115140
Fertilizer *INPUTS* [Increasing Productivity Under Tight Supplies] program: an approach for coping with fertilizer shortages. 125031
Design criteria for a **multiple** *input* land use system [Remote sensing]. 115247
Economics of khoa in northwest India [Dairy products, **production** *input* and costs]. 115508
Remote **sensing** *inputs* to water demand modeling. 125272
Seasonal snow accumulation, melt and **water** *input*—a New England model. 115179

INSECTICIDES

Alternatives to *insecticides.* 123265
Development of an integrated control program for orchard pests in the Armenian S.S.R. by using a combination of methods, including *insecticides,* **attractants** and sexual sterilization. 123422
Walnut caterpillar [Datana integerrima] response to *insecticides* [**Bacillus** thuringiensis, Carya illinoensis, biological control]. 123436
Changes in the electroencephalogram of rats following subacute exposure to carbaryl and baygon: Correlation with EEG [electroencephalogram] changes in sub-human primates after chronic, low level exposure to **baygon** *[Insecticides].* 123750
Wood: ally in war on pests [Cinnamylphenols of Dalbergia as a new, more **biodegradable** *insecticide].* 123217
Gas chromatographic analysis of heptafluorobutyryl derivatives of some **carbamate** *insecticides* [in vegetables]. 123726
Electrophysiological reaction of olfaction of the codling moth, Laspeyresia pomonella L., as a possible fast method for determining the toxicity and **content** of *insecticides.* 123391
Trial with *insecticides* for the **control** of Eacles imperialis magnifica Walker, 1856 (Lepidoptera, Adelocephalidae), a coffee plantation pest. 123256
Insecticidal **control** of greenbugs [Schizaphis graminum] in wheat with foliar and soil treatments. 123345
Photodegradation of O-ethyl O-[4-(methylthio)phenyl] S-propyl phosphorodithioate (BAY NTN 9306) *[Insecticide* for **cotton** pests]. 123314
Effects of light on the fate of carbofuran *[insecticide]* during the **drying** of alfalfa [Residues]. 123719
Evaluation of dillapiole [from Anethum sowa] and dihydrodillapiole as synergists for pyrethrins *[insecticide]* in **dust** formulations [Tribolium castaneum]. 123585
The behaviour of insects in the presence of *insecticides:* the **effect** of fenitrothion and malathion on resistant and susceptible strains of Tribolium castaneum Herbst. 123561
Disappearance of citrus. Is there only hope in controlling citrus leaf psylla [Trioza **erytreae**] with *insecticides?* 123385
Citrus waxy scale [Gascardia]: further aspects of **extermination** using *insecticides.* 123384
Toxic effect of [the *insecticide]* **famophos** on reindeer. 123760
Federal *insecticide,* fungicide and rodenticide act (FIFRA). 115960
Analysis and GC-MS characterization of toxaphene *[insecticide]* in **fish** and water. 123708
Use of herbicides, fungicides and *insecticides* in **forestry** with special regard to the special importance of water catchment areas of dams. 123706
Analytical studies of pyrethrin *[insecticide]* **formulations** by gas chromatography. II. Isolation of the pyrethrins from water-based formulations. 123755
Developments in maize stem-borer [Busseola fusca] control in East Africa, including the use of *insecticide* **granules.** 123275
Investigations on the acute toxic effect of pyrethrum *[insecticide]* on various **haematological** aspects of Meriones hurrianae Jerdon, the Indian desert gerbil. 123756
Types of *insecticides* **how** to use them, safety & first aid. 123736
Bacillus thuringiensis, a **living** *insecticide.* 123248
Control of armyworms [Spodoptera] and earworms [Heliothus zea] on sweet corn in Florida with **Lorsban** 4E and other *insecticides.* 123392
Lorsban *insecticide* for armored scale control on Texas citrus [Aonidiella auranti, Parlatoria pergandii]. 123393
Pilot control projects of chemical and **microbial** *insecticides* against Douglas fir tussock moth [Orgyia pseudotsugata]-1974. 123491
Tests of **microbial** *insecticides* [to control forest pests]. 123493
Use of the *insecticide* **naled** to control zearalenone production [by the fungus Fusarium graminearum]. 123724
A **new** class of *insecticides.* 123253
Relative toxicity of some **new** *insecticides* against rice-weevil Sitophilus oryzae Linn. (Curculionidae: Coleoptera). 123292
Comparative efficacies of various *insecticides* in a **new** bait formulation against Periplaneta americana. 123578
Processing of maize seeds by *insecticides* in **order** to prevent and to limit the damages produced by some pests. 123258
Changes in some biochemical indices of the blood in chickens at continuous feeding of Timet and Lebaizid [Phosphorus **organic** *insecticides].* 119286
Biodegradation of methoxychlor and kelthane [**organochlorine** *insecticides,* residues]. 123710
Organophosphate *insecticide* potentiation by carboxylesterase inhibitors [Mice, rats]. 123752
Genetic analysis of resistance factors in a wild strain of the house fly (Musca domestica) resistant to DDT and some **organophosphorous** *insecticides.* 123675
The influence of **organophosphorus** *insecticides* on the developemnt of local lesions of the tobacco mosaic virus in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Crystal and molecular structure of **organophosphorus** *insecticides.* 4. Bromophos. 123239
Use of pirimiphos-methyl [**organophosphorus** *insecticide]* for the control of stored rice insect pests in southeast Asia. 123576
High-performance liquid chromatography of **organophosphorus** *insecticides.* 123727
The control of stored products insects with **pirimiphos-methyl** *[insecticide].* 123563
Pyrethrum: Chrysanthemum spp. (Compositae) *[Insecticidal* **plants].** 122534
Cygon *[insecticide]* **poisoning** in cattle. 119283
Site & mode of action of neurotoxins released by *insecticide* **poisoning** [Periplaneta americana]. 123238
Insecticide-resistant **predatory** mites [Typhlodromus pyri] feed on European red mite, Panonychus ulmi] in apple orchards. 123428
The role of organo-phosphorus and synthetic **pyrethriod** *insecticides* in mothproofing [to prevent fabric-insect damage]. 123570
Investigation into the use of Resmethrin and Bioresmethrin [**pyrethroid** *insecticides]* as potential grain protectants. 123541
Bactericides, *insecticides* and **raticides** used in the USSR. 123692
Degradation of bromophos in stored wheat *[Insecticide* **residues].** 116161
Insecticide **resistance** of the Egyptian cotton leafworm (Spodoptera littoralis Boisd.)) in Antalya region. 123289
Insecticide **resistance** in the greenbug [Schizaphis graminum] in wheat. 123346
Some consequences of the development of *insecticide* **resistance** in stored-product insects. 123555
Screening of some relatively **safe** *insecticides* for impregnation of gunny bags against stored-grain pests. 123512
Seed-applied *insecticides* for rice water weevil [Lissorhoptrus oryzophilus] control. 123348
Chemical control of Stomoxys nigra in Mauritius, its susceptibility to **seven** *insecticides.* 123660
Toxicity of **six** *insecticides* to three species of adult cockroaches [Blatella germanica, Blatta orientalis, Periplaneta fuliginosa]. 123264
Predatory activity, reproductive potential and longevity of Geocoris spp. **treated with** [**soybean**] *insecticides.* 123320
Genetic control of *insecticide-resistance* in **stored** products insects: prospects and preliminary investigation. 123534
Mechanism of degradation of thiofanox [**systemic** *insecticide]* in aqueous solutions. 123240
A new biological technique of detecting the presence of **systemic** *insecticides* absorbed by plants [Sorghum]. 123309
A simple method of evaluating **systemic** *insecticides* [Bromophos] and examples of its application. 123768
The improvement of baits for leaf-cutting ants [Atta cephalotes, and Acromyrmex octospinosus, alternative **types** of *insecticide].* 123219
Insecticidal **value** of phosphine in the control of stored tobacco insect pests [Ephestia elutella, Lasioderma serricorne]. 123537
In-furrow applications of *insecticides* for **white** grub [Phyllophaga crinita] control in grain sorghum. 123343

INSECTIVORES

Notes on Myobiidae parasites of rodents, *insectivores* and **Chiroptera** (Acarina: Prostigmata). 123593

INSECTS

A report on a zoological study and collecting trip to **Afghanistan** *[Insects].* 124425
More records of butterflies as prey for **ambush** *bugs* [Phymata fasciata] (Heteroptera). 124063
Discovery of *insect* **antiallatotropins.** 123937
Effect of the ash of the Irazu volcano (Costa Rica) on some *insects* [including **Apis** mellifera]. 124138
Ecological studies on the **aquatic** *insect* in the upper region of the Chikuma-river, Nagano Prefecture, Japan. I. Life cycle and growth state of the Ephemerella trispina group (Ephemeroptera: Ephemerellidae), and aquatic insect fauna in summer. 124357
Some factors influencing the effectiveness of grain protectants [Protection **against** *insect* **attack].** 123556
Insects **attacking** forest trees in the South. 123440
Species of *insects* **attacking** different types of stored wheat and their control. 123557
How to control **bed** *bugs* [Cimex lectularius, Cimex hemipterus]. 123643
Determination of the physiological levels of juvenile hormones in several *insects* and **biosynthesis** of the carbon skeletons of the juvenile hormones. 123936
Control of warble fies [Oestridae] and **blood-sucking** *insects* [Diptera] in the Magadan Region [Pests of reindeer]. 123630

The flower visiting activity of some Lepidopterous [Lepidoptera] *insects* to the **Buddleja** davidii Franch (Buddlejaceae). I. Polygonia c-aureum Linnaeus and Argynnis paphia geisha Hemming. 124110
Differential replication of rDNA during *insect* [**Calliphora** stygia] development. 123962
Use of *insect-acaricide* **carbamide** acid esters in livestock production. 2. Acute toxicity of insect-acaricide carbamide acid esters. 119266
Use of *insect-acaricide* **carbamide** acid esters in livestock farming. 3. Chronic toxicity of insectacaricide carbamide acid esters. 119267
Use of *insect-acaricide* **carbamide** acid esters in livestock farming. Dynamics of residues of insect-acaricide carbamide acid esters with particular reference to carbaryl. 119268
Use of *insect-acaricide* **carbamide** acid esters in livestock production. 1. Range and mechanism of action of insect-acaricide carbamide acid esters [Review of literature]. 123647
Hormonal studies of uridine utilization in an *insect* **cell** line CP-1268 derived from the codling moth Laspeyresia pomonella. 123967
Climate and the infestation of stored **cereals** by *insects.* 123526
Harmful fauna of flower crops in greenhouses [**chiefly** *insect* pests]. 123379
Results of *insect* **collection** carried out with special light traps. 123263
Insect **control** on field crops, 1976-1977. 121555
"A giant in *insect* control" [Shrew]. 123257
Guided *[insect]* **control** in fruit growing. 123406
Scale *[insects]* **control** of citrus. 123431
Assessment of research at farm level storage *[insect* **control]** in Francophone Africa. 123522
The use of controlled atmospheres for the storage of grain *[Insect* **control].** 123574
Cotton *insect* pest management, 1976 [Heliothis virescens, anthonomus grandis, Heliothis zea]. 123298
Ecdysterone induced ovarian inhibition in the **cotton** *bug,* Dysdercus cingulatus. 123300
Insect **density** effects in root feeding by larvae of Sericesthis nigrolineata (Coleoptera: Scarabaeidae) [Pasture pests]. 123316
The antagonism between juvenile hormone and ecdysone [Its role in *insect* **development].** 123952
Insect [**Diatraea** grandiosella, Southwestern corn borer] and mite [Oligonychus pratensis, Banks grass mite] control in corn. 123344
1976 *insect* and **disease** chemical control guide for peaches. 122955
Neuroptera in light-traps at Osteroy, Hordaland *[Insect* **distribution].** 124371
Observations on the macrofauna of a Dutch **ditch** [Includes *insects].* 123923
Contribution to the study of new means of controlling the **dominant** *insect* pests in sugarbeet cultures [Myzus persicae]. 123350
Microtubules and control of *insect* **egg** shape [of the gall midge Heteropeza and the cockroach Periplaneta]. 124021
Artificial infection of *scale-insect* with **entomophagous** fungi Verticillium lecanii and Aspergillus candidus [Biological control of the citrus pest Coccus Hesperidum]. 123395
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on *insects* of the **families** Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
Insect **fauna** of male Typha angustofolia flowers [Coleoptera, Diptera]. 124179
Contribution to the study of the *insect* **fauna** of Sumatra. 4. Fine new Cyana species (Lepidoptera, Arctiidae). 124290
Behavior of **forest** *insect* parasitoids [Biological control]. 123465
Research on population dynamics and impact in the Blue Mountains **[Forest** *insect* pests]. 123492
Pecan phylloxera (a gall **forming** *insect)* [Carya illinoensis]. 123389
The toxicity of phosphine [a stored product **fumigant]** to *insects.* 123572
Aeration of grain as a non-chemical method for the control of *insects* in the **grain** bulk. 123520
The dynamics of *insect/lethal* **grain** interactions in an insecticidally treated grain bulk. 123566
Action of juvenoids on different **groups** of *insects.* 123932
Experiments with *insect* **growth** regulators (IGRs) on lepidopterous pests and some of their parasitoids [Natural control]. 121280
Insect **growth** regulators: some effects of Altosid on Tribolium castaneum (Herbst). 123536
Effect of an *insect* **growth** regulator on lipid and carbohydrate reserves of mosquito [Aedes aegyti] pupae (Diptera: Culicidae). 123612
Phenylethers as *insect* **growth** regulators: laboratory and field experiments. 123949
Insect **growth** regulators. Analogues of TH-6038 and TH-6040 [Aedes aegypti, Tribolium confusum, Musca domestica, Manduca sexta]. 124011
A community matrix analysis of **Heliconia** *insect* communities. 123785
Yield losses in south Georgia field corn resulting from damage by several *insects* **[Heliothis** zea, Sathrobrota rileyi, Sithophilus zeamaize]. 123321
Interaction of juvenile hormone with binding proteins in *insect* **hemolymph** [Manduca sexta, Hyloicus chersis]. 123942
Chemical protection of alfalfa seed stands against *bugs* **[Heteroptera].** 123323
Dominant lethal mutations in *insects* with **holokinetic** chromosomes: irradiation of pink bollworm sperm [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279
On the identity of the juvenile **hormone** in *insects.* 123948
Comparative survey of the sensory structures on the sting and ovipositor of **hymenopterous** *insects.* 124037
Pests of the Baltic Sea coast. II. Short survey of the most **important** *insect* groups besides Coleoptera and Diptera. 123599
Succession of *[insect]* **infestation** in illipe nuts in Sarawak an example of a cash crop problem. 123559
The conduct of field *[insect]* **infestation** surveys and the economic use of their results. 123562
[Insect] **infestation** problems in farm-stored maize in Nicaragua. 123577
The use of Skylab data to study the early detection of *insect* **infestations** and density and distribution of host plants [Remote sensing]. 123237
The importance of taxonomy and of laboratory studies on the biology, nutrition and physiology of *insects* **infesting** stored products. 123567
Effects of clear-cutting on numbers, biomass and community respiration of soil **invertebrates** [Includes *insects].* 123818
The relation of energy and organic carbon in aquatic **invertebrates** [Includes *insects].* 124072
Unusual entomological separation technique in use at the Food and Drug Administration [Detecting and **isolating** *insect* and rodent filth from food]. 116165
The degradative metabolism of **juvenoids** by *insects.* 123955
Early evolution of *insect* **larvae.** 123926
Pheromones of **lepidopterous** *insects* [Lepidoptera, forest pests]. 123472
The role of juvenile hormone in diapause and phase variation in some **lepidopterous** *insects.* 123958
Male specific natural products in the *bug,* **Leptoglossus** phyllopus: chemistry and possible function. 124046
Dialectal animal names and folkloric reports on the animal kingdom of Zurich Canton [Includes **livestock** and *insects].* 117516
Livestock *insects.* 123621
On the purification of a fatty acid synthetase complex from an *insect* **[Lucilia** sericata]. 123861
Protection of woody plants [from *insects]* by the **method** of injection of pesticides [into the stem]. 123449
The role of low temperature to control stored food pests [Fungi, **mites,** *insects].* 116759
Apple trees in the suburban forest as hosts for *insects* and **mites.** 123403
Insects and **mites** in farm-stored grain. 123504
Effect of tobacco redrying process on *insect* **mortality.** 123527
Integration of measures for the control of cereal pests *[Insects* and **nematodes].** 122943
New *insect* pest puts in an appearance: citrus leafroller, Cacoecia occidentalis Wism. 123386
Agonum livens, Asemum striatum and Xylota coerulieventris: *insects* **new** to Ireland. 124311
The higher classification of the *insect* **order** Coleoptera including fossil records and a classified directory of the Coleopterists and coleoptera collections of the world. 120302
The contribution of different receptors to gravity **orientation** in *insects.* 123917
Arylesterases of [plant] **parasitic** *insects.* 121310
Quantitative analysis of lipids, nirogen substances and glycogen in the larva of an ovo-larval **parasitic** *insect,* Phanerotoma flavitestacea (Hymenoptera, Braconidae). 123890
Effect of a juvenile hormone analogue on the development of a **parasitic** *insect,* Pales pavida (Diptera: Tachinidae). 123903
Insect **pathogens** in natural and microbial control of forest defoliators [Biological control]. 123471
Fourier analysis of the flight-sound of the **pentatomid** *bug* tessaratoma javanica Thunberg & the pressure pattern of its wings. 123970
An approach to the study of neural activity during behaviour in *insects* **[Periplaneta** americana]. 124041
Improvement of cereal seed treatment [for fungus and *insect* **pest** control]. 122624
Modeling and optimal control of *insect* **pest** populations [Nezara viridula (Linnaeus), a major pest of soybeans]. 123322
Problems of stored products entomology in Britain arising out of the import of tropical products *[Insect* **pest** control]. 123507
Chemical intervention on all stages and on all scales of tropical storage practice *[Insect* **pest** control]. 123525
The development and extension of nonchemical *[insect* **pest]** control techniques for stored cowpeas in Nigeria. 123565
Use of benlate for the protection of black currants [against fungus diseases and *insect* **pests].** 122628
Vector control in seed potato farming *[Insect* **pests,** virus transmission]. 122835
Fire and flame for plant disease control [including control of *insect* **pests** as vectors]. 122899
Ecology of insect viruses [in microbial control of *insect* **pests].** 123235
Theory underlying introduction of exotic parasitoids *[Insect* **pests,** biological control]. 123236
Captivated by automatization (light trap research in Hungary today) *[Insect* **pests].** 123262
Plant resistance to *insect* **pests:** a general review with reference to New Zealand grassland farming. 123338
Resistance of poplars [Populus] to some *insect* **pests** according to observations made in Italy during the years 1930-72. 123455
Changes in the status of *insect* **pests** in storage and domestic habitats. 123524
The importance of sympathy between technical aspects of control programmes and industrial circumstances *[Insect* **pests** of stored products]. 123568
Guidelines for the passive removal of *insect* **pests** in stored products. 123581
Resource tracking patterns in bird and mammal ectoparasites *[Insect* **pests].** 123646
Determination of the enantiomeric composition of several *insect* **pheromone** alochols. 124025
Plants, the origin of kairomones utilized by parasitoids of **phytophagous** *insects?* 123243
Parasitism of the tarnished **plant** *bug,* Lygus lineolaris (Hemiptera: Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297
The behaviour of *insects* in the **presence** of insecticides: the effect of fenitrothion and malathion on resistant and susceptible strains of Tribolium castaneum Herbst. 123561
The role of organo-phosphorus and synthetic pyrethriod insecticides in mothproofing [to **prevent** *fabric-insect* damage]. 123570
Economic incidence of **principal** *insect* pests of stored products in India. 123513
Investigation on the effectiveness of bromophos (Nexton) preparations on some stored **product** *insects* compared with malathion. 123508
Future needs and developments for control of stored **product** *insects.* 123533
The possible role of aeration in the control of stored **product** *insects* in warm climates. 123569
Sex pheromones in stored **product** *insects.* Possibilities of practical applications. 123587
Genetic control of insecticide-resistance in stored **products** *insects:* prospects and preliminary investigation. 123534
Research on pesticides and future requirements for chemicals in the protection of stored **products** from *insect.* 123553
The control of stored **products** *insects* with pirimiphos-methyl [insecticide]. 123563
Juvenile hormone in retrospect and in **prospect** *[Insects].* 123944
Insects **protected** in Switzerland [Legislation]. 124080
The use of pyrethrum as an *insect* **repellent** in dingo baits [Animal pests of sheep and cattle in Australia]. 117496
Use of pirimiphos-methyl [organophosphorus insecticide] for the control of stored **rice** *insect* pests in southeast Asia. 123576
Inspection and sampling of stored grains *[Insect* and **rodent** contamination]. 116054
Male inseminative potential in Aphytis lingnanensis (Hymenoptera: Aphelinidae) [Biological control agents of the armored **scale** *insects* Diaspididae]. 123230
Scale *insects* [Coccidae] again and again on house plants. 123435
Effect of the degree of winter wheat grain damage by **Scutelleridae** *bugs* on the biochemical and technological properties of flour. 123353
A checklist of the cone and **seed** *insects* of Idaho. 123476
The evolution of *insect-mediated* **self-pollination** from an outcrossing system in Calyptridium [monospermum, Calyptridium umbellatum] (Portulacaceae). 120867
Results of surveys of phytophagous and **seminovorous** *insects* in seed bearing lucerne. 123352
Differentiation of *insect* **sensory** neurons in the absence of their normal synaptic targets [Manduca sexta]. 123875
Cage trial against green **shield** *bug* (Palomena prasina L.), which causes damage to the hazelnut [Corylus] in the east Black Sea region, using chemicals effective in the controlof the hazelnut weevil [Balanius nucum]. 123376
Insects found on **soybeans** (Glycine max (L.) Merrill) in the Yraizoz area (Buenos Aires Province, Argentina). 123307
Wing polymorphism in the *insect* **species** Agonum retractum Leconte (Coleoptera: Carabidae). 123865
Isolation and identification of juvenile hormones by means of a radioactive isotope dilution method: evidence for JH iII in eight *[insect]* **species** from four orders. 123943
Home fruit *[insect]* **spray** guide for small fruits. 123380
Insect **sprays** boost grass yield. 123304
Investigations on the practical application of the **sterile** *insect* technique as a method for the control of the cherry maggot (Rhagoletis cerasi L.) in Austria. 123433
Studies on amino acid transport by the intestine of the **stick** *insect,* Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as well as ultrastructure of the midgut epithelium. 124190
The eggs of **stick** *insects* (Phasmida): a review with descriptions of the eggs of eleven species. 124463
Molecular structure of sugars and their effectiveness in **stimulating** *insects* [Phormia, Apis mellifera]. 124101
New era in *insect* **[Stomoxys** calcitrans, Haematobia irritans] control [Dimilin]. 123595
Biological evaluation of Bromophos for the control of *[insect]* **storage** pests. 123523
Achievements and limitations of ionizing radiation for **stored-product** *insect* control. 123519
Effect of visible light on the behavior of **stored-product** *insects.* 123528
Evaluation of pesticides for control of **stored-product** *insects.* 123530
Factor influencing dosage and choice of toxicant in *[insect]* **stored-product** fumigation. 123531
Invasion and penetration of consumer packages in short-term storage by **stored-product** *insects.* 123540
Potential for genetic control of **stored-product** *insect* populations. 123550
Radiofrequency, infrared, and ultraviolet radiation for control of **stored-product** *insects:* prospects and limitations. 123551
Resistance to malathion and dichlorvos in **stored-product** *insects* in New South Wales. 123554

Some consequences of the development of insecticide resistance in **stored-product** *insects.* 123555
The use of chemicals in processing and packaging of stored products to prevent infestation [by **stored-product** *insects].* 123573
The use of infrared and microwave radiation for control of **stored-product** *insects.* 123575
Sensillum-like setae in the lumen of the spermathecal gland of Plodia interpunctella **[Stored-product** *insects].* 123579
Records of *insects* **taken** at light traps in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: Heteroptera) in relation to rainfall. 123250
Records of *insects* **taken** at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
Laboratory evaluation of malathion used as a protectant for the prevention of damage by pulse beetles to stored gram [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as **test** *insects].* 123291
Insecticidal value of phosphine in the control of stored **tobacco** *insect* pests [Ephestia elutella, Lasioderma serricorne]. 123537
The detection of *insects* by **traps** in grain-filled boxcars during transit. 123564
Protection of Great Plains shelterbelts from *insects* **[Trees,** control]. 119386
Key to damage of Southern forest **trees** by *insects.* 123441
Physiology and systems analysis of gravity orientation in **two** *insect* species (Carausius morosus, Calandra granaria). 123915
Mycoplasmalike bodies associated with rice orange leaf disease [Recilia dorsalis as *insect* **vector].** 122862
Electron microprobe analysis of particles in the *insect* **vector** of maize streak [Cicadulina mbila]. 123334
Virus and virus-like diseases of cereal crops [Transmitted by *insect* **vectors].** 122819
Aspects of epidemics of yellowing and mosaic of sugarbeets. I. Symptoms, means of transmission, methods of identification, vectors [Virus diseases, *insect* **vectors].** 122866
Insect **virus** infection of a poikilothermic vertebrate cell line: electron microscopy [Chilo iridescent virus]. 124127
Ecology of *insect* **viruses** [in microbial control of insect pests]. 123235
Further X-ray studies of nuclear-polyhedrosis inclusions *[insect* **viruses].** 124102
The purpose and operation of a Nuclear Stock Unit *[Insect-proof,* **virus-free** structures for selection plant propagation, New Zealand]. 122921
Resolution of intraneuronal and transynaptic migration of cobalt in the *insect* **visual** and central nervous systems [Calliphora erythrocephala, Calliphora vomitoria, Musca domestica. 124030
Induction of the *insect* **vitellogenin** in vivo and in vitro [leucophaea maderae]. 123941
Investigations on dichlorvos storage space treatment for protection of packaged food against *insects* in the **warehouse** in the Aegean region [Raisins]. 123509
They fend off *insects* **[Wheat** varieties resistant to the Hessian fly, Mayetiola destructor and the leaf beetle, Chrysomelidae]. 123272
Biological control in Morocco of the **wheat** *bug* Aelia germari. Comparative value of two egg eating parasites: Asolcus grandis and Ooencyrtus fecundus (Hymenoptera, Scelionidae and Encyrtidae). 123283
Phospholipid metabolism in red and **white** *insect* muscle [Schistocerca gregaria]. 123986
An annotated list of predators and parasites associated **witn** *insects* and mites on Florida citrus. 123381
Space constancy of the visual **world** in *insects.* 123916

INSEMINATION

Development in honey bee [Apis mellifera] rearing **[Artifical** *insemination].* 124542
Avoid calving problems when picking A.I. **[Artificial** *insemination]* sires. 118268
Do the mates of A.I. **[Artificial** *insemination]* sires influence their proofs? [Bulls]. 118269
The why and how of those A.I. **[Artificial** *insemination]* young sire programs [Bulls]. 118272
A.I. **[Artificial** *insemination]* training program and procedures [Cattle]. 118279
A.I. **[Artificial** *insemination]* training for technicians and farmer technicians [Cattle]. 118280
Curtiss Breeding Service A.I. **[Artificial** *insemination]* training [Cattle]. 118283
Monitoring fertility of A.I. **[Artificial** *insemination]* programs: can non-return rate do the job? [Cattle breeding]. 118285
Pride in our work **[Artificial** *insemination,* cattle]. 118286
Use of dye for technician training and retraining **[Artificial** *insemination,* cattle]. 118294
Fertility of Merino sheep classified according to degree of development of face wool and bred by **artificial** *insemination.* 118353
Artificial *insemination* and estruc synchronization in ruminants [Sheep, cattle]. 118368
Artificial *insemination* in swine. Relationship of conception to first and second insemination in heat with an interval of approximately 24 hours. 118381
Artificial *insemination* in swine. Influences of boar seminal plasma on breeding efficiency of diluted boar semen. 118382
Comparison between natural and **artificial** *insemination* in a modern swine farm. 118396
Artificial *insemination* of swine in Denmark. 118410
Artificial *insemination* in horses—conference report. 118411
Surgical translocation of the penis in the bull to obtain the teaser bull **[Artificial** *insemination].* 118435
Testing of *insemination* **boars** following glandectomy of the bulbo-urethral glands. 118375
Semen volume, *insemination* **frequency** and initial fertility of turkey breeders. 118415
Frequency of **multiple** *insemination* in natural populations of Drosophila [pseudoobscura]. 123787
Artificial insemination in swine. Relationship of conception to first and **second** *insemination* in heat with an interval of approximately 24 hours. 118381
Embryonic development in rabbits after *insemination* with **spermatozoa** stored at 37, 5 or -196 degrees Centigrade for various periods. 118352
Occurrence of infection by bovine herpes virus (IBR-IPv) [infectious bovine rhinotracheitis/infectious pustular vulvovaginitis] in bulls at an *insemination* **station.** 118834

INSENSITIVITY

Maternal effects and **inbreeding** *insensitivity* in embryos of Drosophila melanogaster. 124103
Cyanide-insensitive **respiration** in root tubers of cassava (Manihot esculenta Crantz.). 121761

INSOLUBLE

Grit for poultry—soluble and *insoluble* **[Diet].** 118176

INSPECTION

Flow of information in the network of institutions concerned with the *inspection* and **chemical** analysis of food. 116086
Legislation: new regulation gives advantages to the consumer **[Feed** *inspection,* Brazil]. 115811
Experiences and results of veterinary **hygiene** *inspection* in Suhl as an example of the expertise in meat products of the Bureau for Standardization, Measurement and Product Testing. 116222
Veterinary **hygiene** *inspection* of Rostock district fulfilled tasks in 1971 to 1975. 116225
"Stomacher" Trichinella control method. Proposal for a new diagnostic routine technique for post mortem demonstration in routine control **[Meat** *inspection].* 116071
Figures and results for 1975 from the bacteriological **meat** *inspection* station at the Munich slaughterhouse. 116116
New square plastic petri dishes for routine bacteriological work **[Meat** *inspection].* 116126
Suggested alternatives to the inhibitor test: Rationalizing and ensuring accuracy **[Meat** *inspection].* 116134
Observations on cysticercosis in Rhodesia. 1. The distribution of [Cysticercus cellulosae] cysts disclosed in beef carcases at **meat** *inspection.* 116255
Inspection of **milking** machines and equipment and the sanitation problem of the udder [Dairy cows]. 118548
Quality evaluation of grain industry products, based on **official** *inspection.* 116154
[Forest] fire **prevention** *inspection* pays big dividends. 119315
Inspection of **radioactivity** in raw materials of the candy industry. 116087
Inspection and **sampling** of stored grains [Insect and rodent contamination]. 116054
Feasibility of **simplified** *inspection* of special groundater flow processes. 125203
State *inspection* in Trondelag for wild oats [Avena fatua] in seed grain. 117134

INSTABILITY

Genetic *instability* in parasexual fungi. 120725
Instability of **yeast** cell sensitivity to the [lethal] action of nitrous acid [Genetic factors]. 120622

INSTANT

Methods and *instant* **[food]** products. 116715
A comparison of the flavour stability of conventional and *instant* **whole milk** powder. 116902

INSTARS

Studies on the posterior silk gland of the silkworm Bombyx mori. V. Electron microscope localization of fibroin in the posterior silk gland at the later stage of the **fifth** *instar.* 124537
The seven **larval** *instars* of Simulium arcticum (Diptera: Simuliidae) [Biology and control]. 123614
Comparative investigations about number and durations of the **larval** *instars* of Tettigoniidae (Orthoptera: Saltatoria). 1. 124177
Identification of **nymphal** *instars* of Aphis craccivora Koch. (Aphididae, Homoptera). 124154

INSTITUTIONS

New products presentation for *institutional* **catering.** Long life, ready-to-eat meals in aluminium containers. 116734
Transfrontier pollution and *institutional* **choice.** 125474
Flow of information in the network of *institutions* **concerned** with the inspection and chemical analysis of food. 116086
Convenience foods for the hotel, restaurant, and *institutional* **market:** the processor's view. 116642

INSTRUCTION

A *self-instruction/lecture* **approach** to nutrition for non-majors [Education]. 116445
Program and *instruction* for **awarding** of professional training scholarships at the Forestry Institute [Brazil]. 119407
Instructions for **cultural** and recreational arrangements of the forest regions [Slovenia]. 119326
Instructions for **manufacturing** butter; a retrospective view. 116899
Selected issues and features of **undergraduate** *instruction* in agricultural economics. 115308

INSTRUMENTS

Instruments of the **agricultural** and commercial policy for adjustment of production to demand on the world markets for oilseeds and their processed products. 115763
Water management: an **autonomous** *instrument* of planning? 125250
Landscape evaluation for recreation in Southern Westphalia—further development of an *instrument* for making **decisions** by land planners. 115226
The *instrument* for **land** regulation of priority areas—criteria and effects. 115231
Base price, a **new** *instrument* for supporting agricultural exports [Brazil]. 115699
An *instrument* for the **rapid** automatic measurement of [wool] fiber fineness distribution. 117031
Modern methods and *instruments* for **rapid** determination of quality features in grain flour. 117143
Consolidation as an *instrument* of **reorganization** of land settlement. 115297
On the role of strong winds in damage to crops by hail and its estimation with a **simple** *instrument.* 122971
Mathematical model for self purification as an *instrument* of **water** protection. 125291

INSULATION

A groundhog's approach to **estimating** *insolation* [Air pollution]. 115178
Roof *insulation* and its effect on broiler chicken mortality in hot weather [Poultry house]. 124653
Studies into the heat balance of turkey hens. 3. *Insulation* of **skin.** 117859
Experimental study on the **thermal** *insulation* of the typical clothing among aged women in Nagano district. 116596

INSULIN

The half-life of bovine and **chicken** *insulin* in chicken plasma. 117698
Postprandial glucose, *insulin,* **free** fatty acid and growth hormone responses in [Peruvian mestizo] children consuming all the day's protein in one meal. 116289
Postprandial glucose, *insulin,* **free** fatty acid and growth hormone responses in children consuming all the day's protein in one meal. 116293
Significance of glucose, *insulin,* and **free** fatty acid on the hypothalamic feeding and satiety neurons. 116375
Insulin and **glucose** intolerance in malnourished rats [Malnutrition, potassium deficiency]. 116517
Decreased **plasma** *insulin* but normal glucagon in rats fed low protein diets. 116423
Insulin and the **set-point** regulation of body weight. 116363
Factors influencing the *insulin* **space** in cerebral cortex slices from adult and 7-day-old rats. 117527
Role of *insulin,* **thyroxin** and cortisol in luteinization of porcine granulosa cells grown in chemically defined media. 117612

INSURANCE

Agricultural *insurance* [Brazil]. 115519
All-in-one *insurance* contract [for farmers]. 115486
Development of agriculture and adaptation of *insurance* **benefits.** 115482
[Poultry] **culling**—*insures* profit. 115536
Flood *insurance* as a component of land use management. 115556
Open door of mutual agricultural **social** *insurance* on Cotesdu-Nord. 115484

INTAKE

Influence of vitamin B6 *intake* on the **content** of the vitamin in human milk. 116285
A conceptual equation of [food] *intake* **control.** 116350
Introduction of fat into rabbit diets. I. Effect on growth performances, **feed** *intake* and dressing percentage. 117562
Feed *intake* and nutrient digestibility of growing lambs supplemented intragastrically with full-fat rapeseed (cv. [Cultivar] Tower). 118029
Quality of protein in milk replacers for young calves. II. Effects of heat treatment of skim milk powder and fat levels on calf growth, **feed** *intake* and nitrogen balance. 118036
The specific effect of fodder beets on the **feed** *intake* by dairy cows. II. 118156
Energy and protein composition of broiler rations. 2 [Effects of **feed** *intake].* 118166
Cholecystokinin and satiety: theoretic and therapeutic implications **[Food** *intake].* 116355
Food *intake* and taste peferences for glucose and sucrose decrease after intestinal bypass surgery. 116359
Hypothalamic glucoreceptor response—biphasic nature of unit potential changes **[Food** *intake].* 116360
Neural and hormonal determinants of sex differences in **food** *intake* and body weight [Rats]. 116365
Protein and amino acids in the regulation of **food** *intake.* 116372
The relation between alimentary and emotiona amygdalar regulation **[Food** *intake,* dogs]. 116381
The role of activation in the regulation of **food** *intake.* 116383
Visceral mechanisms in the control of **food** *intake.* 116385

Effects in the rat of environmental temperature, diet dilution and treadmill running on voluntary **food** *intake*, body compositon and endocrine organ mass: a multiple regression analysis. 116427
Cholecystokinin both stimulates and inhibits human **food** *intake*. 116488
Food *intake*, dietary supplements and survival time of scorbutic guinea pigs. 116496
Energy exchanges of veal calves in relation to body weight, **food** *intake* and air temperature. 117560
Influence of breed and level of winter supplement on **forage** *intake* of range cows [Hereford, Hereford X Holstein, Holstein]. 118093
Tropical cattle nutrition under grazing range conditions in the Sahel: measurement of the dry **matter** *intake* and estimation of digestibility and feeding value of forages. I. Theoretical basis, purposes and methods. 118158
Oxygen *intake* capacity of swine. 117856
Neuroanatomy of food and **water** *intake*. 116367
Effect of partial amelioration of heat stress on feed and **water** *intake* and some blood constituents in buffalo bulls. 117745

INTEGRATION

The increasing role of rural [communist] party organizations in the conditions of **agrarian-industrial** *integration* [Moldavia]. 115394
Improvement of organizational and [communist] party work in the present stage of concentation, specialization and **agrarian-industrial** *integration* of agriculture in Moldavia. 115918
Renewal of treatment, storage and marketing units for food potatoes, and *integration* of **automatic** E 691 mix separators. 124672
Integrated **control** of arthropod pests of sorghum [Schizaphis graminum, Contarinia sorghicola]. 123327
The *integrated* **control** of pests in corn in the U.S.S.R. 123328
Chalcid parasites of Prays oleae (Lepidoptera: Plutellidae) in Andalusia [for *integrated* **control** in Spanish olive orchards]. 123398
Development of an *integrated* **control** program for orchard pests in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and sexual sterilization. 123422
Towards *integrated* **control** of forest pests in Europe. 123474
Successful **socialist economic** *integration* from A to Z [Cooperative organization, Europe]. 115418
Plictran: some factors in **effective** *integrated* control of European red mite [Panonychus ulmi, apples]. 123429
Woodstock [State Forest]: an *integrated* **farm/forestry** management project. 119521
Integrated **horticultural** activity, a long-term program. 115856
Integrating **IRD** [integrated rural development] projects into the national plan of Turkey. 115873
Preparation and *integration* of **IRD** [integrated rural development] projects with the national development plans [Pakistan]. 115878
The *integration* of **manual** and automatic image analysis techniques with supporting ground data in a multistage sampling framework for timber resource inventories: three examples [Remote sensing]. 119499
Integration of **measures** for the control of cereal pests [Insects and nematodes]. 122943
Integrated **mechanization** and electrification of production in collective and state farms. 115356
Activated sludge **operations**—*integrating* control testing and basic kinetics. 124997
On the problem of *integration* of **palynological** data. 120240
Integrated **pest** management: a foreword to the conference [Crop pests]. 122994
Implementation of an *integrated* **pest** management program in sorghum. 123326
Integrated **plant** protection also against fungus diseases. 122795
Job satisfaction: a **possible** *integration* of two theories. 116617
Integrated **rabbit** husbandry. II. 115325
Agro-based business and industry in IRD *[integrated* **rural** development] projects. 115868
Integrated **rural** development programes and projects in a world facing food and poverty crises. 115871
Integrated **rural** development planning. 115872
Integrating IRD *[integrated* **rural** development] projects into the national plan of Turkey. 115873
IRD *[integrated* **rural** development] pre-project and early phase planning [Pakistan]. 115875
Preparation and integration of IRD *[integrated* **rural** development] projects with the national development plans [Pakistan]. 115878
Problems in the implementation of IRD *[integrated* **rural** development] projects: management & co-ordination. 115881
Research & evaluation in IRD *[integrated* **rural** development] projects [Iran]. 115882
Social development: its role and problems in IRD *[integrated* **rural** development] projects. 115883
Some aspects of pre-project and early phase planning for IRD *[integrated* **rural** development] purposes. 115884
Special training needs of IRD *[integrated* **rural** development]. 115885
The role of infrastructure development in IRD *[integrated* **rural** development] development projects. 115886
The role of women and youth in IRD *[integrated* **rural** development] projects. 115887
The role of women and youth in IRD *[integrated* **rural** development] projects [Iran]. 115888
An adequate diet with a plan for *integrated* **rural** development [Colombia]. 116548
An *integrated* **study** of earth resources in the State of California using remote sensing techniques; an introduction. 125486
An *integrated* **system** for apple pest management. 122993
Integrated **temperature** and chemical control methods against the cigarette beetle [Lasioderma serricorne]. 123538

INTEGUMENTS

Integument of Tenebrio molitor L. (Insecta; Coleoptera). I. Histology of **larval** *integument*. 123834
Imaginal differentiation of the *tegument* in the **migratory** locust, Schistocerca gregaria Forsk. II. Development during imaginal molt and its determination in gregarian males. 123811
Integument of **Tenebrio** molitor L. (Insecta; Coleoptera). I. Histology of larval integument. 123834

INTENSITY

Diurnal *intensity* of photosynthesis in introduced woody plants in the Crimea. 120963
Adipose tissue cell size and lipolysis in the rat: response to **exercise** *intensity* and food restriction. 116418
Vegetation and livestock response at three **grazing** *intensities* on sandhill rangeland in eastern Colorado [Grasses]. 122162
Influence of **light** *intensity* on layers [Egg weight]. 117918
Continuous culture of marine diatoms under silicate limitation. II. Effect of **light** *intensity* on growth and nutrient uptake of Skeletonema costatum [Algae]. 121203
Long-term effects of manipulating **light** *intensity* and nutrient enrichment on the structure of a salt marsh diatom community [Algae]. 121208
Effect of temparature and **light** *intensity* on the development of barley in Pamir. 121488
Development of plants in filtered sunlight. I. Spectral composition, **light** *intensity* and other experimental [greenhouse] conditions. 121693
Root growth in Acer saccharum Marsh. Seedlings: effects of **light** *intensity* and photoperiod on root elongation rates. 121801
Development ofplants in filtered sunlight. II. Effects off spectral composition, **light** *intensity*, daylength and red and far-red irradiations on long and short-day grasses. 123313
The effect of carbohydrates and fats in the diet on the *intensity* of **lipid** metabolism changes in protein deficiency. 116570
Changes in the *intensity* of **protein** synthesis in the embryo axes of northern red oak (Quercus borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
Relation of the condition of water with **respiration** *intensity* and activity of dehydrogenases [in plants]. 121112
Variation of parental forms in the *intensity* of **synthetic** processes and heterosis in tomatoes. 120715
The reaction of two spring wheat varieties exposed to epidemics of Septoria nodorum and Septoria tritici of **varying** *intensity* and duration. 122642

INTENSIVE

Breeding *intensive* varieties of winter wheat. 120736
The *intensive* **care** unit in small animal practice. 3. Observations on monitored parameters. 118582
The *intensive* **care** unit in small animal practice. 2. Personnel and equipment. 118583
The *intensive* **care** unit in small animal practice. I. Intensive care and the traumatized patient. 119291
Sprinkler irrigation as a measure to *intensify* **cereal** cropping. 125215
Research on close spacing systems for *intensive* **coffee** production in Kenya. II. 122540
Intensification and **concentration** of production on cattle state farms. 115360
The potato, maize and bean association, a form of *intensive*, **economic** use of the agricultural resources of miniature holdings [Colombia]. 115344
Ecological factors in the development of *intensive-management* **ecosystems** in the midwestern United States [Vegetation]. 120346
Reducing costs by changing from *intensive* to **extensive** propagation methods [Ornamental plants, England]. 115485
Intensification of **farm** production in the Moscow Region. 115359
Some tendencies in the development of the [communist] party organizations in the conditions of *intensification* of **farm** production [Moldavia]. 115393
Intensive **[forest]** plant production. 119564
Gradual *intensification* of seed potato production in the Sanitz Cooperative Farm [East Germany]. 122294
Influence of modernization and *intensification* of **[grape]** culture on the economic results of production and characteristics of wine. Influence on consumption [Romania, Luxembourg]. 122205
Principles of *intensification* of **grass** stands with regard to ecological conditions. 122036
Intensification and the **growth** of labor productivity in agriculture. 115361
Work results of veterinarians in *intensifying* **heifer** production in Pasewalk district after the VIIIth Socialist Unity Party Congress. 118530
Economic effectiveness of animal **husbandry** *intensification* in the Latvian SSR. 115351
Intensification and the **increase** of farm production efficiency. 115358
Intensification—the **main** direction of agricultural development in the Non-Chernozem Zone of the Russian Soviet Federative Socialist Republic. 115357
Developing timber management plans that reflect opportunities for *intensive* **management**. 119466
Peculiarities of farm **production** *intensification* in the Lithuanian SSR. 115363
Merbitz Research Insititute of Poultry Husbandry: **production** *intensification* through science and technique [East Germany]. 117462
Prophylaxis concepts and mastitis control in the dairy cow in *intensive* **rearing** in the Czechoslovak Socialist Republic. 118945
Measures to *intensify* the **reception** rate of bread grains, put into practice by I.V.C.P.T. Dolj. 117167
Possibilities for discovery of *intensive* **reserves** during the production process [Wood industry]. 119657
Lussow Agricultural Producers' Cooperative of Crop Production: joint responsibility for successful **socialist** *intensification* [Programs, prospects, East Germany]. 115935
Cycles of boar infertility and pathology of the piglet in *intensive* **swine** rearing. 118247
An *intensive* **system** for mechanised fruit production. 122327
Breeding short stem winter and spring wheat varieties of an *intensive* **type**. 120742
Morphobiological features and agronomic characteristic of *intensive* **varieties** of winter wheat. 122004
National economic significance of *intensive* **varieties** of winter wheat. 122005
Peculiarities of agronomic practives and the seed production of *intensive* **varieties** of winter wheat. 122006
Frankfurt on the Oder district: measures for *intensifying* **vegetable** production [Prospects]. 115407

INTERCELLULAR *see* CELLS

INTERCONVERSION

Interconversion of **cholinesterase** enzyme activity units by the manual Delta pH [hydrogen-ion concentration] method and a recommended automated method [Organophosphorus and carbamate pesticide intoxication]. 123694

INTERCROPPING

Studies on *intercropping* **coconut** garden with annual crops. 121895
Relationship between plant population and lay to yield of forage corn and Vigna sinensis **[cowpeas]** *intercropping*. 122131

INTERFERONS

Assay of **bovine** *interferons* in cultures of the procine cell line IB-RS-2 [Comparative test of different viruses]. 118759
Fetal and adult **bovine** *interferon* production during bovine viral diarrhea virus infection. 118760
Role of *interferon* in **prophylaxis** of rabies after exposure. 118796

INTERMITTENT

Intermittent **arctic** streams and their influence on landforms. 125196
Time dependent effects on contractile properties, fibre population, myosin light chains and enzymes of energy metabolism in *intermittently* and **continuously** stimulated fast twitch muscles of the rabbit. 117877

INTERRELATION

Interrelationship of **aerobic** cellulose-fermenting [soil] bacteria with their companions on the basis of the synthesis of physiologically active substances. 124818
Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 6. *Interrelationships* between **amino** transferase activity and the functional state of the adrenal cortex [Rats]. 117985
Determination of feed value based on simple characteristics. 3. *Interrelationships* between the **content** of structural substances and digestibility. 117983
Vital forms of ground beetles (Coleoptera, Carabidae) and their **evolutionary** *interrelationship*. 124310
The *interrelation* of **fruit** development and leaf senescence in 'Anoka' soybeans. 121438
Variations in concentrations and *interrelationships* of **phytate**, phosphorus, magnesium, calcium, zinc, nd iron in wheat varieties during two years. 117125
Possible *interrelationship* between metabolite flux and appetite. 116371
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. *Interrelationships* between **protein** metabolism data and the content of amino acids in feed proteins. 117991

Interrelationships between the **quality** of dietary proteins and the functional state of the adrenal cortex. 6. Interrelationships between amino transferase activity and the functional state of the adrenal cortex [Rats]. 117985
Interrelationships between the **quality** of dietary proteins and the functional state of the adrenal cortex. 7. Relationships between the activity of some selected hydrolases in the liver and small intestine and the functional state of the adrenal cortex [Rats]. 117986
Particuliarities of the **reproduction** *interrelations* and type of sterility in hybrids between Lycopersicon esculentum Mill. [Tomatoes] and Lycopersicon chilense Dun. 120645
Interrelations of **seed** color, weight, germination and origin in alsike, red and white clovers. 121546
Prognosis of crops irrigation, based on the *interrelation* between **soil-water-plant-climate** system by means of electronic calculator. 125337
The role of B complex vitamins and amino acids in the *interrelationships* of **symbiotic** bacteria of Carex enervis. 121105
The *interrelationship* between **translocation** of 14C [carbon isotope]-photosynthate and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of Ipomoea [Sweetpotatoes]. 121766

INTERROWS
Reduction of the number of *interrow* **cultivations** when growing sugarbeets in irrigated conditions in the southern part of Ukraine. 121984
Productivity of sugarbeets on irrigated lands as related to the planting density and *interrow* **width.** 121982

INTERSECTION
Methodology in te formation of national policies on alimentation and nutrition and *intersectional* **execution** [Latin America]. 116301

INTERSEX
Cell proliferation in the gonads of **triploid** *intersexes* of drosophila melanogaster (Diptera). 123847

INTERSTITIAL
Atypical *interstitial* pneumonia in yearling feedlot cattle [Micropolysporum faeni as possible causal agent]. 118780
Interstitial **fluid** oncotic pressures in rabbit subcutaneous tissue. 117539
Corynebacterium pseudotuberculosis as a cause of **subacute** *interstitial* nephritis in a chimpanzee. 119050

INTERVERTEBRAL
Canine *intervertebral* disc disease—occurrence by age, breed, and sex among 8,117 cases. 119195
Uridine diphosphoglucose dehydrogenase in the *intervertebral* **disc** [of an old sheep and a young pig]. 117705

INTESTINES
Studies on the relative biopotencies and *intestinal* **absorption** of different apo-beta-carotenoids in rats and chickens. 117585
Intestinal **atresia** in calves. 119215
Investigations concerning **bovine** *gastro-intestinal* strongyles [Ostertagia]. II. Seasonal variations in the herbage infestation with infective larvae [Parasitic worms]. 118862
Total length of *intestines* in **Bubalus** bubalis (Linneaus, 1758) [Buffaloes]. 117911
Food intake and taste peferences for glucose and sucrose decrease after *intestinal* **bypass** surgery. 116359
Regulation of *intestinal* **calcium** absorption in the laying quail: independent of kidney vitamin D hydroxylation. 117819
Neutralization of a transmissible gastroenteritis virus of swine by colostral antibodies elicited by *intestine* and **cell** culture-propagated virus. 118604
The use of Sterculia Gum for **controlling** *intestinal* tone in the dog and cat. 119139
Evidence for immunoreactive neurotensin in **dog** *intestinal* mucosa. 118820
Development of Sarcocystis hirsuta (=Sarcocystis fusiformis) in tissue culture [of chick fibroblasts] after inoculation with sporozoites [obtained from **dog** *intestine].* 118927
Dog's *intestinal* helminth ova incidence in public parks of the city of Milan. 118616
Vitamin **D-stimulated** *intestinal* calcium absorption may not involve calcium-binding protein directly. 116489
Experimental studies in intestinal healing of the dog. III. An **end-to-end** *intestinal* anastomosis using a decalcified bone tube. 119142
2-deoxyglucose transport by *intestinal* **epithelial** cells isolated from the chick. 117815
Experimental studies in *intestinal* **healing** of the dog. IV. Observations on the various types of enterotomy. 118486
Experimental studies in *intestinal* **healing** of the dog. I. Observations of side-to-side small intestinal anastomosis. 119140
Experimental studies in *intestinal* **healing** of the dog. II. Observation on end-to-end small intestinal anastomosis. 119141
Experimental studies in *intestinal* **healing** of the dog. III. An end-to-end intestinal anastomosis using a decalcified bone tube. 119142
Preliminary evaluation of butamisole for the treatment of *intestinal* **helminths** of dogs. 118952
Calcium uptake by **isolated** *intestinal* brush border membranes folowing dietary calcium restriction [Rats]. 116476
Intestinal **malabsorption** of iron [Nutritional disease]. 116518
Permanent *intestinal* fistulas in cattle. 118441
The *intestinal* **protozoa** of the wood-feeding roach Cryptocercus. II. Symbionts. 124076
Effects of divalent cations on vitamin B12 adsorption to brush borders of **rat** *intestine.* 116454
Copper-binding protein in **rat** *intestine:* amino acid composition and function. 116501
Mechanism and site of **small** *intestinal* uptake of vitamin D3 in pharmacological concentrations [Rats]. 116287
Enhancement of Ca++ [calcium ion] uptake by lactose in the rat **small** *intestine.* 116430
Growth of the parts of the alimentary tract of the rat, and the **small** *intestine* of the sheep, relative to growth in live weight. 117579
New data on the structure of the cryptal region of the **small** *intestine* mucous membrane in rodents and dogs. 117653
Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 7. Relationships between the activity of some selected hydrolases in the liver and **small** *intestine* and the functional state of the adrenal cortex [Rats]. 117986
The nature of the local immune system of the bovine **small** *intestine.* 118697
Levels of prostaglandins in the **small** *intestine* of rats during primary and secondary infection with Nippostrongylus brasiliensis. 118768
Experimental studies in intestinal healing of the dog. I. Observations of side-to-side **small** *intestinal* anastomosis. 119140
Experimental studies in intestinal healing of the dog. II. Observation on end-to-end **small** *intestinal* anastomosis. 119141
Quantity of cells of the mucous membrane of the **small** *intestine* in irradiated mice as an index of the protection degree of this organ by radioprotectors. 119233
Studies on amino acid transport by the *intestine* of the **stick** insect, Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as well as ultrastructure of the midgut epithelium. 124190
Flow of digesta through the *Gastro-intestinal* **tract** in the bovine with special reference to nitrogen. 117578
Vasoactive *intestinal* peptide (VIP) from chicken. Synthesis and properties of the C-terminal hendecapeptide. 117616

INTOXICATION
Alterations in the organism of sheep with **chronic** *intoxication* by trolene [phosphoric acid product]. 119287
Sensitivity of various laboratory and farm animals to Clostridium **perfringens** *intoxication* (mouse, guinea-pig, rabbit, chicken, piglet, lamb). 118842
Interconversion of cholinesterase enzyme activity units by the manual Delta pH [hydrogen-ion concentration] method and a recommended automated method [Organophosphorus and carbamate **pesticide** *intoxication].* 123694
Energetic metabolism of pupae in Scotia segetum Den. Et Schiff. under normal conditions and under conditions of *intoxication* by **sodium** fluoride. 123833
Control of rats and **warfarin** *intoxication* of swine. 119264

INTRACELLULAR *see* CELLS

INTRACEREBRAL *see* BRAIN

INTRADERMAL *see* DERMATOLOGY

INTRAGENERIC *see* GENERIC

INTRAMUSCULAR *see* MUSCLE

INTRAOCULAR *see* EYES

INTRATHORACIC *see* THORACIC

INTRAVENOUS
Total *intravenous* feeding in calves [Hyperalimentation in treating diarrheal diseases]. 118552
Metering of *intravenous* **versus** oral nutrients and regulation of energy balance [Rats]. 116291

INVENTORIES
Agricultural *inventory* capabilities of machine processed LANDSAT digital data [Remote sensing]. 115153
Inventory **analysis**—data-processing systems [Forestry]. 119469
Remote sensing applications in the *inventory* and **analysis** of environmental problems. 125463
[Forest] management-based and **broad** *inventories.* 119490
Management, based and broad [forest] *inventories* can they be **combined?** 119472
Dialogue at LACIE [Large Area **Crop** *Inventory* Experiment, techniques of agricultural research]. 115144
LACIE [Large Area **Crop** *Inventory* Experiment] project launches crop reports via satellite [Techniques of agricultural research]. 115145
The large area **crop** *inventory* experiment (Lacie). I. The use of Landsat data in Lacie [Remote sensing]. 115156
The large area **crop** *inventory* experiment (Lacie). II. Yield etimates from meteorological information [Remote sensing]. 115157
The large area **crop** *inventory* experiment (Lacie). III. A systematic approach to the practical application of remote-sensing technology. 115158
Playing with probabilities: one key to meeting information objectives [Foresters, *inventory* **design** and sampling design]. 119477
Northwest plant names and symbols for **ecosystem** *inventory* and analysis. 120399
A cull estimation method for use in **forest** *inventory* and timber sale cruises. 119461
Design of a programming system for CFI [Continuous **Forest** *Inventory* projects]. 119465
Forest *inventory* sampling designs used in countries other than the United States and Canada. 119468
Large in-place inventories based upon stand tables **[Forest** *inventory].* 119470
Large-scale aerial photography in **forest** *inventories:* designs and applications. 119471
The BLM [Bureau of Land Management] national resource lands **forest** *inventory.* 119482
The need for broad **[forest]** *inventories.* 119484
Vertical line sampling for regeneration surveys **[Forest** *inventory].* 119488
3-P sampling in the South **[Forest** *inventory].* 119491
Line sampling for **forest** *inventory.* 119542
Large **in-place** *inventories* based upon stand tables [Forest inventory]. 119470
Methodological principles and problems in the development of *inventorying* of **land** utilization in tropical areas. 115313
LANDSAT *inventory* of surface-mined areas using extendible digital techniques [Remote sensing]. 115256
Data-processing systems for **large** *inventories* [Forest management]. 119464
A comparative interregional analysis of selected data from LANDSAT-1 and EREP for the *inventory* and **monitoring** of natural ecosystems [Remote sensing]. 120364
Multi-resource *inventories* [of forest lands]—resolving conflicts. 119474
Optimization in **multi-resource** *inventories* [Forestry]. 119476
Procedure for determining the usefulness of any given type of aerial or space photography in relation to the *inventory* of **natural** resources. 125488
The design, implementation, and use of a statewide land use *inventory:* the **New** York experience [Aerial photographs]. 115268
An *inventory* of **Ohio** soils, Crawford County. 124832
Ohio's statewide land use *inventory:* an **operational** approach for applying Landsat data to state, regional and local planning programs [Remote sensing]. 115258
The application of remote sensing technology to the *inventory* of **Playa** Lakes in the High Plains of Texas. 125276
Regional *inventories* and mapping of land resources and enviromental geology using remotely sensed data. 115261
The development of a land use *inventory* for **regional** planning using satellite imagery. 115269
[Forest] *inventory* **remeasurement** with two-stage 3P sampling. 119489
Setting objectives for forest **resource** *inventories.* 119481
The integration of manual and automatic image analysis techniques with supporting ground data in a multistage sampling framework for timber **resource** *inventories:* three examples [Remote sensing]. 119499
Multi-resource [forest] *inventories*—**rhetoric** and reality. 119475
Minimizing the cost of irrigation by application of the *inventory* **theory.** 115517
Silvicultural considerations in **timber** *inventory.* 119506

INVERSION
Substitutes for saccharose and *invert* **sugar** as sweeteners for soft drinks. 116681

INVERTASE
Dual control of *invertase* **biosynthesis** in chemostat culture [Saccharomyces carlsbergensis, yeasts]. 120959
Invertase **biosynthesis** by Saccharomyces carlsbergensis [yeasts] in batch and continuous cultures. 120960
Some aspects of the intervention of enzymes in wine manufacture. Case of pectolytic **enzymes** and *invertase.* 117229
Effect of various factors on the activity of *sucrase* from the **larvae** of Sesamia inferens. 123886

INVERTEBRATES
The relation of energy and organic carbon in **aquatic** *invertebrates* [Includes insects]. 124072
They help determine water quality—**aquatic** *invertebrates.* 125536
Algae and plastids as **endosymbionts** of *invertebrates.* 120951
Contribution of French Lepidoptera to the mapping of **European** *invertebrates.* IV. Request for information on Satyridae. 124205
Altitudinal zonation of the *invertebrate* **fauna** [Heteroptera, Cicadidae, Coleoptera, Araneida] on branches of birch (Betula pubescens Ehrh.). 124361
Effects of clear-cutting on numbers, biomass and community respiration of **soil** *invertebrates* [Includes insects]. 123818
The feeding relationships of **two** *invertebrate* predators in a New Zealand river [Archichauliodes diversus, Stenoperla prasina]. 123920

INVESTMENTS
Investment **aids** for the development of individual farms and their effects on service of capital. 115516
Economic effectiveness of **capital** *investments* in draining saline lands (1971-1973). 115506
Better use of existing grain storage facilities and funds appropriated for building new granaries *[Investments,* **East** Germany]. 115510
Notes on the necessity of storing different crops in different ways and what it means in *investment,* **etc.** 115428
Important *investments* in the world sugar industry in recent years. 115554
Coffee growing in Zambia: a **promising** *investment.* 122520
Methodical hints on long-term planning of land **reclamation** *investments* [East Germany]. 125136
Problem of individual advencement of farms with chances of growth by the program for advancement of individual farms [Costs and **returns,** *investments].* 115518
Dairy sector should **seek** *investment* aid to meet likely milk boom [Policies, price support]. 115711

IODINE
Study on the thyroid function of Thoroughbred horses by means of "in vitro" 125I-T3 modified and 125I-T4 tests *[iodine* **isotope].** 117909
Study on the thyroid function of Thoroughbred females in varying stages of pregnancy, using "in vitro" tests 125I-T3 and 125I-T4 *[Iodine* **isotope,** horses]. 118392
Effect of mycotoxins on uptake and degradation of [125I]albumin *[iodine* **isotope]** in mouse liver and kidney lysosomes. 119256
Iodine **number** determination of milk fat and vegetable fats by refractometry. 116888

IONIZATION
Permeability of a cell junction and the local cytoplasmic **free** *ionized* calcium concentration: a study with aequorin [Chironomus thummi]. 124069
The shape of dose-effect curves for diploid yeast cell irradiated with *ionizing* **particles.** 121082
The action of *ionizing* **radiation** on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
The effect of stimulating rates of *ionizing* **radiation** on the stability of liver cell mitochondria in chick embryos and young chickens. 117950
Effect of different doses of *ionizing* **radiation** on the level of phytohormones in plants [Broadbeans]. 121444
Effect of *ionizing* **radiation** on the bulbs of Hyacinthus. 121613
Achievements and limitations of *ionizing* **radiation** for stored-product insect control. 123519
Single *ionizing* radiation effect on limb development of sheep. 117614

IPOMOEA
Sweetpotato: *Ipomoea* **batatas** (Convolvulaceae). 122380
Results of sweet **potato** *(Ipomea* batatas) research 1957-1966. 122415
Field competition between tall morningglory *[Ipomoea* **purpurea,** weeds] and soybean. II. Development and distribution of root systems. 123208
Field competition between tall morningglory *[Ipomoea* **purpurea,** weeds] and soybean. I. Growth analysis. 123209
Tall morningglory *[Ipomoea* **purpurea]** response to planting depth [Weed control]. 123213
The interrelationship between translocation of 14C [carbon isotope]-photosynthate and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of *Ipomoea* **[Sweetpotatoes].** 121766

IPS
Synergistic effect of a pheromone and a kairomone on host selection and colonisation by *Ips* **avulsus** [Forest pests]. 123482
Synthesis of optically pure (1S, 4S, 5S)-2-pinen-4-ol (cis-verbenol) and its antipode, the pheromone of *Ips* **bark** beetles. 123782
Parasites (Hymenoptera, Chalcidoidea) associated with bark beetles [Scolytus, Hylesinus, *Ips]* in **Norway.** 123486
2-phenylethanol isolated from bark beetles [Dendroctonus brevicomis, *Ips* **paraconfusus].** 124106
Olfactory behavior of *Ips* **pini** (Say) (Coleoptera: Scolytidae) during host invasions and colonization of lodgepole pine [Pinus conterta latifolia]. 123450
Spruce bark beetle, *Ips* **typographus:** pheromone production and field response to synthetic pheromones. 123484
Chalcid-flies (Hymenoptera, Chalcidoidea) reared from *Ips* **typographus** L. and Pityogenes chalcographus L. at some Norwegian localities [Picea abies]. 123485

IRIDACEAE
Crocus olivieri and its **allies** *(Iridaceae).* 120162
Evolution, cytology and subgeneric classification in **Moraea** *(Iridaceae)* [New taxa]. 119932

IRIDESCENT
Insect virus infection of a poikilothermic vertebrate cell line: electron microscopy **[Chilo** *iridescent* virus]. 124127

IRISES
New data on the northern distribution borderline of *Iris* **species** from the subsection Oncocyclus Baker. 119963

IRON
Determination of *iron* in **agrochemical** objects [soil and plant material] by the method of bi-amperometric titration. 124754
Fixation of ammonium ion in soils in the form of complex compounds with **aluminum** and *iron.* 124758
Fortification of salt with *iron* **[Anemia].** 116281
Heavy metal toxicity in vegetable crops. V. The effect of *iron* **concentration** in the nutrient solution on manganese toxicity in vegetable crops [Chlorosis]. 122980
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, *iron,* **copper** and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Cultural practices and anemia in Nigeria *[Iron* **deficiency].** 116513
Injection of iron dextran in addition to iron glutamate for baby pigs suffering from *iron* **deficiency.** 119270
Requirement of an essential thiol group and **ferric** *iron* for the activity of the progesterone-induced procine uterine purple phosphatase. 117794
Injection of iron dextran in addition to *iron* **glutamate** for baby pigs suffering from iron deficiency. 119270
The effect of *iron* on **growth** and bacterial canker [Pseudomonas syringae] susceptibility of peach seedlings. 122803
Penetration of 59Fe *[iron* **isotope]** through isolated cuticles of citrus leaves [Sweet oranges, sour oranges]. 121675
The study of *iron* 59 **[isotope]** sorption in soils. 124905
Stimulation of growth in Scenedesmus obliquus [Algae] (Chlorophyceae) by humic acids under *iron* **limited** conditions. 121217
Average content of calcium, copper, *iron,* **magnesium** and zinc in the water used at the Rural Sciences Center of the Federal University of Santa Maria. 125346
Role of **milk** *iron* in the development of immunity with the intracisternal introduction of the antigen [Cattle]. 119032
Variations in concentrations and interrelationships of phytate, phosphorus, magnesium, calcium, zinc, **nd** *iron* in wheat varieties during two years. 117125
Determination of copper, *iron,* **nickel,** and sulphur by X-ray fluorescence in lichens from the Mackenzie Valley, Northwest Territories, and the Sudbury District, Ontario. 120979
Intestinal malabsorption of *iron* **[Nutritional** disease]. 116518
Bioavailable copper and *iron* in **rat** diets. 117968
Failure of a cell-free system from rabbit reticulocytes to **remove** *iron* from transferrin. 117582
Effect of Fe-EDDHA [sequestrine of *iron]* on **rhizogenesis** and success of transplanting in peach almond hybrid plants. 122497
Growth and resource allocation responses of Spartina alterniflora Loisel. to three levels of NH4-N, Fe, and NaCl [ammonia, *iron,* **sodium** chloride] in solution culture. 121436

IRPEX
Comparisons of some properties of crystalline acid proteinases produced by the parent and mutant strains of *Irpex* **lacteus** Fr. [Fungi]. 120856

IRRADIATION
Comparative study of *X-ray* **action** (LD 50/30) on the thymus and bursa Fabricii of young Wyandotte breed chicks (Gallus domesticus). 117916
Delayed plating recovery in diploid yeast [Saccharomyces cerevisiae] of different sensitivities after *X-ray* and **alphaparticle** exposure. 121147
Regulation of apical dominance by ethephon, *irradiance* and CO2 **[carbon** dioxide, peas]. 121752
The shape of dose-effect curves for diploid yeast **cell** *irradiated* with ionizing particles. 121082
X-ray **diffraction** from [spinach] chloroplast membranes oriented in a magnetic field. 120458
Application of energy **dispersive** *X-ray* anaylsis to textile [cotton] fibers. 117162
Effects of 60Co [cobalt isotope] *irradiation* of the **early** developmental stages of an ixodid tick, Hyalomma anatolicum. 124010
Development ofplants in filtered sunlight. II. Effects off spectral composition, light intensity, daylength and red and **far-red** *irradiations* on long and short-day grasses. 123313
Effect on the reproductive functions of female rhesus monkeys of **feedng** *irradiated* wheat flour and potato diet [Metabolic studies]. 116396
A method for bromine determination in wool fabric by *X-ray* **fluorescence** spectrometry. 117030
Determination of copper, iron, nickel, and sulphur by *X-ray* **fluorescence** in lichens from the Mackenzie Valley, Northwest Territories, and the Sudbury District, Ontario. 120979
Further *X-ray* studies of nuclear-polyhedrosis inclusions [insect viruses]. 124102
The effect of **gamma** *rays* on the total acidity and the watersoluble fatty acids in bovine and porcine fats. 117034
Induced mutations in foxtail millet (Setaria italica Beauv.). II. Viable mutations in ear characters induced by **gamma** *rays,* EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Gamma *ray* induced early bulbil formation & growth abnormalities in Kalanchoe daigremontiana H. & P. 121137
Description of an **infrared** *irradiation* of quartz glass for the determination of mercury in water and food. 116074
Effects of gamma- and *X-ray* **irradiation** on different developmental stages of the bean weevil (Acanthoscelides obtectus Say. (Coleoptera: Bruchidae). 123438
Effects of *irradiation* to **larvae** of Bombyx mori in relation to nutritional conditions and fasting. 124508
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: spin transfer in *gamma-irradiated* **lyophilized** DNA-quinacrine complexes. 117895
Quantity of cells of the mucous membrane of the small intestine in *irradiated* **mice** as an index of the protection degree of this organ by radioprotectors. 119233
The application of scanning electron microscopy and *X-ray* **microanalysis** in the plant sciences: a bibliography. II. 120465
X-ray **microanalysis** of receptor lymph in a cuticular arthropod sensillum [Cupiennius salei]. 124035
Reduction in anaphase bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in *irradiated* & **normal** wheat (Triticum aestivum L.) root tips. 120475
Photosynthesis and carbonic anhydrase activity in Zn[zinc] deficient **peaches** *irradiated* with ultraviolet light. 121676
Electron microscopy and *X-ray* **photoelectron** spectroscopy of oxygen plasma-etched bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
Dominant lethal mutations in insects with holokinetic chromosomes: *irradiation* of **pink** bollworm sperm [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279
Storage of *irradiated* **potatoes** under artificially humidified conditions. 117254
The influence of *irradiation* with **red** light on geotropic curving and growth of decapitated Avena coleoptiles. 121392
Study on the microsporogenesis of Capsicum annuum L. **[Redpeppers]** after *gamma-irradiation.* 120651
Relationships of photosynthetically active radiation and **shortwave** *irradiance* [Photosynthesis and solar energy]. 120861
Oxygen enhancement ratio for **small** *x-ray* doses measured in Vicia faba roots [Broadbeans]. 121685
Shape and size of bovine rhodopsin: a **small-angle** *X-ray* scattering study of a rhodopsin-detergent complex. 117817
Sesquiterpenoid stress compounds of Datura stramonium: biosynthesis of the three major metabolites from (1,2-13C[carbon isotope]) acetate and *X-ray* **structure** of 3-hydroxylubimin. 121009
X-ray **structure** of cannabispiran: a novel Cannabis [sativa] constituent. 121013
X-ray **study** of crystalline character and mechanical properties of cotton fibers swollen in zincoxen solution. 117131
Organoleptic changes in bovine and porcine fats following **treatment** with *gamma-rays.* 117033
The *X-ray* **treatments** to induce somatic mutation in Chrysanthemum morifolium Ram. II. The imductive dosage of somatic mutation in Chrysanthemum cultivars. 120771
Changes in the total protein and the protein fractions in cow's milk treated with **ultraviolet** *rays.* 116925
Response of plants [of vegetable and melon crops] to a combined action of nematocides and **ultra-violet** *irradiation* in the conditions of protected cultivation. 123006
Differential responses to **ultraviolet** *irradiation* of the polar cytoplasm of Drosophila [melanogaster] eggs. II. Response to dose. 124171
Modification of chromosome damage in Vicia faba [broadbeans] by caffeine & cysteine applied at **varying** times before & after *irradiation.* 122950
Amplitude attenuation of the circadian rhythm in Drosophila [pseudoobscura] with light pulses of **varying** *irradiance* and duration. 124007
Dominant lethal mutations in rats fed on *irradiated* **wheat** [health hazard]. 119244
Comparative study of the [mutagenic] effect of ethylenimine and *gamma-rays* on **wheat** and barley varieties in the first generation. 120718
Effects of gamma- and **X-ray** *irradiation* on different developmental stages of the bean weevil (Acanthoscelides obtectus Say. (Coleoptera: Bruchidae). 123438

IRRIGATION
Minimizing the cost of *irrigation* by **application** of the inventory theory. 115517
Effect of *irrigation* and **application** of fertilizers in sugarbeets on their production in the Altai Territory. 125243
Surface modifications for water management and salinity control in a *nonirrigated* **area.** 125356
Simulating overland flow in **border** *irrigation.* 125355
Advances in the planning and operation of *irrigation* **canal** networks. 125360
Study of correlation dependences of the ionic composition and indices of the quality of *irrigation* and **carrier-drain** water (1971—1972). 125235
Genetic aspects of breeding winter wheat in *irrigation* **conditions.** 120744

Effect of continuous growing of sugarbeets and their growing in a crops rotation on the soil microflora in the **conditions** of *irrigation.* 121974
Growing sugarbeets in *irrigated* **conditions** of the Middle Volga River area. 121978
Reduction of the number of interrow cultivations when growing sugarbeets in *irrigated* **conditions** in the southern part of Ukraine. 121984
Ways of improving the system of soil tillage in a crop rotation with sugarbeets and specifically for this crop in the **conditions** of *irrigation.* 121988
Effect of *irrigation* on the **content** of humic substances and carbohydrates in southern Chernozems and those from the foothills of the Caucasus Mountains. 125179
Water use by *irrigated* **cotton** in the Sudan. IV. Water use potential evaporation and yield. 125304
The beautiful coverup [New land area created by **covering** *irrigation* ditch]. 125167
Critical *irrigation* period in sugarcane crop under limited irrigation facilities. 125295
Review of best management practice implementation procedure for *nonirrigated* **crop** production nonpoint source pollution. 121899
Prognosis of **crops** *irrigation,* based on the interrelation between soil-water-plant-climate system by means of electronic calculator. 125337
Removal of nutrients with the yield of crops [cereals, sugarbeets, alfalfa] on *irrigated* **Dark-Chestnut** soils. 121405
Effective precipitation of various application **depths** *[Irrigation].* 125354
Irrigation **development** in Tamilnadu. 125186
20-point economic programme and *irrigation* **development.** 125189
The *irrigation* **districts** of Mexico. 125310
The *irrigation* **districts** in Mexico: legal fundamentals for their creation and operation. 125311
Interval of changes of the hydrophysical properties of soil and underlying layer under water condition effected by twoway regulation (1972-1973) *[Irrigation,* **drainage].** 125229
Study of hydrogeologic conditions of the Fairzabad area (Tadzhik SSR) for the purpose of increasing operational supplies of underground water [for *irrigation* and **drinking].** 125236
Irrigation and **economics** of potato-grain production [Costs]. 115526
Claims of improving the economical **efficiency** in *irrigation.* 125336
Practical demonstration worth more than theory with *irrigation* **equipment** [Great Britain]. 124682
Methods and results of developing highly productive shot stem winter wheat varieties for *irrigated* **farming.** 120747
Effectiveness of application of fertilizers in sugarbeets in zones of *irrigated* **farming.** 125008
Effect of plant density, *irrigation* and **fertilization** on grain and forage yield of different corn hybrids. 122117
Joint effect of *irrigation,* **fertilizers** and soil tillage on the productivity of sugarbeets. 121979
Yields of forages, leaching of nitrate and nitrogen balances in an *irrigated* **field** treated with dry and liquid manures. 124881
A decade of achievement in the **field** of *irrigation.* 125184
Optimum time of **first** *irrigation* [Wheat]. 125289
Determination of optimal norms of water usage, irigation regime and techniques of *irrigation* **following** crops in a rice growing crops rotation in the conditions of the lower part of Ili River (1971-1974). 125219
No-till management of **furrow** *irrigated* continuous grain sorghum. 125343
Effect of plant water deficits of various growth stages on growth, grain yield and leaf water potential of *irrigated* **grain** sorghum [Drought tolerance]. 122059
Effect of stocking rate on pasture production under *irrigation* and **growth** of young cattle [Grazing]. 122062
Boreholes [for domestic, stock watering and *irrigation]* and **how** to get them drilled. 125214
Fundamentals of *irrigation* of **industrial** orchards in the Havelland fruit culture area [East Germany]. 125368
Costs of *irrigation.* **Irrigation** systems—data and prices [Equipment]. 115525
Development of recommendations for designing and effective operation of irrigation systems on the basis of major irrigated tracts in the Azerbaijan SSR considering regularitiesof changing the regime of underground water and the hydrogeologic-reclamation situation effected by *irrigation* (1971-1973). 125221
Effectiveness of combining presowing soil tillage and the sowing of sugarbeets in the conditions of *irrigation* in **Kirghizia.** 121977
Profitability of [field] crops on *unirrigated* **land.** 115476
Policy of improving sheep populations raised on *unirrigated* **land;** objectives and means of action. 118205
Crop rotations on *irrigated* **lands** and the placement of sugarbeets on them. 121972
Crop rotations with sugarbeets on *irrigated* **lands** in the southern part of Kazakhstan. 121973
Peculiarities of practices of growing sugarbeets on *irrigated* **lands** in the southern part of Ukraine. 121981
Productivity of sugarbeets on *irrigated* **lands** as related to the planting density and interrow width. 121982
Productivity of different forms of sugarbeets on *irrigated* **lands** in the southern part of Ukraine. 121983
Use of low sowing rates of sugarbeet seeds on *irrigated* **lands** in Kirghizia. 121987
Annual progress report on nitrogen modeling in cropped, *irrigated* **lands** [Leaching losses]. 124863
Nitrate in effluents from *irrigated* **lands**—annual report [Leaching, nitrogen, soil]. 124870
Sampling the unsaturated zone of *irrigated* **lands** for reliable estimates of nitrate concentrations [Soil variability]. 124876
Forecast of the salt regime of *irrigated* **lands** on the experimental area "Shalfingi" in the Crimean Region (1973). 125226
Economics of double cropping under **lift** *irrigation* [Costs]. 115492
Critical irrigation period in sugarcane crop under **limited** *irrigation* facilities. 125295
Corn yield response to **limited** *irrigations,* High Plains of Texas. 125341
Effect of ponds on the runoff, their conservation and effective utilization [for *irrigation* and for **livestock** watering]. 125222
Development of recommendations for designing and effective operation of irrigation systems on the basis of **major** *irrigated* tracts in the Azerbaijan SSR considering regularitiesof changing the regime of underground water and the hydrogeologic-reclamation situation effected by irrigation (1971-1973). 125221
Irrigation **management** of young pecan [Carya illinoensis] orchards for best growth under saline conditions [Injuries]. 123027
Evaluation of thermal X/5-detector Skylab S-192 data for estimating evapotranspiration and thermal properties of soils for *irrigation* **management** [Remote sensing]. 125257
Irrigation, why, when, by what **means?** 125182
Development of an optimal scheme of a rotational utilization of water in the **Old-Terek** *Irrigation* System (1972-1973). 125220
Get maximum production from grass fed beef with *irrigated* **pastures.** 122055
Importance of application of potassium fertilizers for saltsensitive cultivated **plants** *irrigated* with saline water [Wheat]. 125085
Throughflow as a mechanism responsible for excessive soil salinisation in *non-irrigated,* **previously** arable lands in the Western Australian wheatbelt: a field study. 124791
Waste water for crop **production** *[Irrigation].* 125367
Immediate tasks in implementing the *irrigation* **program** [East Germany]. 125306
Construction of Sarda barrage—a national record *[Irrigation* **project].** 124600
Design and construction features of Girija barrage *[Irrigation* **project].** 124601
Effect of *irrigation* **regime** and mineral nutrition on the yield of seeds [of sugarbeets] and their productive properties. 125244
Irrigation **regime** of and application of fertilizers in sugarbeets in the conditions of the Middle Volga River area. 125247
Effect of different levels, ratio of inorganic fertilizers and *irrigation* **regimes** on the productivity and technological characters of sugarbeets. 125006
Documentation and information retrieval in *irrigation* **research.** 125292
Irrigation **research** at Cressy. 125352
Improvement of production conditions of *irrigated* **rice** in Mali (period of 1963-1973). 121867
The different behaviour of rainfed rice and *irrigated* **rice** under water stress conditions. 1. Study of the factors of adaptation to drought. 121872
Establishing the differentiated regime of **rice** *irrigation* for the conditions of rice growing areas in te lower part of ili River (1970-1973). 125224
Rio Grande do Sul plan for dam operations **[Rice** *irrigation* capacities]. 125308
Consumption of water by, and the productivity of, sugarbeets in a crop **rotation** [under *irrigation].* 125242
Current development in *irrigation* and **rural** water supply in New Zealand. 125314
Effect of different forms of nitrogenous fertilizers on the productivity of potatoes on *irrigated* **Sierozem** soils in Uzbekistan. 124920
Application of fertilizers in sugarbeets on *irrigated* **Sierozems** in Kirghizia. 125004
Present fertility of *irrigated* **soils** with fruit trees in the bro Valley. 124765
The place of sugarbeets in a crop rotation and the depth of plowing in the conditions of *irrigation* in the **southern** part of the Ukraine. 121986
Determination of initial parameters for calculating the forecast of [soil] **salinization** in the Ingulets and **Spask** *irrigation* systems. 125218
Studies of applying wastewater discharged from the potato starch factories to **arable land.** 1. The influence of **spray** *irrigation* of wastewater in grassland on grasses and soil properties. 125546
Sprinkler *irrigation* as a measure to intensify cereal cropping. 125215
The adoption and effects of high-yielding [dwarf] wheats on *unirrigated* **subsistence** holdings in Pakistan [Farm management, acreage]. 115379
Problem of development of *[irrigated]* **sugarbeet** culture in the zone of the Konstantinovskoe Reservoir. 125248
Some economic bases for the development of *irrigated* **sugarbeet** culture in the USSR. 125249
Effectiveness of sowing **sugarbeets** under *irrigation.* 125245
Irrigation of **sugarbeets** in various agroclimatic zones. 125246
Irrigation **system** or other possibilities? 125322
Which *[irrigation]* **system** meets requirements? 125323
Research on the efficiency of the supply and distribution of the *irrigation* **system** of Cazasu-Braila. 125338
Costs of irrigation. *Irrigation* **systems**—data and prices [Equipment]. 115525
Development of recommendations for designing and effective operation of *irrigation* **systems** on the basis of major irrigated tracts in the Azerbaijan SSR considering regularitiesof changing the regime of underground water and the hydrogeologic-reclamation situation effected by irrigation (1971-1973). 125221
Relationship of plant population of the sunflower (Helianthus annuus L) to NP [nitrogen phosphorus] fertilization and *irrigation* **time.** 122132
Irrigation **timing** for grain sorghum based on soil moisture tension, Texas High Plains. 125342
Trickle *irrigation* design. 125303
Experience with low-cost **tubewell** *irrigation.* 125287
Efficiency of water consumption by various plants and its application to **valorization** of *irrigation.* 125193
Results of studying short stem spring wheat **varieties** under *irrigation.* 122010
Annotated bibliography on *irrigation* of **vegetables,** 1970-1975. 125344
Effect of fertilizers and *irrigation* on the **water** and nutrient condition of soil, water consumption and productivity of sugarbeets in Bashkiria. 124924
No-till dryland grain sorghum after *irrigated* **wheat** with intervening fallow. 125147
Critical stages for *irrigation* **[Wheat].** 125288
Evaluation of tillage and herbicides for grain sorghum surface residue management in an *irrigated* **wheat-sorghum-fallow** cropping sequence. 123754

ISOCITRATES

Isocitrate **lyase:** a new enzyme from pollen [Calotropis procera]. 121138
Influence of substrates and coenzymes on the role of manganous ion in reactions catalyzed by pig heart triphosphopyridine **nucleotide-dependent** *isocitrate* dehydrogenase. 117589

ISOCITRIC

Ratio of citric acid: *isocitric* **acid** in orange juice. On the work of B. Bergner-Lang, German food review, 71, 348 (1975). 117241

ISOELECTRIC

Varietal differences in cabbage of the hydrogen-ion **concentration** *isoelectric* point of the pollen and stigma in relation to heterosis. 121687
Qualitative analysis by *isoelectric* **focusing** of the protein content of Pharbitis nil apices and cotyledons during floral induction. 121322

ISOENZYMES

A comparison of some kinetic properties of soluble and bound [chicken] lactate **dehydrogenase** *isoenzymes* at different temperatures. 117657
Isoenzymes and **differentiation** in plants. 121087
Isoenzymatic **spectra** of peroxidase and nitratereductase from vegetative organs of maize heterotic hybrids and their parental forms. 121476

ISOFLAVONOIDS

Biosynthesis of *isoflavonoid* **phytoalexins** in Medicago sativa [alfalfa]: the biosynthetic relationships between pterocarpans and 2'-hydroxyisoflavans. 121441

ISOGENIC

Hypersensitive response of *near-isogenic* **wheat** carrying the temperature-sensitive Sr6 allele for resistance to stem rust [Puccinia graminis tritici]. 122705

ISOMERASES

Formation of alpha- and gamma-ketols from 18O [oxygen isotope]-labelled linoleic acid hydroperoxides by corn germ **hydroperoxide** *isomerase.* 121455
Purification and properties of ribose **phosphate** *isomerase* from tobacco **leaves.** 121536
Stabilization of **ribose-5-phosphate** *isomerase* from tobacco. 121537

ISOMERS

Absolute configuration of (-)-massoilactone as confirmed by a synthesis of its *(S)-(+)-isomer* **[Bark** oil of Cryptocarya massoia]. 119644
Quantitative of unsaturated fatty acids in microbial mutants. VI. Selective growth responses of yeast and bacteria to **cis-octadecenoate** *isomers* [Saccharomyces cerevisiae, Escherichia coli]. 120978
Chromatographic differentiation of tamarixetin and isorhamnetin by spraying *[Isomeric* **flavonoids].** 121180
Cottonseed colour fixed pigments. I. Selectivity of **hexane** *isomers.* 117153
The formation of cis-3-nonenal, trans-2-nonenal and Hexanal from linoleic **acid hydroperoxide** *isomers* by a hydroperoxide cleavage enzyme system in cucumber (Cucumis sativus) fruits. 121607

ISONIAZIDE

Failure of commercially **prepared** *isoniazid* diet to produce isoniazid serum concentrations in rhesus monkeys. 118108

ISOPENTYL

Estimation of *isopentenyl* **adenosine** during the germination of rice embryos. 121503

ISOPODA

Annulate lamellae in hindgut epithelial cells of *Isopoda* **[Armadillidium** vulgare]. 124123

ISOPODS

Cell junctions in the hepatopancreas of the *isopod,* **Armadillidium** vulgare. 124125

Copper storage bodies in the hepatopancreas of the *isopod,* **Oniscus** asellus. 124126

ISOPRENOID

Abnormal rearrangement of *isoprenoid* **epoxide:** synthesis of 7-methoxy-8(2'-formyl-2'methyl-propyl)-coumarin, the lactonic constituent of grapefruit peel oil of Citrus decumana Linn. (Rutaceae). 117230

ISOPTERA

Preliminary studies on the control of neotenic formation in Mastotermes darwiniensis **Froggatt** *(Isoptera).* 124001

The biology and development of Porotermes adamsoni (Froggatt) *(Isoptera,* **Hodotermitidae).** 124004

The production and elimination of supplementary reproductives in Porotermes adamsoni (Froggatt) *(Isoptera,* **Hodotermitidae).** 124006

Termites and book **lice** *(Isoptera* and Psocoptera) discovered by pest controllers and introduced into the German Federal Republic. 123583

Anaerobiosis in the queen of Macrotermes bellicosus **Smeathman** *(Isoptera,* Termitidae). 123992

Caste determination in the higher termites: evidence for a royal control on the formation of the sexual caste in Macrotermes bellicosus **Smeathman** *(Isoptera,* Termitidae). 123994

ISOSPORA

Comparative electron microscopic study of the cysts of Sarcocystis fusiformis (Railliet 1897) in the muscle fibers of naturally infected cattle and after experimental infections of calves by sporocysts of Isospora hominis and the large forms of *Isospora* **bigemina** from cat and dog. 118894

ISOTOMIDAE

Archistoma polaris n. Sp. A new species of **Collembola** *(Isotomidae)* from Spitsbergen. 124363

ISOTOPES

Metabolism of 109 Cd **[cadmium** *isotope]* in rats fed normal and low-calcium diets. 119259

Effect of dietary fat on hepatic metabolism of 14C **[carbon** *isotope]-oleic* acid and very low density lipoprotein triglyceride in the gerbil [Coconut or safflower oil]. 116425

Effects in the rat of environmental temperature, diet dilution, and treadmill running on liver and adipose enzymes and metabolism of 14C **[carbon** *isotope]-glucose:* a multiple regression analysis. 116428

Studies investigating the excretion of acetyl urea in the milk of dairy cows receiving oral doses of 14C **[carbon** *isotope]* acetyl urea. 117993

C15 **[carbon** *isotope]-halogenated* compounds from the Hawaiian marine alga Laurencia nidifica. V. The maneonenes. 121372

Transport of 14C **[carbon** *isotope]* in cotton in the conditions of oxygen deficiency of roots. 121452

Translocation of 14C **[carbon** *isotope]-metabolites* to the head in sunflower. 121509

Absorption and movement of 14C **[carbon** *isotopes]-labelled* mH [maleic hydrazide] and 2,4-D [2,4-dichlorophenoxyacetic acid] in onions. 121694

14C **[carbon** *isotope]-assimilate* distribution in Phaseolus vulgaris L. [Beans] during the reproductive period. 121718

The interrelationship between translocation of 14C **[carbon** *isotope]-photosynthate* and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of Ipomoea [Sweetpotatoes]. 121766

The degradation of 14C **[carbon** *isotope]-lindane* by a mould culture. 123742

Binding of (14C) **[carbon** *isotope]* parathion in soil: a reassessment of pesticide persistence. 123759

Sesquiterpenoid stress compounds of Datura stramonium: biosynthesis of the three major metabolites from **(1,2-13C[carbon** *isotope])* acetate and X-ray structure of 3-hydroxylubimin. 121009

Effects of 60Co **[cobalt** *isotope]* irradiation of the early developmental stages of an ixodid tick, Hyalomma anatolicum. 124010

Effect of the concentration of strontium 90 *[isotope]* on the **coefficients** of radioactive strontium accumulation in wheat seedlings [Contamination]. 125374

1975 annual report: field trials with *isotopes,* **Davis** site [Fertilizer application]. 125044

Red blood corpuscle survival assessed with chromium 51 *[isotope]* and **diisopropyl** fluorophosphate-H3 in cattle. 117919

Biosynthetic studies with 13CO2 [carbon **dioxide** *isotope]* of secondary plant metabolites. Nicotiana alkaloids. 1. Initial experiments [Tobacco]. 121516

The interrelationship between translocation of 14C [carbon isotope]-photosynthate and 14CO [carbon **dioxide** *isotope]* exposed leaf position on the grafts of Ipomoea [Sweetpotatoes]. 121766

Photosynthesis in Sitka spruce (Picea sitchensis (Bong.) Carr.). VII. Measurements of stomatal conductance and 14cO2 [carbon **dioxide** *isotope]* uptake in a forest canopy. 121818

The use of **environmental** *isotope* techniques together with conventional methods in regional groundwater studies. 125324

Concepts and methods in the measurement of *isotopically* **exchangeable** phosphate in soil. 124882

Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H **[hydrogen** *isotope]* straw pellets. 117326

Metabolism of 2,4-3H-14alpha-methyl-5alpha-ergost-8-enol and 2,4-3H **[hydrogen** *isotope]-5alpha-ergosta-8,14-dienol* in ochromonas malhamensis [Algae]. 121236

Study on the thyroid function of Thoroughbred horses by means of "in vitro" 125I-T3 modified and 125I-T4 tests **[iodine** *isotope].* 117909

Study on the thyroid function of Thoroughbred females in varying stages of pregnancy, using "in vitro" tests 125I-T3 and 125I-T4 **[Iodine** *isotope,* horses]. 118392

Effect of mycotoxins on uptake and degradation of [125I]albumin **[iodine** *isotope]* in mouse liver and kidney lysosomes. 119256

Penetration of 59Fe **[iron** *isotope]* through isolated cuticles of citrus leaves [Sweet oranges, sour oranges]. 121675

Adsorption of strontium 90 *[isotope]* by **krill** [Zooplankton as possible source of food, radioactive contamination]. 116072

Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and **nitrogen** *isotopes]* urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326

Characteristic data on the kinetics of protein metabolism as determined in studies with 15N **[nitrogen** *isotope]* labelled feeds [Rats]. 117981

Studies on the nitrogen metabolism of broilers fed 15N **[nitrogen** *isotope]* labelled wheat. 1. Problems, experimental programme and excretion. 118002

Studies on the nitrogen metabolism of broilers fed 15N **[nitrogen** *isotope]* labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004

Nitrogen nutrition of Myriophyllum spicatum: uptake and translocation of 15N **[nitrogen** *isotope]* by shoots and roots. 121069

Pathway of nitrogen metabolism after fixation of **13N-[nitrogen** *isotope]-labeled* nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167

Formation of alpha- and gamma-ketols from 18O **[oxygen** *isotope]-labelled* linoleic acid hydroperoxides by corn germ hydroperoxide isomerase. 121455

Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P **[phosphorus** *isotope]* phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326

Effects of follicle stimulating hormone and luteinizing hormone on the incorporation of 32P **[phosphorus** *isotope]* into the testis of the immature Japanese quail. 117697

Labeling of Trichogramma pretiosum by rearing on eggs from 32P **[phosphorus** *isotope]-fed* adults of Heliothis zea [corn earworm, biological control]. 123282

Inclusion of carbon 14 *[isotope]-leucine* into **proteins** of protein bodies isolated from maize caryopses. 121560

Isolation and identification of juvenile hormones by means of a **radioactive** *isotope* dilution method: evidence for JH iII in eight [insect] species from four orders. 123943

Increased transpiration and the accumulation of root absorbed 86Rb **[rubidium** *isotope]* in barley leaves in infected by rhynchosporium secalis (leaf blotch). 122706

Comparative evaluation of different methods of studying the influx of cesium 137 *[isotope]* from the **soil** into farm plants [Radioactive contamination]. 116017

The study of iron 59 *[isotope]* **sorption** in soils. 124905

Fractionation of **stable** *isotopes* of carbon monoxide by [soil[bacteria. 124796

Physiological basis for using phosphorus 32 *[isotope]* in **studying** biochemical effect of forest trees on each other. 121812

Turnover of **sulfur** *isotopes* in soils. 124798

Forms of natural and introduced zinc in soils and its uptake in plants [Contamination with radioactive zinc 65 *isotope* **tested** on oats and maize]. 116018

Influx and distribution of calcium, magnesium and radioactive strontium [90 *isotope]* in **wheat** in relation to their content in the soils of the Armenian SSR. 122883

ISOZYMES

Studies on the occurrence of *isozymes* of **alkaline** phosphatase in various tissues of cattle and sheep. 117861

Mammalian carbonic **anhydrase** *isozymes:* evidence for a third locus [Sheep, mice, rabbits, chickens]. 117810

Characterization and developmental regulation of **beta-galactosidase** *isozymes* in Dictyostelium discoideum [Fungi]. 121023

A simple and sensitive staining method for the detection of **cellulase** *isozymes* in polyacrylamide gels [Citrus sinensis, Trichodermata viride, Fungi]. 120881

Isozymic **composition** of aspartate and alanine aminotransphérases from roots of maize cultuvated at lower temperature. 121447

Subcellular localization of the F1 and F2 *isozymes* of **horse** liver aldehyde dehydrogenase. 117572

Isozyme **variation** in natural populations of Drosophila buzzatii. 123908

ITHOMIIDAE

Isolation of a lactone, structurally related to the esterifying acids of pyrrolizidine alkaloids, from the costal fringes of **male** *Ithomiinae.* 124026

IXODES

The ecology of the virus of tick-borne encephaiitis in the natural foci in the Olomouc district *[Ixodes* **ricinus].** 123618

Ecology and ethology of *Ixodes* **ricinus** L. In Switzerland (Ixodoidea: Ixodidae). 5. Proof of a sexual pheromone in ixodes ricinus. 123771

Ecology and ethology of *Ixodes* **ricinus** L. In Switzerland (Ixodoidea: Ixodidae). 4. Comparison of two populations at different altitudes. 123772

Effects of 60Co [cobalt isotope] irradiation of the early developmental stages of an *ixodid* **tick,** Hyalomma anatolicum. 124010

Possible role in uptake of water vapour by *ixodid* **tick** [Amblyomma americanum] salivary glands. 124049

Ecology of *Ixodes* **triangulicaps** Bir. In Moldavia [Vector of tick encephalitis]. 123655

IXODIDAE

Contribution to the study of parasitism of foxes (Vulpes vulpes L.) by *Ixodidae* **(Acarina)** in northeastern France. Interpretation of the seasonal dynamics of the parasites in relation to the biology of the host. 123590

Ecology and ethology of Ixodes ricinus L. In Switzerland (Ixodoidea: *Ixodidae).* 4. **Comparison** of two populations at different altitudes. 123772

Ecology and ethology of Ixodes ricinus L. In Switzerland (Ixodoidea: *Ixodidae).* 5. **Proof** of a sexual pheromone in ixodes ricinus. 123771

IXODOIDEA

Observations on the subgenus **Argas** *(Ixodoidea:* Argasidae: Argas). A. (A.) dalei, new species, parasitizing the burrowing owl in Peru. 124216

Discovery of Nuttalliella namaqua Bedford (Acarina: *Ixodoidea:* **Nuttalliellidae)** in Tanzania and redescription of the female based on scanning electron microscopy. 124214

Study of Rickettsia living within ticks (Acarina; *Ixodoidea)* in **southeastern** France. First statement: Ecological context of encounter with humans. 123609

Ecology and ethology of Ixodes ricinus L. In **Switzerland** *(Ixodoidea:* Ixodidae). 5. Proof of a sexual pheromone in ixodes ricinus. 123771

Ecology and ethology of Ixodes ricinus L. In **Switzerland** *(Ixodoidea:* Ixodidae). 4. Comparison of two populations at different altitudes. 123772

JAMS

Studies on "ann" **(bean** *jam).* 4. Texture of [dried 'koshi-ann', one of the Japanese bean products]. 117298

Studies on "ann" **(bean** *jam).* 5. Off-flavor of dried "koshiann" (mashed beans) in the storage. 117299

JASSIDAE

New records of spiders as predators of maize borer [Chilo partellus] and **maize** *jassid* [Zyginidia manaliensis]. 123302

JAVESELLA

Contribution to new systematics presented by the example of two Javesella [azorica, *Javesella* **pellucida]** species (Homoptera, Cicadina, Delphacidae). 124477

JEJUNUM

Secretion of proteolytic enzymes flowing introduction of nutrients into the duodenum and *jejunum* **[Dogs].** 116568

Improvement in *jejunal* **enzyme** adaptation in obese adult-onset diabetic patients following a 30-day fast [Diet]. 116283

JELLY

Routine methods of examining meat and meat products. 11. Determination of drained weight of canned cooked meats **containing** *jelly* and of meat brawns. Determination of free fat, pure gelatine and jelly contents. 116133

JOBS *see* **EMPLOYMENT**

JOHNSONGRASS

Johnsongrass **[Sorghum** halepense]—as a weed. 123082

Johnsongrass **[Sorghum** halepense] control with herbicides prior to planting sorghum. 123179

Asulam [herbicide] for *johnsongrass* **[Sorghum** halepense] control in sugarcane. 123202

JOWAR *see* **DURRA**

JUGLANS

The walnut husk fly [Rhagoletis **completa,** *Juglans].* 123400

The black walnut *[Juglans* **nigra]** as a fruit culture. 122318

Propagation of walnuts, almonds and pistachios in California *[Juglans,* **Prunus** amygdalus, Pistacia]. 122245

Selection of promising forms of European walnut *[Juglans* **regia]** in the Kamennaia Steppe. 120813

Life history and laboratory rearing of Brochymena quadripustulata [on black **walnut** *Juglans* nigra] with descriptions of immature stages and additional notes on Brochymena arborea (Hemiptera: Pentatomidae). 124215

JUICES

Sambucus nigra, is it a feed? *[Juices,* **amino** acid content]. 117321

Quality control of ready-to-drink sour **cherry** *juices.* 116149
Industrial and market structure for fruit and **citrus** *juices.* 115674
Fruit *juices* in 1975, the year of decisions [Legislation]. 115843
Hydrocyanic acid content of stone **fruit** *juices.* 117249
Apple slice impregnation with **fruit** *juices* [Storage, processing]. 117264
Current reflections on the filtration of [fruit] *juices* and the **processing** of the precipitates. 117248

JUNCACEAE
The phylogenetic significance of the development of pollen grain walls in Liliaceae, *Juncaceae* and **Cyperaceae.** 120516

JUNIPERS
Junipers, **cotoneasters** save labor [Culture]. 122341
Causes of *juniper* [**Juniperus** occidentalis occidentalis] invasion in southwestern Idaho. 120345

JUNIPERUS
Effect of photoperiod and nitrogen on the composition of foliar monoterpenes of *Juniperus* **horizontalis** Moench. cv. Plumosa. 121700
Production system for *Juniperus* **horizontalis** cultivars in the South—cuttings to five gallon size. 122240
Causes of juniper *[Juniperus* **occidentalis** occidentalis] invasion in southwestern Idaho. 120345

JUTE
Leaching and water quality on service life of Copper-treated *[jute]* **burlap.** 125000
Jute: **Corchorus** spp. (Tiliaceae). 121949
Jute **industry,** problems and prospects. 115902
Chemical analysis for chitin as a measure of fungal infiltration of cellulosic materials [Cotton, *jute,* and **paper].** 117195
Jute: *Corchorus* spp. **(Tiliaceae).** 121949

JUVENILE
Recurrent stereospecific synthesis of structures related to those of Hyalophora **cecropia** *juvenile* hormone. 124163
Effects of *juvenile* **hormone** analogues on caste differentiation in the imported fire ant, Solenopsis invicta. 123246
Juvenile **hormone** effects on the prepupal and pupal stages of the tobacco cutworm, Spodoptera litura Fabricius (Noctuidae: Lepidoptera). 123301
Feeding effect of *juvenile* **hormone** analogud, ZR 619-5 E, on the epilachna beetle, Epilachna vigintioctopunctata Fabricius [Eggplant pests]. 123390
A carrier protein for *juvenile* **hormone** in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
Juvenile **hormone** action on the intermediary metabolism in Indian meal moth [Plodia interpunctella] larvae. 123543
Influence of a *juvenile* **hormone** analogue on metamorphosis and reproduction in the cricket, Plebeiogryllus guttiventris Walker. 123868
Effect of a *juvenile* **hormone** analogue on the development of a parasitic insect, Pales pavida (Diptera: Tachinidae). 123903
A genetic approach to the study of *juvenile* **hormone** control of vitellogenesis in Drosophila melanogaster. 123930
Action of *juvenile* **hormone** on imaginal discs of the Indian meal moth [Plodia interpunctella]. 123931
Competitive binding protein assay for *juvenile* **hormone** [Manduca sexta]. 123934
Continuous monitoring of *juvenile* **hormone** release by superfused corpora allata of Periplaneta americana. 123935
Ecdysone deficiency in *juvenile* **hormone** treated larvae of the German cockroach, Blattella germanica (L.). 123938
Enzymatic synthesis of *juvenile* **hormone** in Manduca sexta. 123939
Farnesenic acid stimulation of *juvenile* **hormone** biosynthesis as an experimental probe in corpus allatum physiology [Schistocerca gregaria]. 123940
Interaction of *juvenile* **hormone** with binding proteins in insect hemolymph [Manduca sexta, Hyloicus chersis]. 123942
Juvenile **hormone** in retrospect and in prospect [Insects]. 123944
Juvenile **hormone** control of epidermal commitment in vivo and in vitro [Manduca sexta]. 123945
Juvenile **hormone** induced biosynthesis of vitellogenin in Leucophaea maderae from large precursor polypeptides. 123946
Juvenile **hormone** control of vitellogenin synthesis in Locusta migratoria. 123947
On the identity of the *juvenile* **hormone** in insects. 123948
Relationship between DNA synthesis, *juvenile* **hormone** and metamorphosis in Galleria larvae. 123950
Structure activity relationships in some *juvenile* **hormone** analogs [Galleria mellonella, Tenebrio molitor]. 123951
The antagonism between *juvenile* **hormone** and ecdysone [Its role in insect development]. 123952
The binding of *juvenile* **hormone** to larval epidermis: influence of carrier protein from the hemolymph of Plodia interpunctella. 123953
The binding protein as a modulator of *juvenile* **hormone** stability and uptake [Manduca sexta]. 123954
The effects of *juvenile* **hormone** on imaginal discs of Drosophila in vitro: the role of the inhibition of protein synthesis. 123956
The interaction of *juvenile* **hormone** and ecdysone: antagonistic, synergistic, or permissive? [Hyalophora cecropia, Oncopeltus fasciatus]. 123957
The role of *juvenile* **hormone** in diapause and phase variation in some lepidopterous insects. 123958
Identification of a *juvenile* **hormone** from Musca domestica. 123980
Purification and characterization of the carrier protein for *juvenile* **hormone** from the hemolymph of the tobacco hornworm Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018
Determination of the physiological levels of *juvenile* **hormones** in several insects and biosynthesis of the carbon skeletons of the juvenile hormones. 123936
Isolation and identification of *juvenile* **hormones** by means of a radioactive isotope dilution method: evidence for JH iII in eight [insect] species from four orders. 123943
Induction of *juvenile* **leaf** form in a palm (Caryota mitis) by gibberellin. 120441
Activity of the C-18 Hyalophora cecropia **synthetic** *juvenile* hormone in Locusta migratoria, with special reference to the age of the solutions. 123846

KAKI
Tannin in persimmon (**Diospyros** *kaki* L.) fruits. II. Volatile compounds and soluble tannin of the fruits in the course of removal of astringency. 117294
Observations on setting and growth patterns of fruit in persimmon (**Diospyros** *kaki,* L.). 121584
Mechanism of the thinning action of NAA [naphthaleneacetic acid] in Japanese **persimmon** *(kaki)* fruits. II. Effects of NAA applied at various stages of fruit growth on the induction of fruit drop and the activity of endogenous growth substances and some enzymes in fruit tissues. 122404

KALANCHOE
Gamma ray induced early bulbil formation & growth abnormalities in *Kalanchoe* **daigremontiana** H. & P. 121137

KALE
Kale as a **feedingstuff** [Dairy cattle]. 117964
A winter crop of *kale* in New England. 122426
A note on the use of *kale* as a **replacement** for cereal-based concentrates for milk production [Cattle]. 117971

KANGAROOS
Titration behavior of individual tyrosine residues of myoblogins from sperm whale, horse, and **red** *kangaroo.* Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798

KAPOK
Kapok: **Ceiba** pentandra (Bombacaceae). 121950

KARYOLOGY
Contribution to the *karyological* **study** of Mediterranean Pterocephalus. 120416

KARYOMETRY
Karyometric **studies** of winter wheat varieties in relation to frost resistance. 120566

KARYOTYPES
Karyotype of the **onion** and its taxonomic implications [Chromosomes, variations]. 120529

KAURI
Aspects of *kauri* [**Agathis** australis] propagation by seed. 119562

KERATINOPHILIC
Occurrence of *keratinophilic* **fungi** on lifeless organic substance in the environment of calfs infected by Trichophyton verrucosum. 118847

KERATINS
Properties of the mRNA for [embryonic chick] **feather** *keratin:* mRNA transcribed from a family of repeated genes. 118318

KERATITIS
Infectious *keratitis* [Moraxella bovis] in cattle. 118667

KERATOCONJUNCTIVITIS
Extracellular antigens of Moraxella bovis [the principal cause of infectious **bovine** *keratoconjunctivitis].* 118602
Treatment for pinkeye in **cattle** *[Keratoconjunctivitis].* 119148

KETOGLUTARATE
Catalytic properties of *alpha-ketoglutarate* **decarboxylase** from bovine brain. 117604

KETOLS
Formation of alpha- and *gamma-ketols* from 18O [**oxygen** isotope]-labelled linoleic acid hydroperoxides by corn germ hydroperoxide isomerase. 121455

KETONEMIA
Influence of *ketonemia* on the **resistance** of pregnant cows and the proneness of calves to dyspepsia. 119206

KETONES
Vulgarone, a **sesquiterpene** *ketone* with a new carbon skeleton from Chrysanthemum vulgare. 121781

KETOSIS
Aspects relating to the problem of "subclinical" diseases, described by reference to *ketosis* in **dairy** cows. 119152
Incidence of *ketosis* in **dairy** cattle stock. 119163

KETTLES
Beer filtration. IV. Siliceous earth filtration with *kettle* **filters.** Basics of layer filtration. 116670

KIDNEYS
New data on the photosynthesis and respiration of green plants under the conditions of flash illumination [Maize, *kidney* **beans].** 121449
Peculiarities of growth of maize and some legume plants [soybeans, chickpeas, *kidney* **beans**] in combined cultivation. 121462
Occurrence of D-alpha-amino-n-butyric acid in legume seedlings *[Kidney* **beans].** 121583
Distribution of dry matter among the aerial organs of various cultivars of *kidney* **beans** (Phaseolus vulgaris L.). 121648
Chemical modifications of histidine residues in cytoplasmic asparate aminotransferase from **beef** *kidney.* 117851
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, *kidneys,* **brain,** pancreas, "labile" N reservoir. 118004
Immune complex extracted from acutely infected malarious **chicken** *kidneys:* physico-chemical properties of antigen part [plasmodium gallinaceum]. 118746
Incidence and pathophysiological changes in **chronic** *two-kidney* hypertension in the dog. 119225
Kidney **development** in newborn lambs: response to water load and antidiuretic hormone (ADH). 117941
Feline glomeruli: morphologic comparisons in normal, autolytic, and **diseased** *kidneys.* 119068
Characteristics of Sindbis virus temperature-sensitive mutants in cultured BHK-21 [baby **hamster** *kidney]* and Aedes albopictus (mosquito) cells. 123641
Protein inhibitor of [chick] *kidney* **25-hydroxyvitamin** D3-1hydroxylase. 116521
Development of gluconeogenic enzymes in fetal sheep **liver** and *kidney.* 117645
Effect of mycotoxins on uptake and degradation of [125I]albumin [iodine isotope] in mouse liver and *kidney* **lysosomes.** 119256
Chemical investigations on **pig** *kidney* aminoacylase. 117592
Pigs' *kidneys* and the problems they create when applying the biological inhibitor test. Suggested alternatives to the official method. 117688
Bilateral **polycystic** *kidneys* in a she buffalo. 119245
Mineral composition of liver and *kidney* of **rats** fed corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Kinetic studies of **sheep** *kidney* gamma-glutamyl transpeptidase. 117786
Further studies on adaptation of sheep pox virus in sheep thyroid and **sheep** *kidney* monolayers. 118753
Heavy metal concentrations in *kidneys* of **urban** gray squirrels [Environmental health]. 125520
Regulation of intestinal calcium absorption in the laying quail: independent of *kidney* **vitamin** D hydroxylation. 117819

KIDS *see* GOATS

KILN
Influence of different thickness of green malt layers in kiln drying on the process method, malt quality, and efficiency of the *kiln* **drier.** II. 116787
Proper **dry** *kiln* operation [Timber processing]. 119698
Influence of different thickness of green malt layers in *kiln* **drying** on the process method, malt quality, and efficiency of the kiln drier. II. 116787

KINASES
Non-identical behaviour of the subunits of rabbit muscle **creatine** *kinase.* 117597
Homoserine *kinase* from barley seedlings. 121541
A study on the autoactivation of rabbit muscle **phosphorylase** *kinase.* 117781
Partial purification and some regulatory properties of **pyruvate** *kinase* from germinating castorbean [Ricinus communis] endosperm. 121320
Sphingolipid base metabolism. Partial purification and properties of **sphinganine** *kinase* of [bovine] brain. 117795
Thymidine *kinase* [in animals and plants]. 117879

KINETINS
Effect of sucrose on response of cut carnation [Dianthus caryophyllus] to *kinetin,* **ethylene,** and abscisic acid. 121702
The effect of *kinetin* and **gibberellic** acid on some morphological characteristics of Vigna sinensis [Cowpeas]. 120440

KININS
Preliminary research about plasmatic kininogens in cattle *[Kinin* **forming** enzymes]. 117577

KITCHENS
Usage of kitchen centers. 3. "I", "L", and "U" types of *kitchen* **arrangement.** 116603
A new look into organic classroom [at schools, colleges, workshops, farms, **gardens,** and *kitchens].* 115188

KIWI
Kiwi [**Actinidia** chinensis] propagation. 122231

KLEBSIELLA
Experimental mastitis of swine **caused** by *Klebsiella.* 118877
Investigations of swabs from prepuce and from nose of horses for presence of bacteria **like** *Klebsiella.* III. Serological investigations on klebsiella strains. 118649
Investigations of swabs from prepuce and from nose of horses for presence of bacteria **like** *Klebsiella.* II. Morphological and biochemical investigations on klebskella strains. 118650
Occurrence of *Klebsiella* **pneumoniae** in dairy products. 116201
Investigations of swabs from prepuce and from nose of horses for presence of bacteria like Klebsiella. III. Serological investigations on *klebsiella* **strains.** 118649

KLUYVEROMYCES
Kluyveromyces **blattae** sp. N., a new multispored yeast from blatta orientalis. 119946

KNIVES
Needle—not the *knife!* **[Induction** of parturition in cattle]. 118251

KNOTS
Response of soybean cultivars grown in *root-knot* **nematode** [meloidogyne incognita] inected soil treated with Fumazone 86 and other nematicides. 122925
Effects of nematodes on the physiology of vegetable crops. V. Influence of farmyard manure application on the *root-knot* **nematode** [Meloidogyne incognita] injury in some vegetable-crops. 122979
Infestation of melon seedlings by the larvae of the *root-knot* **nematode,** Meloidogyne incognita. 123004
A study on the peach rootstock (Nemaguard) resistance against *root-knot* **nematodes** Meloidogyne incognita and Meloidogyne javanica) in Aegean region. 122912
A survey study on *root-knot* **nematodes** (Meloidogyne spp.) in vegetable growing greenhouses in South Anatolia region. 122913
Characteristic of water-soluble fraction of proteins from organs of plants infested by *root-knot* **nematodes** [Vegetable and melon crops]. 123001

KRAFT
Peroxide bleaching of CEHH [chlorination, extraction and hypochorite] **banboo** *kraft* pulp. 119707
Studies on the oxidation of organic sulphides in *kraft* **black** liquor [Pollution control]. 125543
The effluent-free **bleached** *kraft* pulp mill. VII. Sodium chloride in alkaline pulping and chemical recovery [to eliminate a major source of pollution]. 125544
Formation of carboxylic acids by degradation of carbohydrates during *kraft* **cooking** of pine [Wood pulping]. 119816
Kraft **furnance** effluent gas particulate capture in a multi-plate fluidized bed. 125564
Cationic starch in papers with high contents of bagasse pulp. I. Influence on tensile properties of *kraft* **papers.** 119768
Chemical characteristics and acute toxicity of foam on two aerated lagoons *[kraft* **pulp** effluents]. 125499
Mechanical fiber separation in *kraft* **pulping** systems. 119819
The ASEA-MoDo Kappa Batch system: theory, application considerations, and models *[Kraft* **pulping].** 119824
The ASEA-MoDo Kappa Batch system: engineering, application considerations and practical system results *[Kraft* **pulping].** 119825
Color removal in a ferric chloride-lime system [Effluent treatment, *kraft* **pulping].** 125562
A study of loblloly pine [Pinus taeda] growth increments. III. Refining characteristics of tracheids from *kraft* **pulps.** 119840
Kraft **seeks** improved uses for whey and finds new applications [for baked food]. 116848

KWASHIORKOR
Management of *kwashiorkor* in its **milieu**—a follow-up for fifteen months [Nutrition education]. 116389

LABELING
Affinity *labelling* of tRNA nucleotidyltransferase from Baker's yeast [Saccharomyces cerevisiae] with tRNAPhe modified on the 3'-terminus. 121045
Absorption and movement of 14C **[carbon** *isotopes]-labelled* mH [maleic hydrazide] and 2,4-D [2,4-dichlorophenoxyacetic acid] in onions. 121694
Ca2+ [calcium ion] induced conformational changes of *spin-labeled* g2 **chain** bound to myosin [isolated from rabbit white muscle] and the effect of phosphorylation. 117779
Syntheses of tetra- and hexadeuterated octadecenoates [for mass analysis of *labeled* **fats].** 116794
Characteristic data on the kinetics of protein metabolism as determined in studies with 15N [nitrogen isotope] *labelled* **feeds** [Rats]. 117981
New regulation of section 5, paragraph 2, of the ready-made package degree on the *labeling* of **food** packages. 115836
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. I. Kinetic analysis by *labelling* of **high** molecular weight rRNA species. 120932
Does the minced meat regulation of May 10, 1976 contribute anything new? 2 **[Hygiene,** *labeling].* 116098
On the in vitro behaviour of *carbon-14-labelled* **lindane** in the blood. 123741
Pathway of nitrogen metabolism after fixation of **13N-[nitrogen** *isotope]-labeled* nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167
Formation of alpha- and gamma-ketols from 18O **[oxygen** *isotope]-labelled* linoleic acid hydroperoxides by corn germ hydroperoxide isomerase. 121455
Radio-active *labelling* of antigens. 118690
Preparation of polysomes and **radioactively** *labeled* RNA from adult Drosophila melanogaster. 123987
Detection of an essential sulfhydryl group in [rabbit muscle] phosphoglycerate mutase with an *affinity-labeling* **reagent.** 117783
Labelling **regulations** [Agricultural products]. 116150
Application of **segment** *labelling* techniques to studies of ion uptake by plants growing in soil. 120897
The uses of electronic data processing for herbarium **specimen** *label* information. 120052
An efficient method for the capture and transmission of [plant] **specimen** *label* information. 120284
Initiation of ovalbumin synthesis in chicken oviduct magnum. **Transient** *labeling* of the NH2-terminus by methionine. 117569
Labeling of **Trichogramma** pretiosum by rearing on eggs from 32P [phosphorus isotope]-fed adults of Heliothis zea [corn earworm, biological control]. 123282
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] *labelled* **wheat.** 1. Problems, experimental programme and excretion. 118002
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] *labelled* **wheat.** 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004

LABIATAE
Comparative ultrastructural study of the exine of some **genera** of *Labiatae.* 120506
Investigation of secondary plant substances. I. Essential oils **[Umbelliferae,** *Labiatae].* 121276

LABIUM
Females of Formica rufa L. (Hymenoptera, Formicidae) with **enlarged** *labial* glands. 123996

LABOR
Estimation of employment multipliers for planning in ozarks nonmetropolitan counties [including **agricultural** *labor].* 115451
Technical progress and the change in the nature of *labor* in **agriculture.** 115365
Experience of arranging mass-political activities in *labor* **collectives** of an agrarian-industrial amalgamation. 115165
Labor **expenditure** for lumbering, timber plantations and forest care in Plenter Forest [Switzerland]. 119508
Results of research on *labour-safety* at the **Godollo** University of Agricultural Sciences. 124668
The market for citrus **harvesting** *labor.* 115453
Organized labor and the American farmer. II. *Labor* **influences** farm policy. 116005
Shift-working group form of *labor* **organization** in reindeer husbandry in the Nenets National Region. 115368
Organized *labor* and the American farmer. II. Labor influences farm policy. 116005
Can we stem this life blood flow? [Greenhouse horticulture, *labor* **outlook,** Great Britain]. 115862
Labor **problems** in the use of [logging] combines in forestry. 119838
Investigation of the way generally used in the manual harvesting of strawberries *[Labor* **productive** capacity]. 115464
Some technological questions of cut flower producion *[Labor* **productive** capacity, East Germany]. 115470
Intensification and the growth of *labor* **productivity** in agriculture. 115361
Arrangement of political information in **rural** *labor* collectives. 115163
Junipers, cotoneasters **save** *labor* [Culture]. 122341
Growing bigger and better crops with savings in **seed** and *labour.* 115327
The potential [rural] *labor* **supply:** a cross-sectional estimation method. 115454
Cotton producers continue to **survive** *labor* situation quite well. 115333

LABOULBENIA
A contribution to the knowledge of Laboulbeniales (Ascomycetes) parasitic on Italian carabids (Insecta, Coleoptera) *[Laboulbenia* **agelaeae,** Rhachomyces pacei, Fungi, new taxa]. 120018

LABOULBENIALES
A contribution to the knowledge of *Laboulbeniales* **(Ascomycetes)** parasitic on Italian carabids (Insecta, Coleoptera) [Laboulbenia agelaeae, Rhachomyces pacei, Fungi, new taxa]. 120018

LACEWING
Viability of the epizoic lichen flora carried and dispersed by **green** *lacewing* (Nodita pavida) larvae. 120984

LACQUER
Infrared examination of *lacquers* for **containers** of preserved foods. 116761
Rational manufacture liver sausage and frankfurter sausage types in *lacquer-sealed* **fibre** casings. 116994

LACRIMATION
A calcium ionophore-induced secretion in **rabbit** *lacrimal* gland in vivo. 117846

LACTALBUMINS
Traditional *lactalbumin,* manufacture, properties and uses [whey utilization]. 116912

LACTATES
Use of lactic acid and **calcium** *lactate* in Nanica variety canned bananas in syrup [Preservatives]. 117219
Nutritive muscular dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, *lactate-dehydrogenases* and **creatine-phosphokinases** in the course of "white muscle disease in young cattle. 119202
Purification, properties and immunological relationship of *l(+)-lactate* **dehydrogenase** from Lactobacllus casei [Dairy organisms]. 116872
A comparison of some kinetic properties of soluble and bound [chicken] *lactate* **dehydrogenase** isoenzymes at different temperatures. 117657
Electron microscopic localization of *lactate* **dehydrogenase** in osteoclasts of chick embryo tibia. 117704
Metabolic intermediates and *lactate* **diffusion** in active dog skeletal muscle. 117540
Effects of early severe malnutrition on heart and skeletal **muscle** *lactate* dehydrogenase [Rats]. 116429

LACTATION
Preliminary observations on the effect of the administration of flavomycin in *lactation* **cows** [Milk quality]. 117576
Substitution of rapeseed meal for soybean meal as a source of protein for *lactating* **cows.** 118040
Metabolism of the herbicide methazole in *lactating* **cows** and laying hens. 123091
Estimating the shape of the *lactation* **curve** [for Holstein and Jersey dairy cattle]. 117409
Dried orange pulp versus ground corn ears in concentrated mixed rations for *lactating* **dairy** cows. 118159
Milk production by Vermont dairy cattle after deworming (two dewormings during the first 90 **days** of *lactation).* 119052
Trace mineral deficiencies in rats caused by feeding rapeseed flours during growth, **gestation** and *lactation.* 116441
Persistency of *lactation* in the **Improved** Valachian breed of sheep. 117756
The movements of minerals in the digestive tract of dry and *lactating* **Jersey** cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, sodium, potassium and chlorine]. 117963
A survey of food habits and beliefs of pregnant and *lactating* **mothers** in Mysore city. 116392
Protein utilization of mixed feed rations by *lactating* **pigs,** with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein utilization of mixed feed rations by *lactating* **pigs,** with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein utilization of mixed feed rations by *lactating* **pigs,** with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by **pregnancy** and *lactation.* 117574
Studies on the copper requirements of pregnant and *lactating* **rats.** 117998
Performance in different *lactations* and **repeatability** of economic characters in Murrah buffaloes. 117456
Some chemical changes in the colostrum, milk and blood at various stages of *lactation* in **sheep.** 117747

LACTIC

Microecological studies on *lactic* **acid** bacterial flora of molasses distilleries. III. Cultivation of the brewers' yeast Saccharomyces cerevisiae race M with some isolated lactic acid bacteria from molasses distilleries in continuous mixed cultures. 116664

Microecological studies on *lactic* **acid** bacterial flora of molasses distilleries. I. Isolation and identification of lactic acid bacteria. 116665

Use of *lactic* **acid** and calcium lactate in Nanica variety canned bananas in syrup [Preservatives]. 117219

Investigations into SH [sulhydryl] groups and *lactic* **acid** in the PSE [pale, soft, exudative] musculature of pigs. 117687

Use of formaldehyde and its effects on *lactic* **bacteria** used as starters in Grana cheese making. 116897

Changes in the organoleptic characteristics of pear puree and its derivatives caused by *lactic-acid* **bacteria** [Lactobacillus casei]. 117271

Farmhouse production of *lactic* **curd** soft cheese. 116572

Microecological studies on lactic acid bacterial flora of molasses distilleries. III. Cultivation of the brewers' yeast Saccharomyces cerevisiae race M with some **isolated** *lactic* acid bacteria from molasses distilleries in continuous mixed cultures. 116664

Alkali requirement and related properties of New **Zealand** *lactic* casein. 116904

LACTOBACILLUS

Presence of *Lactobacillus* **acidophilus** and Lactobacillus delbrueckii in changes of commercial yoghurt [Excessive acidity]. 116851

Yoghurt production by *lactobacillus* **[acidophilus]** fermentation of soybean milk. 117165

Production of cell-bound proteinase by *Lactobacillus* **bulgaricus** and its location in the bacterial cell [Preparation of fermented milk products]. 116889

Investigations on a metabolite from *Lactobacillus* **bulgaricus** which neutralizes the effect of enterotoxin from Escherichia coli pathogenic for pigs. 118784

Changes in the organoleptic characteristics of pear puree and its derivatives caused by lactic-acid bacteria *[Lactobacillus* **casei].** 117271

Presence of Lactobacillus acidophilus and *Lactobacillus* **delbrueckii** in changes of commercial yoghurt [Excessive acidity]. 116851

LACTONES

Purification and characterization of *L-gulono-gamma-lactone* **oxidase** from rat and goat liver. 117571

Isolation of a *lactone,* **structurally** related to the esterifying acids of pyrrolizidine alkaloids, from the costal fringes of male Ithomiinae. 124026

Identification of **unsaturated** *lactones* from the fruit of cowparsnip, Heracleum sosnowkyi. 121061

On the effect of *glucono-delta-lactone* on the **yeast** Pichia polymorpha. 120913

LACTOPEROXIDASE

Lactoperoxidase-catalyzed **lipid** peroxidation of microsomal and artificial membranes [Milk, beef liver]. 116854

Effects of nutritional characteristics of Streptococcus agalactiae on inhibition of growth by *lactoperoxidase-thiocyanate-hydrogen* **peroxide** in chemically defined culture medium. 118798

LACTOSE

Measures *lactose* [in milk and milk products] in 5 minutes used on-line or in the lab. 116873

Enhancement of Ca++ [calcium ion] uptake by *lactose* in the **rat** small intestine. 116430

LACTUCA

Lettuce: *Lactuca* **sativa** (Compositae). 122365

LAGENARIA

Blossom end rot of **bottlegourd** *(Lagenaria* siceraria) (Molina) Standl. incited by Pythium butleri Subr. 122600

Cucurbits: Cucumis, Citrullus, Cucurbita, *Lagenaria* **(Cucurbitaceae).** 122357

LAGOONS

Chemical characteristics and acute toxicity of foam on two **aerated** *lagoons* [kraft pulp effluents]. 125499

Metals in organisms from Saldanha bay and **Langebaan** *lagoon* prior to industrialization. 125551

LAGOPUS

Pseudomonas aeruginosa. III. Identification of strains isolated from blue foxes **(Alopex** *lagopus)* in a Danish fur farm. 118863

Genetic recombination in Coprinus *[lagopus,* **Fungi].** V. Repair synthesis of deoxyribonucleic acid and its relation to meiotic recombination. 120780

LAGUNA

Quantitative analysis of the Arthropoda fauna of *Laguna* **Verde** [Ecology, Mexico]. 123914

LAMBS

Serum enzymatic research of *lambs* **aged** from 10 to 30 days, including a report on prophylaxis for enzootic muscle dystrophy. 119083

Frank-Starling relationship as an important determinant of fetal *[lamb]* **cardiac** output. 117537

Effects of diethylstilbestrol, zeranol and sex on live, blood metabolite, carcass and endocrine **characteristics** of *lambs.* 117767

Nematodirus **disease** in *lambs.* 118587

Anaerobic gastric **enterotoxemia** of *lambs.* 119018

Adaptive role of the hair coat structure of *lambs* in **extreme** conditions of the mountainous Altai. 117715

Digestibility and nutritive value of pangola grass (Digitaria decumbens Stent) in relation to nitrogen fertilization and harvesting time *[Lambs* **fattening].** 118044

Some biochemical studies on Listeria monocytogenes strains [isolated from adult sheep, *lambs,* **fetuses,** and ensilaged forage]. 118995

Mortality of *lambs* on the **first** month of life. I. Mortality and birth weight. 118213

Feed intake and nutrient digestibility of **growing** *lambs* supplemented intragastrically with full-fat rapeseed (cv. [Cultivar] Tower). 118029

Lamb **health** linked to feedlot stress elimination. 118451

Hearing recognition of the *lamb* by its **mother.** 117558

New *lamb* meat products. 116932

Radiotelemetry of physiological variables in **new-born** *lambs.* 117829

Kidney development in **newborn** *lambs:* response to water load and antidiuretic hormone (ADH). 117941

Some effects of barley grass seed on young sheep [Contamination of wool and the damage to *lambs'* **pelts].** 119279

Influence of alkali treatments of corn cobs on in vitro dry matter disappearance and *lamb* **performance.** 118092

Sensitivity of various laboratory and farm animals to Clostridium perfringens intoxication (mouse, guinea-pig, rabbit, chicken, **piglet,** *lamb).* 118842

Carcass traits of *lambs* **produced** by crossbred dams of Finnsheep, Dorset and Rambouillet breeding and slaughtered at two weights. 117016

Lamb **production** of sheep with differing haemoglobin and blood potassium types. 118323

Trials on the production of the Comiso breed of *lamb* with **reconstituted** milk. 118186

Artificial milks and mixtures for early **weaning** of *lambs.* 118162

Continuous recording of physiological variables and behaviour in **young** *lambs.* 117824

LAMELLA

Annulate *lamellae* in hindgut epithelial cells of Isopoda [Armadillidium vulgare]. 124123

Remarks on the formation of different layers of the spore wall with the *lamellar* **exine** in some Marchantiales and Sphaerocarpales. 120511

"Punctuations" in the **foliar** *lamina* of the genus Dendropanax Decne. and Planch. (Araliaceae). 120436

Cytophysiological approach of two neuroendocrine interfaces of the hypothalamus: the median eminence and vascular organ of the **terminal** *lamina.* Radioautographic study of the duck. 117567

LAMIINAE

Contribution to the study of **Cerambycidae** *Lamiinae* from the Andringitra massif, Central Madagascar (Coleoptera) [new taxa]. 124266

Entomological explorations in Ghana by Dr. S. Endrody-Younga. 16. *Lamiinae* **(Coleoptera:** Cerambycidae) IV. 124438

Description of **new** *Lamiinae* from Ghana (Coleoptera, Cermabycidae). 124436

New *Lamiinae* from Queensland (Coleoptera, Cerambycidae). 124443

LAMINARIALES

The release, settlement and germination of zoospores in Chorda tomentosa [Algae] **(Phaeophyceae,** *Laminariales).* 121221

A survey of translocation in *Laminariales* **(Phaeophyceae)** [Algae]. 121265

LAMINATION

More recent developments in the field of surface modification of fiberboard. 1. **Pressed** *lamination.* 119671

LAND

Simplified long-term concept for evaluating leaching of nitrogen from **agricultural** *land* [Fertilizer efficiency, groundwater pollution]. 124878

The environmental impacts of **agricultural** *land* drainage. 125305

Taxation of income from *land* in **agriculture** and forestry. 115502

New provisions of the statute and regulatory gazette of North Rhine-Westphalia [Protection of **arable** *land* and forests]. 115978

Studies of applying wastewater discharged from the potato starch factories to **arable** *land.* 1. The influence of spray irrigation of wastewater in grassland on grasses and soil properties. 125546

Arizona *land* use experiment [Remote sensing]. 115245

Lead time for **assessing** *land* use: a case study [Colorado]. 115298

Studies on the *land* use **assessment** of grasslands. 1. Landscape comparison of windbreak forests in the Tokachi farm area and the Konsen grassland farm area. 115291

Estimating the differential change in *land* use **associated** with reservoir construction. 115305

Land use **classification** in Bolivia [Remote sensing]. 115255

Land use **classification** for hydrologic models using interactive machine classification of Landsat data [Remote sensing]. 125262

District parks of the Ruhr Coal District *[Land]* **Colonization** Association. 115224

Effect of exclusion upon establishing pecuniary compensation in *land* **consolidation** carried out by companies. 115209

Land **consolidation** in Luxembourg. 115210

Amendment to the *land* **consolidation** law. 115791

Invitation of participants to the *land* **consolidation** proceeding [Legal aspects]. 115793

Amendment of the *land* **consolidation** law. 115974

Peculiarities in filling the *land* **consolidation** courts. 115980

Trade-offs between farm income and selected environmental indicators. A case study of soil loss, fertilizer, and *land* use **constraints.** 115456

The South Dakota **cooperative** *land* use effort: a state level remote sensing demonstration project. 115271

Automatic categorization of *land-water* **cover** types of the Green Swamp, Florida, using Skylab multispectral scanner (S-192) data [Remote sensing]. 125255

Land **credit** [Brazil]. 115521

Influence of urea on proteolytic enzyme of **cultivated** *land.* 125012

Methods for the coordination of *land* **demand** with land supply. 115227

Determination of demand for leisure time and recreation *[Land* **development** program]. 115223

Planning of free zones in the *land* **development** plan as exemplified by the Lower Rhine partial section. 115228

Analysis of changes in *land* **distributions** by means of Markoff chains. 115222

Investigation of *land* **distributions** by means of grid analysis of an area. 115225

Revegetation of *land* **disturbed** by surface mining in Colorado. 125130

Land use and **environmental** assessment in the central Atlantic region [Remote sensing]. 115252

Legal guarantees for the rational utilization of **farm** *land* in the U.s.s.r. 115236

Priority for the **farm** *land* possession law and the guarantee for its realization in the U.s.s.r. 115896

Federal *land* and resource utilization policy. 115212

Alaskan resources, current development. Traditional cultural values, and the role of landsat data in current and **future** *land* use mangement planning [Remote sensing]. 115240

Hydrologic *land* use classification of the Patuxent River watershed using remotely sensed data. 125261

Design criteria for a multiple **input** *land* use system [Remote sensing]. 115247

The development of a *land* use **inventory** for regional planning using satellite imagery. 115269

Land **judging** contest draws 1,000 competitors [Soil management]. 125163

Land **judging** contest draws 1,000 competitors. 125164

Coastal resource management in Louisiana. A way to return wetlands to state & local control *[Land* use]. 115217

Satellite information on Orlando, Florida *[Land* use]. 115267

Roads and development in southwest Bougainville [Includes *land* use]. 115288

The forester and *land* use. 119520

Cases in the relation of research on remote sensing to decisionmakers in a state agency [Water quality, *land* use]. 125256

Positive results in using *land* **lots** on slopes. 125144

Forest, wildlife and *land* **maintenance.** 119550

Application of satellite remote-sensing data to *land* selection and **management.** 115243

Assessing environmental impacts of multiple use *land* **management.** 115280

Flood insurance as a component of *land* use **management.** 115556

The BLM [Bureau of *Land* **Management]** national resource lands forest inventory. 119482

Forestry and farming—a practical example *[Land* **management** system]. 119538

Application of Landsat and Skylab data for *land* use **mapping** in Italy [Remote sensing]. 115244

Improved resource use decisions and actions through remote sensing *[Land* use, **Michigan].** 115250

Development and planning in Alaska with special reference to *land* use and **mineral** leasing. 115274

The **national** *land* use data program of the U.S. Geologica Survey [Remote sensing]. 115270

The beautiful coverup [New *land* area created by covering irrigation ditch]. 125167

The value of assistance to *land* **owners.** 125150

Landscape evaluation for recreation in Southern Westphalia—further development of an instrument for making decisions by *land* **planners.** 115226

Prerequisites and effects of function allotments made by *land* **planners:** introduction. 115229

Theses on the subject of "Preerequisites and effects of function allotments made by *land* **planners"**—land planning aspects. 115232

Legal consequences of area allotments made by *land* **planners.** 115854

Prerequisites and effects of function allotments made by *land* **planners**—introduction to legal problems. 115855

Suitability of selected methods for the processing of typical questions on *land* **planning** and empirical regional research. 115230
Multi-resource data systems for *land* use **planning** [Forest economics]. 115238
Present and **potential** *land* use mapping in Mexico [Remote sensing]. 115259
Present and **potential** *land* use mapping in Mexico [Remote sensing]. 115260
The brown and burn story [to **prepare** *land* for reforestation]. 119615
Private *land* area and leisure time research [Recreation use of land]. 115286
Local control of *land* use: **profile** of a problem. 115284
Public *land* property and private property in Italy [Legislation]. 115237
The **public** *land* manager [Forest research]. 119369
Major trends and the economic effectiveness of *land* **reclamation** [Drainage]. 115362
Greater efficiency through coordination of *land* **reclamation** and crop production [East Germany]. 115408
Biogeochemical limitations on western *[land]* **reclamation.** The high northern Great Plains example [Soils]. 125120
Coal mine *[land]* **reclamation** on the Black mesa and the four corners areas of notheastern Arizona. 125121
Development of *land* **reclamation** in British Columbia. 125122
Land **reclamation** in Texas—an opportunity. 125123
Land **reclamation,** water quality control, and environmental concern at Centralia (Washington) coal mine. 125124
Land **reclamation** and government policy. 125125
The problem of *land* **reclamation** viewed in a systems context. 125132
Methodical hints on long-term planning of *land* **reclamation** investments [East Germany]. 125136
Private land area and leisure time research **[Recreation** use of *land].* 115286
The intact landscape in publicity for foreign tourists: guidelines for planning and executing 1976 publicity **[Recreational** use of *land].* 115208
Tax reform and *land* **registers.** 115550
Land **registration** for 8 million decares per year. 115285
The instrument for *land* **regulation** of priority areas—criteria and effects. 115231
Land **regulation** and improvement of the use of reindeer pastures in the Magadan Region. 121990
An examination of the potential applications of automatic classification techniques to Georgia management problems *[Land* use, **remote** sensing]. 115242
Ground zero and up—Nebraska's resources and *land* use **[Remote** sensing]. 115249
Land **resource** use and protection. 115219
Land **resource** survey for New Zealand. 115287
Regional inventories and mapping of *land* **resources** and enviromental geology using remotely sensed data. 115261
Factors affecting the establishment of ryegrass [Lolium] seedlings in soldier fly [Inopus **rubriceps]-infested** *land.* 123336
Administrative approaches to the management of the dry margins of Kikuyuland, 1930-1970 [Drought, *land* **settlement].** 115148
A model of ecological development and *land* **settlement** for the Orinoco River Basin of Colombia. 115292
Consolidation as an instrument of reorganization of *land* **settlement.** 115297
Regulation of *land* **settlement** by consolidation in North Rhine Westphalia. 115670
Aspects of fertilization of *land* on **slopes** cultivated with wheat and maize. 125054
Eroded plots of *land* on **slopes,** a big reserve of increased agricultural production (from the experience of the Farm Perieni). 125143
Work mechanization on **sloping** *land.* 124719
Use of remote sensing to investigate water and other resource allocations *[land* use] in **southern** California. 125299
Land use and **state** and local users [Remote-sensing]. 115253
Land use and **state** and local users: summary [Remote sensing]. 115254
National markets and the impacts of **state** *land* use and environmental programs [Legislation]. 115755
Ohio's **statewide** *land* use inventory: an operational approach for applying Landsat data to state, regional and local planning programs [Remote sensing]. 115258
The design, implementation, and use of a **statewide** *land* use inventory: the New York experience [Aerial photographs]. 115268
Methods for the coordination of land demand with *land* **supply.** 115227
A study of *land-use* **systems** in the semi-arid zone of Israel. 115211
Land **tenure,** speculation, and the state of the aging metropolis. 115233
A study of the *land* in the **Tyers** River catchment. 124912
Development of a method of forecasting spring runoff on the basis of recording uneven wter absorption [on forested and **unforested** *land].* 119349
Profitability of [field] crops on **unirrigated** *land.* 115476
Policy of improving sheep populations raised on **unirrigated** *land;* objectives and means of action. 118205
Interactions between *land* use and **urban** water resources planning. 115312
Urban *land* use: remote sensing of groundbasin permeability [Remote sensing]. 125282
Future aspects of the rural area and agriculture *[Land* **utilization,** Austria]. 115206
Disappearance of cacao plantations in the Itabuna environs; a study of *land* **utilization** dynamics. 115214
Land **utilization** and rural settlement in the area of Italian colonization in Rio Grande do Sul, Brazil. 115216
Agricultural production in recreational areas *[Land* **utilization].** 115221
Methodological principles and problems in the development of inventorying of *land* **utilization** in tropical areas. 115313
Farming in Hawke's Bay *[Land* **utilization** and production]. 115433
LANDSAT-1 data as it has been applied for *land* use and **water** quality data by the Virginia State Water Control Board. I. The state project [Remote sensing]. 125263
LANDSAT-1 data as it has been applied for *land* use and **water** quality data by the Virginia State Water Control Board. II. Monitoring water quality from LANDSAT [Remote sensing]. 125264
Information flow of *land-* and **water-related** data in the state of Wisconsin [Remote sensing]. 115251

LANDOWNERS

The large private **[forest]** *landowner.* 119528
The small private **[forest]** *landowner.* 119529
A new view of forestry incentives [Stimulating **private** *landowners* to practice forestry]. 119523

LANDRACE

Results of a [swine] crossing experiment with **Belgian** *Landrace,* Pietrain and Large White. II. Growth and carcass characters. 118389
The genetic control of red cell glutathione deficiencies in **Finnish** *Landrace* and Tasmanian Merino sheep and in crosses between these breeds. 118333
The sensitivity of the ovulation rate of **Finnish** *Landrace* and Blackface ewes to exogenous oestrogen. 118361

LANDSCAPING

Landscape **aesthetics** and environmental planning. A critique of underlying premises. 115296
The dispersal of Carabidae in the **agrarian** *landscape,* with spcial reference to the boundaries between different field crops [Rape, Cereals, methoxychlor]. 123359
Some peculiarities of biogeochemistry of microelements in high **altitude** *landscape* in Pamir. 124826
Some questions on college education in the department of *landscape* **architecture.** 122512
Schleswig-Holstein law for *landscape* **care** [Conservation]. 115981
The position of landscape planning and its relation to regional and local planning, with reference to the laws for *landscape* **care** of Hesse, Rhineland-Palatinate and North Rhine-Westphalia [Conservation of natural resources]. 125524
Studies on the land use assessment of grasslands. 1. *Landscape* **comparison** of windbreak forests in the Tokachi farm area and the Konsen grassland farm area. 115291
The function of dispersed high vegetation [Beautification, *landscaping,* **conservation** of natural resources]. 122501
Landscape **evaluation** for recreation in Southern Westphalia—further development of an instrument for making decisions by land planners. 115226
Landscaping **farm** home grounds. 122097
California's native plants [in **garden** and *landscape].* 122437
Some aspects of propagation influenceing the *landscape* **gardener** [New Zealand]. 122254
Ground cover sods—an economic and production possibility? [in *landscape* **gardening** and erosion control]. 122226
Small woody plants, transplantable with shrubs, for open, sunny areas in the garden *[Landscape* **gardening].** 122278
The woodland border and its shrubs *[Landscape* **gardening].** 122280
Agricultural changes in a part of the imola plain from 1500 up today *[Landscape,* **health].** 115215
Forest protection measures in the range of economy and *landscape* **hygiene.** 119440
The **intact** *landscape* in publicity for foreign tourists: guidelines for planning and executing 1976 publicity [Recreational use of land]. 115208
New *landscaping* law for North Rhine-Westphalia [Conservation of natural resources]. 115977
The position of *landscape* **planning** and its relation to regional and local planning, with reference to the laws for landscape care of Hesse, Rhineland-Palatinate and North Rhine-Westphalia [Conservation of natural resources]. 125524
Exotics in a **repton** *landscape,* the gardens at Plas Newydd, Anglesey. 122269
Design gardens inside-out in Delaware **Valley** *[Landscapes].* 122339
Factors determining the character of **vegetation** *landscape.* 120321

LARCHES

Improvement of the **genus** *larch* (Larix sp.) at the Research Service of the Ministry of Lands and Forests of Quebec [Province]. 119606
The dynamics of *larch* **sawfly** (Hymenoptera: Tenthredinidae) populations in southeastern Manitoba [Larix laricina, pests]. 123454

LARIX

Improvement of the genus **larch** *(Larix* sp.) at the Research Service of the Ministry of Lands and Forests of Quebec [Province]. 119606
Notes on the ecology of three Ligneous species on the southern edge of the Ungava bay, New Quebec: Betula glandulosa, *Larix* **laricina,** Picea mariana. 120332
The dynamics of larch sawfly (Hymenoptera: Tenthredinidae) populations in southeastern Manitoba *[Larix* **laricina,** pests]. 123454
Soil preparation and plant development on sandy soils in Jutland [Picea abies, *Larix* **leptolepis,** Abies alba]. 119572

LARVAE

Survival of *larvae* of **Anoplognathus** porosus (Dalman) and sericesthis nigrolineata Boisd. (Coleoptera: Scarabaeidae). 124017
Taxonomic study on the larvae of Japanese Geometridae (Lepidoptera). II. *Larvae* of **Apocheima.** 124359
The *larval* **arrow** poison of the bushmen [Chrysomelidae, Alticinae]. 123831
Cuticular hydrocarbons of healthy and diseased Japanese **beetle** *larvae* [Popillia japonica]. 123978
Morphology of the *larvae* of **beetles,** predaceous and associated with wood borers, from the northwestern part of the Caucasus. 124309
Morphological types of *larvae* of **beetles-wood** eaters (Coleoptera, Eucnemidae) and their evolutionary significance. 123928
Life cycles of cacao pollinating midges, Forcipomyia species (Diptera, Ceratopogonidae), and some notes on *larval* **behavior** in the laboratory. 124144
Evidence that **blackfly** *larvae* [Diptera: Simuliidae] can feed on particles of colloidal size. 124096
Effects of irradiation to *larvae* of **Bombyx** mori in relation to nutritional conditions and fasting. 124508
The allatotropic activity of the *larval* **brain** of Galleria mellonella cultured in vitro. 123922
Acidic composition of oil estracted from Musca [Sarcophaga] **carnaria** *larva.* 124148
Egg and *larval* **case** formation by Pachybrachis bivittatus. 123801
The *larva* of **Coenosia** dubiosa (Hennig) (Diptera: Muscidae). 124182
A chemical basis for plant [lucerne, Lotus pedunculatus] resistance to grass grub [Costelytra zealandica] and black beetle [Heteronychus arator] *larvae* **(Coleoptera:** Scarabaeidae). 123335
Ochthephilus aureus (Ancyrophorus aureus) Fauv. (Coleoptera, Staphylinidae, Oxytelinae). Ecological notes and morphological **description** of the *larvae.* 124081
Douglas fir tussock moth [Orgyia pseudotsugata] egg hatch and *larval* **development** in relation to phenology of grand fir and Douglas-fir [Abies grandis, Pseudotsuga menziesii] in northeastern Oregon. 123502
Starch compounds as adjunct gelling agents in *larval* **diet** of the cabbage looper [Trichoplusia ni]. 123415
Further observations on the functional morphology of the head and mouthparts of **dragonfly** *larvae* (Odonata) [Aeshna interrupta lineata, Libellula quadrimaculata]. 124135
The binding of juvenile hormone to *larval* **epidermis:** influence of carrier protein from the hemolymph of Plodia interpunctella. 123953
On the distribution of microorganisms infecting the *larvae* of **Euproctis** chrysorrhoea L. (Lepidoptera, Lymantriidae) near Kosova, Yugoslavia [Natural control]. 123225
Contributions to the knowledge of the morphology and biology of the *larvae* of four **European** Eylais species (Acari, Hydrachnellae). 123770
Extracting *larvae* of Chrysops hirsuticallus (Diptera: Tabanidae) from soil: efficiency of two methods. 123802
Density and composition of crane **fly** *larvae* (Diptera, Tipulidae) from an alpine wet meadow at Stigstuv, Hardangervidda, south Norway. 124112
Larval **foodplants,** spatial and temporal distribution for five skippers (Hesperiidae) from texas. 124319
Influence of a cutaneous wound on the development of the densonucleosis in *larvae* of **Galleria** mellonella L., Lepidoptera, infected by ingestion. 123904
Relationship between DNA synthesis, juvenile hormone and metamorphosis in **Galleria** *larvae.* 123950
Physiological studies on [the ecological importance of fungi in] an isolate of Saprolegnia ferax from the *larval* **gut** of the blackfly Simulium vittatum. 120381
The biology of Dianthidium heterulkei heterulkei Schwarz, with a description of the *larva* **(Hymenoptera:** Megachilidae). 124168
Developmental studies on gynandromorphs of Drosophila melanogaster. IV. Comparison of morphogenetic fate maps of *larval* and **imaginal** structures. 124170
Survival of **infectious** *larvae* of horse strongylid nematodes in pasture grass; a preliminary field study. 118956
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the herbage infestation with **infective** *larvae* [Parasitic worms]. 118862
Early evolution of **insect** *larvae.* 123926
Comparative investigations about number and durations of the *larval* **instars** of Tettigoniidae (Orthoptera: Saltatoria). 1. 124177

Integument of Tenebrio molitor L. (Insecta; Coleoptera). I. Histology of *larval* **integument.** 123834
Juvenile hormone action on the intermediary metabolism in Indian meal moth [Plodia **interpunctella**] *larvae.* 123543
Taxonomic study on the *larvae* of **Japanese** Geometridae (Lepidoptera). II. Larvae of Apocheima. 124359
Electron microscope study of sporulation and parasporal crystal formation in Bacillus thuringiensis [Pathogenicity for *larvae* of **Lepidoptera**]. 123242
Host plants and other foods of the *larvae* of **Lepidoptera** of Urguay. 123260
Phospholipase activity in gut juice of **lepidopterous** *larvae* [Pieris brassicae, Spodoptera exiguens, Trichoplusia ni]. 123985
The identification of British **limnephilid** *larvae* (Trichoptera) [New taxa]. 124465
Toxicity, penetration, and metabolism of chlordimeform and its N-demethyl metabolite in cabbage **looper** *larvae* [Trichoplusia ni]. 123407
The development of *larval* **Malpighian** tubules in Corcyra cephalonica Staint. (Lepidoptera: Pyralididae). 124186
Study of some pathological characters and of specificity of the lethargy of Melolontha **melolontha** *larvae* (Coleoptera: Scarabaeidae). 123234
Septic thrombosis in a foal [Damage from **migrating** *larvae* of Strongylus vulgaris]. 119056
Larval **morph** variation in Chlosyne lacinia (Nymphalidae) [Influence of genetic modifiers and/or environmental factors]. 124061
The carotenoids of a black variety of the *larva* of the **moth,** Manduca sexta [Tobacco pests]. 124051
Influence of actinomycin D on *larval* **moulting** and morphogenesis of the chilopod Lithobius forficatus (L.). 124189
Observations on some Actinedida (=Prostigmata) in soils in North America. IV. A **new** *larval* form and its adult belonging to the subfamily of Microthrombidiinae (Acari, Thrombidiidae) [New taxa]. 124196
Locomotor behavior of diapausing and **nondiapausing** *larvae* of Cadra cautella (Walker) (Lepidoptera, Pyralidae). 123544
Predation of **overwintering** *larvae* of codling moth (Cydia pomonella (L.) by birds. 121819
Quantitative analysis of lipids, nirogen substances and glycogen in the *larva* of an **ovo-larval** parasitic insect, Phanerotoma flavitestacea (Hymenoptera, Braconidae). 123890
Comparative morphological characteristic of the *larvae* of **Palearctic** species of the genus Lonchaea Fall. (Diptera, lonchaeidae). 124307
Quantitative analysis of lipids, nirogen substances and glycogen in the larva of an *ovo-larval* **parasitic** insect, Phanerotoma flavitestacea (Hymenoptera, Braconidae). 123890
Viability of the epizoic lichen flora carried and dispersed by green lacewing (Nodita **pavida**) *larvae.* 120984
The effects of various aphids as *larval* **prey** on the development of Metasyrphus corollae (Diptera: Syrphidae). 123906
House fly [Musca domestica] *larvae* as **protein** source [for feed] from pig manure. 124150
Eumerus compertus Villeneuve (Diptera, Syrphidae); *larvae* and **puparium.** 124476
Effect of synergized allethrin on Heteropeza **pygmaea** *larva* and mycelial growth of Agaricus bisporus [mushroom] in vitro. 123411
Morphology of Trigonurus asiaticus **Reiche** *larva* and relation of the tribe Trigonurini with other tribes of the subfamily Piestinae (Coleoptera, Staphylinidae). 124308
Changes in protein, fat & glycogen in the *larvae* of **rice** moth Corcyra cephalonica St. during nuclear polyhedrosis virus infection. 123968
Infestation of melon seedlings by the *larvae* of the **root-knot** nematode, Meloidogyne incognita. 123004
Comparative anatomy of the digestive system of *larvae* of **roundheaded** wood borers (Coleoptera, Cerambycidae). 123925
Larvae of **rove** beetles (Coleoptera, Staphylinidae) developing in wood [Ecology and morphology]. 123927
Insect density effects in root feeding by *larvae* of **Sericesthis** nigrolineata (Coleoptera: Scarabaeidae) [Pasture pests]. 123316
Effect of various factors on the activity of sucrase from the *larvae* of **Sesamia** inferens. 123886
The **seven** *larval* instars of Simulium arcticum (Diptera: Simuliidae) [Biology and control]. 123614
Serodiagnostic studies on *larval* and **strobilar** phase of Taenia hydatigena with in vitro precipitation test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919
Effects of dietary amino acid level and nutritional balance on *larval* **survival** and development of the parasite Exeristes roborator [Pectinophora gossypiella, biological control]. 123280
Growth, abundance and distribution of *larval* **tabanids** in experimentally fertilized plots on a Massachusetts salt marsh [Tabanus nigrovittatus]. 124016
On the occurrence of Bacillidium sp. A microsporidian parasite infecting some **thrips** *larvae* [Thrips flavus, Scirtothrips oligochaetus, cotton pests]. 123303
Rearing of **transplanted** *larvae* in artificial queen-cell cups in a queenright colony [Apis mellifera]. 124580
Prey detection by fourth stage Coccinella **transversoguttata** *larvae* (Coleoptera: Coccinellidae). 123790
Ecdysone deficiency in juvenile hormone **treated** *larvae* of the German cockroach, Blattella germanica (L.). 123938
Evidence and function of a "repellent pheromone" of *larvae* of **Trogoderma** granarium Everts (Coleoptera, Dermestidae). 124188
Morphology of the neuroendocrine systems of **two** *larval* blackflies, Prosimulium mixtum/fuscum and Simulium venustum. 123860
Behaviour and *larvae* of **two** rose chafer beetles Eupoecila australasiae (Don), Diaphonia dorsalis (Don) (Coleoptera: Scarabaeidae, Cetoniinae). 124472
Morphology of **weevil** *larvae* (Coleoptera, Curculionidae) and ecological ways of their adaptation to living in wood. 123929
Investigation on [wheat] seed and soil treatments [with lindane] against *larvae* of **Zabrus** spp. and Anisoplia spp. cereal pests in Central Anatolia. 123290

LARYNGITIS

Chronic **follicular** *laryngitis* and main deficiency "laryngeal whistling". 119078

LARYNX

Chronic follicular laryngitis and main **deficiency** *"laryngeal* whistling". 119078

LASERS

Laser **light** scattering bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for milk, serum, urine, and bile. 118460

LASIODERMA

Lasioderma **serricorne** F. As a major pest of stored turmeric. 123510
Insecticidal value of phosphine in the control of stored tobacco insect pests [Ephestia elutella, *Lasioderma* **serricorne**]. 123537
Integrated temperature and chemical control methods against the cigarette beetle *[Lasioderma* **serricorne**]. 123538
Multiple mating by [the cigarette beetle] *Lasioderma* **serricorne** (F.)—effects on fertility and fecundity. 123546

LASIOGLOSSUM

Sociality and seasonal size variation in halictine bees *[Lasioglossum,* **subgenus** Dialictus]. 124002

LASPEYRESIA

Occurrence of the oriental peach moth *[Laspeyresia* **molesta**]. 123434
Experiments with field cages on the effect of climatic factors on the codling **moth** *(Laspeyresia* pomonella L.) [Apple and pear pests]. 123432
Hormonal studies of uridine utilization in an insect cell line CP-1268 derived from the codling **moth** *Laspeyresia* pomonella. 123967
Contribution the study of the effects of Bacillus thuringiensis Berliner on the reproducton of *Laspeyresia* **pomonella** L [Biological control]. 123261
Electrophysiological reaction of olfaction of the codling moth, *Laspeyresia* **pomonella** L., as a possible fast method for determining the toxicity and content of insecticides. 123391
Alternate methods for control of the codling moth *[Laspeyresia* **pomonella,** apples, pears]. 123421
The role of spores and crystals of Bacillus thuringiensis Berliner in the infection of *Laspeyresia* **pomonella** L. (Tortricidae). 123810

LATENCY

Behaviours of pH [hydrogen-ion concentration] and volatile fatty acids in rumen juice of sheep afflicted with *latent* **alimentary** metabolic acidosis. 119153
Calcium, phosphate, and skeletal metabolism in *latent* **alimentary** metabolic acidosis in sheep. 119154
Changes of ruminal mucosa and blood of sheep in presence of *latent* **alimentary** metabolic acidosis. 119156
Latent **alimentary** metabolic acidosis of ruminants. 119164
Parameters of acid-base balance in sheep in conjunction with *latent* **alimentary** metabolic acidosis. 119167
A technique for the differential isolation of hop mosaic virus and **hop** *latent* virus. 122827
Latent **infections** and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of three Prunus [cerasifera, Prunus mahaleb, Prunus avium] species. 122810

LATERAL

Brain catecholamines and the *lateral* **hypothalamic** syndrome [Hunger, mechanisms]. 116354
The role of the *lateral* **hypothalamus** in determining the body weight set point [in control animals]. 116384
Effect of *lateral* **shoot** orientation on growth and flowering of young apple trees. 121667
Surgical repair of [canine] *lateral* **shoulder** luxation. 119147
Quality of grain and malt from the main and *lateral* **stems** as well as from different parts of the barley spike. 121566

LATEX

Effect of **ethephon** *latex* stimulant on papaya (Carica papaya L.) [Papain yields and quality of fruits]. 122400
Some morphological and chemical characteristics of the purified terpenoid particles of the *latex* of **Hoya** australis R.br. Ex Traill [and Euphorbia milii]. 116640
Latex-fiber **interaction** and paper reinforcement. 119719

LATITUDE

Salt marsh vegetation: *latitudinal* **gradients** in the zonation patterns. 120388
Formation of Solonetz and Solod on ancient weathering crusts. Some general laws of transformation of ancient weathering crusts in the hypergenesis zone in **temperate** *latitudes.* 124795
Latitudinal **variability** in earliness of grain-bearing Sorghum hybrids. 120633

LATRODECTUS

Isolation of a neurotoxin with a presynaptic action from the venom of the black widow **spider** *(Latrodectus* mactans, Fabr.). 124165

LAURACEAE

Avocado: Persea **americana** *(Lauraceae).* 122345

LAWN

Lawn **areas** should be beautiful and healthy (disease control often difficult). 123009

LAWS

Legal sentence: verdict of the Hessian **administrative** *law* court on November 28, 1975—IV OE 98/74 [Beekeeping buildings]. 124495
Participation conclusion **[Agrarian** *law* discussion]. 115895
Problems and general theory of the **agrarian** *law.* 115897
Problems and prospects of the **agrarian** *law* in the U.S.S.R. 115898
Problems of the **agrarian** *law* in the U.S.S.R. 115899
Three significant innovations in the **agricultural** *law* of France. 115797
Governmental administration and regional administration of the Italian **agriculture** *[Laws].* 115894
Justification of the agrarian codification *[Laws,* **Brazil].** 115939
Tenth regulation for the execution of the *law* on **changing** legal food provisions, March 2, 1976. 115958
Changes of foreign body regulation of the **cheese** *law* and the ordinance on milk products. 115834
Trioza **chrysanthemi** *Law* (Homoptera, Psyllidae) new to Norway. 124384
Law on **complete** reform of food legislation from the viewpoint of a provincial administration. 116001
Amendment to the land **consolidation** *law.* 115791
Amendment of the land **consolidation** *law.* 115974
Real **estate** *laws* now and in the future. 115938
The new **feed** *law* and its definitions of execution. 115959
Total reform of the **food** *law* and food research. 115833
Food *law* today and tomorrow—regulatory function or end in itself? 115835
Food *law* today and tomorrow—regulatory function or end in itself. 116000
The central assignments of the forestry service and the role of the professional personnel for their realization **[Forest** *law,* Slovenia]. 119455
Formation of Solonetz and Solod on ancient weathering crusts. Some **general** *laws* of transformation of ancient weathering crusts in the hypergenesis zone in temperate latitudes. 124795
The position of landscape planning and its relation to regional and local planning, with reference to the *laws* for **landscape** care of Hesse, Rhineland-Palatinate and North Rhine-Westphalia [Conservation of natural resources]. 125524
New **landscaping** *law* for North Rhine-Westphalia [Conservation of natural resources]. 115977
Some relationships among **mathematical** *laws* of plant competition and laws of yield factors. 120396
Priority for the farm land **possession** *law* and the guarantee for its realization in the U.s.s.r. 115896
Effects of the emission **protection** *law* on brewery operation and planning. 115815
Effects of the emission **protection** *law* on brewery operation and planning. 115816
Law for **protection** against immissions and the lumber industry [Air pollution]. 125438
The national commission on water quality study of the impacts of **Public** *Law* 92-500 on industry [Pollution control]. 125478
Regulated *law* on share farming contracts [Colombia]. 115992
Laws and **regulations** affecting agriculture and the agricultural chemical industry. 116009
Food development, innovation or stagnation [Policies, *laws,* **regulations**]. 116747
Length of work of salaried workers in agriculture, weekly **rest** *[Laws].* 115425
Schleswig-Holstein *law* for landscape care [Conservation]. 115981
Observations on the the interpretation of the **second** *law* of [forest tree] increment. 119427
Laws, **standards,** and regulations for smoke abatement in Montana [Air pollution]. 115866
Laws, **standards,** and regulations for smoke abatement in Oregon [Air pollution control]. 115867
1975 **state** *laws* affecting farmers in Hawaii. 115952
Kansas noxious **weed** *law.* 123137
The Minnesota **weed** *law.* 123156
Some relationships among mathematical laws of plant competition and *laws* of **yield** factors. 120396

LAYERING
Prediction of infiltration into *layered* **field** soils in relation to profile characteristics [of a Cecil soil]. 124914

LAYERS
Stock of weed seeds in the **arable** *layer* and ways of decreasing it. 123196
Layers in **battery** cages [Chickens]. 117423
Skill needed to feed **cage** *layers*. 118138
Effect of varying levels of protein and calcium on the performance of Rhode Island Red **caged** *layers*. 118080
Quantitative determination of caffeic acid esters and catechins by direct measurement on *thin-layer* **chromatograms.** 116777
Detection of N-aryl-N-nitrosamines on *thin-layer* **chromatographic** plates with 2,4-dinitrophenylhydrazine and phosphomolybdic acid [Possible carcinogens]. 116191
Thin-layer **chromatographic** demonstration of the Zenkor herbicide [Residues in food and feed]. 116266
Identification of antibiotic residues in milk by *thin-layer* **chromatography.** 116192
Quantitative analysis of flavanones and 3-hydroxyflavanones [occurring in plant material] by *thin-layer* **chromatography** [Foods]. 116776
Thin-layer **chromatography** of sulphonamides and possibilities for their use in [veterinary] practice. 118525
Forensic examination of sawdasts by *thin-layer* **chromatography** and flying spot densitometry. 119722
Use of the agar-gel precipitin test to evaluate broiler breeder and **commercial** *layer* flocks [chickens] for Mycoplasma gallisepticum infection. 118642
Quantitative determination of organophosphorus pesticides by *thin-layer* **densitometry.** 123729
Changes in the content of tryptophane in *layers* under the **effect** of the temperature and moisture regime of the environment. 117946
Influence of light intensity on *layers* [**Egg** weight]. 117918
Beer filtration. V. *Layer* **filtration,** membrane filtration, short-term heating. 116669
Beer filtration. IV. Siliceous earth filtration with kettle filters. Basics of *layer* **filtration.** 116670
How to **formulate** *layer's* diets for mixing on the farm [Chickens]. 118084
The immune response of birds from **immune** *layers,* vaccinated on the first and fourth day against Newcastle disease. 119001
Layers **improve** with DPW [Dried poultry waste, feed ingredient]. 118146
Layers: the **influence** of static electricity [on egg production]. 117397
Observation on the free formaldehyde dissolved into the **liquid** *layer* of the skin surface from resin finished fabrics. 2. [Cotton]. 116214
Influence of different thickness of green **malt** *layers* in kiln drying on the process method, malt quality, and efficiency of the kiln drier. II. 116787
Use of preformed cell aggregates and *layers* to **measure** tissue-specific differences in intercellular adhesion [Chick embryos]. 117651
Effect of high temperatures in poultry houses on some indices of the carbohydrate **metabolism** in *layers*. 117948
Changes in [the composition of] the lower [plant] *layer* on a **natural** mountain from fires. 121894
The surface and function of the **protein** *layer* of Ascaris suum eggs. 118665
Remarks on the formation of different *layers* of the **spore** wall with the lamellar exine in some Marchantiales and Sphaerocarpales. 120511
Influence of reduced spray amounts in the separate methods of application on the quantity and quality of the *layer* of **spray** on hops [Plant protection, equipment]. 122936
Interval of changes of the hydrophysical properties of soil and **underlying** *layer* under water condition effected by twoway regulation (1972-1973) [Irrigation, drainage]. 125229
The significance of **unstirred** *layers* for the kinetics of carrier mediated transport in plant tissues [of ion and other substances]. 121386

LAYING
Cage *laying* house. 124622
Cage *laying* house. 124623
The effect of hyperpotassic diets on consumption, *egg-laying,* **egg** quality and on calcium and serous phosphorus levels. Preliminary trial [Chickens]. 118049
Experiences concerning the energy, protein and mineral requirements of *laying* **geese.** 118017
Messenger RNA translation in the presence of homologous and heterologous tRNA [prepared from oviduct or liver of *laying* **hens**]. 117664
Substitution of lysine supplemented high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of *laying* **hens.** 118009
Raw sugar and B [vitamin] complex for *laying* **hens.** 118047
Effect of time feeding on performance of *laying* **hens** during hot weather. 118078
Effects of dietary protein and lysine levels on plasma amino acids, nitrogen retention and egg production in *laying* **hens.** 118103
The influence of a chloramphenicol treatment of *laying* **hens** in batteries to air borne staphylocci in drinking water [Swine]. 118664
Metabolism of the herbicide methazole in lactating cows and *laying* **hens.** 123091
Results of veterinary services on state farm Spreenhagen for *laying* **hybrid** breeding, between 1972 and 1975. 118520
Application of ursokoxalin and vitamin K3 substitution to influence relative prothrombin concentration in *laying* **hybrids** with Eimeria tenella infection. 118825
Substitution of lysine supplemented high protein wheat in protein feeds fed in the rearing and during the *laying* **period** of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high protein wheat in protein feeds fed in rearing and during the *laying* **period** of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [turkey herpesvirus] vaccine. II. Effectiveness of the deptavac HVT vaccine with broiler parents during the *egg-laying* **period.** 118972
Regulation of intestinal calcium absorption in the *laying* **quail:** independent of kidney vitamin D hydroxylation. 117819
The results of the [Belgian] national random **sample** *egg-laying* test 1973-1974. 117497
Effect of 16 percent protein starter diets on subsequent performance of growing and *laying* **single-comb** White Leghorn pullets. 118178
Vacant *laying* houses [Poultry houses and equipment not in use]. 124609
Relationship between plant population and *lay* to **yield** of forage corn and Vigna sinensis [cowpeas] intercropping. 122131

LAYOUTS
The [plant] propagation unit: *layout* and **equipment** to aid handling. 124604
Implementation of **field** *layout* for mechanization [of sugarcane production]. 124730
Mill *layout* for maximum efficiency [Lumber]. 119694

LEACHING
Simplified long-term concept for **evaluating** *leaching* of nitrogen from agricultural land [Fertilizer efficiency, groundwater pollution]. 124878
A steady-state conceptual nitrogen model for estimating nitrogen emissions from cropped lands *[Leaching* **losses,** fertilizer, corn]. 124862
Annual progress report on nitrogen modeling in cropped, irrigated lands *[Leaching* **losses].** 124863
Leaching and **microbial** utilization of dissolved organic carbon from leaves of Spartina alterniflora. 121041
African stations of spiders of the genera **Nephila** *Leach* and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of Natural History [New taxa]. 124251
Yields of forages, *leaching* of **nitrate** and nitrogen balances in an irrigated field treated with dry and liquid manures. 124881
Leaching of **nitrate** fertilizer after big spring rains. 125025
Nitrate in effluents from irrigated lands—annual report *[Leaching,* **nitrogen,** soil]. 124870
Leaching and **water** quality on service life of Copper-treated [jute] burlap. 125000
Effectiveness of fertilizers in durum and soft wheat in the conditions of **weakly** *leached* Chernozems in the Kursk Region. 125077
Winter *leaching* of nitrate from autumn-applied calcium nitrate, ammonium sulphate, urea and sulphur-coated urea in bare soil. 124834

LEAD
A reason for *lead* **addition** in unsafe wines. 116024
Contamination of water of electric **boilers** with *lead.* 116189
Determination of traces of *lead* and **cadmium** in apertifs by flameless atomic absorption spectrometry. 116030
Investigations into the *lead* and **cadmium** content of meat and organ samples from slaughter animals. 116119
Airborne Pb *[lead],* **Cd** [cadium], Zn [zinc], and Cu [Copper] concentration by particle size near a Pb smelter [Farm]. 125386
Sublethal effects of **chronic** *lead* ingestion in mallard ducks. 119260
Observations on *lead* **contamination** in milk. 116042
Lead **contamination** of the roadside ecosystem. 125492
Lead **contamination** of urban soils and vegetation by emissions from secondary lead industries. 125493
Effects of chromium, manganese, nickel, *lead,* **copper** and zinc on the nitrification process of soil. 124751
Entry and movement in vegetation of *lead* **derived** from air and soil sources. 125491
Application of physical and chemical methods for **determining** *lead* in wine. 116026
Toxic effects of *lead* on **growth** & metabolism of germinating rice (Oryza sativa L.) seeds & on mitosis of onion (Allium cepa L.) root tip cells. 122952
Lead **inhibition** of chlorophycean microalgae [Toxicity]. 122982
Brazil extends its *lead* as **orange** juice exporter. 115641
Lead contamination of urban soils and vegetation by emissions from **secondary** *lead* industries. 125493
Lead **time** for assessing land use: a case study [Colorado]. 115298
Roadside coniferous windbreaks as sinks for **vehicular** *lead* emmissions. 119351
Determination of *lead* in **wine** through flameless atomic absorption spectrometry, concerning D. Mack's paper, DLR 71 (1975) 71. 116075

LEAFCUTTERS
Some aspects of the biology and control of Sapyga pumila Cresson, a parasite of the **alfalfa** *leafcutter* bee, Megachile pacifica P. (Rotundata) (F.). 123294

LEAFHOPPERS
Composition, zonation and origin of the *leafhopper* **fauna** of oatfields in Finland. 123284

LEAFROLLERS
New insect pest puts in an appearance: **citrus** *leafroller,* Cacoecia occidentalis Wism. 123386
Field studies on sex pheromone trapping of the **filbert** *leafroller,* Arcips rosanus, in Oregon. 123370
Control of a *leafroller* **moth,** Tortrix viridana, in an oak-dominated forest in the Main Botanical Garden [of the USSR Academy of Sciences. 123448

LEAFSPOT
Resistance of Septoria leucanthemi to benzimidazole fungicides [Chrysanthemum **maximum,** *leafspot].* 122759

LEAFWORMS
Insecticide resistance of the Egyptian **cotton** *leafworm* (Spodoptera littoralis Boisd.)) in Antalya region. 123289

LEAKAGE
Resource conservation: plugging **hidden** *leaks.* 116616

LEASING
A critical opinion on the *lease* **catalog** of the German Agricultural Association [Agriculture, forestry]. 119447
Development and planning in Alaska with special reference to land use and **mineral** *leasing.* 115274

LEATHER
Genuine *leather,* a natural material for upholstering [Tanning and properties]. 117007
Chemical composition of a **hydrolyzed** *leather* as a protein source [for animal nutrition]. 117389

LEAVES
Effect of silicon on the growth, area size of *leaves* and **adsorbing** surface of plant roots [of cereals, soybeans and forage broadbeans]. 121402
Control of South **American** *leaf* blight (Microcyclus ulei) of the rubber plant [Hevea brasiliensis] in Bahia. II. Cost/benefit ratio of aerial spraying of fungicides in the Itubera region, 1972/73. 115546
South **American** *leaf* blight of Hevea brasiliensis: spore dispersal of Microcyclus ulei. 122566
New technical concepts on the chemical control of South **American** *leaf* blight [Microcyclus ulei] of the rubber tree [hevea brasiliensis]. 122586
Control of South **American** *leaf* blight (Microcyclus ulei) of the rubber plant [Hevea brasiliensis] in Bahia. I. Aerial spraying of fungicides in the Itubera region. 122775
Quercus calliprinos Webb and Quercus coccifera L.: studies of the *leaf* **anatomy** and taxonomical and chorological consideration [Mediterranean Region]. 120021
Toxicant spread in laboratory colonies of the *leaf-cutting* **ant** [Atta cephalotes]. 123220
A review of the status of *leaf-cutting* **ants** [Atta and Acromymex] and their control. 123218
The improvement of baits for *leaf-cutting* **ants** [Atta cephalotes, and Acromyrmex octospinosus, alternative types of insecticide]. 123219
Tracheids, **apogamous** *leaves,* and sporophytes in gametophytes of Botrychium dissectum. 120429
Studies on the effect of Gesatop 50 [simazine] on some apple clones.II. Quantitative changes in dry matter and sugar content in *leaves* of **apple** clones A2, MM104, MM106 and MM111. 123193
Studies on the effect of Gesatop 50 [simazine] on some apple clones. II. The content of nitrogen compounds in *leaves* of **apple** clones A2, MM104, MM106 and MM111. 123194
Influence of spray adjuvants and multiple applications of benomyl and oil on photosynthesis of **apples** *leaves* [Apple scab, Venturia inaequalis]. 122620
Leaf **area** and photosynthetic active radiation as related to corn yield. 121557
Effect of infection by arhar mosaic virus on the Hill reaction and primary productivity of pigeonpea **(arhar)** *leaves.* 122840
Change in the content of auxins and growth inhibitors in the *leaves* of **barley** as a result of ultra-violet radiation in the conditions of West Pamir. 121486
Increased transpiration and the accumulation of root absorbed 86Rb [rubidium isotope] in **barley** *leaves* in infected by rhynchosporium secalis (leaf blotch). 122706
Chemical examination of *leaves* of **Barringtonia** acutangula Gaertn. 121019
Beet *leaf* miner [Pegomya betae]. 123268
They fend off insects [Wheat varieties resistant to the Hessian fly, Mayetiola destructor and the *leaf* **beetle,** Chrysomelidae]. 123272

Intraspecific variability, host plant preference and injuriousness of *leaf* **beetles** of the subfamily Galerucinae (Coleoptera, Chrysomelidae) on field crops of the Cauca River. 123358
Effect of photo-induction on micronutrient content of *leaves* in **Biloxi** soybean glycine max Merrill. 121501
Inheritance of the characters of hairiness of *leaf* **blade** and root colour in radish. 120643
Resistance to Septoria [tritici] *leaf* **blotch** of wheat in California. 122555
Field reactions of wheat to Septoria [tritici] *leaf* **blotch.** 122750
A new disease of Pilea [imperialis] caused by Phytophthora parasitica *[Leaf,* **bud** and stem blight]. 122742
Lighting of *leaf* **canopy** and the yielding ability of Zimny Zolotoy Parmen as affected by the planting pattern and the form of the crown [Apples, varieties]. 122499
Ascochyta chrysanthemi Stev., the fungus **causing** *leaf* and flower disease in Chrysanthemun plants. 122689
Studies into Stemphylium floridanum **causing** *leaf* blight of Viola. 122790
Localization of chloride in *leaf* **cells** of the halophyte Suaeda maritima by silver precipitation. 121304
Ultrastructural changes in *leaf* **cells** of Chenopodium quinoa infected with potato virus S. 122856
Lipids of grape (Vitis vinifera) *leaves* & their **chloroplasts.** 121692
Penetration of 59Fe [iron isotope] through isolated cuticles of **citrus** *leaves* [Sweet oranges, sour oranges]. 121675
Disappearance of citrus. Is there only hope in controlling **citrus** *leaf* psylla [Trioza erytreae] with insecticides? 123385
Comparative studies of the vascular system of *node-leaf* **continuum** in woody Ranales. II. Node-leaf vascular system of Eupomatia laurina R. Br. 120493
Isolation and purification of "malic-enzyme" NADP from **corn** *leaves.* 121427
Southern **corn** *leaf* blight [Helminthosporium maydis]: ultrastructure of host-pathogen association. 122718
Ultrastructure and mechanics of the conidium-conidiophore attachment of Helminthosporium maydis **[Corn** *leaf* blight]. 122740
Influence of buffers on pH [hydrogen-ion concentration] of **cotton** *leaf* surface and activity of a Heliothis nuclear polyhedrosis virus. 123318
Protection of **Cucumis** *leaf* pigments against photo-oxidative degradation during chilling. 117210
Pesticide effects on the plant cuticle. II. EPTC [S-ethyl dipropylthiocarbamate] effects on *leaf* **cuticle** morphology and composition in Brassica oleracea L. [Cabbage]. 123725
Effect of photoperiodic manipulation on seasonal variation in bud and shoot regeneration of Rieger begonia [Begonia hiemalis] *leaf* **cuttings.** 121668
Environmental control of shoot initiation by Rieger begonia [Begonia hiemalis] *leaf* **cuttings.** 121671
Methods of applying cytokinins to *leaf* **cuttings** of Rieger begonias. 122234
Recent findings on determining the harvesting ripeness, *leaf* **development** and yield of potato stands. 122296
Two new genera of leaf parasitic fungi (Basidiomycetidae: Brachybasidiaceae) *[Leaf-spot* **diseases** of vascular plants]. 120206
Leaf **diseases** of winter wheat [caused by fungi and bacteria]in Montana and losses from them in 1975. 122753
Possible causes of **early** *leaf* loss by Golden Delicious apples. 123037
Investigations on the uptake of alpha-aminobutyric acid and L-valine by *leaves* of **Egeria** densa Planch [Aquatic plants]. 121382
Water potential and *leaf* **elongation** in radiata pine [Pinus radiata] and wheat. 121826
A convenient new medium for rapid preparations of cuticular replicas *[Leaf* **epidermis].** 119888
A rapid method for measuring net photosynthesis of **excised** *leaves* by using air-sealed chambers [Maize, Phalaris arundinaceae, soybeans]. 121511
The interrelationship between translocation of 14C [carbon isotope]-photosynthate and 14CO [carbon dioxide isotope] **exposed** *leaf* position on the grafts of Ipomoea [Sweetpotatoes]. 121766
Induction of local & systemic resistance in Nicotiana glutinosa against tobacco mosaic virus by *leaf* **extract** of dahlia. 122842
Ear and **flag** *leaf* photosynthesis of awned and awnless Triticum species [Wheat]. 121412
Anatomical observations on **floating** *leaves.* 120410
Flower bud atrophy in Baccara roses [Rosa]. IV. The activity of various growth substances in *leaves* of **flowering** and non-flowering shoots. 121747
Comparative anatomical and morphological study of the *leaf* in the **genus** Panax L. (Araliaceae). 120071
Peculiarities of protein metabolism in maize **green** *leaf* in relation to heterosis. 120809
Development and growth of the plant tip on Acnistus arborescens. II. Development of the procambium and the vascular tissues of the *leaf,* and **growth** of the foliar blade. 121343
Phenology and *leaf* **growth** of defoliated hardwood trees [Quercus rubra, Acer rubrum]. 121816
Content of gibberellin-like substances in the *leaves* of **Heracleum** olgae Rgl. et Schmalh. in relation to the effect of gibberellin and natural ultra-violet radiation. 121106
Studies on large vascular bundles in paddy rice plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of **high-ranking** *leaves* and the number per primary branch of the panicle in rice varieties. 120535
Induction of **juvenile** *leaf* form in a palm (Caryota mitis) by gibberellin. 120441
The disappearance [forest trees] of four *leaf* **leachates** in a hard and soft water stream in southwestern Ontario, Canada. 121817
The developmental anatomy of adventive plantlets from *leaves* and **leaf** segments of Crassula argentea (Crassulaceae). 120428
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, phosphorus, potassium, magnesium, calcium] on the growth of pear trees and levels in the *leaves,* 1958-1975. 121771
Autumnal processing of dissolved organic matter in a small woodland stream ecosystem *[Leaf* **litter].** 120344
Foliar ontogenesis and *leaf* **lobing** of Tropaeolum peregrinum L. II. The development of the lobe after the formation of the lobulets. 120895
Pollen and *leaves* from the **Mid-Cretaceous** Potomac group and their bearing on early angiosperm evolution. 120060
The hypothetic race 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the reaction of some tomato species and varieties to it *[Leaf* **mold].** 122612
Study on residues remaining on **mulberry** *leaves* treated with acaricides and their toxicity to the silkworm, Bombyx mori L. 124503
Proper procedures for soil, *leaf* and **nematode** sampling. 122920
A **new** *leaf* blight of Peristrophe bicalyculata [Colletotrichum crossandrae]. 122598
Some **new** *leaf* spot diseases [caused by pathogenic fungi]. 122607
Lejeuneology: the notion of the *leaf* **node** in the **genus** Cololejeunea Schiffn [Hepaticae]. 120438
Initiation of resistance and host cell collapse in the hypersensitive reaction of **oat** *leaves* against Puccinia coronata avenae. 122707
Mycoplasmalike bodies associated with rice **orange** *leaf* disease [Recilia dorsalis as insect vector]. 122862
Plants of New Caledonia. XXXIX. Alkaloids from *leaves* of **Pagiantha** cerifera Mkgf. (Apocynaeae). 120893
Two new genera of *leaf* **parasitic** fungi (Basidiomycetidae: Brachybasidiaceae) [Leaf-spot diseases of vascular plants]. 120206
Two forms of ferredoxin in **pea** *leaves.* 121609
Absorption of oxygen by **pea** *leaf* chloroplasts in the presence of riboso-5-phosphate in the light. 121634
Subcellular localization of the oleyl-CoA [coenzyme A] desaturase activity in **pea** *leaves.* 121645
Diurnal **periodic** *leaf* movements and biochronometry. 120953
A contribution to the study of antigen properties of **poplar** *leaves* [Populus nigra]. 121827
Fungicides for control of **poplar** *leaf* rust [Melampsora larici-populina] and effects of control on growth of Populus nigra cv. 'Sempervirens' and Populus X euramericana cv. 'I-214'. 122667
Changes in soluble proteins in **potato** *leaves* infected with Phytophthora infestans. 122741
Total nitrogen concentration in *leaves* of **potatoes** (Solanum tuberosum L.) as an index of nutritonal status [Foliar analysis]. 125020
In vitro digestibility of some *leaf* **protein** preparations using papain. 116505
Functional properties of succinylated and acetylated [alfalfa] *leaf* **protein** [for food use]. 117122
The yields of *leaf* **protein** and fibre that can be obtained from fractionation of berseem (Trifolium alexandrinum L.) [egyptian clover]. 117351
Status of *leaf* **protein** in India. 118482
[Tobacco] *leaf* **quality** and usability: theoretical model. I. 117072
Changes in CO2 [carbon dioxide] and water vapour exchange rates in *leaves* of **Quercus** robur infected by Microsphaera alphitoides (powdery mildew). 122702
A note on *leaf* **removal** in hybrid maize. 122019
Anatomy of a *leaf* or **representatives** of the genus Libanotis L. 119951
Comparative morphological and anatomical study of the petiole and epidermis of the *leaf* of the **representatives** of the family Vitaceae Juss [including grapes]. 120073
Morphogenesis in Gleditsia triacanthos L. X. Reconstitution of the meristem of the outline of 6th *leaf* after **root** incision. 121347
Content of free amino acids in *leaves,* **roots** and root secretions of some plants. 121059
Inheritance of virulence in Puccinia recondita on six backcross lines of wheat with single genes for resistance to *leaf* **rust.** 120611
Control of *leaf* **rust** [caused by Puccinia recondita] on spring wheat by seed treatment with 4-N-butyl-1,2,4-triazole. 122726
Effect of protective substances on the activity of catalase in the mitochondria in winter **rye** *leaves.* 121493
The effects of cycloheximide on the uptake and translocation of amino acids in *leaves* of **Sagittaria** graminea Michx. 120849
The concept of plant analysis and how to take a *leaf* **sample.** 124978
Distribution of bound hydroxyproline & cell-wall associated homospermidine in the *leaves* of **sandal,** Santalum album L. 121129
Terpenoids of Pterocarpus **santalinus** *leaves.* 121806
Increased transpiration and the accumulation of root absorbed 86Rb [rubidium isotope] in barley leaves in infected by rhynchosporium **secalis** *(leaf* blotch). 122706
The developmental anatomy of adventive plantlets from leaves and *leaf* **segments** of Crassula argentea (Crassulaceae). 120428
The interrelation of fruit development and *leaf* **senescence** in 'Anoka' soybeans. 121438
Comparative primary infection characteristics of Ustilago striiformis and Urocystis agropyri *[leaf* **smuts]** on cultivars of Poa pratensis. 122725
Leaching and microbial utilization of dissolved organic carbon from *leaves* of **Spartina** alterniflora. 121041
Study of the stomatal apparatus in the *leaves* of different **species** of onions [Allium] in relation to their resistance to downy mildew [Peronospora destructor]. 120424
A new species of Cercospora [Cercospora zinniicola, Fungi] on Zinnia elegans *[Leaf* **spot** disease]. 120139
Leaf **spot** disease of rubber [Hevea] caused by Curvularia pallescens Boedijn. 122604
In vitro production of transelimanses by Helminthosporium apattarnae Desh. & Desh. [Isolated from *leaf* **spot** in Cynodon dactylon]. 122630
Physiologic specialization in Helminthosporium gramineum [barley, *leaf* **stripe,** resistance testing of Indian and USa varieties]. 122755
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, yield amount, morphology and tissue structure of *leaves* in **summer** barley varieties. 122610
The influence of *leaf* **surface** roughness on the spreading of oil spray drops. 120407
Morphology of *leaves* and the **taxonomy** of the genera Protophyllum Lesq. and Pseudoprotophyllum Hollick. 120075
Chromatogrphic determination of hydrocarbon waxes in **tobacco** *leaf* and smoke. 117069
Pyrolytic formation of polynuclear aromatic hydrocarbons from petroleum ether extractable constituents of flue-crued **tobacco** *leaf.* 117123
Moisture diffusion in the cured burley **tobacco** *leaf.* 117203
Genetic influence of chemical constituents of **tobacco** *leaf* and smoke. 120586
Purification and properties of ribose phosphate isomerase from **tobacco** *leaves.* 121536
Comparative studies of the vascular system of node-leaf continuum in woody Ranales. II. *Node-leaf* **vascular** system of Eupomatia laurina R. Br. 120493
Evaporation rate, *leaf* **water** potential and stomatal conductance in Lolium, Trifolium [clover] and Lysimachia in drying soil. 121518
Effect of plant water deficits of various growth stages on growth, grain yield and *leaf* **water** potential of irrigated grain sorghum [Drought tolerance]. 122059
Heterogeneity of soluble proteins from the cytoplasm in *leaves* of **wintering** plants [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494

LECITHIN

A comparative study of the lipid content and *lecithin-binding* **capacity** of bovine neurophysins. 117676
Sulphonium analogue of *lecithin* in **diatoms** [Algae]. 121298

LECTOTYPES

The correct identity of Stator bixae (Drapiez) with *lectotype* **designation** (Coleoptera: Bruchidae). 124329

LEEKS

Sieve-tube plastids in the electron microscope; development and fine structure of plastids in the sieve tubes of Allium **porrum** L. *[Leeks].* 120524

LEGAL

Community animal husbandry *[Legal* **aspects].** 115792
Invitation of participants to the land consolidation proceeding *[Legal* **aspects].** 115793
Use of poster propaganda by agricultural authorities for the day they hold open house *[Legal* **aspects].** 115798
Tenth regulation for the execution of the law on **changing** *legal* food provisions, March 2, 1976. 115958
Legal **consequences** of area allotments made by land planners. 115854
Time to strike back! *[Legally-available* **drug** controversy]. 118565
The irrigation districts in Mexico: *legal* **fundamentals** for their creation and operation. 125311
Legal **guarantees** for the rational utilization of farm land in the U.s.s.r. 115236
Legal and **hygienic** food evaluation of fresh sea mussels in consumption. 116076
Legal **problems** connected with the disposal of animal carcasses. 115813
Legal **problems** connected with the disposal of animal carcasses. 115814
Prerequisites and effects of function allotments made by land planners—introduction to *legal* **problems.** 115855
Legal **protection** of subsurface waters and the problem of wastes. 125571
The civil code of the German Democratic **Republic** *legal* basis with strong relevance to veterinary activities at all level. 115955
Marking feed sacks—the *legal* **requirements** explained [Great Britain]. 115801
Legal **sentence:** verdict of the Hessian administrative law court on November 28, 1975—IV OE 98/74 [Beekeeping buildings]. 124495

Rural funds in Castilla: *legal* **system** of credit cooperatives; present and future situation. 115803

LEGHORNS *see* CHICKENS

LEGISLATION
The Federal Noxious Weed **Act** *[Legislation].* 123155
Animal protection and **agriculture** *[Legislation].* 118547
Minimum production levels *[Legislation,* **Colombia].** 115437
Subsidy to rural families via and Agricultural Treasury *[Legislation,* **Colombia].** 115545
Minimum standards for agricultural operations; livestock and forestry *[Legislation,* **Colombia].** 115991
Current *legislation* relating to Great Plains shelterbelts. 119379
Fruit juices in 1975, the year of **decisions** *[Legislation].* 115843
Commercial attribute for **farmers?** *[Legislation].* 115975
Milling by-products in **feed** *legislation.* 115957
Nutrition and **flavour** *legislation.* 116487
Annual report of the scientific director **[Food** *legislation,* consumer protection]. 115999
Law on complete reform of **food** *legislation* from the viewpoint of a provincial administration. 116001
In defense of S.3091 **[Forestry,** *legislation].* 119504
Facing the cost of EEC [European Economic Community] road **haulage** *legislation* [Fruit and vegetables]. 115680
Refrigerated transportation of fresh meat and sausage *[Legislation,* **hygiene].** 115626
The role of the quality control chemist in the food **industry** *[Legislation].* 116246
Development and protection of the peasant property within the **Italian** *legislation.* 115893
Public land property and private property in **Italy** *[Legislation].* 115237
Standardization, a slogan or a cogent necessity [for sausage **manufacture]?** *[Legislation].* 116104
Plan now for impending changes in United Kingdom weights and **measures** *legislation* [Dairy industry]. 115714
The meter greeters *[Legislation,* **metric** system]. 115786
Railroad reorganization in **Michigan** *[Legislation].* 115942
Legislation: **new** regulation gives advantages to the consumer [Feed inspection, Brazil]. 115811
Drinking water **ordinance** *[Legislation].* 115976
Third regulation for modifying the cheese **ordinance** *[Legislation].* 115982
Pesticide *legislation* in Senegal. 123714
Value guaranties in the field of agriculture *[Legislation,* **price** adjustments]. 115799
National markets and the impacts of state land use and environmental **programs** *[Legislation].* 115755
Transformation of agricultural industry in Colombia [Economic aspects, **programs** and *legislation].* 115993
Some aspects governing the use of pesticides on stored products in Australia **[Residues,** *legislation].* 123716
Vermin control in food plants and inns on the basis of **Swiss** *legislation.* 123022
Insects protected in **Switzerland** *[Legislation].* 124080
New provisions of the statute gazette of the German Federal Republic [Seed **trade** *legislation].* 115979

LEGS
Selective scar revision & elective incision techniques applicable to the legs of horses. 3. Application of combined fusiform excision and W-plasty surgical techniques in scar revision on the upper **hind** *legs.* 118579
Etiology of *leg* **weakness** in broilers (a short review). 119096

LEGUMES
Plant materials [grasses and *legumes]* for **erosion** control. 125137
Results of four-years grazing experiments with Dactylis glomerata in mixture with **five** *leguminous* species. II. Differences in soil-covering ability. 122133
Vertical distribution of dry matter in some **forage** *legumes.* 117387
Speed of establishment and hay production of ten **forage** *legumes* and molassesgrass [Varieties, Melinis minutiflora]. 121887
New findings on the planting of **forage** *legumes.* 122159
The use of micronutrients as Fritted Trace Elements on tropical **forage** *legumes.* 124958
Cleavage of DNA from higher plants **[grain** *legumes]* by restriction nuclease EcoRI. 121635
Cereal and **grain** *legume* seed production 1975-76. 122160
Effect of oat companion crop on the growth and yield of grasses and *legumes* [in **Hokkaido].** 122101
Production of estrogenic preparations by the method of **imfecting** *legume* plants [alfalfa] with the fungus Alternaria brassicicola [Effect on sheep]. 121094
Initial and residual responses to superphosphate by a *legume* **(Macroptilium** atropureum) on nigrescent hill soils in South West Viti Levu. 124995
Fertilization of *grass-legume* **mixture.** 125030
Technological advances in the renovation of [forage] grass stands [and their **mixtures** with *legumes].* 122037
Harvest a rich crop of summer **moong** *[Legumes].* 121918
Peculiarities of growth of maize and some *legume* **plants** [soybeans, chickpeas, kidney beans] in combined cultivation. 121462
Harvesting plots of seed production in cereals, *leguminous* **plants** and of hybrid plots of maize. 122068
Occurrence of D-alpha-amino-n-butyric acid in *legume* **seedlings** [Kidney beans]. 121583
A comparison of five **tropical** *legumes* [Forage yields]. 121881
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some perennial **tropical** *legumes* and molasses-grass [Varieties, Melinis minutiflora]. 121886
Responses of **two** *legumes* to rhizobium inoculation and trace elements. 121457
Stocking rate estimates of grasses associated with *legumes* **[Varieties,** cattle grazing]. 121888
Renovation and *legume* selection **[Varieties,** yields]. 122156
Investigation on competition among Brachypodium pinnatum Beauv. and some forage grasses and *legumes* **[Yields].** 122125

LEGUMINOSAE
A reconsideration of the genus **Adenolobus** *(Leguminosae-Caesalpinioideae).* 120160
Chickpea: Cicer **arietinum** *(Leguminosae-Papilionatae).* 122353
Pigeon pea: Cajanus **cajan** *(Leguminosae-Papilionatae).* 121954
Lentil: Lens **culinaris** *(Leguminosae-Papilionatae).* 122364
Field bean: Vicia **faba** *(Leguminosae-Papilionatae).* 121944
Preliminary study of the tonka bean [Dipteryx alata] *(Leguminosae,* **Faboideae).** 121622
Embryology of the genus Amorpha L. In relation to its position in the **family** of *Leguminosae.* 120420
Conbribution to the chemical study of Holocalyx glaziovii *[Leguminosae].* II. **[Flavone** glycoside, hydrolysis, poisonous plants]. 121345
Mucuna macrocarpa and Mucuna **gigantea** *(Leguminosae)* in Japan and Formosa. 120134
Groundnut: Arachis **hypogaea** *(Leguminosae-Papilionatae).* 121947
Soybeans: Glycine **max** *(Leguminosae-Papilionatae).* 121962
Beans: **Phaseolus** spp. *(Leguminosae-Papilionatae).* 122347
A monograph of the genus **Prosopis** *(Leguminosae* subfam. Mimosoideae) [New taxa]. 120096
Alfalfa, lucerne: Medicago **sativa** *(Leguminosae-Papilionatae).* 121939
Peas: Pisum **sativum** *(Leguminosae-Papilionatae).* 122372
Clovers: **Trifolium** spp. *(Leguminosae-Papilionatae).* 121942
A note on a **Tylosema** *(Leguminosae-Caesalpinioideae)* from southern Africa. 120159
Cowpeas: Vigna **unguiculata** *(Leguminosae-Papilionatae).* 122356

LEIODIDAE
Results of the zoological research carried out by Dr. Z. Kaszab in Mongolia. 358. Silphidae and *Liodidae* **(Coleoptera).** 124448

LEISHMANIASIS
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 1. description of three new species [Lutzomyia cuzquena, Lutzomyia machupicchu, Lutzomyia quechua, *leishmaniasis* **transmission].** 124419
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 3. description of the male and redescription of the female of Lutzomyia (Psychodopygus) amazonensis (Root, 1934), and list of species collected *[Leishmaniasis* **transmission].** 124421

LEJEUNEACEAE
Studies of little known Asiatic species of Hepaticae in the Stephani Herbarium. 9. Some little-known species of the **family** *Lejeuneaceae.* 120126

LEMNACEAE
Physiology and plastid fine structure of **deetiolating** *Lemna* minor. 120981
Specific interactions in the physiology of flowering and gibbosity of *Lemna* **gibba** G3. 121324
Uptake of uridine by a long-day duckweed, *Lemna* **gibba** G3. 121327
The effect of pH [hydrogen-ion concentration] on the population growth of three species of duckweed: Spirodela oligorrhiza, *Lemna* **minor** and Wolffia arrhiza. 121070

LEMONS
Effects of nonfumigant nematicides on root populations and manganese and zinc levels in **rough** *lemon* seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016
Synthesis and metabolic fate of hesperetin-3-14C [carbon isotpe, the predominant flavonoid in *lemons* and **sweet** oranges]. 117279

LENACIL
Investigations into the cause of damage to sugarbeet by the soil-applied **herbicide** *lenacil* [Weed control]. 123064

LENDING
Business and **industrial** *loans* (B&I) [Farmers Home Administration, a rural credit **agency].** 115529
Factoring, another service in farmers' **mutual** *loans* [Credit, Austria]. 115471
New *loans* to young households [Agriculture]. 115483

LENSES
Lentil: *Lens* **culinaris** (Leguminosae-Papilionatae). 122364
Effect of malnutrition on cortisol-binding protein in the *lens* of **cynomolgus** monkeys. 116453
Cellulose acetate electrophoresis of **soluble** *lens* proteins of different species of mammals; the use of discontinuous buffer systems [Rats, mice, cattle, sheep]. 117633

LENTIBULARIACEAE
Lentibulariaceae. 120237

LENTILS
Field peas, field **beans,** *lentils.* 121847
Lentil: **Lens** culinaris (Leguminosae-Papilionatae). 122364
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of salt-soluble proteins from seeds of some **varieties** of *lentils.* 117320

LENTINUS
On the components of pileus and stipe of dried shiitake [mushrooms] *(Lentinus* **edodes** (Berk.) Sing): chemical components and hot water soluble polysaccharides. 117297
Structure of tentinic acid: 2-(gamma-glutamylamino)-4,6,8,10,10-pentaoxo-4,6,8,10-tetrathiaundecane acid *[Lentinus* **edodes,** mushrooms]. 121780
The classification of the **genus** *Lentinus* Fr. (Basidiomycota) [Fungi, new taxa]. 120151

LEPIDOPTERA
Trial with insecticides for the control of Eacles imperialis magnifica Walker, 1856 *(Lepidoptera,* **Adelocephalidae),** a coffee plantation pest. 123256
Preliminary descriptions of new Hesperiidae from black **Africa** *(Lepidoptera,* Grypocera). 124332
Description of unpublished Attacidae from Latin **America** *(Lepidoptera)* [New taxa]. 124331
Forage plants of Acherontia **atropos** *(Lepidoptera,* Sphingidae). 123231
Short note to the study of a new species of the genus Orgyia [papuana] from Papua New Guinea and **Australia** *(Lepidoptera,* Lymantriidae). 124299
A nocturnal hunt in **Beauvaisis** *[Lepidoptera].* 124202
Morphological and histochemical data on the imaginal Malpighian tubules of Pieris **brassicae** (L.) *(Lepidoptera).* 123812
Action of photoperiod on diapause induction in Mamestra **brassicae** *(Lepidoptera,* Noctuidae). 123814
Life history of the ragweed plume moth, Adaina ambrosiae (murtfeldt), in Southern **California** *(Lepidoptera:* Pterophoridae). 124120
A new Choreutis [apocynoglossa] from the San Francisco Bay area, **California** *(Lepidoptera:* Glyphipterygidae). 124391
Activity patterns, body temperature and thermal ecology in two desert **caterpillars** *(Lepidoptera:* Sphingidae) [Hyles lineata, Manduca sexta]. 123882
Isolation mechanisms and species conservation in the genus **Celerio** *(Lepidoptera,* Sphingidae). 124293
Serologic characterization and identification of four *lepidopteran* **cell** lines [Choristoneura fumiferana, Malacosoma disstria]. 123863
Contribution to the study of *Lepidoptera* in **Correze.** 124208
Short revision of the species of the Eteobalea beata group (Walsingham) (Insecta, *Lepidoptera,* **Cosmopterigidae).** 124261
Morphology of the occipital region in Hepialidae and **Cossidae** *(Lepidoptera)* of Japan. 124108
Egg parasitoids of forest **defoliating** *Lepidoptera* [Biological control]. 123467
Host range of Drosophila melanogaster C virus among **Diptera** and *Lepidoptera.* 123808
Forest and laboratory evaluations of hybridized Apanteles melanoscelus (Hymenoptera: Braconidae), a parasitoid of Porthetria **dispar** *(Lepidoptera:* Lymantriidae). 123458
Description of the female of Charaxes acraeoides **Druce** *(Lepidoptera,* Nymphalidae). 124267
Effect of low temperature on the mortality of butterfly **eggs** *(Lepidoptera).* 124167
A native food plant for the butterfly Deudorix **epijarbas** *(Lepidoptera:* Lycaenidae). 123374
Two new species of **Euxoa** *(Lepidoptera:* Noctuidae) from southern United States allied to Euxoa camalpa [Euxoa maderensis, Euxoa serotina]. 124276
Contribution to the *Lepidoptera* **fauna** of Saone-et-Loire (Rhopalocera). 124207
Record of aberrant-forms of Dictyoploca japonica Moore and Geometra valida C. et R. **Felder** *(Lepidoptera).* 124358
Note on Charaxes kheili Staudinger and Charaxes northcotti W. Rothschild, with descriptions of **females** *(Lepidoptera,* Nymphalidae). 124268
Pheromones of lepidopterous insects *[Lepidoptera,* **forest** pests]. 123472
Amphipoea lucens Freyer, a species new for **France** *(Lepidoptera,* Noctuidae, Amphipyrinae). 124203
Lepidoptera of the **Franco-Belgian** Gaume (zoogeographical outline and list of species). 124210
Contribution of **French** *Lepidoptera* to the mapping of European invertebrates. IV. Request for information on Satyridae. 124205
Contributions to the biology of the genus Agrodiaetus. 1. Agrodiaetus ripartii **Freyer** *(Lepidoptera,* Lycaenidae). 123896
Dominant lethal mutations in insects with holokinetic chromosomes: irradiation of pink bollworm sperm [Pectinophora gossypiella, *Lepidoptera:* **Gelechiidae].** 123279

Perizoma lugdunaria, new in southwestern Germany *[Lepidoptera,* **Geometridae).** 124296
A new Hyalochlora [nadia] *(Lepidoptera,* **Geometridae).** 124330
Taxonomic study on the larvae of Japanese **Geometridae** *(Lepidoptera).* II. Larvae of Apocheima. 124359
On biological control of Boarmia bistortata **Goeze** *(Lepidoptera,* Geometridae) by help of a virus. 123224
A fake **Heliconius** *(Lepidoptera,* Nymphalidae) [Nomenclature]. 124461
New pests on the crops of Castilla la Vieja [Wheat, barley, **Hemiptera,** *Lepidoptera].* 123274
Historical retrospect of the taxonomical status of Erebia euryale adyte **Hubner** *(Lepidoptera,* Satyridae). 124292
Apatura ilia nattani ssp. N. From **Hungary** *(Lepidoptera,* Nymphalidae). 124427
Influence of a cutaneous wound on the development of the densonucleosis in larvae of Galleria mellonella L., *Lepidoptera,* **infected** by ingestion. 123904
Pheromones of *lepidopterous* **insects** [Lepidoptera, forest pests]. 123472
The role of juvenile hormone in diapause and phase variation in some *lepidopterous* **insects.** 123958
The flower visiting activity of some Lepidopterous *[Lepidoptera]* **insects** to the Buddleja davidii Franch (Buddlejaceae). I. Polygonia c-aureum Linnaeus and Argynnis paphia geisha Hemming. 124110
A new Mycalesis [treadawayi] species from Mindanao, Philippine **Islands** *(Lepidoptera,* Satyridae). 124283
A melanized form of Argyronome ruslana lyssipe **Janson** *(Lepidoptera:* Nymphalidae) collected from Sanada-machi, Chiisagata-gun, Nagano-prefecture. 124107
Purification and characterization of the carrier protein for juvenile hormone from the hemolymph of the tobacco hornworm Manduca sexta **Johannson** *(Lepidoptera:* Sphingidae). 124018
Electron microscope study of sporulation and parasporal crystal formation in Bacillus thuringiensis [Pathogenicity for **larvae** of *Lepidoptera].* 123242
Phospholipase activity in gut juice of *lepidopterous* **larvae** [Pieris brassicae, Spodoptera exiguens, Trichoplusia ni]. 123985
The flower visiting activity of some *Lepidopterous* **[Lepidoptera]** insects to the Buddleja davidii Franch (Buddlejaceae). I. Polygonia c-aureum Linnaeus and Argynnis paphia geisha Hemming. 124110
Biology of Lysandra coridon manleyi de **Lesse** *(Lepidoptera,* Lycaenidae). 123894
Contribution to the study of the genus Arethusana de **Lesse** *(Lepidoptera,* Satyridae). 124206
Biology of the grass webworm, Herpetogramma **licarsisalis** *(lepidoptera:* Pyraustidae) in Hawaii. 123799
The microsporidian pathogens of *Lepidoptera* **living** in grain and meal in Yugoslavia [Natural control]. 123286
Territorial behaviour in Heodes virgaureae L. *(Lepidoptera,* **Lycaenidae)** with particular reference to visual stimuli. 124117
On the distribution of microorganisms infecting the larvae of Euproctis chrysorrhoea L. *(Lepidoptera,* **Lymantriidae)** near Kosova, Yugoslavia [Natural control]. 123225
Study of the cellular necrosis and wing **morphogenesis** in some *Lepidoptera.* 123854
Four *Lepidoptera* **new** to Norway. 124368
New find of *Lepidoptera.* 124372
Juvenile hormone effects on the prepupal and pupal stages of the tobacco cutworm, Spodoptera litura Fabricius **(Noctuidae:** *Lepidoptera).* 123301
Senses involved in the visiting of flowers by Cucullia umbratica **(Noctuidae,** *Lepidoptera).* 123891
Plusia interrogationis L. *(Lepidoptera,* **Noctuidae)** found at Svalbard. 124376
New **Notodontidae** *(Lepidoptera)* from Asia [Pheosiopsis diehli, Somera virens]. 124294
A migration of Vanessa kerhawi (McCoy) *(Lepidoptera:* **Nymphalidae)** in Tasmania. 123821
Phenotypic diversity, mimicry and natural selection in the african butterfly Hypolimnas misippus L. *(Lepidoptera:* **Nymphalidae).** 123828
Chalcid parasites of Prays **oleae** *(Lepidoptera:* Plutellidae) in Andalusia [for integrated control in Spanish olive orchards]. 123398
Results of the studies of some Nepticulidae types from the collection of the National Museum of Natural History, **Paris** *(Lepidoptera,* Nepticulidae) [New taxa]. 124259
Experiments with insect growth regulators (IGRs) on *lepidopterous* **pests** and some of their parasitoids [Natural control]. 121280
Development of Ascia [Pieris] monuste monuste (Linnaeus, 1764) *(Lepidoptera,* **Pieridae)** in the laboratory [Vegetables, pests]. 124141
Revision of Rhyacionia buoliana and Rhyacionia **pinicolana** *(Lepidoptera,* Tortricidae) contained in the collections of the Entomology Laboratory of the Paris Museum and preliminary data on the distribution of these two species in France. 124260
The proteins of inclusion bodies of Baculoviruses. IV. Study of seven **polyhedrosis** of *Lepidoptera.* 123907
Formation of subitaneous puppae at Celerio euphorbiae euphorbiae, a photoperiodically controlled primary **process** *(Lepidoptera,* Sphingidae). 123897
Overwintering of brinjal [eggplant] shoot and fruit borer, Leucinodes orbonalis Guen. *(Lepidoptera,* **Pyralidae)** in Kulu Valley, western Himalaya, India. 123372
Locomotor behavior of diapausing and nondiapausing larvae of Cadra cautella (Walker) *(Lepidoptera,* **Pyralidae).** 123544
Phycitinea studies XIV *(Lepidoptera:* **Pyralidae).** Zophodia graciella (Hulst 1887), neu fur Deutschland. 124297
Pyla (Salebria) fusca Haw. *(Lepidoptera,* **Pyralidae)** found at Spitsbergen. 124377
The development of larval Malpighian tubules in Corcyra cephalonica Staint. *(Lepidoptera:* **Pyralididae).** 124186
Development of Diatraea **saccharalis** *(Lepidoptera:* Pyralidae) at constant temperatures [Sugarcane pests, biological control with Lixophaga diatraeae]. 123305
Occurrence of *Lepidoptera* in the **schists** of Tremembe, and some reflections on the geological basin of Paraiba, Sao Paulo State [Paleoentomology]. 124212
Capture and rearing of Polyphaenis **sericata** *(Lepidoptera,* Noctuidae). 123895
Searching for **Sessiidae** *(Lepidoptera).* 124298
An overlooked Noctuidae from Malaysia: Othreis kinabaluensis n. **sp.** *(Lepidoptera).* 124285
Contribution to the study of the insect fauna of Sumatra. 4. Fine new Cyana **species** *(Lepidoptera,* Arctiidae). 124290
The mission of entomological exploration of the Museum of natural History in French Guiana: **Sphingidae** *(Lepidoptera).* 124270
Contribution to the determination of Amphipyra berbera **svenssoni** *(Lepidoptera,* Noctuidae) [Taxonomy]. 124289
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, *Lepidoptera:* **Tortricidae)** and its utilization in monitoring moth populations in tea fields. 123266
Rearing of the South African carnation tortrix Epichoristodes acerbealla Walk. *(Lepidoptera,* **Tortricidae).** 123425
Host plants and other foods of the larvae of *Lepidoptera* of **Urguay.** 123260
Behavioral responses of male Argyrotaenia **velutinana** *(Lepidoptera:* Tortricidae) to components of its sex pheromone. 124023
Properties of carboxylic esterase from Euproctis lunata **Walker** *(Lepidoptera:* Lymantriidae). 123973

LEPTADENIA

Properties of acid phosphatase from *Leptadenia* **pyrotechnica** Forsk. 121140

LEPTINOTARSA

Molting hormone titer changes and their significance during development of the Colorado beetle, *Leptinotarsa* **decemlineata.** 124047

LEPTOCERIDAE

The evolution of the sponge feeding habit in the caddisfly genus Ceraclea **(Trichoptera:** *Leptoceridae).* 123807

LEPTOCHLOA

Effects of molinate-propanil combinations on rice yield [Commelina, *Leptochlos,* **Echinochloa].** 123176

LEPTOGLOSSUS

Male specific natural products in the bug, *Leptoglossus* **phyllopus:** chemistry and possible function. 124046

LEPTOSPHAERIA *see* SPHAERIACEAE

LEPTOSPHAERULINA

Sporogens, sterols, and sporulation of *Leptosphaerulina* **briosiana** [Fungi]. 120983

LEPTOSPIRA

Selection of antibiotics for treatment of livestock **carriers** of *Leptospira.* 119033

LEPTOSPIROSIS

Leptospirosis can **cause** heavy cattle losses. 118688

LESIONS

Repair in arterial tissue; electron microscopy of evans blue vital stained embolectomy **catheter** *lesion* of the rabbit thoracic aorta. 119067
Diagnosis and surgical treatment of **cystlike** *lesions* of the equine paranasal sinuses. 119128
Situational determinants of the body weights defended by normal rats with **hypothalamic** *lesions.* 116376
The influence of organophosphorus insecticides on the developemnt of **local** *lesions* of the tobacco mosaic virus in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Ultrastructural changes in tobacco mosaic virus-induced **local** *lesions* in Nicotiana tabacum L. cv. "Samsun NN". 122857
Spleen *lesions* of hemorrhagic enteritis [virus] of turkeys. 118641
The head. I. **Traumatic** *lesions* of the skull. 119255

LETHAL

Instability of yeast cell sensitivity to the *[lethal]* **action** of nitrous acid [Genetic factors]. 120622
Field control of **coconut** *lethal* yellowing [caused by mycoplasmalike organisms] with oxytetracycline hydrochloride. 122859
Protocols for the **dominant** *lethal* test, host-mediated assay, and in vivo cytogenetic test used in the Food and Drug administration's review of substances in the GRAS (generally recognized as safe) list. 116213
Dominant *lethal* mutations in rats fed on irradiated wheat [health hazard]. 119244
Dominant *lethal* mutations in insects with holokinetic chromosomes: irradiation of pink bollworm sperm [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279
Sublethal **effects** of chronic lead ingestion in mallard ducks. 119260
The dynamics of *insect/lethal* **grain** interactions in an insecticidally treated grain bulk. 123566
Physiological effects of *sublethal* **levels** of acid water on fish [River polution with coal mine drainage, toxicity]. 125401

LETTUCE

The effect of growth rate on tipburn [injury] occurrence in *lettuce* **[Calcium** utilization]. 122976
Photosystem 2 mediated electron transport and phosphorylation with ferricyanide and dibromothymoquinone. The uncoupling activity of dibromothymoquinone *[Lettuce* **chloroplasts].** 121763
Opening of the flower, pollination and **fruiting** of *lettuce.* 121772
Seedling transplant and its effects on mechanized **greenhouse** *lettuce* production. 122505
Lettuce: **Lactuca** sativa (Compositae). 122365
Occurrence of physiological races of Bremia lactucae Regel, the organism causing downy **mildew** in *lettuce.* 122675

LEUCAENA

Leucaena **leucocephala**—an evergreen protein-rich tree fodder and the possibility of using it in the dietary of animals. 1. Sheep. 118081

LEUCANTHA

Comments on the East Asiatic plants. 2. [Cerastium arvense, Anemone soyensis, **Cardamine** *leucantha].* 120132

LEUCINE

Inclusion of carbon 14 *[isotope]-leucine* into **proteins** of protein bodies isolated from maize caryopses. 121560
Assessment of effect of starvation, glucose, fatty acids and hormones on **alpha-decarboxylation** of *leucine* in **skeletal** muscle of rat. 116420
An analysis of *leucine* **tRNAs** during the development of Tenebrio molitor. 123933

LEUCOPHAEA

Induction of the insect vitellogenin in vivo and in vitro *[leucophaea* **maderae].** 123941
Juvenile hormone induced biosynthesis of vitellogenin in *Leucophaea* **maderae** from large precursor polypeptides. 123946

LEUCOSTOMA

Protection of peach shoots against species of *Leucostoma* **[cincta** and Leucostoma persoonii] with benomyl and captafol. 122735

LEUCTRA

Two new species of Leuctra *[Leuctra* **crossi,** Leuctra rickeri], with notes on the ferruginea group (Placoptera: Leuctridae). 124220

LEUKEMIA

A case of feline infectious anemia (haemobartonellosis) [Haemobartonella felis] with simultaneous **feline** *leukemia* virus. 119043

LEUKOCYTES

The fine structure of the leucocytes of the domestic birds. Electron microscopical studies of the **blood** *leucocytes* of the fowl, turkey, goose and duck. 117960
Genetic control of the response of **chicken** *leukocytes* to a t-cell mitogen **[Immunoglobulins].** 118378
The fine structure of the *leucocytes* of the **domestic** birds. Electron microscopical studies of the blood leucocytes of the fowl, turkey, goose and duck. 117960
Leucocyte **formula** of the blood from Broad Breasted White turkeys in relation to their age and productivity. 117924
The effect of some activators and inhibitors on the activity of the alkaline phosphatase and the *leukocytes* **[Livestock].** 117951
Maternal *leukocyte* enzymes in human fetal malnutrition. 116519
Neutrophil *leukocytes* and inflammation of the bovine mammary gland. 118963
Comparative characteristics of "ultrasonic" chromatin fractions from *leukocytes* **(neutrophils)** and rabbit brain. 117606
Localization of antibacterial activity and hydrolytic enzymes in subcellular fraction of rabbit and chicken **polymorphonuclear** *leukocytes.* 118793

LEUKOSIS

Genetic control of chick helper factor in cells which lack natural group-specific antigen of **avian** *leukosis.* 118422
Eradication of enzootic **bovine** *leucosis* in the German Democratic Republic: **management,** planning and field action. 118829

Studies on increasing the virulence of the **bovine** *leukosis* virus. 118966
Fractional composition of serum proteins of cattle **sick** with *leucosis.* 118545

LIBANOTIS
Anatomy of a leaf or representatives of the **genus** *Libanotis* L. 119951

LIBELLULIDAE
Multivariate analysis of geographic variation in *Libellula* **luctuosa** Burmeister (Odonata: Libellulidae). 124400
Further observations on the functional morphology of the head and mouthparts of dragonfly larvae (Odonata) [Aeshna interrupta lineata, *Libellula* **quadrimaculata**]. 124135

LIBRARIES
The Prince family manuscript collection; a register of their papers in the National **Agricultural** *Library* [First commercial plant nursery in the United States, history, bibliographies]. 119908

LICE
Termites and **book** *lice* (Isoptera and Psocoptera) discovered by pest controllers and introduced into the German Federal Republic. 123583
Jumping **plant** *lice* of the tribe Ciriacremini (Homoptera: Psylloidea) in the Ethiopian region [New taxa]. 124247
Root *lice* as a source for Chloropidae as house pests. 123657

LICHENS
Chemical constituents of Umbilicaria indica Frey and Ramalina farinacea L. **Ach.** *[Lichens].* 121018
New and **additional** *lichen* records from Texas. 119985
Reticularia **Baumgarten** *(lichens)* versus Reticularia Bulliard (Myxomycetes) [Fungi]. 120289
Bibliography [Algae, Fungi, *lichens,* **Bryophyta,** Pteridophyta, Spermatophyta]. 119891
Prothallal lichen substances in two species of **crustose** *lichens,* Fuscidea cyathoides and Rhizocarpon geographicum. 120982
Lichen **ecology** of metal spoil tips: effects of metal ions on ascospore viability. 120327
Viability of the **epizoic** *lichen* flora carried and dispersed by green lacewing (Nodita pavida) larvae. 120984
Synthesis of the pulvinic acid pigments of *lichen* and **fungi** [Gomphidius glutinosus, Lepraria flava]. 121012
Lichens and **fungi.** XIII. Comparison of the nuclear magnetic resonance and mass spectra of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
A monograph of the *lichen* **genus** Bulbothrix Hale (Parmeliaceae) [New taxa]. 120259
A monograph of the *lichen* **genus** Pseudoparmelia Lynge (Parmeliaceae) [New taxa]. 120260
Determination of copper, iron, nickel, and sulphur by X-ray fluorescence in *lichens* from the **Mackenzie** Valley, Northwest Territories, and the Sudbury District, Ontario. 120979
Lichens of the **military** domaine of Lagland (province of Luxembourg). Contribution to the knowledge of the lichen vegetation of the Lorrain district. 120225
Effects of pulp mill emissions on *lichens* in the **Missoula** Valley, Montana. 125398
Nomenclatural note on Cladonia **nemoxyna** *[Lichens].* 119986
Air quality diagnosis by means of *lichens* **[Pollution,** indicator plants]. 125395
Prothallal *lichen* substances in two species of crustose lichens, Fuscidea cyathoides and Rhizocarpon geographicum. 120982
Studies on *lichen-dominated* **systems.** XVII. The colonization of young raised beaches in northwestern Ontario. 120334
Ecophysiological response of *lichen* **transplants** to air pollution in the Murdochville Gaspe Copper Mines area, Quebec [Parmelia squarrosa, Hypogymnia physodes, Usnea]. 122974
Lichens of the military domaine of Lagland (province of Luxembourg). Contribution to the knowledge of the *lichen* **vegetation** of the Lorrain district. 120225

LIGAMENTS
A study of autogenous tissues transplants for the repair of canine **collateral** *ligaments* of stifle joint [Injuries]. 119243

LIGANDS
Studies on specific elution of rabbit muscle phosphofructokinase with **allosteric** *ligands.* 117610

LIGHT
A shortened procedure of the diphenylamine reaction for the measurement of deoxyribonucleic acid by using *light* **activation** [Schizosaccharomyces pombe, Fungi]. 120880
Captivated by **automatization** *(light* trap research in Hungary today) [Insect pests]. 123262
Effect of diuron on the relation between the exchange of energy and gas in the photosynthesis of Chlorella [Algae] in **blue** *light.* 121027
Choice of *light* **bulbs** for attracting [the cotton pest] Heliothis virescens (Fabr., 1871). 123329
Effects of *light* on the fate of **carbofuran** [insecticide] during the drying of alfalfa [Residues]. 123719
An interpretation of dose-response curves for *light-induced* **cell** elongation in fern protonemata [Onoclea sensibilis Dryopteris filix-mas]. 120863
Alteration of the fertility of *light* **Chestnut** soil and the productivity of sugarbeets in a crop rotation and in continuous growing in relation to the system of fertilizer application. 121971
Cation effects on *light-induced* **chlorophyll** a fluorescence in chloroplasts lacking both chlorophyll b and chlorophyll-protein complex II [Barley]. 121538
The effect of type of *light* on **color** and evaluation of meat products. 116141
Studies on the seed germination of Bupleurum falcatum L. I. Influence of the time elapse after seed harvest and *light* **conditions** on the germination. 121333
Cultural studies on the Monilia disease fungus of apples. VI. The effect of *light* on **conidial** germination, mycelial growth, and sporulation [Monilinia mali]. 122587
Light **control** for more rapid maturing of mink pelts. 117420
Scalded sausage manufacture in the meat trade. 10. Effect of exposure to *light;* **cutting,** filling, hot smoking and scalding. 116957
Phosphate uptake kinetics in Euglena gracilis (Z) [Algae] (Euglenophyceae) grown on *light-/dark* **cycles.** I. Synchronized batch cultures. 121210
Phosphate uptake kinetics in Euglena gracilis (Z) [Algae] (Euglenophyceae) grown in *light-/dark* **cycles.** II. Phased PO4-limited cultures. 121211
Photosynthetic electron transport in plants of Sitka spruce [Picea stitchensis] subjected to **differing** *light* environments during growth. 121824
Acetylcholinesterase distribution in chick spinal cord cultures. A *light* and **electron** microscope study. 117706
Light and **electron** microscopy for studies on pathogenesis of straddle in newborn piglets. 119165
Light and **electron** microscope studies of cytoplasmic aggregates formed in barley cells in response to Erysiphe graminis. 122589
Stochastic modeling of *light* **energy** conversion in photosynthesis. 121315
The circadian rhythm of the weta Hemideina thoracica (Orthoptera); free-running rhythms, circadian rule and *light* **entrainment.** 124008
Light-induced **enzyme** synthesis in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
Morphometry of T219 soybean chloroplasts during initial **exposure** to *light.* 120547
Light-induced **increase** in the activity of maize plastid DNA-dependent RNA polymerase. 121453
Initial *light* effects on chloroplast ultrastructure in soybeans. 120545
Influence of *light* **intensity** on layers [Egg weight]. 117918
Continuous culture of marine diatoms under silicate limitation. II. Effect of *light* **intensity** on growth and nutrient uptake of Skeletonema costatum [Algae]. 121203
Effect of temparature and *light* **intensity** on the development of barley in Pamir. 121488
Development of plants in filtered sunlight. I. Spectral composition, *light* **intensity** and other experimental [greenhouse] conditions. 121693
Root growth in Acer saccharum Marsh. Seedlings: effects of *light* **intensity** and photoperiod on root elongation rates. 121801
Development ofplants in filtered sunlight. II. Effects off spectral composition, *light* **intensity,** daylength and red and far-red irradiations on long and short-day grasses. 123313
Laser *light* scattering bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for milk, serum, urine, and bile. 118460
Long-term effects of **manipulating** *light* intensity and nutrient enrichment on the structure of a salt marsh diatom community [Algae]. 121208
Time dependent effects on contractile properties, fibre population, **myosin** *light* chains and enzymes of energy metabolism in intermittently and continuously stimulated fast twitch muscles of the rabbit. 117877
A theoretical analysis of the contribution of algal cells to the attenuation of *light* within **natural** waters. III. Cylindrical and spheroidal cells. 121303
New *light* on the fly problem [Cattle]. 123620
Neuroptera in *light-traps* at **Osteroy,** Hordaland [Insect distribution]. 124371
Scalded sausage manufacture in the meat trade. 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric **oxygen** and *light.* 116956
Effect of different *light* **periods** on the seed surface of fenugreek [Trigonella foenum-graecum] during the maturation phase. 121338
Light in **[plant]** propagation [Solar energy, artificial lighting]. 122232
Polarized *light* spectroscopy on oriented spinach chloroplasts fluorescence emission at low temperature. 121605
Polarized *light* orientation of the honey bee: the minimum visual angle. 124539
Amplitude attenuation of the circadian rhythm in Drosophila [pseudoobscura] with *light* **pulses** of varying irradiance and duration. 124007
The influence of irradiation with **red** *light* on geotropic curving and growth of decapitated Avena coleoptiles. 121392
Quantity regularities of *light* **reflection** by soils . VII. Spectral reflectory capacity of the main soils of Kazakhstan. 124781
Absorption of oxygen by pea leaf chloroplasts in the presence of **riboso-5-phosphate** in the *light.* 121634
Morphology of Cronartium fusiforme aeciospores: a *light* and **scanning** electron microscopic study. 120426
Goose husbandry in the *light* of **scientific-technical** revolution. 117402
Effect of long-term application of inorganic fertilizers in a crop rotation with sugarbeets on the nitrogenous regime of *Light-Chestnut* **soil** in the southeastern part of the Kazakhstan. 124929
Effect of fertilization with straw of *light* **soil** on its content of basic nutrients. 125070
Effect of storage temperature on cell structure in post-harvested asparagus **spears**—*light* and electron microscopic study. 117284
Results of insect collection carried out with **special** *light* traps. 123263
Effects of *light* and **substrate** on the sproulation of Cercospora sojina Hara [Soybean fungus diseases]. 121344
Pigment degradation in discs of the thermophilic Cucumis sativus [cucumber] as affected by *light,* **temperature,** sugar application and inhibitors. 121751
Records of insects taken at *light* **traps** in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: Heteroptera) in relation to rainfall. 123250
Records of insects taken at *light* **traps** in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
Use of microradiographic technics, instead of dissection for study of the mating status of female armyworm moths, Mythimna unipuncta, captured in *light* **traps** (Lepidoptere Noctuidae) capturees aux pieges lumineux. 124145
Effects of photoprotection and reversible inactivation of yeast Candida guilliermondii induced by 313nm **[ultraviolet]** *light.* 121031
Near **ultraviolet** *light* inactivation of an energy-independent membrane transport system in Saccharomyces cerevisiae [Yeasts]. 121313
Photosynthesis and carbonic anhydrase activity in Zn[zinc] deficient peaches irradiated with **ultraviolet** *light.* 121676
Effect of **visible** *light* on the behavior of stored-product insects. 123528

LIGNINS
Investigation of deciduous wood lignin. II. Splitting of **aspen** *lignin* under nucleophilic action. 119737
Lignin influence on thermomechanical polymerization of monomers. I. The influence al alkali **birch** *lignin* on styrol polymerization in dimethylsulphoxide solution. 119739
Decomposition of *lignin* and **cellulose** components of wood of Swietenia mahogani, Casuarina equisetifolia and Mimusops elengi by Fomes durissimus lloyd [Wood-destroying fungi]. 119678
Interaction between wood and polymers. IV. Dielectric properties of polyvinyl acetate filled with wood components [Wood properties, **cellulose,** *lignin].* 119680
Synthesis of 1,2-diarylpropane-1,3-diols and determination of their **configurations** *[Lignin].* 119683
Effects of salt solution treatment and low temperature storage on the elongation, weight, fiber and *lignin* **contents** of post-harvested green asparagus spears. 117285
Distribution of molecular weight of lignosulphonic acids in sulphate **cooking** of *lignin.* 119732
The importance of phenol oxidase activity in *lignin* **degradation** by the white-rot fungus Sporotrichum pulverulentum. 119650
Comparative investigations on polymer models of *lignins* **(DHP's)** of different composition. 7. Pyrolysis. 119677
Phenolic substances in Armagnac brandies. I. **Extracted** *lignin* and its degradation products. 117269
Improvement of fiber bonding of paper fibers with **high** *lignin* content through grafting of hydrophilic polymers. 119779
Electrical energy from **industrial** *lignin:* a preliminary evaluation. 119841
Lignin **influence** on thermomechanical polymerization of monomers. I. The influence al alkali birch lignin on styrol polymerization in dimethylsulphoxide solution. 119739
Study of sulphite cooking kinetics of **isolated** *lignin.* 119746
Investigation of oxidation-reduction processes in *lignin* **model** compounds in alkaline solutions. 119736
Thermographic study of *lignin* **model** compounds. VII. Thermal decomposition of ethylguaiacylmethane and diisoeugenol. 119750
Investigation of deciduous wood lignin. III. Reduction splitting of aspen **native** *lignin.* 119738
Contribution to the characterization of sodium chlorite delignification of spruce wood. III. *Lignin* and **polysaccharide** complexes in chlorite liquors. 119770
Study of oxidation-reduction interactions among conversion products of model compounds and carbohydrates in alkali **solutions** *[Lignin].* 119745
Notes on the ecology of **three** *Ligneous* species on the southern edge of the Ungava bay, New Quebec: Betula glandulosa, Larix laricina, Picea mariana. 120332
Investigation of deciduous **wood** *lignin.* II. Splitting of aspen lignin under nucleophilic action. 119737
Investigation of deciduous **wood** *lignin.* III. Reduction splitting of aspen native lignin. 119738

LIGNITES
Fruits and seeds of the **Brandon** *Lignite.* I. Vitaceae [Vermont]. 120252
Palynology of the **Legler** *lignite:* a deposit in the Tertiary Cohansey Formation of New Jersey, U.S.A. 120253

LIGULES
Inheritance of clustered spikelets and *ligule* **pigmentation** in rice, Oryza sativa Linn. 120820

LILAC
Effect of auxin cofactors on rooting and the effect of gibberellic acid on shoot growth of *lilac* [**Syringa**] softwood cuttings. 121627

LILIACEAE
Onion and allies: **Allium** *(Liliaceae).* 122370
The phylogenetic significance of the development of pollen grain walls in *Liliaceae,* **Juncaceae** and Cyperaceae. 120516

LILIES
Thielaviopsis root rot of **arum** *lily* [Zantedeschia aethiopica]. 122679
Surface active agent to increase effectiveness of surface penetration of ancymidol on hydrangea [Hydrangea macrophylla] and **Easter** *Lily* [Lilium longiflorum]. 121680

LILIUM
Peculiarities of histone synthesis in meiosis and its relation to chromosome structure and behaviour *[Lilium* **candidum**]. 120591
Common factors in exine deposition [Pinus banksiana, Cosmos bipinnatus, *Lilium* **longiflorum**]. 120505
Surface active agent to increase effectiveness of surface penetration of ancymidol on hydrangea [Hydrangea macrophylla] and Easter Lily *[Lilium* **longiflorum**]. 121680

LIMA
Toward a food policy for Latin America's urban areas: *Lima* as a **case** study. 115826

LIMBS
Observations on the ecto-mesodermal relations in the morphogenesis of *limb* **buds** [Chick embryos]. 117568
The possible differentiation of osteogenic elements in vitro from [embryonic] **chick** *limb* mesodermal cells. I. Morphological evidence. 117649
Single ionizing radiation effect on *limb* **development** of sheep. 117614
Submicrosomal localization of prolyl hydroxylase from chick **embryo** *limb* bone. 117797
Some problems of the *limb* **pathology** of swine. Note on prevention. 119089
Experimental analysis of excedentary regulation in xenoplastic **quail-chick** *limb* bud recombinants. 117954
DDT as an accelerator of *limb* **regeneration** and molting in fiddler crabs. 123709
The role of nerves in the developing **vertebrate** *limb:* a teratogenic plea for re-evaluation [Includes chicks and ducks]. 117694

LIMES
Color removal in a **ferric** *chloride-lime* system [Effluent treatment, kraft pulping]. 125562
Effect of placement of phosphorus fertilizer and *lime* upon **growth** of Delicious and Golden Delicious apple trees. 121701
Lake treatment with fly ash, *lime,* and **gypsum** [Solid waste disposal]. 125509
Effect of inorganic fertilizers, manure and *lime* in **long-term** application in a crop rotation on the yield of field crops and on soil fertility. 124925
Relationships between the method of manuring and animal behavior on pastures [Dactylis glomerata]. 3. Effects of *lime* **manuring** on pastures and the grazing behavior of young bullocks. 122102
Sugar factory **waste** *lime* and potato scab [Streptomyces scabies]. 122800
How **waste** *lime* is helping to transform colliery tips into productive grassland. 124962

LIMESTONE
Studies on silage making. II. Addition of urea and *limestone* to **hybrid** napier silage [Cross between Pennisetum purpureum and Pennisetum thyphoides]. 117350
Evaluation of actual cost of *limestone* [**Soil** amendments, Brazil]. 125028
About *liming* of **soils** [Results of 24 years of experiments on doses, ways and date of application]. 124918

LIMNEPHILIDAE
A new Mesophylax [aethiopicus] (Trichoptera, *Limnephilidae)* from **Ethiopia.** 124282
Notes on Limnephilus hirsutus Pict. (Trichoptera, *Limnephilidae)* [**Recorded** for the second time in Norway]. 124375

LIMNEPHILUS
Notes on *Limnephilus* **hirsutus** Pict. (Trichoptera, Limnephilidae) [Recorded for the second time in Norway]. 124375
Trichoptera and stoneflies of some waters of Sor Varanger (North Norway) (Plecoptera). V. *Limnephilus* **minusculus** (Banks 1907) new for Europe. 124300
The chronology of development of the reproductive apparatus of *Limnephilus* **rhombicus** L. 123855

LIMONIUS
A new species of *Limonius* [**pappi**] (Coleoptera: Elateridae) from California. 124272

LINACEAE
Flax and linseed: Linum **usitatissimum** *(Linaceae).* 121945

LINDANE
The degradation of 14C [**carbon** *isotope]-lindane* by a mould culture. 123742
On the in vitro behaviour of **carbon-14-labelled** *lindane* in the blood. 123741
Investigation on [wheat] seed and soil treatments [with *lindane]* against **larvae** of Zabrus spp. and Anisoplia spp. cereal pests in Central Anatolia. 123290

LINDENS
Anatomical and *linden* **histochemical** study of the shoots of [Tilia] from ornamental plantings in Moscow. 120417

LINEAR
Relationship between the cumulative difference and **best** *linear* unbiased predictor methods of evaluating bulls. 118209
Log *linear* representation for paired and multiple comparisons models [Statistics applied to food preference]. 115571

LINEN
Influence of fabric construction and treatment on the reaction of cotton, half-linen and *pure-linen* **fabrics,** as well as polyester and linen mixed fabrics, to the effect of water. I. Influence on absorptive capacity. 117193

LINERS
The effect of dry versus wet stimulation of milking cows on the fat absorption by teat **cup** *liners.* 117476
Observations on the flex wearing variations of **teat-cup** *liners* in farm usage [Milking machine components]. 124701

LINOLEIC
The effects of *linoleate* and **acetate** on the growth and lipid composition of mycelium of Agaricus bisporus [Fungi]. 121290
Responses in *linoleic* **acid** content of milkfat from cows receiving different levels of protected sunflower seed supplement [Effects of feeding]. 118014
The formation of cis-3-nonenal, trans-2-nonenal and Hexanal from *linoleic* **acid** hydroperoxide isomers by a hydroperoxide cleavage enzyme system in cucumber (Cucumis sativus) fruits. 121607
Browning reaction of *linoleic* **acid-glycine** system [in processing of fishery products]. 116784
Formation of alpha- and gamma-ketols from 18O [oxygen **isotope]-labelled** *linoleic* acid hydroperoxides by corn germ hydroperoxide isomerase. 121455
Cardiopathogenicity of rapeseed oils and oil blends differing in erucic, *linoleic,* and **linolenic** acid content [Rats]. 116478
22 (3): 267-270. Reactivity of alpha-tocopherol with hydroperoxide of **methyl** *linoleate* [Foods]. 116464

LINOLENIC
Cardiopathogenicity of rapeseed oils and oil blends differing in erucic, linoleic, and *linolenic* **acid** content [Rats]. 116478

LINSEED
Examination of *linseed* (**Linum** usitatissimum L.) for the presence of medium chain trienoic fatty acids. 121540
Flax and *linseed:* **Linum** usitatissimum (Linaceae). 121945
Chromatographic column fractionation and fatty acid composition of different lipid classes of *linseed* **oil.** 117152

LINUM
Linum **catharticum** L. Subsp. Suecium (Murb.) Hayek in the Upper Harz. 120032
Examination of **linseed** *(Linum* usitatissimum L.) for the presence of medium chain trienoic fatty acids. 121540
Flax and linseed: *Linum* **usitatissimum** (Linaceae). 121945

LIPASES
Comparative histochemical studies on avian liver. 5. Relationships of dietary preferences with distribution patterns of *lipase,* **esterase** and beta-hydroxy-butyrate dehydrogenase in the livers of various representative birds. 117873
Lipoprotein *lipase* activity in the bovine corpus luteum during the estrous cycle and early pregnancy. 118387

LIPIDS
Development of fish flavour by the reaction of **autoxidized** *lipids* with amino acids and proteins. 116800
Reconstruction of a single calcium-sodium cell canal in a *lipid* **bilayer** [Algae, Nitella flexilis, Nitellopsis obtusa. 121036
Black widow spider venom: effect of purified toxin on *lipid* **bilayer** membranes. 124158
Changes of the content of *lipid* and **carbohydrate** metabolites in the lymph of cattle in ontogenesis. 117930
Effect of an insect growth regulator on *lipid* and **carbohydrate** reserves of mosquito [Aedes aegyti] pupae (Diptera: Culicidae). 123612
Chromatographic column fractionation and fatty acid composition of different *lipid* **classes** of linseed oil. 117152
The effects of linoleate and acetate on the growth and *lipid* **composition** of mycelium of Agaricus bisporus [Fungi]. 121290
A comparative study of the *lipid* **content** and lecithin-binding capacity of bovine neurophysins. 117676
Comparative histochemical studies on avian liver. 4. Relationship of dietary preference of various representative birds with the fat and glycogen contents and distribution pattern of histochemically **demonstrable** *lipids* in their livers. 117872
Dietary *lipid* requirements of adult lobsters, Homarus americanus (M.e.). 118101
Mineral and crystal formation in vitro by *lipids* **extracted** from bovine compact bone. 117870
Extractability of *lipids* from **fish** and fish products. 116842
Effect of the *lipid* **fraction** of Alternaria brassicicola 13 on the egg production of hens. 118275
Estrogenic effect [studied on laboratory animals] of the *lipid* **fraction** of the fungus Alternaria brassicicola strain 13 mycelium. 118276
Developmental changes of protein, RNA, DNA, *lipid,* and **glycogen** in the liver, skeletal muscle, and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
Lipids of **grape** (Vitis vinifera) leaves & their chloroplasts. 121692
Changes in *lipids* during **growth** in Gloeosporium ampelophagum [the fungus that causes anthracnose disease in grapevine]. 122629
Photosensitivity of artificial bilayer membranes: *lipid-chlorophyll* **interaction.** 121314
Lactoperoxidase-catalyzed *lipid* peroxidation of microsomal and artificial membranes [Milk, beef liver]. 116854
An outbreak of *lipoid* **liver** degeneration (LLD) in Atlantic salmon [Salmo salar] in a fish farm and attempts to cure the disease. 119272
Effect of varying levels of dietary protein on tumor development and *lipid* **metabolism** in rats exposed to aflatoxin. 116184
Comparison of the binding of various bile acids and bile salts in vitro by several types of [dietary] fiber [on *lipid* **metabolism**]. 116422
Biotin status and *lipid* **metabolism** in adult obese hypercholesterolemic inbred rats. 116492
The effect of carbohydrates and fats in the diet on the intensity of *lipid* **metabolism** changes in protein deficiency. 116570
Lipid **metabolism** of fungal spores during sporogenesis and germination. 121119
Influence of mastitis on the physico-chemical status of **milk** *lipids.* I. Glycerides, free fatty acids and phospholipid. 116167
Strain 13 of Alternaria brassicicola [Fungi]—a producer of estrogenic substances of a *lipidic* **nature** [Effect of hens and mice]. 118277
Quantitative analysis of *lipids,* **nirogen** substances and glycogen in the larva of an ovo-larval parasitic insect, Phanerotoma flavitestacea (Hymenoptera, Braconidae). 123890
Lipid **ordering** and enzymic activities in chromaffin granule membranes [Cattle]. 117663
Lipid **oxidation.** 3. Oxidation of egg phosphatidylethanolamine. 117051
Lipid **oxidation.** 4. Products of thermooxidative polymerization of vegetable oils. 117308
Oxidized *lipids-proteins* browning reaction. II. Effect of the protein substrate [Fish oil rancidity]. 116256
Lipid **peroxidation** and atherosclerosis [Unsaturated fatty acids]. 116314
Effect of type of dietary fat, cholesterol and chenodeoxycholic acid on gallstone formation, bile acid kinetics and **plasma** *lipids* in squirrel monkeys. 116426
Development of the *lipids* in the **plastids** of Aloe arborescens Mill. 120976
The activity of succinate dehydrogenase, content of *lipoids* and **protein** in the mitochondria of winter wheat [Varieties]. 121497
Role of flavones and related compounds in **retarding** *lipid*—oxidative flavor changes in foods. 116637
Effect of the composition of the nutrient medium on the biosynthesis of *lipids* by **Rhodotorula** gracilis K-1 [the yeast]. 121093
Interactions of metal cations with *lipid-depleted* [**spinach**] chloroplasts. 121601
Lipid **vesicle-cell** interactions. I. Hemagglutination and hemolysis [Sheeep erythrocytes]. 117800
Lipid **vesicle-cell** interactions. II. Induction of cell fusion [Chicken blood]. 117801
Investigation on the *lipids* of **Virola** surinamensis. I. Acid and glyceride composition and chemical nature of some components of the unsaponifiable part. 121346

LIPOLYSIS
Evaluation of the *lipolytic* and **proteolytic** effects of strains of the genus Bacillus [obtained from frankfurter and liver sausages] under laboratory conditions. 116114
Adipose tissue cell size and *lipolysis* in the **rat:** response to exercise intensity and food restriction. 116418

LIPOPOLYSACCHARIDE
Lipopolysaccharide **embedded** within the exine of pollen grains [of Lycopodium]. 121335

LIPOPROTEINS
Effect of dietary fat on hepatic metabolism of 14C [carbon isotope]-oleic acid and very low **density** *lipoprotein* triglyceride in the gerbil [Coconut or safflower oil]. 116425
Polypeptide composition of hen's egg yolk very low **density** *lipoprotein.* 117038

Synthesis of very low **density** *lipoproteins* in the cockerel. Effects of estrogen. 117806
Lipoprotein **lipase** activity in the bovine corpus luteum during the estrous cycle and early pregnancy. 118387

LIPOXYGENASES
Isolation of *lipoxygenase* from **split** pea seeds, snap beans, and peas. 117276

LIPS
Pseudosarcomatous fasciitis of the upper *lip* of a **cat.** 119220
Correction of traumatic avulsion of the upper *lip* in **two** dogs. 119289

LIQUIDAMBAR
Influence of substrate moisture level on the germination of sweetgum and sand pine seed *[Liquidambar* **styraciflua,** Pinus clausa]. 121830

LIQUORS
Contribution to the characterization of sodium chlorite delignification of spruce wood. III. Lignin and polysaccharide complexes in **chlorite** *liquors.* 119770

LISSORHOPTRUS
Seed-applied insecticides for rice water weevil *[Lissorhoptrus* **oryzophilus**] control. 123348

LISTERIA
Inclusion of radioisotopes in **L-forms** of *Listeria.* 119027
Listeria **monocytogenes** findings in raw materials of animal origin [Meat industry]. 116067
Serum levels of progesterone, estradiol, and hydrocortisone in ewes after abortion due to *Listeria* **monocytogenes** type 5. 118605
Cellular immunity in *Listeria* **[monocytogenes]** sensitized young chickens: assayed by an agarose drop macrophage migration inhibition test. 118821
Some biochemical studies on *Listeria* **monocytogenes** strains [isolated from adult sheep, lambs, fetuses, and ensilaged forage]. 118995

LISTERIOSIS
Listeriosis in a **herd** of saddle horses. 118651

LITCHI
The post-harvest handling of subtropical fruit [Bananas, mangos, avocados, *litchi* **fruit**]. 117232

LITHIASIS
Pancreatic *lithiasis* in a Shorthorn cow [Calculi]. 119246

LITHOBIUS
Influence of actinomycin D on larval moulting and morphogenesis of the **chilopod** *Lithobius* forficatus (L.). 124189

LITTERS
Effect of water-soluble excretions from *litter* **fall** of woody plants on te germination of seeds. 120964
Dynamics of *litter* **fall** in forests on Brown and Pseudopodzolic soils [and its decomposition]. 125552
Effect of **forest** *litter* in shelterbelts in the Kamennaia Steppe on the emergence and development of oak seedlings [Quercus]. 121833
Autumnal processing of dissolved organic matter in a small woodland stream ecosystem **[Leaf** *litter].* 120344
Examination of **poultry** *litter* for Salmonellae by direct culture and fluorescent antibody technique. 118630
Effect of administration of progesterone and oestrogen on *litter* **size** in pigs. 118349
Evaluation of **turkey** *litter* silage as a feed source for replacement dairy heifers. 118174
Watch out for fragments in the bedding [of poultry]! *[Litter,* **wood** chips, chicken injuries]. 117399

LIVER
Effects in the rat of environmental temperature, diet dilution, and treadmill running on *liver* and **adipose** enzymes and metabolism of 14C [carbon isotope]-glucose: a multiple regression analysis. 116428
Anti-liver **antibody** in rabbits infected with Schistosoma japonicum. 118595
Comparative histochemical studies on **avian** *liver.* 4. Relationship of dietary preference of various representative birds with the fat and glycogen contents and distribution pattern of histochemically demonstrable lipids in their livers. 117872
Comparative histochemical studies on **avian** *liver.* 5. Relationships of dietary preferences with distribution patterns of lipase, esterase and beta-hydroxy-butyrate dehydrogenase in the livers of various representative birds. 117873
Lactoperoxidase-catalyzed lipid peroxidation of microsomal and artificial membranes [Milk, **beef** *liver].* 116854
Studies on lysophospholipases. VIII. Immunochemical differences between two lysophospholipases from **beef** *liver.* 117598
Hepatic venous compliance and role of *liver* as a **blood** reservoir [Cats]. 117538
The effect of stimulating rates of ionizing radiation on the stability of *liver* **cell** mitochondria in chick embryos and young chickens. 117950
Rapid appearance of estrogen receptor in **chick** *liver* nuclei: partial inhibition by cycloheximide. 117680
Levels of some metabolites in *liver* of **chick** embryos and recently hatched chicks. 117749
Precocious development of UDP [uridine diphosphate]-glucuronyltransferase activity in **chick-embryo** *liver* after administration of adrenocorticotropic hormone and of certain 11beta-hydroxy corticosteroids. 117584
Glucocorticoid binding in the **chicken** *liver* cytosol. Characterization of five macromolecular binding components. 117594
Solubilization of the chromatin-bound estrogen receptor from **chicken** *liver* and fractionation on hydroxylapatite. 117667
Zinc deficiency in the weanling rat: effects on *liver* **compositon** and polysomal profiles. 116444
Cell surface mannosyl transferase activity in the *liver* of **embryonic** chick: a mannose containing glycolipid as intermediate in glycoprotein synthesis. 117850
Rat strain differences in cyclic-AMP [adenosine monophosphate] levels in *liver* and **epididymal** fat pad tissue as influenced by glucagon. 116438
Fatty acid composition of adipose tissue and *liver* **fats** of the rats fed yeast grown on n-alkanes. 116455
Hepatic steatosis of poultry **[Fatty** *liver].* 119077
Liver **flukes** [Fasciola hepatica] in Florida cattle cause economic losses to cattlemen. 118689
Purification and characterization of L-gulono-gamma-lactone oxidase from rat and **goat** *liver.* 117571
Subcellular localization of the F1 and F2 isozymes of **horse** *liver* aldehyde dehydrogenase. 117572
Synthesis of delta-aminolaevulinate synthase by **isolated** *liver* polyribosomes [Chick embryos]. 117586
Mineral composition of *liver* and **kidney** of rats fed corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Messenger RNA translation in the presence of homologous and heterologous tRNA [prepared from oviduct or *liver* of **laying** hens]. 117664
An outbreak of **lipoid** *liver* degeneration (LLD) in Atlantic salmon [Salmo salar] in a fish farm and attempts to cure the disease. 119272
Liver **lobe** avulsion in a cat. 119146
Rational **manufacture** *liver* sausage and frankfurter sausage types in lacquer-sealed fibre casings. 116994
Activation of external way of free oxidation in *liver* **mitochondria** during cooling of rats [Response to sharp reduction of environmental temperature]. 117652
Effect of mycotoxins on uptake and degradation of [125I]albumin [iodine isotope] in **mouse** *liver* and kidney lysosomes. 119256
Mechanism of 2-naphthylamine oxidation catalysed by **pig** *liver* microsomes. 117955
Comparison of **porcine** *liver* tRNA preparations: purification of tRNA and its separation from RNA-peptidyl complexes. 117548
Factors affecting the rate of gluconeogenesis from L-cysteine in the perfused **rat** *liver* [Effects of diets]. 116432
Studies on the alpha-adrenergic activation of hepatic glucose output. I. Studies on the alpha-adrenergic activation of phosphorylase and gluconeogenesis and inactivation of glycogen synthase in isolated **rat** *liver* parenchymal cells. 117796
Release of DNA template restrictions in rabbit spermatozoa and **rat** *liver* nuclei. 118343
Differentiation and species distribution of microorganisms of the genus Bacillus found in frankfurter and *liver* **sausages.** 116111
Evaluation of the lipolytic and proteolytic effects of strains of the genus Bacillus [obtained from frankfurter and *liver* **sausages**] under laboratory conditions. 116114
Development of gluconeogenic enzymes in fetal **sheep** *liver* and kidney. 117645
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the *liver,* **skeletal** muscle, and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 7. Relationships between the activity of some selected hydrolases in the *liver* and **small** intestine and the functional state of the adrenal cortex [Rats]. 117986
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, *liver,* **spleen,** thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Metabolism of *liver* **triacylglycerols** in rats tube-fed a threonine-devoid diet. 116497
Gas-liquid chromatographic determination of vitamin D3 in **tuna** *liver* and vitamin D3 resin oils. 116458

LIVERWORTS
Neutral sugar, uronic acid, cellulose, and protein content of cell walls isolated from gametophytes of the *liverworts* **Lophocolea** heterophylla and Conocephalum conicum. 121187
Liverworts from **New** Guinea. 13. Gymnomitriaceae [New taxa]. 120118

LIVESTOCK
Naturally occurring mutagens [discovered as a result of outbreaks of disease in **agricultural** *livestock,* public health hazards, toxic agents]. 119269
The mechanisms of anabolic action of the PEFAG preparation [growth and fattening stimulant in *livestock* **based** on the mycelium of Actinomyces grseus]. 118068
Livestock **breeding** and production in Lower Saxony. 117509
Livestock **breeding** enters the age of technology. 118193
Selection of antibiotics for treatment of *livestock* **carriers** of Leptospira. 119033
FMD [foot-and-mouth disease] vaccine—a new **concept** *[Livestock].* 118590
Dermatophilosis in tropical South America [Dermatophilus **congolensis,** *livestock].* 118703
Mycotoxins and mycotoxicoses. 3. Diagnosing cases of poisoning, identifying the causative agent, and establishing effective **control** *[Livestock].* 119263
Corn [as feed for *livestock* and its **cultivation**]. 121845
Measurement of electric resistance of the vaginal mucus as an aid for heat detection *[Livestock,* **dogs].** 118414
Economic aspects of streptothricosis in *livestock* in **East** Africa. 118709
8-azidoadenine analogs of NAD+ [nicotinamide 8-azidoadenine dinucleotide] and FAD [flavin 8-azidoadenine dinucleotide]. Synthesis and coenzyme properties with NAD+-dependent and FAD-dependent enzymes *[Livestock* **extracts,** Penicillium nitatum, Fungi]. 117669
The *[livestock]* **fair** at Ibague. 117498
Improving veterinary service of *livestock* **[farm]** complexes. 118571
Fur farming education now within the scope of vocational education for the *livestock* **farmer.** 117419
Livestock **farming** in Soria Province [Sheep, management, housing]. 117390
Use of insect-acaricide carbamide acid esters in *livestock* **farming.** 3. Chronic toxicity of insectacaricide carbamide acid esters. 119267
Use of insect-acaricide carbamide acid esters in *livestock* **farming.** Dynamics of residues of insect-acaricide carbamide acid esters with particular reference to carbaryl. 119268
Fence design *[Livestock* **farms].** 124591
Cost efficiency in gathering and pelleting straw for *livestock* **feed** [East Germany]. 115511
Aflatoxin *[Livestock* **feed** contaminated with Aspergillus flavus]. 117372
Whey utilization *[Livestock* **feeding].** 116849
Protein alternates on hand if grain outlook dictates need *[Livestock* **feeding].** 117338
Aspects and inquiries on *livestock* **feeding** [Colza flour used]. 118163
Current aspects of the aflatoxin problem [caused by toxic metabolites of a common fungus, Aspergillus **flavus,** *livestock].* 119282
Minimum standards for agricultural operations; *livestock* and **forestry** [Legislation, Colombia]. 115991
An economic comparison of forestry and farming alternatives [Complementary production from *livestock* **grazing].** 119537
Institute to control veterinary products [Rabies vaccine and control, *livestock* **health,** Brazil]. 118492
Advisory services of veterinary medicine attached to regional institute in Halle and its role in encouraging beginning of **industralized** *livestock* production units. 118501
Analysis of serum arginase activity: possible applications in **industrialized** *livestock* production [to detect disorders in protein metabolism]. 119150
Rationalisation of clinical-chemical methods for examinations in veterinary medicine [for metabolic control in **industrialized** *livestock* farming]. 119172
Responsibilities of veterinary services in the USSR in promoting **industrized** *livestock* farming. 118517
Measures for healthy and rapid growth of Indian dairy and *livestock* **industry.** 115929
Arthropods are costly to *livestock* **industry** in State; millions lost [Florida]. 123626
Beetles (Coleoptera) as new intermediate hosts of helminths **[Infecting** *livestock].* 123674
Dialectal animal names and folkloric reports on the animal kingdom of Zurich Canton [Includes *livestock* and **insects].** 117516
Livestock **insects.** 123621
A comparative study of porphyrin synthesis by whole blood and haemolysates from different mammalian species *[Livestock,* **laboratory** animals]. 117632
Subunit compositions of vertebrate alpha crystallins *[Livestock,* **laboratory** animals, poultry]. 117637
Comparison of the cytoarchitectonic structure of the subthalamic nucleus in certain mammals [Includes *livestock* and **laboratory** animals]. 117690
A one-act differential stain of the acrosome with active dyes *[Livestock,* **laboratory** animals]. 118345
The effect of some activators and inhibitors on the activity of the alkaline phosphatase and the **leukocytes** *[Livestock].* 117951
A contribution to the testing and introduction of new animal husbandry systems *[Livestock* **management].** 115458
Comparison of antigens of Dermatophilus congolensis isolates and their use in serological tests in experimental and natural infections [Fungal **pathogen** of *livestock].* 118700
Seasonal density, distribution and interactions of predatory and scavenger arthropods in accumulating poultry wastes in coastal and interior southern California *[Livestock* **pests,** biological control]. 123623
Possibility of extensive blood relationship in *livestock* **populations,** and comparison of fertility and resistance to environmental changes [Genetics]. 118206
Biochemical identification of Salmonellae and coli bacteria and their sensitivity to chemotherapeutics *[Livestock,* **poultry].** 118974

Efficiency and misfortune in the country district of Colombia [Economic aspects of crop and *livestock* **production**]. 115293
Management experience in industrial crop production for the benefit of *livestock* **production** cooperatives [East Germany]. 115410
Agricultural agreement, 1976/1978. 1. Considerable profit in *livestock* **production.** 115430
Effectiveness and quality of *livestock* **production** under the conditions of the new economic measures [Programs, East Germany]. 115933
Dresden Cooperative Association for Beef Production: usual material economy from *livestock* **production** to processing. 117461
Livestock **production** and tasks of the veterinary services in the Democratic Republic of Somalia. 118509
Use of insect-acaricide carbamide acid esters in *livestock* **production.** 2. Acute toxicity of insect-acaricide carbamide acid esters. 119266
Use of insect-acaricide carbamide acid esters in *livestock* **production.** 1. Range and mechanism of action of insect-acaricide carbamide acid esters [Review of literature]. 123647
Optimization of diesel electric units for *livestock* **production.** 124750
Evaluation of the territorial systems related to the biologico-productive localities of *livestock* **[Programs].** 115994
Drought clouds Australian wheat, *livestock* **prospects** [Outlook]. 115847
Windbreaks for *livestock* **protection** in the Central Great Plains. 119403
Windbreaks for *livestock* **protection** in the southern Great Plains. 119404
Estimate of the territorial systems in relation to the biologico-productive directions for *livestock* **rearing.** 115445
Marketing agricultural products in New Hampshire. IV. Adjustments in **regional** *livestock* marketing. 115737
Vegetation and *livestock* **response** at three grazing intensities on sandhill rangeland in eastern Colorado [Grasses]. 122162
Recent findings on the [nutritional and hereditary damage] of **selenium** upon *livestock*. 119173
Dermatophilus [congolensis] infection [of *livestock]* in the **subtropical** zone of South America. 118706
Recommendations for rationalizing and reconstructing **traditional** *livestock* facilities. 115417
The role of parasites in natural ecosystem [Water, pasture, *livestock* **transmission**]. 118923
Dermatophilus [congolensis] infections [of *livestock]* in the **United** States. 118707
Livestock and the **utilization** of resources. 117478
Veilsdorf *Livestock* Production Cooperative: assurance of high production results in cooperation with crop production farms [East Germany]. 115423
Effect of ponds on the runoff, their conservation and effective utilization [for irrigation and for *livestock* **watering**]. 125222
Stimulating native forage production for *livestock* and **wildlife** on fallow riceland [Herbicides]. 123181
Effect of a *livestock* **wintering** operation on a western mountain stream [Pollution]. 125570

LIVEWEIGHTS

Effect on *liveweight* **gain** and wool weights of anthelmintic and selenium drenching of mountain country Merino and halfbred ewe hoggets. 118851

LIXOPHAGA

Development of Diatraea saccharalis (Lepidoptera: Pyralidae) at constant temperatures [Sugarcane pests, biological control with *Lixophaga* **diatraeae**]. 123305
Conditions required for the mass-breeding of *Lixophaga* **diatraeae** (Diptera: Tachinidae). 123902

LLAMAS

Scanning electron microscopy of elliptocytes in **man** and *llama*. 117885

LOAMS

Migration and detoxication rate of some simm-triazines in Sod-Podzolic soil with **average** *loam* content. 122884
Distribution of organic compounds in mechanical fractions of soils developed from **boulder** *loams*. 124894
Effects of different cultivation treatments on root distribution, and on the concentrations of extractable phosphorus and potassium, at different depths in a **clay** *loam*. 124954
Nitrate loss in a ponded Hanford **sandy** *loam:* enhancement by plant roots [Barley]. 124871
Nitrate reduction and nitrite utilization by nitrifiers in an unsaturated Hanford **sandy** *loam*. 124872
Absorption of nutrients by fiber flax and the effectiveness of inorganic fertilizers on **Sod-Podzolic** *loamy* soils in the Udmurt Autonomic Soviet Socialist Republic. 121395
Effect of peat on the agrochemical properties of **Sod-Podzolic** *loamy-sandy* soil and the productivity of crop rotation. 124935
Yield of cereals and the removal of nitrogen, phosphorus and potassium on **Sod-Podzolic** *loamy* soil in the Belorussian SSR in relation to the level of nutrition. 124951
Relationship between moisture content, aggregate formation and aggregate stability of a *loam* **soil** treated with a soil conditioner in various concentrations. 124789

LOANS *see* LENDING

LOASACEAE

Pollen morphology of the **family** *Loasaceae*. 120066

LOBECTOMY

Intrathoracic surgery in the horse with a pictorial guide to **partial** *lobectomy*. 118578

LOBELIAS

Control of *Lobelia* **rust,** Coleosporium companulae (Pers.) Lev. 122671

LOBES

Foliar ontogenesis and leaf lobing of Tropaeolum peregrinum L. II. The development of the *lobe* after the **formation** of the lobulets. 120895
Angiotensin II release from the **hypoxic** *lobe* of the intact dog lung. 117821
Liver *lobe* avulsion in a cat. 119146

LOBLOLLY

Growth following initial thinning of *loblolly* **pine** [Pinus taeda] planted on a cutover site at five spacings. 119639
Changes in *loblolly* **pine** [Pinus taeda] seedling dry weight and top to root ration between October and March. 121821
Black turpentine beetle [Dendroctonus frontalis] infestations after thinning in a *loblolly* **pine** [Pinus taeda] plantation. 123500
Influence of spacing on growth of *loblolly* **pines** [Pinus taeda] planted on eroded sites [Mensuration]. 119548
Distribution of fusiform rust [Cronartium fusiforme] on slash and *loblolly* **pines** [Pinus elliottii elliottii, Pinus taeda] in Texas. 122748
Bark thickness of **17-year-old** *loblolly* pine [Pinus taeda] planted at different spacings. 119640

LOBSTERS

Dietary lipid requirements of **adult** *lobsters,* Homarus americanus (M.e.). 118101

LOCUSTA

Incorporation and disintegration of extra-embryonic epithelia in the egg of the migratory **locust** *(Locusta* migratoria L.). 123849
Outbreaks and partial phase transformation of *Locusta* **micratoria** L. in sugarcane fields of Minami- and Kita-Daito Zima, Okinawa. 123267
Origin and role of a lysozyme type of activity in the blood of *Locusta* **migratoria** migratorioides (R. & F.). 123779
Activity of the C-18 Hyalophora cecropia synthetic juvenile hormone in *Locusta* **migratoria,** with special reference to the age of the solutions. 123846
Cuticla protein in *Locusta* **migratoria.** 123866
Dynamics of ecdysone metabolism after ingestion and injection in *Locusta* **migratoria.** 123921
Juvenile hormone control of vitellogenin synthesis in *Locusta* **migratoria.** 123947
Neuronal mechanisms subserving directional selectivity in the locust optomotor system [Chortoicetes terminifera, *Locusta* **migratoria**]. 124028
Action of different toxins from the scorpion Androctonus australis on a locust *[Locusta* **migratoria]** nerve-muscle preparation. 124040

LOCUSTS

Neurosecretory **activity** in *locusts*. 123778
Melliferous flora preceding and accompanying the **black** *locust* [Robinia] flowering in the Torino Hill. 119938
An apparatus for the production of wheat seedlings for **feeding** *locusts* in the laboratory. 123775
Gut carbohydrases in *locusts* and **grasshoppers.** 123777
Action of different toxins from the scorpion Androctonus australis on a *locust* **[Locusta** migratoria] nerve-muscle preparation. 124040
Imaginal differentiation of the tegument in the **migratory** *locust,* Schistocerca gregaria Forsk. II. Development during imaginal molt and its determination in gregarian males. 123811
Incorporation and disintegration of extra-embryonic epithelia in the egg of the **migratory** *locust* (Locusta migratoria L.). 123849
Neuronal mechanisms subserving directional selectivity in the *locust* **optomotor** system [Chortoicetes terminifera, Locusta migratoria]. 124028
A simple and **specific** *locust* [Schistocerca gregaria] protein binding assay for cyclic 3'5' GMP [guanosine-3'5'-cyclic phosphate]. 123826

LODGEPOLE

Olfactory behavior of Ips pini (Say) (Coleoptera: Scolytidae) during host invasions and colonization of *lodgepole* **pine** [Pinus conterta latifolia]. 123450

LOESS

A contribution to the genesis and classification of **Polish** *loess* soils (Lublin hill country). 124861

LOGGING

Labor problems in the use of *[logging]* **combines** in forestry. 119838
Rationalization of thinning by the use of *logging* **equipment.** 119839
Mechanized *logging* [in Sweden and the Netherlands]. 119761
Computer may cut costs $1-2/cord *[Logging* **operation].** 119797
An analysis of manpower in *logging* **operations** in he Maluku Province. 119752
Some problems of development of *logging* on **partial** cuts. 119655
Results of mechanizing operations in the forestry of the Czech Socialist **Republic** *[Logging].* 119756
Sugar maple [Acer saccharum]: tree and bole weights, volumes, centers of gravity, and *logging* **residue.** 119835
Logging to **save** ponderosa pine regeneration: a case study. 119833
Key indicators of **successful** *logging* jobs in the Northeast. 119836

LOGS

Best opening face [Hardwood log or a softwood **grade** *log].* 119685
Portable sawmills for heavy, **hard-to-reach** *logs.* I. 119695
Portable sawmills for heavy, **hard-to-reach** *logs.* II. 119696
Best opening face **[Hardwood** *log* or a softwood grade log]. 119685
Log **linear** representation for paired and multiple comparisons models [Statistics applied to food preference]. 115571
The absence of a growth inhibitor during the *log* **phase** of growth of Dictyostelium discoideum [Fungi]. 121025
Ovalness of **pine** *logs* in northern Finland. 119811
Knottiness of European fir stem wood and its influence on [Yugoslav] grading **standards** for *logs.* 119451

LOLIUM

Production and solar energy utilization by two different strains of ryegrass *[Lolium,* **calculation].** 121422
Temperate grasses: *Lolium,* **Festuca,** Dactylis, Phleum, Bromus (Gramineae). 121966
Effects of sowing rate and row width on the seed yield of three grasses *[Lolium* **multiflorum,** Dactylis glomerata, Festuca arundinacea]. 122119
Early maturing variety of perennial ryegrass, Drogobychskii 1 *[Lolium* **perenne].** 122152
A comparative study of the infection of perennial reygrass *[Lolium* **perenne]** by Fusarum nivale and Fusarium culmorum in sterilized soil. 122560
Structural basis of quantitative difference in nuclear DNA between Lolium temulentum L. & *Lolium* **rigidum** Gaud. 121508
Factors affecting the establishment of ryegrass *[Lolium]* **seedlings** in soldier fly [Inopus rubriceps]-infested land. 123336
Structural basis of quantitative difference in nuclear DNA between *Lolium* **temulentum** L. & Lolium rigidum Gaud. 121508
Evaporation rate, leaf water potential and stomatal conductance in *Lolium,* **Trifolium** [clover] and Lysimachia in drying soil. 121518
A small-plot evaluation of three ryegrasses *[Lolium]* and **two** clovers at five sites in New Zealand. I. Comparison of 'Grasslands Huia' and 'Grasslands Pitau' white clovers. 122046

LONCHAEA

Comparative morphological characteristic of the larvae of Palearctic species of the **genus** *Lonchaea* Fall. (Diptera, lonchaeidae). 124307

LONCHAEIDAE

Comparative morphological characteristic of the larvae of Palearctic species of the genus Lonchaea Fall. **(Diptera,** *lonchaeidae).* 124307

LONGEVITY

Estimates of population size and *longevity* of **adult** narcissus bulb fly Merodon equestris Fab. (Diptera: Syrphidae). 123410
Predatory activity, reproductive potential and *longevity* of **Geocoris** spp. treated with [soybean] insecticides. 123320
Longevity of the **seeds** of herbaceous plants from the [Ukrainian] Carpathians. 120966
Results on the *longevity* and **winter** hardiness of Cotoneaster in Weihenstephan. 121640

LONGITUDE

Preliminary study of the mangrove areas in Ceara State, Brazil. I. Main areas of its occurrence in the coastal belt from a *longitude* of 38 **degrees,** 36 minutes west to 41. 120232
Longitudinal **movement** and loss of solutes and water in barley roots. 121419

LONGLEAF

Optimum tetrazolium staining of *longleaf* **pine** [Pinus palustris] seed [to estimate viability]. 121831
A new day for *longleaf* **[Pinus].** 119421

LONICERA

Flowering and pollination of some emtomophils [Primula moorkroftiana, *Lonicera* **semenovii]** from the alpine belt in East Pamir. 121107

LOOPERS

Toxicity, penetration, and metabolism of chlordimeform and its N-demethyl metabolite in **cabbage** *looper* larvae [Trichoplusia ni]. 123407
Starch compounds as adjunct gelling agents in larval diet of the **cabbage** *looper* [Trichoplusia ni]. 123415
Sodium alginate as a gelling agent in diets for the **cabbage** *looper,* Trichoplusia ni. 123892

LOPHOCOLEA
Correlation between protein content and cell elongation in setae of *Lophocolea* **heterophylla** [Hepaticae] sporophytes. 121186
Neutral sugar, uronic acid, cellulose, and protein content of cell walls isolated from gametophytes of the **liverworts** *Lophocolea* heterophylla and Conocephalum conicum. 121187

LOPHODERMIUM
Seasonal development and control of *Lophodermium* **pinastri** in Pennsylvania [Pinus sylvestris, needlecast]. 122761

LOPHOZIA
Lophozia **heterocolpa,** new disjunct for North Carolina [Bryophyta]. 119984
Austral Hepaticae. IV. Notes on *Lophozia* **subgenus** Protolophozia Schust., with diagnosis of a new South American species. 120102

LOQUAT
Loquat [**fruit** crop] varieties for Northern India. 122291

LORANTHACEAE
Revision of the genus **Oryctanthus** *(Loranthaceae)* [New taxa]. 119976

LOTUS
A flotation method for the analysis of chalcid-fly, Bruchophagus kolobovae Fedoseeva, infested birdsfoot trefoil, *Lotus* **corniculatus** L. seed. 123172
Lotus of the marshes in **Dombes** *(Lotus* uliginosus Schkuhr) [Cultivation]. 122389
A chemical basis for plant [lucerne, *Lotus* **pedunculatus**] resistance to grass grub [Costelytra zealandica] and black beetle [Heteronychus arator] larvae (Coleoptera: Scarabaeidae). 123335

LOWLANDS
Relationship between chemical composition of *lowland* **brown** rice and producing district in Hokkaido. 117161

LOXOSCELES
Effect extracts of the venom gland of the recluse spider, *Loxosceles* **laeta,** on human cells in culture. 123670

LUCERNES
Results of surveys of phytophagous and seminovorous insects in seed **bearing** *lucerne.* 123352
High milk yields from **dried** *lucerne* [Dairy cattle]. 118066
Vericillium albo-atrum in *lucerne.* II. The **effect** of selection and the hereditary variation in resistance. 120584
Lucerne **establishment.** II. Cover crops and lucerne establishment. 122050
Volatile fatty acid metabolism in sheep. 1. Average daily volatile fatty acid production in the rumen of sheep **fed** *lucerne* hay. 117869
The main problems are discussed concerning the importance of association effect (group effects according to Griffing) on the evaluation of *lucerne* **genotypes.** 120801
Lucerne **growing** in the Champagne region of France. 121931
A chemical basis for plant *[lucerne,* **Lotus** pedunculatus] resistance to grass grub [Costelytra zealandica] and black beetle [Heteronychus arator] larvae (Coleoptera: Scarabaeidae). 123335
Alfalfa, *lucerne:* **Medicago** sativa (Leguminosae-Papilionatae). 121939
Influence of Verticillium albo-atrum Rke et Berth. On the course of mitosis in apical meristem cells of *lucerne* (**Medicago** media Pers.) roots. 122618
Phytoalexin production by *lucerne* (**Medicago** sativa L.) in response to infection by Verticillium. 122710

LUCILIA
The composition of the medial neurosecretory cells of the pars intercerebralis in Calliphora and *Lucilia* **adults.** 124181
Contact chemoreceptors on the ovipositor of *Lucilia* **cuprina** (Wied.), the Australian sheep blowfly. 123603
On the purification of a fatty acid synthetase complex from an insect *[Lucilia* **sericata].** 123861

LUMBER
Why does Italy still keep on **buying** *[lumber]?* 119716
Cutting **coefficients** *[Lumber].* 119807
Mill layout for maximum **efficiency** *[Lumber].* 119694
Use of edgers in reducing waste and speeding mill **flow** *[Lumber].* 119705
Mill alignment, set-up, and maintenance *[Lumber* **industry].** 119693
The pine, a versatile standard timber. 3. Central American pines [Pinus, *lumber* **industry].** 120036
The pine, a versatile standard timber. 4. The pines of southeastern Asia [Pinus, *lumber* **industry].** 120037
Law for protection against immissions and the *lumber* **industry** [Air pollution]. 125438
The first quarter century of *lumber* **journalism.** 119723
Positive tendencies on the German *[lumber]* **market.** 119715
Evaluation of structural grades of *lumber:* the **northern** aspen species group. 119709
Application of modern technology in *lumber* **processing.** 119684
Labor expenditure for *lumbering,* **timber** plantations and forest care in Plenter Forest [Switzerland]. 119508
Community and authority response to the Saginaw **Valley** *lumber* strike of 1885 [Michigan, forest history]. 119353

LUNAR
Records of insects taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the *lunar* **cycle** on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251

LUNCH
Reactions of the school board on the parental **home** *[Lunch].* 116319
A bicentennial salute to Louisiana: The school cafeteria staff played an important role in this tribute to a state's proud heritage **[School** *lunches].* 116331

LUNGS
In vivo growth and development of equine adenovirus in the *lung* of **Arabian** horse. 118889
Pulmonary arteriovenous anastomoses in the **avian** *lung:* do they exist? [Chickens]. 117898
Formation of anhydrosugars in the chemical depolymerization of **[beef** *lung]* heparin. 117588
Nearest neighbor analysis of **[beef** *lung]* heparin: Identification and quantitation of the products formed by selective depolymerization procedures. 117590
Isolation and properties of carboxycathepsin (peptidyl-dipeptidase) from **bovine** *lung.* 117608
Angiotensin II release from the hypoxic lobe of the intact **dog** *lung.* 117821
Lung **inflation** and alveolar permeability to non-electrolytes in the adult sheep in vivo. 117827
Gas-blood CO2 [carbon dioxide] equilibration in **parabronchial** *lungs* of birds [Chickens]. 117776
Effects of antihistamines on the *lung* **vascular** response to histamine in unanesthetized sheep. Diphenhydramine prevention of pulmonary edema and increased permeability. 117805

LUNGWORMS
Giant cell pneumonia associated with *lungworm* [**Metastrongylus** apri, Metastrongylus saline] infection in pigs. 118731

LUPINE
Lupin **alkaloids** from tertogenic and nonteratogenic lupins. III. Identification of anagyrine as the probable teratogen by feeding trials [Pregnant cows, crooked calf disease]. 119257
Lupin **alkaloids** from teratogenic and nonteratogenic lupins. IV. Concentration of total alkaloids, individual major alkaloids, and the teratogen anagyrine as a function of plant part and stage of growth and their relationship to crooked calf disease [Pregnant cows]. 119258
Heterogeneity of soluble proteins from the cytoplasm in leaves of wintering plants [winter rye and perennial **blue** *lupine]* and the activity of dehydrogenases in relation to the time of the year. 121494
Effect of duration of **composting** *lupine* with peat on their sorption capacity. 125068
Presence of phytotoxic form of bacteria in a Sod-weak Podzolic soil planted with *lupine* in a **crop** rotation and in monoculture. 122801
Autoimmune hemolytic anemia associated with *lupus* **erythematosus** [Dogs]. 119209
Biological activity of microorganisms decomposing the [plowed under] **green-manure** *lupine.* 124996
Lupin alkaloids from tertogenic and **nonteratogenic** *lupins.* III. Identification of anagyrine as the probable teratogen by feeding trials [Pregnant cows, crooked calf disease]. 119257
Lupin alkaloids from teratogenic and **nonteratogenic** *lupins.* IV. Concentration of total alkaloids, individual major alkaloids, and the teratogen anagyrine as a function of plant part and stage of growth and their relationship to crooked calf disease [Pregnant cows]. 119258
Effects of planting pattern and sowing method on the seed yield of safflower, oilseed **rape,** and *lupin.* 122048
Separation into components and the recombination of nitrogenase from bacteroids of *lupine* **[Rhizobium** lupini, nodule bacteria]. 121450
Effect of sowing rate and sowing date on *lupin* **seed** yield. 122047
Factors affecting the reduction of acetylene by root nodules of Lupinus **species** *[Lupine].* 121527
Effect of various levels of molybdenum fertilizer on the **yellow** *lupine.* 125081

LUPINUS
Lupinus **mutabilis** sweet—a potent food source from the Andean region. 116286
Effects of ovule positions in fabaceous flowers on seed set and outcrossing rates *[Lupinus* **nanus,** alfalfa]. 121435
Factors affecting the reduction of acetylene by root nodules of *Lupinus* **species** [Lupine]. 121527

LUPULUS
Hops: **Humulus** *lupulus* (Moraceae). 122530

LUSTER
Never-dried cotton **fibers.** VI. *Luster.* 117197

LUTEINIZATION
The reaction of the histidine residues of [bovine and procine] *luteinizing* **hormone** with ethoxyformyl anhydride. 117603
Effects of follicle stimulating hormone and *luteinizing* **hormone** on the incorporation of 32P [phosphorus isotope] into the testis of the immature Japanese quail. 117697
Plasma LH *[luteinizing* **hormone]** response to LH-RH [luteinizing hormone-releasing hormone] injection in immature intact, castrated and cyproterone-treated male rats. 118356
Pituitary-testicular responses in rams to prolonged infusions of *luteinizing* **hormone-releasing** hormone (LHRH). 118226
Plasma LH [luteinizing hormone] response to LH-RH *[luteinizing* **hormone-releasing** hormone] injection in immature intact, castrated and cyproterone-treated male rats. 118356
Changes in the secretion of ovarian steroids and **pituitary** *luteinizing* hormone in the periovulatory period in the ewe: the effect of progesterone. 118341
Seasonal Profiles of **plasma** *luteinizing* hormone, testosterone and estradiol in the ram. 118257
Role of insulin, thyroxin and cortisol in *luteinization* of **porcine** granulosa cells grown in chemically defined media. 117612

LUTZOMYIA
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 2. description of the females of *Lutzomyia* **campbelli** and Lutzomyia sherlocki, and redescription of the male and description of the female of lutzomyia octavioi. 124420
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 1. description of three new species *[Lutzomyia* **cuzquena,** Lutzomyia machupicchu, Lutzomyia quechua, leishmaniasis transmission]. 124419
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 2. description of the females of Lutzomyia campbelli and Lutzomyia sherlocki, and redescription of the male and description of the female of *lutzomyia* **octavioi.** 124420
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 3. description of the male and redescription of the female of *Lutzomyia* **(Psychodopygus)** amazonensis (Root, 1934), and list of species collected [Leishmaniasis transmission]. 124421
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 1. description of three new species [Lutzomyia cuzquena, Lutzomyia machupicchu, *Lutzomyia* **quechua,** leishmaniasis transmission]. 124419
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 2. description of the females of Lutzomyia campbelli and *Lutzomyia* **sherlocki,** and redescription of the male and description of the female of lutzomyia octavioi. 124420

LUXATIONS
New contributions to the treatment of **coxofemoral** *luxation* in dogs [Surgery]. 118433
Surgical repair of [canine] lateral **shoulder** *luxation.* 119147

LYASES
Phenylalanine **ammonia** *lyase* & phenols in tubers of Kufri Dewa [a potato variety] in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804
Isocitrate *lyase:* a new enzyme from pollen [Calotropis procera]. 121138
Similarities between L-phenylalanine and m-fluorophenylalanine as substrates for **L-phenylalanine** *ammonia-lyase* [Oats]. 121529
Light-induced enzyme synthesis in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of **phenylalanine** *ammonia-lyase* synthesis. 121642
Phenylalanine *ammonia-lyase.* Induction and purification from yeast [Rhodotorula glutinis] and clearance in mammals [Rabbits]. 121168
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, poles]: synthesis and secretion of **polygalacturonate** *lyase* by Cytophaga johnsonii. 119717

LYCAENIDAE
Confirmation of the presence of Lycaena dispar Haworth in **Correze** *(Lycaenidae).* 124204
A native food plant for the butterfly Deudorix epijarbas **(Lepidoptera:** *Lycaenidae).* 123374
Biology of Lysandra coridon manleyi de Lesse **(Lepidoptera,** *Lycaenidae).* 123894
Contributions to the biology of the genus Agrodiaetus. 1. Agrodiaetus ripartii Freyer **(Lepidoptera,** *Lycaenidae).* 123896
Territorial behaviour in Heodes virgaureae L. (Lepidoptera, *Lycaenidae)* with **particular** reference to visual stimuli. 124117
Eumedonia eumedon montriensis nova **ssp.** *(Lycaenidae).* 124209

LYCOPERSICON
Particuliarities of the reproduction interrelations and type of sterility in hybrids between Lycopersicon esculentum Mill. [Tomatoes] and *Lycopersicon* **chilense** Dun. 120645
Pigmentation types in BC1 and S1 from BC1 of Lycopersicon esaculentum Mill. [Tomatoes] X *Lycopersicon* **chilense** Dun. 120646
Particuliarities of the reproduction interrelations and type of sterility in hybrids between *Lycopersicon* **esculentum** Mill. [Tomatoes] and Lycopersicon chilense Dun. 120645
Tomato: *Lycopersicon* **esculentum** (Solanaceae). 122381
The sterolic fraction of tomato seed **oil** *(Lycopersicon* esculentum Miller). 117319

LYCOPODIUM
Deposition of **airborne** *Lycopodium* and Podaxis spores released from an artificial point source. 119915
Gametophytes and subgeneric concepts in *Lycopodium* **[Clubmosses].** 119926
Discovery of the *lycopod* **Diphasium** zeilleri (Rouy) Damboldt in Campine. 120224
Lipopolysaccharide embedded within the exine of pollen **grains** [of *Lycopodium].* 121335

LYCOSIDAE
New spider records for Georgia **[Agelenidae,** *Lycosidae].* 124315
Energy metabolism in the wolf spider Pardosa palustris (L.) (Araneae, *Lycosidae)* from **Hardangervidda,** southern Norway. 124113
Production of faeces, excreta, and silk in the wolf spider pardosa palustris (L.) (Araneae, *Lycosidae)* from **Hardangervidda,** southern Norway. 124115

LYGAEIDAE
Studies on the mating behavior of Lygaeus militaris Fabr. **(Heteroptera:** *Lygaeidae).* 124185

LYGAEUS
Studies on the mating behavior of *Lygaeus* **militaris** Fabr. (Heteroptera: Lygaeidae). 124185

LYGUS
Parasitism of the tarnished plant bug, *Lygus* **lineolaris** (Hemiptera: Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297

LYMANTRIA
Ecology of pathogens of the gypsy moth *[Lymantria* **dispar,** biological control]. 123466
Establishment of gypsy moth *[Lymantria* **dispar]** parasitoids in North America: an evaluation of possible reasons for establishment or non-establishment [Forest pests, biological control]. 123468
Estimating peak concentrations of pheromones in the forest *[Lymantria* **dispar].** 123469
Flight and mating behavior of the gypsy moth *[Lymantria* **dispar].** 123470
Tachinid parasites of the gypsy moth, *Lymantria* **dispar,** with keys to adults and puparia [Tachinidae, new taxa, natural control, forest pests]. 123480
Control of *Lymantria* **dispar** in Corsica. 1. [Quercus, pests, biological control, Bacillus thuringiensis , Calosome sycophante]. 123495

LYMANTRIIDAE
On the distribution of microorganisms infecting the larvae of Euproctis chrysorrhoea L. (Lepidoptera, *Lymantriidae)* near **Kosova,** Yugoslavia [Natural control]. 123225
Forest and laboratory evaluations of hybridized Apanteles melanoscelus (Hymenoptera: Braconidae), a parasitoid of Porthetria dispar **(Lepidoptera:** *Lymantriidae).* 123458
Properties of carboxylic esterase from Euproctis lunata Walker **(Lepidoptera:** *Lymantriidae).* 123973
Short note to the study of a new species of the genus Orgyia [papuana] from Papua New Guinea and Australia **(Lepidoptera,** *Lymantriidae).* 124299

LYMPH
Changes of the content of lipid and carbohydrate metabolites in the *lymph* of **cattle** in ontogenesis. 117930
Isolation of nuclei from the lymphocytes of **cattle** *lymph.* 117935
X-ray microanalysis of **receptor** *lymph* in a cuticular arthropod sensillum [Cupiennius salei]. 124035
Distribution of *lymphatic* **tissues** in duck caeca [Immunolbiological studies]. 117841
Sone anatomical observations on the topography and macroscopic distribution of the *lymph* **vessels** and nodes on the stomach of buffalo, Bos bubulis L., of Egypt. 117764

LYMPHOCYTES
Plasma-membrane components can be removed from isolated [pig] *lymphocytes* by the **bile** salts glycocholate and taurocholate without cell lysis. 117583
Isolation of nuclei from the *lymphocytes* of **cattle** lymph. 117935
The radiosensitivities of *lymphocytes* from **pig,** sheep, goat and cow. 117864
Actin [purified from pig muscle] associated with **purified** *lymphocyte* plasma membrane. 117677
Comparative study "in vitro" between rabies and rabies related viruses by the **sensitized** *lymphocytes* technique. 118613

LYMPHOID
Cytoarchitectonics of *lymphoid* **organs** in chicks in relation to the invasion by Eimeria tenella and immunogenesis. 118926

LYMPHOPROLIFERATIVE
Some incidents of *lymphoproliferative* **disease** in the Muscovy duck (Cairina moschata). 119074

LYMPHOSARCOMA
Intraocular *lymphosarcoma:* two cases in Siamese cats. 119111

LYONETIIDAE
Influence of several biotic factors on reproduction of *Bucculatrix* **thurberiella** [Cotton pests]. 123281

LYOPHILIZATION
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: spin transfer in **gamma-irradiated** *lyophilized* DNA-quinacrine complexes. 117895

LYSANDRA
Biology of *Lysandra* **coridon** manleyi de Lesse (Lepidoptera, Lycaenidae). 123894

LYSIMACHIA
Evaporation rate, leaf water potential and stomatal conductance in Lolium, Trifolium [clover] and *Lysimachia* in **drying** soil. 121518

LYSIMETRY
Nitrous oxide concentration in *lysimeters* and the **effect** of soil suction. 124875
Lysimeter **studies** on the effects of short-term waterlogging on crop growth [Drainage]. 125181
A *lysimeter* **study** of the fate of fertilizer nitrogen on grassland. 124953

LYSINE
Lysine and arginine requirement of Ustilago cynodontis [Fungi] 4001 yeast-like cells. I. Growth in the presence and in the **absence** of *lysine.* 120889
Assessment of two chemical assays for **available** *lysine* [Rats, diets, dairy products]. 116485
A comparison of chemical methods for the determination of **available** *lysine* in various proteins. 116763
Changes in subfraction composition of **chicken** *lysine-rich* histone during ontogenesis. 117605
Interaction of **epsilon-dinitrophenyl** *(DNP)-L-lysine* with bovine colostral anti-DNP immunoglobulin G1 (IgG1): concentration independence [Pregnant cows]. 117550
Substitution of lysine supplemented high protein wheat in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of **graded** *lysine* supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. **Graded** *lysine* supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Growth and carcass measurements of pigs fed common or **high** *lysine* maize grown on the same farm. 118130
Breeding of **high** *lysine* maize. 120805
Effects of dietary protein and *lysine* **levels** on plasma amino acids, nitrogen retention and egg production in laying hens. 118103
Disc microbiological method for the determination of *lysine* or **methionine** in protein hydrolysates [Nutritional quality]. 116504
Evolution of *lysine,* **methionine** and cystine in a peanut meal after treatment by ammonia. 117177
Studies on the rate of *lysine* **production** [to fortify foods] by Brevibacterium lactofermentum from glucose. 116780
Lysine **restriction** in the rations of Black Australorp X white Leghorn hens. 117966
Substitution of *lysine* **supplemented** high protein wheat in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of *lysine* **supplemented** high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Adaptive response of *lysine* and **threonine** degrading enzymes in adult rats. 116417

LYSIS
Plasma-membrane components can be removed from isolated [pig] lymphocytes by the bile salts glycocholate and taurocholate without **cell** *lysis.* 117583
Extracellular *lysis* of the bluegreen alga Phormidium luridum by Bdellovibrio bacteriovorus [Biological control agents to regulate algal populations]. 123094

LYSOMES
The developmental patterns of *lysosomal* **enzyme** activities during Ca2+ [calcium ion]-induced sporangium formation in Achyla bisexualis [Fungi]. III. Ribonucleases. 120917
Lysome **enzymes** in starving after a regimen of sngle or all-day feeding **[Rats].** 116486
Effect of mycotoxins on uptake and degradation of [125I]albumin [iodine isotope] in mouse liver and **kidney** *lysosomes.* 119256

LYSOZYMES
Lack of effect of *lysozymes* on **[bovine** nasal] cartilage proteoglycans. 117570
Origin and role of a *lysozyme* **type** of activity in the blood of Locusta migratoria migratorioides (R. & F.). 123779

MACACA *see* MONKEYS

MACARONI
International unit of measure (SI) applied to *macaroni* **dryers.** 117189
Prediction of microbial [Staphylococcus aureus] death during drying of a *macaroni* **product** [Quality]. 116202
Synthetic *macaroni.* II. Study on the biological value of synthetic macaroni. 117156

MACERATION
Evidence for a factor that stimulates **tissue** *maceration* by pectolytic enzymes [Aspergillus japonicus, Fungi]. 121316

MACHILIDAE
Ultrastructural modifications in the vesicular glands of the *Machilidae* **(Insecta,** Thysanura) during the moulting cycles. 124193

MACHINERY
The **agricultural** *machinery* industry. 124667
Novelty in technical provision of reindeer husbandry [Transportation, *machinery* for **establishing** fences, communication facilities]. 124684
Shrinking sections of a US decade **[Farm** *machinery* trade]. 124657
How long should we continue repairing **[farm]** *machinery?* 124702
Rental and custom charges for **farm** *machinery.* 124724
Machinery **groups** [Owning, sharing or contracting forage maize harvesters]. 115429
Fieldwork days in Iowa—estimated number suitable *[Machinery* **management].** 124709
The impact of energy prices on **optimum** *machinery* size and the structure of agriculture: a Georgia example. 115452
Extended uses of the split wheel for measurement of tangential stress **[Tillage** *machinery].* 124736

MACROCHELES
Laboratory studies on the autoecology of three species of the *[Macrocheles]* **glaber** group (Acarina, Mesostigmata). 3. Sex ratio and population dynamic. 124149

MACROCYCLIC
Gnidimacrin and gnidimacrin 20-palmitate, **novel** *macrocyclic* antileukemic diterpenoid esters from Gnidia subcordata. 121155

MACROCYSTIS
Evaluating oceanic farming of seaweeds as sources of organics and energy. Semi-annual progress report December 1, 1974June 30, 1975 *[Macrocystis* **pyrifera,** Algae]. 121312

MACROINVERTEBRATES
Macroinvertebrate **colonization** of Spartina [alterniflora] marshes artificially established on dredge spoil. 120349

MACROLEPIDOPTERA
Data to the Eupithecia fauna of Hungary. VI. Novelties in the *Macrolepidoptera* **fauna.** 124434
Data to the *Macrolepidoptera* **fauna** of the Hansag [Hungary]. 124435
Macrolepidoptera **fauna** of Burgenland [Austria]. 124442

MACROMOLECULES
Macromolecular **complexes** of aminoacyl-tRNA synthetases in Drosophila [melanogaster]. 123982
Macromolecular **components** of genital tract fluids from the sheep. 117834
Glucocorticoid binding in the chicken liver cytosol. Characterization of **five** *macromolecular* binding components. 117594

MACROMYCETES
Catalasic activity of *Macromycetes* **[Fungi].** Preparation of a purified catalase. 120891
Cellulolytic activities of *macromycetes* **[Fungi].** 120892
Proteolytic activity of *Macromycetes* **[Fungi].** 120894

MACROPHAGES
Cellular immunity in Listeria [monocytogenes] sensitized young chickens: assayed by an agarose **drop** *macrophage* migration inhibition test. 118821

MACROPHYTES
Nutrient content of the **aquatic** *macrophytes* Elodea canadensis and Ceratophyllum in the course of the year. 121078
A note on **aquatic** *macrophyte* productivity in Lake Maggiore. 121271
The effects of various components of water pollution on the behaviour of some **aquatic** *macrophytes* of the coastal rivers of Israel [Possible use as toxicity indicator plants]. 125381
Manganese, copper and chromium content in *macrophytes* of **Lake** Endine (northern Italy) [Aquatic plants]. 121272

MACROPTILIUM
Initial and residual responses to superphosphate by a **legume** *(Macroptilium* atropureum) on nigrescent hill soils in South West Viti Levu. 124995

MACROSCOPY
Sone anatomical observations on the topography and *macroscopic* **distribution** of the lymph vessels and nodes on the stomach of buffalo, Bos bubulis L., of Egypt. 117764

MACROTERMES
Anaerobiosis in the queen of *Macrotermes* **bellicosus** Smeathman (Isoptera, Termitidae). 123992

Caste determination in the higher termites: evidence for a royal control on the formation of the sexual caste in *Macrotermes* **bellicosus** Smeathman (Isoptera, Termitidae). 123994

MADEIRA

Amaranthus species of *Madeira* and **Azores.** 119968
Notes on the type-material of some European Elasmus (Hymenoptera: Chalcidoidea) and description of a new species from *Madeira* **[Elasmus** bicolor]. 124258

MADUROMYCOSIS

A rare case of *maduromycosis* **[Monosporium** apiospermum] of the equine uterus. 119044

MAGGOTS

Investigations on the practical application of the sterile insect technique as a method for the control of the **cherry** *maggot* (Rhagoletis cerasi L.) in Austria. 123433

MAGNESIUM

Magnesium, **calcium** and zinc levels of maternal and fetal tisues in magnesium deficient rats. 116434
Variations in concentrations and interrelationships of phytate, phosphorus, *magnesium,* **calcium,** zinc, nd iron in wheat varieties during two years. 117125
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, phosphorus, potassium, *magnesium,* **calcium]** on the growth of pear trees and levels in the leaves, 1958-1975. 121771
Prophylaxis of bovine grass tetany on the basis of final liquor of MgCl2 *[magnesium* **chloride].** 4. The magnesium-substituting effect of MgCl2 final liquor in fertilization of single crops. 119171
Effect of *magnesium* on the **consumption** of nutrients by potatoes on sandy soils of the Bryansk part of Poles'ye. 121587
Magnesium: the **currency** of life [Mineral nutrition]. 116532
Teratogenic effects of *magnesium* **deficiency** in rats. 116439
Magnesium, calcium and zinc levels of maternal and fetal tisues in *magnesium* **deficient** rats. 116434
Prophylaxis of bovine grass tetany on the basis of final liquor of MgCl2 [magnesium chloride]. 4. The *magnesium-substituting* **effect** of MgCl2 final liquor in fertilization of single crops. 119171
Permeability of vitelline membrane for ions of sodium, calcium and *magnesium* **[Egg** membranes]. 117041
Residual effects of various *magnesium* **fertilisers** on grassland. 125038
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 6. Prophylactic adlibitum feeding of *magnesium-enriched* **mineral** fodder. 119177
Cjompartmentalization of *magnesium* and **orthophosphate** ions in cells of Saccharomyces carlsbergensis. 121026
Studies on the incidence, pathogenesis, and prophylaxis of grass tetany of cattle. 9. Further experiments on the use of *magnesium-enriched* **pelleted** coarse feed for. 119180
Studies on the incidence, pathogenesis, and prophylaxis of grass tetany of cattle. 8. *Magnesium-enriched* **pelletized** coarse feed for prophylaxis against grass tetany. 119179
Effect of endogenic factors on the ash content and the content of calcium, *magnesium,* **potassium,** sodium, phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Blood serum levels of calcium, phosphorus and *magnesium* during th **pregnancy** of the female ass, Equus asinus L., 1758 (Perissodactyla, Equidae). 118391
Influx and distribution of calcium, *magnesium* and **radioactive** strontium [90 isotope] in wheat in relation to their content in the soils of the Armenian SSR. 122883
The movements of minerals in the digestive tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, *magnesium,* **sodium,** potassium and chlorine]. 117963
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 7. Use of different *magnesium* **sources** in mineral mixes for cattle on pasture. 119178
Mineral nutrition of cultured chlorophyllous cells of tobacco. IV. Kinetic studies of K [potassium] and Mg *[magnesium]* **uptake** by the cells. 121534
Average content of calcium, copper, iron, *magnesium* and **zinc** in the water used at the Rural Sciences Center of the Federal University of Santa Maria. 125346

MAGNETIC

Reaction of termites [Heterotermes indicola] to weak **alternating** *magnetic* fields. 124104
X-ray diffraction from [spinach] chloroplast membranes oriented in a *magnetic* **field.** 120458
Titration behavior of individual tyrosine residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 **nuclear** *magnetic* resonance spectroscopy. 117798
Lichens and fungi. XIII. Comparison of the **nuclear** *magnetic* resonance and mass spectra of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
A **proton** *magnetic* relaxation study of the interaction of isolated sheep methaemoglobins A, B and C with inositol hexaphosphate. 117748
Weak *magnetic* fields and germination in Triticum [Durum wheat]. 121463

MAGNETISM

Changes in *paramagnetic* **properties** of Chlorella [vulgaris, Algae] under the effect of toxic chemical compounds [Detergents, water pollution tests]. 122924

MAGNOLIACEAE

Magnoliaceae **Hardy** in temperate North America. 120098

MAGNOLIAS

Electron microscopy of silicon deposits in foliar idioblasts of *Magnolia* **grandiflora.** 120543
Some old and new **interspecific** *Magnolia* hybrids. 122190
Propagating *magnolias.* 122241
Collecting cocoons of Callosamia securifera (Saturniidae) [Hostplant sweetbay, *Magnolia* **virginiana].** 124059

MAHONIA

Propagation of *Mahonia* **aquifolium.** 122246
Mahonia **'Golden** Abundance'. 122440

MAIZE

The grain dust problem *[Maize,* **air** pollution]. 125373
High, stable fodder yields of *maize* by **assuring** its water and nutrient requirements. 121923
Notes on this year's weed control in *Maize* **[Austria].** 123108
The synaptonemal complex in the course of meiotic chromosome pairing and recombination [Neurospora rassa, *maize,* **barley].** 120756
Determination of quality in agricultural produce at its reception on **bases** and *corn-bins.* 117166
The potato, *maize* and **bean** association, a form of intensive, economic use of the agricultural resources of miniature holdings [Colombia]. 115344
Experimental results obtained with the herbicide Dual, associated with Gesaprim and Venzar, in controlling weeds in *maize* and **beet** crops. 123173
Allotactic modifications in *maize.* III. Some **biometric** determinations. 121410
New records of spiders as predators of *maize* **borer** [Chilo partellus] and maize jassid [Zyginidia manaliensis]. 123302
Sodium metabisulfite as a preservative for silage produced **brom** *maize* plants. 117388
Energy requirements: freezing vs. **Canning** *[Corn].* 117252
Genetic analysis of some quantitative characters determining the yield **capacity** of *maize.* 120641
Inclusion of carbon 14 [isotope]-leucine into proteins of protein bodies isolated from *maize* **caryopses.** 121560
Hybridization of *maize* **chloroplast** DNA with transfer ribonucleic acids. 121425
Properties of *maize* **chlorotic** dwarf virus and its ribonucleic acid. 122877
Influence of alkali treatments of *corn* **cobs** on in vitro dry matter disappearance and lamb performance. 118092
Herbicidal weed **control** in *maize.* 123081
Insect [Diatraea grandiosella, Southwestern corn borer] and mite [Oligonychus pratensis, Banks grass mite] **control** in *corn.* 123344
Possibilities of increasing the *maize* **crops.** 122070
Performance of *maize* **crosses** between inbred lines developed from a open pollinated Italian variety "Marano" at different plant populations. 122127
Improvement of biochemical features of hybrids by **crossing** *maize* with teosinte [Euchlaena]. 120705
Differing sensitivity of pyruvate orthophosphate dikinase to low temperature in *maize* **cultivars.** 121533
Magnitude and quality of yield of *maize* **cultivated** within crop rotation and in monoculture. 122145
Maize **culture** in Bergeracois. 122109
"Tank mixtures" in weed control in cereal and *maize* **cultures.** 123110
Isozymic composition of aspartate and alanine aminotranspherases from roots of *maize* **cultuvated** at lower temperature. 121447
Marchants have key role in **developing** *maize* crop [Farming system]. 115318
Labeling of Trichogramma pretiosum by rearing on eggs from 32P [phosphorus isotope]-fed adults of Heliothis zea *[corn* **earworm,** biological control]. 123282
A natural mortality table for the *corn* **earworm** [Heliothis zea] on peanuts [Trichogramma and Microplitis for biological control]. 123340
Possibility of biological control of the **European** *corn* borer [Pyrausta nubilalis] with Trichogramma egg parasites. 123324
The question of varied attractiveness of pheromones of **European** *corn* borers [Pyrausta nubilalis] on the males of geographically different populations. 123331
Control of the **European** *corn* borer [Ostrinia nubilalis]. 123333
Influence of artificial conditions of prestockage and drying of *maize-grain* on the **extraction** and some physical-chemical and biochemical characteristics of its starch. 117384
[Insect] infestation problems in **farm-stored** *maize* in Nicaragua. 123577
Mineral composition of liver and kidney of rats **fed** *corn,* sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Corn [as **feed** for livestock and its cultivation]. 121845
A steady-state conceptual nitrogen model for estimating nitrogen emissions from cropped lands [Leaching losses, **fertilizer,** *corn].* 124862
Yield losses in south Georgia **field** *corn* resulting from damage by several insects [Heliothis zea, Sathrobrota rileyi, Sithophilus zeamaize]. 123321
The influence of the level of feeding on fermentation in the rumen of sheep receiving a diet of ground barley, ground hay and **flaked** *maize.* 118086
Nutritive value of broken rice and ground **flint** *corn* for young pigs and rats. 118033
Machinery groups [Owning, sharing or contracting **forage** *maize* harvesters]. 115429
Relationship between plant population and lay to yield of **forage** *corn* and Vigna sinensis [cowpeas] intercropping. 122131
European sugar beet growers express concern over possibility of increased HFCS [high **fructose** *corn* syrup] production]. 117105
The future of maize and the *maize* of the **future** [Acreage, production]. 122073
Formation of alpha- and gamma-ketols from 18O [oxygen isotope]-labelled linoleic acid hydroperoxides by *corn* **germ** hydroperoxide isomerase. 121455
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, *maize* **gluten** and waste liq. 117990
Grain *maize* variety tests in 1975 [Austria]. 122167
Utilizing a high level of *maize* **grains** [Composition, amino acids, proteins]. 117171
Elemental composition of *corn* **grains,** soybean seeds, pasture grasses, and associated soils from selected areas in Missouri. 120392
Peculiarities of protein metabolism in *maize* **green** leaf in relation to heterosis. 120809
Effect of soil tillage on a slope on the yield of the *maize* **green** mass. 122147
Dried orange pulp versus **ground** *corn* ears in concentrated mixed rations for lactating dairy cows. 118159
Labeling of Trichogramma pretiosum by rearing on eggs from 32P [phosphorus isotope]-fed adults of **Heliothis** *zea* [corn earworm, biological control]. 123282
Results of a three-year cotton pest [Anthonomus grandis, **Heliothis** *zea]* management program in the Hill Section of Mississippi. 123287
Cotton insect pest management, 1976 [Heliothis virescens, anthonomus **grandis, Heliothis** *zea].* 123298
A survey of tachinid parasites of **Heliothis** *zea* and Heliothis virescens in North Carolina [Biological control of field crop pests]. 123317
Yield losses in south Georgia field corn resulting from damage by several insects **[Heliothis** *zea,* Sathrobrota rileyi, Sithophilus zeamaize]. 123321
A natural mortality table for the corn earworm **[Heliothis** *zea]* on peanuts [Trichogramma and Microplitis for biological control]. 123340
The tomato fruitworm **[Heliothis** *zea]:* how to control it. 123417
Control of armyworms [Spodoptera] and earworms **[Heliothus** *zea]* on **sweet** corn in Florida with Lorsban 4E and other insecticides. 123392
Populations of bollworms **[Helitohis** *zea]* in cotton under different cropping situations in the Rolling Plains. 123347
Corn **herbicide** evaluations across Iowa in 1975. 123121
New biophysical approach to studying the phenomenon of **heterosis** [in *maize].* 120708
Study of bioelectric potentials in relation to *maize* **heterosis.** 120714
Physiological and biochemical aspects of **heterosis** in *maize.* 121479
Composition of chromatin in cellular nuclei and the modification of histones in *maize* **heterotic** hybrids. 120698
Isoenzymatic spectra of peroxidase and nitratereductase from vegetative organs of *maize* **heterotic** hybrids and their parental forms. 121476
Peculiarities of the response of *maize* **heterotic** plants to ultraviolet radiation. 121477
Effect of feeding hay and silage made from *maize* **hybrid** napier [Pennisetum purpureum] and sorghum on the growth of crossbred calves. 118075
Some problems and possibilities of productivity utilization in **hybrid** *maize,* 1974. 121909
A note on leaf removal in **hybrid** *maize.* 122019
Kentucky **hybrid** *corn* performance test, 1975 [Yields]. 122074
Activity of Hill reaction and the ultrastructure of chloroplasts in *maize* **hybrids** and their initial forms. 121473
Study of physiologic and biophysical features of *maize* **hybrids** and their parental forms. 121482
The role of heterotrophic nutrition and photosynthesis in the heterosis of *maize* **hybrids.** 121483
Physio-ecological studies on prolificacy in *maize* **[hybrids].** I. Differences in dry matter accumulation among one-, two and three-eared plants. 121548
Response of four *corn* **hybrids** to different plant densities and row spacings on Olivier soil. 121892
Effect of plant density, irrigation and fertilization on grain and forage yield of different *corn* **hybrids.** 122117
Testing of *maize* **hybrids** for susceptibility to helminthosporiosis (Helminthosporium turcicum Pass.) in a provocation trial. 122611
Study on the effect of ethyl methanesulphonate and N-nitroso-N-methylurethan after treatment of seeds from *maize* **inbred** lines. 120650
Physiologically active substances of the B complex [vitamins] in the seeds of *maize* **inbred** lines and in initial forms. 120711

Dynamics of the development of hybrid and **inbred** *maize* grains. 120837
The development of corn smut on **inoculated** *maize* plants. 122657
Control of crowfoot [Ranunculus] and annual dicotyledonous weeds in *maize;* **interprovincial** trials, 1973. 123199
Preliminary results of dinoseb as a growth regulator on *corn* in **Iowa.** 121542
New records of spiders as predators of maize borer [Chilo partellus] and *maize* **jassid** [Zyginidia manaliensis]. 123302
New data on the photosynthesis and respiration of green plants under the conditions of flash illumination *[Maize,* **kidney** beans]. 121449
Ultrastructure and mechanics of the conidium-conidiophore attachment of Helminthosporium maydis *[Corn* **leaf** blight]. 122740
Isolation and purification of "malic-enzyme" NADP from *corn* **leaves.** 121427
Peculiarities of growth of *maize* and some **legume** plants [soybeans, chickpeas, kidney beans] in combined cultivation. 121462
Amino acid and fractional composition of protein of the vegetative mass of *maize* at different **levels** of mineral nutrition and water supply. 121575
High, medium and **low** *corn* silage diets with and without monensin for feedlot steers. 118091
Growth and carcass measurements of pigs fed common or high **lysine** *maize* grown on the same farm. 118130
Breeding of high **lysine** *maize.* 120805
Effect of alkali treatment on the formation of **lysinoalanine** in *corn.* 121512
Efficiency of some populations of **maize** *(Zea* mays L.) in grain production [Genetics, hybrids]. 120632
Studies on the breeding method of the synthetic varieties from the inbred lines in **maize** *(Zea* mays L.). 120797
Growth analysis & photosynthetic systems in relation to hybrid vigour in **maize** *Zea* mays L. 121504
The future of *maize* and the **maize** of the future [Acreage, production]. 122073
Corn **malnutrition,** brain serotonin and behavior. 116512
Breeding of early **maturing** *maize* hybrids with improved biochemical properties. 120696
Multiple molecular forms of nicotinamide-adenine-dinucleotide-specific glutamate-dehyrogenase in lines and hybrids of maize *[Zea* **mays** L.). 121448
Maize: *Zea* **mays** (Gramineae-Maydeae). 121951
Membrane polypeptides and chlorophyll-protein complexes of *maize* **mesophyll** chloroplasts. 121440
Pythium [aphanidermatum] stalkrot of *maize*—**mode** of entry of pathogen. 122781
Propionic acid preservation of high **moisture** *corn* and its utilisation in beef cattle feeding [Includes costs]. 118184
Peculiarities of the dynamics of bioelectric parameters of *maize* **mutants** with a high effect of general combining ability in the process of ontogenesis. 120710
Weed control in *corn* across **Nebraska** in 1975. 123164
1975 **no-till** *corn* herbicide results in northeast Iowa. 123171
No-till *corn* and double-cropped wheat and soybeans [Tillage]. 125173
Herbicides for **no-tillage** *corn* in alfalfa sod [Weed control]. 123210
Forms of natural and introduced zinc in soils and its uptake in plants [Contamination with radioactive zinc 65 isotope tested on **oats** and *maize].* 116018
The mechanism of synthesis of storage proteins in **opaque-2** *maize* analogs. 120817
Is carbofuran [pesticide] our answer to Fat John [a grub stage of a tiny beetle Diaecoderus] and other **pests** of *maize?* 123306
A rapid method for measuring net photosynthesis of excised leaves by using air-sealed chambers *[Maize,* **Phalaris** arundinaceae, soybeans]. 121511
Maize and **pheasants** [Injuries]. 123010
Research on the use of dehydrated whole *maize* **plant** in feeding dairy cattle for the purpose of producing Parmigiano-Reggiano cheese. 118168
Harvesting, preparation and feeding of whole cereal and *maize* **plants** [Ruminants]. 121928
Light-induced increase in the activity of *maize* **plastid** DNA-dependent RNA polymerase. 121453
Poly(adenylic acid)-containing RNA from **plastids** of *maize.* 121426
Special works in hybridization **plots** of *maize.* 120794
Harvesting plots of seed production in cereals, leguminous plants and of hybrid **plots** of *maize.* 122068
Relationship of corn rootworm [Diabrotica] tolerance to yield in the BSSS [Iowa Stiff Stalk Synthetic] *maize* **population.** 123311
The susceptibility of different types of *maize* to **post-harvest** infestation by Sitophilus zeamais and Sitotroga cerealella, and the importance of this factor at the small-scale farm level. 123571
Contribution of climatic variables in **predicting** *maize* yield under monsoon conditions. 121394
Influence of roughage level and *corn* **processing** method on the site and extent of digestion by beef steers. 118095
Influence of roughage level and *corn* **processing** method on microbial protein synthesis by beef steers. 118096
Methods of the analysis of the effect of the application of salts in the rectification of **raw** *corn* brandy. 117135
Physiological and biochemical prerequisites of selecting stabilizers of sterility and fertility **restorers** in *maize.* 121480
Golgi apparatus secretion of vacuolar substances in *maize* **root** cells. 120544
Genesis of mitochondria in growing cells of the *maize* **root:** Reorganization of the electrotransporting chain. 121485
In situ estimation of *[maize]* **root** length at natural soil profiles. 121515
Cell production by *[maize]* **root** caps. 121526
Effects of cytochalasin B on the Golgi apparatus of *maize* **root** cells. 121550
K+ [potassium]-stimulated adenosine triphosphatase of *maize* **roots:** partial purificatin and inhibition by Helminthosporium maydis race T toxin. 122708
Relationship of *corn* **rootworm** [Diabrotica] tolerance to yield in the BSSS [Iowa Stiff Stalk Synthetic] maize population. 123311
The use of annual wind barriers *[corn* **rows]** for protecting row-crops. 122100
Identification and phytotoxic activity of compounds produced during decomposition of *corn* and **rye** residues in soil. 122973
Possibilities of inducing economically useful mutations in *maize* by **seed** treatment with ethyl methanesulphonate and N-nitroso-N-methylurethan. 120647
Processing of *maize* **seeds** by insecticides in order to prevent and to limit the damages produced by some pests. 123258
Effect of inbreeding on the activity of peroxidase in *maize* **self-pollinated** lines. 120701
Influence of roughage level on the site and extent of digestion of whole **shelled** *corn* by beef steers. 118094
Effect of ammonium polyphosphate on *maize* on **Sierozem** in relation to the provision rate with zinc. 121399
Nitrogen additives to *corn* **silage** fed to growing calves. 118031
Alternation of ploughing and disk-tillage in cultivation of *maize* on **slopes.** 125139
The development of *corn* **smut** on inoculated maize plants. 122657
Situation of *maize* and **sorghum** on the international and national market [Colombia]. 115566
Disposal of beef feedlot manure *[Maize,* **sorghum].** 125057
Southern *corn* leaf blight [Helminthosporium maydis]: ultrastructure of host-pathogen association. 122718
Cultural control and biological studies of the **Southwestern** *corn* borer [Diatraea grandiosella]. 123341
Insect [Diatraea grandiosella, **Southwestern** *corn* borer] and mite [Oligonychus pratensis, Banks grass mite] control in corn. 123344
Herbicides for row crops *[Maize,* **soybeans,** sorghum]. 123198
Criteria to determine the growth and development **state** in *maize.* 121551
The use of premerge [herbicides] at low rates as a yield stimulant in *corn*—a **status** report. 123158
Best decision: resistant varieties for control of *maize* **stem** rot [caused by Fusarium]. 122690
Developments in *maize* **stem-borer** [Busseola fusca] control in East Africa, including the use of insecticide granules. 123275
Studies on the digesta distribution in the GIT [gastrointestinal tract] of pigs fed high-test molasses or *maize.* 1. **Stomach** phase. 117641
Electron microprobe analysis of particles in the insect vector of *maize* **streak** [Cicadulina mbila]. 123334
Assets engaged and rentability in the development of wheat, *corn* and **sugar-beet** production. 115499
Proposal of organization of feed production for hot-air drying in the *maize* and **sugarbeet** production areas. 117364
Use of the match for wireworm control *[Maize* and **sugarbeet** pests]. 123332
Content of B complex vitamins in the parental forms of the seeds of *maize* and **sunflower** and in hybrids in relation to the combining ability of lines. 120699
Sweet *corn* production in Manitoba. 122450
Effects of selected herbicides on yield, weed control and nutrient content of **sweet** *corn.* 123126
Control of armyworms [Spodoptera] and earworms [Heliothus zea] on **sweet** *corn* in Florida with Lorsban 4E and other insecticides. 123392
Approach to computer interfacing with *corn* **syrup** refining processing. 117115
Soilless potting media for controlled-environment facilities [Growth of **tomato** and *maize].* 121291
Competition at the plot border among *maize,* **tomato,** pepper and Gladiolus L. 122115
Spectroflurometric determination of zearalenone (F2) **toxin** in *maize.* 116080
Studies of dotted, a regulatory element in *maize.* III. **Transpositions** of dotted and its stability at various locations [Genetics]. 120843
Storage of *maize* in an **underground** pit lined with polyethylene. 117075
Preharvest development of aflatoxin B1 [a toxic, secondary metabolite produced by the fungus Aspergillus flavus] in *corn* in the **United** States. 122734
The integrated control of pests in *corn* in the **U.S.S.R.** 123328
Industrial **utilization** of *corn.* 117103
Physiological characteristic of drought and heat resistance in *maize* **[Varieties,** breeding]. 121572
Electrophoretic separation of dsRNA genome segments from *maize* **wallaby** ear virus and its relationship to other phytoreoviruses. 122876
Stem-borer [Sesamia botanephaga] ecology and strategy for control [Stemborer of *maize* in **West** African areas]. 123276
Aspects of fertilization of land on slopes cultivated with **wheat** and *maize.* 125054
Leaf area and photosynthetic active radiation as related to *corn* **yield.** 121557
The effect of plant population and nitrogen on *corn* **yield** in a well-watered field. 122136
Corn **yield** response to limited irrigations, High Plains of Texas. 125341
Efficiency of some populations of *maize* **(Zea** mays L.) in grain production [Genetics, hybrids]. 120632
Studies on the breeding method of the synthetic varieties from the inbred lines in *maize* **(Zea** mays L.). 120797
Multiple molecular forms of nicotinamide-adenine-dinucleotide-specific glutamate-dehyrogenase in lines and hybrids of *maize* **[Zea** mays L.). 121448
Growth analysis & photosynthetic systems in relation to hybrid vigour in *maize* **Zea** mays L. 121504
Maize: **Zea** mays (Gramineae-Maydeae). 121951

MALABSORPTION

Intestinal *malabsorption* of iron [Nutritional disease]. 116518

MALACHIIDAE

61. Contribution to the study of Paleartic Cantharidae and *Malachiidae* **[New** taxa]. 124352

MALACOSOMA

Serologic characterization and identification of four lepidopteran cell lines [Choristoneura fumiferana, *Malacosoma* **disstria].** 123863

MALARIA

Studies on the pellicular complex of the exocrythrocytic merozoites of the **avian** *malarial* parasite (Plasmodium lophurae) [Derived from turkey brains]. 118890
Malaria: **successful** immunization against the sexual stages of Plasmodium gallinaceum [Aedes aegypti as vectors]. 123665
The development of anophelism in south Moravia [Anopheles as pests of animals, *malaria* **vectors].** 123617

MALATE

Malate **dehydrogenase** and glucose-6-phosphate dehydrogenase activitiy in livers of Ni[nickel]-deficient rats. 118019
Cytological and biochemical studies on *malate* **dehydrogenase** in growing hyphae of Aspergillus oryzae [Fungi]. 121185
Malate **dehydrogenase** in the fusarial wilt disease of peas [fusarium oxysporum]. 122709
Histochemical studies on pigeon definitive feathers during post-hatching, induced and regenerative modes of development. IV. Succinate and *malate* **dehydrogenases.** 117874
Effect of lower temperature on *malate* and **glutamate** dehydrogenase of chloroplasts in winter wheat. 121445
Biochemical characterization of allelic forms of **soluble** *malate* dehydrogenase of Drosophila melanogaster. 123975

MALATHION

Investigation on the effectiveness of bromophos (Nexton) preparations on some stored product insects **compared** with *malathion.* 123508
Resistance to *malathion* and **dichlorvos** in stored-product insects in New South Wales. 123554
Laboratory evaluation of *malathion* used as a **protectant** for the prevention of damage by pulse beetles to stored gram [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as test insects]. 123291
Pesticide residues of potential protectants of grain [Acetellic, **Reldan,** *malathion].* 123715
The behaviour of insects in the presence of insecticides: the effect of fenitrothion and *malathion* on **resistant** and susceptible strains of Tribolium castaneum Herbst. 123561

MALE

The **adult** *male* of Aclerda tillandsiae: morphology and systematic significance. 124218
To mark the *male* **[Anthonomus** grandis, cotton]. 123273
Behavioral responses of *male* **Argyrotaenia** velutinana (Lepidoptera: Tortricidae) to components of its sex pheromone. 124023
The biosynthesis of phenethyl alcohol in the *male* **bertha** armyworm Mamestra configurata. 123989
Effect of *male* **bud** removal on fruit growing of the Cavendish bananas. 122393
Field experiments on the competitiveness of *males* **carrying** genetic control systems for Aedes aegypti. 123887
Fugitive color in the *males* of **certain** Pieridae. 124318
Description of the *male* of **Criorrhina** soror Paramonov (Diptera: Syrphidae). 124231
Histological observations on the thyroid gonad relationship in *male* **crossbred** (New Hampshire x White Cornish) chicken. 117742
Plasma LH [luteinizing hormone] response to LH-RH [luteinizing hormone-releasing hormone] injection in immature intact, castrated and **cyproterone-treated** *male* **rats.** 118356
Cytoplasmic *male* sterility in interspecific rye hybrids. 120660

The use of chemicals and **cytoplasmic** *male* sterility for pollen development control in rye. 120686
Phosphorus and nucleic metabolism in wheat with **cytoplasmic** *male* sterility. 121478
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 2. description of the females of Lutzomyia campbelli and Lutzomyia sherlocki, and redescription of the *male* and **description** of the female of lutzomyia octavioi. 124420
Histone transition during spermiogenesis is absent in segregation **distorter** *males* of Drosophila melanogaster. 124159
Effect of diethylcarbamazine on indexes of fertility in the *male* **dog.** 118199
Serological studies of *male* and **female** strains of Eudorina elegans (Chlorophyceae) [Algae]. 121215
Microsporogenesis and anther development in male-sterile and *male-fertile* **forms** of rye. 120670
Study of the *male* **genitalia** of Euchloe insularis Staudinger species bona. 124302
The question of varied attractiveness of pheromones of European corn borers [Pyrausta nubilalis] on the *males* of **geographically** different populations. 123331
Imaginal differentiation of the tegument in the migratory locust, Schistocerca gregaria Forsk. II. Development during imaginal molt and its determination in **gregarian** *males.* 123811
Male **inseminative** potential in Aphytis lingnanensis (Hymenoptera: Aphelinidae) [Biological control agents of the armored scale insects Diaspididae]. 123230
Isolation of a lactone, structurally related to the esterifying acids of pyrrolizidine alkaloids, from the costal fringes of *male* **Ithomiinae.** 124026
Microsporogenesis and anther development in *male-sterile* and **male-fertile** forms of rye. 120670
Genetic analysis of the increased heterotic ability of **parthenogenetic** *males* of silkworm [Bombyx mori], homozygous at all loci. 124507
Discovery of the *male* of **Psoculus** neglectus (Roesler) in tunisia (Psocoptera, Mesopsocidae). 124339
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 3. description of the *male* and **redescription** of the female of Lutzomyia (Psychodopygus) amazonensis (Root, 1934), and list of species collected [Leishmaniasis transmission]. 124421
Quantitative analysis of *male* **responses** released by female sex pheromone in Periplaneta americana. 123791
Male **specific** natural products in the bug, Leptoglossus phyllopus: chemistry and possible function. 124046
Male **sterility** caused by cooling treatment at the young microspore stage in rice plants. XII. Classification of tapetal hypertrophy on the basis of ultrastructure. 120531
Male **sterility** caused by cooling treatment at the young microspore stage in rice plants. XIII. Ultrastructure of tapetal hypertrophy without primary wall. 120532
Male **sterility** caused by cooling treatment at the young microspore stage in rice plants. XIV. Floating tapetal materials in the locular cavity. 120533
Research on *male* **sterility** in rye. 120675
Peculiarities of *male* **sterility** in perennial grasses during its induction by chemical mutagens. 120709
Quality control assessments of *male* **sterility** during the 1972 and 1973 pilot boll weevil [Anthonomus grandis] eradication experiment [Cotton]. 123355
Insect fauna of *male* **Typha** angustofolia flowers [Coleoptera, Diptera]. 124179

MALEIC

Absorption and movement of 14C [carbon isotopes]-labelled mH *[maleic* **hydrazide]** and 2,4-D [2,4-dichlorophenoxyacetic acid] in onions. 121694

MALIC

Heat resistance of ascospores of the genus Byssochlamys [Fungi]. Dependence of saccharose and *malic* **acid** in apple juice. 116023
Isolation and purification of *"malic-enzyme"* **NADP** from corn leaves. 121427

MALIGNANCY

The risk to humans from *malignant* **diseases** of their pets: an unsettled issue [Zoonotic aspects]. 118779

MALLOPHAGA

The species of *Mallophaga* in **wild** birds in Iran. 123610

MALNUTRITION

Serum vitamin B12 levels in *protein-malnourished* **children.** 116498
Corn *malnutrition,* brain serotonin and behavior. 116512
Effect of *malnutrition* on **cortisol-binding** protein in the lens of cynomolgus monkeys. 116453
Maternal leukocyte enzymes in human **fetal** *malnutrition.* 116519
Fecal steroids in diarrhea. I. Acute shigellosis [Shigella **flexneri,** *malnutrition].* 116280
Insulin and glucose intolerance in malnourished rats *[Malnutrition,* **potassium** deficiency]. 116517
Incidence of *malnutrition* among **selected** preschool children. 116393
Effects of early **severe** *malnutrition* on heart and skeletal muscle lactate dehydrogenase [Rats]. 116429
Malnutrition and the **undernourished** curiosity. 116347

MALPIGHIAN

Morphological and histochemical data on the **imaginal** *Malpighian* tubules of Pieris brassicae (L.) (Lepidoptera). 123812
The development of **larval** *Malpighian* tubules in Corcyra cephalonica Staint. (Lepidoptera: Pyralididae). 124186

MALT

Regression analysis of brewing data. Methods of assessment of relationships between two properties correlating with another, for example, the relationship between extract and nitrogen in *malting* **barley.** 117082
Have 70 years of *malting* **barley** breeding and cultivation promotion produced success or failure for barley quality? tria]. 120779
The "yield increase" of *malting* **barleys** and other replies ng from around an emission source. 122043
Saccharifying agents for distilleries: green malt, **cured** *malt* and commercial enzymes. 116797
Malts from the **Czech** 1975/76 barley. 117077
Determining *malt* quality by means of a dynamic model. 116216
The storage, handling and **distribution** of *malt.* 116690
Results of the comparison of domestic [Hungarian] and **foreign** *malting* barley varieties. 122546
Influence of different thickness of **green** *malt* layers in kiln drying on the process method, malt quality, and efficiency of the kiln drier. II. 116787
Saccharifying agents for distilleries: **green** *malt,* cured malt and commercial enzymes. 116797
Quality of grain and *malt* from the **main** and lateral stems as well as from different parts of the barley spike. 121566
Effect of *malt* **quality** on polymerisation index, colloidal and flavor stabilities of beer. 116674
Influence of different thickness of green malt layers in kiln drying on the process method, *malt* **quality,** and efficiency of the kiln drier. II. 116787
Polyphenol content and polymerisation index of barleys and **small-scale** *malts.* 117081
The development of amylase and maltase during the *malting* of **sorghum** vulgare [Beer manufacture]. 117065
Variation of nitrogenous fractions and of proteolytic enzymes in green, dried, cured and **stored** *malts.* 116687
Quality of *malt* from some **two-rowed** varieties of barley. 117179

MALTASE

The development of amylase and *maltase* during the **malting** of sorghum vulgare [Beer manufacture]. 117065

MALUS

Apple and pear: *Malus* and **Pyrus** spp. (Rosaceae). 122344

MALVACEAE

Okra: Abelmoschus **esculentus** *(Malvaceae).* 122368
Cotton: **Gossypium** *(Malvaceae).* 121943

MAMMALIA

Structural origins of *mammalian* **albumin** [Bovine serum]. 117684
Presence of a **buried** *mammalian* carcass indicated by fungal fruiting bodies [Hebeloma vinosophyllum]. 120383
Mammalian **carbonic** anhydrase isozymes: evidence for a third locus [Sheep, mice, rabbits, chickens]. 117810
Comparison of the cytoarchitectonic structure of the subthalamic nucleus in **certain** *mammals* [Includes livestock and laboratory animals]. 117690
Congenital defective **coagulation** in *mammals.* 119159
Cellulose acetate electrophoresis of soluble lens proteins of different species of *mammals;* the use of **discontinuous** buffer systems [Rats, mice, cattle, sheep]. 117633
Resource tracking patterns in bird and *mammal* **ectoparasites** [Insect pests]. 123646
Glucose metabolism of *mammalian* **erythrocytes** [Dogs, cats, horses]. 117803
Relation of mosquito density to bird: *mammal* **feeding** ratios of Culex tarsalis in stable traps. 123596
Relative susceptibility of *mammals* to **infection** with Schistosoma incognitum. 118737
Pheromones of *mammals:* an **investigation** of volatile acids in vaginal excretions of minks, Mustela vison Briss. 118255
Storage of *mammalian* **oocytes** and embryos: a review. 118245
The skin surface: an environment of Dermatophilus congolensis [Fungal **pathogen** of *mammals].* 118716
Comparative aspects of the accessory sex glands and seminal biochemistry of *mammals* **[Primates].** 118249
Phenylalanine ammonia-lyase. Induction and purification from yeast [Rhodotorula glutinis] and clearance in *mammals* **[Rabbits].** 121168
Nutritional contributions of oceans excluding vertebrates (fish, **reptiles,** *mammals).* 116691
Further characterization of IgA [immunoglobulin A] in chicken serum and secretions with evidence of a possible analogue of *mammalian* **secretory** component. 118696
Arylesterases from various *mammalian* **sera** in relation to cholinesterases, carboxylesterases and their activity towards some pesticides. 123695
Fleas (Siphonaptera, Insecta) caught on **small** *mammals* [rats, mice] at seven locations in eastern Denmark. 123627
A comparative study of the beta-crystallins of four *sub-mammalian* **species** [Includes poultry]. 117631
A comparative study of porphyrin synthesis by whole blood and haemolysates from different *mammalian* **species** [Livestock, laboratory animals]. 117632
Viruses other than arenaviruses from West African **wild** *mammals:* factors affecting transmission to man and domestic animals. 118673

MAMMARY

Innervation of **bovine** *mammary* gland with particular reference to afferent (sensitive) teat innervation. 117854
Neutrophil leukocytes and inflammation of the **bovine** *mammary* gland. 118963
Ultrastructural and ultrahistochemical examinations of the **canine** *mammary* gland. I. Ultrastructural examinations. 117557
Intracisternal virus-like particles in two guinea **pig** *mammary* adenocarcinomas. 118817
Utilization of volatile fatty acids in ruminants. 8. Acetate activation in *mammary* **tissue** [cows]. 117752

MAN

Hygiene for *man* and **animal** and nutritional hygiene. 116117
Control system for hunger and its implications in **animal** and *man.* 116356
Metabolites of vitamin D and their biological function [in **animals** and *man].* 116527
Depletion of complement in vivo and in vitro by extracts of Aspergillus fumigatus [Fungi, aspergillosis, *man,* **animals].** 118767
Rabies vaccines for **animals** and *man.* 119010
Nematodes of the Filariata suborder in animals and *man* and **diseases** caused by them. Part 3: Filariidae, Onchocercinae. 118872
Histochemical studies of the cardiac lipofuscin in the heart of *men* and **dogs** related to age. 117904
Viruses other than arenaviruses from West African wild mammals: factors affecting transmission to *man* and **domestic** animals. 118673
The **earthworm**—*man's* best friend [How to raise them for soil improvement]. 124860
Plasma cholesteol and tirgycerides in *men* with added **eggs** in the diet. 116508
Nitrogen retention in *men* **fed** isolated soybean protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or inorganic sulfate. 116435
Morphological studies of hookworms **infecting** *man* and dog at Patna, Bihar [Ancylostoma duodenale, Ancylostoma caninum]. 118747
Epidemic abortion in the dog (Beagle) and the possibility of **infection** for *man.* 118854
Scanning electron microscopy of elliptocytes in *man* and **llama.** 117885
Demodex folliculorum, the follicle **mite** of *man.* 123644
Cholesterol among children of *men* with **myocardial** infarction. 116525
Realized and potential neutralization of mutant genes in *man* by **nutritional** selection. 116327
Behavioral effects of organophosphate **pesticides** in *man.* 123693
A **plain** *man's* guide to energy [Swine, nutrition]. 118132
Man in the **productive** system—the administrator [Forest management]. 119445
Serum gastrin concentration after sham feeding and feeding under the influence of **propranolol** in *man.* 116315
Introducing students to plants through their **relations** with *man.* 119913
The pigeon—friend of *man* in **war** and peace. 117491
Obesity in **young** *men* after famine exposure in utero and early infancy. 116491

MANDARINS

Contribution to the investigation of citrus sampling. II. Problem of the stratification of a *mandarin* **orange.** 122301
Mineral nutrients as thinning agents in **'Wilking'** *mandarin* trees [Citrus reticulata]. 121674

MANDIBLES

A method for reduction and fixation of symphyseal fractures of the *mandible* **[Dogs,** cats]. 119250
Concerning an observation of the *cranio-mandibular* **osteopathy** of dogs. 118538
Transformation of Meckel's cartilage and ossification of the *mandible* in **ovis** and capra [Sheep and goats]. 117695

MANDUCA

Purification and characterization of the carrier protein for juvenile hormone from the hemolymph of the tobacco **hornworm** *Manduca* sexta Johannson (Lepidoptera: Sphingidae). 124018
Acetylcholine and its metabolic enzymes in developing antennae of the moth, *Manduca* **sexta.** 123873
Differentiation of insect sensory neurons in the absence of their normal synaptic targets *[Manduca* **sexta].** 123875

Activity patterns, body temperature and thermal ecology in two desert caterpillars (Lepidoptera: Sphingidae) [Hyles lineata, *Manduca* **sexta**]. 123882
Competitive binding protein assay for juvenile hormone *[Manduca* **sexta**]. 123934
Enzymatic synthesis of juvenile hormone in *Manduca* **sexta**. 123939
Interaction of juvenile hormone with binding proteins in insect hemolymph *[Manduca* **sexta**, Hyloicus chersis]. 123942
Juvenile hormone control of epidermal commitment in vivo and in vitro *[Manduca* **sexta**]. 123945
The binding protein as a modulator of juvenile hormone stability and uptake *[Manduca* **sexta**]. 123954
Spectral characterization of microrome P-450 from the midgut of the tobacco hornworm, *Manduca* **sexta** J. 123988
Insect growth regulators. Analogues of TH-6038 and TH-6040 [Aedes aegypti, Tribolium confusum, Musca domestica, *Manduca* **sexta**]. 124011
The carotenoids of a black variety of the larva of the moth, *Manduca* **sexta** [Tobacco pests]. 124051

MANGANESE

Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and *manganese* in the **bristles** of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Manganese, **copper** and chromium content in macrophytes of Lake Endine (northern Italy) [Aquatic plants]. 121272
Manganese **metabolism** in cows and goats. 117596
Effects of chromium, *manganese,* **nickel,** lead, copper and zinc on the nitrification process of soil. 124751
Possibilities for prophylaxis of perosis in poultry. 2. Testing of a preparation with *manganese* and **selenium,** supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a broiler unit. 119170
Heavy metal toxicity in vegetable crops. V. The effect of iron concentration in the nutrient solution on *manganese* **toxicity** in vegetable crops [Chlorosis]. 122980
Role of copper, *manganese* & **zinc** in poultry [feeding]. 118142
Effects of nonfumigant nematicides on root populations and *manganese* and **zinc** levels in rough lemon seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016

MANGE

Demodectic *mange* in the eyelid of domestic ruminants in Iran [Demodex]. 123607
Further studies on the therapeutic and immunologic aspects of generalized **demodectic** *mange* in the dog [Demodex canis]. 123638
Treatment of *mange* in **pashmina** bearingk goats: a note [Sarcoptes]. 123635

MANGIFERA

Mango: *Mangifera* **indica** (Anacardiaceae). 122366

MANGOES

The post-harvest handling of subtropical fruit [Bananas, *mangos,* **avocados,** litchi fruit]. 117232
Studies on the determination of maturity of Irwin and **Keitt** *mango* varieties. 121725
Mango: **Mangifera** indica (Anacardiaceae). 122366
Mango **peel** waste as a source of pectin [Physico-chemical properties]. 117236

MANGROVES

Preliminary study of the *mangrove* **areas** in Ceara State, Brazil. I. Main areas of its occurrence in the coastal belt from a longitude of 38 degrees, 36 minutes west to 41. 120232

MANIHOT

Cyanide-insensitive respiration in root tubers of **cassava** *(Manihot* esculenta Crantz.). 121761
Dieback of **cassava** *(Manihot* esculenta Crantz = Manihot utilissima Pohl)—a new disease caused by Colletotrichum gloeosporioides Penz. 122780
Cassava: *Manihot* **esculenta** (Euphorbiaceae). 122351
Dieback of cassava (Manihot esculenta Crantz = *Manihot* **utilissima** Pohl)—a new disease caused by Colletotrichum gloeosporioides Penz. 122780

MANNANS

Localization of *mannan* at the **surface** of yeast protoplasts by scanning electron microscopy [Saccharomyces cerevisiae, candida utilis]. 120912

MANNITOL

Effect of salinity on photosynthesis and *mannitol* **synthesis** in the green flagellate Platymonas suecica [Algae]. 120980

MANNOSES

Cell surface mannosyl transferase activity in the liver of embryonic chick: a *mannose* **containing** glycolipid as intermediate in glycoprotein synthesis. 117850

MANPOWER

Montana **agricultural** *manpower* project: agribusinesses and producers surveyed. 115432
A simulation model for predicting and **analyzing** *manpower* requirements [in rural communities]. 115448
An analysis of *manpower* in **logging** operations in he Maluku Province. 119752
Effective utilization of *manpower* in **specialized** [farm] enterprises. 115354

MANUAL

The integration of *manual* and **automatic** image analysis techniques with supporting ground data in a multistage sampling framework for timber resource inventories: three examples [Remote sensing]. 119499
An objective look at *manual* **bone** trimming and at soft and hard separated meat from poultry and large animals. 117046
Interconversion of cholinesterase enzyme activity units by the *manual* **Delta** pH [hydrogen-ion concentration] method and a recommended automated method [Organophosphorus and carbamate pesticide intoxication]. 123694
The vineyard of tomorrow. Influence of mechanization of grape harvests. IV. Some elements of comparison between mechanized and *manual* **grape** harvests. 124722
Review of control of water pollution from cropland. I. A *manual* for **guideline** development. 125408
Investigation of the way generally used in the *manual* **harvesting** of strawberries [Labor productive capacity]. 115464
From agronomic data to farmer recommendations; an economics **training** *manual.* 115399

MANUFACTURE

Trials in the *manufacture* of **Asiago** cheese and pressed Asiago by using the microbial coagulant "Rennilase" derived from the [fungus] Mucor miehei. 116896
Beta-glucanes and their effect on mashing **[Beer** *manufacture].* 116671
The development of amylase and maltase during the malting of sorghum vulgare **[Beer** *manufacture].* 117065
Instructions for *manufacturing* **butter;** a retrospective view. 116899
Application of lactodynamographs to cheese manufacture. Completion of the process management plans for the *manufacture* of **Camembert** and Edamer. 116859
Current questions on **cellulose** *manufacture;* mechanical pulp-refiner mechanical pulp. 119771
Application of lactodynamographs to **cheese** *manufacture.* Completion of the process management plans for the manufacture of Camembert and Edamer. 116859
Can the *manufacture* of **cheese** forgo nitrate? 116860
Soft **cheese** *manufacture* from ultrafiltration concentrate. 116869
A laboratory batch fermenter with differential electrode pH [hydrogen-ion concentration] control **[Cheese** *manufacture].* 116903
Importance of fixing a changed extraction limit for *manufacturing* **coffee** extract. 116708
Manufacture, **composition** and properties of Gouda cheese with reduced sodium content. 116919
Manufacture and **composition** of meat and meat products typical of Baden-Wurttemberg. 3. Kalbslyoner. 116982
Handling of flour made from durum wheat for the *manufacture* of **crackers.** 117102
The farm [wine] cellar *[Manufacturing* **equipment**]. 117258
[Poultry] **equipment** *manufacturers'* role. 124710
Economic assessment of proposed toxic pollutant standards for *manufacturers* and **formulators** of aldrin/dieldrin, DDT, endrin and toxaphene. 123743
Manufacturing **frankfurter-type** sausages in peelable casings. 116983
Practical report on the *manufacture* of **Gouda** cheese according to time plan. 116866
Raw sausage for spreading-recipes, technology and experience **[Ingredients** and *manufacture].* 116952
Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; *manufacture* of **low-fat** cooked sausages; small sausages fresh from smoke. 116958
The *manufacture* of **meat** pastry, rolled meat and galantines. 116962
Contribution to the problem of whey evaluation. *Manufacture* of **model** cheeses with the addition of whey proteins. 116923
The cooperation of milling and the bakery industry in the *manufacture* of **optimum** flour qualities. 117147
Findings with the flow potential method in retention and moistureproof problems **[Paper** *manufacture].* 119777
Zeta potential measurements during **paper** *manufacture.* 119792
Contribution to the investigation into the migration into liquid foodstuffs of auxiliary substances used in **plastics** *manufacturing* and processing. II. Migration of auxiliary substances of polyvinyl chloride into drinking water. 116073
Traditional lactalbumin, *manufacture,* **properties** and uses [whey utilization]. 116912
The **rational** *manufacture* of raw hams. 2. 116963
Use of artificial skins for the **rational** *manufacture* of scalded sausages. 2. 116964
Rational *manufacture* liver sausage and frankfurter sausage types in lacquer-sealed fibre casings. 116994
Manufacture of **rennet** casein using rennet substitutes. 116909
Standardization, a slogan or a cogent necessity [for **sausage** *manufacture]?* [Legislation]. 116104
Scalded **sausage** *manufacture* in the meat trade. 6. Scalded sausage with coarse fillers, crackling processing with and without extraneous protein, and frozen meat processing. 116954
Scalded **sausage** *manufacture* in the meat trade. 7. Color formation and preservation, influence of the muscle coloring matter present, and color stabilization by means of blood additives. 116955
Scalded **sausage** *manufacture* in the meat trade. 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Scalded **sausage** *manufacture* in the meat trade. 10. Effect of exposure to light; cutting, filling, hot smoking and scalding. 116957
Scalded **sausage** *manufacture* in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; small sausages fresh from smoke. 116958
Scalded **sausage** *manufacture* in the meat trade. 12. Smoking of small sausages. 116959
Spices and supplements for scalded **sausage** *manufacture.* 2. 116961
Use of smoke and heat during scalded **sausage** *manufacture* with regard to technologies sparing the environment [Air pollution]. 116965
Manufacture of **scalded** sausage in the meat trade. 5. Use of foreign proteins and preparation of fat emulsions. 116948
Manufacture of **syrups** and soft drinks. 116654
Utilization of complex forming substances in **wine** *manufacture.* 117223
Degradation of sorbic acid by bacteria **[Wine** *manufacture].* 117227
Some aspects of the intervention of enzymes in **wine** *manufacture.* Case of pectolytic enzymes and invertase. 117229
Economical comparison of the continuous and up to date, traditional **wort** *manufacture.* 2. 116829

MANURE

Relationships between the method of *manuring* and **animal** behavior on pastures [Dactylis glomerata]. 3. Effects of lime manuring on pastures and the grazing behavior of young bullocks. 122102
Utilization of **animal** *manures* and sewage sludges in food and fiber production. 124973
Nutritional evaluation of dehydrated **cattle** *manure* using sheep. 118032
Effects of nematodes on the physiology of vegetable crops. V. Influence of **farmyard** *manure* application on the root-knot nematode [Meloidogyne incognita] injury in some vegetable-crops. 122979
Disposal of beef **feedlot** *manure* [Maize, sorghum]. 125057
Relationships between the method of manuring and animal behavior on pastures [Dactylis glomerata]. 3. Effects of **lime** *manuring* on pastures and the grazing behavior of young bullocks. 122102
Effect of inorganic fertilizers, *manure* and **lime** in long-term application in a crop rotation on the yield of field crops and on soil fertility. 124925
Hydromechanical transport of **liquid** *manure* in pressurized pipelines. 124614
In the transportation of **liquid** *manure* there is still reserve [Equipment]. 124693
Yields of forages, leaching of nitrate and nitrogen balances in an irrigated field treated with dry and **liquid** *manures.* 124881
Effect of increasing **liquid** *manure* fertilization rates on magnitude and quality of black radish yield. 125071
Deoderization of **liquid** *manure* by means of ventilation. 125427
Biological activity of microorganisms decomposing the [plowed under] *green-manure* **lupine.** 124996
Effect of *manure* and **peat** on the balance and transformation of calcium nitrate in soil. 124933
House fly [Musca domestica] larvae as protein source [for feed] from **pig** *manure.* 124150
Use of straw pellets and **poultry** *manure* for feeding cattle [Costs, East Germany]. 115513
What happens to that nitrogen [from fertilizer, crop residues, or *manure]* you **put** in your field? 124966
Symposium on the feeding and *manuring* of **roses.** 125074
How the Dutch are tackling pollution **[Swine,** *manure].* 125541
Effects of plant density and *manuring* upon **tomato** crops for canning in dry conditions. 122464

MAPLES

Resistance of different species of *maple* **[Acer]** to low temperatures in Dnepropetrovsk. 121798
Selected *maples* for shade and ornamental planting. 122189
Sugar *maple* [Acer saccharum]: tree and bole weights, volumes, centers of gravity, and logging residue. 119835
Decay risk for **sugar** *maple* borer [Glycobius speciosus] scars [Acer saccharum]. 123477
The *maple* **sweetener** situation—trends and prospects [U.S. And Canada]. 115768

MAPPING

Diagrammatic **climate** *maps* of the separate continents and the ecological climate classification of the earth; a supplement to vegetation studies. 115203
The mixture problem in **computer** *mapping* of terrain: improved techniques for establishing spectral signatures, atmospheric path radiance, and transmittance [Remote sensing, vegetative cover]. 120368
Distribution *maps* of bryophytes in Britain and Ireland. 120103

Distribution *maps* of bryophytes in Britain and Ireland. 120104
Map **drawing** of weeds in agricultural crops in the districts of Timis and Arad (1973-1975). 123174
Natural sites and industrial crop production [Soil classification and *mapping,* **East** Germany]. 124801
Ecological *map* of Nepal VI. The Biratnagar-Kangchenjunga region 1/250,000 [Vegetation]. 120339
Ecological *map* of the Alps at 1/50,000. Sheets of Cluses and Chamonix [Vegetation]. 120340
Contribution of French Lepidoptera to the *mapping* of **European** invertebrates. IV. Request for information on Satyridae. 124205
Export *map* of cardamom. 115725
Excursions during the meeting of the Regional Station Directors of **Flora** *Mapping* in Wurzburg on July 5-6, 1975. 120030
75 years of **flora** *mapping* in Bavaria. 120035
Mapping **Florida** in an ATV [all-terrain vehicle, soil mapping]. 124909
Method and costs for *mapping* a **forest** stand (experiences from Zug Canton). 119432
A **genetic** *map* for the cowpea strain of TMV [tobacco mosaic virus]. 122871
Computer analysis and *mapping* of **gypsy** moth [Porthetria dispar] defoliation levels in Pennsylvania using LANDSAT-1 digital data [Remote sensing]. 123475
Application of Landsat and Skylab data for land use *mapping* in **Italy** [Remote sensing]. 115244
Regional inventories and *mapping* of **land** resources and enviromental geology using remotely sensed data. 115261
Developmental studies on gynandromorphs of Drosophila melanogaster. IV. Comparison of morphogenetic fate *maps* of **larval** and imaginal structures. 124170
The *mapping* of **marsh** vegetation using aircraft multispectral scanner data [Remote sensing]. 120367
Present and potential land use *mapping* in **Mexico** [Remote sensing]. 115259
Present and potential land use *mapping* in **Mexico** [Remote sensing]. 115260
Floristic development in the **Netherlands** in 1976 *[Mapping].* 120024
The application of electronic data-processing to the *mapping* of **plant** distributions. 120046
Quantitative suspended **sediment** *mapping* using aircraft remotely sensed multispectral data [Water quality and movement]. 125266
Soil *map* of Asau Block, Savai'i, Western Samoa. 124843
Soil *map* of government horticultural research areas, Pukekohe, New Zealand. 124844
Mapping Florida in an ATV [all-terrain vehicle, **soil** *mapping].* 124909
Function and application of the **stand** *map* [Forest, management, Switzerland]. 119431
Photogrammetric **stand** *mapping* with automated drawing and surface computation [Switzerland]. 119433
Study of flood plains of Ob' and Irtysh rivers in relation to a planned redistribution of runoff in the middle area (1972-1973) [Soil **survey** and *mapping].* 124810
The vegetation of the western Julian Prealps; illustrative notes to the forest **vegetation** *maps* of the Chiampon-Cuel di Lanis section. 119430
The forest **vegetation** *map* and its use in the economy [Slovenia]. 119457
Map of the **vegetation** of the moraine amphitheater of Rivoli (Turino) (lower Cottian and Graian Alps). 120341
Utilization of LANDSAT imagery for *mapping* **vegetation** on the millionth scale. 120369
Wildlife management by habitat units—a preliminary plan of action [**Vegetation** *maps,* remote sensing]. 120370
Comparative utility of LANDSAT-1 and Skylab data for coastal **wetland** *mapping* and ecological studies [Remote sensing]. 120365
Mapping of the **wildland** fuel characteristics of the Santa Monica Mountains of Southern California [Forest fire management, remote sensing]. 119350

MARASMIUS

The **genus** *Marasmius* in the northeastern United States and adjacent Canada [Fungi]. 120221

MARCHANTIA

The influence of cytokinin and gibberellin on auxin mobilization: its role in regeneration and apical dominance in *Marchantia* **polymorpha.** 120974
Cytoplasmic cylinders associated with the nucleus and cell wall of *marchantia* **spermatids** [Hepaticae]. 120540

MARCHANTIALES

Remarks on the formation of different layers of the spore wall with the lamellar exine in some *Marchantiales* and **Sphaerocarpales.** 120511

MAREK

Effect of infectious bursal agent on the response of chickens to Newcastle disease and *Marek's* **disease** vaccination. 118627
Marek's **disease** vaccine breaks: differences in viremia of vaccinated chickens between those with and without Marek's disease. 118637
Preliminary report on investigation of *Marek's* **disease** in West Bengal [in different poultry farms]. 118735
Now U.S. Says MD *[Marek's* **disease]** spray must wait [Chicks]. 118885
A study on the effectivity of immunoprophylaxis of *Marek's* **disease** with the deptavac HVT [turkey herpesvirus] vaccine. II. Effectiveness of the deptavac HVT vaccine with broiler parents during the egg-laying period. 118972
Efficacy of the Bulgarian vaccine against *Marek's* **disease** in broilers. 118982
Epizootiology of the acute form of *Marek's* **disease** [in poultry]. 119024

MARES *see* HORSES

MARGARINE

Rheological properties of *margarine* used for **confectionary.** 116819
Women are participating in research at the Institute for Edible **Oil** and *Margarine.* 116792
Butter-margarine **review** [Consumption, Australia]. 115580
Oiling-off properties and microscopic structures of butter, *margarine,* and **soft-type** margarine. 116857

MARGOSA

The structure of a compound isolated from the fruit pulp of **Melia** *azadirachta* Linn. 119847

MARIJUANA

Cannabis sativa L. *(Marijuana).* VII. The **relative** specificity of the Rim test. 121179

MARINE

Ionic relations and the regulation of turgor pressure in the *marine* **alga,** Valonia macrophysa. 121192
New records of *marine* **algae** from the 1974 R/V Dolphin cruise to the Gulf of California [New taxa]. 120261
Relative sexuality in [the *marine* **brown** alga] in Ectocarpus siliculosus. A scientific error. 120582
Arsenic concentrations in some **coexisting** *marine* organisms from Newfoundland and Labrador. 125498
Kinetics of silicic acid uptake and rates of silica dissolution in the *marine* **diatom** Thalassiosira pseudonana [Algae]. 121207
Photosynthetic carboxylating enzymes in [the *marine* **diatom**] Phaeodactylum tricornutum: assay methods and properties. 121267
Continuous culture of *marine* **diatoms** under silicate limitation. II. Effect of light intensity on growth and nutrient uptake of Skeletonema costatum [Algae]. 121203
Relationship between photosynthesis and cell size of *marine* **diatoms** [Algae]. 121214
C15 [carbon isotope]-halogenated compounds from the **Hawaiian** *marine* **alga** Laurencia nidifica. V. The maneonenes. 121372

The *market* for **tropical** hardwoods: the European market. 119701
The *market* for **tropical** hardwoods: the Japanese market. 119702
First measures for the support of the European Economic Community **viticultural** *market.* 115686
Protection of the **viticultural** *market* [by the European Economic Community] in the new 1975-76 campaign. 115688
The soft **wheat** *market.* 115578
The problem of stabilizing world **wheat** *market* by national market and price policy and international agreements. 115764
On a late retraction **[Wine,** *markets].* 115731
The **wine** *market* in Greece. 115732
The **wine** *market* in Greece. 115733
Where is the [French] south going? **[Wine,** *markets].* 115734
Agricultural and marketing policy for adapting production to demand for meat on the **world** *market.* 115762
Instruments of the agricultural and commercial policy for adjustment of production to demand on the **world** *markets* for oilseeds and their processed products. 115763

MARKINGS

A method for *marking* **aquatic** Coleoptera. 124079
A clamp for *marking* **butterflies** in capture-recapture studies. 124057
Marking **feed** sacks—the legal requirements explained [Great Britain]. 115801

MARRIAGE

Farms and forests: a **happy** *marriage?* [Afforestation]. 119569

MARROW

Marrow **dumplings:** their composition as related to the food regulations. 116123
Purification of **vegetable** *marrow* mosaic virus. 122844

MARSHES

Macroinvertebrate colonization of Spartina [alterniflora] *marshes* **artificially** established on dredge spoil. 120349
A model for the evaluation of groundwater resources **associated** with *wetlands.* 125328
The annual periodicity of the polyvoltine ground beetle Pogonus **chalceus** *Marsh.* (Coleoptera, Carabidae) and its control by environmental factors. 124180
Comparative utility of LANDSAT-1 and Skylab data for **coastal** *wetland* mapping and ecological studies [Remote sensing]. 120365
Lotus of the *marshes* in **Dombes** (Lotus uliginosus Schkuhr) [Cultivation]. 122389
Transplantation of Typha [angustifolia] and the distribution of vegetation and algae in a reclaimed **estuarine** *marsh.* 120329
Economics of **freshwater** *wetland* preservation in Massachusetts. 125331
Models for evaluation of **freshwater** *wetlands.* 125332
The seed banks of parairie **glacial** *marshes* [Vegetation zones, seed viability]. 120335
Hongkong's *marshland,* a natural conservation area on China's coast. 125530
Coastal resource management in Louisiana. A way to **return** *wetlands* to state & local control [Land use]. 115217
Root growth in Acer **saccharum** *Marsh.* Seedlings: effects of light intensity and photoperiod on root elongation rates. 121801
Buergenerula spartinae sp. Nov., an ascomycete from **salt** *marsh* cordgrass, Spartina alterniflora [New taxa]. 119999
Dynamics of environment and algal vegetation in **salt** *marshes* in the southwestern Netherlands. 120305
Ecological studies of the **salt** *marsh* ecad Scorpioides (Hornemann) Hauck of Ascophyllum nodosum (L.) Le Jolis. 120375
Salt *marsh* vegetation: latitudinal gradients in the zonation patterns. 120388
Long-term effects of manipulating light intensity and nutrient enrichment on the structure of a **salt** *marsh* diatom community [Algae]. 121208
The rationale for attempting to define **salt** *marsh* mosquito [Aedes sollicitans]-breeding areas in Galveston County by remote sensing the associated vegetation [Distichlis spicata]. 123634
Growth, abundance and distribution of larval tabanids in experimentally fertilized plots on a Massachusetts **salt** *marsh* [Tabanus nigrovittatus]. 124016
Performance of *Marsh* **seedless** grapefruit on six rootstocks in Cyprus [Yields, fruit quality, growth]. 122403
Visual-cultural **sub-model** *[Wetlands].* 115289
The mapping of *marsh* **vegetation** using aircraft multispectral scanner data [Remote sensing]. 120367
Wildlife *wetland* evaluation model [Vegetation]. 120389

MARSILEA

Scanning electron microscopy of *Marsilea* **sperm** [Pteridophyta]. 120549

MARSUPIALIA

Antiquity and specificity of parasitic mites. Parallel host-parasite development [Especially Myobiidae, *marsupials* as **hosts].** 123589

MASHES

Beta-glucanes and their effect on *mashing* **[Beer** manufacture]. 116671
Studies on "ann" (bean jam). 5. Off-flavor of dried **"koshiann"** *(mashed* beans) in the storage. 117299
Variations of polyphenols during *mashing* and **purifying** [Beer brewing]. 116688

MASS

Syntheses of tetra- and hexadeuterated octadecenoates [for *mass* **analysis** of labeled fats]. 116794
Experience of **arranging** *mass-political* activities in labor collectives of an agrarian-industrial amalgamation. 115165
Determination of the **body** *mass* of young cattle on large farms by chest girth. 117501
An appartus for the *mass* **collection** of spores of entomopathogenic fungi [Nomuraea rileyi]. 123244
Temperature-induced species competition in *mass* **cultures** of marine phytoplankton [Algae]. 120319
Quantitative microanalysis of capsaicin, dihydrocapsaicin and nordihydrocapsaicin using *mass* **fragmentography** [Bush redpeppers]. 117290
Gas *chromatographic-mass* spectrometric study of fluid contents of molasses. 116661
Structure determination of polyunsaturated fatty acids by **gas** *chromatography-mass* spectrometry—a comparison of fragmentation patterns of various derivatives. 116779
A combined radio **gas** *chromatograph/mass* spectrometer detects intermediates in mycophenolic acid biosynthesis [Penicillium brevicompactum, Fungi]. 120879
Effect of soil tillage on a slope on the yield of the maize **green** *mass.* 122147
Mass **hibernation** site for Nymphalis vau-album (Nymphalidae). 124062
Gas-chromatography in sterol anlaysis. GLC-MS [gas **liquid** *chromatography-mass* spectrometry] of methoxy derivatives of sterols [Olive and sunflower oils were employed]. 117318
Conditions required for the *mass-breeding* of **Lixophaga** diatraeae (Diptera: Tachinidae). 123902
Effects in the rat of environmental temperature, diet dilution and treadmill running on voluntary food intake, body compositon and endocrine **organ** *mass:* a multiple regression analysis. 116427
Some theoretical results of **postitive** *mass* selection in plant breeding with special consideration of competitive effects. 120842
In vitro culture of shoot apical meristem of Petunia hybrida for *Mass* **production** of plants. 121690
Mass **production** of Boston fern [Nephrolepsis exaltata] through tissue culture. 122233
Further observatons on *mass* **propagation** and damage due to the purse-shaped gall mite Eriophyes similis Nal. on plums. 123424
Japanese quail—a source of valuable animal **protein** for *masses.* 117487
Mass **spectra** of acetylenic fatty acid methyl esters and derivatives. 116793
Lichens and fungi. XIII. Comparison of the nuclear magnetic resonance and *mass* **spectra** of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
Cooking of beef by oven roasting: a study of heat and *mass* **transfer.** 116623
Amino acid and fractional composition of protein of the **vegetative** *mass* of maize at different levels of mineral nutrition and water supply. 121575

MASSAGE

Selection of [breeding] cocks on the basis of their **response** to *massage.* 118311

MAST *see* FEED

MASTITIS

Acute *mastitis* in cows in the Harstad Veterinary District, 1972-1975 [Escherichia coli, Staphylococcus aureus, bacterial diseases]. 118856
Characteristic of staphylococci isolated from the udder of cows **affected** with *mastitis.* 118975
Elevation of Mycoplasma agalactiae subsp. Bovis to species rank: Mycoplasma bovis (Hale et al.) comb. nov. [Causing **bovine** *mastitis].* 118770
Aminosidine [antibiotic] in the treatment of **bovine** *mastitis* [Staphylococcus aureus, Streptococcus agalactiae]. 118920
Diagnosis, control and prevention of **bovine** *mastitis.* 118940
First results of a poll taken in eastern Emilia-Romagna, in regard to the establishment of a plan for the control of **bovine** *mastitis;* organization proposals. 118941
Important moments in the control of **bovine** *mastitis* in the bulgarian People's Republic. 118942

Research [tests] on the presence of subclinical **bovine** *mastitis* accomplished by means of somatic cell counting of bulk milk with the Autoanalyzer II-OSCC (optic somatic cell counter) in the province of Parma. 118946
Coliform *mastitis* in pastured [cattle] herds. 118959
Esculin hydrolysis by Streptococcus dysgalactiae *[Mastitis* **control].** 118600
Improvement of milk quality and *mastitis* **control** [Dairy cattle]. 118943
Mastitis **control** in the United Kingdom [Dairy cattle]. 118944
Prophylaxis concepts and *mastitis* **control** in the dairy cow in intensive rearing in the Czechoslovak Socialist Republic. 118945
Effectiveness of sanitary measures in the prophylaxis of *mastitis* in **cows.** 119023
Endotoxin in blood and milk and enzymes in the milk of cows during experimental Escherichia coli **endotoxin** *mastitis.* 118960
Experimental *mastitis* of swine caused by Klebsiella. 118877
Microbiological problems related to *mastitic* **milk** processing. 116258
Influence of *mastitis* on the **physico-chemical** status of milk lipids. I. Glycerides, free fatty acids and phospholipid. 116167
Pathogenesis of **pyogenic** *mastitis* and prophylaxis [Corynebacterium pyogenes, cattle]. 118835
Staphylococcal *mastitis* in cows, buffaloes and goats and their antibiotic sensitivity [Staphylococcus aureus]. 118738
Trial with Pendistrin SH (Squibb) in clinical cases of [bovine] **staphylococcal** *mastitis.* 118757
Correlation between milk productivity and the occurrence of **subclinical** *mastitis* in cows. 118978

MASTOMYS

Natural resistance of an African rodent **Praomys** *(Mastomys)* natalensis to rabies infection. 118614

MATCHING

Matching **Southeast** Asia's wood resources to its opportunities. 119692

MATERNAL

Maternal **effects** and inbreeding insensitivity in embryos of Drosophila melanogaster. 124103
Magnesium, calcium and zinc levels of *maternal* and **fetal** tisues in magnesium deficient rats. 116434
Studies on the frost resistance of selected ornamental trees and shrubs in Poland and on the selection of *maternal* **individuals** (Acer, Campsis, Deutzia, Forsythis). 122186
Maternal **leukocyte** enzymes in human fetal malnutrition. 116519
Effect of prostaglandin E2 on **ovine** *maternal* placental blood flow [Sheep]. 118198

MATHEMATICS

Preliminary data of the *mathematical-statistical* **evaluation** of results of pig fattening capacity tests. 118260
Some relationships among *mathematical* **laws** of plant competition and laws of yield factors. 120396
Calculation of plant transpiration and productivity in the conditions of water deficit on the basis of a *mathematical* **model.** 121350
A *mathematical* **model** for the analysis of multi-reservoir flood control systems. 125239
Mathematical **model** for self purification as an instrument of water protection. 125291
Economic impacts of surface mine reclamation *[Mathematical* **model,** environmental pollution control, regulation]. 125522
An economic and *mathematical* **model** for determining the sequence of measures for applying fertilizers by aircraft in forestry. 125577
Mathematical **modeling** of phytoplankton in Lake Ontario. 2. [Eutrophication]. 125417
Mathematical **modelling** of thermal pollution in rivers. 125456

MATING

Do the *mates* of **A.I.** [Artificial insemination] sires influence their proofs? [Bulls]. 118269
Flight and *mating* **behavior** of the gypsy moth [Lymantria dispar]. 123470
Chemical communication in the *mating* **behavior** of Trogoderma glabrum (Herbst) (Coleoptera: Dermestidae). 124024
Studies on the *mating* **behavior** of Lygaeus militaris Fabr. (Heteroptera: Lygaeidae). 124185
Mating in **Chlamydomonas** eugametos [Algae]. A scanning electron microscopical study. 120412
Correct management of a **continental** *mating* station [Apis mellifera, Europe]. 124560
The function of pulse song and sine song in the *courtship* of **Drosophila** melanogaster. 123792
Comparative zone electrophoresis and *mating* **experiments** in the taxonomy on Mucor hiemalis [Fungi]. 120211
Effects of *mating* on **female** inhibition and egg production in the black carpet beetle, Attagenus megatoma F. 123529
Portable outdoor cages for *mating* **female** giant silkworm moths (Saturniidae). 124066
Influence of color and placement of mating nuclei on the drifting of [honeybee] queens returning from *mating* **flights.** 124561
Population density and *mating* **frequency** of Plodia interpunctella in the presence of synthetic pheromone. 123549
Cascade expression of the *mating-type* **locus** in Mucorales [Fungi]. 120721
Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in boars selected for rate of body weight gain and thickness of back fat during growth, sexual **maturation** and after *mating.* 118347
Stimulation of breeding activity in *spring-mated* **Merino** ewes. 118191
Multiple *mating* by [the cigarette beetle] Lasioderma serricorne (F.)—effects on fertility and fecundity. 123546
Influence of color and placement of *mating* **nuclei** on the drifting of [honeybee] queens returning from mating flights. 124561
Neurosecretory activity as related to feeding, *mating,* and **oogenesis** in the female cave tick, Ornithodoros tholozani. 124048
Feeding, *mating,* and **oviposition** activities of Rhagoletis fausta flies in nature [Cherry fruit pests]. 123369
Studies on *mating* **results** following detection of Corynebacterium pyogenes in genital secretion of cattle with puerperal disorder. 118844
The proper planning of **sheep** *mating,* an economically decisive moment in husbandry. 118403
Use of microradiographic technics, instead of dissection for study of the *mating* **status** of female armyworm moths, Mythimna unipuncta, captured in light traps (Lepidoptere Noctuidae) capturees aux pieges lumineux. 124145
Effects of reproductive performance and *mating* **system** on farm gross margins in beef production. 118243
Isolation and purificaton of the sexual agglutination substance of *mating* **type** a cells in Saccharomyces cerevisiae [Yeast]. 120587

MATRICES

A **community** *matrix* analysis of Heliconia insect communities. 123785
Stimulation of corneal differentiation by interaction between cell surface and **extracellular** *matrix.* II. Further studies on the nature and site of transfilter "induction" [Chick embryos]. 117648

MATURITY

Physiology of growth and *maturation* of **berries.** Causes of variations of main constituents. Influence of greening operations and chemical interventions [Grapes]. 121623
Maturation of **black** cherry fruits in central Mississippi. 121783
Development of earliness to fruiting and **boll** *maturity* in cotton under low maturation temperatures. 121552
Influence of **carcass** *maturity* on the palatability of beef. 116185
Inheritance of time to flowering and its relationship to **crop** *maturity* in cucumber. 120767
The **defective** *maturation* of viral progeny with a temperature-sensitive mutant of avian sarcoma virus [Chick embryos]. 119041
Biochemical changes in cottonseed during **development** and *maturity.* 117151
Breeding of **early** *maturing* maize hybrids with improved biochemical properties. 120696
Early *maturing* variety of perennial ryegrass, Drogobychskii 1 [Lolium perenne]. 122152
Relationship of plant population and arrangement on yield and **early** *maturing* of bush snap beans. 122465
Analysis of cotton **fiber** *maturity.* II. Glycerol retention value of cotton. 117128
Dried brewers grains for *mature* and **growing** dogs. 118089
Effects of low temperature and *maturity* at **harvest** on keeping quality of white flesh peaches during their distribution. 117292
Studies on the determination of *maturity* of **Irwin** and Keitt mango varieties. 121725
Development of earliness to fruiting and boll maturity in cotton under **low** *maturation* temperatures. 121552
Tolerance of cotton to **low** *maturation* temperatures. 121554
A preliminary study of the economics of fertilisation of *mature* **maritime** pine [Pinus pinaster] in the Landes de Gascogne. 125045
Degree of **optimal** *maturity* of the grape in relation with the type of wine to process. 121768
Degree of **optimal** *maturity* of the grape in relation with the type of wine to process. 121769
A genetic analysis of *maturing* **patterns** in straightbred and crossbred Hereford, Angus and Shorthorn cattle. 118337
Heterosis for *maturing* **patterns** in Hereford, Angus and Shorthorn cattle. 118339
Effect of different light periods on the seed surface of fenugreek [Trigonella foenum-graecum] during the *maturation* **phase.** 121338
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. II. Position of the low molecular weight rRNA species in the *maturation* **process.** 120933
Free cytoplasmic alpha-globin messenger RNA appears during the *maturation* of **rabbit** reticulocytes. 117679
Light control for more **rapid** *maturing* of mink pelts. 117420
Maturation of **ribosomes** in yeast [Saccharomyces carlsbergensis]. I. Kinetic analysis by labelling of high molecular weight rRNA species. 120932
Maturation of **ribosomes** in yeast [Saccharomyces carlsbergensis]. II. Position of the low molecular weight rRNA species in the maturation process. 120933
Relationship of fire blight [Erwinia amylovora] resistance of young pear seedlings inoculated in the greenhouse to *mature* **seedling** trees naturally infected in the field. 122811
Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in boars selected for rate of body weight gain and thickness of back fat during growth, **sexual** *maturation* and after mating. 118347
Development of 3 beta-hydroxysteroid dehydrogenase in the ovary of the domestic fowl during **sexual** *maturation.* 118348
Study of the morphological and qualitative changes of the globe artichoke head as influenced by the **stage** of *maturity.* 121689
A study of the physical load and work hygiene of woodcutter at felling in *pre-mature* **stands.** 119532
An examination of the net changes in amino-acid composition within the rumen of *mature* **wether** sheep using canonical variate analysis. 117754
Effect of ethephon on rate of bulb enlargement, *maturity,* and **yield** in onions. 121665

MAXILLARY

Scanning electron microscopy of Blaberus giganteus (L.) *maxillary* **palp** sensilla. 124129
Osteoma in the *maxillary* **sinus** of a yearling Thoroughbred colt. 119102
Snoring in a calf caused by congenital distension of the *maxillary* **sinuses.** 119103

MAYETIOLA

They fend off insects [Wheat varieties resistant to the Hessian fly, *Mayetiola* **destructor** and the leaf beetle, Chrysomelidae]. 123272

MEADOWS

Relationship between plant nutrient uptake and constituents of *meadow* **fescue** (Festuca pratensis) as regards suitability for conservation. 1. Plant nutrient uptake, nutrient ratio and plant composition. 121579
Presence of biologically active substances in soils covered by tall herbaceous vegetation and *meadow* **forbs.** 124820
Effect of inorganic fertilizers on the yield, chemical composition of *meadow* **foxtail** [Alopecurus pratensis] and the regime of nutrients in Peat-Bog soils of the Kola Peninsula. 124927
Allelopathic relations in the sod of **natural** *meadows.* 121459
Timing of the pre-winter cut and relations between the species forming a **polyphytic** *meadow* [Grasses]. 122140
Effect of long-term application of fertilizers in a crop rotation on the content of humus and nitrogen in *Sierozem-meadow* **soils** of Kirghizia. 124928
Plowing under straw for growing sugarbeets on *Meadow-Sierozem* **soils** in Kirghizia. 125010
Morphological variations of **tall** *meadow* oatgrass [Arrhenatherum elatius] in relation to its growing conditions. 120472
The *meadow* **vole** as an experimental animal. 117467
A model of stand photosynthesis for the **wet** *meadow* tundra at Barrow, Alaska. 121040
Density and composition of crane fly larvae (Diptera, Tipulidae) from an alpine **wet** *meadow* at Stigstuv, Hardangervidda, south Norway. 124112

MEALS

Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse **bean** *meal,* fish meal, maize gluten and waste liq. 117990
The battle **begins** *meal* quality, plate waste, fast food, the bloc grant. 116607
Storage behavior of ready-made **cold** *meals* in a regulated atmosphere. I. Storage in a controlled atmosphere. 116720
The storage behavior of ready-made **cold** *meals* in a regulated atmosphere. II. Storage in a quiet atmosphere. 116721
Cottonseed protein **[Cottonseed** *meal,* ruminant feed]. 117331
Aspects and problems of animal nutrition: information and reflections on the use of *meals* **derived** from rape. 117379
U.S. Soybean, *meal* **exports** to stage comeback in 1976. 115590
Breads, cakes, and pies in **family** *meals;* a guide for consumers [Recipes]. 116340
Feather *meal* in the rations [of poultry]. 118016
Protein requirments for White Leghorn hens with **fish** *meal* and peanut meal as nitrogen sources. 117967
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, **fish** *meal,* maize gluten and waste liq. 117990
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, **fish** *meal* and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 2. Replacement of skim milk by **fish** *meal* and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Performance of pigs fed different levels of Saccharomyces yeast [Saccharomyces cerevisiae] substituting **fish** *meal* in molasses diets. 118046
Studies on controlling the **Indian** *meal* moth, Plodia interpunctella Hbn., by ionising radiation [Pest of nuts]. 123373

Quest for a microbial alternative [Bacillus thuringiensis for controlling the **Indian** *meal* moth in stored grain, biological control]. 123505
A carrier protein for juvenile hormone in the haemolymph of the **Indian** *meal* moth [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
Juvenile hormone action on the intermediary metabolism in **Indian** *meal* moth [Plodia interpunctella] larvae. 123543
Action of juvenile hormone on imaginal discs of the **Indian** *meal* moth [Plodia interpunctella]. 123931
Protein estimation in sesame seed and rapeseed flours and *meals* by a **modified** Udy dye binding method. 116406
Oilseed *meal* imports up in six markets. 115654
Postprandial glucose, insulin, free fatty acid and growth hormone responses in [Peruvian mestizo] children consuming all the day's protein in **one** *meal*. 116289
Postprandial glucose, insulin, free fatty acid and growth hormone responses in children consuming all the day's protein in **one** *meal*. 116293
World oil and *meal* **output** rise forecast for 1976. 115831
Ready-made meals: ready-made **partial** *meals* of the meat processing industry. 116953
Spontaneous activity and *meal* **patterns** [Rats]. 116377
Evolution of lysine, methionine and cystine in a **peanut** *meal* after treatment by ammonia. 117177
Protein requirments for White Leghorn hens with fish meal and **peanut** *meal* as nitrogen sources. 117967
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted **peanut** *meal* and dried skim milk. 117989
Variability in the chemical composition of **rapeseed** *meal* [Feed ingredient]. 117330
Substitution of **rapeseed** *meal* for soybean meal as a source of protein for lactating cows. 118040
Ready-made *meals:* ready-made partial meals of the meat processing industry. 116953
The effect of storing and heating frozen **ready-to-eat** *meals* on vitamins B1 and B2 in the meat. 116330
New products presentation for institutional catering. Long life, **ready-to-eat** *meals* in aluminium containers. 116734
U.S. Exports of soybeans and *meal* **recover** sharply in 1975/76. 115632
Acceptance of **school** *meals*. 116316
Peripheral control of *meal* **size:** interaction of gustatory stimulation and postingestional feedback. 116369
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted **soyabean** *meal*, horse bean meal, fish meal, maize gluten and waste liq. 117990
Variation in protein content of **soybean** *meal* [Quality control, Arkansas]. 117340
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted **soybean** *meal* fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Substitution of rapeseed meal for **soybean** *meal* as a source of protein for lactating cows. 118040
World production and trade of peanut oil and *meal* up **[Statistics]**. 115635
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole **wheat** *meal* in a type of liquid feed. 117996
U.S. Soybean estimate cut, **world** *meal* supply lower. 115853
The microsporidian pathogens of Lepidoptera living in grain and *meal* in **Yugoslavia** [Natural control]. 123286

MEALWORMS

Neuroendocrine control of moulting cycle in *mealworms* **[Tenebrio** molitor]: histology and autoradiography of cephalic components. 123580

MEAT

Operational characteristics of *meat* **animails.** IV. Turkeys, Large White and Bronze [Breeds]. 117507
Cellularity of adipose tissue in *meat* **animals.** 117682
Figures and results for 1975 from the **bacteriological** *meat* inspection station at the Munich slaughterhouse. 116116
Meat products in self-service packs. Ready meat dishes and delicatessen products, deep frozen foods with a *meat* **base.** 116985
Trade needs convincing on **boar** *meat*. 117025
Volatile sulfur compounds contributing to meat flavour. I. Components identified in **boiled** *meat*. 117023
Routine methods of examining meat and meat products. 11. Determination of drained weight of canned cooked meats containing jelly and of *meat* **brawns.** Determination of free fat, pure gelatine and jelly contents. 116133
Products and practices **[Broiler** *meat]*. 117042
Dynamics of feed utilization and the quality of *meat* of **broilers** in the conditions of high density rearing. 117502
Method of determining the sterilisation value of **canned** *meat* from tables. 116986
Effect of immediate preslaughter stress on **certain** *meat* quality characteristics of bacon pigs. 116934
Use of the technique of gas chromatography to determine the amount of aldrin retained in *meat* **chickens** poisoned with this pesticide [Residues]. 123683
Public slaughterhouses or **commercial** *meat* factories? 116993
Possibilities of extending the zootechnical exploitation of turkeys in relation to the availability of technological facilities to the order of *meat* **consumption.** 117392
Limited occurrence of salmonellosis in a large city [Salmonella enteriditis, *meat* **contamination]**. 116223
The effect of gamma radiation on the cysticerci of Taenia solium [Tapeworm infested swine, *meat* **contamination]**. 118871
Do the "Guidelines for meat dishes in sauce" represent good commercial practice as far as the *meat* **content** of Konigsberger Klops is concerned? 116978
Routine methods of examining meat and meat products. 11. Determination of drained weight of canned **cooked** *meats* containing jelly and of meat brawns. Determination of free fat, pure gelatine and jelly contents. 116133
Thiamin and riboflavin retention in *meats* **cooked** uncovered and in oven film. 116338
Thiamin and riboflavin retention in *meats* **cooked** uncovered and in oven film. 116339
Meat **dishes** heat-preserved in film or foil packages. III. Controls on filling, evacuating and closing containers. 116733
Do the "Guidelines for *meat* **dishes** in sauce" represent good commercial practice as far as the meat content of Konigsberger Klops is concerned? 116978
Use of antioxidants in rations of *meat* **ducks.** 118073
Quality of duck **eggs** & *meat*. 116241
Influence of the action of proteolytic vegetable **enzymes** on *meat*. 117027
20 years cooperation of the **European** *Meat* researchers. 117009
Routine methods of **examining** *meat* and meat products. 11. Determination of drained weight of canned cooked meats containing jelly and of meat brawns. Determination of free fat, pure gelatine and jelly contents. 116133
The technological approach to DFD [dark, **firm,** *dry]-meat*. 116145
The supply situation for *meat* and **fish.** 115628
Volatile sulfur compounds contributing to *meat* **flavour.** I. Components identified in boiled meat. 117023
The effect of the heating rate on the readiness of **forced** *meat* products undergoing ultrahigh frequency power treatment. 116843
Better operation of refrigeration plant [to cool and **freeze** *meat]* gives more refrigeration and saves power. 118493
Refrigerated transportation of **fresh** *meat* and sausage [Legislation, hygiene]. 115626
Foils for packaging **fresh** *meat-requirements* and performance. 116946
Fresh *meat* packing. 116947
New possibilities of **fresh** *meat* storage with a special paper preserving freshness. 116949
A new method: preparing **frozen** *meat* for further processing. 116941
Scalded sausage manufacture in the meat trade. 6. Scalded sausage with coarse fillers, crackling processing with and without extraneous protein, and **frozen** *meat* processing. 116954
Investigations into the action of skim milk powder and hydrolysed milk protein with a view to lowering the level of nitrite added to **heat-sterilised** *meat* products. 116980
DFD [dark, firm, *dry]-meat* and **how** to recognize it. 116110
Food poisoning from *meat* and **how** to avoid it. 116219
American cattlemen continue to suffer *[Meat* **import** infringements]. 115708
The procedure for **importing** *meat* into the USA. 115627
Industrial *meat* production. 116933
Listeria monocytogenes findings in raw materials of animal origin *[Meat* **industry]**. 116067
Food hygiene in the sphere of the *meat* **industry.** 116100
Development of the *meat* **industry** in the third world. 116977
Problems of product development *[Meat* **industry]**. 117008
Comprehensive index to MIRINZ *[Meat* **Industry** Research Institute of New Zealand] publications 1-400. 117020
Evaluation of a commercial finned evaporator [for the *meat* **industry]**. 117021
Animal breeding and the *meat* **industry** in Gambia. 117427
Noise in the *meat* **industry.** 125528
"Stomacher" Trichinella control method. Proposal for a new diagnostic routine technique for post mortem demonstration in routine control *[Meat* **inspection]**. 116071
New square plastic petri dishes for routine bacteriological work *[Meat* **inspection]**. 116126
Suggested alternatives to the inhibitor test: Rationalizing and ensuring accuracy *[Meat* **inspection]**. 116134
Observations on cysticercosis in Rhodesia. 1. The distribution of [Cysticercus cellulosae] cysts disclosed in beef carcases at *meat* **inspection.** 116255
Developments and trends on the **international** *meat* market. 115625
An examination of the guidelines for shashlik and *meat* **kebabs.** 116972
New **lamb** *meat* products. 116932
Research on beef raising for *meat* in **Lombardy** [Costs]. 115549
Factors influencing cooking **losses** from *meat*. 116415
Uncertain outlook for grain and *meat* **market.** 115724
Air conditioning in the cutting room and the *meat* **market.** 116971
Soviet industrial output of *meat* down. 115661
Current questions on the disposition of the guiding principles for *meat* and **meat** products [Meat quality]. 116097
The possible use of routine residue determination in *meat* and **meat** products and its limits of application. 116143
Rapid cooling of *meat* or not? 116951
Ashing biological material, with special reference to *meat* and **meat** products, in a new type of combustion apparatus. 116973
Manufacture and composition of *meat* and **meat** products typical of Baden-Wurttemberg. 3. Kalbslyoner. 116982
The importance of temperature to the aw-value of *meat* and **meat** products. 116999
Methods of radioactive contamination of foods of animal origin: *meats,* **milk,** and seafood. 116032
Contamination of diet with radioactive fallout from nuclear explosions [in **milk** and *meat]*. 116035
Does the **minced** *meat* regulation of May 10, 1976 contribute anything new? 2 [Hygiene, labeling]. 116098
Modern volume control with volume filling [of **minced** *meat]*. 116102
Drying **minced** *meat* in cold air. 116979
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the **muscle** *meat* of naturally infected swine [Storage of infected pork]. 116252
Great Britain: proteins, old and **new** *[Meat]*. 116329
Yeasts and *meat:* **occurrence,** systematology and differentiation. 116148
The historic sussex cattle, **optimum** *meat* producers [Breeds]. 118399
Investigations into the lead and cadmium content of *meat* and **organ** samples from slaughter animals. 116119
The manufacture of *meat* **pastry,** rolled meat and galantines. 116962
Determination of nitrogen in biological materials by the method of biamperometric titration [Milk, *meat,* **plants]**. 116825
Polyunsaturated *meat* and dairy products in fat-modified food patterns for hyperlipidemia. 116405
The bacteriology of DFD [dark, firm, *dry]-meat* **[Pork,** beef]. 116137
The biochemistry of DFD [dark, firm, *dry]-meat* **[Pork]**. 116139
The topography of DFD [dark, firm, *dry]-meat* **[Pork]**. 116146
Observations on enterotoxic Escherichia coli in foods of animal origin **[Poultry** *meat* contamination]. 116041
Protein quality of mechanically deboned **poultry** *meat* as measured by rat PER [Protein efficiency ratio]. 116509
Preparation of new-style **poultry** *meat* products. 117045
Mechanically-deboned **poultry** *meat*. 117047
Structures and functions of slaughterhouse enterprises and processing of **poultry** *meat*. 117054
Factory control in *meat* **processing** plant. 116115
The need for bacteriological checks on the environment in *meat* **processing** factories. 116142
Emulsifiers and emulsions in *meat* **processing.** 116944
Ready-made meals: ready-made partial meals of the *meat* **processing** industry. 116953
Flies will strike at low temperatures [in *meat* **processing** areas]. 123516
The economic advantages of *meat* **production** with crossbred heifers [Costs]. 115527
Meat **production** in South Africa. 116984
Carcass yield in two strains in chickens for *meat* **production.** 117055
Characteristic of *meat* **productivity** of reindeer in the tundra and taiga zones. 117430
Effect of Swedish boars of the Yorkshire breed on the *meat* **productivity** of pigs from the Russian Large White breed. 118401
Current questions on the disposition of the guiding principles for meat and *meat* **products** [Meat quality]. 116097
Classification of *meat* **products** under the headings of very perishable products, perishable products and products that can be stored. 116108
Konigsberger klops *[meat* **products]:** their composition and the food regulations. 116122
Mould contamination of *meat* **products.** 116125
Routine methods of examining meat and *meat* **products.** 11. Determination of drained weight of canned cooked meats containing jelly and of meat brawns. Determination of free fat, pure gelatine and jelly contents. 116133
The effect of type of light on color and evaluation of *meat* **products.** 116141
The possible use of routine residue determination in meat and *meat* **products** and its limits of application. 116143
Experiences and results of veterinary hygiene inspection in Suhl as an example of the expertise in *meat* **products** of the Bureau for Standardization, Measurement and Product Testing. 116222

Determination of residual amounts of the tetracycline series antibiotics in *meat* **products.** 116267
Dielectric heating of *meat* **products.** 116943
A method for the reductometric determination of starch in *meat* **products.** 116968
A simplified method of determining the content of meat protein free of connection tissue protein in *meat* **products.** 116970
Ashing biological material, with special reference to meat and *meat* **products,** in a new type of combustion apparatus. 116973
Cooking in stages as a means of improving the quality of *meat* **products.** 116976
Judging truffles in *meat* **products** [Mushrooms]. 116981
Manufacture and composition of meat and *meat* **products** typical of Baden-Wurttemberg. 3. Kalbslyoner. 116982
Meat **products** in self-service packs. Ready meat dishes and delicatessen products, deep frozen foods with a meat base. 116985
Natural casings as the pattern for casings *[Meat* **products].** 116988
Nitrosamines in *meat* **products:** test on firm dry sausages made with various additives. 116989
The development of synthetic casings [for *meat* **products].** 116998
The importance of temperature to the aw-value of meat and *meat* **products.** 116999
Technological problems of the industry of *meat* **products:** Boiled ham. 117013
Effective thermal treatment of *meat* **products.** 117036
Meat **products** [Statistics]. 117037
A simplified method of determining the content of *meat* **protein** free of connection tissue protein in meat products. 116970
Expanding producer group aims for top **quality** *meat* market. 115709
Current questions on the disposition of the guiding principles for meat and meat products *[Meat* **quality].** 116097
Meat **quality** in different grades of pork sides. 116124
Tests on the *meat* **quality** of hares as a function of treatment and storage. 116135
Studies on the *meat* **quality** of broiler rabbits. II. On the chemical composition of the meat of valuable cut-up parts in New Zealand White rabbits and hybrids of different. 116234
Antibiotic-resistant bacteria [Pseudomonas aeruginosa, Pseudomonas putida, or Pseudomonas fluorescens] in **raw** *meat* from retail markets. 116196
Meat products in self-service packs. **Ready** *meat* dishes and delicatessen products, deep frozen foods with a meat base. 116985
Regulatory considerations concerning mechanically-deboned **red** *meat.* 116153
Nonvolatile nitrogen and sulfur compounds in **red** *meats* and their reltion to flavor and taste. 116931
Mechanically-deboned **red** *meat.* 117004
Britain's chickens and the EEC *[Meat* **regulation,** European Economic Community]. 116239
Federal German Institute for *Meat* **Research** is prepared for the future. 2. [Contamination, keeping quality]. 116099
Federal German Institute for *Meat* **Research** is prepared for the future. 1. 116945
Opinion of the [West German] Federal Institute for *Meat* **Research,** Kulmbach, on separated meat. 116990
Antibiotic residues and their recovery from animal tissues *[Meat,* **residues].** 116187
The manufacture of meat pastry, **rolled** *meat* and galantines. 116962
A simple method of checking the nitrite content of nitrite curing **salt** *[Meat].* 116969
Meat and **sausage** with best reputation [Marketing]. 115703
Mixing methods for **sausage** *meat* standardization. 116101
Opinion of the [West German] Federal Institute for Meat Research, Kulmbach, on **separated** *meat.* 116990
An objective look at manual bone trimming and at soft and hard **separated** *meat* from poultry and large animals. 117046
Performance testing of long **shelf-life** *meats.* Report on the German Agricultural Society's quality test on long shelf-life meats for 1975. 116127
Improvement of the technology of reindeer **slaughter** for *meat.* 117010
Carcinogenic polycyclic aromatic hydrocarbons in Norwegian **smoked** *meat* sausages. 116176
Problems encountered in the further processing of **standardized** *meat* in large mixed plant in Europe. 116992
B-vitamin retention in *meat* during **storage** and preparation. A review. 117015
Action of some nitroso derivatives in *meat* **suspensions.** Antibacterial activity and interferences by components of the medium. 117012
Rearing and feeding of *meat* **swine.** 118041
Requirements of research on *meat* **technology.** 117026
Meat **tenderness** and muscle structure. 117005
Manufacture of scalded sausage in the *meat* **trade.** 5. Use of foreign proteins and preparation of fat emulsions. 116948
Scalded sausage manufacture in the *meat* **trade.** 6. Scalded sausage with coarse fillers, crackling processing with and without extraneous protein, and frozen meat processing. 116954
Scalded sausage manufacture in the *meat* **trade.** 7. Color formation and preservation, influence of the muscle coloring matter present, and color stabilization by means of blood additives. 116955
Scalded sausage manufacture in the *meat* **trade.** 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Scalded sausage manufacture in the *meat* **trade.** 10. Effect of exposure to light; cutting, filling, hot smoking and scalding. 116957
Scalded sausage manufacture in the *meat* **trade.** 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; small sausages fresh from smoke. 116958
Scalded sausage manufacture in the *meat* **trade.** 12. Smoking of small sausages. 116959
Studies on the meat quality of broiler rabbits. II. On the chemical composition of the *meat* of **valuable** cut-up parts in New Zealand White rabbits and hybrids of different. 116234
The effect of storing and heating frozen ready-to-eat meals on **vitamins** B1 and B2 in the *meat.* 116330
Possible uses of potato-tuber water as a substitute for *meat* **water** [Utilization of wastewater]. 125404
Comparative characteristics of the amino acids composition of the hydrogen bacteria Hydrogenomonas eutropha in *meat* and **wheat.** 117035
Agricultural and marketing policy for adapting production to demand for *meat* on the **world** market. 115762

MECADOX

Mecadox [for use in **animal** feeds]—a review and revelation [in preventing and treating swine dysentery]. 118887
Protein utilization as affected by *Mecadox* **[feed** additive, swine]. 118149

MECHANICS

Regulatory considerations **concerning** *mechanically-deboned* red meat. 116153
Ultrastructure and *mechanics* of the **conidium-conidiophore** attachment of Helminthosporium maydis [Corn leaf blight]. 122740
Body temperature and flight performance of honey bees [Apis mellifera ligustica] in a *servo-mechanically* **controlled** wind tunnel. 124538
Effect of *mechanical* **cooling** devices on [airborne] ambient salt concentration. 125415
Protein quality of *mechanically* **deboned** poultry meat as measured by rat PER [Protein efficiency ratio]. 116509
Mechanical **design** of growth-chamber for studying cool weather damage of [rice] crops. 122915
Sensitivity of tobacco to chromium from *mechanical* **draft** cooling tower drift. 122910
Mechanical **erection** of fences. 124593
Effect of *mechanical* **factors** on the relation between rate and depth of breathing in cats. 117775
Mechanical **fiber** separation in kraft pulping systems. 119819
Mechanically-deboned **fish** flesh. 116748
Distribution of organic compounds in *mechanical* **fractions** of soils developed from boulder loams. 124894
Mechanical **grape** harvesting in France. 124727
Currant varieties and training methods suitable for *mechanical* **harvest.** 122407
Prerequisites for developing methods of *mechanical* **harvesting** of strawberries. 115467
Pruning pears with shakers [Costs, *mechanical* **harvesting** equipment]. 115475
Comparison of new tomato varieties for *mechanical* **harvesting:** effects of mulching. 122386
Mechanical **harvesting** of strawberries: present state and prospects. 124679
Technical aspects of the *mechanical* **harvesting** of grapes by vertical shaking. 124729
Effects of *mechanical* **impedance** on cell development in young barley roots. 121414
[Mechanical] **indication** of grain [harvesing] losses on combines. 124695
Chemical and *mechanical* **maintenance** [Control of weeds in young windbreaks and shelterbelts]. 123184
Mechanically-deboned **poultry** meat. 117047
X-ray study of crystalline character and *mechanical* **properties** of cotton fibers swollen in zincoxen solution. 117131
Alkali solution action on spruce wood. II. The change of *mechanical* **properties.** 119729
Physical and *mechanical* **properties** of some timbers from Java. 119754
Effect of a high hydrostatic pressure on wood membranes. 2. Hygroscopic and *mechanical* **properties** of wood. 119766
An easy method of estimating the stress-relaxation parameters To and b [for quantitative evaluation of *mechanical* **properties** of the cell wall of higher plants]. 121318
Energy usage and effluents from chemical and *mechanical* **pulping** systems. 119758
Current questions on cellulose manufacture; *mechanical* **pulp-refiner** mechanical pulp. 119771
Mechanically-deboned **red** meat. 117004
Factors associated with resistance to *mechanical* **[seed]** damage in snap beans (Phaseolus vulgaris L.) [Germination, vigor]. 122966
Impact of chemical and *mechanical* **site** preparation on wildlife habitat. 125414
Growth differences in a spruce [Picea] plantation with chemical and *mechanical* **weed** control (preliminary report). 123102
Influence of the methylamine and dyeing treatment on **wool** *mechanical* properties. 117014

MECHANIZATION

Agricultural *mechanization.* 124666
Main trends for the further development of the *mechanization* of **cereal** harvesting in the German Democratic Republic. 124748
Conditions for *mechanization* in **cultivation** of sugarbeet crops. 124715
Tasks and limits of *mechanization* of **forestry** enterprises in industrial countries. 119751
An intensive system for *mechanised* **fruit** production. 122327
Mechanization of the **grape** harvest. Relations with grape culture. 122206
The vineyard of tomorrow. Influence of *mechanization* of **grape** harvests. IV. Some elements of comparison between mechanized and manual grape harvests. 124722
The vineyard to tomorrow. Influence of *mechanization* of **grape** harvests. 124723
Seedling transplant and its effects on *mechanized* **greenhouse** lettuce production. 122505
Materials handling and *mechanization* of **hardy** [plant] nursery stock. 124662
Integrated *mechanization* and electrification of production in collective and state farms. 115356
Mechanized **logging** [in Sweden and the Netherlands]. 119761
The vineyard of tomorrow. Influence of mechanization of grape harvests. IV. Some elements of comparison between *mechanized* and **manual** grape harvests. 124722
Latest results in the modernization and automation of *mechanized* **milking.** 124697
Results of *mechanizing* **operations** in the forestry of the Czech Socialist Republic [Logging]. 119756
Mechanization in **preparing** the germinative bed for spring crops. 124716
Mechanized **removal** of straw from the fields. 124717
Problems relating to the possibilities of the *mechanization* of **rice** growing in Iran. 124728
Re-use of polythene in *mechanised* **sterilisation** of soil [Equipment]. 124663
Implementation of field layout for *mechanization* [of **sugarcane** production]. 124730
Mechanized round **wood** stores. 119665
Work *mechanization* on sloping land. 124719
Work *mechanization* in cultivation of soybeans. 124720
Work *mechanization* in the cultivation of sugarbeet. 124721

MECOPTERA

Panorpa (schweigeri) new in **Europe** *(Mecoptera,* Panorpidae). 124295
Sexual selection and nuptial feeding behavior in Bittacus apicalis **(Insecta:** *Mecoptera).* 123788
The scorpionflies—**Panorpa** *(Mecoptera)*—in the environs of Hannover and Hildesheim. 124237

MEDIASTINUM

A case of esophageal foreign body with *mediastinal* **abscess** formation in a dog. 119249

MEDICAGO

Evaluation of the Velvet Roll Seed Separator for its use in the purity analyses of **alfalfa** *(Medicago* sativa L.) and rapeseed (Brassica campestris L.) [Seed testing equipment]. 122058
Influence of Verticillium albo-atrum Rke et Berth. On the course of mitosis in apical meristem cells of **lucerne** *(Medicago* media Pers.) roots. 122618
Phytoalexin production by **lucerne** *(Medicago* sativa L.) in response to infection by Verticillium. 122710
The effects of interspecific competition in *Medicago* **sativa** L [alfalfa]. II. heritability evaluation of competition effects. 120800
Biosynthesis of isoflavonoid phytoalexins in *Medicago* **sativa** [alfalfa]: the biosynthetic relationships between pterocarpans and 2'-hydroxyisoflavans. 121441
Alfalfa, lucerne: *Medicago* **sativa** (Leguminosae-Papilionatae). 121939
Competition between *(Medicago* **sativa** L. [Alfalfa] local ecotype) and tall fescue (Festuca arundinacea Schreb. cultivar Ludion) fertilized with increasing rates of nitrogen. 122116
The effects of interspecific competition in *Medicago* **sativa** L. [Alfalfa]. I. Modifications observed in two cultivars after four years. 122139

MEDICAL

The clinical nutrition program at **Albany** *Medical* College. 116524
Biological methods of toxicological evaluation of *medical,* **food,** industrial and pesticide products. 116254
Medical **psychology** and veterinary medicine. 118440
Application of research on seed proteins in the area of nutrition and *medical* **research.** 116387
Medical and **social** aspects of rural community of Santa Ines [Health, Venezuela]. 115198
Medical and **surgical** treatment of canine acute gastric dilation. 119114
Referral guidelines for the Berkeley **Veterinary** *Medical* group. 118472
Referral practice in a university **veterinary** *medical* teaching hospital. 118473
The Berkeley **Veterinary** *Medical* Group: a speciality practice. 118474

MEDICINE

Constituents of West **African** *medicinal* plants. XV. Dinklacorine, a new biphenyl dibenzodioxin alkaloid from Tiliacora dinklagei. 121250
The practicing veterinarian—Contributions to **comparative** *medicine.* 118551
Effect of **deworming** *medication* on the microbial flora of the upper gastrointestinal tract of dogs. 118816
Dry active yeasts [in **human** *medicine].* 116295

Scientific appraisal of some medicinal plants in the indigenous & modern systems of *medicine* [**India**]. 116782
Remarks on *medicinal* **melliferous** plants grown in Piedmont for liquor. 122514
Honey in *medicine* [Includes **nutritional** aspects]. 116490
Medication of **piglets** via feeding tube. 118510
Scientific appraisal of some *medicinal* **plants** in the indigenous & modern systems of medicine [India]. 116782
Contribution to the study of *medicinal* **plants** of French Guiana. 120095
An experiment in **preventive** *medicine* in a rural setting [Health, Venezuela]. 115197
Medicinal **species** of Valeriana in the USSR. 119961
Plants regarded by Africans as being of *medicinal* **value** to animals. 118543
Medical psychology and **veterinary** *medicine*. 118440
Corticosteroids in **veterinary** *medicine*. 118448
Ethical referrals [in **veterinary** *medicine]*. 118467
European Community study on information retrieval systems for the field of literature in **veterinary** *medicine*. 118494
Advisory services of **veterinary** *medicine* attached to regional institute in Halle and its role in encouraging beginning of industralized livestock production units. 118501
Involvement of **veterinary** *medicine* in organizing an industrialized pig farm. 118507
Literature on **veterinary** *medicine* in the German Democratic Republic: postulates, positions, prospects. 118508
Regional Institute of **Veterinary** *Medicine* in Dresden—its responsibility for full implementation of technical-scientific progress. 118516
Socialist Unity Party of Germany plays leading role in developing in the German Democratic Republic the Society of **Veterinary** *Medicine*. 118522
Tropical **veterinary** *medicine* [course] for the veterinary laboratory [Education, Scotland]. 118556
Outstanding scientist and organizer of Russian **veterinary** *medicine* (125th anniversary of the birthday of S. S. Evseenko). 118573
Rationalisation of clinical-chemical methods for examinations in **veterinary** *medicine* [for metabolic control in industrialized livestock farming]. 119172

MEDULLA
Diphosphoinositide metabolism in bovine **adrenal** *medulla*. 117624
Discharge pattern of *medullary* **respiratory** neurones during thermal polypnea [Cats]. 117833

MEGACHILE
Some aspects of the biology and control of Sapyga pumila Cresson, a parasite of the alfalfa leafcutter bee, *Megachile* **pacifica** P. (Rotundata) (F.). 123294

MEGACHILIDAE
The biology of Dianthidium heterulkei heterulkei Schwarz, with a description of the larva (**Hymenoptera:** *Megachilidae)*. 124168

MEGATERIUM
Electron microscopy and X-ray photoelectron spectroscopy of oxygen plasma-etched bacterial spores and cells [**Bacillus** *megaterium*, Bacillus subtilis, Micrococcus lysodeikticus]. 120542

MEGATOMA
Effects of mating on female inhibition and egg production in the black carpet beetle, **Attagenus** *megatoma* F. 123529
Food utilization by **Attagenus** *megatoma* and Anthrenus flavipes. 123532

MEIOSIS
Induction of *meiotic* **anomalies** in Allium cepa L. [Onions] by urea. 120474
Meiotic **behaviour** of F1 hybrids between Triticale forms of different ploidy level exceedng the parents in fertility. 120644
The synaptonemal complex in the course of *meiotic* **chromosome** pairing and recombination [Neurospora rassa, maize, barley]. 120756
Disturbances at *meiosis* in **octoploid** and hexaploid Triticale forms. 120640
Depolyploidization of tetraploid parthenogenetic clones of silkworm [Bombyx mori] by the method of *meiotic* **parthenogeneisis.** 124506
Genetic recombination in Coprinus [Iagopus, Fungi]. V. Repair synthesis of deoxyribonucleic acid and its relation to *meiotic* **recombination.** 120780
Peculiarities of histone synthesis in *meiosis* and its **relation** to chromosome structure and behaviour [Lilium candidum]. 120591
Studies on the developmental physiology in rice pollen. XXX. Effects of excessive nitrogen top-dressed at *meiotic* **stage** on the amino acid metabolism and the development of pollens. 121549

MELAMPODIUM
Naturally occurring terpene derivatives. 60. On a new diterpene from *Melampodium* **perfoliatum** (Carv.) A. Gray. 121001

MELAMPSORA
Fungicides for control of poplar leaf rust *[Melampsora* **larici-populina]** and effects of control on growth of Populus nigra cv. 'Sempervirens' and Populus X euramericana cv. 'I-214'. 122667
Biology of *Melampsora* **lini** (Pers.) Desm., a causal agent of flax rust. 122650
Field observations on the resistance of poplars infested by *Melampsora* **sp.** 122573

MELANINS
Ultrastructure of *melanin* **formation** in Thielaviopsis basicola [Fungi]. 120558
Melanin-like **substances** in the soil under apple trees. 121655

MELANOMA
A case of *melanoma* in a **horse.** 119191
Melanoma of the **lower** eyelid of a dog. 119217

MELANOPHILA
Wax secretion in the infrared sensory pit of *Melanophila* **acuminata** (Coleoptera: Buprestidae). 124136

MELANOPLUS
Embryonic growth and hatchability of eggs of the two-striped grasshopper, *Melanoplus* **bivittatus** (Orthoptera: Acrididae), in relation to date of oviposition and weather. 123857
Structure, innervation, and distribution of sensilla on the wings of a grasshopper *[Melanoplus* **sanguinipes].** 123864

MELASTOMACEAE
Sonerila pedunculosa Thw. *(Melastomataceae)*—**a new** record for India. 120005

MELIA
The structure of a compound isolated from the fruit pulp of *Melia* **azadirachta** Linn. 119847

MELINIS
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some perennial tropical legumes and molasses-grass [Varieties, *Melinis* **minutiflora].** 121886
Speed of establishment and hay production of ten forage legumes and molassesgrass [Varieties, *Melinis* **minutiflora].** 121887

MELIOLACEAE
The *Meliolaceae* of **Hawaii** [Fungi, dark mildews]. 120281

MELIPONA
Notes on *Melipona* **species** described by Lepeletier in 1836 (Hymenoptera, Apidae). 124417

MELLIFEROUS *see* HONEY

MELOIDAE
Bionomics of the **bee-associated** *Meloidae* (Coleoptera); bee and plant hosts of some Nearctic meloid beetles—a synopsis. 123221

MELOIDOGYNE
Response of soybean cultivars grown in root-knot nematode *[meloidogyne* **incognita]** inected soil treated with Fumazone 86 and other nematicides. 122925
Effects of nematodes on the physiology of vegetable crops. V. Influence of farmyard manure application on the root-knot nematode *[Meloidogyne* **incognita]** injury in some vegetable-crops. 122979
Infestation of melon seedlings by the larvae of the root-knot nematode, *Meloidogyne* **incognita.** 123004
A study on the peach rootstock (Nemaguard) resistance against root-knot nematodes Meloidogyne incognita and *Meloidogyne* **javanica)** in Aegean region. 122912
Studies on the chemical changes induced by the infection of the rootknot **nematode** *(Meloidogyne* incognita) in tomato & eggplant & the stunt nematode (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
A study on the peach rootstock (Nemaguard) resistance against root-knot **nematodes** *Meloidogyne* incognita and Meloidogyne javanica) in Aegean region. 122912
A survey study on root-knot **nematodes** *(Meloidogyne* spp.) in vegetable growing greenhouses in South Anatolia region. 122913

MELOLONTHA
Study of some pathological characters and of specificity of the lethargy of *Melolontha* **melolontha** larvae (Coleoptera: Scarabaeidae). 123234
Damage to [tree] seedlings caused by *Melolontha* **melolontha.** 123479

MELOLONTHIDAE
Contribution to the study of Dynastinae (**Coleoptera,** *Melolonthidae).* 124429
Cyclocephala hardyi a new species from Brazil (Coleoptera, *Melolonthidae,* **Dynastinae).** 124433

MELONGENA *see* SOLANUM

MELONS
Transmission of citrus tristeza virus by the *melon* **aphid** [Aphis gossypii]. 122860
Characteristic of water-soluble fraction of proteins from organs of plants infested by root-knot nematodes [Vegetable and *melon* **crops].** 123001
Response of plants [of vegetable and *melon* **crops**] to a combined action of nematocides and ultra-violet irradiation in the conditions of protected cultivation. 123006
An in vitro study of the non-specific esterases of the *melon* **fly,** Dacus cucurbitae Coq. and their reactions with organophosphate and carbamate compounds. 123388
Molybdenum deficiency in *melons* in a **Planosol** from the Tavira area (Algarve, Portugal) [Chlorosis, fertilizers]. 122885
Infestation of *melon* **seedlings** by the larvae of the root-knot nematode, Meloidogyne incognita. 123004

MELTING
Washing of trimethylamine by the water of the *melting* **ice** used for preserving **sea** bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052
Studies on the promotion of **snow** *melting* in a grassland. 2. Meteorological and climatological consideration on desirable time for scattering black powders and the period of the promotion of snow melting. 125345
Seasonal snow accumulation, *melt* and **water** input—a New England model. 115179

MEMBRACIDAE
The genus Thuris Funkhouser, 1943, with a description of a new species [Thuris depressus] (Homoptera, *Membracidae)* **[Brazil].** 124422
Biology and presocial behavior of Platycotis vittata (**Homoptera:** *Membracidae).* 123797

MEMBRANES
Lactoperoxidase-catalyzed lipid peroxidation of microsomal and **artificial** *membranes* [Milk, beef liver]. 116854
Composition and nutritional effectiveness of *membranes* of **bakers'** yeast (Saccharomyces cerevisiae) [Rats]. 116306
Photosensitivity of artificial **bilayer** *membranes:* lipid-chlorophyll interaction. 121314
Black widow spider venom: effect of purified toxin on lipid **bilayer** *membranes.* 124158
Calcium uptake by isolated intestinal brush **border** *membranes* folowing dietary calcium restriction [Rats]. 116476
X-ray diffraction from [spinach] **chloroplast** *membranes* oriented in a magnetic field. 120458
Reversible particle movements associated with unstacking and restacking of **chloroplast** *membranes* in vitro. 120482
Interaction of adenine derivatives with **chloroplast** *membranes.* 120940
The chick **chorioallantoic** *membrane* as a model system for the study of tissue invasion by viral transformed cells. 118674
Plasma-membrane **components** can be removed from isolated [pig] lymphocytes by the bile salts glycocholate and taurocholate without cell lysis. 117583
Examinations of external **conidial** *membranes* of some Penicillium species. I. [Fungi]. 120519
Permeability of vitelline membrane for ions of sodium, calcium and magnesium **[Egg** *membranes].* 117041
Near ultraviolet light inactivation of an **energy-independent** *membrane* transport system in Saccharomyces cerevisiae [Yeasts]. 121313
Subcellular localization of 3-hydroxy-3-methylglutaryl coenzyme A reductase and other *membrane-bound* **enzymes** in sweetpotato roots [healthy and infected with Ceratocystis fimbriata]. 121760
Comparative studies of human, equine, porcine and bovine **erythrocyte** *membrane* sialoglycoproteins. 117634
Beer filtration. V. Layer filtration, *membrane* **filtration,** short-term heating. 116669
Status of fat **globule** *membrane* proteins in sterilized and chilled buffalo milk. 116886
Lipid ordering and enzymic activities in chromaffin **granule** *membranes* [Cattle]. 117663
Permeability of the **inner** *membrane* of yeast mitochondria: relationship between structure and activity [Saccharomyces cerevisiae]. 120938
Involvement of bristle coat structures in surface mengrane formations and *membrane* **interactions** during coenocytotomic cleavage in caps of Acetabularia mediterranea [Algae]. 120481
Bovine colostral gamma-glutamyltransferase; its localization in skim **milk** *membrane* and irrelevance to secretory immunoglobulin A. 118685
New data on the structure of the cryptal region of the small intestine **mucous** *membrane* in rodents and dogs. 117653
Quantity of cells of the **mucous** *membrane* of the small intestine in irradiated mice as an index of the protection degree of this organ by radioprotectors. 119233
TEM [transmission electron microscopy] studies of hen's **perivitelline** *membrane* hydrolysis by cock sperm in vitro. 118386
Interpretation of supermolecular organization of **photosynthetic** *membranes* [in algae and some higher plants, peas, onion, spinach]. 121033
Selective distribution of newly formed molecules of chlorophylls a and b at different depth of fragmentation of **photosynthetic** *membranes* by digitonin. 121037
Actin [purified from pig muscle] associated with purified lymphocyte **plasma** *membrane.* 117677
Properties of the interaction between bovine thyrotropin and bovine thyroid **plasma** *membranes.* 117791
Glycoproteins of the **plasma** *membrane* of Dictyostelium discoideum [Fungi] during development. 120998
Membrane **polypeptides** and chlorophyll-protein complexes of maize mesophyll chloroplasts. 121440

The *membrane* **potential** of the prothoracic gland cells in Galleria mellonella. 124191
Photosynthetic activities of *membrane* **preparations** of the blue-green alga Phormidium luridum. 121047
Application of *membrane* **process** in wine production. 117220
Organization of *membrane* **proteins** in the intact myelin sheath. Pyridoxal phosphate and salicylaldehyde as probes of myelin structure [Cats]. 117788
Study of amino acid composition and biosynthesis of *membrane* **proteins** in chloroplast biogenesis. 120946
Study of *membrane-bound* **ribosomes** during pea chloroplasts formation. 121608
Study of glycoprotein extracted from **synovial** *membranes* of oxen. 117871
Comparative effects of several inhibitors of chloroplast **thylakoid** *membrane* synthesis in greening jack bean. 121621
The cleaning of tubular cellulose acetate **ultrafiltration** *membranes* [Whey proteins, cleaning procedure]. 116911
Asymmetric distribution of concanavalin A binding sites on yeast plasmalemma and **vacuolar** *membrane* [Saccharomyces cerevisiae]. 120906
Permeability of **vitelline** *membrane* for ions of sodium, calcium and magnesium [Egg membranes]. 117041
Effect of a high hydrostatic pressure on **wood** *membranes.* 2. Hygroscopic and mechanical properties of wood. 119766
Discrimination between cholesterol and ergosterol by **yeast** *membranes* [Saccharomyces cerevisiae]. 120922

MEMORY

In *memory* of **Finaida** Petrovna Bochantseva (1907-1973) [Botanists]. 119863
In *memoriam* [**Gerry** B. Schnelle, veterinarians]. 118555
Memory of **Gian** Pietro Ballatore [Agronomists]. 122126
In *memory* of Dr. **Maria** Peringer [Mycologists, Austria]. 119918

MENINGITIS

Bacterial *meningitis* [in the dog]: a case study and review. 118775

MENSURATION

Investigations on the selection forest with trees of varied age of Belluno *[Mensuration,* **Pinus,** Picea]. 119426
Influence of spacing on growth of loblolly pines [Pinus taeda] planted on eroded **sites** *[Mensuration].* 119548

MENTHA

The new mint variety"Wasenami" *[Mentha* **arvensis** var. Piperacens X Mentha spicata var. crispa]. 122542
Effects of N:P:K [nitrogen: phosphorus: potassium] fertilizers on growth, development & essential oil content of *Mentha* spp. 121134
The new mint variety"Wasenami" [Mentha arvensis var. Piperacens X *Mentha* **spicata** var. crispa]. 122542

MENUS

Holding down costs for expanded fast **food** *menus.* 116625

MERCERIZATION

Reactivity and fine structure of **cotton** *mercerized* in sodium hydroxide or liquid ammonia. 117199
Never-dried cotton fibers. IV. **Shrinkage** on *mercerization.* 117196

MERCURY

Mercury in **bottom** sediments of Rietvlei reservoir. 125550
Mercury in **chicken eggs.** 116178
Studies on a microbiological assay of the distribution of *mercury* **containing** seed disinfectants on cereal seed [Rhizoctonia solani]. 122678
Mercury **contamination** of fish and other food products: investigation in the province of Rome. 116247
Determination of *mercury* in **fish:** contribution to the state of pollution in the Adriatic Sea [Food contamination]. 116171
Determination of *mercury* in **food** and biological products. 116029
Study on uptake of *mercury* by **mushroom** from the compost and casing soil. 121726
Mercury **poisoning** in a wild mink. 119261
Mercury and **selenium** distribution in a defined area and in its population [Tuscany, Italy, concentration in foods]. 116037
Description of an infrared irradiation of quartz glass for the determination of *mercury* in **water** and food. 116074

MERGERS

Studies in Bignoniaceae. 19. **Generic** *mergers* and new species of South American Bignoniaceae [New taxa]. 119935

MERISTEMS

In vitro culture of shoot **apical** *meristem* of Petunia hybrida for Mass production of plants. 121690
Influence of Verticillium albo-atrum Rke et Berth. On the course of mitosis in **apical** *meristem* cells of lucerne (Medicago media Pers.) roots. 122618
The influence of a protein synthesis inhibitor on the acceptance and eventual dependance of the *meristematic* **cells** of Allium sativum L. [Garlic] on dimethylsulfoxide. 121596
Growth of stellaria media, capsella bursa-pastoris and Senecio vulgaris plantlets from **cultured** *meristem* tips. 121330
Morphogenesis in Gleditsia triacanthos L. X. Reconstitution of the *meristem* of the **outline** of 6th leaf after root incision. 121347
Gene-dependent growth of **plant** *meristems,* investigated on the development of isolated roots of different genotypes of Antirrhinum majus L. 121432
Ultrastructural changes in the **root** *meristem* cells of Rubus chamaemorus L. (Cloudberry). 120555
Ultrastructural localization of acid phosphatase in **root** *meristem* of Alfalfa vulgaris. 120556
Chromosome aberrations in **root** *meristematic* cells after treatment with [the mutagen] NMH (N-methyl-N-nitrosourea). 120659
Influence of Cynkotox (zineb) on mitotic activity and course of mitosis in **root** *meristem* of Allium cepa L. **seedlings** [Onions]. 122617

MERODON

Estimates of population size and longevity of adult narcissus bulb **fly** *Merodon* equestris Fab. (Diptera: Syrphidae). 123410

MERULIUS

Damage caused by the dry-rot fungus *[Merulius* **lacrimans]** in [the forests of] Slovenia. 122613

MESENTERY

Quantitative microanalysis of cell walls of Saprolegnia diclina Humphrey and **Tremella** *mesenterica* Fries [Fungi, chemistry]. 120935

MESODERM

The possible differentiation of osteogenic elements in vitro from [embryonic] chick **limb** *mesodermal* cells. I. Morphological evidence. 117649
Observations on the *ecto-mesodermal* **relations** in the morphogenesis of limb buds [Chick embryos]. 117568

MESOPHYLL

Membrane polypeptides and chlorophyll-protein complexes of **maize** *mesophyll* chloroplasts. 121440

MESOSTIGMATA

Contribution to the knowledge of Zerconidae fauna from North Korea **(Acari:** *Mesostigmata).* 124431
Biology and feeding behaviour of the predatory mite, Amblyseius **brazilli** *(Mesostigmata:* Phytoseiidae). 123901
Laboratory studies on the autoecology of three species of the [Macrocheles] glaber group (Acarina, *Mesostigmata).* 3. **Sex** ratio and population dynamic. 124149

MESOTHORAX

The *mesothoracic* **tympanic** organ of Corixa punctata Ill. (Heteroptera, Corixidae). 124032

METABOLISM

Fever and amino **acid** *metabolism* [Nutritional effects]. 116515
Volatile fatty **acid** *metabolism* in sheep. 1. Average daily volatile fatty acid production in the rumen of sheep fed lucerne hay. 117869
Environmental control of crassulacean **acid** *metabolism* in Welwitschia mirabilis Hook. Fil. in its range of natural distribution in the Namib desert. 120387
Studies on the developmental physiology in rice pollen. XXX. Effects of excessive nitrogen top-dressed at meiotic stage on the amino **acid** *metabolism* and the development of pollens. 121549
Differences in the action of synthetic and biogenic ethylene on amino **acid** *metabolism* in pea seedlings. 121653
Metabolic **activity** of Candida lipolytica [yeasts] adsorbed on bentonites with hydrophobic chains. 120986
Behaviours of pH [hydrogen-ion concentration] and volatile fatty acids in rumen juice of sheep afflicted with latent **alimentary** *metabolic* acidosis. 119153
Calcium, phosphate, and skeletal metabolism in latent **alimentary** *metabolic* acidosis in sheep. 119154
Changes of ruminal mucosa and blood of sheep in presence of latent **alimentary** *metabolic* acidosis. 119156
Latent **alimentary** *metabolic* acidosis of ruminants. 119164
Parameters of acid-base balance in sheep in conjunction with latent **alimentary** *metabolic* acidosis. 119167
The regulation of enzyme synthesis in **arginine** *metabolism* of Saccharomyces cerevisiae [yeast, genetics]. 120733
Sphingolipid **base** *metabolism.* Partial purification and properties of sphinganine kinase of [bovine] brain. 117795
Effect of high temperatures in poultry houses on some indices of the **carbohydrate** *metabolism* in layers. 117948
Carbohydrate *metabolism* and spore germination [Fungi]. 121116
Effects in the rat of environmental temperature, diet dilution, and treadmill running on liver and adipose enzymes and *metabolism* of 14C **[carbon** isotope]-glucose: a multiple regression analysis. 116428
Metabolism of 109 **Cd** [cadmium isotope] in rats fed normal and low-calcium diets. 119259
Results obtained from *metabolism* **checks** on idustrialized dairy units. 119174
Toxicity, penetration, and *metabolism* of **chlordimeform** and its N-demethyl metabolite in cabbage looper larvae [Trichoplusia ni]. 123407
Effects of ethanol on bile acid and **cholesterol** *metabolism* [Diet]. 116278
Uptake and **continued** *metabolic* activity of Azotobacter within fungal protoplasts [of Rhizopogon]. 121354
A veterinary institute at regional level and its approach to *metabolic* **control** of dairy cows on industrialized units. 119149
Application of a *metabolic* **control** program in industrialized cattle farming units. 119151
Organization of *metabolic* **control** in a dairy unit with 2,000 head of cattle [Detection of disorders]. 119166
Planning of random sampling in *metabolic* **control** of dairy cattle herds. 119169
Rationalisation of clinical-chemical methods for examinations in veterinary medicine [for *metabolic* **control** in industrialized livestock farming]. 119172
Metabolic **control** of microconidiogenesis in the wild strain of Neurospora crassa. 121311
Response of some parameters of *metabolism* in **dairy** cows to ammonified straw pellet feed. 118121
The **degradative** *metabolism* of juvenoids by insects. 123955
Metabolism of **Delta7-** and Delta5,7- sterols by Phytophthora cactorum [Fungi]. 120934
Metabolism of **2,4-dichlorophenoxyacetic** acid. 10. Identification of metablites in rice root callus tissue cultures. 121513
Metabolism of **2,4-dichlorophenoxyacetic** acid. IX. Gas-liquid chromatography of methyl esters of amino acid conjugates. 123728
Metabolism and **differential** susceptibility of crabgrass [Digitaria sanguinalis] and witchgrass [Panicum capillare] to simazine and atrazine [herbicides]. 123211
Diphosphoinositide *metabolism* in bovine adrenal medulla. 117624
Clinical-chemical examinations to protect industrialized dairy production units against *metabolic* **diseases.** 119157
The role of the pentose cycle in the *metabolism* of **Drosophila** melanogaster revealed by mutations inactivating glucoso-6-phosphate- and 6-phosphogluconatedehydrogenase. 123881
Glyceryl guaiacolate paralysis time in rats pretreated with some microsomal **drug** *metabolizing* enzyme inducers. 118458
Dynamics of **ecdysone** *metabolism* after ingestion and injection in Locusta migratoria. 123921
Energetic *metabolism* of pupae in Scotia segetum Den. Et Schiff. under normal conditions and under conditions of intoxication by sodium fluoride. 123833
The **energy** *metabolism* of young Jersey and Friesian calves fed fresh milk. 117561
Time dependent effects on contractile properties, fibre population, myosin light chains and enzymes of **energy** *metabolism* in intermittently and continuously stimulated fast twitch muscles of the rabbit. 117877
Relationships between *metabolizable* **energy** values for poultry and some physical and chemical data describing Canadian wheats, oats and barleys. 118039
The connection between active monosaccharide transport and cell **energy** *metabolism* of higher plants. 121385
Energy *metabolism* in the wolf spider Pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124113
Acetylcholine and its *metabolic* **enzymes** in developing antennae of the moth, Manduca sexta. 123873
Intervarietal differences in some *metabolic* **functions** associated with protein acumulation in rice grains [in breeding programmes]. 121578
Toxic effects of lead on growth & *metabolism* of **germinating** rice (Oryza sativa L.) seeds & on mitosis of onion (Allium cepa L.) root tip cells. 122952
Dimorphism in Ustilago cynodontis [Fungi]. II. **Glucidic** *metabolism.* 120888
Glucose *metabolism* of mammalian erythrocytes [Dogs, cats, horses]. 117803
Glucose *metabolism* of orange-colored Streptococcus bovis [isolated from bovine rumen]. 117811
Blood metabolities and **glucose** *metabolism* in the fed and fasted chicken. 118099
Effect of oral contraceptives and vitamin B6 supplements on alanine and **glycine** *metabolism.* 116277
Metabolism and **growth** yields in Bacteroides ruminicola strain B14 [found in the rumen]. 117828
Metabolism of **2,4-3H-14alpha-methyl-5alpha-ergost-8-enol** and 2,4-3H [hydrogen isotope]-5alpha-ergosta-8,14-dienol in ochromonas malhamensis [Algae]. 121236
Effect of dietary fat on **hepatic** *metabolism* of 14C [carbon isotope]-oleic acid and very low density lipoprotein triglyceride in the gerbil [Coconut or safflower oil]. 116425
Metabolism of the **herbicide** methazole in lactating cows and laying hens. 123091

Synthesis and *metabolic* fate of **hesperetin-3-14C** [carbon isotpe, the predominant flavonoid in lemons and sweet oranges]. 117279
Nutritional requirements and *metabolic* **inhibition** of some acarid mites [Tyrophagus putrescentiae, Caloglyphus berlesei, control]. 123547
The regulation of vitamin D *metabolism:* **interaction** of vitamin D and calcium [Chicks]. 117711
Intermediary *metabolism* of [ruminant] adipose tissue. 117683
Juvenile hormone action on the **intermediary** *metabolism* in Indian meal moth [Plodia interpunctella] larvae. 123543
Metabolic **intermediates** and lactate diffusion in active dog skeletal muscle. 117540
Effect of varying levels of dietary protein on tumor development and **lipid** *metabolism* in rats exposed to aflatoxin. 116184
Comparison of the binding of various bile acids and bile salts in vitro by several types of [dietary] fiber [on **lipid** *metabolism].* 116422
Biotin status and **lipid** *metabolism* in adult obese hypercholesterolemic inbred rats. 116492
The effect of carbohydrates and fats in the diet on the intensity of **lipid** *metabolism* changes in protein deficiency. 116570
Lipid *metabolism* of fungal spores during sporogenesis and germination. 121119
Metabolism of **liver** triacylglycerols in rats tube-fed a threonine-devoid diet. 116497
C-6 [carbon-6] oxidation of ascorbic acid: a **major** *metabolic* process in animals [Monkeys, rats]. 117581
Manganese *metabolism* in cows and goats. 117596
Studies on **methionine** *metabolism.* 2. Biochemical and histological studies on rats [Diets]. 117995
Morphological effects and *metabolism* of the **molting** hormone in Aedes aegypti cultured cells. 123983
Brain **monoamine** *metabolism* of turkey hens in various stages of their reproductive life cycle. 118223
Problems of **nitrogen** *metabolism* in monogastric animals. 117575
Studies on the **nitrogen** *metabolism* of broilers fed 15N [nitrogen isotope] labelled **wheat.** 1. Problems, experimental programme and excretion. 118002
Studies on the **nitrogen** *metabolism* of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Nitrogen *metabolism* and productivity of cows fed granules made of whole forage plants. 118172
Pathway of **nitrogen** *metabolism* after fixation of 13N-[nitrogen isotope]-labeled nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167
Post infection changes in **nitrogen** *metabolism* of pumpkin (Cucurbita maxima D.) as affected by yellow mosaic virus. 122843
Metabolism of **N,N'-diphenylurea** by cytokinin-dependent tobacco callus: identification of the glucoside. 121423
Phosphorus and **nucleic** *metabolism* in wheat with cytoplasmic male sterility. 121478
Metabolism of **o-phthalic** acid by different gram-negative and gram-positive soil bacteria [Nocardia, Arthrobacter, Pseudomonas]. 124775
Effect of microbial metabolites on the processes of *metabolism* in the **organism** of pigs. 117713
Polyamine and **ornithine** *metabolism* during the germination of conidia of Aspergillus nidulans [Fungi]. 120924
Inhibition of cooperative enzymes by sustrate-analogues. Possible implications for the physiological significance of negative cooperativity illustrated by **phenylalanine** *metabolism* in higher plants. 121226
Phospholipid *metabolism* in red and white insect muscle [Schistocerca gregaria]. 123986
Oxyhydroquinone—an intermediate compound of the **preparatory** *metabolism* of paraoxybenzoic acid in yeast, Candida tropicalis. 121035
Effect of proline on *metabolic* **processes** related to frost resistance of winter wheat. 121559
Metabolism, **productivity** and reproductive ability of heifers grazed on pasture with different proportion of estrogenically active white clover. 118406
Physiological studies on the effects of nutritional imbalance on the central nervous system: effects of thiamine deficiency on the regional **protein** *metabolism* in the brain of chicken, Gallus domesticus. 117642
Recent findings on **protein** *metabolism* in swine during fattening, with particular reference to correlations with pork quality. 117857
The effect of ammonia gas on some indexes of the **protein** *metabolism* of broilers. 117949
Characteristic data on the kinetics of **protein** *metabolism* as determined in studies with 15N [nitrogen isotope] labelled feeds [Rats]. 117981
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between **protein** *metabolism* data and the content of amino acids in feed proteins. 117991
Protein *metabolism* in broiler tissues at different levels of energy in feeding rations. 118173
Early post-embryonic changes in **protein** *metabolism* and DNA synthesis in the thymus of chicks, normal and infected with Salmonella pullorum; autoradiographic study. 118928
Analysis of serum arginase activity: possible applications in industrialized livestock production [to detect disorders in **protein** *metabolism].* 119150
Peculiarities of **protein** *metabolism* in maize **green** leaf in relation to heterosis. 120809
Regulation of **protein** *metabolism* during spore germination [Fungi]. 121124
Acidosis and level of *metabolism* **[Rabbits].** 117917
Genetic influence on nutritional aspects of *metabolic* **regulation.** I. [Mice]. 118262
Effects of diets on cold tolerance and *metabolic* **responses** to cold in fasted rats. 116467
RNA *metabolism* in chick embryonic skin. 117602
RNA *metabolism* in apices of Pharbitis nil during floral induction. 121323
Studies on [barley] **root** *metabolism* under poorly aerated conditions. 121420
Calcium, phosphate, and **skeletal** *metabolism* in latent alimentary metabolic acidosis in sheep. 119154
Metabolic **sleuths** [Alfalfa, rats]. 117062
Giant seaweeds [Algae] of the seacosts—producers of raw materials and **specialists** in *metabolism.* 120954
Synergism and antagonism of hormones with **stimulation** of *metabolism.* 117863
Effect on the reproductive functions of female rhesus monkeys of feedng irradiated wheat flour and potato diet *[Metabolic* **studies].** 116396
Concepts for continuous monitoring [ruling out defects] of *metabolism* of **swine,** an element of general health and performance control. 119158
Testis *metabolism* in protein deficiency: effect of PMS [pregnant mare serum] gonadotrophin and testosterone propionate [Rats]. 117766
The binding and *metabolism* of **testosterone** by the chick oviduct. 118364
Thymidine *metabolism* and DNA synthesis in Newcastle disease virus-infected cells. 118810
Theoretical model of ruminant **adipose tissue** *metabolism* in relation to the whole animal. 117685
The **tryptophan** *metabolism* and the increase of ommochromes synthesis during the embryonic development of Carausius morosus. 124055
Effect of different planes of nutrition on **water** *metabolism* in dry Zebu cows. 118077

METABOLITES

Effects of diethylstilbestrol, zeranol and sex on live, **blood** *metabolite,* carcass and endocrine characteristics of lambs. 117767
Blood *metabolities* and glucose metabolism in the fed and fasted chicken. 118099
Changes of the content of lipid and **carbohydrate** *metabolites* in the lymph of cattle in ontogenesis. 117930
Translocation of 14C [**carbon** *isotope]-metabolites* to the head in sunflower. 121509
A review of the toxicological, residual, and environmental effects of nitrapyrin and its *metabolite* **6-chloropicolinic** acid. 125413
Determination of polychlorinated biphenyls with **DDT** *metabolites* by reaction gas chromatography. 123740
Possible interrelationship between *metabolite* **flux** and appetite. 116371
Concentrations of **intermediate** *metabolites* in the blood and hepatic tissues of pregnant and non-pregnant ewes. 117755
Investigations on a *metabolite* from **Lactobacillus** bulgaricus which neutralizes the effect of enterotoxin from Escherichia coli pathogenic for pigs. 118784
Effect of acute temperature stress on the plasma catecholamine, corticosterone and *metabolite* **levels** in the pigeon. 117638
Levels of some *metabolites* in **liver** of chick embryos and recently hatched chicks. 117749
Sesquiterpenoid stress compounds of Datura stramonium: biosynthesis of the three **major** *metabolites* from (1,2-13C[carbon isotope]) acetate and X-ray structure of 3-hydroxylubimin. 121009
Effect of **microbial** *metabolites* on the processes of metabolism in the organism of pigs. 117713
Auxinic activity of *metabolites* of **microorganisms** from the rhizosphere and soil covered by tall herbaceous vegetation. 124812
Toxicity, penetration, and metabolism of chlordimeform and its **N-demethyl** *metabolite* in cabbage looper larvae [Trichoplusia ni]. 123407
Formation of nicotinamide ribose diphosphate ribose, a **new** *metabolite* of the NAD [nicotinamide adensine denuclotide] pathway, by growing mycelium of Aspergillus niger [Fungi]. 120857
Cyclosporin A, a **peptide** *metabolite* from trichoderma polysporum (Link ex Pers.) Rifai [Fungi], with a remarkable immunosuppressive activity. 121073
Biosynthetic studies with 13CO2 [carbon dioxide isotope] of secondary **plant** *metabolites.* Nicotiana alkaloids. 1. Initial experiments [Tobacco]. 121516
Quantitative gas chromatographic analysis of dimethoate and several *metabolites* in **rape,** quail, and grasshopper tissues by derivatization. 123723
Preharvest development of aflatoxin B1 [a toxic, **secondary** *metabolite* produced by the fungus Aspergillus flavus] in corn in the United States. 122734
Discovery of gibberellin and gibberellin-like substances in the *metabolites* of **symbiotic** bacteria of Calamagrostis. 121098
Effect of *metabolites* of **symbiotic** bacteria on the seeds and growth of seedlings of Carex enervis C.a.m. 121100
Current aspects of the aflatoxin problem [caused by **toxic** *metabolites* of a common fungus, Aspergillus flavus, livestock]. 119282
Toxic *metabolites* of Amanita pantherina, Amanita cothurnata, Amanita muscaria and other Amanita species. 121263
Metabolites of **vitamin** D and their biological function [in animals and man]. 116527
High-pressure liquid chromatographic method for the determination of 25-hydroxycholecalciferol *[Metabolite* of **vitamin** D3] in cow plasma. 117549

METALS

Extraction of *metals* from **basalt** by humic acids. 124857
Resistance monitor and control for vacuum evaporation of *metals* and **carbon** [Plant protection]. 123025
Interactions of *metal* **cations** with lipid-depleted [spinach] chloroplasts. 121601
Collapsible *metal* tubes as containers for semi-fluid dairy products. 124685
Metal **contamination** of flatfish around a large submarine outfall. 125511
Interaction of genes and *metals* in **development** [in nutritional deficiency]. 116326
Heavy *metal* toxicity in vegetable crops. V. The effect of iron concentration in the nutrient solution on manganese toxicity in vegetable crops [Chlorosis]. 122980
Heavy *metal* concentrations in kidneys of urban gray squirrels [Environmental health]. 125520
Occurence of **heavy** *metals* in soils of the Warsaw city green s [Pollution]. 125549
Lichen ecology of metal spoil tips: effects of *metal* **ions** on ascospore viability. 120327
Metals in **organisms** from Saldanha bay and Langebaan lagoon prior to industrialization. 125551
Lichen ecology of *metal* **spoil** tips: effects of metal ions on ascospore viability. 120327
Direct determination of **trace** *metals* in cane juice, sugar & molasses by atomic absorption spectrophotometry. 117185
Atomic absorption spectrometric determination of eight **trace** *metals* in orange juice following hydrolytic preparation. 117275
Evaluation of *metals* in **wastewater** sludge. 125507

METAMORPHOSIS

Studies on the external metamorphosis of Musca domestica nebulo Fabr. (Diptera, Cyclorrhapha, Muscidae). II. *Metamorphic* **changes** in the thoracic region. 124015
Relationship between DNA synthesis, juvenile hormone and *metamorphosis* in **Galleria** larvae. 123950
Influence of a juvenile hormone analogue on *metamorphosis* and **reproduction** in the cricket, Plebeiogryllus guttiventris Walker. 123868
Changes in the total and differential haemocyte counts of Dysdercus cingulatus Fabr. (Heteroptera: Pyrrhocoridae) related to *metamorphosis* and **reproduction.** 124014

METASTASIS

General concepts of **tumor** *metastasis* in the dog and cat. 118469

METASTRONGYLUS

Giant cell pneumonia associated with lungworm *[Metastrongylus* **apri,** Metastrongylus saline] infection in pigs. 118731

METEOROLOGY

Crops and climatic change: USDA's forecasts criticized **[Agricultural** *meteorology].* 115199
The significance of *meteorology* in **animal** production. 117458
Studies on the promotion of snow melting in a grassland. 2. *Meteorological* and **climatological** consideration on desirable time for scattering black powders and the period of the promotion of snow melting. 125345
Forecasting the flowering stages of apple varieties in Kent, England, by the use of *meteorological* **data.** 122173
Balance of underground water and dynamics of moisture in the **areation** zone [in soil] in relation to *meteorologic* **factors** (1969-1973). 125216
The large area crop inventory experiment (Lacie). II. Yield etimates from *meteorological* **information** [Remote sensing]. 115157
Meteorological **problems** in smoke management [Burning of forest fuels by both wild and prescribed fires]. 119340

METERS

Studies on flower color in Chrysanthemum morifolium Ramat. III. Quantitative effect of major pigments on flower color variation, and measurement of color qualities of petals with a color **difference** *meter.* 121731
The *meter* **greeters** [Legislation, metric system]. 115786
Metering of **intravenous** versus oral nutrients and regulation of energy balance [Rats]. 116291
O2 [oxygen] transport in the alpaca (Lama pacos) at **sea level** and at 3,300 *meters.* 117897
A method of predicting the calibration curve for a neutron **moisture** *meter* [Soils]. 124752

METHACRYLATES

Behavior of cellulose grafted with poly **(methyl** *methacrylate)* and polyacrylonitrile toward some direct and reactive dyes. 119718

METHACRYLIC

Soil-release and textile propeties of *cotton/polyester-poly(methacrylic* **acid)** copolymer fabrics. 117200

METHANE
Mutation, repair mechanisms and transformation in the *methane-utilizing* **bacterium,** Methylococcus capsulatus. 117347
Possibilities of inducing economically useful mutations in maize by seed treatment with **ethyl** *methanesulphonate* and N-nitroso-N-methylurethan. 120647
Study on the effect of **ethyl** *methanesulphonate* and N-nitroso-N-methylurethan after treatment of seeds from maize inbred lines. 120650
Induced mutations in foxtail millet (Setaria italica Beauv.). II. Viable mutations in ear characters induced by gamma rays, EMS and dES **[ethyl** *methanesulphonate,* diethylsulphate]. 120840

METHANOL
Esterification of the hydrolysis product of the herbicide **dichlorfop-methyl** in *methanol.* 123090
Viscous product from activated sludge by *methanol* **fermentation.** 125501
Ultrastructure of microbodies of *methanol-assimilating* **yeasts** [Candida, Saccharomyces, Torulopsis]. 120486

METHIOCARB
Studies on the resistnace of hazelnut [Corylus] weevil (Balanicus nucum L.) to **carbaryl** and *methiocarb.* 123378

METHIONINE
Utilization of *methionine* **analogues** [Diets]. 116442
Evolution of lysine, *methionine* and **cystine** in a peanut meal after treatment by ammonia. 117177
Nitrogen retention in men fed isolated soybean protein supplemented with *L-methionine,* **D-methionine,** N-acetyl-L-methionine, or inorganic sulfate. 116435
Studies on *methionine* **metabolism.** 2. Biochemical and histological studies on rats [Diets]. 117995
Nitrogen retention in men fed isolated soybean protein supplemented with L-methionine, *D-methionine,* **N-acetyl-L-methionine,** or inorganic sulfate. 116435
Initiation of ovalbumin synthesis in chicken oviduct magnum. Transient labeling of the **NH2-terminus** by *methionine.* 117569
Disc microbiological method for the determination of lysine or *methionine* in **protein** hydrolysates [Nutritional quality]. 116504
Plasma amino acids of infants consuming soybean **proteins** with and without added *methionine.* 116436
Utilization of L-methionine sulfoxide, *L-methionine* **sulfone** and cysteic acid by the weaning rat. 116443

METHOTREXATE
Teratogenicity studies with *methotrexate,* **aminopterin,** and acetylsalicylic acid in domestic cats. 119194

METHOXY
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid chromatography-mass spectrometry] of *methoxy* **derivatives** of sterols [Olive and sunflower oils were employed]. 117318
Pigments of Gnomonia erythrostoma. IV. The synthesis of *5,8-dibenzyloxy-3-hydroxy-6-methoxy-1,4-napthoquinone* **[Fungi].** 121367
Abnormal rearrangement of isoprenoid epoxide: synthesis of *7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin,* the **lactonic** constituent of grapefruit peel oil of Citrus decumana Linn. (Rutaceae). 117230

METHOXYCHLOR
The dispersal of Carabidae in the agrarian landscape, with spcial reference to the boundaries between different field crops [Rape, **Cereals,** *methoxychlor].* 123359
Biodegradation of *methoxychlor* and **kelthane** [organochlorine insecticides, residues]. 123710

METHYL
A rapid test for the **[acetyl** *methyl* carbinoe] acetoin in microbiological diagnosis of Enterobacteria [Food contamination]. 116257
Mass spectra of acetylenic fatty **acid** *methyl* esters and derivatives. 116793
Occurrence of strains of Colletotrichum coffeanum [the causal fungus of coffee berry disease] resistant to *methyl* **benzimidazol-2-ylcarbamate** (carbendazim) and chemically-similar compounds. 122565
Control of Opogona subcervinella in Dracaena through fumigation with *methyl* **bromide.** 123401
The problems of *methyl* **bromide** [Sterilisation of glasshouse soils]. 124808
Metabolism of 2,4-dichlorophenoxyacetic acid. IX. Gas-liquid chromatography of *methyl* **esters** of amino acid conjugates. 123728
Esterification of the hydrolysis product of the **herbicide** *dichlorfop-methyl* in methanol. 123090
Metabolism of *2,4-3H-14alpha-methyl-5alpha-ergost-8-enol* and 2,4-3H **[hydrogen** isotope]-5alpha-ergosta-8,14-dienol in ochromonas malhamensis [Algae]. 121236
The control of stored products insects with *pirimiphos-methyl* **[insecticide].** 123563
Abnormal rearrangement of isoprenoid epoxide: synthesis of *7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin,* the **lactonic** constituent of grapefruit peel oil of Citrus decumana Linn. (Rutaceae). 117230
22 (3): 267-270. Reactivity of alpha-tocopherol with hydroperoxide of *methyl* **linoleate** [Foods]. 116464
Study on the reactivity of coumarins. II. Regioselectivity of Grignards reagents engaged with *methyl-4,* **methyl-3** and phenyl-3 coumarin. 121370
Chemical mutagenesis on rye; an analysis of the somatic damage caused by **(NMH)** *n-methyl-n-nitrosourea.* 120658
Chromosome aberrations in root meristematic cells after treatment with [the mutagen] **NMH** *(N-methyl-N-nitrosourea).* 120659
Use of *pirimiphos-methyl* **[organophosphorus** insecticide] for the control of stored rice insect pests in southeast Asia. 123576
Study on the reactivity of coumarins. II. Regioselectivity of Grignards reagents engaged with methyl-4, *methyl-3* and **phenyl-3** coumarin. 121370
Behavior of cellulose grafted with **poly** *(methyl* methacrylate) and polyacrylonitrile toward some direct and reactive dyes. 119718

METHYLAMINES
Influence of the *methylamine* and **dyeing** treatment on wool mechanical properties. 117014

METHYLATION
Newcastle disease virus mRNA **lacks** *2'-O-methylated* nucleotides. 118853
Enzymatic removal of the 5' **terminal** *methylated* blocked structure of tobacco mosaic virus RNA and its effects on infectivity and reconstitution with coat protein. 122834

METHYLENE
Steroid derivatives. LXXIX. Microbial 15 beta-hydroxylation of 17 *alpha-acetoxy-16-methylene* **derivatives** of the pregnane series by the action of Cunninghamella blakesleeana [Fungi]. 121067

METHYLMERCURIC
Molecular activation analysis and its application to *methylmercury* **determination** in various marine samples. 125500

METHYLTHIO
Photodegradation of **O-ethyl** *O-[4-(methylthio)phenyl]* S-propyl phosphorodithioate (BAY NTN 9306) [Insecticide for cotton pests]. 123314

METHYLTRANSFERASES
S-adenosylmethionine:homocysteine *methyltransferase* as a regulatory enzyme in embryos of Musca domestica. 123913

METRIC
Metrication and its **associated** problems [in forestry]. 119473
Metric **measures** in everyday use. 116581
Metric **system:** USA. 115775
The meter greeters [Legislation, *metric* **system].** 115786
Third estimate of world sugar balance 1974/75 (1000 *metric* **tons,** raw value) [Production, statistics]. 115614

METRITIS
Tuberculous *metritis* in a buffalo (Bos bubalus). 118740

METZGERIA
Studies of **genus** *Metzgeria* of Colombia collected by Mme. Helen Bischler, 1956-59 [New taxa]. 120125
Variation in the capsule-wall structure in three common species of *Metzgeria* **(Hepaticae),** with special reference to the gametophytic features. 120491
Four **new** *Metzgeria* [Hepaticae] from South America. 120115
Metzgeria **temperata,** a new holarctic species of Hepaticae. 120120

MEVALONATE
Uptake of *mevalonate* and **acetate** during plastid development [Oat seedlings]. 121424

MICE
Influence of dieldrin on serotonin turnover and 5-hyroxyindole acetic acid efflux in *mouse* **brain.** 119262
Cellulose acetate electrophoresis of soluble lens proteins of different species of mammals; the use of discontinuous buffer systems [Rats, *mice,* **cattle,** sheep]. 117633
Heterogeneity and specificity of non-histone nuclear phosphoproteins [Rats, **chickens,** *mice].* 117635
Record-keeping for a colony of 15,000 *mice* without use of a **computer.** 117466
Effects of cytochalasin B (CB) on the morula-to-blastocyst transformation and trophoblast outgrowth in the **early** *mouse* embryo. 117675
Hexamita muris infection in a *mouse* and **European** hamster breeding unit. 119065
Agglutination of human erythroytes and ascites tumor cells of the *mouse* by using **extracts** of the European mistletoe (Viscum album L.). 120847
A comparative study on the effect of various estrogens on the immature **female** *mouse* genitalia and endocrine glands. 118335
Morphological and antigenic relationships between viruses (rotaviruses) from acute gastroenteritis of children, calves, piglets, *mice,* and **foals.** 118763
Effect of caging variables on body weight and weight **gain** in *mice.* 117844
Amino acid requirements of the **growing** *mouse.* 116419
Kinetics study on intervention of few purified antibacterial antibodies *[Mice,* **hamsters].** 118917
Strain 13 of Alternaria brassicicola [Fungi]—a producer of estrogenic substances of a lipidic nature [Effect of **hens** and *mice].* 118277
Need and chance for complete elimination of *mice* from **industrialized** poultry farms. 117473
Further studies on the efficacy of thiabendazole given in the diet of *mice* **infected** with Hymenolepis nana, Syphacia obvelata and Aspiculuris tetraptera. 119007
Sensitivity of various laboratory and farm animals to Clostridium perfringens **intoxication** *(mouse,* guinea-pig, rabbit, chicken, piglet, lamb). 118842
Quantity of cells of the mucous membrane of the small intestine in **irradiated** *mice* as an index of the protection degree of this organ by radioprotectors. 119233
Effect of mycotoxins on uptake and degradation of [125I]albumin [iodine isotope] in *mouse* **liver** and kidney lysosomes. 119256
Evaluation of some pesticides for **mutagenicity** *[Mice].* 123751
Rats and *mice,* **Ohio** recommendations [Rodent control in poultry houses]. 117412
Cytophysiological manifestations of the heterotic effect [in **plants** and *mice].* 120700
Iatrogenic pneumothorax and **pneumoderma** in a *mouse.* 118490
Mammalian carbonic anhydrase isozymes: evidence for a third locus [Sheep, *mice,* **rabbits,** chickens]. 117810
Cell to substratum adhesion-promoting activity released by normal and virus-transformed cells in culture [Chicken, *mouse,* and **rat** fibroblasts]. 117799
Cellulolytic activity in cecum content of *mice,* **rats,** Syrian hamsters, guinea pigs and rabbits. 117959
Organophosphate insecticide potentiation by carboxylesterase inhibitors *[Mice,* **rats].** 123752
Genetic influence on nutritional aspects of metabolic **regulation.** I. *[Mice].* 118262
Evidence for a lack of an effect of dietary fluoride level on **reproduction** in *mice.* 116431
Experimental scrapie in the *mouse:* a **review** of an important model disease. 118939
Utilization of energy for maintenance and for fat and lean gains by *mice* **selected** for rapid postweaning growth rate. 118104
Fleas (Siphonaptera, Insecta) caught on small mammals [rats, *mice]* at **seven** locations in eastern Denmark. 123627
Comparative developmental hematology: animal models *[mouse* and **sheep]** to study human fetal erythropoiesis. 117939
Role of protein degradation in the growth of livers after a nutritional **shift** *[Mice].* 116299
A study of the fluctuating factors in the seminiferous epithelial cycle in *mice*—with **special** attention to statistical studies on diurnal fluctuations and on variations due to testes and testis loci in the relative frequencies of the stages [Spermatogenesis]. 118365
Effect of acetone fixation on rabies immunofluorescence in **glycerine-preserved tissues** *[Mice].* 118694

MICELLE
Voluminosity of different-sized **casein** *micelles* from the buffalo and the cow [Milk samples]. 116913

MICROALGAE
Lead inhibition of **chlorophycean** *microalgae* [Toxicity]. 122982
Accumulation of polycyclic aromatic hydrocarbons in **cultivated** *microalgae* [Scenedesmus acutus]. 121300
Water-soluble components of four fuel oils: chemical characterization and effects on **growth** of *microalgae.* 121269

MICROANALYSIS
Quantitative *microanalysis* of capsaicin, dihydrocapsaicin and nordihydrocapsaicin using mass fragmentography [Bush redpeppers]. 117290
Quantitative *microanalysis* of cell walls of Saprolegnia diclina Humphrey and Tremella mesenterica Fries [Fungi, chemistry]. 120935
The application of scanning electron microscopy and **X-ray** *microanalysis* in the plant sciences: a bibliography. II. 120465
X-ray *microanalysis* of receptor lymph in a cuticular arthropod sensillum [Cupiennius salei]. 124035

MICROBES
Microbial **alkaline** enzymes. 116809
Quest for a *microbial* **alternative** [Bacillus thuringiensis for controlling the Indian meal moth in stored grain, biological control]. 123505
Short term nitrate losses and **associated** *microbial* populations in soil columns. 124877
Steroid derivatives. LXXIX. *Microbial* 15 **beta-hydroxylation** of 17 alpha-acetoxy-16-methylene derivatives of the pregnane series by the action of Cunninghamella blakesleeana [Fungi]. 121067

On the mechanism of *microbial* **cell** destruction during ballistic disintegration processes [Schizosaccharomyces pombe, Candida utilis, yeasts]. 121044
Trials in the manufacture of Asiago cheese and pressed Asiago by using the *microbial* **coagulant** "Rennilase" derived from the [fungus] Mucor miehei. 116896
Microbial **colonization** of plant roots [Suppressing beneficial symbionts]. 122902
The *microbial* **contamination** of air at various distances from the poultry house [Ventilation system]. 124656
Ecology of insect viruses [in *microbial* **control** of insect pests]. 123235
Insect pathogens in natural and *microbial* **control** of forest defoliators [Biological control]. 123471
Microbial **conversion** of tall oil sterols to C19 steroids. 119726
Microbial **degradation** of condensed tannins [from Pinus radiata bark]. 119809
Effect of soil pH [hydrogen-ion concentration] on *microbial* **degradation,** adsorption, and mobility of metribuzin [herbicide]. 123205
Bacterologic quality control of *microbial* **enzymes** [Foods]. 116215
Effect of initial internal temperature and storage temperature on the *microbial* **flora** of vacuum packaged beef [Quality]. 116197
Effect of deworming medication on the *microbial* **flora** of the upper gastrointestinal tract of dogs. 118816
Pilot control projects of chemical and *microbial* **insecticides** against Douglas fir tussock moth [Orgyia pseudotsugata]-1974. 123491
Tests of *microbial* **insecticides** [to control forest pests]. 123493
Effect of *microbial* **metabolites** on the processes of metabolism in the organism of pigs. 117713
Quantitative of unsaturated fatty acids in *microbial* **mutants.** VI. Selective growth responses of yeast and bacteria to cis-octadecenoate isomers [Saccharomyces cerevisiae, Escherichia coli]. 120978
Influence of roughage level and corn processing method on *microbial* **protein** synthesis by beef steers. 118096
Effect of long-term atrazine [herbicide] application on **soil** *microbial* activity. 123204
Prediction of *microbial* [**Staphylococcus** aureus] death during drying of a macaroni product [Quality]. 116202
Leaching and *microbial* **utilization** of dissolved organic carbon from leaves of Spartina alterniflora. 121041

MICROBIOLOGY

A note on some *microbiological* **aspects** of Provolone cheese. 116882
Studies on a *microbiological* **assay** of the distribution of mercury containing seed disinfectants on cereal seed [Rhizoctonia solani]. 122678
Automation of germ counting in *microbiology.* I. **Comparison** of conventional and semi-automatic dilution [Food]. 116019
Physical and biological characteristics of grain dust *[Microbiological* **contamination,** health hazards to workers]. 116259
A rapid test for the [acetyl methyl carbinoe] acetoin in *microbiological* **diagnosis** of Enterobacteria [Food contamination]. 116257
Disc *microbiological* method for the determination of lysine or methionine in protein hydrolysates [Nutritional quality]. 116504
Some *chemico-microbiological* **parameters** of cheese produced with the aid of porcine pepsin. 116914
The occurrence of Bacillus cereus in Finnish dog food sausages; a *microbiological* and **physico-chemical** survey. 119274
Microbiological **pollution** of Munich: phytoplankton under the influence of waste water; investigations in the Amper River, near Dachau. 125527
Pollution *microbiology* of Biscayne Bay beaches. 125545
Microbiological **problems** related to mastitic milk processing. 116258
Effects of pure paraquat dichloride, "Gramoxone W" [herbicides], and formulation additives on **soil** *microbiological* activities. 3. Estimations of soil microflora and enzyme activity in field-treated soil. 123215

MICROCLIMATE

Barrier-induced *microclimate* and its influence on growth and yield of winter wheat [Windbreaks]. 119377
Effects of windbreaks on the *microclimate,* **energy** balance and water use efficiency of crops growing on the Great Plains. 119381
Microclimates in a **forest** farm plantation [Pinus radiata]. 119375

MICROCOCCUS

Binding of complementary oligonucleotides to amino-acylated tRNAPhe from yeast *[Micrococcus* **luteus].** 120920
Electron microscopy and X-ray photoelectron spectroscopy of oxygen plasma-etched bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, *Micrococcus* **lysodeikticus].** 120542

MICROELEMENTS

Effect of different methods of **applying** *microelements* on the yield and sugar content of sugarbeets. 125007
Effect of some *microelements* on **Heterakis** gallinarum infection [in birds]. 118981
Some peculiarities of biogeochemistry of *microelements* in **high** altitude landscape in Pamir. 124826
Fertilization effect on seed quality **taking** *microelements* under consideration. 125073
A complex preparation of ferrodextran, gamma-globulin, *microelements* and **vitamins** [for veterinary use]. 118566

MICROENVIRONMENTAL *see* ENVIRONMENT

MICROFILARIA

Reactions to subconjunctival inoculation of Onchocerca **volvulus** *microfilariae* in pre-immunized rabbits. 118971

MICROFLORA

Development of the *microflora* of **air-dried** beef. 116109
Microflora in an **experimental** crop rotation system and its antagonistic effects on soil plant pathogens [Fungi]. 122655
Effects of herbicides on the *microflora* and some **hydrological** and physical properties of Chernozem soil in young forest stands. 123758
Methods for examining the *microflora* of **mouldy** hay [Fungi]. 117355
Composition of the *microflora* of **natural** phytocoenoses from the Khomutovskaia Steppe [reservation]. 120351
Study of influence of **seed** *microflora* on barley planting quality in the western zone of the Latvian SSR. 122625
Effect of continuous growing of sugarbeets and their growing in a crops rotation on the **soil** *microflora* in the conditions of irrigation. 121974
Effects of pure paraquat dichloride, "Gramoxone W" [herbicides], and formulation additives on soil microbiological activities. 3. Estimations of **soil** *microflora* and enzyme activity in field-treated soil. 123215

MICROFOSSILS *see* FOSSILS

MICROGRAPHY

Control of raw materials and compound feeds by means of *micrographic* **analysis.** 117325

MICRONUTRIENTS *see* NUTRIENTS

MICROORGANISMS

Cellulose-decomposing *microorganisms*—producers of amino acies [in soils]. 124814
Biological activity of *microorganisms* **decomposing** the [plowed under] **green-manure** lupine. 124996
Microorganisms and **flavor** development associated with the wild rice fermentation [Quality]. 116200
Differentiation and species distribution of *microorganisms* of the **genus** Bacillus found in frankfurter and liver sausages. 116111
On the distribution of *microorganisms* **infecting** the larvae of Euproctis chrysorrhoea L. (Lepidoptera, Lymantriidae) near Kosova, Yugoslavia [Natural control]. 123225
Volatiles produced by *microorganisms* **isolated** from refrigerated chicken at spoilage. 116210
Comments on an autoecological study of *microorganisms* **[Nitrobacter].** 124865
Production of B complex vitamins by **oligonitrophyllic** *microorganisms* [Soil bacteria]. 124821
Production of free amino acids by **oligonitrophyllic** *microorganisms* [Soil nitrogen-fixing bacteria]. 124822
Entomophages and *microorganisms* of **pests** of drug plants [Natural control]. 123228
Effectiveness and limits of using *microorganisms* in **plant** protection as exemplified by the common potato scab [Streptomyces scabies]. 122693
Mutagenicity of nitrosamides and nitrosamidines in *microorganisms* and **plants.** 121284
Cellulose-decomposing [soil] *microorganisms*—**producers** of gibberellin and gibberellin-like substances. 124815
Auxinic activity of metabolites of *microorganisms* from the **rhizosphere** and soil covered by tall herbaceous vegetation. 124812
Sulfur supplementation and in vitro digestion of forage cellulose by **rumen** *microorganisms* [Cattle]. 117771
Effects of **soil** *microorganisms* and their products on the germination of **seeds.** 120898
Decomposition of plant residues and the synthesis of vitamins by **[soil]** *microorganisms.* 124816
Production of gibberellin and gibberellin-like substances by oligonitrophyllic **[soil]** *microorganisms.* 124823
Role of *microorganisms* in **soil** fertility and plant nutrition. 124981
Antibiotic activity of phospholipids from some *microorganisms* [including **yeasts** and other fungi]. 121091

MICROPEZIDAE

A synopsis of the *Micropezidae* **(Diptera)** of Canada and Alaska, with descriptions of four new species. 124277

MICROPLITIS

A natural mortality table for the corn earworm [Heliothis zea] on peanuts [Trichogramma and *Microplitis* for **biological** control]. 123340

MICROSCALE

Energy allocation in the food system: a *microscale* **view.** 116840

MICROSCOPY

Effect of storage temperature on cell structure in post-harvested asparagus spears—light and **electron** *microscopic* study. 117284
Electron *microscopy* analysis of differentiation of the wall and capillary bed of the chick embryo allantochorion. 117691
Electron *microscopic* localization of lactate dehydrogenase in osteoclasts of chick embryo tibia. 117704
Acetylcholinesterase distribution in chick spinal cord cultures. A light and **electron** *microscope* study. 117706
The early chick embryo in correlated SEM and TEM [scanning **electron** *microscopy,* transmission electron microscopy] studies. 117714
Development of the foramen secundum in the chick as observed by scanning **electron** *microscopy.* 117883
Scanning **electron** *microscopy* of elliptocytes in man and llama. 117885
SEM [scanning **electron** *microscope]* of the cecal morphology in the domestic chicken. 117887
The fine structure of the leucocytes of the domestic birds. **Electron** *microscopical* studies of the blood leucocytes of the fowl, turkey, goose and duck. 117960
TEM [transmission **electron** *microscopy]* studies of hen's perivitelline membrane hydrolysis by cock sperm in vitro. 118386
SEM [scanning **electron** *microscopy]* of vesicular stomatitis virus infection in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Comparative **electron** *microscopic* study of the cysts of Sarcocystis fusiformis (Railliet 1897) in the muscle fibers of naturally infected cattle and after experimental infections of calves by sporocysts of Isospora hominis and the large forms of Isospora bigemina from cat and dog. 118894
Repair in arterial tissue; **electron** *microscopy* of evans blue vital stained embolectomy catheter lesion of the rabbit thoracic aorta. 119067
Light and **electron** *microscopy* for studies on pathogenesis of straddle in newborn piglets. 119165
Mating in Chlamydomonas eugametos [Algae]. A scanning **electron** *microscopical* study. 120412
Morphology of Cronartium fusiforme aeciospores: a light and scanning **electron** *microscopic* study. 120426
Surface characteristics of American elm [Ulmus americana] clones for identification by scanning **electron** *microscopy.* 120462
The application of scanning **electron** *microscopy* and X-ray microanalysis in the plant sciences: a bibliography. II. 120465
Concanavalin A and wheat germ agglutinin receptors on Dictyostelium discoideum [Fungi]: their visualization by scanning **electron** *microscopy* with microspheres. 120480
Electron *microscope* observations on the sporogenesis in the hornwort, Anthoceros punctatus L. [Hepaticae]. 120489
Sieve-tube plastids in the **electron** *microscope;* development and fine structure of plastids in the sieve tubes of Allium porrum L. [Leeks]. 120524
Electron *microscopy* and X-ray photoelectron spectroscopy of oxygen plasma-etched bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
Electron *microscopy* of silicon deposits in foliar idioblasts of Magnolia grandiflora. 120543
Scanning **electron** *microscopy* of Marsilea sperm [Pteridophyta]. 120549
Localization of mannan at the surface of yeast protoplasts by scanning **electron** *microscopy* [Saccharomyces cerevisiae, candida utilis]. 120912
Light and **electron** *microscope* studies of cytoplasmic aggregates formed in barley cells in response to Erysiphe graminis. 122589
Scanning **electron** *microscopy* of syncytial transfer cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
Electron *microscopy* of a new plant-pathogenic spiroplasma isolated from Opuntia [tuna monstrosa, Spiroplasma citri]. 122863
Stereo **electron** *microscopy* of freeze-fractured cells reveals the three-dimensional continuity of tobacco mosaic virus crystals. 122864
Electron *microscope* study of sporulation and parasporal crystal formation in Bacillus thuringiensis [Pathogenicity for larvae of Lepidoptera]. 123242
Grain beetles under the scanning **electron** *microscope.* 123515
Insect virus infection of a poikilothermic vertebrate cell line: **electron** *microscopy* [Chilo iridescent virus]. 124127
Scanning **electron** *microscopy* and microdissection of single Drosophila [melanogaster] cells. 124128
Scanning **electron** *microscopy* of Blaberus giganteus (L.) maxillary palp sensilla. 124129
Ultrastructural studies of isolated polytene chromosomes by scanning **electron** *microscopy* [Chironomus stigmaterus]. 124133
Discovery of Nuttalliella namaqua Bedford (Acarina: Ixodoidea: Nuttalliellidae) in Tanzania and redescription of the female based on scanning **electron** *microscopy.* 124214
Studies on the posterior silk gland of the silkworm Bombyx mori. V. **Electron** *microscope* localization of fibroin in the posterior silk gland at the later stage of the fifth instar. 124537

Fluorescence *microscopy* and related enzyme activity of sunflower plants infected by Plasmopara halstedii. 122703
Contribution to quantitative analytical evaluation of pulp and textile fibers in fier webs by *microscopic* **methods.** 119769
[Poultry] diseases which **need** *microscopic* examination for diagnosis. 118537
Cauliflowers under the *microscope* [New varieties, Great Britain]. 122328
Photoelectron *microscopy* of biomembranes: observation of external photoemission from spinach chloroplasts. 121767
Changes of cell structure of wheat and barley after granulation; investigations made with electron **scanning** *microscopy.* 117136
The relation between villus formation and the pattern of extracellular fibers as seen by **scanning** *microscopy* [Chick embryos]. 117650
Plant tissue below the electron **scanning** *microscope.* 7. The roots. 120522
Scanning *microscope* pictures of moss capsules [Musci]. 120523
Living plants continue to grow after examination by **scanningelectron** *microscopy* [Urtica pilulifera]. 121336
A partially computerized documentation system for *microscopic* **soil** fungi. 119886
Oiling-off properties and *microscopic* **structures** of butter, margarine, and soft-type margarine. 116857
Microscopic **studies** on the epidermis of paralumbar skin of the Indian buffalo calf. 117743
Electron-microscope **studies** on the pathogenesis of infectious bursal disease after intrabursal application of the causal virus. 118628

MICROSOME

Lactoperoxidase-catalyzed lipid peroxidation of *microsomal* and **artificial** membranes [Milk, beef liver]. 116854
Glyceryl guaiacolate paralysis time in rats pretreated with some *microsomal* **drug** metabolizing enzyme inducers. 118458
Mechanism of 2-naphthylamine oxidation catalysed by pig **liver** *microsomes.* 117955
Contribution of the cell fractionation to the study of protein bodies, spherosomes, microbodies and *microsomes* of **seeds.** 121084
Exchange of phospholipids between mitochondria and *microsomes* in **vitro** stimulated by yeast cell cytosol [Saccharomyces cerevisiae]. 120929

MICROSPHAERA

Three species of oak powdery mildews *[Microsphaera* **alphitoides,** Microsphaera hypophylla, Phyllactinia roboris]. 122616
Effect of infection by *Microsphaera* **alphitoides** (powdery mildew) on carbohydrate levels and translocation in seedlings of Quercus robur. 122684
Changes in CO2 [carbon dioxide] and water vapour exchange rates in leaves of Quercus robur infected by *Microsphaera* **alphitoides** (powdery mildew). 122702
A survey of powdery mildew *[Microsphaera* **diffusa**] of soybean in central Iowa. 122744
Three species of oak powdery mildews [Microsphaera alphitoides, *Microsphaera* **hypophylla,** Phyllactinia roboris]. 122616

MICROSPORES

The fine structure in various groups of present-day **Pteridophyta** *(microspores* and isospores). 120515
Male sterility caused by cooling treatment at the **young** *microspore* stage in rice plants. XII. Classification of tapetal hypertrophy on the basis of ultrastructure. 120531
Male sterility caused by cooling treatment at the **young** *microspore* stage in rice plants. XIII. Ultrastructure of tapetal hypertrophy without primary wall. 120532
Male sterility caused by cooling treatment at the **young** *microspore* stage in rice plants. XIV. Floating tapetal materials in the locular cavity. 120533

MICROSPORIDIA

In vitro toxicity of constituents of Rumex maritimus Linn. [Trichophyton mentagrophytes, *Microsporum* **canis**] to ringworm fungi. 122603
On the occurrence of Bacillidium sp. A *microsporidian* **parasite** infecting some thrips larvae [Thrips flavus, Scirtothrips oligochaetus, cotton pests]. 123303
Ultrastructural study of Stempellia mutabilis Leger and Hesse, a *microsporidian* **parasite** of Ephemera vulgata. 124134
The *microsporidian* **pathogens** of Lepidoptera living in grain and meal in Yugoslavia [Natural control]. 123286

MICROSPOROGENESIS *see* SPOROGENESIS

MICROTOMY

Pollen embryos; celloidin-spray method for **paraffin** *sectioning.* 120570

MICROTOPOGRAPHY

Effects of substrate type and *microtopography* on **establishment** of a mixture of bryophytes [Bryophyta] from vegetative fragments. 120326

MICROTUBULES *see* TUBULES

MICROTUS

Population fluctuations of field **voles** *(Microtus):* a background to the problems involved in predicting vole plagues [Pest of trees]. 119356

MICROWAVE

Microwave **heating** of foods—changes in nutrient and chemical composition. 116699
Exciting products for *microwave* **ovens.** 116742
The use of infrared and *microwave* **radiation** for control of stored-product insects. 123575
Microwave **remote** sensing of soil moisture. 124829
Contributions of *microwave* **therapy** in the rehabilitation of pet animals [Dogs]. 118429

MIDGE

Microtubules and control of insect egg shape [of the **gall** *midge* Heteropeza and the cockroach Periplaneta]. 124021
Life cycles of cacao **pollinating** *midges,* Forcipomyia species (Diptera, Ceratopogonidae), and some notes on larval behavior in the laboratory. 124144
The **sorghum** *midge* [Contarinia sorghicola, biology and control]. 123277

MIDGUT

The accumulation of lipofuscin in the epithelium of the *midgut* of the **aging** housefly, Musca domestica. 124131
Studies on amino acid transport by the intestine of the stick insect, Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as well as ultrastructure of the *midgut* **epithelium.** 124190
Spectral characterization of microrome P-450 from the *midgut* of the **tobacco** hornworm, Manduca sexta J. 123988

MIGRATION

Migration to an **American** frontier [North Dakota, settlement]. 115115
Contribution to the investigation into the migration into liquid foodstuffs of auxiliary substances used in plastics manufacturing and processing. II. *Migration* of **auxiliary** substances of polyvinyl chloride into drinking water. 116073
Recent results concerning the *migration* **behaviour** of benzophenone-based ultraviolet absorbents from polyolefines in foods [Contamination]. 116233
Once again: *migrations* of **brown** rats [Pest control]. 123019
Migration and **detoxication** rate of some simm-triazines in Sod-Podzolic soil with average loam content. 122884
Middle Cretaceous floral provinces and **early** *migrations* of angiosperms. 120057
Extrauterine *migration* of haematic mummy in a she-buffalo. 119100
A mechanism of *migration* **inhibition** involving components of the coagulation system [Swine]. 118937
Septic thrombosis in a foal [Damage from *migrating* **larvae** of Strongylus vulgaris]. 119056
Contribution to the investigation into the *migration* into **liquid** foodstuffs of auxiliary substances used in plastics manufacturing and processing. II. Migration of auxiliary substances of polyvinyl chloride into drinking water. 116073
Cellular immunity in Listeria [monocytogenes] sensitized young chickens: assayed by an agarose drop **macrophage** *migration* inhibition test. 118821
The effect of surface treatments on the *migration* of **organotin** stabilizer from polyvinyl chloride films to contacting liquid media [Food packaging]. 116711
The rural youth [Rural-urban **population** *migration].* 115127
Commentary [Climate, drought, **population** *migration,* Africa]. 115150
Cross-cultural perspectives on human adjustments to arid margins [Climate, **population** *migration,* Africa]. 115151
Exodus of farmers to the cities **[Population** *migration,* Colombia]. 115294
Effect of new forms of production-economic amalgamations on the *migration* of **rural** population. 115164
Resolution of intraneuronal and **transynaptic** *migration* of cobalt in the insect visual and central nervous systems [Calliphora erythrocephala, Calliphora vomitoria, Musca domestica. 124030
A *migration* of **Vanessa** kerhawi (McCoy) (Lepidoptera: Nymphalidae) in Tasmania. 123821

MIGRATORY

Transporation organized to the fir [honeydew] flow *[Migratory* **apiculture].** 124588
Imaginal differentiation of the tegument in the *migratory* **locust,** Schistocerca gregaria Forsk. II. Development during imaginal molt and its determination in gregarian males. 123811
Incorporation and disintegration of extra-embryonic epithelia in the egg of the *migratory* **locust** (Locusta migratoria L.). 123849

MILDEW

Some very young grapes died in Bas-Longuedoc and Provence **[caused** by *mildew].* 122766
The "next-to-the last" word; **chemical** *mildew* control in cereals. 122696
The Meliolaceae of Hawaii [Fungi, **dark** *mildews].* 120281
Study of the stomatal apparatus in the leaves of different species of onions [Allium] in relation to their resistance to **downy** *mildew* [Peronospora destructor]. 120424
Occurrence of physiological races of Bremia lactucae Regel, the organism causing **downy** *mildew* in lettuce. 122675
The involvement of flavour volatiles in the resistance to **downy** *mildew* [Peronospora parasitica] of wild and cultivated forms of Brassica oleracea. 122685
Downy *mildew* (yellow wilt) of rice caused by Sclerophthora macrospora: first report of the occurrence of the disease in India. 122749
Inheritance of the **powdery** *mildew* [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Breeeding of winter rye resistant to **powdery** *mildew* [Erysiphe graminis]. 120656
Search for sources of resistance to **powdery** *mildew* [Erysiphe polygoni] in black gram [Mungo beans]. 122606
Effect of the systemic fungicide PP 149 on rate of **powdery** *mildew* infection, yield amount, morphology and tissue structure of leaves in summer barley varieties. 122610
Three species of oak **powdery** *mildews* [Microsphaera alphitoides, Microsphaera hypophylla, Phyllactinia roboris]. 122616
Effect of infection by Microsphaera alphitoides **(powdery** *mildew)* on carbohydrate levels and translocation in seedlings of Quercus robur. 122684
Changes in CO2 [carbon dioxide] and water vapour exchange rates in leaves of Quercus robur infected by Microsphaera alphitoides **(powdery** *mildew).* 122702
A survey of **powdery** *mildew* [Microsphaera diffusa] of soybean in central Iowa. 122744
Fungicide control of sugarbeet **powdery** *mildew* [Erysiphe betae]. 122769
Disease control in grape cultures—**real** *mildew* (Oidium). 122692

MILK

Why a bull's predicted difference goes up and down [Genetic transmitting **ability** for *milk].* 118274
Rapid det4ection and estimation of extraneous urea in buffalo milk and effects of added urea on certain physico-chemical properties of *milk* **[Adulteration].** 116168
Annual *milk* production costs and returns per commercial producer family in the milkshed areas of Delhi milk scheme. 115507
Antibiotic residues in *milk*—an **area** of veterinary responsibility. 118857
Artificial *milks* and mixtures for early weaning of lambs. 118162
Coagulase-positive Staphylococcus occurrence in raw milk from the Pelotas area, Rio Grande do Sul *[Milk* **bacteria** and contamination]. 116251
Rationalisation of **bacteriological-cytological** *milk* testing. 118838
Living from milk tomorrow, too: development of markets for *milk* and **beef.** 115771
Lactoperoxidase-catalyzed lipid peroxidation of microsomal and artificial membranes *[Milk,* **beef** liver]. 116854
Some chemical changes in the colostrum, *milk* and **blood** at various stages of lactation in sheep. 117747
What sort of *milk* **board?** [Policies]. 115832
Occurrence of superoxide desmutase in **bovine** *milk.* 116846
Rapid det4ection and estimation of extraneous urea in **buffalo** *milk* and effects of added urea on certain physico-chemical properties of milk [Adulteration]. 116168
Status of fat globule membrane proteins in sterilized and chilled **buffalo** *milk.* 116886
Research [tests] on the presence of subclinical bovine mastitis accomplished by means of somatic cell counting of **bulk** *milk* with the Autoanalyzer II-OSCC (optic somatic cell counter) in the province of Parma. 118946
Comparison of serum cholesterol in children fed high, moderate, or low **cholesterol** *milk* diets during neonatal period. 116480
Rennet and other **coagulants** for *milk.* 116900
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of skim milk powders and **commercial** *milk* replacers. 118037
The chemical **composition** of *milk.* 116915
Studies with ammonized straw pellets used as sole basal diet in the feeding of ruminants. 2. Studies on processes of ruminal fermentation in relation to *milk* **composition** and the milk yields of cows. 118005
Radioactivity in human diet, 1975 **[Contamination** of *milk].* 116036
Observations on lead **contamination** in *milk.* 116042
The detection of Clostridium tyrobutyricum in *milk* **[Contamination].** 116228
The development of a method for detecting spores of Clostridium tyrobutyricum in *milk* **[Contamination].** 116229
Antibiotics in raw milk consumed in the city of Santa Maria, Rio Grande do Sul *[Milk* **contamination].** 116250
Studies on enterococci in *milk* **[Contamination].** 116265
New development in the area of **continuous** *milk* thickening and curd processing. 116865
Progesterone assays of *milk* and the **control** of infertility [Cows]. 118235
Chromatography of folates on Sephadex G-10 [in **cow's** *milk].* 116890
Calcium and phosphorus contents in **cows** *milk* of the Italian Friesian, Italian Brown, Reggio and Modena breeds. 116920
Changes in the total protein and the protein fractions in **cow's** *milk* treated with ultraviolet rays. 116925
Responses in linoleic acid content of *milkfat* from **cows** receiving different levels of protected sunflower seed supplement [Effects of feeding]. 118014
Occurrence of Immunoglobulin A in *milk* of **cows** with subclinical udder diseases. 118833
Endotoxin in blood and milk and enzymes in the *milk* of **cows** during experimental Escherichia coli endotoxin mastitis. 118960

Modifying effect of **daily** *milk* yield on heat tolerance in cattle. 117720
The *milk* and **dairy** products marketing scene. 115715
Studies investigating the excretion of acetyl urea in the *milk* of **dairy** cows receiving oral doses of 14C [carbon isotope] acetyl urea. 117993
Marketing more *milk*, a **daunting** problem. 115713
Annual milk production costs and returns per commercial producer family in the milkshed areas of **Delhi** *milk* scheme. 115507
Milk **deliveries** in New Zealand. 115769
Use of progesterone concentrations in plasma and *milk* in the **diagnosis** of pregnancy in domestic cattle. 118239
The effect of somatic cells on the reference method for the determination of **dirt** in *milk*. 116218
Endotoxin in blood and *milk* and **enzymes** in the milk of cows during experimental Escherichia coli endotoxin mastitis. 118960
Iodine number determination of *milk* **fat** and vegetable fats by refractometry. 116888
Nutritive muscular dystrophy in cattle. 7. Epizootiology of "white muscle disease" in calves **fed** on *milk*. 119203
The effects of *milk* **feeding** on the pre- and post-weaning growth of calves, and on stomach development at weaning. 118085
Production of cell-bound proteinase by Lactobacillus bulgaricus and its location in the bacterial cell [Preparation of **fermented** *milk* products]. 116889
Milk **fever** [Dairy cattle, therapeutic feeding]. 119144
Administered pricing by cooperatives: effect on producer and consumer prices and sales of **fluid** *milk*. 115750
Colour measurements in *milkfat* **fractionation.** 116907
The energy metabolism of young Jersey and Friesian calves fed **fresh** *milk*. 117561
Environmental condition dependencies of fermentation products of kaseolytic **germs** *[Milk]*. 116862
Consumption of **heated** *milk* in Europe observed to rise also during 1975. 115600
Ultrahigh temperature **heated** *milk* and its aseptic conditioning. 116917
High *milk* yields from dried lucerne [Dairy cattle]. 118066
Influence of vitamin B6 intake on the content of the vitamin in **human** *milk*. 116285
Hungary's *milk-output* drop checks cheese export growth. 115649
Investigations into the action of skim milk powder and **hydrolysed** *milk* protein with a view to lowering the level of nitrite added to heat-sterilised meat products. 116980
Milk **hygiene.** 116083
Individual *milk* control, a solved problem [Quality control equipment]. 116875
Role of *milk* **iron** in the development of immunity with the intracisternal introduction of the antigen [Cattle]. 119032
Fat and protein content of *milk* in a **large** production area of Switzerland. 116924
Dairy sector should seek investment aid to meet **likely** *milk* boom [Policies, price support]. 115711
Influence of mastitis on the physico-chemical status of *milk* **lipids.** I. Glycerides, free fatty acids and phospholipid. 116167
Leipzig **Market** *Milk* Cooperative: supply to meet demand, a daily task of collective work. 115693
The *milk* **market** and consumption in Italy. 115738
The *milk* **market** in Switzerland. 2. 115741
Economics of packaging **market** *milk* for retail sales. 116881
D-day for United Kingdom *[milk]* **marketing** boards. 115594
Microbiological problems related to **mastitic** *milk* processing. 116258
Contamination of diet with radioactive fallout from nuclear explosions [in *milk* and **meat**]. 116035
Determination of nitrogen in biological materials by the method of biamperometric titration *[Milk,* **meat,** plants]. 116825
Measures lactose [in *milk* and **milk** products] in 5 minutes used on-line or in the lab. 116873
German Agricultural Association quality testing for sour milk products and *milk* **mixture** products in Hanover. 116081
Freezing points of raw and **pasteurized** *milks*. 116893
Effect of nisin [a polypeptide antibiotic] on prolonging the keeping quality of **pasteurized** *milk*. 116928
Performance variation and heritability of *milk* **performance** traits in cattle and their correlations as well as with other economically important characters. 118265
A critical study of the multiuse polyethylene **plastic** *milk* container system. 116891
A comparison of the flavour stability of conventional and instant whole *milk* **powder.** 116902
Cohesiveness of *milk* **powder.** 116918
Studies on denaturants that can be added to **powdered** *milk* [used as feed]. II. [Fish oil in calf fattening]. 117352
Factors affecting progesterone in *milk* for **pregnancy** diagnosis in dairy cattle. 118232
Milk **producers** intentious, 1971-1974 and 1974-1977. Results of two planning surveys [Outlook]. 115941
Milk **production** in the Dresden district: socialist competition differentiated and made comprehensive; steps for inclusion of every [dairy] collective [East Germany]. 115412
Economic aspects of *milk* **production** [Europe, West Germany]. 115770
The contribution of research to *milk* **production** [Dairy cattle, rearing]. 117471
Determination of some hemato-chemical parameters of [dairy] cattle for the control of *milk* **production.** I. Medium-normal values related to Ferrara province. 117845
Seasonal variations in coat thickness of Jersey breed cows and their correlations with *milk* **production.** 117907
A note on the use of kale as a replacement for cereal-based concentrates for *milk* **production** [Cattle]. 117971
Studies with dairy cows investigating the dietary effect of mixtures of compressed straw + concentrates prepared from crude and NaOH [sodium hydroxide] treated cereal straw. 1. Digestibility and *milk* **production.** 118006
Are feed concentrates worth while [for cattle] on pasture? [Effects on *milk* **production**]. 118179
Milk **production** by Vermont dairy cattle after deworming (two dewormings during the first 90 days of lactation). 119052
Direct sowing of forage sorghum in guinea pasture [Panicum maximum] during the dry season. 1. Effects of pasture availability and *milk* **production.** 121900
Relation between heat tolerance, growth and *milk* **productivity** of cattle. 117723
Correlation between *milk* **productivity** and the occurrence of subclinical mastitis in cows. 118978
Marketing more *milk* **products.** 115712
Changes of foreign body regulation of the cheese law and the ordinance on *milk* **products.** 115834
Measures lactose [in milk and *milk* **products**] in 5 minutes used on-line or in the lab. 116873
Relationship between *milk* **progesterone** concentration and milk yield, fat and total nitrogen content. 116855
Milk **progesterone** as a parameter for fertility control in cattle; methodological approaches and present status of application in Germany. 118233
Pregnancy diagnosis in the cow from *milk* **progesterone** concentration. 118234
The use of *milk* **progesterone** radioimmunoassay in the diagnosis and treatment of subfertility in dairy cows. 118238
Optimization of reaction kinetic processes in the food industry, shown by example of the precipitation of *milk* **protein.** 116898
Coefficients of repetition of the content and amount of *milk* **protein** and fat [Study of dairy cow productivity]. 116921
Cellulose acetate electrophoresis of casein **proteins** [of *milk]*. 116852
Remarks on packaging, germ count and *milk* **quality.** 116868
Preliminary observations on the effect of the administration of flavomycin in lactation cows *[Milk* **quality**]. 117576
Milking, udder health and *milk* **quality.** 118559
Improvement of *milk* **quality** and mastitis control [Dairy cattle]. 118943
Counting somatic cells in *milk* with a **rapid** flow-through cytophotometer. 116892
Precision-accurate study of bacterial colonies automatic count by using the Artek electronic counter [**Raw** *milk* and pasteurized cream]. 116043
Antibiotics in **raw** *milk* consumed in the city of Santa Maria, Rio Grande do Sul [Milk contamination]. 116250
Coagulase-positive Staphylococcus occurrence in **raw** *milk* from the Pelotas area, Rio Grande do Sul [Milk bacteria and contamination]. 116251
Factors influencing the release of free fat in **raw** *milk*. 116908
Trials on the production of the Comiso breed of lamb with **reconstituted** *milk*. 118186
Use of *milk* **records** in one herd to predict a cow's production in a second herd. 117410
A new technique for the estimation of bacteriological quality of raw **refrigerated** *milk*. 116253
Quality of protein in *milk* **replacers** for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from reconstituted skim milk powder. 118035
Quality of protein in *milk* **replacers** for young calves. II. Effects of heat treatment of skim milk powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of protein in *milk* **replacers** for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of skim milk powders and commercial milk replacers. 118037
Quality of protein in *milk* **replacers** for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted skim milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Method of determining hexachlorobenzene, pentachloronitrobenzene and pentachloroaniline **residues** in *milks*. 116031
Voluminosity of different-sized casein micelles from the buffalo and the cow *[Milk* **samples**]. 116913
Distribution of *milk* in **schools.** 116547
Methods of radioactive contamination of foods of animal origin: meats, *milk,* and **seafood.** 116032
Laser light scattering bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for *milk,* **serum,** urine, and bile. 118460
A gain for the market, also by decreasing the **skim** *milk* powder surplus. 115599
Investigations into the action of **skim** *milk* powder and hydrolysed milk protein with a view to lowering the level of nitrite added to heat-sterilised meat products. 116980
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried **skim** *milk*. 117989
Studies on **skim** *milk* replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on **skim** *milk* replacements in the feeding of young pigs whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Quality of protein in milk replacers for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from reconstituted **skim** *milk* powder. 118035
Quality of protein in milk replacers for young calves. II. Effects of heat treatment of **skim** *milk* powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of **skim** *milk* powders and commercial milk replacers. 118037
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted **skim** *milk* powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Bovine colostral gamma-glutamyltransferase; its localization in **skim** *milk* membrane and irrelevance to secretory immunoglobulin A. 118685
German Agricultural Association quality testing for **sour** *milk* products and milk mixture products in Hanover. 116081
Development and resistance of staphylococci in Bulgarian **sour** *milk* [Contamination]. 116261
Count, type and amount of free amino acids in Bulgarian **sour** *milk* and sour milk rolls. 116861
Effect of some factors on the quality of Bulgarian **sour** *milk* [Effects of feeding cattle]. 118180
Sensory study of **soybean** *milk* flavor. 117074
Yoghurt production by lactobacillus [acidophilus] fermentation of **soybean** *milk*. 117165
A method for calculating the losses of *milk* in **sterile** cows. 117512
Effect of nisin [antibiotic produced by Streptococcus lactis] on reducing the thermal process in commercially **sterilized** *milk*. 116929
Milk **substitutes** [in calf rations]. 118112
Summer *milk* production [Cows]. 117418
The effect on growth of feeding **supplemental** *milk* or baby food to the suckling rat. 116477
South of the Waitaki [Dairy farming, *milk* **supply**]. 115457
Inhibitory substances in the *milk* **supply** of southern Ontario [Quality]. 116199
Clinical application of the *progesterone-in-milk* **test** [Pregnancy diagnosis in cattle]. 118230
Identification of antibiotic residues in *milk* by **thin-layer** chromatography. 116192
Living from *milk* **tomorrow,** too: development of markets for milk and beef. 115771
Studies in costs of production [of] **town** *milk* supply farms 1973-74. 115541
Technical equipments for milking and *milk* **treatment.** 124743
Effect of two quantities of *milk* once or **twice** daily and one weekly fast on the performance of calves. 118045
World *milk* production forecast to rise fractionally in 1976 [Statistics]. 115629
Relationship between milk progesterone concentration and *milk* **yield,** fat and total nitrogen content. 116855
Genotype-environment interaction for *milk* **yield** in dairy cattle. 117455
Studies with ammonized straw pellets used as sole basal diet in the feeding of ruminants. 2. Studies on processes of ruminal fermentation in relation to milk composition and the *milk* **yields** of cows. 118005

MILKING

The effect of dry versus wet stimulation of *milking* **cows** on the fat absorption by teat cup liners. 117476
A new Australian standard for **dairy** *milking* machines. 124665
Evaluation of the udder in Red Steppe cattle in relation to **machine** *milking*. 117933
Observations on the flex wearing variations of teat-cup liners in farm usage *[Milking* **machine** components]. 124701
Inspection of *milking* **machines** and equipment and the sanitation problem of the udder [Dairy cows]. 118548
Latest results in the modernization and automation of **mechanized** *milking*. 124697
Technical equipments for *milking* and **milk** treatment. 124743
Studies into incidence, pathogenesis, and prophylaxis of bovine grass tetany. 5. Mineral fodder ad libitum mixes or mineral feeding in the *milking* **parlour** for prophylaxis against grass tetany. 119176
Laborsaving keeping, feeding and *milking* **techniques.** 115459
Laborsaving keeping, feeding and *milking* **techniques** [Stalls and equipment]. 124655
Recent developments in *milking* **technology.** 124700
Milking, **udder** health and milk quality. 118559

MILLERS

The sterolic fraction of tomato seed oil (Lycopersicon **esculentum** *Miller)*. 117319

MILLET
Millets: **Eleusine** coracana, Pennisetum americanum (Gramineae). 121952
Functional characteristics of starches from proso and **foxtail** *millets.* 117121
Induced mutations in **foxtail** *millet* (Setaria italica Beauv.). II. Viable mutations in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Groat crops (buckwheat, *millet,* **rice**). 121522

MILLING
The cooperation of *milling* and the **bakery** industry in the manufacture of optimum flour qualities. 117147
Milling **by-products** in feed legislation. 115957
Handling *milling* products. 117083
A comparison of cane diffusion with **hybrid** *milling-diffusion* systems. 117116
Effects of aerating rice during **laboratory** *milling* on milled rice yields. 117174
The economics of *milling* your **own** flour. 117160
Permanent control of the quality of granular and powdery products by automatic sampling *[Milling* **products].** 116063
Effects of aerating rice during laboratory milling on *milled* **rice** yields. 117174
Role of damaged starch in *milling* [**Wheat** flour]. 117084
Development of **wheat** *milling* diagrams from the 1920's to the 1960's. 117138

MILLS
Operating experience with a high-purity—oxygen activated sludge waste treatment system [Pulp and **paper** *mills].* 125565
Operating experience with an advanced color removal system [Wastewater from pulp and **paper** *mills].* 125566

MIMICRY
Phenotypic diversity, *mimicry* and **natural** selection in the african butterfly Hypolimnas misippus L. (Lepidoptera: Nymphalidae). 123828
Antennal receptor response to sex **pheromone** *mimics* in the American cockroach [Periplaneta americana]. 124094

MIMOSA
On the biological chemistry of Mimosaceae. I. D-pinitol from *Mimosa* **pudica** L. 121302

MIMOSACEAE
On the biological chemistry of *Mimosaceae.* I. **D-pinitol** from Mimosa pudica L. 121302

MIMOSOIDEAE
A monograph of the genus Prosopis (Leguminosae subfam. *Mimosoideae)* [New taxa]. 120096

MIMUSOPS
Decomposition of lignin and cellulose components of wood of Swietenia mahogani, Casuarina equisetifolia and *Mimusops* **elengi** by Fomes durissimus lloyd [Wood-destroying fungi]. 119678

MINERALOGY
Mineralogical **composition** of a Danish soil developed on young morainic material. 124779

MINERALS
Optical vs. Electronic enhancement of remote sensing imagery [for information as to the amount and condition of such earth resources as timber, forage, soils, water, *minerals* and **agricultural** crops. 125487
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. *Mineral* **composition** of pig bristles as influenced by pregnancy and lactation. 117574
Mineral **composition** of liver and kidney of rats fed corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
A nutritional shield against the arrows of stress [Vitamins, *minerals,* and other **concentrated** supplements]. 116528
Changes of the vitamin and *mineral* **content** of nutritional plants due to technological treatment. 116317
Influence of plant breeding and cultivation practices on vitamin and *mineral* **content** of plants. 116318
The *mineral* **content** of pig and bovine muscle. 117000
Mineral **contents** of the blood and chemical composition of the muscles of Trichinella-infected piglets. 118970
Mineral and **crystal** formation in vitro by lipids extracted from bovine compact bone. 117870
The movements of *minerals* in the **digestive** tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, sodium, potassium and chlorine]. 117963
Some effects of copper, cobalt, cadmium, zinc, nickel, and chromium on growth and *mineral* **element** concentration in Chrysanthemum [morifolium]. 121716
Studies into incidence, pathogenesis, and prophylaxis of bovine grass tetany. 5. Mineral fodder ad libitum mixes or *mineral* **feeding** in the milking parlour for prophylaxis against grass tetany. 119176
Mineral **fertilization** of Tsuga heterophyla Sarg. In nursery conditions. 124965
Effect of extended organic and *mineral* **fertilization** on the content on some trace elements in soils. 125069
A fine structural study of *mineralization* **foci** in antler and growth plate cartilage [Rats]. 117881
Studies into incidence, pathogenesis, and prophylaxis of bovine grass tetany. 5. *Mineral* **fodder** ad libitum mixes or mineral feeding in the milking parlour for prophylaxis against grass tetany. 119176
The rules of the *mineral* **game** [in cattle feeding]. 118113
Resources of underground water of **increased** *mineralization* on the territory of the USSR, their location, formation and prospects of utilization (1970-1974). 125234
Development and planning in Alaska with special reference to land use and *mineral* **leasing.** 115274
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 6. Prophylactic adlibitum feeding of **magnesium-enriched** *mineral* fodder. 119177
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 7. Use of different magnesium sources in *mineral* **mixes** for cattle on pasture. 119178
Effectiveness of supplementary feeding of reindeer with *urea-mineral* **mixture.** 118069
Nitrogen *mineralization* and nitrification in amended colliery spoils. 125495
The effect of the supply of *mineral* **nutrients** on root morphology, nutrient uptake, and shoot growth in cereals. 121421
Mineral **nutrients** as thinning agents in 'Wilking' mandarin trees [Citrus reticulata]. 121674
Transport effect of some *mineral* **nutrients** and photosynthates with reference to stock-scion relationship in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727
Magnesium: the currency of life *[Mineral* **nutrition].** 116532
Interactions between water and *mineral* **nutrition** of the plant. 120886
Mineral **nutrition** of Aspergillus niger for citric acid production. 121066
Effect of chlorocholine chloride on the *mineral* **nutrition** and productivity of winter wheat on Chernozem. 121400
Mineral **nutrition** of cultured chlorophyllous cells of tobacco. IV. Kinetic studies of K [potassium] and Mg [magnesium] uptake by the cells. 121534
Amino acid and fractional composition of protein of the vegetative mass of maize at different levels of *mineral* **nutrition** and water supply. 121575
Research on the *mineral* **nutrition** of the olive tree. 121585
Some features of *mineral* **nutrition** of greenhouse carnation [Dianthus]. 121588
Ascorbic acid and other chelating agents in the *trace-mineral* **nutrition** of the aphid Myzus persicae on artificial diets. 123884
Mineral **nutrition** and the yield of winter wheat as related to systematic application of fertilizers in a crop rotation on typical Chernozem. 124942
Effect of irrigation regime and *mineral* **nutrition** on the yield of seeds [of sugarbeets] and their productive properties. 125244
Mineral **quality** from the viewpoint of the practitioner [Feed supplements, nutritive value, cattle]. 118161
Mineral **relationships** and ecological distribution of Fissidens cristatus Wils. [Bryophyta]. 121171
Experiences concerning the energy, protein and *mineral* **requirements** of laying geese. 118017
Mineral **requirements** of sorghum. Study of a long stalked variety from Upper Volta. 121409
Trace *mineral* deficiencies in rats caused by feeding rapeseed flours during growth, gestation and lactation. 116441
The importance of vegetable food in covering the requirements for **vitamins** and *minerals.* 116321

MINERS
Beet **leaf** *miner* [Pegomya betae]. 123268
Studies on boreal Agromyzidae (Diptera). X. **Phytomyza** *miners* on Crassulaceae [New taxa]. 124406

MINIATURE
The potato, maize and bean association, a form of intensive, economic use of the agricultural resources of *miniature* **holdings** [Colombia]. 115344
Icata, a new wheat variety for sowing on *miniature* **holdings** [Colombia]. 122108
A *miniature,* **readily** available electrode pedestal for recording cerebral and other electrophysiological activity from several species [of experimental animals]. 117843

MINIMIZATION
Minimizing the **cost** of irrigation by application of the inventory theory. 115517
Running skylines reduce access road needs, *minimize* **harvest** site impact. I. 119846
How to *minimize* **mycotoxin** problems in your feed [Poultry, mycotoxicosis]. 119277
Prescribed [forest] fire technology for *minimizing* **smoke** hazards. 119342

MINING
Vegetation of the copper and **antimony** *mine* heaps. 120316
LANDSAT inventory of *surface-mined* **areas** using extendible digital techniques [Remote sensing]. 115256
Composition properties and suitability of waste lands from the Baidakovskii **coal** *mine* for recultivation. 125091
Coal *mine* [land] reclamation on the Black mesa and the four corners areas of notheastern Arizona. 125121
Land reclamation, water quality control, and environmental concern at Centralia (Washington) **coal** *mine.* 125124
Problems and techniques in revegetating **coal** *mine* spoils in New Mexico. 125127
Problems in reclamation of **coal** *mine* spoils in New Mexico. 125128
Physiological effects of sublethal levels of acid water on fish [River polution with **coal** *mine* drainage, toxicity]. 125401
Extensive overburden potentials for soil and water quality **[Coal** *mining,* environmental contamination prevention]. 125416
Application of EREP, LANDSAT and aircraft image data to environmental problems related to **coal** *mining* [Remote sensing]. 125457
Ecophysiological response of lichen transplants to air pollution in the Murdochville Gaspe **Copper** *Mines* area, Quebec [Parmelia squarrosa, Hypogymnia physodes, Usnea]. 122974
Strip *mine* rehabilitation problems and research in Wyoming [Reclamation, revegetation]. 125131
Surface *mines* can be regenerated. 125095
Revegetation of land disturbed by **surface** *mining* in Colorado. 125130
Surface *mine* reclamation in the Mountain State [West Virginia]. 125166
Economic impacts of **surface** *mine* reclamation [Mathematical model, environmental pollution control, regulation]. 125522

MINKS
The structure of the aleutian disease **antigen** [of *mink].* 118891
Results of investigations concerning [feed] **digestibility** in *mink.* 117945
Pheromones of mammals: an investigation of volatile acids in vaginal excretions of *minks,* **Mustela** vison Briss. 118255
Light control for more rapid maturing of *mink* **pelts.** 117420
Vitamin **requirements** [for *mink].* 117970
Mercury poisoning in a **wild** *mink.* 119261

MINT
Potpourri is easier than you think [Processing of fragrant flowers, herbs, *mint* **mixture].** 116805
The **new** *mint* variety"Wasenami" [Mentha arvensis var. Piperacens X Mentha spicata var. crispa]. 122542

MIOCENE
The *miocene* **flora** of Turow. 120171

MIRABILIS
The biology of **Harveyella** *mirabilis* (Cryptonemiales; Rhodophyceae). V. Host responses to parasite infection [Algae]. 121219
Environmental control of crassulacean acid metabolism in **Welwitschia** *mirabilis* Hook. Fil. in its range of natural distribution in the Namib desert. 120387

MIREX
Photochemical confirmation of *mirex* in the **presence** of polychlorinated biphenyls [Pesticide residues]. 123721
Flight and survival of alate red imported fire ants [Solenopsis invicta] after *mirex* **treatment.** 123247

MIRIDAE
Miridae of the **genus** Termatophylidea (Hemiptera) as predators of cacao thrips [Selenothrips rubrocinctus]. 123233
Pretarsal structure in the *Miridae* **(Hemiptera)** with a cladistic analysis of relationships within the family. 119928
Cell-free translation of foot-and-mouth disease virus RNA into **identifiable** *non-capsid* and capsid proteins. 118787
Neotropical *Miridae.* 196. Descriptions of five new genera and six new species (Hemiptera) [Brazil]. 124414
Neotropical *Miridae.* 197. Description of Urubumiris gen. Nov. and two new species of Minytus (Hemiptera) [Brazil]. 124415
Neotropical *Miridae.* CXCVII. Review of the genera Callichila Reuter and Platytylus Fieber (Hemiptera) [New taxa, Latin America]. 124416
Parasitism of the tarnished plant bug, Lygus lineolaris (Hemiptera: *Miridae),* by **Peristenus** pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297
A messenger RNA for *capsid* **protein** isolated from tobacco mosaic virus-infected tissue. 122872
Cell-free translation of foot-and-mouth disease virus RNA into identifiable non-capsid and *capsid* **proteins.** 118787

MISTLETOE
Fire and **dwarf** *mistletoes* [Arceuthobium] in North American coniferous forests [Prescribed fire for control]. 119603

Agglutination of human erythroytes and ascites tumor cells of the mouse by using extracts of the **European** *mistletoe* (Viscum album L.). 120847
Mistletoe in the **folklore** of the blacks of Oubangui. 122390

MISTS
Regulation of plant growth by **rain** and *mist.* 121017

MITE
Observations on some Actinedida (=Prostigmata) in soils in North America. V. Barbutiidae, a new family of *mites* (**Acari:** Raphignathoidae) and description of a new species belonging to the genus Barbutia [perretae]. 124195
Nutritional requirements and metabolic inhibition of some **acarid** *mites* [Tyrophagus putrescentiae, Caloglyphus berlesei, control]. 123547
A simplified method for demonstration of **allergenic** *mites* in small samples of house dust. 123606
Biology of the *mite,* **Anystis** agilis (Acari: Anystidae): a California vineyard predator [Tetranychus urticae, Erythroneura elegantula]. 123367
The **autumn** *mite* [Neotrombicula autumalis (Trombidiidae)], a serious local [human] pest. 123658
Otitis externa. 5. Otoacariasis [Dogs and **cats,** *mites].* 123680
Effect of some nutritional plant sprays on the population of Tetranychus arabicus (Attiah) (Acarina, Tetranychidae) [for **controlling** *mites].* 123223
Restatement of the question of *mites* on **dried** plums. Development conditions and spreading of Carpoglyphus lactis L. (Acarida, Glycyphagidae). 123586
Ear *mites* [Psoroptes] in a horse. 123639
Ectoparasitic *mites* (Acarina: Otopheidomenidae) on sphingid moths. 123773
On the incidence of *mite* **eggs** in human stools [Carpoglyphus lactis]. 123616
Epigaeic *mites* of northern Switzerland. I. 124340
Observations on the seasonal incidence of **external** *mites* Acarapis spp. on honey bees. 124544
Insects and *mites* in **farm-stored** grain. 123504
An analysis of host-parasite associations among **feather** *mites* (Acari: Analgoidea). 124077
An annotated list of predators and parasites associated witn insects and *mites* on **Florida** citrus. 123381
Pathogenesis [demodicosis] associated with hair **follicle** *mites* (Acari: Demodicidae). 123591
Demodex folliculorum, the **follicle** *mite* of man. 123644
Further observatons on mass propagation and damage due to the purse-shaped **gall** *mite* Eriophyes similis Nal. on plums. 123424
Gall *mites* [of trees]. 123460
Insect [Diatraea grandiosella, Southwestern corn borer] and mite [Oligonychus pratensis, Banks **grass** *mite]* control in corn. 123344
The role of low temperature to control stored food pests [Fungi, *mites,* **insects].** 116759
Apple trees in the suburban forest as hosts for **insects** and *mites.* 123403
Galls—biology and morphology. V. Galls produced by *mites* and **nematodes.** 123249
Ceratozetes kananaskis (Acari: Cryptostigmata: Ceratozetidae): a **new** *mite* species from western Canada [Forest zoology]. 124273
Insect [Diatraea grandiosella, Southwestern corn borer] and *mite* **[Oligonychus** pratensis, Banks grass mite] control in corn. 123344
Antiquity and specificity of **parasitic** *mites.* Parallel host-parasite development [Especially Myobiidae, marsupials as hosts]. 123589
New **parasitic** *mites* of the superfamily Listrophoroidea (Astigmata) [New taxa]. 124200
Insecticide-resistant **predatory** *mites* [Typhlodromus pyri] feed on European red mite, Panonychus ulmi] in apple orchards. 123428
Biology and feeding behaviour of the **predatory** *mite,* Amblyseius brazilli (Mesostigmata: Phytoseiidae). 123901
Reproduction biology of Tyrophagus putrescentiae (Schr.) (Acarina: Acaridae) [Stored **product** *mites].* 123552
Resistance to European **red** *mite,* Panonychus ulmi (Koch), in apple. 123409
Insecticide-resistant predatory mites [Typhlodromus pyri] feed on European **red** *mite,* Panonychus ulmi] in apple orchards. 123428
Plictran: some factors in effective integrated control of European **red** *mite* [Panonychus ulmi, apples]. 123429
Large-scale production of the fungal pathogen Hirsutella thompsonii in submerged culture and its formulation for application in the field [to control the citrus **rust** *mite,* Phyllocoptruta oleivora]. 123399
Narcissi smoulder. Is there a link with **scale** *mites?* 123402
Ovicidal activity and its relation to chemical structure for the two-spotted **spider** *mite* (Tetranychus urticae Koch) in a new class of miticides containing the cyclopropyl group. 123241
New trial for the control of the two-spotted **spider** *mite* tetranychus urticae Koch, 1836, on cotton. 123330
Investigations on the identification of the species of red **spider** *mites* harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the two-spotted spider mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377
Toxicity of sodium fluoride for the **spider** *mite* Tetranychus urticae Koch. 123835
Strawberry *mite* [Tarsonemus pallidus]. 123363
Two new **Tarsonemid** *mites* from Poland (Acari: Tarsonemida) [Siteroptes polonicus, Brennandania varsoviensis]. 124460
Mites of **Tenerife** [Canary Islands, New taxa]. 124478
Plictran: **testing** *mite* [Panonychus ulmi, Tetranychus urticae, Typhlodromus pyri] populations for suspected resistance. 123430
Tactics of host exploitation by a thermophilic **water** *mite* [partnuniella thermalis]. 124078

MITICIDE
Ovicidal activity and its relation to chemical structure for the two-spotted spider mite (Tetranychus urticae Koch) in a new class of *miticides* **containing** the cyclopropyl group. 123241

MITIS
Induction of juvenile leaf form in a palm **(Caryota** *mitis)* by gibberellin. 120441

MITOCHONDRIA
Alterations of the heterogeneity of *mitochondria* in the **aerobic** growth of the yeast Saccharomyces cerevisiae. 121095
Oligomycin sensitivity of the *mitochondrial* **ATPase** [adenosine triphosphatase] as a marker for fly transmissability and the presence of functional kinetoplast DNA in African trypanosomes. 123619
Mitochondrial **biogenesis** during fungal spore germination: products of mitochondrial protein synthesis in vivo [Botryodiplodia theobromae]. 120903
The effect of stimulating rates of ionizing radiation on the stability of liver **cell** *mitochondria* in chick embryos and young chickens. 117950
Estimation of the molecular length of petite negative yeast [Torulopsis colliculosa] *mitochondrial* **DNA.** 121051
Environmentally induced changes in *mitochondria* and **endoplasmic** reticulum of Saccharomyces carlbergensis yeast. 121174
Inheritance and synthesis of chloroplasts and *mitochondria* of **Euglena** gracilis [Algae]. 120606
In vivo purification of *mitochondrial* **genes** in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in mitochondrial ribosomal RNA cistrons. 120754
Circular DNA in the yeast Saccharomyces cerevisiae in relation to informosomal DNA and *mitochondrial* **genetics.** 120753
Genesis of *mitochondria* in **growing** cells of the maize root: Reorganization of the electrotransporting chain. 121485
Evidence for a function of core protein in complex III from beef **heart** *mitochondria.* 117661
Relationship between configuration, function, and permeability in calcium-treated **[beef heart]** *mitochondria.* 117793
Activation of external way of free oxidation in **liver** *mitochondria* during cooling of rats [Response to sharp reduction of environmental temperature]. 117652
Exchange of phospholipids between *mitochondria* and **microsomes** in vitro stimulated by yeast cell cytosol [Saccharomyces cerevisiae]. 120929
Mitochondrial biogenesis during fungal spore germination: products of *mitochondrial* **protein** synthesis in vivo [Botryodiplodia theobromae]. 120903
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] *mitochondrial* **protein** synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
In vivo purification of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in *mitochondrial* **ribosomal** RNA cistrons. 120754
Calcium regulation in heart cells. The interaction of *mitochondrial* and **sarcoplasmic** reticulum with troponin-bound calcium [Dogs]. 117659
In vitro studies of *mitochondrial* and **sarcoplasmic** reticulum function in muscle of stress susceptible pigs. 117770
Oxidative phosphorylaion in brown adipose **tissue** *mitochondria* from rats kept under normal environmental conditions. 117780
Permeability measurements on *mitochondria* from **wild-type** and poky strains of Neurospora crassa [Fungi]. 121162
Analysis of quantitative and qualitative study of the condition of water in the *mitochondria* [of **winter** wheat]. 121492
Effect of protective substances on the activity of catalase in the *mitochondria* in **winter** rye leaves. 121493
The activity of succinate dehydrogenase, content of lipoids and protein in the *mitochondria* of **winter** wheat [Varieties]. 121497
Methodology of determining the content and state of water in the *mitochondria* of **wintering** plants [Winter wheat]. 121495
The isolation and properties of a DNA-directed RNA polymerase from **yeast** *mitochondria* [Saccharomyces cerevisiae]. 120936
Permeability of the inner membrane of **yeast** *mitochondria:* relationship between structure and activity [Saccharomyces cerevisiae]. 120938
The role of cell proteinases in the biogenesis of *mitochondria* [in **yeast,** Saccharomyces cerevisiae]. 121039
Cyanide and antimycin A nonsensitive respiration of *mitochondria* of the **yeast** Candida lipolytica. 121096
Some properties of *mitochondria* of the **yeast** Candida lipolytica. 121097

MITOGENETIC
Phytohemagglutinins. II. Agglutinating activity, *mitogenic* **activity** and possible role in plants. 121089

MITOMYCIN
Spermatocyte chromosome aberrations induced by antibiotics in grasshoppers [Poecilocerus **pictus.** 2. *Mitomycin-C.* 124157

MITOSIS
Influence of Cynkotox (zineb) on *mitotic* **activity** and course of mitosis in root meristem of Allium cepa L. seedlings [Onions]. 122617
Effects of bracken (Pteridium aquilinum) frond extract on *mitosis* in **Allium** cepa [Onions]. 120473
Effect of bark extracts on *mitosis* in **Allium** cepa [Onions]. 122949
Influence of Verticillium albo-atrum Rke et Berth. On the course of *mitosis* in **apical** meristem cells of lucerne (Medicago media Pers.) roots. 122618
The effects of the glycoside "morindine" on *mitotic* **chromosomes** [Onions]. 120454
Ultrastructure of *mitosis* in the **cowpea** rust fungus Uromyces phaseoli var. vignae. 120483
Effect of lecanoric acid on *mitotic* **division** in Allium sativum [Garlic]. 120617
Toxic effects of lead on growth & metabolism of germinating rice (Oryza sativa L.) seeds & on *mitosis* of **onion** (Allium cepa L.) root tip cells. 122952
Ultrastructure of **persisting** *mitotic* nucleoli of mung beans. 120557
Influence of Cynkotox (zineb) on mitotic activity and course of *mitosis* in **root** meristem of Allium cepa L. seedlings [Onions]. 122617
The **theme** *(mitotic* cell division) and the variations (protists): implications for higher taxa. 120292
UV **[ultraviolet]-induced** *mitotic* recombinations in somatic cells of Drosophila melanogaster. 124090

MIXING
Do vaccines & **antibiotics** *mix?* [Cattle]. 118686
Dried orange pulp versus ground corn ears in **concentrated** *mixed* rations for lactating dairy cows. 118159
Microecological studies on lactic acid bacterial flora of molasses distilleries. III. Cultivation of the brewers' yeast Saccharomyces cerevisiae race M with some isolated lactic acid bacteria from molasses distilleries in **continuous** *mixed* cultures. 116664
Is there a danger of mycotoxins in Hungarian salami? I. The influence of substrate, aw-value and temperature on toxin production in *mixed* **cultures.** 116121
How to formulate layer's diets for *mixing* on the **farm** [Chickens]. 118084
Processing of *mixed* **feed** components. 117367
Vitamin content of *mixed* **feed** for piglets. 117380
Protein utilization of *mixed* **feed** rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein utilization of *mixed* **feed** rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein utilization of *mixed* **feed** rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Contribution to the rapid, simple and certain identification of aflatoxins in *mixed* **feeds.** 117358
The role of *mixed-supplemented* **feeds** in horse nutrition. 118185
Design and analysis of *mixed* **grazing** experiments [with cattle and sheep]. 117393
Ice damage in a *mixed* **hardwood** forest in Connecticut in relation to Vitis [Grape vines] infestation. 122918
Problems encountered in the further processing of standardized meat in **large** *mixed* plant in Europe. 116992
Studies into incidence, pathogenesis, and prophylaxis of bovine grass tetany. 5. Mineral fodder ad **libitum** *mixes* or mineral feeding in the milking parlour for prophylaxis against grass tetany. 119176
Influence of fabric construction and treatment on the reaction of cotton, half-linen and pure-linen fabrics, as well as polyester and **linen** *mixed* fabrics, to the effect of water. I. Influence on absorptive capacity. 117193
Mixing **methods** for sausage meat standardization. 116101
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 7. Use of different magnesium sources in **mineral** *mixes* for cattle on pasture. 119178
New Zealand **peat-sand** *mixes,* including the use of zinc. 124968
On-farm mill and *mix* **[Poultry** feeds]. 117374
Renewal of treatment, storage and marketing units for food potatoes, and integration of automatic E 691 *mix* **separators.** 124672

Effect of fast-growing [tree] species on the growth and condition of common oak [Quercus robur] in [shelterbelt] plantings created by a strip type of *mixing* on the **soils** of the Kamennaia Step'. 119411
Reasons of variation in the physiological condition of eastern cottonwood [Populus deltoides] in *mixed* **stands.** 121813
Buy-in or *home-mix?* **Swine** feed]. 117371
Application of thermal scanning to the study of **transverse** *mixing* in rivers [Remote sensing, pollutants]. 125458

MIXTURES

Effects of substrate type and microtopography on establishment of a *mixture* of **bryophytes** [Bryophyta] from vegetative fragments. 120326
Ensilage of oat with berseem **[clover]/concentrate** *mixture.* 117349
Use of **colostrum** *mixtures* for feeding calves on large farms. 118171
Studies with dairy cows investigating the dietary effect of *mixtures* of **compressed** straw + concentrates prepared from crude and NaOH [sodium hydroxide] treated cereal straw. 1. Digestibility and milk production. 118006
Artificial milks and *mixtures* for **early** weaning of lambs. 118162
Thermal properties of 2-oleodipalmitin and **2-elaidodipalmitin** and some of their *mixtures.* 116772
Influence of seedling methods and nitrogen fertilization on yield and botanical composition of a white clover-tall **fescue** *mixture* in mountain. 122123
Results of four-years grazing experiments with Dactylis glomerata in *mixture* with **five** leguminous species. II. Differences in soil-covering ability. 122133
Some hints on choosing clover and **grass** *mixtures* [Varieties]. 122111
Fertilization of **grass-legume** *mixture.* 125030
Mixture of **gums** replaces soybean oil—savings are significant [Gum tragacanth]. 116744
Yield and stability in **intraspecific** *mixtures* [Breeding, barley, peas]. 120634
Technological advances in the renovation of [forage] grass stands [and their *mixtures* with **legumes**]. 122037
German Agricultural Association quality testing for sour milk products and **milk** *mixture* products in Hanover. 116081
Potpourri is easier than you think [Processing of fragrant flowers, herbs, **mint** *mixture].* 116805
The *mixture* **problem** in computer mapping of terrain: improved techniques for establishing spectral signatures, atmospheric path radiance, and transmittance [Remote sensing, vegetative cover]. 120368
Relation between growth of Chrysanthemum [morifolium] and aeration of various container media **[Soil** *mixtures].* 121713
Growing cucumbers on soil and *mixtures* of **soil** and peat aggregated by hydrolyzed polyacrylonitrile. 124760
"Tank *mixtures"* in weed control in cereal and maize cultures. 123110
Effectiveness of supplementary feeding of reindeer with **urea-mineral** *mixture.* 118069

MNIACEAE

Spore wall structure in *Mniaceae* and some **adjacent** bryophytes. 120512

MOBILITY

Mobility and **capital** advancement for individual farms. 115472
Ants [Formicidae] of *Mobile* **County,** Alabama, as monitored by bait transects. 123245
The relationship between molecular size and **electrophoretic** *mobility* in agarose gels as determined from a single population of growing RNA molecules [Chironomus tentans]. 124086
Effect of soil pH [hydrogen-ion concentration] on microbial degradation, adsorption, and *mobility* of **metribuzin** [herbicide]. 123205
Adsorption and *mobility* of **metribuzin** [herbicide] in soil. 123764
Effect of bovine follicular fluid on the **relative** *mobility* of bovine acrosomal proteins in electrophoretic field. 118326
Mobility **restriction** in vivo of the heavy ribosomal subunit in a secretory cell [Chironomus tentans]. 124022
Mobility of **water** and the activity of adenosinetriphosphatase in the tillering node of winter wheat. 121496

MOBILIZATION

The influence of cytokinin and gibberellin on **auxin** *mobilization:* its role in regeneration and apical dominance in Marchantia polymorpha. 120974

MODALITIES

Effectiveness of *modal* and **directional** selection according to the totality of characters in cotton Gossypium hirsutum l. 120621
Yield response of sulla sweet vetch (Hedysarum coronarium l.) to different seed types and **seeding** *modalities.* 122142

MODEL

Model for the **analysis** of agricultural-cattle rearintg farms. V. Basic tecnical-economical informations—southern Lowerr Saxony. 115779
Analytical *model* for rigid body vibration of a hand-held chain saw. I. The gasoline engine. 119828
Use of **analytical** *models* to analyze physical processes [relating to groundwater flow]. 125212
Comparative developmental hematology: **animal** *models* [mouse and sheep] to study human fetal erythropoiesis. 117939
Advantages and limitations of **animal** *models* in the evaluation of antiviral substances. 118795
Modelling of **aquifer** behaviour for long time periods using interactive analogue-digital computers. 125241
Australian *model* of parasite control baths [Cattle, sheep, ectoparasites]. 123642
Development of numerical relations for *model* **calculation** [of groundwater flow]. 125201
Modelling **calculatons** for pesticide contamination of plant crop products. 123762
Contribution to the problem of whey evaluation. Manufacture of *model* **cheeses** with the addition of whey proteins. 116923
Log linear representation for paired and multiple **comparisons** *models* [Statistics applied to food preference]. 115571
Study of oxidation-reduction interactions among conversion products of *model* **compounds** and carbohydrates in alkali solutions [Lignin]. 119745
Simulating hydrologic behavior on Ouachita Mountain drainages [Watershed management, **computer** *models,* Arkansas]. 119414
Computer *modelling* of pollutant transports in Lake Erie. 125455
Establishing three **demonstration** *models* for delivery of nutrition services: a research project. 116409
Determining malt quality by means of a **dynamic** *model.* 116216
A *model* of **ecological** development and land settlement for the Orinoco River Basin of Colombia. 115292
Seasonal snow accumulation, melt and water input—a New **England** *model.* 115179
Contents and methodical aspects of urban **environmental** *models* [Social causes]. 125383
Wildlife wetland **evaluation** *model* [Vegetation]. 120389
A *model* for the **evaluation** of groundwater resources associated with wetlands. 125328
Models for **evaluation** of freshwater wetlands. 125332
Model **farm** ponds with automated monitoring of water quality. 125183
Incoming [solar] radiation fluxes on sloping terrain: a **general** *model* for use in Southern Africa. 115114
Detection of hydrological conditioning factors in the building of **groundwater** *models.* 125200
Project study on the development and operation of a **groundwater** *model* during practical planning. 125208
The calibration of practical **groundwater** *models.* 125210
The systematic way to a practical **groundwater** *model.* 125211
A dynamic grain sorghum **growth** *model* [for calculating the daily growth and development of an average grain sorghum plant in a field stand]. 122164
Prediction of the phytoplankton development in designed reservoirs by combining a **growth-kinetic** *model* and the analogy to existing reservoirs. 121149
Some effects of environmental controls on international trade: the **Heckscher-Ohlin** *model.* 125472
Waste injection into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a sand-packed **hydraulic** *model.* 125568
Land use classification for **hydrologic** *models* using interactive machine classification of Landsat data [Remote sensing]. 125262
Experimental scrapie in the mouse: a review of an **important** *model* disease. 118939
Determination of the standard factors of the transportation situation of a region in **interregional** *models* of agriculture. 115695
An alternative to **Kok's** *model* for the oxygen-evolving system in photosynthesis [with the example of the alga Chlorella]. 121050
The ASEA-MoDo Kappa Batch system: theory, application considerations, and *models* **[Kraft** pulping]. 119824
The effects of various tertiary treatment nutrient removal schemes on periphyton communities in *model* **laboratory** streams [Water resources research]. 125194
Investigation of oxidation-reduction processes in **lignin** *model* compounds in alkaline solutions. 119736
Thermographic study of **lignin** *model* compounds. VII. Thermal decomposition of ethylguaiacylmethane and diisoeugenol. 119750
Calculation of plant transpiration and productivity in the conditions of water deficit on the basis of a **mathematical** *model.* 121350
A **mathematical** *model* for the analysis of multi-reservoir flood control systems. 125239
Mathematical *model* for self purification as an instrument of water protection. 125291
Mathematical *modelling* of thermal pollution in rivers. 125456
Economic impacts of surface mine reclamation **[Mathematical** *model,* environmental pollution control, regulation]. 125522
An economic and **mathematical** *model* for determining the sequence of measures for applying fertilizers by aircraft in forestry. 125577
The grass Zingeria [biebersteiniana] with a low chromosome number—a **new** *model* object for the culture of plant cells and tissues [Effect of mutagenic agents on ploidic composition of populations]. 120624
A steady-state conceptual **nitrogen** *model* for estimating nitrogen emissions from cropped lands [Leaching losses, fertilizer, corn]. 124862
Use of **numerical** *models* to analyze physical processes [relating to groundwater flow]. 125213
A water quality **optimization** *model* for nonserial river systems. 125240
Organization *models* for rural economics. 115446
A *model* for the **origin** of diploidizing mechanisms in polyploid species [Wheat]. 120578
Comparative investigations on **polymer** *models* of lignins (DHP's) of different composition. 7. Pyrolysis. 119677
Quarterly **prediction** *models* for live hog prices. 115756
Thermal and radiative effects of atmospheric aerosols in the northern hemisphere calculated using a **radiative-convective** *model* [Air pollution, climate]. 125392
Strain rate effects in **similitude** *modelling* of plastic deformation of [protection] structures subject to impact loading [Tractors]. 124741
A **simulation** *model* for predicting and analyzing manpower requirements [in rural communities]. 115448
A retirement income **simulation** *model* for farm operators. 115555
A *model* of **stand** photosynthesis for the wet meadow tundra at Barrow, Alaska. 121040
Changes of nitrogen and phosphorus content during waterfall destruction in **standing** *model* waters. 125199
Models and **statistics** for [moth] species diversity. 124098
The chick chorioallantoic membrane as a *model* **system** for the study of tissue invasion by viral transformed cells. 118674
Results of the *model* **test** of training forest tractor drivers. 118264
Extended complete block designs with correlated observations [Sensory **testing** *models].* 115774
[Tobacco] leaf quality and usability: **theoretical** *model.* I. 117072
Theoretical *model* of ruminant adipose tissue metabolism in relation to the whole animal. 117685
The fifth Five Years Plan of the *model-farm* at the **University** of Agricultural Sciences in Godollo. 115860
Visual-cultural *sub-model* [Wetlands]. 115289
Water-management *model* in Florida from LANDSAT-1 data [Remote sensing]. 125286

MODULI

An equation for the *modulus* of **elasticity** [of agricultural products] of a radially compressed cylinder. 116837
Variation of **Young's** *modulus* caused by fertilizer ratios & chemical composition of rice varieties at flowering stage. 121510

MOISTURE

Balance of underground water and dynamics of *moisture* in the **areation** zone [in soil] in relation to meteorologic factors (1969-1973). 125216
The range of **available** *moisture* in automorphic soils of the Estonian SSR. 124904
Some considerations on the determination of **cereals** *moisture.* 117191
Determination of *moisture* **content** in dairy products without calculation with Mettler PT -scales. 116847
Determination of the *moisture* **content** in quick-frozen mushed chestnuts. 117266
Relationship between *moisture* **content,** aggregate formation and aggregate stability of a loam soil treated with a soil conditioner in various concentrations. 124789
Moisture **diffusion** in the cured burley tobacco leaf. 117203
Supplies of available phosphates in the soils from the Maritime Territory and their variation under the effect of **fertilizers** and *moistening.* 124947
Propionic acid preservation of **high** *moisture* corn and its utilisation in beef cattle feeding [Includes costs]. 118184
Effect of protein substitution on nonenzymatic browning in an **intermediate** *moisture* food system. 116766
Effect of different handling methods on cooling rate and *moisture* **loss** of 'd'Anjou' pears stored in bins. 117265
Chemical preservatives for **maintaining** *moist* rice in storage [Fungus diseases]. 117172
A method of predicting the calibration curve for a **neutron** *moisture* meter [Soils]. 124752
Heat and *moisture* in **piggeries** [Ventilation systems]. 124638
Changes in the content of tryptophane in layers under the effect of the temperature and *moisture* **regime** of the environment. 117946
Freeze-drying as an alternative method for lowering **seed** *moisture* [Onions, peppers, parsley]. 121764
Effects of fertilizer and *moisture* on **seed** yield of onion. 122335
The effect of **soil** *moisture* and nitrogen on yield and quality of the Russet Burbank potato. 122184
Microwave remote sensing of **soil** *moisture.* 124829
Soil *moisture* detection from Skylab [Remote sensing]. 124830
The correlation of Skylab L-band brightness temperatures with antecedent precipitation **[Soil** *moisture,* remote sensing]. 124831
Compensating for environmental variability in the thermal inertia approach to remote sensing of **soil** *moisture.* 124836
Measurements of spectral reflectance and optical constants of selected rock samples for application to remote sensing of **soil** *moisture.* 124868

Optimizing **soil** *moisture* conservation by mulch of hydrophobic aggregates using simulation and numerical search procedures. 125172
Irrigation timing for grain sorghum based on **soil** *moisture* tension, Texas High Plains. 125342
Influence of **substrate** *moisture* level on the germination of sweetgum and sand pine seed [Liquidambar styraciflua, Pinus clausa]. 121830
Comparative studies of the *moisture* and **thermal** regime on the Andosol-Brown and the Andosol-Black soils in Tokachi district. 124890
Measurement of basis weight and *moisture* on a **tissue** machine [Paper properties and processing]. 119783
Increase of yield and quality of winter wheat grain as affected by fertilizers in dryland farming in the zone of **unstable** *moistening* in Azerbaijan. 124941

MOLASSES
Direct determination of trace metals in cane juice, sugar & *molasses* by **atomic** absorption spectrophotometry. 117185
Some biochemical characteristics of citrus pulp ensiled at different *molasses* and **bagasse** levels. 117332
Gas chromatographic-mass spectrometric study of fluid **contents** of *molasses*. 116661
Feeding straw and *molasses* to **dairy** cattle. 118018
Performance of pigs fed different levels of Saccharomyces yeast [Saccharomyces cerevisiae] substituting fish meal in *molasses* **diets.** 118046
Saccharomyces yeast as a by-product from alcohol production on final *molasses* in **diets** for broilers. 118048
Microecological studies on lactic acid bacterial flora of *molasses* **distilleries.** III. Cultivation of the brewers' yeast Saccharomyces cerevisiae race M with some isolated lactic acid bacteria from molasses distilleries in continuous mixed cultures. 116664
Microecological studies on lactic acid bacterial flora of *molasses* **distilleries.** I. Isolation and identification of lactic acid bacteria. 116665
A case of *molasses* **engorgement** in dairy cows. 119101
Valuation of *molasses* **[Extraction,** processing, used as cattle feed]. 117180
Digesta compostion in the gastrointestnal tract of bovines fed forage and **high-test** *molasses* diets. Forage utilization [Pennisetum purpureum]. 117640
Studies on the digesta distribution in the GIT [gastrointestinal tract] of pigs fed **high-test** *molasses* or maize. 1. Stomach phase. 117641
Industrial *molasses:* production, consumption, and prices [Sugar]. 115766
Automated determination of chloride and phosphate in cane juice, *molasses* and **sugar.** 117184
The use of pasture for beef production. 3. Different protein sources for *molasses/urea* **supplementation** to bulls during the dry season. 118050
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some perennial tropical legumes and *molasses-grass* **[Varieties,** Melinis minutiflora]. 121886

MOLD
How to prepare a collection of **botanical** *molds* [for a herbarium]. 119861
Mould **contamination** of meat products. 116125
The degradation of 14C [carbon isotope]-lindane by a *mould* **culture.** 123742
Chemical and biological investigations on Fusarium mycotoxins **[Fungal** *molds* of food, wheat contamination]. 116034
Euparen and benlate, fungicides for the control of **gray** *mold* (Botrytis cinerea Pers.) in strawberries. 122623
Effect of prenatal exposure to mycotoxins *[Molds* **growing** on foodstuffs, laboratory animals]. 116245
Mold **inhibitor** prevents cottonseed quality loss [Field stored cotton]. 122588
The hypothetic race 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the reaction of some tomato species and varieties to it **[Leaf** *mold].* 122612
Slime-moulds **[Myxomycetes]** of Delhi. 120275
Status of technology of *molded* **parts** made of wood particles. 119673
Citrus: drop the subject *[Mold* on **peaches** after injury]. 122554
R23979, a new imidazole derivative effective against postharvest decay of citrus by *molds* **[Penicillium** italicum, Penicillium digitatum, Geotrichum candidum] resistant to thiabendazole, benomyl and 2-aminobutane. 122760
Notes on a collection of **slime** *moulds* [Myxomycetes, Fungi] from Nainital [India]. 120271
Myxomycetes **(slime** *molds)* [on trees]. 122682
Some methods of rye breeding for resistance to **snow** *mould* (fusarium nivale (Fr.) Ces.). 120680
Studies of the resistance of rye to **snow** *mould* (Fusarium nivale Fr.) [Varieties, testing]. 122619
Some *slime-moulds* from **southern** India. XI. [Fungi, new taxa]. 120146
The application and uses of Terrazole soil fungicide [Pythium, Phytophthora, **water** *moulds,* control, New Zealand]. 122594

MOLECULES
Molecular **activation** analysis and its application to methylmercury determination in various marine samples. 125500
The *molecular* **biology** of yeast [Saccharomyces cerevisiae] killer factor. 121145
Influence of *high-molecular* **cationic** dehydrating agents on the electrokinetic properties of cellulose. 119780
Selective distribution of newly formed *molecules* of **chlorophylls** a and b at different depth of fragmentation of photosynthetic membranes by digitonin. 121037
Pterin-protein complex and ferredoxin as possible components of a *molecular* **complex** in Photosystem I [Chloroplasts]. 120943
Photochemical reactions. XXVI. *Molecular* and **crystal** structure of a cyclobutane annelated gibberellin derivative [plants, growth substances]. 121366
Retention of *molecules* of 1.1. **Dichloro-2-2** bis (p-chlorophenyl)-ethylene on some metalic oxides [DDT decomposition, soil contamination]. 123684
In vitro trypsin digestion of bovine and pig muscles both raw and cooked: peptides fractionations by *molecular* **exclusion** chromatography [Pork and beef]. 116937
Molecular **forms** of neurotoxins in proteolytic Clostridium botulinum type B cultures. 116170
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. I. Kinetic analysis by labelling of **high** *molecular* weight rRNA species. 120932
Estimation of the *molecular* **length** of petite negative yeast [Torulopsis colliculosa] mitochondrial DNA. 121051
Connecting ontogenic events in seeds to the ultrastructural and *molecular* **levels.** 121083
Mycological production of citric acid in India. V. Effect of some **low** *molecular* weight alcohols [Aspergillus niger, Fungi]. 116832
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. II. Position of the **low** *molecular* weight rRNA species in the maturation process. 120933
Presence of polyphosphate of **low** *molecular* weight in Zygomycetes [Fungi]. 121163
Multiple *molecular* forms of nicotinamide-adenine-dinucleotide-specific glutamate-dehyrogenase in lines and hybrids of maize [Zea mays L.). 121448
The relationship between molecular size and electrophoretic mobility in agarose gels as determined from a single population of growing **RNA** *molecules* [Chironomus tentans]. 124086
Molecular **sieve** chromatography of proteoglycans: a comparative analysis [Chick embryos]. 117551
The relationship between *molecular* **size** and electrophoretic mobility in agarose gels as determined from a single population of growing RNA molecules [Chironomus tentans]. 124086
Small *molecular* weight DNA of the silkworm, Bombyx mori. 124536
Crystal and *molecular* **structure** of organophosphorus insecticides. 4. Bromophos. 123239
Molecular **structure** of sugars and their effectiveness in stimulating insects [Phormia, Apis mellifera]. 124101
Distribution of *molecular* **weight** of lignosulphonic acids in sulphate cooking of lignin. 119732
Notes on *molecular* **weights** of aroma compounds. 116801

MOLES
Histone synthesis & transition during spermatogenesis in the *mole* **cricket** Gryllotalpa fossor Scudder. 123972

MOLINATE
Effects of *molinate-propanil* **combinations** on rice yield [Commelina, Leptochloa, Echinochloa]. 123176

MOLLUSKS
An analysis of competitive ability in three perennial grasses [Arrhenatherum elatius, **Agrostis** *tenuis,* Festuca ovina]. 120386
Preliminary study of the tonka bean **[Dipteryx** *alata]* (Leguminosae, Faboideae). 121622
Installation of purification for the **edible** *molluscs* Lamellibranchia [Food decontamination]. 116172
Effect of bud-pollination and delayed self-pollination on the induction of a possible rejection peroxidase in styles of **Nicotiana** *alata.* 121582
Nicotiana *velutina* [tobacco] mosaic virus: purification, properties and affinities with other rod-shaped viruses. 122815
A tentative energy budget for a summer population of Arion ater L. *(Gastropoda:* **Pulmonata)** [Fagus sylvatica, forest ecology]. 124856
Starch content of oak roots on campsites [Quercus alba, **Quercus** *velutina,* Quercus coccinea]. 121834

MOLT
Neuroendocrine control of *moulting* **cycle** in mealworms [Tenebrio molitor]: histology and autoradiography of cephalic components. 123580
Ultrastructural modifications in the vesicular glands of the Machilidae (Insecta, Thysanura) during the *moulting* **cycles.** 124193
DDT as an accelerator of limb regeneration and *molting* in **fiddler** crabs. 123709
Morphological effects and metabolism of the *molting* **hormone** in Aedes aegypti cultured cells. 123983
Molting **hormone** titer changes and their significance during development of the Colorado beetle, Leptinotarsa decemlineata. 124047
Imaginal differentiation of the tegument in the migratory locust, Schistocerca gregaria Forsk. II. Development during **imaginal** *molt* and its determination in gregarian males. 123811
Influence of actinomycin D on **larval** *moulting* and morphogenesis of the chilopod Lithobius forficatus (L.). 124189

MOLYBDENUM
Molybdenum **deficiency** in melons in a Planosol from the Tavira area (Algarve, Portugal) [Chlorosis, fertilizers]. 122885
Effect of various levels of *molybdenum* **fertilizer** on the yellow lupine. 125081

MOMORDICA
Effect of plant growth substances & vernalization on sex expression in *Momordica* **charantia** L. 121132

MONARCH
A study of the peninsular Florida populations of the *monarch* **butterfly** (Danaus P. plexippus; Danaidae). 124058
Summer *monarch* (Danaus plexippus) in southern Texas (Danaidae). 124324

MONEY
How to get more semen power for your *money* **[Bulls].** 118271
Improvement of swine production with a **little** *money.* Why not? [Switzerland]. 115439
How to market your **timber** for more *money.* 119653
Are test markets a waste of **time** and *money?* 115606

MONIEZIA
Chemoprophylaxis for Anoplocephala to infestations of sheep *[Moniezia,* **Thysaniezia].** 119020

MONILIA
Effect of eradicant and protectant sprays on differentiation of conidia of *Monilia* **cinerea** (Bon.) Schroet on almond [Prunus amygdalus, brown rot]. 122632
Cultural studies on the *Monilia* **disease** fungus of apples. VI. The effect of light on conidial germination, mycelial growth, and sporulation [Monilinia mali]. 122587

MONILIACEAE
The **family** *Moniliaceae* in Egypt. 1. Gonatobotrys simplex Corda. 120246

MONILINIA
Cultural studies on the Monilia disease fungus of apples. VI. The effect of light on conidial germination, mycelial growth, and sporulation *[Monilinia* **mali].** 122587

MONITORING
Model farm ponds with **automated** *monitoring* of water quality. 125183
Ants [Formicidae] of Mobile County, Alabama, as *monitored* by **bait** transects. 123245
Concepts for **continuous** *monitoring* [ruling out defects] of metabolism of swine, an element of general health and performance control. 119158
Continuous *monitoring* of juvenile hormone release by superfused corpora allata of Periplaneta americana. 123935
Control scheme for *monitoring* **debris** in stone groundwood [Pulp quality]. 119798
Environmental *monitoring* in a laboratory animal facility. 117465
Monitoring **fertility** of A.I. [Artificial insemination] programs: can non-return rate do the job? [Cattle breeding]. 118285
Monitoring **fire** blight bacteria [Erwinia amylovora] of pear for disease control. 122807
A method of *monitoring* **heart** rate response in the exercising horse. 117937
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in *monitoring* **moth** populations in tea fields. 123266
A comparative interregional analysis of selected data from LANDSAT-1 and EREP for the inventory and *monitoring* of **natural** ecosystems [Remote sensing]. 120364
The intensive care unit in small animal practice. 3. Observations on *monitored* **parameters.** 118582
Usefulness of LANDSAT data for *monitoring* **plant** development and range conditions in California's annual grassland [Remote sensing]. 121999
Resistance *monitor* and control for vacuum evaporation of metals and carbon [Plant protection]. 123025
A cost-benefit analysis for a *monitoring* **system** to detect estrus in dairy cows. 118241
Apple scab [Venturia inaequalis] predictive and *monitoring* **systems.** 122661
Monitoring **vegetation** conditions from LANDSAT for use in range management [Remote sensing]. 121998
LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia State Water Control Board. II. *Monitoring* **water** quality from LANDSAT [Remote sensing]. 125264

MONKEYS
Vegetative innervation of the esophagus. IV. Endings in the tela submucosa and tunica muscularis **[Cats,** *monkeys].* 117522
Hypothalamic unit activity related to lever pressing and eating in the **chronic** *monkey.* 116361
Effect of malnutrition on cortisol-binding protein in the lens of **cynomolgus** *monkeys.* 116453
Caesarean section in the Java **moneky** *(Macaca* irus): a case report. 118483
C-6 [carbon-6] oxidation of ascorbic acid: a major metabolic process in animals *[Monkeys,* **rats].** 117581

Effect on the reproductive functions of female **rhesus** *monkeys* of feedng irradiated wheat flour and potato diet [Metabolic studies]. 116396
A chest harness and pole-leash for routine transfer of **rhesus** *monkeys* from home cage to behavioral test apparatus and back. 117463
Failure of commercially prepared isoniazid diet to produce isoniazid serum concentrations in **rhesus** *monkeys.* 118108
Severe polyarthritis in a **rhesus** *monkey:* suggested mycoplasma etiology. 118818
Effect of type of dietary fat, cholesterol and chenodeoxycholic acid on gallstone formation, bile acid kinetics and plasma lipids in **squirrel** *monkeys.* 116426
Abortion and cannibalism in **squirrel** *monkeys* (Saimiri sciureus) associated with experimental protein deficiency during gestation. 119143

MONOAMINES
Brain *monoamine* metabolism of turkey hens in various stages of their reproductive life cycle. 118223
Histochemical characterization of the *monoamine-containing* **cells** of the adenohypophysis in the Chinese quail. 117708

MONOCULTURES
Potato **cultivation** in *monoculture.* 122468
Influence of wheat cultivation measures on the unfavorable **effects** of *monoculture.* 122042
About soil fatigue under field crops [Accumulation of certain substances and plant nematodes as a **result** of *monoculture].* 124804
Magnitude and quality of yield of maize cultivated within crop **rotation** and in *monoculture.* 122145
Presence of phytotoxic form of bacteria in a Sod-weak Podzolic soil planted with lupine in a crop **rotation** and in *monoculture.* 122801
Effect of fertilizers on the yield and quality of potatoes grown in crop **rotation** and in *monoculture.* 124922

MONOECIOUS
Comparative effects of (2-chloroethyl) phosphonic acid and the mono-2-chlorethyl ester of the acid on growth, peroxidase activity, and sex expression of a *monoecious* **cucumber.** 121698
Effects of blending gynoecious and *monoecious* **cucumber** seeds on yield patterns. 122334

MONOETHYLENIC
Chromatographic determination of **cis-trans** *monoethylenic* unsaturation in fats and oils—a review. 116778

MONOGERM
Sowing **genetic** *monogerm* sugarbeet seeds with SPC-6 machines. 124718

MONOGLYCERIDES
Determination of *monoglycerides* in **crude** oils and fats. 116770

MONOLAYER
Further studies on adaptation of sheep pox virus in sheep thyroid and sheep **kidney** *monolayers.* 118753

MONOLINURON
Effect of monuron and *monolinuron* on **growth** dynamics, yields and qualitative changes of winter rye against the background of various nitrogen, phosphorus and potassium fertilization rates. 123192

MONOMER
Lignin influence on thermomechanical polymerization of *monomers.* I. The **influence** al alkali birch lignin on styrol polymerization in dimethylsulphoxide solution. 119739
Grafting of **vinyl** *monomers* onto wool fibers. 117017
Thermochemical polymerization of *monomers* in **wood.** II. Comparison of styrol polymerization in various wood species. 119749

MONOMORIUM
Development of resistance in the Pharaoh **ant** *(Monomorium* pharaonis). 123598
Application of Bathurin and borax in the biological control of *Monomorium* **pharaonis** in housing estates. 123506
The Pharao ant *[Monomorium* **pharaonis]:** biology, hygienic importance and control. 123829

MONOPHOSPHATES
Rat strain differences in cyclic-AMP **[adenosine** *monophosphate]* levels in liver and epididymal fat pad tissue as influenced by glucagon. 116438
The action of cyclic 3', **5'-adenosine** *monophosphate* in the blood of swine during physical stress. 117524
Effect of norepinephrine and hypertonicity on K influx and cyclic AMP **[adenosine** *monophosphate]* in duck erythrocytes. 117535
CAMP [cyclic **adenosine** *monophosphate]* and cGMP [cyclic guanosine monophosphate] changes associated with the differentiation of cultured chick embryo muscle cells. 117672
Inotropic effect of cyclic AMP **[adenosine** *3',5'-monophosphate]* in calf ventricular muscle studied by a cut end method. 117826
Transient cyclic AMP **[adenosine** *3',5'-monophosphate]* accumulation in germinating zoospores of Blastocladiella emersonii [Fungi]. 121054
An improved protein binding assay for guanosine-3', *5'-monophosphate* using a **binding** protein from the pupa of the silkmoth, Bombyx mori L. 124481
Regulation by zinc and adenosine **3',5'-cyclic** *monophosphate* of growth and citric acid accumulation in Aspergillus niger [Fungi]. 120987
Formation of **dolichol** *monophosphate* 2-deoxy-D-glucose and its interference with the glycosylation of mannoproteins in yeast [Saccharomyces cerevisiae]. 121046
CAMP [cyclic adenosine monophosphate] and cGMP [cyclic **guanosine** *monophosphate]* changes associated with the differentiation of cultured chick embryo muscle cells. 117672

MONOSACCHARIDE
Adaption of the Kotyk's carrier theory to the **active** *monosaccharide* transport of yeasts. 121380
The connection between **active** *monosaccharide* transport and cell energy metabolism of higher plants. 121385
Active transport of *monosaccharides* as a **general** property within the group of yeasts. 121379
Transport and accumulation of di- and *monosaccharides* in **sugarbeet** tissues. 121581

MONOTERPENES
Effect of photoperiod and nitrogen on the composition of **foliar** *monoterpenes* of Juniperus horizontalis Moench. cv. Plumosa. 121700

MONOVALENT *see* VALENCE

MONOXIDE
Fractionation of stable isotopes of **carbon** *monoxide* by [soil[bacteria. 124796

MONSOON
Water balance of a system of two-way regulation of water regime of soils in a *monsoon* **climate.** 125238
Contribution of climatic variables in predicting maize yield under *monsoon* **conditions.** 121394

MONURON
Effect of *monuron* and **monolinuron** on growth dynamics, yields and qualitative changes of winter rye against the background of various nitrogen, phosphorus and potassium fertilization rates. 123192

MORABA
Heterochromatin and timing of DNA replication in morabine grasshoppers *[Moraba* **virgo].** 123964

MORACEAE
Breadfruit and relatives: **Artocarpus** spp. *(Moraceae).* 122348
Fig: Ficus **carica** *(Moraceae).* 122362
Hops: Humulus **lupulus** *(Moraceae).* 122530
Hemp: Cannabis **sativa** *(Moraceae)* [Fiber crops, drug plants]. 121948
Dorstenia gracilis and Drostenia **schulzii** *(Moraceae),* new species from South America. 119994

MORAEA
Evolution, cytology and subgeneric classification in *Moraea* **(Iridaceae)** [New taxa]. 119932

MORAIN
Map of the vegetation of the *moraine* **amphitheater** of Rivoli (Turino) (lower Cottian and Graian Alps). 120341
Mineralogical composition of a Danish soil developed on **young** *morainic* material. 124779

MORAXELLA *see* BRUCELLACEAE

MORIO
The phenology of **Mitopus** *morio* (Fabr.) (Opiliones) in Norway. 124118

MORNINGGLORY
Field competition between **tall** *morningglory* [Ipomoea purpurea, weeds] and soybean. II. Development and distribution of root systems. 123208
Field competition between **tall** *morningglory* [Ipomoea purpurea, weeds] and soybean. I. Growth analysis. 123209
Tall *morningglory* [Ipomoea purpurea] response to planting depth [Weed control]. 123213

MORPHACTIN
Possibilities of using *morphactins* **[growth** substances] in the production of carnations [Dianthus caryophyllus]. 122511

MORPHOGENETIC
Effect of temperature on the *morphogenesis* of **Asparagus** officinalis Linn. 121719
Morphogenesis of **Astragalus** longiflorus Pall. [In relation to its biology and ecology]. 120968
Influence of actinomycin D on larval moulting and *morphogenesis* of the **chilopod** Lithobius forficatus (L.). 124189
Control of synthesis of RNA during *morphogenesis* of the **chloroplast** in Euglena gracilis [Algae]. 120896
Induction of apospory, callus, and **correlated** *morphogenetic* studies in Athalamia pusilla Kash [Hepaticae]. 120490
Cell differentiation without *morphogenesis* in **Dictyostelium** discoideum [Fungi]. 121294
Effects of L-azetidine and collagenase on the *morphogenesis* of **embryonic** duck preen gland in organ culture. 117620
Morphogenesis in **Gleditsia** triacanthos L. X. Reconstitution of the meristem of the outline of 6th leaf after root incision. 121347
Observations on the ecto-mesodermal relations in the *morphogenesis* of **limb** buds [Chick embryos]. 117568
Developmental studies on gynandromorphs of Drosophila melanogaster. IV. Comparison of *morphogenetic* fate **maps** of larval and imaginal structures. 124170
Ecdysone and **oocyte** *morphogenesis* in Bombyx mori. 124545
Study of the cellular necrosis and **wing** *morphogenesis* in some Lepidoptera. 123854

MORPHOLOGY
Experience of ecological and *biomorphological* **analysis** of the flora from Prangos pabularia Lindl. associations in Gissaro-Darvaze. 120363
Morphological, **anatomical** and development studies of the flowers and fruits of succulent Mesembryanthemaceae genera: a contribution to their taxonomy. 120008
Morphology and **anatomy** of fruits and seeds of the middle European Erysimum L. species. 120200
Contributions to the morphology and systematics of Klugieae and Loxonieae (Gesneriaceae). II. *Morphology,* **anatomy** and ontogenesis of the flowers of Monophyllaea R. Br. 120432
Studies on upper timberline: *morphology* and **anatomy** of Norway spruce (Picea abies) and stone pine (Pinus cembra) needles from various habitat conditions. 120443
Taxonomy, *morphology,* **anatomy,** and composition of yellow nutsedge [Cyperus esculentus, weed control]. 123150
Morphology of **Ancylostoma** buckleyi, Le Roux and Biocca, 1957 in dogs from Cairns, North Queensland, Australia. 118947
Morphological and **antigenic** relationships between viruses (rotaviruses) from acute gastroenteritis of children, calves, piglets, mice, and foals. 118763
Investigations of swabs from prepuce and from nose of horses for presence of bacteria like Klebsiella. II. *Morphological* and **biochemical** investigations on klebskella strains. 118650
Streptococcosis in chickens. II. Cultural, *morphologic,* and **biochemical** studies of Streptococcus strains. 118996
Morphological and **biological** features of Ajania tibetica (Compositae). 120464
Morphology and **biology** of Typha angustifolia L. [In relation to its taxonomy]. 120074
Contributions to the knowledge of the *morphology* and **biology** of the larvae of four European Eylais species (Acari, Hydrachnellae). 123770
SEM [scanning electron microscope] of the **cecal** *morphology* in the domestic chicken. 117887
Invasion of soybean root cells in culture by Rhizobium japonicum **[Changes** in the *morphology].* 120546
Ecological and *morphological* **characteristic** of Senecio cannabifolius Less. 120418
The effect of kinetin and gibberellic acid on some *morphological* **characteristics** of Vigna sinensis [Cowpeas]. 120440
Variability of *morphological* **characters** of seeds of the family Caryophyllaceae Juss. 120077
Evolutionary variability of *morphological* **characters** in the genus Digitalis L. 120421
Change of *morphological* **characters** of the parenchyma of secondary wood in the pine family (Pinaceae) in relation to age. 120471
The genus Holoparasitus Oudemans and some *morphological* **characters** of the family Parasitidae Oudem. (Parasitiformes) [New taxa]. 124197
Morphology of **charred,** flame-retardant cotton/polyester fabrics. 117164
Some *morphological* and **chemical** characteristics of the purified terpenoid particles of the latex of Hoya australis R.br. Ex Traill [and Euphorbia milii]. 116640
Age dynamics of the *morphological* and **chemical** composition of eggs from hens of the Leghorn breed in the conditions of large poultry farm. 117056
Comparative *morphological* study of representatives of the family Hamamelidaceae R. Br. and their phylogenetic relations. 120072
Comparative *morphological* and anatomical study of the petiole and epidermis of the leaf of the representatives of the family Vitaceae Juss [including grapes]. 120073
Results of a **comparative** *morphological* study of the genus Pentapanax Seem. (Family Araliaceae). 120076
Comparative *morphological* characteristic of the larvae of **Palearctic** species of the genus Lonchaea Fall. (Diptera, lonchaeidae). 124307
Feline glomeruli: *morphologic* **comparisons** in normal, autolytic, and diseased kidneys. 119068
The *morphology* of some **critical** Brazilian species of Cyperaceae [New taxa]. 120409
Morphology of **Cronartium** fusiforme aeciospores: a light and scanning electron microscopic study. 120426
Pesticide effects on the plant cuticle. II. EPTC [S-ethyl dipropylthiocarbamate] effects on leaf **cuticle** *morphology* and composition in Brassica oleracea L. [Cabbage]. 123725
The Hyparrhenia involucrata-Hyparrhenia subplumosa (Gramineae) complex in Nigeria: *morphological* and **cytological** characterization. 120430
Ochthephilus aureus (Ancyrophorus aureus) Fauv. (Coleoptera, Staphylinidae, Oxytelinae). Ecological notes and *morphological* **description** of the larvae. 124081
Poaceae—Irish members. VI. *Morphology* and **ecological** notes. 120568

Larvae of rove beetles (Coleoptera, Staphylinidae) developing in wood [**Ecology** and *morphology*]. 123927
Morphological **effects** and metabolism of the molting hormone in Aedes aegypti cultured cells. 123983
The possible differentiation of osteogenic elements in vitro from [embryonic] chick limb mesodermal cells. I. *Morphological* **evidence.** 117649
Change of genetical and *morphological* **features** and some chemical properties of soils under the effect of field shelterbelts in the Kamennaia Steppe. 119410
Fruit *morphology* of some Heracleum L. Species. 120199
Morphological and **functional** features of the innervation of the costovertebral joints [Cats]. 117692
Further observations on the **functional** *morphology* of the head and mouthparts of dragonfly larvae (Odonata) [Aeshna interrupta lineata, Libellula quadrimaculata]. 124135
Galls—biology and *morphology*. V. **Galls** produced by mites and nematodes. 123249
Studies on the vector of loofah witches' broom. 1. Identification and *morphology* of **Hishimonus** concavus Knight. 123412
Morphological and **histochemical** data on the imaginal Malpighian tubules of Pieris brassicae (L.) (Lepidoptera). 123812
Morphological observations on Polyaspis patavinus Berlese 1881 (Acari: Uropodida). I. *Morphology* of the **idiosoma** during ontogenetic development. 123774
Tritichomonas suis: isolation, *morphology* and **incidence** in the nasal cavity of domestic swine from Rio Grande do Sul. 118914
Ornamental algae from **Indonesia** *[Morphology].* 120521
Galls—biology and *morphology*. I. **Introduction** [Forest pests]. 123418
Effects of secretagogues on oxygen consumption, aminopyrine accumulation and *morphology* in **isolated** gastric glands [Rabbits]. 117526
Morphology of the **larvae** of beetles, predaceous and associated with wood borers, from the northwestern part of the Caucasus. 124309
Morphology of **leaves** and the taxonomy of the genera Protophyllum Lesq. and Pseudoprotophyllum Hollick. 120075
The *morphology* and **life** history of Acrochaetium dasyae Collins (Rhodophyta, Nemaliales). 120403
Morphology of the **myrmecophilous** cockroach Attaphila fungicola Wheeler. 123999
Morphology of the **neuroendocrine** systems of two larval blackflies, Prosimulium mixtum/fuscum and Simulium venustum. 123860
Ultrastructure and *morphology* of the **Neurospora** crassa [Fungi] cell wall mutants, slime and slime X using TEM and SEM. 120559
Morphological **observations** on Polyaspis patavinus Berlese 1881 (Acari: Uropodida). I. Morphology of the idiosoma during ontogenetic development. 123774
Morphology of the **occipital** region in Hepialidae and Cossidae (Lepidoptera) of Japan. 124108
Hookeria lucens [Musci, taxonomy, **phytogeography,** *morphology].* 120196
Comparative **pollen** *morphology* and phylogeny of the ranalean complex [Angiospermae]. 120055
Pollen *morphology* of the family Loasaceae. 120066
Pollen *morphology* of the genera Embolanthera, Ostrearia, Neostrearia, Matudea (Hamamelidaceae) in relation to their taxonomy. 120067
Pollen *morphology* of the genus Sideritis L. 120068
Pollen *morphology* and the chromosome number of some species of the subtribe Centaureinae Less. 120069
Pollen *morphology* and its evolutionary significance in Xanthorrhoeaceae. 120177
Patterns of **pollen** *morphological* variation within taxa. 120508
Pollen *morphology* of the genera Gluta Linnaeus and Melanorrhoea Wallich (Anacardiaceae). 120510
Study of the *morphological* and **qualitative** changes of the globe artichoke head as influenced by the stage of maturity. 121689
The effect of the supply of mineral nutrients on **root** *morphology,* nutrient uptake, and shoot growth in cereals. 121421
Studies investigating the influence of nutritional factors on the ruminal mucosa. 2. *Morphology* of the **ruminal** mucosa after the feeding of fattening rations varying in physical consistency [Cattle]. 117994
Studies of Navua Sedge (Cyperus aromaticus). I. Review of the problem and study of *morphology,* **seed** output and germination. 123083
Evaluation of bovine **spermatozoal** *morphologic* features after staining or fixation. 118200
The stinging apparatus of Camponotus rufipes (Fabricius) (Hymenoptera, Formicidae) and its attached **structures** *[Morphology].* 124143
Morphological **studies** of the ruminal mucosa of sheep with simultaneous clinical sheck up during feeding various feed types. 117988
Morphological **studies** of hookworms infecting man and dog at Patna, Bihar [Ancylostoma duodenale, Ancylostoma caninum]. 118747
Cultural and other *morphological* **studies** of Sparassis radicata and related species [Fungi]. 120525
Osteolathyrismus, *quantitative-morphological* **study** of experimental skeletal disease of rat [Fed by lathyrogenic agent]. 116297
Comparative anatomical and *morphological* **study** of the leaf in the genus Panax L. (Araliaceae). 120071
Morphological **study** of edible amaranth varieties and the natural cross-pollination test. 120485
The adult male of Aclerda tillandsiae: *morphology* and **systematic** significance. 124218
Contributions to the *morphology* and **systematics** of Klugieae and Loxonieae (Gesneriaceae). II. Morphology, anatomy and ontogenesis of the flowers of Monophyllaea R. Br. 120432
Data on *morphology,* **teratology,** postembryonic development, faunistics and ecology of Myriapoda Diplopoda that are harmful to crops in Senegal. 124254
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, yield amount, *morphology* and **tissue** structure of leaves in summer barley varieties. 122610
Morphology and **topography** of parathyroid glands of cattle. 117925
Morphology of **Trigonurus** asiaticus Reiche larva and relation of the tribe Trigonurini with other tribes of the subfamily Piestinae (Coleoptera, Staphylinidae). 124308
Morphological **types** of larvae of beetles-wood eaters (Coleoptera, Eucnemidae) and their evolutionary significance. 123928
Ultrastructural *morphology* of two sensilla placodea on the antenna of a parasitic wasp [Tetrastichus hagenowii]. 124132
Environmental demands, *morphological* **variation** and eco-geographical strain formation of spruce [Picea]. 119590
Twin shoots borne on a Botryopteris frond [fossil fern] from the British Upper Carboniferous *[morphological* **variation].** 120256
Morphological **variations** of tall meadow oatgrass [Arrhenatherum elatius] in relation to its growing conditions. 120472
Dynamic changes in pollen **wall** *morphology.* 120507
Morphology of **weevil** larvae (Coleoptera, Curculionidae) and ecological ways of their adaptation to living in wood. 123929

MORTALITY

Mortality and **adaptive** mechanism of Oryza perennis [wild rice] strains. 121454
Mortality of lambs on the first month of life. I. *Mortality* and **birth** weight. 118213
Effect of low temperature on the *mortality* of **butterfly** eggs (Lepidoptera). 124167
Roof insulation and its effect on broiler **chicken** *mortality* in hot weather [Poultry house]. 124653
Estimating growth and *mortality* **[Forest** management]. 119467
Effect of tobacco redrying process on **insect** *mortality.* 123527
Mortality of **lambs** on the first month of life. I. Mortality and birth weight. 118213
A **natural** *mortality* table for the corn earworm [Heliothis zea] on peanuts [Trichogramma and Microplitis for biological control]. 123340
Arizona cypress [Cypressus Arizonica] *mortality* **reduced** sharply. 122886
The effect of spacing of children on the nutrition and *mortality* of **under-fives.** 116391

MORTEM *see* DEATH

MOSAIC

High temperature inactivation of cucumber and **alfalfa** *mosaic* viruses in Nicotiana rustica cultures [Tobacco]. 122814
Effect of infection by **arhar** *mosaic* virus on the Hill reaction and primary productivity of pigeonpea (arhar) leaves. 122840
Optimum conditions for high-resolution gradient analysis [pea polyribosomes, southern **bean** *mosaic* virus]. 120406
Effect of some chemicals on symptom expression & concentration of **broadbean** *mosaic* virus in broadbean (Vicia faba L.). 122841
Effect of host enzyme extracts on the electrophoretic forms and specific infectivity of **cowpea** *mosaic* virus. 122853
Changes in the soluble protein constitution of cucumber cotyledons following infection with two strains of **cucumber** *mosaic* virus. 122852
Preliminary studies on the RNA components of three strains of **cucumber** *mosaic* virus. 122854
Serological demonstration of virus-specified proteins associated with **cucumber** *mosaic* virus infection of cucumber cotyledons. 122855
Virus diseases of orchids caused by **Cymbidium** *mosaic* virus in Taiwan. 122845
Cell clones and pattern formation: genetic **eye** *mosaics* in Drosophila melanogaster. 124169
A technique for the differential isolation of **hop** *mosaic* virus and hop latent virus. 122827
Purification of vegetable **marrow** *mosaic* virus. 122844
Anther and pollen infection in relation to the pollen and seed transmissibility of two strains of barley **stripe** *mosaic* virus in barley. 122826
Aspects of epidemics of yellowing and *mosaic* of **sugarbeets.** I. Symptoms, means of transmission, methods of identification, vectors [Virus diseases, insect vectors]. 122866
The influence of organophosphorus insecticides on the developemnt of local lesions of the **tobacco** *mosaic* virus in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Enzymatic removal of the 5' terminal methylated blocked structure of **tobacco** *mosaic* virus RNA and its effects on infectivity and reconstitution with coat protein. 122834
Changes in soluble proteins in callus cells of hypersensitive tobacco inoculated with **tobacco** *mosaic* virus. 122838
Induction of local & systemic resistance in Nicotiana glutinosa against **tobacco** *mosaic* virus by leaf extract of dahlia. 122842
The hand of the stacked-disk aggregate of **tobacco** *mosaic* virus protein. 122848
Tobacco *mosaic* virus and paramosaic virus in cigarettes. 122850
Ultrastructural changes in **tobacco** *mosaic* virus-induced local lesions in Nicotiana tabacum L. cv. "Samsun NN". 122857
Stereo electron microscopy of freeze-fractured cells reveals the three-dimensional continuity of **tobacco** *mosaic* virus crystals. 122864
A genetic map for the cowpea strain of TMV **[tobacco** *mosaic* virus]. 122871
A messenger RNA for capsid protein isolated from **tobacco** *mosaic* virus-infected tissue. 122872
A study of nucleotide sequence homology between strains of **tobacco** *mosaic* virus. 122873
Effects of viral protein, viral RNA, and some other polyelectrolytes on infection of tobacco protoplasts by TMV **[tobacco** *mosaic* virus]. 122875
Synthesis of TMV **[tobacco** *mosaic* virus] RNA at restrictive high temperatures. 122879
Epidemiology and control of **tomato** *mosaic* virus. 122818
Nicotiana velutina [tobacco] *mosaic* **virus:** purification, properties and affinities with other rod-shaped viruses. 122815
Studies on the influence of infection with *mosaic* (Beta **virus** 2) and yellows (Beta virus 4) on the yield quality of sugarbeet seeds. 122836
Inhibition of turnip **yellow** *mosaic* virus synthesis by pyrimidine analogues. 122823
Post infection changes in nitrogen metabolism of pumpkin (Cucurbita maxima D.) as affected by **yellow** *mosaic* virus. 122843
Sites of coat protein accumulation in turnip **yellow** *mosaic* virus-infected cells. 122878

MOSQUITOES

The *mosquitoes,* **Aedes** canadensis and Aedes vexans as potential vectors of Dirofilaria immitis in Maryland [Dogs]. 123602
Effect of an insect growth regulator on lipid and carbohydrate reserves of *mosquito* **[Aedes** aegyti] pupae (Diptera: Culicidae). 123612
Characteristics of Sindbis virus temperature-sensitive mutants in cultured BHK-21 [baby hamster kidney] and Aedes **albopictus** *(mosquito)* cells. 123641
Apparent propagation of the equine infectious anemia virus in a *mosquito* **(Culex** pipiens quinquefasciatus Say) orvarian cell line. 123597
Structural microtubules in hindgut epithelial cells of the *mosquito* **[Culex** pipens]. 124130
Relation of *mosquito* **density** to bird: mammal feeding ratios of Culex tarsalis in stable traps. 123596
California encephalitis virus proliferation in Yukon [Aedes communis] *mosquitoes* **incubated** at low temperatures. 123615
Immunoperoxidase localization of Sindbis virus antigen in infected vertebrate and **infected** *mosquito* cells [Culicidae]. 123659
The rationale for attempting to define salt **marsh** *mosquito* [Aedes sollicitans]-breeding areas in Galveston County by remote sensing the associated vegetation [Distichlis spicata]. 123634
Ecological studies of the Bagac nuclear power plant site: a *mosquito* **survey** of Bagac, Bataan, Republic of Philippines. 123649

MOSS

The *mosses* of **Baja** California. 120128
Scanning microscope pictures of *moss* **capsules** [Musci]. 120523
Ultrastructural changes in germinating Dicranum scoparium: a *moss* **containing** protein storage material [Musci]. 120435
The role of *moss* **cover** in some types of pine forests in the part of Ukrainian Poles'ye located to the east from Dnieper River [Effect of secretions on the growth of forest plants. 121814
The correct name for the *moss* **Duseniella.** 119990
Contributions toward a *moss* **flora** of Nebraska. 119982
Mosses of **Micronesia.** 120121
Studies on North American Quaternary bryophyte subfossils. I. A **new** *moss* [Musci] assemblage from the two creeks forest bed of Wisconsin. 120235
Variability and seasonality of the growth of some corticolous **pleurocarpous** *mosses* [Musci]. 121173

MOTHERS

Plasma and adrenal cortisol concentrations in foetal, newborn and *mother* **guinea-pigs** during the perinatal period. 117809
A survey of food habits and beliefs of pregnant and **lactating** *mothers* in Mysore city. 116392
Hearing recognition of the **lamb** by its *mother.* 117558

MOTHS

Hilltopping and defence behaviour in a diurnal **agaristid** *moth* [Comocrus behri]. 123823
Use of microradiographic technics, instead of dissection for study of the mating status of female **armyworm** *moths,* Mythimna unipuncta, captured in light traps (Lepidoptere Noctuidae) capturees aux pieges lumineux. 124145
Association analysis Vigna aconitifolia *[moth* **bean]** (Jacq.) Marechal [for selection of high yielding lines]. 120819

Nuclear polyhedrosis virus replication in permanent cell lines of the **cabbage** *moth* (Mamestra brassicae L.). 123426
Follicle cell protein synthesis and its contribution to the yolk of the **Cecropia** *moth* oocyte. 123876
Predation of overwintering larvae of **codling** *moth* (Cydia pomonella (L.) by birds. 121819
Codling *moth* [Cydia pomonella, apple pests]. 123362
Controlling **codling** *moths* [Carpocapsa pomanella] in sweet cherries. 123364
Electrophysiological reaction of olfaction of the **codling** *moth,* Laspeyresia pomonella L., as a possible fast method for determining the toxicity and content of insecticides. 123391
Alternate methods for control of the **codling** *moth* [Laspeyresia pomonella, apples, pears]. 123421
Experiments with field cages on the effect of climatic factors on the **codling** *moth* (Laspeyresia pomonella L.) [Apple and pear pests]. 123432
Hormonal studies of uridine utilization in an insect cell line CP-1268 derived from the **codling** *moth* Laspeyresia pomonella. 123967
Assessment of sex pheromone activity in virgin **female** *moths* of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
Effect of photoperiod on development and fecundity in the **flour** *moth,* Ephestia kuehniella. 124043
Functional organization of the tympanal organ of the **flour** *moth,* Ephestia kuehniella. 124045
Galapagos *moths.* 124399
Fractionation and amino acid composition of acid-soluble trypsin peptides of inclusion bodies protein of *moth* (**Galleria** mellonella) nuclear polyhedrosis virus. 123827
Unwanted dinner guests [Angoumois **grain** *moth,* Sitotroga cerealla, rice]. 123216
Ecology of pathogens of the **gypsy** *moth* [Lymantria dispar, biological control]. 123466
Establishment of **gypsy** *moth* [Lymantria dispar] parasitoids in North America: an evaluation of possible reasons for establishment or non-establishment [Forest pests, biological control]. 123468
Flight and mating behavior of the **gypsy** *moth* [Lymantria dispar]. 123470
Computer analysis and mapping of **gypsy** *moth* [Porthetria dispar] defoliation levels in Pennsylvania using LANDSAT-1 digital data [Remote sensing]. 123475
Tachinid parasites of the **gypsy** *moth,* Lymantria dispar, with keys to adults and puparia [Tachinidae, new taxa, natural control, forest pests]. 123480
Gypsy *moth* [Porthetria dispar] a major pest of trees. 123487
Control of a **leafroller** *moth,* Tortrix viridana, in an oak-dominated forest in the Main Botanical Garden [of the USSR Academy of Sciences. 123448
Acetylcholine and its metabolic enzymes in developing antennae of the *moth,* **Manduca** sexta. 123873
The carotenoids of a black variety of the larva of the *moth,* **Manduca** sexta [Tobacco pests]. 124051
Studies on controlling the Indian **meal** *moth,* Plodia interpunctella Hbn., by ionising radiation [Pest of nuts]. 123373
Quest for a microbial alternative [Bacillus thuringiensis for controlling the Indian **meal** *moth* in stored grain, biological control]. 123505
A carrier protein for juvenile hormone in the haemolymph of the Indian **meal** *moth* [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
Juvenile hormone action on the intermediary metabolism in Indian **meal** *moth* [Plodia interpunctella] larvae. 123543
Action of juvenile hormone on imaginal discs of the Indian **meal** *moth* [Plodia interpunctella]. 123931
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in **monitoring** *moth* populations in tea fields. 123266
Occurrence of the oriental **peach** *moth* [Laspeyresia molesta]. 123434
Life history of the ragweed **plume** *moth,* Adaina ambrosiae (murtfeldt), in Southern California (Lepidoptera: Pterophoridae). 124120
Susceptibility of twenty potato cultivars to the **potato** *moth* [Phthorimaea operculella] at Pukekohe: a preliminary assessment. 123423
The role of organo-phosphorus and synthetic pyrethriod insecticides in *mothproofing* [to **prevent** fabric-insect damage]. 123570
Variability of natural strains of muscardine fungi [Beauveria, Paecilomyces, pathogens of a **pyralidid** *moth,* pest of honey bees, biological control]. 124543
Changes in protein, fat & glycogen in the larvae of **rice** *moth* Corcyra cephalonica St. during nuclear polyhedrosis virus infection. 123968
Portable outdoor cages for mating female giant **silkworm** *moths* (Saturniidae). 124066
Models and statistics for *[moth]* **species** diversity. 124098
Ectoparasitic mites (Acarina: Otopheidomenidae) on **sphingid** *moths.* 123773
Pine **tip** *moth* and pine webworm [Rhyacionia, Tetralopha robustella] control with carbofuran in north Florida. 123501
Observations on Litomastix aretas, an encyrtid parasite of the strawberry **tortrix** *moth.* 123366
Life tables for a declining population of the Douglas-fir **tussock** *moth* [Orgyia pseudotsugata] in northeastern Oregon. 123444
An expanded research and development program for the Douglas fir **tussock** *moth* [Orgyia pseudotaugata]—1975 to 1978. 123488
Douglas-fir **tussock** *moth* [Orgyia pseudotsugata] 1974 operational spraying of DDT. 123489
Pilot control projects of chemical and microbial insecticides against Douglas fir **tussock** *moth* [Orgyia pseudotsugata]-1974. 123491
The Douglas fir **tussock** *moth* [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on non-target organisms and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
Douglas fir **tussock** *moth* [Orgyia pseudotsugata] egg hatch and larval development in relation to phenology of grand fir and Douglas-fir [Abies grandis, Pseudotsuga menziesii] in northeastern Oregon. 123502
A synthesis of (z)-6-heneicosen-11-one. The sex pheromone of the Douglas fir **tussock** *moth* [Orgyia pseudotsugata]. 124070

MOTILITY

Biochemical analysis of **axostyle** *motility* [obtained from protozoa in the hindgut of Cryptocercus punctulatus]. 123871
DCMU [3(3,4-dichlorophenyl)-1,1-dimethylurea] induced inhibition of growth, photosynthesis and *motility* in **Eudorina** elegans cultures [Algae, herbicides]. 123061
Dinoflagellates: **fossil** *motile-stage* tests from the Upper Cretaceous of the northern New Jersey coastal plain. 120258
Cholinergic effects on bull and chimpanzee **sperm** *motility.* 118224

MOTIVATION

Motives and **behavior** of sideline farmers [Austria]. 115316
Erecting hygiene chains through interruption of infection chains and *motivation* of **co-workers** [Food handling]. 116088
The problem of *motivation* in **feeding** behavior [Cats]. 116380
Motivation and **method** in ensuring protection of tropical produce from grower to his market [Storage and disinfestation]. 115684

MOTONEURONS

Structural and functional characteristics of individual **phrenic** *motoneurons* [Cats]. 117876

MOTORS

The fine structure of the **equine** *motor* cortex. 117556

MOUNDS

Vegetation of the **Mima** *Mounds,* Washington State. 120348

MOUNTAINS

The chorology of **African** *mountain* grasses [Gramineae]. 120168
Adaptive role of the hair coat structure of lambs in extreme conditions of the *mountainous* **Altai.** 117715
The nature of differences in the adaptive response of sheep to low environmental temperatures in *mountainous* **Altai.** 117735
New and interesting plants of the flora of the Marches found in the *mountainous* **basin** of the Esino. 120020
Scars as an indicator of fire frequency in the san **Bernardino** *Mountains,* California. 119352
The use of Skylab and LANDSAT in a geohydrological study of the paleozoic section, west-central **Bighorn** *Mountains,* Wyoming [Remote sensing]. 125280
Research on population dynamics and impact in the **Blue** *Mountains* [Forest insect pests]. 123492
The vegetational importance and conservational value of **Breiniger** *Mountain* near Stolberg (MTB 5203), with consideration of geological and historical aspects [Flora]. 120034
Effect of irrigation on the content of humic substances and carbohydrates in southern Chernozems and those from the foothills of the **Caucasus** *Mountains.* 125179
Hydrochemical balance of a British **Columbia** *mountainous* watershed [Water quality]. 125195
Effect on liveweight gain and wool weights of anthelmintic and selenium drenching of *mountain* **country** Merino and halfbred ewe hoggets. 118851
Effect of fertilizers on the yield and quality of winter wheat grain on **eroded** *mountainous* Chestnut soils. 124923
Description of Rhipicephalus bergeoni n. Sp. (Acarina, Ixodida) of **Ethiopia** *mountains* [adults of which are parasites of cattle]. 124423
Mountain **farmer** policy—words and actions [Austria, Switzerland]. 115790
Problems and prospects of *mountains,* **forests** and environment in the programs of the European Economic Community [Conservation of natural resources and forests]. 125377
Stages of vegetation in the *mountains* of the **Mediterranean** basin. 120342
A notable endemism of the *mountains* of **Mexico:** the genus Xenodromius Bates (Coleoptera, lebiinae) [New taxa]. 124244
Influence of seedling methods and nitrogen fertilization on yield and botanical composition of a white clover-tall fescue **mixture** in *mountain.* 122123
Mapping of the wildland fuel characteristics of the Santa **Monica** *Mountains* of Southern California [Forest fire management, remote sensing]. 119350
Changes in [the composition of] the lower [plant] layer on a **natural** *mountain* from fires. 121894
Areal extent of snow estimation in the northern Sierra **Nevada** *Mountains* using LANDSAT-1 imagery [Remote Sensing]. 125254
Species composition of Oribatei (Acari) on **oceanic** *mountain* ground in western Norway. 124379
Simulating hydrologic behavior on **Ouachita** *Mountain* drainages [Watershed management, computer models, Arkansas]. 119414
The increment of white fir [Abies alba] stands and their dieback on the edges of the *Krim-mountain* **(Slovenia).** 119458
Water deficits in timberline trees [Eucalyptus pauciflora] in the **snowy** *mountains* of southeastern Australia. 121822
Surface mine reclamation in the *Mountain* **State** [West Virginia]. 125166
Effect of a livestock wintering operation on a **western** *mountain* stream [Pollution]. 125570
Relation of tolerant [hardwood] species to habitat in the **White** *Mountains* of New Hampshire. 120400
Aggressiveness of grasses in polyphytic associations in *mountain* **[Yields].** 122112
Forms of potassium in the main types of soils from the foothill and *mountainous* **zones** in Dagestan. 124759

MOUTH

FMD *[foot-and-mouth* **disease]** vaccine—a new concept [Livestock]. 118590
Effect of Tentex Forte on sexual weakness resulting from *foot-and-mouth* **disease** in exotic [Jersey] bull. 118730
Studies on simultaneous vaccination of cattle against rinderpest and foot and *mouth* **disease.** 118756
Cell-free translation of *foot-and-mouth* **disease** virus RNA into identifiable non-capsid and capsid proteins. 118787
Foot-and-mouth **disease** in Ethiopia: serological and immunological study of FMDV type A [virus, guinea pigs]. 118900
Further observations on the functional morphology of the head and *mouthparts* of **dragonfly** larvae (Odonata) [Aeshna interrupta lineata, Libellula quadrimaculata]. 124135
Transportation [in the fresh fruit and vegetable industries of Florida]: the big step from the **field** to the *mouth.* 115583
An Italian industry for the processing of sea food at the *mouth* of **Guadiana.** 116659

MOVEMENT

Absorption and *movement* of 14C **[carbon** isotopes]-labelled mH [maleic hydrazide] and 2,4-D [2,4-dichlorophenoxyacetic acid] in onions. 121694
Microtubules and **cell** *movements* in the islets of imaginal histoblasts of the abdominal epidermis in Calliphora erythrocephala (Diptera). 123850
Movements and **cellular** deformations during evagination of Drosophila imaginal discs. 123851
Diurnal periodic **leaf** *movements* and biochronometry. 120953
Longitudinal *movement* and loss of solutes and water in barley roots. 121419
The *movements* of **minerals** in the digestive tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, sodium, potassium and chlorine]. 117963
Nitrate-nitrogen *movement* through soil as affected by soil profile characteristics [Eutrophication, denitrification]. 124874
Annual report of field investigations of water and **nitrogen** *movement* in Yolo Soil—Rann GI-34733X. 124864
Quantitative determinaton **ofpopulation** *movements* of various Hylemya species, especially Hylemya brassicae Bouche (Diptera, Anthomyiidae), during the whole year. 124082
Reversible **particle** *movements* associated with unstacking and restacking of chloroplast membranes in vitro. 120482
Periodic *movements* of Dictyostelium discoideum sorocarps [fungi]. 121024
Post-pollination phenomena in orchid flowers [Cymbidium]. VII. **Phosphate** *movement* among floral segments. 121590
Acid phosphatase and peroxidase in 'resting' acinar cells of the major salivary glands of cats and their **possible** *movement* into secretory granules. 117703
Potassium *movement* during hyperpolarization of cardiac muscle [Sheep, cats]. 117814
Quantitative suspended sediment mapping using aircraft remotely sensed multispectral data [Water **quality** and *movement].* 125266
The **relative** *movement* of water and nitrate through soil and chalk. 124773
Movement of **sodium** trichloroacetate in podzolized Chernozem under the effect of precipitations. 123058
Breakdown and *movement* of 2,4-D in the **soil** under field conditions [Herbicidal residues]. 123765
Further micro-autoradiographic studies on the pathways of *movement* of **two** pesticides in barley roots. 121416
Entry and *movement* in **vegetation** of lead derived from air and soil sources. 125491
Ventilation *movements* in Solifugae (Arachnida, Solifugae). 124183

MOWER

The effects of nitrogen and *mowing* **height** on the establishment of centipede [Eremochloa ophiurodies]. 125065

Dynamic analysis of the cutting device of a *mowing-cutting-loading* **machine.** 124725

MUCOPOLYSACCHARIDE

Fine cytochemical detection of **acid** *mucopolysaccharides* in growing hyphae of Neurospora crassa [Fungi]. 121077

MUCOR

Degradation products from aflatoxin B1 by Cornyebacterium rubrum, Aspergillus niger, Trichoderma viride and *Mucor* **ambiguus** [Fungi]. 121042
The section Sphaerosporus of *Mucor* **[Fungi]:** a reassessment. 120282
Comparative zone electrophoresis and mating experiments in the taxonomy on *Mucor* **hiemalis** [Fungi]. 120211
Study of bound phospholipase activities of fungal mycelia using an organic solvent system [Rhizopus arrhizus, *Mucor* **javanicus**]. 121237
Trials in the manufacture of Asiago cheese and pressed Asiago by using the microbial coagulant "Rennilase" derived from the [fungus] *Mucor* **miehei.** 116896
Localization and partial characterization of a sex-specif enzyme in homothallic and heterothallic Mucorales *[Mucor* **mucedo,** Fungi]. 120911
The structure and function of acid proteases. IV. Inactivation of the acid protease from *Mucor* **pusillus** [Fungi] by acid protease-specific inhibitiors. 121165
In vitro binding of sterols by extracts from *Mucor* **rouxii** [Fungi] cells grown under different environmental conditions. 120985

MUCORALES

Some cytological studies on *Mucorales* **[Fungi].** 120571
Cascade expression of the mating-type locus in *Mucorales* **[Fungi].** 120721
Localization and partial characterization of a sex-specif enzyme in homothallic and **heterothallic** *Mucorales* [Mucor mucedo, Fungi]. 120911
Ultrastructure of infection of Cokeromyces recurvatus by Piptocephalis **unispora** *(Mucorales)* [Fungi]. 120415

MUCOSA

Adenylate cyclase of the dog **gastric** *mucosa:* stimulation by histamine and inhibition by metiamide. 117866
Evidence for immunoreactive neurotensin in dog **intestinal** *mucosa.* 118820
Morphological studies of the **ruminal** *mucosa* of sheep with simultaneous clinical sheck up during feeding various feed types. 117988
Studies investigating the influence of nutritional factors on the **ruminal** *mucosa.* 2. Morphology of the ruminal mucosa after the feeding of fattening rations varying in physical consistency [Cattle]. 117994
Changes of **ruminal** *mucosa* and blood of sheep in presence of latent alimentary metabolic acidosis. 119156

MUCUS

New data on the structure of the cryptal region of the small **intestine** *mucous* membrane in rodents and dogs. 117653
Quantity of cells of the *mucous* **membrane** of the small intestine in irradiated mice as an index of the protection degree of this organ by radioprotectors. 119233
Measurement of electric resistance of the **vaginal** *mucus* as an aid for heat detection [Livestock, dogs]. 118414

MUD

Floods, *mud-rock* **flows,** slidings, and rockfalls in Austria 1971-1973. 125312
Utilization of alumized **red** *mud* solids for phosphorus removal. 125519
Plant succession on an active **tundra** *mud* slump, Garry Island, Mackenzie River Delta, Northwest Territories [Senecio congestus, Arctagrostis latifolia, Eriophorum scheuchzeri, vegetation]. 120333

MULBERRY

Study on residues remaining on *mulberry* **leaves** treated with acaricides and their toxicity to the silkworm, Bombyx mori L. 124503

MULCH

Comparison of new tomato varieties for mechanical harvesting: **effects** of *mulching.* 122386
Investigations on the "short **grass** *mulching"* method of soil cultivation in fruit culture. 122510
Optimizing soil moisture conservation by *mulch* of **hydrophobic** aggregates using simulation and numerical search procedures. 125172
Influence of **plastic** *mulching* on grapes. 125156
Influence of **soil** *mulching* on strawberries (Fragaria species). 125042
Tackifiers for **straw** *mulch.* 125092

MULTICELLULAR *see* CELLS

MULTIFLORA *see* FLORA

MULTIPLE

Influence of spray adjuvants and *multiple* **applications** of benomyl and oil on photosynthesis of apples leaves [Apple scab, Venturia inaequalis]. 122620
Thoughts on the *multiple-story* **beehive.** 124520
Formyl-methenyl-methylenetetrahydrofolate synthetase-(combined), an ovine protein with *multiple* **catalytic** activities. 117785
Log linear representation for paired and *multiple* **comparisons** models [Statistics applied to food preference]. 115571
The use of *multiple* **correlation** in winter rye breeding. 120687
Creation of pea varieties by the method of *multiple* **crossings.** 120825
Wheat germ agglutinin. Evidence for a genetic basis of *multiple* **forms.** 120588
Diet-induced alterations in distribution of *multiple* **forms** of alcohol dehydrogenase in Drosophila. 124095
Productive honeybee colonies belong in *multiple-story* **hives.** 124502
Design criteria for a *multiple* **input** land use system [Remote sensing]. 115247
Frequency of *multiple* **insemination** in natural populations of Drosophila [pseudoobscura]. 123787
Assessing environmental impacts of *multiple* use **land** management. 115280
Multiple **mating** by [the cigarette beetle] Lasioderma serricorne (F.)—effects on fertility and fecundity. 123546
Variation in amounts of filling: testing of *multiple-headed* **measuring** devices for systematic differences between the separate measuring heads. 116094
Multiple **molecular** forms of nicotinamide-adenine-dinucleotide-specific glutamate-dehyrogenase in lines and hybrids of maize [Zea mays L.). 121448
Multiple use of **public** lands in the seventeen western states. 115220
Effects in the rat of environmental temperature, diet dilution and treadmill running on voluntary food intake, body compositon and endocrine organ mass: a *multiple* **regression** analysis. 116427
Effects in the rat of environmental temperature, diet dilution, and treadmill running on liver and adipose enzymes and metabolism of 14C [carbon isotope]-glucose: a *multiple* **regression** analysis. 116428
Suitability of *multiple* **regression** analysis for elucidating multicollinear ecological relations as demonstrated by natural spruce [Picea] regeneration. 120402
A *multiple* **resource** wildlands information system for environmental impact assessment modeling [Forest resources]. 119462

MULTIVITAMIN *see* VITAMIN

MUNGBEAN

The low temperature limit for [cucumber and *mung* **bean**] seed germination. 121742
Galactose-induced ethylene evolution in *mung* **bean** hypocotyls: a possible mechanism for galactose retardation of plant growth. 121750
Factors affecting the use of *mung* **bean** cuttings as a research tool in vegetative propagation. 122223
Ultrastructure of persisting mitotic nucleoli of *mung* **beans.** 120557
Formation of polyprenol-linked mono- and oligosaccharides in Phaseolus aureus *[mung* **beans].** 121600
Hydrogen peroxide generation by the alternate oxidase of higher plants *[Mung* **beans].** 121604
Effect of succinic acid on protein complexes in seeds *[Mung* **beans].** 121615
Baisakhi moong *[mung* **beans]** successfully follows wheat. 122289

MUNGO

Search for sources of resistance to powdery mildew [Erysiphe polygoni] in black **gram** *[Mungo* **beans].** 122606

MURINE

Interactions of vesicular stomatitis virus with *murine* **cell** surface antigens. 118804

MURMURS

The **"innocent"** *murmur*—a dilemma [Nonpathogical heart conditions in dogs]. 119284

MURRAH

Effect of frequency of miking in *Murrah* **buffaloes.** 117454
Performance in different lactations and repeatability of economic characters in *Murrah* **buffaloes.** 117456

MUSACEAE

Bananas: **Musca** *(Musaceae).* 122346

MUSCA

Olfactory responses of face files, *Musca* **autumnalis,** to bovine feces. 123601
Death knell for the house fly? *[Musca* **domestica].** 123594
S-adenosylmethionine:homocysteine methyltransferase as a regulatory enzyme in embryos of *Musca* **domestica.** 123913
Identification of a juvenile hormone from *Musca* **domestica.** 123980
Phenobarbital stimulation of housefly *[Musca* **domestica]** chromatin template activity. 123984
Insect growth regulators. Analogues of TH-6038 and TH-6040 [Aedes aegypti, Tribolium confusum, *Musca* **domestica,** Manduca sexta]. 124011
Studies on the external metamorphosis of *Musca* **domestica** nebulo Fabr. (Diptera, Cyclorrhapha, Muscidae). II. Metamorphic changes in the thoracic region. 124015
Resolution of intraneuronal and transynaptic migration of cobalt in the insect visual and central nervous systems [Calliphora erythrocephala, Calliphora vomitoria, *Musca* **domestica.** 124030
"Short-term learning" in flies *[Musca* **domestica].** 124105
The accumulation of lipofuscin in the epithelium of the midgut of the aging housefly, *Musca* **domestica.** 124131
House fly *[Musca* **domestica]** larvae as protein source [for feed] from pig manure. 124150
Genetic analysis of resistance factors in a wild strain of the house **fly** *(Musca* domestica) resistant to DDT and some organophosphorous insecticides. 123675
Organization of visual axes in the compound eye of the **fly** *Musca* domestica L. and behavioural consequences. 124029
Bananas: *Musca* **(Musaceae).** 122346
Acidic composition of oil estracted from *Musca* **[Sarcophaga]** carnaria larva. 124148

MUSCARDINE

Variability of natural strains of *muscardine* **fungi** [Beauveria, Paecilomyces, pathogens of a pyralidid moth, pest of honey bees, biological control]. 124543

MUSCI

Notes on Pottiaceae in Middle **America** *[Musci].* 119987
Studies on North American Quaternary bryophyte subfossils. I. A new moss *[Musci]* **assemblage** from the two creeks forest bed of Wisconsin. 120235
Compilation of the *Musci* in **Bolivia.** 119981
Chromosome studies in some British **bryophytes** *[Musci].* 120479
Seligeria careyana, a new species from the Queen Charlotte Islands, Western **Canada** *[Musci].* 119989
Scanning microscope pictures of moss **capsules** *[Musci].* 120523
Musci **japonici** Exsiccati, series 1-25. Alphabetical list of species. 120122
Identity of Pterygoneurum arcticum with Pterygoneurum **lamellatum** *[Musci].* 119983
Alar cells of Rhacomitrium **lawtonae** *[Musci].* 119980
Ultrastructural changes in germinating Dicranum scoparium: a moss containing protein storage **material** *[Musci].* 120435
Variability and seasonality of the growth of some corticolous pleurocarpous **mosses** *[Musci].* 121173
A monograph of the genus Muelleriella Dusen *[Musci,* **Orthotrichaceae,** new taxa]. 120112
Comparative anatomy of the gametophytes in Dawsonia **(Polytrichales,** *Musci).* 120488
Hookeria lucens *[Musci,* **taxonomy,** phytogeography, morphology]. 120196
Sporocyte development in the *Musci.* I. **Three** genera of the Pottiaceae [Weissia controversa, Acaulon muticum rufescens, Astomum muhlenbergianum]. 120551

MUSCIDAE

The larva of Coenosia dubiosa (Hennig) **(Diptera:** *Muscidae).* 124182
Fannia thelaziae, a new species of eye-frequenting fly of the benjamini group from California and description of Fannia conspicua female **(Diptera:** *Muscidae).* 124398
Studies on the external metamorphosis of Musca domestica nebulo Fabr. (Diptera, Cyclorrhapha, *Muscidae).* II. **Metamorphic** changes in the thoracic region. 124015
A survey of houseflies in Bangkok and neighboring **provinces** *[Muscidae].* 123666

MUSCLE

Crystallization of a *non-muscle* **actin** [from calf spleen]. 117816
Pathophysiological aspects relating to transport stress on swine. 4. *Muscular* **activity** to exhaustion. 119168
Administration of [the antibiotic] Chloramphenicol in cats. Serum concentrations after oral, subcutaneous and *intramuscular* **application.** 118647
The mineral content of pig and **bovine** *muscle.* 117000
Ultrastructure of stressed **bovine** *muscle.* 117891
Selective control of fibroblast proliferation and its effect on **cardiac** *muscle* differentiation in vitro [Chick embryos]. 117646
Potassium movement during hyperpolarization of **cardiac** *muscle* [Sheep, cats]. 117814
Research of Koch bacillus in tuberculous **cattle** *muscles* and blood. 118905
Endoskeleton and **cephalic** *musculature* of Scutigerella immaculata Newport (Symphyla: Scutigerellidae). 123840
Naturally-occurring degeneration in **chick** *muscle* development: ultrastructure of the M. complexus. 117763
Scalded sausage manufacture in the meat trade. 7. Color formation and preservation, influence of the *muscle* **coloring** matter present, and color stabilization by means of blood additives. 116955
Cellular patterns of postmortem glycogenolysis in longissimus **dorsi** *muscles* of **pigs** at different live weights. 117006
Breakdown of diphosphate and tripolyphosphate in the m. Longissimus **dorsi** *muscle* of the pig. 117686
CAMP [cyclic adenosine monophosphate] and cGMP [cyclic guanosine monophosphate] changes associated with the differentiation of cultured chick **embryo** *muscle* cells. 117672
Ultrastructural localization of acetylcholinesterase in cultured cells. I. **Embryo** *muscle* [Chick embryos]. 117812
Serum enzymatic research of lambs aged from 10 to 30 days, including a report on prophylaxis for **enzootic** *muscle* dystrophy. 119083

Comparative electron microscopic study of the cysts of Sarcocystis fusiformis (Railliet 1897) in the *muscle* **fibers** of naturally infected cattle and after experimental infections of calves by sporocysts of Isospora hominis and the large forms of Isospora bigemina from cat and dog. 118894
Cellular composition during recovery from chronic protein deprivaton in **gastrocnemius** *muscle* in rats. 116500
Osteoporosis in chickens with **hereditary** *muscular* dystrophy. 119198
Studies into acid-base balance of blood and *muscular* pH **[hydrogen-ion** concentration] of swine exposed to consecutive stress. 119175
Phospholipid metabolism in red and white **insect** *muscle* [Schistocerca gregaria]. 123986
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the *muscle* **meat** of naturally infected swine [Storage of infected pork]. 116252
Nutritive *muscular* dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of "white muscle disease in young cattle. 119202
Nutritive *muscular* dystrophy in cattle. 7. Epizootiology of "white muscle disease" in calves fed on milk. 119203
A new device to derive the force-velocity relationship of the isolated **papillary** *muscle* using a sonomicrometer and an electromagnet [Cats]. 117875
In vitro trypsin digestion of bovine and **pig** *muscles* both raw and cooked: peptides fractionations by molecular exclusion chromatography [Pork and beef]. 116937
Actin [purified from **pig** *muscle]* associated with purified lymphocyte plasma membrane. 117677
Investigations into SH [sulhydryl] groups and lactic acid in the PSE [pale, soft, exudative] *musculature* of **pigs.** 117687
Avulsion of the **popliteus** *muscle* in the dog: a case report. 119105
Gas chromatographic methods for flavor testing in cooked **pork** *(muscles* semimembranosus). 117022
Action of different toxins from the scorpion Androctonus australis on a locust [Locusta migratoria] *nerve-muscle* **preparation.** 124040
Non-identical behaviour of the subunits of **rabbit** *muscle* creatine kinase. 117597
Studies on specific elution of **rabbit** *muscle* phosphofructokinase with allosteric ligands. 117610
Equilibrium studies on the refolding and reactivation of **rabbit** *muscle* aldolase after acid dissociation. 117660
Kinetics of refolding and reactivation of **rabbit** *muscle* aldolase after acid dissociation. 117662
A study on the autoactivation of **rabbit** *muscle* phosphorylase kinase. 117781
Detection of an essential sulfhydryl group in [**rabbit** *muscle]* phosphoglycerate mutase with an affinity-labeling reagent. 117783
Gun biopsy—a new approach to *muscle* **sampling** [from living animals]. 118506
Thyroidal influence on gastrocnemius and **sartorius** *muscle* growth in young White Leghorn cockerels. 117700
Free amino acids & proteins of the haemolymph, Hepatopancreas & *muscle* of the **scorpion** Heterometrus scaber (Thor.). 123971
Effects of food deprivation on protein synthesis and degradation in rat **skeletal** *muscles.* 116290
Assessment of effect of starvation, glucose, fatty acids and hormones on alpha-decarboxylation of leucine in **skeletal** *muscle* of rat. 116420
Effects of early severe malnutrition on heart and **skeletal** *muscle* lactate dehydrogenase [Rats]. 116429
The influence of breed of rat on protein efficiency ratio (PER), **skeletal** *muscle* and adipose tissue growth. 116510
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the liver, **skeletal** *muscle,* and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
Metabolic intermediates and lactate diffusion in active dog **skeletal** *muscle.* 117540
Binding of nucleotides ATP [adenosine triphosphate] and aDP [adenosine diphosphate] to sarcoplasmic reticulum: study by rate of dialysis [Rabbit **skeletal** *muscles].* 117599
Developmental aspects of the innervation of **skeletal** *muscle* fibers in the chick embryo. 117628
Comparison of calcium-binding proteins. Bovine heart and brain protein activators of cyclic nucleotide phosphodiesterase and rabbit **skeletal** *muscle* troponin C. 117782
Accumulation of cesium-134 [istope] in heart and **skeletal** *muscle* of dystrophic hamster. 117957
Ultrastructural changes in **skeletal** *muscle* of selenium-vitamin E-deficient chicks. 119069
Is the nexus necessary for cell-to-cell coupling of **smooth** *muscle?* [Dogs]. 117813
Regeneration of afferent and efferent fibres to *muscle* **spindles** after nerve injury in adult cats. 117830
In vitro studies of mitochondrial and sarcoplasmic reticulum function in *muscle* of **stress** susceptible pigs. 117770
Meat tenderness and *muscle* **structure.** 117005
Biochemical and physiological differences between avian ALD and PLD [anterior and posterior latissimus dorsi] *muscle* **subcellular** fractions [Chickens]. 117643
Mineral contents of the blood and chemical composition of the *muscles* of **Trichinella-infected** piglets. 118970
Time dependent effects on contractile properties, fibre population, myosin light chains and enzymes of energy metabolism in intermittently and continuously stimulated fast **twitch** *muscles* of the rabbit. 117877
Inotropic effect of cyclic AMP [adenosine 3',5'-monophosphate] in calf **ventricular** *muscle* studied by a cut end method. 117826
Ca2+ [calcium ion] induced conformational changes of spin-labeled g2 chain bound to myosin [isolated from rabbit **white** *muscle]* and the effect of phosphorylation. 117779
Nutritive muscular dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of **"white** *muscle* disease in young cattle. 119202
Nutritive muscular dystrophy in cattle. 7. Epizootiology of **"white** *muscle* disease" in calves fed on milk. 119203

MUSCOVY

Genetic improvement possibilities for *Muscovy* **duck.** 118212
Duck plague virus replication in *Muscovy* **duck** fibroblast cells. 118624
Some incidents of lymphoproliferative disease in the *Muscovy* **duck** (Cairina moschata). 119074

MUSEUMS

Beekeeping *museum* in Radovljica. 124565
New African Hemiptera Reduviidae of the **Munich** *Museum.* 124389
African stations of spiders of the genera Nephila Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] **National** *Museum* of Natural History [New taxa]. 124251
Results of the studies of some Nepticulidae types from the collection of the **National** *Museum* of Natural History, Paris (Lepidoptera, Nepticulidae) [New taxa]. 124259
The mission of entomological exploration of the *Museum* of **natural** History in French Guiana: Sphingidae (Lepidoptera). 124270
Revision of Rhyacionia buoliana and Rhyacionia pinicolana (Lepidoptera, Tortricidae) contained in the collections of the Entomology Laboratory of the **Paris** *Museum* and preliminary data on the distribution of these two species in France. 124260
Scolytidae and Platypodidae (Coleoptera) from the Hungarian Natural **Science** *Museum* [New taxa]. 124456
Life and activity of Johann Karl Wilhelm Illigers (17751813) as an entomologist, vertebrate scientist and founder of the **zoological** *museum* of the Humboldt University in Berlin. 2. 124084

MUSHROOMS

Biological control of Verticillium malthousei by Trichoderma viride spray on casing soil in **commercial** *mushroom* [Agaricus bisporus] production [Dry bubble disease]. 122746
A study on straw mushroom cultivation with waste compost of **common** *mushroom.* 125021
Study on uptake of mercury by *mushroom* from the **compost** and casing soil. 121726
The seasonal development of *mushrooms* and its **contributory** weather conditions. 121734
Changing of *mushroom* **cultivation** system in Taiwan. 122392
Report on *mushroom* **cultivation:** a discussion with Dr. Hiratsuka, Director of Tottori Mycological Institute in Japan. 122394
Acid production, a possible basis for benomyl tolerance in verticillium malthousei *[Mushroom* **disease].** 122723
Structure of tentinic acid: 2-(gamma-glutamylamino)-4,6,8,10,10-pentaoxo-4,6,8,10-tetrathiaundecane acid [Lentinus **edodes,** *mushrooms].* 121780
Prevention of browning and blemish by postharvest treatments and storage conditions for keeping better quality of **fresh** *mushrooms.* 117288
Some remarks on *mushroom* **industry** of foreign countries. 122396
Some remarks on *mushroom* **industry** in foreign countries. 122397
On the components of pileus and stipe of dried shiitake *[mushrooms]* **(Lentinus** edodes (Berk.) Sing): chemical components and hot water soluble polysaccharides. 117297
Trace element nutrition of *mushroom* **Pleurotus** sajorcaju (Fr.) Singer. 121633
Judging truffles in meat **products** *[Mushrooms].* 116981
A study on **straw** *mushroom* cultivation with waste compost of common mushroom. 125021
Effect of synergized allethrin on Heteropeza pygmaea larva and mycelial growth of Agaricus bisporus *[mushroom]* in **vitro.** 123411

MUSKMELONS

A new wilt disease [Fusarium] of *muskmelon* in **India.** 122599
Genetic aspects of antibiosis to Aphis gossypii in Cucumis melo *[muskmelon]* from **India.** 123408
A proposed nomenclature of Fusarium oxysporum f. Sp. Melonis races and resistance genes in Cucumis **melo** *[Muskmelon].* 122722

MUSSEL

Mussel-test for **biological** control of water pollution. 125431
Mussels and **pollution.** 125484
Legal and hygienic food evaluation of fresh **sea** *mussels* in consumption. 116076

MUSTARD

Formation of **pea-white** *mustard* [Sinapis alba] and pea-barley agrophytocoenoses [Nutritive relationships]. 120459
Effect of boron on the utilization of nitrogen, phosphorus and potassium by *mustard* **plants.** 120862

MUSTELA

Pheromones of mammals: an investigation of volatile acids in vaginal excretions of minks, *Mustela* **vison** Briss. 118255

MUTAGENESIS

The grass Zingeria [biebersteiniana] with a low chromosome number—a new model object for the culture of plant cells and tissues [Effect of *mutagenic* **agents** on ploidic composition of populations]. 120624
Structural mutations of chromosomes in the second cell cycle during radiation and **chemical** *mutagenesis* [of Crepis capillaris]. 120623
Chemical *mutagenesis* on rye; an analysis of the somatic damage caused by (NMH) n-methyl-n-nitrosourea. 120658
Peculiarities of male sterility in perennial grasses during its induction by **chemical** *mutagens.* 120709
Application of isopropylmethanesulfonate and isopropylethanesulfonate in breeding spring barley **[Chemical** *mutagens].* 120804
Comparative study of the *[mutagenic]* **effect** of ethylenimine and gamma-rays on wheat and barley varieties in the first generation. 120718
Industrial *mutagens* and potential mutagens. I. Halogenated aliphatic derivates [Hydrocarbons, public health hazards]. 116227
Evaluation of some pesticides for *mutagenicity* **[Mice].** 123751
Mutagenicity of **nitrosamides** and nitrosamidines in microorganisms and plants. 121284
Chromosome aberrations in root meristematic cells after treatment with [the *mutagen]* **NMH** (N-methyl-N-nitrosourea). 120659
Naturally **occurring** *mutagens* [discovered as a result of outbreaks of disease in agricultural livestock, public health hazards, toxic agents]. 119269
Industrial mutagens and **potential** *mutagens.* I. Halogenated aliphatic derivates [Hydrocarbons, public health hazards]. 116227

MUTANTS

Temperature-sensitive breakdown in vivo of polysomes with *mutants* of **Chlamydomonas** reinhardii [Algae]. 121283
Interralationsips between pterin and ommochrome pigments in Drosophila melanogaster. III. Xanthommatin content in wild type, mal, bw, and mal bw **double** *mutant.* 123837
The ribosomes of Drosophila. IV. Electrophoretic identity among ribosomal subunit proteins from wild type and *mutant* **Drosophila** melanogaster and Drosophila simulans. 124088
Use of induced **dwarf** *mutants* in breeding soft winter wheat. 120751
In vivo purification of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of *mutants* **enriched** in mitochondrial ribosomal RNA cistrons. 120754
Approaches to the study of differentiation in Streptomyces coelicolor A3(2) **[Fungi,** *mutants].* 120720
Realized and potential neutralization of *mutant* **genes** in man by nutritional selection. 116327
The in vitro induction of puffing in salivary glands of the *mutant* l **(2)gl** of Drosophila melanogaster by ecdysone. 124173
Projection of sensory neurons from a **homeotic** *mutant* appendage, Antennapedia, in Drosophila melanogaster. 123878
Induced *mutants* in silkworm (Bombyx mori L.). 124529
Peculiarities of the dynamics of bioelectric parameters of **maize** *mutants* with a high effect of general combining ability in the process of ontogenesis. 120710
Quantitative of unsaturated fatty acids in **microbial** *mutants.* VI. Selective growth responses of yeast and bacteria to cis-octadecenoate isomers [Saccharomyces cerevisiae, Escherichia coli]. 120978
"Mutant" **neuron:** Electrophysiological analysis [Genetic prerequisites of a systemic organization of the brain, experiments on Drosophila melanogaster]. 123880
In vivo purification of mitochondrial genes in **petite** *mutants* of yeast: the genetic and biochemical characterization of mutants enriched in mitochondrial ribosomal RNA cistrons. 120754
Studies on nucleic acids in plastids of the **pigment** *mutant* C-2A' of Scenedesmus obliquus [Algae]. 121326
Amino acid fermentations using **regulatory** *mutants* of Corynebacterium glutamicum. 116756
Genetics and biochemistry of pyridoxine **requiring** *mutants* of Aspergillus nidulans [Fungi]. 120618
Mutants of **Saccharomyces** cerevisiae utilizing hydrocarbons [Yeast]. 120727
Solasodine from curved **spine** *mutant* of Solanum khasianum Clarke. 121142
Comparisons of some properties of crystalline acid proteinases produced by the parent and *mutant* **strains** of Irpex lacteus Fr. [Fungi]. 120856

The defective maturation of viral progeny with a **temperature-sensitive** *mutant* of avian sarcoma virus [Chick embryos]. 119041
Characteristics of Sindbis virus **temperature-sensitive** *mutants* in cultured BHK-21 [baby hamster kidney] and Aedes albopictus (mosquito) cells. 123641
Effect of pH [hydrogen-ion concentration] and temperature on **three** *mutants* of Aspergillus clavatus Desm. [Fungi]. 121358
A simple method for the isolation and characterization of tyhymidylate **uptaking** *mutants* in Saccharomyces cerevisiae [Yeasts]. 121281
Significance of endo-polygalacturonase activity to symptom expression of verticillium wilt in cotton, assessed by the use of *mutants* of **Verticillium** dahliae Kleb. 122717
Ultrastructure and morphology of the Neurospora crassa [Fungi] cell **wall** *mutants,* slime and slime X using TEM and SEM. 120559
Inheritance of dwarfing and some characters in the *mutants* of **Zeelandzkie** rye [Varieties, Poland]. 120668

MUTASE

Detection of an essential sulfhydryl group in [rabbit muscle] **phosphoglycerate** *mutase* with an affinity-labeling reagent. 117783

MUTATION

Radiation and **chemical** *mutations* of barley with increased resistance to lodging. 120832
Frequency and spectrum of **chlorophyll-deficient** *mutations* in rice after treatment with radiation and alkylating agents. 120782
The role of the pentose cycle in the metabolism of Drosophila melanogaster revealed by *mutations* **inactivating** glucoso-6-phosphate- and 6-phosphogluconatedehydrogenase. 123881
Improvement of scented rice varieties (Basmati 370) through **induced** *mutation.* 120619
Results from using **induced** *mutation* in cabbage (Brassica capitata Lizg.) [for creating initial breeding material]. 120648
Development of **induced** *mutations* in opium poppy [Papaver somniferum]. 120836
Induced *mutations* in foxtail millet (Setaria italica Beauv.). II. Viable mutations in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Induced *mutations* and plant breeding. 120845
Dominant **lethal** *mutations* in rats fed on irradiated wheat [health hazard]. 119244
Dominant **lethal** *mutations* in insects with holokinetic chromosomes: irradiation of pink bollworm sperm [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279
Mutational **load** in a fern [Osmunda regalis] population growing in a polluted environment. 120577
Mutation, **repair** mechanisms and transformation in the methane-utilizing bacterium, Methylococcus capsulatus. 117347
The X-ray treatments to induce **somatic** *mutation* in Chrysanthemum morifolium Ram. II. The imductive dosage of somatic mutation in Chrysanthemum cultivars. 120771
Spontaneous *mutability* in Drosophila melanogaster, in natural and laboratory environments. 124089
Co-mutation in **Streptomyces** [Fungi]. 120722
Structural *mutations* of chromosomes in the second cell cycle during radiation and chemical mutagenesis [of Crepis capillaris]. 120623
Suppressor-sensitive *mutations* of Streptomyces coelicolor A3(2) and actinophage phiC31 [Fungi]. 120732
Nonsense suppressors of Saccharomyces cerevisiae can be generated by *mutation* of the **tyrosine** tRNA anticodon. 120785
Possibilities of inducing economically **useful** *mutations* in maize by seed treatment with ethyl methanesulphonate and N-nitroso-N-methylurethan. 120647
Induced mutations in foxtail millet (Setaria italica Beauv.). II. **Viable** *mutations* in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Controlling protein evolution [Saccharomyces cerevisiae, **yeasts,** *mutation].* 120627

MYCELIA

The mechanisms of anabolic action of the PEFAG preparation [growth and fattening stimulant in livestock based on the *mycelium* of **Actinomyces** grseus]. 118068
The effects of linoleate and acetate on the growth and lipid composition of *mycelium* of **Agaricus** bisporus [Fungi]. 121290
The *mycelial* **cell** wall of Penicillium charlesii G. Smith NRRL 1887 [Fungi, chemistry]. 120937
Study of bound phospholipase activities of **fungal** *mycelia* using an organic solvent system [Rhizopus arrhizus, Mucor javanicus]. 121237
Formation of nicotinamide ribose diphosphate ribose, a new metabolite of the NAD [nicotinamide adensine denuclotide] pathway, by **growing** *mycelium* of Aspergillus niger [Fungi]. 120857
Asexual sporulation and *mycelial* **growth** in axenic cultures of Smittium spp. (Trichomycetes) [Fungi]. 121286
Cultural studies on the Monilia disease fungus of apples. VI. The effect of light on conidial germination, *mycelial* **growth,** and sporulation [Monilinia mali]. 122587
Effect of synergized allethrin on Heteropeza pygmaea larva and *mycelial* **growth** of Agaricus bisporus [mushroom] in vitro. 123411
The conditions of the *mycelium* of the **pathogen** Peronospora [schachtii] in the tissue of sugarbeet varieties differing in their resistance. 122784
Mycelium **products** in higher fungi. I. Phenoxazine derivatives in Calocybe gambosa. 121074
Estrogenic effect [studied on laboratory animals] of the lipid fraction of the fungus Alternaria brassicicola **strain** 13 *mycelium.* 118276

MYCOBACTERIUM

Isolation of *Mycobacterium* **avium** serotype 3 from a white-headed tree duck (Dendrocygna viduata) [Pathogenicity in chickens]. 118636
Susceptibility of the Mongolian gerbil (Meriones unguiculatus) to *Mycobacterium* **paratuberculosis.** 118606

MYCOFLORA *see* FUNGUS

MYCOLOGISTS

Franz Petrak, 1886—1973 *[Mycologists,* **Austria].** 119916
In memory of Dr. Maria Peringer *[Mycologists,* **Austria].** 119918
Pushpanjali, E. W. Mason *[Mycologists,* Great **Britain].** 119903
Centenary tribute to E. J. **Butler** *[Mycologists].* 119900
Obituary, E. W. Mason, O.B.E., M.A., M.Sc., **F.L.** S. (1890-1975) *[Mycologists].* 119901

MYCOLOGY

Franz Petrak's importance to *mycology* **[Austria].** 119917
Criteria for evaluating flowing water pollution: comparative examination of the *mycological,* **bacteriological** and chemical parameters of the Ticino River in the municipal territory of Pavia. 125482
Mycological **production** of citric acid in India. V. Effect of some low molecular weight alcohols [Aspergillus niger, Fungi]. 116832
Mycological **production** of citric acid in India. I. Utilization of some cheaper and readily available sources of carbohydrate [Aspergillus niger, Fungi]. 121359
Mycological **production** of citric acid. III. Effect of the different nitrogen compounds [Aspergillus niger, Fungi]. 121360
Mycological **production** of citric acid in India. IV. Role of sulphur and phosphorus compounds [Aspergillus niger]. 121361
Studies on the *mycological* **production** of citric acid in India. II. Effect of factors other than nutritional [Aspergillus niger, Fungi]. 121362
Report on mushroom cultivation: a discussion with Dr. Hiratsuka, Director of **Tottori** *Mycological* Institute in Japan. 122394

MYCOPHENOLIC

A combined radio gas chromatograph/mass spectrometer detects intermediates in *mycophenolic* **acid** biosynthesis [Penicillium brevicompactum, Fungi]. 120879

MYCOPLASMA

A *mycoplasma*—**abortion** link? [Ciliostasis, sterility in cattle]. 118589
Elevation of *Mycoplasma* **agalactiae** subsp. Bovis to species rank: Mycoplasma bovis (Hale et al.) comb. nov. [Causing bovine mastitis]. 118770
Studies on **avian** *mycoplasma*—serological studies. 118755
Mycoplasmalike **bodies** associated with rice orange leaf disease [Recilia dorsalis as insect vector]. 122862
Isolation and characterisation of *Mycoplasma* **bovigenitalium** from bovine vaginal tract. 118734
Elevation of Mycoplasma agalactiae subsp. Bovis to species rank: *Mycoplasma* **bovis** (Hale et al.) comb. nov. [Causing bovine mastitis]. 118770
Mycoplasmas *[Mycoplasma* **conjunctivae,** Mycoplasma ovipneumoniae] and ovine keratoconjunctivits [Sheep]. 119009
Use of the agar-gel precipitin test to evaluate broiler breeder and commercial layer flocks [chickens] for *Mycoplasma* **gallisepticum** infection. 118642
Immunological response to *Mycoplasma* **gallisepticum** [Chickens]. 118962
Mycoplasmas **[Mycoplasma** conjunctivae, Mycoplasma ovipneumoniae] and ovine keratoconjunctivits [Sheep]. 119009
Field control of coconut lethal yellowing [caused by *mycoplasmalike* **organisms]** with oxytetracycline hydrochloride. 122859
Mycoplasmas [Mycoplasma conjunctivae, *Mycoplasma* **ovipneumoniae]** and ovine keratoconjunctivits [Sheep]. 119009
Transmission of *mycoplasma* **(PPLO)** on breeding and broiler farms. 118594
Severe polyarthritis in a rhesus monkey: **suggested** *mycoplasma* etiology. 118818
A comparison of horse, cow, and sheep blood in NYC medium: effect on recovery of Neisseria gonorrhoeae and **urogenital** *mycoplasmas.* 117702

MYCORRHIZA

Arbuscular *mycorrhizas* in the anthracite and bituminous coal wastes of Pennsylvania. 120373
Mycorrhiza **effects** following soil fumigation [Citrus inoculation with mycorrhizal fungi]. 122235
Preliminary studies with Pisolithus tinctorius as a *mycorrhizal* **fungus** of pines [Pinus longifolio] in Nigeria. 121832
Findings made in the cultivation of *mycorrhizal* **inoculum** [to be used for tree seedling propagation]. 120999
Mycorrhizae-plant **relationships.** 121015
Translocation and transfer of nutrients in **vesicular-arbuscular** *mycorrhizas* [roots of onion]. I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743

MYCOSPHAERELLACEAE

The ultrastructure of the Spilocaea state of *Venturia* **inaequalis** in vivo [Fungi]. 120447
Influence of spray adjuvants and multiple applications of benomyl and oil on photosynthesis of apples leaves [Apple scab, *Venturia* **inaequalis].** 122620
Methods of testing the aggressiveness of different strains of a causal agent of apple scab, *Venturia* **inaequalis** (Cke.) Wint. 122654
Apple scab *[Venturia* **inaequalis]** predictive and monitoring systems. 122661
Benzimidazole tolerance in *Venturia* **inaequalis** [apple scab] in New Zealand. 122745

MYCOTOXICOSIS

Mycotoxicosis in **chicks** produced by toxins from Phomopsis sp. or Diaporthe phaseolorum var. sojae. 118638
Mycotoxins and *mycotoxicoses.* 3. **Diagnosing** cases of poisoning, identifying the causative agent, and establishing effective control [Livestock]. 119263
The decade of fungi [Poultry **poisoning,** *mycotoxicosis].* 119230
How to minimize mycotoxin problems in your feed **[Poultry,** *mycotoxicosis].* 119277

MYCOTOXINS

Mycotoxins in foods. VIII. Inhibition of the formation of *mycotoxins* **(aflatoxins)** B1 and G1, patulin and sterigmatocystin) in whole wheat bread by sorbic acid and sorboylpalmitate. 116077
Proprionic acid for fungus control [and feed preservation, *mycotoxins,* **decontamination].** 117327
Mycotoxins in **foods.** VIII. Inhibition of the formation of mycotoxins (aflatoxins) B1 and G1, patulin and sterigmatocystin) in whole wheat bread by sorbic acid and sorboylpalmitate. 116077
Fluorescence behavior of sterigmatocystin *[Mycotoxin* from the **fungus** Aspergillus versicolor]. 119248
Chemical and biological investigations on **Fusarium** *mycotoxins* [Fungal molds of food, wheat contamination]. 116034
Is there a danger of *mycotoxins* in **Hungarian** salami? II. The importance of the casing and of smoke treatment. 116120
Is there a danger of *mycotoxins* in **Hungarian** salami? I. The influence of substrate, aw-value and temperature on toxin production in mixed cultures. 116121
How to **minimize** *mycotoxin* problems in your feed [Poultry, mycotoxicosis]. 119277
Effect of prenatal exposure to *mycotoxins* **[Molds** growing on foodstuffs, laboratory animals]. 116245
Mycotoxins and **mycotoxicoses.** 3. Diagnosing cases of poisoning, identifying the causative agent, and establishing effective control [Livestock]. 119263
Effect of *mycotoxins* on **uptake** and degradation of [125I]albumin [iodine isotope] in mouse liver and kidney lysosomes. 119256

MYELIN

Particularities of *myelin* **formation** in spinal roots of the rabbit. 117519
Organization of membrane proteins in the **intact** *myelin* sheath. Pyridoxal phosphate and salicylaldehyde as probes of myelin structure [Cats]. 117788

MYELOBLASTOSIS

RNA-dependent DNA polymerase activity of RNA tumor virus. VI. Processive mode of action of **avian** *myeloblastosis* virus polymerase. 118808

MYELOGRAPHY

Canine *myelography* with Skiodan. 1. Indications and interpretation. 118576

MYELOPATHY

Ischemic *myelopathy* secondary to presumed fibrocartilaginous embolism in nine dogs. 119112

MYELOPROLIFERATIVE

Myeloproliferative **disorders** in the cat. 119084

MYGALOMORPHAE

A new species of *Mygalomorphae* from **Madagascar:** Legendrella pauliani, type of a new genus (Araneae, Migidae). 124250

MYMARIDAE

A method for the extraction of Sitona (Coleoptera: Curculionidae) eggs from soil and occurrence of a *mymarid* **(Hymenoptera:** Chalcidoidea) in the Mediterranean region. 123900

MYOBIIDAE
Antiquity and specificity of parasitic mites. Parallel host-parasite development **[Especially** *Myobiidae,* marsupials as hosts]. 123589
Notes on *Myobiidae* **parasites** of rodents, insectivores and Chiroptera (Acarina: Prostigmata). 123593

MYOCARDIA
Depressed *myocardial* function in the goat at high altitude. 117774
Cholesterol among children of men with *myocardial* **infarction.** 116525
Development dynamics of *myocardium* **ultrastructure** in embryonal and early postnatal stage in chickens. 117613

MYOMETRIUM
Electric activity of the **rat** *myometrium* in vivo during the estrous cycle. 119643

MYOPORACEAE
Eremophila **ramiflora** *(Myoporaceae),* a new species from Western Australia. 120137

MYOSIN
Ca2+ [calcium ion] induced conformational changes of spin-labeled g2 chain bound to *myosin* **[isolated** from rabbit white muscle] and the effect of phosphorylation. 117779
Time dependent effects on contractile properties, fibre population, *myosin* **light** chains and enzymes of energy metabolism in intermittently and continuously stimulated fast twitch muscles of the rabbit. 117877

MYOSITIS
Observations on the occurrence of the **dystrophic** *myositis* in swine in Italy also. 119088

MYRICA
14-oxa-[7.1]-metapara-cyclophanes from *Myrica* **gale** L., a new class of natural products. 121378

MYRICACEAE
On the germination of seeds of Comptonia peregrina, the sweet **fern** *[Myricaceae].* 120973

MYRIOPHYLLUM
Nitrogen nutrition of *Myriophyllum* **spicatum:** variation of plant tissue nitrogen concentration with season and site in lake Wingra. 121068
Nitrogen nutrition of *Myriophyllum* **spicatum:** uptake and translocation of 15N [nitrogen isotope] by shoots and roots. 121069
Environmental and hormonal control of turion germination in *Myriophyllum* **verticillatum.** 120864
Environmental and hormonal control of turion formation in *Myriophyllum* **verticillatum.** 121319

MYRIOPODA
The cerebral gland of Gonoplectus malayus (Carl.) *(Myriapoda,* **Diplopoda).** 123870
Data on morphology, teratology, postembryonic development, faunistics and ecology of *Myriapoda* **Diplopoda** that are harmful to crops in Senegal. 124254
Segmental anomaly in Polydesmus angustus **Latzal** *(Myriapoda,* Diplopoda, Polydesmidae). 123841
Spirostrepidae *(Myriapoda-Diplopoda)* from French Guiana. Description of two new genera. Supplements to the diagnosis of South American type species. 124262

MYRMECOPHILOUS
Morphology of the *myrmecophilous* **cockroach** Attaphila fungicola Wheeler. 123999

MYROTHECIUM
Ring rot of brinjal [eggplant] caused by *Myrothecium* **roridum** Tode ex Fries from Bangalore. 122605

MYRTACEAE
Clove: *Eugenia* **caryophyllus** (Myrtaceae). 122528
Angophora hispida, anew name for Angophora **cordifolia** *(Myrtaceae).* 120161
Contribution to the ontogenic study of foliar secretory pockets. New **investigations** on *Myrtaceae.* 120564

MYTHIMNA
Use of microradiographic technics, instead of dissection for study of the mating status of female armyworm moths, *Mythimna* **unipuncta,** captured in light traps (Lepidoptere Noctuidae) capturees aux pieges lumineux. 124145

MYXOMATOSIS
In vitro sensitivity of *myxomatosis* **virus** to 6-azauridine. 118617

MYXOMYCETES
Reticularia Baumgarten (lichens) versus Reticularia **Bulliard** *(Myxomycetes)* [Fungi]. 120289
Slime-moulds *[Myxomycetes]* of **Delhi.** 120275
Notes on a collection of slime moulds *[Myxomycetes,* **Fungi]** from Nainital [India]. 120271
Myxomycetes **[Fungi,** spore formation, germination]. 121121
Resistant structures in the *Myxomycetes* **[Fungi].** 121125
Taxonomic studies on **Indian** *Myxomycetes.* VII. The genus Licea [Fungi, new taxa]. 120149
The plasmodium of a slime fungus: culture and biology of the noncellular plasmodium of Physarum **polycephalum** *[Myxomycetes].* 121278
Myxomycetes **(slime** molds) [on trees]. 122682

MYZUS
Development of Anthocoris sibiricus Reuter (Heteroptera, Anthocoridae) at constant and fluctuating temperatures with the green peach **aphid** *Myzus* persicae (Sulzer) as prey. 123427
Ascorbic acid and other chelating agents in the trace-mineral nutrition of the **aphid** *Myzus* persicae on artificial diets. 123884
Fecundity and oviposition period of Aphidius platensis Brethes (Hymenoptera, Aphidiidae) **parasitizing** *Myzus* persicae Sulz. (Homoptera, Aphididae) on paprika [Biological control]. 123255
Laboratory transmission of Sharka [virus] from peach tree to peach tree by *Myzus* **persicae** Sulzer. 122868
Contribution to the study of new means of controlling the dominant insect pests in sugarbeet cultures *[Myzus* **persicae].** 123350

NADP
Isolation and purification of **"malic-enzyme"** *NADP* from corn leaves. 121427

NAJADACEAE
The distribution of *Najadaceae,* **Potamogetonaceae,** Ruppiaceae, Zannichelliaceae, and Zosteraceae within Denmark [Aquatic plants]. 119977

NAPHTHALENEACETIC
Comparison of cytogenetic effects of IAA [indoleacetic acid], NAA *[naphthaleneacetic* **acid]** & 2,4-D [2,4-dichlorophenoxyacetic acid] in callus cultures of Haplopappus gracilis (Nutt.) Gray. 120759
Mechanism of the thinning action of NAA *[naphthaleneacetic* **acid]** in Japanese persimmon (kaki) fruits. II. Effects of NAA applied at various stages of fruit growth on the induction of fruit drop and the activity of endogenous growth substances and some enzymes in fruit tissues. 122404

NAPHTHYLAMINE
Mechanism of *2-naphthylamine* **oxidation** catalysed by pig liver microsomes. 117955

NAPHTOQUINONES
Spectrophotometric study of *naphtoquinone* **derivatives** (vitamin K). 116465

NAPIERGRASS
Sorghum and *napiergrass* **silage** as winter feed for pregnant beef cows. 118022
Sorghum silage and *napiergrass* **silage** for beef cattle feeding in the dry season. 118023

NARCISSUS
Estimates of population size and longevity of **adult** *narcissus* bulb fly Merodon equestris Fab. (Diptera: Syrphidae). 123410
Finding Aphelenchoides blastophthorus in imported plants [Convallaria majalis, *Narcissus,* **nematodes].** 123042
Narcissi **smoulder.** Is there a link with scale mites? 123402

NASAL
Repair of an **acquired** *oral-nasal* fistula in a dog [Surgery]. 119119
Lack of effect of lysozymes on **[bovine** *nasal]* cartilage proteoglycans. 117570
Tritichomonas suis: isolation, morphology and incidence in the *nasal* **cavity** of domestic swine from Rio Grande do Sul. 118914

NASONIA
Interference among females of *Nasonia* **vitripennis** (Hymenoptera: Pteromalidae) and its effect on sex ratio of their progeny. 123858

NASTURTIUM
Watercress: **Rorippa** *nasturtium-aquaticum* (Cruciferae). 122383

NAUPHOETA
The effects of castration upon the fat body cycle by the female **cockroach** *Nauphoeta* cinerea. 124083

NAVAL
White-tailed deer of U.S. *Naval* **Ammunition** Depot Crane. 119408

NAVICULA
A description of glucose uptake in *Navicula* **pelliculosa** (Breb) Hilse [Algae] including a brief comparison with an associated Flavobacterium sp. 120904

NECK
Functional, anatomical and radiographic studies of the **dorsal** *head-neck* set in the dog and their effects on the problems associated with the erect position of the head in hominids. 117553
A line of *ring-necked* **pheasant** cells susceptible to infection by avian oncornaviruses. 119037

NECROBACILLOSIS
Organization of prophylactic and treatment measures to **control** *necrobacillosis* [Spherophorus necrophorus] of reindeer in the madadan Region. 118723
Prophylaxis and treatment of *necrobacillosis* of **reindeer** [Spherophorus necrophorus]. 118724

NECROBIA
Twilight pests in imported feed raw material. The copra **beetle** *(Necrobia* rufipes Degeer), the sap beetle (Carpophilus spp.) and the Siamese flat beetle (Lophocateres pusillusKlug). 123582

NECROPHORUS *see* NICROPHORUS

NECROSIS
Study of the **cellular** *necrosis* and wing morphogenesis in some Lepidoptera. 123854
Case histories of **cerebrocortical** *necrosis* in a beef cattle farm. 119155
Cerebrocortical *necrosis* in a cattle feedlot. 119190
Effect of sera containing hepatitis B (HB-ag) antigen upon Nicotiana sylvestris **[Tobacco,** *necrosis].* 122828

NECTAR
Effect of flower age on sucrose content in *nectar* of **citrus.** 121666
Panorpatae (Rhingia) as effective pollinators of highly **develop** *nectar* containing flowers (Diptera, Syrphidae). 123899
The *nectar-secreting* **hedge** [Symphoricarpos, honey plants]. 122521

NECTARINES
Cold acclimation of Florida peach and *nectarine* **cultivars.** 121661

NECTRIA
Mode of parasitism of Alternaria brassicae [the causal fungus of blackspot of rapeseed] by *Nectria* **inventa** [Mycoparasitism]. 122732
Three new [fungus] storage diseases of ginger (Zingiber officinale (L) Rosc) *[Nectria* **inventa,** Trichurus spiralis, Memnoniella echinata]. 122782

NEEDLE
Vegetative propagation of Pinus strobus by *needle* **fascicles.** 119568
Studies on upper timberline: morphology and anatomy of Norway spruce (Picea abies) and stone pine (Pinus cembra) *needles* from various **habitat** conditions. 120443
Needle—not the **knife!** [Induction of parturition in cattle]. 118251

NEEDLECAST
Seasonal development and control of Lophodermium pinastri in Pennsylvania [Pinus **sylvestris,** *needlecast].* 122761

NEISSERIACEAE
A comparison of horse, cow, and sheep blood in NYC medium: effect on recovery of *Neisseria* **gonorrhoeae** and urogenital mycoplasmas. 117702

NEMAGON
Testing *nemagon* in the control of nematodes—vectors of virus diseases [of perennial crops]. 123008

NEMATINAE
Nematinae of **Finland.** IV. (Hymenoptera, Tenthredinidae) The genus Pristiphora Latreille. 124386

NEMATOCERA
Patterns of DNA synthesis in polytenic chromosomes of hybrid Anopheles atroparvus X Anopheles labranchiae **(Diptera:** *Nematocera).* 124146

NEMATOCIDE
Response of soybean cultivars grown in root-knot nematode [meloidogyne incognita] inected soil treated with **Fumazone** 86 and other *nematicides.* 122925
Effects of **nonfumigant** *nematicides* on root populations and manganese and zinc levels in rough lemon seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016
Response of plants [of vegetable and melon crops] to a combined action of *nematocides* and **ultra-violet** irradiation in the conditions of protected cultivation. 123006

NEMATODE
An evaluation of the peptic digestion technique (Herlich 1956) for the postmortem recovery of **abomasal** *nematodes* from sheep. 118849
Identification of seed-like structures [formed by six fungus genera, **Anguina** *nematode* galls and solanaceous sclerotic granules]. 122762
White tip disease of rice *[Nematodes,* **Apheleuchoides** oryzae, Apheleuchoides besseyi]. 122987
Study of the predatory ability of some nematode trapping fungi against the *nematode* **Caenorhabditis** elegans (Maupas 1900) Dougherty 1953 [Biological control of crop pests]. 123035
Synthesis of RNA and protein, with ribonuclease activity, in carrot roots infested with Meloidogyne hapla **Chitw.** *[Nematodes].* 123014

Effects of nonfumigant nematicides on root populations and manganese and zinc levels in rough lemon seedlings infected with the **citrus** *nematode,* Tylenchulus semipenetrans. 123016
The effect of the cereal **cyst** *nematode* [Heterodera avenae] on absorption and translocation of nutrients by the roots of oat plants. 122894
Potato **cyst** *nematode*—danger of infection with use of uninspected seed potatoes. 122985
On the classification of pathotypes of the potato **cyst** *nematodes* Heterodera rostochiensis and Heterodera pallida present in the Federal Republic of Germany. 122997
Stem eelworm on arable crops [Ditylenchus **dipsaci,** *nematodes].* 122881
Degerneration and qualification of material for propagating strawberries [Resistance to fungus, virus and *nematode* **diseases].** 122929
Studies on the behaviour of Bombus Latr. Species (Hymenoptera, Apidae) parasitized by Sphaerularia bombi **Dufour** *(nematoda)* in an alpine area. 124549
State of knowledge of tomato, pepper, and **eggplant** *nematode* fauna in the Soviet Union. 123007
Ditylenchus [dipsaci] infestation and the *nematode* **fauna** of garlic in Moldavia. 123002
Nematodes of the **Filariata** suborder in animals and man and diseases caused by them. Part 3: Filariidae, Onchocercinae. 118872
Scanning electron microscopy of syncytial transfer cells induced in [soybean, tobacco] roots by *cyst-nematodes* [**Heterodera** glycines, Heterodera tabacum]. 122716
Study of the interspecific [hybrid] potato resistant to *nematodes* [**Heterodera** rostochiensis] in the Latvian SSR. 122947
Integration of measures for the control of cereal pests [**Insects** and *nematodes].* 122943
Bibliography of *nematode* **interactions** with other organisms in plant disease complexes [Vectors]. 123039
Revisions in **Leptonchoidea** *(Nematoda:* Dorylaimida). Tylencholaimellus, Doryllium, Gerthus n. gen. and Agmodorus in Tylencholaimellidae; and Aulolaimoides and Adenolaimus in Aulolaimoididae. [Soil nematodes, indicator species in environmental impact studies]. 124891
Galls—biology and morphology. V. Galls produced by **mites** and *nematodes.* 123249
Finding Aphelenchoides blastophthorus in imported plants [Convallaria majalis, **Narcissus,** *nematodes].* 123042
The relationship between plant **parasitic** *nematodes* and cotton wilt disease and their control methods [Verticillium dahliae, Fusarium]. 122914
Seasonal population fluctuations of **parasitic** *nematodes* in the rhizosphere of grape-vines. 123048
Effects of *nematodes* on the **physiology** of vegetable crops. V. Influence of farmyard manure application on the root-knot nematode [Meloidogyne incognita] injury in some vegetable-crops. 122979
Physiology of nutrition of sedentary endoparasitic **plant** *nematodes.* 123005
About soil fatigue under field crops [Accumulation of certain substances and **plant** *nematodes* as a result of monoculture]. 124804
Relationships between [plant-parasitic] *nematode* **population** densities and crop responses. 122904
The effect of formalin on **potato** *cyst-nematode,* Heterodera rostochiensis. 122890
Decision making—to spray or not to spray [Economics of pest control, *nematodes,* **potatoes].** 122959
Effect of the *nematode* **Pratylenchus** brachyurus on the growth, nutrition and yields of "Smooth Cayenne" pineapple. Influence of fertilizer placement. 122928
A study on the peach rootstock (Nemaguard) resistance against **root-knot** *nematodes* Meloidogyne incognita and Meloidogyne javanica) in Aegean region. 122912
A survey study on **root-knot** *nematodes* (Meloidogyne spp.) in vegetable growing greenhouses in South Anatolia region. 122913
Response of soybean cultivars grown in **root-knot** *nematode* [meloidogyne incognita] inected soil treated with Fumazone 86 and other nematicides. 122925
Studies on the chemical changes induced by the infection of the **rootknot** *nematode* (Meloidogyne incognita) in tomato & eggplant & the stunt nematode (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
Effects of nematodes on the physiology of vegetable crops. V. Influence of farmyard manure application on the **root-knot** *nematode* [Meloidogyne incognita] injury in some vegetable-crops. 122979
Characteristic of water-soluble fraction of proteins from organs of plants infested by **root-knot** *nematodes* [Vegetable and melon crops]. 123001
Infestation of melon seedlings by the larvae of the **root-knot** *nematode,* Meloidogyne incognita. 123004
Proper procedures for soil, leaf and *nematode* **sampling.** 122920
Practical guide for routine work with plant and **soil** *nematodes.* 122988
Revisions in Leptonchoidea (Nematoda: Dorylaimida). Tylencholaimellus, Doryllium, Gerthus n. gen. and Agmodorus in Tylencholaimellidae; and Aulolaimoides and Adenolaimus in Aulolaimoididae. **[Soil** *nematodes,* indicator species in environmental impact studies]. 124891
Incidence of Spirocerca lupi, Rudolphi 1809, *(Nematoda:* **spiruridae)** in the Shiraz area of Iran [Dogs]. 118754
Incidence of Agriostomum vryburgi Railliet, 1902, in cattle in Rio de Janeiro **State** *(Nematoda,* Ancylostomidae). 118897
Enzymatic activity of protein fractions excreted by potato **stem** *nematode* [Ditylenchus destructor]. 123003
Survival of infectious larvae of horse **strongylid** *nematodes* in pasture grass; a preliminary field study. 118956
Studies on the chemical changes induced by the infection of the rootknot nematode (Meloidogyne incognita) in tomato & eggplant & the **stunt** *nematode* (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
Study of the predatory ability of some *nematode* **trapping** fungi against the nematode Caenorhabditis elegans (Maupas 1900) Dougherty 1953 [Biological control of crop pests]. 123035
Testing nemagon in the control of *nematodes*—**vectors** of virus diseases [of perennial crops]. 123008

NEMATODIRUS

Nematodirus **disease** in lambs. 118587
The efficacy of fenbendazol against *Nematodirus* **helvetianus** in cattle. 118662

NEONATAL *see* BIRTH

NEOPLASM

Experiment on the isolation of tumor viruses from cell cultures of **human** *neoplasms* by inoculation into chicks. 118677
Fine structural and biochemical investigations of pheochromocytomas in bulls with C-cell (ultimobranchial) *neoplasms* of the **thyroid** (UBT). 119187

NEOTROPICAL *see* TROPICAL

NEPETA

Components of Labiadae. XXV. Diterpenes of *Nepeta* **granatensis** Boiss; chromic oxidation of the allyl alcohls 7 alpha, 18-dihydroxy-14-abietene and 14 alpha, 18-dihydroxy-7-abietene. 120871

NEPHILA

African stations of spiders of the **genera** *Nephila* Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of Natural History [New taxa]. 124251
Two new species of *Nephila* **[schweinfurthi,** Nephila turneri] (Araneae, Argiopidae) from the Ethiopian region. 124265

NEPHRITIS

Corynebacterium pseudotuberculosis as a cause of subacute **interstitial** *nephritis* in a chimpanzee. 119050

NEPHROTOMA

Birefringence and ulrastructure of isolated, stabilized spindles [of the crane fly, *Nephrotoma* **suturalis].** 124124

NEPIDAE

Notes on North **American** *Nepidae* (Hemiptera: Heteroptera [Ranatra montezuma, new taxa]. 124402

NEPTICULIDAE

Results of the studies of some Nepticulidae types from the collection of the National Museum of Natural History, Paris (Lepidoptera, *Nepticulidae)* **[New** taxa]. 124259

NERVES

An approach to the study of *neural* **activity** during behaviour in insects [Periplaneta americana]. 124041
The work scene: a network of *nerves,* **brains** - and values. 116613
Ultrastructure of the *neural* **canal** closure in the chicken embryo. 117520
Galactosyltransferase activities during embryonic development of **chick** *neural* tissue. 117593
The isolation of **cholinergic** *nerve* terminals from fleshfly heads [Sarcophaga barbata]. 123990
Neural-tube **defects** caused by 5-bromodeoxyuridine in chicks. 119193
The role of *nerves* in the **developing** vertebrate limb: a teratogenic plea for re-evaluation [Includes chicks and ducks]. 117694
The protein composition of glial and *nerve* **fibers** [Bovine brains]. 117681
Neural and **hormonal** determinants of sex differences in food intake and body weight [Rats]. 116365
Regeneration of afferent and efferent fibres to muscle spindles after *nerve* **injury** in adult cats. 117830
Neural **mechanisms** of hungar: current status and future prospects. 116366
Peroneal *nerve* paralysis in the cat and dog: an experimental study [Surgery]. 118484
Action of different toxins from the scorpion Androctonus australis on a locust [Locusta migratoria] *nerve-muscle* **preparation.** 124040
The *neural* **superposition** eye and its optical demands [Drosophila]. 124033

NERVOUS

Physiological studies on the effects of nutritional imbalance on the **central** *nervous* system: effects of thiamine deficiency on the regional protein metabolism in the brain of chicken, Gallus domesticus. 117642
Resolution of intraneuronal and transynaptic migration of cobalt in the insect visual and **central** *nervous* systems [Calliphora erythrocephala, Calliphora vomitoria, Musca domestica. 124030
Relation between the specificity of the adaptive response of cattle to low environmental temperature and the typological features of **higher** *nervous* activity. 117724
Relation of heat tolerance of cattle with typologic features of the **higher** *nervous* activity. 117727
Nervous **signs** in bovine coccidiosis. 118824

NEST

Coleoptera in *nest* of **birds** of prey. 124111
A climate room for precise regulation of temperature and humidity in connection with a **temperature-regulated** *nest* site for wood ants [Formica polyctena]. 124119

NETWORK

Advances in the planning and operation of irrigation **canal** *networks.* 125360
Flow of information in the *network* of **institutions** concerned with the inspection and chemical analysis of food. 116086
The work scene: a *network* of **nerves,** brains - and values. 116613
Practitioner *network* aids companion animal research [Morris Animal Foundation]. 118563
Forecasts of water expenditure [during floods] on the basis of recording runnoff distribution and its lag in the **river** *network* (1971-1972). 125227
CBers band together on flood **warning** *network* [Citizens Band radio]. 125350

NEUROENDOCRINE

Neuroendocrine **control** of moulting cycle in mealworms [Tenebrio molitor]: histology and autoradiography of cephalic components. 123580
Morphology of the *neuroendocrine* **systems** of two larval blackflies, Prosimulium mixtum/fuscum and Simulium venustum. 123860
Cytophysiological approach of **two** *neuroendocrine* interfaces of the hypothalamus: the median eminence and vascular organ of the terminal lamina. Radioautographic study of the duck. 117567

NEUROHYPOPHYSIAL

Calcium and stimulus secretion coupling in the [ox] *neurohypophysis.* V. The **effects** of the Ca2+ ionophores A23187 and X537A on vasopressin release and 45Ca2+ efflux; interactions with sodium and a verapamil analogue (D600). 117525

NEUROMUSCULAR

Techniques for differential diagnosis of *neuromuscular* **diseases** [Dogs]. 119075
Vitamin B2 status in athletes and the influence of riboflavin administration on *neuromuscular* **irritability.** 116499

NEURONS

Neuronal **mechanisms** subserving directional selectivity in the locust optomotor system [Chortoicetes terminifera, Locusta migratoria]. 124028
"Mutant" *neuron:* Electrophysiological analysis [Genetic prerequisites of a systemic organization of the brain, experiments on Drosophila melanogaster]. 123880
Reactions of the red **nucleus** *neurones* in awake cat to cutaneous stimulation. 117523
Discharge pattern of medullary **respiratory** *neurones* during thermal polypnea [Cats]. 117833
Significance of glucose, insulin, and free fatty acid on the hypothalamic feeding and **satiety** *neurons.* 116375
Differentiation of insect **sensory** *neurons* in the absence of their normal synaptic targets [Manduca sexta]. 123875
Projection of **sensory** *neurons* from a homeotic mutant appendage, Antennapedia, in Drosophila melanogaster. 123878

NEUROPTERA

Neuroptera from the **island** of Anholt, with notes on three species new to the Danish fauna. 124306
Neuroptera in **light-traps** at Osteroy, Hordaland [Insect distribution]. 124371
Hemerobius fenestratus Tjeder, 1932 *(Neuroptera,* **Planipennia)** new to Norway. 124369
Sympherobius pygmaeus (Rambur, 1842) *(Neuroptera,* **Planipennia)** new to Norway. 124381

NEUROSECRETION

Neurosecretory **activity** in locusts. 123778
Neurosecretory **activity** as related to feeding, mating, and oogenesis in the female cave tick, Ornithodoros tholozani. 124048
The composition of the **medial** *neurosecretory* cells of the pars intercerebralis in Calliphora and Lucilia adults. 124181

NEUROSPORAS

Differences and similarities in chromatin structure of *Neurospora* **crassa** [Fungi] and higher eucaryotes. 120448
Ultrastructure and morphology of the *Neurospora* **crassa** [Fungi] cell wall mutants, slime and slime X using TEM and SEM. 120559

Regulation of genetic recombination in *Neurospora* **crassa** [Fungi]. 120755
A reduced pyridine nucleotides-diaphorase activity associated to the assimilatory nitrite reductase complex from *Neurospora* **crassa** [Fungi]. 120905
Isolation of specific protease inhibitors from *Neurospora* **crassa** [Fungi]. 120977
Inhibition of *Neurospora* **crassa** [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Fine cytochemical detection of acid mucopolysaccharides in growing hyphae of *Neurospora* **crassa** [Fungi]. 121077
Depression of uracil uptake by ammonium in *Neurospora* **crassa** [Fungi]. 121160
Permeability measurements on mitochondria from wild-type and poky strains of *Neurospora* **crassa** [Fungi]. 121162
Neurospora **crassa** [Fungi] glutamine synthetase. Purification by affinity chromatography and characterization of subunit structure. 121166
Metabolic control of microconidiogenesis in the wild strain of *Neurospora* **crassa.** 121311
Strains of *Neurospora* **[Fungi]** collected from nature. 120010
The synaptonemal complex in the course of meiotic chromosome pairing and recombination *[Neurospora* **rassa,** maize, barley]. 120756

NEUROTOXIC

Neurotoxic **effects** of pyridoxine and analogs in rats. 119278

NEUROTOXIN

Isolation of a *neurotoxin* with a **presynaptic** action from the venom of the black widow spider (Latrodectus mactans, Fabr.). 124165

NEUTRALIZATION

Antibody class and complement requirement of *neutralizing* **antibodies** in the primary and secondary antibody response of cattle to infectious bovine rhinotracheitis virus vaccine. 118618
Occluded and nonoccluded nuclear polyhedrosis virus grown in Trichoplusia ni: **comparative** *neutralization,* comparative infectiviry, and in vitro growth studies. 124071
The gradient of phytochrome and inhibitor distribution in stems of plants of **photoperiodically** *neutral* species. 121038
Realized and **potential** *neutralization* of mutant genes in man by nutritional selection. 116327
Studies in swelling of cotton. I. *Neutral* **salt** technique to determine the true swelling parameters in cadoxen. 117130
Neutral **sugar,** uronic acid, cellulose, and protein content of cell walls isolated from gametophytes of the liverworts Lophocolea heterophylla and Conocephalum conicum. 121187
Neutralization of a **transmissible** gastroenteritis virus of swine by colostral antibodies elicited by intestine and cell culture-propagated virus. 118604

NEUTRON

International protein detente *[Neutron* **activation** analysis systems, plant materials]. 116695
A method of predicting the calibration curve for a *neutron* **moisture** meter [Soils]. 124752

NEUTROPHIL

Comparative characteristics of "ultrasonic" chromatin fractions from **leukocytes** *(neutrophils)* and rabbit brain. 117606
Neutrophil **leukocytes** and inflammation of the bovine mammary gland. 118963

NEWBORN *see* **BIRTH**

NEWCASTLE

Postnatal developement and serological specificity of natural NDV-0 *[Newcastle* **disease** virus] agglutinins in laboratory animals. 118615
Effect of infectious bursal agent on the response of chickens to *Newcastle* **disease** and Marek's disease vaccination. 118627
Is *Newcastle* **disease** a big problem? [Brazil]. 118644
Isolation of a transcriptive complex from *Newcastle* **disease** virions [Chick embryos]. 118805
Thymidine metabolism and DNA synthesis in *Newcastle* **disease** virus-infected cells. 118810
Newcastle **disease** virus mRNA lacks 2'-O-methylated nucleotides. 118853
On some problems concerning the production of a vaccine against *Newcastle* **disease** with the use of La Sota strain. 118988
The immune response of birds from immune layers, vaccinated on the first and fourth day against *Newcastle* **disease.** 119001
Exotic *Newcastle* disease; a new form of a familiar poultry [viral] disease. 118873

NEZARA

Modeling and optimal control of insect pest populations *[Nezara* **viridula** (Linnaeus), a major pest of soybeans]. 123322

NIACIN

Studies on *niacin* **biosynthesis** from 3-hydroxyanthranilic acid in streptozotocin diabetic rats in vivo and vitro. 116461

NICKEL

Some effects of copper, cobalt, cadmium, zinc, *nickel,* and **chromium** on growth and mineral element concentration in Chrysanthemum [morifolium]. 121716
On the nature of *nickel* **compounds** in Alyssum bertolonii Desv.-II. 120859
Measurement of **exchangeable** *nickel* in the rat. 116506
Effects of chromium, manganese, *nickel,* **lead,** copper and zinc on the nitrification process of soil. 124751
Malate dehydrogenase and glucose-6-phosphate dehydrogenase activitiy in livers of *Ni[nickel]-deficient* **rats.** 118019
Determination of copper, iron, *nickel,* and **sulphur** by X-ray fluorescence in lichens from the Mackenzie Valley, Northwest Territories, and the Sudbury District, Ontario. 120979
What this country needs is a good *nickel* **transparency.** 116618

NICOTIANA

Effect of bud-pollination and delayed self-pollination on the induction of a possible rejection peroxidase in styles of *Nicotiana* **alata.** 121582
Biosynthetic studies with 13CO2 [carbon dioxide isotope] of secondary plant metabolites. *Nicotiana* **alkaloids.** 1. Initial experiments [Tobacco]. 121516
The influence of organophosphorus insecticides on the developemnt of local lesions of the tobacco mosaic virus in *Nicotiana* **glutinosa** L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Induction of local & systemic resistance in *Nicotiana* **glutinosa** against tobacco mosaic virus by leaf extract of dahlia. 122842
High temperature inactivation of cucumber and alfalfa mosaic viruses in *Nicotiana* **rustica** cultures [Tobacco]. 122814
Effect of sera containing hepatitis B (HB-ag) antigen upon *Nicotiana* **sylvestris** [Tobacco, necrosis]. 122828
Electrogenic pumps in cells of the suspension culture of *Nicotiana* **tabacum** [Tobacco]. 121446
Tobacco: *Nicotiana* **tabacum** (Solanaceae). 121967
The influence of organophosphorus insecticides on the developemnt of local lesions of the tobacco mosaic virus in Nicotiana glutinosa L. and on virus multiplication in *Nicotiana* **tabacum** L. "Samsun". 122822
Ultrastructural changes in tobacco mosaic virus-induced local lesions in *Nicotiana* **tabacum** L. cv. "Samsun NN". 122857
Nicotiana **velutina** [tobacco] mosaic virus: purification, properties and affinities with other rod-shaped viruses. 122815

NICOTINAMIDE

Formation of nicotinamide ribose diphosphate ribose, a new metabolite of the NAD *[nicotinamide* **adensine** denuclotide] pathway, by growing mycelium of Aspergillus niger [Fungi]. 120857
8-azidoadenine analogs of NAD+ *[nicotinamide* **8-azidoadenine** dinucleotide] and FAD [flavin 8-azidoadenine dinucleotide]. Synthesis and coenzyme properties with NAD+-dependent and FAD-dependent enzymes [Livestock extracts, Penicillium nitatum, Fungi]. 117669
Multiple molecular forms of *nicotinamide-adenine-dinucleotide-specific* **glutamate-dehyrogenase** in lines and hybrids of maize [Zea mays L.). 121448
Formation of *nicotinamide* **ribose** diphosphate ribose, a new metabolite of the NAD [nicotinamide adensine denuclotide] pathway, by growing mycelium of Aspergillus niger [Fungi]. 120857

NICOTINE

Ammonium tolerance of tobacco cultivars with different *nicotine* **contents** [Toxicity]. 122938
The role of *nicotine* in **plant** protection [Control of aphids, thrips and whiteflies. 123227

NICROPHORUS

Organization of prophylactic and treatment measures to control necrobacillosis **[Spherophorus** *necrophorus]* of reindeer in the madadan Region. 118723
Prophylaxis and treatment of necrobacillosis of reindeer **[Spherophorus** *necrophorus].* 118724

NIGHT

Heat radiation phenomena from a glasshouse crop canopy at *night.* IV. **Determination** of the curtain factor by a simple method [Fuel reduction]. 124596
A *nocturnal* **hunt** in Beauvaisis [Lepidoptera]. 124202
Influence of *night* **temperature** and daylength on fruit shape of grapefruit [Sheepnosing]. 122967

NIPPOSTRONGYLUS

Levels of prostaglandins in the small intestine of rats during primary and secondary infection with *Nippostrongylus* **brasiliensis.** 118768

NISIN

Effect of *nisin* [an **antibiotic,** produced by certain strains of Streptococcus lactis] on the germination and proliferation of spores of some aerobic spore-formers in nutrient medium [Food processing]. 116844
Effect of *nisin* [**antibiotic** produced by Streptococcus lactis] in the presence of L-alanine on the germination and outgrowth of Bacillus sublitis spores [used in the food and dairy industry]. 116845
Effect of *nisin* [an **antibiotic** produced by certain strains of the common dairy organisms Streptococcus lactis] on heat resistance and gas production of some spore-formers. 116927
Effect of *nisin* [**antibiotic** produced by Streptococcus lactis] on reducing the thermal process in commercially sterilized milk. 116929
Effect of *nisin* [a **polypeptide** antibiotic] on prolonging the keeping quality of pasteurized milk. 116928

NITELLA

Reconstruction of a single calcium-sodium cell canal in a lipid bilayer [Algae, *Nitella* **flexilis,** Nitellopsis obtusa. 121036

NITIDULIDAE

Occurrence of Carpophilus dimidiatus F. (Coleoptera: *Nitidulidae)* in **bulk** stored wheat in Punjab. 123511

NITRAGIN

Experience of application of *nitragin* in **peas** on common Chernozems at the south-eastern part of the Central Chernozem Belt. 125078

NITRATES

The variability of soil aeration measurements. II. Field measurements of N2O [nitrous oxide] concentrations, redox potentials, oxygen diffusion rates, and oxygen partial pressures as **affected** by NO3- *[nitrate]-fertilization.* 124880
Effects of *nitrate* and **ammonium** enrichment on growth and nitrogen physiology in Fucus spiralis [Algae]. 121234
Winter leaching of *nitrate* from **autumn-applied** calcium nitrate, ammonium sulphate, urea and sulphur-coated urea in bare soil. 124834
Effect of manure and peat on the balance and transformation of **calcium** *nitrate* in soil. 124933
Nitrates in **cattle** feeding [Toxicity]. 119235
Nitrate **concentrations** below root zones as related to soil profile characteristics. 124869
Sampling the unsaturated zone of irrigated lands for reliable estimates of *nitrate* **concentrations** [Soil variability]. 124876
Nitrate in **effluents** from irrigated lands—annual report [Leaching, nitrogen, soil]. 124870
Leaching of *nitrate* **fertilizer** after big spring rains. 125025
Can the manufacture of cheese **forgo** *nitrate?* 116860
Simultaneous assimilation of ammonium and *nitrate* by **Gelidium** nudifrons [Algae] (Gelidiales: Rhodophyta). 121216
Electrometric methods of determining the activity of ions in soils. 9. Electrodes and the conditions of determining the activity of *nitrate* **ions** in soils. 124756
Nitrate **loss** in a ponded Hanford sandy loam: enhancement by plant roots [Barley]. 124871
Nitrate-nitrogen **movement** through soil as affected by soil profile characteristics [Eutrophication, denitrification]. 124874
Yields of forages, leaching of *nitrate* and **nitrogen** balances in an irrigated field treated with dry and liquid manures. 124881
Autotrophic production in Carnation Creek, a coastal rainforest stream on Vancouver Island, British Columbia [Algae, *nitrate* and **phosphate** concentrations]. 120376
Time of thiourea-KNO3 **[potassium** *nitrate]* application on the rest requirement and bud development in 'Loring' peach. 121682
Electrophoretic comparison, by cellulose acetate and *nitrate,* of **protidic** fractions on healthy dairy cattle and buffalo serums. 117913
Significance of *nitrate* **reductase** activity in developing cotton seeds. 121443
Nitrate **reductase** inactivating factor from rice cells in suspension culture. 121535
Nitrate **reduction** and nitrite utilization by nitrifiers in an unsaturated Hanford sandy loam. 124872
Observations on the presence of nitrites and *nitrates* in **smoked** fish products. 116040
The relative movement of water and *nitrate* through **soil** and chalk. 124773
Short **term** *nitrate* losses and associated microbial populations in soil columns. 124877
Nitrate-nitrogen in **tile** drainage effluents [Denitrification, water pollution]. 124873

NITRIC

Nitric **oxide** production in rice soils. 124769
Evaluation of *nitric* **phosphates** differing in water solubility of their phosphorus fraction [Fertilizers, wheat, berseem]. 125017

NITRITES

A reduced pyridine nucleotides-diaphorase activity associated to the **assimilatory** *nitrite* reductase complex from Neurospora crassa [Fungi]. 120905
A simple method of checking the *nitrite* **content** of nitrite curing salt [Meat]. 116969
Action of *nitrite* on **fluorescence** induction in algae [Bumilleriopsis filiformis, Scenedesmus acutus]. 121329
Investigations into the action of skim milk powder and hydrolysed milk protein with a view to lowering the level of *nitrite* added to **heat-sterilised** meat products. 116980
Observations on the presence of *nitrites* and **nitrates** in smoked fish products. 116040
Nitrate reduction and *nitrite* **utilization** by nitrifiers in an unsaturated Hanford sandy loam. 124872

NITROBACTER

Comments on an autoecological study of **microorganisms** *[Nitrobacter].* 124865

NITROGEN

Nitrogen **additives** to corn silage fed to growing calves. 118031
Simplified long-term concept for evaluating leaching of *nitrogen* from **agricultural** land [Fertilizer efficiency, groundwater pollution]. 124878
Nitrogen mineralization and *nitrification* in **amended** colliery spoils. 125495
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VI. Influence of a thermal factor on the soil **ammonium** *nitrogen* and the absorption of nitrogen by rice plant. 125051
Rates, methods and time of *nitrogen* **application** [Wheats]. 125011
Studies of field populations of Rhizovbium [trifolii]: relationships between strain effectiveness, soil nitrogen levels, and response to **applied** *nitrogen* in subterranean clover pastures in northeastern Victoria. 124803
Cytoplasmic changes during and after infection of soybean root nodule cells with rhizobia *[Nitrogen-fixing* **bacteria,** Rhizobium japonicum]. 121530
Quality of protein in milk replacers for young calves. II. Effects of heat treatment of skim milk powder and fat levels on calf growth, feed intake and *nitrogen* **balance.** 118036
Yields of forages, leaching of nitrate and *nitrogen* **balances** in an irrigated field treated with dry and liquid manures. 124881
Barban *nitrogen* combinations for wild oat control in wheat. 123115
Uptake of *nitrogen* by **barley** plants and the transformation of nitrogenous fertilizers on regraded Chernozem. 124949
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VIII. Compartive studies of the behavior of **basal** *nitrogen* and the absorption of nitrogen by rice plant in different paddy soils. 125052
Determination of *nitrogen* in **biological** materials by the method of biamperometric titration [Milk, meat, plants]. 116825
Biological *nitrogen* fixation. 124858
Effect of photoperiod and *nitrogen* on the **composition** of foliar monoterpenes of Juniperus horizontalis Moench. cv. Plumosa. 121700
Phenolic, sulfur, and *nitrogen* **compounds** in food flavors; a symposium sponsored by the Division of Agricultural and Food Chemistry at the 170th meeting of the American Chemical Society, Chicago, Ill., August 25-26, 1975. 116635
Mycological production of citric acid. III. Effect of the different *nitrogen* **compounds** [Aspergillus niger, Fungi]. 121360
Studies on the effect of Gesatop 50 [simazine] on some apple clones. II. The content of *nitrogen* **compounds** in leaves of apple clones A2, MM104, MM106 and MM111. 123194
Relation between peach flower bud drop and carbohydrate and *nitrogen* **concentration.** 121592
A steady-state **conceptual** *nitrogen* model for estimating nitrogen emissions from cropped lands [Leaching losses, fertilizer, corn]. 124862
Cereal preservation in *nitrogen* **[Controlled** atmosphere]. 117188
The effect of plant population and *nitrogen* on **corn** yield in a well-watered field. 122136
Decompression-induced decrease in *nitrogen* **elimination** rate in awake dogs. 117773
A steady-state conceptual nitrogen model for **estimating** *nitrogen* emissions from cropped lands [Leaching losses, fertilizer, corn]. 124862
Studies on the developmental physiology in rice pollen. XXX. Effects of **excessive** *nitrogen* top-dressed at meiotic stage on the amino acid metabolism and the development of pollens. 121549
Digestibility and nutritive value of pangola grass (Digitaria decumbens Stent) in relation to *nitrogen* **fertilization** and harvesting time [Lambs fattening]. 118044
Influence of seedling methods and *nitrogen* **fertilization** on yield and botanical composition of a white clover-tall fescue mixture in mountain. 122123
Potential response of guinea (Panicum maximum Jacq.) and pangola (Digitaria decumbens Stent) to *nitrogen* **fertilization.** 124974
Some agrochemical methods for controlling N *[nitrogen]* **fertilization** in pangola grass (Digitaria decumbens Stent). 1. preliminary study. 124975
Performance trials and *nitrogen* **fertilization** responses of wheat on the Texas Gulf Coast Prairie. 125061
Content of some trace elements and nitrogen at particular growth stages of winter wheat against the background of *nitrogen* **fertilization.** 125067
A lysimeter study of the fate of **fertilizer** *nitrogen* on grassland. 124953
What happens to that *nitrogen* [from **fertilizer,** crop residues, or manure] you put in your field? 124966
Inoculum [Rhizobium bacteria]: a substitute for *nitrogen* **fertilizer.** 124982
Effects of **fertilizer** *nitrogen* and number of years in tillage on the protein content of feeding barley straw (cv. [Cultivar] Nessa) and on N uptake and recovery. 125016
Effect of **fertilizer** *nitrogen* applied to the paddy field and its absorption by rice plant. VII. Relationships between the absorption of nitogen by the rice plants and its growth. 125050
Effects of **fertilizer** *nitrogen* applied to the paddy field and its absorption by rice plant. VI. Influence of a thermal factor on the soil ammonium nitrogen and the absorption of nitrogen by rice plant. 125051
Effects of **fertilizer** *nitrogen* applied to the paddy field and its absorption by rice plant. VIII. Compartive studies of the behavior of basal nitrogen and the absorption of nitrogen by rice plant in different paddy soils. 125052
Energy production per acre and efficiency of energy production by grain sorghum and cotton as related to *nitrogen* **fertilizer.** 125059
Effect of different forms of *nitrogenous* **fertilizers** on the productivity of potatoes on irrigated Sierozem soils in Uzbekistan. 124920
Effect of different forms of *nitrogenous* **fertilizers** on the resistance of cotton to wilt [Verticillium dahliae]. 124921
Forms and time of application of *nitrogenous* **fertilizers** in winter cereals. 124940
Regularity in the action of nitrogen in the main forms of *nitrogenous* **fertilizers** used at various rates [Effect on the yield of spring wheat, oats, barley]. 124945
The geography of effectiveness of *nitrogenous* **fertilizers** in West Siberia. 124948
Uptake of nitrogen by barley plants and the transformation of *nitrogenous* **fertilizers** on regraded Chernozem. 124949
Comparison of *nitrogen* **fertilizers** applied to fiber flax crops. 125066
Effect of the levels and time of the application of *nitrogenous* **fertilizers** on the yield and quality of winter wheat grain. 125076
Nitrogen **fiexaton** in grasses [Pennisetum americanum, Panicum maximum] inoculated with Spirillum lipoferum. 121570
Factors affecting growth and *nitrogen* **fixation** of Spirillum lipoferum [from several tropical grasses]. 121161
The experiment: colorimetric determination of nitrogenase activity *[Nitrogen* **fixation].** 124782
Non-enzymic transamination of unsaturated carbonyls: a general source of *nitrogenous* **flavor** compounds in foods. 116634
Variation of *nitrogenous* **fractions** and of proteolytic enzymes in green, dried, cured and stored malts. 116687
Effect of different simazine doses on the content of *nitrogen* **fractions** and the amino acid composition of proteins in summer barley grains. 123191
Free *nitrogen* for Hawaii. 125032
Is the *extract/nitrogen* **function** S-shaped? [Barley]. 117080
The effects of a **granular** *nitrogen* fertilizer and a foliar spray of urea on the yield and breadmaking quality of ten winter wheats. 125019
Nitrification in **high-sludge** age contact stabilization. 125513
Readily **hydrolyzable** *nitrogen* in the soils of the Chimkent Region. 124761
Effect of **increased** *nitrogen* fixation on stratospheric ozone. 124792
Utilization of slow-release fertilizers and *nitrification* **inhibitors.** 124950
Characteristic data on the kinetics of protein metabolism as determined in studies with 15N *[nitrogen* **isotope]** labelled feeds [Rats]. 117981
Studies on the nitrogen metabolism of broilers fed 15N *[nitrogen* **isotope]** labelled wheat. 1. Problems, experimental programme and excretion. 118002
Studies on the nitrogen metabolism of broilers fed 15N *[nitrogen* **isotope]** labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Nitrogen nutrition of Myriophyllum spicatum: uptake and translocation of 15N *[nitrogen* **isotope]** by shoots and roots. 121069
Pathway of nitrogen metabolism after fixation of *13N-[nitrogen* **isotope]-labeled** nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and *nitrogen* **isotopes]** urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Yield structure of barley and wheat at different *nitrogen* **levels** and at different plant densities. 124955
Value of compounds containing covalent P-N *[phosphorus-nitrogen]* **links** as phosphatic fertilizers. 125047
Regularity in the action of *nitrogen* in the **main** forms of nitrogenous fertilizers used at various rates [Effect on the yield of spring wheat, oats, barley]. 124945
Regression analysis of brewing data. Methods of assessment of relationships between two properties correlating with another, for example, the relationship between extract and *nitrogen* in **malting** barley. 117082
Problems of *nitrogen* **metabolism** in monogastric animals. 117575
Studies on the *nitrogen* **metabolism** of broilers fed 15N [nitrogen isotope] labelled wheat. 1. Problems, experimental programme and excretion. 118002
Studies on the *nitrogen* **metabolism** of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Nitrogen **metabolism** and productivity of cows fed granules made of whole forage plants. 118172
Pathway of *nitrogen* **metabolism** after fixation of 13N-[nitrogen isotope]-labeled nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167
Post infection changes in *nitrogen* **metabolism** of pumpkin (Cucurbita maxima D.) as affected by yellow mosaic virus. 122843
Nitrogen **mineralization** and nitrification in amended colliery spoils. 125495
Annual progress report on *nitrogen* **modeling** in cropped, irrigated lands [Leaching losses]. 124863
Annual report of field investigations of water and *nitrogen* **movement** in Yolo Soil—Rann GI-34733X. 124864
Nitrate-nitrogen **movement** through soil as affected by soil profile characteristics [Eutrophication, denitrification]. 124874
The effects of *nitrogen* and **mowing** height on the establishment of centipede [Eremochloa ophiurodies]. 125065
Nonvolatile *nitrogen* and sulfur compounds in red meats and their reltion to flavor and taste. 116931
Effects of fertilizer N *[nitrogen]* and **number** of years in tillage on the protein and non-protein content of feeding barley grain (cv. [Cultivar] Nessa) and on N uptake and recovery. 125015
Nitrogen **nutrition** of Myriophyllum spicatum: variation of plant tissue nitrogen concentration with season and site in lake Wingra. 121068
Nitrogen **nutrition** of Myriophyllum spicatum: uptake and translocation of 15N [nitrogen isotope] by shoots and roots. 121069
The significance of *nitrogen* **nutrition** to the seed yield and its relating characters of soybeans, with special reference to cool summer injury. 125064
Effect of *nitrogen* **nutrition** of barley on the yield formation and brewing characteristics of grain. 125080
Content of some trace elements and *nitrogen* at **particular** growth stages of winter wheat against the background of nitrogen fertilization. 125067
Mineral composition of liver and kidney of rats fed corn, sorghum, and soybean grain grown with sewage sludges and NPk *[nitrogen,* **phosphorus,** potassium] fertilizers. 118083
Effect of boron on the utilization of *nitrogen,* **phosphorus** and potassium by mustard plants. 120862
Effects of N:P:K *[nitrogen:* **phosphorus:** potassium] fertilizers on growth, development & essential oil content of Mentha spp. 121134
Anotated bibliography on the effect of N, P, K, Mg and Ca *[nitrogen,* **phosphorus,** potassium, magnesium, calcium] on the growth of pear trees and levels in the leaves, 1958-1975. 121771
Relationship of plant population of the sunflower (Helianthus annuus L) to NP *[nitrogen* **phosphorus]** fertilization and irrigation time. 122132
Effect of monuron and monolinuron on growth dynamics, yields and qualitative changes of winter rye against the background of various *nitrogen,* **phosphorus** and potassium fertilization rates. 123192
Effect of potassium fertilizers on [crop] yields and removal and utilization of *nitrogen,* **phosphorus,** and potassium by winter rye. 124937
Yield of cereals and the removal of *nitrogen,* **phosphorus** and potassium on Sod-Podzolic loamy soil in the Belorussian SSR in relation to the level of nutrition. 124951
Evaluation of soil fertility for natural pastures *[Nitrogen,* **phosphorus** and potassium fertilizers]. 124952
NPK *[nitrogen,* **phosphorus,** potassium] requirement of crops in soils of Saryu alluviums in relation to their initial fertility status. 124990
Response of some sugarcane varieties to different levels of N, P and K *[nitrogen,* **phosphorus,** potassium] in Punjab. 125013
Changes of *nitrogen* and **phosphorus** content during waterfall destruction in standing model waters. 125199
Effects of nitrate and ammonium enrichment on growth and *nitrogen* **physiology** in Fucus spiralis [Algae]. 121234
A **predictive** *nitrogen* fertilizer budget for a better crop of sugarbeets. 125039
Effects of chromium, manganese, nickel, lead, copper and zinc on the *nitrification* **process** of soil. 124751
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured whey **protein** *nitrogen* content of skim milk powders and commercial milk replacers. 118037
Effects of planting systems on yield, bulb **quality** *nitrogen* fertilizer utilization of garlic (Allium sativum L.). 122297
Competition between (Medicago sativa L. [Alfalfa] local ecotype) and tall fescue (Festuca arundinacea Schreb. cultivar Ludion) fertilized with increasing **rates** of *nitrogen.* 122116
Preliminary studies of the effects of an induced phosphate deficiency on *carbohydrate-nitrogen* **ratios** in Alternanthera philoxeroides (Centrospermae: Amaranthaceae) and on the feeding of Agasicles hygrophila (Coleoptera: Chrysomelidae). 123905
Flow of digesta through the Gastro-intestinal tract in the bovine with special **reference** to *nitrogen.* 117578
Aspects **regarding** *nitrogen* fertilization of wheat. 125055
Effect of long-term application of inorganic fertilizers in a crop rotation with sugarbeets on the *nitrogenous* **regime** of Light-Chestnut soil in the southeastern part of the Kazakhstan. 124929
Nitrogen **retention** in men fed isolated soybean protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or inorganic sulfate. 116435
Effects of dietary protein and lysine levels on plasma amino acids, *nitrogen* **retention** and egg production in laying hens. 118103
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VI. Influence of a thermal factor on the soil ammonium nitrogen and the absorption of *nitrogen* by **rice** plant. 125051

Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VIII. Compartive studies of the behavior of basal nitrogen and the absorption of *nitrogen* by **rice** plant in different paddy soils. 125052
Effect of long-term application of fertilizers in a crop rotation on the content of humus and *nitrogen* in **Sierozem-meadow** soils of Kirghizia. 124928
Response of 'Sunturf' bermudagrass [Cynodon magenisii] to **slow-release** *nitrogen* sources under greenhouse conditions. 125001
Use of immunoadsorbent affinity chromatography to purify component I of nitrogenase from extracts of Azotobacter vinelandii [a *nitrogen-fixing* **soil** bacterium]. 124800
Studies of field populations of Rhizovbium [trifolii]: relationships between strain effectiveness, **soil** *nitrogen* levels, and response to applied nitrogen in subterranean clover pastures in northeastern Victoria. 124803
Production of free amino acids by oligonitrophyllic microorganisms [**Soil** *nitrogen-fixing* bacteria]. 124822
Nitrate in effluents from irrigated lands—annual report [Leaching, *nitrogen*, **soil**]. 124870
Protein requirments for White Leghorn hens with fish meal and peanut meal as *nitrogen* **sources**. 117967
Studies on cool injury in bean plants. VII. Sensitive stages to sterile type low temperature injury during floral bud development in relation to *nitrogen* **status** of soybean plants. 123024
Simultaneous detection of *nitrogen* and **sulfur** containing flavor volatiles. 116638
Measuring rates of **symbiotic** *nitrogen* fixation by Alnus tenuifolia. 121788
Evaluation of soil **tests** for *nitrogen*. 124802
Nitrate-nitrogen in **tile** drainage effluents [Denitrification, water pollution]. 124873
Nitrogen nutrition of Myriophyllum spicatum: variation of plant **tissue** *nitrogen* concentration with season and site in lake Wingra. 121068
Relationship between milk progesterone concentration and milk yield, fat and **total** *nitrogen* content. 116855
Total *nitrogen* concentration in leaves of potatoes (Solanum tuberosum L.) as an index of nutritonal status [Foliar analysis]. 125020
Response of dwarf wheat **varieties** to *nitrogen*. 121499
The effect of soil moisture and *nitrogen* on **yield** and quality of the Russet Burbank potato. 122184
The effect of *nitrogen* on **young**, newly-planted, apple rootstocks in the presence and absence of grass [and weed] competition. 123093
Effect of *nitrogen* and **zinc** on yield, protein content and quality of wheat in Egypt. 121514

NITROGENASE

Nitrogenase **activity** and respiration of cultures of [cowpea] Rhizobium spp. with special reference to concentration of dissolved oxygen. 121606
The experiment: colorimetric determination of *nitrogenase* **activity** [Nitrogen fixation]. 124782
Separation into components and the recombination of *nitrogenase* from **bacteroids** of lupine [Rhizobium lupini, nodule bacteria]. 121450
Use of immunoadsorbent affinity chromatography to purify component I of *nitrogenase* from **extracts** of Azotobacter vinelandii [a nitrogen-fixing soil bacterium]. 124800

NITROSAMINE

N-nitrosamine in **feeds**. 117344
Nitrosamines in **meat** products: test on firm dry sausages made with various additives. 116989
Detection and determination of *N-nitrosamines* by **thinlayer** chromatography using fluorescamine. 116190
Detection of *N-aryl-N-nitrosamines* on **thin-layer** chromatographic plates with 2,4-dinitrophenylhydrazine and phosphomolybdic acid [Possible carcinogens]. 116191
A comparison of some chromatographic detectors for the analysis of **volatile** *N-nitrosamines* [Potent carcinogens in food]. 116174

NITROSO

Action of some *nitroso* **derivatives** in meat suspensions. Antibacterial activity and interferences by components of the medium. 117012
Possibilities of inducing economically useful mutations in maize by seed treatment with ethyl **methanesulphonate** and *N-nitroso-N-methylurethan*. 120647
Analysis of nonionic **nonvolatile** *N-nitroso* compounds in foodstuffs. 116764
Study on the effect of ethyl methanesulphonate and *N-nitroso-N-methylurethan* after **treatment** of seeds from maize inbred lines. 120650

NITROUS

Instability of yeast cell sensitivity to the [lethal] action of *nitrous* **acid** [Genetic factors]. 120622
Detection of *nitrous* **oxide** at ambient atmospheric concentrations [from soil]. 124771
Nitrous **oxide** concentration in lysimeters and the effect of soil suction. 124875
The variability of soil aeration measurements. II. Field measurements of N2O *[nitrous* **oxide**] concentrations, redox potentials, oxygen diffusion rates, and oxygen partial pressures as affected by NO3- [nitrate]-fertilization. 124880

NITZSCHIA

Heterotrophic nutrition of the marine pennate **diatom** *Nitzschia* angularis var. affinis [Algae]. 121266

NOCARDIA

Metabolism of o-phthalic acid by different gram-negative and gram-positive soil bacteria *[Nocardia*, **Arthrobacter**, Pseudomonas]. 124775

NOCTUIDAE

Amphipoea lucens Freyer, a species new for France (Lepidoptera, *Noctuidae*, **Amphipyrinae**). 124203
Juvenile hormone effects on the prepupal and pupal stages of the tobacco cutworm, Spodoptera litura **Fabricius** *(Noctuidae:* Lepidoptera). 123301
Action of photoperiod on diapause induction in Mamestra brassicae **(Lepidoptera,** *Noctuidae)*. 123814
Capture and rearing of Polyphaenis sericata **(Lepidoptera,** *Noctuidae)*. 123895
Use of microradiographic technics, instead of dissection for study of the mating status of female armyworm moths, Mythimna unipuncta, captured in light traps **(Lepidoptere** *Noctuidae)* capturees aux pieges lumineux. 124145
An **overlooked** *Noctuidae* from Malaysia: Othreis kinabaluensis n. sp. (Lepidoptera). 124285
Two new species of Euxoa (Lepidoptera: *Noctuidae)* from **southern** United States allied to Euxoa camalpa [Euxoa maderensis, Euxoa serotina]. 124276
The genus Copablepharon in Texas, with description of three new **species** *(Noctuidae)* [Copablepharon albisericea, Copablepharon serraticornis, Copablepharon gillaspyi]. 124325
Plusia interrogationis L. (Lepidoptera, *Noctuidae)* found at **Svalbard.** 124376
Contribution to the determination of Amphipyra berbera svenssoni (Lepidoptera, *Noctuidae)* **[Taxonomy]**. 124289
Senses involved in the visiting of flowers by Cucullia **umbratica** *(Noctuidae,* Lepidoptera). 123891

NOCTURNAL *see* NIGHT

NODE

Nodal **anatomy** of certain members of Bignoniaceae. 120561
Comparative studies of the vascular system of *node-leaf* **continuum** in woody Ranales. II. Node-leaf vascular system of Eupomatia laurina R. Br. 120493
Lejeuneology: the notion of the **leaf** *node* in the genus Cololejeunea Schiffn [Hepaticae]. 120438
Mucormycosis caused by Absidia corymbifera in the **nymph** *nodes* of swine. 118846
Compared outgrowth rate of *nodal* **roots** in three rice varieties (Oryza sativa L.). 121408
The effects of amiodarone on the **sinus** *node* activity of the rabbit heart. 117670
Contribution to the study of the blood supply of the **sinus** *node* in Pekingese dogs. 117901
Sone anatomical observations on the topography and macroscopic distribution of the lymph vessels and *nodes* on the **stomach** of buffalo, Bos bubulis L., of Egypt. 117764
Activity of some oxidation-reduction enzymes in the hyaloplasm isolated from **tillering** *nodes* of winter wheat. 121491
Mobility of water and the activity of adenosinetriphosphatase in the **tillering** *node* of winter wheat. 121496
Comparative studies of the vascular system of node-leaf continuum in woody Ranales. II. *Node-leaf* **vascular** system of Eupomatia laurina R. Br. 120493

NODULES

Separation into components and the recombination of nitrogenase from bacteroids of lupine [Rhizobium lupini, *nodule* **bacteria**]. 121450
Effect of inoculation with Rhizobium [japonicum] and Azotobacter [chroococcum] on *nodulation*, **growth** and yield of soybean. 121442
The fine structure of pea **root** *nodules*. 2. Senescence and disintegration of the bacteroid tissue [Rhizobium leguminosarum]. 120530
Factors affecting the reduction of acetylene by **root** *nodules* of Lupinus species [Lupine]. 121527
Cytoplasmic changes during and after infection of soybean **root** *nodule* cells with rhizobia [Nitrogen-fixing bacteria, Rhizobium japonicum]. 121530
Atrophy of *nodular* **system** in the virus-affected groundnut, Arachis hypogaea L. 122832

NOISE

Noise on the **farm**. 125406
Noise induced hearing loss *[Noise* **hazards** on the farm]. 125490
Noise in the **meat** industry. 125528
Residential **traffic** *noise* control using tree-shrub-barrier combinations. 119388
Attempts to influence the feeding behaviour of brown rats using **ultrasonic** *noise* generators [for rodent control]. 122958

NOMENCLATURE

Considerations on an **adequate** *terminology* of institutes and diplomas in veterinary medecine. 118539
Investigation and *nomenclature* of **cocci** causing beer spoilage: a review [Bacteria]. 116061
Forest fires and [their] *terminology* **[Control** and prevention]. 119297
Progress towards an international system of beer **flavour** *terminology*. 116686
Multilingual **forestry** *terminology*, and international common project for improving scientific communication as a basis for establishing the sauri. 119357
Nomenclature of **Melampsoridium** betulinum [Fungi]. 120214
Growth and cell pattern formation on an axis: critique of concepts, *terminology*, and **modes** of study. 120425
The **new** *nomenclature* and diagnosis of Estonian soils. 124903
Nomenclatural **note** on Cladonia nemoxyna [Lichens]. 119986
A fake Heliconius (Lepidoptera, **Nymphalidae)** *[Nomenclature]*. 124461
A **proposed** *nomenclature* of Fusarium oxysporum f. Sp. Melonis races and resistance genes in Cucumis melo [Muskmelon]. 122722
Rhododendron Kotschyi **Simankai** *[Nomenclature]*. 120251

NOMOGRAPHY

Determination of the cell count of a yeast suspension and computation of the yeast dose by means of a *nomogram* **[Fermentation]**. 116796

NONENZYMATIC *see* ENZYMES

NONHOST *see* HOST

NONIRRIGATED *see* IRRIGATION

NONOCCLUDED *see* OCCLUSION

NONSURGICAL *see* SURGERY

NONVOLATILE *see* VOLATILE

NOREPINEPHRINE

Effect of *norepinephrine* and **hypertonicity** on K influx and cyclic AMP [adenosine monophosphate] in duck erythrocytes. 117535

NORMALIZATION

Vacuoles in the nucleus of *normal* and **abnormal** drake spermatozoa. 118227
Yeasts grown on *normal* **alkanes** as protein source for dairy cows. 117978
Feline glomeruli: morphologic comparisons in *normal*, **autolytic**, and diseased kidneys. 119068
Energetic metabolism of pupae in Scotia segetum Den. Et Schiff. under *normal* **conditions** and under conditions of intoxication by sodium fluoride. 123833
Behavior of cultivars of Avena [oat] grown as spaced plants and at *normal* **density**. 122114
Cerebrospinal fluid creatine phosphokinase in the *normal* **dog**. 117543
Serum fibrinogen-related antigen concentrations in the *normal* **dog** as measured by the tanned erythrocyte hemagglutination-inhibition immunoassay. 117943
Serum cortisol (hydrocortisone) values in *normal* **dogs** as determined by radioimmunoassay. 117546
Research on bilirubin, urobilinogen and rate of serum bilirubin in *normal* **dogs** and those with hepatic diseases. 119188
Oxidative phosphorylaion in brown adipose tissue mitochondria from rats kept under *normal* **environmental** conditions. 117780
Clinicopathologic alterations in *normal* and **exhausted** endurance horses. 119196
Vascular patterns in the chick embryo spinal cord in *normal* and **experimentally** modified development. 117521
Development of the renal response to blood volume expansion in *normal* and **fast-growing** rats. 117534
Metabolism of 109 Cd [cadmium isotope] in rats **fed** *normal* and low-calcium diets. 119259
The *normal* **forest.** Economy and forest [yield] estimate. 119502
Decreased plasma insulin but *normal* **glucagon** in rats fed low protein diets. 116423
Gamma-glutamyl cysteine and pyroglutamate in *normal* and **glutathione-deficient** erythrocytes of Corriedale sheep. 119197
Quantitative determination of *normal* **horse,** cat, and dog haptoglobins. 117942
Early post-embryonic changes in protein metabolism and DNA synthesis in the thymus of chicks, *normal* and **infected** with Salmonella pullorum; autoradiographic study. 118928
Complement-fixation in the interaction of *normal* **rabbit** gamma G' globulin and its Fab' fragment. 118792
Situational determinants of the body weights defended by *normal* **rats** with hypothalamic lesions. 116376
Differentiation of insect sensory neurons in the absence of their *normal* **synaptic** targets [Manduca sexta]. 123875
Determination of some hemato-chemical parameters of [dairy] cattle for the control of milk production. I. *Medium-normal* **values** related to Ferrara province. 117845
A new concept of *normal* **values** [Blood as a means of diagnosing diseases in horses]. 118495
Semen characteristics of *normal* & **vasectomized** dogs. 118327
Cell to substratum adhesion-promoting activity released by *normal* and **virus-transformed** cells in culture [Chicken, mouse, and rat fibroblasts]. 117799
Reduction in anaphase bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in irradiated & *normal* **wheat** (Triticum aestivum L.) root tips. 120475

NOSE

Investigations of swabs from prepuce and from *nose* of **horses** for presence of bacteria like Klebsiella. III. Serological investigations on klebsiella strains. 118649

Investigations of swabs from prepuce and from *nose* of **horses** for presence of bacteria like Klebsiella. II. Morphological and biochemical investigations on klebskella strains. 118650
Sheep *nose* bots—Oestrus ovis. 123669

NOSEMA
Nosema **disease** examination and [honeybee] colony treatment. 124515

NOTABLE
A *notable* **endemism** of the mountains of Mexico: the genus Xenodromius Bates (Coleoptera, lebiinae) [New taxa]. 124244
Distribution of some *notable* **plants** and animals of western Maryland. 119852

NOTHOFAGUS
Some South **American** *Nothofagus.* 120006
Pulping of New Zealand **beeches** *(Nothofagus* spp.) and associated forest species. 119759
Ecological role of Zelandopsyche ingens (Trichoptera: Oeconesidae) in a beech *[Nothofagus* **solandri** cliffortioides] forest stream ecosystem. 123825

NOTODONTIDAE
New *Notodontidae* (Lepidoptera) from Asia [Pheosiopsis diehli, Somera virens]. 124294

NUCLEAR
Pyrolytic formation of *polynuclear* **aromatic** hydrocarbons from petroleum ether extractable constituents of flue-crued tobacco leaf. 117123
Ecological studies of the **Bagac** *nuclear* power plant site: a mosquito survey of Bagac, Bataan, Republic of Philippines. 123649
Studies on *nuclear* **division** and behavior within basidia. I. Hydnum umbilicatum [Fungi]. 120527
Appressorium formation and *nuclear* **division** in Colletotrichum truncatum. 122575
Structural basis of quantitative difference in *nuclear* **DNA** between Lolium temulentum L. & Lolium rigidum Gaud. 121508
Contamination of diet with radioactive fallout from *nuclear* **explosions** [in milk and meat]. 116035
Influence of buffers on pH [hydrogen-ion concentration] of cotton leaf surface and activity of a **Heliothis** *nuclear* polyhedrosis virus. 123318
Further X-ray studies of *nuclear-polyhedrosis* **inclusions** [insect viruses]. 124102
Titration behavior of individual tyrosine residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 *nuclear* **magnetic** resonance spectroscopy. 117798
Lichens and fungi. XIII. Comparison of the *nuclear* **magnetic** resonance and mass spectra of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
Heterogeneity and specificity of **non-histone** *nuclear* phosphoproteins [Rats, chickens, mice]. 117635
Occluded and **nonoccluded** *nuclear* polyhedrosis virus grown in Trichoplusia ni: comparative neutralization, comparative infectiviry, and in vitro growth studies. 124071
Globin mRNA sequences in polyadenylated and **nonpolyadenylated** *nuclear* precursor-messenger RNA from avian [duck] erythroblasts. 117626
Increase in *nuclear* **poly(A)-containing** RNA at synctial blastoderm in Drosophila melanogaster embryos. 123877
Nuclear **polyhedrosis** virus replication in permanent cell lines of the cabbage moth (Mamestra brassicae L.). 123426
Fractionation and amino acid composition of acid-soluble trypsin peptides of inclusion bodies protein of moth (Galleria mellonella) *nuclear* **polyhedrosis** virus. 123827
Changes in protein, fat & glycogen in the larvae of rice moth Corcyra cephalonica St. during *nuclear* **polyhedrosis** virus infection. 123968
Nucleic acids synthesis of *nuclear* **polyhedrosis** virus in cultured embryonic cells of silkworm [Bombyx mori]. 124482
Globin messenger sequences in *nuclear* **ribonucleoprotein** particles of avian [chick] erythroblasts. 117849
The purpose and operation of a *Nuclear* **Stock** Unit [Insect-proof, virus-free structures for selection plant propagation, New Zealand]. 122921
Uptake of plutonium and other *nuclear* **wastes** by plankton [Includes algae]. 121270

NUCLEASES
Cleavage of DNA from higher plants [grain legumes] by **restriction** *nuclease* EcoRI. 121635

NUCLEIC
Nutritional effects on age at puberty and plasma amino acid level in Yorkshire gilts and on chemical composition, *nucleic* **acid,** fatty acid and hydroxyproline contents of the uterus. 118097
Gibberellic acid-induced germination of spores of Anemia phyllitidis: *nucleic* **acid** and protein synthesis during germination [Pteridophyta]. 120865
Studies on *nucleic* **acid** and protein biosynthesis during the embryo development of Argostemma githago. 120957
Nucleic **acids** and fungal spore germination. 121122
Studies on *nucleic* **acids** in plastids of the pigment mutant C-2A' of Scenedesmus obliquus [Algae]. 121326
Nucleic **acids** synthesis of nuclear polyhedrosis virus in cultured embryonic cells of silkworm [Bombyx mori]. 124482
Phosphorus and *nucleic* **metabolism** in wheat with cytoplasmic male sterility. 121478

NUCLEOLUS
Ultrastructure of persisting **mitotic** *nucleoli* of mung beans. 120557

NUCLEOPHILIC
Investigation of deciduous wood lignin. II. Splitting of aspen lignin under *nucleophilic* **action.** 119737

NUCLEOTIDES
Spectrophotometric research of Penicillium brevicompactum [Fungi] RNAse complexformation with **adenyl** *nucleotides.* 120945
Binding of *nucleotides* **ATP** [adenosine triphosphate] and aDP [adenosine diphosphate] to sarcoplasmic reticulum: study by rate of dialysis [Rabbit skeletal muscles]. 117599
Effects of 1,N6-ethenoadenylates on the regulation of photosynthetic activities by adenylates; a study of the *nucleotide* **binding** sites on chloroplast coupling factor [Spinach]. 121754
Comparison of calcium-binding proteins. Bovine heart and brain protein activators of **cyclic** *nucleotide* phosphodiesterase and rabbit skeletal muscle troponin C. 117782
Cyclic *nucleotides,* intracellular chemical mediators [Animal biology, enzymes]. 117912
Newcastle disease virus mRNA lacks **2'-O-methylated** *nucleotides.* 118853
A reduced **pyridine** *nucleotides-diaphorase* activity associated to the assimilatory nitrite reductase complex from Neurospora crassa [Fungi]. 120905
A study of *nucleotide* **sequence** homology between strains of tobacco mosaic virus. 122873
Influence of substrates and coenzymes on the role of manganous ion in reactions catalyzed by pig heart **triphosphopyridine** *nucleotide-dependent* isocitrate dehydrogenase. 117589

NUCLEUS
Ultrastructure during development of the *nucleus* of **Batophora** oerstedii (Chlorophyta; Dasycladaceae) [Algae]. 120498
Cytoplasmic cylinders associated with the *nucleus* and **cell** wall of marchantia spermatids [Hepaticae]. 120540
Composition of chromatin in **cellular** *nuclei* and the modification of histones in maize heterotic hybrids. 120698
Effects of two benzodiazepines, phenobartitone, and baclofen on synaptic transmission in the cat **cuneate** *nucleus.* 117868
Rapid appearance of estrogen receptor in chick **liver** *nuclei:* partial inhibition by cycloheximide. 117680
Release of DNA template restrictions in rabbit spermatozoa and rat **liver** *nuclei.* 118343
Isolation of *nuclei* from the **lymphocytes** of cattle lymph. 117935
Influence of color and placement of **mating** *nuclei* on the drifting of [honeybee] queens returning from mating flights. 124561
Vacuoles in the *nucleus* of **normal** and abnormal drake spermatozoa. 118227
Reactions of the **red** *nucleus* neurones in awake cat to cutaneous stimulation. 117523
Comparison of the cytoarchitectonic structure of the **subthalamic** *nucleus* in certain mammals [Includes livestock and laboratory animals]. 117690

NURSERIES
Sprout control of **apple** *nursery* stock with NAA [napthaleneacetic acid]. 121679
Present position and future prospects for the **British** *Nursery* industry [Ornamental trees and shrubs]. 115825
Mineral fertilization of Tsuga heterophyla Sarg. In *nursery* **conditions.** 124965
Greenhouse **container** *nurseries* for better trees. 119627
Evaluation of eight herbicides in **container** *nursery* stock [of ornamental plants]. 123071
The significance of [ornamental plant] *nursery* **economics** [Great Britain]. 115332
A code system for **European** *nursery* plants: S.C.O.P.E. II. Codifying ornamental conifer plants. 119894
Cultivation of exotic tree species and **forest** *nurseries* in South Africa. 1. Exotic species perform more in South Africa than their native areas. 119589
Distribution and pathogenicity of Fusarium oxysporum in a [Pseudotsuga menziesii] **forest** *nursery* soil. 122727
Forest *nursery* weed control results. 123129
Controlling quackgrass in the **[ornamental]** *nursery.* 123070
The importance of costings [in ornamental **plant** *nursery]* for effective management. 115331
The Prince family manuscript collection; a register of their papers in the National Agricultural Library [First commercial **plant** *nursery* in the United States, history, bibliographies]. 119908
A modern and specialized potted **plant** *nursery.* 122321
Leafy spurge [Euphorbia esula] development in space **planted** *nurseries.* 123139
Nursery **practice** in relation to the carbohydrate resources of leafless hardwood cuttings. 122236
Nursery **production** potential. 119628
A technique for the accelerated production of commercially acceptable citrus clones from seed *[Nursery* **propagation].** 122212
Staking [of ornamental plants in a *nursery]* in **relation** to growth and form. 122257
Bare **root** *nursery* production and needs. 119624
Winter protection of *nursery* **stock** [of ornamental plants] Webfoot style [Plastic-covered structures]. 124605
Materials handling and mechanization of hardy [plant] *nursery* **stock.** 124662
Management, but with a **system!** 6. *[Nurseries].* 119579
Farming areas for the cultivation of **tree** *nurseries.* 119439
Critical examination of **[tree** *nursery]* catalogues [Europe]. 119574
Development of quantities offered in the German **tree** *nursery* industry [Supply and demand]. 119575
Do the producers have it so bad because the **tree** *nurseries* selling the final products have it so good? Also a contribution for reconsidering the ratio of item prices to quantity prices. 119576
Experiments in 1976 in **tree** *nursery:* a survey of experimental and research projects in German experimental schools and institutes. 119577
Investigation on the necessity of **tree** *nurseries* in West Berlin. 119578
Simple profit control for the **tree** *nursery.* 119581
The Dutch **tree** *nurseries* and the European Economic Community. 119582
Potting in the **tree** *nursery* [Ornamentals]. 122276
Nursery **understanding** of tissue culture [Ornamental plants, propagation]. 122237
Plant tissue culture [in modern plant propagation]—possible applications in the New **Zealand** *nursery* industry. 122238

NUTRIA *see* COYPUS

NUTRIENTS
Standardisation and *nutrient* **analysis** of nine commonly used South Indian recipes. 116394
Artificial *nutrient* media for the growth of plants on the basis of ion exchangeable materials. 6. Substrates of continuous structure. 121586
Effect of fertilization with straw of light soil on its content of **basic** *nutrients.* 125070
Effect of inorganic fertilizers and plant density on the accumulation of *nutrients* in **castorbeans** and on their productivity. 124926
Microwave heating of foods—changes in *nutrient* and **chemical** composition. 116699
Effect of fertilizers and irrigation on the water and *nutrient* **condition** of soil, water consumption and productivity of sugarbeets in Bashkiria. 124924
Nutrient **content** of the aquatic macrophytes Elodea canadensis and Ceratophyllum in the course of the year. 121078
Effect of photo-induction on *micronutrient* **content** of leaves in Biloxi soybean glycine max Merrill. 121501
Effects of selected herbicides on yield, weed control and *nutrient* **content** of sweet corn. 123126
Substitution of lysine supplemented high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of **crude** *nutrients* in the carcasses of laying hens. 118009
Feed intake and *nutrient* **digestibility** of growing lambs supplemented intragastrically with full-fat rapeseed (cv. [Cultivar] Tower). 118029
Secretion of proteolytic enzymes flowing introduction of *nutrients* into the **duodenum** and jejunum [Dogs]. 116568
Role of Erythronium americanum Ker. In energy flow and *nutrient* **dynamics** of a northern hardwood forest ecosystem. 120398
Long-term effects of manipulating light intensity and *nutrient* **enrichment** on the structure of a salt marsh diatom community [Algae]. 121208
A note on the design of *nutrient* **enrichment** studies [Algae, eutropification]. 125502
Absorption of *nutrients* by **fiber** flax and the effectiveness of inorganic fertilizers on Sod-Podzolic loamy soils in the Udmurt Autonomic Soviet Socialist Republic. 121395
The use of *micronutrients* as **Fritted** Trace Elements on tropical forage legumes. 124958
Effect of nisin [an antibiotic, produced by certain strains of Streptococcus lactis] on the germination and proliferation of spores of some aerobic spore-formers in *nutrient* **medium** [Food processing]. 116844
Effect of the composition of the *nutrient* **medium** on the biosynthesis of lipids by Rhodotorula gracilis K-1 [the yeast]. 121093
The effect of the supply of **mineral** *nutrients* on root morphology, nutrient uptake, and shoot growth in cereals. 121421
Mineral *nutrients* as thinning agents in 'Wilking' mandarin trees [Citrus reticulata]. 121674
Transport effect of some **mineral** *nutrients* and photosynthates with reference to stock-scion relationship in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727
Metering of intravenous versus **oral** *nutrients* and regulation of energy balance [Rats]. 116291
Effect of inorganic fertilizers on the yield, chemical composition of meadow foxtail [Alopecurus pratensis] and the regime of *nutrients* in **Peat-Bog** soils of the Kola Peninsula. 124927
Competition for **plant** *nutrients* in soil; a theoretical approach. 121154
Relationship between **plant** *nutrient* uptake and constituents of meadow fescue (Festuca pratensis) as regards suitability for conservation. 1. Plant nutrient uptake, nutrient ratio and plant composition. 121579

All about essential **plant** *nutrients.* 124979
The *nutrients* and **plants** [Algae] of Lake Joondalup, a mildly eutrophic lake experiencing large seasonal changes in volume. 121224
Effect of magnesium on the consumption of *nutrients* by **potatoes** on sandy soils of the Bryansk part of Poles'ye. 121587
Nutrient **products** from forest soils. 124799
Nutrient **profiles** of bay sediment [Pollution]. 125514
Relationship between plant nutrient uptake and constituents of meadow fescue (Festuca pratensis) as regards suitability for conservation. 1. Plant nutrient uptake, *nutrient* **ratio** and plant composition. 121579
Nutrients **removal** by crops [Soil fertility maintenance]. 124980
Micronutrient **requirement** of swine. 118131
Nutrient **requirements** of swine. 118062
Nutrient **requirements** of dairy cattle. 118063
Nutrient **requirements** of growing and finishing beef cattle. 118064
Nutrient **requirements** of chickens, turkeys. 118065
High, stable fodder yields of maize by assuring its water and *nutrient* **requirements.** 121923
Study of fertilizer effectiveness [Experiments on doses, *nutrient* **requirements** of crops]. 124946
Columbia **River** *nutrient* study—1972. 125330
The effect of the cereal cyst nematode [Heterodera avenae] on absorption and translocation of *nutrients* by the **roots** of oat plants. 122894
The balance of *nutrients* in the **soils** of the Znamia Oktiabria collective farm in the Talovskii District of the Voronezh Region. 124899
Heavy metal toxicity in vegetable crops. V. The effect of iron concentration in the *nutrient* **solution** on manganese toxicity in vegetable crops [Chlorosis]. 122980
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of *nutrient* **solutions** on the trace element nutrition of tomato and cucumber. 122981
Evaluation of the *nutrient* **status** of apple trees [in various regions of Poland]. 121776
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and *nutrient* **status** of a susceptible and tolerant variety of young tea (Camellia sinensis L.). 123040
The effects of various tertiary **treatment** *nutrient* removal schemes on periphyton communities in model laboratory streams [Water resources research]. 125194
Continuous culture of marine diatoms under silicate limitation. II. Effect of light intensity on growth and *nutrient* **uptake** of Skeletonema costatum [Algae]. 121203
The effect of the supply of mineral nutrients on root morphology, *nutrient* **uptake,** and shoot growth in cereals. 121421
Translocation and transfer of *nutrients* in **vesicular-arbuscular** mycorrhizas [roots of onion]. I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743
Chemical composition and in **vitro** *nutrient* digestibility of dinanath grass (Pennisetum pedicellatum). 117348
Phytoplankton response to **wastewater** *nutrient* enrichment in continuous culture [Dunaliella tertiolecta, Phaeodactylum tricornutum, Thalassiosira pseudonana, Algae]. 121183
Removal of *nutrients* by **weeds** on a cotton field on Takyr soils in the Karshi Steppe. 123059
Removal of *nutrients* with the **yield** of crops [cereals, sugarbeets, alfalfa] on irrigated Dark-Chestnut soils. 121405

NUTRITION

[Scientific] works of N. G. Kholodnye about **air** *nutrition* of plants and up-to-date allelopathy. 121063
Nutritional and **alimentary** situation in the countries of Latin America and Caribbean area. 116303
Thermal treatments of cereals in **animal** *nutrition.* 117329
Aspects and problems of **animal** *nutrition:* information and reflections on the use of meals derived from rape. 117379
Chemical composition of a hydrolyzed leather as a protein source [for **animal** *nutrition].* 117389
Animal *nutrition* to human nutrition: achievements and prospects. 117865
Economic importance and problems of **animal** *nutrition.* 117980
Additives in **animal** *nutrition.* 118105
Aminoacids and their use for **animal** *nutrition.* 118177
Honey in medicine [Includes *nutritional* **aspects**]. 116490
Genetic influence on *nutritional* **aspects** of metabolic regulation. I. [Mice]. 118262
Studies on the mycological production of citric acid in India. II. Effect of factors other than *nutritional* [**Aspergillus** niger, Fungi]. 121362
Effects of dietary amino acid level and *nutritional* **balance** on larval survival and development of the parasite Exeristes roborator [Pectinophora gossypiella, biological control]. 123280
Nutritional **beliefs** and practices in primigravid Mexican-American women [Pregnancy]. 116403
Nutritional **beliefs** and practices in primigravid Mexican-American women. 116404
Food: resource [Information on *nutrition,* **bibliographies**]. 116344
The future in *nutritional* **biology** [Dairy products]. 116483
The vulnerability of the **brain** to *undernutrition.* 116557
Broiler *nutrition* yesterday today tomorrow. 118026
In vitro growth and *nutrition* of **Buergenerula** spartinae, a fungus associated with Spartina alterniflora. 122664
Thrifty **calf** *nutrition* methods introduced by the stations of the Institute for a Scientific System of Agriculture. 118115
Diet, *nutrition,* and **cancer.** 116276
Tropical **cattle** *nutrition* under grazing range conditions in the Sahel: measurement of the dry matter intake and estimation of digestibility and feeding value of forages. I. Theoretical basis, purposes and methods. 118158
Effects of *nutritional* **characteristics** of Streptococcus agalactiae on inhibition of growth by lactoperoxidase-thiocyanate-hydrogen peroxide in chemically defined culture medium. 118798
The **clinical** *nutrition* program at Albany Medical College. 116524
Comunity **college** *nutrition* outreach project [at Ohlone College, California]. 116447
Whey: considerations on its use in *nutrition* [**Composition**]. 116879
Effects of irradiation to larvae of Bombyx mori in relation to *nutritional* **conditions** and fasting. 124508
Nutritional **contributions** of oceans excluding vertebrates (fish, reptiles, mammals). 116691
Interaction of genes and metals in development [in *nutritional* **deficiency**]. 116326
Nutrition and **density** studies on the Williams Hybrid banana; 1973 progress report. 117303
Teenagers **deserve** better *nutrition.* 116535
Intestinal malabsorption of iron *[Nutritional* **disease**]. 116518
Nutrition and **disease.** 116563
Cultural perceptions and *nutritional* **disorders:** A Janaican case study. 116300
Nutritional **disorders** of American women. 116523
Identifying ration deficiencies in the field is difficult [Swine, *nutritional* **disorders**]. 119094
Nutrition of the **domestic** rabbit. 118109
Helping kids make better food choices *[Nutrition* **education**]. 116333
Management of kwashiorkor in its milieu—a follow-up for fifteen months *[Nutrition* **education**]. 116389
Development of a *nutrition* **education** program for homemakers. 116449
Nutrition **education** in the supermarket. 116450
Role of EFNEP [Expanded Food and *Nutrition* **Education** Program] aides in improving diets of pregnant women. 116451
Composition and *nutritional* **effectiveness** of membranes of bakers' yeast (Saccharomyces cerevisiae) [Rats]. 116306
Fever and amino acid metabolism *[Nutritional* **effects**]. 116515
Nutritional **effects** on age at puberty and plasma amino acid level in Yorkshire gilts and on chemical composition, nucleic acid, fatty acid and hydroxyproline contents of the uterus. 118097
Trace **element** *nutrition* of mushroom Pleurotus sajorcaju (Fr.) Singer. 121633
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of nutrient solutions on the trace **element** *nutrition* of tomato and cucumber. 122981
Nutritional **evaluation** of wheat. 5. Disappearance of components in digesta of pigs prepared with two re-entrant cannulae. 117974
Nutritional **evaluation** of dehydrated cattle manure using sheep. 118032
Studies investigating the influence of *nutritional* **factors** on the ruminal mucosa. 2. Morphology of the ruminal mucosa after the feeding of fattening rations varying in physical consistency [Cattle]. 117994
Some environmental and *nutritional* **factors** affecting growth and sporulation of Aspergillus tamarii associated with mouldy cocoa beans in Nigeria. 122699
Effects of some *nutritional* **factors** on wheat-weeds competition. 123190
Horse **feeding** and *nutrition.* 118175
Nutritional and **fertilizer** application in coconut [Cocos nucifera] culture. 124959
Nutritional and **fertilizer** requirements of rubber tree [Hevea brasiliensis] culture. 124960
Reflections on the *nutritional* and **fertilizer** requirements of the African oilpalm [Elaeis guineensis]. 124961
Nutrition and **flavour** legislation. 116487
Nutrition: **food** at work for you. 116311
Thought snacks [**Food,** *nutrition].* 116349
The secret, my friends, is the fiber [in *nutrition* and **foods**]. 116348
In-service educational program for dietetic technicians involved in **geriatric** *nutrition.* 116619
Recent findings on the *[nutritional* and **hereditary** damage] of selenium upon livestock. 119173
Heterotrophic *nutrition* of the marine pennate diatom Nitzschia angularis var. affinis [Algae]. 121266
The role of **heterotrophic** *nutrition* and photosynthesis in the heterosis of maize hybrids. 121483
The role of mixed-supplemented feeds in **horse** *nutrition.* 118185
Significant issues in **[human]** *nutrition.* 116313
The importance of plant protein in **human** *nutrition.* 116320
The concept of essential amino acids in **human** *nutrition:* a need for reassessment. 116395
Proteins in **human** *nutrition* and dietics. 116550
Social, scientific and biological problems of cereal research and production; a contribution to the world's nutrition problem. I. The importance of cereal production for **human** *nutrition* in the past, present and future. 116571
Production of yeasts on fatty matters of animal and plant origin for **human** *nutrition.* 116760
Animal nutrition to **human** *nutrition:* achievements and prospects. 117865
Hygiene for man and animal and *nutritional* **hygiene.** 116117
Nutritional **idiosyncrasies** of the golden hamster (Mesocricetus auratus). 118110
Physiological studies on the effects of *nutritional* **imbalance** on the central nervous system: effects of thiamine deficiency on the regional protein metabolism in the brain of chicken, Gallus domesticus. 117642
Infant *nutrition* in East Harlem. 116346
Nutrition: an **integral** component in the health care of children the interdisciplinary team in action. 116402
Methodology in te formation of national policies on alimentation and *nutrition* and **intersectional** execution [Latin America]. 116301
Individuals, not families, are the **key** to *nutrition.* 116308
Demographic and attitudinal correlates of *nutrition* **knowledge.** 116448
The selling of *nutrition* **knowledge.** 116452
Yield of cereals and the removal of nitrogen, phosphorus and potassium on Sod-Podzolic loamy soil in the Belorussian SSR in relation to the **level** of *nutrition.* 124951
Gene White **lobbies** for *nutrition.* 116609
Broilers: **management** and *nutrition.* 117396
Application of research on seed proteins in the area of *nutrition* and **medical** research. 116387
Magnesium: the currency of life [**Mineral** *nutrition].* 116532
Interactions between water and **mineral** *nutrition* of the plant. 120886
Mineral *nutrition* of Aspergillus niger for citric acid production. 121066
Effect of chlorocholine chloride on the **mineral** *nutrition* and productivity of winter wheat on Chernozem. 121400
Mineral *nutrition* of cultured chlorophyllous cells of tobacco. IV. Kinetic studies of K [potassium] and Mg [magnesium] uptake by the cells. 121534
Amino acid and fractional composition of protein of the vegetative mass of maize at different levels of **mineral** *nutrition* and water supply. 121575
Research on the **mineral** *nutrition* of the olive tree. 121585
Some features of **mineral** *nutrition* of greenhouse carnation [Dianthus]. 121588
Mineral *nutrition* and the yield of winter wheat as related to systematic application of fertilizers in a crop rotation on typical Chernozem. 124942
Effect of irrigation regime and **mineral** *nutrition* on the yield of seeds [of sugarbeets] and their productive properties. 125244
Body weight as a health index: a **minicourse** in *nutrition.* 116446
The effect of spacing of children on the *nutrition* and **mortality** of under-fives. 116391
Nutritive **muscular** dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of "white muscle disease in young cattle. 119202
Nutritive **muscular** dystrophy in cattle. 7. Epizootiology of "white muscle disease" in calves fed on milk. 119203
Nutritional **needs** of oral contraceptive users. 116325
Weight regulation in hamsters and rats: differences in the effects of exercise and **neonatal** *nutrition.* 116386
The *nutrition* of the **newborn** calf. 117979
Nitrogen *nutrition* of Myriophyllum spicatum: variation of plant tissue nitrogen concentration with season and site in lake Wingra. 121068
Nitrogen *nutrition* of Myriophyllum spicatum: uptake and translocation of 15N [nitrogen isotope] by shoots and roots. 121069
The significance of **nitrogen** *nutrition* to the seed yield and its relating characters of soybeans, with special reference to cool summer injury. 125064
Effect of **nitrogen** *nutrition* of barley on the yield formation and brewing characteristics of grain. 125080
A self-instruction/lecture approach to *nutrition* for **non-majors** [Education]. 116445
Realized and potential neutralization of mutant genes in man by *nutritional* selection. 116327
Essential fatty acid deficiency in adults receiving total **parenteral** *nutrition.* 116279
Nutritional **pattern** and health status of the population in the Ukrainian SSR. 116565
Present day state and future prospects for the study of the *nutritional* **pattern** among residents of Kazakhstan. 116566
Nutrition of **peat** composts. 124999
Nutrition: does the **physician** know enough? 116545
The importance of taxonomy and of laboratory studies on the biology, *nutrition* and **physiology** of insects infesting stored products. 123567
Effect of some *nutritional* **plant** sprays on the population of Tetranychus arabicus (Attiah) (Acarina, Tetranychidae) [for controlling mites]. 123223
Role of microorganisms in soil fertility and **plant** *nutrition.* 124981
A new term for plant fibers in *nutrition* [**Plantix**]. 116274

Changes of the vitamin and mineral content of *nutritional* **plants** due to technological treatment. 116317
Poor *nutrition* makes orthodontists rich. 116533
Potassium *nutrition* of plants and the effectiveness of potassium fertilizers [as related to soil chemical properties]. 124943
Importance of selenium in **poultry** *nutrition.* 118141
Poultry *nutrition* research, 1973. 118147
Poultry *nutrition* research, 1974. 118148
The food industry in developing countries and *nutritional* **problems.** 116304
Spin-off benefits in *nutrition* **programmes** [India Population Project]. 116390
Disc microbiological method for the determination of lysine or methionine in protein hydrolysates *[Nutritional* **quality].** 116504
Cereal grains: their protein components and *nutritional* **quality.** 116556
Formation of pea-white mustard [Sinapis alba] and pea-barley agrophytocoenoses *[Nutritive* **relationships].** 120459
Results of a seven year trial of *nutrition* **replacement** in autumn- and winter-pears. 125024
Foods from the past, lessons for the future *[Nutritional* **requirements].** 116544
Nutritional **requirements** and metabolic inhibition of some acarid mites [Tyrophagus putrescentiae, Caloglyphus berlesei, control]. 123547
Nutritional status measures as predictors of *nutritional* **risk** in preschool children [United States]. 116288
Efficiency and effectiveness in the W.I.C. Program delivery system. The Special Supplemental Food Program for Women, Infants, and Children [intended to serve individuals at *"nutritional* **risk"].** 116484
Nutritional status measures as predictors of *nutritional* **risk** in the ten state nutrition survey. 116507
Ruminant *nutrition* research, 1973 [Sheep, cattle]. 118150
Ruminant *nutrition* research, 1974 [Cattle]. 118151
An introduction to the work and aims on *nutritional* **science.** 116328
Nutrition **science** in the ninth Five Year Plan Period. 116564
Physiology of *nutrition* of **sedentary** endoparasitic plant nematodes. 123005
Characteristics of food stamp households: a report on the survey conducted by FNS [Food and *Nutrition* **Service].** 116332
Establishing three demonstration models for delivery of *nutrition* **services:** a research project. 116409
A *nutritional* **shield** against the arrows of stress [Vitamins, minerals, and other concentrated supplements]. 116528
Role of protein degradation in the growth of livers after a *nutritional* **shift** [Mice]. 116299
Nutrition, a **social** problem. 116302
Nutritional status measures as predictors of nutritional risk in the ten **state** *nutrition* survey. 116507
Nutritional **status** measures as predictors of nutritional risk in preschool children [United States]. 116288
Nutritional **status** measures as predictors of nutritional risk in the ten state nutrition survey. 116507
Growth and development of three [rural] Yugoslav populations in different ecological settings [Anthropometric and *nutritional* **studies].** 116282
Ecological and *nutritional* **studies** on Dinobryon [divergens] Ehrenb.: seasonal periodicity and the phosphate toxicity problem. 121233
Alginanes [extracted from brown algae Phaeophyceae] in *nutrition.* **Study** in rats. 116305
Purification and properties of the dihydrofolate synthetase from Serratia indica *[Nutrition* **study].** 116460
1,25-dihydroxycholecalciferol and induction of alkaline phosphatase in organ culture *[Nutrition* **study].** 116463
A plain man's guide to energy **[Swine,** *nutrition].* 118132
Making the most of energy **[Swine,** *nutrition].* 118133
Swine *nutrition* research, 1973. 118152
Swine *nutrition* research, 1974. 118153
Ascorbic acid and other chelating agents in the **trace-mineral** *nutrition* of the aphid Myzus persicae on artificial diets. 123884
Compost not *nutritious* but still **useful.** 125002
Economic and social importance of the fruit-juice industry *[Nutritive* **value** of foods]. 115928
I'll take honey, thank you *[Nutritive* **value].** 116530
Sunflower power can energize your family *[Nutritive* **value].** 116534
Nutritional **value** and acceptability by humans of vegetable textured proteins. 116546
A comparative study on chemical examinations [for *nutritive* **value]** of banana powders prepared by different methods. 117273
Studies on assessment of quality of roughage. 4. The assessment of *nutritive* **value** of grass silage by the cellulase method. 117376
The studies on the development of a whole-crop feed. 1. The quality and *nutritive* **value** of whole-crop silages made of oats, wheat and barley. 117378
Nutritive **value** of broken rice and ground flint corn for young pigs and rats. 118033
Digestibility and *nutritive* **value** of pangola grass (Digitaria decumbens Stent) in relation to nitrogen fertilization and harvesting time [Lambs fattening]. 118044
Studies on the effect of prolonged storage and antioxidant supplementation on *nutritive* **value** of rice polish [Poultry feed]. 118144
Mineral quality from the viewpoint of the practitioner [Feed supplements, *nutritive* **value,** cattle]. 118161
Proteins and alkyloresorcinols in rye grain [and other species of Secale; *nutritive* **value** as feed]. 121465
The indexes of alkyl resorcinols content in rye grain *[Nutritive* **value** as feed]. 121470
Amino acids limiting the *nutritional* **value** of rye grain protein [Varieties, testing, Poland]. 121932
Genetics and environment in the pathogenesis of *nutritional* **[vitamin** D-responsive] rickets. 116516
Effect of different planes of *nutrition* on **water** metabolism in dry Zebu cows. 118077
Social, scientific and biological problems of cereal research and production; a contribution to the **world's** *nutrition* problem. I. The importance of cereal production for human nutrition in the past, present and future. 116571
Social, scientific and biological problems of cereal research and production; a contribution to the **world's** *nutrition* problem. II. Physiological aspects of cereal production. 121580
Effect of the nematode Pratylenchus brachyurus on the growth, *nutrition* and **yields** of "Smooth Cayenne" pineapple. Influence of fertilizer placement. 122928
Zinc *nutrition* of onions as influenced by phosphorus. 121695

NUTRITIONISTS

George Raymond Cowgill, Ph.D., D.Sc. (1893-1973); a biographical sketch *[Nutritionists,* **U.s.].** 116433
Dr. Mary V. **Zaehringer** *[Nutritionists].* 116292

NUTS

Triple [feed] *nuts* for **beef** production. 118025
Succession of [insect] infestation in **illipe** *nuts* in Sarawak an example of a cash crop problem. 123559
Studies on controlling the Indian meal moth, Plodia interpunctella Hbn., by ionising radiation **[Pest** of *nuts].* 123373
Immunoelectrophoretic study of some *nut-bearing* **pines.** 121796
Effects of four rootstocks on yield and quality of pistachio **[Pistacia]** *nuts.* 121703

NYMPHALIDAE

Libytheana **bachmannii** *(Nymphalidae)* in connecticut. 124320
Charaxinae *(Nymphalidae):* Old World versus New. 124316
A melanized form of Argyronome ruslana lyssipe Janson (Lepidoptera: *Nymphalidae)* **collected** from Sanada-machi, Chiisagata-gun, Nagano-prefecture. 124107
Larval morph variation in Chlosyne **lacinia** *(Nymphalidae)* [Influence of genetic modifiers and/or environmental factors]. 124061
Phenotypic diversity, mimicry and natural selection in the african butterfly Hypolimnas misippus L. **(Lepidoptera:** *Nymphalidae).* 123828
Description of the female of Charaxes acraeoides Druce **(Lepidoptera,** *Nymphalidae).* 124267
Note on Charaxes kheili Staudinger and Charaxes northcotti W. Rothschild, with descriptions of females **(Lepidoptera,** *Nymphalidae).* 124268
Apatura ilia nattani ssp. N. From Hungary **(Lepidoptera,** *Nymphalidae).* 124427
A fake Heliconius (Lepidoptera, *Nymphalidae)* **[Nomenclature].** 124461
A migration of Vanessa kerhawi (McCoy) (Lepidoptera: *Nymphalidae)* in **Tasmania.** 123821
Mass hibernation site for *Nymphalis* **vau-album** (Nymphalidae). 124062

NYMPHS

Tick paralysis in a sheep caused by *nymphs* of **Amblyomma** variegatum. A preliminary report. 123681
Composition of the scents of eight east African hemipterans. *Nymph-adult* **chemical** polymorphism in Coreids [Hemiptera, Coreidae]. 123800
Simulated rainfall and wind as factors **dislodging** *nymphs* of the cotton fleahopper, Pseudatomoscelis seriatus (Reuter), from cotton plants. 123349
Identification of *nymphal* **instars** of Aphis craccivora Koch. (Aphididae, Homoptera). 124154
Mucormycosis caused by Absidia corymbifera in the *nymph* **nodes** of swine. 118846
Prey selection by a setipalpian **stonefly** *nymph,* Acroneuria (Calineuria) californica Banks (Plecoptera: Perlidae). 123883
The effect of copper on the oxygen consumption rates of the **stonefly** *nymph,* Phasganophora capitata (Pictet) (Plecoptera). 125369
Suspected cannibalism in survival of *nymphs* of **Triatoma** protracta navajoensis. 124122

OAK

Patterns of life in woodland communities. 15. Some strange galls of the *oak* **[Andricus** quercuscalicis, Andricus lignicolus]. 123499
Red oak [Quercus borealis] and **bur** *oak* [Quercus macrocarpa] in the Mariupol' Forest Experimental Station. 119556
Effect of fast-growing [tree] species on the growth and condition of **common** *oak* [Quercus robur] in [shelterbelt] plantings created by a strip type of mixing on the soils of the Kamennaia Step'. 119411
Natural regeneration and development of **English** *oak* (Quercus robur L.) and common hornbeam (Carpinus betulus L.) in the Krakovo virgin forest preserve. 119595
Changes in the intensity of protein synthesis in the embryo axes of northern red oak (Quercus borealis Michx.) and **English** *oak* (Quercus robur L.) during storage under controlled conditions. 121791
Decays [Polyporus sulphureus, Polyporus frondosus] in *oaks* in the **Forest** of Dean [England]. 122770
Control of a leafroller moth, Tortrix viridana, in an *oak-dominated* **forest** in the Main Botanical Garden [of the USSR Academy of Sciences. 123448
Three species of *oak* **powdery** mildews [Microsphaera alphitoides, Microsphaera hypophylla, Phyllactinia roboris]. 122616
Speeding up *oak* **[Quercus]** production with extended daylength. 122256
Experimental pathologic structures in the *oak* **[Quercus]** in relation to histology of natural tumors. 123031
Red *oak* [Quercus borealis] and bur oak [Quercus macrocarpa] in the Mariupol' Forest Experimental Station. 119556
Changes in the intensity of protein synthesis in the embryo axes of northern **red** *oak* (Quercus borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
Starch content of *oak* **roots** on campsites [Quercus alba, Quercus velutina, Quercus coccinea]. 121834
Effect of forest litter in shelterbelts in the Kamennaia Steppe on the emergence and development of *oak* **seedlings** [Quercus]. 121833

OATGRASS

Morphological variations of tall **meadow** *oatgrass* [Arrhenatherum elatius] in relation to its growing conditions. 120472

OATS

Similarities between L-phenylalanine and m-fluorophenylalanine as substrates for L-phenylalanine **ammonia-lyase** *[Oats].* 121529
Oats: **Avena** spp. (Gramineae-Aveneae). 121953
Regularity in the action of nitrogen in the main forms of nitrogenous fertilizers used at various rates [Effect on the yield of spring wheat, *oats,* **barley].** 124945
Relationships between metabolizable energy values for poultry and some physical and chemical data describing Canadian wheats, *oats* and **barleys.** 118039
Ensilage of *oat* with **berseem** [clover]/concentrate mixture. 117349
Effect of *oat* **companion** crop on the growth and yield of grasses and legumes [in Hokkaido]. 122101
Oats **[Cultivation].** 121850
Frit fly [Oscinella frit] damage to *oat* **grain**—an often overlooked phenomenon. 123356
Behavior of cultivars of Avena *[oat]* **grown** as spaced plants and at normal density. 122114
Initiation of resistance and host cell collapse in the hypersensitive reaction of *oat* **leaves** against Puccinia coronata avenae. 122707
Forms of natural and introduced zinc in soils and its uptake in plants [Contamination with radioactive zinc 65 isotope tested on *oats* and **maize].** 116018
Availability of "natural" and "residual" phosphates for [barley and *oats]* **plants** in Sod-Podzolic soils. 121398
The effect of the cereal cyst nematode [Heterodera avenae] on absorption and translocation of nutrients by the roots of *oat* **plants.** 122894
Wheat and *oat* **production.** 121898
Effect of the allelopathic factor on the activity of adenosinetriphosphatase in plants [Red clover, *oats,* **rape].** 121461
Histochemical study of allelopathic effect of cultivated plants *[oats,* **rape,** rye] on quackgrass [Agropyron repens]. 123084
Study of [fungus] disease resistance of stock and breeding material of winter wheat, barley, *oats* and **red** clover. 122626
Uptake of mevalonate and acetate during plastid development *[Oat* **seedlings].** 121424
Races of Puccinia graminis f. Sp. Avenae [stem rust of *oats]* in the **U.S.A.** during 1975. 122758
The studies on the development of a whole-crop feed. 1. The quality and nutritive value of whole-crop silages made of *oats,* **wheat** and barley. 117378
State inspection in Trondelag for **wild** *oats* [Avena fatua] in seed grain. 117134
Barban nitrogen combinations for **wild** *oat* control in wheat. 123115
The effect of germination stimulators on **wild** *oat* (Avena fatua L.) emergence in the field [Weed control]. 123153
Variation among **wild** *oat* [Avena fatua] biotypes. 123161
Wild *oat* [Avena fatua] control in spring-seeded wheat and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Wild *oat* [Avena fatua] control in barley with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123170
A study of effects of different storage conditions on survival of **wild** *oat* (Avena fatua) seeds. 123187

Alteration of protein content in plants [of barley, *oats* and **winter** rye] in relation to the methods of its determination, fixation and temperature of drying of the plant material. 121397

OBESITY
Biotin status and lipid metabolism in **adult** *obese* hypercholesterolemic inbred rats. 116492
Improvement in jejunal enzyme adaptation in *obese* **adult-onset** diabetic patients following a 30-day fast [Diet]. 116283
Studies of taste in **childhood** *obesity*. 116379
Appetite and hunger in **experimental** *obesity* syndromes. 116351
The relationship between external responsiveness and the development and maintenance of *obesity* [**Feeding** behavior]. 116382
Ineffectiveness of human chorionic gonadotropin in weight reduction: a double-blind **study** *[Obesity]*. 116284
Obesity in **young** men after famine exposure in utero and early infancy. 116491

OBSTRUCTION
Induced feline urethral obstruction: response to hyperkalemia to relief of *obstruction* and **administration** of parenteral electrolyte solution. 119110
Obstructive **urethritis** in the female dog (a report of three cases). 119218

OCCIPITAL
Morphology of the *occipital* **region** in Hepialidae and Cossidae (Lepidoptera) of Japan. 124108

OCCLUSION
Occluded and **nonoccluded** nuclear polyhedrosis virus grown in Trichoplusia ni: comparative neutralization, comparative infectiviry, and in vitro growth studies. 124071

OCCUPATIONS
The *occupation* of the **farm** tractor driver. IV. [Colombia]. 124660
Development of *careers* after **graduation** from the [French] National Institute of Agronomy by comparative study of the years 1953, 1958, 1963 and 1968. 115123
Career **opportunities** for [agricultural] pilots [in agricultural aviation]. 115204
OSHA *[Occupational* **Safety** and Health Act] and the cotton industry. 115828
Status report: OSHA *[Occupational* **Safety** and Health act] in cotton ginning operations. 115829
Students, start your *career* in **SCS** [Soil Conservation Service] before you graduate. 124838
Towards a policy for a *career* **structure** in ornamental horticulture [Education]. 122263

OCHRATOXIN
A rapid screening method for the aflatoxins and *ochratoxin* A [in **products**]. 116183

OCHROMONAS
Secretion of beta-glucosidase by *Ochromonas* **danica** [Algae]. 120915
Metabolism of 2,4-3H-14alpha-methyl-5alpha-ergost-8-enol and 2,4-3H [hydrogen isotope]-5alpha-ergosta-8,14-dienol in *ochromonas* **malhamensis** [Algae]. 121236

OCIMUM
The newly evolved **strains** in *Ocimum*. 120821

OCULAR ***see*** **EYES**

ODAGMIA
Relative response to coloured substrates by ovipositing black-flies (Diptera, Simuliidae). II. Oviposition by **Simulium** *(Odagmia)* ornatum Meigen. 123651

ODONATA
Size variations of some species of **Agrionidae** *(Odonata)* of Japan. 124109
Notes on the distribution of **Australian** *Odonata*. 124234
Multivariate analysis of geographic variation in Libellula luctuosa **Burmeister** *(Odonata:* Libellulidae). 124400
Contribution to the fauna of **Gabon** *Odonata*. 1. [New taxa]. 124223
Further observations on the functional morphology of the head and mouthparts of dragonfly **larvae** *(Odonata)* [Aeshna interrupta lineata, Libellula quadrimaculata]. 124135
A reassessment of the numerical distribution of watermites (Arrenurus spp.) on dragonflies *[Odonata]* in **relation** to parasitism and dispersal. 123769

ODOR
Slime and *odor* **elimination** in process water of the paper industry [Air and water pollution]. 125538
Studies on the *pungent* **principle** of Capsicum fruits [bush redpeppers]. IV. The relations between the qualities of Capsicum fruit and its production. 121723
Chemotaxis and the *odor* of **seaweed** [Dictyopteris plagiogramma and Dictyopteris australis]. 121249
Treating *odours* arising from the storage of blood. 125429
Surveillance and control of phenolic tastes and *odors* in **water** to prevent their effects on taste and flavor of foods. 116639

OESTRIDAE
Control of warble fies *[Oestridae]* and **blood-sucking** insects [Diptera] in the Magadan Region [Pests of reindeer]. 123630
Present methods of controlling warble flies *[Oestridae]* and **blood-sucking** Diptera in northern reindeer husbandry. 123631
Prospects of controlling warble flies *[Oestridae]* and **blood-sucking** Diptera in the north-eastern zone [Pests of reindeer]. 123632

OIDIUM
Disease control in grape cultures—real **mildew** *(Oidium)*. 122692

OIL
Removal of sanguinarine from edible oils contaminated with **argemone** *oil* [Argemone mexicana]. 116169
Fatty acid composition of the *oil* of different **avocado** varieties cultivated in Sao Paulo State. 117309
Absolute configuration of (-)-massoilactone as confirmed by a synthesis of its (S)-(+)-isomer [**Bark** *oil* of Cryptocarya massoia]. 119644
Cardiopathogenicity of rapeseed oils and *oil* **blends** differing in erucic, linoleic, and linolenic acid content [Rats]. 116478
Keeping quality of commercial **butter** *oil* stored at different storage temperatures. 116885
Oil **contamination** of cotton in harvesting. 117094
Determination of monoglycerides in **crude** *oils* and fats. 116770
Distribution of *oil* or other **diethyl** ether extractable material in various fractions of peanuts infected with selected fungi. 122643
Removal of sanguinarine from **edible** *oils* contaminated with argemone oil [Argemone mexicana]. 116169
Women are participating in research at the Institute for **Edible** *Oil* and Margarine. 116792
New **essential** *oil* plant—Hesperis matronalis L. 119866
Comparative anatomic and chemical studies of six selected species of the genus Ruta. II. Content of the **essential** *oil* at different development phases and vegetation periods. 120852
Effects of N:P:K [nitrogen: phosphorus: potassium] fertilizers on growth, development & **essential** *oil* content of Mentha spp. 121134
Investigation of secondary plant substances. I. **Essential** *oils* [Umbelliferae, Labiatae]. 121276
Acidic composition of *oil* **extracted** from Musca [Sarcophaga] carnaria larva. 124148
Use of electron spectroscopy for chemical analyses (ESCA) in a study of *oil-repellent* **finishes** [of textiles, cotton fabrics]. 117202
Oxidized lipids-proteins browning reaction. II. Effect of the protein substrate [**Fish** *oil* rancidity]. 116256
Studies on denaturants that can be added to powdered milk [used as feed]. II. [**Fish** *oil* in calf fattening]. 117352
Composition of the sterolic fraction of some **food** *oils*. 116648
Some constituents in the **fragant** *oil* of Satureja gilliesii (Grah.) Briq. 116650
Water-soluble components of four **fuel** *oils:* chemical characterization and effects on growth of microalgae. 121269
Flow properties of **heated** *oils*. 2. Flow properties and polymerization of fatty acids of soybean oils. 117132
Chromatographic column fractionation and fatty acid composition of different lipid classes of **linseed** *oil*. 117152
Record world production of edible **olive** *oil* forecast for 1975/76 [Statistics]. 115631
Pakistan's *fats/oils* imports to remain high in 1976. 115655
Malaysia streamlining and strengthening **palm** *oil* sector. 115851
The effect of beta-carotene on the stability of **palm** *oil*. 116824
Oil **palm:** Elaeis guineensis (Palmae). 122533
World production and trade of **peanut** *oil* and meal up [Statistics]. 115635
Abnormal rearrangement of isoprenoid epoxide: synthesis of 7-methoxy-8(2'-formyl-2'methyl-propyl)-coumarin, the lactonic constituent of grapefruit **peel** *oil* of Citrus decumana Linn. (Rutaceae). 117230
Influence of spray adjuvants and multiple applications of benomyl and *oil* on **photosynthesis** of apples leaves [Apple scab, Venturia inaequalis]. 122620
Effect of some phenolic compounds of the *oil* **poppy** [Papaver] placenta on the embryogeny of isolated ovules. 121028
Oiling-off **properties** and microscopic structures of butter, margarine, and soft-type margarine. 116857
Soybeans, an important source of **proteins** and *oil*. 117169
Development of Heterodera schachtii in the roots of winter rape and *oil* **radish**. 123047
Cardiopathogenicity of **rapeseed** *oils* and oil blends differing in erucic, linoleic, and linolenic acid content [Rats]. 116478
Performance of mycocardial and blood seral changes in pigs fed diets containing high or low erucic acid **rapeseed** *oils*. 118034
Growth and cardiopathology in boars fed **rapeseed** *oil*. 119086
Comparative anatomical-chemical studies of six selected species of the genus Ruta. I. Generation, development and numbers of *oil* **receptacles**. 120851
U.S. Edible fats and *oils* **refining** capacities, 1975. 117106
World exports of oilseeds, fats and *oils* to **register** above-trend gains in 1976 [Statistics]. 115634
Gas-liquid chromatographic determination of vitamin D3 in tuna liver and vitamin D3 **resin** *oils*. 116458
Chromatographic determination of cis-trans monoethylenic unsaturation in fats and *oils*—a **review**. 116778
Effect of dietary fat on hepatic metabolism of 14C [carbon isotope]-oleic acid and very low density lipoprotein triglyceride in the gerbil [Coconut or **safflower** *oil]*. 116425
The sterolic fraction of tomato **seed** *oil* (Lycopersicon esculentum Miller). 117319
Removal of *oily* **soils**. 2. The relation of yellowing and residue with hard ions on [laundered] fabrics. 116598
U.S. Soybean growers may benefit from French push on **soy** *oil*. 115589
Mixture of gums replaces **soybean** *oil*—savings are significant [Gum tragacanth]. 116744
Flow properties of heated oils. 2. Flow properties and polymerization of fatty acids of **soybean** *oils*. 117132
Alteration of **soybean** *oil* composition by plant breeding. 120765
The influence of leaf surface roughness on the spreading of *oil* **spray** drops. 120407
The mechanisms of photosynthetic inhibition and the development of scorch in tomato plants treated with **spray** *oils*. 121594
U.S. Fats and *oils* **statistics**, 1960-75. 115785
U.S. Farm products still **striking** *oil* in Mideast [Trade]. 115668
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid chromatography-mass spectrometry] of methoxy derivatives of sterols [Olive and **sunflower** *oils* were employed]. 117318
Microbial conversion of **tall** *oil* sterols to C19 steroids. 119726
A treatment to preserve **tall** *oil* during chip storage. 119813
Yield and compostion of **tall** *oil* from oxygen-alkali pulped thermomechanical fiber. 119826
Chromosome numbers for **three** *essential-oil* bearing plants: cephalophora aromatica Schrad., Origanum majorana L. and Origanum heracleoticum L. 120022
Estimating marketing margin cost components: an application of simulation to products of the **vegetable** *oil* industry. 116004
Vegetable *oils* and animal fats as renewable resources for plastics and coatings applications. 116806
New sources of edible **vegetable** *oils*. 116814
Lipid oxidation. 4. Products of thermooxidative polymerization of **vegetable** *oils*. 117308
World *oil* and meal output rise forecast for 1976. 115831
U.S. Soybean shortfall reduces **world's** *oil* supplies for 1975. 115591

OILPALM
Reflections on the nutritional and fertilizer requirements of the **African** *oilpalm* [Elaeis guineensis]. 124961

OILSEED
Portugal to buy U.S. Grain, *oilseeds,* **cotton**. 115656
Tailoring rapeseed and other *oilseed* **crops** to the market. 115582
World exports of *oilseeds,* **fats** and oils to register above-trend gains in 1976 [Statistics]. 115634
Oilseed **meal** imports up in six markets. 115654
Instruments of the agricultural and commercial policy for adjustment of production to demand on the world markets for *oilseeds* and their **processed** products. 115763
Growth of *oilseed* **rape** under anaerobic conditions [Waterlogged soil]. 121418
Effects of planting pattern and sowing method on the seed yield of safflower, *oilseed* **rape,** and lupin. 122048
Canada likely to harvest smaller crop of *oilseeds* **[Trade]**. 115643

OKRA
Okra: **Abelmoschus** esculentus (Malvaceae). 122368

OLEA
A strange olive-fig **complex** *(Olea* europea L.-Ficus carica L.). 120437
Olive: *Olea* **europaea** (Oleaceae). 122369

OLEACEAE
Olive: Olea **europaea** *(Oleaceae)*. 122369

OLEIC
Effect of dietary fat on hepatic metabolism of 14C [**carbon** *isotope]-oleic* acid and very low density lipoprotein triglyceride in the gerbil [Coconut or safflower oil]. 116425

OLFACTORY
Olfactory **behavior** of Ips pini (Say) (Coleoptera: Scolytidae) during host invasions and colonization of lodgepole pine [Pinus conterta latifolia]. 123450
Electrophysiological reaction of *olfaction* of the **codling** moth, Laspeyresia pomonella L., as a possible fast method for determining the toxicity and content of insecticides. 123391
Olfactory **responses** of face files, Musca autumnalis, to bovine feces. 123601

OLIGOMYCIN
Oligomycin **sensitivity** of the mitochondrial ATPase [adenosine triphosphatase] as a marker for fly transmissability and the presence of functional kinetoplast DNA in African trypanosomes. 123619

OLIGONITROPHYLLIC
Production of B complex vitamins by *oligonitrophyllic* **microorganisms** [Soil bacteria]. 124821
Production of free amino acids by *oligonitrophyllic* **microorganisms** [Soil nitrogen-fixing bacteria]. 124822
Production of gibberellin and gibberellin-like substances by *oligonitrophyllic* **[soil]** microorganisms. 124823

OLIGONUCLEOTIDES
Binding of **complementary** *oligonucleotides* to amino-acylated tRNAPhe from yeast [Micrococcus luteus]. 120920

OLIGONYCHUS
Insect [Diatraea grandiosella, Southwestern corn borer] and mite *[Oligonychus* **pratensis,** Banks grass mite] control in corn. 123344
The development of pest-resistant sorghum [Contarinia sorghicola, *Oligonychus,* **Schizaphis** graminum]. 120781

OLIGOSACCHARIDE
Formation of polyprenol-linked mono- and *oligosaccharides* in **Phaseolus** aureus [mung beans]. 121600

OLIGOTROPHIC
Bacteriocenotic studies on some *oligotrophic* **biotopes** [Callitriche]. 121356
Integral quantitative methods of biological determination of water pollution in the conditions of a **large** *oligotrophic* reservoir. 125412
Peculiarities of the water-thermal balance of Vasyugan'ye and ways of transforming the nature of the areas of *oligotrophic* **swamping** [Drainage, afforestation]. 125232

OLIVES
Record world production of **edible** *olive* oil forecast for 1975/76 [Statistics]. 115631
Restructuration of the *olive* **grove.** 122175
2nd **International** *Olive* Culture Seminar, October 6-17, 1975, Cordoba. 122177
Olive: **Olea** europaea (Oleaceae). 122369
Pruning and **rejuvenation** *[Olives].* 122174
Spain's *olive* industry looks for new markets. 115662
Chalcid parasites of Prays oleae (Lepidoptera: Plutellidae) in Andalusia [for integrated control in **Spanish** *olive* orchards]. 123398
A **strange** *olive-fig* complex (Olea europea L.-Ficus carica L.). 120437
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid chromatography-mass spectrometry] of methoxy derivatives of sterols *[Olive* and **sunflower** oils were employed]. 117318
Research on the mineral nutrition of the *olive* **tree.** 121585
Rooting of *olive* **tree** cuttings. 121658

OMMOCHROME
Quantitative analysis of drosopterins and *ommochromes* in **Drosophila** melanogaster. 123838
Interralationsips between pterin and *ommochrome* **pigments** in Drosophila melanogaster. III. Xanthommatin content in wild type, mal, bw, and mal bw double mutant. 123837
The tryptophan metabolism and the increase of *ommochromes* **synthesis** during the embryonic development of Carausius morosus. 124055

ONAGRACEAE
Ultrastructural survey of *Onagraceae* **pollen.** 120518

ONCHOCERCA
Reactions to subconjunctival inoculation of *Onchocerca* **volvulus** microfilariae in pre-immunized rabbits. 118971

ONCOPELTUS
The interaction of juvenile hormone and ecdysone: antagonistic, synergistic, or permissive? [Hyalophora cecropia, *Oncopeltus* **fasciatus].** 123957

ONIONS
Absorption and movement of 14C [carbon isotopes]-labelled mH [maleic hydrazide] and 2,4-D [2,4-dichlorophenoxyacetic **acid**] in *onions.* 121694
Onion and **allies:** Allium (Liliaceae). 122370
The effect of defoliation on storage potential of bulbs of the *onion* **(Allium** cepa). 117217
Study of the stomatal apparatus in the leaves of different species of *onions* **[Allium]** in relation to their resistance to downy mildew [Peronospora destructor]. 120424
Some inbreeding effects in *onion,* **Allium** cepa L. 120649
Toxic effects of lead on growth & metabolism of germinating rice (Oryza sativa L.) seeds & on mitosis of *onion* **(Allium** cepa L.) root tip cells. 122952
Translocation and transfer of nutrients in vesicular-arbuscular mycorrhizas [roots of *onion].* I. The **arbuscule** and phosphorus transfer: a quantitative ultrastructural study. 121743
Comparative studies of different production systems for early crops of **bulb** *onions.* 122398
Effects of bracken (Pteridium aquilinum) frond extract on mitosis in Allium **cepa** *[Onions].* 120473
A note on the effect of ethylene diamine tetraacetic acid and ferrous ammonium sulphate on yield of Allium **cepa** *[Onions].* 121778
Effect of bark extracts on mitosis in Allium **cepa** *[Onions].* 122949
The effects of the glycoside "morindine" on mitotic **chromosomes** *[Onions].* 120454
Incorporation of tritiated thymidine in germinal and somatic cells of the *onion* **fly,** Hylemya antiqua (Diptera: Anthomyidae), as determined by autoradiography. 123889
Onions, an **important** spice vegetable. 117246
Zinc nutrition of *onions* as **influenced** by phosphorus. 121695
Freeze-drying as an alternative method for lowering seed moisture *[Onions,* **peppers,** parsley]. 121764
The shape of things to come crab cakes, shrimp shapes, *onion* **rings,** fish filets. 116628
Specific structure and pollen gathering of Hymenoptera visitors of blooming **seed** *onion* fields and their food plant relationships. 124152
Influence of Cynkotox (zineb) on mitotic activity and course of mitosis in root meristem of Allium cepa L. **seedlings** *[Onions].* 122617
Response of 'Sweet **Spanish'** *onion* to soil-applied zinc. 121714
Interpretation of supermolecular organization of photosynthetic membranes [in algae and some higher plants, peas, *onion,* **spinach].** 121033
Karyotype of the *onion* and its **taxonomic** implications [Chromosomes, variations]. 120529
Induction of meiotic anomalies in Allium cepa L. *[Onions]* by **urea.** 120474
Effect of ethephon on rate of bulb enlargement, maturity, and **yield** in *onions.* 121665
Effects of fertilizer and moisture on seed **yield** of *onion.* 122335

ONISCUS
Copper storage bodies in the hepatopancreas of the isopod, *Oniscus* **asellus.** 124126

ONOBRYCHIS
Pathogenicity of Fusarium solani on **sainfoin** *(Onobrychis* viciifolia) [Root and crown rot]. 122754

ONOCLEA
An interpretation of dose-response curves for light-induced cell elongation in fern protonemata *[Onoclea* **sensibilis** Dryopteris filix-mas]. 120863
Rhizoid differentiation in fern *[Onoclea* **sensibilis]** spores: experimental manipulation. 121353

ONTOGENY
Changes of the content of lipid and carbohydrate metabolites in the lymph of **cattle** in *ontogenesis.* 117930
Ontogenetic **changes** in the haemoglobins of geese, ducks, chickens and turkeys. 117636
Observations on Ceratocystis adiposa [rot fungus on tomatoes] and the **conidial** *ontogeny* of its imperfect state. 122789
Conidium *ontogeny* in some monophialidic Hyphomycetes [Fungi]. 120499
Connecting *ontogenic* events in seeds to the ultrastructural and molecular levels. 121083
Morphological observations on Polyaspis patavinus Berlese 1881 (Acari: Uropodida). I. Morphology of the idiosoma during *ontogenetic* **development.** 123774
Contribution to the study of systematics, taxonomy, *ontogeny,* **ecology** and distribution of Tarsonemidae. II. (Acari, tarsonemida) [New taxa]. 124430
Contributions to the morphology and systematics of Klugieae and Loxonieae (Gesneriaceae). II. Morphology, anatomy and *ontogenesis* of the **flowers** of Monophyllaea R. Br. 120432
Foliar *ontogenesis* and leaf lobing of Tropaeolum peregrinum L. II. The development of the lobe after the formation of the lobulets. 120895
Changes in subfraction composition of chicken lysine-rich **histone** during *ontogenesis.* 117605
Ovule *ontogeny* and seed coat structure of Scrophularia himalensis Royle. 120433
Peculiarities of the dynamics of bioelectric parameters of maize mutants with a high effect of general combining ability in the **process** of *ontogenesis.* 120710
The influence of Salmonella resistance in chicks during the early **stage** of *ontogenesis.* 118934
Differences in the polymerization of actin, isolated at different *ontogenesis* **stages,** after its purification [Rabbits]. 117607
Contribution to the *ontogenic* **study** of foliar secretory pockets. New investigations on Myrtaceae. 120564
Structure, *ontogeny* and **taxonomic** significance of stomata in some Cucurbitaceae. 120015
The *ontogeny* of the **vascular** cambium in Hoheria angustifolia Raoul. 121308

OOCYTE
Storage of **mammalian** *oocytes* and embryos: a review. 118245
Ecdysone and *oocyte* **morphogenesis** in Bombyx mori. 124545
Follicle cell protein synthesis and its contribution to the yolk of the Cecropia **moth** *oocyte.* 123876
Absence of rDNA amplification in the **uninucleolate** *oocyte* of the cockroach Blattella germanica (Orthoptera: Blattidae). 124019

OOENCYRTUS
Biological control in Morocco of the wheat bug Aelia germari. Comparative value of two egg eating parasites: Asolcus grandis and *Ooencyrtus* **fecundus** (Hymenoptera, Scelionidae and Encyrtidae). 123283

OOGENESIS
A genetic approach to the study of juvenile hormone control of *vitellogenesis* in **Drosophila** melanogaster. 123930
Neurosecretory activity as related to feeding, mating, and *oogenesis* in the **female** cave tick, Ornithodoros tholozani. 124048

OOMYCETE
Comparative study of hyphal wall components of *oomycetes* **[Fungi]:** Saprolegniaceae and Pythiaceae. 120868
Some aspects of the form and function of *Oomycete* **spores** [Fungi]. 120469

OPAQUE
The mechanism of synthesis of storage proteins in *opaque-2* **maize** analogs. 120817

OPERCULELLA
Susceptibility of twenty potato cultivars to the potato moth **[Phthorimaea** *operculella]* at Pukekohe: a preliminary assessment. 123423

OPEROPHTERA
Laboratory experiments with the use of bacterial preparations of Bacillus thuringiensis Berl. against *Operophtera* **brumata** L. 123496

OPHTHALMOLOGY
Problem-oriented *ophthalmology.* 2. Anterior uveitis. 118497

OPILIONES
Harvestmen, *Opiliones* **(Arachnoidea).** 124305
The phenology of Mitopus morio (Fabr.) *(Opiliones)* in **Norway.** 124118

OPIUM
Development of induced mutations in *opium* **poppy** [Papaver somniferum]. 120836

OPIUS
Biological control of the beanfly, Ophiomyia phaseoli (Diptera: Agromyzidae), by *Opius* spp. **(Hymenoptera:** Braconidae) in the Hawaiian Islands. 123397

OPOGONA
Control of *Opogona* **subcervinella** in Dracaena through fumigation with methyl bromide. 123401

OPTICS
Preparation of *optically* **active** proline. Optical resolution of N-acyl-DL-proline by preferential crystallization procedure [Pharmaceutical and food industries]. 116768
Reactions of protoberberine-type alkaloids. XI. Synthesis of *optically* **active** ochotensanes. 121368
Measurements of spectral reflectance and *optical* **constants** of selected rock samples for application to remote sensing of soil moisture. 124868
The neural superposition eye and its *optical* **demands** [Drosophila]. 124033
Research [tests] on the presence of subclinical bovine mastitis accomplished by means of somatic cell counting of bulk milk with the Autoanalyzer **II-OSCC** *(optic* somatic cell counter) in the province of Parma. 118946
Synthesis of *optically* **pure** (1S, 4S, 5S)-2-pinen-4-ol (cis-verbenol) and its antipode, the pheromone of Ips bark beetles. 123782
Preparation of optically active proline. *Optical* **resolution** of N-acyl-DL-proline by preferential crystallization procedure [Pharmaceutical and food industries]. 116768
Optical **vs.** Electronic enhancement of remote sensing imagery [for information as to the amount and condition of such earth resources as timber, forage, soils, water, minerals and agricultural crops. 125487

OPTIMIZATION
Optimal **carbon** source concentration for the pectolytic enzyme formation of aspergilli [Aspergillus awamori, Aspergillus foetidus, Fungi]. 121341
Computer-assisted *optimization* of sausage formulas. 116942
Modeling and *optimal* **control** of insect pest populations [Nezara viridula (Linnaeus), a major pest of soybeans]. 123322
Optimization of **diesel** electric units for livestock production. 124750
Study of the *optimal* **load** on White Ugni grapes on groies [Red Rendzina] soils [Pest and disease control, application of pesticides]. 122459
Cost distribution [in farming] *optimized* by **marginal** programming. 115401
Degree of *optimal* **maturity** of the grape in relation with the type of wine to process. 121768
Degree of *optimal* **maturity** of the grape in relation with the type of wine to process. 121769
Optimization in **multi-resource** inventories [Forestry]. 119476
Determination of *optimal* **norms** of water usage, irigation regime and techniques of irrigation following crops in a rice growing crops rotation in the conditions of the lower part of Ili River (1971-1974). 125219
Optimization of **processing:** problems of determining the most favorable conditions for [food] processing. 116719
A water **quality** *optimization* model for nonserial river systems. 125240
Optimization of **reaction** kinetic processes in the food industry, shown by example of the precipitation of milk protein. 116898
Development of an *optimal* **scheme** of a rotational utilization of water in the Old-Terek Irrigation System (1972-1973). 125220

Optimizing **soil** moisture conservation by mulch of hydrophobic aggregates using simulation and numerical search procedures. 125172
Optimal **temperature** of continuous processes in the food industry. 116788
Methodical premices for the determination of the *optimal* **variant** of the relative handing of share of profit in forestry. 119535

OPTIMUM
Optimum **application** of fertilizers to food and seed potatoes. 124984
Determination of **biologically** *optimum* temperature [Animals]. 117852
Optimum **conditions** for high-resolution gradient analysis [pea polyribosomes, southern bean mosaic virus]. 120406
Projecting by modern methods of *optimum* **crop** structure within the limits of activity of the Intercooperative Council seini, district of Maramures. 115434
The cooperation of milling and the bakery industry in the manufacture of *optimum* **flour** qualities. 117147
Partial purification of intra- and extra-cellular cellulases from Pyricularia oryzae [Fungi]: with reference to *optimum* pH **[hydrogen-ion** concentration] at alkaline side. 120860
The impact of energy prices on *optimum* **machinery** size and the structure of agriculture: a Georgia example. 115452
The historic sussex cattle, *optimum* **meat** producers [Breeds]. 118399
The production of *optimum* **particle** smokes in forest fires. 119347
Optimum **plant** hygiene, a basic prerequisite for quality food. 116091
Harvesting cereals at an *optimum* **rate.** 122067
Optimum **size** of plots on the slopes. 115290
Optimum **tetrazolium** staining of longleaf pine [Pinus palustris] seed [to estimate viability]. 121831
Optimum **time** of first irrigation [Wheat]. 125289
Windbreak design for *optimum* **wind** erosion control. 119400
Evaluation of conifer pulpwood quality—a contribution of *optimum* **wood** utilization. 119773
Evaluation of conifer pulpwood quality, a contribution to *optimum* **wood** utilization. II. 119774
Evaluation of conifer pulpwood quality, a contribution to *optimum* **wood** utilization. III. 119775

OPUNTIA
Electron microscopy of a new plant-pathogenic spiroplasma isolated from *Opuntia* **[tuna** monstrosa, Spiroplasma citri]. 122863

ORAL
Repair of an **acquired** *oral-nasal* fistula in a dog [Surgery]. 119119
Nutritional needs of *oral* **contraceptive** users. 116325
Effect of *oral* **contraceptives** and vitamin B6 supplements on alanine and glycine metabolism. 116277
A restraining device and *oral* **dosing** teching for the chinchilla (Chinchilla laniger). 118488
Problems of *oral* **immunisation** of swine. 118837
Results in *oral* and **intravaginal** application of megestrol-acetate for heat synchronisation of Merino sheep. 118373
Studies investigating the excretion of acetyl urea in the milk of dairy cows **receiving** *oral* doses of 14C [carbon isotope] acetyl urea. 117993
Administration of [the antibiotic] Chloramphenicol in cats. Serum concentrations after *oral,* **subcutaneous** and intramuscular application. 118647
Metering of intravenous **versus** *oral* nutrients and regulation of energy balance [Rats]. 116291
Delayed clearance of chylomicron remnants following **vitaminA-containing** *oral* fat loads in broad-beta disease (type IiI hyperlipoproteinemia). 116481

ORANGES
The economics of Florida's FCOJ [frozen **concentrated** *orange* juice] imports and exports: an econometric study. 115605
A two-pricing system for exporting frozen **concentrated** *orange* juice. 115749
Dried *orange* pulp versus ground corn ears in concentrated mixed rations for lactating dairy cows. 118159
Brazil extends its lead as *orange* **juice** exporter. 115641
Why natural *[orange* **juice]** is better. 116541
Comment on the contribution of H. Rother [on the article about citric acid in *orange* **juice].** 117239
Ratio of citric acid: isocitric acid in *orange* **juice.** On the work of B. Bergner-Lang, German food review, 71, 348 (1975). 117241
Atomic absorption spectrometric determination of eight trace metals in *orange* **juice** following hydrolytic preparation. 117275
Plate loop method for determining total viable count of *orange* **juice.** 117296
Contribution to the investigation of citrus sampling. II. Problem of the stratification of a **mandarin** *orange.* 122301
Creasng [disorder] of *orange* **peel**—physiology and control. 122975
Mycoplasmalike bodies associated with **rice** *orange* leaf disease [Recilia dorsalis as insect vector]. 122862
Brazil's **seesawing** *orange* trade. 115642
Reduction of peel roughness of **'Shamouti'** *orange* with growth regulators. 121712
The rough fruit condition [peel disorder] of the **Shamouti** *orange*—connections with the endogenous hormonal balance. 122977
Penetration of 59Fe [iron isotope] through isolated cuticles of citrus leaves [Sweet oranges, **sour** *oranges].* 121675
Glucose metabolism of *orange-colored* **Streptococcus** bovis [isolated from bovine rumen]. 117811
Synthesis and metabolic fate of hesperetin-3-14C [carbon isotpe, the predominant flavonoid in lemons and **sweet** *oranges].* 117279
Penetration of 59Fe [iron isotope] through isolated cuticles of citrus leaves **[Sweet** *oranges,* sour oranges]. 121675
Transport effect of some mineral nutrients and photosynthates with reference to stock-scion relationship in citrus. I. Citrus tankan and Citrus **unshiu** *[Oranges].* 121727
Cool storage to improve the quality of **Valencia** *oranges.* 117291
Preliminary studies on the measurement of evapotranspiration for **Valencia** *orange* in winter and spring in Taitung area. 121722

ORBIT
The interpretability of vegetation resources on various image types acquired from **earth** *orbiting* spacecraft [Remote sensing systems for identifying and delineating natural vegetation types]. 120372
Flood hazard studies in central Texas using *orbital* and **suborbital** remote sensing imagery. 125259

ORCHARDGRASS
Modifications of a cultivar of alfalfa and of its progenies induced by an initial **competition** with *cocksfoot.* 120799
Cocksfoot **[Dactylis]** in the dry [Cultivation]. 121901

ORCHARDS
Studies on the pollution of **apple** *orchard-surface* soils and its improvement in relation to inorganic spray residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Insecticide-resistant predatory mites [Typhlodromus pyri] feed on European red mite, Panonychus ulmi] in **apple** *orchards.* 123428
Irrigation management of young pecan [Carya illinoensis] *orchards* for **best** growth under saline conditions [Injuries]. 123027
Prevention of winter sunscald injury in Michigan **[cherry]** *orchards.* 122969
Application of high doses of phosphorus and potassium fertilizers before the establishment of a pome **fruit** *orchard.* 124919
Observed radiant loss from a **heated** *orchard* under frost conditions [Cold protection]. 122968
Fundamentals of irrigation of **industrial** *orchards* in the Havelland fruit culture area [East Germany]. 125368
Chalcid parasites of Prays oleae (Lepidoptera: Plutellidae) in Andalusia [for integrated control in Spanish **olive** *orchards].* 123398
Observations on the diffusion and detection of Sharka virus in a **peach** *orchard* in Aquitaine. 122858
Development of an integrated control program for *orchard* **pests** in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and sexual sterilization. 123422
Principles for planning industrially **producing** *orchards.* 115468
Seed *orchards* as a future source of seedlings [Artificial reforestation]. 119614
Grass and clover as organic matter on the spot *[Orchard* **soil** management]. 121936

ORCHIDACEAE
Thysanoptera of the genus Dichromothrips on Old **World** *Orchidaceae.* 123375

ORCHIDS
A recent history of *orchids* in **Australia.** 122191
Distribution and conservation of the *orchid* **calypso** bulbosa (L.) Reichb. f. in the Udmurt Autonomous Soviet Socialist Republic. 119957
Virus diseases of *orchids* **caused** by Cymbidium mosaic virus in Taiwan. 122845
Inorganic salts & differentiation of protocorms in seed callus of an *orchid* & **correlated** changes in its free amino acid content [Dendrobium fimbriatum]. 121691
Without benefit of heat *[Orchid* **culture].** 122194
Post-pollination phenomena in *orchid* **flowers** [Cymbidium]. VII. Phosphate movement among floral segments. 121590
Compatible *[orchid]* **genera** in a cold glasshouse. 122192
New Zealand exports *[Orchids,* **marketing].** 115568
Star *orchid:* Gomesa planifolia. 122193
Tropical *orchids* as an endangered plant group. 122298

ORDINATION
Problems in the implementation of IRD [integrated rural development] projects: **management** & *co-ordination.* 115881

ORGANIC
Decomposition of *organic* **acids** during processing and storage[of a processed food product]. 116781
On the regulation of the uptake of aminoacids, sugars and *organic* **acids** by Euglena gracilis, strain Z [Algae]. 121383
Distribution of dry matter among the **aerial** *organs* of various cultivars of kidney beans (Phaseolus vulgaris L.). 121648
Organic **amendments** and control of foot rot of Piper betle caused by Phytophthora parasitica var. piperina. 122570
The relation of energy and *organic* **carbon** in aquatic invertebrates [Includes insects]. 124072
A new look into *organic* **classroom** [at schools, colleges, workshops, farms, gardens, and kitchens]. 115188
Distribution of *organic* **compounds** in mechanical fractions of soils developed from boulder loams. 124894
The *organic* **constituents** of atmospheric particulate matter [Air pollution]. 125391
1,25-dihydroxycholecalciferol and induction of alkaline phosphatase in *organ* **culture** [Nutrition study]. 116463
Effects of L-azetidine and collagenase on the morphogenesis of embryonic duck preen gland in *organ* **culture.** 117620
Autumnal processing of **dissolved** *organic* matter in a small woodland stream ecosystem [Leaf litter]. 120344
Leaching and microbial utilization of **dissolved** *organic* carbon from leaves of Spartina alterniflora. 121041
Effects in the rat of environmental temperature, diet dilution and treadmill running on voluntary food intake, body compositon and **endocrine** *organ* mass: a multiple regression analysis. 116427
Effect of **extended** *organic* and mineral fertilization on the content on some trace elements in soils. 125069
The methodology of **extracting** *organic* substances from the soil. 124805
Use of *organic* **fertilizers** in Hawaii. 125034
Studies on vegetative propagation of Tulipa [varieties]. I. *Organ* **formation** from excised bulb scales in vitro. 122405
Organic **growth** factor requirements of Pseudocercospora vitis (Lev.) Speg. and Cercospora mitteriana Syd. [Fungi]. 121340
Ecological studies on the photosynthesis of winter cereals. III. Changes of the photosynthetic ability of various *organs* with **growth.** 121547
Effect of *organic* and **inorganic** fertilizers on the transformation of sulfuric compounds in winter wheat plants, yield and quality of grain. 121401
Effect of *organic* and **inorganic** fertilizers on the productivity of sugarbeets. 124934
Occurrence of keratinophilic fungi on **lifeless** *organic* substance in the environment of calfs infected by Trichophyton verrucosum. 118847
Cytoarchitectonics of **lymphoid** *organs* in chicks in relation to the invasion by Eimeria tenella and immunogenesis. 118926
Grass and clover as *organic* **matter** on the spot [Orchard soil management]. 121936
Ultrastructure of retrocerebral complex of the earwig, Euborellia annulipes, and role of aorta as a **neurohaemal** *organ.* 124056
Modified activated sludge process for treatment of **nitrogendeficient** *organic* wastes. 125512
The **perisympathetic** *organs* of Insecta. An attempt on their evolution. Structural and physiological data on Coleoptera and Diptera. 123813
Changes in some biochemical indices of the blood in chickens at continuous feeding of Timet and Lebaizid **[Phosphorus** *organic* insecticides]. 119286
Phosphate exchange and *organic* **phosphorus** excretion by freshwater algae. 121184
The estimation of **plant** *organic* acids by gas-liquid chromatography. 121307
Characteristic of water-soluble fraction of proteins from *organs* of **plants** infested by root-knot nematodes [Vegetable and melon crops]. 123001
On the purification of *organically* **polluted** wastewaters in the Warnitz stabilization pond system. 125372
Quantity of cells of the mucous membrane of the small intestine in irradiated mice as an index of the protection degree of this *organ* by **radioprotectors.** 119233
Investigations into the lead and cadmium content of meat and *organ* **samples** from slaughter animals. 116119
Vulnerative and **sensory** *organs* of the proboscis of the Tabanidae (Ochrops fulvus Mg., Tabanus bovinus L., Chrysops caecutiens L., Chrysozona pluvialis L.); sexual dimorphism. 123816
Study of bound phospholipase activities of fungal mycelia using an *organic* **solvent** system [Rhizopus arrhizus, Mucor javanicus]. 121237
Effect of *organic* **substrates** on slow germinating seeds of some forest trees and shrubs. 121811
Studies on the oxidation of *organic* **sulphides** in kraft black liquor [Pollution control]. 125543
Distribution of residual DDT anounts in *organs* and **tissues** of fish in the Kiev water reservoir. 123761
Functional organization of the **tympanal** *organ* of the flour moth, Ephestia kuehniella. 124045
The mesothoracic **tympanic** *organ* of Corixa punctata Ill. (Heteroptera, Corixidae). 124032

Cytophysiological approach of two neuroendocrine interfaces of the hypothalamus: the median eminence and **vascular** *organ* of the terminal lamina. Radioautographic study of the duck. 117567
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some **vegetative** *organs* in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Isoenzymatic spectra of peroxidase and nitratereductase from **vegetative** *organs* of maize heterotic hybrids and their parental forms. 121476

ORGANISM

Demonstration of the antigens of the *organism* **causing** enzootic abortion in sheep by using the immunoperoxidase method. 119021
Occurrence of physiological races of Bremia lactucae Regel, the *organism* **causing** downy mildew in lettuce. 122675
Chromium effects on **coastal** *organisms.* 125503
Purification, properties and immunological relationship of l(+)-lactate dehydrogenase from Lactobacillus casei **[Dairy** *organisms].* 116872
Effect of nisin [an antibiotic produced by certain strains of the common **dairy** *organisms* Streptococcus lactis] on heat resistance and gas production of some spore-formers. 116927
Heptachlor [a persistant organochlorine pesticide]: toxicity to and uptake by several **estuarine** *organisms.* 123733
Arsenic concentrations in some coexisting **marine** *organisms* from Newfoundland and Labrador. 125498
Marine *organisms* around outfall pipes in Santa Monica Bay [Wastewater discharge, includes algae]. 125510
Field control of coconut lethal yellowing [caused by **mycoplasmalike** *organisms]* with oxytetracycline hydrochloride. 122859
The Douglas fir tussock moth [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on **non-target** *organisms* and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
The superoxide dismutase activity of various **photosynthetic** *organisms* measured by a new and rapid assay technique [Spinach, Algae]. 121053
Effect of microbial metabolites on the processes of metabolism in the *organism* of **pigs.** 117713
Bibliography of nematode interactions with other *organisms* in **plant** disease complexes [Vectors]. 123039
Metals in *organisms* from **Saldanha** bay and Langebaan lagoon prior to industrialization. 125551
Eradication of **seed-borne** *organisms* from imported vegetable seeds by hot-water treatment [Fungi, germination test]. 122645
Alterations in the *organism* of **sheep** with chronic intoxication by trolene [phosphoric acid product]. 119287
DDT in sediments and *organisms* around **southern** California outfalls. 123734

ORGANOCHLORINE

Biodegradation of methoxychlor and kelthane *[organochlorine* **insecticides,** residues]. 123710
Heptachlor [a **persistant** *organochlorine* pesticide]: toxicity to and uptake by several estuarine organisms. 123733
DDE [dichlorodiphenyldichloroethylene] feeding and plasma osmoregulation in ducks, guillemots, and puffins *[Organochlorine* **toxicity].** 123682

ORGANOGENESIS

Organogenesis in **tissue** culture of the greenhouse carnation (Dianthus caryophyllus L.). 121660

ORGANOLEPTIC

Organoleptic **changes** in bovine and porcine fats following treatment with gamma-rays. 117033
Changes in the *organoleptic* **characteristics** of pear puree and its derivatives caused by lactic-acid bacteria [Lactobacillus casei]. 117271

ORGANOPHOSPHATES

An in vitro study of the non-specific esterases of the melon fly, Dacus cucurbitae Coq. and their reactions with *organophosphate* and **carbamate** compounds. 123388
Organophosphate **insecticide** potentiation by carboxylesterase inhibitors [Mice, rats]. 123752
Behavioral effects of *organophosphate* **pesticides** in man. 123693

ORGANOPHOSPHORUS

Interconversion of cholinesterase enzyme activity units by the manual Delta pH [hydrogen-ion concentration] method and a recommended automated method *[Organophosphorus* and **carbamate** pesticide intoxication]. 123694
Use of pirimiphos-methyl *[organophosphorus* **insecticide]** for the control of stored rice insect pests in southeast Asia. 123576
The influence of *organophosphorus* **insecticides** on the developemnt of local lesions of the tobacco mosaic virus in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Crystal and molecular structure of *organophosphorus* **insecticides.** 4. Bromophos. 123239
Genetic analysis of resistance factors in a wild strain of the house fly (Musca domestica) resistant to DDT and some *organophosphorous* **insecticides.** 123675
High-performance liquid chromatography of *organophosphorus* **insecticides.** 123727
Quantitative determination of *organophosphorus* **pesticides** by thin-layer densitometry. 123729

ORGANOTIN

The effect of surface treatments on the migration of *organotin* **stabilizer** from polyvinyl chloride films to contacting liquid media [Food packaging]. 116711

ORGYIA

Short note to the study of a new species of the **genus** *Orgyia* [papuana] from Papua New Guinea and Australia (Lepidoptera, Lymantriidae). 124299
An expanded research and development program for the Douglas fir tussock moth *[Orgyia* **pseudotaugata]**—1975 to 1978. 123488
Life tables for a declining population of the Douglas-fir tussock moth *[Orgyia* **pseudotsugata]** in northeastern Oregon. 123444
Douglas-fir tussock moth *[Orgyia* **pseudotsugata]** 1974 operational spraying of DDT. 123489
Pilot control projects of chemical and microbial insecticides against Douglas fir tussock moth *[Orgyia* **pseudotsugata]-1974.** 123491
The Douglas fir tussock moth *[Orgyia* **pseudotsugata]** DDT application of the summer of 1974: effects of the DDT on non-target organisms and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
Douglas fir tussock moth *[Orgyia* **pseudotsugata]** egg hatch and larval development in relation to phenology of grand fir and Douglas-fir [Abies grandis, Pseudotsuga menziesii] in northeastern Oregon. 123502
A synthesis of (z)-6-heneicosen-11-one. The sex pheromone of the Douglas fir tussock moth *[Orgyia* **pseudotsugata].** 124070

ORIBATA

Immature stasis of two genera of **Oribotritiidae** *(Oribata)* [Sabacarus corneri, Paratritia baloghi]. 124194

ORIBATEI

Species composition of *Oribatei* **(Acari)** on oceanic mountain ground in western Norway. 124379
Revision of the European genera and species of the family of Brachychthoniidae (Acari, *Oribatei).* 1. **Brachychthoniidae** Thor, 1934; Liochthonius v. d. Hammen, 1959, Verachthonius nov. gen. and Paraliochthonius nov. gen. 124355
Camisia foveolata Hamar 1955 (Acari, *Oribatei)* found in **Norway** and on Svalbard. 124365

ORIENTATION

Studies on the stolon development in the potato plant. I. The *orientation* of the **axillary** shoot growth in the potato seedlings. 121765
Orientational **behavior** in the individual ecosystem as examplified by the flight behavior of the honeybee (Apis mellifera L.). 124174
Orientations on the **culture** of the industrial plum in the province of Pisa. 122172
The *oriented* **forestry** training from the standpoint of the post-graduate professional training in Slovenia. 119330
Physiology and systems analysis of **gravity** *orientation* in two insect species (Carausius morosus, Calandra granaria). 123915
The contribution of different receptors to **gravity** *orientation* in insects. 123917
Polarized **light** *orientation* of the honey bee: the minimum visual angle. 124539
X-ray diffraction from [spinach] chloroplast **membranes** *oriented* in a magnetic field. 120458
Problem-oriented **ophthalmology.** 2. Anterior uveitis. 118497
Purpose-oriented **political-ideological** and vocational effortof veterinary personnel and cooperative farmers yields good results in implementing principal task formulated by. 115954
Ways of improving general high school, special education and **professional** *orientation* of school children in relation to the reorganization of farm production [in Moldavia]. 115172
User requirements for *project-oriented* **remote** sensing [Tennessee Valley Authority]. 115273
Effect of lateral **shoot** *orientation* on growth and flowering of young apple trees. 121667
Polarized light spectroscopy on *oriented* **spinach** chloroplasts fluorescence emission at low temperature. 121605

ORIGANUM

Chromosome numbers for three essential-oil bearing plants: cephalophora aromatica Schrad., Origanum majorana L. and *Origanum* **heracleoticum** L. 120022

ORNAMENTAL

Ornamental **algae** from Indonesia [Morphology]. 120521
Ornamental **aspects** of [varieties of] deciduous woody plants in the beautification of Moscow. 122197
Fun with miscellany, choosing less-serious *[ornamental]* **bulbs.** 122270
Rhythm of growth and flowering of woody **[chiefly** *ornamental]* plants from the Mediterranean floristic area on the Black Sea coast. 121618
Effect of gamma-radiation on the seeds of *[ornamental]* **Clematis** [Species]. 121612
A code system for European nursery plants: S.C.O.P.E. II. **Codifying** *ornamental* conifer plants. 119894
Propagation of dwarf *[ornamental]* **conifers.** 122249
American Horticultural Society Plant Records Center [Data bank of **cultivated** *ornamentals].* 120038
Evaluating the prospects of introducing to Belorussia exotic conifer species **[as** *ornamental* and **forest** trees]. 121616
Use of plant growth regulators in **Hawaii** on *ornamentals.* 121736
Azalea **research** *[Ornamental* **horticulture].** 122215
Towards a policy for a career structure in *ornamental* **horticulture** [Education]. 122263
Phytochemical and toxicological screening of **household** *ornamental* plants potentially toxic to humans. I. 116212
Tissue culture in plant research and the *ornamentals* **industry.** 121632
Potting in the tree **nursery** *[Ornamentals].* 122276
Controlling quackgrass in the *[ornamental]* **nursery.** 123070
The importance of costings [in *ornamental* **plant** nursery] for effective management. 115331
The significance of *[ornamental* **plant]** nursery economics [Great Britain]. 115332
A technical description of three *[ornamental* **plant]** propagating units in Guernsey. 122211
State of *ornamental* **plant** variety qualification and some methodological problems. 122286
Studies on fireblight [caused by Erwinia amylovora] in the German Federal Republic. 1. Disease development on fruit trees and *ornamental* **plant** after natural attack and artificial inoculation. 122808
Plant protection in *ornamental* **plant** culture. 122933
Selected maples for shade and *ornamental* **planting.** 122189
Improvement of the environment in Moscow by means of **planting** *ornamental* plants. 122196
Anatomical and linden histochemical study of the shoots of [Tilia] from *ornamental* **plantings** in Moscow. 120417
Development of some elements of the socialist reproduction process in the transition to the industrially organized production of *ornamental* **plants.** 115461
Possibilities of employing statistic tests of quality in the production of *ornamental* **plants.** 115465
Reducing costs by changing from intensive to extensive propagation methods *[Ornamental* **plants,** England]. 115485
Order filling and shipping of container-grown *[ornamental]* **plants.** 117234
Field budding practices *[Ornamental* **plants].** 122224
Nursery understanding of tissue culture *[Ornamental* **plants,** propagation]. 122237
Staking [of *ornamental* **plants** in a nursery] in relation to growth and form. 122257
The care and preparation of *[ornamental]* **plants** for export [New Zealand]. 122258
A success story: from [Arizona] desert to gardens in fifteen years *[Ornamental* **plants,** varieties]. 122434
Close-ups for connoisseurs *[Ornamental* **plants,** varieties]. 122438
Evaluation of eight herbicides in container nursery stock [of *ornamental* **plants].** 123071
Winter protection of nursery stock [of *ornamental* **plants]** Webfoot style [Plastic-covered structures]. 124605
Use of hardwood bark as a rooting medium *[Ornamental* **plants,** propagation]. 124970
Studies on the frost resistance of **selected** *ornamental* trees and shrubs in Poland and on the selection of maternal individuals (Acer, Campsis, Deutzia, Forsythis). 122186
Production of **selected** *ornamental* species in South Florida. 122239
Direct canning of rooted cuttings [of *ornamental* **shrubs]** into one gallon containers. 122218
Present position and future prospects for the British Nursery industry *[Ornamental* **trees** and shrubs]. 115825
Prunus serrula *[Ornamental* **trees].** 122277
The chestnut tree [Castanea, *ornamental* **trees].** 122279
Virus diseases of *ornamental* **trees** and shrubs. 122830
Some *ornamental* **[varieties** of] eucalypts for dry areas [Australia]. 122255
Unnecessary transport of *[ornamental]* **woody** plants? 115598
Growth regulators and rooting of cuttings of **woody** *ornamental* plants. 121629
Root hardiness of **woody** *ornamentals* [Cold injuries]. 122940

ORNITHINE

Polyamine and *ornithine* **metabolism** during the germination of conidia of Aspergillus nidulans [Fungi]. 120924

ORNITHODOROS

Recent studies on epizootic bovine abortion *[Ornithodoros* **coriaceus** as vector of virus disease]. 118965
Neurosecretory activity as related to feeding, mating, and oogenesis in the female cave tick, *Ornithodoros* **tholozani.** 124048

OROBANCHE

Sunflower, an expanding crop, and its fungus diseases [and *Orobanche].* 2. 122721

ORTHOPHOSPHATES

Cjompartmentalization of magnesium and *orthophosphate* **ions** in cells of Saccharomyces carlsbergensis. 121026
Differing sensitivity of **pyruvate** *orthophosphate* dikinase to low temperature in maize cultivars. 121533

ORTHOPTERA
Embryonic growth and hatchability of eggs of the two-striped grasshopper, Melanoplus **bivittatus** *(Orthoptera:* Acrididae), in relation to date of oviposition and weather. 123857
Diptera endoparasitic of *Orthoptera* in the **Corsican** fauna. 124238
Absence of rDNA amplification in the uninucleolate oocyte of the cockroach Blattella **germanica** *(Orthoptera:* Blattidae). 124019
Check list of the Acridomorpha of Tanzania **(Insecta:** *Orthoptera).* 124356
Irish *Orthoptera:* some distribution records, including a first record of Tachycines asynamorus Adelung (Rhaphidophoridae). 124312
The neotropical dendrophilous fauna. I. Review of the **Proctolabinae** *(Orthoptera,* Acridae) [New taxa]. 124199
Comparative investigations about number and durations of the larval instars of **Tettigoniidae** *(Orthoptera:* Saltatoria). 1. 124177
Comparative investigations of the ability of **Tettogoniidae** *(Orthoptera:* Saltatoria) to accumulate temperatures during embryonic development. 124178
The circadian rhythm of the weta Hemideina **thoracica** *(Orthoptera);* free-running rhythms, circadian rule and light entrainment. 124008

ORYZA
Rice: Oryza sativa and *Oryza* **glaberrima** (Gramineae-Oryzeae). 121956
Mortality and adaptive mechanism of *Oryza* **perennis** [wild rice] strains. 121454
Toxic effects of lead on growth & metabolism of germinating **rice** *(Oryza* sativa L.) seeds & on mitosis of onion (Allium cepa L.) root tip cells. 122952
Inheritance of clustered spikelets and ligule pigmentation in rice, *Oryza* **sativa** Linn. 120820
Androgenesis "in vitro" in *Oryza* **sativa** [rice] (Cigalon variety). 121407
Rice: *Oryza* **sativa** and Oryza glaberrima (Gramineae-Oryzeae). 121956
Autointoxication mechanism of *Oryza* **sativa** [rice]. I. Phytotoxic effects of decomposing rice residues in soil. 122972
Compared outgrowth rate of nodal roots in three rice **varieties** *(Oryza* sativa L.). 121408

ORYZALIN
Anatomical effects of **preemergence** *oryzalin* and penoxalin on soybeans. 123113
Oryzalin **preplant** surface applied for weed control in soybeans. 123141

OSCILLATION
Cellular differentiation of terminal regions of trichomes of *Oscillatoria* **princeps** (Cyanophyceae) [Algae]. 120496

OSCINELLA
Frit fly *[Oscinella* **frit]** damage to oat grain—an often overlooked phenomenon. 123356

OSMOSIS
Loss of inducible D-galactose transport by baker's yeast [Saccharomyces cerevisiae] after *osmotic* **treatment.** 121065

OSMUNDA
Mutational load in a fern *[Osmunda* **regalis]** population growing in a polluted environment. 120577

OSMUNDACEAE
Contribution of the flora of Cuba: *Osmundaceae,* **Schizeaceae** and Gleicheniaceae (Pteridophyta) [New taxa]. 120011

OSSIFICATION
Transformation of Meckel's cartilage and *ossification* of the **mandible** in ovis and capra [Sheep and goats]. 117695

OSTEOCHONDROSIS
Intra-articular chip fracture or *osteochondrosis* **dissecans** of the fetlock joint of horse. 119265

OSTEOCLAST
Electron microscopic localization of lactate dehydrogenase in *osteoclasts* of **chick** embryo tibia. 117704

OSTEODYSTROPHY
Studies on *osteodystrophia* **fibrosa** in Black Bengal goats. 119095

OSTEOGENESIS
Congenital *osteogenesis* imperfecta in Charollais cattle. 119185
The possible differentiation of *osteogenic* **elements** in vitro from [embryonic] chick limb mesodermal cells. I. Morphological evidence. 117649

OSTEOPATHY
Concerning an observation of the **cranio-mandibular** *osteopathy* of dogs. 118538
Craniomandibular *osteopathy* in a Great Dane. 119127

OSTEOPOROSIS
Osteoporosis in **chickens** with hereditary muscular dystrophy. 119198

OSTERTAGIA
The serum pepsinogen analysis and its relation to bovine ostertagiasis *[Ostertagia* **ostertagi,** parasitic worms]. 118865
Type II ostertagiasis in adult cattle *[Ostertagia* **ostertagi].** 119012
Investigations concerning bovine gastro-intestinal strongyles *[Ostertagia].* II. **Seasonal** variations in the herbage infestation with infective larvae [Parasitic worms]. 118862

OSTERTAGIASIS
Type II *ostertagiasis* in **adult** cattle [Ostertagia ostertagi]. 119012
The serum pepsinogen analysis and its relation to **bovine** *ostertagiasis* [Ostertagia ostertagi, parasitic worms]. 118865

OSTRINIA
Control of the European corn borer *[Ostrinia* **nubilalis].** 123333

OTHREIS
An overlooked Noctuidae from Malaysia: *Othreis* **kinabaluensis** n. sp. (Lepidoptera). 124285

OTITIDAE
A key to species of **Australian** *Otitidae* (Diptera: Schizophora) with notes on distribution. 124229

OTITIS
Clinical trials concerning the management of *otitis* **externa** in dogs and cats. 118554
Otitis **externa.** 3. Bacterial isolation [Dogs, cats]. 119053
Otitis **externa.** 4. Otomycosis [Dogs, cats]. 119054
Otitis **externa.** 5. Otoacariasis [Dogs and cats, mites]. 123680

OTOACARIASIS
Otitis externa. 5. *Otoacariasis* **[Dogs** and cats, mites]. 123680

OUTBREAK
Naturally occurring mutagens [discovered as a result of *outbreaks* of **disease** in agricultural livestock, public health hazards, toxic agents]. 119269
An *outbreak* of **lipoid** liver degeneration (LLD) in Atlantic salmon [Salmo salar] in a fish farm and attempts to cure the disease. 119272
Outbreaks and **partial** phase transformation of Locusta micratoria L. in sugarcane fields of Minami- and Kita-Daito Zima, Okinawa. 123267
An *outbreak* of **trematodiasis** [Echinostoma revolutum, Notocotylus attenuatus] in domestic geese. 118622

OUTFALL
Marine organisms around *outfall* **pipes** in Santa Monica Bay [Wastewater discharge, includes algae]. 125510
Metal contamination of flatfish around a large **submarine** *outfall.* 125511

OVA
Dog's intestinal **helminth** *ova* incidence in public parks of the city of Milan. 118616

OVALBUMIN
Effects of estrogen on gene expression in chick oviduct. The role of chromatin proteins in regulating transcription of the *ovalbumin* **gene.** 118340
Initiation of *ovalbumin* **synthesis** in chicken oviduct magnum. Transient labeling of the NH2-terminus by methionine. 117569

OVARY
Seasonal variation in oestrous and *ovarian* **activity** of five breeds of ewes in Otago. 118377
On the formation of cysts in the *ovaries* of **cows.** 119200
Electrostimulation in the cervix uteri in the mare; contribution to the treatment of functional **disturbances** of the *ovaries.* 118425
Development of 3 beta-hydroxysteroid dehydrogenase in the *ovary* of the **domestic** fowl during sexual maturation. 118348
The measurement of 3 beta-hydroxysteroid dehydrogenase in *ovaries* of **fowls** (Gallus domesticus). 117699
Ecdysterone **induced** *ovarian* inhibition in the cotton bug, Dysdercus cingulatus. 123300
Absence of ribosomal DNA amplification in a meroistic **polytrophic** *ovary* [Bombyx mori]. 124509
Changes in the secretion of *ovarian* **steroids** and pituitary luteinizing hormone in the periovulatory period in the ewe: the effect of progesterone. 118341
Ovarian **transplantations** among five species of the "saltans" group of Drosophila. 124142

OVEN
Thiamin and riboflavin retention in meats cooked uncovered and in *oven* **film.** 116338
Thiamin and riboflavin retention in meats cooked uncovered and in *oven* **film.** 116339
Cooking of beef by *oven* **roasting:** a study of heat and mass transfer. 116623

OVICIDE
Ovicidal **activity** and its relation to chemical structure for the two-spotted spider mite (Tetranychus urticae Koch) in a new class of miticides containing the cyclopropyl group. 123241

OVIDUCT
Distribution of binding sites for the progesterone receptor within **chick** *oviduct* chromatin. 117654
Mechanism of steroid hormone action: in vitro control of gene expression in **chick** *oviduct* chromatin by purified steroid receptor complexes. 117712
Progesterone-binding components of **chick** *oviduct:* in vitro effects of purified hormone-receptor complexes on the initiation of RNA synthesis in chromatin. 117789
Progesterone-binding components of **chick** *oviduct:* in vitro effect of receptor subunits on gene transcription. 117790
Effects of estrogen on gene expression in **chick** *oviduct.* The role of chromatin proteins in regulating transcription of the ovalbumin gene. 118340
The binding and metabolism of testosterone by the **chick** *oviduct.* 118364
Initiation of ovalbumin synthesis in **chicken** *oviduct* magnum. Transient labeling of the NH2-terminus by methionine. 117569
Management of egg-bound condition and prolapse of *oviduct* and **cloaca.** 119186
Messenger RNA translation in the presence of homologous and heterologous tRNA [prepared from *oviduct* or **liver** of laying hens]. 117664
Fine structural changes of the **porcine** *oviductal* epithelium during late and term pregnancy. 117884
Alteration of poly (ADP [adenosine diphosphate]-Rib) synthesis during progesterone-caused gene expression in *oviducts* of **quails.** 118222

OVINE
Cutaneous hypersensitivity and isoantibody production in cattle injected with live or inactivated Anaplasma marginale in bovine and *ovine* **erythrocytes.** 118598
Mycoplasmas [Mycoplasma conjunctivae, Mycoplasma ovipneumoniae] and *ovine* **keratoconjunctivits** [Sheep]. 119009
Effect of prostaglandin E2 on *ovine* **maternal** placental blood flow [Sheep]. 118198
Enzymatic modification of bovine and *ovine* **parathyrin** receptor. 117678
Formyl-methenyl-methylenetetrahydrofolate synthetase-(combined), an *ovine* **protein** with multiple catalytic activities. 117785

OVIPOSITION
Feeding, mating, and *oviposition* **activities** of Rhagoletis fausta flies in nature [Cherry fruit pests]. 123369
Relative response to coloured substrates by *ovipositing* **black-flies** (Diptera, Simuliidae). II. Oviposition by Simulium (Odagmia) ornatum Meigen. 123651
Oviposition and **host** selection by the spotted cutworm, Amathes c-nigrum L. [Among vegetables and upland crops]. 123259
Comparative survey of the sensory structures on the sting and *ovipositor* of **hymenopterous** insects. 124037
Contact chemoreceptors on the *ovipositor* of **Lucilia** cuprina (Wied.), the Australian sheep blowfly. 123603
Fecundity and *oviposition* **period** of Aphidius platensis Brethes (Hymenoptera, Aphidiidae) parasitizing Myzus persicae Sulz. (Homoptera, Aphididae) on paprika [Biological control]. 123255
Relative response to coloured substrates by ovipositing black-flies (Diptera, Simuliidae). II. *Oviposition* by **Simulium** (Odagmia) ornatum Meigen. 123651
Studies on the *oviposition* **site** of Sitophilus oryzae on wheat and effect of size and outer surface. 123293
Embryonic growth and hatchability of eggs of the two-striped grasshopper, Melanoplus bivittatus (Orthoptera: Acrididae), in relation to date of *oviposition* and **weather.** 123857

OVIS
On the innervation of the nipple of *Ovis* **aries** [Sheep]. 117617
Comparative diagnostic studies on epididymitis in rams caused by **Brucella** *ovis.* 118976
Transformation of Meckel's cartilage and ossification of the mandible in *ovis* and **capra** [Sheep and goats]. 117695
Sheep nose bots—**Oestrus** *ovis.* 123669
Prophylaxis of gadfly **[Oestrus** *ovis]* infestation of sheep. 123679
Capacity of the rumen in Corriedale **sheep** *(Ovis* aries) [Anatomy]. 117899

OVULATION
Human chorionic gonadotropin for **controlling** *ovulation* in mares. 118380
Superovulation in the **cow** using pregnant mare's serum gonadotropin prostaglandin F2alpha. 118423
Passive immunization against oestradiol-17 beta and its effect on luteolysis, oestrus and *ovulation* in the **ewe.** 118354
Changes in the secretion of ovarian steroids and pituitary luteinizing hormone in the *periovulatory* **period** in the ewe: the effect of progesterone. 118341
The sensitivity of the *ovulation* **rate** of Finnish Landrace and Blackface ewes to exogenous oestrogen. 118361

OVULE
Defective *ovules* in avocado cultivars [Abnormalities, fruit-set]. 122965

Effect of some phenolic compounds of the oil poppy [Papaver] placenta on the embryogeny of **isolated** *ovules.* 121028
Ovule **ontogeny** and seed coat structure of Scrophularia himalensis Royle. 120433
Effects of *ovule* **positions** in fabaceous flowers on seed set and outcrossing rates [Lupinus nanus, alfalfa]. 121435

OWNERSHIP
Some aspects of the relations between the dog and his *owner.* 2. **[Behavior].** 117564
Training of private **forest** *owners* [Slovenia]. 119335
Forest *ownership* changes and regional development in Finland. 119546
The "Auermuhler production program" from the view of a private **forest** *owner.* 119592
What *owners* **know** of crossbred cows and how much about their scientific upkeep. 117453
The value of assistance to **land** *owners.* 125150
Alternatives to **private** *ownership,* the problems of large gardens. II. 122268
The problems of large gardens. Difficulties of **private** *ownership.* I. 122272
Privately *owned* or rented equipments in side-line farming. 124744
Machinery groups *[Owning,* **sharing** or contracting forage maize harvesters]. 115429

OXALIS
Comparison of multivariate analyses using taxonomic **data** of *Oxalis.* 120000
Surface coating of germina apertures of pollen and evolution of apertures *[Oxalis* **rosa].** 120552

OXALOACETIC
Improved and effective assays of the **glutamic** *oxaloacetic* transaminase by the coenzyme-apoenzyme system (CAS) principle [Deficiencies of vitamin B6]. 116459

OXATHIIN
Influence of a **substituted** *oxathiin,* a localized growth inhibitor, on the stem elongation, branching, and flowering of Chrysanthemum morifolium Ramat. 121709

OXEN
Study of glycoprotein extracted from synovial **membranes** of *oxen.* 117871
Calcium and stimulus secretion coupling in the *[ox]* **neurohypophysis.** V. The effects of the Ca2+ ionophores A23187 and X537A on vasopressin release and 45Ca2+ efflux; interactions with sodium and a verapamil analogue (D600). 117525

OXIDANTS
Stabilization of fats with **natural** *antioxidants.* 4. Antioxidative effect of soybean phospholipids. 117155
Use of *antioxidants* in **rations** of meat ducks. 118073
Studies on the effect of prolonged storage and *antioxidant* **supplementation** on nutritive value of rice polish [Poultry feed]. 118144

OXIDASES
Aldehyde *oxidase* activity in the tumorous-head strain of Drosophila melanogaster. 123874
Hydrogen peroxide generation by the **alternate** *oxidase* of higher plants [Mung beans]. 121604
The oxidation of terminal D-galactofuranose residues of a galactan and a glycoprotein by a **D-galactose** *oxidase* preparation from Dactylium dendroides [Fungi]. 120996
Purification and characterization of **L-gulono-gamma-lactone** *oxidase* from rat and goat liver. 117571
The importance of **phenol** *oxidase* activity in lignin degradation by the white-rot fungus Sporotrichum pulverulentum. 119650

OXIDATION
C-6 [carbon-6] *oxidation* of **ascorbic** acid: a major metabolic process in animals [Monkeys, rats]. 117581
Determination of zineb [fungicide] by *oxidation* with **chloramine-T.** 122638
Components of Labiadae. XXV. Diterpenes of Nepeta granatensis Boiss; **chromic** *oxidation* of the allyl alcohls 7 alpha, 18-dihydroxy-14-abietene and 14 alpha, 18-dihydroxy-7-abietene. 120871
Protection of Cucumis leaf pigments **against** *photo-oxidative* **degradation** during chilling. 117210
Stabilization of fats with natural antioxidants. 4. *Antioxidative* **effect** of soybean phospholipids. 117155
Lipid oxidation. 3. *Oxidation* of **egg** phosphatidylethanolamine. 117051
Activity of some *oxidation-reduction* **enzymes** in the hyaloplasm isolated from tillering nodes of winter wheat. 121491
Oxidizing **enzymes** of cellulose-decomposing [soil] fungi. 124819
Establishing the initial stage of **fat** *autooxidation* in dry dairy products by means of ultraviolet spectrophotometry. 116926
Activation of external way of **free** *oxidation* in liver mitochondria during cooling of rats [Response to sharp reduction of environmental temperature]. 117652
Study of *oxidation-reduction* **interactions** among conversion products of model compounds and carbohydrates in alkali solutions [Lignin]. 119745
Role of flavones and related compounds in retarding **lipid**—*oxidative* flavor changes in foods. 116637
Lipid *oxidation.* 3. Oxidation of egg phosphatidylethanolamine. 117051
Lipid *oxidation.* 4. Products of thermooxidative polymerization of vegetable oils. 117308
Development of fish flavour by the reaction of *autoxidized* **lipids** with amino acids and proteins. 116800
Oxidized **lipids-proteins** browning reaction. II. Effect of the protein substrate [Fish oil rancidity]. 116256
N-alkane *oxidation* by Candida tropicalis. I. Hypothetical role of catalase enzyme and the microbodies in hydrocarbonassimilating yeast. 121043
Mechanism of **2-naphthylamine** *oxidation* catalysed by pig liver microsomes. 117955
Studies on the *oxidation* of **organic** sulphides in kraft black liquor [Pollution control]. 125543
Investigation of **6-O-trytilcellulose** *oxidation* by system chromium trioxide-pyridine. 119735
Oxidative ways of **3-phosphoglyceric** acid formation in chloroplast extracts [Peas, broadbeans]. 121638
Oxidative **phosphorylaion** in brown adipose tissue mitochondria from rats kept under normal environmental conditions. 117780
Investigations concerning the purification of wastewaters in *oxidation* **ponds.** 125371
Investigation of *oxidation-reduction* **processes** in lignin model compounds in alkaline solutions. 119736
Antioxidative **properties** of different liquid fractions synthesized by fungi. 121092
The *oxidation* of **terminal** D-galactofuranose residues of a galactan and a glycoprotein by a D-galactose oxidase preparation from Dactylium dendroides [Fungi]. 120996

OXIDE
Never-dried cotton fibers. VII. Preservation of the never-dried state and ethyl acrylate and **alkylene** *oxides.* 117198
Indicine-N-oxide: the **antitumor** principle of Heliotropium indicum. 121254
Investigations into the fungicidal effect of **cuprous** *oxide* against Phaeocryptopus gaeumannii on Douglas fir [Pseudotsuga menziesii] seedlings. 122668
Construction and use of an experimental **ethylene** *oxide* chamber to fumigate bee equipment in Virginia [for disease, pest and American foulbrood control]. 124487
Retention of molecules of 1.1. Dichloro-2-2 bis (p-chlorophenyl)-ethylene on some **metalic** *oxides* [DDT decomposition, soil contamination]. 123684
Nitric *oxide* production in rice soils. 124769
Detection of **nitrous** *oxide* at ambient atmospheric concentrations [from soil]. 124771
Nitrous *oxide* concentration in lysimeters and the effect of soil suction. 124875
The variability of soil aeration measurements. II. Field measurements of N2O **[nitrous** *oxide]* concentrations, redox potentials, oxygen diffusion rates, and oxygen partial pressures as affected by NO3- [nitrate]-fertilization. 124880

OXIDOREDUCTASES
The separation of **pyruvate-ferredoxin** *oxidoreductase* from Clostridium pasteurianum into two enzymes catalyzing different reactions. 116049

OXISOL
Characteristics and management properties of *Oxisols* of **southern** Bahia. 124893

OXYGEN
Scalded sausage manufacture in the meat trade. 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of **atmospheric** *oxygen* and light. 116956
Stabilized dormancy in sugarbeet fruits. I. Seed coats as a physicochemical **barrier** to *oxygen.* 121437
Oxygen **bleaching** of sulphite pulps. 119784
Material balance for brown stock washing, screening, and *oxygen* **bleaching** in closed-mill systems [Pulps]. 119818
Effects of secretagogues on *oxygen* **consumption,** aminopyrine accumulation and morphology in isolated gastric glands [Rabbits]. 117526
The effect of copper on the *oxygen* **consumption** rates of the stonefly nymph, Phasganophora capitata (Pictet) (Plecoptera). 125369
Cultivation and the *oxygen* **content** of the soil atmosphere. 124770
Transport of 14C [carbon isotope] in cotton in the conditions of *oxygen* **deficiency** of roots. 121452
The variability of soil aeration measurements. II. Field measurements of N2O [nitrous oxide] concentrations, redox potentials, *oxygen* **diffusion** rates, and oxygen partial pressures as affected by NO3- [nitrate]-fertilization. 124880
Nitrogenase activity and respiration of cultures of [cowpea] Rhizobium spp. with special reference to concentration of **dissolved** *oxygen.* 121606
Absence of *oxygen* **effect** for induction of resistance to ionising radiation [Algae, Chlamydomonas reinhardii]. 121292
Survival-curve shape and *oxygen* **enhancement** ratio at low doses for Chlamydomonas [reinmhardii, Algae]. 121081
Oxygen **enhancement** ratio for small x-ray doses measured in Vicia faba roots [Broadbeans]. 121685
Enzymic reconstitution of photosynthetic carbon assimilation. Pentose phosphate-dependent O2 *[oxygen]* **evolution** by illuminated envelope-free chloroplasts from Spinacia oleracea [spinach]. 121599
Operating experience with a **high-purity**—*oxygen* activated sludge waste treatment system [Pulp and paper mills]. 125565
A statistical study of the *oxygen* **index** measurement [of fabrics]. 116834
Oxygen **intake** capacity of swine. 117856
Formation of alpha- and gamma-ketols from 18O *[oxygen* **isotope]-labelled** linoleic acid hydroperoxides by corn germ hydroperoxide isomerase. 121455
Storage tests on pre-packed beef in controlled gas atmospheres of high carbon dioxide content with *oxygen* **largely** excluded. 116996
The variability of soil aeration measurements. II. Field measurements of N2O [nitrous oxide] concentrations, redox potentials, oxygen diffusion rates, and *oxygen* **partial** pressures as affected by NO3- [nitrate]-fertilization. 124880
Absorption of *oxygen* by **pea** leaf chloroplasts in the presence of riboso-5-phosphate in the light. 121634
Electron microscopy and X-ray photoelectron spectroscopy of *oxygen* **plasma-etched** bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
Yield and compostion of tall oil from *oxygen-alkali* **pulped** thermomechanical fiber. 119826
Bleaching of *oxygen* **pulps** with ozone. 119814
Mechanisms of delignification in the *oxygen-alkali* **system** [Pulping]. 119820
An alternative to Kok's model for the *oxygen-evolving* **system** in photosynthesis [with the example of the alga Chlorella]. 121050
O2 *[oxygen]* **transport** in the alpaca (Lama pacos) at sea level and at 3,300 meters. 117897

OXYTELINAE
Ochthephilus aureus (Ancyrophorus aureus) Fauv. (Coleoptera, Staphylinidae, *Oxytelinae).* **Ecological** notes and morphological description of the larvae. 124081

OXYTETRACYCLINE
The administration of *oxytetracycline* **[antibiotics]** into chick yolk sacs. 118772
Field control of coconut lethal yellowing [caused by mycoplasmalike organisms] with *oxytetracycline* **hydrochloride.** 122859

OXYTOCIN
Masteocynetic activity of prostaglandin F2alpha **versus** *oxytocin* [Effects on pregnant cows]. 118398

OZONE
Ozone-dosage-crop **loss** function for alfalfa: a standardized method for assessing crop losses from air pollutants. 122963
Measurement of the reaction rate of CFCl3 [chlorofluoromethanes, *fluorocarbon-ozone* **problem]** with atmospheric-like ions. 125389
Bleaching of oxygen **pulps** with *ozone.* 119814
Effect of increased nitrogen fixation on **stratospheric** *ozone.* 124792

PACHYCEREUS
Cactaceae alkaloids. XXIII. Alkaloids of *Pachycereus* **pecten-aboriginum** and Cereus jamacaru. 121247

PACHYDIPLOSIS
Free amino acid contents in the healthy & galled shoots of rice caused by *Pachydiplosis* **oryzae** (Woodson). 123310

PACKAGING
Quality seed production, seed storage and *packaging* **aspects.** 115617
Introduction to the knowledge of plastics. 6. Plastics for **beer** *packaging.* 116676
Introduction to the knowledge of plastics. 5. IV. Plastics in **beer** *packaging.* 116677
Techniques for processing and *packaging* **bovine** semen. 118290
The effect of surface treatments on the migration of organotin stabilizer from polyvinyl chloride films to contacting liquid media **[Food** *packaging].* 116711
Polycarbonate: for the tough jobs **[Food** *packaging].* 116745
Food *packaging* and environmental protection. 116826
Foils for *packaging* **fresh** meat-requirements and performance. 116946
Remarks on *packaging,* **germ** count and milk quality. 116868
Economics of *packaging* **market** milk for retail sales. 116881
Rubber hydrochloride: useful 'old-timer' *[Packaging* **materials].** 116746
Packaging **review:** Wet strength box developments [Horticultural produce]. 117263
The use of chemicals in processing and *packaging* of **stored** products to prevent infestation [by stored-product insects]. 123573
Vacuum, ripening and **transport** *packaging* of beef. 116966
Conveyor handling comes to horticulture **[Vegetables,** *packaging].* 117262

PACKING
Using edible protein casings for sausages in *vacuum-packed,* **air-tight** containers. 117002
Storage tests on *pre-packed* **beef** in controlled gas atmospheres of high carbon dioxide content with oxygen largely excluded. 116996
Vegetative reproduction [of Solidago canadensis] and **close** *packing* in a successional plant species. 120384
Waste injection into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a *sand-packed* **hydraulic** model. 125568

Fresh **meat** *packing.* 116947
Queen *wrapper* of waxed paper for safe introduction [Apis mellifera]. 124579
Household equivalents of fruit & vegetable **retail** *packs.* 116324
Meat products in **self-service** *packs.* Ready meat dishes and delicatessen products, deep frozen foods with a meat base. 116985
Thermometry of temperature-sensitive goods during **shrink** *wrapping,* shown by example of chocolate bars. 116791

PADDY
Effect of fertilizer nitrogen applied to the *paddy* **field** and its absorption by rice plant. VII. Relationships between the absorption of nitogen by the rice plants and its growth. 125050
Effects of fertilizer nitrogen applied to the *paddy* **field** and its absorption by rice plant. VI. Influence of a thermal factor on the soil ammonium nitrogen and the absorption of nitrogen by rice plant. 125051
Effects of fertilizer nitrogen applied to the *paddy* **field** and its absorption by rice plant. VIII. Compartive studies of the behavior of basal nitrogen and the absorption of nitrogen by rice plant in different paddy soils. 125052
Kinetics of absorption of liquid water by *paddy* **grains** durin g parboiling [Rice]. 117112
Evaluation of the High Yielding Varieties **Programme** *(paddy)* in West Bengal [rice]. 115901
Phenolic acids in wheat and *paddy* **rhizosphere** [soil] amended with crop residue. 124885
Rough **rice** *(paddy)* drying methods in the United States. 117207
Studies on large vascular bundles in *paddy* **rice** plant and panicle formation. I. Relationships between the number of large vascular bundles in the clum and the plant types. 120534
Studies on large vascular bundles in *paddy* **rice** plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in rice varieties. 120535
Studies on large vascular bundles in *paddy* **rice** plant and panicle formation. III. Relationship between the changes in the number of large vascular bundles in the tillers and the panicle formation. 120536
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VIII. Compartive studies of the behavior of basal nitrogen and the absorption of nitrogen by rice plant in different *paddy* **soils.** 125052

PADS
Rat strain differences in cyclic-AMP [adenosine monophosphate] levels in liver and epididymal **fat** *pad* tissue as influenced by glucagon. 116438

PAECILOMYCES
Variability of natural strains of muscardine fungi [Beauveria, *Paecilomyces,* **pathogens** of a pyralidid moth, pest of honey bees, biological control]. 124543

PAINTS
Paint—a **vital** protective film [for beehive maintenance]. 124488

PAIRING
The synaptonemal complex in the course of meiotic **chromosome** *pairing* and recombination [Neurospora rassa, maize, barley]. 120756
The use of *pair* **crosses** in rye breeding [Poland]. 120688
Log linear representation for *paired* and **multiple** comparisons models [Statistics applied to food preference]. 115571

PAIRS
Laboratory method of early diagnosis in **selecting** *pairs* for obtaining heterotic hybrids of alfalfa. 120706

PALAEARCTIC *see* ARCTIC

PALATABILITY *see* TASTE

PALEARCTIC
Coleoptera Cerylonidae. Study of the species of the *Palearctic* **fauna.** 124253
Comparative morphological characteristic of the larvae of *Palearctic* **species** of the genus Lonchaea Fall. (Diptera, lonchaeidae). 124307
Revision of the **west** *Palearctic* species of the genus Chorinaeus Holmgren (Hymenoptera, Ichneumonidae) [New taxa]. 124228
A new species of Metriocampa [asiatica] (s. Str.) as an index of ancient relations between the east of the *Palearctic* and the **west** of the Nearctic [regions]. 124279

PALEOBOTANY
The late-Quaternary vegetational history of the western interior of **Canada** *[Paleobotany].* 120001
How were the deposits of fossil **fuels** formed? *[Paleobotany].* 120299
Microfossils of the Wissant Albo-Cenomanian **(Pas-de-Calais)** *[Paleobotany].* 119997

PALEOENTOMOLOGY
Occurrence of Lepidoptera in the schists of Tremembe, and some reflections on the geological basin of Paraiba, Sao Paulo **State** *[Paleoentomology].* 124212

PALEOGENE
Palynological study of the *Paleogene* of **southern** Great Britain. 119998

PALEOZOIC
The use of Skylab and LANDSAT in a geohydrological study of the *paleozoic* **section,** west-central Bighorn Mountains, Wyoming [Remote sensing]. 125280

PALLETS
A **vibrating** *pallet* for controlling bee flight from colonies [Apis mellifera]. 124486

PALM
Induction of juvenile leaf form in a *palm* **(Caryota** mitis) by gibberellin. 120441
Seasonal use of water by **date** *palms* in Coachella Valley, southeastern California. 121785
Date *palm:* Phoenix dactylifera (Palmae). 122359
Germinating *palm* seeds. 121628
The effect of beta-carotene on the stability of *palm* **oil.** 116824
Oil *palm:* Elaeis guineensis (Palmae). 122533
Malaysia streamlining and **strengthening** *palm* oil sector. 115851

PALMAE
Date palm: Phoenix **dactylifera** *(Palmae).* 122359
Oil palm: Elaeis **guineensis** *(Palmae).* 122533
Coconut: Cocos **nucifera** *(Palmae).* 122355

PALMITATE
Gnidimacrin and **gnidimacrin** *20-palmitate,* novel macrocyclic antileukemic diterpenoid esters from Gnidia subcordata. 121155

PALPUS
Scanning electron microscopy of Blaberus giganteus (L.) **maxillary** *palp* sensilla. 124129

PALYNOLOGY
Palynological **characteristic** of sedimentary deposits from the Razdan formation. 120064
On the problem of integration of *palynological* **data.** 120240
Palynology of the **Legler** lignite: a deposit in the Tertiary Cohansey Formation of New Jersey, U.S.A. 120253
Palynological **study** of the Paleogene of southern Great Britain. 119998

PAMPA
Hydrogeological investigations in the *Pampa* of **Argentina** [Remote sensing]. 125260

PANAX
Comparative anatomical and morphological study of the leaf in the **genus** *Panax* L. (Araliaceae). 120071

PANCREAS
Studies on the solid-phase synthesis of **bovine** *pancreatic* trypsin inhibitor (Kunitz) and the characterization of the synthetic material. 117820
The endogenous secretin in chicken: minor physiological role in **exocrine** *pancreatic* secretion. 117840
An ultrastructural research of *pancreatic* **islets** in sodium nirite poisoned rabbits. 116033
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, *pancreas,* **"labile"** N reservoir. 118004
Pancreatic **lithiasis** in a Shorthorn cow [Calculi]. 119246

PANELS
Cracking in veneered surfaces. 1. Bases and findings with **carrier** *panels* made of wood pulps. 119668
Cracking in veneered surfaces. 2. Veneers on noncombustible **carrier** *panels.* 119669

PANGOLAGRASS
Susceptibility of Digitaria decumbens var. *Pangola* to **blast** rice [Pyricularia grisea] in the French West Indies. 122556
Breeding of *pangolagrass* **[Digitaria** decumbens] and kikuyugrass [Pennisetum clandestinum]. 120778
Potential response of guinea (Panicum maximum Jacq.) and *pangola* **(Digitaria** decumbens Stent) to nitrogen fertilization. 124974
Digestibility and nutritive value of *pangola* **grass** (Digitaria decumbens Stent) in relation to nitrogen fertilization and harvesting time [Lambs fattening]. 118044
Some agrochemical methods for controlling N [nitrogen] fertilization in *pangola* **grass** (Digitaria decumbens Stent). 1. preliminary study. 124975
A note on the growth of dairy calves **grazing** *pangola* grass [Digitaria decumbens] from 90 to 180 days of age during the dry season. 118043

PANICLE
Studies on large vascular bundles in paddy rice plant and *panicle* **formation.** I. Relationships between the number of large vascular bundles in the clum and the plant types. 120534
Studies on large vascular bundles in paddy rice plant and *panicle* **formation.** II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in rice varieties. 120535
Studies on large vascular bundles in paddy rice plant and *panicle* **formation.** III. Relationship between the changes in the number of large vascular bundles in the tillers and the panicle formation. 120536
Studies on large vascular bundles in paddy rice plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the *panicle* in **rice** varieties. 120535

PANICUM
Metabolism and differential susceptibility of crabgrass [Digitaria sanguinalis] and witchgrass *[Panicum* **capillare]** to simazine and atrazine [herbicides]. 123211
Potential response of **guinea** *(Panicum* maximum Jacq.) and pangola (Digitaria decumbens Stent) to nitrogen fertilization. 124974
Nitrogen fiexaton in grasses [Pennisetum americanum, *Panicum* **maximum]** inoculated with Spirillum lipoferum. 121570
Direct sowing of forage sorghum in guinea pasture *[Panicum* **maximum]** during the dry season. 1. Effects of pasture availability and milk production. 121900

PANONYCHUS
Resistance to European red mite, *Panonychus* **ulmi** (Koch), in apple. 123409
Insecticide-resistant predatory mites [Typhlodromus pyri] feed on European red mite, *Panonychus* **ulmi]** in apple orchards. 123428
Plictran: some factors in effective integrated control of European red mite *[Panonychus* **ulmi,** apples]. 123429
Plictran: testing mite *[Panonychus* **ulmi,** Tetranychus urticae, Typhlodromus pyri] populations for suspected resistance. 123430

PANORPA
Panorpa **(schweigeri)** new in Europe (Mecoptera, Panorpidae). 124295
The **scorpionflies**—*Panorpa* (Mecoptera)—in the environs of Hannover and Hildesheim. 124237

PAPAIN
In vitro digestibility of some leaf protein **preparations** using *papain.* 116505
Effect of ethephon latex stimulant on papaya (Carica papaya L.) *[Papain* **yields** and quality of fruits]. 122400

PAPAVER
Effect of some phenolic compounds of the oil poppy *[Papaver]* **placenta** on the embryogeny of isolated ovules. 121028
Development of induced mutations in opium poppy *[Papaver* **somniferum].** 120836

PAPAVERACEAE
Seeds and fruits of North **American** *Papaveraceae.* 120573

PAPAYAS
Transportation issues: problems and projections by major **agencies** *[Papayas].* 115718
Papaya: **Carica** papaya (Caricaceae). 122371
Effect of ethephon latex stimulant on *papaya* **(Carica** papaya L.) [Papain yields and quality of fruits]. 122400
Acceptability of *papaya* **drinks**—a consumer survey. 116220
Latest development in fumigation of *papayas* and other **fruits** [Pesticide residues, Tephritidae]. 116221
Speech to **Hawaii** *papaya* industry [Marketing]. 115716
Proceedings: 10th annual **Hawaii** *Papaya* Industry Association conference; September 19-21, 1974. 117306
Papaya **outlook** and projection: major producers. 115949
Papaya **outlook** and projection: major producers. 115950
Papaya **outlook** and projection: major producers—Puna farmers. 115951
Papaya **processing** progress report [Puree production method]. 117304
Papaya **processing** progress report [Puree]. 117305
Transportation issues: problems and **projections** *[Papayas].* 115717
CTA [College of Tropical Agriculture] *papaya* **research** progress report [Culture]. 122417

PAPER
Susceptibility to cracking of particle boards covered with **decorative** *paper.* 119674
Investigation of the problem of determining total suspended solids in pulp and *paper* **effluents.** 125563
Survey of Canadian capacity shows reduced growth rates for 1975-78 [Pulp, *paper,* **fiberboard].** 119804
Improvement of fiber bonding of *paper* **fibers** with high lignin content through grafting of hydrophilic polymers. 119779
The finishing of surfaces with *paper* and **foils** by using a covering process with heated rollers [Wood pulp]. 119675
Synergistic flocculation of fibre-containing suspensions of the pulp and *paper* **industry.** 119788
The automation of stock preparation in the *paper* **industry.** 119789
"Hands on" training produces skilled technologists [in the pulp and *paper* **industry,** Canada]. 119799

Hemp for the *paper* **industry:** aspects and problems for its cultivation. 121893
Influence of temperature on the biological treatment of *paper* **industry** effluents [Pollution control]. 125403
Slime and odor elimination in process water of the *paper* **industry** [Air and water pollution]. 125538
Chemical analysis for chitin as a measure of fungal infiltration of cellulosic materials [Cotton, **jute,** and *paper].* 117195
Determination of lead in wine through flameless atomic absorption spectrometry, concerning D. **Mack's** *paper,* DLR 71 (1975) 71. 116075
Findings with the flow potential method in retention and moistureproof problems *[Paper* **manufacture].** 119777
Zeta potential measurements during *paper* **manufacture.** 119792
Operating experience with a high-purity—oxygen activated sludge waste treatment system [Pulp and *paper* **mills].** 125565
Operating experience with an advanced color removal system [Wastewater from pulp and *paper* **mills].** 125566
For 1976-80 [new five-year plan], U.S.S.R. To stress greater productivity and quality [in pulp, *paper* and **paperboard** production]. 119800
Measurement of basis weight and moisture on a tissue machine *[Paper* **properties** and processing]. 119783
Identification of polysaccharide-producing black yeasts [Rhinocladiella, decay of wood **pulp** and *paper].* 119757
Influnce of dwell time of dissolved fibers in cooking liquor on the yield of *paper* **pulps.** 119781
Latex-fiber interaction and *paper* **reinforcement.** 119719
The activities of the Pulp and *Paper* **Research** Institute of Canada. 119830
New possibilities of fresh meat storage with a **special** *paper* preserving freshness. 116949
Statement referring to **Speidel's** *paper* "Principles and methods for the determination of economically tolerable game ensities" [Damage caused by vildelife]. 119321
An unusual method for culture of unicellular marine algae [on various *paper* **substrates].** 121198
Measurement of electric charge of *paper* **surfaces** in water. 119782
Queen wrapper of **waxed** *paper* for safe introduction [Apis mellifera]. 124579

PAPERBOARD *see* FIBERBOARD

PAPILIO

Papilio **troilus** (Papilionidae) in pursuit of fish crow. 124065
Papilio **xuthus** (Papilionidae) in Hawaii. 124323

PAPILIONIDAE

Papilio **troilus** *(Papilionidae)* in pursuit of fish crow. 124065
Papilio **xuthus** *(Papilionidae)* in Hawaii. 124323

PAPILLOMA

Animal *papillomatosis.* 118916

PAPRIKA

Fecundity and oviposition period of Aphidius platensis Brethes (Hymenoptera, Aphidiidae) parasitizing Myzus persicae Sulz. (Homoptera, Aphididae) on *paprika* **[Biological** control]. 123255

PARAFFIN

Pollen embryos; celloidin-spray method for *paraffin* **sectioning.** 120570

PARALYSIS

Glyceryl **guaiacolate** *paralysis* time in rats pretreated with some microsomal drug metabolizing enzyme inducers. 118458
Contribution to black or **honeydew** *paralysis* [Apis mellifera]. 124521
Peroneal **nerve** *paralysis* in the cat and dog: an experimental study [Surgery]. 118484
Radial *paralysis* in a goat: treatment by tendon transplantation [Trauma]. 119290
Structures of gonyautoxin II and III from the east coast toxic dinoflagellate Gonyaulax tamarensis *[Paralytic* **shellfish** poisoning]. 116180
Antigenic relationship of *paralytic* **syndrome** virus of chickens with other avian viruses as detected by immunofluorescence. 118742
Tick *paralysis* in a sheep caused by nymphs of Amblyomma variegatum. A preliminary report. 123681

PARAMAGNETIC *see* MAGNETISM

PARAMETRY

Milk progesterone as a *parameter* for **fertility** control in cattle; methodological approaches and present status of application in Germany. 118233
Selection probabilities in *multi-parameter* **sampling** [Forest]. 119479

PARAPLEGIA

Traumatic *paraplegia* in young bulls. 119207

PARAQUAT

Effects of *paraquat* and **dinoseb** [herbicides] in hops [to control Amaranthus retroflexus, Echinochloa crusgalli]. 123207
Paraquat **[herbicide]** is not bacteriostatic under anaerobic conditions. 123098
Effects of **pure** *paraquat* dichloride, "Gramoxone W" [herbicides], and formulation additives on soil microbiological activities. 3. Estimations of soil microflora and enzyme activity in field-treated soil. 123215

PARASITES

Some aspects of the biology and control of Sapyga pumila Cresson, a *parasite* of the **alfalfa** leafcutter bee, Megachile pacifica P. (Rotundata) (F.). 123294
Mode of *parasitism* of **Alternaria** brassicae [the causal fungus of blackspot of rapeseed] by Nectria inventa [Mycoparasitism]. 122732
An annotated list of predators and *parasites* **associated** witn insects and mites on Florida citrus. 123381
An analysis of *host-parasite* **associations** among feather mites (Acari: Analgoidea). 124077
Observations on the subgenus Argas (Ixodoidea: Argasidae: Argas). A. (A.) dalei, new species, *parasitizing* the **burrowing** owl in Peru. 124216
Agriostomum vryburgi Railliet, 1902, a new **cattle** *parasite* of the People's Republic of the Congo. 118898
Description of Rhipicephalus bergeoni n. Sp. (Acarina, Ixodida) of Ethiopia mountains [adults of which are *parasites* of **cattle].** 124423
Chalcid *parasites* of Prays oleae (Lepidoptera: Plutellidae) in Andalusia [for integrated control in Spanish olive orchards]. 123398
Australian model of *parasite* **control** baths [Cattle, sheep, ectoparasites]. 123642
Development and effect of *parasitic* **crop** rotation damages under stress conditons of long term cereal rotations. 122996
A reassessment of the numerical distribution of watermites (Arrenurus spp.) on dragonflies [Odonata] in relation to *parasitism* and **dispersal.** 123769
Biological control in Morocco of the wheat bug Aelia germari. Comparative value of two egg **eating** *parasites:* Asolcus grandis and Ooencyrtus fecundus (Hymenoptera, Scelionidae and Encyrtidae). 123283
Possibility of biological control of the European corn borer [Pyrausta nubilalis] with Trichogramma **egg** *parasites.* 123324
On the etiology of bovine coccidiosis and the carriers of **Eimeria** *parasites* in the Estonian S.s.r. 118932
Biological control [with the *parasite* **Encarsia** formosa] of glasshouse whitefly (Trialeurodes vaporariorum) on cucumbers. 123396
Observations on Litomastix aretas, an **encyrtid** *parasite* of the strawberry tortrix moth. 123366
Some considerations on the present status of chestnut blight disease [caused by **Endothia** *parasitica]* in Italy [Castanea]. 122559
Chestnut research and biological control of the chestnut blight fungus **[Endothia** *parasitica].* 122622
Histological examinations of *parasitized,* **Entomophthora-infected** pea aphids, Acyrthosiphon pisum [Natural control]. 123420
Effects of dietary amino acid level and nutritional balance on larval survival and development of the *parasite* **Exeristes** roborator [Pectinophora gossypiella, biological control]. 123280
Contribution to the study of *parasitism* of **foxes** (Vulpes vulpes L.) by Ixodidae (Acarina) in northeastern France. Interpretation of the seasonal dynamics of the parasites in relation to the biology of the host. 123590
The evolution of *parasitism* of **fungal** plant pathogens. 122658
Improvement of apple trees for resistance to *parasitic* **fungi** and harmful arthropods [Breeding]. 120610
A study of **helminth** *parasites* in the gastrointestinal tract of the swamp buffalo, Bubalis bubalis Lydekker, in the Northern Territory. 118619
Alexandre-Paul Kristof, professor of *parasitology* at the **Horticultural** Center of Lullier. 123032
Parasites **(Hymenoptera,** Chalcidoidea) associated with bark beetles [Scolytus, Hylesinus, Ips] in Norway. 123486
Influence of genetic changes and other variables on the encapsulation of *parasites* by **Hyphantria** cunea [Tree pests, natural control]. 123453
The biology of Harveyella mirabilis (Cryptonemiales; Rhodophyceae). V. Host responses to *parasite* **infection** [Algae]. 121219
Effect of a juvenile hormone analogue on the development of a *parasitic* **insect,** Pales pavida (Diptera: Tachinidae). 123903
Arylesterases of [plant] *parasitic* **insects.** 121310
Influce of *host-parasite* **interations** on the population dynamics of ticks. 123645
A contribution to the knowledge of Laboulbeniales (Ascomycetes) *parasitic* on **Italian** carabids (Insecta, Coleoptera) [Laboulbenia agelaeae, Rhachomyces pacei, Fungi, new taxa]. 120018
Two new genera of **leaf** *parasitic* fungi (Basidiomycetidae: Brachybasidiaceae) [Leaf-spot diseases of vascular plants]. 120206
Studies on the pellicular complex of the exocrythrocytic merozoites of the avian **malarial** *parasite* (Plasmodium lophurae) [Derived from turkey brains]. 118890
On the occurrence of Bacillidium sp. A **microsporidian** *parasite* infecting some thrips larvae [Thrips flavus, Scirtothrips oligochaetus, cotton pests]. 123303
Ultrastructural study of Stempellia mutabilis Leger and Hesse, a **microsporidian** *parasite* of Ephemera vulgata. 124134
Antiquity and specificity of *parasitic* **mites.** Parallel host-parasite development [Especially Myobiidae, marsupials as hosts]. 123589
Notes on **Myobiidae** *parasites* of rodents, insectivores and Chiroptera (Acarina: Prostigmata). 123593
Fecundity and oviposition period of Aphidius platensis Brethes (Hymenoptera, Aphidiidae) *parasitizing* **Myzus** persicae Sulz. (Homoptera, Aphididae) on paprika [Biological control]. 123255
The role of *parasites* in **natural** ecosystem [Water, pasture, livestock transmission]. 118923
Biological and ecological studies of the parasitoid Chelonus inanitus (Hymenoptera: Braconidae) in Israel. I. Distribution, abundance and *parasitism* in **natural** host populations [Biological control of pests]. 123232
Relationships between *[plant-parasitic]* **nematode** population densities and crop responses. 122904
Seasonal population fluctuations of *parasitic* **nematodes** in the rhizosphere of grape-vines. 123048
New *parasitic* mites of the superfamily Listrophoroidea (Astigmata) [New taxa]. 124200
Quantitative analysis of lipids, nirogen substances and glycogen in the larva of an **ovo-larval** *parasitic* insect, Phanerotoma flavitestacea (Hymenoptera, Braconidae). 123890
Antiquity and specificity of parasitic mites. **Parallel** *host-parasite* development [Especially Myobiidae, marsupials as hosts]. 123589
The involvement of flavour volatiles in the resistance to downy mildew **[Peronospora** *parasitica]* of wild and cultivated forms of Brassica oleracea. 122685
Organic amendments and control of foot rot of Piper betle caused by **Phytophthora** *parasitica* var. piperina. 122570
A new disease of Pilea [imperialis] caused by **Phytophthora** *parasitica* [Leaf, bud and stem blight]. 122742
The relationship between **plant** *parasitic* nematodes and cotton wilt disease and their control methods [Verticillium dahliae, Fusarium]. 122914
Pigments of Cytinus hypocistis. I. Isoterchebin, the yellow pigment of Cytinus hypocistis (Rafflesiaceae, *parasitic* **plants).** 121228
Genetic change in [plant] *host-parasite* **populations.** 122901
Parasites **promote** problems in maintaining feedlot health [Cattle]. 118687
Physiological host specificity of the polyphagous **pupal** *parasites* of Pimpla turionellae L. (Hymenoptera, Icneumonidae) and its ecological significance. 123456
Contribution to the study of parasitism of foxes (Vulpes vulpes L.) by Ixodidae (Acarina) in northeastern France. Interpretation of the seasonal dynamics of the *parasites* in **relation** to the biology of the host. 123590
Studies on the action of the dichlorocyclopropanes on the *host-parasite* **relationship** in the rice blast disease [Piricularia oryzae]. 122719
Contribution to the *parasites* of **roe** deer in forests. 119062
Phomopsis cotoneastri, a **secondary** *parasite* on Cotoneaster dammeri. 122676
Studies on the behaviour of Bombus Latr. Species (Hymenoptera, Apidae) *parasitized* by **Sphaerularia** bombi Dufour (nematoda) in an alpine area. 124549
The epizootiologic and *parasitologic* **status** of the flocks at a poultry dressing combine. 119000
Importance of extemporaneous examination of Siphonaptera for the **study** of their *parasites.* 123809
Epidemiology of the main wheat [fungal] *parasites:* **survey** carried out in Italy during 1973-1975. 122633
Advances in **swine** *parasitology,* 1973. 118886
A survey of **tachinid** *parasites* of Heliothis zea and Heliothis virescens in North Carolina [Biological control of field crop pests]. 123317
Tachinid *parasites* of the gypsy moth, Lymantria dispar, with keys to adults and puparia [Tachinidae, new taxa, natural control, forest pests]. 123480
Status of three **tachinid** *parasites* of Diatraea spp. In Guadeloupe (French West Indies). 123815
Parasitism of the **tarnished** plant bug, Lygus lineolaris (Hemiptera: Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, Phleum pratensis]. 123297
Ultrastructural morphology of two sensilla placodea on the antenna of a *parasitic* **wasp** [Tetrastichus hagenowii]. 124132
Parasitism among **white-tailed** deer and domestic sheep on common range. 118813
A case of bovine hydatidosis *[Parasitic* **worms].** 118771
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the herbage infestation with infective larvae *[Parasitic* **worms].** 118862
The influence of Ascaris suum infection upon growth rates in pigs *[Parasitic* **worms].** 118864
The serum pepsinogen analysis and its relation to bovine ostertagiasis [Ostertagia ostertagi, *parasitic* **worms].** 118865

PARASITIDAE

The genus Holoparasitus Oudemans and some morphological characters of the **family** *Parasitidae* Oudem. (Parasitiformes) [New taxa]. 124197

PARASITIFORMES
The genus Holoparasitus Oudemans and some morphological characters of the family Parasitidae Oudem. *(Parasitiformes)* [New taxa]. 124197
Contribution to the study of the genera Gamasiphoides Womersley, 1956 and Laelaptiella Womersley 1956 (Acarina, *Parasitiformes)* [New taxa, Chile]. 124353

PARASITOIDEA
Biological and ecological studies of the *parasitoid* **Chelonus** inanitus (Hymenoptera: Braconidae) in Israel. I. Distribution, abundance and parasitism in natural host populations [Biological control of pests]. 123232
Forest and laboratory evaluations of hybridized Apanteles melanoscelus (Hymenoptera: Braconidae), a *parasitoid* of **Porthetria** dispar (Lepidoptera: Lymantriidae). 123458

PARATHION
Binding of (14C) [carbon isotope] *parathion* in **soil:** a reassessment of pesticide persistence. 123759

PARATHYROID *see* THYROID

PARATUBERCULOSIS
Susceptibility of the Mongolian gerbil (Meriones unguiculatus) to **Mycobacterium** *paratuberculosis.* 118606

PARDOSA
Energy metabolism in the wolf **spider** *Pardosa* palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124113
Production of faeces, excreta, and silk in the wolf **spider** *pardosa* palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124115

PARENCHYMA
Studies on the alpha-adrenergic activation of hepatic glucose output. I. Studies on the alpha-adrenergic activation of phosphorylase and gluconeogenesis and inactivation of glycogen synthase in isolated rat **liver** *parenchymal* cells. 117796
Change of morphological characters of the *parenchyma* of **secondary** wood in the pine family (Pinaceae) in relation to age. 120471

PARENT
Parental **behavior** in the Dermaptera with special reference to Forficula auricularia (Dermaptera: Forficulidae). 123859
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [turkey herpesvirus] vaccine. II. Effectiveness of the deptavac HVT vaccine with **broiler** *parents* during the egg-laying period. 118972
Meiotic behaviour of F1 hybrids between Triticale forms of different ploidy level exceedng the *parents* in **fertility.** 120644
Content of B complex vitamins in the *parental* **forms** of the seeds of maize and sunflower and in hybrids in relation to the combining ability of lines. 120699
Variation of *parental* **forms** in the intensity of synthetic processes and heterosis in tomatoes. 120715
Effect of ultrahigh frequency electromagnetic fields on the productivity of sugarbeet hybrids and their *parental* **forms.** 121475
Isoenzymatic spectra of peroxidase and nitratereductase from vegetative organs of maize heterotic hybrids and their *parental* **forms.** 121476
Study of physiologic and biophysical features of maize hybrids and their *parental* **forms.** 121482
Reactions of the school board on the *parental* **home** [Lunch]. 116319
Comparisons of some properties of crystalline acid proteinases produced by the *parent* and **mutant** strains of Irpex lacteus Fr. [Fungi]. 120856
Evaluation of **strawberry** *parent* clones for easy calyx removal [Heritability]. 120766

PARENTERAL
Induced feline urethral obstruction: response to hyperkalemia to relief of obstruction and administration of *parenteral* **electrolyte** solution. 119110
Essential fatty acid deficiency in adults receiving **total** *parenteral* nutrition. 116279

PARKS
St **Anne's** *Park* Rose Garden, Dublin. 122481
Apollo **County** *Park* wastewater reclamation project. 125539
Growing apricot [species] in the Frostyanefs **[dendrologic]** *park.* 122195
District *parks* of the Ruhr Coal District [Land] Colonization Association. 115224
Dam the *park* **[Floods].** 125351
Computer implemented classification of vegetation using aircraft acquired multispectral scanner data *[Parks* and **forests].** 119496
Pedological investigations of the **Lazienki** *Park* in Warsaw in relation to environmental protection. I. Soil characteristics. 124896
The beautiful summer flowers of the Kiskunsag **National** *Park* [Hungary]. 119996
The vegetation of Volcan Poas **National** *Park,* Costa Rica. 120395
Structures and comparative growth of some populations of Aleppo pine [Pinus halepensis] on Port-Cros island **(national** *park).* 121795
Seville has a **new** *park* and a new rose garden. 122478
Scirrhia pini Funk et *Park.,* **pathogen** of a new pine disease in Slovenia [Pinus nigra]. 122615
Dog's intestinal helminth ova incidence in **public** *parks* of the city of Milan. 118616
Problems of increasing the resistance of forests and *parks* to **recreatonal** loads. 119869
The ecological function of natural **resources** *parks* and protective zones in the protection of the environment [Forest conservation, pollution control]. 119299

PARLATORIA
Lorsban insecticide for armored scale control on Texas citrus [Aonidiella auranti, *Parlatoria* **pergandii].** 123393

PARMELIA
Ecophysiological response of lichen transplants to air pollution in the Murdochville Gaspe Copper Mines area, Quebec *[Parmelia* **squarrosa,** Hypogymnia physodes, Usnea]. 122974

PARMELIACEAE
A monograph of the lichen genus Bulbothrix **Hale** *(Parmeliaceae)* [New taxa]. 120259
A monograph of the lichen genus Pseudoparmelia **Lynge** *(Parmeliaceae)* [New taxa]. 120260

PARNASSIANA
Parnassiana **nova** L, new subspecies of Parnassiidae [New taxa]. 124480

PARNASSIIDAE
Parnassiana nova L, new subspecies of *Parnassiidae* **[New** taxa]. 124480

PARNASSIUS
A new subspecies of *Parnassius* **jacquemontii** [kohibabaensis] Boisduval. 124479

PAROTID
Changes in *parotid* **salivary** flow during intracarotid infusion of potassium chloride into conscious sheep. 117822
Changes in patterns of feeding activity, *parotid* **secretory** enzymes and plasma corticosterone in developing rats. 118100

PARSLEY
Light-induced enzyme synthesis in cell suspension cultures of Petroselinum hortense *[parsley].* **Demonstration** in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
Freeze-drying as an alternative method for lowering seed moisture [Onions, **peppers,** *parsley].* 121764
Substrate specificity of flavanone synthase from cell suspension cultures of *parsley* and **structure** of release products in vitro. 121602

PARSNIPS
Relations of the semi-persistent viruses, *parsnip* **yellow** fleck and anthriscus yellows, with their vector, Cavariella aegopodii. 122816
The role of the helper virus, anthriscus yellows, in the transmission of *parsnip* **yellow** fleck virus by the aphid Cavariella aegopodii. 122817

PARTHENIUM
Fungi in the root region of *Parthenium* **hysterophorus** Linn. [an allergic weed]. 122601
Antifungal activity of pollen *[Parthenium* **hysterophorus,** Pennisetum typhoides, Sclerospora graminicola]. 122681
Pre- and postemergence control of [the poisonous neotropical weed] *Parthenium* **hysterophorus** Linn. 123197
Biological control for the pernicious **weed** *Parthenium* hysterophorus Linn. 123076

PARTHENOGENESIS
Studies on utilization of *parthenogenesis* in **breeding** of Brassica pekinensis [Chinese cabbage]. II. To increase the percentage of parthenogenesis seed setting with chemicals. 120770
Anomaly of female cones in Siberian stone pine (Pinus siberica du Tour) as a possible **form** of *apomixis.* 121808
Genetic analysis of the increased heterotic ability of *parthenogenetic* **males** of silkworm [Bombyx mori], homozygous at all loci. 124507
Studies on utilization of parthenogenesis in breeding of Brassica pekinensis [Chinese cabbage]. II. To increase the percentage of *parthenogenesis* **seed** setting with chemicals. 120770
Depolyploidization of **tetraploid** *parthenogenetic* clones of silkworm [Bombyx mori] by the method of meiotic parthenogeneisis. 124506

PARTICLES
Effects of high-LET [lineal energy transfer] *particles* (40A **[Angstrom])** on the brain of Drosophila melanogaster. 124009
A comparison of the performance of the Savage tea cutter, Tarry nipper breaker and the Nara tea granulator for the size reduction of *particles* of **black** tea [Equipment]. 124732
Apparatus for the nondestructive testing of *particle* **board.** 119762
Susceptibility to cracking of *particle* **boards** covered with decorative paper. 119674
Evidence that blackfly larvae [Diptera: Simuliidae] can feed on *particles* of **colloidal** size. 124096
Electron microprobe analysis of *particles* in the **insect** vector of maize streak [Cicadulina mbila]. 123334
The shape of dose-effect curves for diploid yeast cell irradiated with **ionizing** *particles.* 121082
The production of **optimum** *particle* smokes in forest fires. 119347
Particle-bound **phytochrome:** differential pigment release by surfactants, ribonuclease and phospholipase C [Pumpkins]. 121756
Reversible *particle* movements associated with unstacking and restacking of chloroplast membranes in vitro. 120482
Globin messenger sequences in nuclear **ribonucleoprotein** *particles* of avian [chick] erythroblasts. 117849
Airborne Pb [lead], Cd [cadium], Zn [zinc], and Cu [Copper] concentration by *particle* **size** near a Pb smelter [Farm]. 125386
Some morphological and chemical characteristics of the purified **terpenoid** *particles* of the latex of Hoya australis R.br. Ex Traill [and Euphorbia milii]. 116640
Intracisternal **virus-like** *particles* in two guinea pig mammary adenocarcinomas. 118817
Status of technology of molded parts made of **wood** *particles.* 119673

PARTICULATE
The organic constituents of **atmospheric** *particulate* matter [Air pollution]. 125391
Kraft furnance effluent **gas** *particulate* capture in a multi-plate fluidized bed. 125564
Ambient air quality standards for *particulate* **matter** in the United States. 125440
Laboratory testing for gaseous and *particulate* **pollutants** from forest and agricultural fuels. 125445

PARTITION
Properties of [spinach] chloroplasts isolated by **phase** *partition.* 121737

PARTRIDGES
The effect of new pescticides (Birland EC 24, Chlorophacinon, Nexion Saatgutpuder) on small game [Pheasants, *partridges,* **hares].** 123745

PARTURITION *see* BIRTH

PASPALUM
The case for *Paspalum* **distichum** and against futile name-changes. 120290
Kodo *[Paspalum* **scrobiculatum]** poisoning in animals. 119240

PASSIFLORA
Auxin transport in tendril segments of *Passiflora* **caerulea.** 121745

PASSIVE
Passive **cutaneous** anaphylaxis in the domestic fowl. 118769
Passive **immunization** against oestradiol-17 beta and its effect on luteolysis, oestrus and ovulation in the ewe. 118354
Guidelines for the *passive* **removal** of insect pests in stored products. 123581

PASTE
Detection and determination of soft wheats in **food** *pastes.* 117066

PASTEURELLA
The respiratory disease complex in rabbit farming **[Bordetella,** *Pasteurella].* 118593
Enzootic dermonecrosis in **chickens** *[Pasteurella].* 118983
End products of glucose fermentation of Pasteurella multocida and *Pasteurella* **haemolytica** [Bacterial pathogens of animals]. 119064
Effect of furazolidone in feed on immune response of turkeys vaccinated with **live** *Pasteurella* multocida in drinking water. 118626
Interesting doctoral work by a Norwegian veterinarian *[Pasteurella* **multocida,** bacterial infections in turkeys]. 118859
Effect of physical and chemical factors on *Pasteurella* **multocida** phages. 118980
End products of glucose fermentation of *Pasteurella* **multocida** and Pasteurella haemolytica [Bacterial pathogens of animals]. 119064

PASTEURELLOSIS
Aerosol immunization of **poultry** against *pasteurellosis.* 119016
Aerosols of disinfectants for [control of] *pasteurellosis* of **rabbits.** 119017

PASTEURIZATION
Precision-accurate study of bacterial colonies automatic count by using the Artek electronic counter [Raw milk and *pasteurized* **cream].** 116043
Effect of nisin [a polypeptide antibiotic] on prolonging the keeping quality of *pasteurized* **milk.** 116928
Freezing points of raw and *pasteurized* **milks.** 116893
Pasteurization by **plate** heat exchangers [Beer]. 116678

PASTURES
Supplemental needs of pregnant ewes wintered on fescue [Festuca **arundinacea]** *pasture.* 118098
Direct sowing of forage sorghum in guinea pasture [Panicum maximum] during the dry season. 1. Effects of *pasture* **availability** and milk production. 121900

The use of *pasture* for **beef** production. 3. Different protein sources for molasses/urea supplementation to bulls during the dry season. 118050
Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 7. Use of different magnesium sources in mineral mixes for **cattle** on *pasture.* 119178
Managing white **clover** *pastures* in northern Michigan. 121913
Studies of field populations of Rhizovbium [trifolii]: relationships between strain effectiveness, soil nitrogen levels, and response to applied nitrogen in subterranean **clover** *pastures* in northeastern Victoria. 124803
Germination effects on *pasture* **composition** in a dry monsoonal climate. 121519
A comparison of the control of Pithomyces chartarum with three fungicides applied at both the pre- and postdanger levels of spores in *pasture* [for the **control** of facial eczema]. 118848
Smutgrass [Sporobolus poiretti] **control** [in *pastures].* 123073
Farm management methods to **control** *pasture* pests [Costelytra zealandica, Wiseana]. 123337
Relationships between the method of manuring and animal behavior on *pastures* [**Dactylis** glomerata]. 3. Effects of lime manuring on pastures and the grazing behavior of young bullocks. 122102
Are feed concentrates worth while [for cattle] on *pasture?* [**Effects** on milk production]. 118179
Pasture **establishment.** 122041
Proper organization of *pasture* **fattening** and of planned slaughter of reindeer—the basis for increasing reindeer husbandry productivity in the Magadan Region. 121991
Grazing management systems for **fertilized** *pasture* [Cattle]. 122040
Improvement of apiculture through planned exploitation of **forest** *pasture* [Honeydew flow]. 124548
Survival of infectious larvae of horse strongylid nematodes in *pasture* **grass;** a preliminary field study. 118956
Elemental composition of corn grains, soybean seeds, *pasture* **grasses,** and associated soils from selected areas in Missouri. 120392
Relationships between the method of manuring and animal behavior on pastures [Dactylis glomerata]. 3. Effects of lime manuring on *pastures* and the **grazing** behavior of young bullocks. 122102
[Food] marketing situation: back from the **green** *pasture;* are things going down? Fertsch, F W. 115612
Direct sowing of forage sorghum in **guinea** *pasture* [Panicum maximum] during the dry season. 1. Effects of pasture availability and milk production. 121900
Permanent *[pasture]* on the **hills.** 121902
Honeybee *pasture.* 4. [Honey plants]. 122516
Bull maintenance on *pastures* and **housing** of bulls with exercise outruns. 117440
Pasture **improvement** with 2,D [(2,4-dichlorophenoxy)acetic acid] and fertilizer in northwestern Minnesota, 1971-73. 121903
Get maximum production from grass fed beef with **irrigated** *pastures.* 122055
The role of parasites in natural ecosystem [Water, *pasture,* **livestock** transmission]. 118923
Salamanca Province: possibilities and future [Programs relating to animal husbandry and *pasture* **management.** 115804
Proceedings: 9th Beef Cattle Field Day, November 8, 1975, Mealani Experiment Station, Kamuela, Hawaii [Husbandry, feeds, feeding, *pasture* **management].** 117472
Plan now and you'll get grazing [Cattle, *pasture* **management].** 122034
Stock and *pasture* **management** for establishment of radiata pine in farmland. 122064
Progressive retrogression in *pasture* **management?** [Grazing, cattle]. 122165
The development of resistant pasture and methods of *pasture* **management** for grass grub [Costelytra zealandica] control. 123339
Grass varieties for **Mauka** *pastures.* 122039
Plumeless thistle [Carduus acanthoides]—an increasing problem in **Minnesota** *pastures*—identification and control. 123143
Evaluation of soil fertility for **natural** *pastures* [Nitrogen, phosphorus and potassium fertilizers]. 124952
The effectiveness of aerial survey for determining the distribution of rabbit warrens in a semiarid environment **[Pests** of *pastures].* 122911
A study of fungal infection in the dung fly, Scathophaga stercoraria L. (Diptera, Scathophagidae) [Predators of *pasture* **pests].** 123312
Insect density effects in root feeding by larvae of Sericesthis nigrolineata (Coleoptera: Scarabaeidae) *[Pasture* **pests].** 123316
Study of natural populations of Hedysarum coronarium L. In northern Tunisia [to improve its use as a *pasture* **plant].** 119992
Fifty years of [crop and *pasture]* **plant** research. 122423
Seasonal distribution of *pasture* **production** in New Zealand. VIII. Dargaville. 122051
Seasonal distribution of *pasture* **production** in New Zealand. IX. Hamilton. 122052
Seasonal distribution of *pasture* **production** in New Zealand. X. Rangitikei district. 122053
Effect of stocking rate on *pasture* **production** under irrigation and growth of young cattle [Grazing]. 122062
The influence of herbage [grazing] utilization on *pasture* **production** and animal performance. 122065
Metabolism, productivity and reproductive ability of heifers grazed on *pasture* with different **proportion** of estrogenically active white clover. 118406
Payoff: more beef from **range** *pastures*—fertilization project giving proof. 125041
Effective practices for using and improving **reindeer** *pastures* and for their conservation. 121989
Land regulation and improvement of the use of **reindeer** *pastures* in the Magadan Region. 121990
Utilization of **reindeer** *pastures* in the Nemets National Region. 121992
Utilization, reserves and conservation of **reindeer** *pastures* in Taimyr and Evenki [National Region]. 121993
The development of **resistant** *pasture* and methods of pasture management for grass grub [Costelytra zealandica] control. 123339
Fertilized kikuyugrass [Pennisetum clandestinum] *pasture* **vs** sugarcane strippings for backgrounding weaner calves. 118118

PATHOGENESIS

Aetiology and *pathogenesis* of **abomasal** displacement in dairy cattle. 119271
Pathogenic **agents** of horse ringworms. 119028
Isolation of Mycobacterium avium serotype 3 from a white-headed tree duck (Dendrocygna viduata) *[Pathogenicity* in **chickens].** 118636
Investigations on a metabolite from Lactobacillus bulgaricus which neutralizes the effect of enterotoxin from Escherichia **coli** *pathogenic* for pigs. 118784
Pathogenesis **[demodicosis]** associated with hair follicle mites (Acari: Demodicidae). 123591
The *pathogenicity* of **Eimeria** bateri in the Japanese quail. 118608
Some new leaf spot diseases [caused by *pathogenic* **fungi].** 122607
Distribution and *pathogenicity* of **Fusarium** oxysporum in a [Pseudotsuga menziesii] forest nursery soil. 122727
Pathogenicity of **Fusarium** solani on sainfoin (Onobrychis viciifolia) [Root and crown rot]. 122754
Resistance testing of *pathogenic* **germs** and their results in the German Democratic Republic Veterinary Institutes. 118841
Role of the bursa of Fabricius in the *pathogenicity* of **inclusion** body hepatitis and infectious bursal disease viruses [Chickens]. 118639
Electron-microscope studies on the *pathogenesis* of **infectious** bursal disease after intrabursal application of the causal virus. 118628
Electron microscope study of sporulation and parasporal crystal formation in Bacillus thuringiensis *[Pathogenicity* for **larvae** of Lepidoptera]. 123242
Electron microscopy of a **new** *plant-pathogenic* spiroplasma isolated from Opuntia [tuna monstrosa, Spiroplasma citri]. 122863
Genetics and environment in the *pathogenesis* of **nutritional** [vitamin D-responsive] rickets. 116516
Paramural bodies of Albugo candida **[Plant** *pathogenic* fungi]. 120413
Studies into incidence, *pathogenesis,* and **prophylaxis** of bovine grass tetany. 5. Mineral fodder ad libitum mixes or mineral feeding in the milking parlour for prophylaxis against grass tetany. 119176
Studies on incidence, *pathogenesis,* and **prophylaxis** of bovine grass tetany. 6. Prophylactic adlibitum feeding of magnesium-enriched mineral fodder. 119177
Studies on incidence, *pathogenesis,* and **prophylaxis** of bovine grass tetany. 7. Use of different magnesium sources in mineral mixes for cattle on pasture. 119178
Studies on the incidence, *pathogenesis,* and **prophylaxis** of grass tetany of cattle. 8. Magnesium-enriched pelletized coarse feed for prophylaxis against grass tetany. 119179
Studies on the incidence, *pathogenesis,* and **prophylaxis** of grass tetany of cattle. 9. Further experiments on the use of magnesium-enriched pelleted coarse feed for. 119180
Pathogenesis of **pyogenic** mastitis and prophylaxis [Corynebacterium pyogenes, cattle]. 118835
Disinfection of feeds in **specific** *pathogenic* free poultry farming. 118568
Light and electron microscopy for studies on *pathogenesis* of **straddle** in newborn piglets. 119165
An Entomophthora sp. (Entomophthorales: Entomophthoraceae) [Fungi] *pathogenic* to **Thrips** spp. (Thysanoptera: Thripidae) and its potential as a biological control agent in glasshouses. 123394

PATHOGENS

Thermophilic actinomycetes from the environment [as human and **animal** *pathogens].* 118845
Southern corn leaf blight [Helminthosporium maydis]: ultrastructure of *host-pathogen* **association.** 122718
End products of glucose fermentation of Pasteurella multocida and Pasteurella haemolytica **[Bacterial** *pathogens* of animals]. 119064
Pythium [aphanidermatum] stalkrot of maize—mode of **entry** of *pathogen.* 122781
Comparison of antigens of Dermatophilus congolensis isolates and their use in serological tests in experimental and natural infections **[Fungal** *pathogen* of livestock]. 118700
Immunological studies of antigenic components of Dermatophilus congolensis **[Fungal** *pathogen* of animals]. 118712
The skin surface: an environment of Dermatophilus congolensis **[Fungal** *pathogen* of mammals]. 118716
Trichoconiella gen. Nov. **[Fungal** *pathogen* of rice]. 120153
Large-scale production of the **fungal** *pathogen* Hirsutella thompsonii in submerged culture and its formulation for application in the field [to control the citrus rust mite, Phyllocoptruta oleivora]. 123399
Detection of *pathogen* of **Gumboro** disease in Egypt [Chickens]. 118827
Ecology of *pathogens* of the **gypsy** moth [Lymantria dispar, biological control]. 123466
Insect *pathogens* in natural and microbial control of forest defoliators [Biological control]. 123471
Spore yield of *pathogens* in **investigations** of the race-specificity of host [plant] resistance. 122905
The **microsporidian** *pathogens* of Lepidoptera living in grain and meal in Yugoslavia [Natural control]. 123286
Scirrhia pini Funk et Park., *pathogen* of a **new** pine disease in Slovenia [Pinus nigra]. 122615
The conditions of the mycelium of the *pathogen* **Peronospora** [schachtii] in the tissue of sugarbeet varieties differing in their resistance. 122784
Contribution to the knowledge of the Upper Austrian fungal flora [including **plant** *pathogens].* 120266
Management of food resources by fungal colonists of cultivated soils **[Plant** *pathogens].* 122572
Antifungal properties of alpha, omega-alkanedicarboxylic acids and their dimethyl esters **[Plant** *pathogens].* 122591
Microflora in an experimental crop rotation system and its antagonistic effects on soil **plant** *pathogens* [Fungi]. 122655
The evolution of parasitism of fungal **plant** *pathogens.* 122658
Variability of natural strains of muscardine fungi [Beauveria, Paecilomyces, *pathogens* of a **pyralidid** moth, pest of honey bees, biological control]. 124543
Specific *pathogen* free (SPF) frozen bovine semen: a goal? 118288
Specific *pathogen* free fowl flock based on animals from poultry breeding centre. 118843
Inoculation experiments with Bordetella bronchiseptica strains in SPF **[specific** *pathogen* free] pigs. 118861

PATHOLOGY

Study of some *pathological* **characters** and of specificity of the lethargy of Melolontha melolontha larvae (Coleoptera: Scarabaeidae). 123234
Some problems of the **limb** *pathology* of swine. Note on prevention. 119089
Pathology of the **maedi** disease of sheep. 119081
Cycles of boar infertility and *pathology* of the **piglet** in intensive swine rearing. 118247
F. Kolpin Ravn, 1873-1920. A contribution to the history of **plant** *pathology* in Denmark in the first two decades on the twentieth century. 122577
Proceedings of the Federation of British **Plant** *Pathologists* [Abstracts of papers]. 122888
Contributions to the history of **plant** *pathology* in South America, Central America, and Mexico. 122895
Electrophysiological research in **plant** *pathology.* 122898
Plant *pathology* [Control of cotton diseases in Uganda]. 122941
Prerinatal *pathology* of swine. 118446
Thermotolerance of Candida [yeasts]. Relationships with ecology, *pathology* and **taxonomy.** 120890
The Environmental Protection Agency's nine 'principles' of carcinogenicity [Includes **veterinary** *pathology].* 119092
Science and "the politics of cancer" [includes toxicity caused by chemicals, **veterinary** *pathology].* 119231

PATHOPHYSIOLOGY

Pathophysiological **aspects** relating to transport stress on swine. 4. Muscular activity to **exhaustion.** 119168
Pathophysiology **associated** with gastric dilatation-volvulus in the dog. 119116
Incidence and *pathophysiological* **changes** in chronic two-kidney hypertension in the dog. 119225
Experimental studies into the *pathophysiology* and **therapy** of dehydration of calves. 119160

PATHWAYS

C4 [dicarboxylic **acid** *pathway* of] photosynthesis and a unique type of Kranz anatomy in Glossocordia boswallaea (Asteraceae). 121337
Path **analysis** in pearlmillet. 121567
The mixture problem in computer mapping of terrain: improved techniques for establishing spectral signatures, **atmospheric** *path* radiance, and transmittance [Remote sensing, vegetative cover]. 120368
Creative *pathway* of Ismagil Gadievich Suleimanov (August 8, 1904-October 21, 1973) [Plant physiologists]. 121110
Ascending pressor and **depressor** *pathways* in the cat spinal cord. 117531
Formation of nicotinamide ribose diphosphate ribose, a new metabolite of the NAD [nicotinamide adensine denuclotide] *pathway,* by **growing** mycelium of Aspergillus niger [Fungi]. 120857

Causes of stagnation and *paths* of **growth** in West Bengal's agriculture: a discursive review. 115900
Investigation on the **infection** *pathway* of Drechslera graminea in germinating barley. 122578
Further micro-autoradiographic studies on the *pathways* of **movement** of two pesticides in barley roots. 121416
Pathway of **nitrogen** metabolism after fixation of 13N-[nitrogen isotope]-labeled nitrogen gas by the cyanobacterium, Anabaena cylindrica [Algae]. 121167
A **novel** *pathway* for the synthesis of solanidine in the isolated chloroplast from greening potatoes. 121641
Pathways **regulating** cardiovascular changes during volume loading in awake dogs. 117542

PATTERNS

Activity *patterns,* body temperature and thermal ecology in two desert caterpillars (Lepidoptera: Sphingidae) [Hyles lineata, Manduca sexta]. 123882
Inherited **behavior** *patterns* of the honeybee [Apis mellifera] colony as a basis of modern management. 124485
Periodicity and **breakage** *pattern* of air-borne ascospores of Sporormia [Fungi]. 121230
Natural casings as the *pattern* for **casings** [Meat products]. 116988
Growth and **cell** *pattern* formation on an axis: critique of concepts, terminology, and modes of study. 120425
Cellular *patterns* of postmortem glycogenolysis in longissimus dorsi muscles of pigs at different live weights. 117006
The effects of **climatic** *patterns* and agricultural practices on the population dynamics of Culex tritaeniorhynchus in Asia. 123668
The **developmental** *patterns* of lysosomal enzyme activities during Ca2+ [calcium ion]-induced sporangium formation in Achyla bisexualis [Fungi]. III. Ribonucleases. 120917
Evolutionary significance of chromosomal **differentiation** *patterns* in gymnosperms and primitive angiosperms. 120716
Discharge *pattern* of medullary respiratory neurones during thermal polypnea [Cats]. 117833
Comparative histochemical studies on avian liver. 4. Relationship of dietary preference of various representative birds with the fat and glycogen contents and **distribution** *pattern* of histochemically demonstrable lipids in their livers. 117872
Comparative histochemical studies on avian liver. 5. Relationships of dietary preferences with **distribution** *patterns* of lipase, esterase and beta-hydroxy-butyrate dehydrogenase in the livers of various representative birds. 117873
Patterns of **DNA** synthesis in polytenic chromosomes of hybrid Anopheles atroparvus X Anopheles labranchiae (Diptera: Nematocera). 124146
The relation between villus formation and the *pattern* of **extracellular** fibers as seen by scanning microscopy [Chick embryos]. 117650
On the nature of **feeding** *patterns,* primarily in rats. 116368
Changes in *patterns* of **feeding** activity, parotid secretory enzymes and plasma corticosterone in developing rats. 118100
Polyunsaturated meat and dairy products in fat-modified **food** *patterns* for hyperlipidemia. 116405
Cell clones and *pattern* **formation:** genetic eye mosaics in Drosophila melanogaster. 124169
Structure determination of polyunsaturated fatty acids by gas chromatography-mass spectrometry—a comparison of **fragmentation** *patterns* of various derivatives. 116779
Coat colour, **fur** *patterns,* and other peculiarities of the fur in poodle-jackal hybrids. 117961
Growth *pattern* and seasonal behavior of buds of Colliguaya odorifera, a shrub from Chilean mediterranean vegetation. 120331
Observations on setting and **growth** *patterns* of fruit in persimmon (Diospyros kaki, L.). 121584
Patterns of **life** in woodland communities. 15. Some strange galls of the oak [Andricus quercuscalicis, Andricus lignicolus]. 123499
A genetic analysis of **maturing** *patterns* in straightbred and crossbred Hereford, Angus and Shorthorn cattle. 118337
Heterosis for **maturing** *patterns* in Hereford, Angus and Shorthorn cattle. 118339
Spontaneous activity and **meal** *patterns* [Rats]. 116377
Prospects for agriculture to adapt itself to **new** *patterns* of food production—primarily as regards protein supply [Outlook]. 115932
Nutritional *pattern* and health status of the population in the Ukrainian SSR. 116565
Present day state and future prospects for the study of the **nutritional** *pattern* among residents of Kazakhstan. 116566
Selected information source perceptions and use *patterns* in **one** rural Ohio county: an analysis. 115108
Effects of **planting** *pattern* and sowing method on the seed yield of safflower, oilseed rape, and lupin. 122048
Lighting of leaf canopy and the yielding ability of Zimny Zolotoy Parmen as affected by the **planting** *pattern* and the form of the crown [Apples, varieties]. 122499
Patterns of **pollen** morphological variation within taxa. 120508
Fourier analysis of the flight-sound of the pentatomid bug tessaratoma javanica Thunberg & the **pressure** *pattern* of its wings. 123970
Seasonal *patterns* in abundance of water beetles belonging to the Hydrophiloidea (Coleoptera). 123919
Some observations on understanding ecotope [and other related terms used in studies on **spatial** *patterns* of environmental factors]. 120357
Spray and dust **stagnant** *patterns,* treated as Gaussian functions. 124740
Resource **tracking** *patterns* in bird and mammal ectoparasites [Insect pests]. 123646
Physiology of the carbohydrate **utilization** *patterns* of yeasts—a problem desiring transport resolution. 121384
Vascular *patterns* in the chick embryo spinal cord in normal and experimentally modified development. 117521
A new and unique **venation** *pattern* in the diapensiaceae. 119993
Wind *patterns* and soil erosion on the Great Plains. 125152
A basic study on the *pattern* making for **women's** clothes: the classification of the physical-type by the Pignet-Vervaeck Index. 116591
Effects of blending gynoecious and monoecious cucumber seeds on **yield** *patterns.* 122334
Salt marsh vegetation: latitudinal gradients in the **zonation** *patterns.* 120388

PATULIN

Mycotoxins in foods. VIII. Inhibition of the formation of mycotoxins (aflatoxins) B1 and G1, *patulin* and **sterigmatocystin)** in whole wheat bread by sorbic acid and sorboylpalmitate. 116077

PEACHES

Effect of Fe-EDDHA [sequestrine of iron] on rhizogenesis and success of transplanting in *peach* **almond** hybrid plants. 122497
Cherry, plum, *peach,* **apricot** and almond: Prunus spp. (Rosaceae). 122352
Quality of canned Mississippi **cling** *peaches.* 116249
Photosynthesis and carbonic anhydrase activity in Zn[zinc] **deficient** *peaches* irradiated with ultraviolet light. 121676
Association between elemental content of **dormant** *peach* trees and susceptibility to short life [Predisposition to cold injuries and bacterial canker, Pseudomonas syringa]. 122964
Effects of low temperature and maturity at harvest on keeping quality of white **flesh** *peaches* during their distribution. 117292
Cold acclimation of **Florida** *peach* and nectarine cultivars. 121661
Relation between *peach* **flower** bud drop and carbohydrate and nitrogen concentration. 121592
Development of Anthocoris sibiricus Reuter (Heteroptera, Anthocoridae) at constant and fluctuating temperatures with the **green** *peach* aphid Myzus persicae (Sulzer) as prey. 123427
1976 insect and disease chemical control **guide** for *peaches.* 122955
Citrus: drop the subject [Mold on *peaches* after **injury**]. 122554
Time of thiourea-KNO3 [potassium nitrate] application on the rest requirement and bud development in **'Loring'** *peach.* 121682
Wilt of the **one-year** *peach* shoots affected by Clasterosporium [carpophilum]. 122660
Observations on the diffusion and detection of Sharka virus in a *peach* **orchard** in Aquitaine. 122858
Occurrence of the **oriental** *peach* moth [Laspeyresia molesta]. 123434
Honeybees are the best allies of pomologists even under protection *[Peaches,* **pollinators].** 124492
Structural properties of polysaccharides from gums of some different cultural varieties of the *peach* **Prunus** persica (L.)Bartsch. 121610
Solutions to problems associated with the **replanting** of *peaches.* 122275
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in *peach.* II. **Resistance** of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Studies on the flesh quality of fruit and vegetables. II. Relation between the pulp quality and properties of pectic substances during post-harvest **ripening** of *peaches.* 117293
A study on the *peach* **rootstock** (Nemaguard) resistance against root-knot nematodes Meloidogyne incognita and Meloidogyne javanica) in Aegean region. 122912
Influence of peach seedling rootstocks on growth, yield and survival of *peach* **scion** cultivars. 121710
The effect of iron on growth and bacterial canker [Pseudomonas syringae] susceptibility of *peach* **seedlings.** 122803
Protection of *peach* **shoots** against species of Leucostoma [cincta and Leucostoma persoonii] with benomyl and captafol. 122735
A casa of flowering and fructification of the **Springtime** *peach* tree out of season in Sicily. 121657
Laboratory transmission of Sharka [virus] from *peach* **tree** to peach tree by Myzus persicae Sulzer. 122868
Planting of *peach* **trees** with dense spacing [Varieties]. 122312
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and *clingstone* **varieties** with pubescent fruit skin. 120642
Peach **variety** performance. 122322

PEAKS

Aroma qualification of wines by gas chromatography. II. Determination of an index number defining aroma quality; its relationship with gas **chromatographic** *peak* areas and conditions of application. 117307
Estimating *peak* concentrations of pheromones in the forest [Lymantria dispar]. 123469

PEANUTS

Peanuts in **altitude** zones of western Cameroon. 121869
Biological specificity of flowering and fruit formation in *peanuts* under the **conditions** of Guinea. 121576
Peanuts **[Cultivation].** 121851
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing **extracted** *peanut* meal and dried skim milk. 117989
Possibilities of reducing aflatoxin formation in **extraction** *peanut* grist. 117366
Distribution of oil or other diethyl ether extractable material in various fractions of *peanuts* **infected** with selected fungi. 122643
Evolution of lysine, methionine and cystine in a *peanut* **meal** after treatment by ammonia. 117177
Protein requirments for White Leghorn hens with fish meal and *peanut* **meal** as nitrogen sources. 117967
World production and trade of *peanut* **oil** and meal up [Statistics]. 115635
Marketing quotas as an alternative to the present price support **program** for *peanuts.* 115754
Performance of **Spanish** *peanut* varieties in Texas [Yields]. 122045
Comparisons of Florunner with **Spanish** *peanut* varieties in Texas [Yields]. 122078
A natural mortality table for the corn earworm [Heliothis zea] on *peanuts* **[Trichogramma** and Microplitis for biological control]. 123340
U.S. Share of **world** *peanut* export market down slightly in 1975. 115633

PEARLMILLET

Path **analysis** in *pearlmillet.* 121567

PEARS

Ripeness and harvesting of *pears* and **apples.** 122199
Blight of *pears,* **apples,** and quinces. 122806
Alternate methods for control of the codling moth [Laspeyresia pomonella, **apples,** *pears].* 123421
Results of a seven year trial of nutrition replacement in **autumn-** and *winter-pears.* 125024
Protection of **Bartlett** *pear* against fire blight with deoxyribonucleic acid from virulent and avirulent Erwinia amylovora. 122809
Effect of different handling methods on cooling rate and moisture loss of **'d'Anjou'** *pears* stored in bins. 117265
Monitoring fire blight bacteria [Erwinia amylovora] of *pear* for **disease** control. 122807
Effect of air pollution on fruit trees: photochemical smog injury to **Japanese** *pear* tree. 122978
Apple and *pear:* **Malus** and Pyrus spp. (Rosaceae). 122344
Protection of *Bartlett* **pear** against fire blight with deoxyribonucleic acid from virulent and avirulent Erwinia amylovora. 122809
Experiments with field cages on the effect of climatic factors on the codling moth (Laspeyresia pomonella L.) [Apple and *pear* **pests].** 123432
Pruning *pears* with shakers [Costs, mechanical harvesting equipment]. 115475
Changes in the organoleptic characteristics of *pear* **puree** and its derivatives caused by lactic-acid bacteria [Lactobacillus casei]. 117271
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, phosphorus, potassium, magnesium, calcium] on the growth of *pear* **trees** and levels in the leaves, 1958-1975. 121771
Relationship of fire blight [Erwinia amylovora] resistance of **young** *pear* seedlings inoculated in the greenhouse to mature seedling trees naturally infected in the field. 122811

PEAS

Formation of pea-white mustard [Sinapis alba] and *pea-barley* **agrophytocoenoses** [Nutritive relationships]. 120459
Population dynamics of the *pea* **aphid** [Acyrthosiphon pisum] and its entomophages in relation to farming practices. 123439
Yield and stability in intraspecific mixtures [Breeding, **barley,** *peas].* 120634
Isolation of lipoxygenase from split pea seeds, snap **beans,** and *peas.* 117276
Mehler-type reagents in the enhancement of stomatal opening in epidermal strips [Commelina **benghalensis,** *peas].* 121339
Minnesota 108 *pea* **breeding** line [Root rot resistance, disease resistance]. 120692
Oxidative ways of 3-phosphoglyceric acid formation in chloroplast extracts *[Peas,* **broad-beans].** 121638
Energy requirements: freezing vs. **Canning** *[Peas].* 117253
Investigations on the changes in the amino acid content of some cultivars of *peas* for **canning.** III. Free amino acids. 117272
Study of membrane-bound ribosomes during *pea* **chloroplasts** formation. 121608
Effect of adenosinetriphosphatase and conditions of phosphorylation on the H+/3- [Hydrogen, electron] relation and proton exchange of isolated **chloroplasts** *[Peas].* 121636
Effects of waterlogging on the growth of *peas* **[Chlorosis,** reduction of yield]. 122892

Experience of application of nitragin in *peas* on **common** Chernozems at the south-eastern part of the Central Chernozem Belt. 125078
Regulation of apical dominance by ethephon, irradiance and CO2 [carbon **dioxide,** *peas].* 121752
Histological examinations of parasitized, **Entomophthora-infected** *pea* aphids, Acyrthosiphon pisum [Natural control]. 123420
Flavonoid complex of green and **etiolated** *peas* (Pisum sativum L.). 121637
Correlation between beta-galactosidase and auxin-induced elongation growth in **etiolated** *pea* stems. 121753
Field *peas,* field beans, lentils. 121847
Malate dehydrogenase in the fusarial wilt disease of *peas* [**fusarium** oxysporum]. 122709
Problems of developing early forms of *peas* for **grain.** 120810
PGRO [Processors' and Growers' Research Organisation] scheme aims to **improve** *pea* varieties and husbandry. 117211
Absorption of oxygen by *pea* **leaf** chloroplasts in the presence of riboso-5-phosphate in the light. 121634
Two forms of ferredoxin in *pea* **leaves.** 121609
Subcellular localization of the oleyl-CoA [coenzyme A] desaturase activity in *pea* **leaves.** 121645
The hybridization plan of Robert Caspary from 1870 and its possible relationship to G. J. **Mendel's** *pea* experiments. 120614
New variety of *peas,* **Mironovskii** 186. 122498
Formation of *pea-white* **mustard** [Sinapis alba] and pea-barley agrophytocoenoses [Nutritive relationships]. 120459
"Cressy Blue," a **new** *pea* variety. 122504
A new form of *pea* **obtained** from interspecific hybridization [of Pisum sativum ssp. transcaucasicum X Pisum abyssinicum]. 120637
Interpretation of supermolecular organization of photosynthetic membranes [in algae and some higher plants, *peas,* **onion,** spinach]. 121033
Relation between photoinduced changes of the oxiation-reduction potential of the chloroplast suspension and the activity of the second **photosystem** *[Peas].* 121639
Pigeon *pea:* Cajanus cajan (Leguminosae-Papilionatae). 121954
Peas: **Pisum** sativum (Leguminosae-Papilionatae). 122372
Optimum conditions for high-resolution gradient analysis *[pea* **polyribosomes,** southern bean mosaic virus]. 120406
Studies in costs of production, **process** *peas* & beans, 1974-75. 115540
The fine structure of *pea* **root** nodules. 2. Senescence and disintegration of the bacteroid tissue [Rhizobium leguminosarum]. 120530
Investigation of a non-nodulating cultivar of Pisum **sativum** *[Peas].* 121624
Action of biogenic ethylene on some biochemical processes in *pea* **seedlings.** 121650
Differences in the action of synthetic and biogenic ethylene on amino acid metabolism in *pea* **seedlings.** 121653
Primary physicochemical injuries in chloroplasts due to toxic concentrations of NaCl [sodium chloride, *pea* **seedlings].** 123038
Isolation of lipoxygenase from **split** *pea* seeds, snap beans, and peas. 117276
Effects of monovalent cations on IAA [indoleatic acid]-and FC [fusicoccin]-stimulated proton-cation exchange in *pea* **stem** segments. 121762
Creation of *pea* **varieties** by the method of multiple crossings. 120825
The effect of plant age on severity of *pea* **wilt** caused by Fusarium oxysporum f. sp. pisi race 5 [Soil fungi]. 122738

PEASANTS

According to Pardo Buelvas, the welfare of the urban population cannot be constructed on the accumulated impoverishment of the *peasant* **classes** [Economic aspects, programs, Colombia]. 115983
Qualifying the *peasant* for **management** to be initiated by the Agricultural Section of the National Apprenticeship Service [Colombia]. 115438
Development and protection of the *peasant* **property** within the Italian legislation. 115893

PEAT

Growing cucumbers on soil and mixtures of soil and *peat* **aggregated** by hydrolyzed polyacrylonitrile. 124760
Effect of *peat* on the **agrochemical** properties of Sod-Podzolic loamy-sandy soil and the productivity of crop rotation. 124935
Effect of manure and *peat* on the **balance** and transformation of calcium nitrate in soil. 124933
Nutrition of *peat* **composts.** 124999
Effect of composted hardwood bark and *peat* **container** media on growth of selected ericaceous plants [Pieris japonica, Rhododendron]. 122220
The flora of the **Holocene** *peat* bogs of Kanevshchina. 120241
Effect of inorganic fertilizers on the yield, chemical composition of meadow foxtail [Alopecurus pratensis] and the regime of nutrients in *Peat-Bog* **soils** of the Kola Peninsula. 124927
Effect of duration of composting lupine with *peat* on their **sorption** capacity. 125068
New **Zealand** *peat-sand* mixes, including the use of zinc. 124968

PEAVINE

Effect of the location of seeds on the *peavine* **plant** on the yielding qualities [Varieties]. 122148

PECANS

Effect of sub-freezing temperatures on bud break of *pecan* [**Carya** illinoensis]. 121670
Use of gibberellic acid permits early budding of *pecan* [**Carya** illinoensis] seedlings [Growth regulators]. 121770
Pecan **phylloxera** (a gall forming insect) [Carya illinoensis]. 123389
A sauna bath for *pecans* [**Processing].** 117212
Cycles in U.S. *Pecan* **production** 1919—1974 identified by power spectral analysis [Statistics, forecasting]. 115931
Irrigation management of **young** *pecan* [Carya illinoensis] orchards for best growth under saline conditions [Injuries]. 123027

PECTINASES

Pectinase **production** by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, poles]: synthesis and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717

PECTINOPHORA

New weapon in the cottonfield *[Pectinophora* **gossypiella].** 123271
Dominant lethal mutations in insects with holokinetic chromosomes: irradiation of pink bollworm sperm *[Pectinophora* **gossypiella,** Lepidoptera: Gelechiidae]. 123279
Effects of dietary amino acid level and nutritional balance on larval survival and development of the parasite Exeristes roborator *[Pectinophora* **gossypiella,** biological control]. 123280

PECTINS

Optimal carbon source concentration for the *pectolytic* **enzyme** formation of aspergilli [Aspergillus awamori, Aspergillus foetidus, Fungi]. 121341
Some aspects of the intervention of enzymes in wine manufacture. Case of *pectolytic* **enzymes** and invertase. 117229
Evidence for a factor that stimulates tissue maceration by *pectolytic* **enzymes** [Aspergillus japonicus, Fungi]. 121316
The structure and properties of complex gels of **gelatin** and *pectin.* 116802
Mango peel waste as a source of *pectin* [**Physico-chemical** properties]. 117236
Pectic and **protein** problems in depectinized raspberry juice. 117268
Studies on the flesh quality of fruit and vegetables. II. Relation between the pulp quality and properties of *pectic* **substances** during post-harvest ripening of peaches. 117293

PECTOBACTERIUM

Etiology of brown bacteriosis of winter wheat [**Pseudomonas,** *Pectobacterium].* 122812

PECTOLYTIC *see* PECTINS

PEDICEL

Ultrastructure and acid phosphatase in *pedicel* **abscission** of hibiscus [rosa-sinensis]. 120405

PEDOGENESIS

The Po valley climate and its **influence** on *pedogenesis.* 124833

PEELS

Control of corky (silvery) spots [a *peel* **disorder**] of grapefruit by growth regulators. 122939
The rough fruit condition *[peel* **disorder**] of the Shamouti orange—connections with the endogenous hormonal balance. 122977
Abnormal rearrangement of isoprenoid epoxide: synthesis of 7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin, the lactonic constituent of **grapefruit** *peel* oil of Citrus decumana Linn. (Rutaceae). 117230
Mango *peel* waste as a source of pectin [Physico-chemical properties]. 117236
Creasng [disorder] of **orange** *peel*—physiology and control. 122975
Reduction of *peel* **roughness** of 'Shamouti' orange with growth regulators. 121712

PEGOMYA

Beet leaf miner *[Pegomya* **betae].** 123268

PELARGONIUM

First results of experimental works in **Angers** on *Pelargonium.* 119850

PELLETIZATION

Effect of *pelleting* on the **availability** of phosphate in calcined C-grade rock phosphate from Christmas Island [Subterranean clover]. 124994
Striving for full utilization of [fodder] drying and *pelleting* **capacity** [productive capacity, East Germany]. 117357
Studies on the incidence, pathogenesis, and prophylaxis of grass tetany of cattle. 8. **Magnesium-enriched** *pelletized* coarse feed for prophylaxis against grass tetany. 119179
Studies on the incidence, pathogenesis, and prophylaxis of grass tetany of cattle. 9. Further experiments on the use of **magnesium-enriched** *pelleted* coarse feed for. 119180
Some tasks of the [feed] drying and *pelleting* **plants** [East Germany]. 117343
Cost efficiency in gathering and *pelleting* **straw** for livestock feed [East Germany]. 115511
Use of **straw** *pellets* and poultry manure for feeding cattle [Costs, East Germany]. 115513
Studies on the characterization of **straw** *pellets.* 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Rational storage of fodder **straw** for *pelleting.* 117342
Studies on the characterization of **straw** *pellets.* 10. Methodological studies on the in vitro investigation of different kinds of straw [Cattle, sheep]. 118003
Studies with ammonized **straw** *pellets* used as sole basal diet in the feeding of ruminants. 2. Studies on processes of ruminal fermentation in relation to milk composition and the milk yields of cows. 118005
Response of some parameters of metabolism in dairy cows to ammonified **straw** *pellet* feed. 118121

PENETRATION

Invasion and *penetration* of **consumer** packages in short-term storage by stored-product insects. 123540
Penetration of **59Fe** [iron isotope] through isolated cuticles of citrus leaves [Sweet oranges, sour oranges]. 121675
Toxicity, *penetration,* and **metabolism** of chlordimeform and its N-demethyl metabolite in cabbage looper larvae [Trichoplusia ni]. 123407
Penetration of **Rhizopus** oligosporus [Fungi] into soybeans in tempeh [Food spoilage]. 116209
Surface active agent to increase effectiveness of **surface** *penetration* of ancymidol on hydrangea [Hydrangea macrophylla] and Easter Lily [Lilium longiflorum]. 121680

PENICILLIUM

A combined radio gas chromatograph/mass spectrometer detects intermediates in mycophenolic acid biosynthesis *[Penicillium* **brevicompactum,** Fungi]. 120879
Spectrophotometric research of *Penicillium* **brevicompactum** [Fungi] RNAse complexformation with adenyl nucleotides. 120945
The pH [hydrogen-ion concentration] dependence of kinetic parameters of *Penicillium* **brevicompactum** RNAse [Fungi]. 120948
The occurrence of ethanolamine and galactofuranosyl residues attached to *Penicillium* **charlesii** cell wall saccharides [fungi]. 120923
The mycelial cell wall of *Penicillium* **charlesii** G. Smith NRRL 1887 [Fungi, chemistry]. 120937
Somatic hybridisation of Penicillium roquefortii with *Penicillium* **chrysogenum** after protoplast fusion. 120787
A cellulase complex in culture filtrates of *Penicillium* **citrinum** [Fungi]. 120445
Utilization of heptachlor by fungi [Aspergillus, *Penicillium,* **Curvularia** lunata, Trichoderma lignorum]. 121143
Stuies on the mechanisms of barley seed deterioration [Fungal contamination, Aspergillus repens, *Penicillium* **cyclopium,** Fusarium culmorum]. 122567
R23979, a new imidazole derivative effective against postharvest decay of citrus by molds [Penicillium italicum, *Penicillium* **digitatum,** Geotrichum candidum] resistant to thiabendazole, benomyl and 2-aminobutane. 122760
Relations of phenolic inhibitors to resistance of immature apple fruits to rot [Botrytis cinerea, *Penicillium* **expansum,** Alternaria]. 122646
Isolation and characterization of luteoskyrin and rugulosin, two hepatotoxic anthraquinonoids from *Penicillium* **islandicum** Sopp. and Penicillium rugulosum Thom [Fungi]. 121153
R23979, a new imidazole derivative effective against postharvest decay of citrus by molds *[Penicillium* **italicum,** Penicillium digitatum, Geotrichum candidum] resistant to thiabendazole, benomyl and 2-aminobutane. 122760
8-azidoadenine analogs of NAD+ [nicotinamide 8-azidoadenine dinucleotide] and FAD [flavin 8-azidoadenine dinucleotide]. Synthesis and coenzyme properties with NAD+-dependent and FAD-dependent enzymes [Livestock extracts, *Penicillium* **nitatum,** Fungi]. 117669
Somatic hybridisation of *Penicillium* **roquefortii** with Penicillium chrysogenum after protoplast fusion. 120787
Isolation and characterization of luteoskyrin and rugulosin, two hepatotoxic anthraquinonoids from Penicillium islandicum Sopp. and *Penicillium* **rugulosum** Thom [Fungi]. 121153
Examinations of external conidial membranes of some *Penicillium* **species.** I. [Fungi]. 120519

PENIS

Surgical translocation of the *penis* in the **bull** to obtain the teaser bull [Artificial insemination]. 118435

PENNISETUM

Nitrogen fiexaton in grasses *[Pennisetum* **americanum,** Panicum maximum] inoculated with Spirillum lipoferum. 121570
Millets: Eleusine coracana, *Pennisetum* **americanum** (Gramineae). 121952
Fertilized kikuyugrass *[Pennisetum* **clandestinum]** pasture vs sugarcane strippings for backgrounding weaner calves. 118118
Breeding of pangolagrass [Digitaria decumbens] and kikuyugrass *[Pennisetum* **clandestinum].** 120778
Chemical composition and in vitro nutrient digestibility of dinanath **grass** *(Pennisetum* pedicellatum). 117348

Studies on silage making. II. Addition of urea and limestone to hybrid napier silage [Cross between *Pennisetum* **purpureum** and Pennisetum thyphoides]. 117350
Digesta compostion in the gastrointestnal tract of bovines fed forage and high-test molasses diets. Forage utilization *[Pennisetum* **purpureum].** 117640
Effect of feeding hay and silage made from maize hybrid napier *[Pennisetum* **purpureum]** and sorghum on the growth of crossbred calves. 118075
Competition of five varieties of elephantgrass, *Pennisetum* **purpureum** Schum. 121885
Supernumerary chromosomes in *Pennisetum* **squamulatum** Fresen. 120453
Studies on silage making. II. Addition of urea and limestone to hybrid napier silage [Cross between Pennisetum purpureum and *Pennisetum* **thyphoides].** 117350
Antifungal activity of pollen [Parthenium hysterophorus, *Pennisetum* **typhoides,** Sclerospora graminicola]. 122681

PENS
Investigations with *pen* **raised** and wild fur bearing animals. 117510
Results of fattening young **rams** in *pens.* 118170

PENTACHLORONITROBENZENE
Method of determining hexachlorobenzene, *pentachloronitrobenzene* and **pentachloroaniline** residues in milks. 116031

PENTANDRA
Kapok: **Ceiba** *pentandra* (Bombacaceae). 121950
Antifertility screening of plants—effect of four indigenous plants [Cuminum cyminum, Hyptis suaveolens, Dolichos biflorus, **Trianthema** *pentandra].* 119242

PENTATOMIDAE
Fourier analysis of the flight-sound of the *pentatomid* **bug** tessaratoma javanica Thunberg & the pressure pattern of its wings. 123970
Life history and laboratory rearing of Brochymena quadripustulata [on black walnut Juglans nigra] with descriptions of immature stages and additional notes on Brochymena arborea **(Hemiptera:** *Pentatomidae).* 124215
Natural enemies of Bathycoelia thalassina (Herrich-Schaeffer) (Hemiptera: *Pentatomidae),* a **pest** of cocoa in Ghana. 123226

PENTOSES
The role of the *pentose* **cycle** in the metabolism of Drosophila melanogaster revealed by mutations inactivating glucoso-6-phosphate- and 6-phosphogluconatedehydrogenase. 123881
Thiamin deficiency and the *pentose* **phosphate** cycle in rats: intracerebral mechanisms. 116440
Enzymic reconstitution of photosynthetic carbon assimilation. *Pentose* **phosphate-dependent** O2 [oxygen] evolution by illuminated envelope-free chloroplasts from Spinacia oleracea [spinach]. 121599

PEPPER
Cooling **bell** *peppers* [prior to shipping]. 117213
Black *pepper:* Piper nigrum (Piperaceae). 122525
Peppers: **Capsicum** (Solanaceae). 122373
State of knowledge of tomato, *pepper,* and **eggplant** nematode fauna in the Soviet Union. 123007
Competition at the plot border among maize, tomato, *pepper* and **Gladiolus** L. 122115
Freeze-drying as an alternative method for lowering seed moisture [Onions, *peppers,* **parsley].** 121764

PEPSIN
Some chemico-microbiological parameters of cheese produced with the aid of **porcine** *pepsin.* 116914
The **serum** *pepsinogen* analysis and its relation to bovine ostertagiasis [Ostertagia ostertagi, parasitic worms]. 118865

PEPTIC
An evaluation of the *peptic* **digestion** technique (Herlich 1956) for the postmortem recovery of abomasal nematodes from sheep. 118849

PEPTIDES
In vitro trypsin digestion of bovine and pig muscles both raw and cooked: *peptides* **fractionations** by molecular exclusion chromatography [Pork and beef]. 116937
Vasoactive **intestinal** *peptide* (VIP) from chicken. Synthesis and properties of the C-terminal hendecapeptide. 117616
Cyclosporin A, a *peptide* **metabolite** from trichoderma polysporum (Link ex Pers.) Rifai [Fungi], with a remarkable immunosuppressive activity. 121073
Enzymatic proteolysis of monellin [Dioscoreophyllum cumminsii] absence of **sweet** *peptides* [isolated from protein]. 116767
On the immunological detection of **thyroglobulin** *peptides* synthesized in cell-free system [Sheep thyroid glands]. 117600
Fractionation and amino acid composition of acid-soluble **trypsin** *peptides* of inclusion bodies protein of moth (Galleria mellonella) nuclear polyhedrosis virus. 123827

PEPTIDYL
Isolation and properties of **carboxycathepsin** *(peptidyl-dipeptidase)* from bovine lung. 117608
Comparison of porcine liver tRNA preparations: purification of tRNA and its separation from *RNA-peptidyl* **complexes.** 117548

PERCEPTION
Perception of **water** pollution in a rural area: a cognitive dissonance approach. 125489

PERENNIAL
Heterogeneity of soluble proteins from the cytoplasm in leaves of wintering plants [winter rye and *perennial* **blue** lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Testing nemagon in the control of nematodes—vectors of virus diseases [of *perennial* **crops].** 123008
Perennial **grass** [Agropyron elongatum] barriers for wind erosion control, snow management and crop production. 125149
Peculiarities of male sterility in *perennial* **grasses** during its induction by chemical mutagens. 120709
Structure of a *perennial* **inflorescence** of Ruscus hypoglossum L. 120423
The flowering of **nemoral** *perennial* [herbaceous plants] in an introduction experiment [in Moscow]. 120970
A comparative study of the infection of *perennial* **reygrass** [Lolium perenne] by Fusarum nivale and Fusarium culmorum in sterilized soil. 122560
Present position of breeding a *perennial* **rye.** 120674
Early maturing variety of *perennial* **ryegrass,** Drogobychskii 1 [Lolium perenne]. 122152
Seed germination of Hieracium pratense, a **successional** *perennial.* 123067
An analysis of competitive ability in **three** *perennial* grasses [Arrhenatherum elatius, Agrostis tenuis, Festuca ovina]. 120386
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some *perennial* **tropical** legumes and molasses-grass [Varieties, Melinis minutiflora]. 121886

PERFORATIONS
Performance of a **rotating** *perforated* sleeve sprayer [in food processing]. 116841

PERFUSION
Factors affecting the rate of gluconeogenesis from L-cysteine in the *perfused* **rat** liver [Effects of diets]. 116432

PERICARP
Endogenous plant growth substances in developing fruit of Prunus cerasus L. [Sour cherry]. V. Changes in inhibitor (ABA) [abscisic acid] levels in the **seed** and *pericarp.* 121705
Hormonal bioassay of French prune (Prunus domestica L.) **seed** and *pericarp.* 121707

PERIDINIUM
Phased division of *Peridinium* **cinctum** F. Westii [Algae] (Dinophyceae) and development of the Lake Kinneret (Israel) bloom. 121209
Sexual reproduction of *Peridinium* **willei** (Dinophyceae) [Algae]. 120777

PERINATAL *see* **BIRTH**

PERIPHERAL
Peripheral **control** of meal size: interaction of gustatory stimulation and postingestional feedback. 116369
Peripheral **glucosensitive** satiety in the rabbit and the rat. 116370
The *peripheral* **inhibition** of the tarsal sugar receptor by sodium chloride in the proboscis extension response of the blowfly, Phormia regina M. 124034
Effects of ewe proximity on *peripheral* **plasma** testosterone levels and behaviour in the ram. 118351
Peripheral **plasma** progesterone during egg transport in the rabbit. 118388

PERIPHYTON
The effects of various tertiary treatment nutrient removal schemes on *periphyton* **communities** in model laboratory streams [Water resources research]. 125194
Periphyton **diatoms** in a ditch near Tienhoven [Ecology]. 120359

PERIPLANETA
Site & mode of action of neurotoxins released by insecticide poisoning *[Periplaneta* **americana].** 123238
Comparative efficacies of various insecticides in a new bait formulation against *Periplaneta* **americana.** 123578
The permeability to Hostathion [1-phenyl-3-(O,O-diethyl-thionophosphorul)-1,2,4-triazol] of the cuticle of the cockroaches Blaberus trapezoideus and *Periplaneta* **americana.** 123588
Quantitative analysis of male responses released by female sex pheromone in *Periplaneta* **americana.** 123791
An aggression stimulating substance in the cockroach, *Periplaneta* **americana.** 123795
The effect of environmental illumination on embryonic development in *Periplaneta* **americana.** 123806
Continuous monitoring of juvenile hormone release by superfused corpora allata of *Periplaneta* **americana.** 123935
An approach to the study of neural activity during behaviour in insects *[Periplaneta* **americana].** 124041
Antennal receptor response to sex pheromone mimics in the American cockroach *[Periplaneta* **americana].** 124094
Control of circadian rhythm of the trehalose concentration in the hemolymph of *Periplaneta* **americana.** 124187
Microtubules and control of insect egg shape [of the gall midge Heteropeza and the **cockroach** *Periplaneta].* 124021
Toxicity of six insecticides to three species of adult cockroaches [Blatella germanica, Blatta orientalis, *Periplaneta* **fuliginosa].** 123264

PERITONITIS
Studies on the etiology of feline **infectious** *peritonitis,* preliminary communication. 118659

PERLIDAE
Prey selection by a setipalpian stonefly nymph, Acroneuria (Calineuria) californica Banks **(Plecoptera:** *Perlidae).* 123883
The Nearctic genera of *Perlidae* **(Pleocoptera)** [New taxa]. 124333

PERMEABILITY
Lung inflation and **alveolar** *permeability* to non-electrolytes in the adult sheep in vivo. 117827
Relationship between configuration, function, and *permeability* in **calcium-treated** [beef heart] mitochondria. 117793
Permeability of a **cell** junction during intracellular injection of divalent cations [Chironomus thummi]. 124068
Permeability of a **cell** junction and the local cytoplasmic free ionized calcium concentration: a study with aequorin [Chironomus thummi]. 124069
Urban land use: remote sensing of **groundbasin** *permeability* [Remote sensing]. 125282
The *permeability* to **Hostathion** [1-phenyl-3-(O,O-diethyl-thionophosphorul)-1,2,4-triazol] of the cuticle of the cockroaches Blaberus trapezoideus and Periplaneta americana. 123588
Effects of antihistamines on the lung vascular response to histamine in unanesthetized sheep. Diphenhydramine prevention of pulmonary edema and **increased** *permeability.* 117805
Permeability of the **inner** membrane of yeast mitochondria: relationship between structure and activity [Saccharomyces cerevisiae]. 120938
Permeability **measurements** on mitochondria from wild-type and poky strains of Neurospora crassa [Fungi]. 121162
Pectinase production by bacteria associated with improved **preservative** *permeability* in Sitka spruce [Picea sitchensis, poles]: synthesis and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717
Permeability of **vitelline** membrane for ions of sodium, calcium and magnesium [Egg membranes]. 117041
Water *permeability* of frozen soils after different methods of main tillage. 124900

PEROMYSCUS *see* **CRICETIDAE**

PERONOSPORA
Study of the stomatal apparatus in the leaves of different species of onions [Allium] in relation to their resistance to downy mildew *[Peronospora* **destructor].** 120424
The involvement of flavour volatiles in the resistance to downy mildew *[Peronospora* **parasitica]** of wild and cultivated forms of Brassica oleracea. 122685
The conditions of the mycelium of the **pathogen** *Peronospora* [schachtii] in the tissue of sugarbeet varieties differing in their resistance. 122784

PEROSIS
Possibilities for prophylaxis of *perosis* in **poultry.** 2. Testing of a preparation with manganese and selenium, supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a broiler unit. 119170

PEROXIDASES
Distribution of polyphenols & development of *peroxidase* **activity** during germination in Crotalaria [juncea]. 121130
Comparative effects of (2-chloroethyl) phosphonic acid and the mono-2-chlorethyl ester of the acid on growth, *peroxidase* **activity,** and sex expression of a monoecious cucumber. 121698
On the **endogenous** *peroxidase* in the spleen of swine. 117709
Vitamin E supplementation and **glutathione** *peroxidase* activity [Rats]. 116543
A simple test for **glutathione** *peroxidase* and selenium deficiency [Animals]. 119201
Lipid *peroxidation* and atherosclerosis [Unsaturated fatty acids]. 116314
Lactoperoxidase-catalyzed **lipid** *peroxidation* of microsomal and artificial membranes [Milk, beef liver]. 116854
Effect of inbreeding on the activity of *peroxidase* in **maize** self-pollinated lines. 120701
Isoenzymatic spectra of *peroxidase* and **nitratereductase** from vegetative organs of maize heterotic hybrids and their parental forms. 121476
Purification and characterization of *peroxidase* from **Phellinus** igniarius [Fungi]. 120914
Effect of bud-pollination and delayed self-pollination on the induction of a possible **rejection** *peroxidase* in styles of Nicotiana alata. 121582

Acid phosphatase and *peroxidase* in **'resting'** acinar cells of the major salivary glands of cats and their possible movement into secretory granules. 117703
Localization of *peroxidase* in **Rhizoctonia** solani-infected cotton seedlings [Sore-shin]. 122731

PEROXIDES

Decomposition of **benzoyl** *peroxide* in [cotton] cellulose. 117097
Benzoyl *peroxide*—a new topical agent for canine dermatology. 119046
Peroxide **bleaching** of CEHH [chlorination, extraction and hypochorite] banboo kraft pulp. 119707
Hydrogen *peroxide* generation by the alternate oxidase of higher plants [Mung beans]. 121604
Effects of nutritional characteristics of Streptococcus agalactiae on inhibition of growth by **lactoperoxidase-thiocyanate-hydrogen** *peroxide* in chemically defined culture medium. 118798
Influence of *peroxide* and **polyelectrolyte** treatments on germination, seedling emergence and yield [Navy beans, soybeans, sugarbeets]. 121545

PERSEA

Avocado: *Persea* **americana** (Lauraceae). 122345

PERSICARIA

Redshank [Polygonum persicaria], **pale** *persicaria* [Polygonum lapathifolium], knotgrass [Polygonum aviculare] and black-bindweed [Polygonum convolvulus]. 123050

PERSIMMON

Tannin in *persimmon* (**Diospyros** kaki L.) fruits. II. Volatile compounds and soluble tannin of the fruits in the course of removal of astringency. 117294
Observations on setting and growth patterns of fruit in *persimmon* (**Diospyros** kaki, L.). 121584
Mechanism of the thinning action of NAA [naphthaleneacetic acid] in **Japanese** *persimmon* (kaki) fruits. II. Effects of NAA applied at various stages of fruit growth on the induction of fruit drop and the activity of endogenous growth substances and some enzymes in fruit tissues. 122404

PERSONNEL

Assuming by the [communist] party organization the right of controlling the activities of the **administration** *personnel* in agrarian-industrial and interfarm amalgamations and enterprises. 115383
[Communist] party guidance in the selection, placing and training of **administrative** *personnel* for interfarm and agrarian-industrial enterprises and amalgamations. 115396
The intensive care unit in small animal practice. 2. *Personnel* and **equipment.** 118583
A *personnel* **hazard:** operating room environment pollution [Inhalation anesthetics]. 118461
Activities of [communist] party committees in the improvement of the working style of **management** *personnel* in agricultural collectives. 115381
Activities of [communist] party organizations in the selection and training of a reserve of **management** *personnel* in agriculture [Moldavia]. 115382
Training programs for [sawmill] management and **operating** *personnel.* 119703
The central assignments of the forestry service and the role of the **professional** *personnel* for their realization [Forest law, Slovenia]. 119455
Training *personnel* for low-level professions for agrarian-industrial amalgamations and enterprises. 115171
SCS [Soil Conservation Service] sponsors workshop for Federal Women's Program coordinators [Assertiveness **training** for *personnel].* 115201
Purpose-oriented political-ideological and vocational effortof **veterinary** *personnel* and cooperative farmers yields good results in implementing principal task formulated by. 115954
Veterinary *personnel* involved in "food industry hygiene" sector, results of socialist competition honoring the the IXth Congress of the Socialist Unity Party. 116226

PESTALOTIA

Some aspects of taxonomy of the **genus** *Pestalotia.* II. Observations on structure of conidia [Fungi]. 120145

PESTICIDES

Arylesterases from various mammalian sera in relation to cholinesterases, carboxylesterases and their **activity** towards some *pesticides.* 123695
Using chemical products as *pesticides* in **agriculture.** 123753
[Chicken] poisoning produced by the ingestion of the *pesticides* **aldrin** and dieldrin. 119227
Is carbofuran *[pesticide]* our **answer** to Fat John [a grub stage of a tiny beetle Diaecoderus] and other pests of maize? 123306
Study of the optimal load on White Ugni grapes on groies [Red Rendzina] soils [Pest and disease control, **application** of *pesticides].* 122459
Pesticide **applicator** training for use of restricted herbicides. 123749
Apply *pesticides* correctly: a guide for the aerial applicator. 123763
Tests of side effects of *pesticides* on **beneficial** arthropods and their incorporation into registration. 123688
Interconversion of cholinesterase enzyme activity units by the manual Delta pH [hydrogen-ion concentration] method and a recommended automated method [Organophosphorus and **carbamate** *pesticide* intoxication]. 123694
Alkaline water can **cause** *pesticide* failures. 123691
Screening methods to identify in foods some **common** *pesticides* used in India. 123732
Modelling calculatons for *pesticide* **contamination** of plant crop products. 123762
Evaluation of *pesticides* for **control** of stored-product insects. 123530
Necessity of **correct** use of *pesticides.* 123735
[Production technology National Cotton] **Council's** *pesticide* activities for 1974 outlined by Dr. Brown. 123697
Counteracting *pesticide* nonsense with realistic common sense [Residues, pollution]. 123746
Application method for **distribution** *pesticides* in the forest. 123702
Effects of the use of *pesticides* in **drinking** water dam catchment areas on the quality of surface waters. 123703
Pesticide **effects** on the plant cuticle. II. EPTC [S-ethyl dipropylthiocarbamate] effects on leaf cuticle morphology and composition in Brassica oleracea L. [Cabbage]. 123725
Pesticides in the **environment.** 123731
Water quality and plant growth [Injuries due to contamination with *pesticides* and **excess salts**]. 122922
Analysis and GC-MS characterization of toxaphene *[pesticide]* in **fish** and water. 123707
Research on *pesticides* and **future** requirements for chemicals in the protection of stored products from insect. 123553
Safety in **handling** *pesticides.* 116242
The matter of precautionary measures [in **handling** *pesticides].* 116243
Pesticide use and **hazards** in Mauritian agriculture. 123757
Using *pesticides* in the **home** garden. 123696
Gas chromatographic determination of polychlorinated biphenyls (PCBs) in the presence of chlorinated **hydrocarbon** *pesticides* in eggs of wild birds. 123738
Factors influencing the uptake of *pesticides* by **hypocotyls** [Radishes, residues]. 123686
Pesticide **legislation** in Senegal. 123714
Evaluation of some *pesticides* for **mutagenicity** [Mice]. 123751
Heptachlor [a persistant **organochlorine** *pesticide]:* toxicity to and uptake by several estuarine organisms. 123733
Behavioral effects of **organophosphate** *pesticides* in man. 123693
Quantitative determination of **organophosphorus** *pesticides* by thin-layer densitometry. 123729
Binding of (14C) [carbon isotope] parathion in soil: a reassessment of *pesticide* **persistence.** 123759
Review of investigation of the effects of food standards on *pesticide* use. 116069
The approval of *pesticides* for **plant** protection with selective qualities to beneficial arthropods and the necessary suppositions for the approval in the Federal Republic of Germany. 123739
Studies on the effect of storage time and conditions on physical characteristics of some **powdered** *pesticides.* 123689
Biological methods of toxicological evaluation of medical, food, industrial and *pesticide* **products.** 116254
Review of economic impact of proposed guidelines for **registering** *pesticides* in the United States. 123699
Industry looks at federal **registration** *[Pesticides].* 123747
Gas-liquid chromatographic determination of iodofenphos *[pesticide]* and several **related** compounds in tissues and urine of cattle. 123720
National standards for registration and for residues of *pesticides* in **relation** to trade and commerce in Europe. 123713
Controlled **release** *pesticides*—making the most of the benefits. 123717
Review of the control of *pesticides* **released** into the environment. 123700
The Environmental Protection Agency's regulations on experimental use permits for **research** on *pesticides.* 123701
Investigation on *[pesticide]* **residues** in wheat straw, glumes and grain after chemical control of Eurygaster integriceps. 116051
The significance of *pesticide* **residues** [on stored products]. 116164
Latest development in fumigation of papayas and other fruits *[Pesticide* **residues,** Tephritidae]. 116221
Use of the technique of gas chromatography to determine the amount of aldrin retained in meat chickens poisoned with this *pesticide* **[Residues].** 123683
Pesticide **residues** of potential protectants of grain [Acetellic, Reldan, malathion]. 123715
Photochemical confirmation of mirex in the presence of polychlorinated biphenyls *[Pesticide* **residues].** 123721
Agricultural chemicals [Fertilizers, *pesticides,* **statisics].** 125087
Protection of woody plants [from insects] by the method of injection of *pesticides* [into the **stem].** 123449
FAO's [Food and Agriculture Organization] involvement in the international acceptance of *pesticides* for **stored** food products [Residues, hazards]. 123712
Some aspects governing the use of *pesticides* on **stored** products in Australia [Residues, legislation]. 123716
Field assay of the *pesticide* [used against **ticks** on cattle] 2-chloro-1-[2,4-dichlorophenyl] vinyldiethylphosphate. 123664
Grain protection and *pesticide-residues* **tolerances** in India. 116163
Gas chromatography of *pesticides;* **tubular** literature abstracts. V. 123737
Further micro-autoradiographic studies on the pathways of movement of **two** *pesticides* in barley roots. 121416

PESTS

Modoc budworm [Choristoneura viridis] pilot control project in California, 1974 *[Pest* of **Abies** concolor]. 123490
Parasitism of the tarnished plant bug, Lygus lineolaris (Hemiptera: Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) *[Pests* of **Alfalfa,** Phleum pratensis]. 123297
Construction and use of an experimental ethylene oxide chamber to fumigate bee equipment in Virginia [for disease, *pest* and **American** foulbrood control]. 124487
The use of pyrethrum as an insect repellent in dingo baits **[Animal** *pests* of sheep and cattle in Australia]. 117496
The development of anophelism in south Moravia [Anopheles as *pests* of **animals,** malaria vectors]. 123617
An integrated system for **apple** *pest* management. 122993
Codling moth [Cydia pomonella, **apple** *pests].* 123362
Notes on the biology of Prionus laticollis (Coleoptera: Cerambycidae) **[Apple** *pests].* 123383
Integrated control of **arthropod** *pests* of sorghum [Schizaphis graminum, Contarinia sorghicola]. 123327
Pests of the **Baltic** Sea coast. II. Short survey of the most important insect groups besides Coleoptera and Diptera. 123599
Serious plantain and **banana** *pest* [Cosmopolites sordidus]. 123437
Control of Lymantria dispar in Corsica. 1. [Quercus, *pests,* **biological** control, Bacillus thuringiensis , Calosome sycophante]. 123495
The control of **bird** *pests* of cereals in Africa. 122889
Warble fly eradication in Ireland [Hypoderma bovis, Hypoderma lineatum, **cattle** *pests].* 123637
Integration of measures for the control of **cereal** *pests* [Insects and nematodes]. 122943
Investigation on [wheat] seed and soil treatments [with lindane] against larvae of Zabrus spp. and Anisoplia spp. **cereal** *pests* in Central Anatolia. 123290
Gout fly [Chlorops pumilionis, *pest* of **cereals].** 123269
Wood: ally in war on *pests* **[Cinnamylphenols** of Dalbergia as a new, more biodegradable insecticide]. 123217
Artificial infection of scale-insect with entomophagous fungi Verticillium lecanii and Aspergillus candidus [Biological control of the **citrus** *pest* Coccus Hesperidum]. 123395
Scales **[Coccoidea]**—*pests* of fruit crops in West Pamir. 123405
Natural enemies of Bathycoelia thalassina (Herrich-Schaeffer) (Hemiptera: Pentatomidae), a *pest* of **cocoa** in Ghana. 123226
Sclerotina to sex attractants—ADAS [Agricultural Development and Advisory Services] Eastern Region work [Vegetables, disease and *pest* **control** research, Great Britain]. 122937
Decision making—to spray or not to spray [Economics of *pest* **control,** nematodes, potatoes]. 122959
Plant transport control in 1975 [for disease and *pest* **control** in Austria]. 123011
Once again: migrations of brown rats *[Pest* **control].** 123019
Pest **control** in the service of the environment. 123020
Recognized rules of control and application technique in the sphere of *pest* **control.** 123021
Biological and ecological studies of the parasitoid Chelonus inanitus (Hymenoptera: Braconidae) in Israel. I. Distribution, abundance and parasitism in natural host populations [Biological **control** of *pests].* 123232
Animal protection and *pest* **control.** 123656
Termites and book lice (Isoptera and Psocoptera) discovered by *pest* **controllers** and introduced into the German Federal Republic. 123583
The integrated control of *pests* in **corn** in the U.S.S.R. 123328
Influence of several biotic factors on reproduction of Bucculatrix thurberiella **[Cotton** *pests].* 123281
Results of a three-year **cotton** *pest* [Anthonomus grandis, Heliothis zea] management program in the Hill Section of Mississippi. 123287
On the occurrence of Bacillidium sp. A microsporidian parasite infecting some thrips larvae [Thrips flavus, Scirtothrips oligochaetus, **cotton** *pests].* 123303
Entomology **[Cotton** *pests* in Uganda]. 123308
Photodegradation of O-ethyl O-[4-(methylthio)phenyl] S-propyl phosphorodithioate (BAY NTN 9306) [Insecticide for **cotton** *pests].* 123314
Choice of light bulbs for attracting **[the cotton** *pest]* Heliothis virescens (Fabr., 1871). 123329
Integrated pest management: a foreword to the conference **[Crop** *pests].* 122994
Study of the predatory ability of some nematode trapping fungi against the nematode Caenorhabditis elegans (Maupas 1900) Dougherty 1953 [Biological control of **crop** *pests].* 123035
Leatherjackets [Tipula paludosa, field **crop** *pests].* 123270
A survey of tachinid parasites of Heliothis zea and Heliothis virescens in North Carolina [Biological control of field **crop** *pests].* 123317
Pests of **cruciferous** vegetable crops in West Pamir. 123404

Study of the optimal load on White Ugni grapes on groies [Red Rendzina] soils *[Pest* and **disease** control, application of pesticides]. 122459
Sugarbeet [Culture, weed control, **diseases,** *pests].* 122032
Spraying guide [for control of weeds, *pests* and **diseases** of plants, equipment]. 122983
Pests and **diseases,** 1975. 123043
Entomophages and microorganisms of *pests* of **drug** plants [Natural control]. 123228
Feeding effect of juvenile hormone analogud, ZR 619-5 E, on the epilachna beetle, Epilachna vigintioctopunctata Fabricius **[Eggplant** *pests].* 123390
Biology of an introduced ambrosia beetle, Xylosandrus compactus, in Florida [Cornus **florida,** *pests].* 123798
Interactions of permanent **foliar** *pests* with their host tree [Betula, Populus tremula]. 123457
The role of low temperature to control stored **food** *pests* [Fungi, mites, insects]. 116759
Galls—biology and morphology. I. Introduction **[Forest** *pests].* 123418
The field persistence and efficacy of Bacillus thuringiensis formulations [Biological control of **forest** *pests].* 123446
Studies on the effects of adult feeding of Perniphora robusta Ruschka (Chalcidae: Pteromalidae) on its reproduction **[Forest** *pests,* biological control]. 123459
Establishment of gypsy moth [Lymantria dispar] parasitoids in North America: an evaluation of possible reasons for establishment or non-establishment **[Forest** *pests,* biological control]. 123468
Pheromones of lepidopterous insects [Lepidoptera, **forest** *pests].* 123472
Towards integrated control of **forest** *pests* in Europe. 123474
Tachinid parasites of the gypsy moth, Lymantria dispar, with keys to adults and puparia [Tachinidae, new taxa, natural control, **forest** *pests].* 123480
Synergistic effect of a pheromone and a kairomone on host selection and colonisation by Ips avulsus **[Forest** *pests].* 123482
Tests of microbial insecticides [to control **forest** *pests].* 123493
Feeding, mating, and oviposition activities of Rhagoletis fausta flies in nature [Cherry **fruit** *pests].* 123369
Variability of natural strains of muscardine fungi [Beauveria, Paecilomyces, pathogens of a pyralidid moth, *pest* of **honey** bees, biological control]. 124543
Root lice as a source for Chloropidae as **house** *pests.* 123657
The autumn mite [Neotrombicula autumalis (Trombidiidae)], a serious local **[human]** *pest.* 123658
Improvement of cereal seed treatment [for fungus and **insect** *pest* control]. 122624
Use of benlate for the protection of black currants [against fungus diseases and **insect** *pests].* 122628
Vector control in seed potato farming **[Insect** *pests,* virus transmission]. 122835
Fire and flame for plant disease control [including control of **insect** *pests* as vectors]. 122899
Ecology of insect viruses [in microbial control of **insect** *pests].* 123235
Theory underlying introduction of exotic parasitoids **[Insect** *pests,* biological control]. 123236
Captivated by automatization (light trap research in Hungary today) **[Insect** *pests].* 123262
Cotton **insect** *pest* management, 1976 [Heliothis virescens, anthonomus grandis, Heliothis zea]. 123298
Modeling and optimal control of **insect** *pest* populations [Nezara viridula (Linnaeus), a major pest of soybeans]. 123322
Plant resistance to **insect** *pests:* a general review with reference to New Zealand grassland farming. 123338
Contribution to the study of new means of controlling the dominant **insect** *pests* in sugarbeet cultures [Myzus persicae]. 123350
Harmful fauna of flower crops in greenhouses [chiefly **insect** *pests].* 123379
New **insect** *pest* puts in an appearance: citrus leafroller, Cacoecia occidentalis Wism. 123386
Resistance of poplars [Populus] to some **insect** *pests* according to observations made in Italy during the years 1930-72. 123455
Research on population dynamics and impact in the Blue Mountains [Forest **insect** *pests].* 123492
Problems of stored products entomology in Britain arising out of the import of tropical products **[Insect** *pest* control]. 123507
Economic incidence of principal **insect** *pests* of stored products in India. 123513
Changes in the status of **insect** *pests* in storage and domestic habitats. 123524
Chemical intervention on all stages and on all scales of tropical storage practice **[Insect** *pest* control]. 123525
Insecticidal value of phosphine in the control of stored tobacco **insect** *pests* [Ephestia elutella, Lasioderma serricorne]. 123537
The development and extension of nonchemical **[insect** *pest]* control techniques for stored cowpeas in Nigeria. 123565
The importance of sympathy between technical aspects of control programmes and industrial circumstances **[Insect** *pests* of stored products]. 123568
Use of pirimiphos-methyl [organophosphorus insecticide] for the control of stored rice **insect** *pests* in southeast Asia. 123576
Guidelines for the passive removal of **insect** *pests* in stored products. 123581
Resource tracking patterns in bird and mammal ectoparasites **[Insect** *pests].* 123646
Integrated *pest* management: a foreword to the conference [Crop pests]. 122994
Implementation of an **integrated** *pest* management program in sorghum. 123326
The dynamics of larch sawfly (Hymenoptera: Tenthredinidae) populations in southeastern Manitoba [Larix **laricina,** *pests].* 123454
Experiments with insect growth regulators (IGRs) on **lepidopterous** *pests* and some of their parasitoids [Natural control]. 121280
Seasonal density, distribution and interactions of predatory and scavenger arthropods in accumulating poultry wastes in coastal and interior southern California **[Livestock** *pests,* biological control]. 123623
Is carbofuran [pesticide] our answer to Fat John [a grub stage of a tiny beetle Diaecoderus] and other *pests* of **maize?** 123306
Modeling and optimal control of insect pest populations [Nezara viridula (Linnaeus), a **major** *pest* of soybeans]. 123322
Gypsy moth [Porthetria dispar] a **major** *pest* of trees. 123487
Lasioderma serricorne F. As a **major** *pest* of stored turmeric. 123510
Pest **management** for control of stem break [caused by Cercosporella herpotrichoides in wheat and barley]. 122694
New *pests* on the crops of Castilla la Vieja [Wheat, barley, Hemiptera, Lepidoptera]. 123274
Studies on controlling the Indian meal moth, Plodia interpunctella Hbn., by ionising radiation *[Pest* of **nuts].** 123373
Development and reproduction of Euschistus conspersus **[Ocassional** *pest* of field crops]. 123278
Development of an integrated control program for **orchard** *pests* in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and sexual sterilization. 123422
A study of fungal infection in the dung fly, Scathophaga stercoraria L. (Diptera, Scathophagidae) [Predators of **pasture** *pests].* 123312
Insect density effects in root feeding by larvae of Sericesthis nigrolineata (Coleoptera: Scarabaeidae) **[Pasture** *pests].* 123316
Farm management methods to control **pasture** *pests* [Costelytra zealandica, Wiseana]. 123337
The effectiveness of aerial survey for determining the distribution of rabbit warrens in a semiarid environment *[Pests* of **pastures].** 122911
Experiments with field cages on the effect of climatic factors on the codling moth (Laspeyresia pomonella L.) [Apple and **pear** *pests].* 123432
Some *pests* of **plane** tree [Platanus, scorch, Gloeosporium nervisequum, Corythuca ciliata]. 122635
Trial with insecticides for the control of Eacles imperialis magnifica Walker, 1856 (Lepidoptera, Adelocephalidae), a coffee **plantation** *pest.* 123256
Processing of maize seeds by insecticides in order to prevent and to limit the damages **produced** by some *pests.* 123258
Polymorphism in the adult of Callosobruchus maculatus—a possible process of evolution to stored **product** *pest.* 123548
Control of warble fies [Oestridae] and blood-sucking insects [Diptera] in the Magadan Region *[Pests* of **reindeer].** 123630
Prospects of controlling warble flies [Oestridae] and blood-sucking Diptera in the north-eastern zone *[Pests* of **reindeer].** 123632
The development of *pest-resistant* **sorghum** [Contarinia sorghicola, Oligonychus, Schizaphis graminum]. 120781
A general survey of physical means for control of **storage** *pests.* 123518
Biological evaluation of Bromophos for the control of [insect] **storage** *pests.* 123523
Screening of some relatively safe insecticides for impregnation of gunny bags against **stored-grain** *pests.* 123512
Sugarbeet *pests* and diseases in the Latvian SSR and measures for controlling them. 122948
Use of the match for wireworm control [Maize and **sugarbeet** *pests].* 123332
Development of Diatraea saccharalis (Lepidoptera: Pyralidae) at constant temperatures **[Sugarcane** *pests,* biological control with Lixophaga diatraeae]. 123305
The carotenoids of a black variety of the larva of the moth, Manduca sexta **[Tobacco** *pests].* 124051
Hyperparasitism in populations of Hyphantria cunea **[Tree** *pests,* natural control]. 123452
Influence of genetic changes and other variables on the encapsulation of parasites by Hyphantria cunea **[Tree** *pests,* natural control]. 123453
Population fluctuations of field voles (Microtus): a background to the problems involved in predicting vole plagues *[Pest* of **trees].** 119356
Twilight *pests* in imported feed raw material. The copra beetle (Necrobia rufipes Degeer), the sap beetle (Carpophilus spp.) and the Siamese flat beetle (Lophocateres pusillusKlug). 123582
Development of Ascia [Pieris] monuste monuste (Linnaeus, 1764) (Lepidoptera, Pieridae) in the laboratory **[Vegetables,** *pests].* 124141
Phytosanitary state of stands of field crops in relation to crop rotation and fertilizer application [Disease, *pest* and **weed** control]. 122945

PETALS

Studies on flower color in Chrysanthemum morifolium Ramat. III. Quantitative effect of major pigments on flower color variation, and measurement of color qualities of *petals* with a **color** difference meter. 121731
Increase in microviscosity with ageing in protoplast plasmalemma of **rose** *petals* [Rosa]. 121739

PETIOLES

Effect of different combinations on growth substances on the abscission on **debladed** *petioles* of Catharanthus roseus in different seasons. 121151
Comparative morphological and anatomical study of the *petiole* and **epidermis** of the leaf of the representatives of the family Vitaceae Juss [including grapes]. 120073

PETROLEUM

Pyrolytic formation of polynuclear aromatic hydrocarbons from *petroleum* **ether** extractable constituents of flue-crued tobacco leaf. 117123
Effects of marine **pollution** *(petroleum,* DDT, detergents) on the flora of the **seas** [and oceans]. 125521
Toward *petroleum* **substitutes** [Soybeans and silicon]. 117064

PETUNIA

Characteristic of development of the root system in some chosen chemomutants of *Petunia* **axillaris** (Lam.) Juss. 120657
In vitro culture of shoot apical meristem of *Petunia* **hybrida** for Mass production of plants. 121690

PEUCEDANUM

Components of Umbelliferae. VI. Coumarins of *Peucedanum* **offinale** L. 120872
Components of Umvelliferae. VIII. Two new coumarins of *Peucedanum* **stenocarpum** Boiss. and Reuter. 120873

PEZIZALES

Pezizales of **Israel.** IV. Humariaceae [Fungi, new taxa]. 120091
Pezizales of **Israel.** V. Ascobolaceae and Sarcoscyphaceae [Fungi, new taxa]. 120092

PHACELIA

About *Phacelia* **tanacetifolia** [Honey plants]. 122543

PHAEOCRYPTOPUS

Investigations into the fungicidal effect of cuprous oxide against *Phaeocryptopus* **gaeumannii** on Douglas fir [Pseudotsuga menziesii] seedlings. 122668

PHAEODACTYLUM

Phytoplankton response to wastewater nutrient enrichment in continuous culture [Dunaliella tertiolecta, *Phaeodactylum* **tricornutum,** Thalassiosira pseudonana, Algae]. 121183
Photosynthetic carboxylating enzymes in [the marine diatom] *Phaeodactylum* **tricornutum:** assay methods and properties. 121267

PHAEOPHYCEAE

Alginanes [extracted from brown **algae** *Phaeophyceae]* in nutrition. Study in rats. 116305
The release, settlement and germination of zoospores in Chorda tomentosa [Algae] *(Phaeophyceae,* **Laminariales).** 121221
A survey of translocation in **Laminariales** *(Phaeophyceae)* [Algae]. 121265

PHAEOPHYTA

Sexual isolation between a European and an American population of Ectocarpus siliculosus **[Algae]** *(Phaeophyta).* 120776

PHAGES *see* BACTERIOPHAGES

PHAGOCYTIC

Age-dependent resistance of chickens to Salmonella in vitro: *phagocytic* and **bactericidal** activities of splenic phagocytes. 118596

PHALARIS

A rapid method for measuring net photosynthesis of excised leaves by using air-sealed chambers [Maize, *Phalaris* **arundinaceae,** soybeans]. 121511

PHANEROTOMA

Quantitative analysis of lipids, nirogen substances and glycogen in the larva of an ovo-larval parasitic insect, *Phanerotoma* **flavitestacea** (Hymenoptera, Braconidae). 123890

PHARBITIS

Qualitative analysis by isoelectric focusing of the protein content of *Pharbitis* **nil** apices and cotyledons during floral induction. 121322
RNA metabolism in apices of *Pharbitis* **nil** during floral induction. 121323

PHARMACEUTICS

Preparation of optically active proline. Optical resolution of N-acyl-DL-proline by preferential crystallization procedure *[Pharmaceutical* and **food** industries]. 116768

PHARMACOGNOSY

Pharmacognostical **studies** on some species of the genus Rhamnus. 4. [Comparative anatomy]. 120495

PHARMACOLOGY
Fundamental studies on physiological and *pharmacological* **actions** of L-ascorbate 2-sulfate. I. On the hypolipidemic effects [Rats]. 116456
Mechanism and site of small intestinal uptake of vitamin D3 in *pharmacological* **concentrations** [Rats]. 116287
Pharmacologic **control** of vomiting [Dogs, cats, swine, primates]. 118550
Pharmacology of **procaine** in the horse: a preliminary report. 118427
Pharmacological and **toxicological** characteristic of rigecoccin [the coccidiostat meticloripindal]. 118933

PHARMACOTHERAPY
Rationalised *pharmacotherapy* of enzootic pneumonia of calves. 118839

PHASEOLUS
Formation of polyprenol-linked mono- and oligosaccharides in *Phaseolus* **aureus** [mung beans]. 121600
Energy efficiency of protein production in the common field **bean** *(Phaseolus* vulgaris). 115322
Studies on the pollution of apple orchard-surface soils and its improvement in relation to inorganic spray residues. I. Arsenic injury to adsuki **bean** *(Phaseolus* angularis cv. "Takara"). 122916
Distribution of dry matter among the aerial organs of various cultivars of kidney **beans** *(Phaseolus* vulgaris L.). 121648
Effects ofplant population and row spacing on yield and components of yield of navy **beans** *(Phaseolus* vulgaris L.). 122420
Factors associated with resistance to mechanical [seed] damage in snap **beans** *(Phaseolus* vulgaris L.) [Germination, vigor]. 122966
Beans: *Phaseolus* spp. **(Leguminosae-Papilionatae).** 122347
14C [carbon isotope]-assimilate distribution in *Phaseolus* **vulgaris** L. [Beans] during the reproductive period. 121718

PHASES
Effect of bovine parvovirus replication on DNA, RNA, and protein synthesis in S *phase* **cells.** 119038
Isolation of a purified skin test antigen from Blastomyces **dermatitidis** *yeast-phase* cell wall [Guinea pigs]. 118762
Comparative anatomic and chemical studies of six selected species of the genus Ruta. II. Content of the essential oil at different **development** *phases* and vegetation periods. 120852
IRD [integrated rural development] pre-project and **early** *phase* planning [Pakistan]. 115875
Some aspects of pre-project and **early** *phase* planning for IRD [integrated rural development] purposes. 115884
The thermal degradation of tobacco. VI. Influence of extraction on the formation of some major **gas** *phase* constituents. 117071
The role of the **gas** *phase* in the greening and growth of illuminated cell suspension cultures of spinach (Spinacia oleracea, L.). 121688
Dependence of radiation response of diploid yeast [Saccharomyces cerevisiae] upon **growth** *phase* and LET [Lineal energy transfer]. 121148
Free-running and *phase-setting* of **locomotor** behavior of the adult lesser cornstalk borer [Elasmopalpus lignosellus]. 123803
The absence of a growth inhibitor during the **log** *phase* of growth of Dictyostelium discoideum [Fungi]. 121025
Effect of different light periods on the seed surface of fenugreek [Trigonella foenum-graecum] during the **maturation** *phase.* 121338
Outbreaks and **partial** *phase* transformation of Locusta micratoria L. in sugarcane fields of Minami- and Kita-Daito Zima, Okinawa. 123267
Properties of [spinach] chloroplasts isolated by *phase* **partition.** 121737
Results of the Missouri crossbreeding project with beef cattle (September, 1975, *phase* 2). 118409
The imaginal integumental differentiation in Schistocerca gregaria Forsk. III. *Phase* **polymorphism** and its hormonal control. 124005
Studies on calcium absorption in vegetable crops. I. The absorption and physiological significance of calcium in vegetative and **reproductive** *phases* of plant growth. 121730
Studies on the digesta distribution in the GIT [gastrointestinal tract] of pigs fed high-test molasses or maize. 1. **Stomach** *phase.* 117641
Serodiagnostic studies on larval and **strobilar** *phase* of Taenia hydatigena with in vitro precipitation test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919
Studies on the *solid-phase* **synthesis** of bovine pancreatic trypsin inhibitor (Kunitz) and the characterization of the synthetic material. 117820
The role of juvenile hormone in diapause and *phase* **variation** in some lepidopterous insects. 123958

PHEASANTS
Maize and *pheasants* **[Injuries].** 123010
The effect of new pescticides (Birland EC 24, Chlorophacinon, Nexion Saatgutpuder) on small game *[Pheasants,* **partridges,** hares]. 123745
Studies on the determination of toxic actions of derivatives of (2,4-dichlorophenoxy) acetic acid and 2,4-5-trichlorophenoxyacetic acid on eggs of *pheasants,* **quails,** and chickens. 123687
A line of **ring-necked** *pheasant* cells susceptible to infection by avian oncornaviruses. 119037

PHELLINUS
Purification and characterization of peroxidase from *Phellinus* **igniarius** [Fungi]. 120914

PHELLODENDRON
The fertilization process in the Amur cork tree, *Phellodendron* **amurense** Rupr. 121809
A note on the isolation and identification of the quaternary alkaloids of *Phellodendron* **wilsonii.** 121239

PHENOBARBITAL
Phenobarbital **stimulation** of housefly [Musca domestica] chromatin template activity. 123984

PHENOLOGY
Phenological **characterization** of selected phytocoenoses in the kettlehole of Liptov. 120315
Douglas fir tussock moth [Orgyia pseudotsugata] egg hatch and larval development in relation to *phenology* of **grand** fir and Douglas-fir [Abies grandis, Pseudotsuga menziesii] in northeastern Oregon. 123502
Phenology and **leaf** growth of defoliated hardwood trees [Quercus rubra, Acer rubrum]. 121816
The *phenology* of **Mitopus** morio (Fabr.) (Opiliones) in Norway. 124118
Mutual interaction of taxonomic and phytogeographical features in the *phenology* of **species** of Spiraea. 119962

PHENOLS
Phenolic **acids** in wheat and paddy rhizosphere [soil] amended with crop residue. 124885
Influence of shading & dodder [Cuscuta] infection on the content & nature of **alfalfa** *phenolics.* 123089
Effect of some *phenolic* **compounds** of the oil poppy [Papaver] placenta on the embryogeny of isolated ovules. 121028
Colour changes in vegetables through *phenolic* **ingredients.** 117238
Relations of *phenolic* **inhibitors** to resistance of immature apple fruits to rot [Botrytis cinerea, Penicillium expansum, Alternaria]. 122646
Method for determining the *phenolic* **(OH)-groups** in alkaline bark extracts. 119764
The importance of *phenol* **oxidase** activity in lignin degradation by the white-rot fungus Sporotrichum pulverulentum. 119650
Water hyacinths [Eichhornia crassipes] for removal of *phenols* from **polluted** waters. 125382
Classification of Pacific Northwest winter and spring wheat cultivars by *phenol* **reactions.** 121543
Wine flavor and *phenolic* **substances.** 117209
Phenolic **substances** in Armagnac brandies. I. Extracted lignin and its degradation products. 117269
Phenolic, **sulfur,** and nitrogen compounds in food flavors; a symposium sponsored by the Division of Agricultural and Food Chemistry at the 170th meeting of the American Chemical Society, Chicago, Ill., August 25-26, 1975. 116635
Surveillance and control of *phenolic* **tastes** and odors in water to prevent their effects on taste and flavor of foods. 116639
Phenylalanine ammonia lyase & *phenols* in **tubers** of Kufri Dewa [a potato variety] in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804

PHENOTHIAZINE
Photosensitizing effect of *phenothiazine* [in **sheep].** 117952

PHENOTYPES
Phenotypic **diversity,** mimicry and natural selection in the african butterfly Hypolimnas misippus L. (Lepidoptera: Nymphalidae). 123828
Genetic determinants of **flagellum** *phenotype* in Chlamydomonas reinhardtii [Algae]. 120598
Phenotypic **variations** in Fossombronia himalayensis Kash [hepaticae] in vitro-effect of sugars, auxins, growth substances and growth inhibitors. 121188

PHENOXY
The *phenoxy* **herbicides.** 123075

PHENYL
Study on the reactivity of coumarins. II. Regioselectivity of Grignards reagents engaged with methyl-4, methyl-3 and *phenyl-3* **coumarin.** 121370
The permeability to Hostathion *[1-phenyl-3-(O,O-diethyl-thionophosphorul)-1,2,4-triazol]* of the **cuticle** of the cockroaches Blaberus trapezoideus and Periplaneta americana. 123588
Photodegradation of **O-ethyl** *O-[4-(methylthio)phenyl]* S-propyl phosphorodithioate (BAY NTN 9306) [Insecticide for cotton pests]. 123314

PHENYLALANINE
Phenylalanine **ammonia** lyase & phenols in tubers of Kufri Dewa [a potato variety] in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804
Phenylalanine **ammonia-lyase.** Induction and purification from yeast [Rhodotorula glutinis] and clearance in mammals [Rabbits]. 121168
Similarities between L-phenylalanine and m-fluorophenylalanine as substrates for *L-phenylalanine* **ammonia-lyase** [Oats]. 121529
Inhibition of cooperative enzymes by sustrate-analogues. Possible implications for the physiological significance of negative cooperativity illustrated by *phenylalanine* **metabolism** in higher plants. 121226
Similarities between *L-phenylalanine* and **m-fluorophenylalanine** as substrates for L-phenylalanine ammonia-lyase [Oats]. 121529

PHEROMONES
Attractant *pheromone* of the European elm bark beetle (Scolytus multistriatus): isolation, identification, synthesis, and utilization studies. 123464
Lesser cornstalk borer: effects of (Z.E)-9,12-tetradecadien-1-ol acetate on *pheromone* **communications.** 123319
The question of varied attractiveness of *pheromones* of **European** corn borers [Pyrausta nubilalis] on the males of geographically different populations. 123331
Estimating peak concentrations of *pheromones* in the **forest** [Lymantria dispar]. 123469
Determination of the enantiomeric composition of several **insect** *pheromone* alochols. 124025
Synthesis of optically pure (1S, 4S, 5S)-2-pinen-4-ol (cis-verbenol) and its antipode, the *pheromone* of **Ips** bark beetles. 123782
Synergistic effect of a *pheromone* and a **kairomone** on host selection and colonisation by Ips avulsus [Forest pests]. 123482
Pheromones of **lepidopterous** insects [Lepidoptera, forest pests]. 123472
Pheromones of **mammals:** an investigation of volatile acids in vaginal excretions of minks, Mustela vison Briss. 118255
Spruce bark beetle, Ips typographus: *pheromone* **production** and field response to synthetic pheromones. 123484
Evidence and function of a **"repellent** *pheromone"* of larvae of Trogoderma granarium Everts (Coleoptera, Dermestidae). 124188
Assessment of **sex** *pheromone* activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
Field studies on **sex** *pheromone* trapping of the filbert leafroller, Arcips rosanus, in Oregon. 123370
Sex *pheromones* in stored product insects. Possibilities of practical applications. 123587
Quantitative analysis of male responses released by female **sex** *pheromone* in Periplaneta americana. 123791
Studies on the site of **sex** *pheromone* production in the cockroach, Byrsotria fumigata. 123805
Behavioral responses of male Argyrotaenia velutinana (Lepidoptera: Tortricidae) to components of its **sex** *pheromone.* 124023
A synthesis of (z)-6-heneicosen-11-one. The **sex** *pheromone* of the Douglas fir tussock moth [Orgyia pseudotsugata]. 124070
Antennal receptor response to **sex** *pheromone* mimics in the American cockroach [Periplaneta americana]. 124094
Ecology and ethology of Ixodes ricinus L. In Switzerland (Ixodoidea: Ixodidae). 5. Proof of a **sexual** *pheromone* in ixodes ricinus. 123771
Synthesis of (1S: 2R: 4S: 5R)-(-)-alpha-multistriatin, the *pheromone* in the **smaller** European elm bark beetle Scolytus multistriatus. 124164
Spruce bark beetle, Ips typographus: pheromone production and field response to **synthetic** *pheromones.* 123484
Population density and mating frequency of Plodia interpunctella in the presence of **synthetic** *pheromone.* 123549

PHIALOPHORA
The fine structure of *Phialophora* **mutabilis** [Fungi] grown on various media. 120553

PHILODENDRON
Hand pollinating some *Philodendron* **cultivars.** 122227

PHLEBOTOMINAE
Studies on the *Phlebotominae* of **Peru** (Diptera, Psychodidae). I. Cuzco Province. 1. description of three new species [Lutzomyia cuzquena, Lutzomyia machupicchu, Lutzomyia quechua, leishmaniasis transmission]. 124419
Studies on the *Phlebotominae* of **Peru** (Diptera, Psychodidae). I. Cuzco Province. 2. description of the females of Lutzomyia campbelli and Lutzomyia sherlocki, and redescription of the male and description of the female of lutzomyia octavioi. 124420
Studies on the *Phlebotominae* of **Peru** (Diptera, Psychodidae). I. Cuzco Province. 3. description of the male and redescription of the female of Lutzomyia **(Psychodopygus) amazonensis** (Root, 1934), and list of species collected [Leishmaniasis transmission]. 124421

PHLEUM
Temperate grasses: Lolium, Festuca, Dactylis, *Phleum,* **Bromus** (Gramineae). 121966
Parasitism of the tarnished plant bug, Lygus lineolaris (Hemiptera: Miridae), by Peristenus pallipes and Peristenus pseudopallipes (Hymenoptera: Braconidae) [Pests of Alfalfa, *Phleum* **pratensis].** 123297

PHLOEM
Investigations on the ductility of *phloem* **tissues** of pines (Pinus sylvestris) in relation to resin gall formation. 121837

PHLOX
Consequences of long-term artificial selection, inbreeding, and isolation in *Phlox*. I. The **evolution** of cross-incompatibility. 120625

PHLYCTOCHYTRIUM
An estuarine species of *Phlyctochytrium* **(Chytridiales)** having a transient requirement for sodium [Fungi]. 121285

PHOMA
The effects of varous chemical and physical haulm treatments on the incidence of potato gangrene [caused by *Phoma* **exigua** foveata]. 122568

PHOMOPSIS
Phomopsis **cotoneastri,** a secondary parasite on Cotoneaster dammeri. 122676
The ascigerous state of *Phomopsis* **manihotis** Swarup, Chauhan & Tripathi [Fungi, new taxa]. 120150
Mycotoxicosis in chicks produced by toxins from *Phomopsis* **sp.** or Diaporthe phaseolorum var. sojae. 118638
Toxicity and plant growth regulator effects of cytochalasin H isolated from *Phomopsis* **sp.** [Fungi]. 120990

PHORMIA
Molecular structure of sugars and their effectiveness in stimulating insects *[Phormia,* **Apis** mellifera]. 124101
The peripheral inhibition of the tarsal sugar receptor by sodium chloride in the proboscis extension response of the blowfly, *Phormia* **regina** M. 124034

PHORMIDIUM
Photosynthetic activities of membrane preparations of the blue-green **alga** *Phormidium* luridum. 121047
Extracellular lysis of the bluegreen **alga** *Phormidium* luridum by Bdellovibrio bacteriovorus [Biological control agents to regulate algal populations]. 123094

PHORMIUM
Propagation of *Phormium* **tenax** 'variegata' and Phormium tenaxrubrum. 122252

PHOSPHATASES
Acid *phosphatase* and peroxidase in 'resting' acinar cells of the major salivary glands of cats and their possible movement into secretory granules. 117703
Ultrastructure and **acid** *phosphatase* in pedicel abscission of hibiscus [rosa-sinensis]. 120405
Ultrastructural localization of **acid** *phosphatase* in root meristem of Alfalfa vulgaris. 120556
Properties of **acid** *phosphatase* from Leptadenia pyrotechnica Forsk. 121140
Cell-wall column chromatographic identification of the native cell-wall **acid** *phosphatase* of cultured tobacco cells. 121532
Protease & *phosphatase* **activities** in relation to presowing seed treatments in sorghum. 121506
Phosphatase **activity** in the roots of some winter wheat varieties as related to the application of fertilizers. 121404
1,25-dihydroxycholecalciferol and induction of **alkaline** *phosphatase* in organ culture [Nutrition study]. 116463
Studies on the occurrence of isozymes of **alkaline** *phosphatase* in various tissues of cattle and sheep. 117861
Changes in the activity of transaminases and **alkaline** *phosphatases* from blood serum as related to the age, sex and growth rate of pigs. 117922
The effect of some activators and inhibitors on the activity of the **alkaline** *phosphatase* and the leukocytes [Livestock]. 117951
Plasma **alkaline** *phosphatase* polymorphism and its association with productive traits in Rhode Island Red [pullets]. 118329
Nutritive muscular dystrophy of cattle. 6. Activity of serum enzymes **alkaline** *phosphatases,* aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of "white muscle disease in young cattle. 119202
Requirement of an essential thiol group and ferric iron for the activity of the progesterone-induced procine uterine **purple** *phosphatase.* 117794

PHOSPHATES
The formation of exchangeable sulphite from **adenosine** *3'-phosphate* 5'-sulphatophosphate in yeast [Saccharomyces cerevisiae]. 120926
Study of plasmatic **alkaline** *phosphate* in infestations [of chickens] by Eimeria acervulina. 118607
Effect of phosphorus fertility of soils and *phosphate* **application** on rice culture in cool regions. 2. Response of rice plant growth to the amounts of extractable phosphorus in flooded soils under field conditions. 125063
Supplies of **available** *phosphates* in the soils from the Maritime Territory and their variation under the effect of fertilizers and moistening. 124947
Effect of pelleting on the availability of *phosphate* in **calcined** C-grade rock phosphate from Christmas Island [Subterranean clover]. 124994
Automated determination of chloride and *phosphate* in **cane** juice, molasses and sugar. 117184
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted skim milk powder containing added proteins, fat, calcium, *phosphate* and **citrate.** 118038
Phosphate **compounds** in red cells of the chicken and duck embryo and hatchling. 117630
Autotrophic production in Carnation Creek, a coastal rainforest stream on Vancouver Island, British Columbia [Algae, nitrate and *phosphate* **concentrations].** 120376
Malate dehydrogenase and *glucose-6-phosphate* **dehydrogenase** activitiy in livers of Ni[nickel]-deficient rats. 118019
The partial purification of L-glutamine **D-fructose** *6-phosphate* amidotransferase from baker's yeast. 116641
Duck deaths from accidental ingestion of anthelmintic [2,2-dichlorovinyl **dimethyl** *phosphate].* 118623
Phosphate **exchange** and organic phosphorus excretion by freshwater algae. 121184
Concepts and methods in the measurement of isotopically **exchangeable** *phosphate* in soil. 124882
Profitable use of *phosphate* **[Fertilizers].** 124963
Value of compounds containing covalent P-N [phosphorus-nitrogen] links as *phosphatic* **fertilizers.** 125047
A simple and specific locust [Schistocerca gregaria] protein binding assay for cyclic 3'5' GMP **[guanosine-3'5'-cyclic** *phosphate].* 123826
The role of the pentose cycle in the metabolism of Drosophila melanogaster revealed by mutations **inactivating** *glucoso-6-phosphate-* and 6-phosphogluconatedehydrogenase. 123881
Preliminary studies of the effects of an **induced** *phosphate* deficiency on carbohydrate-nitrogen ratios in Alternanthera philoxeroides (Centrospermae: Amaranthaceae) and on the feeding of Agasicles hygrophila (Coleoptera: Chrysomelidae). 123905
Stabilization of *ribose-5-phosphate* **isomerase** from tobacco. 121537
Initial and residual responses to *superphosphate* by a **legume** (Macroptilium atropureum) on nigrescent hill soils in South West Viti Levu. 124995
Absorption of oxygen by pea leaf chloroplasts in the presence of *riboso-5-phosphate* in the **light.** 121634
Photosynthetic capacity and luxury uptake of carbon during *phosphate* **limitation** in Pediastrum duplex (Chlorophyceae) [Algae]. 121212
Post-pollination phenomena in orchid flowers [Cymbidium]. VII. *Phosphate* **movement** among floral segments. 121590
Further studies on the modification of root growth and ion uptake brought about by enrichment of *phosphate* over **narrow** zones of the [barley] root system. 121417
Evaluation of **nitric** *phosphates* differing in water solubility of their phosphorus fraction [Fertilizers, wheat, berseem]. 125017
Thiamin deficiency and the **pentose** *phosphate* cycle in rats: intracerebral mechanisms. 116440
Enzymic reconstitution of photosynthetic carbon assimilation. **Pentose** *phosphate-dependent* O2 [oxygen] evolution by illuminated envelope-free chloroplasts from Spinacia oleracea [spinach]. 121599
Biosynthesis of **polyprenol** *phosphate* sugars by Ceratitis capitata extracts. 123911
Organization of membrane proteins in the intact myelin sheath. **Pyridoxal** *phosphate* and salicylaldehyde as probes of myelin structure [Cats]. 117788
How much *phosphate* do we **really** need? 125037
Phosphate **reduction** and response of [phyto] plankton populatons in Kootenay Lake. 125418
Features of *phosphate* **regime** of soils in the root zone of plants. 124757
Availability of "natural" and **"residual"** *phosphates* for [barley and oats] plants in Sod-Podzolic soils. 121398
Seasonal dependence of wheat variety **response** to *superphosphate.* 125018
Purification and properties of **ribose** *phosphate* isomerase from tobacco leaves. 121536
Effect of pelleting on the availability of phosphate in calcined C-grade **rock** *phosphate* from Christmas Island [Subterranean clover]. 124994
Calcium, *phosphate,* and **skeletal** metabolism in latent alimentary metabolic acidosis in sheep. 119154
Ecological and nutritional studies on Dinobryon [divergens] Ehrenb.: seasonal periodicity and the *phosphate* **toxicity** problem. 121233
Phosphate **uptake** kinetics in Euglena gracilis (Z) [Algae] (Euglenophyceae) grown on light-/dark cycles. I. Synchronized batch cultures. 121210
Phosphate **uptake** kinetics in Euglena gracilis (Z) [Algae] (Euglenophyceae) grown in light-/dark cycles. II. Phased PO4-limited cultures. 121211
Urea *phosphate* as a partial protein replacer in sheep concentrate diets. 117975

PHOSPHINE
Insecticidal value of *phosphine* in the **control** of stored tobacco insect pests [Ephestia elutella, Lasioderma serricorne]. 123537
The toxicity of *phosphine* [a **stored** product fumigant] to insects. 123572

PHOSPHODIESTERASES
Comparison of calcium-binding proteins. Bovine heart and brain protein activators of cyclic **nucleotide** *phosphodiesterase* and rabbit skeletal muscle troponin C. 117782

PHOSPHOENOLPYRUVATE
Assay of *phosphoenolpyruvate* **carboxykinase** in crude yeast extracts [Saccharomyces cerevisiae]. 120883
Inactivation by glucose of *phosphoenolpyruvate* **carboxykinase** from Saccharomyces cerevisiae [Yeasts]. 120910

PHOSPHOFRUCTOKINASE
Studies on specific elution of rabbit **muscle** *phosphofructokinase* with allosteric ligands. 117610

PHOSPHOGLYCERIC
Oxidative ways of *3-phosphoglyceric* **acid** formation in chloroplast extracts [Peas, broadbeans]. 121638
Detection of an essential sulfhydryl group in [rabbit muscle] *phosphoglycerate* **mutase** with an affinity-labeling reagent. 117783

PHOSPHOKINASES
Nutritive muscular dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, lactate-dehydrogenases and *creatine-phosphokinases* in the **course** of "white muscle disease in young cattle. 119202
Cerebrospinal fluid **creatine** *phosphokinase* in the normal dog. 117543

PHOSPHOLIPASES
Phospholipase **activity** in gut juice of lepidopterous larvae [Pieris brassicae, Spodoptera exigens, Trichoplusia ni]. 123985
Animal *phospholipases.* 117878
Study of **bound** *phospholipase* activities of fungal mycelia using an organic solvent system [Rhizopus arrhizus, Mucor javanicus]. 121237
Some properties of *phospholipase* D from **cotton** seeds. 121429
Free fatty acids and the onset of rancidity in rainbow trout (Salmo gairdneri) flesh. Effect of *phospholipase* A. 116195
Particle-bound phytochrome: differential pigment release by surfactants, ribonuclease and *phospholipase* C **[Pumpkins].** 121756

PHOSPHOLIPIDS
Influence of mastitis on the physico-chemical status of milk lipids. I. Glycerides, free fatty **acids** and *phospholipid.* 116167
Phospholipid **metabolism** in red and white insect muscle [Schistocerca gregaria]. 123986
Antibiotic activity of *phospholipids* from some **microorganisms** [including yeasts and other fungi]. 121091
Exchange of *phospholipids* between **mitochondria** and microsomes in vitro stimulated by yeast cell cytosol [Saccharomyces cerevisiae]. 120929
Stabilization of fats with natural antioxidants. 4. Antioxidative effect of **soybean** *phospholipids.* 117155

PHOSPHONIC
Comparative effects of (2-chloroethyl) *phosphonic* **acid** and the mono-2-chlorethyl ester of the acid on growth, peroxidase activity, and sex expression of a monoecious cucumber. 121698
Effect of **2-chloroethyl** *phosphonic* acid (Ethrel) on the ripening of bush redpeppers (Capsicum annuum). 121649

PHOSPHONIUM
The electrostatic properties of THPOH-NH3 *[tetrakis(hydroxymethyl)-phosphonium* **hydroxide-ammonium]** flame-retardant cotton fibric as they pertain to potential mill problems and performance properties. 117201

PHOSPHORUS
Alterations in the organism of sheep with chronic intoxication by trolene *[phosphoric* **acid** product]. 119287
Hair as an indicator of the availability of calcium and *phosphorus* for **animals.** 117934
Rice growth and **available** *phosphorus* relationships on selected Gulf Coast soils. 125062
Prediction of *phosphorus* and **chlorophyll** levels in lakes [Algal levels, pollution]. 125516
Mycological production of citric acid in India. IV. Role of sulphur and *phosphorus* **compounds** [Aspergillus niger]. 121361
Content of *phosphorus* **compounds** in winter wheat hybrids differing by the heterotic effect. 121474
Changes of nitrogen and *phosphorus* **content** during waterfall destruction in standing model waters. 125199
Calcium and *phosphorus* **contents** in cows milk of the Italian Friesian, Italian Brown, Reggio and Modena breeds. 116920
Determination of test errors in **determining** *phosphorus* and uura from the 80-21875/12 and 35 standards of testing feeds. 117369
Overland flow treatment of raw wastewater with **enhanced** *phosphorus* removal. 125421
Effects of different cultivation treatments on root distribution, and on the concentrations of **extractable** *phosphorus* and potassium, at different depths in a clay loam. 124954

Effect of phosphorus fertility of soils and phosphate application on rice culture in cool regions. 2. Response of rice plant growth to the amounts of **extractable** *phosphorus* in flooded soils under field conditions. 125063
A comparison of *phosphorus* **fertilization** in Central Texas [Sorghum]. 125056
Effect of *phosphorus* **fertilization** on rice yield. 125058
Effect of placement of *phosphorus* **fertilizer** and lime upon growth of Delicious and Golden Delicious apple trees. 121701
Action of forms of *phosphorus* **fertilizers** on rice in the Sheki-Fakataly Zone of the Azerbaijan SSR. 121396
Phosphorus in **forest** soils. 124883
Evaluation of nitric phosphates differing in water solubility of their *phosphorus* **fraction** [Fertilizers, wheat, berseem]. 125017
Zinc nutrition of onions as **influenced** by *phosphorus*. 121695
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P *[phosphorus* **isotope**] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Effects of follicle stimulating hormone and luteinizing hormone on the incorporation of 32P *[phosphorus* **isotope**] into the testis of the immature Japanese quail. 117697
Physiological basis for using *phosphorus* 32 **[isotope]** in studying biochemical effect of forest trees on each other. 121812
Labeling of Trichogramma pretiosum by rearing on eggs from 32P *[phosphorus* **isotope**]-**fed** adults of Heliothis zea [corn earworm, biological control]. 123282
Facts on calcium & *phosphorus* **level** for poultry. 118140
Value of compounds containing covalent P-N *[phosphorus-nitrogen]* **links** as phosphatic fertilizers. 125047
Variations in concentrations and interrelationships of phytate, *phosphorus,* **magnesium,** calcium, zinc, nd iron in wheat varieties during two years. 117125
The movements of minerals in the digestive tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, *phosphorus,* **magnesium,** sodium, potassium and chlorine]. 117963
Blood serum levels of calcium, *phosphorus* and **magnesium** during th pregnancy of the female ass, Equus asinus L., 1758 (Perissodactyla, Equidae). 118391
Relationship of plant population of the sunflower (Helianthus annuus L) to NP **[nitrogen** *phosphorus]* fertilization and irrigation time. 122132
Phosphorus and **nucleic** metabolism in wheat with cytoplasmic male sterility. 121478
Changes in some biochemical indices of the blood in chickens at continuous feeding of Timet and Lebaizid *[Phosphorus* **organic** insecticides]. 119286
Phosphate exchange and **organic** *phosphorus* excretion by freshwater algae. 121184
Mineral composition of liver and kidney of rats fed corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, *phosphorus,* **potassium**] fertilizers. 118083
Effect of boron on the utilization of nitrogen, *phosphorus* and **potassium** by mustard plants. 120862
Effects of N:P:K [nitrogen: *phosphorus:* **potassium**] fertilizers on growth, development & essential oil content of Mentha spp. 121134
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, *phosphorus,* **potassium,** magnesium, calcium] on the growth of pear trees and levels in the leaves, 1958-1975. 121771
Effect of monuron and monolinuron on growth dynamics, yields and qualitative changes of winter rye against the background of various nitrogen, *phosphorus* and **potassium** fertilization rates. 123192
Application of high doses of *phosphorus* and **potassium** fertilizers before the establishment of a pome fruit orchard. 124919
Effect of potassium fertilizers on [crop] yields and removal and utilization of nitrogen, *phosphorus,* and **potassium** by winter rye. 124937
Effectiveness of reserve application of *phosphorus* and **potassium** fertilizers on peaty soils. 124938
Yield of cereals and the removal of nitrogen, *phosphorus* and **potassium** on Sod-Podzolic loamy soil in the Belorussian SSR in relation to the level of nutrition. 124951
Evaluation of soil fertility for natural pastures [Nitrogen, *phosphorus* and **potassium** fertilizers]. 124952
NPK [nitrogen, *phosphorus,* **potassium**] requirement of crops in soils of Saryu alluviums in relation to their initial fertility status. 124990
Response of some sugarcane varieties to different levels of N, P and K [nitrogen, *phosphorus,* **potassium**] in Punjab. 125013
Study of a tertiary treatment of *phosphorus* **removal** from the wastewater treatment plant of Thonon-Evian. 125378
Phosphorus **removal** with alum from secondary effluent. 125515
Utilization of alumized red mud solids for *phosphorus* **removal.** 125519
Calibration of the available soil phosphorus values measured by the Olsen et. al. and Bray-Kurtz no. 1 methods with the *phosphorus* **requirement** of sugarbeets and economic analyses. 124908
The effect of hyperpotassic diets on consumption, **egg**-laying, egg quality and on calcium and **serous** *phosphorus* levels. Preliminary trial [Chickens]. 118049
Calibration of the available **soil** *phosphorus* values measured by the Olsen et. al. and Bray-Kurtz no. 1 methods with the phosphorus requirement of sugarbeets and economic analyses. 124908
The role of *organo-phosphorus* and **synthetic** pyrethriod insecticides in mothproofing [to prevent fabric-insect damage]. 123570
Translocation and transfer of nutrients in vesicular-arbuscular mycorrhizas [roots of onion]. I. The arbuscule and *phosphorus* **transfer:** a quantitative ultrastructural study. 121743
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, *phosphorus,* **zinc,** iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574

PHOSPHORYLASES

Studies on the alpha-adrenergic activation of hepatic glucose output. I. Studies on the alpha-adrenergic activation of *phosphorylase* and **gluconeogenesis** and inactivation of glycogen synthase in isolated rat liver parenchymal cells. 117796
Localization of **glycogen** *phosphorylase* in specific cell types during differentiation of Dictyostelium discoideum [Fungi]. 120902
A study on the autoactivation of rabbit **muscle** *phosphorylase* kinase. 117781

PHOSPHORYLATION

Ca2+ [calcium ion] induced conformational changes of spin-labeled g2 chain bound to myosin [isolated from rabbit white muscle] and the **effect** of *phosphorylation*. 117779
Photosystem 2 mediated electron transport and *phosphorylation* with **ferricyanide** and dibromothymoquinone. The uncoupling activity of dibromothymoquinone [Lettuce chloroplasts]. 121763
Effect of adenosinetriphosphatase and conditions of *phosphorylation* on the H+/3- **[Hydrogen,** electron] relation and proton exchange of isolated chloroplasts [Peas]. 121636

PHOTO

Protection of Cucumis leaf pigments against *photo-oxidative* **degradation** during chilling. 117210
Effect of *photo-induction* on **micronutrient** content of leaves in Biloxi soybean glycine max Merrill. 121501
Gel electrophoretic studies of proteins in *photo-induced* and **vegetative** plants of Impatiens balsamina. 121755

PHOTOCHEMISTRY

Effects of atmospheric parameters on the concentration of *photochemical* **air** pollutants. 125496
Relation between *photoinduced* **changes** of the oxiation-reduction potential of the chloroplast suspension and the activity of the second photosystem [Peas]. 121639
Photochemical **confirmation** of mirex in the presence of polychlorinated biphenyls [Pesticide residues]. 123721
Investigation of primary processes of *photoinduced* **liberation** of hydrogen from Chlorella during flash illumination [Algae]. 121034
Photodegradation of **O-ethyl** O-[4-(methylthio)phenyl] S-propyl phosphorodithioate (BAY NTN 9306) [Insecticide for cotton pests]. 123314
Calculated actinic fluxes (290-700 nm) for air **pollution** *photochemistry* applications. 125420
Photodegradation of **polybromobiphenyls** (PBB). 123722
Photochemical **reactions.** XXVI. Molecular and crystal structure of a cyclobutane annelated gibberellin derivative [plants, growth substances]. 121366
Effect of air pollution on fruit trees: *photochemical* **smog** injury to Japanese pear tree. 122978
Role of cyclic electron transport in photosynthesis as measured by the *photoinduced* **turnover** of P700 in vivo [Algae, aphanocapsa]. 120928

PHOTOELECTRIC

Photoelectron **microscopy** of biomembranes: observation of external photoemission from spinach chloroplasts. 121767
Electron microscopy and **X-ray** *photoelectron* spectroscopy of oxygen plasma-etched bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542

PHOTOGRAPHY

User services available from USDA's **Aerial** *Photography* Field Office [Cultivated areas]. 115160
Handbook of New Hampshire's **aerial** *photographic* coverage [Remote sensing]. 115193
The design, implementation, and use of a statewide land use inventory: the New York experience **[Aerial** *photographs].* 115268
Large-scale **aerial** *photography* in forest inventories: designs and applications. 119471
The 1975 citrus tree census [Use of **aerial** *photography].* 122209
Characterizing apple tree canopies by **fisheye** *photography*. 122333
The application of **hemispherical** *photography* to cereal canopies [Productivity studies]. 121520
Thermal **infrared** *photography* of forest fire control. 119322
Photography, a **range** management tool. 122056
Procedure for determining the usefulness of any given type of **aerial** or **space** *photography* in relation to the inventory of natural resources. 125488

PHOTOMETRY

Photometric **determination** of dithiocarbamate [fungicides] residues [in foods] by carbon disulphide evaluation method. 116232

PHOTOPERIODICITY

Photoperiodicity, **65Zn** [zinc] elimination, and egg production in Heliothis virescens. 124038

PHOTOPERIODISM

The circadian eclosion rhythm in Sarcophaga artyrostoma: some comparisons with the *photoperiodic* **"clock".** 124031
Permanent culturing of Diprion pini L [Hymenoptera, Diprionidae] with regard to *photoperiodic* **conditions.** 123820
Formation of subitaneous puppae at Celerio euphorbiae euphorbiae, a *photoperiodically* **controlled** primary process (Lepidoptera, Sphingidae). 123897
Effect of *photoperiod* on **development** and fecundity in the flour moth, Ephestia kuehniella. 124043
Action of *photoperiod* on **diapause** induction in Mamestra brassicae (Lepidoptera, Noctuidae). 123814
Effect of *photoperiod* on **germination** of Cyperus inflexus seeds. 120972
Effect of *photoperiodic* **manipulation** on seasonal variation in bud and shoot regeneration of Rieger begonia [Begonia hiemalis] leaf cuttings. 121668
The gradient of phytochrome and inhibitor distribution in stems of plants of *photoperiodically* **neutral** species. 121038
Effect of *photoperiod* and **nitrogen** on the composition of foliar monoterpenes of Juniperus horizontalis Moench. cv. Plumosa. 121700
Biological clock and *photoperiodism* [of **plants**]. 120952
Root growth in Acer saccharum Marsh. Seedlings: effects of light intensity and *photoperiod* on **root** elongation rates. 121801

PHOTORECEPTORS

Diapause of Pieris brassicae: Role of the **cephalic** *photoreceptors,* study of the cerebral carotenoids. 124042

PHOTOSENSITIZATION

Photosensitivity of **artificial** bilayer membranes: lipid-chlorophyll interaction. 121314
Photosensitizing **effect** of phenothiazine [in sheep]. 117952

PHOTOSYNTHESIS

Ecological studies on the photosynthesis of winter cereals. III. Changes of the *photosynthetic* **ability** of various organs with growth. 121547
Relationships of *photosynthetically* **active** radiation and shortwave irradiance [Photosynthesis and solar energy]. 120861
Leaf area and *photosynthetic* **active** radiation as related to corn yield. 121557
Photosynthetic **activities** of membrane preparations of the blue-green alga Phormidium luridum. 121047
Effects of 1,N6-ethenoadenylates on the regulation of *photosynthetic* **activities** by adenylates; a study of the nucleotide binding sites on chloroplast coupling factor [Spinach]. 121754
Specificity of the *photosynthetic* **activity** of cowpea plants as affected by different density of stands. 121777
Adaptive *photosynthesis* responses to temperature extremes by the thermophilic cyanophyte Synechococcus lividus [Algae]. 121197
Influence of spray adjuvants and multiple applications of benomyl and oil on *photosynthesis* of **apples** leaves [Apple scab, Venturia inaequalis]. 122620
Fluorescence of allophycocyanin in connection with establishing the role of phycobiliproteids in *photosynthesis* [of **blue-green** alga Aphanizomenon flos-aquae]. 121032
Photosynthetic **capacity** and luxury uptake of carbon during phosphate limitation in Pediastrum duplex (Chlorophyceae) [Algae]. 121212
Enzymic reconstitution of *photosynthetic* **carbon** assimilation. Pentose phosphate-dependent O2 [oxygen] evolution by illuminated envelope-free chloroplasts from Spinacia oleracea [spinach]. 121599
The interrelationship between translocation of 14C **[carbon** *isotope]-photosynthate* and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of Ipomoea [Sweetpotatoes]. 121766
Photosynthesis and **carbonic** anhydrase activity in Zn[zinc] deficient peaches irradiated with ultraviolet light. 121676
Photosynthetic **carboxylating** enzymes in [the marine diatom] Phaeodactylum tricornutum: assay methods and properties. 121267
Relationship between *photosynthesis* and **cell** size of marine diatoms [Algae]. 121214
On the localization of Mehler reaction with ethanolcatalase trap in the **chain** *photosynthetic* electron transport. 120942
Effect of diuron on the relation between the exchange of energy and **gas** in the *photosynthesis* of **Chlorella** [Algae] in blue light. 121027
Stochastic modeling of light energy **conversion** in *photosynthesis*. 121315
Importance of *photosynthetic* **cotyledons** for early growth of woody angiosperms. 121823
Initial mechanisms of the **development** of *photosynthesis*. 121231

Photosynthetic **electron** transport in plants of Sitka spruce [Picea stitchensis] subjected to differing light environments during growth. 121824
An alternative to Kok's model for the oxygen-evolving system in *photosynthesis* [with the **example** of the alga Chlorella]. 121050
The role of heterotrophic nutrition and *photosynthesis* in the **heterosis** of maize hybrids. 121483
The mechanisms of *photosynthetic* **inhibition** and the development of scorch in tomato plants treated with spray oils. 121594
Diurnal intensity of *photosynthesis* in **introduced** woody plants in the Crimea. 120963
Ear and flag **leaf** *photosynthesis* of awned and awnless Triticum species [Wheat]. 121412
The relation of incident radiation to diurnal rates of *photosynthesis* in **Lough** Neagh. 120371
Effect of salinity on *photosynthesis* and **mannitol** synthesis in the green flagellate Platymonas suecica [Algae]. 120980
Role of cyclic electron transport in *photosynthesis* as **measured** by the photoinduced turnover of P700 in vivo [Algae, aphanocapsa]. 120928
Interpretation of supermolecular organization of *photosynthetic* **membranes** [in algae and some higher plants, peas, onion, spinach]. 121033
Selective distribution of newly formed molecules of chlorophylls a and b at different depth of fragmentation of *photosynthetic* **membranes** by digitonin. 121037
DCMU [3(3,4-dichlorophenyl)-1,1-dimethylurea] induced inhibition of growth, *photosynthesis* and **motility** in Eudorina elegans cultures [Algae, herbicides]. 123061
A rapid method for measuring **net** *photosynthesis* of excised leaves by using air-sealed chambers [Maize, Phalaris arundinaceae, soybeans]. 121511
The superoxide dismutase activity of various *photosynthetic* **organisms** measured by a new and rapid assay technique [Spinach, Algae]. 121053
Photosynthetic **rate**—yield component relationships in winter greenhouse tomatoes. 121677
Transport effect of some mineral nutrients and *photosynthates* with **reference** to stock-scion relationship in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727
Detection of triplet states in algae by zero-field **resonance** *[Photosynthesis].* 120921
New data on the *photosynthesis* and **respiration** of green plants under the conditions of flash illumination [Maize, kidney beans]. 121449
The carbon budget of a young apple tree *[Photosynthesis,* **respiration,** solar radiation, temperature]. 121717
Photosynthesis in **Sitka** spruce (Picea sitchensis (Bong.) Carr.). VII. Measurements of stomatal conductance and 14cO2 [carbon dioxide isotope] uptake in a forest canopy. 121818
Relationships of photosynthetically active radiation and shortwave irradiance *[Photosynthesis* and **solar** energy]. 120861
A model of **stand** *photosynthesis* for the wet meadow tundra at Barrow, Alaska. 121040
Phototaxis in Cryptomonas [Algae] sp. Under condition **suppressing** *photosynthesis.* 121321
Growth analysis & *photosynthetic* **systems** in relation to hybrid vigour in maize Zea mays L. 121504
Rates of growth, respiration and *photosynthesis* of **unicellular** algae as related to cell size: a review. 121213
C4 [dicarboxylic acid pathway of] *photosynthesis* and a **unique** type of Kranz anatomy in Glossocordia boswallaea (Asteraceae). 121337
In **vitro** *photosynthesis.* 121150
Ecological studies on the *photosynthesis* of **winter** cereals. III. Changes of the photosynthetic ability of various organs with growth. 121547
Effects of awns of the *photosynthesis* and **yield** of wheat, Triticum aestivum. 121413

PHOTOSYSTEMS
Pterin-protein complex and ferredoxin as possible components of a molecular complex in *Photosystem* I **[Chloroplasts].** 120943
Photosystem 2 **mediated** electron transport and phosphorylation with ferricyanide and dibromothymoquinone. The uncoupling activity of dibromothymoquinone [Lettuce chloroplasts]. 121763
Relation between photoinduced changes of the oxiation-reduction potential of the chloroplast suspension and the activity of the **second** *photosystem* [Peas]. 121639

PHOTOTAXIS *see* PHOTOTROPISM

PHOTOTROPISM
Phototaxis in **Cryptomonas** [Algae] sp. Under condition suppressing photosynthesis. 121321

PHRYGANEA
Studies on the behaviour of adults of *Phryganea* **bipunctata** and Agrypnia obsoleta (Trichoptera). 124116

PHTHORIMAEA
Susceptibility of twenty potato cultivars to the potato moth *[Phthorimaea* **operculella]** at Pukekohe: a preliminary assessment. 123423

PHYCITIDAE
Descriptions of the immature stages and biology of Vitula lugubrella (Ragonot) **(Pyralidae;** *Phycitinae).* 124317

PHYLLACTINIA
Three species of oak powdery mildews [Microsphaera alphitoides, Microsphaera hypophylla, *Phyllactinia* **roboris].** 122616

PHYLLOCOPTRUTA
Large-scale production of the fungal pathogen Hirsutella thompsonii in submerged culture and its formulation for application in the field [to control the citrus rust mite, *Phyllocoptruta* **oleivora].** 123399

PHYLLODY
Association of mycoplasmalikie bodies with Launaea **nudicaulis** *phyllody.* 122880

PHYLLOPHAGA
In-furrow applications of insecticides for white grub *[Phyllophaga* **crinita]** control in grain sorghum. 123343

PHYLLOPHORA
A first record of the red **alga** *Phyllophora* sicula (Kutzing) comb. nov. (Phyllophora palmettoides J. Agardh) for Ireland. 120082

PHYLLOXERA
Pecan *phylloxera* (a gall forming insect) [Carya illinoensis]. 123389

PHYLOGENY
Partial sequences of 16S rRNA and the *phylogeny* of **bluegreen** algae and chloroplasts. 120786
An application of interspecific crossing for **determining** *phylogenetic* relationships within a genus, with a special reference to genus Agaricus [Fungi]. 120195
Wood anatomy of Roridulaceae: ecological and *phylogenetic* **implications** [Roridula gorgonias, Roridula dentata]. 119927
Comparative pollen morphology and *phylogeny* of the **ranalean** complex [Angiospermae]. 120055
Comparative morphological study of representatives of the family Hamamelidaceae R. Br. and their *phylogenetic* **relations.** 120072
Phylogenetic **relationships** of Caulerpa (Chlorophyta) based on comparative chloroplast ultrastructure. 120774
The *phylogenetic* **significance** of the development of pollen grain walls in Liliaceae, Juncaceae and Cyperaceae. 120516
Phylogenetic **studies** on Ranunculus cortusifolius Willd. (Ranunculaceae), a Macaronesian endemic species. 119973
Seed proteins in plant **taxonomy** and *phylogeny.* 120053

PHYSALIS
Physoperuvine, a new alkaloid of *Physalis* **peruviana** Linn. 121014
An experiment on the feeding habit of the large 28-spotted ladybird (Henosepilachna vigintioctomaculata) by an alternative grafting between potato plant (Solanum tuberosum) and Chinese lantern **plant** *(Physalis* alkekengi). 123254

PHYSARUM
The plasmodium of a slime fungus: culture and biology of the noncellular plasmodium of *Physarum* **polycephalum** [Myxomycetes]. 121278
Differential expression of RNAse activities in the life cycle of *Physarum* **polycephalum** [Fungi]. 121301

PHYSICOCHEMISTRY
Stabilized dormancy in sugarbeet fruits. I. Seed coats as a *physicochemical* **barrier** to oxygen. 121437
Some *physicochemical* and **biological** methods of studying plant secretions. 121062
Purification and *physicochemical* **characteristics** of African swine fever virus. 118790
A chemical and *physicochemical* **investigation** of two Danish podzol profiles [Soils]. 124777
Primary *physicochemical* injuries in chloroplasts due to toxic concentrations of NaCl [sodium chloride, pea seedlings]. 123038
The occurrence of Bacillus cereus in Finnish dog food sausages; a microbiological and *physicochemical* **survey.** 119274

PHYSIOLOGISTS
Creative pathway of Ismagil Gadievich Suleimanov (August 8, 1904-October 21, 1973) **[Plant** *physiologists].* 121110

PHYSIOLOGY
Physiologically **active** substances of the B complex [vitamins] in the seeds of maize inbred lines and in initial forms. 120711
Interrelationship of aerobic cellulose-fermenting [soil] bacteria with their companions on the basis of the synthesis of *physiologically* **active** substances. 124818
Effect of soil on the *physiological* **activity** of apple tree secretions. 121654
Farnesenic acid stimulation of juvenile hormone biosynthesis as an experimental probe in corpus **allatum** *physiology* [Schistocerca gregaria]. 123940
The pineapple—a fascinating plant: the structure and *physiology* of **Ananas** comosus. 121644
Social, scientific and biological problems of cereal research and production; a contribution to the world's nutrition problem. II. *Physiological* **aspects** of cereal production. 121580
Physiological **basis** for using phosphorus 32 [isotope] in studying biochemical effect of forest trees on each other. 121812
Beneficial *physiologic* action of beans. 116399
Beneficial *physiologic* action of beans. 116400
Physiological and **biochemical** aspects of heterosis in maize. 121479
Physiological and **biochemical** prerequisites of selecting stabilizers of sterility and fertility restorers in maize. 121480
Preliminary results of evaluating some *physiological* and **biochemical** characters in the process of breeding sugarbeets. 121481
Study of *physiological* and **biochemical** features of tomato [varieties] in relation to the forecasting of heterosis. 121686
Physiological and **biochemical** basis for the resistance of poplar hybrids to the fungus Dothichiza populea Sacc. et Br. 122574
Milestones and predictions of future trends in fungal spore research *[Physiological* and **biochemistry** aspects]. 121120
Study of *physiologic* and **biophysical** features of maize hybrids and their parental forms. 121482
Studies on the *physiology* of **bolting** and flowering in Raphanus sativus L. II. Annual rhythm in readiness to flower in Japanese radish, cultivar Wase-shijunichi. 121759
Cytophotometry in *physiological* and **breeding-genetic** studies [Description of apparatus]. 120808
Physiology of the **carbohydrate** utilization patterns of yeasts—a problem desiring transport resolution. 121384
Effect of submergence on some *physiological* **changes** in rice seedlings. 121502
Physiological **characteristic** of drought and heat resistance in maize [Varieties, breeding]. 121572
Reasons of variation in the *physiological* **condition** of eastern cottonwood [Populus deltoides] in mixed stands. 121813
Crop *physiology* [Uganda, cotton]. 121472
The perisympathetic organs of Insecta. An attempt on their evolution. Structural and *physiological* **data** on Coleoptera and Diptera. 123813
Studies on the **developmental** *physiology* in rice pollen. XXX. Effects of excessive nitrogen top-dressed at meiotic stage on the amino acid metabolism and the development of pollens. 121549
Biochemical and *physiological* **differences** between avian ALD and PLD [anterior and posterior latissimus dorsi] muscle subcellular fractions [Chickens]. 117643
Controlling apple storage scald *[Physiological* **disorders].** 122926
Annotated bibliography on *physiological* **disorders** of tomatoes, 1969-1974. 123029
Physiological **effects** of sublethal levels of acid water on fish [River polution with coal mine drainage, toxicity]. 125401
Specific interactions in the *physiology* of **flowering** and gibbosity of Lemna gibba G3. 121324
Physiology of **growth** and maturation of berries. Causes of variations of main constituents. Influence of greening operations and chemical interventions [Grapes]. 121623
Physiological **host** specificity of the polyphagous pupal parasites of Pimpla turionellae L. (Hymenoptera, Icneumonidae) and its ecological significance. 123456
The importance of taxonomy and of laboratory studies on the biology, nutrition and *physiology* of **insects** infesting stored products. 123567
Determination of the *physiological* **levels** of juvenile hormones in several insects and biosynthesis of the carbon skeletons of the juvenile hormones. 123936
The endogenous secretin in chicken: **minor** *physiological* role in exocrine pancreatic secretion. 117840
Effects of nitrate and ammonium enrichment on growth and **nitrogen** *physiology* in Fucus spiralis [Algae]. 121234
Physiology of **nutrition** of sedentary endoparasitic plant nematodes. 123005
Creasng [disorder] of orange **peel**—*physiology* and control. 122975
Fundamental studies on *physiological* and **pharmacological** actions of L-ascorbate 2-sulfate. I. On the hypolipidemic effects [Rats]. 116456
Physiology and **plastid** fine structure of deetiolating Lemna minor. 120981
Postharvest *physiology* of cut flowers. 117287
Physiological **principles** and technologic methods of battery and floor exploitation, in confinement and in the open air, of poultry as a function of its production and health [Economic aspects]. 118434
Wound repair in yam tubers: *physiological* **processes** during repair. 121744
Processed food carbohydrates and their *physiological* **properties** in relation to structure. 116810
Studies on the *physiology* of **pruning** tea. 2. The effect of soil cultivation and resting on recovery after pruning. 122550
Occurrence of *physiological* **races** of Bremia lactucae Regel, the organism causing downy mildew in lettuce. 122675
Further investigations of the *physiological* **responses** of roots to cooling [Barley, rye]. 121415
On *physiological* **role** of proline in plants. 120949
Physiology of **roots** [of growing plants]. 121016

Inhibition of cooperative enzymes by sustrate-analogues. Possible implications for the *physiological* **significance** of negative cooperativity illustrated by phenylalanine metabolism in higher plants. 121226
Studies on calcium absorption in vegetable crops. I. The absorption and *physiological* **significance** of calcium in vegetative and reproductive phases of plant growth. 121730
Physiologic **specialization** in Helminthosporium gramineum [barley, leaf stripe, resistance testing of Indian and USa varieties]. 122755
Physiological **studies** on the effects of nutritional imbalance on the central nervous system: effects of thiamine deficiency on the regional protein metabolism in the brain of chicken, Gallus domesticus. 117642
Physiological **studies** on [the ecological importance of fungi in] an isolate of Saprolegnia ferax from the larval gut of the blackfly Simulium vittatum. 120381
Physiology and **systems** analysis of gravity orientation in two insect species (Carausius morosus, Calandra granaria). 123915
Continuous recording of *physiological* **variables** and behaviour in young lambs. 117824
Radiotelemetry of *physiological* **variables** in new-born lambs. 117829
Effects of nematodes on the *physiology* of **vegetable** crops. V. Influence of farmyard manure application on the root-knot nematode [Meloidogyne incognita] injury in some vegetable-crops. 122979
Growth, development, and *physiology* of **yellow** nutsedge [Cyperus esculentus, weed control]. 123130

PHYTOALEXINS

Biosynthesis of **isoflavonoid** *phytoalexins* in Medicago sativa [alfalfa]: the biosynthetic relationships between pterocarpans and 2'-hydroxyisoflavans. 121441
Phytoalexins. 121331

PHYTOCHEMISTRY

Biological and *phytochemical* **evaluation** of plants. XIV. Antiinflammatory evaluation of 163 species of plants. 121245
Phytochemistry of **genus** Gentiana. XIV. Identification of new derivatives of isoorientin in the laves of Gentiana burseri Lapeyr. 2. 121075
Phytochemical and **toxicological** screening of household ornamental plants potentially toxic to humans. I. 116212

PHYTOCHROMES

The gradient of *phytochrome* and **inhibitor** distribution in stems of plants of photoperiodically neutral species. 121038
Particle-bound *phytochrome:* differential pigment release by surfactants, ribonuclease and phospholipase C [Pumpkins]. 121756

PHYTOCLIMATOLOGY

Some aspects of the *phytoclimate* of a **vineyard** in relation to the way of planting [and of training the grapevines]. 122500

PHYTOCOENOSES

Composition of the microflora of **natural** *phytocoenoses* from the Khomutovskaia Steppe [reservation]. 120351
Phenological characterization of **selected** *phytocoenoses* in the kettlehole of Liptov. 120315

PHYTOCOENOSIS

Experience of establishing an artificial **steppe** *phytocoenosis* in the Donetsk Botanical Garden. 119857

PHYTOGEOGRAPHY

Hookeria lucens [Musci, taxonomy, *phytogeography,* **morphology**]. 120196
Vegetation series in the Alps chain and their equivalences in other *phytogeographic* **systems.** 120009

PHYTOHORMONES

Effect of different doses of ionizing radiation on the level of *phytohormones* in **plants** [Broad-beans]. 121444

PHYTOMASS

Accumulation of **dry** *phytomass* of barley in the second half of the vegetational period. 121562

PHYTOMYZA

Studies on boreal Agromyzidae (Diptera). X. *Phytomyza* **miners** on Crassulaceae [New taxa]. 124406

PHYTOPATHOGENS

Prospects for control of *phytopathogenic* **bacteria** by bacteriophages and bacteriocins. 122797

PHYTOPATHOLOGISTS

Panos D. **Caldis,** 1896-1974 *[Phytopathologists].* 122733

PHYTOPATHOLOGY

Four **essays** *[Phytopathology].* 122900

PHYTOPHAGOUS

Plants, the origin of kairomones utilized by parasitoids of *phytophagous* **insects?** 123243
Results of surveys of *phytophagous* and **seminovorous** insects in seed bearing lucerne. 123352

PHYTOPHTHORA

Metabolism of Delta7- and Delta5,7- sterols by *Phytophthora* **cactorum** [Fungi]. 120934
Competition between *Phytophthora* **cinnamomi** and Trichoderma spp. [Fungi] in autoclaved soil. 120336
A *Phytophthora* [**cryptogea**] disease of African daisies (Osteospermum spp.) [Osteospermum fruticosum, Osteospermum ecklonis] in California. 122743
Phytophthora [**cryptogea**] wilt of chestnuts in South Australia. 122756
Field trials of fungicides to control red core *[Phytophthora* **fragariae**] of strawberries. 122563
Stimulation of sporulation of *Phytophthora* **fragariae** [red stele of strawberries]. 122666
The role of sterols in the relations between potato [plants] and *Phytophthora* **infestans** [Blight]. 122609
Behaviour of *Phytophthora* **infestans** (Mont.) de Bary on potato tubers in relation to lenticel resistance. 122701
Prevention of the hypersensitive reaction of potato cells to infection with an incompatible race of *Phytophthora* **infestans** by constituents of the zoospores. 122712
Changes in soluble proteins in potato leaves infected with *Phytophthora* **infestans.** 122741
Organic amendments and control of foot rot of Piper betle caused by *Phytophthora* **parasitica** var. piperina. 122570
A new disease of Pilea [imperialis] caused by *Phytophthora* **parasitica** [Leaf, bud and stem blight]. 122742
Phytotoxicity of mycolaminarans—beta-1,3-glucans from *Phytophthora* spp. 122711
The application and uses of Terrazole soil fungicide [Pythium, *Phytophthora,* **water** moulds, control, New Zealand]. 122594

PHYTOPLANKTONS

Phytoplankton [**Algae** of the Zelenetskoe and Akul'kino lakes]. 120294
Phytoplankton [**Algae**] and primary productivity in Takapoto atoll, Tuamotu Islands. 120380
Prediction of the *phytoplankton* **development** in designed reservoirs by combining a growth-kinetic model and the analogy to existing reservoirs. 121149
Biomass and yield of *phytoplankton* and the **eutriphication** of the Lake Balaton [Hungary]. 121076
The biological degradation of arginine and glutamic acid in seawater in relation to the **growth** of *phytoplankton.* 121268
Microbiological pollution of Munich: *phytoplankton* under the **influence** of waste water; investigations in the Amper River, near Dachau. 125527
Mathematical modeling of *phytoplankton* in **Lake** Ontario. 2. [Eutrophication]. 125417
Temperature-induced species competition in mass cultures of **marine** *phytoplankton* [Algae]. 120319
Environmental studies and summer typology of the *phytoplankton* and **phytobenthos** [Algae] along the Tropea coast (Calabria). II. 120019
Phytoplankton **response** to wastewater nutrient enrichment in continuous culture [Dunaliella tertiolecta, Phaeodactylum tricornutum, Thalassiosira pseudonana, Algae]. 121183

PHYTOSANITARY

Phytosanitary **state** of stands of field crops in relation to crop rotation and fertilizer application [Disease, pest and weed control]. 122945

PHYTOSEIIDAE

Biology and feeding behaviour of the predatory mite, Amblyseius brazilli **(Mesostigmata: *Phytoseiidae).*** 123901

PHYTOTOXIC

Identification and *phytotoxic* **activity** of compounds produced during decomposition of corn and rye residues in soil. 122973
Autointoxication mechanism of Oryza sativa [rice]. I. *Phytotoxic* **effects** of decomposing rice residues in soil. 122972
Presence of *phytotoxic* **form** of bacteria in a Sod-weak Podzolic soil planted with lupine in a crop rotation and in monoculture. 122801
Study of *phytotoxic* **properties** of Pseudomonas putida, strain 2181 [Soil-borne bacteria]. 122802
Isolation and identification of *phytotoxic* **substances** from seeds of Coronilla varia L. 121332

PHYTOTOXICITY

Phytotoxicity of **mycolaminarans**—beta-1,3-glucans from Phytophthora spp. 122711
Effect of pH [hydrogen-ion concentration] on metribuzin [herbicide] activity in the **soil** *[Phytotoxicity].* 123766

PICEA

Soil preparation and plant development on sandy soils in Jutland *[Picea* **abies,** Larix leptolepis, Abies alba]. 119572
The wood basic density variation of pine and spruce [Pinus sylvestris, *Picea* **abies**] provenances. 119584
Relation between cone crops of *Picea* **abies** (L.) Karst in Poland and the climatic factors. 121793
Effect of spruce root constituents on extracellular enzymes of Fomes annosus *[Picea* **abies**]. 122697
Length of development and survival of Hylobius abietis as influenced by silvicultural exposure to sunlight *[Picea* **abies**]. 123447
The natural resistance of some indigenous woods against Reticulitermes lucifugus [Pinus sylvestris, Abies alba, *Picea* **abies,** Fagus silvatica, Quercus robur]. 123462
Chalcid-flies (Hymenoptera, Chalcidoidea) reared from Ips typographus L. and Pityogenes chalcographus L. at some Norwegian localities *[Picea* **abies**]. 123485
Influence of plant spacing on filling up planting and on the quality of Norway spruce and Scots pine *[Picea* **excelsa,** Pinus sylvestris]. 119622
Ultrastructural modifications of plastids in leaflets of Laris decidua and *PIcea* **excelsa** during sprouting of buds. 120461
Evaluation of some diagnostic methods which may be used for determination of injuries on Norway spruce *[Picea* **excelsa**] by fumes [Air pollution from industrial exhaust smoke]. 123017
Thriving of species and forms of the **genus** *Picea* A. Dietr. (Spruce) in the Tharandt Forest Botanical Garden. 120300
Notes on the ecology of three Ligneous species on the southern edge of the Ungava bay, New Quebec: Betula glandulosa, Larix laricina, *Picea* **mariana.** 120332
Picea **omorika** var. Pendula near Ljubljana. 119596
Investigations on the selection forest with trees of varied age of Belluno [Mensuration, **Pinus,** *Picea].* 119426
Yield from the first thinning [**Pinus,** *Picea].* 119444
Growth differences in a spruce *[Picea]* **plantation** with chemical and mechanical weed control (preliminary report). 123102
Studies on processing spruce *[Picea]* **pulpwood** lengths. 119661
Four-step grafting for frustrated blue-spruce *[Picea* **pungens**] admirers. 122340
Suitability of multiple regression analysis for elucidating multicollinear ecological relations as demonstrated by natural spruce *[Picea]* **regeneration.** 120402
The influence of tracheid length and density in sitka spruce *[Picea* **sitchensis**]. 119501
The sitka spruce *[Picea* **sitchensis**] as a tree for hill planting and general afforestation. 3. (With plate.). 119586
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce *[Picea* **sitchensis,** poles]: synthesis and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717
Sheep grazing in a young Sitka spruce *[Picea* **sitchensis**] plantation. 122024
Environmental demands, morphological variation and eco-geographical strain formation of **spruce** *[Picea].* 119590
Studies on upper timberline: morphology and anatomy of Norway **spruce** *(Picea* **abies**) and stone pine (Pinus cembra) needles from various habitat conditions. 120443
The effect of cone crops on growth in Norway **spruce** *(Picea* **abies** (L.) Karst.). 121794
Photosynthesis in Sitka **spruce** *(Picea* sitchensis (Bong.) Carr.). VII. Measurements of stomatal conductance and 14cO2 [carbon dioxide isotope] uptake in a forest canopy. 121818
The relationship between soil aeration, stability and growth of Sitka **spruce** *(Picea* sitchensis (Bong.) Carr.) on upland peaty gleys. 121820
The geotropic curvature in roots of Norway **spruce** *(Picea* **abies**) containing anthocyanins. 121825
Investigations on the accuracy of increment measurements of young spruce *[Picea]* **stands.** 119552
Photosynthetic electron transport in plants of Sitka spruce *[Picea* **stitchensis**] subjected to differing light environments during growth. 121824

PICHIA

Pichia **scutulata** [yeasts], a new species from tree exudates. 120079
Sporulation in *Pichia* **spartinae** [Fungi]. 120526
On the effect of glucono-delta-lactone on the **yeast** *Pichia* polymorpha. 120913

PICKLING

Improvement of *pickling* **cucumber** with the determinate (de) gene [Dwarf]. 120690

PICTUS

Shock avoidance learning in intact and headless preparations of grasshopper **Poecilocerus** *pictus.* 123869
Spermatocyte chromosome aberrations induced by antibiotics in grasshoppers **[Poecilocerus** *pictus.* 2. Mitomycin-C. 124157

PIED

Relation between adaptive response to high and low temperature and the hair coat structure [in **Black** *Pied* cattle]. 117725
Influence of gestation and puerperium on the blood proteinogram of Dutch **Black** *Pied* cattle. 117905
Origin and characteristic of bulls originators of new stud lines from the Estonian **Black** *Pied* breed. 118402

Influence of slaughtering weight on carcass characteristics of F1 crossbred young bulls obtained by Friesian and Brown Alpine dams sired by **Red** *Pied,* Piemontese, Romagnola, Chianina and Marchigiana bulls. 118397

PIEDMONT

Remarks on medicinal melliferous plants grown in *Piedmont* for **liquor.** 122514
Allelopathy in the first stages of secondary succession on the *piedmont* of **New** Jersey [Ambrosia artemisiifolia, Raphanus raphanistrum, Aster pilosus]. 120309
Importance and problems of *Piedmont* **strawberry** culture in the national surroundings. 122307

PIERIDAE

Fugitive color in the males of **certain** *Pieridae.* 124318
Nathalis **iole** *(Pieridae)* in the southeastern United States and the Bahamas. 124321
Development of Ascia [Pieris] monuste monuste (Linnaeus, 1764) (Lepidoptera, *Pieridae)* in the **laboratory** [Vegetables, pests]. 124141

PIERIS

Morphological and histochemical data on the imaginal Malpighian tubules of *Pieris* **brassicae** (L.) (Lepidoptera). 123812
Phospholipase activity in gut juice of lepidopterous larvae *[Pieris* **brassicae,** Spodoptera exigu-ens, Trichoplusia ni]. 123985
Diapause of *Pieris* **brassicae:** Role of the cephalic photoreceptors, study of the cerebral carotenoids. 124042
Preferential pollination of yellow-flowered morphs of Raphanus raphanistrum by *Pieris* and **Eristalis** spp. 121297
Effect of composted hardwood bark and peat container media on growth of selected ericaceous plants *[Pieris* **japonica,** Rhododendron]. 122220
Development of Ascia *[Pieris]* **monuste** monuste (Linnaeus, 1764) (Lepidoptera, Pieridae) in the laboratory [Vegetables, pests]. 124141

PIGEONPEAS

Effect of infection by arhar mosaic virus on the Hill reaction and primary productivity of *pigeonpea* **(arhar)** leaves. 122840
A new virus disease of arhar (Cajanus cajan (L.) **Millsp.** *[Pigeonpeas].* 122831

PIGEONS

Histochemical studies on *pigeon* **definitive** feathers during post-hatching, induced and regenerative modes of development. IV. Succinate and malate dehydrogenases. 117874
The *pigeon*—**friend** of man in war and peace. 117491
Effect of acute temperature stress on the plasma catecholamine, corticosterone and metabolite **levels** in the *pigeon.* 117638
Pigeon **pea:** Cajanus cajan (Leguminosae-Papilionatae). 121954
Concentration of *pigeon* **pox** virus in different tissues and fluids of chick embryos. 118749

PIGMENTS

Synthesis of the pulvinic **acid** *pigments* of lichen and fungi [Gomphidius glutinosus, Lepraria flava]. 121012
Specificities of enzymatic prenylation and chromanation in the biosynthesis of **aspulvinone** *pigments* in Aspergilllus terreus [Fungi]. 121010
Pigments of **Cytinus** hypocistis. I. Isoterchebin, the yellow pigment of Cytinus hypocistis (Rafflesiaceae, parasitic plants). 121228
Pigment **degradation** in discs of the thermophilic Cucumis sativus [cucumber] as affected by light, temperature, sugar application and inhibitors. 121751
Particle-bound phytochrome: **differential** *pigment* release by surfactants, ribonuclease and phospholipase C [Pumpkins]. 121756
Cottonseed colour **fixed** *pigments.* I. Selectivity of hexane isomers. 117153
Pigments of **Gnomonia** erythrostoma. IV. The synthesis of 5,8-dibenzyloxy-3-hydroxy-6-methoxy-1,4-napthoquinone [Fungi]. 121367
Protection of Cucumis **leaf** *pigments* against photo-oxidative degradation during chilling. 117210
Inheritance of clustered spikelets and **ligule** *pigmentation* in rice, Oryza sativa Linn. 120820
Studies on flower color in Chrysanthemum morifolium Ramat. III. Quantitative effect of **major** *pigments* on flower color variation, and measurement of color qualities of petals with a color difference meter. 121731
Studies on nucleic acids in plastids of the *pigment* **mutant** C-2A' of Scenedesmus obliquus [Algae]. 121326
Studies on the **natural** *pigment* of horticultural crops. 3. Some properties of natural yellow color in Curcuma [longa] rhizome and its application. 121724
Interralationsips between pterin and **ommochrome** *pigments* in Drosophila melanogaster. III. Xanthommatin content in wild type, mal, bw, and mal bw double mutant. 123837
Chemistry of the Coccoidea. II. Condensed **polycyclic** *pigments* from two Australian pseudococcids (Hemiptera) [Nipaecoccus aurilanatus, Pseudococcus albizziae]. 123824
Precipitation of protein in the presence of melanoidin *[Pigment* in **soy** sauce]. 117059
Pigmentation **types** in BC1 and S1 from BC1 of Lycopersicon esaculentum Mill. [Tomatoes] X Lycopersicon chilense Dun. 120646
Content of *pigments* in the **winter** soft wheat hybrids of the first generation. 120824
Pigments of Cytinus hypocistis. I. Isoterchebin, the **yellow** *pigment* of Cytinus hypocistis (Rafflesiaceae, parasitic plants). 121228

PIGS

Determination of the true digestibility of amino **acids** in *pigs.* 117982
On the typing and occurrence of **adenoviruses** in *pigs.* 118992
Prospects and problems of pregnancy and fertility diagnosis in the *pig* by **aid** of progesterone determination. 118236
Prophylaxis of **ascaridiasis** of *piglets.* 119031
Injection of iron dextran in addition to iron glutamate for **baby** *pigs* suffering from iron deficiency. 119270
Effect of immediate preslaughter stress on certain meat quality characteristics of **bacon** *pigs.* 116934
Feeding experiments with **bacon** *pigs.* 6. Correlations between certain carcass characters. 116938
Feeding experiments with **bacon** *pigs.* 4. Carcass composition. 116939
Feeding experiments with **bacon** *pigs.* 5. Growth rate and feed conversion efficiency. 118010
Feeding experiments with **bacon** *pigs.* 1. Practical aspects. 118011
Feeding experiments with **bacon** *pigs.* 2. Data register and computer analysis of data. 118012
Feeding experiments with **bacon** *pigs.* 3. Some statistical analyses. 118013
The mineral content of *pig* and **bovine** muscle. 117000
Results and experience obtained from veterinary services on a state unit for *pig* **breeding** and fattening after the VIIIth Socialist Unity Party Congress. 118518
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of *pig* **bristles** as influenced by pregnancy and lactation. 117574
Diagnosis of edema disease **(colienterotoxemia)** of *piglets.* 119205
Reovirus and **colitis** in *piglets.* 118953
Evaluation of performance at slaughter of twenty combinations of three-breed **crosses** of *pigs.* 116935
Histopathologic and cytological investigations, in *guinea-pigs* on **cutaneous** allergy. 119189
Defending *pig* profits. 115530
Studies on the amino acid absorption and the secretion of endogenic amino acids into the gastrointestinal tract of *pigs* **[Diets].** 118000
Therapy and prophylaxis of edema **disease** of *piglets.* 119034
Acute postvaccinal **disturbances** in *piglets.* 118866
Some hemato-chemical constnats of *pigs* of **diverse** weight and age. 117629
An improved system for **driving** *pigs* for slaughter to the restrainer. 117426
The digestibility and the digestible energy content of various fats for **fattening** *pigs.* 118155
Preliminary data of the mathematical-statistical evaluation of results of *pig* **fattening** capacity tests. 118260
Studies on the digesta distribution in the GIT [gastrointestinal tract] of *pigs* **fed** high-test molasses or maize. 1. Stomach phase. 117641
Performance of mycocardial and blood seral changes in *pigs* **fed** diets containing high or low erucic acid rapeseed oils. 118034
Performance of *pigs* **fed** different levels of Saccharomyces yeast [Saccharomyces cerevisiae] substituting fish meal in molasses diets. 118046
Growth and carcass measurements of *pigs* **fed** common or high lysine maize grown on the same farm. 118130
Influence of a colicinogenic strain, given perorally, on the occurence of various plasmids of Escherichia coli in *piglets* **fed** by flavomycin. 118678
Vitamin content of mixed **feed** for *piglets.* 117380
Feeding *pigs* from your own resources [Costs]. 115532
Part slat feeding **floor**—200 *pigs.* 124628
Inoculation experiments with Bordetella bronchiseptica strains in SPF [specific pathogen **free**] *pigs.* 118861
Food intake, dietary supplements and survival time of scorbutic **guinea** *pigs.* 116496
Cellulolytic activity in cecum content of mice, rats, Syrian hamsters, **guinea** *pigs* and rabbits. 117959
Reproductive performance and fertility testing in Strain 13 and Hartley **guinea** *pigs.* 118367
Isolation of a purified skin test antigen from Blastomyces dermatitidis yeast-phase cell wall [**Guinea** *pigs].* 118762
Intracisternal virus-like particles in two **guinea** *pig* mammary adenocarcinomas. 118817
Foot-and-mouth disease in Ethiopia: serological and immunological study of FMDV type A [virus, **guinea** *pigs].* 118900
On some properties of the cytophil antibodies against the O-antigen of Salmonella abortusovis [**Guinea** *pigs].* 118989
Further observations relating to Trixacarus (Caviacoptes) caviae Fain, Hovell and Hyatt, 1972 in **guinea** *pigs* (Acarina: Sarcoptidae). 123592
Influence of substrates and coenzymes on the role of manganous ion in reactions catalyzed by *pig* **heart** triphosphopyridine nucleotide-dependent isocitrate dehydrogenase. 117589
Proteolytic enzyme, bound to aspartate transaminase from *pig* **heart** cytosol. 117609
Involvement of veterinary medicine in organizing an **industrialized** *pig* farm. 118507
Giant cell pneumonia associated with lungworm [Metastrongylus apri, Metastrongylus saline] **infection** in *pigs.* 118731
Cycles of boar infertility and pathology of the *piglet* in **intensive** swine rearing. 118247
Chemical investigations on *pig* **kidney** aminoacylase. 117592
Pigs' **kidneys** and the problems they create when applying the biological inhibitor test. Suggested alternatives to the official method. 117688
Protein utilization of mixed feed rations by **lactating** *pigs,* with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein utilization of mixed feed rations by **lactating** *pigs,* with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein utilization of mixed feed rations by **lactating** *pigs,* with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Sensitivity of various laboratory and farm animals to Clostridium perfringens intoxication (mouse, guinea-pig, rabbit, chicken, *piglet,* **lamb).** 118842
Study of the growth of *pigs* for their selection in **large** piggeries. 117504
Cellular patterns of postmortem glycogenolysis in longissimus dorsi muscles of *pigs* at different **live** weights. 117006
Mechanism of 2-naphthylamine oxidation catalysed by *pig* **liver** microsomes. 117955
Plasma-membrane components can be removed from isolated *[pig]* **lymphocytes** by the bile salts glycocholate and taurocholate without cell lysis. 117583
House fly [Musca domestica] larvae as protein source [for feed] from *pig* **manure.** 124150
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the liver, skeletal muscle, and brain of the *piglet.* A **methodological** and experimental study with special reference to protein synthesis. 117528
Morphological and antigenic relationships between viruses (rotaviruses) from acute gastroenteritis of children, calves, *piglets,* **mice,** and foals. 118763
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and manganese in the bristles of *pigs.* 5. **Mineral** composition of pig bristles as influenced by pregnancy and lactation. 117574
Sperm-egg interactions in the *pig:* **monospermy,** extensive polyspermy, and the formation of chromatin aggregates. 118334
Plasma and adrenal cortisol concentrations in foetal, newborn and **mother** *guinea-pigs* during the perinatal period. 117809
Actin [purified from *pig* **muscle**] associated with purified lymphocyte plasma membrane. 117677
Breakdown of diphosphate and tripolyphosphate in the m. Longissimus dorsi **muscle** of the *pig.* 117686
In vitro trypsin digestion of bovine and *pig* **muscles** both raw and cooked: peptides fractionations by molecular exclusion chromatography [Pork and beef]. 116937
Investigations into SH [sulhydryl] groups and lactic acid in the PSE [pale, soft, exudative] **musculature** of *pigs.* 117687
Reovirus-like agent associated with fatal diarrhea in **neonatal** *pigs.* 118764
Controlling factors in the development of ceruloplasmin in *pigs* during the **neontral** growth period. 117818
Cortisol concentration in the blood **plasma** of **newborn** *piglets* and after adrenocorticotropic hormone loading. 117656
Light and electron microscopy for studies on pathogenesis of straddle in **newborn** *piglets.* 119165
Underweight of **nursed** *piglets,* causes and importance. 119182
Effect of microbial metabolites on the processes of metabolism in the **organism** of *pigs.* 117713
The influence of Ascaris suum infection upon growth rates in *pigs* **[Parasitic** worms]. 118864
Investigations on a metabolite from Lactobacillus bulgaricus which neutralizes the effect of enterotoxin from Escherichia coli **pathogenic** for *pigs.* 118784
[Pig] **platelet** tubulin and [bovine] brain tubulin antibodies: immunofluorescence of cell microtubules. 117644
Pigs for **Poland.** 117485
Nutritional evaluation of wheat. 5. Disappearance of components in digesta of *pigs* **prepared** with two re-entrant cannulae. 117974
Drought may help *pig* **producers** [Income]. 115531
Pig **prothrombin:** purification and properties. 117601
Sensitivity of various laboratory and farm animals to Clostridium perfringens intoxication (mouse, *guinea-pig,* **rabbit,** chicken, piglet, lamb). 118842
Changes in the activity of transaminases and alkaline phosphatases from blood serum as related to the age, sex and growth **rate** of *pigs.* 117922
Increases in the thickness of subcutaneous fat in *pigs* [in **relation** to feeding and keeping conditions]. 117503
Effect of Swedish boars of the Yorkshire breed on the meat productivity of *pigs* from the **Russian** Large White breed. 118401

The radiosensitivities of lymphocytes from *pig*, **sheep**, goat and cow. 117864
Effect of administration of progesterone and oestrogen on litter **size** in *pigs*. 118349
Pig **slaughtering** hygiene. IV. Bacteriological status of carcasses in various sections of the killing line. 116128
Pig **slaughtering** hygiene. III. The effects of a number of factors on dehairing. 116991
In vitro studies of mitochondrial and sarcoplasmic reticulum function in muscle of stress **susceptible** *pigs*. 117770
Comparative investigations on thyroglobulin biosynthesis in rabbit and *guinea-pig* **thyroid** in vitro. 117655
Variability of heat **tolerance** in *pigs*. 117737
Mineral contents of the blood and chemical composition of the muscles of **Trichinella-infected** *piglets*. 118970
Medication of *piglets* **via** feeding tube. 118510
Uridine diphosphoglucose dehydrogenase in the intervertebral disc [of an old sheep and a **young** *pig*]. 117705
Studies on skim milk replacements in the feeding of **young** *pigs* whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on skim milk replacements in the feeding of **young** *pigs* whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Nutritive value of broken rice and ground flint corn for **young** *pigs* and rats. 118033

PIGSTY

Study of the growth of pigs for their selection in **large** *piggeries*. 117504
Heat and moisture in *piggeries* [**Ventilation** systems]. 124638

PILEA

A new disease of *Pilea* [**imperialis**] caused by Phytophthora parasitica [Leaf, bud and stem blight]. 122742

PILEUS

On the components of *pileus* and **stipe** of dried shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and hot water soluble polysaccharides. 117297

PILOT

Wires: **agricultural** *pilot's* number one nemesis [Safety]. 124747
Quality control assessments of male sterility during the 1972 and 1973 *pilot* **boll** weevil [Anthonomus grandis] eradication experiment [Cotton]. 123355
Modoc budworm [Choristoneura viridis] *pilot* **control** project in California, 1974 [Pest of Abies concolor]. 123490
Pilot **control** projects of chemical and microbial insecticides against Douglas fir tussock moth [Orgyia pseudotsugata]-1974. 123491
McDowell county 15 years later [**First** *pilot* food stamp project, West Virginia]. 116334
Pilot **study** concentrates on soil "potentials" [Soil surveys, Florida]. 124910

PIMA

Response of *Pima* and **Acala** cottons to planting over a 3-month period at Pecos [Yields]. 122085
Response of **American** *Pima* cotton varieties to skip-row planting in the El Paso Valley [Yields]. 122084
Pima [**cotton**] seed-conditioning test. 117176
Effect of sodium upon yields and fruiting characteristics of Acala and *Pima* **cotton** [Toxicity]. 123026
Pima **regional** cotton variety testing in Texas and New Mexico, 1970-72 [Fiber properties]. 117175

PIMPLA

Physiological host specificity of the polyphagous pupal parasites of *Pimpla* **turionellae** L. (Hymenoptera, Icneumonidae) and its ecological significance. 123456

PINACEAE

Change of morphological characters of the parenchyma of secondary wood in the pine **family** *(Pinaceae)* in relation to age. 120471
Evolution of wood **structure** in *Pinaceae*. 120476

PINEAL

Differential localization of antigonadotropic and vasotocic activities in bovine and **rat** *pineal*. 117847

PINEAPPLES

Pineapple: **Ananas** comosus (Bromeliaceae). 122374
Effect of the nematode Pratylenchus brachyurus on the growth, nutrition and yields of "Smooth **Cayenne**" *pineapple*. Influence of fertilizer placement. 122928
The *pineapple*—**a fascinating** plant: the structure and physiology of Ananas comosus. 121644
Use of plant growth regulators in **Hawaii** on *pineapple*. 121735
A sclerotial wilt of *pineapple* from **India** [Sclerotium rolfsii]. 122786
Mwinilunga *pineapples* [Cultivation]. 122293

PINK

Dominant lethal mutations in insects with holokinetic chromosomes: irradiation of *pink* **bollworm** sperm [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279

PINUS

Structures and comparative growth of some populations of **Aleppo** *pine* [Pinus halepensis] on Port-Cros island (national park). 121795
The pine, a versatile standard timber. 3. Central **American** *pines* [Pinus, lumber industry]. 120036
Overwintering of introduced species of *pines* in the **Apsheron** Peninsula (1971/72). 121797
Common factors in exine deposition *[Pinus* **banksiana,** Cosmos bipinnatus, Lilium longiflorum]. 120505
Populational-ecologic aspects of teratology of woody plants [Witches broom, **Betula,** *Pinus]*. 120455
Susceptibility of some conifer species *[Pinus,* **Cedrus,** Cupressus] to damping off [a fungal disease caused by Fusarium species]. 122592
Predation of *pine* **cinaran** aphids by spiders [Biological control]. 123478
Influence of substrate moisture level on the germination of sweetgum and sand pine seed [Liquidambar styraciflua, *Pinus* **clausa**]. 121830
Olfactory behavior of Ips pini (Say) (Coleoptera: Scolytidae) during host invasions and colonization of lodgepole pine *[Pinus* **conterta** latifolia]. 123450
Growth rate of **Corsican** *pine* [Pinus nigra poiretiana] after grading of 1 + 1 planting stock. 119557
Epidemic characteristics of the blister rust of *pine,* **Cronartium** flaccidum (Alb. and Schw.) Wint., in Italy. 122558
Site index tables for shortleaf pine *[Pinus* **echinata]** in the Ozark Highlands of northern Arkansas and southern Missouri. 119549
Plant association and costs of cultivation of pine *[Pinus].* **Economic** considerations on reafforestation of storm-damaged areas in Lower Saxony. I. 119591
Black stain root disease [Verticicladiella wagenerii] of pinyon pine *[Pinus* **edulis**] in Colorado. 122747
Seasonal growth of pine, *Pinus* **eldarica,** in Turkmenia. 121799
Limiting factors [soil and climate] for *Pinus* **elliotti** var. elliottii [Growth]. 121802
Distribution of fusiform rust [Cronartium fusiforme] on slash and loblolly pines *[Pinus* **elliottii** elliottii, Pinus taeda] in Texas. 122748
Change of morphological characters of the parenchyma of secondary wood in the *pine* **family** (Pinaceae) in relation to age. 120471
The role of moss cover in some types of *pine* **forests** in the part of Ukrainian Poles'ye located to the east from Dnieper River [Effect of secretions on the growth of forest plants. 121814
Structures and comparative growth of some populations of Aleppo pine *[Pinus* **halepensis**] on Port-Cros island (national park). 121795
Harvesting a hobby [Timber stand **improvement,** *Pinus].* 119637
A study of **loblloly** *pine* [Pinus taeda] growth increments. III. Refining characteristics of tracheids from kraft pulps. 119840
Influence of spacing on growth of **loblolly** *pines* [Pinus taeda] planted on eroded sites [Mensuration]. 119548
Growth following initial thinning of **loblolly** *pine* [Pinus taeda] planted on a cutover site at five spacings. 119639
Bark thickness of 17-year-old **loblolly** *pine* [Pinus taeda] planted at different spacings. 119640
Changes in **loblolly** *pine* [Pinus taeda] seedling dry weight and top to root ration between October and March. 121821
Distribution of fusiform rust [Cronartium fusiforme] on slash and **loblolly** *pines* [Pinus elliottii elliottii, Pinus taeda] in Texas. 122748
Black turpentine beetle [Dendroctonus frontalis] infestations after thinning in a **loblolly** *pine* [Pinus taeda] plantation. 123500
Olfactory behavior of Ips pini (Say) (Coleoptera: Scolytidae) during host invasions and colonization of **lodgepole** *pine* [Pinus conterta latifolia]. 123450
Ovalness of *pine* **logs** in northern Finland. 119811
Preliminary studies with Pisolithus tinctorius as a mycorrhizal fungus of pines *[Pinus* **longifolio**] in Nigeria. 121832
A new day for **longleaf** *[Pinus].* 119421
Optimum tetrazolium staining of **longleaf** *pine* [Pinus palustris] seed [to estimate viability]. 121831
The pine, a versatile standard timber. 3. Central American pines *[Pinus,* **lumber** industry]. 120036
The pine, a versatile standard timber. 4. The pines of southeastern Asia *[Pinus,* **lumber** industry]. 120037
A preliminary study of the economics of fertilisation of mature **maritime** *pine* [Pinus pinaster] in the Landes de Gascogne. 125045
Effects of fertilizing **moribund** *pines* on a granitic soil in Northern Ireland. 125014
Scirrhia pini Funk et Park., pathogen of a **new** *pine* disease in Slovenia [Pinus nigra]. 122615
Growth rate of Corsican pine *[Pinus* **nigra** poiretiana] after grading of 1 + 1 planting stock. 119557
Scirrhia pini Funk et Park., pathogen of a new pine disease in Slovenia *[Pinus* **nigra].** 122615
Immunoelectrophoretic study of some **nut-bearing** *pines*. 121796
Optimum tetrazolium staining of longleaf pine *[Pinus* **palustris]** seed [to estimate viability]. 121831
Investigations on the selection forest with trees of varied age of Belluno [Mensuration, *Pinus,* **Picea].** 119426
Yield from the first thinning *[Pinus,* **Picea].** 119444
Temperature, rainfall and humidity at different exposures of the "Monte Pisano" for two years period [Effects of climate on *Pinus* **pinaster].** 119293
A preliminary study of the economics of fertilisation of mature maritime pine *[Pinus* **pinaster**] in the Landes de Gascogne. 125045
Studies on upper timberline: morphology and anatomy of Norway spruce (Picea abies) and stone **pine** *(Pinus* cembra) needles from various habitat conditions. 120443
Anomaly of female cones in Siberian stone **pine** *(Pinus* siberica du Tour) as a possible form of apomixis. 121808
Investigations on the ductility of phloem tissues of **pines** *(Pinus* sylvestris) in relation to resin gall formation. 121837
Pine [**Pinus**] stands respond favorably to management. 119424
Plant association and costs of cultivation of *pine* [**Pinus**]. Economic considerations on reafforestation of storm-damaged areas in Lower Saxony. I. 119591
Seasonal growth of *pine,* **Pinus** eldarica, in Turkmenia. 121799
Preliminary studies with Pisolithus tinctorius as a mycorrhizal fungus of *pines* [**Pinus** longifolio] in Nigeria. 121832
Investigations on the ductility of phloem tissues of *pines* (**Pinus** sylvestris) in relation to resin gall formation. 121837
Black stain root disease [Verticicladiella wagenerii] of **pinyon** *pine* [Pinus edulis] in Colorado. 122747
Improving **ponderosa** *pine* [Pinus ponderosa]. 119608
Preliminary belt life data for abrasive planing of **ponderosa** *pine*. 119832
Logging to save **ponderosa** *pine* regeneration: a case study. 119833
Relationship of shoot-root ratio to survival and growth of outplanted Douglas-fir [Pseudotsuga menziesii] and **ponderosa** *pine* seedlings. 121836
Effects of cattle grazing methods on **ponderosa** *pine-bunchgrass* **range** in the Pacific Northwest. 122163
A cone weevil, Conotrachelus neomexicanus, on **ponderosa** *pine* [Pinus ponderosa] in Colorado: life history, habits, and ecological relationships (Coleoptera: Curculionidae). 123451
Southern *[Pinus]* **pulpwood** stumpage prices analyzed, price zones identified. 119805
Microclimates in a forest farm plantation *[Pinus* **radiata].** 119375
Raising **radiata** *pine* [Pinus radiata] and eucalyptus [Eucalyptus regnans] seedlings by an industrial forestry company in Gippsland, Victoria. 119566
Microbial degradation of condensed tannins [from *Pinus* **radiata** bark]. 119809
Water potential and leaf elongation in **radiata** *pine* [Pinus radiata] and wheat. 121826
Stock and pasture management for establishment of **radiata** *pine* in farmland. 122064
Influence of substrate moisture level on the germination of sweetgum and **sand** *pine* seed [Liquidambar styraciflua, Pinus clausa]. 121830
Results of the evaluation of a single tree fertilizer experiment on the **Scotch** *pine* [Pinus sylvestris]. 124967
Influence of plant spacing on filling up planting and on the quality of Norway spruce and **Scots** *pine* [Picea excelsa, Pinus sylvestris]. 119622
The canopy of a **Scots** *pine* [Pinus sylvestris] forest: description of a surface of complex roughness. 121786
Effect of fertilizers on the growth of *pine* **seedlings** in relation to agrochemical properties of the soil. 121787
Yield of old field **shortleaf** *pine* plantations in Virginia. 118870
Site index tables for **shortleaf** *pine* [Pinus echinata] in the Ozark Highlands of northern Arkansas and southern Missouri. 119549
The pine, a versatile standard timber. 4. The *pines* of **southeastern** Asia [Pinus, lumber industry]. 120037
The genetics and breeding of **southern** *pines*. 119553
Southern *pine* beetle [Dendroctonus frontalis]—a formidable foe. 123442
The wood basic density variation of *pine* and **spruce** [Pinus sylvestris, Picea abies] provenances. 119584
Pine *[Pinus]* **stands** respond favorably to management. 119424
Studies on upper timberline: morphology and anatomy of Norway spruce (Picea abies) and **stone** *pine* (Pinus cembra) needles from various habitat conditions. 120443
Anomaly of female cones in Siberian **stone** *pine* (Pinus siberica du Tour) as a possible form of apomixis. 121808
Growth of white pine *[Pinus* **strobus**] in New Hampshire. 119503
Vegetative propagation of *Pinus* **strobus** by needle fascicles. 119568
White pine *[Pinus* **strobus**] in central New England, its past—its potential. 119585
The wood basic density variation of pine and spruce *[Pinus* **sylvestris,** Picea abies] provenances. 119584

Influence of plant spacing on filling up planting and on the quality of Norway spruce and Scots pine [Picea excelsa, *Pinus* **sylvestris**]. 119622
The canopy of a Scots pine *[Pinus* **sylvestris**] forest: description of a surface of complex roughness. 121786
Seasonal development and control of Lophodermium pinastri in Pennsylvania *[Pinus* **sylvestris,** needlecast]. 122761
The natural resistance of some indigenous woods against Reticulitermes lucifugus *[Pinus* **sylvestris,** Abies alba, Picea abies, Fagus silvatica, Quercus robur]. 123462
Results of the evaluation of a single tree fertilizer experiment on the Scotch pine *[Pinus* **sylvestris**]. 124967
Influence of spacing on growth of loblolly pines *[Pinus* **taeda**] planted on eroded sites [Mensuration]. 119548
Growth following initial thinning of loblolly pine *[Pinus* **taeda**] planted on a cutover site at five spacings. 119639
Bark thickness of 17-year-old loblolly pine *[Pinus* **taeda**] planted at different spacings. 119640
A study of loblloly pine *[Pinus* **taeda**] growth increments. III. Refining characteristics of tracheids from kraft pulps. 119840
Differential staining of tannin in sections of epoxy-embedded plant cells [Pseudotsuga menziesii, *Pinus* **taeda**]. 120569
Changes in loblolly pine *[Pinus* **taeda**] seedling dry weight and top to root ration between October and March. 121821
Distribution of fusiform rust [Cronartium fusiforme] on slash and loblolly pines [Pinus elliottii elliottii, *Pinus* **taeda**] in Texas. 122748
Black turpentine beetle [Dendroctonus frontalis] infestations after thinning in a loblolly pine *[Pinus* **taeda**] plantation. 123500
Effects of propagation container size on development of high quality seedlings *[Pinus* **thunbergiana,** Sapindus drummondii, Pistacia chinensis]. 122221
Pine **tip** moth and pine webworm [Rhyacionia, Tetralopha robustella] control with carbofuran in north Florida. 123501
The *pine,* a **versatile** standard timber. 3. Central American pines [Pinus, lumber industry]. 120036
The *pine,* a **versatile** standard timber. 4. The pines of southeastern Asia [Pinus, lumber industry]. 120037
Pine tip moth and *pine* **webworm** [Rhyacionia, Tetralopha robustella] control with carbofuran in north Florida. 123501
Growth of **white** *pine* [Pinus strobus] in New Hampshire. 119503
White *pine* [Pinus strobus] in central New England, its past—its potential. 119585
Behavior and generation dynamics of the **white** *pine* cone beetle Conophthorus coniperda (Schwarz) in central Wisconsin. 123443
Formation of carboxylic acids by degradation of carbohydrates during kraft cooking of *pine* [**Wood** pulping]. 119816

PIPE

Marine organisms around **outfall** *pipes* in Santa Monica Bay [Wastewater discharge, includes algae]. 125510

PIPELINES

'One-shot' cleaning of *pipeline* **installtions** [Dairy equipment, farm costs]. 124698
Hydromechanical transport of liquid manure in **pressurized** *pipelines.* 124614
Piping of **virgin** queens of the honeybee (Apis mellifera L.). 124552

PIPER

Organic amendments and control of foot rot of *Piper* **betle** caused by Phytophthora parasitica var. piperina. 122570
Assessment of losses by Rhizoctonia bataticola (Taub. Butler, causing foot rot of *Piper* **betle** L. 122779
Wisanine, a novel alkaloid from the roots of *Piper* **guineense.** 121377
Black pepper: *Piper* **nigrum** (Piperaceae). 122525
A 5-acetoxy-6-methoxykawain from *Piper* **sanctum** and synthesis of both diastereoisomers. 121000

PIPERACEAE

Black pepper: Piper **nigrum** *(Piperaceae).* 122525

PIPPIN

Heat therapy: method and application to control plant viruses [of *pippin* and **stone** fruit trees]. 122829

PIPTOCEPHALIS

Ultrastructure of infection of Cokeromyces recurvatus by *Piptocephalis* **unispora** (Mucorales) [Fungi]. 120415

PIRICULARIA

Research on the taxonomy, bioecology, damage of the rice blast **fungus** *(Piricularia* oryzae Bri. et Cav.) and the resistance of several rice varieties [in southeast Anatolia). 122583
Studies on the action of the dichlorocyclopropanes on the host-parasite relationship in the rice blast disease *[Piricularia* **oryzae**]. 122719
Tricyclazole: a new systemic fungicide for control of *Piricularia* **oryzae** [blast disease] on rice. 122739

PISA

Orientations on the culture of the industrial plum in the **province** of *Pisa.* 122172

PISAURIDAE

Note on Euprosthenops ellioti (Pickard-Cambridge O. 1877) (Araneae, *Pisauridae,* **Pisaurinae**) [New taxa]. 124271

PISAURINAE

Note on Euprosthenops ellioti (Pickard-Cambridge O. 1877) (Araneae, Pisauridae, *Pisaurinae)* [**New** taxa]. 124271

PISOLITHUS

Distribution, plant associates and variation in basidiocarps of *Pisolithus* **tinctorius** in the United States [Fungi]. 120204
Preliminary studies with *Pisolithus* **tinctorius** as a mycorrhizal fungus of pines [Pinus longifolio] in Nigeria. 121832

PISTACHIO

Effects of four rootstocks on yield and quality of *pistachio* [**Pistacia**] nuts. 121703

PISTACIA *see* ANACARDIACEAE

PISTIA

Neohydronomus pulchelus, a weevil **attacking** *Pistia* stratiotes in South America: biology and host specificity. 123222

PISTIL

Differentiation of self-fertility and self-sterility in Prunus by **stamen** *number/pistil* length ratio. 121664

PISUM

A new form of pea obtained from interspecific hybridization [of Pisum sativum ssp. transcaucasicum X *Pisum* **abyssinicum**]. 120637
Fishing for aphids [**Acyrthosiphon** *pisum* infesting alfalfa]: the exploitation of a natural population. 123315
Histological examinations of parasitized, Entomophthora-infected pea aphids, **Acyrthosiphon** *pisum* [Natural control]. 123420
Population dynamics of the pea aphid [**Acyrthosiphon** *pisum]* and its entomophages in relation to farming practices. 123439
Flavonoid complex of green and etiolated **peas** *(Pisum* sativum L.). 121637
A new form of pea obtained from interspecific hybridization [of *Pisum* **sativum** ssp. transcaucasicum X Pisum abyssinicum]. 120637
Investigation of a non-nodulating cultivar of *Pisum* **sativum** [Peas]. 121624
Peas: *Pisum* **sativum** (Leguminosae-Papilionatae). 122372

PITHOMYCES

A comparison of the control of *Pithomyces* **chartarum** with three fungicides applied at both the pre- and postdanger levels of spores in pasture [for the control of facial eczema]. 118848

PITS

Study concerning disinfection and hygienic treatment of urban wastes by *pit* **composing** as well as conclusions about the standardization of control methods. 125086
Wax secretion in the infrared **sensory** *pit* of Melanophila acuminata (Coleoptera: Buprestidae). 124136
Storage of maize in an **underground** *pit* lined with polyethylene. 117075

PITTOSPORACEAE

Notes on *Pittosporaceae* and **Myrsinaceae** of the Mascarenes [Pittosporum senacia, Badula]. 120165

PITTOSPORUM

Notes on Pittosporaceae and Myrsinaceae of the Mascarenes *[Pittosporum* **senacia,** Badula]. 120165

PITUITARY

Effect of starvation on *pituitary* **growth** hormone cells and blood growth hormone and prolactin levels in the rat. 116495
Changes in the secretion of ovarian steroids and *pituitary* **luteinizing** hormone in the periovulatory period in the ewe: the effect of progesterone. 118341
Pituitary-testicular **responses** in rams to prolonged infusions of luteinizing hormone-releasing hormone (LHRH). 118226
Effect of ascorbic acid on the *pituitary-thyroid* **system** in the rat. 116413

PIVOT

Compatibility of windbreaks and *pivot* **sprinklers.** 119378

PLACENTA

Effect of some phenolic compounds of the oil poppy [Papaver] *placenta* on the **embryogeny** of isolated ovules. 121028
Placental **fine** structure after experimental embryonic death in cows. 117835
Effect of prostaglandin E2 on ovine **maternal** *placental* blood flow [Sheep]. 118198
Treatment for *placenta* **retention** and endometritis in cows. 119035

PLAGIOCHILA

Plagiochila atlantica F. Rose, sp. Nov. *Plagiochila* **ambagiosa** auct [New taxa]. 120108
Notes on the Plagiochilaceae [Hepaticae, new taxa]. V. Studies in the **genus** *Plagiochila* (Dum.) Dum. in the Hawaiian Islands. 120124

PLAGUE

Duck *plague* virus replication in Muscovy duck fibroblast cells. 118624

PLAINS

Epizootiology of Dermatophilus [congolensis] infection in cattle in the **Accra** *Plains* of Ghana. 118710
Role of windbreaks in Great *Plains* **agriculture:** current and future. 119391
Soybeans on the river lacustrine soils of the Danube **alluvial** *plain.* 122072
Windbreaks for livestock protection in the **Central** Great *Plains.* 119403
Dinoflagellates: fossil motile-stage tests from the Upper Cretaceous of the northern New Jersey **coastal** *plain.* 120258
Better plants for [soil] **conservation** in the Great *Plains.* 125148
50,000th GPCP [Great *Plains* **Conservation** Program] contract signed in Oklahoma. 125171
Action needed to discourage removal of trees that shelter **cropland** in the Great *Plains.* 119376
Wind patterns and soil **erosion** on the Great *Plains.* 125152
Biogeochemical limitations on western [land] reclamation. The high northern Great *Plains* **example** [Soils]. 125120
Study of **flood** *plains* of Ob' and Irtysh rivers in relation to a planned redistribution of runoff in the middle area (1972-1973) [Soil survey and mapping]. 124810
Effects of windbreaks on the microclimate, energy balance and water use efficiency of crops **growing** on the Great *Plains.* 119381
Grain sorghum hybrid performance in the Northern **High** *Plains,* 1967-1972 [Varieties, yields]. 122080
Performance of experimental soybean breeding lines in the Texas **High** *Plains* [Varieties, yields]. 122083
Soybean variety performance in the northern **High** *Plains* of Texas [Yields]. 122095
Soybean variety **evaluation** in the Texas **High** *Plains* [Yields]. 122096
Effect of row **spacing** on yield and grade distribution of Norgold Russet and other potato varieties grown on the **Texas High** *Plains.* 122419
Field evaluations of processing tomatoes on the Texas **High** *Plains* [Varieties, yields]. 122448
Potato variety and advanced selection evaluations on the Texas **High** *Plains* [Yields]. 122449
Ecological and biogeographical remarks on the entomological fauna of the arid **high** *plains* of Mexico. **Description** of a new Eleodes [alticola] from Popocatepetl (Tenebrionides). 124225
The application of remote sensing technology to the inventory of Playa Lakes in the **High** *Plains* of **Texas.** 125276
Corn yield response to limited irrigations, **High** *Plains* of Texas. 125341
Irrigation timing for grain sorghum based on soil moisture tension, **Texas High** *Plains.* 125342
Great *Plains* **hit** by most extensive wind damage in 20 years [Erosion]. 125162
Agricultural changes in a part of the **imola** *plain* from 1500 up today [Landscape, health]. 115215
A *plain* **man's** guide to energy [Swine, nutrition]. 118132
Rice growing in the **M'Bos** *plain* (west Cameroon): an example of the relations between the physical environment, agricultural experiments and development. 121870
Range research **needs** in the Great *Plains.* 122099
Tree ans shrub species for [soil] conservation use in the **northern** Great *Plains.* 125151
On a syndrome similar to transmissible gastroenteritis in swine farms in the **Padana** *plain* [Virus diseases]. 118680
Plains, **picking,** plans of renovation, cutting, etc. [Grape culture, France]. 122447
Contract foodservice: *plain,* **posh,** and profitable. 116611
Shelterbelts on the Great *Plains,* **proceedings** of the symposium Denver, Colorado April 20-22, 1976. 119394
State forest service **programs** on the Great *Plains.* 119397
Shelterbelt **renovation** in the Great *Plains.* 119393
Soybean performance trials in the **Rolling** *Plains* of Texas [Varieties, yields]. 122090
Populations of bollworms [Helitohis zea] in cotton under different cropping situations in the **Rolling** *Plains.* 123347
State Experiment Station programs [in the Great *Plains,* **shelterbelt** research]. 119396
Current legislation relating to Great *Plains* **shelterbelts.** 119379
Protection of Great *Plains* **shelterbelts** from insects [Trees, control]. 119386
Windbreaks for livestock protection in the **southern** Great *Plains.* 119404
Great *Plains* **windbreak** history: an overview. 119383
Need for a new approach stressed at Great *Plains* **windbreak** symposium [Erosion control]. 125165

PLANE
Preliminary belt life data for **abrasive** *planing* of ponderosa pine. 119832
Effect of different *planes* of **nutrition** on water metabolism in dry Zebu cows. 118077
Sieve cleaning in the *plane* **sorter** [Grain equipment]. 117150
Some pests of *plane* **tree** [Platanus, scorch, Gloeosporium nervisequum, Corythuca ciliata]. 122635

PLANIPENNIA
Hemerobius fenestratus Tjeder, 1932 (Neuroptera, *Planipennia)* **new** to Norway. 124369
Sympherobius pygmaeus (Rambur, 1842) (Neuroptera, *Planipennia)* **new** to Norway. 124381

PLANKTON
Uptake of plutonium and other nuclear wastes by *plankton* [Includes **algae**]. 121270
Studies on **marine** *plankton* diatoms. III. Structure and classification of Gossleriella tropica [Algae]. 120497
Phosphate reduction and response of [phyto] *plankton* **populatons** in Kootenay Lake. 125418

PLANTAGINACEAE
Plantaginaceae. 120238

PLANTAIN
Serious *plantain* and banana pest [Cosmopolites sordidus]. 123437

PLANTATIONS
Disappearance of **cacao** *plantations* in the Itabuna environs; a study of land utilization dynamics. 115214
Shade management in **cardamom** *plantations.* 122207
Growth differences in a spruce [Picea] *plantation* with **chemical** and mechanical weed control (preliminary report). 123102
Trial with insecticides for the control of Eacles imperialis magnifica Walker, 1856 (Lepidoptera, Adelocephalidae), a **coffee** *plantation* pest. 123256
Growing of some clones of black poplar [Populus nigra] in four **comparative** *plantations* in central-southern Italy. 119560
Examination of various Buvinol [herbicide] preparations in raspberry and **currant** *plantations.* 123096
Microclimates in a forest **farm** *plantation* [Pinus radiata]. 119375
Prospects of controlling vegetation in new **forest** *plantations* [Weeds]. 123144
Study and development of [the culture of] poplar in the Est-du-Quebec region. V. Profitability of thirteen management **options** of *plantations.* 119516
Yield of old field shortleaf **pine** *plantations* in Virginia. 118870
Sheep grazing in a young Sitka spruce [Picea **sitchensis**] *plantation.* 122024
Black turpentine beetle [Dendroctonus frontalis] infestations after thinning in a loblolly pine [Pinus **taeda**] *plantation.* 123500
Labor expenditure for lumbering, **timber** *plantations* and forest care in Plenter Forest [Switzerland]. 119508
Multipurpose **tree** *plantations.* 119539
Factory trial of a newly-developed continuous carbonation process for making *plantation* **white** sugar from cane juice. 117186

PLANTING
Study of influence of seed microflora on **barley** *planting* quality in the western zone of the Latvian SSR. 122625
Effect of position, length of cuttings and date of *planting* of **cuttings** on rooting in the red currant variety Heinemanns Rote Spatlese (Preliminary report). 122408
Preliminary investigations into the effect of *planting* **dates** and types of setts on the flowering of white yam (Dioscorea rotundata, Poir) varieties. 122414
Productivity of sugarbeets on irrigated lands as related to the *planting* **density** and interrow width. 121982
Tall morningglory [Ipomoea purpurea] response to *planting* **depth** [Weed control]. 123213
New findings on the *planting* of **forage** legumes. 122159
The sitka spruce [Picea sitchensis] as a tree for **hill** *planting* and general afforestation. 3. (With plate.). 119586
Time of *planting* and **lifting** of elite [seed] potatoes when growing them on a virus-free basis in the Voronezh Region. 122870
An important project of *planting* the **Malay** bushbeech (Gmelina arborea Roxb.) in Liberia. 119602
Response of Pima and Acala cottons to *planting* over a **3-month** period at Pecos [Yields]. 122085
Selected maples for shade and **ornamental** *planting.* 122189
Improvement of the environment in Moscow by means of *planting* **ornamental** plants. 122196
Effects of *planting* **pattern** and sowing method on the seed yield of safflower, oilseed rape, and lupin. 122048
Lighting of leaf canopy and the yielding ability of Zimny Zolotoy Parmen as affected by the *planting* **pattern** and the form of the crown [Apples, varieties]. 122499
Planting of **peach** trees with dense spacing [Varieties]. 122312
A guide to artificial regeneration with particular reference to *line-planting* in **peninsular** Malaysia. 119593
Varieties of black currant for [large] **production** *planting.* 122492
Influence of plant spacing on filling up *planting* and on the **quality** of Norway spruce and Scots pine [Picea excelsa, Pinus sylvestris]. 119622
Response of American Pima cotton varieties to **skip-row** *planting* in the El Paso Valley [Yields]. 122084
Breaking up and preparation of **soils** before *planting.* 125101
Johnsongrass [Sorghum halepense] control with herbicides prior to *planting* **sorghum.** 123179
Soybean *planting* date and seedling rate investigations in the Texas Gulf Coast Prairie. 122092
Growth rate of Corsican pine [Pinus nigra poiretiana] after grading of 1 + 1 *planting* **stock.** 119557
Tissue culture—a future source of *planting* **stock** [for reforestation]. 119618
Effects of *planting* **systems** on yield, bulb quality nitrogen fertilizer utilization of garlic (Allium sativum L.). 122297
Some aspects of the phytoclimate of a vineyard in relation to the way of *planting* [and of **training** the grapevines]. 122500
How to beat the cost of **tree** *planting.* 119554
Evergreen forest North Dakota style **[Tree** *planting* projects]. 119636
Effects of rate of *planting* on **yield** and some yield components of sugarcane. 121891

PLAQUE
Study of ringerpest virus (tissue culture adapted strain) with reference to its infectivity and *plaque* **formation** in different cell system. 118739
Reverse *plaque* formation by hog cholera virus of the GPEstrain inducing heterologous interference. 118765

PLASM
Alien **germ** *plasm* as a source of resistance to disease [Breeding of crop plants]. 120581

PLASMA
Plasma and **adrenal** cortisol concentrations in foetal, newborn and mother guinea-pigs during the perinatal period. 117809
Plasma **alkaline** phosphatase polymorphism and its association with productive traits in Rhode Island Red [pullets]. 118329
Concentrations of fat and *plasma* 5 **alpha-androstenone** and plasma testosterone in boars selected for rate of body weight gain and thickness of back fat during growth, sexual maturation and after mating. 118347
Plasma **amino** acids of infants consuming soybean proteins with and without added methionine. 116436
Plasma **amino** acids in reptiles after feeding protein or amino acids and after injecting amino acids. 116437
Nutritional effects on age at puberty and *plasma* **amino** acid level in Yorkshire gilts and on chemical composition, nucleic acid, fatty acid and hydroxyproline contents of the uterus. 118097
Effects of dietary protein and lysine levels on *plasma* **amino** acids, nitrogen retention and egg production in laying hens. 118103
Cortisol concentration in the **blood** *plasma* of newborn piglets and after adrenocorticotropic hormone loading. 117656
Plasma **carotene** and vitamin A levels in cows, sheep and camels of the Thar desert. 117746
Effect of acute temperature stress on the *plasma* **catecholamine,** corticosterone and metabolite levels in the pigeon. 117638
The half-life of bovine and chicken insulin in **chicken** *plasma.* 117698
Plasma **cholesteol** and tirgycerides in men with added eggs in the diet. 116508
Six months Friesian calf production. II. Correlations among some *plasma* **components** and weight gain, carcass and fatty acids composition. 117563
Plasma-membrane **components** can be removed from isolated [pig] lymphocytes by the bile salts glycocholate and taurocholate without cell lysis. 117583
Plasma **concentrations** of testosterone in the developing ram in different social environments. 118355
Changes in patterns of feeding activity, parotid secretory enzymes and *plasma* **corticosterone** in developing rats. 118100
High-pressure liquid chromatographic method for the determination of 25-hydroxycholecalciferol [Metabolite of vitamin D3] in **cow** *plasma.* 117549
Decreased *plasma* insulin but normal glucagon in rats fed low protein diets. 116423
The effect of two synthetic steroids on *plasma* **glucose** concentration and total entry rae of glucose in sheep. 117759
Plasma **LH** [luteinizing hormone] response to LH-RH [luteinizing hormone-releasing hormone] injection in immature intact, castrated and cyproterone-treated male rats. 118356
Effect of type of dietary fat, cholesterol and chenodeoxycholic acid on gallstone formation, bile acid kinetics and *plasma* **lipids** in squirrel monkeys. 116426
Seasonal Profiles of *plasma* **luteinizing** hormone, testosterone and estradiol in the ram. 118257
Actin [purified from pig muscle] associated with purified **lymphocyte** *plasma* membrane. 117677
Glycoproteins of the *plasma* **membrane** of Dictyostelium discoideum [Fungi] during development. 120998
Use of progesterone concentrations in *plasma* and **milk** in the diagnosis of pregnancy in domestic cattle. 118239
DDE [dichlorodiphenyldichloroethylene] feeding and *plasma* **osmoregulation** in ducks, guillemots, and puffins [Organochlorine toxicity]. 123682
Electron microscopy and X-ray photoelectron spectroscopy of **oxygen** *plasma-etched* bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
Effects of ewe proximity on **peripheral** *plasma* testosterone levels and behaviour in the ram. 118351
Peripheral *plasma* progesterone during egg transport in the rabbit. 118388
Plasma **relaxin** and prolactin immunoactivities in pregnancy and at parturition in the ewe. 118357
Electrophoretic fractionation of seminal vesicle fluid and **seminal** *plasma* of ram. 118321
Calcium-binding protein in bull seminal vesicle secretion and **seminal** *plasma.* 118346
Artificial insemination in swine. Influences of boar **seminal** *plasma* on breeding efficiency of diluted boar semen. 118382
Diurnal variations of *plasma* **testosterone** in stallions. 118225
Concentrations of fat and plasma 5 alpha-androstenone and *plasma* **testosterone** in boars selected for rate of body weight gain and thickness of back fat during growth, sexual maturation and after mating. 118347
Properties of the interaction between bovine thyrotropin and bovine **thyroid** *plasma* membranes. 117791
Biological evaluation of soy residue protein: studies on PeR [protein efficiency ratio], *plasma* and **tissue** protein level and growth response in albino rat. 118076
Plasma **transport** forms of ingested fatty alcohols in the rat. 116479
An automated fluorometric method for the measurement of **tryptophan** in *plasma.* 117751

PLASMALEMMA
Increase in microviscosity with ageing in **protoplast** *plasmalemma* of rose petals [Rosa]. 121739
Asymmetric distribution of concanavalin A binding sites on **yeast** *plasmalemma* and vacuolar membrane [Saccharomyces cerevisiae]. 120906

PLASMODIOPHORA
Field evaluations of systemic fngicides and derivatives of dithiocarbamic acid for the control of clubroot *[Plasmodiophora* **brassicae,** cabbage]. 122562
Glasshouse evaluaton of systemic compounds, derivatives of dithiocarbamic acid and other fungicides for the control of clubroot [disease caused by *Plasmodiophora* **brassicae].** 122564

PLASMODIUM
Immune complex extracted from acutely infected malarious chicken kidneys: physico-chemical properties of antigen part *[plasmodium* **gallinaceum].** 118746
Malaria: successful immunization against the sexual stages of *Plasmodium* **gallinaceum** [Aedes aegypti as vectors]. 123665
The plasmodium of a slime fungus: culture and biology of the **noncellular** *plasmodium* of Physarum polycephalum [Myxomycetes]. 121278
Studies on the pellicular complex of the exocrythrocytic merozoites of the avian malarial **parasite** *(Plasmodium* lophurae) [Derived from turkey brains]. 118890
The *plasmodium* of a **slime** fungus: culture and biology of the noncellular plasmodium of Physarum polycephalum [Myxomycetes]. 121278

PLASMOPARA
Fluorescence microscopy and related enzyme activity of sunflower plants infected by *Plasmopara* **halstedii.** 122703
Resistance to *Plasmopara* **helianthi,** a new property of the sunflower hybrids. 122765

PLASTICS
The nature of **adaptational** *plasticity* (ecologic valency) in [domestic and wild] animals. 117734
Current possibilities, developments and problems of *plastic* use in **agriculture.** 124654
Introduction to the knowledge of plastics. 6. *Plastics* for **beer** packaging. 116676
Introduction to the knowledge of plastics. 5. IV. *Plastics* in **beer** packaging. 116677
Plastic **casks** for beer. 116679
Vegetable oils and animal fats as renewable resources for *plastics* and **coatings** applications. 116806
Plastics in **contact** with foodstuffs. 116709
Strain rate effects in similitude modelling of *plastic* **deformation** of [protection] structures subject to impact loading [Tractors]. 124741
Economics of *plastic* **egg** trays. 117053
Hazards and criteria: use of *plastics* for **food** [Contamination, spoilage]. 116089
A sprinkler for a *plastic* **greenhouse.** 124678
Contribution to the investigation into the migration into liquid foodstuffs of auxiliary substances used in *plastics* **manufacturing** and processing. II. Migration of auxiliary substances of polyvinyl chloride into drinking water. 116073

Materials for suspending hops: investigations on the possibility of using *plastic* **materials** for hanging hops. 124681
Influence of *plastic* **mulching** on grapes. 125156
Introduction to the knowledge of *plastics.* 6. **Plastics** for beer packaging. 116676
Introduction to the knowledge of *plastics.* 5. IV. **Plastics** in beer packaging. 116677
A critical study of the multiuse **polyethylene** *plastic* milk container system. 116891
Toxicity of the PVC **[polyvinyl** *chloride]-plasticizer* di(2-ethylhexyl)phthalate [Toxicity]. 119275
New **square** *plastic* petri dishes for routine bacteriological work [Meat inspection]. 116126
Procedures for field handling of bovine semen in *plastic* **straws.** 118287
A look at Eastern Europe. II. Bulgarian vegetable production in *plastic* **structures.** 122325
Winter protection of nursery stock [of ornamental plants] Webfoot style *[Plastic-covered* **structures].** 124605
Grapevine propagation—field budding, a modified cut, and the use of *plastic* **tape.** 122225

PLASTID
Development of the lipids in the *plastids* of **Aloe** arborescens Mill. 120976
Uptake of mevalonate and acetate during *plastid* **development** [Oat seedlings]. 121424
Algae and *plastids* as **endosymbionts** of invertebrates. 120951
Physiology and *plastid* **fine** structure of deetiolating Lemna minor. 120981
Plastid **inheritance** in Chlamydomonas reinhardtii [Algae]. 120607
Ultrastructural modifications of *plastids* in **leaflets** of Laris decidua and PIcea excelsa during sprouting of buds. 120461
Poly(adenylic acid)-containing RNA from *plastids* of **maize.** 121426
Light-induced increase in the activity of **maize** *plastid* DNA-dependent RNA polymerase. 121453
Studies on nucleic acids in *plastids* of the **pigment** mutant C-2A' of Scenedesmus obliquus [Algae]. 121326
Sieve-tube plastids in the electron microscope; development and fine structure of *plastids* in the **sieve** tubes of Allium porrum L. [Leeks]. 120524

PLASTOCYANIN
Purification and properties of *plastocyanin* and **ferredoxin** from Ceratophyllum demersum L. 120944

PLATANUS
Some pests of plane tree *[Platanus,* **scorch,** Gloeosporium nervisequum, Corythuca ciliata]. 122635

PLATE
The sitka spruce [Picea sitchensis] as a tree for hill planting and general **afforestation.** 3. (With *plate.).* 119586
Detection of N-aryl-N-nitrosamines on thin-layer **chromatographic** *plates* with 2,4-dinitrophenylhydrazine and phosphomolybdic acid [Possible carcinogens]. 116191
Delayed *plating* recovery in diploid yeast [Saccharomyces cerevisiae] of different sensitivities after X-ray and alphaparticle exposure. 121147
Kraft furnance effluent gas particulate capture in a *multi-plate* **fluidized** bed. 125564
A fine structural study of mineralization foci in antler and **growth** *plate* cartilage [Rats]. 117881
Growth *plate* injuries, diagnosis, prognosis and treatment. 119252
Pasteurization by *plate* **heat** exchangers [Beer]. 116678
Plate **loop** method for determining total viable count of orange juice. 117296
Enrichment and *plating* **methodology** for Salmonella detection in food. A review. 116198
Plate **tectonics** and its bearing on the geographical origin and dispersal of angiosperms. 120059
The battle begins meal quality, *plate* **waste,** fast food, the bloc grant. 116607

PLATEAU
A radiocarbon dated pollen diagram from the **allegheny** *plateau* of New York State. 120097
Flora and vegetation of the **Verkhne-Bikinskoe** *Plateau.* 119958

PLATELETS
[Pig] *platelet* **tubulin** and [bovine] brain tubulin antibodies: immunofluorescence of cell microtubules. 117644

PLATFORM
Operational considerations for the application of remotely sensed forest data from LANDSAT or other **airborne** *platforms.* 119497

PLATYMONAS
Effect of salinity on photosynthesis and mannitol synthesis in the green **flagellate** *Platymonas* suecica [Algae]. 120980

PLATYPEZIDAE
The Irish species of flat-footed flies **(Diptera:** *Platypezidae).* 124314

PLATYPODIDAE
Scolytidae and *Platypodidae* **(Coleoptera)** from Papua New Guinea [New taxa]. 124455
Scolytidae and *Platypodidae* **(Coleoptera)** from the Hungarian Natural Science Museum [New taxa]. 124456

PLEBEIOGRYLLUS
Influence of a juvenile hormone analogue on metamorphosis and reproduction in the cricket, *Plebeiogryllus* **guttiventris** Walker. 123868

PLECIA
Reproductive behavior of the lovebug, *Plecia* **nearctica** (Diptera: Bibionidae). 123804

PLECOPTERA
More *Plecoptera* from **Anatolia** [New taxa]. 124343
Prey selection by a setipalpian stonefly nymph, Acroneuria (Calineuria) californica **Banks** *(Plecoptera:* Perlidae). 123883
Notes on *Plecoptera* from **eastern** Fennoscandia. 124387
Trichoptera and stoneflies of some waters of Sor Varanger (North Norway) *(Plecoptera).* V. **Limnephilus** minusculus (Banks 1907) new for Europe. 124300
The effect of copper on the oxygen consumption rates of the stonefly nymph, Phasganophora capitata **(Pictet)** *(Plecoptera).* 125369
Caddis flies and stone flies of the Varanger Peninsula (North Norway) **(Trichoptera,** *Plecoptera).* 124286
A new species of Capnioneura [balkanica] from **Yugoslavia** *(Plecoptera,* Capniidae). 124334

PLECTONEMA
Sun-shade ecotypes of a bluegreen alga *[Plectonema* **notatum]** in a hot spring. 121218

PLECTOPTERA
Ecological studies on the aquatic insect in the upper region of the Chikuma-river, Nagano Prefecture, Japan. I. Life cycle and growth state of the Ephemerella trispina **group** *(Ephemeroptera:* Ephemerellidae), and aquatic insect fauna in summer. 124357

PLEISTOCENE
A **late** *Pleistocene* and Holocene pollen diagram from Lynch's Crater, northeastern Queensland, Australia. 120229

PLEOMORPHISM
Pleomorphism of **Rickettsia** akari in ticks of Hyalomma dromedarii Koch. 123836
Pleomorphism in **Scenedesmus** quadricauda (Turp.) Breb. (Chlorophyceae) [Algae]. 121079

PLEUROPNEUMONIA
Contagious **bovine** *pleuropneumonia* pathogeny. Receptive state of cattle kept under heparin. 118899

PLEUROTUS
Trace element nutrition of **mushrcom** *Pleurotus* sajorcaju (Fr.) Singer. 121633

PLEXIPPUS
A study of the peninsular Florida populations of the monarch butterfly (Danaus P. *plexippus;* **Danaidae).** 124058
Summer monarch **(Danaus** *plexippus)* in southern Texas (Danaidae). 124324

PLODIA
Studies on controlling the Indian meal moth, *Plodia* **interpunctella** Hbn., by ionising radiation [Pest of nuts]. 123373
A carrier protein for juvenile hormone in the haemolymph of the Indian meal moth *[Plodia* **interpunctella]** interactions with epidermal target tissue in vitro. 123517
Inhibition of chitin synthesis in *Plodia* **interpunctella.** 123535
Juvenile hormone action on the intermediary metabolism in Indian meal moth *[Plodia* **interpunctella]** larvae. 123543
Population density and mating frequency of *Plodia* **interpunctella** in the presence of synthetic pheromone. 123549
Sensillum-like setae in the lumen of the spermathecal gland of *Plodia* **interpunctella** [Stored-product insects]. 123579
Action of juvenile hormone on imaginal discs of the Indian meal moth *[Plodia* **interpunctella].** 123931
The binding of juvenile hormone to larval epidermis: influence of carrier protein from the hemolymph of *Plodia* **interpunctella.** 123953

PLOTS
Competition at the *plot* **border** among maize, tomato, pepper and Gladiolus L. 122115
The use of whole *plot* **data** from progeny trials with cocoa (Theobroma cacao L.) in Ghana [Yields and growth]. 122539
Eroded *plots* of land on slopes, a big reserve of increased agricultural production (from the experience of the Farm Perieni). 125143
A *small-plot* **evaluation** of three ryegrasses [Lolium] and two clovers at five sites in New Zealand. I. Comparison of 'Grasslands Huia' and 'Grasslands Pitau' white clovers. 122046
Evaluation of the growth of hybrid aspen [Populus tremula x Populus tremuloides] on the **experimental** *plots* in the Czech Socialist Republic]. 119534
Growth, abundance and distribution of larval tabanids in experimentally **fertilized** *plots* on a Massachusetts salt marsh [Tabanus nigrovittatus]. 124016
Arkansas Wildlife Unlimited [Establishing wildlife **food** *plots].* 125553
Harvesting *plots* of seed production in cereals, leguminous plants and of hybrid plots of maize. 122068
Special works in **hybridization** *plots* of maize. 120794
Timber yields from **research** *plots* and from real forests. Why are they different? 119530
Serial designs balanced for effects of [treatments to] neibours *[plots]* on both **sides** [Field crops]. 122022
Evaluation of *plot* **size** for arthropod studies in cotton. 123325
Optimum size of *plots* on the **slopes.** 115290
Results of **small** *plot* sugarbeet variety trials 1971-1973. 121908
Analysing data with repeated observations on each experimental unit **[Split** *plot].* 115781

PLOWING
The place of sugarbeets in a crop rotation and the depth of *plowing* in the **conditions** of irrigation in the southern part of the Ukraine. 121986
Sodic soils respond to **deep** *plowing* [Wheat]. 125089
Plowing under **straw** for growing sugarbeets on Meadow-Sierozem soils in Kirghizia. 125010

PLOWS
Chisel *ploughs.* 124712

PLUGS
Feulgen-DNA *plug* and two wavelength cytophotometry of Bull spermatozoa. 118370
Resource conservation: *plugging* **hidden** leaks. 116616
Papillae and related **wound** *plugs* of plant cells. 122903

PLUME
Life history of the **ragweed** *plume* moth, Adaina ambrosiae (murtfeldt), in Southern California (Lepidoptera: Pterophoridae). 124120

PLUMS
Restatement of the question of mites on **dried** *plums.* Development conditions and spreading of Carpoglyphus lactis L. (Acarida, Glycyphagidae). 123586
Orientations on the culture of the **industrial** *plum* in the province of Pisa. 122172
Further observatons on mass propagation and damage due to the purse-shaped gall mite Eriophyes similis **Nal.** on *plums.* 123424
Cherry, *plum,* **peach,** apricot and almond: Prunus spp. (Rosaceae). 122352
Winterhardiness of *plum* **varieties** in the conditions of the Rudnyi Altai. 121620

PLUSIA
Plusia **interrogationis** L. (Lepidoptera, Noctuidae) found at Svalbard. 124376

PLUTELLIDAE
Chalcid parasites of Prays oleae (Lepidoptera: *Plutellidae)* in **Andalusia** [for integrated control in Spanish olive orchards]. 123398
Cabbage caterpillars [Mamestra brassicae, *Plutella* **xylostella,** Noctua pronuba, Evergestis forficalis]. 123361

PLUTONIUM
Uptake of *plutonium* and other **nuclear** wastes by plankton [Includes algae]. 121270

PLYWOOD
A bird and bee problem in *[plywood]* **house** siding. 119831
Increasing use of *plywood* **[United** States]. 119714

PNEUMATIC
Guidelines on the minimum supply of **transportable** *(pneumatic)* sprayers for plant protection in horticulture. 124705

PNEUMONIA
Giant **cell** *pneumonia* associated with lungworm [Metastrongylus apri, Metastrongylus saline] infection in pigs. 118731
Rationalised pharmacotherapy of **enzootic** *pneumonia* of calves. 118839
Shipping **fever** *pneumonia* in yearling feedlot cattle. 118783
Atypical **interstitial** *pneumonia* in yearling feedlot cattle [Micropolysporum faeni as possible causal agent]. 118780
Occurrence of **Klebsiella** *pneumoniae* in dairy products. 116201

PNEUMOTHORAX
Iatrogenic *pneumothorax* and pneumoderma in a mouse. 118490

POA
Biochemical characters of evolution and specialization of genera **Festuca** and *Poa.* 119953
Comparative primary infection characteristics of Ustilago striiformis and Urocystis agropyri [leaf smuts] on cultivars of *Poa* **pratensis.** 122725

POACEAE
Poaceae—**Irish** members. VI. Morphology and ecological notes. 120568

PODOSTEMONACEAE
Studies on *Podostemaceae.* II. **Germination** studies. 120975

PODZOLS
Movement of sodium trichloroacetate in *podzolized* **Chernozem** under the effect of precipitations. 123058
A chemical and physicochemical investigation of two **Danish** *podzol* profiles [Soils]. 124777
Absorption of nutrients by fiber flax and the effectiveness of inorganic fertilizers on *Sod-Podzolic* **loamy** soils in the Udmurt Autonomic Soviet Socialist Republic. 121395
Yield of cereals and the removal of nitrogen, phosphorus and potassium on *Sod-Podzolic* **loamy** soil in the Belorussian SSR in relation to the level of nutrition. 124951
Effect of peat on the agrochemical properties of *Sod-Podzolic* **loamy-sandy** soil and the productivity of crop rotation. 124935
Presence of phytotoxic form of bacteria in a **Sod-weak** *Podzolic* soil planted with lupine in a crop rotation and in monoculture. 122801
Migration and detoxication rate of some simm-triazines in *Sod-Podzolic* **soil** with average loam content. 122884
Availability of "natural" and "residual" phosphates for [barley and oats] plants in *Sod-Podzolic* **soils.** 121398

POECILIA
Control of Culex pipiens fatigans (W) by the larvivorous **fish** *Poecilia* reticulata and by removal of debris from the breeding habitat. 123667

POECILOCERUS
Shock avoidance learning in intact and headless preparations of **grasshopper** *Poecilocerus* pictus. 123869
Spermatocyte chromosome aberrations induced by antibiotics in grasshoppers *[Poecilocerus* **pictus.** 2. Mitomycin-C. 124157

POGONOMYRMEX
Comparative ecology of the harvester **ants** *Pogonomyrmex* barbatus (F. Smith) and Pogonomyrmex rugosus (Emery). 123995

POINSETTIA
Comparison of soil applied growth regulators on height control of *poinsettia* **[Euphorbia** pulcherrima]. 121662
Slow-release ancymidol for *poinsettia* **[Euphorbia** pulcherrima] by impregnation of clay pots. 122337

POISON
The larval **arrow** *poison* of the bushmen [Chrysomelidae, Alticinae]. 123831
Cultural measures against excessive copper contents in the soil of a hops garden left open [Toxicity of **economic** *poisons].* 122935
Poisonous **fungi** and their toxins. 123066
Hunting *poisons* of the North Pacific region [Aconitum, chemistry, and toxicology]. 120181
Pre- and postemergence control of [the *poisonous* **neotropical** weed] Parthenium hysterophorus Linn. 123197
Conbribution to the chemical study of Holocalyx glaziovii [Leguminosae]. II. [Flavone glycoside, hydrolysis, *poisonous* **plants].** 121345
Ciguatoxin and edible [and *poisonous]* **reef** fish. 116065

POISONING
Pyrrolizidine **alkaloid** *poisoning* in rats: protective effects of dietary cysteine. 119254
Poisoning of **animals.** 119232
Kodo [Paspalum scrobiculatum] *poisoning* in **animals.** 119240
Cygon [insecticide] *poisoning* in **cattle.** 119283
Use of the technique of gas chromatography to determine the amount of aldrin retained in meat **chickens** *poisoned* with this pesticide [Residues]. 123683
Food *poisoning* from meat and how to avoid it. 116219
Poisoning **grey** squirrels: a threat to wildlife? [Forest tree injuries]. 119361
Mycotoxins and mycotoxicoses. 3. Diagnosing cases of *poisoning,* **identifying** the causative agent, and establishing effective control [Livestock]. 119263
Site & mode of action of neurotoxins released by **insecticide** *poisoning* [Periplaneta americana]. 123238
Mercury *poisoning* in a wild mink. 119261
An ultrastructural research of pancreatic islets in sodium **nirite** *poisoned* rabbits. 116033
The decade of fungi **[Poultry** *poisoning,* mycotoxicosis]. 119230
Bees and plant protection treatments [Bees, *poisoning,* **prevention].** 124550
[Chicken] *poisoning* **produced** by the ingestion of the pesticides aldrin and dieldrin. 119227
Further observations on the 'Tarbaby' technique for *poisoning* **rabbits.** 122960
Structures of gonyautoxin II and III from the east coast toxic dinoflagellate Gonyaulax tamarensis [Paralytic **shellfish** *poisoning].* 116180

POLAR
Differential responses to ultraviolet irradiation of the *polar* **cytoplasm** of Drosophila [melanogaster] eggs. II. Response to dose. 124171
Polar **transport** of auxin through embryos [Broadbean, Acer pseudoplatanus]. 121305

POLARIZATION
Polarized **light** spectroscopy on oriented spinach chloroplasts fluorescence emission at low temperature. 121605
Polarized **light** orientation of the honey bee: the minimum visual angle. 124539

POLAROGRAPHY
Polarographic **determination** of emulsifiers on silicon coated articles for consumption [Food]. 116078
Polarographic **determination** of emulsifiers on silicon coated articles for consumption [Food]. 116710

POLES
Effect of magnesium on the consumption of nutrients by potatoes on sandy soils of the Bryansk **part** of *Poles'ye.* 121587
Embryoid formation in callus cultures of Aloe **pretoriensis** *Pole* Evans. 120565
A chest harness and *pole-leash* for **routine** transfer of rhesus monkeys from home cage to behavioral test apparatus and back. 117463
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, *poles]:* **synthesis** and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717
The role of moss cover in some types of pine forests in the part of **Ukrainian** *Poles'ye* located to the east from Dnieper River [Effect of secretions on the growth of forest plants. 121814

POLLEN
The Quaternary vegetational history of the French Pays Basque. II. Plant macrofossils and **additional** *pollen-analytical* data. 120230
Canadian havens from hay fever [caused by **Ambrosia** *pollen].* 123183
Vegetation history studies in the Thur Alps and Fanin area (Appenzell canton, St. Gallen, Graubunden, Switzerland) *[Pollen* **analysis].** 120324
The stratigraphic setting of early **angiosperm** *pollen.* 120180
Data on the taxonomic study of the *pollen* of **Asiatic** species of the genus Sorbus L. 120063
Pollen **calendar** of Nagpur, India. 120254
Isocitrate lyase: a new enzyme from *pollen* **[Calotropis** procera]. 121138
Comparative *pollen* morphology and phylogeny of the ranalean complex [Angiospermae]. 120055
A radiocarbon **dated** *pollen* diagram from the allegheny plateau of New York State. 120097
The use of chemicals and cytoplasmic male sterility for *pollen* **development** control in rye. 120686
Studies on the developmental physiology in rice pollen. XXX. Effects of excessive nitrogen top-dressed at meiotic stage on the amino acid metabolism and the **development** of *pollens.* 121549
The development of **dimorphic** *pollen* in Tripogandra (Commelinaceae). 120514
Pollen **dimorphism** and heterostyly in the genus Waltheria L. (Sterculiaceae). 120509
Pollen **embryos;** celloidin-spray method for paraffin sectioning. 120570
Surface coating of germina apertures of *pollen* and **evolution** of apertures [Oxalis rosa]. 120552
Specific structure and *pollen* **gathering** of Hymenoptera visitors of blooming seed onion fields and their food plant relationships. 124152
The phylogenetic significance of the development of *pollen* **grain** walls in Liliaceae, Juncaceae and Cyperaceae. 120516
Ploidy and the size of *pollen* **grains** in species of the subtribe Centaureinae Less. 120065
Evolutionary trends in the *pollen* **grains** of Dichapetalaceae. 120176
Chemical dimorphism' of *pollen* **grains** of Rubiaceae. 120451
Fine structure and variability in shape of *pollen* **grains.** II. Pollen of plants pollinated by animals. 120520
Lipopolysaccharide embedded within the exine of *pollen* **grains** [of Lycopodium]. 121335
A late Pleistocene and **Holocene** *pollen* diagram from Lynch's Crater, northeastern Queensland, Australia. 120229
Anther and *pollen* **infection** in relation to the pollen and seed transmissibility of two strains of barley stripe mosaic virus in barley. 122826
Pollen and **leaves** from the Mid-Cretaceous Potomac group and their bearing on early angiosperm evolution. 120060
Patterns of *pollen* **morphological** variation within taxa. 120508
Pollen **morphology** of the family Loasaceae. 120066
Pollen **morphology** of the genera Embolanthera, Ostrearia, Neostrearia, Matudea (Hamamelidaceae) in relation to their taxonomy. 120067
Pollen **morphology** of the genus Sideritis L. 120068
Pollen **morphology** and the chromosome number of some species of the subtribe Centaureinae Less. 120069
Pollen **morphology** and its evolutionary significance in Xanthorrhoeaceae. 120177
Pollen **morphology** of the genera Gluta Linnaeus and Melanorrhoea Wallich (Anacardiaceae). 120510
Ultrastructural survey of **Onagraceae** *pollen.* 120518
Antifungal activity of *pollen* **[Parthenium** hysterophorus, Pennisetum typhoides, Sclerospora graminicola]. 122681
Fine structure and variability in shape of pollen grains. II. *Pollen* of **plants** pollinated by animals. 120520
Honey and *pollen* **plants** of N.S.W. [New South Wales]. 17. 122515
Pollen, pollen, pollen *[Pollen* **plants,** apiculture]. 122517
Evolutionary significance of the exine in the *pollen* of **primitive** angiosperms. 120175
Seed production in sunflower hybrids created on base of cytoplasmatic androsterility with **restored** *pollen* fertility. 120793
Studies on the developmental physiology in **rice** *pollen.* XXX. Effects of excessive nitrogen top-dressed at meiotic stage on the amino acid metabolism and the development of pollens. 121549
Anther and pollen infection in relation to the *pollen* and **seed** transmissibility of two strains of barley stripe mosaic virus in barley. 122826
Varietal differences in cabbage of the hydrogen-ion concentration isoelectric point of the *pollen* and **stigma** in relation to heterosis. 121687
Genic sterility of *pollen* in **sugarbeets.** 120828
Combinations of spores and *pollen* from **tertiary** sedimentary deposits of the Oktemberian stratum. 120062
Arrangement of some monosulcate, disulcate, trisulcate, dicolpate, and **tricolpate** *pollen* types in the tetrads, and some aspects of evolution in the angiosperms. 120504
Promoting effect of DPX-1840 [3,3a-dihydro-2-(p-methoxyphenyl)-8H- pyrazolo (5,1-a) isoindol-3-one] and other auxin transport inhibitors on *pollen* **tube** growth in vitro. 121178
Effects of temperature and genotype on *pollen* **tube** growth in some self-incompatible and self-compatible almond cultivars [Prunus amygdalus]. 121704
A general survey of *pollen* **types** in Sapindaceae in relation to taxonomy. 120174
The evolutionary significance of the ultrastructure of the exine in **umbelliferous** *pollen* grains. 120179
Tetrazolium bromide and *pollen* **viability** of sugarbeets (Beta vulgaris L.). 121411
Dynamic changes in *pollen* **wall** morphology. 120507

POLLINATION
Effects of *pollination* by **bees** [Apoidae] on seed productivity of alfalfa. 124161
Life cycles of **cacao** *pollinating* midges, Forcipomyia species (Diptera, Ceratopogonidae), and some notes on larval behavior in the laboratory. 124144
Effect of honey bee saturation on the *pollination* of **Chinese** gooseberries variety 'Hayward'. 121738
Pollination [self and **cross-pollinating]** as a factor limiting the yield of field beans (Vicia faba L.). 120763
Effect of *bud-pollination* and **delayed** self-pollination on the induction of a possible rejection peroxidase in styles of Nicotiana alata. 121582
Flowering and *pollination* of some **emtomophils** [Primula moorkroftiana, Lonicera semenovii] from the alpine belt in East Pamir. 121107
Pollination [self and *cross-pollinating]* as a **factor** limiting the yield of field beans (Vicia faba L.). 120763
Opening of the flower, *pollination* and **fruiting** of lettuce. 121772
Hand *pollinating* some Philodendron cultivars. 122227
The evolution of **insect-mediated** *self-pollination* from an outcrossing system in Calyptridium [monospermum, Calyptridium umbellatum] (Portulacaceae). 120867
Effect of inbreeding on the activity of peroxidase in **maize** *self-pollinated* lines. 120701
Morphological study of edible amaranth varieties and the **natural** *cross-pollination* test. 120485
Performance of maize crosses between inbred lines developed from a **open** *pollinated* Italian variety "Marano" at different plant populations. 122127
Post-pollination **phenomena** in orchid flowers [Cymbidium]. VII. Phosphate movement among floral segments. 121590
Fine structure and variability in shape of pollen grains. II. Pollen of **plants** *pollinated* by animals. 120520
Preferential *pollination* of yellow-flowered morphs of Raphanus raphanistrum by Pieris and Eristalis spp. 121297
Effects of a good *pollination* **[Rape,** safflower, sunflowers]. 121556
Pollination **service** [with Apis mellifera] in strawberry growing. 124514
Pollination **studies** in a forest situation. 121803
Estimate of genetic variance in *open-pollinated* **varieties** of rye (Secale cereale L.). 120664

POLLINATORS
Panorpatae (Rhingia) as **effective** *pollinators* of highly develop nectar containing flowers (Diptera, Syrphidae). 123899
Honeybees are the best allies of pomologists even under protection **[Peaches,** *pollinators].* 124492

POLLUTANTS
Ozone-dosage-crop loss function for alfalfa: a standardized method for assessing crop losses from **air** *pollutants.* 122963
Effects of atmospheric parameters on the concentration of photochemical **air** *pollutants.* 125496

The presence of *pollutant* **hydrocarbons** in estuarine epipelic diatom populations [Algae]. 125423
Laboratory testing for gaseous and **particulate** *pollutants* from forest and agricultural fuels. 125445
Application of thermal scanning to the study of transverse mixing in rivers [Remote **sensing,** *pollutants].* 125458
Characteristics and behavior of bushfire **smoke** *[Pollutants].* 125441
Dispersion of *pollutants* in the **Strait** of Canso [Water pollution]. 125574
Economic assessment of proposed **toxic** *pollutant* standards for manufacturers and formulators of aldrin/dieldrin, DDT, endrin and toxaphene. 123743
Computer modelling of *pollutant* **transports** in Lake Erie. 125455

POLLUTION

Determination of mercury in fish: contribution to the state of *pollution* in the **Adriatic** Sea [Food contamination]. 116171
A groundhog's approach to estimating insolation **[Air** *pollution].* 115178
Laws, standards, and regulations for smoke abatement in Montana **[Air** *pollution].* 115866
Laws, standards, and regulations for smoke abatement in Oregon **[Air** *pollution* control]. 115867
Use of smoke and heat during scalded sausage manufacture with regard to technologies sparing the environment **[Air** *pollution].* 116965
Evaluation of the degree of damage to trees and shrubs by sulphur dioxide for **[Air** *pollution* resistance] breeding purposes. 122908
The effect of fluor compounds on the health condition of trees and shrubs near the aluminum smelting works "Konin" **[Air** *pollution* injuries]. 122909
Ecophysiological response of lichen transplants to **air** *pollution* in the Murdochville Gaspe Copper Mines area, Quebec [Parmelia squarrosa, Hypogymnia physodes, Usnea]. 122974
Effect of **air** *pollution* on fruit trees: photochemical smog injury to Japanese pear tree. 122978
Evaluation of some diagnostic methods which may be used for determination of injuries on Norway spruce [Picea excelsa] by fumes **[Air** *pollution* from industrial exhaust smoke]. 123017
Volatility, in an aqueous medium, of DDT retained on homoionic vermiculite [Water and **air** *pollution].* 123685
The grain dust problem [Maize, **air** *pollution].* 125373
Unifilter collecting system for cotton-gin waste materials **[Air** *pollution].* 125385
Long-term mean concentrations of atmospheric smoke and sulphur dioxide in country areas of Emgland and Wales **[Air** *pollution].* 125388
The organic constituents of atmospheric particulate matter **[Air** *pollution].* 125391
Thermal and radiative effects of atmospheric aerosols in the northern hemisphere calculated using a radiative-convective model **[Air** *pollution,* climate]. 125392
Calculated actinic fluxes (290-700 nm) for **air** *pollution* photochemistry applications. 125420
Waste gas cleaning in smoking plants **[Air** *pollution].* 125428
Law for protection against immissions and the lumber industry **[Air** *pollution].* 125438
Georgia's open burning regulations **[Air** *pollution* control]. 125443
Goals of a national program in smoke research **[Air** *pollution].* 125444
The California air resources board program to regulate agricultural [range and forest] burning **[Air** *pollution* control]. 125449
Occurrence of natural radionuclides in the atmosphere near the soil **[Air** *pollution].* 125454
Remote reconnaissance of water and **air** *pollution* in the European area of concentrated population by means of environmental research satellites. 125533
Automatic control of isokinetic sampling for exhaust emission determinations [Cotton gins, **air** *pollution].* 125569
Studies on the *pollution* of **apple** orchard-surface soils and its improvement in relation to inorganic spray residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Report from Lake **Baikal** *[Pollution].* 125535
The ecological function of natural resources parks and protective zones in the protection of the environment [Forest conservation, *pollution* **control].** 119299
Influence of temperature on the biological treatment of paper industry effluents *[Pollution* **control].** 125403
Pollution **control** begins at home. 125430
The national commission on water quality study of the impacts of Public Law 92-500 on industry *[Pollution* **control].** 125478
Studies on the oxidation of organic sulphides in kraft black liquor *[Pollution* **control].** 125543
Means of **controlling** *pollution* caused by the use of installations for treating products derived from grapes and wine. 125399
Means of **controlling** *pollution* caused by the use of installations for treating products derived from grapes and wine. 125400
The forest as an ecosystem and the problem of its *pollution* **[Damage** from game grazing]. 120317
Control of **dust** *pollution* of air in poultry houses [Hygiene]. 118567
A personnel hazard: operating room **environment** *pollution* [Inhalation anesthetics]. 118461
Mutational load in a fern [Osmunda regalis] population growing in a *polluted* **environment.** 120577
Urban climates and the natural **environment** *[Pollution].* 125485
Cadmium and the **environment** *[Pollution].* 125548
Economic costs of energy-related **environmental** *pollution.* 125380
Economic impacts of surface mine reclamation [Mathematical model, **environmental** *pollution* control, regulation]. 125522
Environmental *pollution* by tritium [Food contamination]. 125531
Occurence of heavy metals in soils of the Warsaw city **green s** *[Pollution].* 125549
Simplified long-term concept for evaluating leaching of nitrogen from agricultural land [Fertilizer efficiency, **groundwater** *pollution].* 124878
Air quality diagnosis by means of lichens *[Pollution,* **indicator** plants]. 125395
EPA's [Environmental Protection Agency] **industrial** *pollution* control R&D program. 125477
Prediction of phosphorus and chlorophyll levels in lakes [Algal **levels,** *pollution].* 125516
Effects of **marine** *pollution* (petroleum, DDT, detergents) on the flora of the seas [and oceans]. 125521
Microbiological *pollution* of Munich: phytoplankton under the influence of waste water; investigations in the Amper River, near Dachau. 125527
Pollution **microbiology** of Biscayne Bay beaches. 125545
Mussels and *pollution.* 125484
Quality and quantity of **nonpoint** *pollution* sources in rural surface water runoff on Oahu, Hawaii. 125567
On the purification of **organically** *polluted* wastewaters in the Warnitz stabilization pond system. 125372
A study of the comparative values of coliform and faecal streptococci as **presumptive** *pollution* indicator in rural drinking water. 125479
Commercial policy implications of environmental controls *[Pollution* of **products].** 115921
From the beginning of European water resource **protection.** 5 *[Pollution].* 125425
Counteracting pesticide nonsense with realistic common sense **[Residues,** *pollution].* 123746
Is there a relationship between aquatic herbicides and water quality? **[Residues,** *pollution].* 123748
Nutrient profiles of bay **sediment** *[Pollution].* 125514
Occurence of natural radionuclides in the **soil** *[Pollution].* 125452
Review of best management practice implementation procedure for nonirrigated crop production nonpoint **source** *pollution.* 121899
The effluent-free bleached kraft pulp mill. VII. Sodium chloride in alkaline pulping and chemical recovery [to eliminate a major **source** of *pollution].* 125544
Effect of a livestock wintering operation on a western mountain **stream** *[Pollution].* 125570
The beginnings of European water protection *[Pollution,* **Switzerland].** 125426
How the Dutch are **tackling** *pollution* [Swine, manure]. 125541
Mathematical modelling of **thermal** *pollution* in rivers. 125456
Transfrontier *pollution:* some issues on regulation. 125473
Transfrontier *pollution* and institutional choice. 125474
International externalities: the ocean environment **[Transnational** *pollution].* 125470
Changes in paramagnetic properties of Chlorella [vulgaris, Algae] under the effect of toxic chemical compounds [Detergents, **water** *pollution* tests]. 122924
Nitrate-nitrogen in tile drainage effluents [Denitrification, **water** *pollution].* 124873
The effects of various components of **water** *pollution* on the behaviour of some aquatic macrophytes of the coastal rivers of Israel [Possible use as toxicity indicator plants]. 125381
Advances in testing the toxicity of substances to fish **[Water** *pollution].* 125405
Review of best management practices agricultural nonpoint sources **water** *pollution.* 125407
Review of control of **water** *pollution* from cropland. I. A manual for guideline development. 125408
Integral quantitative methods of biological determination of **water** *pollution* in the conditions of a large oligotrophic reservoir. 125412
Mussel-test for biological control of **water** *pollution.* 125431
WPCF **[Water** *Pollution* Control Federation] and the operator. 125436
WPFC's **[Water** *Pollution* Control Federation] efforts to learn about and improve safety. 125437
Occurrence of natural radionuclides in **water** *[Pollution].* 125453
Anticipations of the effects of the floodwaters of the Olona and Ticino rivers. 2. **[Water** *pollution].* 125480
Anticipations of the effects of the floodwaters of the Olono and Ticino rivers **[Water** *pollution].* 125481
Criteria for evaluating flowing **water** *pollution:* comparative examination of the mycological, bacteriological and chemical parameters of the Ticino River in the municipal territory of Pavia. 125482
Water *pollution* in the Greve River basin. 125483
Perception of **water** *pollution* in a rural area: a cognitive dissonance approach. 125489
Chemical threat to Lake Nakuru **[Water** *pollution].* 125534
Slime and odor elimination in process water of the paper industry [Air and **water** *pollution].* 125538
A note on the use of economic incentives in **water** *pollution* abatement. 125573
Dispersion of pollutants in the Strait of Canso **[Water** *pollution].* 125574
Water hyacinths [Eichhornia crassipes] for removal of phenols from *polluted* **waters.** 125382

POLYACETYLENE

Polyacetylenic **compounds.** 239. On a new sulvoxide from Baileya multiradiata Harv. et Gray. 121004
Polyacetylenic **compounds.** 240. On the constituents of Serratula wolfii Andrae. 121005

POLYACRYLAMIDE

Histochemical characterization of the hemolymph proteins from the cocoons of Formica species by *polyacrylamide* **electrophoresis.** 123979
A simple and sensitive staining method for the detection of cellulase isozymes in *polyacrylamide* **gels** [Citrus sinensis, Trichodermata viride, Fungi]. 120881

POLYACRYLONITRILE

Behavior of cellulose grafted with poly (methyl methacrylate) and *polyacrylonitrile* toward some **direct** and reactive dyes. 119718
Growing cucumbers on soil and mixtures of soil and peat aggregated by **hydrolyzed** *polyacrylonitrile.* 124760

POLYAMINES

Polyamine and **ornithine** metabolism during the germination of conidia of Aspergillus nidulans [Fungi]. 120924

POLYARTHRITIS *see* **ARTHRITIS**

POLYCARBONATE

Polycarbonate: for the **tough** jobs [Food packaging]. 116745

POLYCHLORINATION

Photochemical confirmation of mirex in the presence of *polychlorinated* **biphenyls** [Pesticide residues]. 123721
Gas chromatographic determination of *polychlorinated* **biphenyls** (PCBs) in the presence of chlorinated hydrocarbon pesticides in **eggs** of wild birds. 123738
Determination of *polychlorinated* **biphenyls** with DDT metabolites by reaction **gas** chromatography. 123740
Effects on growing swine and sheep of **two** *polychlorinated* biphenyls. 119226

POLYCYCLIC

Accumulation of *polycyclic* **aromatic** hydrocarbons in cultivated microalgae [Scenedesmus acutus]. 121300
Carcinogenic *polycyclic* aromatic hydrocarbons in Norwegian smoked meat sausages. 116176
Chemistry of the Coccoidea. II. **Condensed** *polycyclic* pigments from two Australian pseudococcids (Hemiptera) [Nipaecoccus aurilanatus, Pseudococcus albizziae]. 123824

POLYCYSTIC

Bilateral *polycystic* kidneys in a she buffalo. 119245

POLYELECTROLYTES

Effects of viral protein, viral RNA, and some other *polyelectrolytes* on **infection** of tobacco protoplasts by TMV [tobacco mosaic virus]. 122875
Influence of peroxide and *polyelectrolyte* **treatments** on germination, seedling emergence and yield [Navy beans, soybeans, sugarbeets]. 121545

POLYEMBRYONY

The effect of the size of different hosts on the rate of *polyembryony* in **Ageniaspis** fuscicollis (Hymenoptera, Chalcidoidea). 123856

POLYENES

The effect of fetal bovine serum on *polyene* **macrolide** antibiotic cytotoxicity and antifungal activity [for control of tissue culture contamination]. 117740

POLYESTER

Soil-release and textile propeties of *cotton/polyester-poly(methacrylic* **acid)** copolymer fabrics. 117200
A contribution to the study of cotton, *polyester* and **blend** yarn hairiness. 117118
Morphology of charred, **flame-retardant** *cotton/polyester* fabrics. 117164
Influence of fabric construction and treatment on the reaction of cotton, half-linen and pure-linen fabrics, as well as *polyester* and **linen** mixed fabrics, to the effect of water. I. Influence on absorptive capacity. 117193

POLYETHYLENE

Polyethylene/glycol for **concentration** and purification of duck hepatitis virus. 118836
Reducing heat losses in *polyethylene* **covered** greenhouses. 124652
The use of *polyethylene-glycol* in the **isolation** of the IBR [infectous bovine rhinotracheitis]. 119003
Storage of maize in an underground pit **lined** with *polyethylene.* 117075
A critical study of the **multiuse** *polyethylene* plastic milk container system. 116891
Correction of faulty ear carriage in the dog with **porous** *polyethylene* implants. 119211
Comparison of some methods of determination of *polyethylene* in **tallows.** 117028

POLYETHYLENIMINE

Polyethylenimine **adsorption** by cellulose. 119721

POLYGALACTURONATE
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, poles]: synthesis and secretion of *polygalacturonate* **lyase** by Cytophaga johnsonii. 119717

POLYGONACEAE
Buckwheat: **Fagopyrum** *(Polygonaceae).* 121941

POLYGONIA
The flower visiting activity of some Lepidopterous [Lepidoptera] insects to the Buddleja davidii Franch (Buddlejaceae). I. *Polygonia* **c-aureum** Linnaeus and Argynnis paphia geisha Hemming. 124110

POLYGONUM
Redshank [Polygonum persicaria], pale persicaria [Polygonum lapathifolium], knotgrass *[Polygonum* **aviculare**] and black-bindweed [Polygonum convolvulus]. 123050
Study of clones of *Polygonum* **panjutinii** [introduced] in Ukraine [as source of tanin]. 122519
Redshank *[Polygonum* **persicaria**], pale persicaria [Polygonum lapathifolium], knotgrass [Polygonum aviculare] and black-bindweed [Polygonum convolvulus]. 123050

POLYHEDROSIS
Further X-ray studies of *nuclear-polyhedrosis* **inclusions** [insect viruses]. 124102
Influence of buffers on pH [hydrogen-ion concentration] of cotton leaf surface and activity of a Heliothis **nuclear** *polyhedrosis* virus. 123318
Nuclear *polyhedrosis* virus replication in permanent cell lines of the cabbage moth (Mamestra brassicae L.). 123426
Fractionation and amino acid composition of acid-soluble trypsin peptides of inclusion bodies protein of moth (Galleria mellonella) **nuclear** *polyhedrosis* virus. 123827
Changes in protein, fat & glycogen in the larvae of rice moth Corcyra cephalonica St. during **nuclear** *polyhedrosis* virus infection. 123968
Occluded and nonoccluded **nuclear** *polyhedrosis* virus grown in Trichoplusia ni: comparative neutralization, comparative infectiviry, and in vitro growth studies. 124071
Nucleic acids synthesis of **nuclear** *polyhedrosis* virus in cultured embryonic cells of silkworm [Bombyx mori]. 124482
The proteins of inclusion bodies of Baculoviruses. IV. Study of **seven** *polyhedrosis* of Lepidoptera. 123907

POLYMERASES
RNA-dependent **DNA** *polymerase* activity of RNA tumor virus. VI. Processive mode of action of avian myeloblastosis virus polymerase. 118808
The isolation and properties of a DNA-directed **RNA** *polymerase* from yeast mitochondria [Saccharomyces cerevisiae]. 120936
Light-induced increase in the activity of maize plastid DNA-dependent **RNA** *polymerase.* 121453
RNA-dependent DNA polymerase activity of RNA tumor virus. VI. Processive mode of action of avian myeloblastosis **virus** *polymerase.* 118808

POLYMERIZATION
Differences in the *polymerization* of **actin,** isolated at different ontogenesis stages, after its purification [Rabbits]. 117607
Flow properties of heated oils. 2. Flow properties and *polymerization* of **fatty** acids of soybean oils. 117132
Effect of malt quality on *polymerisation* **index,** colloidal and flavor stabilities of beer. 116674
Polyphenol content and *polymerisation* **index** of barleys and small-scale malts. 117081
Lignin influence on thermomechanical polymerization of monomers. I. The influence al alkali birch lignin on **styrol** *polymerization* in dimethylsulphoxide solution. 119739
Thermochemical polymerization of monomers in wood. II. Comparison of **styrol** *polymerization* in various wood species. 119749
Lignin influence on **thermomechanical** *polymerization* of monomers. I. The influence al alkali birch lignin on styrol polymerization in dimethylsulphoxide solution. 119739
Lipid oxidation. 4. Products of **thermooxidative** *polymerization* of vegetable oils. 117308

POLYMERS
Interaction between wood and *polymers.* IV. **Dielectric** properties of polyvinyl acetate filled with wood components [Wood properties, cellulose, lignin]. 119680
Changes of hexosamine and acetyl contents during cultivation of extracellular **galactosamine-containing** *polymer* from Aspergillus parasiticus [Fungi]. 120855
Improvement of fiber bonding of paper fibers with high lignin content through grafting of **hydrophilic** *polymers.* 119779
Comparative investigations on *polymer* **models** of lignins (DHP's) of different composition. 7. Pyrolysis. 119677

POLYMORPHISM
Polymorphism in the **adult** of Callosobruchus maculatus—a possible process of evolution to stored product pest. 123548
Polymorphism of **blood** serum proteins from chickens of the 444th cross [Genetical markers]. 118306
Effect of temperature on some *polymorphic* **characters** of Mastigocladus laminosus Cohn. [Algae]. 121342
Composition of the scents of eight east African hemipterans. Nymph-adult **chemical** *polymorphism* in Coreids [Hemiptera, Coreidae]. 123800
Polymorphism of the **cherry** Cerasus fruticosa. 120422
Localization of antibacterial activity and hydrolytic enzymes in subcellular fraction of rabbit and **chicken** *polymorphonuclear* leukocytes. 118793
Polymorphism of the **diatom** Pinnularia brebissonii in culture and a field collection [Algae]. 120775
The imaginal integumental differentiation in Schistocerca gregaria Forsk. III. **Phase** *polymorphism* and its hormonal control. 124005
Plasma alkaline **phosphatase** *polymorphism* and its association with productive traits in Rhode Island Red [pullets]. 118329
The development of *dimorphic* **pollen** in Tripogandra (Commelinaceae). 120514
Polymorphism of the **slavemaker** ant, Harpagoxenus sublaevis (Nyl.). 124000
Wing *polymorphism* in the insect species Agonum retractum Leconte (Coleoptera: Carabidae). 123865

POLYNUCLEAR *see* **NUCLEAR**

POLYPEPTIDES
Effect of nisin [a *polypeptide* **antibiotic**] on prolonging the keeping quality of pasteurized milk. 116928
Polypeptide **composition** of hen's egg yolk very low density lipoprotein. 117038
Membrane *polypeptides* and chlorophyll-protein complexes of maize mesophyll chloroplasts. 121440
Juvenile hormone induced biosynthesis of vitellogenin in Leucophaea maderae from large **precursor** *polypeptides.* 123946

POLYPHENOLOXIDASE
Effect of 1,4-naphthoquinones and saponins on the activity of *polyphenoloxidase* (in **vitro**) [isolated from potato skin]. 121060

POLYPHENOLS
Contribution of *polyphenolic* **compounds** to the taste of tea. 116632
Polyphenol **content** and polymerisation index of barleys and small-scale malts. 117081
Studies on the resistance of chestnut trees (Castanea spp.) to chestnut gall wasps (Dryocosmus kuriphilus Yasumatsu). iX. *Polyphenolic* **contents** in susceptible and resistant varieties. 123416
Distribution of *polyphenols* & **development** of peroxidase activity during germination in Crotalaria [juncea]. 121130
Allelopathy and the hypothesis about quinones as an active **form** of *polyphenols.* 121058
Variations of *polyphenols* during **mashing** and purifying [Beer brewing]. 116688

POLYPHOSPHATES
Effect of **ammonium** *polyphosphate* on maize on Sierozem in relation to the provision rate with zinc. 121399
Presence of *polyphosphate* of **low** molecular weight in Zygomycetes [Fungi]. 121163

POLYPLOIDS
The significance of *polyploids* in the **breeding** of winter rye [Varieties, USSR]. 120685
Polyploidy in Hemerocallis. **Colchicine-induced** *polyploidy* in Hemerocallis. 120764
A model for the origin of diploidizing mechanisms in *polyploid* **species** [Wheat]. 120578
Plant population in *polyploid* **varieties** of fodder-beet cultivated in the summer-autumn cycle. 122128
Evolutional and genetic foundations of heterosis in remote hybridization and *polyploidy* **[Wheat,** rye, Triticale]. 120703

POLYPODIUM
Ecdysterone and ecdysone from *Polypodium* **virginianum** [Pteridophyta]. 121252

POLYPORACEAE
Contribution to the study of the *Polyporaceae* **[Fungi]** of angola. 119969

POLYPORUS
The experiment: dikaryophase and formation of meiosporangia in higher fungi [Sordaria macrospora, *Polyporus* **ciliatus].** 120956
Decays [Polyporus sulphureus, *Polyporus* **frondosus**] in oaks in the Forest of Dean [England]. 122770

POLYRIBOSOMES
Synthesis of delta-aminolaevulinate synthase by isolated **liver** *polyribosomes* [Chick embryos]. 117586
Optimum conditions for high-resolution gradient analysis [**pea** *polyribosomes,* southern bean mosaic virus]. 120406

POLYSACCHARIDES
Complex gels of proteins and **acid** *polysaccharides.* 116799
The **agar-type** *polysaccharide* from the red **alga** Ceramium rubrum. 120995
Identification of *polysaccharide-producing* **black** yeasts [Rhinocladiella, decay of wood pulp and paper]. 119757
Contribution to the characterization of sodium chlorite delignification of spruce wood. III. Lignin and *polysaccharide* **complexes** in chlorite liquors. 119770
Cytochemical localization of *polysaccharides* in **Diplodia** maydis [Fungi] with thiosemicarbazide: evaluation of three fixatives for PA: TSC:OS reaction. 120539
Structural properties of *polysaccharides* from **gums** of some different cultural varieties of the peach Prunus persica (L.)Bartsch. 121610
On the components of pileus and stipe of dried shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and hot water **soluble** *polysaccharides.* 117297

POLYSOMES
Temperature-sensitive breakdown in vivo of *polysomes* with **mutants** of Chlamydomonas reinhardii [Algae]. 121283
Zinc deficiency in the weanling rat: effects on liver compositon and *polysomal* **profiles.** 116444
Preparation of *polysomes* and **radioactively** labeled RNA from adult Drosophila melanogaster. 123987

POLYSPERMY
Sperm-egg interactions in the pig: monospermy, **extensive** *polyspermy,* and the formation of chromatin aggregates. 118334

POLYSTYRENES
Effect of structure on impact strength of **rubber-reinforced** *polystyrene.* 116775

POLYSULFIDES
Polysulfide **pulping** in a dual-vessel Kamyr digester. 119822

POLYTENE
Ultrastructural studies of **isolated** *polytene* chromosomes by scanning electron microscopy [Chironomus stigmaterus]. 124133

POLYTHENE
Re-use of *polythene* in **mechanised** sterilisation of soil [Equipment]. 124663

POLYTRICHALES
Comparative anatomy of the gametophytes in **Dawsonia** *(Polytrichales,* Musci). 120488

POLYUNSATURATES
Structure determination of *polyunsaturated* **fatty** acids by gas chromatography-mass spectrometry—a comparison of fragmentation patterns of various derivatives. 116779
Polyunsaturated **meat** and dairy products in fat-modified food patterns for hyperlipidemia. 116405

POLYVINYL
Interaction between wood and polymers. IV. Dielectric properties of *polyvinyl* **acetate** filled with wood components [Wood properties, cellulose, lignin]. 119680
Contribution to the investigation into the migration into liquid foodstuffs of auxiliary substances used in plastics manufacturing and processing. II. Migration of auxiliary substances of *polyvinyl* **chloride** into drinking water. 116073
The effect of surface treatments on the migration of organotin stabilizer from *polyvinyl* **chloride** films to contacting liquid media [Food packaging]. 116711
Toxicity of the PVC *[polyvinyl* **chloride]-plasticizer** di(2-ethylhexyl)phthalate **[Toxicity].** 119275

POME
Hail injuries to *pome* and **drupe** fruits. 122931
Application of high doses of phosphorus and potassium fertilizers before the establishment of a *pome* **fruit** orchard. 124919

POMOLOGY
Investigations on the apple tree. 9. *Pomological* and **agronomic** cards of Red Delicious spur clones [Varieties]. 122308
Use of natural infectious backgrounds in the breeding and *pomological* **studies** of fruit varieties [Immunological evaluatin, fungus diseases]. 122785

PONCIRUS
Synthesis of poncimarin, a new cumarin from *Poncirus* **trifoliata** L. 121391

POND
Doughnuts for ducks [Stockwater ponds in areas too flat to make **embankment** *ponds* **feasible].** 125555
Model **farm** *ponds* with automated monitoring of water quality. 125183
Investigations concerning the purification of wastewaters in **oxidation** *ponds.* 125371
Effect of *ponds* on the **runoff,** their conservation and effective utilization [for irrigation and for livestock watering]. 125222
On the purification of organically polluted wastewaters in the Warnitz **stabilization** *pond* system. 125372
Doughnuts for ducks **[Stockwater** *ponds* in areas too flat to make embankment ponds feasible]. 125555

PONDEROSA

Improving *ponderosa* pine [Pinus ponderosa]. 119608
Preliminary belt life data for abrasive planing of *ponderosa* **pine.** 119832
Relationship of shoot-root ratio to survival and growth of outplanted Douglas-fir [Pseudotsuga menziesii] and *ponderosa* **pine** seedlings. 121836
A cone weevil, Conotrachelus neomexicanus, on *ponderosa* **pine** [Pinus ponderosa] in Colorado: life history, habits, and ecological relationships (Coleoptera: Curculionidae). 123451
Effects of cattle grazing methods on *ponderosa* **pine-bunchgrass** range in the Pacific Northwest. 122163
Improving ponderosa pine **[Pinus** *ponderosa].* 119608
A cone weevil, Conotrachelus neomexicanus, on ponderosa pine **[Pinus** *ponderosa]* in Colorado: life history, habits, and ecological relationships (Coleoptera: Curculionidae). 123451
Logging to **save** *ponderosa* pine regeneration: a case study. 119833

PONIES *see* HORSES

POPILLIA

Cuticular hydrocarbons of healthy and diseased Japanese beetle larvae *[Popillia* **japonica].** 123978

POPLAR

Growing of some clones of **black** *poplar* [Populus nigra] in four comparative plantations in central-southern Italy. 119560
Study and development of [the culture of] *poplar* in the **Est-du-Quebec** region. V. Profitability of thirteen management options of plantations. 119516
Physiological and biochemical basis for the resistance of *poplar* **hybrids** to the fungus Dothichiza populea Sacc. et Br. 122574
Field observations on the resistance of *poplars* **infested** by Melampsora sp. 122573
Fungicides for control of *poplar* **leaf** rust [Melampsora larici-populina] and effects of control on growth of Populus nigra cv. 'Sempervirens' and Populus X euramericana cv. 'I-214'. 122667
A contribution to the study of antigen properties of *poplar* **leaves** [Populus nigra]. 121827
The *poplar* **[Populus]:** A tree very sensitive to the presence of salts [in the soil]. 121807
Resistance of *poplars* **[Populus]** to some insect pests according to observations made in Italy during the years 1930-72. 123455

POPPY

The **California** *poppy* [Eschscholzia californica]—natural history. 120239
The **California** *poppy* [Eschscholzia californica]—garden hybrids [Varieties, England]. 122443
Effect of some phenolic compounds of the **oil** *poppy* [Papaver] placenta on the embryogeny of isolated ovules. 121028
Development of induced mutations in **opium** *poppy* [Papaver somniferum]. 120836

POPULATION

The carniolan queen used to control **agressive** *populations* [Apis mellifera adansoni, Argentina]. 124490
Structures and comparative growth of some *populations* of **Aleppo** pine [Pinus halepensis] on Port-Cros island (national park). 121795
Extracellular lysis of the bluegreen alga Phormidium luridum by Bdellovibrio bacteriovorus [Biological control agents to regulate **algal** *populations].* 123094
Genotypic composition of a high **altitude** *population* of Eremopoa altaica located in the upper boundary of distribution of this species. 120719
Sexual isolation between a European and an **American** *population* of Ectocarpus siliculosus [Algae] (Phaeophyta). 120776
Populational-ecologic **aspects** of teratology of woody plants [Witches broom, Betula, Pinus]. 120455
Populations of **bollworms** [Helitohis zea] in cotton under different cropping situations in the Rolling Plains. 123347
Comparison of method examining the economic value of **broiler** *populations* from the aspect of breed qualification. 118258
Internal and external factors governing the fluctuation of tribolium **castaneum** *populations.* 123539
DNA synthesis in rabbit spleen **cell** *populations* stimulated by various doses of concanavalin A. I. Autoradiographic analysis. 117673
DNA synthesis in rabbit spleen **cell** *populations* stimulated by various doses of concanavalin A. II. Equilibrium density sedimentation analysis. 117674
The grass Zingeria [biebersteiniana] with a low chromosome number—a new model object for the culture of plant cells and tissues [Effect of mutagenic agents on ploidic **composition** of *populations].* 120624
Remote reconnaissance of water and air pollution in the European area of **concentrated** *population* by means of environmental research satellites. 125533
Cochliobolus sativus **conidia** *populations* in soils following various cereal crops. 122724
About the necessity for a more detailed classification of *[population]* **correlations** in plants. 120639
Life tables for a **declining** *population* of the Douglas-fir tussock moth [Orgyia pseudotsugata] in northeastern Oregon. 123444
Population **density** and mating frequency of Plodia interpunctella in the presence of synthetic pheromone. 123549
Effect of the abiogenic link on the predator [Protozoa] *population* in the **development** of a simple coenosis in a chemostat [Yeasts and bacteria as prey]. 121029
The presence of pollutant hydrocarbons in estuarine epipelic **diatom** *populations* [Algae]. 125423
Laboratory studies on the autoecology of three species of the [Macrocheles] glaber group (Acarina, Mesostigmata). 3. Sex ratio and *population* **dynamic.** 124149
Population **dynamics** of the pea aphid [Acyrthosiphon pisum] and its entomophages in relation to farming practices. 123439
Research on *population* **dynamics** and impact in the Blue Mountains [Forest insect pests]. 123492
Influce of host-parasite interations on the *population* **dynamics** of ticks. 123645
The effects of climatic patterns and agriculural practices on the *population* **dynamics** of Culex tritaeniorhynchus in Asia. 123668
Development of sampling technique for **estimating** *population* of Tetranychus neocaledonicus Andre, infesting brinjal [eggplants]. 123360
Time dependent effects on contractile properties, **fibre** *population,* myosin light chains and enzymes of energy metabolism in intermittently and continuously stimulated fast twitch muscles of the rabbit. 117877
Studies of **field** *populations* of Rhizovbium [trifolii]: relationships between strain effectiveness, soil nitrogen levels, and response to applied nitrogen in subterranean clover pastures in northeastern Victoria. 124803
A study of the peninsular **Florida** *populations* of the monarch butterfly (Danaus P. plexippus; Danaidae). 124058
Population **fluctuations** of field voles (Microtus): a background to the problems involved in predicting vole plagues [Pest of trees]. 119356
America, the great food machine *[Population* and **food** supply]. 115845
The question of varied attractiveness of pheromones of European corn borers [Pyrausta nubilalis] on the males of **geographically** different *populations.* 123331
Mutational load in a fern [Osmunda regalis] *population* **growing** in a polluted environment. 120577
The effect of pH [hydrogen-ion concentration] on the *population* **growth** of three species of duckweed: Spirodela oligorrhiza, Lemna minor and Wolffia arrhiza. 121070
Local **honeybee** *populations:* generalities on the biological characteristics of development. 124553
Biological and ecological studies of the parasitoid Chelonus inanitus (Hymenoptera: Braconidae) in Israel. I. Distribution, abundance and parasitism in natural **host** *populations* [Biological control of pests]. 123232
Genetic change in [plant] **host-parasite** *populations.* 122901
Estimating sib percentages from small samples of F1 **hybrid** *populations* [Plant breeding]. 120580
Hyperparasitism in *populations* of **Hyphantria** cunea [Tree pests, natural control]. 123452
Spin-off benefits in nutrition programmes **[India** *Population* Project]. 116390
Potential for genetic control of stored-product **insect** *populations.* 123550
Possibility of extensive blood relationship in **livestock** *populations,* and comparison of fertility and resistance to environmental changes [Genetics]. 118206
Efficiency of some *populations* of **maize** (Zea mays L.) in grain production [Genetics, hybrids]. 120632
Relationship of corn rootworm [Diabrotica] tolerance to yield in the BSSS [Iowa Stiff Stalk Synthetic] **maize** *population.* 123311
Short term nitrate losses and associated **microbial** *populations* in soil columns. 124877
Commentary [Climate, drought, *population* **migration,** Africa]. 115150
Cross-cultural perspectives on human adjustments to arid margins [Climate, *population* **migration,** Africa]. 115151
Exodus of farmers to the cities *[Population* **migration,** Colombia]. 115294
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring **moth** *populations* in tea fields. 123266
Study of **natural** *populations* of Hedysarum coronarium L. In northern Tunisia [to improve its use as a pasture plant]. 119992
Fishing for aphids [Acyrthosiphon pisum infesting alfalfa]: the exploitation of a **natural** *population.* 123315
Frequency of multiple insemination in **natural** *populations* of Drosophila [pseudoobscura]. 123787
Isozyme variation in **natural** *populations* of Drosophila buzzatii. 123908
Relationships between [plant-parasitic] **nematode** *population* densities and crop responses. 122904
Effects **ofplant** *population* and row spacing on yield and components of yield of navy beans (Phaseolus vulgaris L.). 122420
Multifactor ecological aspects of *population* **performance** of flour beetles, Tribolium confusum and Tribolium castaneum. 123545
Modeling and optimal control of insect **pest** *populations* [Nezara viridula (Linnaeus), a major pest of soybeans]. 123322
Changes in the structure of **plant** *populations.* 120374
Performance of maize crosses between inbred lines developed from a open pollinated Italian variety "Marano" at different **plant** *populations.* 122127
Plant *population* in polyploid varieties of fodder-beet cultivated in the summer-autumn cycle. 122128
Relationship between **plant** *population* and lay to yield of forage corn and Vigna sinensis [cowpeas] intercropping. 122131
Relationship of **plant** *population* of the sunflower (Helianthus annuus L) to NP [nitrogen phosphorus] fertilization and irrigation time. 122132
The effect of **plant** *population* and nitrogen on corn yield in a well-watered field. 122136
Relationship of **plant** *population* and arrangement on yield and early maturing of bush snap beans. 122465
Yield, rate of growth an dmorphological characteristics of the roots of the carrot (Daucus carota L.) in autumn-winter-spring cycle, in relation with **plant** *population* and fertilization. 122467
Studies with dairy cows investigating the dietary effect of compressed straw + concentrates prepared from crude and NaoH [sodium hydroxide] treated cereal straw. 2. Composition of ruminal fluid and **protozoa** *population.* 118007
Effects of nonfumigant nematicides on **root** *populations* and manganese and zinc levels in rough lemon seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016
Sex knowledge, birth control, and marital attitudes of a **rural** *population.* 115146
Effect of new forms of production-economic amalgamations on the migration of **rural** *population.* 115164
Social and psychological peculiarities of different group of **rural** *population* and ideological activities. 115166
Strenghtening of the influence of the working class on the formation of communist consciousness of **rural** *population.* 115167
Effect of agrarian-industrial and interfarm amalgamations on the change of professional and skill composition of the **rural** *population.* 115387
The rural youth **[Rural-urban** *population* migration]. 115127
Seasonal *population* fluctuations of parasitic nematodes in the rhizosphere of grape-vines. 123048
Policy of improving **sheep** *populations* raised on unirrigated land; objectives and means of action. 118205
The relationship between molecular size and electrophoretic mobility in agarose gels as determined from a **single** *population* of growing RNA molecules [Chironomus tentans]. 124086
Estimates of *population* **size** and longevity of adult narcissus bulb fly Merodon equestris Fab. (Diptera: Syrphidae). 123410
Dynamics of **soil** *populations* of Verticillium dahliae Kleb. under different cotton varieties. 122651
The dynamics of larch sawfly (Hymenoptera: Tenthredinidae) *populations* in **southeastern** Manitoba [Larix laricina, pests]. 123454
Ecology and natural history of Iridaea cordata (Rhodophyta: Gigartinaceae) [Algae]: *population* **structure.** 121204
A tentative energy budget for a **summer** *population* of Arion ater L. (Gastropoda: Pulmonata) [Fagus sylvatica, forest ecology]. 124856
Plictran: testing mite [Panonychus ulmi, Tetranychus urticae, Typhlodromus pyri] *populations* for **suspected** resistance. 123430
Effect of some nutritional plant sprays on the *population* of **Tetranychus** arabicus (Attiah) (Acarina, Tetranychidae) [for controlling mites]. 123223
Mercury and selenium distribution in a defined area and in its *population* **[Tuscany,** Italy, concentration in foods]. 116037
Ecology and ethology of Ixodes ricinus L. In Switzerland (Ixodoidea: Ixodidae). 4. Comparison of **two** *populations* at different altitudes. 123772
Nutritional pattern and health status of the *population* in the **Ukrainian** SSR. 116565
According to Pardo Buelvas, the welfare of the **urban** *population* cannot be constructed on the accumulated impoverishment of the peasant classes [Economic aspects, programs, Colombia]. 115983
Competition by, and chemical control of, natural **weed** *populations* in spring-sown field beans (Vicia faba). 123062
Growth and development of three [rural] **Yugoslav** *populations* in different ecological settings [Anthropometric and nutritional studies]. 116282

POPULUS

On Hypoxylon serpens in **culture** *[Populus].* 122665
Reasons of variation in the physiological condition of eastern cottonwood *[Populus* **deltoides]** in mixed stands. 121813
Growth and branching of young cottonwoods *[Populus* **deltoides]** after pruning. 121835
Fungicides for control of poplar leaf rust [Melampsora larici-populina] and effects of control on growth of Populus nigra cv. 'Sempervirens' and *Populus* X **euramericana** cv. 'I-214'. 122667

Resistance of poplars *[Populus]* to some **insect** pests according to observations made in Italy during the years 1930-72. 123455
Growing of some clones of black poplar *[Populus* **nigra]** in four comparative plantations in central-southern Italy. 119560
A contribution to the study of antigen properties of poplar leaves *[Populus* **nigra].** 121827
Fungicides for control of poplar leaf rust [Melampsora larici-populina] and effects of control on growth of *Populus* **nigra** cv. 'Sempervirens' and Populus X euramericana cv. 'I-214'. 122667
The poplar *[Populus]:* A **tree** very sensitive to the presence of salts [in the soil]. 121807
Evaluation of the growth of hybrid aspen *[Populus* **tremula** x Populus tremuloides] on the experimental plots in the Czech Socialist Republic]. 119534
Interactions of permanent foliar pests with their host tree [Betula, *Populus* **tremula].** 123457
Evaluation of the growth of hybrid aspen [Populus tremula x *Populus* **tremuloides]** on the experimental plots in the Czech Socialist Republic]. 119534
Hypoxylon [mammatum] canker of aspen *[Populus* **tremuloides]** associated with Saperda inornata galls. 122793

PORCINE

Comparative studies of human, equine, *porcine* and **bovine** erythrocyte membrane sialoglycoproteins. 117634
Purification and properties of a *porcine* **duodenal** glycoprotein with gastric antisecretory activity. 117750
Organoleptic changes in bovine and *porcine* **fats** following treatment with gamma-rays. 117033
The effect of gamma rays on the total acidity and the watersoluble fatty acids in bovine and *porcine* **fats.** 117034
Role of insulin, thyroxin and cortisol in luteinization of *porcine* **granulosa** cells grown in chemically defined media. 117612
Prolactin-releasing factor (PRF) in *porcine* **hypothalamic** extract distinct from TRH [thyrotropin-releasing hormone]. 118256
Comparison of *porcine* **liver** tRNA preparations: purification of tRNA and its separation from RNA-peptidyl complexes. 117548
Fine structural changes of the *porcine* **oviductal** epithelium during late and term pregnancy. 117884
Some chemico-microbiological parameters of cheese produced with the aid of *porcine* **pepsin.** 116914
Ultrastructural studies of **prepubertal** *porcine* uterine tube epithelium. 117547

PORELLA

Studies on the Asiatic species of the **genus** *Porella* (Hepaticae). VI. 120127

PORK *see* SWINE

POROSITY

Correction of faulty ear carriage in the dog with *porous* **polyethylene** implants. 119211

PORPHYRINS

A comparative study of *porphyrin* **synthesis** by whole blood and haemolysates from different mammalian species [Livestock, laboratory animals]. 117632

PORT

Structures and comparative growth of some populations of Aleppo pine [Pinus halepensis] on *Port-Cros* **island** (national park). 121795

PORTHETRIA

Forest and laboratory evaluations of hybridized Apanteles melanoscelus (Hymenoptera: Braconidae), a parasitoid of *Porthetria* **dispar** (Lepidoptera: Lymantriidae). 123458
Computer analysis and mapping of gypsy moth *[Porthetria* **dispar]** defoliation levels in Pennsylvania using LANDSAT-1 digital data [Remote sensing]. 123475
Gypsy moth *[Porthetria* **dispar]** a major pest of trees. 123487

PORTULACACEAE

The evolution of insect-mediated self-pollination from an outcrossing system in Calyptridium [monospermum, Calyptridium **umbellatum]** *(Portulacaceae).* 120867

POSTMORTEM *see* AUTOPSIES

POSTPARTUM *see* BIRTH

POTAMOGETON

Distribution of some aquatic plants, especially the *Potamogeton* **genus,** in southern and eastern Lower Saxony. 120029
Influences on the carbon dioxide balance of submersed higher aquatic plants in flowing water by noxious substances contained in water *[Potamogeton* **pectinatus,** Amblystegium riparium]. 120850

POTAMOGETONACEAE

The distribution of Najadaceae, *Potamogetonaceae,* **Ruppiaceae,** Zannichelliaceae, and Zosteraceae within Denmark [Aquatic plants]. 119977

POTASSIUM

K+ *[potassium]-stimulated* **adenosine** triphosphatase of maize roots: partial purificatin and inhibition by Helminthosporium maydis race T toxin. 122708
Agricultural importance of the supply of *potassium* from the **atmosphere** on soils in the savannah zone. 124763
Potassium **availability** in eighteen Brown Mediterranean soils derived from schists. 124762
Lamb production of sheep with differing haemoglobin and **blood** *potassium* types. 118323
Determination of *potassium* by the **Chirikov** method in the Chernozems of the Voronezh Region. 124898
Changes in parotid salivary flow during intracarotid infusion of *potassium* **chloride** into conscious sheep. 117822
The movements of minerals in the digestive tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, sodium, *potassium* and **chlorine].** 117963
Relation of adaptive response to conditions in an arid zone with types of *potassium* **concentrations** (HK, LK) in the blood of sheep. 117726
Improvement of growth hormone response to stmulation in primary aldosteronism with correction of *potassium* **deficiency.** 116482
Insulin and glucose intolerance in malnourished rats [Malnutrition, *potassium* **deficiency].** 116517
Studies on the effects of the spices as an appetizer on the healthy and *potassium* **deficient** rats. 116472
Effects of different cultivation treatments on root distribution, and on the concentrations of extractable phosphorus and *potassium,* at different **depths** in a clay loam. 124954
Effectiveness of the aldosterone-sodium and *-potassium* **feedback** control system [Dogs]. 117536
Effect of monuron and monolinuron on growth dynamics, yields and qualitative changes of winter rye against the background of various nitrogen, phosphorus and *potassium* **fertilization** rates. 123192
Mineral composition of liver and kidney of rats fed corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, *potassium]* **fertilizers.** 118083
Effects of N:P:K [nitrogen: phosphorus: *potassium]* **fertilizers** on growth, development & essential oil content of Mentha spp. 121134
Application of high doses of phosphorus and *potassium* **fertilizers** before the establishment of a pome fruit orchard. 124919
Effect of *potassium* **fertilizers** on the grain quality of winter wheat Mironovskaia 808. 124936
Effect of *potassium* **fertilizers** on [crop] yields and removal and utilization of nitrogen, phosphorus, and potassium by winter rye. 124937
Effectiveness of reserve application of phosphorus and *potassium* **fertilizers** on peaty soils. 124938
Potassium nutrition of plants and the effectiveness of *potassium* **fertilizers** [as related to soil chemical properties]. 124943
Production of *potassium* **fertilizers** with slow solubility. 124944
Evaluation of soil fertility for natural pastures [Nitrogen, phosphorus and *potassium* **fertilizers].** 124952
Effects of high amounts of *potassium* **fertilizers** on the yield and quality of sugarbeets. 125082
Importance of application of *potassium* **fertilizers** for saltsensitive cultivated plants irrigated with saline water [Wheat]. 125085
Fertilization effect on content of exchangeable cations and of more strongly **fixed** *potassium* [in the soil]. 125072
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, phosphorus, *potassium,* **magnesium,** calcium] on the growth of pear trees and levels in the leaves, 1958-1975. 121771
Forms of *potassium* in the **main** types of soils from the foothill and mountainous zones in Dagestan. 124759
Mineral nutrition of cultured chlorophyllous cells of tobacco. IV. Kinetic studies of K *[potassium]* and **Mg** [magnesium] uptake by the cells. 121534
Potassium **movement** during hyperpolarization of cardiac muscle [Sheep, cats]. 117814
Effect of boron on the utilization of nitrogen, phosphorus and *potassium* by **mustard** plants. 120862
Time of thiourea-KNO3 *[potassium* **nitrate]** application on the rest requirement and bud development in 'Loring' peach. 121682
Potassium **nutrition** of plants and the effectiveness of potassium fertilizers [as related to soil chemical properties]. 124943
Response of some sugarcane varieties to different levels of N, P and K [nitrogen, phosphorus, *potassium]* in **Punjab.** 125013
NPK [nitrogen, phosphorus, *potassium]* **requirement** of crops in soils of Saryu alluviums in relation to their initial fertility status. 124990
Effect of endogenic factors on the ash content and the content of calcium, magnesium, *potassium,* **sodium,** phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Yield of cereals and the removal of nitrogen, phosphorus and *potassium* on **Sod-Podzolic** loamy soil in the Belorussian SSR in relation to the level of nutrition. 124951
Effect of potassium fertilizers on [crop] yields and removal and utilization of nitrogen, phosphorus, and *potassium* by **winter** rye. 124937

POTATOES

Seeding rate and characteristics of the seed in the technique of cultivating the *potato* in **autumn-spring** cycle. 122466
Carbon requirements of Alternaria solani (Ell. & Mart.) jones and Grout, the incitant of early **blight** of *potato.* 122787
Investigations into the productivity of recently qualified hungarian **bred** *potato* varieties. 122285
Some aspects of the production, selection and use of dihaploids in *potato* **breeding.** 120589
The effect of soil moisture and nitrogen on yield and quality of the Russet **Burbank** *potato.* 122184
Effects of seed size and spacing of seed tubers and stems on yields of early and **canning** *potatoes.* 122387
Prevention of the hypersensitive reaction of *potato* **cells** to infection with an incompatible race of Phytophthora infestans by constituents of the zoospores. 122712
Epidemiological aspects of disease resistance in cultivated plants *[Potatoes,* **cereals,** breeding, fungus diseases]. 120635
Physical-chemical methods for the recovery of protein from waste effluent of *potato* **chip** processing. 117277
Protein quality of precipitate from waste effluent of *potato* **chip** processing measured by biological methods. 117278
Getting the best from the Grimme **Commander** *potato* harvester. 124713
Effectiveness and limits of using microorganisms in plant protection as exemplified by the **common** *potato* scab [Streptomyces scabies]. 122693
Susceptibility of twenty *potato* **cultivars** to the potato moth [Phthorimaea operculella] at Pukekohe: a preliminary assessment. 123423
Potato **cultivation** in monoculture. 122468
Potato **cyst** nematode—danger of infection with use of uninspected seed potatoes. 122985
On the classification of pathotypes of the *potato* **cyst** nematodes Heterodera rostochiensis and Heterodera pallida present in the Federal Republic of Germany. 122997
The effect of formalin on *potato* **cyst-nematode,** Heterodera rostochiensis. 122890
Effect on the reproductive functions of female rhesus monkeys of feedng irradiated wheat flour and *potato* **diet** [Metabolic studies]. 116396
Virus **diseases** of *potatoes.* 122839
State of weed control in *potato* **farming.** 123109
Broderstorf crop farming cooperative competes for title of "nationally recognized **food** *potato* farm" [East Germany]. 115339
Cooperation between socialist farms and fruit, vegetable and potato state farms in the cooperative associations for **food** *potatoes* of the Schwerin district. 115340
Renewal of treatment, storage and marketing units for **food** *potatoes,* and integration of automatic E 691 mix separators. 124672
The effects of varous chemical and physical haulm treatments on the incidence of *potato* **gangrene** [caused by Phoma exigua foveata]. 122568
Use of penoxalin herbicide for weed control in spring **grains** and *potatoes.* 123160
A novel pathway for the synthesis of solanidine in the isolated chloroplast from **greening** *potatoes.* 121641
Time of planting and lifting of elite [seed] *potatoes* when **growing** them on a virus-free basis in the Voronezh Region. 122870
Preparation and management of soils for **growing** *potatoes* [Tillage]. 125105
Effect of fertilizers on the yield and quality of *potatoes* **grown** in crop rotation and in monoculture. 124922
Potato **harvesting** costs. An analysis of six systems. 115538
Potato selection for **high** dry-matter in seedling generation [Breeding]. 120579
Potatoes for the **home** garden. 122288
Storage of **irradiated** *potatoes* under artificially humidified conditions. 117254
Effect of different forms of nitrogenous fertilizers on the productivity of *potatoes* on **irrigated** Sierozem soils in Uzbekistan. 124920
Changes in soluble proteins in *potato* **leaves** infected with Phytophthora infestans. 122741
The *potato,* **maize** and bean association, a form of intensive, economic use of the agricultural resources of miniature holdings [Colombia]. 115344
The *potato* **market** in the European Economic Community. 115579
Susceptibility of twenty potato cultivars to the *potato* **moth** [Phthorimaea operculella] at Pukekohe: a preliminary assessment. 123423
Decision making—to spray or not to spray [Economics of pest control, **nematodes,** *potatoes].* 122959
Biological and agronomical properties of **new** *potato* hybrids. 122494
Effect of seed size and spacing on the yield and grading of **"pentland"** *potatoes* [Varieties]. 122462
Studies on the stolon development in the *potato* **plant.** I. The orientation of the axillary shoot growth in the potato seedlings. 121765
An experiment on the feeding habit of the large 28-spotted ladybird (Henosepilachna vigintioctomaculata) by an alternative grafting between *potato* **plant** (Solanum tuberosum) and Chinese lantern plant (Physalis alkekengi). 123254

The role of sterols in the relations between *potato* **[plants]** and Phytophthora infestans [Blight]. 122609
Irrigation and economics of *potato-grain* **production** [Costs]. 115526
Contribution by Colombia to *potato* **production** of the Andean group. 122458
Richard L. Sawyer [Horticulturists, *potato* **research**]. 122183
Situation in breeding injury **resistant** *potato* varieties in the German Democratic Republic. 120628
Study of the interspecific [hybrid] *potato* **resistant** to nematodes [Heterodera rostochiensis] in the Latvian SSR. 122947
Changes of thiofanox residues in *potatoes* **resulting** from stroage and cooking. 116177
Effect of magnesium on the consumption of nutrients by *potatoes* on **sandy** soils of the Bryansk part of Poles'ye. 121587
Sugar factory waste lime and *potato* **scab** [Streptomyces scabies]. 122800
Production of certified **seed** *potatoes* by varieties, 1974-75. 122182
Gradual intensification of **seed** *potato* production in the Sanitz Cooperative Farm [East Germany]. 122294
Measures for improving seedling quality **[Seed** *potatoes].* 122295
The growing and marketing of *potatoes* for **seed** [Culture, varieties, diseases]. 122413
Purpose and conditions of introducing a method of **seed** *potato* production developed by the Estonian Agricultural Academy. 122495
Certified **seed** *potatoes* 1976. 122502
Vector control in **seed** *potato* farming [Insect pests, virus transmission]. 122835
Potato cyst nematode—danger of infection with use of uninspected **seed** *potatoes.* 122985
Optimum application of fertilizers to food and **seed** *potatoes.* 124984
Studies on the stolon development in the potato plant. I. The orientation of the axillary shoot growth in the *potato* **seedlings.** 121765
Effect of 1,4-naphthoquinones and saponins on the activity of polyphenoloxidase (in vitro) [isolated from *potato* **skin].** 121060
The identity of the *potato* **smut** [Angiosorus solani, Fungi, new taxa, South America]. 120280
Potatoes: **Solanum** tuberosum (Solanaceae). 122375
Total nitrogen concentration in leaves of *potatoes* **(Solanum** tuberosum L.) as an index of nutritonal status [Foliar analysis]. 125020
Influence of weather on capture of adult **southern** *potato* wireworm [Conoderus falli] in blacklight traps. 121779
Recent findings on determining the harvesting ripeness, leaf development and yield of *potato* **stands.** 122296
Studies of applying wastewater discharged from the *potato* **starch** factories to arable land. 1. The influence of spray irrigation of wastewater in grassland on grasses and soil properties. 125546
Cooperation between socialist farms and fruit, vegetable and *potato* **state** farms in the cooperative associations for food potatoes of the Schwerin district. 115340
Enzymatic activity of protein fractions excreted by *potato* **stem** nematode [Ditylenchus destructor]. 123003
Potatoes as a **stock** feed [Silage, dairy cattle]. 117965
Results of **sweet** *potato* (Ipomea batatas) research 1957-1966. 122415
The occurrence and some properties of 3-hydroxy-3-methylglutaryl coenzyme A reductase in **sweet** *potato* roots infected by Ceratocystis fimbriata. 122720
Report on the main experiments with early to medium-early **table** *potatoes* from 1972 to 1974 [Switzerland]. 122418
Effect of 2-chloroethyl trimethylammonium chloride on **tuberization** of *potatoes.* 121773
Behaviour of Phytophthora infestans (Mont.) de Bary on *potato* **tubers** in relation to lenticel resistance. 122701
Effect of temperature and warming up time of *potato* **tubers** on detectability of the X, S, M viruses in by-stolon tuber parts. 122869
Effect of row spacing on yield and grade distribution of Norgold Russet and other *potato* **varieties** grown on the Texas High Plains. 122419
Quality of *potato* **varieties** from the point of view of starch yield. 122496
Potato **variety** and advanced selection evaluations on the Texas High Plains [Yields]. 122449
Potatoes—**variety** tests in 1975. 122507
Phenylalanine ammonia lyase & phenols in tubers of Kufri Dewa [a *potato* **variety]** in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804
Potato **virus** X on Chrysanthemum. 122825
Ultrastructural changes in leaf cells of Chenopodium quinoa infected with *potato* **virus** S. 122856
Possible uses of *potato-tuber* **water** as a substitute for meat water [Utilization of wastewater]. 125404

POTENCY

A comparison of some chromatographic detectors for the analysis of volatile N-nitrosamines *[Potent* **carcinogens** in food]. 116174
Lupinus mutabilis sweet—a *potent* **food** source from the Andean region. 116286

POULTRY

Seasonal density, distribution and interactions of predatory and scavenger arthropods in **accumulating** *poultry* wastes in coastal and interior southern California [Livestock pests, biological control]. 123623
Adenovirus and **adenovirosis** of *poultry.* 118867
Subunit compositions of vertebrate alpha crystallins [Livestock, laboratory **animals,** *poultry].* 117637
Broilers in **batteries** (from the beginning to the end of life). 117395
Pros and cons of *broilers* in **batteries** [Housing, costs]. 117398
On the retention of water in slaughtered **birds** *[Poultry].* 117058
'Exciting' future for the *[poultry]* **breeders** [Rearing techniques]. 117406
Energy utilizaton by *broiler* **breeders** through addition of sand to the diet. 118129
Specific pathogen free fowl flock based on animals from *poultry* **breeding** centre. 118843
Ingluviotomy in a *pullet*—**a case** record. 118536
Roof insulation and its effect on *broiler* **chicken** mortality in hot weather [Poultry house]. 124653
Isolation of infectious bronchitis virus from *broiler* **chickens** in Chile. 118635
Chemotherapeutic and antibiotic activity on Escherichia **coli** [in *poultry].* 118643
Dynamics of feed utilization and the quality of meat of *broilers* in the **conditions** of high density rearing. 117502
Liquid diets **containing** *poultry* wastes for ruminants. 118030
Disease prevention; sources of infection & **control** *[Poultry].* 118883
[Poultry] **culling**—insures profit. 115536
Protein quality of mechanically **deboned** *poultry* meat as measured by rat PER [Protein efficiency ratio]. 116509
Saccharomyces yeast as a by-product from alcohol production on final molasses in **diets** for *broilers.* 118048
Poultry **disease** guide. 118453
Efficacy of the Bulgarian vaccine against Marek's **disease** in *broilers.* 118982
Epizootiology of the acute form of Marek's **disease** [in *poultry].* 119024
Early diagnosis of *poultry* **diseases** is essential. 118534
[Poultry] **diseases** which need microscopic examination for diagnosis. 118537
Prevention: the necessity of vaccination [for the control of *poultry* **diseases].** 118645
Diagnosis and prevention of respiratory **diseases** in *poultry.* 118882
Incidence of [infectious] *poultry* **diseases** in capital [India]. 118884
The epizootiologic and parasitologic status of the flocks at a *poultry* **dressing** combine. 119000
Layers improve with DPW **[Dried** *poultry* waste, feed ingredient]. 118146
Broiler **dynamics**—past and future. 117405
Poultry **ectoparasites** and their control. 123624
Balanced feed for better productive **efficiency** *[Poultry].* 118136
Poultry and **egg** statistics, 1972-75. 115783
Contamination of water of **electric** *boilers* with lead. 116189
Broiler **enterprise:** its success on economic efficient ration [Feeding programs]. 118137
[Poultry] **equipment** manufacturers' role. 124710
Use of the agar-gel precipitin test to **evaluate** *broiler* breeder and commercial layer flocks [chickens] for Mycoplasma gallisepticum infection. 118642
Exotic Newcastle disease; a new form of a **familiar** *poultry* [viral] disease. 118873
Improve the image of your *[poultry]* **farm** [Management]. 115324
Income tax and *poultry* **farmers'** obligations. 115535
In search of gentlemen for *poultry* **farming** [Prices, subsidies, Brazil]. 115570
Forecast confirmed by *poultry* **farming** in Sao Paulo [Economic aspects, production, prices, statistics]. 115809
Forecast: *poultry* **farming** in Sao Paulo maintains its place [Economic aspects, production statistics]. 115810
Poultry **farming** in the new large state [Brazil]. 115812
Poultry **farming** in Delhi—its plus and minus points. 117488
Role and contribution of private sector *[Poultry* **farming].** 117489
Poultry **farming** still awaiting the National Storage Program [Brazil]. 124599
Transmission of mycoplasma (PPLO) on breeding and *broiler* **farms.** 118594
Preliminary report on investigation of Marek's disease in West Bengal [in different *poultry* **farms].** 118735
A three-year study of the incidence of Salmonella in *poultry* **farms** around Teheran. 118915
Hepatic steatosis of *poultry* **[Fatty** liver]. 119077
Studies on the nitrogen metabolism of *broilers* **fed** 15N [nitrogen isotope] labelled wheat. 1. Problems, experimental programme and excretion. 118002
Studies on the nitrogen metabolism of *broilers* **fed** 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Some thoughts on water & **feed** in *poultry.* 118143
Studies on the effect of prolonged storage and antioxidant supplementation on nutritive value of rice polish *[Poultry* **feed].** 118144
Enzymes in *poultry* **feed.** 118182

Role of copper, manganese & zinc in *poultry* **[feeding].** 118142
On-farm mill and mix *[Poultry* **feeds].** 117374
Disinfection of feeds in specific pathogenic **free** *poultry* farming. 118568
Physiological principles and technologic methods of battery and floor exploitation, in confinement and in the open air, of *poultry* as a **function** of its production and health [Economic aspects]. 118434
Effect of toxic **fungi** in *poultry.* 119276
Food from *poultry* for **future.** 117407
Roof insulation and its effect on broiler chicken mortality in hot weather *[Poultry* **house].** 124653
The microbial contamination of air at various distances from the *poultry* **house** [Ventilation system]. 124656
Rats and mice, Ohio recommendations [Rodent control in *poultry* **houses].** 117412
Effect of high temperatures in *poultry* **houses** on some indices of the carbohydrate metabolism in layers. 117948
Control of dust pollution of air in *poultry* **houses** [Hygiene]. 118567
A case can be made for continuous lighting *[Poultry* **houses].** 124602
Brooder stove dust problems *[Poultry* **houses,** fumes]. 124607
Don't get caught with your air down *[Poultry* **houses,** ventilation]. 124608
Vacant laying houses *[Poultry* **houses** and equipment not in use]. 124609
Processing: weight of *broilers* and **how** the packages hold up. 117039
Merbitz Research Insititute of *Poultry* **Husbandry:** production intensification through science and technique [East Germany]. 117462
Characteristics of the methods of **improving** *poultry* crosses. 118298
Need and chance for complete elimination of mice from **industrialized** *poultry* farms. 117473
Economic effectiveness of specialization and concentration of *poultry* **industry.** 115352
Expansion of *poultry* **industry** in Belorussia and the role of science in the further increase of its economic effectiveness. 115377
Working the futures to predict net profit *[Poultry* **industry].** 115479
How you'll do business by 1985! *[Poultry* **industry].** 115818
Strategy for the future—based on the past *[Poultry* **industry].** 115819
Chickens of the cross 288 in the conditions of the Belorussian Zonal Experimental Station of *Poultry* **Industry.** 118300
Genetics as applied in *poultry* **industry.** 118385
Studies on the vitamin B requirements of *broilers.* 3. **Influence** of varying vitamin B6 levels on body composition and rate of retention. 118001
Quality control of protein feed **ingredients** in *poultry.* 117373
Wanted, a master plan *[Poultry* **keeping].** 117492
An objective look at manual bone trimming and at soft and hard separated meat from *poultry* and **large** animals. 117046
Age dynamics of the morphological and chemical composition of eggs from hens of the Leghorn breed in the conditions of **large** *poultry* farm. 117056
Effect of 16 percent protein starter diets on subsequent performance of growing and laying single-comb White **Leghorn** *pullets.* 118178
Facts on calcium & phosphorus **level** for *poultry.* 118140
Watch out for fragments in the bedding [of *poultry]!* **[Litter,** wood chips, chicken injuries]. 117399
Examination of *poultry* **litter** for Salmonellae by direct culture and fluorescent antibody technique. 118630
Biochemical identification of Salmonellae and coli bacteria and their sensitivity to chemotherapeutics **[Livestock,** *poultry].* 118974
Broilers: **management** and nutrition. 117396
[Poultry] **management:** controlling heat problems. 117400
[Poultry] **management:** attentions that can produce greater profit. 117401
Use of straw pellets and *poultry* **manure** for feeding cattle [Costs, East Germany]. 115513
Observations on enterotoxic Escherichia coli in foods of animal origin *[Poultry* **meat** contamination]. 116041
Products and practices *[Broiler* **meat].** 117042
Structures and functions of slaughterhouse enterprises and processing of *poultry* **meat.** 117054
Mechanically-deboned *poultry* meat. 117047
Snake **menace** in *poultry.* 117490
The effect of ammonia gas on some indexes of the protein **metabolism** of *broilers.* 117949
How to minimize mycotoxin problems in your feed *[Poultry,* **mycotoxicosis].** 119277
Preparation of **new-style** *poultry* meat products. 117045
Broiler **nutrition** yesterday today tomorrow. 118026
Importance of selenium in *poultry* **nutrition.** 118141
Poultry **nutrition** research, 1973. 118147
Poultry **nutrition** research, 1974. 118148
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [turkey herpesvirus] vaccine. II. Effectiveness of the deptavac HVT vaccine with *broiler* **parents** during the egg-laying period. 118972
Aerosol immunization of *poultry* against **pasteurellosis.** 119016
Effect of feeding high protein prestarter ration on the **performance** of *broilers.* 118079
Relationships between metabolizable energy values for *poultry* and some **physical** and chemical data describing Canadian wheats, oats and barleys. 118039
The decade of fungi *[Poultry* **poisoning,** mycotoxicosis]. 119230

Comparison of method examining the economic value of *broiler* **populations** from the aspect of breed qualification. 118258
Effect of various amounts of urea on the health of *broilers.* I. 118181
Exportation [of *poultry* **products**]: pros and cons [Brazil]. 115569
Processing 10 years ahead—you won't know it! *[Poultry* **products**]. 116856
Spent fowl revisited *[Poultry* **products**]. 117044
All-vegetable **protein** *poultry* ration. 118139
Studies on the meat quality of *broiler* **rabbits.** II. On the chemical composition of the meat of valuable cut-up parts in New Zealand White rabbits and hybrids of different. 116234
Factors impairing the quality of **rations** [for *poultry].* 118015
Feather meal in the **rations** [of *poultry].* 118016
Energy and protein composition of *broiler* **rations.** 1. [Effects on chicken growth and carcass quality]. 118165
Energy and protein composition of *broiler* **rations.** 2 [Effects of feed intake]. 118166
Capital city's capital role [India, *poultry* **rearing,** projects]. 115965
Technology of *poultry* **rearing** in the German Democratic Republic. 117403
Effectiveness of **rearing** *broilers* in cages under different timing of slaughter. 117450
Rearing *broilers* in cages of different types. 117451
Plasma alkaline phosphatase polymorphism and its association with productive traits in Rhode Island **Red** *[pullets].* 118329
Use of indirect haemagglutination and agglutination tests for the diagnosis of *poultry* **salmonellosis** [Salmonella gallinarum, chicks]. 118936
Why not raise **separate** *broiler* sexes? 117493
Separate and joint rearing of *broilers* of different **sexes.** 117452
A cheaper and simpler **shed** [for *poultry].* 124598
Etiology of leg weakness in *broilers* (**a short** review). 119096
Grit for *poultry*—**soluble** and insoluble [Diet]. 118176
A comparative study of the beta-crystallins of four sub-mammalian **species** [Includes *poultry].* 117631
Gujarat call to **stop** *poultry* imports [Disease control]. 115728
Weight loss in refrigerated **storage** of *broilers.* 117040
Know your feed **supplements** *[Poultry].* 118145
Virginiamycin [Antibiotics, toxicity, residues, cattle, **swine,** *poultry].* 118924
Switzerland's *poultry* and egg output and imports decline. 115665
High **temperature** *poultry* house operation. 124640
Possibilities for prophylaxis of perosis in *poultry.* 2. **Testing** of a preparation with manganese and selenium, supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a broiler unit. 119170
Protein metabolism in *broiler* **tissues** at different levels of energy in feeding rations. 118173
Possibilities for prophylaxis of perosis in poultry. 2. Testing of a preparation with manganese and selenium, supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a *broiler* **unit.** 119170
Poultry **vices.** 117880
World *poultry* production [Statistics]. 115584
Breeder ups and downs in 50 **years** *[Broilers].* 118240

POVERTY

Integrated rural development programes and projects in a world facing food and *poverty* **crises.** 115871

POWDERS

A comparative study on chemical examinations [for nutritive value] of **banana** *powders* prepared by different methods. 117273
Studies on the promotion of snow melting in a grassland. 2. Meteorological and climatological consideration on desirable time for scattering **black** *powders* and the period of the promotion of snow melting. 125345
A **gain** for the market, also by decreasing the skim **milk** *powder* surplus. 115599
A comparison of the flavour stability of conventional and instant whole **milk** *powder.* 116902
Cohesiveness of **milk** *powder.* 116918
Investigations into the action of skim **milk** *powder* and hydrolysed milk protein with a view to lowering the level of nitrite added to heat-sterilised meat products. 116980
Studies on denaturants that can be added to *powdered* **milk** [used as feed]. II. [Fish oil in calf fattening]. 117352
Quality of protein in milk replacers for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from reconstituted skim **milk** *powder.* 118035
Quality of protein in milk replacers for young calves. II. Effects of heat treatment of skim **milk** *powder* and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of skim **milk** *powders* and commercial milk replacers. 118037
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted skim **milk** *powder* containing added proteins, fat, calcium, phosphate and citrate. 118038
Studies on the effect of storage time and conditions on physical characteristics of some *powdered* **pesticides.** 123689

POWDERY

Effect of infection by Microsphaera **alphitoides** *(powdery* mildew) on carbohydrate levels and translocation in seedlings of Quercus robur. 122684
Changes in CO2 [carbon dioxide] and water vapour exchange rates in leaves of Quercus robur infected by Microsphaera **alphitoides** *(powdery* mildew). 122702
Inheritance of the *powdery* **mildew** [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Breeeding of winter rye resistant to *powdery* **mildew** [Erysiphe graminis]. 120656
Search for sources of resistance to *powdery* **mildew** [Erysiphe polygoni] in black gram [Mungo beans]. 122606
Effect of the systemic fungicide PP 149 on rate of *powdery* **mildew** infection, yield amount, morphology and tissue structure of leaves in summer barley varieties. 122610
A survey of *powdery* **mildew** [Microsphaera diffusa] of soybean in central Iowa. 122744
Three species of **oak** *powdery* mildews [Microsphaera alphitoides, Microsphaera hypophylla, Phyllactinia roboris]. 122616
Permanent control of the quality of granular and *powdery* **products** by automatic sampling [Milling products]. 116063
Fungicide control of **sugarbeet** *powdery* mildew [Erysiphe betae]. 122769

POWER

Power **farming** in the dead heart [Center of Australia, farm equipment]. 124714
The effect of the heating rate on the readiness of forced meat products undergoing ultrahigh **frequency** *power* treatment. 116843
An experimental **hydraulic** *power* module for use with harvestaids [Machines for fruit tree crops]. 124734
Ecological studies of the Bagac **nuclear** *power* plant site: a mosquito survey of Bagac, Bataan, Republic of Philippines. 123649
Better operation of refrigeration plant [to cool and freeze meat] gives more refrigeration and **saves** *power.* 118493
How to get more **semen** *power* for your money [Bulls]. 118271
Cycles in U.S. Pecan production 1919—1974 identified by *power* **spectral** analysis [Statistics, forecasting]. 115931
Sunflower *power* can energize your family [Nutritive value]. 116534

POX

Haemagglutinating property of **buffalo** *pox* virus. 118744
Concentration of **pigeon** *pox* virus in different tissues and fluids of chick embryos. 118749
Further studies on adaptation of **sheep** *pox* virus in sheep thyroid and sheep kidney monolayers. 118753

PRAIRIE

Windbreak studies on the **Canadian** *Prairie.* 119402
Soybean breeding and evaluation trials in the Texas Gulf **Coast** *Prairie* [Varieties, yields]. 122089
Soybean planting date and seedling rate investigations in the Texas Gulf **Coast** *Prairie.* 122092
Forage sorghum variety and fertilizer trials in the Upper Gulf **Coast** *Prairie* of Texas, 1974. 125060
Performance trials and nitrogen fertilization responses of wheat on the Texas Gulf **Coast** *Prairie.* 125061
Fate of the silica in *prairie* **hay** and alfalfa hay consumed by cattle. 118028

PRATYLENCHUS

The effect of soil temperature and of infestation by *Pratylenchus* **loosi** on the growth and nutrient status of a susceptible and tolerant variety of young tea (Camellia sinensis L.). 123040
Effect of the **nematode** *Pratylenchus* brachyurus on the growth, nutrition and yields of "Smooth Cayenne" pineapple. Influence of fertilizer placement. 122928

PRECIPITATION

Acid *precipitation* and the forest ecosystem. 120318
The correlation of Skylab L-band brightness temperatures with **antecedent** *precipitation* [Soil moisture, remote sensing]. 124831
Diffusion *precipitation* in agar gel and immunoelectrophoresis in studying Aujeszky's disease virus. 118979
Movement of sodium trichloroacetate in podzolized Chernozem under the **effect** of *precipitations.* 123058
Effective *precipitation* of various application depths [Irrigation]. 125354
Application of the National Weather Service Flash-Flood Program in the Western Region [Weather **forecasting,** *precipitation].* 125329
Optimization of reaction kinetic processes in the food industry, shown by example of the *precipitation* of **milk** protein. 116898
Current reflections on the filtration of [fruit] juices and the **processing** of the *precipitates.* 117248
Precipitation of **protein** in the presence of melanoidin [Pigment in soy sauce]. 117059
Localization of chloride in leaf cells of the halophyte Suaeda maritima by **silver** *precipitation.* 121304
Serodiagnostic studies on larval and strobilar phase of Taenia hydatigena with in **vitro** *precipitation* test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919
Protein quality of *precipitate* from **waste** effluent of potato chip processing measured by biological methods. 117278

PRECIPITIN

Use of the **agar-gel** *precipitin* test to evaluate broiler breeder and commercial layer flocks [chickens] for Mycoplasma gallisepticum infection. 118642

PREDATION

Morphology of the larvae of beetles, *predaceous* and **associated** with wood borers, from the northwestern part of the Caucasus. 124309
Predation of **overwintering** larvae of codling moth (Cydia pomonella (L.) by birds. 121819
Predation of **pine** cinaran aphids by spiders [Biological control]. 123478

PREDATOR

Miridae of the genus Termatophylidea (Hemiptera) as *predators* of **cacao** thrips [Selenothrips rubrocinctus]. 123233
The feeding relationships of two **invertebrate** *predators* in a New Zealand river [Archichauliodes diversus, Stenoperla prasina]. 123920
New records of spiders as *predators* of **maize** borer [Chilo partellus] and maize jassid [Zyginidia manaliensis]. 123302
An annotated list of *predators* and **parasites** associated witn insects and mites on Florida citrus. 123381
A study of fungal infection in the dung fly, Scathophaga stercoraria L. (Diptera, Scathophagidae) *[Predators* of **pasture** pests]. 123312
Effect of the abiogenic link on the *predator* **[Protozoa]** population in the development of a simple coenosis in a chemostat [Yeasts and bacteria as prey]. 121029
Biology of the mite, Anystis agilis (Acari: Anystidae): a California **vineyard** *predator* [Tetranychus urticae, Erythroneura elegantula]. 123367

PREFABRICATED

Prefabricated **[farm]** fencing. 123783

PREGNANCY

Sorghum and napiergrass silage as winter feed for *pregnant* **beef** cows. 118022
Early diagnosis of *non-pregnancy* in **cattle:** the first eighteen months of a commercial service. 118231
Uteroplacental blood flow during hyperthermia with and without respiratory alkalosis [in **conscious** *pregnant* sheep]. 117778
Interaction of epsilon-dinitrophenyl (DNP)-L-lysine with bovine colostral anti-DNP immunoglobulin G1 (IgG1): concentration independence *[Pregnant* **cows].** 117550
Ultrastructural and biochemical evaluation of parathyroid function of *pregnant* **cows** administered disodium ethane-1-hydroxy-1,1-diphosphonate (EHDP) and fed a low calcium prepartal diet. 117889
Masteocynetic activity of prostaglandin F2alpha versus oxytocin [Effects on *pregnant* **cows].** 118398
Safe vaccine for *pregnant* **cows** [Bovine viral diarrhea]. 118591
Influence of ketonemia on the resistance of *pregnant* **cows** and the proneness of calves to dyspepsia. 119206
Lupin alkaloids from tertogenic and nonteratogenic lupins. III. Identification of anagyrine as the probable teratogen by feeding trials *[Pregnant* **cows,** crooked calf disease]. 119257
Lupin alkaloids from teratogenic and nonteratogenic lupins. IV. Concentration of total alkaloids, individual major alkaloids, and the teratogen anagyrine as a function of plant part and stage of growth and their relationship to crooked calf disease *[Pregnant* **cows].** 119258
Clinical application of the progesterone-in-milk test *[Pregnancy* **diagnosis** in cattle]. 118230
Factors affecting progesterone in milk for *pregnancy* **diagnosis** in dairy cattle. 118232
Pregnancy **diagnosis** in the cow from milk progesterone concentration. 118234
Restatement of *pregnancy* **diagnosis** procedures in ewe. 118394
Use of progesterone concentrations in plasma and milk in the diagnosis of *pregnancy* in **domestic** cattle. 118239
Ultrastructure of glandular epithelial cells in the endometrium of the ewe during the estrous cycle and **early** *pregnancy.* 117892
Effects of post-weaning stress and feeding management on return to oestrus and reproductive traits during **early** *pregnancy* in swine. 117973
Oestrogen injection test for **early** *pregnancy* diagnosis in mares [Estrus]. 118250
Lipoprotein lipase activity in the bovine corpus luteum during the estrous cycle and **early** *pregnancy.* 118387
Concentrations of intermediate metabolites in the blood and hepatic tissues of pregnant and *non-pregnant* **ewes.** 117755
Supplemental needs of *pregnant* **ewes** wintered on fescue [Festuca arundinacea] pasture. 118098
Effect of *prenatal* **exposure** to mycotoxins [Molds growing on foodstuffs, laboratory animals]. 116245

Blood serum levels of calcium, phosphorus and magnesium during th *pregnancy* of the **female** ass, Equus asinus L., 1758 (Perissodactyla, Equidae). 118391
Prospects and problems of *pregnancy* and **fertility** diagnosis in the pig by aid of progesterone determination. 118236
A survey of food habits and beliefs of *pregnant* and **lactating** mothers in Mysore city. 116392
Studies on the copper requirements of *pregnant* and **lactating** rats. 117998
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by *pregnancy* and **lactation.** 117574
Testis metabolism in protein deficiency: effect of PMS *[pregnant* **mare** serum] gonadotrophin and testosterone propionate [Rats]. 117766
Superovulation in the cow using *pregnant* **mare's** serum gonadotropin prostaglandin F2alpha. 118423
Suitability of serum of *pregnant* **Mongolian** mares to improve fertility of autochthonous cattle. 118374
Concentrations of intermediate metabolites in the blood and hepatic tissues of *pregnant* and **non-pregnant ewes.** 117755
Plasma relaxin and prolactin immunoactivities in *pregnancy* and at **parturition** in the ewe. 118357
How long does the post-partum anoestrus last in sheep under certain conditions. 2. *Non-pregnant* **period.** 118220
The *pregnancy* **protecting** effect of progesterone against human chorionic gonadotrophin challenge in mares. 118330
Production, chemical composition and prostaglandin F-2 alpha content of uterine fluid in *pregnant* **sheep.** 118359
A system for inducing hyperthermia in *[pregnant]* **sheep.** 118366
The diet of *pregnant* **teenagers.** 116416
Fine structural changes of the porcine oviductal epithelium during late and **term** *pregnancy.* 117884
The establishment and operation of a central laboratory for *pregnancy* **testing** in cows. 118237
Effect of site of transfer on *pregnancy* and **twinning** rates following bilateral egg transfer in the cow. 118350
Study on the thyroid function of Thoroughbred females in varying stages of *pregnancy,* using "in **vitro**" tests 125I-T3 and 125I-T4 [Iodine isotope, horses]. 118392
Nutritional beliefs and practices in primigravid Mexican-American **women** *[Pregnancy].* 116403
Role of EFNEP [Expanded Food and Nutrition Education Program] aides in improving diets of *pregnant* **women.** 116451

PREGNANE

Steroid derivatives. LXXIX. Microbial 15 beta-hydroxylation of 17 alpha-acetoxy-16-methylene derivatives of the *pregnane* **series** by the action of Cunninghamella blakesleeana [Fungi]. 121067

PREIMPLANTATION *see* IMPLANTS

PRENATAL *see* PREGNANCY

PREPUPA

Juvenile hormone effects on the *prepupal* and **pupal** stages of the tobacco cutworm, Spodoptera litura Fabricius (Noctuidae: Lepidoptera). 123301

PRESERVATION

Propionic **acid** *preservation* of high moisture corn and its utilisation in beef cattle feeding [Includes costs]. 118184
Cereal *preservation* in nitrogen [Controlled atmosphere]. 117188
Preservation **characteristics** of buffalo semen in citric acid-whey as an extender. 118358
Note on the use of **glycerine** in the *preservation* of the **C.v.S.** rabies virus strain. 118909
Meat **dishes** *heat-preserved* in film or foil packages. III. Controls on filling, evacuating and closing containers. 116733
Proprionic acid for fungus control [and **feed** *preservation,* mycotoxins, decontamination]. 117327
Effect of low temperature extension of buffalo semen on *preservation* and **fertility.** 118320
Improved storage structures for the *preservation* of **food.** 124618
Infrared examination of lacquers for containers of *preserved* **foods.** 116761
Proposal for definition of canned and *semi-preserved* **[foods].** 116762
Natural regeneration and development of English oak (Quercus robur L.) and common hornbeam (Carpinus betulus L.) in the Krakovo virgin **forest** *preserve.* 119595
Ways and methods of *preserving* the **gene** pool of rare and disappearing species of local flora. 119883
Scalded sausage manufacture in the meat trade. 7. Color formation and *preservation,* **influence** of the muscle coloring matter present, and color stabilization by means of blood additives. 116955
Scalded sausage manufacture in the meat trade. 8. Color formation and *preservation,* **influence** of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Postharvest characteristics and **natural** *preservation* of fruits from hybrids between Alcobaca and some tomato cultivars. 117243
The largest saline-laky area of Transdanubia became a **natural** *preserve* [Hungary]. 125402
Never-dried cotton fibers. VII. *Preservation* of the **never-dried** state and ethyl acrylate and alkylene oxides. 117198
Changes in foods of animal or plant **origin** during *preservation.* 116728
New possibilities of fresh meat storage with a special **paper** *preserving* freshness. 116949
Refrigerated *preservation* of grain. 117145
Introduction of plants as a way of *preserving* and **reproducing** useful species of natural flora. 119865
Washing of trimethylamine by the water of the melting ice used for *preserving* **sea** bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052
A review: recent researches in India on the *preservation* of **shell eggs.** 117048
Aircraft transportation of **strawberries** *[Preservation].* 115673
Physical features of the bread grains at harvesting, a determining factor of the quality and **subsequent** *preservation.* 117168
A treatment to *preserve* **tall** oil during chip storage. 119813
Preservation **tests** of prepacked shrimp in simulated sales conditions. 116820
Effect of acetone fixation on rabies immunofluorescence in *glycerine-preserved* **tissues** [Mice]. 118694
Thermal load in cold storage places destined for the *preservation* of **vegetable** and fruit products [Equipment]. 117259
Economics of freshwater **wetland** *preservation* in Massachusetts. 125331
Comparison of economical aspect of various systems of vat fermentation and *preservation* of **wine.** 117226
From the practice: an interesting court judgment [regarding **wood** *preservation].* 119795

PRESERVATIVES

Chemical *preservatives* for maintaining moist rice in storage [Fungus diseases]. 117172
Effect of conditioning treatments before shipping and **floral** *preservatives* on vase life of cut roses. 117283
A new approach to sulphur dioxide analysis **[Food** *preservative].* 116807
Pectinase production by bacteria associated with **improved** *preservative* permeability in Sitka spruce [Picea sitchensis, poles]: synthesis and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717
Sodium metabisulfite as a *preservative* for **silage** produced brom maize plants. 117388
Use of lactic acid and calcium lactate in Nanica variety canned bananas in **syrup** *[Preservatives].* 117219

PRESSING

Trials in the manufacture of Asiago cheese and *pressed* **Asiago** by using the microbial coagulant "Rennilase" derived from the [fungus] Mucor miehei. 116896
Experiments on determining the magnitudes affecting the *pressing* of **cattle** feed with urea additives. 117368
Amic acids and half salts of dicarboxylic acids as coreactant catalysts for **creasable** *durable-press* fabrics. 116835
Experiences from the use of the K 453 **high-pressure** *press* in the recovery of straw in 1975 on the Hadmersleben State Farm of crop production. 124670
The role of *press* in **increasing** the efficiency of ideological activities in the rural areas. 115170
More recent developments in the field of surface modification of fiberboard. 1. *Pressed* **lamination.** 119671
Hypothalamic unit activity related to **lever** *pressing* and eating in the chronic monkey. 116361
Automation of the roasting of cocoa nib pieces and of the *pressing* of **liquor.** 116786
O killer bee [Apis mellifera adansonii] where is they sting? In the *press,* **that's** where. 124489

PRESSURE

The properties and composition of wood cellulose decomposition products obtained under the action of hydrogen **chloride** at *pressure.* 119748
Quality of *pressure* **cooked** rice. 116470
Effect of temperature and length heating time in rice cooking. 1. Cooking of rice by *pressure* **cooker.** 1. 116469
Contribution to the quantitative determination of coffein, theophyllin and theobromin with **high** *pressure* liquid chromatography. 116706
Reducing flowering time in Aphelandra squarrosa Nees with **high** *pressure* sodium lighting. 121678
Effect of a high **hydrostatic** *pressure* on wood membranes. 2. Hygroscopic and mechanical properties of wood. 119766
Changes in canine saliva ion concentration induced by increased **intraluminal** *pressure.* 117533
High-pressure **liquid** chromatographic method for the determination of 25-hydroxycholecalciferol [Metabolite of vitamin D3] in cow plasma. 117549
Interstitial fluid **oncotic** *pressures* in rabbit subcutaneous tissue. 117539
The variability of soil aeration measurements. II. Field measurements of N2O [nitrous oxide] concentrations, redox potentials, oxygen diffusion rates, and oxygen **partial** *pressures* as affected by NO3- [nitrate]-fertilization. 124880
Fourier analysis of the flight-sound of the pentatomid bug tessaratoma javanica Thunberg & the *pressure* **pattern** of its wings. 123970
Hydromechanical transport of liquid manure in *pressurized* **pipelines.** 124614
Experiences from the use of the K 453 *high-pressure* **press** in the recovery of straw in 1975 on the Hadmersleben State Farm of crop production. 124670
Roller *pressure* in double apron drafting systems used in cotton spinning. 117120
Ionic relations and the regulation of **turgor** *pressure* in the marine **alga,** Valonia macrophysa. 121192
The **vapour** *pressure* of aqueous fructose solutions. 119767

PRETREATMENT

Glyceryl guaiacolate paralysis time in **rats** *pretreated* with some microsomal drug metabolizing enzyme inducers. 118458

PREVENTION

Diagnosis, control and *prevention* of **bovine** mastitis. 118940
Prevention of **browning** and blemish by postharvest treatments and storage conditions for keeping better quality of fresh mushrooms. 117288
The *prevention* of **canine** and feline tumor development. 118476
Extensive overburden potentials for soil and water quality [Coal mining, environmental **contamination** *prevention].* 125416
Some managerial principles relating to *prevention* and **control** of animal diseases. 118523
Training and upgrading of veterinarians in *prevention* and **control** of animal diseases. 118526
Measures to *prevent* and **control** equine brucellosis. 118832
Forest fires and [their] terminology **[Control** and *prevention].* 119297
Laboratory evaluation of malathion used as a protectant for the *prevention* of **damage** by pulse beetles to stored gram [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as test insects]. 123291
Effects of antihistamines on the lung vascular response to histamine in unanesthetized sheep. **Diphenhydramine** *prevention* of pulmonary edema and increased permeability. 117805
Disease *prevention;* sources of infection & control [Poultry]. 118883
Effect of dilauryl succinate on reproduction of the cock and hen and *preventive* **effect** of vitamin E. 118102
Surveillance and control of phenolic tastes and odors in water to *prevent* their **effects** on taste and flavor of foods. 116639
The role of organo-phosphorus and synthetic pyrethriod insecticides in mothproofing [to *prevent* **fabric-insect** damage]. 123570
Soil redeposition in solvent cleaning. 4. Redeposition and *prevention* of **fatty** soils [in tetrachloroethylene, wool, cotton and acrylics fabrics]. 116599
[Forest] **fire** *prevention* inspection pays big dividends. 119315
Prevention of the **hypersensitive** reaction of potato cells to infection with an incompatible race of Phytophthora infestans by constituents of the zoospores. 122712
The use of chemicals in processing and packaging of stored products to *prevent* **infestation** [by stored-product insects]. 123573
Processing of maize seeds by insecticides in order to *prevent* and to **limit** the damages produced by some pests. 123258
An experiment in *preventive* **medicine** in a rural setting [Health, Venezuela]. 115197
Prevention: the **necessity** of vaccination [for the control of poultry diseases]. 118645
Some problems of the limb pathology of swine. **Note** on *prevention.* 119089
Bees and plant protection treatments [Bees, **poisoning,** *prevention].* 124550
Hydrolytic action of aminoacyl-tRNA synthetases from baker's yeast [Saccharomyces cerevisiae]: "chemical **proofreading"** *preventing* acylation of tRNA Ile with misactivated valine. 120927
Gastrocolopexy for *prevention* of **recurrent** gastric volvulus [Dogs]. 119109
Diagnosis and *prevention* of **respiratory** diseases in poultry. 118882
Is it easy to use honeybee performance to *prevent* **swarming?** 124572
Bay VA 9391 for *prevention* of **swine** dysentery. 119045
Food additives, cancer and the *prevention* **system.** 116244
Mecadox [for use in animal feeds]—a review and revelation [in *preventing* and **treating** swine dysentery]. 118887
Prevention of **winter** sunscald injury in Michigan [cherry] orchards. 122969

PREWEANING *see* WEANING

PRICES

Value guaranties in the field of agriculture [Legislation, *price* **adjustments].** 115799
Administered *pricing* by cooperatives: effect on producer and consumer prices and sales of fluid milk. 115750
Agricultural *price* conclusions for 1976/77. 115601
Wool marketing, **alternatives** and *pricing.* 115721
Flax in its economic aspect [Marketing, trade, *prices,* **Argentina].** 115685
Base *price,* a new instrument for supporting agricultural exports [Brazil]. 115699
Hedging. 2. Hedged and unhedged show losses [Slaughter **cattle** *prices].* 115621
Hedging. 4. Futures strategies show advantages **[Cattle** *prices].* 115623

Price **clauses** in beer delivery contracts. 115576
Analysis of Australian wool sold at auction in Australia 1973/74 season. Analyses by: wool types, average yields, average **clean** *prices.* 115761
Request by soybean planters to terminate discriminatory treatment [Exports, marketing, *prices,* **Colombia**]. 115739
Administered pricing by cooperatives: effect on producer and **consumer** *prices* and sales of fluid milk. 115750
The impact of **energy** *prices* on optimum machinery size and the structure of agriculture: a Georgia example. 115452
Costs of irrigation. Irrigation systems—data and *prices* **[Equipment].** 115525
The potential effects of various fat and protein differentials on returns to selected dairy **farmers** *[Prices].* 115560
Two years after the *price* **fixing** prohibition: experiences with nonobligatory price recommendations [for foods in the European Economic Community]. 115611
Lower rates of **food** *price* increases reported. 115653
The decisions [made by the European Economic Community] at Brussels for the viticultural sector [Marketing, *prices,* **France,** Italy]. 115689
Quarterly prediction models for live **hog** *prices.* 115756
Relationships between technology, *prices,* and **income** distribution in Pakistan's agriculture: some observations on the green revolution. 115911
An economic review of the New Zealand sheep and beef **industry** 1971-2 to 1975-6 *[Prices].* 115720
Do the producers have it so bad because the tree nurseries selling the final products have it so good? Also a contribution for reconsidering the ratio of **item** *prices* to quantity prices. 119576
Government accused of leaving the sugar industry in the **lurch** *[Prices].* 115743
Analysis of the repercussions on the Italian market of international **market** *prices* of certain agricultural products. 115742
Two years after the price fixing prohibition: experiences with **nonobligatory** *price* recommendations [for foods in the European Economic Community]. 115611
Cattle-fax head reviews happenings that killed early 1976 **optimism** *[Prices].* 115707
The problem of stabilizing world wheat market by national market and *price* **policy** and international agreements. 115764
Marketing quotas as an alternative to the **present** *price* support program for peanuts. 115754
Analysis of the annual fluctations of Belgian agricultural income. Incidence of technical progress and variations of *price,* 1954-1972. 115543
Do the producers have it so bad because the tree nurseries selling the final products have it so good? Also a contribution for reconsidering the ratio of item prices to **quantity** *prices.* 119576
Agricultural policy of the Common Market subject to **reevaluation.** 3. *[Prices].* 115722
Rising *prices* curb Chilean beef eating. 115658
Ammunition for the **soybean** *price* boom. 115758
Forecast confirmed by poultry farming in Sao Paulo [Economic aspects, production, *prices,* **statistics**]. 115809
Southern [Pinus] pulpwood **stumpage** *prices* analyzed, price zones identified. 119805
In search of gentlemen for poultry farming *[Prices,* **subsidies,** Brazil]. 115570
Industrial molasses: production, consumption, and *prices* **[Sugar].** 115766
Alternative approaches to stabilizing international markets [in food **supplies** and *prices].* 115751
Dairy sector should seek investment aid to meet likely milk boom [Policies, *price* **support**]. 115711
A *two-pricing* **system** for exporting frozen concentrated orange juice. 115749
Is Austria's policy the way to success? [Cheese marketing, **trade** and *prices].* 115562
Too much hops throughout the world *[Prices,* **trade**]. 115679
The effect of *price* **variations** of products and of factors of production on agricultural incomes. 115551
The effect of *price* **variations** of products and of factors of production on agricultural incomes: discussion. 115552
Southern [Pinus] pulpwood stumpage prices analyzed, *price* **zones** identified. 119805

PRIMATES

Comparative aspects of the accessory sex glands and seminal biochemistry of **mammals** *[Primates].* 118249
A simple restraining device for use with neonatal and small **nonhuman** *primates.* 118489
Tuberculosis in **non-human** *primates* [Zoonoses]. 119061
Changes in the electroencephalogram of rats following subacute exposure to carbaryl and baygon: Correlation with EEG [electroencephalogram] changes in **sub-human** *primates* after chronic, low level exposure to baygon [Insecticides]. 123750
Pharmacologic control of vomiting [Dogs, cats, **swine,** *primates].* 118550

PRIMITIVE

Evolutionary significance of the exine in the pollen of *primitive* **angiosperms.** 120175
Evolutionary significance of chromosomal differentiation patterns in gymnosperms and *primitive* **angiosperms.** 120716

PRIMULAS

Flowering and pollination of some emtomophils *[Primula* **moorkroftiana,** Lonicera semenovii] from the alpine belt in East Pamir. 121107

PRIONUS

Notes on the biology of *Prionus* **laticollis** (Coleoptera: Cerambycidae) [Apple pests]. 123383

PRISTIPHORA

Nematinae of Finland. IV. (Hymenoptera, Tenthredinidae) The **genus** *Pristiphora* Latreille. 124386

PROBABILITY

On *probability* of **drought** and of secondary salinization of soils of the world. 124780
Selection *probabilities* in **multi-parameter** sampling [Forest]. 119479
Playing with *probabilities:* **one** key to meeting information objectives [Foresters, inventory design and sampling design]. 119477

PROBING

Scanning, transmission and **electron** *probe* analysis of the cat tapetum. 117886
Farnesenic acid stimulation of juvenile hormone biosynthesis as an **experimental** *probe* in corpus allatum physiology [Schistocerca gregaria]. 123940
Organization of membrane proteins in the intact myelin sheath. Pyridoxal phosphate and salicylaldehyde as *probes* of **myelin** structure [Cats]. 117788

PROBOSCIS

The peripheral inhibition of the tarsal sugar receptor by sodium chloride in the *proboscis* **extension** response of the blowfly, Phormia regina M. 124034
Vulnerative and sensory organs of the *proboscis* of the **Tabanidae** (Ochrops fulvus Mg., Tabanus bovinus L., Chrysops caecutiens L., Chrysozona pluvialis L.); sexual dimorphism. 123816

PROCAINE

Pharmacology of *procaine* in the **horse:** a preliminary report. 118427

PROCTOTRUPOIDEA *see* SERPHOIDEA

PROFITS

Special project for *profitable* **afforestation** in southern Italy. 119428
How to pinpoint **cauliflower** *profit.* 115503
Agricultural agreement, 1976/1978. 1. **Considerable** *profit* in livestock production. 115430
To join or separate for *profit* **farms** and landed properties. 115489
Methodical premices for the determination of the optimal variant of the relative handing of share of *profit* in **forestry.** 119535
[Poultry] management: attentions that can produce **greater** *profit.* 117401
[Poultry] culling—**insures** *profit.* 115536
Greater turnover alone is not the **key** to more *profit.* 115565
Working the futures to predict **net** *profit* [Poultry industry]. 115479
Profits and **pensions.** 115487
Profitable use of **phosphate** [Fertilizers]. 124963
Defending **pig** *profits.* 115530
Contract foodservice: plain, **posh,** and *profitable.* 116611
Simple *profit* control for the tree nursery. 119581

PROGENY

Beef *progeny* tests at North Missouri Center. 118407
Comparison of dietary zinc levels for reproducing sows and the effect of dietary zinc and calcium on the subsequent **performance** of their *progeny.* 118088
Interference among females of Nasonia vitripennis (Hymenoptera: Pteromalidae) and its effect on sex **ratio** of their *progeny.* 123858
The use of whole plot data from *progeny* **trials** with cocoa (Theobroma cacao L.) in Ghana [Yields and growth]. 122539
The defective maturation of **viral** *progeny* with a temperature-sensitive mutant of avian sarcoma virus [Chick embryos]. 119041

PROGESTERONE

Progesterone **assays** of milk and the control of infertility [Cows]. 118235
Progesterone-binding **components** of chick oviduct: in vitro effects of purified hormone-receptor complexes on the initiation of RNA synthesis in chromatin. 117789
Progesterone-binding **components** of chick oviduct: in vitro effect of receptor subunits on gene transcription. 117790
Use of *progesterone* **concentrations** in plasma and milk in the diagnosis of pregnancy in domestic cattle. 118239
Prospects and problems of pregnancy and fertility diagnosis in the pig by aid of *progesterone* **determination.** 118236
Changes in the secretion of ovarian steroids and pituitary luteinizing hormone in the periovulatory period in the ewe: the **effect** of *progesterone.* 118341
Serum levels of *progesterone,* **estradiol,** and hydrocortisone in ewes after abortion due to Listeria monocytogenes type 5. 118605
Alteration of poly (ADP [adenosine diphosphate]-Rib) synthesis during *progesterone-caused* **gene** expression in oviducts of quails. 118222
Progesterone and **gravohormone** for stimulation of the sexual function in cows. 118419
The pregnancy protecting effect of *progesterone* against **human** chorionic gonadotrophin challenge in mares. 118330
Relationship between **milk** *progesterone* concentration and milk yield, fat and total nitrogen content. 116855
Factors affecting *progesterone* in **milk** for pregnancy diagnosis in dairy cattle. 118232
Milk *progesterone* as a parameter for fertility control in cattle; methodological approaches and present status of application in Germany. 118233
Pregnancy diagnosis in the cow from **milk** *progesterone* concentration. 118234
The use of **milk** *progesterone* radioimmunoassay in the diagnosis and treatment of subfertility in dairy cows. 118238
Effect of administration of *progesterone* and **oestrogen** on litter size in pigs. 118349
Peripheral **plasma** *progesterone* during egg transport in the rabbit. 118388
Requirement of an essential thiol group and ferric iron for the activity of the *progesterone-induced* **procine** uterine purple phosphatase. 117794
Sequential changes of estrogens and *progesterone* **at prostaglandin-induced** parturition in the sow. 118201
Distribution of binding sites for the *progesterone* **receptor** within chick oviduct chromatin. 117654
Clinical application of the *progesterone-in-milk* **test** [Pregnancy diagnosis in cattle]. 118230

PROGRAMMING

Computer *programming* and agricultural economists—bridging the gap. 115449
Cost distribution [in farming] optimized by **marginal** *programming.* 115401
Design of a *programming* **system** for CFI [Continuous Forest Inventory projects]. 119465

PROGRAMS

Problem of individual advencement of farms with chances of growth by the *program* for **advancement** of individual farms [Costs and returns, investments]. 115518
Alternatives to the *program* for the **advancement** of individual farms. 115800
Sensor equipment of the German earth scientific **airplane** *program* [Remote sensing]. 125464
Tree improvement does pay—but more economic analyses and **application** *programs* are needed to ensure this. 119541
Fertilizer INPUTS [Increasing Productivity Under Tight Supplies] *program:* **an approach** for coping with fertilizer shortages. 125031
The California air resources **board** *program* to regulate agricultural [range and forest] burning [Air pollution control]. 125449
Incomplete block designs for three or four replicates of many treatments [Plant **breeding** *program,* statistics]. 120592
Stage III Sugarcane variety tests and the Florida Cooperative Sugarcane **Breeding** *Program.* 121876
According to Pardo Buelvas, the welfare of the urban population cannot be constructed on the accumulated impoverishment of the peasant classes [Economic aspects, *programs,* **Colombia**]. 115983
Agriculture as the first activity needing stimulation for the development of the whole *[Programs,* **Colombia**]. 115985
The use of the SELGEM system [of **computer** *programs]* in support of systematics. 120051
Trophic status of inland lakes from LANDSAT [**Computer** *programs,* remote sensing]. 125281
50,000th GPCP [Great Plains **Conservation** *Program]* contract signed in Oklahoma. 125171
Application of a metabolic **control** *program* in industrialized cattle farming units. 119151
Noxious weed **control** *program* in Nebraska. 123140
Development of an integrated **control** *program* for orchard pests in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and sexual sterilization. 123422
Remote sensing in Minnesota: evaluation of *programs* and **current** needs. 115263
The national land use **data** *program* of the U.S. Geologica Survey [Remote sensing]. 115270
Efficiency and effectiveness in the W.I.C. *Program* **delivery** system. The Special Supplemental Food Program for Women, Infants, and Children [intended to serve individuals at "nutritional risk"]. 116484
Determination of demand for leisure time and recreation [Land **development** *program].* 115223
Comilla rural **development** *programs* to 1971. 115909
An expanded research and **development** *program* for the Douglas fir tussock moth [Orgyia pseudotaugata]—1975 to 1978. 123488
Effectiveness and quality of livestock production under the conditions of the new economic measures *[Programs,* **East** Germany]. 115933
How we are striving in socialist competition for a high material economy *[Programs,* **East** Germany]. 115934
Development of a nutrition **education** *program* for homemakers. 116449
Role of EFNEP [Expanded Food and Nutrition **Education** *Program]* aides in improving diets of pregnant women. 116451
In-service **educational** *program* for dietetic technicians involved in geriatric nutrition. 116619

National markets and the impacts of state land use and **environmental** *programs* [Legislation]. 115755
An overview of the development of remote sensing techniques for the screwworm [Cochliomyia hominivorax] **eradication** *program.* 123633
Problems and prospects of mountains, forests and environment in the *programs* of the **European** Economic Community [Conservation of natural resources and forests]. 125377
Management report [of the Society of Colombian **Farmers,** *programs].* 115990
Broiler enterprise: its success on economic efficient ration [**Feeding** *programs].* 118137
Application of the National Weather Service **Flash-Flood** *Program* in the Western Region [Weather forecasting, precipitation]. 125329
Efficiency and effectiveness in the W.I.C. Program delivery system. The Special Supplemental **Food** *Program* for Women, Infants, and Children [intended to serve individuals at "nutritional risk"]. 116484
State **forestry** *programs* for smoke control. 119344
Agriculture in the era of **Franco** *[Programs].* 115802
Industry *programs* for smoke control in forest management burning. 119339
Program and **instruction** for awarding of professional training scholarships at the Forestry Institute [Brazil]. 119407
U.S. Department of the **Interior** *programs* for smoke control. 125451
Immediate tasks in implementing the **irrigation** *program* [East Germany]. 125306
Transformation of agricultural industry in Colombia [Economic aspects, *programs* and **legislation].** 115993
Evaluation of the territorial systems related to the biologico-productive localities of **livestock** *[Programs].* 115994
Integrated horticultural activity, a **long-term** *program.* 115856
Consumer **management** *program* aims for total health education. 116629
Results of a three-year cotton pest [Anthonomus grandis, Heliothis zea] **management** *program* in the Hill Section of Mississippi. 123287
Implementation of an integrated pest **management** *program* in sorghum. 123326
Remote-sensing applications as utilized in Florida's coastal zone **management** *program.* 125133
The final *program* of the **National** Research Council for non conventional protein foods. 116553
Goals of a **national** *program* in smoke research [Air pollution]. 125444
Monitoring fertility of A.I. [Artificial insemination] *programs:* can **non-return** rate do the job? [Cattle breeding]. 118285
The clinical **nutrition** *program* at Albany Medical College. 116524
Trout [improvement project] and Title X [the Job **Opportunities** *Program].* 125560
Penoxalin weed control performance in Midwest soybeans under an EPA [Environmental Protection Agency] **permit** *program.* 123142
Ohio's statewide land use inventory: an operational approach for applying Landsat data to state, regional and local **planning** *programs* [Remote sensing]. 115258
Five **point** *program* in the Palouse [Erosion and sediment control]. 125161
The "Auermuhler **production** *program"* from the view of a private forest owner. 119592
Lussow Agricultural Producers' Cooperative of Crop Production: joint responsibility for successful socialist intensification *[Programs,* **prospects,** East Germany]. 115935
EPA's [Environmental Protection Agency] industrial pollution control **R&D** *program.* 125477
Salamanca Province: possibilities and future *[Programs* **relating** to animal husbandry and pasture management. 115804
Picturing the future forest from regeneration surveys. A **research** *program* and scale for defining adequate stocking. 119611
Iran [**Rural** *programs].* 115874
Safety *programs* in wastewater operations. 125435
State forest **service** *programs* on the Great Plains. 119397
The why and how of those A.I. [Artificial insemination] young **sire** *programs* [Bulls]. 118272
Spray *program* for grapes—South Carolina. 122954
State Experiment **Station** *programs* [in the Great Plains, shelterbelt research]. 119396
A.I.D. [Agency for International Development] grain **storage** *programs.* 117110
Poultry farming still awaiting the National **Storage** *Program* [Brazil]. 124599
Analysis of agricultural situation made by twenty-five unions [**Suggested** *programs,* Colombia]. 115986
Marketing quotas as an alternative to the present price **support** *program* for peanuts. 115754
LANDSAT-1 data, its use in a soil **survey** *program* [Remote sensing]. 124828
A.I. [Artificial insemination] **training** *program* and procedures [Cattle]. 118279
Training *programs* for [sawmill] management and operating personnel. 119703
Electronic data processing of herbarium specimens data for the Flora of **Veracruz** *program.* 120041
Historical review of the International **Water-Resources** *Program* of the U.s. Geological Survey 1940-70. 125340
SCS [Soil Conservation Service] sponsors workshop for Federal **Women's** *Program* coordinators [Assertiveness training for personnel]. 115201

PROJECTION

Virginia agriculture: 1985 *projections* of **agricultural** production. 115820
Stimulation of the rabbit hypothalamus: **caudal** *projections* to respiratory and cardiovascular centres. 117831
Transportation issues: problems and *projections* by **major** agencies [Papayas]. 115718
Papaya outlook and *projection:* **major** producers. 115949
Papaya outlook and *projection:* **major** producers. 115950
Papaya outlook and *projection:* **major** producers—Puna farmers. 115951
Projecting by **modern** methods of optimum crop structure within the limits of activity of the Intercooperative Council seini, district of Maramures. 115434
Transportation issues: problems and *projections* [**Papayas].** 115717
Projecting of **roads** and environmental protection. 119327
Projection of **sensory** neurons from a homeotic mutant appendage, Antennapedia, in Drosophila melanogaster. 123878

PROLACTIN

Prolactin-releasing **factor** (PRF) in porcine hypothalamic extract distinct from TRH [thyrotropin-releasing hormone]. 118256
Plasma relaxin and *prolactin* **immunoactivities** in pregnancy and at parturition in the ewe. 118357
Effect of starvation on pituitary growth hormone cells and blood growth hormone and *prolactin* **levels** in the rat. 116495

PROLAPSE

Management of egg-bound condition and *prolapse* of **oviduct** and cloaca. 119186

PROLIFERATION

Cell *proliferation* in the gonads of triploid intersexes of drosophila melanogaster (Diptera). 123847
Cellular *proliferation* and Mullerian duct differentiation in the female chick embryo. 117619
Selective control of **fibroblast** *proliferation* and its effect on cardiac muscle differentiation in vitro [Chick embryos]. 117646
Effect of nisin [an antibiotic, produced by certain strains of Streptococcus lactis] on the germination and *proliferation* of **spores** of some aerobic spore-formers in nutrient medium [Food processing]. 116844
Use of a corneoscleral homograft to **treat** *proliferative* episcleritis in the dog. 119222
Yaba 1-Lednice 110 **virus** *proliferation* in chicken embryos. 118679
California encephalitis **virus** *proliferation* in Yukon [Aedes communis] mosquitoes incubated at low temperatures. 123615

PROLINE

Preparation of optically **active** *proline.* Optical resolution of N-acyl-DL-proline by preferential crystallization procedure [Pharmaceutical and food industries]. 116768
Effect of *proline* on **metabolic** processes related to frost resistance of winter wheat. 121559
On physiological role of *proline* in **plants.** 120949
Preparation of optically active proline. Optical resolution of *N-acyl-DL-proline* by **preferential** crystallization procedure [Pharmaceutical and food industries]. 116768

PROPAGANDA

Use of **poster** *propaganda* by agricultural authorities for the day they hold open house [Legal aspects]. 115798

PROPAGATION

Propagation of **Acer** palmatum cultivars from hardwood cuttings. 122244
Apparent *propagation* of the equine infectious anemia virus in a mosquito (Culex pipiens quinquefasciatus Say) orvarian cell line. 123597
Propagation of **Arctostaphylos** uva/ursi by cuttings. 122247
Neutralization of a transmissible gastroenteritis virus of swine by colostral antibodies elicited by intestine and **cell** *culture-propagated* virus. 118604
Kiwi [Actinidia **chinensis]** *propagation.* 122231
Propagation of **Codiaeums** (crotons) by tip cuttings [Queensland]. 122251
Effects of *propagation* **container** size on development of high quality seedlings [Pinus thunbergiana, Sapindus drummondii, Pistacia chinensis]. 122221
Propagation and **culture** of African violets [Saintpaulia]. 122242
Benefits from method study in **cutting** *propagation* [Cotoneaster salicifolius]. 122216
Propagation using **cuttings;** a suitable method for supplying forestry with improved trees. 119571
Propagation of **dogwood** [Cornus, varieties] by hardwood cuttings. 122243
Some factors affecting *propagation* of **Douglas** fir [Pseudotsuga menziesii]. 119567
Propagation of **dwarf** [ornamental] conifers. 122249
Reducing costs by changing from intensive to **extensive** *propagation* methods [Ornamental plants, England]. 115485
Propagation of **Gaultheria** shallon (Salal). 122248
Acer **grandidentatum** and its *propagation.* 119561
Grapevine *propagation*—field budding, a modified cut, and the use of plastic tape. 122225
Propagation of **Ilex** verticillata. 122253
Some aspects of *propagation* **influenceing** the landscape gardener [New Zealand]. 122254
Propagating **magnolias.** 122241
Propagation of **Mahonia** aquifolium. 122246
Further observatons on **mass** *propagation* and damage due to the purse-shaped **gall** mite Eriophyes similis Nal. on plums. 123424
The "Swiss roll" *[propagation]* **method** of raising cuttings and seedlings. 122262
A technique for the accelerated production of commercially acceptable citrus clones from seed [**Nursery** *propagation].* 122212
Propagation of **Phormium** tenax 'variegata' and Phormium tenaxrubrum. 122252
Tree biology research and **plant** *propagation.* 121805
Aseptic culture of chrysanthemums in the **plant** *propagation* class. 122214
Plant tissue culture [in modern **plant** *propagation]*—possible applications in the New Zealand nursery industry. 122238
The purpose and operation of a Nuclear Stock Unit [Insect-proof, virus-free structures for selection **plant** *propagation,* New Zealand]. 122921
Nursery understanding of tissue culture [Ornamental **plants,** *propagation].* 122237
Application of an in vitro peroxydase test in choosing asparagus **plants** for in *propagation.* 122456
Use of hardwood bark as a rooting medium [Ornamental **plants,** *propagation].* 124970
The mysteries of **rhododendron** *propagation.* 122260
Propagation of **rhododendrons** by tissue culture. 1. Development of a culture medium for multiplication of shoots. 121630
Aspects of kauri [Agathis australis] *propagation* by **seed.** 119562
Findings made in the cultivation of mycorrhizal inoculum [to be used for tree **seedling** *propagation].* 120999
Light in [plant] *propagation* [**Solar** energy, artificial lighting]. 122232
Degerneration and qualification of material for *propagating* **strawberries** [Resistance to fungus, virus and nematode diseases]. 122929
Propagation **techniques** [of trees for windbreak purposes] on the horizon. 119629
Propagation of **tree** ferns from spores [Cyathea medullaris, Dicksonia, New zealand]. 122250
The [plant] *propagation* **unit:** layout and equipment to aid handling. 124604
A technical description of three [ornamental plant] *propagating* **units** in Guernsey. 122211
Vegetative *propagation* of Pinus strobus by needle fascicles. 119568
Diatoms [Algae] from the sea; investigative methods and life cycle. I. Methods and **vegetative** *propagation.* 121275
Factors affecting the use of mung bean cuttings as a research tool in **vegetative** *propagation.* 122223
Vegetative *propagation* of Hemerocallis—including tissue culture. 122265
Studies on **vegetative** *propagation* of Tulipa [varieties]. I. Organ formation from excised bulb scales in vitro. 122405
Using tissue culture for **vegetatively** *propagating* and improving asparagus production and quality. 122264
Propagation of **walnuts,** almonds and pistachios in California [Juglans, Prunus amygdalus, Pistacia]. 122245

PROPANIL

Effects of *molinate-propanil* **combinations** on rice yield [Commelina, Leptochloa, Echinochloa]. 123176

PROPHYLACTIC

Studies on incidence, pathogenesis, and prophylaxis of bovine grass tetany. 6. *Prophylactic* **adlibitum** feeding of magnesium-enriched mineral fodder. 119177
Chemoprophylaxis for **Anoplocephala** to infestations of sheep [Moniezia, Thysaniezia]. 119020
Prophylaxis of **ascaridiasis** of piglets. 119031
Tetanus [Clostridium tetani] in the horse. Clinical course, prognosis, and *prophylaxis* [**Bacterial** infections]. 118682
Prophylaxis of **bovine** grass tetany on the basis of final liquor of MgCl2 [magnesium chloride]. 4. The magnesium-substituting effect of MgCl2 final liquor in fertilization of single crops. 119171
Studies into incidence, pathogenesis, and *prophylaxis* of **bovine** grass tetany. 5. Mineral fodder ad libitum mixes or mineral feeding in the milking parlour for prophylaxis against grass tetany. 119176
Studies on incidence, pathogenesis, and *prophylaxis* of **bovine** grass tetany. 6. Prophylactic adlibitum feeding of magnesium-enriched mineral fodder. 119177
Studies on incidence, pathogenesis, and *prophylaxis* of **bovine** grass tetany. 7. Use of different magnesium sources in mineral mixes for cattle on pasture. 119178
Experiental restriction of feed and addition of calcium chloride for swine as a *prophylaxis* against **coli-enterotoxaemia.** 118830
Prophylaxis **concepts** and mastitis control in the dairy cow in intensive rearing in the Czechoslovak Socialist Republic. 118945
Pathogenesis of pyogenic mastitis and *prophylaxis* [**Corynebacterium** pyogenes, cattle]. 118835
Therapy and *prophylaxis* of **edema** disease of piglets. 119034
Serum enzymatic research of lambs aged from 10 to 30 days, including a report on *prophylaxis* for **enzootic** muscle dystrophy. 119083

Prophylaxis of **gadfly** [Oestrus ovis] infestation of sheep. 123679
Studies into incidence, pathogenesis, and prophylaxis of bovine grass tetany. 5. Mineral fodder ad libitum mixes or mineral feeding in the milking parlour for *prophylaxis* against **grass** tetany. 119176
Studies on the incidence, pathogenesis, and *prophylaxis* of **grass** tetany of cattle. 8. Magnesium-enriched pelletized coarse feed for prophylaxis against grass tetany. 119179
Studies on the incidence, pathogenesis, and *prophylaxis* of **grass** tetany of cattle. 9. Further experiments on the use of magnesium-enriched pelleted coarse feed for. 119180
Experience in rearing of young cattle **[Hygiene,** *prophylaxis].* 118569
Greater attention being paid to the *prophylaxis* of **Hypoderma** infestation [of cattle]. 123677
Effectiveness of sanitary measures in the *prophylaxis* of **mastitis** in cows. 119023
"Permanent" gastropexy, as a *prophylactic* **measure** against gastric volvulus [in the dog]. 119117
Possibilities for *prophylaxis* of **perosis** in poultry. 2. Testing of a preparation with manganese and selenium, supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a broiler unit. 119170
Role of interferon in *prophylaxis* of **rabies** after exposure. 118796
Prophylaxis of **reindeer** brucellosis of in the conditions of the Yakut Autonomous Soviet Socialist Republic. 118725
Common and **specific** *prophylaxis* of brucellosis [Brucella] of reindeer. 118722
Treatment and *prophylaxis* of **thelaziasis** of calves on large dairy farms. 119015
Organization of *prophylactic* and **treatment** measures to control necrobacillosis [Spherophorus necrophorus] of reindeer in the madadan Region. 118723
Prophylaxis and **treatment** of necrobacillosis of reindeer [Spherophorus necrophorus]. 118724
Prophylaxis and **treatment** of omphalitis in calves. 119030

PROPIONATE

Testis metabolism in protein deficiency: effect of PMS [pregnant mare serum] gonadotrophin and **testosterone** *propionate* [Rats]. 117766

PROPIONIC

Propionic **acid** preservation of high moisture corn and its utilisation in beef cattle feeding [Includes costs]. 118184

PROPYL

Abnormal rearrangement of isoprenoid epoxide: synthesis of *7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin,* the **lactonic** constituent of grapefruit peel oil of Citrus decumana Linn. (Rutaceae). 117230
Photodegradation of O-ethyl O-[4-(methylthio)phenyl] *S-propyl* **phosphorodithioate** (BAY NTN 9306) [Insecticide for cotton pests]. 123314

PROSIMULIUM

Morphology of the neuroendocrine systems of two larval blackflies, *Prosimulium* **mixtum/fuscum** and Simulium venustum. 123860

PROSO

Breeding *proso* for grain quality. 120822
Functional characteristics of starches from *proso* and **foxtail** millets. 117121

PROSOPIS

A monograph of the **genus** *Prosopis* (Leguminosae subfam. Mimosoideae) [New taxa]. 120096

PROSPECTS *see* FORECAST

PROSTAGLANDINS

Production, chemical composition and *prostaglandin* F-2 **alpha** content of uterine fluid in pregnant sheep. 118359
Stimulation of uterine activity by administration of *prostaglandin* F-2 **alpha** during parturition in sheep. 118360
First observations on the application of *prostaglandin* **F2alpha** in swine. 118248
Masteocynetic activity of *prostaglandin* **F2alpha** versus oxytocin [Effects on pregnant cows]. 118398
Superovulation in the cow using pregnant mare's serum **gonadotropin** *prostaglandin* F2alpha. 118423
Some aspects of PGF2 alpha *[prostaglandin]* **masteomotory** activity in cows. 117962
Effect of *prostaglandin* E2 on **ovine** maternal placental blood flow [Sheep]. 118198
Sequential changes of estrogens and progesterone at *prostaglandin-induced* **parturition** in the sow. 118201
Circulatory responses of the near-term sheep fetus to *prostaglandin* E2. 118197
Levels of *prostaglandins* in the **small** intestine of rats during primary and secondary infection with Nippostrongylus brasiliensis. 118768

PROSTATE

Response of the *prostatic* **complex** of protein deficient rats to sex hormones. 118336

PROTEASES

The structure and function of **acid** *proteases.* IV. Inactivation of the acid protease from Mucor pusillus [Fungi] by acid protease-specific inhibitiors. 121165
Protease & **phosphatase** activities in relation to presowing seed treatments in sorghum. 121506
Immunochemical studies on pinguinain, a sulfhydryl **plant** *protease* [Bromelia pinguin]. 120901
Inhibitors of proteolytic enzymes and **seed** *proteases.* 121086
Isolation of **specific** *protease* inhibitors from Neurospora crassa [Fungi]. 120977

PROTECTANTS

Investigation into the use of Resmethrin and Bioresmethrin [pyrethroid insecticides] as potential **grain** *protectants.* 123541
Some factors influencing the effectiveness of **grain** *protectants* [Protection against insect attack]. 123556
Pesticide residues of **potential** *protectants* of grain [Acetellic, Reldan, malathion]. 123715
Laboratory evaluation of malathion used as a *protectant* for the **prevention** of damage by pulse beetles to stored gram [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as test insects]. 123291
Effect of eradicant and *protectant* **sprays** on differentiation of conidia of Monilia cinerea (Bon.) Schroet on almond [Prunus amygdalus, brown rot]. 122632

PROTECTION

Animal *protection* and agriculture [Legislation]. 118547
Animal *protection* and pest control. 123656
New provisions of the statute and regulatory gazette of North Rhine-Westphalia *[Protection* of **arable** land and forests]. 115978
Protection of **Bartlett** pear against fire blight with deoxyribonucleic acid from virulent and avirulent Erwinia amylovora. 122809
Use of benlate for the *protection* of **black** currants [against fungus diseases and insect pests]. 122628
Chemical *protection* of alfalfa seed stands against bugs [Heteroptera]. 123323
Observed radiant loss from a heated orchard under frost conditions **[Cold** *protection].* 122968
Annual report of the scientific director [Food legislation, **consumer** *protection].* 115999
Are food hygiene regulations rules for the **consumer** *protection?* 116107
Coding of weed and crop names for documentation in **crop** *protection* research. 122991
Protection of **cucumber** against Colletotrichum lagenarium by Colletotrichum lagenarium. 122714
Protection of **Cucumis** leaf pigments against photo-oxidative degradation during chilling. 117210
Quantity of cells of the mucous membrane of the small intestine in irradiated mice as an index of the *protection* **degree** of this organ by radioprotectors. 119233
Importance of areas used for forestry for *protecting* **drinking** water dams and maintenance of quality of dammed up waters. 119304
Pyrrolizidine alkaloid poisoning in rats: *protective* **effects** of dietary cysteine. 119254
Effects of the **emission** *protection* law on brewery operation and planning. 115815
Effects of the **emission** *protection* law on brewery operation and planning. 115816
Motivation and method in **ensuring** *protection* of tropical produce from grower to his market [Storage and disinfestation]. 115684
The ecological function of natural resources parks and protective zones in the *protection* of the **environment** [Forest conservation, pollution control]. 119299
Food packaging and **environmental** *protection.* 116826
The **Environmental** *Protection* Agency's nine 'principles' of carcinogenicity [Includes veterinary pathology]. 119092
Projecting of roads and **environmental** *protection.* 119327
Market pulp from OCC [old corrugated containers]? Economics are examined in study made for EPA **[Environmental** *Protection* Agency]. 119802
Farmer evaluaton of penoxalin (Prowl) herbicide during 1975 under EPA **[Environmental** *Protection* Agency] experimental permit. 123128
Penoxalin weed control performance in Midwest soybeans under an EPA **[Environmental** *Protection* Agency] permit program. 123142
Wild oat [Avena fatua] control in spring-seeded wheat and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA **[Environmental** *Protection* Agency] experimental permit. 123169
Wild oat [Avena fatua] control in barley with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA **[Environmental** *Protection* Agency] experimental permit. 123170
The **Environmental** *Protection* Agency's regulations on experimental use permits for research on pesticides. 123701
Pedological investigations of the Lazienki Park in Warsaw in relation to **environmental** *protection.* I. Soil characteristics. 124896
Tasks of **environmental** *protection.* 125439
Environmental *protection,* recycling, and the international materials economy. 125468
EPA's **[Environmental** *Protection* Agency] industrial pollution control R&D program. 125477
Geography and **environmental** *protection.* 125532
Aspects of **environmental** *protection* under conditions of applying agricultural chemicals. 125542
Forest *protection* measures in the range of economy and landscape hygiene. 119440
Helicopters as **frost** *protection* devices [Citrus, vegetables]. 123041
Grain *protection* and pesticide-residues tolerances in India. 116163
Law for *protection* against **immissions** and the lumber industry [Air pollution]. 125438
Clinical-chemical examinations to *protect* **industrialized** dairy production units against metabolic diseases. 119157
Some factors influencing the effectiveness of grain protectants *[Protection* against **insect** attack]. 123556
Legal *protection* of subsurface waters and the problem of wastes. 125571
Windbreaks for **livestock** *protection* in the Central Great Plains. 119403
Windbreaks for **livestock** *protection* in the southern Great Plains. 119404
Investigations on dichlorvos storage space treatment for *protection* of **packaged** food against insects in the warehouse in the Aegean region [Raisins]. 123509
Protection of **peach** shoots against species of Leucostoma [cincta and Leucostoma persoonii] with benomyl and captafol. 122735
Honeybees are the best allies of pomologists even under *protection* **[Peaches,** pollinators]. 124492
Development and *protection* of the **peasant** property within the Italian legislation. 115893
Protection of Great **Plains** shelterbelts from insects [Trees, control]. 119386
Residues of **plant** *protection* agents in food [Quality control]. 116157
The goals of botanical gardens in the sphere of **plant** *protection.* 119879
Appearance and control of yellow rust (Puccinia striiformis) on wheat in the area of the Hanover **Plant** *Protection* Board in 1975. 122669
Effectiveness and limits of using microorganisms in **plant** *protection* as exemplified by the common potato scab [Streptomyces scabies]. 122693
Integrated **plant** *protection* also against fungus diseases. 122795
Distribution of **plant** *protection* granulates in field culture operations. 122907
Agrobiocenosis and **plant** *protection.* 122919
Plant *protection* in ornamental plant culture. 122933
Annual report for 1975 of the Bavarian Institute for Soil Culture and Crop Cultivation and the German Association for Hops Research. 2. **[Plant** *protection].* 122934
Influence of reduced spray amounts in the separate methods of application on the quantity and quality of the layer of spray on hops **[Plant** *protection,* equipment]. 122936
Possibilities of improving the system of **plant** *protection* in the Cesis district of the Latvian SSR. 122946
Our recommendations for spraying in 1976 **[Plant** *protection* in fruit culture]. 122992
Structure and dynamics of user groups in a documentation centre for **plant** *protection.* 122998
1975 annual report on **plant** *protection* [Austria]. 123013
Resistance monitor and control for vacuum evaporation of metals and carbon **[Plant** *protection].* 123025
Mr. Alexandre-Paul Kristof, collaborator in the Laboratory for Agricultural and Horticultural Techniques **[Plant** *protection].* 123033
Current trends of **plant** *protection.* 123045
The role of nicotine in **plant** *protection* [Control of aphids, thrips and whiteflies. 123227
Experiences on the effect of using **plant** *protection* products in forest areas. 123704
Hygienic-toxicological evaluation of single used **plant** *protection* materials in forest areas. 123705
The approval of pesticides for **plant** *protection* with selective qualities to beneficial arthropods and the necessary suppositions for the approval in the Federal Republic of Germany. 123739
Bees and **plant** *protection* treatments [Bees, poisoning, prevention]. 124550
Examination of **plant** *protection* equipment in Austria. 124704
Guidelines on the minimum supply of transportable (pneumatic) sprayers for **plant** *protection* in horticulture. 124705
The **pregnancy** *protecting* effect of progesterone against human chorionic gonadotrophin challenge in mares. 118330
Research *protects* fresh quality [of fruits and vegetables]. 117233
Land **resource** use and *protection.* 115219
From the beginning of European water **resource** *protection.* 5 [Pollution]. 125425
More *protection* against the **risk** of epidemics in large laboratory animal stocks. **Is a** legislative regulation necessary in laboratory animal units? [Swine]. 118652
The use of annual wind barriers [corn rows] for *protecting* **row-crops.** 122100
Research on pesticides and future requirements for chemicals in the *protection* of **stored** products from insect. 123553
Strain rate effects in similitude modelling of plastic deformation of *[protection]* **structures** subject to impact loading [Tractors]. 124741
Effect of *protective* **substances** on the activity of catalase in the mitochondria in winter rye leaves. 121493
Protect your **tobacco** from diseases. 122927
Paint—a **vital** *protective* film [for beehive maintenance]. 124488
Protection of the **viticultural** market [by the European Economic Community] in the new 1975-76 campaign. 115688
Experiences of a water supply enterprise with the operation and use of a **water** *protection* forest. 125202
Importance of **water** *protection* for the permanence of our ecosphere. 125290
Mathematical model for self purification as an instrument of **water** *protection.* 125291

The beginnings of European **water** *protection* [Pollution, Switzerland]. 125426
Protection of **windbreaks** from [tree] diseases. 119387
Winter *protection* of nursery stock [of ornamental plants] Webfoot style [Plastic-covered structures]. 124605
Protection of **woody** plants [from insects] by the method of injection of pesticides [into the stem]. 123449
The ecological function of natural resources parks and *protective* **zones** in the protection of the environment [Forest conservation, pollution control]. 119299

PROTEINASES

Comparisons of some properties of crystalline **acid** *proteinases* produced by the parent and mutant strains of Irpex lacteus Fr. [Fungi]. 120856
Affinity chromatography of Aspergillus [saitoi] **acid** *proteinase* on an N,O-dibenzyloxycarbonyl-tyrosine-AH-sepharose 4B column [Fungi]. 120882
Properties and substrate specificity of *proteinase* from **buckwheat** seeds. 121428
The role of **cell** *proteinases* in the biogenesis of mitochondria [in yeast, Saccharomyces cerevisiae]. 121039
Production of **cell-bound** *proteinase* by Lactobacillus bulgaricus and its location in the bacterial cell [Preparation of fermented milk products]. 116889

PROTEINS

Complex gels of *proteins* and **acid** polysaccharides. 116799
Origins of chromatin **acidic** *proteins* of avian erythroid cells. 117739
Development of fish flavour by the reaction of autoxidized lipids with amino **acids** and *proteins*. 116800
Utilizing a high level of maize grains [Composition, amino **acids,** *proteins].* 117171
Effect of bovine follicular fluid on the relative mobility of bovine **acrosomal** *proteins* in electrophoretic field. 118326
Intervarietal differences in some metabolic functions associated with *protein* **acumulation** in rice grains [in breeding programmes]. 121578
Proteins and **alkyloresorcinols** in rye grain [and other species of Secale; nutritive value as feed]. 121465
All-vegetable *protein* poultry ration. 118139
Protein **alternates** on hand if grain outlook dictates need [Livestock feeding]. 117338
Protein and **amino** acids in the regulation of food intake. 116372
Protein and **amino** acid requirements of the laboratory rabbit. 118111
Japanese quail—a source of valuable **animal** *protein* for masses. 117487
A comparison between the *protein-protein* **association** in caseinate and in rennet-treated caseinate solutions. 116901
Genetic approaches to the stimulation of **bacterial** *protein* synthesis. 116757
Binding *proteins* and transport in Saccharomyces cerevisiae [Yeasts]. 121381
A simple and specific locust [Schistocerca gregaria] *protein* **binding** assay for cyclic 3'5' GMP [guanosine-3'5'-cyclic phosphate]. 123826
Competitive **binding** *protein* assay for juvenile hormone [Manduca sexta]. 123934
Interaction of juvenile hormone with **binding** *proteins* in insect hemolymph [Manduca sexta, Hyloicus chersis]. 123942
The **binding** *protein* as a modulator of juvenile hormone stability and uptake [Manduca sexta]. 123954
An improved protein binding assay for guanosine-3', 5'-monophosphate using a **binding** *protein* from the pupa of the silkmoth, Bombyx mori L. 124481
Studies on nucleic acid and *protein* **biosynthesis** during the embryo development of Argostemma githago. 120957
Contribution of the cell fractionation to the study of *protein* **bodies,** spherosomes, microbodies and microsomes of seeds. 121084
Inclusion of carbon 14 [isotope]-leucine into proteins of *protein* **bodies** isolated from maize caryopses. 121560
Fractionation and amino acid composition of acid-soluble trypsin peptides of inclusion **bodies** *protein* of moth (Galleria mellonella) nuclear polyhedrosis virus. 123827
Comparison of calcium-binding proteins. Bovine heart and **brain** *protein* activators of cyclic nucleotide phosphodiesterase and rabbit skeletal muscle troponin C. 117782
Superloaf *[High-protein* **breads].** 117108
Effect of varying levels of *protein* and **calcium** on the performance of Rhode Island Red caged layers. 118080
Vitamin D-stimulated intestinal calcium absorption may not involve **calcium-binding** *protein* directly. 116489
Comparison of **calcium-binding** *proteins.* Bovine heart and brain protein activators of cyclic nucleotide phosphodiesterase and rabbit skeletal muscle troponin C. 117782
Calcium-binding *protein* in bull seminal vesicle secretion and seminal plasma. 118346
The hydrothermal degradation of cellulosic matter to sugars and their fermentative conversion to *protein* [**Candida** utilis, yeasts]. 121158
Cell-free translation of foot-and-mouth disease virus RNA into identifiable non-capsid and **capsid** *proteins.* 118787
A messenger RNA for **capsid** *protein* isolated from tobacco mosaic virus-infected tissue. 122872
A **carrier** *protein* for juvenile hormone in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with epidermal target tissue in vitro. 123517
The binding of juvenile hormone to larval epidermis: influence of **carrier** *protein* from the hemolymph of Plodia interpunctella. 123953
Purification and characterization of the **carrier** *protein* for juvenile hormone from the hemolymph of the tobacco hornworm Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018
Cellulose acetate electrophoresis of **casein** *proteins* [of milk]. 116852
Toxic [wheat] *proteins* and **celiac** disease. 116272
Single **cell** *proteins* from cellulose and hydrocarbons [Fungi, bacteria]. 116750
Follicle **cell** *protein* synthesis and its contribution to the yolk of the Cecropia moth oocyte. 123876
Protein **changes** in response to temperature stress in papulaspora thermophila [Fungi]. 121288
Serum vitamin B12 levels in *protein-malnourished* **children.** 116498
Effects of estrogen on gene expression in chick oviduct. The role of **chromatin** *proteins* in regulating transcription of the ovalbumin gene. 118340
Cellular composition during recovery from **chronic** *protein* deprivaton in gastrocnemius muscle in rats. 116500
Enzymatic removal of the 5' terminal methylated blocked structure of tobacco mosaic virus RNA and its effects on infectivity and reconstitution with **coat** *protein.* 122834
Sites of **coat** *protein* accumulation in turnip yellow mosaic virus-infected cells. 122878
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia **coli** *protein* synthesis. 121052
Pterin-protein **complex** and ferredoxin as possible components of a molecular complex in Photosystem I [Chloroplasts]. 120943
Cation effects on light-induced chlorophyll a fluorescence in chloroplasts lacking both chlorophyll b and *chlorophyll-protein* **complex** II [Barley]. 121538
Membrane polypeptides and *chlorophyll-protein* **complexes** of maize mesophyll chloroplasts. 121440
Effect of succinic acid on *protein* **complexes** in seeds [Mung beans]. 121615
Protein **component** in sieve elements of Quercus rubra L. 120548
Cereal grains: their *protein* **components** and nutritional quality. 116556
The *protein* **composition** of glial and nerve fibers [Bovine brains]. 117681
Protein **composition** in the fluid of individual bovine follicles. 117836
Energy and *protein* **composition** of broiler rations. 1. [Effects on chicken growth and carcass quality]. 118165
Energy and *protein* **composition** of broiler rations. 2 [Effects of feed intake]. 118166
Effect of superinvasion on the *protein* **composition** of the blood serum from chicks with coccidiosis caused by Eimeria tenella. 118931
Feeding value of artemisia rhodantha according to the amino acid **composition** of *proteins.* 121489
Protein and other **compositional** analyses of Saccharomyces fragilis [yeasts] grown on coconut water waste. 116773
Ultrastructural changes in germinating Dicranum scoparium: a moss **containing** *protein* storage material [Musci]. 120435
Fat and *protein* **content** of milk in a large production area of Switzerland. 116924
Protein **content** of the 1976 brewing barley. 117078
Variation in *protein* **content** of soybean meal [Quality control, Arkansas]. 117340
Protein **content** in spring wheat varieties and its inheritance by hybrids. 120831
Correlation between *protein* **content** and cell elongation in setae of Lophocolea heterophylla [Hepaticae] sporophytes. 121186
Neutral sugar, uronic acid, cellulose, and *protein* **content** of cell walls isolated from gametophytes of the liverworts Lophocolea heterophylla and Conocephalum conicum. 121187
Qualitative analysis by isoelectric focusing of the *protein* **content** of Pharbitis nil apices and cotyledons during floral induction. 121322
Alteration of *protein* **content** in plants [of barley, oats and winter rye] in relation to the methods of its determination, fixation and temperature of drying of the plant material. 121397
Soil, plants and protein [Effect of the properties of SodPodzolic soils on the *protein* **content** in field crops]. 121406
Effect of nitrogen and zinc on yield, *protein* **content** and quality of wheat in Egypt. 121514
Effects of fertilizer N [nitrogen] and number of years in tillage on the protein and *non-protein* **content** of feeding barley grain (cv. [Cultivar] Nessa) and on N uptake and recovery. 125015
Effects of fertilizer nitrogen and number of years in tillage on the *protein* **content** of feeding barley straw (cv. [Cultivar] Nessa) and on N uptake and recovery. 125016
Controlling *protein* evolution [Saccharomyces cerevisiae, yeasts, mutation]. 120627
The final program of the National Research Council for non **conventional** *protein* foods. 116553
Copper-binding *protein* in rat intestine: amino acid composition and function. 116501
Evidence for a function of **core** *protein* in complex III from beef heart mitochondria. 117661
Effect of malnutrition on **cortisol-binding** *protein* in the lens of cynomolgus monkeys. 116453
Aqueous solvents for extracting glanded **cottonseed** *protein* without gland rupture. 117127
Cottonseed *protein* [Cottonseed meal, ruminant feed]. 117331
Protein **crystals** and bundles of tubules in yeast cells. IV. Biochemical and electronmicroscopical studies on the induction of crystals of alcohol dehydrogenase (ADH) [Saccharomyces carlsbergensis]. 121389
Cuticla *protein* in Locusta migratoria. 123866
A requirement for **cytoplasmic** *protein* synthesis during chloroplast senescence in the aquatic plant anacharis canadensis. 121317
Postprandial glucose, insulin, free fatty acid and growth hormone responses in [Peruvian mestizo] children consuming all the **day's** *protein* in one meal. 116289
Postprandial glucose, insulin, free fatty acid and growth hormone responses in children consuming all the **day's** *protein* in one meal. 116293
The effect of carbohydrates and fats in the diet on the intensity of lipid metabolism changes in *protein* **deficiency.** 116570
Testis metabolism in *protein* **deficiency:** effect of PMS [pregnant mare serum] gonadotrophin and testosterone propionate [Rats]. 117766
Response of the prostatic complex of *protein* **deficient** rats to sex hormones. 118336
Role of *protein* **degradation** in the growth of livers after a nutritional shift [Mice]. 116299
Effect of varying levels of **dietary** *protein* on tumor development and lipid metabolism in rats exposed to aflatoxin. 116184
Interrelationships between the quality of **dietary** *proteins* and the functional state of the adrenal cortex. 6. Interrelationships between amino transferase activity and the functional state of the adrenal cortex [Rats]. 117985
Interrelationships between the quality of **dietary** *proteins* and the functional state of the adrenal cortex. 7. Relationships between the activity of some selected hydrolases in the liver and small intestine and the functional state of the adrenal cortex [Rats]. 117986
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the **dietary** *proteins.* 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the **dietary** *protein.* 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the **dietary** *proteins.* 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Effects of **dietary** *protein* and lysine levels on plasma amino acids, nitrogen retention and egg production in laying hens. 118103
The potential effects of various fat and *protein* **differentials** on returns to selected dairy farmers [Prices]. 115560
Proteins in **Drosophila** melanogaster. 123839
Using **edible** *protein* casings for sausages in vacuum-packed, air-tight containers. 117002
Soil, plants and *protein* [**Effect** of the properties of SodPodzolic soils on the protein content in field crops]. 121406
Protein quality of mechanically deboned poultry meat as measured by rat PER *[Protein* **efficiency** ratio]. 116509
The influence of breed of rat on *protein* **efficiency** ratio (PER), skeletal muscle and adipose tissue growth. 116510
Effect of different methods of processing on the *protein* **efficiency** ratio of the green alga Scenedesmus acutus [for human consumption]. 117157
Biological evaluation of soy residue protein: studies on PeR *[protein* **efficiency** ratio], plasma and tissue protein level and growth response in albino rat. 118076
Arterial **elastin** *[Protein].* 116275
Protein and **energy** requirements for the sow. 118167
Whey makes it richer *[Protein* **enriched** food products]. 116273
Utilization of *proteins* by the **equine** species [Feeding]. 117969
Barley breeding for a higher content of *proteins* and **essential** amino acids; review. 120839
Protein **estimation** in sesame seed and rapeseed flours and meals by a modified Udy dye binding method. 116406
Leucaena leucocephala—an **evergreen** *protein-rich* tree fodder and the possibility of using it in the dietary of animals. 1. Sheep. 118081
Abortion and cannibalism in squirrel monkeys (Saimiri sciureus) associated with **experimental** *protein* deficiency during gestation. 119143
Scalded sausage manufacture in the meat trade. 6. Scalded sausage with coarse fillers, crackling processing with and without **extraneous** *protein,* and frozen meat processing. 116954
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted skim milk powder containing added *proteins,* **fat,** calcium, phosphate and citrate. 118038
Changes in *protein,* **fat** & glycogen in the larvae of rice moth Corcyra cephalonica St. during nuclear polyhedrosis virus infection. 123968
Quality control of *protein* **feed** ingredients in poultry. 117373
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in **feed** *proteins.* 117991

Substitution of *proteins* [in **feed**]. 118183
Plasma amino acids in reptiles after **feeding** *protein* or amino acids and after injecting amino acids. 116437
Proteins in **feeding** domestic animals. 118160
Substitution of lysine supplemented high protein wheat in *protein* **feeds** fed in the rearing and during the laying period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high protein wheat in *protein* **feeds** fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Amino acid composition of 12 kinds of deep-sea **fish** *proteins*. 116783
Interaction of Tenebrio molitor L. Alpha-amylase with a wheat **flour** *protein* inhibitor. 123912
Bioengineering: tasks, bases and technique *[Protein* **food** from plants]. 116716
Biotechnology: tasks, bases and technique [**Food** *protein* from algae and plants]. 116717
Manufacture of scalded sausage in the meat trade. 5. Use of **foreign** *proteins* and preparation of fat emulsions. 116948
Changes in the total protein and the *protein* **fractions** in cow's milk treated with ultraviolet rays. 116925
Enzymatic activity of *protein* **fractions** excreted by potato stem nematode [Ditylenchus destructor]. 123003
Amino acids limiting the nutritional value of rye **grain** *protein* [Varieties, testing, Poland]. 121932
The chemical modification of *proteins* by **group-specific** and site-specific reagents. 116816
Free amino acids & *proteins* of the **haemolymph,** Hepatopancreas & muscle of the scorpion Heterometrus scaber (Thor.). 123971
Histochemical characterization of the **hemolymph** *proteins* from the cocoons of Formica species by polyacrylamide electrophoresis. 123979
Protein quality of **high** *protein* wheats for young children. 116522
Substitution of lysine supplemented **high** *protein* wheat in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented **high** *protein* wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Effect of feeding **high** *protein* prestarter ration on the performance of broilers. 118079
Proteins in **human** nutrition and dietics. 116550
Disc microbiological method for the determination of lysine or methionine in *protein* **hydrolysates** [Nutritional quality]. 116504
An **improved** *protein* binding assay for guanosine-3', 5'-monophosphate using a binding protein from the pupa of the silkmoth, Bombyx mori L. 124481
The *proteins* of **inclusion** bodies of Baculoviruses. IV. Study of seven polyhedrosis of Lepidoptera. 123907
Protein **inhibitor** of [chick] kidney 25-hydroxyvitamin D3-1hydroxylase. 116521
International *protein* detente [Neutron activation analysis systems, plant materials]. 116695
Enzymatic proteolysis of monellin [Dioscoreophyllum cumminsii] absence of sweet peptides [**isolated** from *protein].* 116767
Substitution of rapeseed meal for soybean meal as a source of *protein* for **lactating** cows. 118040
The surface and function of the *protein* **layer** of Ascaris suum eggs. 118665
In vitro digestibility of some **leaf** *protein* preparations using papain. 116505
Functional properties of succinylated and acetylated [alfalfa] **leaf** *protein* [for food use]. 117122
The yields of **leaf** *protein* and fibre that can be obtained from fractionation of berseem (Trifolium alexandrinum L.) [egyptian clover]. 117351
Status of **leaf** *protein* in India. 118482
Cellulose acetate electrophoresis of soluble **lens** *proteins* of different species of mammals; the use of discontinuous buffer systems [Rats, mice, cattle, sheep]. 117633
Influence of different initial and final *protein* **levels** on productive and reproductive activities of turkeys. I. Weight, growth, conformation, feed and water consumption. 117976
Influence of different and final *protein* **levels** on productive and reproductive activities of turkeys. II. Dressing percentage and carcass composition. 117977
Decreased plasma insulin but normal glucagon in rats fed **low** *protein* diets. 116423
Uterine **luminal** *proteins* at the time of implantation in rats. 118362
A comparison of chemical methods for the determination of available **lysine** in various *proteins.* 116763
A simplified method of determining the content of **meat** *protein* free of connection tissue protein in meat products. 116970
Status of fat globule **membrane** *proteins* in sterilized and chilled buffalo milk. 116886
Organization of **membrane** *proteins* in the intact myelin sheath. Pyridoxal phosphate and salicylaldehyde as probes of myelin structure [Cats]. 117788
Study of amino acid composition and biosynthesis of **membrane** *proteins* in chloroplast biogenesis. 120946
Recent findings on *protein* **metabolism** in swine during fattening, with particular reference to correlations with pork quality. 117857
The effect of ammonia gas on some indexes of the *protein* **metabolism** of broilers. 117949
Characteristic data on the kinetics of *protein* **metabolism** as determined in studies with l5N [nitrogen isotope] labelled feeds [Rats]. 117981
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between *protein* **metabolism** data and the content of amino acids in feed proteins. 117991
Protein **metabolism** in broiler tissues at different levels of energy in feeding rations. 118173
Early post-embryonic changes in *protein* **metabolism** and DNA synthesis in the thymus of chicks, normal and infected with Salmonella pullorum; autoradiographic study. 118928
Analysis of serum arginase activity: possible applications in industrialized livestock production [to detect disorders in *protein* **metabolism**]. 119150
Peculiarities of *protein* **metabolism** in maize green leaf in relation to heterosis. 120809
Regulation of *protein* **metabolism** during spore germination [Fungi]. 121124
Influence of roughage level and corn processing method on **microbial** *protein* synthesis by beef steers. 118096
Optimization of reaction kinetic processes in the food industry, shown by example of the precipitation of **milk** *protein.* 116898
Coefficients of repetition of the content and amount of **milk** *protein* and fat [Study of dairy cow productivity]. 116921
Investigations into the action of skim milk powder and hydrolysed **milk** *protein* with a view to lowering the level of nitrite added to heat-sterilised meat products. 116980
Quality of *protein* in **milk** replacers for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from reconstituted skim milk powder. 118035
Quality of *protein* in **milk** replacers for young calves. II. Effects of heat treatment of skim milk powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of *protein* in **milk** replacers for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of skim milk powders and commercial milk replacers. 118037
Quality of *protein* in **milk** replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of reconstituted skim milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Experiences concerning the energy, *protein* and **mineral** requirements of laying geese. 118017
The activity of succinate dehydrogenase, content of lipoids and *protein* in the **mitochondria** of winter wheat [Varieties]. 121497
Mitochondrial biogenesis during fungal spore germination: products of **mitochondrial** *protein* synthesis in vivo [Botryodiplodia theobromae]. 120903
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] **mitochondrial** *protein* synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Effects of fertilizer N [nitrogen] and number of years in tillage on the *protein* and **non-protein** content of feeding barley grain (cv. [Cultivar] Nessa) and on N uptake and recovery. 125015
Soybeans, an important source of *proteins* and **oil.** 117169
Great Britain: *proteins,* **old** and new [Meat]. 116329
Characteristic of water-soluble fraction of *proteins* from **organs** of plants infested by root-knot nematodes [Vegetable and melon crops]. 123001
Formyl-methenyl-methylenetetrahydrofolate synthetase-(combined), an **ovine** *protein* with multiple catalytic activities. 117785
Oxidized *lipids-proteins* browning reaction. II. Effect of the protein substrate [Fish oil rancidity]. 116256
Urea phosphate as a **partial** *protein* replacer in sheep concentrate diets. 117975
Effect of 16 **percent** *protein* starter diets on subsequent performance of growing and laying single-comb White Leghorn pullets. 118178
Haymaking speed, blade-stem ratio and *protein* **percentage** in the blades and stems of some perennial tropical legumes and molasses-grass [Varieties, Melinis minutiflora]. 121886
Gel electrophoretic studies of *proteins* in **photo-induced** and vegetative plants of Impatiens balsamina. 121755
The importance of **plant** *protein* in human nutrition. 116320
Early history of the **plant** *protein* industry [Soybeans]. 117090
The changing climate for **plant** *protein* foods: 1965-1976. 117091
Precipitation of *protein* in the **presence** of melanoidin [Pigment in soy sauce]. 117059
Pectic and *protein* **problems** in depectinized raspberry juice. 117268
Energy efficiency of *protein* **production** in the common field bean (Phaseolus vulgaris). 115322
Inclusion of carbon 14 [isotope]-leucine into *proteins* of **protein** bodies isolated from maize caryopses. 121560
Protein **quality** of mechanically deboned poultry meat as measured by rat PER [Protein efficiency ratio]. 116509
Protein **quality** of high protein wheats for young children. 116522
Protein **quality** of precipitate from waste effluent of potato chip processing measured by biological methods. 117278
Changes of sensory value by interaction of alkanals with amino acids and *proteins* [**Rancid** flavour of fat-containing foods]. 116231
Prospects for agriculture to adapt itself to new patterns of food production—primarily as **regards** *protein* supply [Outlook]. 115932
Physiological studies on the effects of nutritional imbalance on the central nervous system: effects of thiamine deficiency on the **regional** *protein* metabolism in the brain of chicken, Gallus domesticus. 117642
Combining ability of winter soft wheat varieties for the amount and quality of *protein* in **relation** to the creation of heterotic hybrids. 120697
Protein **requirments** for White Leghorn hens with fish meal and peanut meal as nitrogen sources. 117967
Biological evaluation of soy **residue** *protein:* studies on PeR [protein efficiency ratio], plasma and tissue protein level and growth response in albino rat. 118076
Synthesis of RNA and *protein,* with **ribonuclease** activity, in carrot roots infested with Meloidogyne hapla Chitw. [Nematodes]. 123014
Action of ricin from Ricinus communis L. [Castorbean] seeds on eukaryote **ribosomal** *proteins.* 121049
Spirulina, a food alga **rich** in *proteins.* 116822
Developmental changes of *protein,* **RNA,** DNA, lipid, and glycogen in the liver, skeletal muscle, and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of **salt-soluble** *proteins* from seeds of some varieties of lentils. 117320
Application of research on **seed** *proteins* in the area of nutrition and medical research. 116387
Seed *proteins* in plant taxonomy and phylogeny. 120053
Study of *proteins* from **seeds** of pulses. 3. Disk-elektrophoretic study of salt-soluble proteins from seeds of some varieties of lentils. 117320
Serum *protein* synthesis in the early chick embryo. 117647
Identification of bovine **serum** *proteins* by quantitative immunoelectrophoretic methods. 117928
Egg productivity of chickens from the 444th cross as related to the types of blood **serum** *proteins.* 118301
Polymorphism of blood **serum** *proteins* from chickens of the 444th cross [Genetical markers]. 118306
Fractional composition of **serum** *proteins* of cattle sick with leucosis. 118545
Production of **single-cell** *protein* by the cultivation of yeast [Candida utilis] in anaerobic digester supernatant supplemented with carbohydrates. 116722
Heterogeneity of **soluble** *proteins* from the cytoplasm in leaves of wintering plants [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Changes in **soluble** *proteins* in potato leaves infected with Phytophthora infestans. 122741
Changes in **soluble** *proteins* in callus cells of hypersensitive tobacco inoculated with tobacco mosaic virus. 122838
Changes in the **soluble** *protein* constitution of cucumber cotyledons following infection with two strains of cucumber mosaic virus. 122852
Chemical composition of a hydrolyzed leather as a *protein* **source** [for animal nutrition]. 117389
Yeasts grown on normal alkanes as *protein* **source** for dairy cows. 117978
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as *protein* **source** in conjuction with whole wheat meal in a type of liquid feed. 117996
House fly [Musca domestica] larvae as *protein* **source** [for feed] from pig manure. 124150
The use of pasture for beef production. 3. Different *protein* **sources** for molasses/urea supplementation to bulls during the dry season. 118050
The *proteins* of **sowthistle** [Sonchus oleraceus] yellow vein virus [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847
Soy *proteins* in confectionery products. 117107
Nitrogen retention in men fed isolated **soybean** *protein* supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or inorganic sulfate. 116435
Plasma amino acids of infants consuming **soybean** *proteins* with and without added methionine. 116436
Induction of **specific** *proteins* in hyphae of Achlya ambisexualis by the steroid hormone antheridiol [Fungi]. 121296
The mechanism of synthesis of **storage** *proteins* in opaque-2 maize analogs. 120817
Subgroup-specific antigenic determinants of avian RNA tumor virus **structural** *proteins:* analysis of virus recombinants. 119040
The **structural** *proteins* of equine arteritis virus. 119042
Effect of *protein* **substitution** on nonenzymatic browning in an intermediate moisture food system. 116766
Oxidized lipids-proteins browning reaction. II. Effect of the *protein* **substrate** [Fish oil rancidity]. 116256
The ribosomes of Drosophila. IV. Electrophoretic identity among ribosomal **subunit** *proteins* from wild type and mutant Drosophila melanogaster and Drosophila simulans. 124088
Effect of different simazine doses on the content of nitrogen fractions and the amino acid composition of *proteins* in **summer** barley grains. 123191

Concentration and composition of *proteins* of **swine** blood serum as affected by different factors (review). 117931
Field beans as a source of *protein* for **swine** production. 118122
Effects of food deprivation on *protein* **synthesis** and degradation in rat skeletal muscles. 116290
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the liver, skeletal muscle, and brain of the piglet. A methodological and experimental study with special reference to *protein* **synthesis.** 117528
Effect of bovine parvovirus replication on DNA, RNA, and *protein* **synthesis** in S phase cells. 119038
Gibberellic acid-induced germination of spores of Anemia phyllitidis: nucleic acid and *protein* **synthesis** during germination [Pteridophyta]. 120865
Studies on frost hardiness in Chlorella ellipsoidea [Algae]. II. Effects of inhibitors of RNA and *protein* **synthesis** and surfactants on the process of hardening. 121325
The influence of a *protein* **synthesis** inhibitor on the acceptance and eventual dependance of the meristematic cells of Allium sativum L. [Garlic] on dimethylsulfoxide. 121596
Changes in the intensity of *protein* **synthesis** in the embryo axes of northern red oak (Quercus borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
The effects of juvenile hormone on imaginal discs of Drosophila in vitro: the role of the inhibition of *protein* **synthesis.** 123956
Nutritional value and acceptability by humans of vegetable **textured** *proteins.* 116546
There's *protein* in Brassica [carinata, analysis]. 117214
A simplified method of determining the content of meat protein free of connection **tissue** *protein* in meat products. 116970
Determination of the rate of synthesis and catabolism of **tissue** *proteins* in chickens. 117932
Biological evaluation of soy residue protein: studies on PeR [protein efficiency ratio], plasma and **tissue** *protein* level and growth response in albino rat. 118076
Changes in the **total** *protein* and the protein fractions in cow's milk treated with ultraviolet rays. 116925
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a **toxic** *protein* inactive on Escherichia coli protein synthesis. 121052
Peculiarities of tRNA that translate the synthesis of soluble and **unsoluble** *proteins* of the chloroplasts. 121348
Uterine *proteins* and development in vitro of rabbit preimplantation embryos. 118363
Protein **utilization** of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein **utilization** of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein **utilization** of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Protein **utilization** in calves during different periods of liquid feed fattening. 117992
Protein **utilization** as affected by Mecadox [feed additive, swine]. 118149
Brazilnut flour; **value** of its *protein.* 117316
Problems related to flavoring **vegetable** *protein* analogs. 116696
Better texture for **vegetable** *protein* foods. 117250
Amino acid and fractional composition of *protein* of the **vegetative** mass of maize at different levels of mineral nutrition and water supply. 121575
Effects of **viral** *protein,* viral RNA, and some other polyelectrolytes on infection of tobacco protoplasts by TMV [tobacco mosaic virus]. 122875
The hand of the stacked-disk aggregate of tobacco mosaic **virus** *protein.* 122848
Serological demonstration of **virus-specified** *proteins* associated with cucumber mosaic virus infection of cucumber cotyledons. 122855
Introduction of wheat-Agropyron hybrids of a forage-grain type in Donbass [Yield, *protein* and **vitamins** content]. 121434
Physical-chemical methods for the recovery of *protein* from **waste** effluent of potato chip processing. 117277
Genetics to the rescue [to increase **wheat** *protein].* 120575
The cleaning of tubular cellulose acetate ultrafiltration membranes [**Whey** *proteins,* cleaning procedure]. 116911
Characterization of bovine **whey** *proteins* by crossed immunoelectrophoresis. 116922
Contribution to the problem of whey evaluation. Manufacture of model cheeses with the addition of **whey** *proteins.* 116923
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured **whey** *protein* nitrogen content of skim milk powders and commercial milk replacers. 118037
Proteins of **yeasts** cultivated on alkanes. 116551

PROTEOLYTIC

Proteolytic **activity** of Macromycetes [Fungi]. 120894
Casein *proteolysis* in Mozzarella-type cheese. 116906
Molecular forms of neurotoxins in *proteolytic* **Clostridium** botulinum type B cultures. 116170
Evaluation of the lipolytic and *proteolytic* **effects** of strains of the genus Bacillus [obtained from frankfurter and liver sausages] under laboratory conditions. 116114
Enzymatic *proteolysis* of monellin [Dioscoreophyllum cumminsii] absence of sweet peptides [isolated from protein]. 116767
Proteolytic **enzyme,** bound to aspartate transaminase from pig heart cytosol. 117609
Influence of urea on *proteolytic* **enzyme** of cultivated land. 125012
Secretion of *proteolytic* **enzymes** flowing introduction of nutrients into the duodenum and jejunum [Dogs]. 116568
Variation of nitrogenous fractions and of *proteolytic* **enzymes** in green, dried, cured and stored malts. 116687
Inhibitors of *proteolytic* **enzymes** and seed proteases. 121086
Influence of the action of *proteolytic* **vegetable** enzymes on meat. 117027

PROTHORACIC *see* THORACIC

PROTHROMBIN

Pig *prothrombin:* purification and properties. 117601
Application of ursokoxalin and vitamin K3 substitution to influence **relative** *prothrombin* concentration in laying hybrids with Eimeria tenella infection. 118825

PROTOBERBERINE

Reactions of *protoberberine-type* **alkaloids.** XI. Synthesis of optically active ochotensanes. 121368

PROTONS

Effect of adenosinetriphosphatase and conditions of phosphorylation on the H+/3- [Hydrogen, electron] relation and *proton* **exchange** of isolated chloroplasts [Peas]. 121636
The relationship between *proton* **fluxes** and the regulation of electron transport in [spinach] chloroplasts. 121646
Effects of monovalent cations on IAA [indoleaetic acid]-and FC **[fusicoccin]-stimulated** *proton-cation* exchange in pea stem segments. 121762
A *proton* **magnetic** relaxation study of the interaction of isolated sheep methaemoglobins A, B and C with inositol hexaphosphate. 117748

PROTOPECTIN

Degradation of the texture of fruits processed in syrup. Study on the hydrolysis of *protopectin* of **apricots.** 117267

PROTOPLASTS

Uptake and continued metabolic activity of Azotobacter within **fungal** *protoplasts* [of Rhizopogon]. 121354
Somatic hybridisation of Penicillium roquefortii with Penicillium chrysogenum after *protoplast* **fusion.** 120787
Plants with new properties through *protoplast* **fusion** [Genetics]. 120846
Increase in microviscosity with ageing in *protoplast* **plasmalemma** of rose petals [Rosa]. 121739
Effects of viral protein, viral RNA, and some other polyelectrolytes on infection of **tobacco** *protoplasts* by TMV [tobacco mosaic virus]. 122875
Localization of mannan at the surface of **yeast** *protoplasts* by scanning electron microscopy [Saccharomyces cerevisiae, candida utilis]. 120912

PROTOTYPES

Closer to the dream *[Prototype* **cotton** processing system to continuously process raw cotton stock into yarn]. 117061

PROTOZOA

The fine structure of merozoites of Babesia bovis in the gut epithelium of Boophilus microplus [Ticks as vectors of *protozoan* **diseases** of cattle]. 123653
Biochemical analysis of axostyle motility [obtained from *protozoa* in the **hindgut** of Cryptocercus punctulatus]. 123871
The **intestinal** *protozoa* of the wood-feeding roach Cryptocercus. II. Symbionts. 124076
Effects of differential solid-liquid removal rates on *protozoa* **numbers** in continuous cultures of rumen contents. 117768
Studies with dairy cows investigating the dietary effect of compressed straw + concentrates prepared from crude and NaoH [sodium hydroxide] treated cereal straw. 2. Composition of ruminal fluid and *protozoa* **population.** 118007
Effect of the abiogenic link on the predator *[Protozoa]* **population** in the development of a simple coenosis in a chemostat [Yeasts and bacteria as prey]. 121029

PRUNES

1975 world raisin and fig outturns up; currant and *prune* **crops** smaller [Statistics]. 115630
Hormonal bioassay of **French** *prune* (Prunus domestica L.) seed and pericarp. 121707
Identification of gibberellin A29 and evidence for abscisic acid in extracts from fruits of immature **French** *prune* (Prunus domestica L.). 121708

PRUNING

Growth and branching of young cottonwoods [Populus **deltoides**] after *pruning.* 121835
Pruning **experiment** with raspberry. 122410
Investigations on the rootstocks of apple trees **grown** without *pruning.* 122310
Responses of vigorous 'Delicious' apple trees to *pruning* and **growth** regulator treatments. 121715
Pruning **pears** with shakers [Costs, mechanical harvesting equipment]. 115475
Studies on the physiology of pruning tea. 2. The effect of soil cultivation and resting on **recovery** after *pruning.* 122550
Pruning and **rejuvenation** [Olives]. 122174
Training and *pruning* **stone** fruit. 122491
Studies on the physiology of *pruning* **tea.** 2. The effect of soil cultivation and resting on recovery after pruning. 122550

PRUNUS

Seasonal development of symptoms of noninfectious bud-failure in **almond** *(Prunus* amygdalus Batsch). 122970
Effects of temperature and genotype on pollen tube growth in some self-incompatible and self-compatible almond cultivars *[Prunus* **amygdalus].** 121704
Gibberellin-like substances in the endosperm-nucellus tissues of the developing almond, *Prunus* **amygdalus** Batsch cultivar Jordanolo. 121706
The almond tree *[Prunus* **amygdalus]** in the southwestern Andalucia: notes on almond trees. 122176
Propagation of walnuts, almonds and pistachios in California [Juglans, *Prunus* **amygdalus,** Pistacia]. 122245
Effect of eradicant and protectant sprays on differentiation of conidia of Monilia cinerea (Bon.) Schroet on almond *[Prunus* **amygdalus,** brown rot]. 122632
Evaluation of chilling requirements of almond *[Prunus* **amygolalus]** varieties for breaking dormancy. 121591
Latent infections and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of three Prunus [cerasifera, Prunus mahaleb, *Prunus* **avium**] species. 122810
Forms of **blackthorn** *(Prunus* spinosa L.) with coloured flowers growing in Poland. 119941
Endogenous plant growth substances in developing fruit of *Prunus* **cerasus** L. [Sour cherry]. V. Changes in inhibitor (ABA) [abscisic acid] levels in the seed and pericarp. 121705
Latent infections and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of three Prunus [cerasifera, *Prunus* **mahaleb,** Prunus avium] species. 122810
Structural properties of polysaccharides from gums of some different cultural varieties of the **peach** *Prunus* persica (L.)Bartsch. 121610
Hormonal bioassay of French **prune** *(Prunus* domestica L.) seed and pericarp. 121707
Identification of gibberellin A29 and evidence for abscisic acid in extracts from fruits of immature French **prune** *(Prunus* domestica L.). 121708
Cherry, plum, peach, apricot and almond: *Prunus* spp. **(Rosaceae).** 122352
Prunus **serrula** [Ornamental trees]. 122277
Differentiation of self-fertility and self-sterility in *Prunus* by **stamen** number/pistil length ratio. 121664
Latent infections and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of **three** *Prunus* [cerasifera, Prunus mahaleb, Prunus avium] species. 122810

PSEUDOCOCCUS

Chemistry of the Coccoidea. II. Condensed polycyclic pigments from two Australian pseudococcids (Hemiptera) [Nipaecoccus aurilanatus, *Pseudococcus* **albizziae**]. 123824

PSEUDOMONAS

Antibiotic-resistant bacteria *[Pseudomonas* **aeruginosa,** Pseudomonas putida, or Pseudomonas fluorescens] in raw meat from retail markets. 116196
Pseudomonas **aeruginosa.** III. Identification of strains isolated from blue foxes (Alopex lagopus) in a Danish fur farm. 118863
Pseudomonas **aeruginosa** as the causative agent of infections in birds [Chickens]. 118994
Metabolism of o-phthalic acid by different gram-negative and gram-positive soil bacteria [Nocardia, **Arthrobacter,** *Pseudomonas].* 124775
Antibiotic-resistant bacteria [Pseudomonas aeruginosa, Pseudomonas putida, or *Pseudomonas* **fluorescens**] in raw meat from retail markets. 116196
Etiology of brown bacteriosis of winter wheat *[Pseudomonas,* **Pectobacterium].** 122812
Antibiotic-resistant bacteria [Pseudomonas aeruginosa, *Pseudomonas* **putida,** or Pseudomonas fluorescens] in raw meat from retail markets. 116196
Study of phytotoxic properties of *Pseudomonas* **putida,** strain 2181 [Soil-borne bacteria]. 122802
Pseudomonas **pyocyanea** in the urogenital tract of a bull. 118736
Association between elemental content of dormant peach trees and susceptibility to short life [Predisposition to cold injuries and bacterial canker, *Pseudomonas* **syringa].** 122964

The effect of iron on growth and bacterial canker *[Pseudomonas* **syringae**] susceptibility of peach seedlings. 122803

PSEUDOPEZIZA
Disease control in with culture-roter brenner of grape [caused by *Pseudopeziza* **tracheiphila**]. 122691

PSEUDORABIES
Development of a method for reproducing the *pseudorabies* **virus.** 119022

PSEUDOSCORPIONIDA
Two new genera of Chthoniidae from Chile: Chiliochthonius and Francochthonius **(Arachnida,** *Pseudoscorpionida).* 124264

PSEUDOTSUGA
The culture of Douglas **fir** *(Pseudotsuga* menziesii). 119597
Douglas **fir** *(Pseudotsuga* menziesii (Mirb.) Franco) provenances experiment; preliminary results [of introduction to Quebec Province]. 119605
Differences in winter drying resistance of Douglas fir *[Pseudotsuga* **menziesii]** provenances [Damage]. 119371
1975: the year of the Douglas fir *[Pseudotsuga* **menziesii** menziesii, silviculture]. 119558
Some factors affecting propagation of Douglas fir *[Pseudotsuga* **menziesii].** 119567
Differential staining of tannin in sections of epoxy-embedded plant cells *[Pseudotsuga* **menziesii,** Pinus taeda]. 120569
Differentiation of adventitious buds on Douglas-fir *[Pseudotsuga* **menziesii]** embryos in vitro. 121804
Relationship of shoot-root ratio to survival and growth of outplanted Douglas-fir *[Pseudotsuga* **menziesii]** and ponderosa pine seedlings. 121836
Investigations into the fungicidal effect of cuprous oxide against Phaeocryptopus gaeumannii on Douglas fir *[Pseudotsuga* **menziesii]** seedlings. 122668
Distribution and pathogenicity of Fusarium oxysporum in a *[Pseudotsuga* **menziesii]** forest nursery soil. 122727
Douglas fir tussock moth [Orgyia pseudotsugata] egg hatch and larval development in relation to phenology of grand fir and Douglas-fir [Abies grandis, *Pseudotsuga* **menziesii]** in northeastern Oregon. 123502

PSEUDOTUBERCULOSIS *see* TUBERCULOSIS

PSILOCYBE
Detection of psilocybin in species of *Psilocybe,* **Panaeolus** and Psathyrella [Fungi]. 121251

PSOCOPTERA
Termites and book lice (Isoptera and *Psocopters)* **discovered** by pest controllers and introduced into the German Federal Republic. 123583
Epipsocopsis mouldsi sp. N. Representing a **family** *(Psocoptera:* Epipsocidae) new to Australia. 124232
Discovery of the male of Psoculus neglectus (Roesler) in **tunisia** *(Psocoptera,* Mesopsocidae). 124339

PSOROPTES
Ear mites *[Psoroptes]* in a **horse.** 123639

PSYCHODIDAE
Studies on the Phlebotominae of Peru (Diptera, *Psychodidae).* I. **Cuzco** Province. 1. description of three new species [Lutzomyia cuzquena, Lutzomyia machupicchu, Lutzomyia quechua, leishmaniasis transmission]. 124419
Studies on the Phlebotominae of Peru (Diptera, *Psychodidae).* I. **Cuzco** Province. 2. description of the females of Lutzomyia campbelli and Lutzomyia sherlocki, and redescription of the male and description of the female of lutzomyia octavioi. 124420
Studies on the Phlebotominae of Peru (Diptera, *Psychodidae).* I. **Cuzco** Province. 3. description of the male and redescription of the female of Lutzomyia (Psychodopygus) amazonensis (Root, 1934), and list of species collected [Leishmaniasis transmission]. 124421

PSYCHOLOGY
Medical *psychology* and veterinary medicine. 118440
Social and *psychological* **peculiarities** of different group of rural population and ideological activities. 115166

PSYCHROPHILIC
Occurrence and thermoresistance of spores of *psychrophilic* and **psychrotrophic** aerobic sporeformers in soil and foods. 124835

PSYCHROTROPHIC
Occurrence and thermoresistance of spores of psychrophilic and *psychrotrophic* **aerobic** sporeformers in soil and foods. 124835

PSYLLIDAE
Disappearance of citrus. Is there only hope in controlling citrus **leaf** *psylla* [Trioza erytreae] with insecticides? 123385
Trioza chrysanthemi Law (Homoptera, *Psyllidae)* **new** to Norway. 124384

PSYLLOIDEA
Jumping plant lice of the tribe Ciriacremini (Homoptera: *Psylloidea)* in the **Ethiopian** region [New taxa]. 124247

PTERIDIUM
Effects of **bracken** *(Pteridium* aquilinum) frond extract on mitosis in Allium cepa [Onions]. 120473

PTERIDOPHYTA
Effects of gamma radiation on the growth & differentiation of the gametophyte of Onychium siliculosum (Desv.) C. **Chr.** *[Pteridophyta].* 121133
Gibberellic acid-induced germination of spores of Anemia phyllitidis: nucleic acid and protein synthesis during **germination** *[Pteridophyta].* 120865
Contribution of the flora of Cuba: Osmundaceae, Schizaeaceae and **Gleicheniaceae** *(Pteridophyta)* [New taxa]. 120011
The fine structure in various groups of **present-day** *Pteridophyta* (microspores and isospores). 120515
Scanning electron microscopy of Marsilea **sperm** *[Pteridophyta].* 120549
Bibliography [Algae, Fungi, lichens, Bryophyta, *Pteridophyta,* **Spermatophyta].** 119891
Fertilizer and fuel from tiny plants? *[Algae-Pteridophyta* **symbiosis,** Anabena azolla]. 124917
Ecdysterone and ecdysone from Polypodium **virginianum** *[Pteridophyta].* 121252

PTERIN
Pterin-protein **complex** and ferredoxin as possible components of a molecular complex in Photosystem I [Chloroplasts]. 120943
Interralationsips between *pterin* and **ommochrome** pigments in Drosophila melanogaster. III. Xanthommatin content in wild type, mal, bw, and mal bw double mutant. 123837

PTEROCARPUS
Terpenoids of *Pterocarpus* **santalinus** leaves. 121806

PTEROMALIDAE
Interference among females of Nasonia vitripennis (Hymenoptera: *Pteromalidae)* and its **effect** on sex ratio of their progeny. 123858
Descriptions of a new genus and two new species of *Pteromalidae* **(Hymenoptera,** Chalcidoidea) reared from Cynipid (Hymenoptera) galls, with notes on some other species. 124255
Studies on the effects of adult feeding of Perniphora robusta Ruschka (Chalcidae: *Pteromalidae)* on its **reproduction** [Forest pests, biological control]. 123459

PTEROPHORIDAE
Life history of the ragweed plume moth, Adaina ambrosiae (murtfeldt), in Southern California **(Lepidoptera:** *Pterophoridae).* 124120

PTILIIDAE *see* TRICHOPTERYGIDAE

PUBERTY
Reproduction in the gilt. 2. The influence of gilt age at boar introduction on the **attainment** of *puberty.* 118210
Nutritional effects on age at *puberty* and **plasma** amino acid level in Yorkshire gilts and on chemical composition, nucleic acid, fatty acid and hydroxyproline contents of the uterus. 118097
Ultrastructural studies of *prepubertal* **porcine** uterine tube epithelium. 117547

PUBESCENCE
Pubescence **characteristics** as an aid in differentiating soybean cultivars. 120789

PUCCINIA
Contribution to the Uredinales [rust fungi] flora of Iran and Afghanistan *[Puccinia* **buffoniae,** Aecidium iranicum, new taxa]. 120265
Initiation of resistance and host cell collapse in the hypersensitive reaction of oat leaves against *Puccinia* **coronata** avenae. 122707
Sporulation of **fungus** *Puccinia* graminis f. Sp. Tritici in axenic culture [Wheat, stem rust]. 122608
Use of extremely shortstemmed wheat varieties for culturing aseptically a causal agent of stem rust, *Puccinia* **graminis** F. sp. tritici, on wheat seedlings. 122659
A comparison of the development of *Puccinia* **graminis** tritici in resistant and susceptible wheat based on glucosamine content. 122700
Hypersensitive response of near-isogenic wheat carrying the temperature-sensitive Sr6 allele for resistance to stem rust *[Puccinia* **graminis** tritici]. 122705
Races of *Puccinia* **graminis** f. Sp. Tritici [wheat stem rust] in the U.S.A. during 1975. 122757
Races of *Puccinia* **graminis** f. Sp. Avenae [stem rust of oats] in the U.S.A. during 1975. 122758
Inheritance of virulence in *Puccinia* **recondita** on six backcross lines of wheat with single genes for resistance to leaf rust. 120611
Effects of the concentration of uredospores of brown rust causal agent, *Puccinia* **recondita** Rob. ex Desm., on inoculation rates of wheat plants. 122652
Control of leaf rust [caused by *Puccinia* **recondita]** on spring wheat by seed treatment with 4-N-butyl-1,2,4-triazole. 122726
Appearance and control of yellow **rust** *(Puccinia* striiformis) on wheat in the area of the Hanover Plant Protection Board in 1975. 122669
Interactions of *Puccinia* **sparganioides** with smooth cordgrass (Spartina alterniflora) [Rust]. 122751
Barley yellow rust [caused by *Puccinia* **striiformis].** 122773
Barley yellow rust [caused by *Puccinia* **striiformis]** and its control. 122774

PUERPERIUM *see* BIRTH

PULEX
Laboratory culture of water fleas **[Daphina** *pulex].* 124075

PULMONARY
Pulmonary **arterial** thrombo-embolism and pulmonary arterial mycoticaneurysms in cattle with vena caval thrombosis: a condition resembling the Hughes-Stovin syndrome. 119136
Pulmonary **arteriovenous** anastomoses in the avian lung: do they exist? [Chickens]. 117898
Effects of antihistamines on the lung vascular response to histamine in unanesthetized sheep. Diphenhydramine prevention of *pulmonary* **edema** and increased permeability. 117805
Embolic *pulmonary* aneurysms in yearling feedlot cattle. 119130
A tentative energy budget for a summer population of Arion ater L. (Gastropoda: *Pulmonata)* [**Fagus** sylvatica, forest ecology]. 124856

PULP
The effluent-free bleached kraft pulp mill. VII. Sodium chloride in **alkaline** *pulping* and chemical recovery [to eliminate a major source of pollution]. 125544
Cationic starch in papers with high contents of **bagasse** *pulp.* I. Influence on tensile properties of kraft papers. 119768
Properties and fiber length of *pulp.* II. **Chemical** reactivity of homogeneous and heterogeneous reactions. 119786
Some biochemical characteristics of **citrus** *pulp* ensiled at different molasses and bagasse levels. 117332
A note on the value of dried **citrus** *pulp* and grape marc as barley replacements in calf fattening diets. 117972
Ethanol-water delignification of wood—rate constants and activation **energy** *[Pulping].* 119815
A method for the interpretation of *[pulp]* **fiber** length classification data. 119812
The structure of a compound isolated from the **fruit** *pulp* of Melia azadirachta Linn. 119847
International *pulp* bleaching: viva la revolucion. 119801
Peroxide bleaching of CEHH [chlorination, extraction and hypochorite] banboo **kraft** *pulp.* 119707
Mechanical fiber separation in **kraft** *pulping* systems. 119819
The ASEA-MoDo Kappa Batch system: theory, application considerations, and models **[Kraft** *pulping].* 119824
The ASEA-MoDo Kappa Batch system: engineering, application considerations and practical system results **[Kraft** *pulping].* 119825
A study of loblloly pine [Pinus taeda] growth increments. III. Refining characteristics of tracheids from **kraft** *pulps.* 119840
Chemical characteristics and acute toxicity of foam on two aerated lagoons **[kraft** *pulp* effluents]. 125499
The effluent-free bleached **kraft** *pulp* mill. VII. Sodium chloride in alkaline pulping and chemical recovery [to eliminate a major source of pollution]. 125544
Color removal in a ferric chloride-lime system [Effluent treatment, **kraft** *pulping].* 125562
Influence of main variable cooking factors on *pulp* and **liquor** properties. 119734
Market *pulp* from OCC [old corrugated containers]? Economics are examined in study made for EPA [Environmental Protection Agency]. 119802
Softwood pulp from Canada's boreal forest rated as prime **market** *pulp.* 119803
Energy usage and effluents from chemical and **mechanical** *pulping* systems. 119758
Current questions on cellulose manufacture; **mechanical** *pulp-refiner* mechanical pulp. 119771
Effects of *pulp* **mill** emissions on lichens in the Missoula Valley, Montana. 125398
Pulping of **New** Zealand beeches (Nothofagus spp.) and associated forest species. 119759
Dried **orange** *pulp* versus ground corn ears in concentrated mixed rations for lactating dairy cows. 118159
Bleaching of **oxygen** *pulps* with ozone. 119814
Influnce of dwell time of dissolved fibers in cooking liquor on the yield of **paper** *pulps.* 119781
Synergistic flocculation of fibre-containing suspensions of the *pulp* and **paper** industry. 119788
"Hands on" training produces skilled technologists [in the *pulp* and **paper** industry, Canada]. 119799
For 1976-80 [new five-year plan], U.S.S.R. To stress greater productivity and quality [in *pulp,* **paper** and paperboard production]. 119800
Survey of Canadian capacity shows reduced growth rates for 1975-78 *[Pulp,* **paper,** fiberboard]. 119804
The activities of the *Pulp* and **Paper** Research Institute of Canada. 119830
Investigation of the problem of determining total suspended solids in *pulp* and **paper** effluents. 125563
Operating experience with a high-purity—oxygen activated sludge waste treatment system *[Pulp* and **paper** mills]. 125565

Operating experience with an advanced color removal system [Wastewater from *pulp* and **paper** mills]. 125566
Polysulfide *pulping* in a dual-vessel Kamyr digester. 119822
Economic advantages and disavantages of **producing** *pulp* chips in the woods in the Southwest. 119829
Studies on the flesh quality of fruit and vegetables. II. Relation between the *pulp* **quality** and properties of pectic substances during post-harvest ripening of peaches. 117293
Control scheme for monitoring debris in stone groundwood *[Pulp* **quality].** 119798
Softwood *pulp* from Canada's boreal forest rated as prime market pulp. 119803
Studies on bamboo [Dendrocalamus strictus] thiolognins **[Sulphate** *pulping* process]. 118328
Oxygen bleaching of **sulphite** *pulps.* 119784
Mechanisms of delignification in the oxygen-alkali **system** *[Pulping].* 119820
Material balance for brown stock washing, screening, and oxygen bleaching in closed-mill **systems** *[Pulps].* 119818
Contribution to quantitative analytical evaluation of *pulp* and **textile** fibers in fier webs by microscopic methods. 119769
Influence of the raffinating temperature on the quality of **thermomechanical** *pulp.* 119763
Coating of **wood** *pulps* with surface finishes from the reel. 1. Process technology. 119667
Cracking in veneered surfaces. 1. Bases and findings with carrier panels made of **wood** *pulps.* 119668
The finishing of surfaces with paper and foils by using a covering process with heated rollers **[Wood** *pulp].* 119675
Identification of polysaccharide-producing black yeasts [Rhinocladiella, decay of **wood** *pulp* and paper]. 119757
Formation of carboxylic acids by degradation of carbohydrates during kraft cooking of pine **[Wood** *pulping].* 119816

PULPWOOD

Evaluation of **conifer** *pulpwood* quality—a contribution of optimum wood utilization. 119773
Evaluation of **conifer** *pulpwood* quality, a contribution to optimum wood utilization. II. 119774
Evaluation of **conifer** *pulpwood* quality, a contribution to optimum wood utilization. III. 119775
Work output and the worker's strain in **cutting** *pulpwood* for slide-boom loading. 119658
Studies on processing spruce [Picea] *pulpwood* **lengths.** 119661
Mexican *pulpwood* job uses skidders. 119845
Southern [Pinus] *pulpwood* **stumpage** prices analyzed, price zones identified. 119805

PULSE

Laboratory evaluation of malathion used as a protectant for the prevention of damage by *pulse* **beetles** to stored gram [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as test insects]. 123291
Study of proteins from seeds of *pulses.* 3. **Disk-elektrophoretic** study of salt-soluble proteins from seeds of some varieties of lentils. 117320
Nature of carbohydrates in *pulses* **[Feeding** to children]. 116397
Keeping a finger on your **herd's** *pulse* [Swine rearing, costs]. 117484
Amplitude attenuation of the circadian rhythm in Drosophila [pseudoobscura] with **light** *pulses* of varying irradiance and duration. 124007
Karnataka to wipe off the shortfalls in *pulses* **production** during fifth plan. 115838
The function of *pulse* **song** and sine song in the courtship of Drosophila melanogaster. 123792

PULVINARIA

A cottony cushion scale *[Pulvinaria* **elongata]** of sugarcane newly introduced in Morocco (Homoptera, Coccoidea, Coccidae). 123351

PUMPKINS

Pumpkin **(Cucurbita** sp.) seed globulin. I. Purification characterization, and subunit structure. 121757
Pumpkin **(Cucurbita** sp.) seed globulin. II. Alterations during germination. 121758
Post infection changes in nitrogen metabolism of *pumpkin* **(Cucurbita** maxima D.) as affected by yellow mosaic virus. 122843
Particle-bound phytochrome: differential pigment release by surfactants, ribonuclease and **phospholipase** C *[Pumpkins].* 121756

PUMPS

Electrogenic *pumps* in cells of the suspension culture of Nicotiana tabacum [Tobacco]. 121446
Repair of **hydraulic** *pumps* of the tractor. 124659

PUNGENT *see* ODOR

PUPAE

Effect of an insect growth regulator on lipid and carbohydrate reserves of mosquito [Aedes aegyti] *pupae* **(Diptera:** Culicidae). 123612
Physiological host specificity of the **polyphagous** *pupal* parasites of Pimpla turionellae L. (Hymenoptera, Icneumonidae) and its ecological significance. 123456
Energetic metabolism of *pupae* in **Scotia** segetum Den. Et Schiff. under normal conditions and under conditions of intoxication by sodium fluoride. 123833
An improved protein binding assay for guanosine-3', 5'-monophosphate using a binding protein from the *pupa* of the **silkmoth,** Bombyx mori L. 124481
Juvenile hormone effects on the prepupal and *pupal* **stages** of the tobacco cutworm, Spodoptera litura Fabricius (Noctuidae: Lepidoptera). 123301
Inheritance of some characters in crosses between inbred lines of Bombyx mori L. for commercial feeds during summer and autumn months. I. Cocoon, shell and *pupal* **weights.** 124530

PUPARIA

Eumerus compertus Villeneuve (Diptera, Syrphidae); **larvae** and *puparium.* 124476
Tachinid parasites of the gypsy moth, Lymantria dispar, with keys to adults and *puparia* **[Tachinidae,** new taxa, natural control, forest pests]. 123480

PURCHASING

Food markets today: Have *purchasing* and **eating** habits of housewives changed because of the crisis? 115608

PURIFICATION

Neurospora crassa [Fungi] glutamine synthetase. *Purification* by **affinity** chromatography and characterization of subunit structure. 121166
Kinetics study on intervention of few *purified* **antibacterial** antibodies [Mice, hamsters]. 118917
Variations of polyphenols during mashing and *purifying* **[Beer** brewing]. 116688
Catalasic activity of Macromycetes [Fungi]. Preparation of a *purified* **catalase.** 120891
Purification and **characterization** of L-gulono-gamma-lactone oxidase from rat and goat liver. 117571
Purification and **characterization** of peroxidase from Phellinus igniarius [Fungi]. 120914
Pumpkin (Cucurbita sp.) seed globulin. I. *Purification* **characterization,** and subunit structure. 121757
Purification and **characterization** of the carrier protein for juvenile hormone from the hemolymph of the tobacco hornworm Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018
Purification and **comparison** of elastins from [10] different animal species [Includes cattle, swine, chickens]. 117552
Polyethylene/glycol for concentration and *purification* of **duck** hepatitis virus. 118836
Installation of *purification* for the **edible** molluscs Lamellibranchia [Food decontamination]. 116172
On the *purification* of a **fatty** acid synthetase complex from an insect [Lucilia sericata]. 123861
Progesterone-binding components of chick oviduct: in vitro effects of *purified* **hormone-receptor** complexes on the initiation of RNA synthesis in chromatin. 117789
Mathematical model for self *purification* as an **instrument** of water protection. 125291
Purification and **kinetic** mechanism of a plant galactokinase [Trigonella foenum-graecum]. 120939
Actin [purified from pig muscle] associated with *purified* **lymphocyte** plasma membrane. 117677
Isolation and *purification* of **"malic-enzyme"** NADP from corn leaves. 121427
On the *purification* of **organically** polluted wastewaters in the Warnitz stabilization pond system. 125372
The **partial** *purification* of L-glutamine D-fructose 6-phosphate amidotransferase from baker's yeast. 116641
Sphingolipid base metabolism. **Partial** *purification* and properties of sphinganine kinase of [bovine] brain. 117795
Partial *purification* of intra- and extra-cellular cellulases from Pyricularia oryzae [Fungi]: with reference to optimum pH [hydrogen-ion concentration] at alkaline side. 120860
Partial *purification* and some regulatory properties of pyruvate kinase from germinating castorbean [Ricinus communis] endosperm. 121320
Purification and **physicochemical** characteristics of African swine fever virus. 118790
Actin *[purified* from **pig** muscle] associated with purified lymphocyte plasma membrane. 117677
Purification and **properties** of the dihydrofolate synthetase from Serratia indica [Nutrition study]. 116460
Purification, **properties** and immunological relationship of l(+)-lactate dehydrogenase from Lactobacllus casei [Dairy organisms]. 116872
Pig prothrombin: *purification* and **properties.** 117601
Purification and **properties** of a porcine duodenal glycoprotein with gastric antisecretory activity. 117750
Purification and **properties** of cathepsin D from procine spleen. 117792
Purification and **properties** of plastocyanin and ferredoxin from Ceratophyllum demersum L. 120944
Purification and **properties** of ribose phosphate isomerase from tobacco leaves. 121536
Nicotiana velutina [tobacco] mosaic virus: *purification,* **properties** and affinities with other rod-shaped viruses. 122815
Differences in the polymerization of actin, isolated at different ontogenesis stages, after its *purification* **[Rabbits].** 117607
Isolation of a *purified* **skin** test antigen from Blastomyces dermatitidis yeast-phase cell wall [Guinea pigs]. 118762
Mechanism of steroid hormone action: in vitro control of gene expression in chick oviduct chromatin by *purified* **steroid** receptor complexes. 117712
Purification of **sucrose** esters by selective adsorption. 116771
Some morphological and chemical characteristics of the *purified* **terpenoid** particles of the latex of Hoya australis R.br. Ex Traill [and Euphorbia milii]. 116640
Black widow spider venom: effect of *purified* **toxin** on lipid bilayer membranes. 124158
Comparison of porcine liver tRNA preparations: *purification* of **tRNA** and its separation from RNA-peptidyl complexes. 117548
Production and *purification* of **two** hemicellulases from Cephalosporium sacchari [Fungi]. 120993
Purification of **vegetable** marrow mosaic virus. 122844
In **vivo** *purification* of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in mitochondrial ribosomal RNA cistrons. 120754
Investigations concerning the *purification* of **wastewaters** in oxidation ponds. 125371
Phenylalanine ammonia-lyase. Induction and *purification* from **yeast** [Rhodotorula glutinis] and clearance in mammals [Rabbits]. 121168

PUSTULES

Service infections, especially IBR/IPV [infections bovine **rhinotracheitis/infectious** *pustular* vulvovaginitis], a problem for state animal disease control [West Germany]. 118657
Occurrence of infection by bovine herpes virus (IBR-IPv) [infectious bovine **rhinotracheitis-/infectious** *pustular* vulvovaginitis] in bulls at an insemination station. 118834
Determination of antibodies in infectious bovine **rhinotracheitis-infectious** *pustular* vulvovaginitis of cattle. 118876

PYELONEPHRITIS

Histological changes in **chronic** *pyelonephritis* [from a crossbred cow]. 118732

PYRALIDAE

Development of Diatraea saccharalis (Lepidoptera: *Pyralidae)* at **constant** temperatures [Sugarcane pests, biological control with Lixophaga diatraeae]. 123305
Overwintering of brinjal [eggplant] shoot and fruit borer, Leucinodes orbonalis Guen. (Lepidoptera, *Pyralidae)* in **Kulu** Valley, western Himalaya, India. 123372
Locomotor behavior of diapausing and nondiapausing larvae of Cadra cautella (Walker) **(Lepidoptera,** *Pyralidae).* 123544
Descriptions of the immature stages and biology of Vitula lugubrella (Ragonot) *(Pyralidae;* **Phycitinae).** 124317
Pyla (Salebria) fusca Haw. (Lepidoptera, *Pyralidae)* found at **Spitsbergen.** 124377
Phycitinea studies XIV (Lepidoptera: *Pyralidae).* **Zophodia** graciella (Hulst 1887), neu fur Deutschland. 124297

PYRALIDIDAE

The development of larval Malpighian tubules in Corcyra cephalonica Staint. **(Lepidoptera:** *Pyralididae).* 124186

PYRAUSTA

Possibility of biological control of the European corn borer *[Pyrausta* **nubilalis]** with Trichogramma egg parasites. 123324
The question of varied attractiveness of pheromones of European corn borers *[Pyrausta* **nubilalis]** on the males of geographically different populations. 123331

PYRAUSTIDAE

Biology of the grass webworm, Herpetogramma licarsisalis (lepidoptera: *Pyraustidae)* in **Hawaii.** 123799

PYRAZOLE

Promoting effect of DPX-1840 **[3,3a-dihydro-2-(p-methoxypheny!)-8H-** *pyrazolo* (5,1-a) isoindol-3-one] and other auxin transport inhibitors on pollen tube growth in vitro. 121178
Effects of DPX-1840 *[3,3a-dihydro-2-(p-methoxypnenyl)-8H-pyrazolo* (5,1-a) **isoindol-8-one]** and chlorflurenol on growth and redifferentiation of tobacco callus in vitro. 121521

PYRENOCHAETA

A new species of *Pyrenochaeta* **[darjeelingensis,** Fungi] from India. 120263

PYRENOIDS

Cachonina illdefina sp. Nov. (Dinophyceae): chloroplast tubules and degeneration of the *pyrenoid* **[Algae].** 120136

PYRENOMYCETE

Xylobotryum andinum, a **tropical** *pyrenomycete* from northern California [Fungi]. 120223

PYRETHRINS

Evaluation of dillapiole [from Anethum sowa] and dihydrodillapiole as synergists for *pyrethrins* **[insecticide]** in dust formulations [Tribolium castaneum]. 123585
Analytical studies of *pyrethrin* **[insecticide]** formulations by gas chromatography. II. Isolation of the pyrethrins from water-based formulations. 123755

PYRETHRUM

Breeding *pyrethrum* [Chysanthemum cinerariaefolium] in Kenya. 120795
Pyrethrum: **Chrysanthemum** spp. (Compositae) [Insecticidal plants]. 122534

The use of *pyrethrum* as an **insect** repellent in dingo baits [Animal pests of sheep and cattle in Australia]. 117496
Investigations on the acute toxic effect of *pyrethrum* **[insecticide]** on various haematological aspects of Meriones hurrianae Jerdon, the Indian desert gerbil. 123756

PYRICULARIA
Susceptibility of Digitaria decumbens var. Pangola to blast rice *[Pyricularia* **grisea]** in the French West Indies. 122556
Partial purification of intra- and extra-cellular cellulases from *Pyricularia* **oryzae** [Fungi]: with reference to optimum pH [hydrogen-ion concentration] at alkaline side. 120860
Effect of chemicals on the spread of rice blast disease [caused by *Pyricularia* **oryzae].** 122763
Rice blast *[Pyricularia* **oryzae]:** studies of the fungus and its changing adaptation. 122767
Rice blast *[Pyricularia* **oryzae]:** chemical control in Texas, 1973. 122768

PYRIDINE
Investigation of 6-O-trytilcellulose oxidation by system **chromium** *trioxide-pyridine.* 119735
A **reduced** *pyridine* nucleotides-diaphorase activity associated to the assimilatory nitrite reductase complex from Neurospora crassa [Fungi]. 120905

PYRIDOXAL
Organization of membrane proteins in the intact myelin sheath. *Pyridoxal* **phosphate** and salicylaldehyde as probes of myelin structure [Cats]. 117788

PYRIDOXINE
Neurotoxic effects of *pyridoxine* and **analogs** in rats. 119278
Genetics and biochemistry of *pyridoxine* **requiring** mutants of Aspergillus nidulans [Fungi]. 120618

PYRIMIDINE
Inhibition of turnip yellow mosaic virus synthesis by *pyrimidine* **analogues.** 122823
Plant growth retarding activity of the *4-substituted-7-(beta-D-ribofuranosyl)pyrrolo[2,3-d]pyrimidine* **anticytokinins** [on the germination of rice]. 121393
Uptake and incorporation of *pyrimidines* in **Euglena** gracilis [Algae]. 120919
Uptake of *pyrimidines* by **Euglena** gracilis, strain Z [Algae]. 121388

PYROLYSIS
Comparative investigations on polymer models of lignins (DHP's) of different **composition.** 7. *Pyrolysis.* 119677
Pyrolytic **formation** of polynuclear aromatic hydrocarbons from petroleum ether extractable constituents of flue-crued tobacco leaf. 117123
Pyrolysis of some **sulfur-containing** amino acids at 850 degrees Centigrade. 116769

PYRRHOCORIDAE
Changes in the total and differential haemocyte counts of Dysdercus cingulatus Fabr. (Hemiptera: *Pyrrhocoridae)* **related** to metamorphosis and reproduction. 124014

PYRROLIZIDINE
Pyrrolizidine **alkaloid** poisoning in rats: protective effects of dietary cysteine. 119254
Isolation of a lactone, structurally related to the esterifying acids of *pyrrolizidine* **alkaloids,** from the costal fringes of male Ithomiinae. 124026
The chemical basis of attraction of ithomiine butterflies to plants **containing** *pyrrolizidine* alkaloids [Heliotropium indicum]. 121176

PYRUS
Apple and pear: Malus and *Pyrus* spp. **(Rosaceae).** 122344

PYRUVATES
Partial purification and some regulatory properties of *pyruvate* **kinase** from germinating castor-bean [Ricinus communis] endosperm. 121320
Differing sensitivity of *pyruvate* **orthophosphate** dikinase to low temperature in maize cultivars. 121533
The separation of *pyruvate-ferredoxin* **oxidoreductase** from Clostridium pasteurianum into two enzymes catalyzing different reactions. 116049

PYTHIACEAE
Comparative study of hyphal wall components of oomycetes [Fungi]: **Saprolegniaceae** and *Pythiaceae.* 120868

PYTHIUM
Pythium **[aphanidermatum]** stalkrot of maize—mode of entry of pathogen. 122781
Blossom end rot of bottlegourd (Lagenaria siceraria) (Molina) Standl. incited by *Pythium* **butleri** Subr. 122600
The application and uses of Terrazole soil fungicide *[Pythium,* **Phytophthora,** water moulds, control, New Zealand]. 122594
Root and stem base rot of Gerbera caused by *Pythium* **species** and Rhizoctonia solani. 122677

QUACKGRASS
Histochemical study of allelopathic effect of cultivated plants [oats, rape, rye] on *quackgrass* **[Agropyron** repens]. 123084
Quackgrass **[Agropyron** repens] and annual weed control in transplanted blueberries. 123145
Controlling *quackgrass* in the [ornamental] nursery. 123070

QUAIL
Histochemical characterization of the monoamine-containing cells of the adenohypophysis in the **Chinese** *quail.* 117708
Quantitative gas chromatographic analysis of dimethoate and several metabolites in rape, *quail,* and **grasshopper** tissues by derivatization. 123723
Japanese *quail*—a source of valuable animal protein for masses. 117487
Effects of follicle stimulating hormone and luteinizing hormone on the incorporation of 32P [phosphorus isotope] into the testis of the immature **Japanese** *quail.* 117697
The pathogenicity of Eimeria bateri in the **Japanese** *quail.* 118608
Regulation of intestinal calcium absorption in the **laying** *quail:* independent of kidney vitamin D hydroxylation. 117819
Experimental analysis of excedentary regulation in **xenoplastic** *quail-chick* limb bud recombinants. 117954

QUARANTINE
Three examples of applied remote sensing of vegetation [Aquatic weeds, urban planning, plant **disease** *quarantine].* 115159
What we do in quarantine and why. *Quarantine* for **dogs** and cats. 118611
Plant *quarantine* concerns on introduction of certain agricultural commodities and products for use in agriculture in Hawaii. 122990
What we do in *quarantine* and why. **Quarantine** for dogs and cats. 118611
Importing dogs and cats into Australia *[Quarantine* **requirements].** 118609

QUARTZ
Description of an infrared irradiation of *quartz* **glass** for the determination of mercury in water and food. 116074

QUATERNARY
A note on the isolation and identification of the *quaternary* **alkaloids** of Phellodendron wilsonii. 121239
Studies on North **American** *Quaternary* bryophyte subfossils. I. A new moss [Musci] assemblage from the two creeks forest bed of Wisconsin. 120235
Late *Quaternary* vegetation history of the Yellowstone Lake Basin, Wyoming. 120242
Classification and evolution of Rhinochenus Lucas (Coleoptera: Curculionidae: Cryptorhynchinae) and *Quaternary* **Middle** American zoogeography [New taxa]. 124405
The *late-Quaternary* **vegetational** history of the western interior of Canada [Paleobotany]. 120001
The *Quaternary* **vegetational** history of the French Pays Basque. II. Plant macrofossils and additional pollen-analytical data. 120230

QUERCETIN
Quercetin-3-acetyl-7,3',4'-trisulphate from **Flaveria** bidentis. 121258

QUERCUS
Starch content of oak roots on campsites *[Quercus* **alba,** Quercus velutina, Quercus coccinea]. 121834
Patterns of life in woodland communities. 15. Some strange galls of the oak **[Andricus** *quercus-calicis,* Andricus lignicolus]. 123499
Red oak *[Quercus* **borealis]** and bur oak [Quercus macrocarpa] in the Mariupol' Forest Experimental Station. 119556
Quercus **calliprinos** Webb and Quercus coccifera L.: studies of the leaf anatomy and taxonomical and chorological consideration [Mediterranean Region]. 120021
Starch content of oak roots on campsites [Quercus alba, Quercus velutina, *Quercus* **coccinea].** 121834
Red oak [Quercus borealis] and bur oak *[Quercus* **macrocarpa]** in the Mariupol' Forest Experimental Station. 119556
Natural regeneration and development of English **oak** *(Quercus* robur L.) and common hornbeam (Carpinus betulus L.) in the Krakovo virgin forest preserve. 119595
Changes in the intensity of protein synthesis in the embryo axes of northern red **oak** *(Quercus* borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
Control of Lymantria dispar in Corsica. 1. *[Quercus,* **pests,** biological control, Bacillus thuringiensis , Calosome sycophante]. 123495
Speeding up oak *[Quercus]* **production** with extended daylength. 122256
Experimental pathologic structures in the oak *[Quercus]* in **relation** to histology of natural tumors. 123031
Effect of fast-growing [tree] species on the growth and condition of common oak *[Quercus* **robur]** in [shelterbelt] plantings created by a strip type of mixing on the soils of the Kamennaia Step'. 119411
The application of the Backman-equation on R. Kiss' yield tables of *Quercus* **robur.** 119442
Effect of infection by Microsphaera alphitoides (powdery mildew) on carbohydrate levels and translocation in seedlings of *Quercus* **robur.** 122684
Changes in CO2 [carbon dioxide] and water vapour exchange rates in leaves of *Quercus* **robur** infected by Microsphaera alphitoides (powdery mildew). 122702
The natural resistance of some indigenous woods against Reticulitermes lucifugus [Pinus sylvestris, Abies alba, Picea abies, Fagus silvatica, *Quercus* **robur].** 123462
Protein component in sieve elements of *Quercus* **rubra** L. 120548
Phenology and leaf growth of defoliated hardwood trees *[Quercus* **rubra,** Acer rubrum]. 121816
Effect of forest litter in shelterbelts in the Kamennaia Steppe on the emergence and development of oak **seedlings** *[Quercus].* 121833
Starch content of oak roots on campsites [Quercus alba, *Quercus* **velutina,** Quercus coccinea]. 121834

QUINACRINE
The action of ionizing radiation on [calf thymus] DNA in the presence of *quinacrine.* III. **E.s.r.** [Electron spin resonance] study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895

QUINCE
Investigations on the determinantion of the situation of Minilia linhartiana Prill. et Del. and its apothecial formation which causes damage to the *quince* in **Amasya** and Samsun. 122582
Blight of pears, **apples,** and *quinces.* 122806

QUININE
Quinine: **Cinchona** spp (Rubiaceae). 122535

QUINONE
Allelopathy and the hypothesis about *quinones* as an **active** form of polyphenols. 121058

QUINTOZENE
Behavior of *quintozene* and **hexachlorobenzene** in the soil and its up take by plants. 123711

RABBITS
Circulating lipophages and aortic foam cells in experimental atherosclerosis of [cholesterol-fed] *rabbits* under **altered** reticuloendothelial activity. 116493
Effect of Virginiamycin administered to *rabbits* in **auxinic** dosages [Antibiotic feed additives]. 118164
Comparative characteristics of "ultrasonic" chromatin fractions from leukocytes (neutrophils) and *rabbit* **brain.** 117606
Studies on the meat quality of **broiler** *rabbits.* II. On the chemical composition of the meat of valuable cut-up parts in New Zealand White rabbits and hybrids of different. 116234
Localization of antibacterial activity and hydrolytic enzymes in subcellular fraction of *rabbit* and **chicken** polymorphonuclear leukocytes. 118793
Sensitivity of various laboratory and farm animals to Clostridium perfringens intoxication (mouse, guinea-pig, *rabbit,* **chicken,** piglet, lamb). 118842
Comparative histological investigation of receptor structures in aortic wall of some vertebrate representatives [Includes **chickens** and *rabbits].* 117689
Mammalian carbonic anhydrase isozymes: evidence for a third locus **[Sheep,** mice, *rabbits,* **chickens].** 117810
Inhibition of thermoregulatory outflow in **conscious** *rabbits* during periods of sustained arousal. 117825
Technico-economic aspects for the cycle production of th *rabbit* **[Costs,** feeding, breeding]. 115553
Herpesvirus sylvilagus in **cottontail** *rabbits:* antibody prevalence and flea burden relationships [Cediopsylla simplex]. 118812
Introduction of fat into *rabbit* **diets.** I. Effect on growth performances, feed intake and dressing percentage. 117562
Nutrition of the **domestic** *rabbit.* 118109
The respiratory disease complex in *rabbit* **farming** [Bordetella, Pasteurella]. 118593
Tests on the meat quality of *hares* as a **function** of treatment and storage. 116135
Rabbits on **Gippsland** Islands. 123044
Effects of secretagogues on oxygen consumption, aminopyrine accumulation and morphology in isolated gastric **glands** *[Rabbits].* 117526
Comparative investigations on thyroglobulin biosynthesis in *rabbit* and **guinea-pig** thyroid in vitro. 117655
The effects of amiodarone on the sinus node activity of the *rabbit* **heart.** 117670
Herpesvirus *sylvilagus* in cottontail rabbits: antibody prevalence and flea burden relationships [Cediopsylla simplex]. 118812
Stimulation of the *rabbit* **hypothalamus:** caudal projections to respiratory and cardiovascular centres. 117831
A method for **identifying** *rabbits* by color-coded ear buttons. 117464
Anti-liver antibody in *rabbits* **infected** with Schistosoma japonicum. 118595
Embryonic development in *rabbits* after **insemination** with spermatozoa stored at 37, 5 or -196 degrees Centigrade for various periods. 118352
Integrated *rabbit* husbandry. II. 115325
Protein and amino acid requirements of the **laboratory** *rabbit.* 118111
A calcium ionophore-induced secretion in *rabbit* **lacrimal** gland in vivo. 117846
The establishment and spread of Spilopsyllus cuniculi (Dale) and its location on the host, Oryctolagus cuniculus (L.) *[rabbits],* in the **Mallee** region of Victoria. 123604

Phenylalanine ammonia-lyase. Induction and purification from yeast [Rhodotorula glutinis] and clearance in **mammals** *[Rabbits].* 121168
Acidosis and level of **metabolism** *[Rabbits].* 117917
Non-identical behaviour of the subunits of *rabbit* **muscle** creatine kinase. 117597
Studies on specific elution of *rabbit* **muscle** phosphofructokinase with allosteric ligands. 117610
Equilibrium studies on the refolding and reactivation of *rabbit* **muscle** aldolase after acid dissociation. 117660
Kinetics of refolding and reactivation of *rabbit* **muscle** aldolase after acid dissociation. 117662
A study on the autoactivation of *rabbit* **muscle** phosphorylase kinase. 117781
Detection of an essential sulfhydryl group in *[rabbit* **muscle]** phosphoglycerate mutase with an affinity-labeling reagent. 117783
Time dependent effects on contractile properties, fibre population, myosin light chains and enzymes of energy metabolism in intermittently and continuously stimulated fast twitch **muscles** of the *rabbit.* 117877
Behavioral fever in **newborn** *rabbits.* 117929
Complement-fixation in the interaction of **normal** *rabbit* gamma G' globulin and its Fab' fragment. 118792
The effect of new pescticides (Birland EC 24, Chlorophacinon, Nexion Saatgutpuder) on small game [Pheasants, **partridges,** *hares].* 123745
Aerosols of disinfectants for [control of] **pasteurellosis** of *rabbits.* 119017
Cellulolytic activity in cecum content of mice, rats, Syrian hamsters, guinea **pigs** and *rabbits.* 117959
An ultrastructural research of pancreatic islets in sodium nirite **poisoned** *rabbits.* 116033
Further observations on the 'Tarbaby' technique for **poisoning** *rabbits.* 122960
Reactions to subconjunctival inoculation of Onchocerca volvulus microfilariae in **pre-immunized** *rabbits.* 118971
Uterine proteins and development in vitro of *rabbit* **preimplantation** embryos. 118363
A role for esterases in the fertilization **process** *[Rabbits].* 118342
Differences in the polymerization of actin, isolated at different ontogenesis stages, after its **purification** *[Rabbits].* 117607
Herpesvirus sylvilagus in *cottontail* **rabbits:** antibody prevalence and flea burden relationships [Cediopsylla simplex]. 118812
The use of antiaminophencyclidine antibodies for development of a sensitive **radioimmunoassay** *[Rabbits].* 118967
Peripheral glucosensitive satiety in the *rabbit* and the **rat.** 116370
Biological action of clomiphene citrate on *rabbit* **reproduction.** 118202
Effects of dioxy-diethyl-stilbestrol proprionate on *rabbit* **reproduction.** 118204
An efficient mRNA-dependent translation system from *[rabbit]* **reticulocyte** lysates. 117658
Failure of a cell-free system from *rabbit* **reticulocytes** to remove iron from transferrin. 117582
Free cytoplasmic alpha-globin messenger RNA appears during the maturation of *rabbit* **reticulocytes.** 117679
Particularities of myelin formation in spinal **roots** of the *rabbit.* 117519
The masking mechanism studies by means of *rabbit* and **sheep** red cells. The hypothesis of blocking of some access structures. 117565
Binding of nucleotides ATP [adenosine triphosphate] and aDP [adenosine diphosphate] to sarcoplasmic reticulum: study by rate of dialysis *[Rabbit* **skeletal** muscles]. 117599
Comparison of calcium-binding proteins. Bovine heart and brain protein activators of cyclic nucleotide phosphodiesterase and *rabbit* **skeletal** muscle troponin C. 117782
Deep-freezing of *rabbit* **spermatozoa.** 118217
Release of DNA template restrictions in *rabbit* **spermatozoa** and rat liver nuclei. 118343
DNA synthesis in *rabbit* **spleen** cell populations stimulated by various doses of concanavalin A. I. Autoradiographic analysis. 117673
DNA synthesis in *rabbit* **spleen** cell populations stimulated by various doses of concanavalin A. II. Equilibrium density sedimentation analysis. 117674
Interstitial fluid oncotic pressures in *rabbit* **subcutaneous** tissue. 117539
Repair in arterial tissue; electron microscopy of evans blue vital stained embolectomy catheter lesion of the *rabbit* **thoracic** aorta. 119067
Peripheral plasma progesterone during egg **transport** in the *rabbit.* 118388
The effectiveness of aerial survey for determining the distribution of *rabbit* **warrens** in a semiarid environment [Pests of pastures]. 122911
Studies on the meat quality of broiler rabbits. II. On the chemical composition of the meat of valuable cut-up parts in New Zealand **White** *rabbits* and hybrids of different. 116234
Ca2+ [calcium ion] induced conformational changes of spin-labeled g2 chain bound to myosin [isolated from *rabbit* **white** muscle] and the effect of phosphorylation. 117779

RABIES

Diagnosis of *rabies* in **animals.** 119005
Rabies **antibodies** in sera of wild birds. 118814
Epizootic **aspects** *[Rabies].* 119006
Why has **canine** *rabies* not been eliminated from Latin America? 119066
Vigilence for *rabies* in the **Caribbean** area. 118672
Importance and occurrence of *rabies* with the **example** of current epidemics in Lower Franconia. 119063
Experimental *rabies* in a great horned owl. 118811
Role of interferon in prophylaxis of *rabies* after **exposure.** 118796
Effect of acetone fixation on *rabies* **immunofluorescence** in glycerine-preserved tissues [Mice]. 118694
Spontaneous recovery of a dog artificially **infected** with *rabies.* 118911
Natural resistance of an African rodent Praomys (Mastomys) natalensis to *rabies* **infection.** 118614
Comparative study "in vitro" between *rabies* and **rabies** related viruses by the sensitized lymphocytes technique. 118613
Action in a case of **suspected** *rabies:* notes for guidance. 119004
Rabies, a **threat** to Australia. 118610
Rabies **treatment** of persons bitten by animals [Dogs, cats]. 118671
Institute to control veterinary products *[Rabies* **vaccine** and control, livestock health, Brazil]. 118492
Rabies **vaccines** for animals and man. 119010
Isolation of *rabies* **virus** from apparently healthy dogs experimentally infected. 118908
Note on the use of glycerine in the preservation of the C.v.S. *rabies* **virus** strain. 118909

RACE

Microecological studies on lactic acid bacterial flora of molasses distilleries. III. Cultivation of the brewers' yeast Saccharomyces **cerevisiae** *race* M with some isolated lactic acid bacteria from molasses distilleries in continuous mixed cultures. 116664
Present-day goals in breeding [Apis mellifera carnica, *races,* **France].** 124513
Spore yield of pathogens in investigations of the *race-specificity* of **host** [plant] resistance. 122905
The **hypothetic** *race* 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the reaction of some tomato species and varieties to it [Leaf mold]. 122612
Prevention of the hypersensitive reaction of potato cells to infection with an **incompatible** *race* of Phytophthora infestans by constituents of the zoospores. 122712
K+ [potassium]-stimulated adenosine triphosphatase of maize roots: partial purificatin and inhibition by Helminthosporium **maydis** *race* T toxin. 122708
A proposed nomenclature of Fusarium oxysporum f. Sp. **Melonis** *races* and resistance genes in Cucumis melo [Muskmelon]. 122722
Occurrence of **physiological** *races* of Bremia lactucae Regel, the organism causing downy mildew in lettuce. 122675
The effect of plant age on severity of pea wilt caused by Fusarium oxysporum f. sp. **pisi** *race* 5 [Soil fungi]. 122738
Races of **Puccinia** graminis f. Sp. Tritici [wheat stem rust] in the U.S.A. during 1975. 122757
Races of **Puccinia** graminis f. Sp. Avenae [stem rust of oats] in the U.S.A. during 1975. 122758

RADIAL

Radial **paralysis** in a goat: treatment by tendon transplantation [Trauma]. 119290

RADIANT

An assembly for measuring components of the radiation balance [Exchange of *radiant* **energy** in grassland]. 121456
Observed *radiant* loss from a heated orchard under frost conditions [Cold protection]. 122968

RADIATION

Relationships of photosynthetically **active** *radiation* and shortwave irradiance [Photosynthesis and solar energy]. 120861
Leaf area and photosynthetic **active** *radiation* as related to corn yield. 121557
Frequency and spectrum of chlorophyll-deficient mutations in rice after treatment with *radiation* and **alkylating** agents. 120782
An assembly for measuring components of the *radiation* **balance** [Exchange of radiant energy in grassland]. 121456
Structural mutations of chromosomes in the second cell cycle during *radiation* and **chemical** mutagenesis [of Crepis capillaris]. 120623
Radiation and **chemical** mutations of barley with increased resistance to lodging. 120832
Thermal and *radiative* **effects** of atmospheric aerosols in the northern hemisphere calculated using a radiative-convective model [Air pollution, climate]. 125392
Incoming [solar] *radiation* **fluxes** on sloping terrain: a general model for use in Southern Africa. 115114
The effect of **gamma** *radiation* on the cysticerci of Taenia solium [Tapeworm infested swine, meat contamination]. 118871
Stimulation of germination by **gamma** *radiations* of the dormant seeds of Avena fatua L. 121022
Effects of **gamma** *radiation* on the growth & differentiation of the gametophyte of Onychium siliculosum (Desv.) C. Chr. [Pteridophyta]. 121133
Effect of dose rate on the *radiation* **graft** copolymerization of styrene to cellulose in the presence of acid. 119651
Heat *radiation* phenomena from a glasshouse crop canopy at night. IV. Determination of the curtain factor by a simple method [Fuel reduction]. 124596
The relation of **incident** *radiation* to diurnal rates of photosynthesis in Lough Neagh. 120371
Absence of oxygen effect for induction of resistance to **ionising** *radiation* [Algae, Chlamydomonas reinhardii]. 121292
Studies on controlling the Indian meal moth, Plodia interpunctella Hbn., by **ionising** *radiation* [Pest of nuts]. 123373
Single **ionizing** *radiation* effect on limb development of sheep. 117614
The action of **ionizing** *radiation* on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
The effect of stimulating rates of **ionizing** *radiation* on the stability of liver cell mitochondria in chick embryos and young chickens. 117950
Effect of different doses of **ionizing** *radiation* on the level of phytohormones in plants [Broadbeans]. 121444
Effect of **ionizing** *radiation* on the bulbs of Hyacinthus. 121613
Achievements and limitations of **ionizing** *radiation* for stored-product insect control. 123519
The use of infrared and **microwave** *radiation* for control of stored-product insects. 123575
Thermal and radiative effects of atmospheric aerosols in the northern hemisphere calculated using a *radiative-convective* **model** [Air pollution, climate]. 125392
The variability of the **net** *radiation* ratio [for estimating evaporation from bodies of water]. 125325
Dependence of *radiation* **response** of diploid yeast [Saccharomyces cerevisiae] upon growth phase and LET [Lineal energy transfer]. 121148
Effect of *gamma-radiation* on the **seeds** of [ornamental] Clematis [Species]. 121612
The carbon budget of a young apple tree [Photosynthesis, respiration, **solar** *radiation,* temperature]. 121717
Estimating **solar** *radiation* on sloping surfaces. 124839
The effect of some aspects of low temperature and *radiation* on the **survival** of Latheticus oryzae **eggs.** 123893
Radiation **therapy** of canine and feline tumors. 118471
Content of gibberellin-like substances in the leaves of Heracleum olgae Rgl. et Schmalh. in relation to the effect of gibberellin and natural **ultra-violet** *radiation.* 121106
Peculiarities of the response of maize heterotic plants to **ultraviolet** *radiation.* 121477
Change in the content of auxins and growth inhibitors in the leaves of barley as a result of **ultra-violet** *radiation* in the conditions of West Pamir. 121486
Effect of natural **ultra-violet** *radiation* on the content of auxins and growth inhibitors in barley [varieties] in Pamir in their natural condition and with artificial treatment with beta-indole acetic acid. 121487
Effect of short-wave **ultraviolet** *radiation* on growth and development of Gladiolus. 121614
Radiofrequency, infrared, and **ultraviolet** *radiation* for control of stored-product insects: prospects and limitations. 123551

RADICALS

Electron spin resonance studies of structure and conformation in **anion** *radicals* formed during the autoxidation of hydroxylated coumarins. 121193

RADIO

CBers band together on flood warning network [Citizens **Band** *radio].* 125350
A **combined** *radio* gas chromatograph/mass spectrometer detects intermediates in mycophenolic acid biosynthesis [Penicillium brevicompactum, Fungi]. 120879
Radio **electrocardiography** during production of sperm in bulls. 118420
Radio-active **labelling** of antigens. 118690
Use of *radio* **speakers** in forestry. 119450

RADIOACTIVITY

Comparative evaluation of different methods of studying the influx of cesium 137 [isotope] from the soil into farm plants *[Radioactive* **contamination].** 116017
Methods of *radioactive* **contamination** of foods of animal origin: meats, milk, and seafood. 116032
Adsorption of strontium 90 [isotope] by krill [Zooplankton as possible source of food, *radioactive* **contamination].** 116072
Contamination of diet with *radioactive* **fallout** from nuclear explosions [in milk and meat]. 116035
Radioactivity in **human** diet, 1975 [Contamination of milk]. 116036
Isolation and identification of juvenile hormones by means of a *radioactive* **isotope** dilution method: evidence for JH iII in eight [insect] species from four orders. 123943
Preparation of polysomes and *radioactively* **labeled** RNA from adult Drosophila melanogaster. 123987
Inspection of *radioactivity* in **raw** materials of the candy industry. 116087
Influx and distribution of calcium, magnesium and *radioactive* **strontium** [90 isotope] in wheat in relation to their content in the soils of the Armenian SSR. 122883
Effect of the concentration of strontium 90 [isotope] on the coefficients of *radioactive* **strontium** accumulation in wheat seedlings [Contamination]. 125374
Forms of natural and introduced zinc in soils and its uptake in plants [Contamination with *radioactive* **zinc** 65 isotope tested on oats and maize]. 116018

RADIOCARBON

A *radiocarbon* **dated** pollen diagram from the allegheny plateau of New York State. 120097

RADIOFREQUENCY
Radiofrequency, **infrared,** and ultraviolet radiation for control of stored-product insects: prospects and limitations. 123551

RADIOGRAPHY
Radiographic **aspects** of bezoar concretions in ruminants; presentation of a clinical case in the goat (Capra hircus). 117906
Radiographic **interpretation** of the gastric dilatation-volvulus complex in the dog. 119118
Functional, anatomical and *radiographic* **studies** of the dorsal head-neck set in the dog and their effects on the problems associated with the erect position of the head in hominids. 117553

RADIOISOTOPES
Inclusion of *radioisotopes* in **L-forms** of Listeria. 119027

RADIOLYSIS
Effect of free fatty acids on the *radiolysis* of **triglycerides.** 116765

RADIONUCLIDES
Occurrence of **natural** *radionuclides* in food and condiments [Contamination]. 116159
Occurence of **natural** *radionuclides* in the soil [Pollution]. 125452
Occurrence of **natural** *radionuclides* in water [Pollution]. 125453
Occurrence of **natural** *radionuclides* in the atmosphere near the soil [Air pollution]. 125454

RADISHES
Effect of increasing liquid manure fertilization rates on magnitude and quality of **black** *radish* yield. 125071
Laboratory studies of non-preference resistance to cabbage root fly [Erioischia **brassicae**] in *radish*. 123365
Inheritance of the characters of hairiness of leaf blade and root **colour** in *radish*. 120643
Studies on the physiology of bolting and flowering in Raphanus sativus L. II. Annual rhythm in readiness to flower in **Japanese** *radish*, cultivar Wase-shijunichi. 121759
Development of Heterodera schachtii in the roots of winter rape and **oil** *radish*. 123047
Radish: **Raphanus** sativus (Cruciferae). 122376
Factors influencing the uptake of pesticides by hypocotyls *[Radishes,* **residues].** 123686

RADULA
Culture studies on *Radula* **flaccida** Lindenb. & Gottsche [Hepaticae]. 121170
Memoranda on the type specimens of *Radula* **[Hepaticae]** taxa from Southeast Asia. 3. 120119

RAGWEED
Life history of the *ragweed* **plume** moth, Adaina ambrosiae (murtfeldt), in Southern California (Lepidoptera: Pterophoridae). 124120

RAGWORT
Weed **control**—*ragwort* [Senecio jacobaea]. 123052
The first statewide war on **tansy** *ragwort* [Senecio jacobaea]. 123105

RAILROADS
Some problems concerned with the organization of catering to the builders of the **Baikalamur** *railroad* trunk line [Choice of foods]. 116569
A comparison of *rail* and **barge** grain rates [Transportation]. 115624
Calculation of wire ropes in **forest** and other *cable-railways*. 119664
Railroad **reorganization** in Michigan [Legislation]. 115942
Application aspects of *railroad* **weed** control. 123114
Economic aspects of *railroad* **weed** control. 123124
Railroad **[weed]** vegetation control in the Midwest, when and how. 123146

RAIN
Annual *rainfall* frequency distribution for 80 rainfall districts in South Africa. 125347
The probable relationship of *rainfall* to **Dermatophilus** congolensis infection in sheep. 118715
Annual rainfall frequency distribution for 80 *rainfall* **districts** in South Africa. 125347
Study of the process of *rain* **flood** formation in the basin of Rioni River. 125237
Temperature, *rainfall* and **humidity** at different exposures of the "Monte Pisano" for two years period [Effects of climate on Pinus pinaster]. 119293
Regulation of plant growth by *rain* and **mist.** 121017
Records of insects taken at light traps in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: Heteroptera) in **relation** to *rainfall*. 123250
Simulated *rainfall* and wind as factors dislodging nymphs of the cotton fleahopper, Pseudatomoscelis seriatus (Reuter), from cotton plants. 123349
Leaching of nitrate fertilizer after big **spring** *rains*. 125025

RAINBOW
Free fatty acids and the onset of rancidity in *rainbow* **trout** (Salmo gairdneri) flesh. Effect of phospholipase A. 116195
Effects of chronic DDT/DDE exposure on anesthetic induction and recovery times in *rainbow* **trout** (Salmo gairdneri). 123730
Red crab processing waste as a carotenoid source for *rainbow* **trout.** 125375

RAISIN
Investigations on dichlorvos storage space treatment for protection of packaged food against insects in the warehouse in the Aegean **region** *[Raisins].* 123509
1975 **world** *raisin* and fig outturns up; currant and prune crops smaller [Statistics]. 115630

RAKING
Experiences in using the E 301 side **delivery** *rake* for windrow treatment in the Selbelang Cooperative Plant Production Section [East Germany]. 124671

RAMALINA
Chemical constituents of Umbilicaria indica Frey and *Ramalina* **farinacea** L. Ach. [Lichens]. 121018

RAMBOUILLET
Carcass traits of lambs produced by crossbred dams of Finnsheep, Dorset and *Rambouillet* **breeding** and slaughtered at two weights. 117016

RAMS
Effects of ewe proximity on peripheral plasma testosterone levels and **behaviour** in the *ram*. 118351
Comparative diagnostic studies on epididymitis in *rams* **caused** by Brucella ovis. 118976
Plasma concentrations of testosterone in the **developing** *ram* in different social environments. 118355
Seasonal Profiles of plasma luteinizing hormone, testosterone and **estradiol** in the *ram*. 118257
The X-ray treatments to induce somatic mutation in Chrysanthemum **morifolium** *Ram*. II. The imductive dosage of somatic mutation in Chrysanthemum cultivars. 120771
Electrophoretic fractionation of seminal vesicle fluid and seminal **plasma** of *ram*. 118321
Pituitary-testicular responses in *rams* to **prolonged** infusions of luteinizing hormone-releasing hormone (LHRH). 118226
Changes in live weight and body condition of *rams* of **three** breeds throughout the year [Scottish Blackface, North Country Cheviot and South Country Cheviot]. 117559
Results of fattening **young** *rams* in pens. 118170

RANALES
Comparative studies of the vascular system of node-leaf continuum in **woody** *Ranales*. II. Node-leaf vascular system of Eupomatia laurina R. Br. 120493

RANATRA *see* NEPIDAE

RANCHERS *see* FARMERS

RANGELAND
Discriminating **coastal** *rangeland* production and improvements with computer aided techniques [Remote sensing]. 121996
Vegetation and livestock response at three grazing intensities on **sandhill** *rangeland* in eastern Colorado [Grasses]. 122162

RANGES
Multi-criterion ranking of **alternative** *long-range* water resource systems. 125365
The *range* of **available** moisture in automorphic soils of the Estonian SSR. 124904
Parasitism among white-tailed deer and domestic sheep on **common** *range*. 118813
Usefulness of LANDSAT data for monitoring plant development and *range* **conditions** in California's annual grassland [Remote sensing]. 121999
Influence of breed and level of winter supplement on forage intake of *range* **cows** [Hereford, Hereford X Holstein, Holstein]. 118093
Forest protection measures in the *range* of **economy** and landscape hygiene. 119440
The California air resources board program to regulate agricultural *[range* and **forest]** burning [Air pollution control]. 125449
Tropical cattle nutrition under **grazing** *range* conditions in the Sahel: measurement of the dry matter intake and estimation of digestibility and feeding value of forages. I. Theoretical basis, purposes and methods. 118158
Host *range* of Drosophila melanogaster C virus among Diptera and Lepidoptera. 123808
Yellow starthistle [Centaurea solstitialis]: a **major** *range* weed problem. 123079
Estimating vegetative biomass from LANDSAT-1 imagery for *range* **management** [Remote sensing]. 121997
Monitoring vegetation conditions from LANDSAT for use in *range* **management** [Remote sensing]. 121998
Photography, a *range* **management** tool. 122056
Use of insect-acaricide carbamide acid esters in livestock production. 1. *Range* and **mechanism** of action of insect-acaricide carbamide acid esters [Review of literature]. 123647
Montana *range* seeding guide. 121890
Environmental control of crassulacean acid metabolism in Welwitschia mirabilis Hook. Fil. in its *range* of **natural** distribution in the Namib desert. 120387
The utilization of marginal lands for raising beef cattle **[open** *range* management, grazing]. 122144
Payoff: more beef from *range* **pastures**—fertilization project giving proof. 125041
Effects of cattle grazing methods on ponderosa **pine-bunchgrass** *range* in the Pacific Northwest. 122163
Range **research** needs in the Great Plains. 122099
Precision on the *range* **[Technique** for measuring the increase or decrease of herbaceous plants]. 121839

RANUNCULACEAE
Phylogenetic studies on Ranunculus cortusifolius Willd. *(Ranunculaceae),* a **Macaronesian** endemic species. 119973

RANUNCULUS
Control of crowfoot *[Ranunculus]* and **annual** dicotyledonous weeds in maize; interprovincial trials, 1973. 123199
Phylogenetic studies on *Ranunculus* **cortusifolius** Willd. (Ranunculaceae), a Macaronesian endemic species. 119973

RAPE
The dispersal of Carabidae in the agrarian landscape, with spcial reference to the boundaries between different field crops *[Rape,* **Cereals,** methoxychlor]. 123359
New information on weed **control** in *rape*. 123106
Aspects and problems of animal nutrition: information and reflections on the use of meals **derived** from *rape*. 117379
Effect of the allelopathic factor on the activity of adenosinetriphosphatase in plants [Red clover, **oats,** *rape].* 121461
Growth of **oilseed** *rape* under anaerobic conditions [Waterlogged soil]. 121418
Effects of planting pattern and sowing method on the seed yield of safflower, **oilseed** *rape,* and lupin. 122048
Quantitative gas chromatographic analysis of dimethoate and several metabolites in *rape,* **quail,** and grasshopper tissues by derivatization. 123723
Histochemical study of allelopathic effect of cultivated plants [oats, *rape,* **rye]** on quackgrass [Agropyron repens]. 123084
Effects of a good pollination *[Rape,* **safflower,** sunflowers]. 121556
Biological control in the technique of growing **winter** *rape*. 122989
Development of Heterodera schachtii in the roots of **winter** *rape* and oil radish. 123047

RAPESEED
Spectral **absorptivity** of *rapeseed*. 117204
Performance of mycocardial and blood seral changes in pigs fed diets containing high or low erucic **acid** *rapeseed* oils. 118034
Evaluation of the Velvet Roll Seed Separator for its use in the purity analyses of alfalfa (Medicago sativa L.) and *rapeseed* **(Brassica** campestris L.) [Seed testing equipment]. 122058
Thermal **conductivity** of *rapeseed*. 117205
Rapeseed **[Cultivars].** 121852
Growth and cardiopathology in boars **fed** *rapeseed* oil. 119086
Trace mineral deficiencies in rats caused by **feeding** *rapeseed* flours during growth, gestation and lactation. 116441
Protein estimation in sesame seed and *rapeseed* **flours** and meals by a modified Udy dye binding method. 116406
Feed intake and nutrient digestibility of growing lambs supplemented intragastrically with **full-fat** *rapeseed* (cv. [Cultivar] Tower). 118029
Variability in the chemical composition of *rapeseed* **meal** [Feed ingredient]. 117330
Substitution of *rapeseed* **meal** for soybean meal as a source of protein for lactating cows. 118040
Mode of parasitism of Alternaria brassicae [the causal fungus of blackspot of *rapeseed]* by **Nectria** inventa [Mycoparasitism]. 122732
Cardiopathogenicity of *rapeseed* **oils** and oil blends differing in erucic, linoleic, and linolenic acid content [Rats]. 116478
Tailoring *rapeseed* and other oilseed crops to the market. 115582

RAPHANUS
Allelopathy in the first stages of secondary succession on the piedmont of New Jersey [Ambrosia artemisiifolia, *Raphanus* **raphanistrum,** Aster pilosus]. 120309
Preferential pollination of yellow-flowered morphs of *Raphanus* **raphanistrum** by Pieris and Eristalis spp. 121297
Studies on the physiology of bolting and flowering in *Raphanus* **sativus** L. II. Annual rhythm in readiness to flower in Japanese radish, cultivar Wase-shijunichi. 121759
Radish: *Raphanus* **sativus** (Cruciferae). 122376

RASPBERRIES
Raspberries and **blackberries:** Rubus (Rosaceae). 122377
Small fruits for the small gardens [Strawberries, *raspberries,* **blueberries].** 122342
Examination of various Buvinol [herbicide] preparations in *raspberry* and **currant** plantations. 123096
Pectic and protein problems in **depectinized** *raspberry* juice. 117268
Pruning **experiment** with *raspberry*. 122410
Virus-indexed production of *raspberries* and **grapes.** 122266
Small fruits in Iowa [Strawberries, *raspberries,* **introductions].** 122338

'Liberty' *raspberry* [Fruit breeding]. 120691
Bibliography of the international **literature** on *raspberries*. 122180

RATIONS

Rations **based** on silage of guineagrass (Pannicum maximum Jacq.) for beef cattle in a feedlot. 118021
Lysine restriction in the *rations* of **Black** Australorp X white Leghorn hens. 117966
Energy and protein composition of **broiler** *rations*. 1. [Effects on chicken growth and carcass quality]. 118165
Energy and protein composition of **broiler** *rations*. 2 [Effects of feed intake]. 118166
Milk substitutes [in **calf** *rations]*. 118112
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of *rations* **containing** extracted peanut meal and dried skim milk. 117989
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in *rations* **containing** extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Broiler enterprise: its success on economic **efficient** *ration* [Feeding programs]. 118137
Effects of *ration* **energy** and slaughter weight on composition of empty body and carcass gain of beef cattle. 118090
Studies investigating the influence of nutritional factors on the ruminal mucosa. 2. Morphology of the ruminal mucosa after the feeding of **fattening** *rations* varying in physical consistency [Cattle]. 117994
Protein utilization of mixed **feed** *rations* by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and dried skim milk. 117989
Protein utilization of mixed **feed** *rations* by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Protein utilization of mixed **feed** *rations* by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 3. Interrelationships between protein metabolism data and the content of amino acids in feed proteins. 117991
Protein metabolism in broiler tissues at different levels of energy in **feeding** *rations*. 118173
Identifying *ration* deficiencies in the field is difficult [Swine, nutritional disorders]. 119094
Use of antioxidants in *rations* of **meat** ducks. 118073
Effects of *rationing* **method** on performances and quality of carcasses of market swine. 118027
Dried orange pulp versus ground corn ears in concentrated **mixed** *rations* for lactating dairy cows. 118159
Factors impairing the quality of *rations* [for **poultry**]. 118015
Feather meal in the *rations* [of **poultry**]. 118016
All-vegetable protein **poultry** *ration*. 118139
Effect of feeding high protein **prestarter** *ration* on the performance of broilers. 118079
Changes in loblolly pine [Pinus taeda] seedling dry weight and top to **root** *ration* between October and March. 121821

RATOON

Comparative quality characteristics of rice from first and *ratoon* **crops**. 117173

RATS

Vitamin E supplementation and glutathione peroxidase **activity** *[Rats]*. 116543
Adaptive response of lysine and threonine degrading enzymes in **adult** *rats*. 116417
Biological evaluation of soy residue protein: studies on PeR [protein efficiency ratio], plasma and tissue protein level and growth response in **albino** *rat*. 118076
Plasma transport forms of ingested fatty **alcohols** in the *rat*. 116479
Metabolic sleuths [**Alfalfa,** *rats]*. 117062
Neurotoxic effects of pyridoxine and **analogs** in *rats*. 119278
Dietary riboflavin manipulation effects on discriminated **avoidance** in *rats*. 116503
Metering of intravenous versus oral nutrients and regulation of energy **balance** *[Rats]*. 116291
Influence of the amount of fat in food on the secretion and composition of **bile** in *rats*. 116562
Attempts to influence the feeding behaviour of **brown** *rats* using ultrasonic noise generators [for rodent control]. 122958
Once again: migrations of **brown** *rats* [Pest control]. 123019
A fine structural study of mineralization foci in antler and growth plate **cartilage** *[Rats]*. 117881
The elucidation of the mechanism of folate **catabolism** in the *rat*. 116298
Trace mineral deficiencies in *rats* **caused** by feeding rapeseed flours during growth, gestation and lactation. 116441
Composition and nutritional effectiveness of membranes of bakers' yeast (Saccharomyces **cerevisiae**) *[Rats]*. 116306
Studies on the relative biopotencies and intestinal absorption of different apo-beta-carotenoids in *rats* and **chickens.** 117585
Heterogeneity and specificity of non-histone nuclear phosphoproteins *[Rats,* **chickens,** mice]. 117635
Mechanism and site of small intestinal uptake of vitamin D3 in pharmacological **concentrations** *[Rats]*. 116287
Cardiopathogenicity of rapeseed oils and oil blends differing in erucic, linoleic, and linolenic acid **content** *[Rats]*. 116478
Cholesterol synthesis in germfree and **conventional** *rats*. 116421
Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 6. Interrelationships between amino transferase activity and the functional state of the adrenal **cortex** *[Rats]*. 117985
Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 7. Relationships between the activity of some selected hydrolases in the liver and small intestine and the functional state of the adrenal **cortex** *[Rats]*. 117986
Factors influencing the insulin space in cerebral cortex slices from adult and **7-day-old** *rats*. 117527
Teratogenic effects of magnesium **deficiency** in *rats*. 116439
Magnesium, calcium and zinc levels of maternal and fetal tisues in magnesium **deficient** *rats*. 116434
Studies on the effects of the spices as an appetizer on the healthy and potassium **deficient** *rats*. 116472
Response of the prostatic complex of protein **deficient** *rats* to sex hormones. 118336
Effects of early severe malnutrition on heart and skeletal muscle lactate **dehydrogenase** *[Rats]*. 116429
Changes in patterns of feeding activity, parotid secretory enzymes and plasma corticosterone in **developing** *rats*. 118100
Studies on niacin biosynthesis from 3-hydroxyanthranilic acid in streptozotocin **diabetic** *rats* in vivo and vitro. 116461
Assessment of two chemical assays for available lysine *[Rats,* **diets,** dairy products]. 116485
Bioavailable copper and iron in *rat* **diets.** 117968
Studies on methionine metabolism. 2. Biochemical and histological studies on *rats* **[Diets].** 117995
Weight regulation in hamsters and *rats:* **differences** in the effects of exercise and neonatal nutrition. 116386
Fundamental studies on physiological and pharmacological actions of L-ascorbate 2-sulfate. I. On the hypolipidemic **effects** *[Rats]*. 116456
Effects in the *rat* of **environmental** temperature, diet dilution and treadmill running on voluntary food intake, body compositon and endocrine organ mass: a multiple regression analysis. 116427
Effects in the *rat* of **environmental** temperature, diet dilution, and treadmill running on liver and adipose enzymes and metabolism of 14C [carbon isotope]-glucose: a multiple regression analysis. 116428
Influence exerted by a protracted administration of vitamin A on the acid fastness and biochemical properties of **erythrocytes** *[Rats]*. 116561
Effect of varying levels of dietary protein on tumor development and lipid metabolism in *rats* **exposed** to aflatoxin. 116184
Effects of diets on cold tolerance and metabolic responses to cold in **fasted** *rats*. 116467
Development of the renal response to blood volume expansion in normal and **fast-growing** *rats*. 117534
Osteolathyrismus, quantitative-morphological study of experimental skeletal disease of *rat* [**Fed** by lathyrogenic agent]. 116297
Decreased plasma insulin but normal glucagon in *rats* **fed** low protein diets. 116423
Fatty acid composition of adipose tissue and liver fats of the *rats* **fed** yeast grown on n-alkanes. 116455
Mineral composition of liver and kidney of *rats* **fed** corn, sorghum, and soybean grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Dominant lethal mutations in *rats* **fed** on irradiated wheat [health hazard]. 119244
Metabolism of 109 Cd [cadmium isotope] in *rats* **fed** normal and low-calcium diets. 119259
Lysome enzymes in starving after a regimen of sngle or all-day **feeding** *[Rats]*. 116486
Characteristic data on the kinetics of protein metabolism as determined in studies with l5N [nitrogen isotope] labelled **feeds** *[Rats]*. 117981
Cell to substratum adhesion-promoting activity released by normal and virus-transformed cells in culture [Chicken, mouse, and *rat* **fibroblasts**]. 117799
Changes in the electroencephalogram of *rats* **following** subacute exposure to carbaryl and baygon: Correlation with EEG [electroencephalogram] changes in sub-human primates after chronic, low level exposure to baygon [Insecticides]. 123750
Purification and characterization of L-gulono-gamma-lactone oxidase from *rat* and **goat** liver. 117571
Dietary carbohydrate, diet pills and compensatory **growth** in *rats*. 116502
On the activity of anthelmintics against Capillaria **hepatica** *[Rats]*. 118653
On the activity of anthelmintics against Capillaria **hepatica** *[Rats]*. 118654
Uterine luminal proteins at the time of **implantation** in *rats*. 118362
Biotin status and lipid metabolism in adult obese hypercholesterolemic **inbred** *rats*. 116492
Effects of divalent cations on vitamin B12 adsorption to brush borders of *rat* **intestine.** 116454
Copper-binding protein in *rat* **intestine:** amino acid composition and function. 116501
Thiamin deficiency and the pentose phosphate cycle in *rats:* **intracerebral** mechanisms. 116440
Studies on the alpha-adrenergic activation of hepatic glucose output. I. Studies on the alpha-adrenergic activation of phosphorylase and gluconeogenesis and inactivation of glycogen synthase in **isolated** *rat* liver parenchymal cells. 117796
Oxidative phosphorylaion in brown adipose tissue mitochondria from *rats* **kept** under normal environmental conditions. 117780
Studies on the copper requirements of pregnant and **lactating** *rats*. 117998
Large-scale *rat* control. 123018
Effect of starvation on pituitary growth hormone cells and blood growth hormone and prolactin **levels** in the *rat*. 116495
Release of DNA template restrictions in rabbit spermatozoa and *rat* **liver** nuclei. 118343
Increased feeding in *rats* in a **low** ambient temperature. 116362
Plasma LH [luteinizing hormone] response to LH-RH [luteinizing hormone-releasing hormone] injection in immature intact, castrated and cyproterone-treated **male** *rats*. 118356
Insulin and glucose intolerance in **malnourished** *rats* [Malnutrition, potassium deficiency]. 116517
Bovine reaginic antibody. I. *Rat* **mast** cell degranulation by bovine allergic serum. 118766
Rats and **mice,** Ohio recommendations [Rodent control in poultry houses]. 117412
Cellulose acetate electrophoresis of soluble lens proteins of different species of mammals; the use of discontinuous buffer systems *[Rats,* **mice,** cattle, sheep]. 117633
Fleas (Siphonaptera, Insecta) caught on small mammals *[rats,* **mice]** at seven locations in eastern Denmark. 123627
Organophosphate insecticide potentiation by carboxylesterase inhibitors **[Mice,** *rats]*. 123752
C-6 [carbon-6] oxidation of ascorbic acid: a major metabolic process in animals **[Monkeys,** *rats]*. 117581
Assessment of effect of starvation, glucose, fatty acids and hormones on alpha-decarboxylation of leucine in skeletal **muscle** of *rat*. 116420
Cellular composition during recovery from chronic protein deprivaton in gastrocnemius **muscle** in *rats*. 116500
Electric activity of the *rat* **myometrium** in vivo during the estrous cycle. 119643
Measurement of exchangeable **nickel** in the *rat*. 116506
Malate dehydrogenase and glucose-6-phosphate dehydrogenase activitiy in livers of **Ni[nickel]-deficient** *rats*. 118019
Situational determinants of the body weights defended by **normal** *rats* with hypothalamic lesions. 116376
Spontaneous activity and meal **patterns** *[Rats]*. 116377
Factors affecting the rate of gluconeogenesis from L-cysteine in the **perfused** *rat* liver [Effects of diets]. 116432
Nutritive value of broken rice and ground flint corn for young **pigs** and *rats*. 118033
Differential localization of antigonadotropic and vasotocic activities in bovine and *rat* **pineal.** 117847
Glyceryl guaiacolate paralysis time in *rats* **pretreated** with some microsomal drug metabolizing enzyme inducers. 118458
On the nature of feeding patterns, **primarily** in *rats*. 116368
Levels of prostaglandins in the small intestine of *rats* during **primary** and secondary infection with Nippostrongylus brasiliensis. 118768
Testis metabolism in protein deficiency: effect of PMS [pregnant mare serum] gonadotrophin and testosterone **propionate** *[Rats]*. 117766
Pyrrolizidine alkaloid poisoning in *rats:* **protective** effects of dietary cysteine. 119254
Protein quality of mechanically deboned poultry meat as measured by *rat* PER **[Protein** efficiency ratio]. 116509
The influence of breed of *rat* on **protein** efficiency ratio (PER), skeletal muscle and adipose tissue growth. 116510
Peripheral glucosensitive satiety in the **rabbit** and the *rat*. 116370
Adipose tissue cell size and lipolysis in the *rat:* **response** to exercise intensity and food restriction. 116418
Activation of external way of free oxidation in liver mitochondria during cooling of *rats* **[Response** to sharp reduction of environmental temperature]. 117652
Calcium uptake by isolated intestinal brush border membranes folowing dietary calcium **restriction** *[Rats]*. 116476
Effects of food deprivation on protein synthesis and degradation in *rat* **skeletal** muscles. 116290
Enhancement of Ca++ [calcium ion] uptake by lactose in the *rat* **small** intestine. 116430
Growth of the parts of the alimentary tract of the *rat,* and the **small** intestine of the sheep, relative to growth in live weight. 117579
The effect of an acute dose of biotin at a post-implantation stage and its relation with female sex **steroids** in the *rat*. 116462
Rat **strain** differences in cyclic-AMP [adenosine monophosphate] levels in liver and epididymal fat pad tissue as influenced by glucagon. 116438
Alginanes [extracted from brown algae Phaeophyceae] in nutrition. **Study** in *rats*. 116305

Feeding and drinking in **suckling** *rats.* 116358
The effect on growth of feeding supplemental milk or baby food to the **suckling** *rat.* 116477
Cellulolytic activity in cecum content of mice, *rats,* **Syrian** hamsters, guinea pigs and rabbits. 117959
Effect of ascorbic acid on the pituitary-thyroid **system** in the *rat.* 116413
Feeding, enzymes, carriers and **transport** *[Rats].* 116514
Transferrin function in zinc absorption and **transport** *[Rats].* 116542
Metabolism of liver triacylglycerols in *rats* **tube-fed** a threonine-devoid diet. 116497
Control of *rats* and **warfarin** intoxication of swine. 119264
Utilization of L-methionine sulfoxide, L-methionine sulfone and cysteic acid by the **weaning** *rat.* 116443
Zinc deficiency in the **weanling** *rat:* effects on liver compositon and polysomal profiles. 116444
Neural and hormonal determinants of sex differences in food intake and body **weight** *[Rats].* 116365

RAVENELIA

Cephalosporium coccorum Petch, a mycoparasite on *Ravenelia* **species** [Hyperparasitism, fungi]. 122788

RAYS *see* **IRRADIATION**

REACTIONS

Reactions between **amino** acids and sugars: research on the formation of basic products. 116818
Development of fish flavour by the *reaction* of **autoxidized** lipids with amino acids and proteins. 116800
Oxidized lipids-proteins **browning** *reaction.* II. Effect of the protein substrate [Fish oil rancidity]. 116256
Browning *reaction* of linoleic acid-glycine system [in processing of fishery products]. 116784
Influence of substrates and coenzymes on the role of manganous ion in *reactions* **catalyzed** by pig heart triphosphopyridine nucleotide-dependent isocitrate dehydrogenase. 117589
The separation of pyruvate-ferredoxin oxidoreductase from Clostridium pasteurianum into two enzymes **catalyzing** different *reactions.* 116049
Influence of fabric construction and treatment on the *reaction* of **cotton,** half-linen and pure-linen fabrics, as well as polyester and linen mixed fabrics, to the effect of water. I. Influence on absorptive capacity. 117193
Studies assess **customer** *reaction* to graded balsam fir [Abies balsamea] Christmas trees. 119647
A shortened procedure of the **diphenylamine** *reaction* for the measurement of deoxyribonucleic acid by using light activation [Schizosaccharomyces pombe, Fungi]. 120880
Electrophysiological *reaction* of olfaction of the codling moth, Laspeyresia pomonella L., as a possible fast method for determining the toxicity and content of insecticides. 123391
Field *reactions* of wheat to Septoria [tritici] leaf blotch. 122750
Determination of polychlorinated biphenyls with DDT metabolites by *reaction* **gas** chromatography. 123740
Properties and fiber length of pulp. II. Chemical reactivity of homogeneous and **heterogeneous** *reactions.* 119786
Activity of **Hill** *reaction* and the ultrastructure of chloroplasts in maize hybrids and their initial forms. 121473
Effect of infection by arhar mosaic virus on the **Hill** *reaction* and primary productivity of pigeonpea (arhar) leaves. 122840
The *reaction* of the **histidine** residues of [bovine and procine] luteinizing hormone with ethoxyformyl anhydride. 117603
Initiation of resistance and host cell collapse in the **hypersensitive** *reaction* of oat leaves against Puccinia coronata avenae. 122707
Prevention of the **hypersensitive** *reaction* of potato cells to infection with an incompatible race of Phytophthora infestans by constituents of the zoospores. 122712
Phytohemagglutinins. I. Aspects of **immunity** *reaction* clarifying their properties and role. 121088
Intradermal *reaction* in cattle with an antigen specific of fasciola genus. First trial as a diagnostic method. 118902
Optimization of *reaction* **kinetic** processes in the food industry, shown by example of the precipitation of milk protein. 116898
On the localization of **Mehler** *reaction* with ethanolcatalase trap in the chain photosynthetic electron transport. 120942
Catalytic effects in the *reaction* of **methylolamide** crosslinking agents with cellulose [Textile fibers]. 116836
An in vitro study of the non-specific esterases of the melon fly, Dacus cucurbitae Coq. and their *reactions* with **organophosphate** and carbamate compounds. 123388
Classification of Pacific Northwest winter and spring wheat cultivars by **phenol** *reactions.* 121543
Photochemical *reactions.* XXVI. Molecular and crystal structure of a cyclobutane annelated gibberellin derivative [plants, growth substances]. 121366
Reaction **products** of alpha-dicarbonyl compounds, aldehydes, hydrogen sulfide, and ammonia [Flavor compounds]. 116636
Reactions of **protoberberine-type** alkaloids. XI. Synthesis of optically active ochotensanes. 121368
Measurement of the *reaction* **rate** of CFCl3 [chlorofluoromethanes, fluorocarbon-ozone problem] with atmospheric-like ions. 125389
Reactions of the **red** nucleus neurones in awake cat to cutaneous stimulation. 117523
Reactions of the **school** board on the parental home [Lunch]. 116319
Reactions to **subconjunctival** inoculation of Onchocerca volvulus microfilariae in pre-immunized rabbits. 118971
Reaction of **termites** [Heterotermes indicola] to weak alternating magnetic fields. 124104
The hypothetic race 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the *reaction* of some **tomato** species and varieties to it [Leaf mold]. 122612
Cytochemical localization of polysaccharides in Diplodia maydis [Fungi] with thiosemicarbazide: evaluation of three fixatives for PA: **TSC:OS** *reaction.* 120539
The *reaction* of **two** spring wheat varieties exposed to epidemics of Septoria nodorum and Septoria tritici of varying intensity and duration. 122642
Uan'e *reaction* in cows immunized with the STI [Sanitary Technical Institute] vaccine [Anthrax]. 119036

REAGENTS

Detection of an essential sulfhydryl group in [rabbit muscle] phosphoglycerate mutase with an **affinity-labeling** *reagent.* 117783
Study on the reactivity of coumarins. I. Regioselectivity of **Grignards** *reagents* engaged with coumarin. 121369
Study on the reactivity of coumarins. II. Regioselectivity of **Grignards** *reagents* engaged with methyl-4, methyl-3 and phenyl-3 coumarin. 121370
Mehler-type *reagents* in the enhancement of stomatal opening in epidermal strips [Commelina benghalensis, peas]. 121339
The chemical modification of proteins by group-specific and **site-specific** *reagents.* 116816

REARING

Development in honey bee [Apis mellifera] *rearing* **[Artifical** insemination]. 124542
Survival and development of carpenterworms [Prionoxystus robiniae] *reared* **aseptically** on an artificial diet. 123445
Confinement beef **barn**—*rear* driveway. 124624
Effectiveness of *rearing* **broilers** in cages under different timing of slaughter. 117450
Rearing **broilers** in cages of different types. 117451
Comparison of flight ability of wild-type and *laboratory-reared* **Caribbean** fruit flies [Anastrepha suspensa] on a flight mill. 123413
Flexibility is the name of the game [Dairy **cattle,** *rearing].* 117414
Lessons from America [Dairy **cattle** *rearing].* 117416
The contribution of research to milk production [Dairy **cattle,** *rearing].* 117471
Relation between some reproductive characters and heat tolerance in **cattle** *reared* under hot climate conditions. 117722
Control and safeguarding of udder health of **conventionally** *reared* heifers and young cows in preparation of the opening of a dairy cattle unit for 2,000 animals. 118504
Descriptions of a new genus and two new species of Pteromalidae (Hymenoptera, Chalcidoidea) *reared* from **Cynipid** (Hymenoptera) galls, with notes on some other species. 124255
Dynamics of feed utilization and the quality of meat of broilers in the conditions of high **density** *rearing.* 117502
Labeling of Trichogramma pretiosum by *rearing* on **eggs** from 32P [phosphorus isotope]-fed adults of Heliothis zea [corn earworm, biological control]. 123282
Rearing and **feeding** of meat swine. 118041
Rearing of **heifers** on large [specialized] farms. 117470
The *rearing* of **[honeybee]** queens. 124526
Prophylaxis concepts and mastitis control in the dairy cow in **intensive** *rearing* in the Czechoslovak Socialist Republic. 118945
Chalcid-flies (Hymenoptera, Chalcidoidea) *reared* from **Ips** typographus L. and Pityogenes chalcographus L. at some Norwegian localities [Picea abies]. 123485
Separate and **joint** *rearing* of broilers of different sexes. 117452
Rearing and **keeping** breeding cocks in cages. 118310
Life history and **laboratory** *rearing* of Brochymena quadripustulata [on black walnut Juglans nigra] with descriptions of immature stages and additional notes on Brochymena arborea (Hemiptera: Pentatomidae). 124215
Substitution of lysine supplemented high protein wheat in protein feeds fed in the *rearing* and during the **laying** period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high protein wheat in protein feeds fed in *rearing* and during the **laying** period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Estimate of the territorial systems in relation to the biologico-productive directions for **livestock** *rearing.* 115445
Capture and *rearing* of **Polyphaenis** sericata (Lepidoptera, Noctuidae). 123895
Capital city's capital role [India, **poultry** *rearing,* projects]. 115965
Technology of **poultry** *rearing* in the German Democratic Republic. 117403
Queen *rearing* [Apis mellifera]. 124523
Queen *rearing* [Apis mellifera]. 124524
Replacement heifer—to *rear* or not to **rear.** 117417
Scientific and practical basis for increasing the effectiveness of *rearing* **reindeer.** 117436
Rearing of the **South** African carnation tortrix Epichoristodes acerbella Walk. (Lepidoptera, Tortricidae). 123425
Queen development and *rearing* **successes** [Apis mellifera]. 124516
Rearing of **swamp** beavers with or without water? 117421
Profitability of rural **swine** *rearing* [Costs, Switzerland]. 115547
Keeping a finger on your herd's pulse **[Swine** *rearing,* costs]. 117484
Cycles of boar infertility and pathology of the piglet in intensive **swine** *rearing.* 118247
Use of hypochlorine for disinfection in large scale **swine** *rearing.* 118574
'Exciting' future for the [poultry] breeders *[Rearing* **techniques].** 117406
Rearing of **transplanted** larvae in artificial queen-cell cups in a queenright colony [Apis mellifera]. 124580
Experience in *rearing* of **young** cattle [Hygiene, prophylaxis]. 118569

RECAPTURE *see* **CAPTIVITY**

RECEPTION

Determination of quality in agricultural produce at its *reception* on **bases** and corn-bins. 117166
Measures to intensify the *reception* **rate** of bread grains, put into practice by I.V.C.P.T. Dolj. 117167
Contagious bovine pleuropneumonia pathogeny. *Receptive* **state** of cattle kept under heparin. 118899

RECEPTORS

Concanavalin A and wheat germ **agglutinin** *receptors* on Dictyostelium discoideum [Fungi]: their visualization by scanning electron microscopy with microspheres. 120480
Antennal *receptor* response to sex pheromone mimics in the American cockroach [Periplaneta americana]. 124094
Action of histamine and its *receptor* **blockers** on uterine circulation in sheep. 117893
Solubilization of the chromatin-bound **estrogen** *receptor* from chicken liver and fractionation on hydroxylapatite. 117667
Rapid appearance of **estrogen** *receptor* in chick liver nuclei: partial inhibition by cycloheximide. 117680
The contribution of different *receptors* to **gravity** orientation in insects. 123917
X-ray microanalysis of *receptor* **lymph** in a cuticular arthropod sensillum [Cupiennius salei]. 124035
Enzymatic modification of bovine and ovine **parathyrin** *receptor.* 117678
Distribution of binding sites for the **progesterone** *receptor* within chick oviduct chromatin. 117654
Progesterone-binding components of chick oviduct: in vitro effects of **purified** *hormone-receptor* complexes on the initiation of RNA synthesis in chromatin. 117789
Mechanism of steroid hormone action: in vitro control of gene expression in chick oviduct chromatin by purified **steroid** *receptor* complexes. 117712
Comparative histological investigation of *receptor* **structures** in aortic wall of some vertebrate representatives [Includes chickens and rabbits]. 117689
Progesterone-binding components of chick oviduct: in vitro effect of *receptor* **subunits** on gene transcription. 117790
The peripheral inhibition of the tarsal **sugar** *receptor* by sodium chloride in the proboscis extension response of the blowfly, Phormia regina M. 124034
Osmolyte and **tryptophan** *receptors* controlling gastric emptying in the dog. 117541

RECESSIVE

A sterilizing tail stump sperm defect in a Holstein-Friesian bull **[Defective** *recessive* genes, deep-freezing semen]. 119184
Discussion of the effects of *recession* on the **rural-farm** economy. 115304
The effects of *recession* on the **rural-farm** economy. 115309

RECLAMATION

Coal mine [land] *reclamation* on the **Black** mesa and the four corners areas of notheastern Arizona. 125121
Problems in *reclamation* of **coal** mine spoils in New Mexico. 125128
Transplantation of Typha [angustifolia] and the distribution of vegetation and algae in a *reclaimed* **estuarine** marsh. 120329
Biogeochemical limitations on western [land] *reclamation.* The **high** northern Great Plains example [Soils]. 125120
Major trends and the economic effectiveness of **land** *reclamation* [Drainage]. 115362
Greater efficiency through coordination of **land** *reclamation* and crop production [East Germany]. 115408
Development of **land** *reclamation* in British Columbia. 125122
Land *reclamation* in Texas—an opportunity. 125123

Land *reclamation*, water quality control, and environmental concern at Centralia (Washington) coal mine. 125124
Land *reclamation* and government policy. 125125
The problem of **land** *reclamation* viewed in a systems context. 125132
Methodical hints on long-term planning of **land** *reclamation* investments [East Germany]. 125136
Economic impacts of surface mine *reclamation* [**Mathematical** model, environmental pollution control, regulation]. 125522
Resources of surface water in the Novosibirsk Region (1973) [Development of a scheme of *reclamation* **measures**]. 125233
Montana *reclamation* problems and remedial techniques [Soil erosion]. 125126
Surface mine *reclamation* in the **Mountain** State [West Virginia]. 125166
Work with a view to preparing harder soils for cultivation in north Cameroon. **Results** *[Reclamation]*. 125093
Strip mine rehabilitation problems and research in Wyoming *[Reclamation,* **revegetation**]. 125131
Development of recommendations for designing and effective operation of irrigation systems on the basis of major irrigated tracts in the Azerbaijan SSR considering regularitiesof changing the regime of underground water and the *hydrogeologic-reclamation* **situation** effected by irrigation (1971-1973). 125221
Apollo County Park **wastewater** *reclamation* project. 125539

RECONNAISSANCE

Remote *reconnaissance* of water and air pollution in the European area of concentrated population by means of environmental research satellites. 125533

RECONSTRUCTION

Reconstruction of a **single** calcium-sodium cell canal in a lipid bilayer [Algae, Nitella flexilis, Nitellopsis obtusa. 121036
Recommendations for rationalizing and *reconstructing* **traditional** livestock facilities. 115417
Grass cuticles: a new paleoecological tool for East African lake sediments [For *reconstructing* the past **vegetation** and climate of regions]. 120330

RECORDS

Record of **aberrant-forms** of Dictyoploca japonica Moore and Geometra valida C. et R. Felder (Lepidoptera). 124358
More *records* of **butterflies** as prey for ambush bugs [Phymata fasciata] (Heteroptera). 124063
Ingluviotomy in a pullet—a **case** *record*. 118536
Record-keeping for a **colony** of 15,000 mice without use of a computer. 117466
Irish Orthoptera: some **distribution** *records*, including a first record of Tachycines asynamorus Adelung (Rhaphidophoridae). 124312
Relations between herbarium records and other *records* [**Electronic** data processing]. 120044
First *record* of filamentous algal remains from the late Precambrian rocks of Random Island (Trinity Bay), eastern Newfoundland, Canada. 120004
A **first** *record* of the red alga Phyllophora sicula (Kutzing) comb. nov. (Phyllophora palmettoides J. Agardh) for Ireland. 120082
Irish Orthoptera: some distribution records, including a **first** *record* of Tachycines asynamorus Adelung (Rhaphidophoridae). 124312
The **first** *record* of an authentic Dialineura [gorodkovi] species in North America (Diptera: Therevidae). 124408
The higher classification of the insect order Coleoptera including **fossil** *records* and a classified directory of the Coleopterists and coleoptera collections of the world. 120302
Asteromella: a new **generic** *record* from India. 120003
Relations between **herbarium** *records* and other records [Electronic data processing]. 120044
Records of **insects** taken at light traps in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: Heteroptera) in relation to rainfall. 123250
Records of **insects** taken at light traps in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
New and additional **lichen** *records* from Texas. 119985
East European feed shortage will **mean** *record* grain imports. 115647
Use of **milk** *records* in one herd to predict a cow's production in a second herd. 117410
Construction of Sarda barrage—a **national** *record* [Irrigation project]. 124600
Sonerila pedunculosa Thw. (Melastomataceae)—a **new** *record* for India. 120005
New *records* of marine algae from the 1974 R/V Dolphin cruise to the Gulf of California [New taxa]. 120261
New *records* of spiders as predators of maize borer [Chilo partellus] and maize jassid [Zyginidia manaliensis]. 123302
New *records* for buttterflies in southern, central and northern Queensland. 124233
Studies in Caribbean botany. 1. New or **noteworthy** *records* for West Indian orchidology. 119970
Cow culling on first calf weaning weight in *record* of **performance** tested herds. 117408
American Horticultural Society **Plant** *Records* Center [Data bank of cultivated ornamentals]. 120038
The living **plant** *record* system at the Royal Botanic Garden, Edinburgh. 120050
Record of the **prehistoric** remains of two humped Asiatic camel (Camelus bactrianus Linn.) from Kausambi, Uttar Pradesh, India. 117505
U.S. Tobacco exports in fiscal 1976 **reach** *record* value on reduced volume [Statistics]. 115637
World tobacco production set another *record* in 1975. 115639
Come sun, come shine; a symposium on the summer of 1975—one of the driest and hottest on *record* [**Rose** varieties, Great Britain, Ireland]. 122470
New **spider** *records* for Georgia [Agelenidae, Lycosidae]. 124315
Syrphus torvus Osten-Sacken (Diptera, Syrphidae). *Records* from **Spitsbergen,** Svalbard. 124382
Taraxacum *records* from Ireland. 120087
The face of rural America [A **visual** *record* of America's agriculture in the Bicentennial year]. 115205
Record **world** production of edible olive oil forecast for 1975/76 [Statistics]. 115631

RECREATION

A Lancasterian approach [consumer behavior] for specifying derived demands for *recreational* **activities.** 115299
Recreation and **amenity** in coniferous production forests: some overseas observations and some suggestions for New Zealand. 119519
Agricultural production in *recreational* **areas** [Land utilization]. 115221
Flies [Diptera] and their hygienic importance in leisure-time and *recreational* **areas.** 123648
Instructions for cultural and *recreational* **arrangements** of the forest regions [Slovenia]. 119326
Wood in the standardization of sports and *recreational* **equipment.** 119676
Recreational **forests**—their delimitation and functional arrangement. 119373
The intact landscape in publicity for foreign tourists: guidelines for planning and executing 1976 publicity *[Recreational* use of **land**]. 115208
Determination of demand for leisure time and *recreation* [**Land** development program]. 115223
Private land area and leisure time research *[Recreation* use of **land**]. 115286
The Teufelsmoor project between interests of agriculture, nature conservation and *recreation* [**Natural** resources]. 125572
Landscape evaluation for *recreation* in **Southern** Westphalia—further development of an instrument for making decisions by land planners. 115226
Windbreaks for *recreational* **uses.** 119405

RECRUITMENT

Honeybee [Apis mellifera] *recruitment:* the **dance-language** controversy explained. 124532

RECURRENT

Gastrocolopexy for prevention of *recurrent* **gastric** volvulus [Dogs]. 119109
The *recurring* **problem** of smut [of sugarcane]: recognising it and basic control measures. 122776
Recurrent **stereospecific** synthesis of structures related to those of Hyalophora cecropia juvenile hormone. 124163

RECYCLE

Environmental protection, *recycling,* and the **international** materials economy. 125468
An overview: so you want to *recycle* your **wastewater?** How should you begin? Is it feasible? 125476

RED

Phenology and leaf growth of defoliated hardwood trees [Quercus rubra, **Acer** *rubrum].* 121816
Flight and survival of **alate** *red* imported fire ants [Solenopsis invicta] after mirex treatment. 123247
A first record of the *red* **alga** Phyllophora sicula (Kutzing) comb. nov. (Phyllophora palmettoides J. Agardh) for Ireland. 120082
The agar-type polysaccharide from the *red* **alga** Ceramium rubrum. 120995
Growth of the *red* **alga** Iridaea cordata (Turner) Bory in semi-closed culture. 121182
Evidence for the biogenesis of halogenated chamigrenes from the *red* **alga** laurencia obtusa. 121373
Utilization of **alumized** *red* mud solids for phosphorus removal. 125519
F. O. *("Red")* **Bateman:** pioneer silviculturalist [Foresters]. 119604
Red **blood** corpuscle survival assessed with chromium 51 [isotope] and diisopropyl fluorophosphate-H3 in cattle. 117919
The genetic control of *red* **cell** glutathione deficiencies in Finnish Landrace and Tasmanian Merino sheep and in crosses between these breeds. 118333
Phosphate compounds in *red* **cells** of the chicken and duck embryo and hatchling. 117630
The agar-type polysaccharide from the red alga **Ceramium** *rubrum.* 120995
Effect of the allelopathic factor on the activity of adenosinetriphosphatase in plants *[Red* **clover,** oats, rape]. 121461
Study of [fungus] disease resistance of stock and breeding material of winter **wheat,** barley, oats and *red* **clover.** 122626
Identification and prevalence of viruses in *red* **clover** in central Kentucky. 122861
Herbicides in *red* **clover** plantings. 123088
The 1975 *red* **clover** flow [Honey production]. 124519
Field trials of fungicides to **control** *red* core [Phytophthora fragariae] of strawberries. 122563
Degradation products from aflatoxin B1 by **Cornyebacterium** *rubrum,* Aspergillus niger, Trichoderma viride and Mucor ambiguus [Fungi]. 121042
Red **crab** processing waste as a carotenoid source for rainbow trout. 125375
Effect of position, length of cuttings and date of planting of cuttings on rooting in the *red* **currant** variety Heinemanns Rote Spatlese (Preliminary report). 122408
Bibliography of the international literature on white and *red* **currants.** 122181
Investigations on the apple tree. 9. Pomological and agronomic cards of *Red* **Delicious** spur clones [Varieties]. 122308
Growth and yield of Lord Lambourne and *Red* **Delicious** trees [varieties] on eight apple rootstocks in Cyprus. 122401
Red **dye** No. 2 [Food additives]. 116155
Dam-offspring relationships in the cattle of the **Estonian** *Red* breed. 117923
Resistance to **European** *red* mite, Panonychus ulmi (Koch), in apple. 123409
Insecticide-resistant predatory mites [Typhlodromus pyri] feed on **European** *red* mite, Panonychus ulmi] in apple orchards. 123428
Plictran: some factors in effective integrated control of **European** *red* mite [Panonychus ulmi, apples]. 123429
Development ofplants in filtered sunlight. II. Effects off spectral composition, light intensity, daylength and *red* and **far-red** irradiations on long and short-day grasses. 123313
Control of coal-tar impregnation of beech wood with *red* **heartwood;** success of impregnation according to thylosis frequency. 119725
Development ofplants in filtered sunlight. II. Effects off spectral composition, light intensity, daylength and red and *far-red* **irradiations** on long and short-day grasses. 123313
Effect of varying levels of protein and calcium on the performance of Rhode **Island** *Red* caged layers. 118080
Plasma alkaline phosphatase polymorphism and its association with productive traits in Rhode **Island** *Red* [pullets]. 118329
Titration behavior of individual tyrosine residues of myoblogins from sperm **whale, horse,** and *red* **kangaroo.** Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798
The influence of irradiation with *red* **light** on geotropic curving and growth of decapitated Avena coleoptiles. 121392
Nonvolatile nitrogen and sulfur compounds in *red* **meats** and their reltion to flavor and taste. 116931
Regulatory considerations concerning **mechanically-deboned** *red* meat. 116153
Mechanically-deboned *red* meat. 117004
Changes in the intensity of protein synthesis in the embryo axes of **northern** *red* oak (Quercus borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
Reactions of the *red* **nucleus** neurones in awake cat to cutaneous stimulation. 117523
Red **oak** [Quercus borealis] and bur oak [Quercus macrocarpa] in the Mariupol' Forest Experimental Station. 119556
Influence of slaughtering weight on carcass characteristics of F1 crossbred young bulls obtained by Friesian and Brown Alpine dams sired by *Red* **Pied,** Piemontese, Romagnola, Chianina and Marchigiana bulls. 118397
Red **Polls** [Cattle breeds]. 118215
Study of the optimal load on White Ugni grapes on groies *[Red* **Rendzina**] soils [Pest and disease control, application of pesticides]. 122459
The masking mechanism studies by means of rabbit and **sheep** *red* cells. The hypothesis of blocking of some access structures. 117565
A note on variation of skin-fold thickness of Brown Swiss X *Sahiwal/Red* **Sindhi** (Karan Swiss) calves. 117744
Investigations on the identification of the species of *red* **spider** mites harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the two-spotted spider mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377
Contribution to the knowledge of standard and **spur** *Red* Delicious and to Stayman apple trees [Varieties]. 122306
Productivity of the standard and **spur** *Red* Delicious, the golden Delicious and the Yellowspur apple trees in relation to the rootstock. 122315
Stimulation of sporulation of Phytophthora fragariae *[red* **stele** of strawberries]. 122666
Evaluation of the udder in *Red* **Steppe** cattle in relation to machine milking. 117933
Interrelations of seed color, weight, germination and origin in alsike, *red* and **white** clovers. 121546
Phospholipid metabolism in *red* and **white** insect muscle [Schistocerca gregaria]. 123986

REDOX

The variability of soil aeration measurements. II. Field measurements of N2O [nitrous oxide] concentrations, *redox* **potentials,** oxygen diffusion rates, and oxygen partial pressures as affected by NO3- [nitrate]-fertilization. 124880

REDPEPPERS

Quantitative microanalysis of capsaicin, dihydrocapsaicin and nordihydrocapsaicin using mass fragmentography **[Bush** *redpeppers].* 117290

Effect of 2-chloroethyl phosphonic acid (Ethrel) on the ripening of **bush** *redpeppers* (Capsicum annuum). 121649
Studies on the pungent principle of Capsicum fruits [**bush** *redpeppers].* IV. The relations between the qualities of Capsicum fruit and its production. 121723
Study on the microsporogenesis of Capsicum annuum L. *[Redpeppers]* after **gamma-irradiation.** 120651

REDUCTASES
Subcellular localization of 3-hydroxy-3-methylglutaryl coenzyme A *reductase* and other **membrane-bound** enzymes in sweetpotato roots [healthy and infected with Ceratocystis fimbriata]. 121760
Significance of **nitrate** *reductase* activity in developing cotton seeds. 121443
Nitrate *reductase* inactivating factor from rice cells in suspension culture. 121535
A reduced pyridine nucleotides-diaphorase activity associated to the assimilatory **nitrite** *reductase* complex from Neurospora crassa [Fungi]. 120905
Sulphite *reductase* and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite forming wine yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916
The occurrence and some properties of 3-hydroxy-3-methylglutaryl coenzyme A *reductase* in **sweet** potato roots infected by Ceratocystis fimbriata. 122720

REDUCTION
Factors affecting the *reduction* of **acetylene** by root nodules of Lupinus species [Lupine]. 121527
Possibilities of *reducing* **aflatoxin** formation in extraction peanut grist. 117366
Quick **analysis** *reduces* budgeting expenses. 115431
Reduction in **anaphase** bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in irradiated & normal wheat (Triticum aestivum L.) root tips. 120475
Cost *reduction* in aquatic plant harvesting [controlled by herbicides: biological means]. 123122
Reducing **costs** by changing from intensive to extensive propagation methods [Ornamental plants, England]. 115485
Effects of *reduced* **cultivation** on soil conditions and root development of cereals: Joint [Tillage] Project with the aRC [Agricultural Research Council] Weed Research Organization. 125096
Activity of some *oxidation-reduction* **enzymes** in the hyaloplasm isolated from tillering nodes of winter wheat. 121491
Seasonal variations in sheep **erythrocyte** *reduced* glutathione. 117757
The value of grass in *reducing* **farm** wintering costs in Hawke's Bay [Sheep, cattle]. 118154
A method for *reduction* and **fixation** of symphyseal fractures of the mandible [Dogs, cats]. 119250
Reducing **flowering** time in Aphelandra squarrosa Nees with high pressure sodium lighting. 121678
Heat radiation phenomena from a glasshouse crop canopy at night. IV. Determination of the curtain factor by a simple method [**Fuel** *reduction].* 124596
Reducing **heat** losses in polyethylene covered greenhouses. 124652
Reducing **horse** feeding costs. 115491
Study of *oxidation-reduction* **interactions** among conversion products of model compounds and carbohydrates in alkali solutions [Lignin]. 119745
Arizona cypress [Cypressus Arizonica] **mortality** *reduced* sharply. 122886
Nitrate *reduction* and nitrite utilization by nitrifiers in an unsaturated Hanford sandy loam. 124872
Reduction of the **number** of interrow cultivations when growing sugarbeets in irrigated conditions in the southern part of Ukraine. 121984
Reduction of **peel** roughness of 'Shamouti' orange with growth regulators. 121712
Phosphate *reduction* and response of [phyto] plankton populatons in Kootenay Lake. 125418
Economies of raw materials by **planned** *reduction* of the consumption of raw materials [Fruits and vegetables, processing]. 117301
Relation between photoinduced changes of the *oxiation-reduction* **potential** of the chloroplast suspension and the activity of the second photosystem [Peas]. 121639
Investigation of *oxidation-reduction* **processes** in lignin model compounds in alkaline solutions. 119736
A *reduced* **pyridine** nucleotides-diaphorase activity associated to the assimilatory nitrite reductase complex from Neurospora crassa [Fungi]. 120905
Activation of external way of free oxidation in liver mitochondria during cooling of rats [Response to **sharp** *reduction* of environmental temperature]. 117652
U.S. Soybean **shortfall** *reduces* world's oil supplies for 1975. 115591
Survey of Canadian capacity **shows** *reduced* growth rates for 1975-78 [Pulp, paper, fiberboard]. 119804
A comparison of the performance of the Savage tea cutter, Tarry nipper breaker and the Nara tea granulator for the **size** *reduction* of particles of black tea [Equipment]. 124732
Running **skylines** *reduce* access road needs, minimize harvest site impact. I. 119846
Manufacture, composition and properties of Gouda cheese with *reduced* **sodium** content. 116919
Investigation of deciduous wood lignin. III. *Reduction* **splitting** of aspen native lignin. 119738
Influence of *reduced* **spray** amounts in the separate methods of application on the quantity and quality of the layer of spray on hops [Plant protection, equipment]. 122936
Geochemical survey of Missouri—methods of sampling, laboratory analysis, and **statistical** *reduction* of data. 124888
Effect of nisin [antibiotic produced by Streptococcus lactis] on *reducing* the **thermal** process in commercially sterilized milk. 116929
Reduction of **transpiration** from wheat caused by germinating conidia of Erysiphe graminis f. sp. tritici. 122715
U.S. Tobacco exports in fiscal 1976 reach record value on *reduced* **volume** [Statistics]. 115637
Use of edgers in *reducing* **waste** and speeding mill flow [Lumber]. 119705
Ineffectiveness of human chorionic gonadotropin in **weight** *reduction:* a double-blind study [Obesity]. 116284
Scorching of grass [from sun burning through a thin ice cover]—What can we possibly do to *reduce* **winter** damage? 122986
Effects of waterlogging on the growth of peas [Chlorosis, *reduction* of **yield].** 122892

REDUVIIDAE
New African **Hemiptera** *Reduviidae* of the Munich Museum. 124389

REDWOOD
Comparative ultrastructure of green and **xantha** *redwood* (Sequoia sempervirens) chlorplasts. 120538

REEFS
The role of benthic algae in the shallow reef of Curacao (netherlands Antilles). I. Primary productivity in the **coral** *reef.* 120899
Ciguatoxin and edible [and poisonous] *reef* **fish.** 116065
The role of benthic algae in the **shallow** *reef* of Curacao (netherlands Antilles). I. Primary productivity in the coral reef. 120899

REELS
Coating of wood pulps with surface finishes from the *reel.* 1. **Process** technology. 119667

REFEEDING *see* FEEDING

REFINING
A study of loblloly pine [Pinus taeda] growth increments. III. *Refining* **characteristics** of tracheids from kraft pulps. 119840
A *refinement* of the **immunofluorescent** complement fixation test for Trypanosoma infections [in animals]. 118969
U.S. Edible fats and **oils** *refining* capacities, 1975. 117106
Marketing spreads for *refined* **sugar.** 115767
Prospects in the utilization of fluid bed in the drying and cooling of *refined* **sugar.** 117111
Approach to computer interfacing with corn **syrup** *refining* processing. 117115

REFLEX
Action of depressant drugs on **tympanic** *reflexes* [Cats]. 117566

REFORESTATION
Seed orchards as a future source of seedlings [**Artificial** *reforestation].* 119614
Potential for the cutting in tree **improvement** and *reforestation.* 119612
The brown and burn story [to prepare **land** for *reforestation].* 119615
Conifers under test [Cedrus **libani,** *reforestation].* 119573
New urgency for *reforestation* **planning**—a Canadian viewpoint. 119609
New urgency for *reforestation* **planning**—a U.S. Viewpoint. 119610
1974 listing of selected **publications** on *reforestation.* 119620
Development of characteristic principals of *reforestation* **soils** of Loudima (Congo). 124784
Tissue culture—a future source of planting **stock** [for *reforestation].* 119618

REFRACTION
Birefringence and **ulrastructure** of isolated, stabilized spindles [of the crane fly, Nephrotoma suturalis]. 124124

REFRIGERATION
Volatiles produced by microorganisms isolated from *refrigerated* **chicken** at spoilage. 116210
Aplication of the the reliability theory to *refrigerating* **equipments.** I. [Food conservation]. 124683
Energy, **food** and *refrigeration.* 116754
Refrigeration of **fruit** with particular regard to strawberries. 117257
Better operation of *refrigeration* **plant** [to cool and freeze meat] gives more refrigeration and saves power. 118493
Refrigerated **preservation** of grain. 117145
A new technique for the estimation of bacteriological quality of **raw** *refrigerated* milk. 116253
Better operation of refrigeration plant [to cool and freeze meat] gives more *refrigeration* and **saves** power. 118493
Applications of cold to the agricultural and food **sector** *[Refrigeration].* 116647
Weight loss in *refrigerated* **storage** of broilers. 117040
Studies on ripening and *refrigerated* **storage** of the sapodilla (Achras sapota L.). 117244
Refrigerated **transportation** of fresh meat and sausage [Legislation, hygiene]. 115626

REGENERATION
Regeneration of **afferent** and efferent fibres to muscle spindles after nerve injury in adult cats. 117830
The influence of cytokinin and gibberellin on auxin mobilization: its role in *regeneration* and **apical** dominance in Marchantia polymorpha. 120974
A guide to **artificial** *regeneration* with particular reference to line-planting in peninsular Malaysia. 119593
Regeneration in **Fossombronia** himalayensis Kash. And Sewardiella tuberifera Kash. [Hepaticae]. 121189
DDT as an accelerator of **limb** *regeneration* and molting in fiddler crabs. 123709
Surface **mines** can be *regenerated.* 125095
Histochemical studies on pigeon definitive feathers during post-hatching, induced and *regenerative* **modes** of development. IV. Succinate and malate dehydrogenases. 117874
Natural *regeneration* and development of English oak (Quercus robur L.) and common hornbeam (Carpinus betulus L.) in the Krakovo virgin forest preserve. 119595
Suitability of multiple regression analysis for elucidating multicollinear ecological relations as demonstrated by natural spruce **[Picea]** *regeneration.* 120402
Logging to save ponderosa **pine** *regeneration:* a case study. 119833
Regeneration of **plants** from cell suspensions [of carrot, Datura, tobacco and soybean] frozen at -20, -70 and -196 degrees C [Celsius]. 121528
Studies on the take-all fungus Gaeumannomyces graminis. V. Development and *regeneration* of **roots** in cereal species during the attack. 122580
Effect of photoperiodic manipulation on seasonal variation in bud and **shoot** *regeneration* of Rieger begonia [Begonia hiemalis] leaf cuttings. 121668
The [forest] *regeneration* **specialist.** 119617
Regeneration of **strawberry** plants from tissue cultures. 121631
Vertical line sampling for *regeneration* **surveys** [Forest inventory]. 119488
Picturing the future forest from *regeneration* **surveys.** A research program and scale for defining adequate stocking. 119611

REGIA
Selection of promising forms of European walnut **[Juglans** *regia]* in the Kamennaia Steppe. 120813

REGINA
The peripheral inhibition of the tarsal sugar receptor by sodium chloride in the proboscis extension response of the blowfly, **Phormia** *regina* M. 124034

REGRESSION
Regression **analysis** of brewing data. Methods of assessment of relationships between two properties correlating with another, for example, the relationship between extract and nitrogen in malting barley. 117082
Effects in the rat of environmental temperature, diet dilution and treadmill running on voluntary food intake, body compositon and endocrine organ mass: a **multiple** *regression* analysis. 116427
Effects in the rat of environmental temperature, diet dilution, and treadmill running on liver and adipose enzymes and metabolism of 14C [carbon isotope]-glucose: a **multiple** *regression* analysis. 116428
Suitability of **multiple** *regression* analysis for elucidating multicollinear ecological relations as demonstrated by natural spruce [Picea] regeneration. 120402

REGULATION
Politics vs science in food **additives** *regulation.* 116152
The relation between alimentary and emotiona **amygdalar** *regulation* [Food intake, dogs]. 116381
Regulation of **apical** dominance by ethephon, irradiance and CO2 [carbon dioxide, peas]. 121752
Fumigant residues in food: **behaviour** and *regulation.* 116162
Role of transfer ribonucleic acids in the *regulation* of several **biosyntheses** in Saccharomyces cerevisiae [Yeasts]. 121048
Changes of foreign **body** *regulation* of the cheese law and the ordinance on milk products. 115834
Calcium *regulation* in heart cells. The interaction of mitochondrial and sarcoplasmic reticulum with troponin-bound calcium [Dogs]. 117659
Towards a new [European Economic] **Community** *regulation* [Grape culture and industry, policies]. 115972
Economic impacts of surface mine reclamation [Mathematical model, environmental pollution **control,** *regulation].* 125522
Properties and **developmental** *regulation* of an alpha-D-galactosidase from Dictyostelium discoideum [Fungi]. 120925
Characterization and **developmental** *regulation* of beta-galactosidase isozymes in Dictyostelium discoideum [Fungi]. 121023
The relationship between proton fluxes and the *regulation* of **electron** transport in [spinach] chloroplasts. 121646

Metering of intravenous versus oral nutrients and *regulation* of **energy** balance [Rats]. 116291
The *regulation* of **enzyme** synthesis in arginine metabolism of Saccharomyces cerevisiae [yeast, genetics]. 120733
Experimental analysis of **excedentary** *regulation* in xenoplastic quail-chick limb bud recombinants. 117954
Modification of the Northwest German **farmstead** *regulation* and the new procedural regulation for farmstead matters. 3. 115794
Modification of the Northwest German **farmstead** *regulation* and the new procedural regulation for farmstead matters. 2. 115795
Modification of the Northwest German **farmstead** *regulation* and the new procedural regulation for farmstead matters. 1. 115796
Regulation of the **flowering** date in remontant carnation [Dianthus]. 121617
Protein and amino acids in the *regulation* of **food** intake. 116372
The role of activation in the *regulation* of **food** intake. 116383
Regulation of **genetic** recombination in Neurospora crassa [Fungi]. 120755
Vegetation and **groundwater** *regulation* in Chaco Boreal [Bolivia, Paraguay, Argentina]. 120382
Regulation of **intestinal** calcium absorption in the laying quail: independent of kidney vitamin D hydroxylation. 117819
Transfrontier pollution: some **issues** on *regulation.* 125473
The instrument for **land** *regulation* of priority areas—criteria and effects. 115231
Regulation of **land** settlement by consolidation in North Rhine Westphalia. 115670
Land *regulation* and improvement of the use of reindeer pastures in the Magadan Region. 121990
More protection against the risk of epidemics in large laboratory animal stocks. Is a **legislative** *regulation* necessary in laboratory animal units? [Swine]. 118652
Hops **marketing** *regulation* of the European Economic Community; report of the Commission to the Council on the state of hops production and marketing of the 1974 harvest. 115677
Does the minced **meat** *regulation* of May 10, 1976 contribute anything new? 2 [Hygiene, labeling]. 116098
Britain's chickens and the EEC [**Meat** *regulation,* European Economic Community]. 116239
Genetic influence on nutritional aspects of **metabolic** *regulation.* I. [Mice]. 118262
Third *regulation* for **modifying** the cheese ordinance [Legislation]. 115982
Legislation: **new** *regulation* gives advantages to the consumer [Feed inspection, Brazil]. 115811
New *regulation* of section 5, paragraph 2, of the ready-made package degree on the labeling of food packages. 115836
Effects of 1,N6-ethenoadenylates on the *regulation* of **photosynthetic** activities by adenylates; a study of the nucleotide binding sites on chloroplast coupling factor [Spinach]. 121754
Regulation of **plant** growth by rain and mist. 121017
A climate room for **precise** *regulation* of temperature and humidity in connection with a temperature-regulated nest site for wood ants [Formica polyctena]. 124119
Modification of the Northwest German farmstead regulation and the new **procedural** *regulation* for farmstead matters. 3. 115794
Modification of the Northwest German farmstead regulation and the new **procedural** *regulation* for farmstead matters. 2. 115795
Modification of the Northwest German farmstead regulation and the new **procedural** *regulation* for farmstead matters. 1. 115796
Regulation of **protein** metabolism during spore germination [Fungi]. 121124
Regulation of **reaginic** antibody formation in animals. 118893
Regulation, **reason,** responsibility, and respect [Canned food industry]. 116204
The possible role of indoleacetic acid in the *regulation* of the **respiration** process. 121498
Insulin and the **set-point** *regulation* of body weight. 116363
The *regulation* of **silica** incorporation into the stinging cell wall of Urtica Pilulifera. 120554
Simple **temperature** *regulation* in fermentation and storage tanks. 116680
Tenth *regulation* for the execution of the law on changing legal food provisions, March 2, 1976. 115958
Ionic relations and the *regulation* of **turgor** pressure in the marine alga, Valonia macrophysa. 121192
Interval of changes of the hydrophysical properties of soil and underlying layer under water condition effected by **twoway** *regulation* (1972-1973) [Irrigation, drainage]. 125229
Water balance of a system of **two-way** *regulation* of water regime of soils in a monsoon climate. 125238
On the *regulation* of the **uptake** of aminoacids, sugars and organic acids by Euglena gracilis, strain Z [Algae]. 121383
The *regulation* of **vitamin** D metabolism: interaction of vitamin D and calcium [Chicks]. 117711
Weight *regulation* in hamsters and rats: differences in the effects of exercise and neonatal nutrition. 116386
Regulation by **zinc** and adenosine 3',5'-cyclic monophosphate of growth and citric acid accumulation in Aspergillus niger [Fungi]. 120987
The citric acid fermentation by Aspergillus niger [Fungi]: *regulation* by **zinc** of growth and acidogenesis. 120989

REGULATORS

Auxin, an **endogenous** *regulator* of growth in algae. 121199
Toxicity and plant **growth** *regulator* effects of cytochalasin H isolated from Phomopsis sp. [Fungi]. 120990
Camptothecin [isolated from captotheca] a selective plant **growth** *regulator.* 121152
Use of plant **growth** *regulators* in Hawaii in industry. 121279
Experiments with insect **growth** *regulators* (IGRs) on lepidopterous pests and some of their parasitoids [Natural control]. 121280
Effect of the preparation "Kampozan" [a synthetic **growth** *regulator]* (based on ethylene phosphonous acid) on winter rye. 121464
Use of plant **growth** *regulators* in Hawaii for sucrose enhancement in sugarcane. 121523
Preliminary results of dinoseb as a **growth** *regulator* on corn in Iowa. 121542
Growth *regulators* and rooting of cuttings of woody ornamental plants. 121629
Comparison of soil applied **growth** *regulators* on height control of poinsettia [Euphorbia pulcherrima]. 121662
Reduction of peel roughness of 'Shamouti' orange with **growth** *regulators.* 121712
Responses of vigorous 'Delicious' apple trees to pruning and **growth** *regulator* treatments. 121715
Use of plant **growth** *regulators* in Hawaii on pineapple. 121735
Use of plant **growth** *regulators* in Hawaii on ornamentals. 121736
Use of gibberellic acid permits early budding of pecan [Carya illinoensis] seedlings [**Growth** *regulators].* 121770
The **growth** *regulator* "Atrinal", an aid to management [Chemical pinching of azaleas]. 122259
Control of corky (silvery) spots [a peel disorder] of grapefruit by **growth** *regulators.* 122939
The effect of various **growth** *regulators* on stoloniferous and rhizomatous plants [Trifolium fragiferum]. 123154
Insect **growth** *regulators:* some effects of Altosid on Tribolium castaneum (Herbst). 123536
Effect of an insect **growth** *regulator* on lipid and carbohydrate reserves of mosquito [Aedes aegyti] pupae (Diptera: Culicidae). 123612
Phenylethers as insect **growth** *regulators:* laboratory and field experiments. 123949
Insect **growth** *regulators.* Analogues of TH-6038 and TH-6040 [Aedes aegypti, Tribolium confusum, Musca domestica, Manduca sexta]. 124011
Ethylene [plant **growth** *regulator]* in soil biology [control of soil-borne plant diseases]. 124774
Reversal of abscisic acid promoted abscission of flower buds & bolls of coton (Gossypium **hirsutum** L.) with other *regulators.* 121507
Effect of localized application of ascorbic acid & other **plant** *regulators* singly & in combination with abscisic acid on boll shedding in cotton Gossypium hirsutum L. 121500

REHABILITATION

Contributions of microwave therapy in the *rehabilitation* of **pet** animals [Dogs]. 118429
Strip mine *rehabilitation* **problems** and research in Wyoming [Reclamation, revegetation]. 125131

REINDEER

Proper organization of pasture fattening and of planned slaughter of *reindeer*—the **basis** for increasing reindeer husbandry productivity in the Magadan Region. 121991
Breed formation and the results of crossing of **breed** *reindeer* Even with Tofalar. 118278
Common and specific prophylaxis of brucellosis [**Brucella**] of *reindeer.* 118722
Brucellosis in *reindeer.* 118721
Prophylaxis of *reindeer* **brucellosis** of in the conditions of the Yakut Autonomous Soviet Socialist Republic. 118725
Utilization of **domestic** *reindeer* in hunting in Far North. 117438
Economic effectiveness of **early** *reindeer* slaughter in the conditions of the Nenets National Region. 115367
Toxic effect of [the insecticide] **famophos** on *reindeer.* 123760
Ways of development of collective **farm** *reindeer* husbandry in the Yamal-Nenets National Okrug. 115370
Results of testing work clothes [for shepherds], made from synthetic fabrics, on *reindeer* **farms.** 124617
Winter **feeding** of the *reindeer.* 118070
Shift-working group form of labor organization in *reindeer* **husbandry** in the Nenets National Region. 115368
The role of *reindeer* **husbandry** in the economics of northern collective and state farms. 115369
Ways of increasing economic efficiency of *reindeer* **husbandry** in the Magadan Region. 115371
Achievements of science in the development of *reindeer* **husbandry** and ways of increasing the effectiveness of scientific studies. 117429
Main trends of scientific studies in *reindeer* **husbandry** in the Murmansk Region. 117432
Present condition and prospects of development of *reindeer* **husbandry** in the Yakut Autonomous Soviet Socialist Republic. 117433
Present conditon and prospects of the development of *reindeer* **husbandry** in the Magadan Region. 117434
Results of scientific studies in *reindeer* **husbandry** in the Yakut Autonomous Soviet Socialist Republic. 117435
Trend of scientific studies in *reindeer* **husbandry** in the Magadan Region. 117437
Novelty in technical provision of *reindeer* **husbandry** [Transportation, machinery for establishing fences, communication facilities]. 124684
Effective practices for using and **improving** *reindeer* pastures and for their conservation. 121989
Proper organization of pasture fattening and of planned slaughter of reindeer—the basis for **increasing** *reindeer* husbandry productivity in the Magadan Region. 121991
Affection rate of *reindeer* with some **infectious** having natural foci. 118719
Organization of prophylactic and treatment measures to control necrobacillosis [Spherophorus necrophorus] of *reindeer* in the **madadan** Region. 118723
Zootechnical characteristic of some economically useful features of *reindeer* in the **Magadan** Region. 117439
Anthrax [Bacillus anthracis] of *reindeer* and **measures** of controlling it. 118720
Foreign experience of **northern** *reindeer* husbandry. 117431
Present methods of controlling warble flies [Oestridae] and blood-sucking Diptera in **northern** *reindeer* husbandry. 123631
Land regulation and improvement of the use of *reindeer* **pastures** in the Magadan Region. 121990
Utilization of *reindeer* **pastures** in the Nemets National Region. 121992
Utilization, reserves and conservation of *reindeer* **pastures** in Taimyr and Evenki [National Region]. 121993
Control of warble fies [Oestridae] and blood-sucking insects [Diptera] in the Magadan Region [**Pests** of *reindeer].* 123630
Prospects of controlling warble flies [Oestridae] and blood-sucking Diptera in the north-eastern zone [**Pests** of *reindeer].* 123632
Scientific and practical basis for increasing the effectiveness of **rearing** *reindeer.* 117436
Improvement of the technology of *reindeer* **slaughter** for meat. 117010
Increase of the quantity and improvement of the quality of the products of *reindeer* **slaughter** in the Kamchatta Region. 117011
Prophylaxis and treatment of necrobacillosis of *reindeer* [**Spherophorus** necrophorus]. 118724
Characteristic of meat productivity of *reindeer* in the **tundra** and taiga zones. 117430
Effectiveness of supplementary feeding of *reindeer* with **urea-mineral** mixture. 118069

REINFORCEMENT

Reinforcement of **Colombian** diet with increase of fishing. 116549
Latex-fiber interaction and **paper** *reinforcement.* 119719
Effect of structure on impact strength of *rubber-reinforced* **polystyrene.** 116775

RELAXATION

A proton **magnetic** *relaxation* study of the interaction of isolated sheep methaemoglobins A, B and C with inositol hexaphosphate. 117748
An easy method of estimating the *stress-relaxation* **parameters** To and b [for quantitative evaluation of mechanical properties of the cell wall of higher plants]. 121318
Plasma *relaxin* and prolactin immunoactivities in pregnancy and at parturition in the ewe. 118357

RENAL

Contribution to the study of the vascular, arterial and venous elements of the *renal* **hilum** in swine (Sus scrofa domestica). 117900
Air sac and *renal* **mucormycosis** in an African gray parrot (Psittacus erithacus) [Causal fungus, Absidia corymbifera]. 118621
Development of the *renal* **response** to blood volume expansion in normal and fast-growing rats. 117534

RENDZINA

Study of the optimal load on White Ugni grapes on groies [**Red** *Rendzina]* soils [Pest and disease control, application of pesticides]. 122459
Formation and development of *Rendzina* **soils.** 124901

RENNET

Calf *rennet* substitutes [Higher plant, bacterial and fungal rennets, cheese]. 116916
Manufacture of *rennet* **casein** using rennet substitutes. 116909
A comparison between the protein-protein association in caseinate and in *rennet-treated* **caseinate** solutions. 116901
Quality of protein in milk replacers for young calves. I. Factors affecting in vitro curd formation by *rennet* (**chymosin,** rennin) from reconstituted skim milk powder. 118035
Quality of protein in milk replacers for young calves. IV. *Rennet* (**chymosin,** rennin) coagulation of reconstituted skim milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Rennet and other **coagulants** for milk. 116900
Quality of protein in milk replacers for young calves. IIi. *Rennet* **coagulation** and undenatured whey protein nitrogen content of skim milk powders and commercial milk replacers. 118037
Extraction of **liquid** *rennet* from buffalo calves' stomachs. 116884
Manufacture of rennet casein using *rennet* **substitutes.** 116909

RENNIN
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, *rennin)* **coagulation** of reconstituted skim milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Quality of protein in milk replacers for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, *rennin)* from **reconstituted** skim milk powder. 118035

RENTS
Rental and **custom** charges for farm machinery. 124724
Privately owned or *rented* **equipments** in side-line farming. 124744

REOVIRUSES
Isolation of adenoviruses and *reoviruses* from **avian** species other than domestic fowl. 118634

REPELLENCY
New evaluation of **water** *repellency* of wood by contact angle. 119842

REPELLENTS
Use of electron spectroscopy for chemical analyses (ESCA) in a study of *oil-repellent* **finishes** [of textiles, cotton fabrics]. 117202
The use of pyrethrum as an **insect** *repellent* in dingo baits [Animal pests of sheep and cattle in Australia]. 117496
Evidence and function of a *"repellent* **pheromone"** of larvae of Trogoderma granarium Everts (Coleoptera, Dermestidae). 124188

REPLICATION
Study on the *replication* of the **Aujeszky's** disease virus using the immunofluorescence method [Chick embryo cells]. 118998
Duck viral enteritis: a comparison of *replication* by **CCL141** and primary cultures of duck embryo fibroblasts. 118625
Differential *replication* of rDNA during insect [Calliphora stygia] development. 123962
Heterochromatin and timing of **DNA** *replication* in morabine grasshoppers [Moraba virgo]. 123964
Chromosomal genes essential for *replication* of a **double-stranded** RNA plasmid of Saccharomyces cerevisiae: the killer character of yeast. 120773
Replication **initiation** in yeast [Saccharomyces cerevisiae] chromosomes. 121114
Effect of bovine **parvovirus** *replication* on DNA, RNA, and protein synthesis in S phase cells. 119038
Duck plague **virus** *replication* in Muscovy duck fibroblast cells. 118624
Nuclear polyhedrosis **virus** *replication* in permanent cell lines of the cabbage moth (Mamestra brassicae L.). 123426

REPRODUCTION
Metabolism, productivity and *reproductive* **ability** of heifers grazed on pasture with different proportion of estrogenically active white clover. 118406
Influence of different initial and final protein levels on productive and *reproductive* **activities** of turkeys. I. Weight, growth, conformation, feed and water consumption. 117976
Influence of different and final protein levels on productive and *reproductive* **activities** of turkeys. II. Dressing percentage and carcass composition. 117977
The chronology of development of the *reproductive* **apparatus** of Limnephilus rhombicus L. 123855
The effect of rifampicin on the *reproduction* of **Aujeszky's** disease virus. 118999
Reproductive **behavior** of the lovebug, Plecia nearctica (Diptera: Bibionidae). 123804
Reproduction **biology** of Tyrophagus putrescentiae (Schr.) (Acarina: Acaridae) [Stored product mites]. 123552
Influence of several biotic factors on *reproduction* of **Bucculatrix** thurberiella [Cotton pests]. 123281
Relation between some *reproductive* **characters** and heat tolerance in cattle reared under hot climate conditions. 117722
Effect of dilauryl succinate on *reproduction* of the **cock** and hen and preventive effect of vitamin E. 118102
Weight change, body condition and beef **cow** *reproduction.* 118295
Influence of a juvenile hormone analogue on metamorphosis and *reproduction* in the **cricket,** Plebeiogryllus guttiventris Walker. 123868
Quantitative and qualitative cytological study of *reproduction* in **Delphinium** ajacis L. 120563
Structure, *reproduction* and **discussion** on the systematic position of the genus Gibsmithia (Rhodophyceae) [Algae, new taxa]. 119991
Partially successful attempt to **enhance** *reproductive* isolation between semispecies of Drosophila paulistorum. 123909
Development and *reproduction* of **Euschistus** conspersus [Ocassional pest of field crops]. 123278
Studies on the effects of adult feeding of Perniphora robusta Ruschka (Chalcidae: Pteromalidae) on its *reproduction* [**Forest** pests, biological control]. 123459
Effect on the *reproductive* **functions** of female rhesus monkeys of feedng irradiated wheat flour and potato diet [Metabolic studies]. 116396
Reproduction in the **gilt.** 2. The influence of gilt age at boar introduction on the attainment of puberty. 118210
Effects of clomiphene citrate on the processes of **guineafowl** *reproduction.* 118203
Modern problems of *reproduction* **immunology.** 118987
Action to **improve** *reproduction* of cattle stock in Gera district. 118371
Reproductive **incompatibility** in pityogenes chalcographus L., a new perspective of bark beetle control? 123461
Management tools that **increase** *reproduction* in beef cattle. 118284
Particuliarities of the *reproduction* **interrelations** and type of sterility in hybrids between Lycopersicon esculentum Mill. [Tomatoes] and Lycopersicon chilense Dun. 120645
Brain monoamine metabolism of turkey hens in various stages of their *reproductive* **life** cycle. 118223
Macrolarviparous *reproduction* in Ameniinae (Diptera: Calliphoridae) [Amenia, Paramenia semiabriceps]. 119919
Changes in the total and differential haemocyte counts of Dysdercus cingulatus Fabr. (Hemiptera: Pyrrhocoridae) related to **metamorphosis** and *reproduction.* 124014
Evidence for a lack of an effect of dietary fluoride level on *reproduction* in **mice.** 116431
Reproductive **performance** of cattle as affected by fertilizer treatment and grass variety [Effects of feeding]. 118119
Reproductive **performance** of Zebu compared with Charolais X Zebu females in a humid tropical environment. 118211
Effects of *reproductive* **performance** and mating system on farm gross margins in beef production. 118243
Effect of body condition at calving on *reproductive* **performance** in dairy cow. 118325
Reproductive **performance** and fertility testing in Strain 13 and Hartley guinea pigs. 118367
14C [carbon isotope]-assimilate distribution in Phaseolus vulgaris L. [Beans] during the *reproductive* **period.** 121718
Studies on calcium absorption in vegetable crops. I. The absorption and physiological significance of calcium in vegetative and *reproductive* **phases** of plant growth. 121730
Predatory activity, *reproductive* **potential** and longevity of Geocoris spp. treated with [soybean] insecticides. 123320
Development of a method for *reproducing* the **pseudorabies** virus. 119022
Biological action of clomiphene citrate on **rabbit** *reproduction.* 118202
Effects of dioxy-diethyl-stilbestrol proprionate on **rabbit** *reproduction.* 118204
Sexual *reproduction* of Peridinium willei (Dinophyceae) [Algae]. 120777
Development of some elements of the **socialist** *reproduction* process in the transition to the industrially organized production of ornamental plants. 115461
Comparison of dietary zinc levels for *reproducing* **sows** and the effect of dietary zinc and calcium on the subsequent performance of their progeny. 118088
Experience and results in using methods of biological engineering for the *reproduction* of **swine.** 118372
Effects of post-weaning stress and feeding management on return to oestrus and *reproductive* **traits** during early pregnancy in swine. 117973
Autogeny and endocrine involvement in the *reproduction* of **tropical** flesh flies (Diptera: Sarcophagidae). 123885
Introduction of plants as a way of preserving and *reproducing* **useful** species of natural flora. 119865
Vegetative *reproduction* [of Solidago canadensis] and close packing in a successional plant species. 120384
Reproduction 12 **years** after seed-tree harvest cutting in Appalachian hardwoods. 119642

REPTILES
Plasma amino acids in *reptiles* after **feeding** protein or amino acids and after injecting amino acids. 116437
Nutritional contributions of oceans excluding vertebrates (fish, *reptiles,* **mammals).** 116691

RESERVATION
Arbutus andrachne in the *reservation* **"Mys** Mart'ian". 119952
Composition of the microflora of natural phytocoenoses from the Khomutovskaia **Steppe** *[reservation].* 120351

RESERVE
Agricultural *reserve* zones and environmental conservation [Colombia]. 125547
Effectiveness of *reserve* **application** of phosphorus and potassium fertilizers on peaty soils. 124938
Eroded plots of land on slopes, a **big** *reserve* of increased agricultural production (from the experience of the Farm Perieni). 125143
Effect of an insect growth regulator on lipid and **carbohydrate** *reserves* of mosquito [Aedes aegyti] pupae (Diptera: Culicidae). 123612
International wheat agreement and world **cereal** *reserves.* 115956
Utilization, *reserves* and **conservation** of reindeer pastures in Taimyr and Evenki [National Region]. 121993
In the transportation of liquid manure there is still *reserve* **[Equipment].** 124693
The **forest** *reserve* controversy: Colorado under Cleveland and McKinley [Forest history]. 119354
Reserves for to **increase** effectivity in sugar production. 117104
Possibilities for discovery of **intensive** *reserves* during the production process [Wood industry]. 119657
Activities of [communist] party organizations in the selection and training of a *reserve* of **management** personnel in agriculture [Moldavia]. 115382
Studies on the performance of alfalfa swards. V. Relationships between top weight and carbohydrate **root** *reserves* of individual plants under sward conditions. 122061
Vegetation in the southeastern suburbs, Melbourne. 2. Native and introduced plant communities in a Mount **Waverley** *reserve.* 120401

RESERVOIRS
Restudy of Toledo **Bend** *reservoir* user characteristics. 125192
Hepatic venous compliance and role of liver as a **blood** *reservoir* [Cats]. 117538
Intracellular **calcium** *reservoirs* in Calliphora salivary glands. 123924
Estimating the differential change in land use associated with *reservoir* **construction.** 115305
Prediction of the phytoplankton development in **designed** *reservoirs* by combining a growth-kinetic model and the analogy to existing reservoirs. 121149
A mathematical model for the analysis of *multi-reservoir* **flood** control systems. 125239
Problem of development of [irrigated] sugarbeet culture in the zone of the **Konstantinovskoe** *Reservoir.* 125248
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, **"labile"** N *reservoir.* 118004
The use of LANDSAT DCS and imagery in *reservoir* **management** and operation [Remote sensing, New England]. 125279
Integral quantitative methods of biological determination of water pollution in the conditions of a large **oligotrophic** *reservoir.* 125412
Mercury in bottom sediments of **Rietvlei** *reservoir.* 125550
Quantitative water quality with LANDSAT and Skylab [Remote **sensing,** *reservoirs].* 125267
Notes on principles of forest management covering the catchment areas of drinking water **storage** *reservoirs.* 119514
Distribution of residual DDT anounts in organs and tissues of fish in the Kiev **water** *reservoir.* 123761

RESIDUES
The Douglas fir tussock moth [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on non-target organisms and *residue,* **accumulation** in vertebrate animals. A progress report—February 1975. 123494
Tryptophanyl and carboxylic **acid** *residues* in the active centre of glucoamylase I from Aspergillus niger [Fungi]. 120997
Effects of light on the fate of carbofuran [insecticide] during the drying of **alfalfa** *[Residues].* 123719
Data bank for results of *residue* **analyses.** 123744
Antibiotic *residues* and their recovery from animal tissues [Meat, residues]. 116187
Identification of **antibiotic** *residues* in milk by thin-layer chromatography. 116192
Antibiotic *residues* in milk—an area of veterinary responsibility. 118857
Gentamycin in young turkeys [**Antibiotic** *residues,* toxicity]. 119280
Residues in the **carcasses** of calves after giving virginiamycin with the feed. 116132
Estrogens in beef production *[Residues,* **carcinogens,** diethylstilbestrol]. 116050
Virginiamycin [Antibiotics, toxicity, *residues,* **cattle,** swine, poultry]. 118924
Crop *residues,* their utility as cattle feed. 117337
Phenolic acids in wheat and paddy rhizosphere [soil] amended with **crop** *residue.* 124885
What happens to that nitrogen [from fertilizer, **crop** *residues,* or manure] you put in your field? 124966
Antibiotics affect everybody's health and your pocket *[Residues* in **dairy** products]. 116070
The oxidation of terminal **D-galactofuranose** *residues* of a galactan and a glycoprotein by a D-galactose oxidase preparation from Dactylium dendroides [Fungi]. 120996
Laser light scattering bioassay for veterinary **drug** *residues* in food producing animals. 1. Dose-response results for milk, serum, urine, and bile. 118460
Residues of four **ethylenebis(dithiocarbamates)** and their decomposition products on field-sprayed tomatoes. 116179
Thin-layer chromatographic demonstration of the Zenkor herbicide *[Residues* in **food** and feed]. 116266
A gas-liquid chromatographic method for the determination of dodine [fungicide] *residues* on **foods.** 116175
Photometric determination of dithiocarbamate [fungicides] *residues* [in **foods**] by carbon disulphide evaluation method. 116232
A critique on requirements for determination and interpretation of **fumigant** *residues* [in stored foods]. 116160
Fumigant *residues* in food: behaviour and regulation. 116162
The occurrence of ethanolamine and **galactofuranosyl** *residues* attached to Penicillium charlesii cell wall saccharides [fungi]. 120923
Removal of oily soils. 2. The relation of yellowing and *residue* with **hard** ions on [laundered] fabrics. 116598

FAO's [Food and Agriculture Organization] involvement in the international acceptance of pesticides for stored food products *[Residues,* **hazards].** 123712
Breakdown and movement of 2,4-D in the soil under field conditions **[Herbicidal** *residues].* 123765
The reaction of the **histidine** *residues* of [bovine and procine] luteinizing hormone with ethoxyformyl anhydride. 117603
Chemical modifications of **histidine** *residues* in cytoplasmic asparate aminotransferase from beef kidney. 117851
Use of insect-acaricide carbamide acid esters in livestock farming. Dynamics of *residues* of **insect-acaricide** carbamide acid esters with particular reference to carbaryl. 119268
Degradation of bromophos in stored wheat **[Insecticide** *residues].* 116161
Biodegradation of methoxychlor and kelthane [organochlorine **insecticides,** *residues].* 123710
Some aspects governing the use of pesticides on stored products in Australia *[Residues,* **legislation].** 123716
Residue **levels** of fatty compounds and surfactants as suckering agents on tobacco. 117070
Sugar maple [Acer saccharum]: tree and bole weights, volumes, centers of gravity, and **logging** *residue.* 119835
Antibiotic residues and their recovery from animal tissues **[Meat,** *residues].* 116187
Method of determining hexachlorobenzene, pentachloronitrobenzene and **pentachloroaniline** *residues* in milks. 116031
The significance of **pesticide** *residues* [on stored products]. 116164
Latest development in fumigation of papayas and other fruits **[Pesticide** *residues,* Tephritidae]. 116221
Use of the technique of gas chromatography to determine the amount of aldrin retained in meat chickens poisoned with this **pesticide** *[Residues].* 123683
Pesticide *residues* of potential protectants of grain [Acetellic, Reldan, malathion]. 123715
Photochemical confirmation of mirex in the presence of polychlorinated biphenyls **[Pesticide** *residues].* 123721
National standards for registration and for *residues* of **pesticides** in relation to trade and commerce in Europe. 123713
Residues of **plant** protection agents in food [Quality control]. 116157
Effect of **plant** *residue* amendments and chemical treatments upon the inoculum potential of Cylindrocladium floridanum in soil. 122728
Decomposition of **plant** *residues* and the synthesis of vitamins by [soil] microorganisms. 124816
Counteracting pesticide nonsense with realistic common sense *[Residues,* **pollution].** 123746
Is there a relationship between aquatic herbicides and water quality? *[Residues,* **pollution].** 123748
Factors influencing the uptake of pesticides by hypocotyls **[Radishes,** *residues].* 123686
Study on *residues* **remaining** on mulberry leaves treated with acaricides and their toxicity to the silkworm, Bombyx mori L. 124503
Autointoxication mechanism of Oryza sativa [rice]. I. Phytotoxic effects of decomposing **rice** *residues* in soil. 122972
The possible use of **routine** *residue* determination in meat and meat products and its limits of application. 116143
Identification and phytotoxic activity of compounds produced during decomposition of corn and **rye** *residues* in soil. 122973
Biological evaluation of **soy** *residue* protein: studies on PeR [protein efficiency ratio], plasma and tissue protein level and growth response in albino rat. 118076
Studies on the pollution of apple orchard-surface soils and its improvement in relation to inorganic **spray** *residues.* I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Effects of **straw** *residues* [toxicity] on the growth of cereals. 122891
Effect of **stubble** *residues* of fallow grown crops on the germination and development of winter rye. 121460
Evaluation of tillage and herbicides for grain sorghum **surface** *residue* management in an irrigated wheat-sorghum-fallow cropping sequence. 123754
Tetracyclin *residues* in the bones of animals and their behaviour during processing. 116136
Complementary note on the determination of **thiabendazole** *residues* in citrus fruits and bananas. 116028
Changes of **thiofanox** *residues* in potatoes resulting from stroage and cooking. 116177
Grain protection and *pesticide-residues* **tolerances** in India. 116163
Titration behavior of individual **tyrosine** *residues* of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798
Investigation on [pesticide] *residues* in **wheat** straw, glumes and grain after chemical control of Eurygaster integriceps. 116051
Studies on the *residues* in **wheat** and wheat products fumigated with ethylene dibromide. 116064
Sawdust [and other **wood-processing** *residues]* as a container growing medium. 124969

RESINS

Use of **cationic** *resins* in the study of humic substances [Soil analysis]. 124766
Observation on the free formaldehyde dissolved into the liquid layer of the skin surface from *resin* **finished** fabrics. 2. [Cotton]. 116214
Investigations on the ductility of phloem tissues of pines (Pinus sylvestris) in relation to *resin* **gall** formation. 121837
The swelling of **Hercosett** *resin* [Wool finishing processes]. 117032
Gas-liquid chromatographic determination of vitamin D3 in tuna liver and vitamin D3 *resin* **oils.** 116458

RESMETHRIN

Investigation into the use of *Resmethrin* and **Bioresmethrin** [pyrethroid insecticides] as potential grain protectants. 123541

RESONANCE

Titration behavior of individual tyrosine residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 nuclear **magnetic** *resonance* spectroscopy. 117798
Lichens and fungi. XIII. Comparison of the nuclear **magnetic** *resonance* and mass spectra of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron **spin** *resonance]* study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
Electron **spin** *resonance* studies of structure and conformation in anion radicals formed during the autoxidation of hydroxylated coumarins. 121193
Detection of triplet states in algae by **zero-field** *resonance* [Photosynthesis]. 120921

RESORCINOL

5-alkyl-resorcinol **content** influenced through [rye] grain size, genetical and environmental conditions [Varieties, testing, West Germany]. 121471

RESPIRATION

Uteroplacental blood flow during hyperthermia with and without *respiratory* **alkalosis** [in conscious pregnant sheep]. 117778
The influence of body size and temperature on worker **ant** *respiration* [Formicidae]. 124093
Ultrastructural studies of **bovine** *respiratory* disease complex. 118892
Stimulation of the rabbit hypothalamus: caudal projections to *respiratory* and **cardiovascular** centres. 117831
Effect of mechanical factors on the relation between rate and depth of *breathing* in **cats.** 117775
Effects of clear-cutting on numbers, biomass and **community** *respiration* of soil invertebrates [Includes insects]. 123818
Nitrogenase activity and *respiration* of **cultures** of [cowpea] Rhizobium spp. with special reference to concentration of dissolved oxygen. 121606
Cyanide-insensitive *respiration* in root tubers of cassava (Manihot esculenta Crantz.). 121761
The *respiratory* **disease** complex in rabbit farming [Bordetella, Pasteurella]. 118593
Diagnosis and prevention of *respiratory* **diseases** in poultry. 118882
On the role of Aujeszky's disease virus in the *respiratory* **diseases** of swine. 118991
Respiration in **Epicoccum** nigrum [Fungi]. 121351
Comparative experiments on temperature responses of bryophytes: assimilation, *respiration* and **freezing** damage. 121169
New data on the photosynthesis and *respiration* of **green** plants under the conditions of flash illumination [Maize, kidney beans]. 121449
Relation of the condition of water with *respiration* **intensity** and activity of dehydrogenases [in plants]. 121112
Discharge pattern of **medullary** *respiratory* neurones during thermal polypnea [Cats]. 117833
Cyanide and antimycin A **nonsensitive** *respiration* of mitochondria of the yeast Candida lipolytica. 121096
Rates of growth, *respiration* and **photosynthesis** of unicellular algae as related to cell size: a review. 121213
The possible role of indoleacetic acid in the regulation of the *respiration* **process.** 121498
The effect of ketamine on heart rate, *respiration* **rate** and eEG [electroencephalogram] of White Leghorn hens. 117639
Ripening, chilling injury, and *respiratory* **response** of 'Hass' and 'Fuerte' avocado fruits at 20 degrees C [centigrade] following chilling. 117282
The carbon budget of a young apple tree [Photosynthesis, *respiration,* **solar** radiation, temperature]. 121717
Salt **stimulated** *respiration* of Chlorella fusca [Algae]. 121390
Control of *breathing* in **uremia:** ventilatory response to CO2 [carbon dioxide] after hemodialysis. 117772
On the immunogenic properties of a polyvalent inactivated vaccine from *respiratory* **viruses** (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990

RESTORATION

Functional recovery of hip dysplasia of dogs by pectinectomy with special regard to a **resulting** *restoration* of service of watchdogs. 119161

RESTRAINT

A *restraining* **device** and oral dosing teching for the chinchilla (Chinchilla laniger). 118488
A **simple** *restraining* device for use with neonatal and small nonhuman primates. 118489

RESTRICTION

Calcium uptake by isolated intestinal brush border membranes folowing dietary **calcium** *restriction* [Rats]. 116476
Studies on skim milk replacements in the feeding of young pigs whose suckling period was **drastically** *restricted.* 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on skim milk replacements in the feeding of young pigs whose suckling period was **drastically** *restricted.* 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Characterization of yeast [Saccharomyces cerevisiae] ribosomal DNA fragments generated by **EcoR1** *restriction* endonuclease. 121282
An analysis of Drosophila [melanogaster] DNA by *restriction* **endonucleases.** 123960
Experiental *restriction* of feed and addition of calcium chloride for swine as a prophylaxis against coli-enterotoxaemia. 118830
Adipose tissue cell size and lipolysis in the rat: response to exercise intensity and **food** *restriction.* 116418
Pesticide applicator training for use of *restricted* **herbicides.** 123749
Synthesis of TMV [tobacco mosaic virus] RNA at *restrictive* **high** temperatures. 122879
Lysine *restriction* in the rations of Black Australorp X white Leghorn hens. 117966
Mobility *restriction* in vivo of the heavy ribosomal subunit in a secretory cell [Chironomus tentans]. 124022
Cleavage of DNA from higher plants [grain legumes] by *restriction* **nuclease** EcoRI. 121635
Development of biometry in the past century. II. Development of statistics in botany as an example for biology in the more *restricted* **sense.** 119910
Swann *restrictions* fail to cut resistant [Escherichia] coli [Swine]. 118880
Release of DNA **template** *restrictions* in rabbit spermatozoa and rat liver nuclei. 118343
Nonpermissive infection of L cells by an avian reovirus: *restricted* **transcription** of the viral genome [Chicken embryo fibroblasts]. 118806

RETARDANTS

Effect of treating barley crops with dichlorophenoxyacetic acid and the *retardant* **chlorocholine** chloride on the quality of the yield. 123195
The electrostatic properties of THPOH-NH3 [tetrakis(hydroxymethyl)-phosphonium hydroxide-ammonium] *flame-retardant* **cotton** fibric as they pertain to potential mill problems and performance properties. 117201
Morphology of charred, *flame-retardant* **cotton/polyester** fabrics. 117164
Effect of the plant **growth** *retardant* Pydanon on Verticillium [dahliae] wilt of cotton and tomato. 122729

RETARDATION

Galactose-induced ethylene evolution in mung bean hypocotyls: a possible mechanism for **galactose** *retardation* of plant growth. 121750
Plant **growth** *retarding* activity of the 4-substituted-7-(beta-D-ribofuranosyl)pyrrolo[2,3-d]pyrimidine anticytokinins [on the germination of rice]. 121393
Role of flavones and related compounds in *retarding* **lipid**—oxidative flavor changes in foods. 116637

RETENTION

B-vitamin *retention* in meat during storage and preparation. A review. 117015
Analysis of cotton fiber maturity. II. **Glycerol** *retention* value of cotton. 117128
Findings with the flow potential method in *retention* and **moistureproof** problems [Paper manufacture]. 119777
Retention of **molecules** of 1.1. Dichloro-2-2 bis (p-chlorophenyl)-ethylene on some metalic oxides [DDT decomposition, soil contamination]. 123684
Nitrogen *retention* in men fed isolated soybean protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or inorganic sulfate. 116435
Effects of dietary protein and lysine levels on plasma amino acids, **nitrogen** *retention* and egg production in laying hens. 118103
Treatment for **placenta** *retention* and endometritis in cows. 119035
Studies on the vitamin B requirements of broilers. 3. Influence of varying vitamin B6 levels on body composition and **rate** of *retention.* 118001
Thiamin and **riboflavin** *retention* in meats cooked uncovered and in oven film. 116338
Thiamin and **riboflavin** *retention* in meats cooked uncovered and in oven film. 116339
On the *retention* of **water** in slaughtered birds [Poultry]. 117058
Effect of zinc deficiency and varying zinc supplements on the rate of zinc absorption and **zinc** *retention* in dairy cows. 117984

RETICULITERMES

A developmental study of the termite *[Reticulitermes]-associated* **fungus** Coreomycetopsis oedipus. 123481
The natural resistance of some indigenous woods against *Reticulitermes* **lucifugus** [Pinus sylvestris, Abies alba, Picea abies, Fagus silvatica, Quercus robur]. 123462

Influence of carbon sources on the production of the termite *[Reticulitermes* **virginicus]** trail-following substance by [the brown-rot fungus] Gloeophyllum trabeum. 121175

RETICULOCYTES
An efficient mRNA-dependent translation system from [rabbit] *reticulocyte* **lysates.** 117658
Failure of a cell-free system from **rabbit** *reticulocytes* to remove iron from transferrin. 117582
Free cytoplasmic alpha-globin messenger RNA appears during the maturation of **rabbit** *reticulocytes.* 117679

RETICULOENDOTHELIAL
Circulating lipophages and aortic foam cells in experimental atherosclerosis of [cholesterol-fed] rabbits under **altered** *reticuloendothelial* activity. 116493

RETICULUM
Behavioral observations on **Aethalion** *reticulatum* (Hemiptera, Aethalionidae) and associated ants. 123993
Environmentally induced changes in mitochondria and **endoplasmic** *reticulum* of Saccharomyces carlbergensis yeast. 121174
Binding of nucleotides ATP [adenosine triphosphate] and aDP [adenosine diphosphate] to **sarcoplasmic** *reticulum:* study by rate of dialysis [Rabbit skeletal muscles]. 117599
Calcium regulation in heart cells. The interaction of mitochondrial and **sarcoplasmic** *reticulum* with troponin-bound calcium [Dogs]. 117659
In vitro studies of mitochondrial and **sarcoplasmic** *reticulum* function in muscle of stress susceptible pigs. 117770

RETINA
Distribution of enzyme activities in subcellular fractions of **bovine** *retina.* 117784
The basal apparatus of **bovine** *retinal* rods. 117888

RETINOL
Gel chromatographic separation of *retinol,* **retinyl** esters and other fat-soluble vitamins. 116411

RETIREMENT
A *retirement* **income** simulation model for farm operators. 115555

RETRACTION
On a **late** *retraction* [Wine, markets]. 115731

RETRAINING *see* TRAINING

RETRIEVAL
European Community study on **information** *retrieval* systems for the field of literature in veterinary medicine. 118494
Documentation and **information** *retrieval* in irrigation research. 125292

REVEGETATION *see* VEGETATION

REVERSIBILITY
Effects of photoprotection and *reversible* **inactivation** of yeast Candida guilliermondii induced by 313nm [ultraviolet] light. 121031
Reversible **particle** movements associated with unstacking and restacking of chloroplast membranes in vitro. 120482

REVOLUTION
Introduction and use of improved rice varieties: who benefits? [Effect of the **green** *revolution* on farmers, farming practices]. 115378
Relationships between technology, prices, and income distribution in Pakistan's agriculture: some observations on the **green** *revolution.* 115911
The **green** *revolution* and future developments of Pakistan's agriculture. 115915
New wheat varieties and the **Green** *Revolution.* 122023
Industrial *Revolution* changes America's eating habits. 116554
Goose husbandry in the light of **scientific-technical** *revolution.* 117402

RHAGOLETIS
Experimental determination of the dispositon the cherry fly of *Rhagoletis* **cerasi** L. (Diptera, Trypetidae) to fly. 123371
The walnut husk fly *[Rhagoletis* **completa,** Juglans]. 123400
Feeding, mating, and oviposition activities of *Rhagoletis* **fausta** flies in nature [Cherry fruit pests]. 123369
Investigations on the practical application of the sterile insect technique as a method for the control of the cherry **maggot** *(Rhagoletis* cerasi L.) in Austria. 123433

RHAMNUS
Tumor inhibitors. 114. Aloe emodin: antileukemic principle isolated from *Rhamnus* **frangula** L. 121264
Pharmacognostical studies on some species of the **genus** *Rhamnus.* 4. [Comparative anatomy]. 120495

RHEOLOGY
Rheological **investigations** of cellulose ether solutions. 119787
Rheological **properties** of margarine used for confectionary. 116819
Rheology and **spinning** of alkaline solutions of sunflower seed globulin and casein. 117154

RHESUS
Effect on the reproductive functions of **female** *rhesus* monkeys of feedng irradiated wheat flour and potato diet [Metabolic studies]. 116396
Severe polyarthritis in a *rhesus* **monkey:** suggested mycoplasma etiology. 118818
A chest harness and pole-leash for routine transfer of *rhesus* **monkeys** from home cage to behavioral test apparatus and back. 117463
Failure of commercially prepared isoniazid diet to produce isoniazid serum concentrations in *rhesus* **monkeys.** 118108

RHINITIS
The riddle of **atrophic** *rhinitis* [Swine]. 118881

RHINOTRACHEITIS
Isolation of a I.B.R [infectious **bovine** *rhinotracheitis]* from a calf after corticosteroid treatment. 118612
Antibody class and complement requirement of neutralizing antibodies in the primary and secondary antibody response of cattle to infectious **bovine** *rhinotracheitis* virus vaccine. 118618
Service infections, especially IBR/IPV [infections **bovine** *rhinotracheitis/infectious* pustular vulvovaginitis], a problem for state animal disease control [West Germany]. 118657
Occurrence of infection by bovine herpes virus (IBR-IPv) [infectious **bovine** *rhinotracheitis/infectious* pustular vulvovaginitis] in bulls at an insemination station. 118834
Determination of antibodies in infectious **bovine** *rhinotracheitis-infectious* pustular vulvovaginitis of cattle. 118876
On the immunogenic properties of a polyvalent inactivated vaccine from respiratory viruses (IBR [infectious **bovine** *rhinotracheitis],* Pi-3, Ad-1, Ad-3). 118990
Study on the immunogenic properties of inactivated vaccines produced with the infectious **bovine** *rhinotracheitis* virus. 118997
The use of polyethylene-glycol in the isolation of the IBR [infectous **bovine** *rhinotracheitis].* 119003

RHIPICEPHALUS
Description of *Rhipicephalus* **bergeoni** n. Sp. (Acarina, Ixodida) of Ethiopia mountains [adults of which are parasites of cattle]. 124423
Ticks [Hyalomme, *Rhipicephalus,* **Boophilus** decoloratus] from the African buffalo (Syncerus caffer) in Ngamiland, Botswana. 123654

RHIZOBIA
Inoculum *[Rhizobium* **bacteria]:** a substitute for nitrogen fertilizer. 124982
Responses of two legumes to *rhizobium* **inoculation** and trace elements. 121457
Invasion of soybean root cells in culture by *Rhizobium* **japonicum** [Changes in the morphology]. 120546
Effect of inoculation with *Rhizobium* **[japonicum]** and Azotobacter [chroococcum] on nodulation, growth and yield of soybean. 121442
Cytoplasmic changes during and after infection of soybean root nodule cells with rhizobia [Nitrogen-fixing bacteria, *Rhizobium* **japonicum].** 121530
The fine structure of pea root nodules. 2. Senescence and disintegration of the bacteroid tissue *[Rhizobium* **leguminosarum].** 120530
Separation into components and the recombination of nitrogenase from bacteroids of lupine *[Rhizobium* **lupini,** nodule bacteria]. 121450
Cytoplasmic changes during and after infection of soybean root nodule cells with *rhizobia* **[Nitrogen-fixing** bacteria, Rhizobium japonicum]. 121530
Nitrogenase activity and respiration of cultures of [cowpea] *Rhizobium* spp. with **special** reference to concentration of dissolved oxygen. 121606

RHIZOCTONIA
Assessment of losses by *Rhizoctonia* **bataticola** (Taub. Butler, causing foot rot of Piper betle L. 122779
Root and stem base rot of Gerbera caused by Pythium species and *Rhizoctonia* **solani.** 122677
Studies on a microbiological assay of the distribution of mercury containing seed disinfectants on cereal seed *[Rhizoctonia* **solani].** 122678
Localization of peroxidase in *Rhizoctonia* **solani-infected** cotton seedlings [Sore-shin]. 122731

RHIZOGENESIS
Effect of Fe-EDDHA [sequestrine of iron] on *rhizogenesis* and **success** of transplanting in peach almond hybrid plants. 122497

RHIZOID
Rhizoid **differentiation** in fern [Onoclea sensibilis] spores: experimental manipulation. 121353
Cell wall formation in zoospores of Allomyces arbuscula [Fungus]. II. Development of surface structure of encysted haploid zoospores, *rhizoids,* and **hyphae.** 120411

RHIZOMES
Studies on the natural pigment of horticultural crops. 3. Some properties of natural yellow color in Curcuma [longa] *rhizome* and its **application.** 121724

RHIZOPUS
Study of bound phospholipase activities of fungal mycelia using an organic solvent system *[Rhizopus* **arrhizus,** Mucor javanicus]. 121237
Penetration of *Rhizopus* **oligosporus** [Fungi] into soybeans in tempeh [Food spoilage]. 116209
Transformations of steroid compounds with *Rhizopus* **sp.** [Fungi]. II. 11 alpha-hydroxylation of delta 4-3-ketosteroides of the pregane and androstane groups. 120854

RHIZOSPHERE
Seasonal population fluctuations of parasitic nematodes in the *rhizosphere* of **grape-vines.** 123048
Phenolic acids in wheat and **paddy** *rhizosphere* [soil] amended with crop residue. 124885
Auxinic activity of metabolites of microorganisms from the *rhizosphere* and **soil** covered by tall herbaceous vegetation. 124812

RHODIOLA
Seasonal development and growth of *Rhodiola* **rosea** L. In relation to introduction [as drug plant]. 120969

RHODODENDRON
Chlorfurenol [growth substances] increases branching of evergreen **azaleas** *(Rhododendron* cv). 121741
Effect of composted hardwood bark and peat container media on growth of selected ericaceous plants [Pieris **japonica,** *Rhododendron].* 122220
Rhododendron **Kotschyi** Simankai [Nomenclature]. 120251
The mysteries of *rhododendron* **propagation.** 122260
Propagation of *rhododendrons* by **tissue** culture. 1. Development of a culture medium for multiplication of shoots. 121630
Species of *Rhododendron* from the **USSR** flora and prospects of their cultivation. 122198

RHODOPHYCEAE
Structure, reproduction and discussion on the systematic position of the genus **Gibsmithia** *(Rhodophyceae)* [Algae, new taxa]. 119991
The biology of Harveyella mirabilis (Cryptonemiales; *Rhodophyceae).* V. **Host** responses to parasite infection [Algae]. 121219

RHODOPHYTA
Southern Australian species of Champia and Chylocladia (rhodymeniales: *Rhodophyta)* **[Algae,** new taxa]. 120295
The morphology and life history of Acrochaetium dasyae **Collins** *(Rhodophyta,* Nemaliales). 120403
Ecology and natural history of Iridaea **cordata** *(Rhodophyta:* Gigartinaceae) [Algae]: population structure. 121204
Simultaneous assimilation of ammonium and nitrate by Gelidium nudifrons [Algae] **(Gelidiales:** *Rhodophyta).* 121216
Taxonomic notes on Rhodophysemopsis gen. Nov. *(Rhodophyta)* **[New** taxa, Algae]. 120135
A new species of the genus Liagoropsis [yamadae] *(Rhodophyta)* from **southern** Japan [Algae]. 120129

RHODOTORULA
Phenylalanine ammonia-lyase. Induction and purification from yeast *[Rhodotorula* **glutinis]** and clearance in mammals [Rabbits]. 121168
Transport interactions among sugars in *Rhodotorula* **glutinis** [Yeasts]. 121387
Cytological and chemical changes in cell walls of *Rhodotorula* **gracilis.** III. Characteristics and live cycle of the yeast. 121064
Effect of the composition of the nutrient medium on the biosynthesis of lipids by *Rhodotorula* **gracilis** K-1 [the yeast]. 121093

RHOPALOCERA
Contribution to the Lepidoptera fauna of **Saone-et-Loire** *(Rhopalocera).* 124207

RHOPALOSIPHUM
Experimental aphid *[Rhopalosiphum* **maidis]** control in grain sorghum. 123342

RHYACIONIA
Revision of *Rhyacionia* **buoliana** and Rhyacionia pinicolana (Lepidoptera, Tortricidae) contained in the collections of the Entomology Laboratory of the Paris Museum and preliminary data on the distribution of these two species in France. 124260
Pine tip moth and pine webworm *[Rhyacionia,* **Tetralopha** robustella] control with carbofuran in north Florida. 123501

RHYNCHOSPORIUM
Increased transpiration and the accumulation of root absorbed 86Rb [rubidium isotope] in barley leaves in infected by *rhynchosporium* **secalis** (leaf blotch). 122706

RHYTHM
Studies on the physiology of bolting and flowering in Raphanus sativus L. II. **Annual** *rhythm* in readiness to flower in Japanese radish, cultivar Wase-shijunichi. 121759
Amplitude attenuation of the **circadian** *rhythm* in Drosophila [pseudoobscura] with light pulses of varying irradiance and duration. 124007

The **circadian** *rhythm* of the weta Hemideina thoracica (Orthoptera); free-running rhythms, circadian rule and light entrainment. 124008
Control of **circadian** *rhythm* of the trehalose concentration in the hemolymph of Periplaneta americana. 124187
Daily *rhythm* of activities of the cricket Nemobius sylvestris (Bosc). 123776
The circadian **eclosion** *rhythm* in Sarcophaga artyrostoma: some comparisons with the photoperiodic "clock". 124031
The circadian rhythm of the weta Hemideina thoracica (Orthoptera); **free-running** *rhythms*, circadian rule and light entrainment. 124008
Rhythm of **growth** and flowering of woody [chiefly ornamental] plants from the Mediterranean floristic area on the Black Sea coast. 121618
Seasonal *rhythm* of development of the [Soviet] Far East woody plants in the Ukraine. 121800

RIBOFLAVIN

Vitamin B2 status in athletes and the influence of *riboflavin* **administration** on neuromuscular irritability. 116499
Dietary *riboflavin* manipulation effects on discriminated avoidance in rats. 116503
Thiamin and *riboflavin* **retention** in meats cooked uncovered and in oven film. 116338
Thiamin and *riboflavin* **retention** in meats cooked uncovered and in oven film. 116339

RIBONUCLEASE

Synthesis of RNA and protein, with *ribonuclease* **activity,** in carrot roots infested with Meliodogyne hapla Chitw. [Nematodes]. 123014
The developmental patterns of lysosomal enzyme activities during Ca2+ [calcium ion]-induced sporangium formation in Achyla bisexualis [**Fungi**]. III. *Ribonucleases*. 120917
Further studies on the specificity of the **minor** *ribonuclease* from Aspergillus saitoi [Fungi]. 121164
Particle-bound phytochrome: differential pigment release by surfactants, *ribonuclease* and **phospholipase** C [Pumpkins]. 121756

RIBONUCLEIC

Properties of maize chlorotic dwarf virus and its *ribonucleic* **acid.** 122877
Poly(adenylic **acid)-containing** *RNA* from plastids of maize. 121426
Subgroup-specific antigenic determinants of **avian** *RNA* tumor virus structural proteins: analysis of virus recombinants. 119040
Comments on the translational and transcriptional origin of Euglena [gracilis] **chloroplastic** *aminoacyl-tRNA* synthetases [Algae]. 120908
Comparison of porcine liver tRNA preparations: purification of tRNA and its separation from *RNA-peptidyl* **complexes.** 117548
Preliminary studies on the *RNA* **components** of three strains of cucumber mosaic virus. 122854
Effect of 5-bromodeoxyuridine on the appearance of cytoplasmic poly-A **containing** *RNA* [Chick embryo cells]. 117802
The **cytoplasmic** *RNA* in the shoot apex of Chrysanthemum segetum L.: concentration, amount per cell and synthesis. 121597
Developmental changes of protein, *RNA*, **DNA,** lipid, and glycogen in the liver, skeletal muscle, and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
RNA-dependent **DNA** polymerase activity of RNA tumor virus. VI. Processive mode of action of avian myeloblastosis virus polymerase. 118808
Light-induced increase in the activity of maize plastid **DNA-dependent** *RNA* polymerase. 121453
The isolation and properties of a **DNA-directed** *RNA* polymerase from yeast mitochondria [Saccharomyces cerevisiae]. 120936
Killer of Saccharomyces cerevisiae: a **double-stranded** *ribonucleic* acid plasmid [Yeasts, genetics]. 120585
Chromosomal genes essential for replication of a **double-stranded** *RNA* plasmid of Saccharomyces cerevisiae: the killer character of yeast. 120773
Cytoplasmic zone analysis. *RNA* **flow** studies by micromanipulation [Chironomus tentans]. 124020
The presence of 5 S *RNA* **genes** in two consecutive chromosome bands in Chironomus tentans. 124085
The relationship between molecular size and electrophoretic mobility in agarose gels as determined from a single population of **growing** *RNA* molecules [Chironomus tentans]. 124086
Messenger RNA translation in the presence of homologous and **heterologous** *tRNA* [prepared from oviduct or liver of laying hens]. 117664
Hydrolytic action of aminoacyl-tRNA synthetases from baker's yeast [Saccharomyces cerevisiae]: "chemical proofreading" preventing acylation of *tRNA* **Ile** with misactivated valine. 120927
Preparation of polysomes and radioactively **labeled** *RNA* from adult Drosophila melanogaster. 123987
Comparison of porcine **liver** *tRNA* preparations: purification of tRNA and its separation from RNA-peptidyl complexes. 117548
Messenger *RNA* translation in the presence of homologous and heterologous tRNA [prepared from oviduct or liver of laying hens]. 117664
Free cytoplasmic alpha-globin **messenger** *RNA* appears during the maturation of rabbit reticulocytes. 117679
A **messenger** *RNA* for capsid protein isolated from tobacco mosaic virus-infected tissue. 122872
RNA **metabolism** in chick embryonic skin. 117602
RNA **metabolism** in apices of Pharbitis nil during floral induction. 121323
Control of synthesis of *RNA* during **morphogenesis** of the chloroplast in Euglena gracilis [Algae]. 120896
Affinity labelling of *tRNA* **nucleotidyltransferase** from Baker's yeast [Saccharomyces cerevisiae] with tRNAPhe modified on the 3'-terminus. 121045
Increase in nuclear **poly(A)-containing** *RNA* at synctial blastoderm in Drosophila melanogaster embryos. 123877
Globin mRNA sequences in polyadenylated and nonpolyadenylated nuclear **precursor-messenger** *RNA* from avian [duck] erythroblasts. 117626
Effect of bovine parvovirus replication on DNA, *RNA*, and **protein** synthesis in S phase cells. 119038
Studies on frost hardiness in Chlorella ellipsoidea [Algae]. II. Effects of inhibitors of *RNA* and **protein** synthesis and surfactants on the process of hardening. 121325
Synthesis of *RNA* and **protein,** with ribonuclease activity, in carrot roots infested with Meliodogyne hapla Chitw. [Nematodes]. 123014
Synthesis of TMV [tobacco mosaic virus] *RNA* at **restrictive** high temperatures. 122879
In vivo purification of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in mitochondrial **ribosomal** *RNA* cistrons. 120754
Comparison of porcine liver tRNA preparations: purification of *tRNA* and its **separation** from RNA-peptidyl complexes. 117548
Progesterone-binding components of chick oviduct: in vitro effects of purified hormone-receptor complexes on the initiation of *RNA* **synthesis** in chromatin. 117789
Effects of Weismann ring gland on *RNA* **synthesis** in imaginal wing disks of Calliphora erythrocephala. 124044
Hydrolytic action of *aminoacyl-tRNA* **synthetases** from baker's yeast [Saccharomyces cerevisiae]: "chemical proofreading" preventing acylation of tRNA Ile with misactivated valine. 120927
Macromolecular complexes of *aminoacyl-tRNA* **synthetases** in Drosophila [melanogaster]. 123982
Role of **transfer** *ribonucleic* acids in the regulation of several biosyntheses in Saccharomyces cerevisiae [Yeasts]. 121048
Hybridization of maize chloroplast DNA with **transfer** *ribonucleic* acids. 121425
Peculiarities of *tRNA* that **translate** the synthesis of soluble and unsoluble proteins of the chloroplasts. 121348
RNA-dependent DNA polymerase activity of *RNA* **tumor** virus. VI. Processive mode of action of avian myeloblastosis virus polymerase. 118808
Nonsense suppressors of Saccharomyces cerevisiae can be generated by mutation of the **tyrosine** *tRNA* anticodon. 120785
Effects of viral protein, **viral** *RNA*, and some other polyelectrolytes on infection of tobacco protoplasts by TMV [tobacco mosaic virus]. 122875
Cell-free translation of **virion** *RNA* from nondefective transformation-defective Rous sarcoma viruses. 118800
Cell-free translation of foot-and-mouth disease **virus** *RNA* into identifiable non-capsid and capsid proteins. 118787
Enzymatic removal of the 5' terminal methylated blocked structure of tobacco mosaic **virus** *RNA* and its effects on infectivity and reconstitution with coat protein. 122834

RIBONUCLEOPROTEINS

Globin messenger sequences in **nuclear** *ribonucleoprotein* particles of avian [chick] erythroblasts. 117849

RIBOSE

Formation of nicotinamide ribose **diphosphate** *ribose*, a new metabolite of the NAD [nicotinamide adensine denuclotide] pathway, by growing mycelium of Aspergillus niger [Fungi]. 120857
Stabilization of *ribose-5-phosphate* **isomerase** from tobacco. 121537
Formation of **nicotinamide** *ribose* diphosphate ribose, a new metabolite of the NAD [nicotinamide adensine denuclotide] pathway, by growing mycelium of Aspergillus niger [Fungi]. 120857
Purification and properties of *ribose* **phosphate** isomerase from tobacco leaves. 121536

RIBOSOMES

Genetics of **chloroplast** *ribosome* biogenesis in Chlamydomonas reinhardtii [Algae]. 120602
Characterization of yeast [Saccharomyces cerevisiae] *ribosomal* **DNA** fragments generated by EcoR1 restriction endonuclease. 121282
Ribosomal **DNA** and its expression in Drosophila melanogaster during growth and development. 124087
Absence of *ribosomal* **DNA** amplification in a meroistic polytrophic ovary [Bombyx mori]. 124509
The *ribosomes* of **Drosophila.** IV. Electrophoretic identity among ribosomal subunit proteins from wild type and mutant Drosophila melanogaster and Drosophila simulans. 124088
Action of ricin from Ricinus communis L. [Castorbean] seeds on **eukaryote** *ribosomal* proteins. 121049
Mobility restriction in vivo of the **heavy** *ribosomal* subunit in a secretory cell [Chironomus tentans]. 124022
Functional 70S **hybrid** *ribosomes* from blue-green algae and bacteria [Anacystis nidulans, Escherichia coli]. 120909
Study of **membrane-bound** *ribosomes* during pea chloroplasts formation. 121608
In vivo purification of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in **mitochondrial** *ribosomal* RNA cistrons. 120754
The ribosomes of Drosophila. IV. Electrophoretic identity among *ribosomal* **subunit** proteins from wild type and mutant Drosophila melanogaster and Drosophila simulans. 124088
Maturation of *ribosomes* in **yeast** [Saccharomyces carlsbergensis]. I. Kinetic analysis by labelling of high molecular weight rRNA species. 120932
Maturation of *ribosomes* in **yeast** [Saccharomyces carlsbergensis]. II. Position of the low molecular weight rRNA species in the maturation process. 120933

RICCIA

The biology of a West African species of *Riccia* L. **[Bryophyta].** 121172

RICE

Effects of **aerating** *rice* during laboratory milling on milled rice yields. 117174
Comparative effects of dietary methoprene on symbiotic and **aposymbiotic** *rice* weevils and asymbiotic granary weevils [Sitophilus oryzae, Sitophilus granarius]. 124036
Harvesting [of *rice*] in **bags** and in granaries. 122029
Selenium content of **Bangladeshi** *rice* by chemical and biological assay. 117124
A factor in the break-down of resistance of **'Basmati-370'** *rice* to stem-rot disease [Magnaporthe salvinii]. 122641
Evaluation of the High Yielding Varieties Programme (paddy) in West **Bengal** *[rice]*. 115901
Susceptibility of Digitaria decumbens var. Pangola to **blast** *rice* [Pyricularia grisea] in the French West Indies. 122556
Research on the taxonomy, bioecology, damage of the *rice* **blast** fungus (Piricularia oryzae Bri. et Cav.) and the resistance of several rice varieties [in southeast Anatolia). 122583
Studies on the action of the dichlorocyclopropanes on the host-parasite relationship in the *rice* **blast** disease [Piricularia oryzae]. 122719
Effect of chemicals on the spread of *rice* **blast** disease [caused by Pyricularia oryzae]. 122763
Rice **blast** [Pyricularia oryzae]: studies of the fungus and its changing adaptation. 122767
Rice **blast** [Pyricularia oryzae]: chemical control in Texas, 1973. 122768
The use of *rice* **bran** in broiler feeding. 118051
Brazos *rice* (CI 9875): description and yield potential [Varieties]. 122077
Rice **bread** for special diets. 116271
Nutritive value of **broken** *rice* and ground flint corn for young pigs and rats. 118033
Relationship between chemical composition of lowland **brown** *rice* and producing district in Hokkaido. 117161
On the function of silica held in water and foods: the **brown** *rice*. 117190
Notes on baji in the Kathmandou valley [Production and use of *rice* **cakes;** ethnosociology of the villagers]. 117126
A new species of brine fly from **California** *rice* fields (Diptera: Ephydridae [Ephydra usingeri]. 124395
Downy mildew (yellow wilt) of *rice* **caused** by Sclerophthora macrospora: first report of the occurrence of the disease in India. 122749
Free amino acid contents in the healthy & galled shoots of *rice* **caused** by Pachydiplosis oryzae (Woodson). 123310
Nitrate reductase inactivating factor from *rice* **cells** in suspension culture. 121535
Unwanted dinner guests [Angoumois grain moth, Sitotroga **cerealla,** *rice]*. 123216
Androgenesis "in vitro" in Oryza sativa *[rice]* **(Cigalon** variety). 121407
Quality of pressure **cooked** *rice*. 116470
Sauteed **cooked** *rice* by Yutori method. 2. 116471
Cooking *rice* by Yutori method. 116468
Effect of temperature and length heating time in *rice* **cooking.** 1. Cooking of rice by pressure cooker. 1. 116469
Estimate of capital invested in the *rice* **crop,** rice zone of Rio Grande do Sul, 1974/75 season. 115520
Direct, residual and cumulative effects of applied zinc on yield, chemical composition and ion uptake by rice and wheat crops in a fixed rotation under field condition. I. Effect on *rice* **crop.** 124985
Mechanical design of growth-chamber for studying cool weather damage of *[rice]* **crops.** 122915
On the subject of damages to vineyards caused by synthetized hormones destined for weeding large culture **crops** *[Rice]*. 123175
Aspects of *rice* **culture** in Rio de Janeiro State [Acreage]. 122030
Effect of phosphorus fertility of soils and phosphate application on *rice* **culture** in cool regions. 2. Response of rice plant growth to the amounts of extractable phosphorus in flooded soils under field conditions. 125063

Autointoxication mechanism of Oryza sativa [rice]. I. Phytotoxic effects of **decomposing** *rice* residues in soil. 122972
Development and spread of high-yielding varieties of wheat and *rice* in the less **developed** nations. 121927
Tricyclazole: a new systemic fungicide for control of Piricularia oryzae [blast **disease**] on *rice*. 122739
Studies on the improved utilization of cooperative elevators for *rice* **drying** and storage in the Tohoku district. 117086
Estimation of isopentenyl adenosine during the germination of *rice* **embryos**. 121503
Comparative quality characteristics of *rice* from **first** and ratoon crops. 117173
Toxic effects of lead on growth & metabolism of **germinating** *rice* (Oryza sativa L.) seeds & on mitosis of onion (Allium cepa L.) root tip cells. 122952
Plant growth retarding activity of the 4-substituted-7-(beta-D-ribofuranosyl)pyrrolo[2,3-d]pyrimidine anticytokinins [on the **germination** of *rice*]. 121393
Intervarietal differences in some metabolic functions associated with protein acumulation in *rice* **grains** [in breeding programmes]. 121578
Rice **growing** in the M'Bos plain (west Cameroon): an example of the relations between the physical environment, agricultural experiments and development. 121870
Problems relating to the possibilities of the mechanization of *rice* **growing** in Iran. 124728
Determination of optimal norms of water usage, irigation regime and techniques of irrigation following crops in a *rice* **growing** crops rotation in the conditions of the lower part of Ili River (1971-1974). 125219
Establishing the differentiated regime of rice irrigation for the conditions of *rice* **growing** areas in te lower part of ili River (1970-1973). 125224
Rice **growth** and available phosphorus relationships on selected Gulf Coast soils. 125062
Rice **herbicide** evaluation for the western rice belt [Echinochloa colonum]. 123180
Rice **hybridization** in the conditions of the southern part of Ukraine. 120834
Studies on early seedling growth of *rice* with **IAA**, GA, CCC [indoleacetic acid, gibberellic acid, chlorocholine chloride]. 121569
Introduction and use of **improved** *rice* varieties: who benefits? [Effect of the green revolution on farmers, farming practices]. 115378
Improvement of production conditions of **irrigated** *rice* in Mali (period of 1963-1973). 121867
The different behaviour of rainfed rice and **irrigated** *rice* under water stress conditions. 1. Study of the factors of adaptation to drought. 121872
Establishing the differentiated regime of *rice* **irrigation** for the conditions of rice growing areas in te lower part of ili River (1970-1973). 125224
Rio Grande do Sul plan for dam operations *[Rice* **irrigation** capacities]. 125308
Ten year results of **large-scale** *rice* variety trials 1964-1973. 121911
Lebonnet *rice* (CI 9882) [Varieties]. 122082
Effects of aerating rice during laboratory milling on **milled** *rice* yields. 117174
Groat crops (buckwheat, **millet,** *rice).* 121522
Chemical preservatives for maintaining **moist** *rice* in storage [Fungus diseases]. 117172
Changes in protein, fat & glycogen in the larvae of *rice* **moth** Corcyra cephalonica St. during nuclear polyhedrosis virus infection. 123968
White tip disease of *rice* [**Nematodes,** Apheleuchoides oryzae, Apheleuchoides besseyi]. 122987
Mycoplasmalike bodies associated with *rice* **orange** leaf disease [Recilia dorsalis as insect vector]. 122862
Inheritance of clustered spikelets and ligule pigmentation in *rice,* **Oryza** sativa Linn. 120820
Rice: **Oryza** sativa and Oryza glaberrima (Gramineae-Oryzeae). 121956
Studies on large vascular bundles in **paddy** *rice* plant and panicle formation. I. Relationships between the number of large vascular bundles in the clum and the plant types. 120534
Studies on large vascular bundles in **paddy** *rice* plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in rice varieties. 120535
Studies on large vascular bundles in **paddy** *rice* plant and panicle formation. III. Relationship between the changes in the number of large vascular bundles in the tillers and the panicle formation. 120536
Kinetics of absorption of liquid water by paddy grains durin g **parboiling** *[Rice].* 117112
Trichoconiella gen. Nov. [Fungal **pathogen** of *rice].* 120153
1975 *rice* **performance** trials [Varieties, yields]. 122105
Autointoxication mechanism of Oryza sativa *[rice].* I. **Phytotoxic** effects of decomposing rice residues in soil. 122972
Effect of fertilizer nitrogen applied to the paddy field and its absorption by *rice* **plant.** VII. Relationships between the absorption of nitogen by the rice plants and its growth. 125050
Effects of fertilizer nitrogen applied to the paddy field and its absorption by *rice* **plant.** VI. Influence of a thermal factor on the soil ammonium nitrogen and the absorption of nitrogen by rice plant. 125051
Effects of fertilizer nitrogen applied to the paddy field and its absorption by *rice* **plant.** VIII. Compartive studies of the behavior of basal nitrogen and the absorption of nitrogen by rice plant in different paddy soils. 125052
Effect of phosphorus fertility of soils and phosphate application on rice culture in cool regions. 2. Response of *rice* **plant** growth to the amounts of extractable phosphorus in flooded soils under field conditions. 125063
Male sterility caused by cooling treatment at the young microspore stage in *rice* **plants.** XII. Classification of tapetal hypertrophy on the basis of ultrastructure. 120531
Male sterility caused by cooling treatment at the young microspore stage in *rice* **plants.** XIII. Ultrastructure of tapetal hypertrophy without primary wall. 120532
Male sterility caused by cooling treatment at the young microspore stage in *rice* **plants.** XIV. Floating tapetal materials in the locular cavity. 120533
Mode of action of hadacidin in higher **plants** *[Rice].* 121505
Determination of the most sensitive stage to sterile-type cool injury in *rice* **plants** [in Hokkaido]. 123030
Performance of *rice* **plants** with appliation of liquid fertilizers. 125027
Effect of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VII. Relationships between the absorption of nitogen by the *rice* **plants** and its growth. 125050
Studies on the effect of prolonged storage and antioxidant supplementation on nutritive value of *rice* **polish** [Poultry feed]. 118144
Studies on the developmental physiology in *rice* **pollen.** XXX. Effects of excessive nitrogen top-dressed at meiotic stage on the amino acid metabolism and the development of pollens. 121549
Effect of temperature and length heating time in rice cooking. 1. Cooking of *rice* by **pressure** cooker. 1. 116469
Productivity and economics of scale in *rice* **production.** 115548
The different behaviour of **rainfed** *rice* and irrigated rice under water stress conditions. 1. Study of the factors of adaptation to drought. 121872
Metabolism of 2,4-dichlorophenoxyacetic acid. 10. Identification of metablites in *rice* **root** callus tissue cultures. 121513
Evaluation of virulence in isolates of Sclerotium oryzae [stem **rot** of *rice].* 122730
Rough *rice* (paddy) drying methods in the United States. 117207
Improvement of **scented** *rice* varieties (Basmati 370) through induced mutation. 120619
Effect of submergence on some physiological changes in *rice* **seedlings.** 121502
A synergistic effect of 2-ethyl-1-isopropoxycarbonyl-3-(4-tolylcarbamoyl) isourea with gibberellic acid on growth of *rice* **seedlings.** 121531
The identity of Acrocylindrium oryzae Sawada and a similar fungus causing **sheath-rot** of *rice.* 120152
Action of forms of phosphorus fertilizers on *rice* in the **Sheki-Fakataly** Zone of the Azerbaijan SSR. 121396
Relative toxicity of some new insecticides against *rice-weevil* **Sitophilus** oryzae Linn. (Curculionidae: Coleoptera). 123292
Nitric oxide production in *rice* **soils.** 124769
Summary of 1975 **standard** *rice* variety performance trials in California [Yields]. 121865
Use of pirimiphos-methyl [organophosphorus insecticide] for the control of **stored** *rice* insect pests in southeast Asia. 123576
Effect of environmental desiccation on seedling **survival** in *rice.* 121439
Compared outgrowth rate of nodal roots in **three** *rice* varieties (Oryza sativa L.). 121408
Frequency and spectrum of chlorophyll-deficient mutations in *rice* after **treatment** with radiation and alkylating agents. 120782
South Korea cuts imports of **U.S.** *Rice.* 115660
Studies on large vascular bundles in paddy rice plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in *rice* **varieties.** 120535
Variation of Young's modulus caused by fertilizer ratios & chemical composition of *rice* **varieties** at flowering stage. 121510
Research on the taxonomy, bioecology, damage of the rice blast fungus (Piricularia oryzae Bri. et Cav.) and the resistance of several *rice* **varieties** [in southeast Anatolia). 122583
Seed-applied insecticides for *rice* **water** weevil [Lissorhoptrus oryzophilus] control. 123348
Rice herbicide evaluation for the **western** *rice* belt [Echinochloa colonum]. 123180
Direct, residual and cumulative effects of applied zinc on yield, chemical composition and ion uptake by *rice* and **wheat** crops in a fixed rotation under field condition. 1. Effect on rice crop. 124985
Microorganisms and flavor development associated with the **wild** *rice* fermentation [Quality]. 116200
Mortality and adaptive mechanism of Oryza perennis [**wild** *rice]* strains. 121454
Effects of molinate-propanil combinations on *rice* **yield** [Commelina, Leptochloa, Echinochloa]. 123176
Effect of phosphorus fertilization on *rice* **yield.** 125058
Estimate of capital invested in the rice crop, *rice* **zone** of Rio Grande do Sul, 1974/75 season. 115520

RICIN

Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by *ricin* [from **castorbeans**], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Action of *ricin* from **Ricinus** communis L. [Castorbean] seeds on eukaryote ribosomal proteins. 121049

RICINUS

Action of ricin from *Ricinus* **communis** L. [Castorbean] seeds on eukaryote ribosomal proteins. 121049
Partial purification and some regulatory properties of pyruvate kinase from germinating castorbean *[Ricinus* **communis**] endosperm. 121320
Castor: *Ricinus* **communis** (Euphorbiaceae). 122527
The ecology of the virus of tick-borne encephalitis in the natural foci in the Olomouc district [**Ixodes** *ricinus].* 123618
Ecology and ethology of **Ixodes** *ricinus* L. In Switzerland (Ixodoidea: Ixodidae). 5. Proof of a sexual pheromone in ixodes ricinus. 123771
Ecology and ethology of **Ixodes** *ricinus* L. In Switzerland (Ixodoidea: Ixodidae). 4. Comparison of two populations at different altitudes. 123772

RICKETS

Genetics and environment in the pathogenesis of nutritional [vitamin **D-responsive**] *rickets.* 116516

RICKETTSIA

Pleomorphism of *Rickettsia* **akari** in ticks of Hyalomma dromedarii Koch. 123836
Study of *Rickettsia* **living** within ticks (Acarina; Ixodoidea) in southeastern France. First statement: Ecological context of encounter with humans. 123609

RIDGES

New species of Aster from the **Badzhal'skii** *Ridge* (Khabarovsk Territory). 119965

RIFAMPICIN

The effect of *rifampicin* on the **reproduction** of Aujeszky's disease virus. 118999

RIGID

Analytical model for *rigid* **body** vibration of a hand-held chain **saw.** I. The gasoline engine. 119828

RINDERPEST

Studies on simultaneous vaccination of cattle against *rinderpest* and **foot** and mouth disease. 118756
Cytopathic effect of tissue culture adapted strain of *rinderpest* **virus** in different cell systems. 118729

RING

The anatomy of the superficial **inguinal** *ring* and its contained and adjacent structures in the live Greyhound: a study by palpation. 117837
The shape of things to come crab cakes, shrimp shapes, **onion** *rings,* fish filets. 116628
A line of *ring-necked* **pheasant** cells susceptible to infection by avian oncornaviruses. 119037
Ring **rot** of brinjal [eggplant] caused by Myrothecium roridum Tode ex Fries from **Bangalore.** 122605
Climatic information from 18O/16O ratios of cellulose in **tree** *rings.* 119760
Effects of **Weismann** *ring* gland on RNA synthesis in imaginal wing disks of Calliphora erythrocephala. 124044

RINGWORM

In vitro toxicity of constituents of Rumex maritimus Linn. [Trichophyton mentagrophytes, Microsporum canis] to *ringworm* **fungi.** 122603

RIPENING

Cold storage of **already** *after-ripened* beech (Fagus silvatica L.) seeds. 121792
Effect of 2-chloroethyl phosphonic acid (Ethrel) on the *ripening* of **bush** redpeppers (Capsicum annuum). 121649
Ripening, **chilling** injury, and respiratory response of 'Hass' and 'Fuerte' avocado fruits at 20 degrees C [centigrade] following chilling. 117282
Prospects of breeding sunflower for **early** *ripening.* 120811
Fruit *ripening.* 121740
Fruit *ripening* investigations on strawberry. 122409
Studies on the flesh quality of fruit and vegetables. II. Relation between the pulp quality and properties of pectic substances during **post-harvest** *ripening* of peaches. 117293
Studies on Provolone cheese. II. Changes in the volatile fatty acids during **processing** and *ripening.* 116887
Studies on *ripening* and **refrigerated** storage of the sapodilla (Achras sapota L.). 117244
Vacuum, *ripening* and **transport** packaging of beef. 116966

RIVERS

Silent forests of the lower **Alabama** *[River].* 119296
Microbiological pollution of Munich: phytoplankton under the influence of waste water; investigations in the **Amper** *River,* near Dachau. 125527
The taxonomy and ecology of algae in the **Appomattox** *River,* Chesterfield County, Virginia. 120297
Clearing and rectification of the *river* of Upper **Belgium.** 125316
Short-season, narrow-row cotton studies in the Coastal Bend and **Brazos** *River* Valley. 122086
Soil conservation: western part of the **Carcarana** *River* basin. 125111

Intraspecific variability, host plant preference and injuriousness of leaf beetles of the subfamily Galerucinae (Coleoptera, Chrysomelidae) on field crops of the **Cauca** *River.* 123358
Utilization of Landsat data for water quality [Remote sensing] surveys in the **Choptank** *River.* 125283
The effects of various components of water pollution on the behaviour of some aquatic macrophytes of the **coastal** *rivers* of Israel [Possible use as toxicity indicator plants]. 125381
Columbia *River* nutrient study—1972. 125330
The role of moss cover in some types of pine forests in the part of Ukrainian Poles'ye located to the east from **Dnieper** *River* [Effect of secretions on the growth of forest plants. 121814
Methodical principles for calculating boundaries of flooded zones for economic development of bottomlands of [Soviet] far **East** *rivers.* 125230
Effluent control—demonstrated on the profile of a *river* [**Effluent** mill wastes, Austria]. 125537
Seasonal succession of algae in *rivers.* I. **Examples** from the Avon. A large slow-flowing river [England]. 120378
Water pollution in the **Greve** *River* basin. 125483
Agrarian reform in Ecuador's **Guayas** *River* Basin. 115283
Determination of optimal norms of water usage, irigation regime and techniques of irrigation following crops in a rice growing crops rotation in the conditions of the lower part of **Ili** *River* (1971-1974). 125219
Establishing the differentiated regime of rice irrigation for the conditions of rice growing areas in te lower part of **ili** *River* (1970-1973). 125224
Study of flood plains of Ob' and **Irtysh** *rivers* in relation to a planned redistribution of runoff in the middle area (1972-1973) [Soil survey and mapping]. 124810
Soybeans on the *river* **lacustrine** soils of the Danube alluvial plain. 122072
Plant succession on an active tundra mud slump, Garry Island, **Mackenzie** *River* Delta, Northwest Territories [Senecio congestus, Arctagrostis latifolia, Eriophorum scheuchzeri, vegetation]. 120333
An inundation study of the Lower **Magdalena-Cauca** *River* Basin [Remote sensing]. 125253
Remote sensing of **Mississippi** *River* characteristics. 125269
Ecological studies on the aquatic insect in the upper region of the *Chikuma-river,* **Nagano** Prefecture, Japan. I. Life cycle and growth state of the Ephemerella trispina group (Ephemeroptera: Ephemerellidae), and aquatic insect fauna in summer. 124357
The former **natural** *river-side* forest sites of the Vrbina near Brezice. 119329
Forecasts of water expenditure [during floods] on the basis of recording runnoff distribution and its lag in the *river* **network** (1971-1972). 125227
A water quality optimization model for **nonserial** *river* systems. 125240
A model of ecological development and land settlement for the **Orinoco** *River* Basin of Colombia. 115292
Hydrologic land use classification of the **Patuxent** *River* watershed using remotely sensed data. 125261
Dependence of the floristic composition in the basin of **Pauzhetki** *River* from geothermal springs. 119955
Total resources of surface waters of the *river* **Plonka** catchment area [in relation to agricultural needs]. 125335
The Adige and **Po** *rivers:* chemical analysis and various investigations of the water in Polesine in 1974. 125296
Mathematical modelling of thermal **pollution** in *rivers.* 125456
Physiological effects of sublethal levels of acid water on fish *[River* **polution** with coal mine drainage, toxicity]. 125401
Application of thermal scanning to the study of transverse mixing in *rivers* [**Remote** sensing, pollutants]. 125458
Study of the process of rain flood formation in the basin of **Rioni** *River.* 125237
Seasonal succession of algae in rivers. I. Examples from the Avon. A large **slow-flowing** *river* [England]. 120378
Elements of spring floods of **small** *rivers* in the Lithuanian SSR. 125223
Anticipations of the effects of the floodwaters of the Olona and **Ticino** *rivers.* 2. [Water pollution]. 125480
Anticipations of the effects of the floodwaters of the Olono and **Ticino** *rivers* [Water pollution]. 125481
Criteria for evaluating flowing water pollution: comparative examination of the mycological, bacteriological and chemical parameters of the **Ticino** *River* in the municipal territory of Pavia. 125482
Floristic relics from the southern part of the territory east of the **Tisza** *River* [Hungary]. 119995
A study of the land in the **Tyers** *River* catchment. 124912
Conservation of a unique plant Zingeria biebersteiniana in the area of the Lower **Volga** *River.* 119855
Testing and breeding short stem varieties of spring wheat in the area eastward of the **Volga** *River.* 120750
Growing sugarbeets in irrigated conditions of the Middle **Volga** *River* area. 121978
Introduction of Arundo donax L. In the delta of the **Volga** *River* [as source of cellulose]. 122518
Irrigation regime of and application of fertilizers in sugarbeets in the conditions of the Middle **Volga** *River* area. 125247
Water-energy conflicts in Montana's **Yellowstone** *River* Basin. 125366
The feeding relationships of two invertebrate predators in a New **Zealand** *river* [Archichauliodes diversus, Stenoperla prasina]. 123920

ROACHES

Goodbye Mr. *Roach* [**Blattidae**]. 123514
The intestinal protozoa of the **wood-feeding** *roach* Cryptocercus. II. Symbionts. 124076

ROADS

Running skylines reduce **access** *road* needs, minimize harvest site impact. I. 119846
Construction of *roads* for **commodity** transportation: cost explosion from excessly long construction periods [Austria]. 115561
Roads and **development** in southwest Bougainville [Includes land use]. 115288
Projecting of *roads* and **environmental** protection. 119327
Facing the cost of EEC [European Economic Community] *road* **haulage** legislation [Fruit and vegetables]. 115680
Prediction of soil compaction due to *off-road* **vehicle** traffic. 124915

ROASTING

The causes of staphylococcal contamination during the production of *roasting* **chickens.** 116140
Automation of the *roasting* of **cocoa** nib pieces and of the pressing of liquor. 116786
Cooking of beef by **oven** *roasting:* a study of heat and mass transfer. 116623

ROBINIA

Melliferous flora preceding and accompanying the black locust *[Robinia]* **flowering** in the Torino Hill. 119938

ROCK

Effect of pelleting on the availability of phosphate in calcined **C-grade** *rock* phosphate from Christmas Island [Subterranean clover]. 124994
Floods, *mud-rock* **flows,** slidings, and rockfalls in Austria 1971-1973. 125312
Stephanosphaera pluvialis—a **peculiar** *rock-pool-alga* now found in Bornholm. 120016
First record of filamentous algal remains from the late **Precambrian** *rocks* of Random Island (Trinity Bay), eastern Newfoundland, Canada. 120004
Measurements of spectral reflectance and optical constants of **selected** *rock* samples for application to remote sensing of soil moisture. 124868
Vegetation of the *rocky* **shore** of northwestern Nurra (northern Sardinia). 120353

RODENTICIDES

Federal insecticide, fungicide and *rodenticide* **act** (FIFRA). 115960

RODENTS

Natural resistance of an **African** *rodent* Praomys (Mastomys) natalensis to rabies infection. 118614
Evolution and taxonomy in the genus Brucella: **brucellosis** of *rodents.* 118961
Inspection and sampling of stored grains [Insect and *rodent* **contamination**]. 116054
Problems of *rodent* **control** in rural tropical areas [Public health]. 116066
Rats and mice, Ohio recommendations *[Rodent* **control** in poultry houses]. 117412
Attempts to influence the feeding behaviour of brown rats using ultrasonic noise generators [for *rodent* **control**]. 122958
New data on the structure of the cryptal region of the small intestine mucous membrane in *rodents* and **dogs.** 117653
Unusual entomological separation technique in use at the Food and Drug Administration [Detecting and isolating insect and *rodent* **filth** from food]. 116165
Differential acceptance of toxic jojoba seed (Simmondsia chinensis) by four Sonoran desert **heteromyid** *rodents* [Seed toxicity]. 119234
Notes on Myobiidae parasites of *rodents,* **insectivores** and Chiroptera (Acarina: Prostigmata). 123593
Noxious *rodents* inside and outside enclosed space, a topical ecologic problem? 123046
Rodent **vectors** of Salmonella [typhimurium, sheep]. 119011

ROOFS

Confinement beef barn—**gable** *roof.* 124625
Roof **insulation** and its effect on broiler chicken mortality in hot weather [Poultry house]. 124653

ROOMS

A rapid method for measuring the acute toxicity of pulpmill effluents and other toxicants to salmonid fish at **ambient** *room* temperature. 125497
A **climate** *room* for precise regulation of temperature and humidity in connection with a temperature-regulated nest site for wood ants [Formica polyctena]. 124119
Air conditioning in the **cutting** *room* and the meat market. 116971
A temperature controlled **inoculation** *room* to increase the efficiency of preselection for resistance to coffee berry diseae [Colletotrichum coffeanum]. 122648
A personnel hazard: **operating** *room* environment pollution [Inhalation anestherics]. 118461
Threshed cereals in silos and **storage** *rooms.* 117149

ROOTING

Growth regulators and *rooting* of **cuttings** of woody ornamental plants. 121629
Effect of auxin cofactors on *rooting* and the **effect** of gibberellic acid on shoot growth of lilac [Syringa] softwood cuttings. 121627
Practical aspects of *rooting* and **growth** of Rimu [Dacrydium cupressinum] cuttings [New Zealand]. 119565
Use of hardwood bark as a *rooting* **medium** [Ornamental plants, propagation]. 124970
Rooting of **olive** tree cuttings. 121658
Effect of position, length of cuttings and date of planting of cuttings on *rooting* in the **red** currant variety Heinemanns Rote Spatlese (Preliminary report). 122408
Rooting of **tobacco** and tillage of soil. 125107

ROOTS

Increased transpiration and the accumulation of *root* **absorbed** 86Rb [rubidium isotope] in barley leaves in infected by rhynchosporium secalis (leaf blotch). 122706
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 3. description of the male and redescription of the female of Lutzomyia (Psychodopygus) **amazonensis** *(Root,* 1934), and list of species collected [Leishmaniasis transmission]. 124421
Bare *root* nursery production and needs. 119624
Effects of mechanical impedance on cell development in young **barley** *roots.* 121414
Further micro-autoradiographic studies on the pathways of movement of two pesticides in **barley** *roots.* 121416
Longitudinal movement and loss of solutes and water in **barley** *roots.* 121419
Development of **barley** *root* rots in fields surrounded by forest shelterbelts [Helminthosporium, Fusarium, Alternaria]. 122777
Laboratory studies of non-preference resistance to **cabbage** *root* fly [Erioischia brassicae] in radish. 123365
The effect of dietary cholesterol on the development of [**cabbage** *root* fly] Hylemya brassicae. 124053
Cell production by [maize] *root* **caps.** 121526
Studies on the performance of alfalfa swards. V. Relationships between top weight and **carbohydrate** *root* reserves of individual plants under sward conditions. 122061
Yield, rate of growth an dmorphological characteristics of the *roots* of the **carrot** (Daucus carota L.) in autumn-winter-spring cycle, in relation with plant population and fertilization. 122467
Synthesis of RNA and protein, with ribonuclease activity, in **carrot** *roots* infested with Meloidogyne hapla Chitw. [Nematodes]. 123014
Studies on the chemical changes induced by the infection of the rootknot nematode (Meloidogyne incognita) in tomato & eggplant & the stunt nematode (Tylenchorhynchus brassicae) in cabbage & **cauliflower** *roots.* 122951
Studies on the take-all fungus Gaeumannomyces graminis. V. Development and regeneration of *roots* in **cereal** species during the attack. 122580
Inheritance of the characters of hairiness of leaf blade and *root* **colour** in radish. 120643
The epidemiology of **common** *root* rot [Cochliobolus sativus] in Manitou wheat. IV. Appraisal of biomass and grain yield in naturally infected crops. 122590
Effect of pre- and postsowing rolling of sugarbeet fields on the yield and sugar content of the *roots* in the **conditions** of the Armenian SSR. 121976
Further investigations of the physiological responses of *roots* to **cooling** [Barley, rye]. 121415
Pathogenicity of Fusarium solani on sainfoin (Onobrychis viciifolia) *[Root* and **crown** rot]. 122754
Testing black **current** *root* stocks for their resistance to Septoria [ribis]. 122656
Direct canning of *rooted* **cuttings** [of ornamental shrubs] into one gallon containers. 122218
Scanning electron microscopy of syncytial transfer cells induced in [soybean, tobacco] *roots* by **cyst-nematodes** [Heterodera glycines, Heterodera tabacum]. 122716
Transport of 14C [carbon isotope] in cotton in the conditions of oxygen **deficiency** of *roots.* 121452
Influence of ploughing on the *root* **development** of different crop plants in Senegal. Consequences on their water supply. 121868
Effects of reduced cultivation on soil conditions and *root* **development** of cereals: Joint [Tillage] Project with the aRC [Agricultural Research Council] Weed Research Organization. 125096
Effects of different cultivation treatments on *root* **distribution,** and on the concentrations of extractable phosphorus and potassium, at different depths in a clay loam. 124954
Root growth in Acer saccharum Marsh. Seedlings: effects of light intensity and photoperiod on *root* **elongation** rates. 121801
Oxygen enhancement ratio for small x-ray doses measured in Vicia **faba** *roots* [Broadbeans]. 121685
How farm families make decisions: The *Roots*—**family** no.2. 115314
Insect density effects in *root* **feeding** by larvae of Sericesthis nigrolineata (Coleoptera: Scarabaeidae) [Pasture pests]. 123316
Physiology of *roots* [of **growing** plants]. 121016
Further studies on the modification of *root* **growth** and ion uptake brought about by enrichment of phosphate over narrow zones of the [barley] root system. 121417

Observation of *root* **growth** of strawberry plants grown on black film-covered and uncovered soil. 121732
Root **growth** in Acer saccharum Marsh. Seedlings: effects of light intensity and photoperiod on root elongation rates. 121801
Resistance of sugarbeets to clamp rot in the early stage of the *root* **growth.** 122783
Root **hardiness** of woody ornamentals [Cold injuries]. 122940
Effects of weather conditions on dynamics of **Helminthosporium-Fusarium** *root* rot on spring wheats in Krasnoyarsk territory. 122653
Studies on the take-all fungus Gaeumannomyces graminis. IV. Entry and growth of the fungus and significance of lignituber formation in the *roots* of the **hosts** [Cereals]. 122579
Morphogenesis in Gleditsia triacanthos L. X. Reconstitution of the meristem of the outline of 6th leaf after *root* **incision.** 121347
Gene-dependent growth of plant meristems, investigated on the development of **isolated** *roots* of different genotypes of Antirrhinum majus L. 121432
In situ estimation of [maize] *root* **length** at natural soil profiles. 121515
Root **lice** as a source for Chloropidae as house pests. 123657
Golgi apparatus secretion of vacuolar substances in **maize** *root* cells. 120544
Isozymic composition of aspartate and alanine aminotranspherases from *roots* of **maize** cultuvated at lower temperature. 121447
Genesis of mitochondria in growing cells of the **maize** *root:* Reorganization of the electrotransporting chain. 121485
Effects of cytochalasin B on the Golgi apparatus of **maize** *root* cells. 121550
K+ [potassium]-stimulated adenosine triphosphatase of **maize** *roots:* partial purificatin and inhibition by Helminthosporium maydis race T toxin. 122708
Influence of Verticillium albo-atrum Rke et Berth. On the course of mitosis in apical meristem cells of lucerne (Medicago **media** Pers.) *roots.* 122618
Ultrastructural changes in the *root* **meristem** cells of Rubus chamaemorus L. (Cloudberry). 120555
Ultrastructural localization of acid phosphatase in *root* **meristem** of Alfalfa vulgaris. 120556
Influence of Cynkotox (zineb) on mitotic activity and course of mitosis in *root* **meristem** of Allium cepa L. seedlings [Onions]. 122617
Chromosome aberrations in *root* **meristematic** cells after treatment with [the mutagen] NMH (N-methyl-N-nitrosourea). 120659
Studies on [barley] *root* **metabolism** under poorly aerated conditions. 121420
Plant tissue below the electron scanning **microscope.** 7. The *roots.* 120522
The effect of the supply of mineral nutrients on *root* **morphology,** nutrient uptake, and shoot growth in cereals. 121421
Response of soybean cultivars grown in *root-knot* **nematode** [meloidogyne incognita] inected soil treated with Fumazone 86 and other nematicides. 122925
Effects of nematodes on the physiology of vegetable crops. V. Influence of farmyard manure application on the *root-knot* **nematode** [Meloidogyne incognita] injury in some vegetable-crops. 122979
Infestation of melon seedlings by the larvae of the *root-knot* **nematode,** Meloidogyne incognita. 123004
A study on the peach rootstock (Nemaguard) resistance against *root-knot* **nematodes** Meloidogyne incognita and Meloidogyne javanica) in Aegean region. 122912
A survey study on *root-knot* **nematodes** (Meloidogyne spp.) in vegetable growing greenhouses in South Anatolia region. 122913
Characteristic of water-soluble fraction of proteins from organs of plants infested by *root-knot* **nematodes** [Vegetable and melon crops]. 123001
Compared outgrowth rate of **nodal** *roots* in three rice varieties (Oryza sativa L.). 121408
Factors affecting the reduction of acetylene by *root* **nodules** of Lupinus species [Lupine]. 121527
The geotropic curvature in *roots* of **Norway** spruce (Picea abies) containing anthocyanins. 121825
Starch content of **oak** *roots* on campsites [Quercus alba, Quercus velutina, Quercus coccinea]. 121834
The effect of the cereal cyst nematode [Heterodera avenae] on absorption and translocation of nutrients by the *roots* of **oat** plants. 122894
Translocation and transfer of nutrients in vesicular-arbuscular mycorrhizas *[roots* of **onion].** I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743
The fine structure of **pea** *root* nodules. 2. Senescence and disintegration of the bacteroid tissue [Rhizobium leguminosarum]. 120530
Wisanine, a novel alkaloid from the *roots* of **Piper** guineense. 121377
Effect of silicon on the growth, area size of leaves and adsorbing surface of **plant** *roots* [of cereals, soybeans and forage broadbeans]. 121402
Some biophysical aspects of anomalous ion uptake by thermophilic [cucumber] **plant** *roots.* 121784
Microbial colonization of **plant** *roots* [Suppressing beneficial symbionts]. 122902
Nitrate loss in a ponded Hanford sandy loam: enhancement by **plant** *roots* [Barley]. 124871
Effects of nonfumigant nematicides on *root* **populations** and manganese and zinc levels in rough lemon seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016
The occurrence and some properties of 3-hydroxy-3-methylglutaryl coenzyme A reductase in sweet **potato** *roots* infected by Ceratocystis fimbriata. 122720
Relationship of *shoot-root* **ratio** to survival and growth of outplanted Douglas-fir [Pseudotsuga menziesii] and ponderosa pine seedlings. 121836
Changes in loblolly pine [Pinus taeda] seedling dry weight and top to *root* **ration** between October and March. 121821
Fungi in the *root* **region** of Parthenium hysterophorus Linn. [an allergic weed]. 122601
Metabolism of 2,4-dichlorophenoxyacetic acid. 10. Identification of metablites in **rice** *root* callus tissue cultures. 121513
Content of free amino acids in leaves, *roots* and **root** secretions of some plants. 121059
Minnesota 108 pea breeding line *[Root* **rot** resistance, disease resistance]. 120692
Content of free amino acids in leaves, roots and *root* **secretions** of some plants. 121059
Nitrogen nutrition of Myriophyllum spicatum: uptake and translocation of 15N [nitrogen isotope] by **shoots** and *roots.* 121069
Invasion of **soybean** *root* cells in culture by Rhizobium japonicum [Changes in the morphology]. 120546
Cytoplasmic changes during and after infection of **soybean** *root* nodule cells with rhizobia [Nitrogen-fixing bacteria, Rhizobium japonicum]. 121530
Particularities of myelin formation in **spinal** *roots* of the rabbit. 117519
Effect of **spruce** *root* constituents on extracellular enzymes of Fomes annosus [Picea abies]. 122697
Black **stain** *root* disease [Verticicladiella wagenerii] of pinyon pine [Pinus edulis] in Colorado. 122747
Root and **stem** base rot of Gerbera caused by Pythium species and Rhizoctonia solani. 122677
Induction of textural changes in **sweetpotato** *roots* by chilling [Hardcore, storage diseases]. 117281
Subcellular localization of 3-hydroxy-3-methylglutaryl coenzyme A reductase and other membrane-bound enzymes in **sweetpotato** *roots* [healthy and infected with Ceratocystis fimbriata]. 121760
Characteristic of development of the *root* **system** in some chosen chemomutants of Petunia axillaris (Lam.) Juss. 120657
Further studies on the modification of root growth and ion uptake brought about by enrichment of phosphate over narrow zones of the [barley] *root* **system.** 121417
Field competition between tall morninggIory [Ipomoea purpurea, weeds] and soybean. II. Development and distribution of *root* **systems.** 123208
Alkaloids of thalictrum. XV. Isolation and identification of the hypotensive alkaloids of the *root* of **Thalictrum** lucidum. 121242
Thielaviopsis *root* rot of arum lily [Zantedeschia aethiopica]. 122679
Toxic effects of lead on growth & metabolism of germinating rice (Oryza **sativa** L.) **seeds** & on mitosis of onion (Allium cepa L.) *root* **tip** cells. 122952
Reduction in anaphase bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in irradiated & normal wheat (Triticum aestivum L.) *root* **tips.** 120475
Cyanide-insensitive respiration in *root* **tubers** of cassava (Manihot esculenta Crantz.). 121761
Root **uptake** of soil-injected [systemic fungicide] benomyl and its detection with Ulmus americana. 122640
Phosphatase activity in the *roots* of some **winter** wheat varieties as related to the application of fertilizers. 121404
Development of Heterodera schachtii in the *roots* of **winter** rape and oil radish. 123047
Features of phosphate regime of soils in the *root* **zone** of plants. 124757
Nitrate concentrations below *root* **zones** as related to soil profile characteristics. 124869

ROOTSTOCKS

Investigations on the *rootstocks* of **apple** trees grown without pruning. 122310
Growth and yield of Lord Lambourne and Red Delicious trees [varieties] on eight **apple** *rootstocks* in Cyprus. 122401
The effect of nitrogen on young, newly-planted, **apple** *rootstocks* in the presence and absence of grass [and weed] competition. 123093
Investigations on the apple tree. 8. Behavior of a Golden Delicious spur **clone** on different *rootstocks.* 122309
Dwarfing *rootstocks* for stone fruits. 122219
A study on the **peach** *rootstock* (Nemaguard) resistance against root-knot nematodes Meloidogyne incognita and Meloidogyne javanica) in Aegean region. 122912
Productivity of the standard and spur Red Delicious, the golden Delicious and the Yellowspur apple trees in **relation** to the *rootstock.* 122315
Influence of peach **seedling** *rootstocks* on growth, yield and survival of peach scion cultivars. 121710
Performance of Marsh seedless grapefruit on **six** *rootstocks* in Cyprus [Yields, fruit quality, growth]. 122403
Effects of four *rootstocks* on **yield** and quality of pistachio [Pistacia] nuts. 121703

ROOTWORMS

Relationship of **corn** *rootworm* [Diabrotica] tolerance to yield in the BSSS [Iowa Stiff Stalk Synthetic] maize population. 123311

ROPES

Calculation of **wire** *ropes* in forest and other cable-railways. 119664

RORIPPA

Watercress: *Rorippa* **nasturtium-aquaticum** (Cruciferae). 122383

ROSA

Flower bud atrophy in Baccara roses *[Rosa].* IV. The **activity** of various growth substances in leaves of flowering and non-flowering shoots. 121747
The Anemone roses *[Rosa* X **anemonoides,** Rosa sinica]. 122482
Problems of plant diseases in greenhouse floriculture [Dianthus, *Rosa,* **bulbs].** 122957
Flower bud atrophy in Baccara roses *[Rosa].* V. The **effect** of different growth substances on flowering. 121748
Flower bud atrophy in Baccara roses *[Rosa].* VI. The **effect** of environmental factors on gibberellin activity and ethylene production in flowering and non-flowering shoots. 121749
Ultrastructure and acid phosphatase in pedicel abscission of **hibiscus** *[rosa-sinensis].* 120405
Surface coating of germina apertures of pollen and evolution of apertures **[Oxalis** *rosa].* 120552
Increase in microviscosity with ageing in protoplast plasmalemma of rose **petals** *[Rosa].* 121739
The Anemone roses [Rosa X anemonoides, *Rosa* **sinica].** 122482
Fungi associated with moribund branches of *Rosa* **species** [New taxa]. 120268
Changes in ascorbic acid content of developing rose hips *[Rosa* **varieties].** 121728

ROSACEAE

Strawberry: Fragaria **ananassa** *(Rosaceae).* 122378
Cherry, plum, peach, apricot and almond: **Prunus** spp. *(Rosaceae).* 122352
Apple and pear: Malus and **Pyrus** spp. *(Rosaceae).* 122344
Cytotaxonomic studies in the tribe **Quillajeae** *(Rosaceae).* 119931
Raspberries and blackberries: **Rubus** *(Rosaceae).* 122377
Distribution of **woody** *Rosaceae* in western Asia. XV. Cerasus prostrata (Lab.) Ser. [In southwestern Asia and the Mediterranean area]. 119939

ROSES

"Introducing A.R.B.A." **[Amateur** *Rose* Breeders' Association]. 120802
The *rose* **analysis** [Varieties, England]. 122486
The **Anemone** *roses* [Rosa X anemonoides, Rosa sinica]. 122482
Flower bud atrophy in **Baccara** *roses* [Rosa]. IV. The activity of various growth substances in leaves of flowering and non-flowering shoots. 121747
Flower bud atrophy in **Baccara** *roses* [Rosa]. V. The effect of different growth substances on flowering. 121748
Flower bud atrophy in **Baccara** *roses* [Rosa]. VI. The effect of environmental factors on gibberellin activity and ethylene production in flowering and non-flowering shoots. 121749
Roses on **chalk** [soils, England]. 122477
High-temperature treatment (blindstoken) of bulbs of tulip cv [cultivar] *Rose* **Copland** for flower killing and yield improvement. 122402
A season to remember *[Rose* **culture,** England]. 122469
Phyllorhodomacy *[Rose,* **culture,** varieties]. 122474
Report from New Zealand *[Roses,* **culture].** 122475
Effect of conditioning treatments before shipping and floral preservatives on vase life of **cut** *roses.* 117283
Changes in ascorbic acid content of **developing** *rose* hips [Rosa varieties]. 121728
Pegging down **extended** *[Roses].* 122473
Growing and **forcing** *roses* in pots. 122471
Old **garden** *roses,* a personal anthology [Varieties]. 122441
Some thoughts on **hybridizing** *[Roses].* 120803
What have I got? **[Identifying** *rose* varieties]. 122488
The city of Belfast **International** *Rose* Trials. 122484
Symposium on the feeding and **manuring** of *roses.* 125074
Roses in **Miss** Jekyll's garden plans [Varieties, England]. 122476
The Centenary [of the Royal **National** *Rose* Society]. 122483
Seville has a new park and a **new** *rose* garden. 122478
Some **old** *roses* from accounts and catalogues of the eighteenth century [Varieties]. 122480
The garden of **old** *roses* at Mottisfont: a property of the National Trust in Hampshire. 122485
St Anne's **Park** *Rose* Garden, Dublin. 122481
Increase in microviscosity with ageing in protoplast plasmalemma of *rose* **petals** [Rosa]. 121739
Thoughts on *rose* **showing** in other countries [USA, New Zealand, Australia]. 122487
Shrub *roses* in Scotland [Varieties]. 122479
Plagiochila atlantica F. *Rose,* **sp.** Nov. Plagiochila ambagiosa auct [New taxa]. 120108
Behaviour and larvae of **two** *rose* chafer beetles Eupoecila australasiae (Don), Diaphonia dorsalis (Don) (Coleoptera: Scarabaeidae, Cetoniinae). 124472
Come sun, come shine; a symposium on the summer of 1975—one of the driest and hottest on record *[Rose* **varieties,** Great Britain, Ireland]. 122470
Miniatures in modern gardens *[Rose* **varieties].** 122472

ROT

Root and stem **base** *rot* of Gerbera caused by Pythium species and Rhizoctonia solani. 122677

The role of varietal differences and qualitative condition of apples in their infection with **bitter** *rot* [Gloeosporium perennans, Gloeosporium album]. 122627
Relations of phenolic inhibitors to resistance of immature apple fruits to *rot* [**Botrytis** cinerea, Penicillium expansum, Alternaria]. 122646
Blossom end *rot* of **bottlegourd** (Lagenaria siceraria) (Molina) Standl. incited by Pythium butleri Subr. 122600
Effect of eradicant and protectant sprays on differentiation of conidia of Monilia cinerea (Bon.) Schroet on almond [Prunus amygdalus, **brown** *rot].* 122632
The identity of Acrocylindrium oryzae Sawada and a similar fungus **causing** *sheath-rot* of rice. 120152
Resistance of sugarbeets to **clamp** *rot* in the early stage of the root growth. 122783
Pathogenicity of Fusarium solani on sainfoin (Onobrychis viciifolia) [Root and **crown** *rot].* 122754
A factor in the break-down of resistance of 'Basmati-370' rice to *stem-rot* **disease** [Magnaporthe salvinii]. 122641
Organic amendments and control of **foot** *rot* of Piper betle caused by Phytophthora parasitica var. piperina. 122570
Assessment of losses by Rhizoctonia bataticola (Taub. Butler, causing **foot** *rot* of Piper betle L. 122779
The importance of phenol oxidase activity in lignin degradation by the *white-rot* **fungus** Sporotrichum pulverulentum. 119650
Influence of carbon sources on the production of the termite [Reticulitermes virginicus] trail-following substance by [the *brown-rot* **fungus**] Gloeophyllum trabeum. 121175
Damage caused by the *dry-rot* **fungus** [Merulius lacrimans] in [the forests of] Slovenia. 122613
Observations on Ceratocystis adiposa *[rot* **fungus** on tomatoes] and the conidial ontogeny of its imperfect state. 122789
Tests of controlling **gray** *rot* [Botrytis of grapes] in 1975. 122794
Ring *rot* of brinjal [eggplant] caused by Myrothecium roridum Tode ex Fries from Bangalore. 122605
Minnesota 108 pea breeding line [**Root** *rot* resistance, disease resistance]. 120692
The epidemiology of common **root** *rot* [Cochliobolus sativus] in Manitou wheat. IV. Appraisal of biomass and grain yield in naturally infected crops. 122590
Effects of weather conditions on dynamics of Helminthosporium-Fusarium **root** *rot* on spring wheats in Krasnoyarsk territory. 122653
Thielaviopsis **root** *rot* of arum lily [Zantedeschia aethiopica]. 122679
Phenylalanine ammonia lyase & phenols in tubers of Kufri Dewa [a potato variety] in relation to resistance against bacterial **soft** *rot* [Erwinia carotovora carotovora]. 122804
Best decision: resistant varieties for control of maize **stem** *rot* [caused by Fusarium]. 122690
Evaluation of virulence in isolates of Sclerotium oryzae [**stem** *rot* of rice]. 122730
Study of some problems of the biology of the fungus Sclerotinia libertiana F. [**Stem** *rot,* sunflowers]. 122778

ROTATION

The *rotating* **aeration** (system Fuchs) for treatment of liquid animal and municipal wastes. 3. Hygienic investigations during rotating aeration of slurry from cattle. 125393
The *rotation* **aeration** (system Fuchs) for treatment of liquid animal and municipal wastes. 4. Hygienic investigations during rotating aeration of sewage sludge. 125394
Heating times of **axially** *rotated* cans [of liquid food] in a steam pasteurizer. 116657
Development and effect of parasitic crop rotation damages under stress conditons of long term **cereal** *rotations.* 122996
Alteration of the fertility of light Chestnut soil and the productivity of sugarbeets in a **crop** *rotation* and in continuous growing in relation to the system of fertilizer application. 121971
Crop *rotations* on irrigated lands and the placement of sugarbeets on them. 121972
Crop *rotations* with sugarbeets on irrigated lands in the southern part of Kazakhstan. 121973
Major and presowing soil tillage in **crop** *rotations* with sugarbeets in Kirghizia. 121980
The place of sugarbeets in a **crop** *rotation* and the depth of plowing in the conditions of irrigation in the southern part of the Ukraine. 121986
Ways of improving the system of soil tillage in a **crop** *rotation* with sugarbeets and specifically for this crop in the conditions of irrigation. 121988
Magnitude and quality of yield of maize cultivated within **crop** *rotation* and in monoculture. 122145
Microflora in an experimental **crop** *rotation* system and its antagonistic effects on soil plant pathogens [Fungi]. 122655
Presence of phytotoxic form of bacteria in a Sod-weak Podzolic soil planted with lupine in a **crop** *rotation* and in monoculture. 122801
Phytosanitary state of stands of field crops in relation to **crop** *rotation* and fertilizer application [Disease, pest and weed control]. 122945
Development and effect of parasitic **crop** *rotation* damages under stress conditons of long term cereal rotations. 122996
Effect of fertilizers on the yield and quality of potatoes grown in **crop** *rotation* and in monoculture. 124922
Effect of inorganic fertilizers, manure and lime in long-term application in a **crop** *rotation* on the yield of field crops and on soil fertility. 124925
Effect of long-term application of fertilizers in a **crop** *rotation* on the content of humus and nitrogen in Sierozem-meadow soils of Kirghizia. 124928
Effect of long-term application of inorganic fertilizers in a **crop** *rotation* with sugarbeets on the nitrogenous regime of Light-Chestnut soil in the southeastern part of the Kazakhstan. 124929
Effect of long-term application of fertilizers on the productivity of **crop** *rotations.* 124930
Effect of peat on the agrochemical properties of Sod-Podzolic loamy-sandy soil and the productivity of **crop** *rotation.* 124935
Mineral nutrition and the yield of winter wheat as related to systematic application of fertilizers in a **crop** *rotation* on typical Chernozem. 124942
A system of fertilizer application in a **crop** *rotation* with sugarbeets in Kirghizia. 125003
Consumption of water by, and the productivity of, sugarbeets in a **crop** *rotation* [under irrigation]. 125242
Effect of continuous growing of sugarbeets and their growing in a **crops** *rotation* on the soil microflora in the conditions of irrigation. 121974
Determination of optimal norms of water usage, irigation regime and techniques of irrigation following crops in a rice growing **crops** *rotation* in the conditions of the lower part of Ili River (1971-1974). 125219
Direct, residual and cumulative effects of applied zinc on yield, chemical composition and ion uptake by rice and wheat crops in a **fixed** *rotation* under field condition. 1. Effect on rice crop. 124985
Performance of a *rotating* **perforated** sleeve sprayer [in food processing]. 116841
The oceanic forest [Silvicultural **practice,** *rotation].* 119601
Effect of methods of major soil tillage on the yield of crops in a *rotation* with **sugarbeets.** 121975
Development of an optimal scheme of a *rotational* **utilization** of water in the Old-Terek Irrigation System (1972-1973). 125220

ROUGHAGE

Studies on assessment of quality of *roughage.* 4. The **assessment** of nutritive value of grass silage by the cellulase method. 117376
Feeding *roughage* to chickens [Costs]. 115495
Influence of *roughage* **level** on the site and extent of digestion of whole shelled corn by beef steers. 118094
Influence of *roughage* **level** and corn processing method on the site and extent of digestion by beef steers. 118095
Influence of *roughage* **level** and corn processing method on microbial protein synthesis by beef steers. 118096
Studies on the methods of judging the grade of **market** *roughage.* 3. Standardization and classification of market hay. 117377
A comparison of four annual forage plants for *roughage* **production** [Varieties]. 121882

RUBBER

Rubber: **Hevea** brasiliensis (Euphorbiaceae). 122536
Leaf spot disease of *rubber* [**Hevea**] caused by Curvularia pallescens Boedijn. 122604
Rubber **hydrochloride:** useful 'old-timer' [Packaging materials]. 116746
Control of South American leaf blight (Microcyclus ulei) of the *rubber* **plant** [Hevea brasiliensis] in Bahia. II. Cost/benefit ratio of aerial spraying of fungicides in the Itubera region, 1972/73. 115546
Control of South American leaf blight (Microcyclus ulei) of the *rubber* **plant** [Hevea brasiliensis] in Bahia. I. Aerial spraying of fungicides in the Itubera region. 122775
Effect of structure on impact strength of *rubber-reinforced* **polystyrene.** 116775
New technical concepts on the chemical control of South American leaf blight [Microcyclus ulei] of the *rubber* **tree** [hevea brasiliensis]. 122586
Nutritional and fertilizer requirements of *rubber* **tree** [Hevea brasiliensis] culture. 124960

RUBIACEAE

Quinine: **Cinchona** spp *(Rubiaceae).* 122535
Coffees: **Coffea** spp. *(Rubiaceae).* 122529
Chemical dimorphism' of pollen **grains** of *Rubiaceae.* 120451

RUBIDIUM

Increased transpiration and the accumulation of root absorbed 86Rb *[rubidium* **isotope**] in barley leaves in infected by rhynchosporium secalis (leaf blotch). 122706

RUBRUM *see* RED

RUBUS

Ultrastructural changes in the root meristem cells of *Rubus* **chamaemorus** L. (Cloudberry). 120555
Raspberries and blackberries: *Rubus* **(Rosaceae).** 122377
Ultrastructural changes in the root meristem cells of **Rubus** *chamaemorus* L. (Cloudberry). 120555

RUMEN

Glucose metabolism of orange-colored Streptococcus bovis [isolated from **bovine** *rumen].* 117811
Effects of differential solid-liquid removal rates on protozoa numbers in continuous cultures of *rumen* **contents.** 117768
Effects of differential solid-liquid removal rates on fermentation parameters in continuous cultures of *rumen* **contents.** 117769
Capacity of the *rumen* in **Corriedale** sheep (Ovis aries) [Anatomy]. 117899
Behaviours of pH [hydrogen-ion concentration] and volatile fatty acids in *rumen* **juice** of sheep afflicted with latent alimentary metabolic acidosis. 119153
An examination of the net changes in amino-acid composition within the *rumen* of **mature** wether sheep using canonical variate analysis. 117754
A colorimetric technique using chromium-ethylene diamine tetra acetate for **measuring** *rumen* volume [Sheep]. 117753
Sulfur supplementation and in vitro digestion of forage cellulose by *rumen* **microorganisms** [Cattle]. 117771
Volatile fatty acid metabolism in sheep. 1. Average daily volatile fatty acid production in the *rumen* of **sheep** fed lucerne hay. 117869
Concentration gradients of acidic fermentation products in the *rumen* of **sheep.** 117921
The influence of the level of feeding on fermentation in the *rumen* of **sheep** receiving a diet of ground barley, ground hay and flaked maize. 118086
Metabolism and growth yields in Bacteroides ruminicola **strain** B14 [found in the *rumen].* 117828

RUMEX

Weed control: **docks** *[Rumex].* 123051
In vitro toxicity of constituents of *Rumex* **maritimus** Linn. [Trichophyton mentagrophytes, Microsporum canis] to ringworm fungi. 122603
Control of broad-leaved docks *[Rumex* **obtusifolius].** 123099

RUMINANTS

Utilization of volatile fatty acids in *ruminants.* 8. **Acetate** activation in mammary tissue [cows]. 117752
Latent alimentary metabolic **acidosis** of *ruminants.* 119164
Intermediary metabolism of *[ruminant]* **adipose** tissue. 117683
Theoretical model of *ruminant* **adipose** tissue metabolism in relation to the whole animal. 117685
Demodectic mange in the eyelid of **domestic** *ruminants* in Iran [Demodex]. 123607
Cottonseed protein [Cottonseed meal, *ruminant* **feed].** 117331
Foetal autonomy [in **horses** and *ruminants].* 117914
Ruminant **nutrition** research, 1973 [Sheep, cattle]. 118150
Ruminant **nutrition** research, 1974 [Cattle]. 118151
Harvesting, preparation and feeding of whole cereal and maize **plants** *[Ruminants].* 121928
Radiographic aspects of bezoar concretions in *ruminants;* **presentation** of a clinical case in the goat (Capra hircus). 117906
Histocompatibility in *ruminants.* The **production** and evaluation of allo-antibodies for GL-A typing in goats. 118794
Artificial insemination and estruc synchronization in *ruminants* **[Sheep,** cattle]. 118368
Studies with ammonized straw pellets used as sole basal diet in the feeding of *ruminants.* 2. **Studies** on processes of ruminal fermentation in relation to milk composition and the milk yields of cows. 118005
Liquid diets containing poultry **wastes** for *ruminants.* 118030

RUNOFF

Effect of ponds on the *runoff,* their **conservation** and effective utilization [for irrigation and for livestock watering]. 125222
Runoff **creep** of coarse debris: experimental data and some field observations. 125197
Study of flood plains of Ob' and Irtysh rivers in relation to a planned redistribution of *runoff* in the **middle** area (1972-1973) [Soil survey and mapping]. 124810
Snowmelt *runoff* efficiencies on Arizona watersheds. 119409
Snowmelt *runoff* from planted conifers in southwestern Wisconsin [Watersheds]. 119415
Snowmelt *runoff* on small catchment basins. 125348
Development of a method of forecasting **spring** *runoff* on the basis of recording uneven wter absorption [on forested and unforested land]. 119349
Factors affecting **spring** *runoff* on two forested watersheds. 125364
Runoff **studies** on small watersheds. 125334
Fertilization of forest areas and its effect on water quality of **surface** *runoff* waters and water sources. 124977
Quality and quantity of nonpoint pollution sources in rural surface **water** *runoff* on Oahu, Hawaii. 125567
Remote sensing techniques for prediction of **watershed** *runoff.* 125270

RUPTURES

Management of acute gastric dilatation with torsion and *rupture:* a **case** report [Dogs]. 119113
Aqueous solvents for extracting glanded cottonseed protein without **gland** *rupture.* 117127

RURAL

The face of *rural* **America** [A visual record of America's agriculture in the Bicentennial year]. 115205

Rural **analysis** of Spanish provinces: Tarragona; general view of the province. 115132
Rural **analysis** of Spanish provinces: Lerida; general view of the province. 115133
Rural **analysis** of Spanish provinces: Alava; general view of the province. 115134
Voting behavior in the *rural* **area** [Political influence of farmers, Austria]. 115110
Future aspects of the *rural* **area** and agriculture [Land utilization, Austria]. 115206
Perception of water pollution in a *rural* **area:** a cognitive dissonance approach. 125489
The role of press in increasing the efficiency of ideological activities in the *rural* **areas.** 115170
Change of the structure of the primary [communist] party organizations in relation to new [management] processes occurring in *rural* **areas** [Moldavia]. 115384
Socialist competition in youth collectives in new production conditions [in *rural* **areas** of Moldavia]. 115392
[Communist] party guidance of socialist competition in production amalgamations in *rural* **areas.** 115397
Birth of the age of wood; employment and use of wood in *rural* **buildings.** 124647
Birth of the age of wood; employment and use of wood in *rural* **buildings.** 124648
Birth of the age of wood; employment and uses of wood in *rural* **buildings.** 124649
Comilla *rural* development programs to 1971. 115909
The increasing role of *rural* **[communist]** party organizations in the conditions of agrarian-industrial integration [Moldavia]. 115394
A simulation model for predicting and analyzing manpower requirements [in *rural* **communities**]. 115448
Medical and social aspects of *rural* **community** of Santa Ines [Health, Venezuela]. 115198
Rural **credit:** the policy of granting subsidies [Brazil]. 115478
Rural **credit** [Brazil]. 115522
Business and industrial loans (B&I) [Farmers Home Administration, a *rural* **credit** agency]. 115529
Val Badia: *rural* **declining** community. 115119
Agricultural inputs and *rural* **development.** 115140
Helping small farmers in *rural* **development.** 115142
New concepts in *rural* **development.** 115143
Financing state and local services in a cyclical economy [Research on *rural* **development].** 115306
Pakistan *[Rural* **development,** agricultural production]. 115876
Problems in implementation: the Daudzai project *[Rural* **development].** 115879
United Kingdom *[Rural* **development].** 115889
United States [Agricultural production, *rural* **development].** 115890
Growth centres and *rural* **development** in Africa. 115905
Regional planning and *rural* **development** in Latin America. 115906
Rural **development** in Bangladesh: an introduction. 115912
Rural self-government in Pakistan: an experiment in political development through bureaucracy *[Rural* **development].** 115913
Role of fertiliser industry in *rural* **development.** 124993
A study of the comparative values of coliform and faecal streptococci as presumptive pollution indicator in *rural* **drinking** water. 125479
Discussion of financing state and local government services in a cyclical economy [Effect on *rural* **economic** conditions]. 115303
Organization models for *rural* **economics.** 115446
Discussion of the effects of recession on the *rural-farm* **economy.** 115304
The effects of recession on the *rural-farm* **economy.** 115309
The *rural* **elite** and agricultural development in Pakistan. 115916
Subsidy to *rural* **families** via and Agricultural Treasury [Legislation, Colombia]. 115545
Rural **funds** in Castilla: legal system of credit cooperatives; present and future situation. 115803
Tradition, colonialism and politics in *rural* **Ghana:** local politics in Have, Volta Region. 115129
Effective extension programme **helps** *rural* development. 115141
Multi-faced extension programme **heralds** *rural* prosperity [Fertilizer marketing]. 124989
Changing face of *rural* **India.** 115116
Agro-based business and industry in IRD **[integrated** *rural* development] projects. 115868
Integrated *rural* development programes and projects in a world facing food and poverty crises. 115871
Integrated *rural* development planning. 115872
Integrating IRD **[integrated** *rural* development] projects into the national plan of Turkey. 115873
IRD **[integrated** *rural* development] pre-project and early phase planning [Pakistan]. 115875
Preparation and integration of IRD **[integrated** *rural* development] projects with the national development plans [Pakistan]. 115878
Problems in the implementation of IRD **[integrated** *rural* development] projects: management & co-ordination. 115881
Research & evaluation in IRD **[integrated** *rural* development] projects [Iran]. 115882
Social development: its role and problems in IRD **[integrated** *rural* development] projects. 115883
Some aspects of pre-project and early phase planning for IRD **[integrated** *rural* development] purposes. 115884
Special training needs of IRD **[integrated** *rural* development]. 115885
The role of infrastructure development in IRD **[integrated** *rural* development] development projects. 115886
The role of women and youth in IRD **[integrated** *rural* development] projects. 115887
The role of women and youth in IRD **[integrated** *rural* development] projects [Iran]. 115888
An adequate diet with a plan for **integrated** *rural* development [Colombia]. 116548
Cooperatives structures and the credit system of *rural* **Israel.** 115436
Arrangement of political information in *rural* **labor** collectives. 115163
The potential *[rural]* **labor** supply: a cross-sectional estimation method. 115454
Selected information source perceptions and use patterns in **one** *rural* Ohio county: an analysis. 115108
Themes in economic growth and social change in *rural* **Pakistan:** an introduction. 115917
The historical context of **Pakistan's** *rural* economy. 115277
Activities of *rural* **party** organizations in increasing the role of communists in production and public life. 115380
The rural youth *[Rural-urban* **population** migration]. 115127
Sex knowledge, birth control, and marital attitudes of a *rural* **population.** 115146
Effect of new forms of production-economic amalgamations on the migration of *rural* **population.** 115164
Social and psychological peculiarities of different group of *rural* **population** and ideological activities. 115166
Strenghtening of the influence of the working class on the formation of communist consciousness of *rural* **population.** 115167
Effect of agrarian-industrial and interfarm amalgamations on the change of professional and skill composition of the *rural* **population.** 115387
Ten years' effort in promoting regional development: a review of the progress of the United Nations Programme of Research and Training in Regional Development [with emphasis on **predominantly** *rural* areas]. 115907
Iran *[Rural* **programs].** 115874
The administration of *rural* **reform:** structural constraints and political dilemmas. 115276
Average content of calcium, copper, iron, magnesium and zinc in the water used at the *Rural* **Sciences** Center of the Federal University of Santa Maria. 125346
Rural **self-government** in Pakistan: an experiment in political development through bureaucracy [Rural development]. 115913
An experiment in preventive medicine in a *rural* **setting** [Health, Venezuela]. 115197
Land utilization and *rural* **settlement** in the area of Italian colonization in Rio Grande do Sul, Brazil. 115216
[Rural] **social** organization and agricultural development in Bangladesh. 115161
Quality and quantity of nonpoint pollution sources in *rural* **surface** water runoff on Oahu, Hawaii. 125567
Profitability of *rural* **swine** rearing [Costs, Switzerland]. 115547
Problems of rodent control in *rural* **tropical** areas [Public health]. 116066
Current development in irrigation and *rural* **water** supply in New Zealand. 125314
The *rural* **youth** [Rural-urban population migration]. 115127
Growth and development of three *[rural]* **Yugoslav** populations in different ecological settings [Anthropometric and nutritional studies]. 116282

RUSCUS

Structure of a perennial inflorescence of *Ruscus* **hypoglossum** L. 120423

RUST

Interactions of Puccinia sparganioides with smooth cordgrass (Spartina **alterniflora)** *[Rust].* 122751
Epidemic characteristics of the **blister** *rust* of pine, Cronartium flaccidum (Alb. and Schw.) Wint., in Italy. 122558
What's behind and ahead in **blister** *rust* research and development [Trees]. 122688
Effects of the concentration of uredospores of **brown** *rust* causal agent, Puccinia recondita Rob. ex Desm., on inoculation rates of wheat plants. 122652
Large-scale production of the fungal pathogen Hirsutella thompsonii in submerged culture and its formulation for application in the field [to control the **citrus** *rust* mite, Phyllocoptruta oleivora]. 123399
Ultrastructure of mitosis in the **cowpea** *rust* fungus Uromyces phaseoli var. vignae. 120483
Biology of Melampsora lini (Pers.) Desm., a causal agent of **flax** *rust.* 122650
Contribution to the Uredinales *[rust* **fungi]** flora of Iran and Afghanistan [Puccinia buffoniae, Aecidium iranicum, new taxa]. 120265
Notes on Uredinales *[rust* **fungi]** of Chile. 120272
Notes on Uredinales *[rust* **fungi]** of Chile. II. Uredinales from the transversal valley zones. 120273
Studies in some *rust* **fungi** [Uredinales] from India. 120277
An ultrastructural study of spermatium formation in the *rust* **fungus** Gymnosporangium juniperi-virginianae. 122557
Distribution of **fusiform** *rust* [Cronartium fusiforme] on slash and loblolly pines [Pinus elliottii elliottii, Pinus taeda] in Texas. 122748
Inheritance of virulence in Puccinia recondita on six backcross lines of wheat with single genes for resistance to **leaf** *rust.* 120611
Fungicides for control of poplar **leaf** *rust* [Melampsora larici-populina] and effects of control on growth of Populus nigra cv. 'Sempervirens' and Populus X euramericana cv. 'I-214'. 122667
Control of **leaf** *rust* [caused by Puccinia recondita] on spring wheat by seed treatment with 4-N-butyl-1,2,4-triazole. 122726
Control of **Lobelia** *rust,* Coleosporium companulae (Pers.) Lev. 122671
Sporulation of fungus Puccinia graminis f. Sp. Tritici in axenic culture [Wheat, **stem** *rust].* 122608
Use of extremely shortstemmed wheat varieties for culturing aseptically a causal agent of **stem** *rust,* Puccinia graminis F. sp. tritici, on wheat seedlings. 122659
Hypersensitive response of near-isogenic wheat carrying the temperature-sensitive Sr6 allele for resistance to **stem** *rust* [Puccinia graminis tritici]. 122705
Races of Puccinia graminis f. Sp. Tritici [wheat **stem** *rust]* in the U.S.A. during 1975. 122757
Races of Puccinia graminis f. Sp. Avenae **[stem** *rust* of oats] in the U.S.A. during 1975. 122758
Appearance and control of **yellow** *rust* (Puccinia striiformis) on wheat in the area of the Hanover Plant Protection Board in 1975. 122669
Barley **yellow** *rust* [caused by Puccinia striiformis]. 122773
Barley **yellow** *rust* [caused by Puccinia striiformis] and its control. 122774

RUTA

The structure of rutacridone *[Ruta* **chalepensis,** alkaloids]. 120878
Comparative anatomical-chemical studies of six selected species of the **genus** *Ruta.* I. Generation, development and numbers of oil receptacles. 120851
Comparative anatomic and chemical studies of six selected species of the **genus** *Ruta.* II. Content of the essential oil at different development phases and vegetation periods. 120852
New sources of natural coumarins. XXIX. Three new coumarins of a *Ruta* **species** from the Canary Islands. 120876

RUTABAGA

Phytometric features of the crops of Kuuziku **forage** *rutabagas.* 121565

RUTACEAE

Citrus: **Citrus** *(Rutaceae).* 122354
Abnormal rearrangement of isoprenoid epoxide: synthesis of 7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin, the lactonic constituent of grapefruit peel oil of Citrus decumana **Linn.** *(Rutaceae).* 117230
Studies on embryogenesis of the Indian taxa of *Rutaceae*—a **review.** 119930

RYE

Telomeric association of chromosomes [wheat X *rye* X **Agropyron** hybrids]. 120816
Resistance of *wheat-rye* **amphiploids** to drought and high temperatures. 120833
Chemical mutagenesis on *rye;* an **analysis** of the somatic damage caused by (NMH) n-methyl-n-nitrosourea. 120658
Further investigations of the physiological responses of roots to cooling **[Barley,** *rye].* 121415
Results of multi year research on the quality of *rye* used for **bread** production in the German Federal Republic. 121934
Performance of crosses of sibmated families *[Rye,* **breeding,** Netherlands]. 120672
Research on the use of pure lines in *rye* **breeding** [France]. 120676
Some methods of *rye* **breeding** for resistance to snow mould (fusarium nivale (Fr.) Ces.). 120680
The use of pair crosses in *rye* **breeding** [Poland]. 120688
Passing of *rye* **chromosomes** in Triticale as a method of development of new forms. 120671
Selection of B **chromosomes** in *rye.* 120679
The use of chemicals and cytoplasmic male sterility for pollen development **control** in *rye.* 120686
Rye **[Cultivation].** 121853
Selection of high sprouting disposition and seed **dormancy** in *rye.* 121467
Two **early** *rye* finds from the Netherlands. 119922
Microsporogenesis and anther development in male-sterile and male-fertile **forms** of *rye.* 120670
Rye **genetic** resources conservation. 120678
Proteins and alkyloresorcinols in *rye* **grain** [and other species of Secale; nutritive value as feed]. 121465
The indexes of alkyl resorcinols content in *rye* **grain** [Nutritive value as feed]. 121470
5-alkyl-resorcinol content influenced through *[rye]* **grain** size, genetical and environmental conditions [Varieties, testing, West Germany]. 121471
Amino acids limiting the nutritional value of *rye* **grain** protein [Varieties, testing, Poland]. 121932
Giemsa-banding of MI chromosomes in *wheat-rye* **hybrids.** 120590
Cytoplasmic male sterility in **interspecific** *rye* hybrids. 120660
The effect of temperature and dehydration of the dried seeds on the biological properties of *rye* **introduction.** 121469
Analysis of a diallel cross in inbred **lines** of *rye.* 120653
General and specific combining ability in test crosses between inbred **lines** of *rye.* 120666
Present position of breeding a **perennial** *rye.* 120674
Esterases [genetic] variability within some **Polish** *rye* cultivars. 120663

Meeting on the breeding of *rye,* **Poznan,** June 18-21, 1974 [Papers]. 120669
Histochemical study of allelopathic effect of cultivated plants [oats, rape, *rye]* on **quackgrass** [Agropyron repens]. 123084
Identification and phytotoxic activity of compounds produced during decomposition of corn and *rye* **residues** in soil. 122973
Two-step selection for obtaining strains of *rye* **resistant** to lodging [Breeding, East Germany]. 120689
Release of sprouting **resistant** *rye* in Sweden. 121466
Estimate of genetic variance in open-pollinated varieties of *rye* **(Secale** cereale L.). 120664
Stimulatory action of Azotobacter chroococcum from water hyacinth (Eichhornia crassipes Mort Solms) on germination of seeds of *rye* **(Secale** cereale). 121568
Rye: **Secale** cereale (Gramineae-Triticinae). 121957
The endopeptidase nature of a trypsin-like enzyme from *rye* **seeds.** 121451
Breeding of **short-stem** *rye* at Chlumec Plant Breeding Station [Chechoslovakia]. 120654
Studies of the resistance of *rye* to **snow** mould (Fusarium nivale Fr.) [Varieties, testing]. 122619
Varied effect of chlorcholinchloride [growth substances] on wheat and *rye* **stability.** 121525
Research on male **sterility** in *rye.* 120675
Studies on starch properties and alpha-amylase activity in *rye* [in **Sweden].** 121468
Evolutional and genetic foundations of heterosis in remote hybridization and polyploidy [Wheat, *rye,* **Triticale].** 120703
Experimental basis for breeding hybrid **varieties** in *rye.* 120665
Variability of yield components of *rye* **varieties** in dependence on some agronomical practices. 121935
Polyadenylation of stable mRNA during swelling of seeds? [Cotton, *rye,* **wheat].** 121430
Cytologic peculiarities of *wheat-rye* and **wheat-Agropyron** amphidiploids. 120807
A study of combining ability and heterosis in **winter** *rye* [Czechoslovakia]. 120652
Breeding of **winter** *rye* in the northeastern European part of the USSR. 120655
Breeeding of **winter** *rye* resistant to powdery mildew [Erysiphe graminis]. 120656
Effect of the dominant charcter of short straw on some quantitative characters of **winter** *rye.* 120662
Results and perspectives on **winter** *rye* breeding in the Estonian SSR. 120677
Studies on lodging resistance of diploid **winter** *rye* varieties and their hybrids [USSR]. 120681
The breeding of dwarf **winter** *rye* varieties [in USSR]. 120683
The correlations between different tetraploid **winter** *rye* characters and properties and their role in plant breeding. 120684
The significance of polyploids in the breeding of **winter** *rye* [Varieties, USSR]. 120685
The use of multiple correlation in **winter** *rye* breeding. 120687
Effectiveness of **winter** *rye* selection for large grain. 120826
Alteration of protein content in plants [of barley, oats and **winter** *rye]* in relation to the methods of its determination, fixation and temperature of drying of the plant material. 121397
Effect of stubble residues of fallow grown crops on the germination and development of **winter** *rye.* 121460
Effect of the preparation "Kampozan" [a synthetic growth regulator] (based on ethylene phosphonous acid) on **winter** *rye.* 121464
Effect of protective substances on the activity of catalase in the mitochondria in **winter** *rye* leaves. 121493
Heterogeneity of soluble proteins from the cytoplasm in leaves of wintering plants **[winter** *rye* and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Quality of **winter** *rye* seeds, obtained from lodged plants, during storage. 121573
Culture and seed production of **winter** *rye* in eastern foreststeppe Ukraine. 121933
Effect of monuron and monolinuron on growth dynamics, yields and qualitative changes of **winter** *rye* against the background of various nitrogen, phosphorus and potassium fertilization rates. 123192
Effect of potassium fertilizers on [crop] yields and removal and utilization of nitrogen, phosphorus, and potassium by **winter** *rye.* 124937
Dwarf plants and the effect of their transpollination in **Wojcieszyckie** *rye* [variety, Poland]. 120661
Genetic resources of **worlds** *rye* collection for solving of more important breeding problems. 120667
Inheritance of dwarfing and some characters in the mutants of **Zeelandzkie** *rye* [Varieties, Poland]. 120668

RYEGRASS

Production and solar energy utilization by two different strains of *ryegrass* **[Lolium,** calculation]. 121422
Factors affecting the establishment of *ryegrass* **[Lolium]** seedlings in soldier fly [Inopus rubriceps]-infested land. 123336
Early maturing variety of **perennial** *ryegrass,* Drogobychskii 1 [Lolium perenne]. 122152
A small-plot evaluation of **three** *ryegrasses* [Lolium] and two clovers at five sites in New Zealand. I. Comparison of 'Grasslands Huia' and 'Grasslands Pitau' white clovers. 122046

SACCHARIDES

Composition of soluble **indigenous** *saccharides* from sugarcane. 117117
The occurrence of ethanolamine and galactofuranosyl residues attached to Penicillium charlesii cell **wall** *saccharides* [fungi]. 120923

SACCHAROMYCES

Sulphite reductase and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite forming wine yeasts *[Saccharomyces,* **Candida].** Relationship to sulphite accumulation during fermentation. 120916
Environmentally induced changes in mitochondria and endoplasmic reticulum of *Saccharomyces* **carlbergensis** yeast. 121174
Maturation of ribosomes in yeast *[Saccharomyces* **carlsbergensis].** I. Kinetic analysis by labelling of high molecular weight rRNA species. 120932
Maturation of ribosomes in yeast *[Saccharomyces* **carlsbergensis].** II. Position of the low molecular weight rRNA species in the maturation process. 120933
Dual control of invertase biosynthesis in chemostat culture *[Saccharomyces* **carlsbergensis,** yeasts]. 120959
Invertase biosynthesis by *Saccharomyces* **carlsbergensis** [yeasts] in batch and continuous cultures. 120960
Cjompartmentalization of magnesium and orthophosphate ions in cells of *Saccharomyces* **carlsbergensis.** 121026
Protein crystals and bundles of tubules in yeast cells. IV. Biochemical and electronmicroscopical studies on the induction of crystals of alcohol dehydrogenase (ADH) *[Saccharomyces* **carlsbergensis].** 121389
Performance of pigs fed different levels of Saccharomyces yeast *[Saccharomyces* **cerevisiae]** substituting fish meal in molasses diets. 118046
Naturally occurring cross-links in yeast *[Saccharomyces* **cerevisiae]** chromosomal DNA. 120449
Killer of *Saccharomyces* **cerevisiae:** a double-stranded ribonucleic acid plasmid [Yeasts, genetics]. 120585
Isolation and purificaton of the sexual agglutination substance of mating type a cells in *Saccharomyces* **cerevisiae** [Yeast]. 120587
Controlling protein evolution *[Saccharomyces* **cerevisiae,** yeasts, mutation]. 120627
Genetic analysis of flocculation in *Saccharomyces* **cerevisiae** and tetrad analysis of commercial brewing and baking yeasts. 120724
Mutants of *Saccharomyces* **cerevisiae** utilizing hydrocarbons [Yeast]. 120727
Organelle genetics in *Saccharomyces* **cerevisiae** [Yeast]. 120728
The regulation of enzyme synthesis in arginine metabolism of *Saccharomyces* **cerevisiae** [yeast, genetics]. 120733
Chromosomal genes essential for replication of a double-stranded RNA plasmid of *Saccharomyces* **cerevisiae:** the killer character of yeast. 120773
Nonsense suppressors of *Saccharomyces* **cerevisiae** can be generated by mutation of the tyrosine tRNA anticodon. 120785
Assay of phosphoenolpyruvate carboxykinase in crude yeast extracts *[Saccharomyces* **cerevisiae].** 120883
Asymmetric distribution of concanavalin A binding sites on yeast plasmalemma and vacuolar membrane *[Saccharomyces* **cerevisiae].** 120906
Inactivation by glucose of phosphoenolpyruvate carboxykinase from *Saccharomyces* **cerevisiae** [Yeasts]. 120910
Localization of mannan at the surface of yeast protoplasts by scanning electron microscopy *[Saccharomyces* **cerevisiae,** candida utilis]. 120912
Discrimination between cholesterol and ergosterol by yeast membranes *[Saccharomyces* **cerevisiae].** 120922
The formation of exchangeable sulphite from adenosine 3'-phosphate 5'-sulphatophosphate in yeast *[Saccharomyces* **cerevisiae].** 120926
Hydrolytic action of aminoacyl-tRNA synthetases from baker's yeast *[Saccharomyces* **cerevisiae]:** "chemical proofreading" preventing acylation of tRNA Ile with misactivated valine. 120927
Exchange of phospholipids between mitochondria and microsomes in vitro stimulated by yeast cell cytosol *[Saccharomyces* **cerevisiae].** 120929
Isolation and characterization of the liponucleotides of *Saccharomyces* **cerevisiae** [Yeasts]. 120930
The isolation and properties of a DNA-directed RNA polymerase from yeast mitochondria *[Saccharomyces* **cerevisiae].** 120936
Permeability of the inner membrane of yeast mitochondria: relationship between structure and activity *[Saccharomyces* **cerevisiae].** 120938
Quantitative of unsaturated fatty acids in microbial mutants. VI. Selective growth responses of yeast and bacteria to cis-octadecenoate isomers *[Saccharomyces* **cerevisiae,** Escherichia coli]. 120978
The role of cell proteinases in the biogenesis of mitochondria [in yeast, *Saccharomyces* **cerevisiae].** 121039
Affinity labelling of tRNA nucleotidyltransferase from Baker's yeast *[Saccharomyces* **cerevisiae]** with tRNAPhe modified on the 3'-terminus. 121045
Formation of dolichol monophosphate 2-deoxy-D-glucose and its interference with the glycosylation of mannoproteins in yeast *[Saccharomyces* **cerevisiae].** 121046
Role of transfer ribonucleic acids in the regulation of several biosyntheses in *Saccharomyces* **cerevisiae** [Yeasts]. 121048
Inhibition of Neurospora crassa [Fungi] and yeast *[Saccharomyces* **cerevisiae]** mitochondrial protein synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Yeast *[Saccharomyces* **cerevisiae]** chromatin structure. 121055
Loss of inducible D-galactose transport by baker's yeast *[Saccharomyces* **cerevisiae]** after osmotic treatment. 121065
Replication initiation in yeast *[Saccharomyces* **cerevisiae]** chromosomes. 121114
The molecular biology of yeast *[Saccharomyces* **cerevisiae]** killer factor. 121145
Delayed plating recovery in diploid yeast *[Saccharomyces* **cerevisiae]** of different sensitivities after X-ray and alphaparticle exposure. 121147
Dependence of radiation response of diploid yeast *[Saccharomyces* **cerevisiae]** upon growth phase and LET [Lineal energy transfer]. 121148
Dielectric properties of yeast cells *[Saccharomyces* **cerevisiae].** 121191
A simple method for the isolation and characterization of tyhymidylate uptaking mutants in *Saccharomyces* **cerevisiae** [Yeasts]. 121281
Characterization of yeast *[Saccharomyces* **cerevisiae]** ribosomal DNA fragments generated by EcoR1 restriction endonuclease. 121282
Near ultraviolet light inactivation of an energy-independent membrane transport system in *Saccharomyces* **cerevisiae** [Yeasts]. 121313
Binding proteins and transport in *Saccharomyces* **cerevisiae** [Yeasts]. 121381
Protein and other compositional analyses of *Saccharomyces* **fragilis** [yeasts] grown on coconut water waste. 116773
Ultrastructure of microbodies of methanol-assimilating yeasts [Candida, *Saccharomyces,* **Torulopsis].** 120486
Composition and nutritional effectiveness of membranes of bakers' **yeast** *(Saccharomyces* cerevisiae) [Rats]. 116306
Microecological studies on lactic acid bacterial flora of molasses distilleries. III. Cultivation of the brewers' **yeast** *Saccharomyces* cerevisiae race M with some isolated lactic acid bacteria from molasses distilleries in continuous mixed cultures. 116664
Performance of pigs fed different levels of *Saccharomyces* **yeast** [Saccharomyces cerevisiae] substituting fish meal in molasses diets. 118046
Saccharomyces **yeast** as a by-product from alcohol production on final molasses in diets for broilers. 118048
Circular DNA in the **yeast** *Saccharomyces* cerevisiae in relation to informosomal DNA and mitochondrial genetics. 120753
Alterations of the heterogeneity of mitochondria in the aerobic growth of the **yeast** *Saccharomyces* cerevisiae. 121095

SACCHAROSE *see* SUCROSE

SACCHARUM

Sugar maple **[Acer** *saccharum]:* tree and bole weights, volumes, centers of gravity, and logging residue. 119835
Root growth in **Acer** *saccharum* Marsh. Seedlings: effects of light intensity and photoperiod on root elongation rates. 121801
Decay risk for sugar maple borer [Glycobius speciosus] scars **[Acer** *saccharum].* 123477
Sugarcanes: *Saccharum* **(Gramineae-Andropogoneae).** 121964

SACKS *see* BAGGING

SACS

Air *sac* and renal mucormycosis in an African gray parrot (Psittacus erithacus) [Causal fungus, Absidia corymbifera]. 118621
The administration of oxytetracycline [antibiotics] into chick **yolk** *sacs.* 118772

SAFETY

Educate for **[farm]** *safety.* 124636
Federation *safety* survey shows worsening trend. 125410
Forest **fire** *safety.* 119318
Types of insecticides how to use them, *safety* & **first** aid. 123736
Keeping **food** *safe* to eat: a guide for homemakers [Contamination]. 116068
Food *safety*—then and now [History, food adulteration]. 116181
Results of research on *labour-safety* at the **Godollo** University of Agricultural Sciences. 124668
Safety in **handling** pesticides. 116242
WPFC's [Water Pollution Control Federation] efforts to learn about and **improve** *safety.* 125437
Queen wrapper of waxed paper for *safe* **introduction** [Apis mellifera]. 124579
Protocols for the dominant lethal test, host-mediated assay, and in vivo cytogenetic test used in the Food and Drug administration's review of substances in the GRAS (generally recognized as *safe)* **list.** 116213
Wires: agricultural pilot's number one **nemesis** *[Safety].* 124747
OSHA **[Occupational** *Safety* and Health Act] and the cotton industry. 115828

Status report: OSHA [**Occupational** *Safety* and Health act] in cotton ginning operations. 115829
Safety **programs** in wastewater operations. 125435
Screening of some **relatively** *safe* insecticides for impregnation of gunny bags against stored-grain pests. 123512
10 years of using the roll bar [on **tractors,** *safety].* 124632
Safe **vaccine** for pregnant cows [Bovine viral diarrhea]. 118591

SAFFLOWER
Agricultural applications of remote sensing—a true life adventure [Cotton, *safflower,* and **alfalfa].** 115373
Safflower: **Carthamus** tinctorius (Compositae). 121958
Effect of dietary fat on hepatic metabolism of 14C [carbon isotope]-oleic acid and very low density lipoprotein triglyceride in the gerbil [Coconut or *safflower* **oil].** 116425
Effects of planting pattern and sowing method on the seed yield of *safflower,* **oilseed** rape, and lupin. 122048
Induced genetic **sterility** in *safflower.* 120760
Effects of a good pollination [Rape, *safflower,* **sunflowers].** 121556

SAGITTAL
Sagittal **fracture** of the third carpal bone in a horse. 119253

SAGITTARIA
The effects of cycloheximide on the uptake and translocation of amino acids in leaves of *Sagittaria* **graminea** Michx. 120849

SAHIWAL
The performance of Santa Gertrudis, *Sahiwal,* **Brahman** and crossbred animals in the intermediate savannahs of Guyana. 2. Birth weight and preweaning performance [Cattle]. 117760
Breeding efficiency and its relationship with other traits in *Sahiwal* and its **Brown** Swiss crossbreds. 118324
A note on variation of skin-fold thickness of Brown Swiss X *Sahiwal/Red* **Sindhi** (Karan Swiss) calves. 117744

SAINFOIN
Pathogenicity of Fusarium solani on *sainfoin* **(Onobrychis** viciifolia) [Root and crown rot]. 122754

SAINTPAULIA
Propagation and culture of African **violets** *[Saintpaulia].* 122242
My no-care system for African **violets** *[Saintpaulia].* 122431

SALAMI
Is there a danger of mycotoxins in **Hungarian** *salami?* II. The importance of the casing and of smoke treatment. 116120
Is there a danger of mycotoxins in **Hungarian** *salami?* I. The influence of substrate, aw-value and temperature on toxin production in mixed cultures. 116121

SALAR
An outbreak of lipoid liver degeneration (LLD) in Atlantic salmon **[Salmo** *salar]* in a fish farm and attempts to cure the disease. 119272

SALICYLALDEHYDE
Organization of membrane proteins in the intact myelin sheath. Pyridoxal phosphate and *salicylaldehyde* as **probes** of myelin structure [Cats]. 117788

SALINITY
Sodium **carbonate** *salinization* of soils and underground waters. 124797
Irrigation management of young pecan [Carya illinoensis] orchards for best growth under *saline* **conditions** [Injuries]. 123027
Surface modifications for water management and *salinity* **control** in a nonirrigated area. 125356
Economic effectiveness of capital investments in **draining** *saline* lands (1971-1973). 115506
Eolian *salinization* of soils. 124794
Germination ecology of Althenia filiformis Petit in relation to habitat temperature and *salinity* **fluctuations** during summer and autumn. 121072
Determination of initial parameters for calculating the forecast of [soil] *salinization* in the **Ingulets** and Spask irrigation systems. 125218
The **largest** *saline-laky* area of Transdanubia became a natural preserve [Hungary]. 125402
Giant cell pneumonia associated with lungworm [Metastrongylus apri, **Metastrongylus** *saline]* infection in pigs. 118731
Effect of *salinity* on **photosynthesis** and mannitol synthesis in the green flagellate Platymonas suecica [Algae]. 120980
On probability of drought and of **secondary** *salinization* of soils of the world. 124780
Growth responses to *salinity* **variation** in four arctic ice diatoms [Algae]. 121206
Importance of application of potassium fertilizers for saltsensitive cultivated plants irrigated with *saline* **water** [Wheat]. 125085

SALIVARY
Intracellular calcium reservoirs in **Calliphora** *salivary* glands. 123924
Changes in **canine** *saliva* ion concentration induced by increased intraluminal pressure. 117533
Possible role in uptake of water vapour by ixodid tick [Amblyomma americanum] *salivary* **glands.** 124049
The in vitro induction of puffing in *salivary* **glands** of the mutant l (2)gl of Drosophila melanogaster by ecdysone. 124173
Acid phosphatase and peroxidase in 'resting' acinar cells of the **major** *salivary* glands of cats and their possible movement into secretory granules. 117703
Salivation as a **measure** of appetite: studies of the anorectic effects of calories and amphetamine. 116373
Changes in **parotid** *salivary* flow during intracarotid infusion of potassium chloride into conscious sheep. 117822

SALIX
Streambank stabilization with willows *[Salix,* **erosion** control]. 125090
Evaluation of the growth of shrub willows *[Salix]* from the **point** of view of the suitability for the biological stabilization of stream banks. 119372

SALMON
An outbreak of lipoid liver degeneration (LLD) in **Atlantic** *salmon* [Salmo salar] in a fish farm and attempts to cure the disease. 119272

SALMONELLA
On some properties of the cytophil antibodies against the O-antigen of *Salmonella* **abortusovis** [Guinea pigs]. 118989
Biochemical identification of *Salmonellae* and **coli** bacteria and their sensitivity to chemotherapeutics [Livestock, poultry]. 118974
The behaviour of *salmonellae* during the **curing** and drying of air-dried beef. 116138
Enrichment and plating methodology for *Salmonella* **detection** in food. A review. 116198
Examination of poultry litter for *Salmonellae* by **direct** culture and fluorescent antibody technique. 118630
Limited occurrence of salmonellosis in a large city *[Salmonella* **enteriditis,** meat contamination]. 116223
Sulfite compounds as neutralizers of spice toxicity for *Salmonella* **[Food** contamination]. 116207
Use of indirect haemagglutination and agglutination tests for the diagnosis of poultry salmonellosis *[Salmonella* **gallinarum,** chicks]. 118936
Use of Felix—0-1 phage for **identification** of *Salmonella.* 118741
Limited occurrence of *salmonellosis* in a **large** city [Salmonella enteriditis, meat contamination]. 116223
A three-year study of the incidence of *Salmonella* in **poultry** farms around Teheran. 118915
Use of indirect haemagglutination and agglutination tests for the diagnosis of **poultry** *salmonellosis* [Salmonella gallinarum, chicks]. 118936
Early post-embryonic changes in protein metabolism and DNA synthesis in the thymus of chicks, normal and infected with *Salmonella* **pullorum;** autoradiographic study. 118928
The influence of *Salmonella* **resistance** in chicks during the early stage of ontogenesis. 118934
Secondary *salmonellosis* in swine. 118869
Testing effectivity of *Salmonella* **typhi** vaccine in animal experimentation. 118878
Rodent vectors of *Salmonella* **[typhimurium,** sheep]. 119011
Age-dependent resistance of chickens to *Salmonella* in **vitro:** phagocytic and bactericidal activities of splenic phagocytes. 118596
The spread of *salmonellae* by **waste** waters and waste products. 116144

SALMONIDAE
An outbreak of lipoid liver degeneration (LLD) in Atlantic salmon *[Salmo* **salar]** in a fish farm and attempts to cure the disease. 119272
Free fatty acids and the onset of rancidity in rainbow **trout** *(Salmo* gairdneri) flesh. Effect of phospholipase A. 116195
Effects of chronic DDT/DDE exposure on anesthetic induction and recovery times in rainbow **trout** *(Salmo* gairdneri). 123730

SALTATORIA
Comparative investigations of the ability of Tettogoniidae (Orthoptera: *Saltatoria)* to **accumulate** temperatures during embryonic development. 124178
Comparative investigations about number and durations of the larval instars of Tettigoniidae (Orthoptera: *Saltatoria).* 1. 124177

SALTS
Accelerated *salt* transport method for managing groundwater quality. 125362
Effect of mechanical cooling devices on [airborne] **ambient** *salt* concentration. 125415
Comparison of the binding of various bile acids and **bile** *salts* in vitro by several types of [dietary] fiber [on lipid metabolism]. 116422
Plasma-membrane components can be removed from isolated [pig] lymphocytes by the **bile** *salts* glycocholate and taurocholate without cell lysis. 117583
Evaluation of Gelbwurst and Bratwurst made with **curing** *salt* in relation to the food regulations [Sausages]. 116113
A simple method of checking the nitrite content of nitrite **curing** *salt* [Meat]. 116969
The rationale for attempting to **define** *salt* marsh mosquito [Aedes sollicitans]-breeding areas in Galveston County by remote sensing the associated vegetation [Distichlis spicata]. 123634
Water quality and plant growth [Injuries due to contamination with pesticides and **excess** *salts].* 122922
Amic acids and **half** *salts* of dicarboxylic acids as coreactant catalysts for creasable durable-press fabrics. 116835
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On *salt* **injury** of vegetable crops. 3. Effect of the concentration of nutrient solutions on the trace element nutrition of tomato and cucumber. 122981
Inorganic *salts* & differentiation of protocorms in seed callus of an orchid & correlated changes in its free amino acid content [Dendrobium fimbriatum]. 121691
Fortification of *salt* with **iron** [Anemia]. 116281
Buergenerula spartinae sp. Nov., an ascomycete from *salt* **marsh** cordgrass, Spartina alterniflora [New taxa]. 119999
Ecological studies of the *salt* **marsh** ecad Scorpioides (Hornemann) Hauck of Ascophyllum nodosum (L.) Le Jolis. 120375
Salt **marsh** vegetation: latitudinal gradients in the zonation patterns. 120388
Long-term effects of manipulating light intensity and nutrient enrichment on the structure of a *salt* **marsh** diatom community [Algae]. 121208
Dynamics of environment and algal vegetation in *salt* **marshes** in the southwestern Netherlands. 120305
Growth, abundance and distribution of larval tabanids in experimentally fertilized plots on a **Massachusetts** *salt* marsh [Tabanus nigrovittatus]. 124016
Studies in swelling of cotton. I. **Neutral** *salt* technique to determine the true swelling parameters in cadoxen. 117130
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of *salt-soluble* **proteins** from seeds of some varieties of lentils. 117320
Methods of the analysis of the effect of the application of *salts* in the **rectification** of raw corn brandy. 117135
Forecast of the *salt* **regime** of irrigated lands on the experimental **area** "Shalfingi" in the Crimean Region (1973). 125226
Salt **resistance** in plants [Halophytes]. 120955
The poplar [Populus]: A tree very sensitive to the presence of *salts* [in the **soil].** 121807
Effects of *salt* **solution** treatment and low temperature storage on the elongation, weight, fiber and lignin contents of post-harvested green asparagus spears. 117285
Salt **stimulated** respiration of Chlorella fusca [Algae]. 121390
A process of raising the **table** *salt* content in Emmental cheese. 116858
Table *salt* concentration in Emmental cheese. 116870
Salt **tolerance** of cotton [Damage]. 123028
Improvement of alkali-rich salty soil by using *salt* **water.** 125109
Salt **water** domestic waste treatment. 125517

SALVIA
Content of royleanones in plants of some species of *Salvia* L. 120962

SAMBUCUS
Sambucus **nigra,** is it a feed? [Juices, amino acid content]. 117321

SAMPLING
Methods of *sampling* **aquatic** beetles in the transitional habitats at water margins. 123918
Permanent control of the quality of granular and powdery products by **automatic** *sampling* [Milling products]. 116063
Materials on the methodology of **blood** *sampling* for serologic studies of natural-focal diseases. 118875
Contribution to the investigation of **citrus** *sampling.* II. Problem of the stratification of a mandarin orange. 122301
Playing with probabilities: one key to meeting information objectives [Foresters, inventory design and *sampling* **design].** 119477
Effect of *sampling* **errors** on efficiency of selection indices. 2. Use of information on associated traits for improvement of a single important trait [Animal breeding]. 118208
Forest **inventory** *sampling* designs used in countries other than the United States and Canada. 119468
Automatic control of **isokinetic** *sampling* for exhaust emission determinations [Cotton gins, air pollution]. 125569
Geochemical survey of Missouri—methods of *sampling,* **laboratory** analysis, and statistical reduction of data. 124888
Vertical **line** *sampling* for regeneration surveys [Forest inventory]. 119488
Line *sampling* for forest inventory. 119542
Selection probabilities in **multi-parameter** *sampling* [Forest]. 119479
The integration of manual and automatic image analysis techniques with supporting ground data in a **multistage** *sampling* framework for timber resource inventories: three examples [Remote sensing]. 119499
Gun biopsy—a new approach to **muscle** *sampling* [from living animals]. 118506

Proper procedures for soil, leaf and **nematode** *sampling*. 122920
Sampling **procedures** for feedstuffs. 117383
Planning of **random** *sampling* in metabolic control of dairy cattle herds. 119169
3-P *sampling* in the **South** [Forest inventory]. 119491
Inspection and *sampling* of **stored** grains [Insect and rodent contamination]. 116054
Development of *sampling* **technique** for estimating population of Tetranychus neocaledonicus Andre, infesting brinjal [eggplants]. 123360
[Forest] inventory remeasurement with **two-stage** 3P *sampling*. 119489
Sampling the **unsaturated** zone of irrigated lands for reliable estimates of nitrate concentrations [Soil variability]. 124876

SAND
Experimental results obtained in soybeans cultivated on *sandy* and **black** earth soils in the district of Dolj. 122066
Energy utilizaton by broiler breeders through addition of *sand* to the **diet.** 118129
Studies on the utility of selected species of trees and shrubs for the recultivation of *sand* **escarpments** in Szczakowa. 122188
Nitrate loss in a ponded **Hanford** *sandy* loam: enhancement by plant roots [Barley]. 124871
Nitrate reduction and nitrite utilization by nitrifiers in an unsaturated **Hanford** *sandy* loam. 124872
Waste injection into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a *sand-packed* **hydraulic** model. 125568
Modeling of soil formation on various tills **[Moraines** and *sands].* 124902
Agrochemical properties of **nepheline** *sands* in relation to their stabilization by vegetation. 124753
Influence of substrate moisture level on the germination of sweetgum and *sand* **pine** seed [Liquidambar styraciflua, Pinus clausa]. 121830
Effect of peat on the agrochemical properties of **Sod-Podzolic** *loamy-sandy* soil and the productivity of crop rotation. 124935
Evaluation of preemergence herbicides for sorghum grown on *sandy* **soil.** 123177
Windbreak removal [on *sandy* **soils].** 119401
Soil preparation and plant development on *sandy* **soils** in Jutland [Picea abies, Larix leptolepis, Abies alba]. 119572
Effect of magnesium on the consumption of nutrients by potatoes on *sandy* **soils** of the Bryansk part of Poles'ye. 121587
New **Zealand** *peat-sand* mixes, including the use of zinc. 124968

SANDSTONE
The stratified structure of forest soils in the **variegated** *sandstone* area of East Thuringia. 124916

SANGUINARINE
Removal of *sanguinarine* from **edible** oils contaminated with argemone oil [Argemone mexicana]. 116169

SANITATION
Sanitary **control** in the trade of eggs and egg products. 116048
Hot spray jet, cleansing devices and detergents [in **food** *sanitation].* 116090
Cleaning and disinfection in the food **industry** *[Sanitation].* 116053
Effectiveness of *sanitary* **measures** in the prophylaxis of mastitis in cows. 119023
Inspection of milking machines and equipment and the *sanitation* **problem** of the udder [Dairy cows]. 118548
Observations on *[sanitary]* **problems** associated with transport of horses from overseas. 118438
Sanitation **service** of the [dairy cow] udder in Bavaria. 118549
Sanitary-epidemiological **station** as a training centre of nutition hygiene. 116567
Uan'e reaction in cows immunized with the STI *[Sanitary* **Technical** Institute] vaccine [Anthrax]. 119036

SANNINOIDEA
Electrocutor grid traps vs. Sticky traps for capturing [the lesser peachtree borer] Synanthedon pictipes and *Sanninoidea* **exitiosa.** 123414

SANTALUM
Distribution of bound hydroxyproline & cell-wall associated homospermidine in the leaves of sandal, *Santalum* **album** L. 121129

SAP
Twilight pests in imported feed raw material. The copra beetle (Necrobia rufipes Degeer), the *sap* **beetle** (Carpophilus spp.) and the Siamese flat beetle (Lophocateres pusillusKlug). 123582

SAPERDA
Hypoxylon [mammatum] canker of aspen [Populus tremuloides] associated with *Saperda* **inornata** galls. 122793

SAPINDACEAE
A general survey of pollen types in *Sapindaceae* in **relation** to taxonomy. 120174

SAPINDUS
Effects of propagation container size on development of high quality seedlings [Pinus thunbergiana, *Sapindus* **drummondii,** Pistacia chinensis]. 122221

SAPODILLA
Studies on ripening and refrigerated storage of the *sapodilla* **(Achras** sapota L.). 117244

SAPOGENINS
Steroidal *sapogenins* from Trigonella occulta. 121260

SAPONIFICATION
Investigation on the lipids of Virola surinamensis. I. Acid and glyceride composition and chemical nature of some components of the *unsaponifiable* **part.** 121346

SAPONINS
Effect of 1,4-naphthoquinones and *saponins* on the **activity** of polyphenoloxidase (in vitro) [isolated from potato skin]. 121060

SAPOTA *see* **ACHRAS**

SAPROLEGNIA
Quantitative microanalysis of cell walls of *Saprolegnia* **diclina** Humphrey and Tremella mesenterica Fries [Fungi, chemistry]. 120935
Physiological studies on [the ecological importance of fungi in] an isolate of *Saprolegnia* **ferax** from the larval gut of the blackfly Simulium vittatum. 120381

SAPROLEGNIACEAE
Comparative study of hyphal wall components of oomycetes [Fungi]: *Saprolegniaceae* and **Pythiaceae.** 120868

SARCOCYSTIS
Comparative electron microscopic study of the cysts of *Sarcocystis* **fusiformis** (Railliet 1897) in the muscle fibers of naturally infected cattle and after experimental infections of calves by sporocysts of Isospora hominis and the large forms of Isospora bigemina from cat and dog. 118894
Development of *Sarcocystis* **hirsuta** (=Sarcocystis fusiformis) in tissue culture [of chick fibroblasts] after inoculation with sporozoites [obtained from dog intestine]. 118927

SARCOMA
Suppression of glycoprotein formation of Semliki forest, influenza, and **avian** *sarcoma* virus by tunicamycin. 118809
The defective maturation of viral progeny with a temperature-sensitive mutant of **avian** *sarcoma* virus [Chick embryos]. 119041
Cell-free translation of virion RNA from nondefective transformation-defective **Rous** *sarcoma* viruses. 118800

SARCOPHAGA
The initiation of adult development in *Sarcophaga* **argyrostoma** by beta-ecdysone. 124054
The circadian eclosion rhythm in *Sarcophaga* **artyrostoma:** some comparisons with the photoperiodic "clock". 124031
The isolation of cholinergic nerve terminals from fleshfly heads *[Sarcophaga* **barbata].** 123990
Acidic composition of oil estracted from Musca *[Sarcophaga]* **carnaria** larva. 124148

SARCOPHAGIDAE
Autogeny and endocrine involvement in the reproduction of tropical flesh flies **(Diptera:** *Sarcophagidae).* 123885
Description of a new species of Phylloteles [socialis] (Diptera: *Sarcophagidae,* **Miltogramminae)** from southern Africa. 124474

SARCOPLASMIC
Binding of nucleotides ATP [adenosine triphosphate] and aDP [adenosine diphosphate] to *sarcoplasmic* **reticulum:** study by rate of dialysis [Rabbit skeletal muscles]. 117599
Calcium regulation in heart cells. The interaction of mitochondrial and *sarcoplasmic* **reticulum** with troponin-bound calcium [Dogs]. 117659
In vitro studies of mitochondrial and *sarcoplasmic* **reticulum** function in muscle of stress susceptible pigs. 117770

SARCOPSYLLIDAE
Anatomical location of *Dermatophilus* **congolensis** in bovine cutaneous streptothricosis. 118698
Bovine streptothricosis in Nigeria [caused by *Dermatophilus* **congolensis].** 118699
Comparison of antigens of *Dermatophilus* **congolensis** isolates and their use in serological tests in experimental and natural infections [Fungal pathogen of livestock]. 118700
Cutaneous streptothricosis in Sudanese cattle [caused by *Dermatophilus* **congolensis].** 118701
Dermatophilosis in tropical South America *[Dermatophilus* **congolensis,** livestock]. 118703
Dermatophilus **[congolensis]** infection in cattle, goats and sheep in East Africa. 118704
Dermatophilus **[congolensis]** infection [of sheep] in the United Kingdom. 118705
Dermatophilus **[congolensis]** infection [of livestock] in the subtropical zone of South America. 118706
Dermatophilus **[congolensis]** infections [of livestock] in the United States. 118707
Double infection of sheep and goats in Kenya with orf virus and *Dermatophilus* **[congolensis].** 118708
Epizootiology of *Dermatophilus* **[congolensis]** infection in cattle in the Accra Plains of Ghana. 118710
Immunological studies of antigenic components of *Dermatophilus* **congolensis** [Fungal pathogen of animals]. 118712
Some observations on *Dermatophilus* **[congolensis]** infection in The Gambia with particular reference to the disease in sheep. 118713
The economic effects of bovine streptothricosis *[Dermatophilus* **congolensis].** 118714
The probable relationship of rainfall to *Dermatophilus* **congolensis** infection in sheep. 118715
The skin surface: an environment of *Dermatophilus* **congolensis** [Fungal pathogen of mammals]. 118716
The treatment of infection by *Dermatophilus* **congolensis** with particular reference to the disease in cattle. 118717
Vaccination trials against bovine dermatophilosis in southern Chad *[Dermatophilus* **congolensis].** 118718
Histopathological changes in natural and **experimental** *Dermatophilus* congolensis infection of the bovine skin. 118711

SARCOPTIDAE
Further observations relating to Trixacarus (Caviacoptes) caviae Fain, Hovell and Hyatt, 1972 in guinea pigs **(Acarina:** *Sarcoptidae).* 123592
Treatment of mange in pashmina bearingk goats: a **note** *[Sarcoptes].* 123635

SARCOSCYPHACEAE
Pezizales of Israel. V. Ascobolaceae and *Sarcoscyphaceae* **[Fungi,** new taxa]. 120092

SASANQUA
Sasanqua—the **step-child** Camellia [Varieties]. 122442

SATURATION
Effect of honey **bee** *saturation* on the pollination of Chinese gooseberries variety 'Hayward'. 121738
Non-enzymic transamination of *unsaturated* **carbonyls:** a general source of nitrogenous flavor compounds in foods. 116634
Lipid peroxidation and atherosclerosis *[Unsaturated* **fatty** acids]. 116314
Quantitative of *unsaturated* **fatty** acids in microbial mutants. VI. Selective growth responses of yeast and bacteria to cis-octadecenoate isomers [Saccharomyces cerevisiae, Escherichia coli]. 120978
Nitrate reduction and nitrite utilization by nitrifiers in an *unsaturated* **Hanford** sandy loam. 124872
Identification of *unsaturated* **lactones** from the fruit of cowparsnip, Heracleum sosnowkyi. 121061
Chromatographic determination of cis-trans **monoethylenic** *unsaturation* in fats and oils—a review. 116778
Analytical solutions of a simplified flow equation [of water in *unsaturated* **soils].** 124913
Sampling the *unsaturated* **zone** of irrigated lands for reliable estimates of nitrate concentrations [Soil variability]. 124876

SATURNIIDAE
Wing color [seasonal] variation in **Callosamia** *(Saturniidae).* 124067
Emergence of Hyalophora **cecropia** *(Saturniidae)* blocked by seeds in the cocoon valve. 124060
Portable outdoor cages for mating female giant silkworm **moths** *(Saturniidae).* 124066
Collecting cocoons of Callosamia **securifera** *(Saturniidae)* [Hostplant sweetbay, Magnolia virginiana]. 124059
Observations of Eupackardia calleta in southern **Texas** *(Saturniidae).* 124322
Description of **unpublished** *Attacidae* from Latin America (Lepidoptera) [New taxa]. 124331

SATYRIDAE
Contribution of French Lepidoptera to the mapping of European invertebrates. IV. Request for **information** on *Satyridae.* 124205
Contribution to the study of the genus Arethusana de Lesse **(Lepidoptera,** *Satyridae).* 124206
A new Mycalesis [treadawayi] species from Mindanao, Philippine Islands **(Lepidoptera,** *Satyridae).* 124283
Historical retrospect of the taxonomical status of Erebia euryale adyte Hubner **(Lepidoptera,** *Satyridae).* 124292

SAUCES
Production-line for fish products with **edible** *sauces.* 116789
Do the "Guidelines for meat dishes in *sauce"* **represent** good commercial practice as far as the meat content of Konigsberger Klops is concerned? 116978
Precipitation of protein in the presence of melanoidin [Pigment in **soy** *sauce].* 117059

SAUSAGE
Meat and *sausage* with **best** reputation [Marketing]. 115703
Technology of **canning** *sausages.* 116997

Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat **cooked** *sausages;* small sausages fresh from smoke. 116958
Evaluating **dry** *sausage* by its aw-value from the point of view of the food regulations. 116112
Nitrosamines in meat products: test on firm **dry** *sausages* made with various additives. 116989
The use of starter cultures in **dry** *sausages.* 117001
The occurrence of Bacillus cereus in Finnish dog **food** *sausages;* a microbiological and physicochemical survey. 119274
Computer-assisted optimization of *sausage* **formulas.** 116942
Rational manufacture liver sausage and **frankfurter** *sausage* types in lacquer-sealed fibre casings. 116994
"By products for the **frankfurter-type** *sausage*"? Reply to the article "By-products for the frankfurter-type sausage" published in the magazine Frankfurter Allgemeine Zeitung of March 13th, 1976. 116974
Manufacturing **frankfurter-type** *sausages* in peelable casings. 116983
Product quality in the self-service supply of **fresh** *sausage.* 115704
Refrigerated transportation of fresh meat and *sausage* **[Legislation,** hygiene]. 115626
Differentiation and species distribution of microorganisms of the genus Bacillus found in frankfurter and **liver** *sausages.* 116111
Evaluation of the lipolytic and proteolytic effects of strains of the genus Bacillus [obtained from frankfurter and **liver** *sausages]* under laboratory conditions. 116114
Rational manufacture **liver** *sausage* and frankfurter sausage types in lacquer-sealed fibre casings. 116994
Standardization, a slogan or a cogent necessity [for *sausage* **manufacture]?** [Legislation]. 116104
Mixing methods for *sausage* **meat** standardization. 116101
Carcinogenic polycyclic aromatic hydrocarbons in Norwegian smoked **meat** *sausages.* 116176
Shelf-life of **prepacked** *sausage* products. 116995
Influence of fat on the thermal destruction of bacteria in *sausage* **products.** 116118
Raw *sausage* for spreading-recipes, technology and experience [Ingredients and manufacture]. 116952
Practical standardization of *sausage* **recipes.** 116103
Evaluation of Gelbwurst and Bratwurst made with curing salt in relation to the food **regulations** *[Sausages].* 116113
Properties of artificial casings [for foods and *sausages].* 1. 116726
Manufacture of **scalded** *sausage* in the meat trade. 5. Use of foreign proteins and preparation of fat emulsions. 116948
Scalded *sausage* manufacture in the meat trade. 6. Scalded sausage with coarse fillers, crackling processing with and without extraneous protein, and frozen meat processing. 116954
Scalded *sausage* manufacture in the meat trade. 7. Color formation and preservation, influence of the muscle coloring matter present, and color stabilization by means of blood additives. 116955
Scalded *sausage* manufacture in the meat trade. 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Scalded *sausage* manufacture in the meat trade. 10. Effect of exposure to light; cutting, filling, hot smoking and scalding. 116957
Scalded *sausage* manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; small sausages fresh from smoke. 116958
Scalded *sausage* manufacture in the meat trade. 12. Smoking of small sausages. 116959
Spices and supplements for **scalded** *sausage* manufacture. 2. 116961
Use of artificial skins for the rational manufacture of **scalded** *sausages.* 2. 116964
Use of smoke and heat during **scalded** *sausage* manufacture with regard to technologies sparing the environment [Air pollution]. 116965
Methods and basic principles of reddening, drying, smoking and **scalding** *sausages.* 116987
Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; **small** *sausages* fresh from smoke. 116958
Scalded sausage manufacture in the meat trade. 12. Smoking of **small** *sausages.* 116959
Using edible protein casings for *sausages* in **vacuum-packed,** air-tight containers. 117002
A further contribution on the proportion of tongue in **Zungenwurst** *[Sausages].* 116967

SAVANNAH

Ecology of the **African** *savanna* [Forest fires and grazing injuries]. 119301
Contribution to the knowledge of scrubland structure *[Savanna,* **Brazil].** 120325
The performance of Santa Gertrudis, Sahiwal, Brahman and crossbred animals in the **intermediate** *savannahs* of Guyana. 2. Birth weight and preweaning performance [Cattle]. 117760
Agricultural importance of the supply of potassium from the atmosphere on soils in the *savannah* **zone.** 124763

SAWFLIES

Notes on the *sawfly* **fauna** of Nagykovacsi (Hymenoptera: Symphyta) II. [Hungary]. 124445
Notes on the *sawfly* **fauna** of Nagykovacsi (Hungary). III-IV (Hymenoptera: Symphyta). 124446
The dynamics of **larch** *sawfly* (Hymenoptera: Tenthredinidae) populations in southeastern Manitoba [Larix laricina, pests]. 123454

SAWMILL

Training, utilisation, development, and **balance** [of *sawmills].* 119704
Canadian *sawmill* equipment to increase accuracy. 119687
Hardwood *sawmills:* considerations in their planning and design. 119646
Training programs for *[sawmill]* **management** and operating personnel. 119703
Portable *sawmills* for heavy, hard-to-reach logs. I. 119695
Portable *sawmills* for heavy, hard-to-reach logs. II. 119696
Sawdust [and other **wood-processing** residues] as a container growing medium. 124969

SAXIFRAGACEAE

The stereostructure of the exine and its evolutionary significance in *Saxifragaceae* **sensu** lato. 120517

SCAB

Influence of spray adjuvants and multiple applications of benomyl and oil on photosynthesis of apples leaves [**Apple** *scab,* Venturia inaequalis]. 122620
Methods of testing the aggressiveness of different strains of a causal agent of **apple** *scab,* Venturia inaequalis (Cke.) Wint. 122654
Apple *scab* [Venturia inaequalis] predictive and monitoring systems. 122661
Benzimidazole tolerance in Venturia inaequalis **[apple** *scab]* in New Zealand. 122745
Effectiveness and limits of using microorganisms in plant protection as exemplified by the common **potato** *scab* [Streptomyces scabies]. 122693
Sugar factory waste lime and **potato** *scab* [Streptomyces scabies]. 122800

SCABIES

Effectiveness and limits of using microorganisms in plant protection as exemplified by the common potato scab [**Streptomyces** *scabies].* 122693
Sugar factory waste lime and potato scab [**Streptomyces** *scabies].* 122800

SCALD

Controlling apple **storage** *scald* [Physiological disorders]. 122926

SCALE

Large-scale **aerial** photography in forest inventories: designs and applications. 119471
Dipterological studies in Hungarian and **Afghan** *large-scale* cattle farms. 123663
Male inseminative potential in Aphytis lingnanensis (Hymenoptera: Aphelinidae) [Biological control agents of the **armored** *scale* insects Diaspididae]. 123230
Lorsban insecticide for **armored** *scale* control on Texas citrus [Aonidiella auranti, Parlatoria pergandii]. 123393
A cottony **cushion** *scale* [Pulvinaria elongata] of sugarcane newly introduced in Morocco (Homoptera, Coccoidea, Coccidae). 123351
Picturing the future forest from regeneration surveys. A research program and *scale* for **defining** adequate stocking. 119611
Artificial infection of *scale-insect* with **entomophagous** fungi Verticillium lecanii and Aspergillus candidus [Biological control of the citrus pest Coccus Hesperidum]. 123395
The susceptibility of different types of maize to post-harvest infestation by Sitophilus zeamais and Sitotroga cerealella, and the importance of this factor at the *small-scale* **farm** level. 123571
Scale **[insects]** control of citrus. 123431
Scale **insects** [Coccidae] again and again on house plants. 123435
Use of hypochlorine for disinfection in **large** *scale* swine rearing. 118574
Polyphenol content and polymerisation index of barleys and *small-scale* **malts.** 117081
Utilization of LANDSAT imagery for mapping vegetation on the **millionth** *scale.* 120369
Narcissi smoulder. Is there a link with *scale* **mites?** 123402
Large-scale **production** of the fungal pathogen Hirsutella thompsonii in submerged culture and its formulation for application in the field [to control the citrus rust mite, Phyllocoptruta oleivora]. 123399
Large-scale **rat** control. 123018
Productivity and economics of *scale* in **rice** production. 115548
Ten year results of *large-scale* **rice** variety trials 1964-1973. 121911
Citrus **waxy** *scale* [Gascardia]: further aspects of extermination using insecticides. 123384

SCANNING

Changes of cell structure of wheat and barley after granulation; investigations made with **electron** *scanning* microscopy. 117136
The early chick embryo in correlated SEM and TEM *[scanning* **electron** microscopy, transmission electron microscopy] studies. 117714
Development of the foramen secundum in the chick as observed by *scanning* **electron** microscopy. 117883
Scanning **electron** microscopy of elliptocytes in man and llama. 117885
SEM *[scanning* **electron** microscope] of the cecal morphology in the domestic chicken. 117887
SEM *[scanning* **electron** microscopy] of vesicular stomatitis virus infection in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Mating in Chlamydomonas eugametos [Algae]. A *scanning* **electron** microscopical study. 120412
Morphology of Cronartium fusiforme aeciospores: a light and *scanning* **electron** microscopic study. 120426
Surface characteristics of American elm [Ulmus americana] clones for identification by *scanning* **electron** microscopy. 120462
The application of *scanning* **electron** microscopy and X-ray microanalysis in the plant sciences: a bibliography. II. 120465
Concanavalin A and wheat germ agglutinin receptors on Dictyostelium discoideum [Fungi]: their visualization by *scanning* **electron** microscopy with microspheres. 120480
Plant tissue below the **electron** *scanning* microscope. 7. The roots. 120522
Scanning **electron** microscopy of Marsilea sperm [Pteridophyta]. 120549
Localization of mannan at the surface of yeast protoplasts by *scanning* **electron** microscopy [Saccharomyces cerevisiae, candida utilis]. 120912
Scanning **electron** microscopy of syncytial transfer cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
Grain beetles under the *scanning* **electron** microscope. 123515
Scanning **electron** microscopy and microdissection of single Drosophila [melanogaster] cells. 124128
Scanning **electron** microscopy of Blaberus giganteus (L.) maxillary palp sensilla. 124129
Ultrastructural studies of isolated polytene chromosomes by *scanning* **electron** microscopy [Chironomus stigmaterus]. 124133
Discovery of Nuttalliella namaqua Bedford (Acarina: Ixodoidea: Nuttalliellidae) in Tanzania and redescription of the female based on *scanning* **electron** microscopy. 124214
Scanning **microscope** pictures of moss capsules [Musci]. 120523
The relation between villus formation and the pattern of extracellular fibers as seen by *scanning* **microscopy** [Chick embryos]. 117650
Computer implemented classification of vegetation using aircraft acquired **multispectral** *scanner* data [Parks and forests]. 119496
Timber type separability in southeastern United States on LANDSAT-1 MSS **[multispectral** *scanner]* data [Remote sensing]. 119500
The mapping of marsh vegetation using aircraft **multispectral** *scanner* data [Remote sensing]. 120367
Automatic categorization of land-water cover types of the Green Swamp, Florida, using Skylab **multispectral** *scanner* (S-192) data [Remote sensing]. 125255
Snow survey from space, with emphasis on the results of the analysis of Skylab EREP S192 **multispectral** *scanner* data [Remote sensing]. 125274
The LANDSAT-1 **multispectral** *scanner* as a tool in the classification of inland lakes [Trophic status, remote sensing]. 125277
Application of **thermal** *scanning* to the study of transverse mixing in rivers [Remote sensing, pollutants]. 125458
Scanning, **transmission** and electron probe analysis of the cat tapetum. 117886

SCAR

Decay risk for sugar maple borer [Glycobius speciosus] *scars* **[Acer** saccharum]. 123477
Scars as an **indicator** of fire frequency in the san Bernardino Mountains, California. 119352
Selective scar revision & elective incision techniques applicable to the legs of horses. 3. Application of combined fusiform excision and W-plasty surgical techniques in *scar* **revision** on the upper hind legs. 118579

SCARABAEIDAE

New species of North American **Anomala** *(Scarabaeidae:* Anomalinae) [New taxa]. 124401
Control of May beetles *[Scarabaeidae]* in **Baden-Wurttemberg** during the past 30 years. 123252
Behaviour and larvae of two rose chafer beetles Eupoecila australasiae (Don), Diaphonia dorsalis (Don) (Coleoptera: *Scarabaeidae,* **Cetoniinae).** 124472
Study of some pathological characters and of specificity of the lethargy of Melolontha melolontha larvae **(Coleoptera:** *Scarabaeidae).* 123234
A chemical basis for plant [lucerne, Lotus pedunculatus] resistance to grass grub [Costelytra zealandica] and black beetle [Heteronychus arator] larvae **(Coleoptera:** *Scarabaeidae).* 123335
Survival of larvae of Anoplognathus porosus (Dalman) and sericesthis nigrolineata Boisd. **(Coleoptera:** *Scarabaeidae).* 124017
Insect density effects in root feeding by larvae of Sericesthis nigrolineata (Coleoptera: *Scarabaeidae)* **[Pasture** pests]. 123316

SCATTERING

Studies on the promotion of snow melting in a grassland. 2. Meteorological and climatological consideration on desirable time for *scattering* **black** powders and the period of the promotion of snow melting. 125345
Laser **light** *scattering* bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for milk, serum, urine, and bile. 118460
Shape and size of bovine rhodopsin: a small-angle **X-ray** *scattering* study of a rhodopsin-detergent complex. 117817

SCELIONIDAE
Biological control in Morocco of the wheat bug Aelia germari. Comparative value of two egg eating parasites: Asolcus grandis and Ooencyrtus fecundus (Hymenoptera, *Scelionidae* and **Encyrtidae**). 123283
A new species of the genus Platytelenomus Dodd, 1914 from Hungary (Hymenoptera, Proctotrupoidea, *Scelionidae)* [**Platytelenomus** unilineatus]. 124559

SCENEDESMUS
Accumulation of polycyclic aromatic hydrocarbons in cultivated microalgae *[Scenedesmus* **acutus**]. 121300
Action of nitrite on fluorescence induction in algae [Bumilleriopsis filiformis, *Scenedesmus* **acutus**]. 121329
Effect of different methods of processing on the protein efficiency ratio of the green **alga** *Scenedesmus* acutus [for human consumption]. 117157
Effect of Panacide (5,5'-dichloro-2,2'-dihydroxy-diphenylmethane), on the total chlorophyll & growth of *Scenedesmus* **obliquus** [Algae]. 121131
Stimulation of growth in *Scenedesmus* **obliquus** [Algae] (Chlorophyceae) by humic acids under iron limited conditions. 121217
Studies on nucleic acids in plastids of the pigment mutant C-2A' of *Scenedesmus* **obliquus** [Algae]. 121326
Pleomorphism in *Scenedesmus* **quadricauda** (Turp.) Breb. (Chlorophyceae) [Algae]. 121079
Ethephon (2-chloroethylphosphonic acid) effects on *Scenedesmus* **quadricauda** (Chlorophyceae) [Algae]. 121205

SCHEDULE
Commercial apple **spray** *schedule.* 122953

SCHISTOCERCA
Imaginal differentiation of the tegument in the migratory locust, *Schistocerca* **gregaria** Forsk. II. Development during imaginal molt and its determination in gregarian males. 123811
A simple and specific locust *[Schistocerca* **gregaria**] protein binding assay for cyclic 3'5' GMP [guanosine-3'5'-cyclic phosphate]. 123826
Farnesenic acid stimulation of juvenile hormone biosynthesis as an experimental probe in corpus allatum physiology *[Schistocerca* **gregaria**]. 123940
Phospholipid metabolism in red and white insect muscle *[Schistocerca* **gregaria**]. 123986
The imaginal integumental differentiation in *Schistocerca* **gregaria** Forsk. III. Phase polymorphism and its hormonal control. 124005

SCHISTOSOMA
Relative susceptibility of mammals to infection with *Schistosoma* **incognitum.** 118737
Anti-liver antibody in rabbits infected with *Schistosoma* **japonicum.** 118595

SCHIZAPHIS
The development of pest-resistant sorghum [Contarinia sorghicola, Oligonychus, *Schizaphis* **graminum**]. 120781
Integrated control of arthropod pests of sorghum *[Schizaphis* **graminum,** Contarinia sorghicola]. 123327
Insecticidal control of greenbugs *[Schizaphis* **graminum**] in wheat with foliar and soil treatments. 123345
Insecticide resistance in the greenbug *[Schizaphis* **graminum**] in wheat. 123346

SCHIZOPHORA
A key to species of Australian Otitidae (Diptera: *Schizophora)* with **notes** on distribution. 124229

SCHIZOSACCHAROMYCES
A shortened procedure of the diphenylamine reaction for the measurement of deoxyribonucleic acid by using light activation *[Schizosaccharomyces* **pombe,** Fungi]. 120880
On the mechanism of microbial cell destruction during ballistic disintegration processes *[Schizosaccharomyces* **pombe,** Candida utilis, yeasts]. 121044

SCHOOLS
The **agricultural** *school* of Bar-le-Duc. 115183
Reactions of the *school* **board** on the parental home [Lunch]. 116319
A bicentennial salute to Louisiana: The *school* **cafeteria** staff played an important role in this tribute to a state's proud heritage [School lunches]. 116331
Ways of improving general high school, special education and professional orientation of *school* **children** in relation to the reorganization of farm production [in Moldavia]. 115172
A new look into organic classroom [at *schools,* **colleges,** workshops, farms, gardens, and kitchens]. 115188
Experiments in 1976 in tree nursery: a survey of experimental and research projects in German **experimental** *schools* and institutes. 119577
Utilization of *[school* **food** services] waste products [as compost]. 125035
Ways of improving general **high** *school,* special education and professional orientation of school children in relation to the reorganization of farm production [in Moldavia]. 115172
A bicentennial salute to Louisiana: The school cafeteria staff played an important role in this tribute to a state's proud heritage *[School* **lunches**]. 116331
Acceptance of *school* **meals.** 116316
Distribution of **milk** in *schools.* 116547

SCIARIDAE
A new eugregarina Schneideria schneiderae n. Sp. From Trichosia pubescens Morgante 1969 *(Sciaridae,* **Diptera**). 124412

SCIONS
Influence of peach seedling rootstocks on growth, yield and survival of **peach** *scion* cultivars. 121710
Transport effect of some mineral nutrients and photosynthates with reference to *stock-scion* **relationship** in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727

SCIRRHIA
Scirrhia **pini** Funk et Park., pathogen of a new pine disease in Slovenia [Pinus nigra]. 122615

SCIRTOTHRIPS
On the occurrence of Bacillidium sp. A microsporidian parasite infecting some thrips larvae [Thrips flavus, *Scirtothrips* **oligochaetus,** cotton pests]. 123303

SCLEROPHTHORA
Downy mildew (yellow wilt) of rice caused by *Sclerophthora* **macrospora:** first report of the occurrence of the disease in India. 122749

SCLEROSPORA
Antifungal activity of pollen [Parthenium hysterophorus, Pennisetum typhoides, *Sclerospora* **graminicola**]. 122681

SCLEROTINIA
Study of some problems of the biology of the **fungus** *Sclerotinia* libertiana F. [Stem rot, sunflowers]. 122778
Some properties of a fungal beta-D-glucanase preparation [basidiomycetes, *Sclerotinia* **libertiana**]. 120994

SCLEROTIUM
Evaluation of virulence in isolates of *Sclerotium* **oryzae** [stem rot of rice]. 122730
A sclerotial wilt of pineapple from India *[Sclerotium* **rolfsii**]. 122786

SCOLYTIDAE
Olfactory behavior of Ips pini (Say) (Coleoptera: *Scolytidae)* during **host** invasions and colonization of lodgepole pine [Pinus conterta latifolia]. 123450
Scolytidae and **Platypodidae** (Coleoptera) from Papua New Guinea [New taxa]. 124455
Scolytidae and **Platypodidae** (Coleoptera) from the Hungarian Natural Science Museum [New taxa]. 124456

SCOLYTUS
Attractant pheromone of the European elm bark **beetle** *(Scolytus* multistriatus): isolation, identification, synthesis, and utilization studies. 123464
Synthesis of (1S: 2R: 4S: 5R)-(-)-alpha-multistriatin, the pheromone in the smaller European elm bark **beetle** *Scolytus* multistriatus. 124164
Parasites (Hymenoptera, Chalcidoidea) associated with bark beetles *[Scolytus,* **Hylesinus,** Ips] in Norway. 123486
Dutch elm [Ulmus] disease [caused by Ceratocystis ulmi, transmitted by *Scolytus* **multistriatus**]. 122687

SCORBUTIC
Food intake, dietary supplements and survival time of *scorbutic* **guinea** pigs. 116496

SCORPIONIDA
Preliminary study on the scorpions *[Scorpionida]* of the **Federal** District (Brazil). 124418

SCORPIONS
Action of different toxins from the *scorpion* **Androctonus** australis on a locust [Locusta migratoria] nerve-muscle preparation. 124040
Sexual dimorphism of the pincers of the pedipalps in **Bothriuridae** *scorpions.* 123842
Concentration of glycoproteins in the tissue of the *scorpion* **Heterometrus** scaber (Thor.). 123969
Free amino acids & proteins of the haemolymph, Hepatopancreas & muscle of the *scorpion* **Heterometrus** scaber (Thor.). 123971
Preliminary study on the *scorpions* [**Scorpionida**] of the Federal District (Brazil). 124418

SCREENING
Antifertility *screening* of plants—effect of four indigenous plants [Cuminum cyminum, Hyptis suaveolens, Dolichos biflorus, Trianthema pentandra]. 119242
Screening of **Chilean** plants for anticancer activity. I. 121259
Casein dewheying and **dewatering** *screens.* 116905
Screening **methods** to identify in foods some common pesticides used in India. 123732
Material balance for brown stock washing, *screening,* and **oxygen** bleaching in closed-mill systems [Pulps]. 119818
A **rapid** *screening* method for the aflatoxins and ochratoxin A [in products]. 116183
Screening of some **relatively** safe insecticides for impregnation of gunny bags against stored-grain pests. 123512
Screening of **substances** and extracts of [drug] plant origin for Walker 256 carcinosarcoma control. 120869
Phytochemical and **toxicological** *screening* of household ornamental plants potentially toxic to humans. I. 116212

SCREWWORM
Screwworm [**Cochliomyia** hominivorax] control in North America. 123600
An overview of the development of remote sensing techniques for the *screwworm* [**Cochliomyia** hominivorax] eradication program. 123633
Spectral sensitivity and variation in visual sensitivity of the **colonized** *screwworm* fly Cochliomyia hominivorax (Coquerel) as measured with electroretinogram. 123640

SCROPHULARIA
Differentiation of *Scrophularia* **auriculata** L. And Scrophularia umbrosa Dum. 120028
Ovule ontogeny and seed coat structure of *Scrophularia* **himalensis** Royle. 120433
Differentiation of Scrophularia auriculata L. And *Scrophularia* **umbrosa** Dum. 120028

SCUTELLERIDAE
Effect of the degree of winter wheat grain damage by *Scutelleridae* **bugs** on the biochemical and technological properties of flour. 123353

SCUTIGERELLA
Endoskeleton and cephalic musculature of *Scutigerella* **immaculata** Newport (Symphyla: Scutigerellidae). 123840

SEA
Determination of mercury in fish: contribution to the state of pollution in the **Adriatic** *Sea* [Food contamination]. 116171
Quality checking of frozen codfish of the **Baltic** *Sea.* 116217
Pests of the **Baltic** *Sea* coast. II. Short survey of the most important insect groups besides Coleoptera and Diptera. 123599
Rhythm of growth and flowering of woody [chiefly ornamental] plants from the Mediterranean floristic area on the **Black** *Sea* coast. 121618
Survey of the determination of the occurrence of ergot (Claviceps purpurea (Fr.) Tul) on the domestic and foreign wheat varieties and wild Gramineae grown in the **Black** *Sea* region of Turkey. 122584
Cage trial against green shield bug (Palomena prasina L.), which causes damage to the hazelnut [Corylus] in the east **Black** *Sea* region, using chemicals effective in the controlof the hazelnut weevil [Balanius nucum]. 123376
Amino acid composition of 12 kinds of *deep-sea* **fish** proteins. 116783
An Italian industry for the processing of *sea* **food** at the mouth of Guadiana. 116659
Legal and hygienic food evaluation of **fresh** *sea* mussels in consumption. 116076
Diatoms [Algae] from the *sea;* **investigative** methods and life cycle. I. Methods and vegetative propagation. 121275
O2 [oxygen] transport in the alpaca (Lama pacos) at *sea* **level** and at 3,300 meters. 117897
Effects of marine pollution (petroleum, DDT, detergents) on the flora of the *seas* [and **oceans**]. 125521
Washing of trimethylamine by the water of the melting ice used for **preserving** *sea* bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052
Dynamics of the algal vegetation of saltmarshes in the **Wadden** *Sea.* 120306

SEAFOOD
Methods of radioactive contamination of foods of animal origin: meats, **milk,** and *seafood.* 116032

SEAL
A rapid method for measuring net photosynthesis of excised leaves by using *air-sealed* **chambers** [Maize, Phalaris arundinaceae, soybeans]. 121511
Rational manufacture liver sausage and frankfurter sausage types in *lacquer-sealed* **fibre** casings. 116994
Sealing **processes** in water floors. 125209

SEASONING
Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; *seasoning;* **manufacture** of low-fat cooked sausages; small sausages fresh from smoke. 116958
Studies on the corrosion of cooking utensils. 1. Behaviors on the corrosion of mild steels in *seasoning* **solutions.** 116602

SEASONS
Analysis of Australian wool sold at auction in Australia 1973/74 *season.* **Analyses** by: microns, combining and carding classifications, degrees of vegetable fault, areas of origin. 115760
Analysis of Australian wool sold at auction in Australia 1973/74 *season.* **Analyses** by: wool types, average yields, average clean prices. 115761
Physical characteristics of typical gin **bales** for 1973-74 and 1974-75 *seasons.* 117095
Growth pattern and *seasonal* **behavior** of buds of Colliguaya odorifera, a shrub from Chilean mediterranean vegetation. 120331

Records of insects taken at light traps in Tanzania. II. Distribution and *seasonal* **change** in catches of Belostomatidae (Hemiptera: Heteroptera) in relation to rainfall. 123250
Seasonal **changes** in hair coat (shedding) in cattle breeds of different ecogenesis. 117728
Seasonal **changes** and topographic features of the hair coat in nothern indigenous (Yakut) cattle. 117729
Records of insects taken at light traps in Tanzania. III. *Seasonal* **changes** in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
Seasonal **density,** distribution and interactions of predatory and scavenger arthropods in accumulating poultry wastes in coastal and interior southern California [Livestock pests, biological control]. 123623
Seasonal **dependence** of wheat variety response to superphosphate. 125018
Seasonal **development** and growth of Rhodiola rosea L. In relation to introduction [as drug plant]. 120969
The *seasonal* **development** of mushrooms and its contributory weather conditions. 121734
Seasonal **development** and control of Lophodermium pinastri in Pennsylvania [Pinus sylvestris, needlecast]. 122761
Seasonal **development** of symptoms of noninfectious bud-failure in almond (Prunus amygdalus Batsch). 122970
Seasonal and **diel** changes in the positioning of Glossosoma nigrior Banks (Trichoptera: Glossosomatidae) on artificial substrates. 123862
Seasonal **distribution** of pasture production in New Zealand. VIII. Dargaville. 122051
Seasonal **distribution** of pasture production in New Zealand. IX. Hamilton. 122052
Seasonal **distribution** of pasture production in New Zealand. X. Rangitikei district. 122053
Sorghum silage and napiergrass silage for beef cattle feeding in the **dry** *season.* 118023
A note on the growth of dairy calves grazing pangola grass [Digitaria decumbens] from 90 to 180 days of age during the **dry** *season.* 118043
The use of pasture for beef production. 3. Different protein sources for molasses/urea supplementation to bulls during the **dry** *season.* 118050
Effect of anthelminthic residual action in weaned heifers in the **dry** *season.* 118669
Direct sowing of forage sorghum in guinea pasture [Panicum maximum] during the **dry** *season.* 1. Effects of pasture availability and milk production. 121900
Seasonal **dynamics** of accumulation and localization of starch in [introduced] broadleaf evergreens in the Crimea. 121619
Contribution to the study of parasitism of foxes (Vulpes vulpes L.) by Ixodidae (Acarina) in northeastern France. Interpretation of the *seasonal* **dynamics** of the parasites in relation to the biology of the host. 123590
Herbicides for the control of weeds in *warm-season* **forage** grasses. 123132
Studies on the extention of the **grazing** *season.* 6. Winter grazing on the south side of a snow covered hillland [Beef cattle]. 122103
On the bud dormancy of grape varieties. 1. Effect of endogenous free abscisic acid and gibberellic acid on the bud dormancy and the induction of their regrowth during the **growing** *season.* 121721
Seasonal **growth** of pine, Pinus eldarica, in Turkmenia. 121799
Observations on the *seasonal* **incidence** of external mites Acarapis spp. on honey bees. 124544
The nutrients and plants [Algae] of Lake Joondalup, a mildly eutrophic lake experiencing **large** *seasonal* changes in volume. 121224
Agronomic, economic, energy and environment implications of *short-season,* **narrow-row** cotton production. 122044
Short-season, **narrow-row** cotton studies in the Coastal Bend and Brazos River Valley. 122086
Short-season **narrow-row** cotton studies in the Northern Blacklands. 122087
Short-season, **narrow-row** cotton studies in the Central Blacklands. 122088
Seasonal **patterns** in abundance of water beetles belonging to the Hydrophiloidea (Coleoptera). 123919
Distribution and *seasonal* **periodicity** of sediment inhabiting diatoms in the Waddensea and the Ems-Dollard estuary [Algae]. 120303
Ecological and nutritional studies on Dinobryon [divergens] Ehrenb.: *seasonal* **periodicity** and the phosphate toxicity problem. 121233
Seasonal **population** fluctuations of parasitic nematodes in the rhizosphere of grape-vines. 123048
Seasonal **Profiles** of plasma luteinizing hormone, testosterone and estradiol in the ram. 118257
Effect of anthelminthic administration in one-year-old heifers during the **rainy** *season.* 118670
A *season* to **remember** [Rose culture, England]. 122469
Seasonal **rhythm** of development of the [Soviet] Far East woody plants in the Ukraine. 121800
Effect of different combinations on growth substances on the abscission on debladed petioles of Catharanthus **roseus** in different *seasons.* 121151
A casa of flowering and fructification of the Springtime peach tree out of *season* in **Sicily.** 121657
Nitrogen nutrition of Myriophyllum spicatum: variation of plant tissue nitrogen concentration with *season* and **site** in lake Wingra. 121068
Sociality and *seasonal* **size** variation in halictine bees [Lasioglossum, subgenus Dialictus]. 124002
Seasonal **snow** accumulation, melt and water input—a New England model. 115179
Seasonal **succession** of algae in rivers. I. Examples from the Avon. A large slow-flowing river [England]. 120378
Estimate of capital invested in the rice crop, rice zone of Rio Grande do **Sul,** 1974/75 *season.* 115520
Latent infections and *seasonal* **variability** of crown gall [caused by Agrobacterium tumefaciens] development in seedlings of three Prunus [cerasifera, Prunus mahaleb, Prunus avium] species. 122810
Seasonal **variation** in oestrous and ovarian activity of five breeds of ewes in Otago. 118377
Effect of photoperiodic manipulation on *seasonal* **variation** in bud and shoot regeneration of Rieger begonia [Begonia hiemalis] leaf cuttings. 121668
Wing color *[seasonal]* **variation** in Callosamia (Saturniidae). 124067
Seasonal **variations** in sheep erythrocyte reduced glutathione. 117757
Seasonal **variations** in coat thickness of Jersey breed cows and their correlations with milk production. 117907
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. *Seasonal* **variations** in the herbage infestation with infective larvae [Parasitic worms]. 118862
Seasonal use of **water** by date palms in Coachella Valley, southeastern California. 121785

SEAWEED

Chemotaxis and the odor of *seaweed* **[Dictyopteris** plagiogramma and Dictyopteris australis]. 121249
Giant *seaweeds* [Algae] of the seacosts—producers of raw materials and specialists in metabolism. 120954
Evaluating oceanic farming of *seaweeds* as **sources** of organics and energy. Semi-annual progress report December 1, 1974June 30, 1975 [Macrocystis pyrifera, Algae]. 121312

SECALE

The breeding of cleistogamous genetic stocks of *Secale* **cereale** [in West Germany]. 120682
Rye: *Secale* **cereale** (Gramineae-Triticinae). 121957
Proteins and alkyloresorcinols in rye grain [and other species of *Secale;* **nutritive** value as feed]. 121465
Estimate of genetic variance in open-pollinated varieties of **rye** *(Secale* cereale L.). 120664
Stimulatory action of Azotobacter chroococcum from water hyacinth (Eichhornia crassipes Mort Solms) on germination of seeds of **rye** *(Secale* cereale). 121568

SECRETIN

The **endogenous** *secretin* in chicken: minor physiological role in exocrine pancreatic secretion. 117840

SECRETION

Inhibition of gastric **acid** *secretion* in dogs by neurotensin. 117848
Absence of a correlation between the *secretion* of **adrenocorticotrophin** and vasopressin in foetal sheep. 117807
Hypoglycaemia as a stimulus for **adrenocorticotrophin** *secretion* in foetal sheep. 117808
Golgi **apparatus** *secretion* of vacuolar substances in maize root cells. 120544
Secretion of **beta-glucosidase** by Ochromonas danica [Algae]. 120915
Mobility restriction in vivo of the heavy ribosomal subunit in a *secretory* **cell** [Chironomus tentans]. 124022
Influence of the amount of fat in food on the *secretion* and **composition** of bile in **rats.** 116562
Studies on the amino acid absorption and the *secretion* of **endogenic** amino acids into the gastrointestinal tract of pigs [Diets]. 118000
Further characterization of IgA [immunoglobulin A] in chicken serum and *secretions* with **evidence** of a possible analogue of mammalian secretory component. 118696
Contribution to the ontogenic study of **foliar** *secretory* pockets. New investigations on Myrtaceae. 120564
Studies on mating results following detection of Corynebacterium pyogenes in **genital** *secretion* of cattle with puerperal disorder. 118844
Nasute termite soldier fromtal **gland** *secretions.* 1. Structure of trinervi-2beta,3alpha,9alpha-triol-9-O-acetate, a novel diterpene from Trinervitermes soldiers. 124012
Nasute termite soldier frontal **gland** *secretions.* 2. Structures of trinervitene congeners from Trinervitermes soldiers. 124013
Acid phosphatase and peroxidase in 'resting' acinar cells of the major salivary glands of cats and their possible movement into *secretory* **granules.** 117703
The role of moss cover in some types of pine forests in the part of Ukrainian Poles'ye located to the east from Dnieper River [Effect of *secretions* on the **growth** of forest plants. 121814
The *nectar-secreting* **hedge** [Symphoricarpos, honey plants]. 122521
Bovine colostral gamma-glutamyltransferase; its localization in skim milk membrane and irrelevance to *secretory* **immunoglobulin** A. 118685
A calcium **ionophore-induced** *secretion* in rabbit lacrimal gland in vivo. 117846
Further characterization of IgA [immunoglobulin A] in chicken serum and secretions with evidence of a possible analogue of **mammalian** *secretory* component. 118696
Changes in the *secretion* of **ovarian** steroids and pituitary luteinizing hormone in the periovulatory period in the ewe: the effect of progesterone. 118341
The endogenous secretin in chicken: minor physiological role in exocrine **pancreatic** *secretion.* 117840
Changes in patterns of feeding activity, **parotid** *secretory* enzymes and plasma corticosterone in developing rats. 118100
Some physicochemical and biological methods of studying **plant** *secretions.* 121062
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, poles]: synthesis and *secretion* of **polygalacturonate** lyase by Cytophaga johnsonii. 119717
Secretion of **proteolytic** enzymes flowing introduction of nutrients into the duodenum and jejunum [Dogs]. 116568
Content of free amino acids in leaves, roots and **root** *secretions* of some plants. 121059
Toxicity of *secretions* of some **species** of wild fruit plants in the conditions of **water** and soil culture. 121656
Calcium and **stimulus** *secretion* coupling in the [ox] neurohypophysis. V. The effects of the Ca2+ ionophores A23187 and X537A on vasopressin release and 45Ca2+ efflux; interactions with sodium and a verapamil analogue (D600). 117525
Effect of soil on the physiological activity of apple **tree** *secretions.* 121654
Calcium-binding protein in bull seminal **vesicle** *secretion* and seminal plasma. 118346
Biological activity of **volatile** *secretions* of flowers [of forest trees and shrubs]. 121810
Volatile *secretions* of two Old World stingless bees [Trigona (Meliplebeia denoitti, Trigona (Hypotrigona) gribodoi]. 124153
Wax *secretion* in the infrared sensory pit of Melanophila acuminata (Coleoptera: Buprestidae). 124136

SECTIONING *see* MICROTOMY

SEDGE

Studies of **Navua** *Sedge* (Cyperus aromaticus). 1. Review of the problem and study of morphology, seed output and germination. 123083
Carex depauperata Curt. In NE Cork (H5), a *sedge* **new** to Ireland. 120083

SEDIMENTS

Nutrient profiles of **bay** *sediment* [Pollution]. 125514
Mercury in **bottom** *sediments* of Rietvlei reservoir. 125550
The time course of flocculation of diluted dispersions of microcrystalline **cellulose** *[Sedimentation].* 119791
Continuing conservation on the Pocatello benches [Erosion and *sediment* **control].** 125160
Five point program in the Palouse [Erosion and *sediment* **control].** 125161
DNA synthesis in rabbit spleen cell populations stimulated by various doses of concanavalin A. II. Equilibrium **density** *sedimentation* analysis. 117674
Palynological characteristic of *sedimentary* **deposits** from the Razdan formation. 120064
Distribution and seasonal periodicity of *sediment* **inhabiting** diatoms in the Waddensea and the Ems-Dollard estuary [Algae]. 120303
Grass cuticles: a new paleoecological tool for East African **lake** *sediments* [For reconstructing the past vegetation and climate of regions]. 120330
Erosion and *sedimentation* in the **loessial** region of Washington, Idaho, and Oregon. 125116
DDT in *sediments* and **organisms** around southern California outfalls. 123734
Suspended *sediment* filtration capacity of simulated vegetation [Soil erosion control]. 125174
Quantitative **suspended** *sediment* mapping using aircraft remotely sensed multispectral data [Water quality and movement]. 125266
Geomorphological expression of soil variations in the *sedimentary* **terrain** of Muttal & Salal areas of Udhampur district in Jammu Province of Jammu and Kashmir State. 124907
Combinations of spores and pollen from **tertiary** *sedimentary* deposits of the Oktemberian stratum. 120062

SEEDING

Yield response of sulla sweet vetch (Hedysarum coronarium l.) to different seed types and *seeding* **modalities.** 122142
Montana **range** *seeding* guide. 121890
Seeding **rate** and characteristics of the seed in the technique of cultivating the potato in autumn-spring cycle. 122466

SEEDLINGS

Seed orchards as a future source of *seedlings* **[Artificial** reforestation]. 119614
Homoserine kinase from **barley** *seedlings.* 121541
Effect of metabolites of symbiotic bacteria on the seeds and growth of *seedlings* of **Carex** enervis C.a.m. 121100
Damage to [tree] *seedlings* **caused** by Melolontha melolontha. 123479
Localization of peroxidase in Rhizoctonia solani-infected **cotton** *seedlings* [Sore-shin]. 122731
The "Swiss roll" [propagation] method of raising **cuttings** and *seedlings.* 122262
Some aspects of the control of damping off of [forest tree] *seedlings* [by **disinfection** of soil with fumigants]. 119374
Changes in loblolly pine [Pinus taeda] *seedling* **dry** weight and top to root ration between October and March. 121821
Studies on **early** *seedling* growth of rice with IAA, GA, CCC [indoleacetic acid, gibberellic acid, chlorocholine chloride]. 121569
Root growth in Acer saccharum Marsh. *Seedlings:* **effects** of light intensity and photoperiod on root elongation rates. 121801

Influence of peroxide and polyelectrolyte treatments on germination, *seedling* **emergence** and yield [Navy beans, soybeans, sugarbeets]. 121545
Potato selection for high dry-matter in *seedling* **generation** [Breeding]. 120579
Use of gibberellic acid permits early budding of pecan [Carya illinoensis] *seedlings* [**Growth** regulators]. 121770
Measures for **improving** *seedling* quality [Seed potatoes]. 122295
Raising radiata pine [Pinus radiata] and eucalyptus [Eucalyptus regnans] *seedlings* by an **industrial** forestry company in Gippsland, Victoria. 119566
Occurrence of D-alpha-amino-n-butyric acid in **legume** *seedlings* [Kidney beans]. 121583
Effects of nonfumigant nematicides on root populations and manganese and zinc levels in rough **lemon** *seedlings* infected with the citrus nematode, Tylenchulus semipenetrans. 123016
Relationship of fire blight [Erwinia amylovora] resistance of young pear seedlings inoculated in the greenhouse to **mature** *seedling* trees naturally infected in the field. 122811
Infestation of **melon** *seedlings* by the larvae of the root-knot nematode, Meloidogyne incognita. 123004
Investigations into the fungicidal effect of cuprous oxide against Phaeocryptopus gaeumannii on Douglas fir [Pseudotsuga **menziesii**] *seedlings*. 122668
Influence of *seedling* **methods** and nitrogen fertilization on yield and botanical composition of a white clover-tall fescue mixture in mountain. 122123
Effect of forest litter in shelterbelts in the Kamennaia Steppe on the emergence and development of **oak** *seedlings* [Quercus]. 121833
Uptake of mevalonate and acetate during plastid development [**Oat** *seedlings*]. 121424
Influence of Cynkotox (zineb) on mitotic activity and course of mitosis in root meristem of Allium cepa L. *seedlings* [**Onions**]. 122617
Gardening: *seedlings* in the **open** air. 122508
Seeds, *seedlings*, and the **origin** of angiosperms [Palesbotany]. 120061
Action of biogenic ethylene on some biochemical processes in **pea** *seedlings*. 121650
Differences in the action of synthetic and biogenic ethylene on amino acid metabolism in **pea** *seedlings*. 121653
Primary physicochemical injuries in chloroplasts due to toxic concentrations of NaCl [sodium chloride, **pea** *seedlings*]. 123038
Influence of **peach** *seedling* rootstocks on growth, yield and survival of peach scion cultivars. 121710
The effect of iron on growth and bacterial canker [Pseudomonas syringae] susceptibility of **peach** *seedlings*. 122803
Relationship of fire blight [Erwinia amylovora] resistance of young **pear** *seedlings* inoculated in the greenhouse to mature seedling trees naturally infected in the field. 122811
Effect of fertilizers on the growth of **pine** *seedlings* in relation to agrochemical properties of the soil. 121787
Relationship of shoot-root ratio to survival and growth of outplanted Douglas-fir [Pseudotsuga menziesii] and ponderosa **pine** *seedlings*. 121836
Studies on the stolon development in the potato plant. I. The orientation of the axillary shoot growth in the **potato** *seedlings*. 121765
Effects of propagation container size on development of high **quality** *seedlings* [Pinus thunbergiana, Sapindus drummondii, Pistacia chinensis]. 122221
Effect of infection by Microsphaera alphitoides (powdery mildew) on carbohydrate levels and translocation in *seedlings* of **Quercus** robur. 122684
Effect of the time of *seedling* **raising** on the yield of cauliflower. 122282
Soybean planting date and *seedling* **rate** investigations in the Texas Gulf Coast Prairie. 122092
Effect of submergence on some physiological changes in **rice** *seedlings*. 121502
A synergistic effect of 2-ethyl-1-isopropoxycarbonyl-3-(4-tolylcarbamoyl) isourea with gibberellic acid on growth of **rice** *seedlings*. 121531
Application of fertilizers to the production of Eucalyptus saligna **Sm.** *seedlings*. 124964
Factors affecting the establishment of ryegrass [Lolium] *seedlings* in **soldier** fly [Inopus rubriceps]-infested land. 123336
Snow/cache [forest tree] *seedling* **storage:** successful systems. 119638
Effect of environmental desiccation on *seedling* **survival** in rice. 121439
Latent infections and seasonal variability of crown gall [caused by Agrobacterium tumefaciens] development in *seedlings* of **three** Prunus [cerasifera, Prunus mahaleb, Prunus avium] species. 122810
Seedling **transplant** and its effects on mechanized greenhouse lettuce production. 122505
A contribution to the solution of the technology of the harvesting and distribution of [forest **tree**] *seedlings*. 119621
Assembly line for [**tree**] *seedlings*. 119635
Findings made in the cultivation of mycorrhizal inoculum [to be used for **tree** *seedling* propagation]. 120999
Use of extremely shortstemmed wheat varieties for culturing aseptically a causal agent of stem rust, Puccinia graminis F. sp. tritici, on **wheat** *seedlings*. 122659
An apparatus for the production of **wheat** *seedlings* for feeding locusts in the laboratory. 123775
Effect of the concentration of strontium 90 [isotope] on the coefficients of radioactive strontium accumulation in **wheat** *seedlings* [Contamination]. 125374

SEEDS

Forecasting the heterotic effect in *seeds* of **agricultural** plants by the method of thermal testing. 120704
Influence of harvesting, seed density and row spacing on **alfalfa** *seed* yield. 122121
Influence of sowing modalites and thinning on **alfalfa** *seed* yield. 122124
Alfalfa *seed* production. 122151
Chemical protection of **alfalfa** *seed* stands against bugs [Heteroptera]. 123323
Complementary study of the structure of three galactoxyloglucans (amyloids) of *seeds* [**Balsamina,** Tropaeolum, Tamarindus]. 120991
The *seed* **banks** of parairie glacial marshes [Vegetation zones, seed viability]. 120335
Stuies on the mechanisms of **barley** *seed* deterioration [Fungal contamination, Aspergillus repens, Penicillium cyclopium, Fusarium culmorum]. 122567
Zearalenone-producing species of Fusarium on **barley** *seed*. 122569
Results of surveys of phytophagous and seminovorous insects in *seed* **bearing** lucerne. 123352
Specific structure and pollen gathering of Hymenoptera visitors of **blooming** *seed* onion fields and their food plant relationships. 124152
Gibberellin effects on rabbiteye **blueberry** *seed* germination. 121673
Fruits and *seeds* of the **Brandon** Lignite. I. Vitaceae [Vermont]. 120252
A method for **breaking** *seed* dormancy in Boronia spp., Eriostemon spp. and other native Australian species. 121625
Properties and substrate specificity of proteinase from **buckwheat** *seeds*. 121428
Quality of **buckwheat** *seeds* as related to growing conditions. 122153
Inorganic salts & differentiation of protocorms in *seed* **callus** of an orchid & correlated changes in its free amino acid content [Dendrobium fimbriatum]. 121691
Enhancement by low pH [hydrogen-ion concentration] of gibberellin effects on dormant **celery** *seeds* and embryoless half-seeds of barley. 121746
Ultrastructural aspects of *seed* **cells.** Relations between ultrastructure and function. 120463
Select **cereal** *seeds* [Varieties]. 121840
Improvement of **cereal** *seed* treatment [for fungus and insect pest control]. 122624
Studies on a microbiological assay of the distribution of mercury containing seed disinfectants on **cereal** *seed* [Rhizoctonia solani]. 122678
Seed-borne **cereal** diseases in Denmark: their distribution, significance, and control with fungicides, especially during the period 1906-1975. 122792
Production of **certified** *seed* potatoes by varieties, 1974-75. 122182
Certified *seed* potatoes 1976. 122502
Ovule ontogeny and *seed* **coat** structure of Scrophularia himalensis Royle. 120433
Stabilized dormancy in sugarbeet fruits. I. *Seed* **coats** as a physicochemical barrier to oxygen. 121437
Emergence of Hyalophora cecropia (Saturniidae) blocked by *seeds* in the **cocoon** valve. 124060
Interrelations of *seed* **color,** weight, germination and origin in alsike, red and white clovers. 121546
On the germination of *seeds* of **Comptonia** peregrina, the sweet fern [Myricaceae]. 120973
Studies on a microbiological assay of the distribution of mercury **containing** *seed* disinfectants on cereal seed [Rhizoctonia solani]. 122678
A flotation method for the analysis of chalcid-fly, Bruchophagus kolobovae Fedoseeva, infested birdsfoot trefoil, Lotus **corniculatus** L. *seed*. 123172
Isolation and identification of phytotoxic substances from *seeds* of **Coronilla** varia L. 121332
Some properties of phospholipase D from **cotton** *seeds*. 121429
Polyadenylation of stable mRNA during swelling of *seeds?* [**Cotton,** rye, wheat]. 121430
Significance of nitrate reductase activity in developing **cotton** *seeds*. 121443
The influence of abscisic acid in **cranberry** *seed* dormancy. 121681
Effects of blending gynoecious and monoecious **cucumber** *seeds* on yield patterns. 122334
The growing and marketing of potatoes for *seed* [**Culture,** varieties, diseases]. 122413
Factors associated with resistance to mechanical *[seed]* **damage** in snap beans (Phaseolus vulgaris L.) [Germination, vigor]. 122966
The *seed:* **definition,** origin and development, structural types, slowed life, germination [Spermatophyta]. 121090
Influence of harvesting, *seed* **density** and row spacing on alfalfa seed yield. 122121
Seed **development** of four sorghum cultivars. 121553
Selection of high sprouting disposition and *seed* **dormancy** in rye. 121467
Stimulation of germination by gamma radiations of the **dormant** *seeds* of Avena fatua L. 121022
The effect of temperature and dehydration of the **dried** *seeds* on the biological properties of rye introduction. 121469
Germination of the *seeds* of [the **drug** plant] Thermopsis alterniflora. 120965
Enhancement by low pH [hydrogen-ion concentration] of gibberellin effects on dormant celery seeds and **embryoless** *half-seeds* of barley. 121746
Optimum tetrazolium staining of longleaf pine [Pinus palustris] *seed* [to **estimate** viability]. 121831
Action of ricin from Ricinus communis L. [Castorbean] *seeds* on **eukaryote** ribosomal proteins. 121049
Variability of morphological characters of *seeds* of the **family** Caryophyllaceae Juss. 120077
A study of effects of different storage conditions on survival of wild oat (Avena **fatua**) *seeds*. 123187
Seed and **forage** yields in the alfalfa for dryland culture as affected by seed rate, variety and period of use. 122134
Seed **formation** in Artemisia rhodantha Rupr. 121108
Seeds and **fruits** of North American Papaveraceae. 120573
Effect of succinic acid on the activity of adenosinetriphosphatase in **germinating** *seeds* of spring wheat. 121433
Effect of organic substrates on slow **germinating** *seeds* of some forest trees and shrubs. 121811
Effects of soil microorganisms and their products on the **germination** of *seeds*. 120898
Effect of water-soluble excretions from litter fall of woody plants on te **germination** of *seeds*. 120964
Correlations in the *seed* in **germination.** 121085
Studies on the *seed* **germination** of Bupleurum falcatum L. I. Influence of the time elapse after seed harvest and light conditions on the germination. 121333
Studies on the *seed* **germination** of Bupleurum falcatum L. II. Methods of hastening of germination and storage of the seeds [with low temperature treatment]. 121334
Effect of pre-sowing treatments and temperatures on *seed* **germination** of Acacia cyanophylla Lindl. 121669
The low temperature limit for [cucumber and mung bean] *seed* **germination.** 121742
Seed **germination** of Hieracium pratense, a successional perennial. 123067
Pumpkin (Cucurbita sp.) *seed* **globulin.** I. Purification characterization, and subunit structure. 121757
Pumpkin (Cucurbita sp.) *seed* **globulin.** II. Alterations during germination. 121758
State inspection in Trondelag for wild oats [Avena fatua] in *seed* **grain.** 117134
Some effects of barley **grass** *seed* on young sheep [Contamination of wool and the damage to lambs' pelts]. 119279
Results of breeding and *seed* **growing** research with sunflower. 120812
Effect of metabolites of symbiotic bacteria on the *seeds* and **growth** of seedlings of Carex enervis C.a.m. 121100
Reproduction 12 years after *seed-tree* **harvest** cutting in Appalachian hardwoods. 119642
Studies on the seed germination of Bupleurum falcatum L. I. Influence of the time elapse after *seed* **harvest** and light conditions on the germination. 121333
Longevity of the *seeds* of **herbaceous** plants from the [Ukrainian] Carpathians. 120966
Environmental and genetic effects on pseudocompatibility in Brassica oleracea in relation to the production of **hybrid** *seed*. 120772
Producing **hybrid** *seeds* in sorghum for grains and sorghum X herb sudangrass. 120792
Planned transition to **industrial** *seed* and fruit production via the authenticated method of cooperation [Five-Year Plan, forecast, East Germany]. 115936
Effect of photoperiod on germination of Cyperus **inflexus** *seeds*. 120972
Seed-applied **insecticides** for rice water weevil [Lissorhoptrus oryzophilus] control. 123348
A checklist of the cone and *seed* **insects** of Idaho. 123476
Differential acceptance of toxic **jojoba** *seed* (Simmondsia chinensis) by four Sonoran desert heteromyid rodents [Seed toxicity]. 119234
Growing bigger and better crops with savings in *seed* and **labour.** 115327
Cereal and grain **legume** *seed* production 1975-76. 122160
Dependence of the fruit fall of black current from the number of *seeds* and **location** in the cluster. 121611
Studies on the seed germination of Bupleurum falcatum L. II. Methods of hastening of germination and storage of the *seeds* [with **low** temperature treatment]. 121334
Freeze-drying as an alternative method for **lowering** *seed* moisture [Onions, peppers, parsley]. 121764
Effect of sowing rate and sowing date on **lupin** *seed* yield. 122047
Study on the effect of ethyl methanesulphonate and N-nitroso-N-methylurethan after treatment of *seeds* from **maize** inbred lines. 120650
Content of B complex vitamins in the parental forms of the *seeds* of **maize** and sunflower and in hybrids in relation to the combining ability of lines. 120699
Physiologically active substances of the B complex [vitamins] in the *seeds* of **maize** inbred lines and in initial forms. 120711
Processing of **maize** *seeds* by insecticides in order to prevent and to limit the damages produced by some pests. 123258
Performance of **Marsh** *seedless* grapefruit on six rootstocks in Cyprus [Yields, fruit quality, growth]. 122403
Study of influence of *seed* **microflora** on barley planting quality in the western zone of the Latvian SSR. 122625
Contribution of the cell fractionation to the study of protein bodies, spherosomes, microbodies and **microsomes** of *seeds*. 121084
Morphology and anatomy of fruits and *seeds* of the **middle** European Erysimum L. species. 120200
Toxic effects of lead on growth & metabolism of germinating rice (Oryza sativa L.) *seeds* & on **mitosis** of onion (Allium cepa L.) root tip cells. 122952
Effect of succinic acid on protein complexes in *seeds* [**Mung** beans]. 121615
A technique for the accelerated production of commercially acceptable citrus clones from *seed* [**Nursery** propagation]. 122212

Seed **orchards** as a future source of seedlings [Artificial reforestation]. 119614
Eradication of *seed-borne* **organisms** from imported vegetable seeds by hot-water treatment [Fungi, germination test]. 122645
Effect of gamma-radiation on the *seeds* of **[ornamental]** Clematis [Species]. 121612
Studies of Navua Sedge (Cyperus aromaticus). 1. Review of the problem and study of morphology, *seed* **output** and germination. 123083
Germinating **palm** *seeds.* 121628
Studies on utilization of parthenogenesis in breeding of Brassica pekinensis [Chinese cabbage]. II. To increase the percentage of **parthenogenesis** *seed* setting with chemicals. 120770
Isolation of lipoxygenase from split **pea** *seeds,* snap beans, and peas. 117276
Effect of the location of *seeds* on the **peavine** plant on the yielding qualities [Varieties]. 122148
Endogenous plant growth substances in developing fruit of Prunus cerasus L. [Sour cherry]. V. Changes in inhibitor (ABA) [abscisic acid] levels in the *seed* and **pericarp.** 121705
Hormonal bioassay of French prune (Prunus domestica L.) *seed* and **pericarp.** 121707
Influence of substrate moisture level on the **germination** of sweetgum and sand **pine** *seed* [Liquidambar styraciflua, Pinus clausa]. 121830
Gradual intensification of *seed* **potato** production in the Sanitz Cooperative Farm [East Germany]. 122294
Purpose and conditions of introducing a method of *seed* **potato** production developed by the Estonian Agricultural Academy. 122495
Vector control in *seed* **potato** farming [Insect pests, virus transmission]. 122835
Measures for improving seedling quality *[Seed* **potatoes].** 122295
Time of planting and lifting of elite *[seed]* **potatoes** when growing them on a virus-free basis in the Voronezh Region. 122870
Optimum application of fertilizers to food and *seed* **potatoes.** 124984
Protease & phosphatase activities in relation to **presowing** *seed* treatments in sorghum. 121506
Seed **production** in sunflower hybrids created on base of cytoplasmatic androsterility with restored pollen fertility. 120793
Culture and *seed* **production** of winter rye in eastern foreststeppe Ukraine. 121933
Peculiarities of agronomic practives and the *seed* **production** of intensive varieties of winter wheat. 122006
Harvesting plots of *seed* **production** in cereals, leguminous plants and of hybrid plots of maize. 122068
Effects of pollination by bees [Apoidae] on *seed* **productivity** of alfalfa. 124161
Aspects of kauri [Agathis australis] **propagation** by *seed.* 119562
Inhibitors of proteolytic enzymes and *seed* **proteases.** 121086
Application of research on *seed* **proteins** in the area of nutrition and medical research. 116387
Seed **proteins** in plant taxonomy and phylogeny. 120053
Study of proteins from *seeds* of **pulses.** 3. Disk-elektrophoretic study of salt-soluble proteins from seeds of some varieties of lentils. 117320
Purple *seed* stain of soybeans [caused by Cercospora kikuchii]. 122736
Quality *seed* production, seed storage and packaging aspects. 115617
Fertilization effect on *seed* **quality** taking microelements under consideration. 125073
Yield response of sulla sweet vetch (Hedysarium coronarium L.) to different *seed* **quantities** and seed spacing. 122143
The effect of *seed* **quantity** and row spacing on yield of two varieties of forage sorghum. 122137
Seed and forage yields in the alfalfa for dryland culture as affected by *seed* **rate,** variety and period of use. 122134
The effect of the *seed* **rate** on the biological and productive response of different varieties of durum wheat. 122138
Dates of sowing, *seed* **rates** and [wheat] varieties. 122014
Seed **rates** used in cultural techniques for sulla sweet vetch (Hedysarum coronarium L.). 122135
Evaluation of the Velvet **Roll** *Seed* Separator for its use in the purity analyses of alfalfa (Medicago sativa L.) and rapeseed (Brassica campestris L.) [Seed testing equipment]. 122058
The endopeptidase nature of a trypsin-like enzyme from **rye** *seeds.* 121451
Stimulatory action of Azotobacter chroococcum from water hyacinth (Eichhornia crassipes Mort Solms) on germination of *seeds* of **rye** (Secale cereale). 121568
Quality of winter **rye** *seeds,* obtained from lodged plants, during storage. 121573
Genetic modification of the waxy character in barley aftrer an injection of wild-type exogenous DNA. Analysis of the **second** *seed* generation. 120783
Seeds, **seedlings,** and the origin of angiosperms [Palesbotany]. 120061
Selected *seed* production of food species in Senegal [Field crops]. 121871
Protein estimation in **sesame** *seed* and rapeseed flours and meals by a modified Udy dye binding method. 116406
Effects of ovule positions in fabaceous flowers on *seed* **set** and outcrossing rates [Lupinus nanus, alfalfa]. 121435
Biological factors of resistance to *seed* **shattering** im hemp. 121571
Cold storage of already after-ripened beech (Fagus **silvatica** L.) *seeds.* 121792
Effects of *seed* **size** and spacing of seed tubers and stems on yields of early and canning potatoes. 122387
Effect of *seed* **size** and spacing on the yield and grading of "pentland" potatoes [Varieties]. 122462
Investigation on [wheat] *seed* and **soil** treatments [with lindane] against larvae of Zabrus spp. and Anisoplia spp. cereal pests in Central Anatolia. 123290
Yield and sowing qualities of Mironovskaia 808 *seeds* at different **sowing** rates [Winter wheat]. 122154
Elemental composition of corn grains, **soybean** *seeds,* pasture grasses, and associated soils from selected areas in Missouri. 120392
The storage of *seeds* **[Soybeans,** sorghum]. 117208
Yield response of sulla sweet vetch (Hedysarium coronarium L.) to different seed quantities and *seed* **spacing.** 122143
Quality seed production, *seed* **storage** and packaging aspects. 115617
Identification of *seed-like* **structures** [formed by six fungus genera, Anguina nematode galls and solanaceous sclerotic granules]. 122762
Sowing coated **sugarbeet** *seeds* in Kirghizia. 121985
Use of low sowing rates of **sugarbeet** *seeds* on irrigated lands in Kirghizia. 121987
Studies on the influence of infection with mosaic (Beta virus 2) and yellows (Beta virus 4) on the yield quality of **sugarbeet** *seeds.* 122836
Sowing genetic monogerm **sugarbeet** *seeds* with SPC-6 machines. 124718
Effect of irrigation regime and mineral nutrition on the yield of *seeds* [of **sugarbeets]** and their productive properties. 125244
Rheology and spinning of alkaline solutions of **sunflower** *seed* globulin and casein. 117154
Cuticular waxes [of Brassica and **sunflower** *seed]* and chromatography. 117178
Responses in linoleic acid content of milkfat from cows receiving different levels of protected **sunflower** *seed* supplement [Effects of feeding]. 118014
Effect of different light periods on the *seed* **surface** of fenugreek [Trigonella foenum-graecum] during the maturation phase. 121338
Seeding rate and characteristics of the *seed* in the **technique** of cultivating the potato in autumn-spring cycle. 122466
Pima [cotton] *seed-conditioning* **test.** 117176
Evaluation of the Velvet Roll Seed Separator for its use in the purity analyses of alfalfa (Medicago sativa L.) and rapeseed (Brassica campestris L.) *[Seed* **testing** equipment]. 122058
The sterolic fraction of **tomato** *seed* oil (Lycopersicon esculentum Miller). 117319
Differential acceptance of toxic jojoba seed (Simmondsia chinensis) by four Sonoran desert heteromyid rodents *[Seed* **toxicity].** 119234
New provisions of the statute gazette of the German Federal Republic *[Seed* **trade** legislation]. 115979
Anther and pollen infection in relation to the pollen and *seed* **transmissibility** of two strains of barley stripe mosaic virus in barley. 122826
Possibilities of inducing economically useful mutations in maize by *seed* **treatment** with ethyl methanesulphonate and N-nitroso-N-methylurethan. 120647
Control of leaf rust [caused by Puccinia recondita] on spring wheat by *seed* **treatment** with 4-N-butyl-1,2,4-triazole. 122726
Collection, extraction and processing of forest **tree** *seed.* 119623
Synthesis of 3-beta-glycosides of diosgenin [from Dioscorea deltoidea], yamogenin and gitogenin [from the *seed* of **Trigonella** foenum-graecum]. 121261
Effects of seed size and spacing of *seed* **tubers** and stems on yields of early and canning potatoes. 122387
Yield response of sulla sweet vetch (Hedysarum coronarium l.) to different *seed* **types** and seeding modalities. 122142
Connecting ontogenic events in *seeds* to the **ultrastructural** and molecular levels. 121083
Potato cyst nematode—danger of infection with use of **uninspected** *seed* potatoes. 122985
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of salt-soluble proteins from *seeds* of some **varieties** of lentils. 117320
Eradication of seed-borne organisms from imported **vegetable** *seeds* by hot-water treatment [Fungi, germination test]. 122645
The seed banks of parairie glacial marshes [Vegetation zones, *seed* **viability].** 120335
A review and evaluation of *seed* **vigor** tests. 119914
The effect of depth of burial in soil on the survival of some common Rhodesian **weed** *seeds.* 123189
Stock of **weed** *seeds* in the arable layer and ways of decreasing it. 123196
Using the method of biological evaluation of winter **wheat** *seeds* [for winterhardiness]. 121574
Wild oat [Avena fatua] control in *spring-seeded* **wheat** and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Effect of inorganic fertilizers and sowing rates on the sowing and yielding properties of spring **wheat** *seeds.* 125083
Biology of germination of the *seed* of **yellow** gentian [Gentiana lutea]. 120961
Effects of planting pattern and sowing method on the *seed* **yield** of safflower, oilseed rape, and lupin. 122048
Effects of sowing rate and row width on the *seed* **yield** of three grasses [Lolium multiflorum, Dactylis glomerata, Festuca arundinacea]. 122119
Effects of fertilizer and moisture on *seed* **yield** of onion. 122335
The significance of nitrogen nutrition to the *seed* **yield** and its relating characters of soybeans, with special reference to cool summer injury. 125064

SEGMENTS

Segmental **anomaly** in Polydesmus angustus Latzal (Myriapoda, Diplopoda, Polydesmidae). 123841
Post-pollination phenomena in orchid flowers [Cymbidium]. VII. Phosphate movement among **floral** *segments.* 121590
Electrophoretic separation of dsRNA **genome** *segments* from maize wallaby ear virus and its relationship to other phytoreoviruses. 122876
Application of *segment* **labelling** techniques to studies of ion uptake by plants growing in soil. 120897
The developmental anatomy of adventive plantlets from leaves and **leaf** *segments* of Crassula argentea (Crassulaceae). 120428
Effects of monovalent cations on IAA [indoleaetic acid]-and FC [fusicoccin]-stimulated proton-cation exchange in pea **stem** *segments.* 121762
Auxin transport in **tendril** *segments* of Passiflora caerulea. 121745

SEGREGATION

Histone transition during spermiogenesis is absent in *segregation* **distorter** males of Drosophila melanogaster. 124159

SELAGINELLA

A plant for a contained atmosphere **[Growing** *Selaginella* kraussiana in containers]. 122412

SELENIUM

Selenium **content** of Bangladeshi rice by chemical and biological assay. 117124
A simple test for glutathione peroxidase and *selenium* **deficiency** [Animals]. 119201
Mercury and *selenium* **distribution** in a defined area and in its population [Tuscany, Italy, concentration in foods]. 116037
Effect on liveweight gain and wool weights of anthelmintic and *selenium* **drenching** of mountain country Merino and halfbred ewe hoggets. 118851
Ultrastructural changes in skeletal muscle of *selenium-vitamin* **E-deficient** chicks. 119069
Recent findings on the [nutritional and hereditary damage] of *selenium* upon **livestock.** 119173
Importance of *selenium* in **poultry** nutrition. 118141
Possibilities for prophylaxis of perosis in poultry. 2. Testing of a preparation with manganese and *selenium,* **supplied** by the State Farm Agraria Dresden, for perosis prophylaxis in a broiler unit. 119170

SELENOTHRIPS

Miridae of the genus Termatophylidea (Hemiptera) as predators of cacao thrips *[Selenothrips* **rubrocinctus].** 123233

SELIGERIA

Seligeria **careyana,** a new species from the Queen Charlotte Islands, Western Canada [Musci]. 119989

SEMEN

Comparative aspects of the accessory sex glands and *seminal* **biochemistry** of mammals [Primates]. 118249
Artificial insemination in swine. Influences of **boar** *seminal* plasma on breeding efficiency of diluted boar semen. 118382
Procedures for field handling of **bovine** *semen* in plastic straws. 118287
Specific pathogen free (SPF) frozen **bovine** *semen:* a goal? 118288
Techniques for processing and packaging **bovine** *semen.* 118290
Techniques for evaluation of frozen **bovine** *semen* at Curtiss Breeding Service. 118291
Techniques for evaluation of **bovine** *semen.* 118292
Effect of low temperature extension of **buffalo** *semen* on preservation and fertility. 118320
Preservation characteristics of **buffalo** *semen* in citric acid-whey as an extender. 118358
Antibacterial agents for **bull** *semen;* do they help? 118281
Calcium-binding protein in **bull** *seminal* vesicle secretion and seminal plasma. 118346
Importance of the glutamate-oxalacetate transaminase activity in spermatological diagnosis **[Bull** *semen].* 118426
Semen **characteristics** of normal & vasectomized dogs. 118327
A sterilizing tail stump sperm defect in a Holstein-Friesian bull [Defective recessive genes, **deep-freezing** *semen].* 119184
[Bovine] *semen* **evaluation** at select sires. 118296
Electrophoretic fractionation of seminal vesicle fluid and *seminal* **plasma** of ram. 118321
Calcium-binding protein in bull seminal vesicle secretion and *seminal* **plasma.** 118346
How to get more *semen* **power** for your money [Bulls]. 118271
Sire housing and management at **Universal** *Semen* Service Ltd. [Bulls]. 117446
Electrophoretic fractionation of *seminal* **vesicle** fluid and seminal plasma of ram. 118321
Semen **volume,** insemination frequency and initial fertility of turkey breeders. 118415

SEMIARID *see* ARID

SEMLIKI

Suppression of glycoprotein formation of *Semliki* **forest,** influenza, and avian sarcoma virus by tunicamycin. 118809

SENECIO

Ecological and morphological characteristic of *Senecio* **cannabifolius** Less. 120418

Plant succession on an active tundra mud slump, Garry Island, Mackenzie River Delta, Northwest Territories *[Senecio* **congestus,** Arctagrostis latifolia, Eriophorum scheuchzeri, vegetation]. 120333

Weed control—ragwort *[Senecio* **jacobaea].** 123052

The first statewide war on tansy ragwort *[Senecio* **jacobaea].** 123105

Growth of stellaria media, capsella bursa-pastoris and *Senecio* **vulgaris** plantlets from cultured meristem tips. 121330

SENESCENCE

A requirement for cytoplasmic protein synthesis during **chloroplast** *senescence* in the aquatic plant anacharis canadensis. 121317

The fine structure of pea root nodules. 2. *Senescence* and **disintegration** of the bacteroid tissue [Rhizobium leguminosarum]. 120530

The interrelation of fruit development and **leaf** *senescence* in 'Anoka' soybeans. 121438

Senility **problem** in the greenhouse cucumber (Cucumis sativus) crop: effect of daylength on yield and content of abscisic acid-like growth inhibitors. 121603

SENSES

Agriculture *[Remote-sensing].* 115155

Remote-sensing **applications** in the state of Mississippi. 115265

Remote-sensing **applications** for Texas. 115266

Remote-sensing **applications** as utilized in Florida's coastal zone management program. 125133

Remote-sensing **applications** to water resources management in California. 125273

Counteracting pesticide nonsense with realistic **common** *sense* [Residues, pollution]. 123746

How to spend more *sense* than **dollars** on cafe curtains. 116576

How to spend more *sense* than **dollars** on window shades. 116577

How to spend more *sense* than **dollars** on round tablecloths. 116578

How to spend more *sense* than **dollars** on foil art [Home decorations]. 116579

How to spend more *sense* than **dollars** on area rugs. 116580

Environment *[Remote-sensing].* 125461

Gravity-sensing **guidance** systems in plants. 121352

Senses **involved** in the visiting of flowers by Cucullia umbratica (Noctuidae, Lepidoptera). 123891

South **Louisiana** *remote-sensing* environmental information system [Water resources]. 125275

Coastal zone **management** *[Remote-sensing].* 115246

Agricultural inventory capabilities of machine processed LANDSAT digital data **[Remote** *sensing].* 115153

Agriculture: summary **[Remote** *sensing].* 115154

The large area crop inventory experiment (Lacie). I. The use of Landsat data in Lacie **[Remote** *sensing].* 115156

The large area crop inventory experiment (Lacie). II. Yield etimates from meteorological information **[Remote** *sensing].* 115157

Three examples of applied **remote** *sensing* of vegetation [Aquatic weeds, urban planning, plant disease quarantine]. 115159

Handbook of New Hampshire's aerial photographic coverage **[Remote** *sensing].* 115193

Alaskan resources, current development. Traditional cultural values, and the role of landsat data in current and future land use mangement planning **[Remote** *sensing].* 115240

Alaska's needs in **remote** *sensing.* 115241

An examination of the potential applications of automatic classification techniques to Georgia management problems [Land use, **remote** *sensing].* 115242

Application of Landsat and Skylab data for land use mapping in Italy **[Remote** *sensing].* 115244

Arizona land use experiment **[Remote** *sensing].* 115245

Design criteria for a multiple input land use system **[Remote** *sensing].* 115247

Development of user applications for earth resources **[remote** *sensing]* survey data in urban and regonal planning in the Puget Sound area. 115248

Ground zero and up—Nebraska's resources and land use **[Remote** *sensing].* 115249

Improved resource use decisions and actions through **remote** *sensing* [Land use, Michigan]. 115250

Information flow of land- and water-related data in the state of Wisconsin **[Remote** *sensing].* 115251

Land use and environmental assessment in the central Atlantic region **[Remote** *sensing].* 115252

Land use and state and local users: summary **[Remote** *sensing].* 115254

Land use classification in Bolivia **[Remote** *sensing].* 115255

LANDSAT inventory of surface-mined areas using extendible digital techniques **[Remote** *sensing].* 115256

Louisiana comprehensive planning information system **[Remote** *sensing].* 115257

Ohio's statewide land use inventory: an operational approach for applying Landsat data to state, regional and local planning programs **[Remote** *sensing].* 115258

Present and potential land use mapping in Mexico **[Remote** *sensing].* 115259

Present and potential land use mapping in Mexico **[Remote** *sensing].* 115260

Remote *sensing* in Arizona. 115262

Remote *sensing* in Minnesota: evaluation of programs and current needs. 115263

Remote *sensing* in the state of Ohio. 115264

The national land use data program of the U.S. Geologica Survey **[Remote** *sensing].* 115270

The South Dakota cooperative land use effort: a state level **remote** *sensing* demonstration project. 115271

User requirements for project-oriented **remote** *sensing* [Tennessee Valley Authority]. 115273

Agricultural applications of **remote** *sensing*—a true life adventure [Cotton, safflower, and alfalfa]. 115373

Agricultural applications of **remote** *sensing:* a true-life adventure [Ranch management]. 115374

Need for **remote** *sensing* in agriculture. 115375

Practical application of **remote** *sensing* in agriculture. 115376

Mapping of the wildland fuel characteristics of the Santa Monica Mountains of Southern California [Forest fire management, **remote** *sensing].* 119350

Are clear-cut areas estimated from LANDSAT imagery reliable? **[Remote** *sensing].* 119495

Remote *sensing*—a valuable tool in the forest service decisionmaking process. 119498

The integration of manual and automatic image analysis techniques with supporting ground data in a multistage sampling framework for timber resource inventories: three examples **[Remote** *sensing].* 119499

Timber type separability in southeastern United States on LANDSAT-1 MSS [multispectral scanner] data **[Remote** *sensing].* 119500

A comparative interregional analysis of selected data from LANDSAT-1 and EREP for the inventory and monitoring of natural ecosystems **[Remote** *sensing].* 120364

Comparative utility of LANDSAT-1 and Skylab data for coastal wetland mapping and ecological studies **[Remote** *sensing].* 120365

Skylab investigation of the upwelling off the northwest coast of Africa [Surface chlorophyll concentration, Algae, **remote** *sensing].* 120366

The mapping of marsh vegetation using aircraft multispectral scanner data **[Remote** *sensing].* 120367

The mixture problem in computer mapping of terrain: improved techniques for establishing spectral signatures, atmospheric path radiance, and transmittance **[Remote** *sensing,* vegetative cover]. 120368

Wildlife management by habitat units—a preliminary plan of action [Vegetation maps, **remote** *sensing].* 120370

The interpretability of vegetation resources on various image types acquired from earth orbiting spacecraft **[Remote** *sensing* systems for identifying and delineating natural vegetation types]. 120372

Grassland vegetation analysis using **remote** *sensing* techniques. 5. Remote sensing data processing for the grassland planning [Soil survey]. 120394

Discriminating coastal rangeland production and improvements with computer aided techniques **[Remote** *sensing].* 121996

Estimating vegetative biomass from LANDSAT-1 imagery for range management **[Remote** *sensing].* 121997

Monitoring vegetation conditions from LANDSAT for use in range management **[Remote** *sensing].* 121998

Usefulness of LANDSAT data for monitoring plant development and range conditions in California's annual grassland **[Remote** *sensing].* 121999

The use of Skylab data to study the early detection of insect infestations and density and distribution of host plants **[Remote** *sensing].* 123237

Computer analysis and mapping of gypsy moth [Porthetria dispar] defoliation levels in Pennsylvania using LANDSAT-1 digital data **[Remote** *sensing].* 123475

An overview of the development of **remote** *sensing* techniques for the screwworm [Cochliomyia hominivorax] eradication program. 123633

The rationale for attempting to define salt marsh mosquito [Aedes sollicitans]-breeding areas in Galveston County by **remote** *sensing* the associated vegetation [Distichlis spicata]. 123634

Delineation of the boundaries of a buried pre-glacial valley with LANDSAT-1 data [Udoll soils, **remote** *sensing].* 124827

LANDSAT-1 data, its use in a soil survey program **[Remote** *sensing].* 124828

Microwave **remote** *sensing* of soil moisture. 124829

Soil moisture detection from Skylab **[Remote** *sensing].* 124830

The correlation of Skylab L-band brightness temperatures with antecedent precipitation [Soil moisture, **remote** *sensing].* 124831

Compensating for environmental variability in the thermal inertia approach to **remote** *sensing* of soil moisture. 124836

Measurements of spectral reflectance and optical constants of selected rock samples for application to **remote** *sensing* of soil moisture. 124868

An inundation study of the Lower Magdalena-Cauca River Basin **[Remote** *sensing].* 125253

Areal extent of snow estimation in the northern Sierra Nevada Mountains using LANDSAT-1 imagery **[Remote** *Sensing].* 125254

Automatic categorization of land-water cover types of the Green Swamp, Florida, using Skylab multispectral scanner (S-192) data **[Remote** *sensing].* 125255

Cases in the relation of research on **remote** *sensing* to decisionmakers in a state agency [Water quality, land use]. 125256

Evaluation of thermal X/5-detector Skylab S-192 data for estimating evapotranspiration and thermal properties of soils for irrigation management **[Remote** *sensing].* 125257

Factors affecting snow assessment from LANDSAT data] **Remote** *sensing].* 125258

Flood hazard studies in central Texas using orbital and suborbital **remote** *sensing* imagery. 125259

Hydrogeological investigations in the Pampa of Argentina **[Remote** *sensing].* 125260

Land use classification for hydrologic models using interactive machine classification of Landsat data **[Remote** *sensing].* 125262

LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia State Water Control Board. I. The state project **[Remote** *sensing].* 125263

LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia State Water Control Board. II. Monitoring water quality from LANDSAT **[Remote** *sensing].* 125264

Operational water management applications of snowcovered area observations **[Remote** *sensing].* 125265

Quantitative water quality with LANDSAT and Skylab **[Remote** *sensing,* reservoirs]. 125267

Remote *sensing* applications in Kansas [Water resources]. 125268

Remote *sensing* of Mississippi River characteristics. 125269

Remote *sensing* techniques for prediction of watershed runoff. 125270

Remote *sensing* applications in water resources management by the California Department of Water Resources. 125271

Remote *sensing* inputs to water demand modeling. 125272

Snow survey from space, with emphasis on the results of the analysis of Skylab EREP S192 multispectral scanner data **[Remote** *sensing].* 125274

The application of **remote** *sensing* technology to the inventory of Playa Lakes in the High Plains of Texas. 125276

The LANDSAT-1 multispectral scanner as a tool in the classification of inland lakes [Trophic status, **remote** *sensing].* 125277

The use of LANDSAT-1 imagery for water quality studies in southern Scandinavia **[Remote** *sensing].* 125278

The use of LANDSAT DCS and imagery in reservoir management and operation **[Remote** *sensing,* New England]. 125279

The use of Skylab and LANDSAT in a geohydrological study of the paleozoic section, west-central Bighorn Mountains, Wyoming **[Remote** *sensing].* 125280

Trophic status of inland lakes from LANDSAT [Computer programs, **remote** *sensing].* 125281

Urban land use: **remote** *sensing* of groundbasin permeability [Remote sensing]. 125282

Utilization of Landsat data for water quality **[Remote** *sensing]* surveys in the Choptank River. 125283

Water resources: summary **[Remote** *sensing].* 125285

Water-management model in Florida from LANDSAT-1 data **[Remote** *sensing].* 125286

Remote *sensing-aided* procedures for water yield estimation. 125297

Use of **remote** *sensing* to investigate water and other resource allocations [land use] in southern California. 125299

Application of EREP, LANDSAT and aircraft image data to environmental problems related to coal mining **[Remote** *sensing].* 125457

Application of thermal scanning to the study of transverse mixing in rivers **[Remote** *sensing,* pollutants]. 125458

Application of Skylab imagery to some geological and environmental problems in Italy **[Remote** *sensing].* 125459

Environmental assessment of resource development in the Alaskan coastal zone based on Landsat imagery **[Remote** *sensing].* 125462

Remote *sensing* applications in the inventory and analysis of environmental problems. 125463

Sensor equipment of the German earth scientific airplane program **[Remote** *sensing].* 125464

The total earth resources system of the 1980's: a view of the future **[Remote** *sensing].* 125465

An integrated study of earth resources in the State of California using **remote** *sensing* techniques; an introduction. 125486

Optical vs. Electronic enhancement of **remote** *sensing* imagery [for information as to the amount and condition of such earth resources as timber, forage, soils, water, minerals and agricultural crops. 125487

Regional inventories and mapping of land resources and enviromental geology using **remotely** *sensed* data. 115261

Operational considerations for the application of **remotely** *sensed* forest data from LANDSAT or other airborne platforms. 119497

Hydrologic land use classification of the Patuxent River watershed using **remotely** *sensed* data. 125261

Quantitative suspended sediment mapping using aircraft **remotely** *sensed* multispectral data [Water quality and movement]. 125266
Water **resources** *[Remote-sensing].* 125284
Development of biometry in the past century. II. Development of statistics in botany as an example for biology in the more **restricted** *sense.* 119910
Application of **satellite** *remote-sensing* data to land selection and management. 115243
The large area crop inventory experiment (Lacie). III. A systematic approach to the practical application of *remote-sensing* **technology.** 115158
Applications of *remote-sensing* **technology** to environmental problems of Delaware and Delaware bay. 125460
Land use and state and local **users** *[Remote-sensing].* 115253

SENSITIVITY
Innervation of bovine mammary gland with particular reference to **afferent** *(sensitive)* teat innervation. 117854
Staphylococcal mastitis in cows, buffaloes and goats and their **antibiotic** *sensitivity* [Staphylococcus aureus]. 118738
Temperature-sensitive **breakdown** in vivo of polysomes with mutants of Chlamydomonas reinhardii [Algae]. 121283
Altering the *sensitivity* of **carnation** flowers (Dianthus caryophyllus L.) to ethylene. 121696
Instability of yeast **cell** *sensitivity* to the [lethal] action of nitrous acid [Genetic factors]. 120622
Biochemical identification of Salmonellae and coli bacteria and their *sensitivity* to **chemotherapeutics** [Livestock, poultry]. 118974
Sensitivity of different **[crop]** plants to the action of amino ester derivatives [Potential herbicides]. 123060
Differing *sensitivity* of pyruvate orthophosphate dikinase to low temperature in maize cultivars. 121533
Use of tank trucks for fires in *fire-sensitive* **forest** areas. 119323
Thermometry of *temperature-sensitive* **goods** during shrink wrapping, shown by example of chocolate bars. 116791
The autonomic and *sensitive* **innervation** of the choledocus in Equus caballus [Horses]. 117618
Sensitivity of various **laboratory** and farm animals to Clostridium perfringens intoxication (mouse, guinea-pig, rabbit, chicken, piglet, lamb). 118842
The defective maturation of viral progeny with a *temperature-sensitive* **mutant** of avian sarcoma virus [Chick embryos]. 119041
Suppressor-sensitive **mutations** of Streptomyces coelicolor A3(2) and actinophage phiC31 [Fungi]. 120732
Oligomycin *sensitivity* of the mitochondrial ATPase [adenosine triphosphatase] as a marker for fly transmissability and the presence of functional kinetoplast DNA in African trypanosomes. 123619
The *sensitivity* of the **ovulation** rate of Finnish Landrace and Blackface ewes to exogenous oestrogen. 118361
Sensitivity of **panel** members in sensory tests [Food grading]. 116158
The poplar [Populus]: A tree very *sensitive* to the **presence** of salts [in the soil]. 121807
A *sensitive* **procedure** to determine uranium in [food] colouring materials [Food]. 116703
The use of antiaminophencyclidine antibodies for development of a *sensitive* **radioimmunoassay** [Rabbits]. 118967
Spectral *sensitivity* and variation in visual sensitivity of the colonized screwworm fly Cochliomyia hominivorax (Coquerel) as measured with electroretinogram. 123640
Hypersensitive response of near-isogenic wheat carrying the *temperature-sensitive* **Sr6** allele for resistance to stem rust [Puccinia graminis tritici]. 122705
Determination of the most *sensitive* **stage** to sterile-type cool injury in rice plants [in Hokkaido]. 123030
Studies on cool injury in bean plants. VII. *Sensitive* **stages** to sterile type low temperature injury during floral bud development in relation to nitrogen status of soybean plants. 123024
A simple and *sensitive* **staining** method for the detection of cellulase isozymes in polyacrylamide gels [Citrus sinensis, Trichodermata viride, Fungi]. 120881
Sensitivity of **tobacco** to chromium from mechanical draft cooling tower drift. 122910
Characteristics of Sindbis **virus** *temperature-sensitive* mutants in cultured BHK-21 [baby hamster kidney] and Aedes albopictus (mosquito) cells. 123641
Spectral sensitivity and variation in **visual** *sensitivity* of the colonized screwworm fly Cochliomyia hominivorax (Coquerel) as measured with electroretinogram. 123640
In **vitro** *sensitivity* of myxomatosis virus to 6-azauridine. 118617
Delayed plating recovery in diploid yeast [Saccharomyces cerevisiae] of different *sensitivities* after **X-ray** and alphaparticle exposure. 121147

SENSITIZATION
Comparative study "in vitro" between rabies and rabies related viruses by the *sensitized* **lymphocytes** technique. 118613
Cellular immunity in Listeria [monocytogenes] *sensitized* **young** chickens: assayed by an agarose drop macrophage migration inhibition test. 118821

SENSORY
Sensory **analysis** of beverages. 116655
Application of statistical tests for the interpretation of reslts of *sensory* **analysis** [Food industry]. 116785
Sensor **equipment** of the German earth scientific airplane program [Remote sensing]. 125464
Wax secretion in the **infrared** *sensory* pit of Melanophila acuminata (Coleoptera: Buprestidae). 124136
Differentiation of **insect** *sensory* neurons in the absence of their normal synaptic targets [Manduca sexta]. 123875
Projection of *sensory* **neurons** from a homeotic mutant appendage, Antennapedia, in Drosophila melanogaster. 123878
Vulnerative and *sensory* **organs** of the proboscis of the Tabanidae (Ochrops fulvus Mg., Tabanus bovinus L., Chrysops caecutiens L., Chrysozona pluvialis L.); sexual dimorphism. 123816
Comparative survey of the *sensory* **structures** on the sting and ovipositor of hymenopterous insects. 124037
Sensory **study** of soybean milk flavor. 117074
Extended complete block designs with correlated observations *[Sensory* **testing** models]. 115774
Sensitivity of panel members in *sensory* **tests** [Food grading]. 116158
Changes of *sensory* **value** by interaction of alkanals with amino acids and proteins [Rancid flavour of fat-containing foods]. 116231

SEPARATION
Gel **chromatographic** *separation* of retinol, retinyl esters and other fat-soluble vitamins. 116411
Separation into **components** and the recombination of nitrogenase from bacteroids of lupine [Rhizobium lupini, nodule bacteria]. 121450
Study of the centrifuge rudder equipped with wetting devices for the *separation* of **dust-free** fertilizers. 124957
Electrophoretic *separation* of dsRNA genome segments from maize wallaby ear virus and its relationship to other phytoreoviruses. 122876
Unusual **entomological** *separation* technique in use at the Food and Drug Administration [Detecting and isolating insect and rodent filth from food]. 116165
Mechanical **fiber** *separation* in kraft pulping systems. 119819
The *separation* of **pyruvate-ferredoxin** oxidoreductase from Clostridium pasteurianum into two enzymes catalyzing different reactions. 116049
Comparison of porcine liver tRNA preparations: purification of tRNA and its *separation* from **RNA-peptidyl** complexes. 117548

SEPARATORS
Renewal of treatment, storage and marketing units for food potatoes, and integration of automatic E 691 **mix** *separators.* 124672
Evaluation of the Velvet Roll **Seed** *Separator* for its use in the purity analyses of alfalfa (Medicago sativa L.) and rapeseed (Brassica campestris L.) [Seed testing equipment]. 122058

SEPHADEX
Chromatography of folates on *Sephadex* G-10 [in **cow's** milk]. 116890

SEPTIC
Denitrification of **nitrified** *septic* tank effluent. 125505
Septic **thrombosis** in a foal [Damage from migrating larvae of Strongylus vulgaris]. 119056

SEPTORIA
Spraying is not a **hobby** *(Septoria* control) [Wheat]. 122695
Resistance of *Septoria* **leucanthemi** to benzimidazole fungicides [Chrysanthemum maximum, leafspot]. 122759
The influence of (2-chloroethyl)-trimethylammonium chloride (CCC) and *Septoria* **nodorum** Berk. (Leptosphaeria nodorum, Muller) on the yield of winter wheat. 122581
The reaction of two spring wheat varieties exposed to epidemics of *Septoria* **nodorum** and Septoria tritici of varying intensity and duration. 122642
Testing black current root stocks for their resistance to *Septoria* **[ribis].** 122656
Resistance to *Septoria* **[tritici]** leaf blotch of wheat in California. 122555
The reaction of two spring wheat varieties exposed to epidemics of Septoria nodorum and *Septoria* **tritici** of varying intensity and duration. 122642
Tunisia and Montana—a wheat alliance [for *Septoria* **tritici,** Fusarium, Cercosporella control]. 122686
Field reactions of wheat to *Septoria* **[tritici]** leaf blotch. 122750

SEQUENCES
Amino **acid** *sequence* and calcium binding sites of bovine cardiac troponin-C. 117710
Sequential **changes** of estrogens and progesterone at prostaglandin-induced parturition in the sow. 118201
Study of a **climate** *sequence* in the island of Reunion [Soil sequences]. 124786
Evaluation of tillage and herbicides for grain sorghum surface residue management in an irrigated wheat-sorghum-fallow **cropping** *sequence.* 123754
The arrangement of **DNA** *sequences* in the chromosomes of Drosophila melanogaster. 123966
Sequences of **highly** repeated DNA in Drosophila melanogaster. 123965
A *sequential* **link** approach to evaluating transportation facility adjustments [including agricultural commodity distribution]. 115748
Discussion of a *sequential* **link** approach to evaluating transportation facility adjustments [for distribution of agricultural commodities]. 115753
An economic and mathematical model for determining the *sequence* of **measures** for applying fertilizers by aircraft in forestry. 125577
Globin **messenger** *sequences* in nuclear ribonucleoprotein particles of avian [chick] erythroblasts. 117849
Globin **mRNA** *sequences* in polyadenylated and nonpolyadenylated nuclear precursor-messenger RNA from avian [duck] erythroblasts. 117626
A study of **nucleotide** *sequence* homology between strains of tobacco mosaic virus. 122873
Partial *sequences* of 16S rRNA and the phylogeny of bluegreen algae and chloroplasts. 120786
Study of a climate sequence in the island of Reunion **[Soil** *sequences].* 124786
Multivariate and *sequential* **statistical** procedures in the biological assessment of water quality. 125333

SEQUOIA
Comparative ultrastructure of green and xantha **redwood** *(Sequoia* sempervirens) chlorplasts. 120538

SERIAL
Serial **designs** balanced for effects of [treatments to] neibours [plots] on both sides [Field crops]. 122022

SERICESTHIS
Insect density effects in root feeding by larvae of *Sericesthis* **nigrolineata** (Coleoptera: Scarabaeidae) [Pasture pests]. 123316
Survival of larvae of Anoplognathus porosus (Dalman) and *sericesthis* **nigrolineata** Boisd. (Coleoptera: Scarabaeidae). 124017

SERICOSTOMA
Floral anatomy of Boraginaceae. I. *Sericostoma* **pauciflorum** stocks. 120452

SEROLOGY
Serologic **characterization** and identification of four lepidopteran cell lines [Choristoneura fumiferana, Malacosoma disstria]. 123863
Serological **demonstration** of virus-specified proteins associated with cucumber mosaic virus infection of cucumber cotyledons. 122855
Serologic **differences** between strains of infectious bronchitis virus from New Zealand, Australia, and the United States [Chickens]. 118640
Foot-and-mouth disease in Ethiopia: *serological* and **immunological** study of FMDV type A [virus, guinea pigs]. 118900
Investigations of swabs from prepuce and from nose of horses for presence of bacteria like Klebsiella. III. *Serological* **investigations** on klebsiella strains. 118649
Studies on avian **mycoplasma**—*serological* studies. 118755
Postnatal developement and *serological* **specificity** of natural NDV-0 [Newcastle disease virus] agglutinins in laboratory animals. 118615
Materials on the methodology of blood sampling for *serologic* **studies** of natural-focal diseases. 118875
Serological **studies** of male and female strains of Eudorina elegans (Chlorophyceae) [Algae]. 121215
Serological **study** on cattle brucellosis in Dakar slaughterhouses. 118906
Toxoplasmosis in Thoroughbred horses: *serological* **study.** 118913
The 1973 epidemic of Japanese encephalitis [virus] in West Bengal: a *serological* **survey** of domestic animals [Swine, cattle]. 118748
Comparison of antigens of Dermatophilus congolensis isolates and their use in *serological* **tests** in experimental and natural infections [Fungal pathogen of livestock]. 118700
A new micromethod for *serological* **tests** in plant virology [cymbidium]. 122821

SEROTONIN
Corn malnutrition, **brain** *serotonin* and behavior. 116512
Influence of dieldrin on *serotonin* **turnover** and 5-hyroxyindole acetic acid efflux in mouse brain. 119262

SERPHOIDEA
A new species of the genus Platytelenomus Dodd, 1914 from Hungary (Hymenoptera, *Proctotrupoidea,* **Scelionidae)** [Platytelenomus unilineatus]. 124559

SERRATIA
Purification and properties of the dihydrofolate synthetase from *Serratia* **indica** [Nutrition study]. 116460

SERRATULA
Polyacetylenic compounds. 240. On the constituents of *Serratula* **wolfii** Andrae. 121005

SERUM
Bovine reaginic antibody. I. Rat mast cell degranulation by bovine **allergic** *serum.* 118766
Proposed definition on an **anti-Chlamydia** *serum* [Sheep]. 118918

Analysis of *serum* **arginase** activity: possible applications in industrialized livestock production [to detect disorders in protein metabolism]. 119150
Research on bilirubin, urobilinogen and rate of *serum* **bilirubin** in normal dogs and those with hepatic diseases. 119188
Investigations of transferrins, albumins, prealbumins and esterase in **blood** *serum* of some breeds of horses. 117701
Changes in the activity of transaminases and alkaline phosphatases from **blood** *serum* as related to the age, sex and growth rate of pigs. 117922
Types of transferrins in the **blood** *serum* of turkeys. 117927
Concentration and composition of proteins of swine **blood** *serum* as affected by different factors (review). 117931
Egg productivity of chickens from the 444th cross as related to the types of **blood** *serum* proteins. 118301
Polymorphism of **blood** *serum* proteins from chickens of the 444th cross [Genetical markers]. 118306
Blood *serum* levels of calcium, phosphorus and magnesium during th pregnancy of the female ass, Equus asinus L., 1758 (Perissodactyla, Equidae). 118391
Effect of superinvasion on the protein composition of the **blood** *serum* from chicks with coccidiosis caused by Eimeria tenella. 118931
Structural origins of mammalian albumin [**Bovine** *serum].* 117684
The effect of fetal **bovine** *serum* on polyene macrolide antibiotic cytotoxicity and antifungal activity [for control of tissue culture contamination]. 117740
Identification of **bovine** *serum* proteins by quantitative immunoelectrophoretic methods. 117928
Electrophoretic comparison, by cellulose acetate and nitrate, of protidic fractions on healthy dairy cattle and **buffalo** *serums.* 117913
Further characterization of IgA [immunoglobulin A] in **chicken** *serum* and secretions with evidence of a possible analogue of mammalian secretory component. 118696
Comparison of *serum* **cholesterol** in children fed high, moderate, or low cholesterol milk diets during neonatal period. 116480
Administration of [the antibiotic] Chloramphenicol in cats. *Serum* **concentrations** after oral, subcutaneous and intramuscular application. 118647
Effect of *sera* **containing** hepatitis B (HB-ag) antigen upon Nicotiana sylvestris [Tobacco, necrosis]. 122828
Serum **cortisol** (hydrocortisone) values in normal dogs as determined by radioimmunoassay. 117546
Detection of beta 2-microglobulin in *sera* from **diverse** vertebrate species by the use of a heterologous radioimmunoassay [Goats, immunology]. 118938
Toxoplasma antibody in *sera* from **Dublin** dogs [Toxoplasma gondii]. 118773
Outline of *serum* **electrophoresis** of some diseases of the Italian swine. 118445
Serum **enzymatic** research of lambs aged from 10 to 30 days, including a report on prophylaxis for enzootic muscle dystrophy. 119083
Dynamics of some *serum* **enzymes** during the postnatal development of calves. 117947
Nutritive muscular dystrophy of cattle. 6. Activity of *serum* **enzymes** alkaline phosphatases, aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of "white muscle disease in young cattle. 119202
Serum **fibrinogen-related** antigen concentrations in the normal dog as measured by the tanned erythrocyte hemagglutination-inhibition immunoassay. 117943
Serum **gastrin** concentration after sham feeding and feeding under the influence of propranolol in man. 116315
Sabin-Feldman and indirect flourescent antibody tests for detecting antibodies of Toxoplasma gondii in **horse** *sera.* 118910
Production of **hyperimmune** *sera* for the diagnosis of enzootic abortion in sheep. 119029
Failure of commercially prepared isoniazid diet to produce **isoniazid** *serum* concentrations in rhesus monkeys. 118108
Serum **levels** of progesterone, estradiol, and hydrocortisone in ewes after abortion due to Listeria monocytogenes type 5. 118605
Arylesterases from various **mammalian** *sera* in relation to cholinesterases, carboxylesterases and their activity towards some pesticides. 123695
Testis metabolism in protein deficiency: effect of PMS [pregnant **mare** *serum]* gonadotrophin and testosterone propionate [Rats]. 117766
Original observation on prolans in the *serum* of **mares.** 118393
Superovulation in the cow using pregnant **mare's** *serum* gonadotropin prostaglandin F2alpha. 118423
Immunoglobulin G in the *sera* of **newborn** buffalo (Bos bubalus bubalis) calves. 119008
The *serum* **pepsinogen** analysis and its relation to bovine ostertagiasis [Ostertagia ostertagi, parasitic worms]. 118865
Suitability of *serum* of **pregnant** Mongolian mares to improve fertility of autochthonous cattle. 118374
Serum **protein** synthesis in the early chick embryo. 117647
Fractional composition of *serum* **proteins** of cattle sick with leucosis. 118545
Preparation and partial physico-chemical characterization of **sheep** *serum* transferrin. 117665
Laser light scattering bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for milk, *serum,* **urine,** and bile. 118460
Serum **vitamin** B12 levels in protein-malnourished children. 116498
Rabies antibodies in *sera* of **wild** birds. 118814

SESAME

Protein estimation in *sesame* **seed** and rapeseed flours and meals by a modified Udy dye binding method. 116406
Sesame: **Sesamum** indicum (Pedaliaceae). 121959

SESAMIA

Stem-borer *[Sesamia* **botanephaga]** ecology and strategy for control [Stemborer of maize in West African areas]. 123276
Effect of various factors on the activity of sucrase from the larvae of *Sesamia* **inferens.** 123886

SESELI

Seseli **montanum** L. Found in the Netherlands. 120026
Components of Umbelliferae. IX. THree new coumarins of *Seseli* **tortuosum** L. 120874

SESQUITERPENES

Vulgarone, a *sesquiterpene* **ketone** with a new carbon skeleton from Chrysanthemum vulgare. 121781
Sesquiterpenoid **stress** compounds of Datura stramonium: biosynthesis of the three major metabolites from (1,2-13C[carbon isotope]) acetate and X-ray structure of 3-hydroxylubimin. 121009

SET

Defective ovules in avocado cultivars **[Abnormalities,** *fruit-set].* 122965
Functional, anatomical and radiographic studies of the dorsal **head-neck** *set* in the dog and their effects on the problems associated with the erect position of the head in hominids. 117553
Mill alignment, *set-up,* and **maintenance** [Lumber industry]. 119693
Problems *set* by Chrysops melicharii Mik (Tabanidae, Diptera) in Switzerland. 124345
World tobacco **production** *set* another record in 1975. 115639
Insulin and the *set-point* **regulation** of body weight. 116363
Effects of ovule positions in fabaceous flowers on **seed** *set* and outcrossing rates [Lupinus nanus, alfalfa]. 121435
The role of the lateral hypothalamus in determining the body **weight** *set* point [in control animals]. 116384

SETAE

Correlation between protein content and cell elongation in *setae* of **Lophocolea** heterophylla [Hepaticae] sporophytes. 121186
Sensillum-like *setae* in the lumen of the spermathecal gland of Plodia interpunctella [Stored-product insects]. 123579

SETARIA

Induced mutations in foxtail **millet** *(Setaria* italica Beauv.). II. Viable mutations in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840

SETTLEMENTS

Migration to an American frontier [North **Dakota,** *settlement].* 115115
The release, *settlement* and **germination** of zoospores in Chorda tomentosa [Algae] (Phaeophyceae, Laminariales). 121221
Administrative approaches to the management of the dry margins of Kikuyuland, 1930-1970 [Drought, **land** *settlement].* 115148
A model of ecological development and **land** *settlement* for the Orinoco River Basin of Colombia. 115292
Consolidation as an instrument of reorganization of **land** *settlement.* 115297
Regulation of **land** *settlement* by consolidation in North Rhine Westphalia. 115670
Land utilization and **rural** *settlement* in the area of Italian colonization in Rio Grande do Sul, Brazil. 115216

SEWAGE

The rotation aeration (system Fuchs) for treatment of liquid animal and municipal wastes. 4. Hygienic investigations during rotating aeration of *sewage* **sludge.** 125394
Soybean yield responses and assimilation of Zn [zinc] and cd [cadmium] from *sewage* **sludge-amended** soil. 122026
Mineral composition of liver and kidney of rats fed corn, sorghum, and soybean grain grown with *sewage* **sludges** and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Utilization of animal manures and *sewage* **sludges** in food and fiber production. 124973

SEX

Comparative aspects of the **accessory** *sex* glands and seminal biochemistry of mammals [Primates]. 118249
Isolation and purificaton of the *sexual* **agglutination** substance of mating type a cells in Saccharomyces cerevisiae [Yeast]. 120587
Sclerotina to *sex* **attractants**—ADAS [Agricultural Development and Advisory Services] Eastern Region work [Vegetables, disease and pest control research, Great Britain]. 122937
Biosynthesis of the waxmoth [Galleria mellonella] *sex* **attractants.** 123976
Sexual **attraction** in a Trichoptera: Eniocyia pusilla Burmeister. 123845
Why not raise separate **broiler** *sexes?* 117493
Separate and joint rearing of **broilers** of different *sexes.* 117452
Canine intervertebral disc disease—occurrence by age, breed, and *sex* among 8,117 **cases.** 119195
Caste determination in the higher termites: evidence for a royal control on the formation of the *sexual* **caste** in Macrotermes bellicosus Smeathman (Isoptera, Termitidae). 123994
Neural and hormonal determinants of *sex* **differences** in food intake and body weight [Rats]. 116365
Vulnerative and sensory organs of the proboscis of the Tabanidae (Ochrops fulvus Mg., Tabanus bovinus L., Chrysops caeecutiens L., Chrysozona pluvialis L.); *sexual* **dimorphism.** 123816
Sexual **dimorphism** of the pincers of the pedipalps in Bothriuridae scorpions. 123842
Recognition and *sexual* selection in **Drosophila:** classification, quantification, and identification. 124160
Localization and partial characterization of a *sex-specif* **enzyme** in homothallic and heterothallic Mucorales [Mucor mucedo, Fungi]. 120911
Effect of plant growth substances & vernalization on *sex* **expression** in Momordica charantia L. 121132
Comparative effects of (2-chloroethyl) phosphonic acid and the mono-2-chlorethyl ester of the acid on growth, peroxidase activity, and *sex* **expression** of a monoecious cucumber. 121698
The effect of an acute dose of biotin at a post-implantation stage and its relation with **female** *sex* steroids in the rat. 116462
Quantitative analysis of male responses released by **female** *sex* pheromone in Periplaneta americana. 123791
Progesterone and gravohormone for stimulation of the *sexual* **function** in cows. 118419
Changes in the activity of transaminases and alkaline phosphatases from blood serum as related to the age, *sex* and **growth** rate of pigs. 117922
Response of the prostatic complex of protein deficient rats to *sex* **hormones.** 118336
Sexual **isolation** between a European and an American population of Ectocarpus siliculosus [Algae] (Phaeophyta). 120776
Sex **knowledge,** birth control, and marital attitudes of a rural population. 115146
Effects of diethylstilbestrol, zeranol and *sex* on **live,** blood metabolite, carcass and endocrine characteristics of lambs. 117767
Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in boars selected for rate of body weight gain and thickness of back fat during growth, *sexual* **maturation** and after mating. 118347
Development of 3 beta-hydroxysteroid dehydrogenase in the ovary of the domestic fowl during *sexual* **maturation.** 118348
Sexual selection and **nuptial** feeding behavior in Bittacus apicalis (Insecta: Mecoptera). 123788
Assessment of *sex* **pheromone** activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
Field studies on *sex* **pheromone** trapping of the filbert leafroller, Arcips rosanus, in Oregon. 123370
Ecology and ethology of Ixodes ricinus L. In Switzerland (Ixodoidea: Ixodidae). 5. Proof of a *sexual* **pheromone** in ixodes ricinus. 123771
Studies on the site of *sex* **pheromone** production in the cockroach, Byrsotria fumigata. 123805
Behavioral responses of male Argyrotaenia velutinana (Lepidoptera: Tortricidae) to components of its *sex* **pheromone.** 124023
A synthesis of (z)-6-heneicosen-11-one. The *sex* **pheromone** of the Douglas fir tussock moth [Orgyia pseudotsugata]. 124070
Antennal receptor response to *sex* **pheromone** mimics in the American cockroach [Periplaneta americana]. 124094
Sex **pheromones** in stored product insects. Possibilities of practical applications. 123587
Sexual **polyploidization** and depolyploidization: some terminiology and definitions [Plant breeding]. 120841
Interference among females of Nasonia vitripennis (Hymenoptera: Pteromalidae) and its effect on *sex* **ratio** of their progeny. 123858
Laboratory studies on the autoecology of three species of the [Macrocheles] glaber group (Acarina, Mesostigmata). 3. *Sex* **ratio** and population dynamic. 124149
Sexual **reproduction** of Peridinium willei (Dinophyceae) [Algae]. 120777
Malaria: successful immunization against the *sexual* **stages** of Plasmodium gallinaceum [Aedes aegypti as vectors]. 123665
Development of an integrated control program for orchard pests in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and *sexual* **sterilization.** 123422
Effect of Tentex Forte on *sexual* **weakness** resulting from foot-and-mouth disease in exotic [Jersey] bull. 118730

SHADE

Influence of *shading* & **dodder** [Cuscuta] infection on the content & nature of alfalfa phenolics. 123089
Sun-shade **ecotypes** of a bluegreen alga [Plectonema notatum] in a hot spring. 121218
Diseases of *shade* and **forest** trees of the South. 122887
Gardening in the *shade.* 122271
Shade **management** in cardamom plantations. 122207
Selected maples for *shade* and **ornamental** planting. 122189
Potential herbicide combinations for weed control in *shade* **trees.** 123072

SHEARING

Shearing in the **seventities** [Sheep]. 117459
Winter *shearing* does have a major disadvantage [Heat loss from sheep]. 117938

SHEATH

The identity of Acrocylindrium oryzae Sawada and a similar fungus **causing** *sheath-rot* of rice. 120152
Speculations on a possible essential function of the **gelatinous** *sheath* of blue-green algae. 120988
Organization of membrane proteins in the intact **myelin** *sheath.* Pyridoxal phosphate and salicylaldehyde as probes of myelin structure [Cats]. 117788

SHEEP

Serum levels of progesterone, estradiol, and hydrocortisone in *ewes* after **abortion** due to Listeria monocytogenes type 5. 118605
Production of hyperimmune sera for the diagnosis of enzootic **abortion** in *sheep.* 119029
Calcium, phosphate, and skeletal metabolism in latent alimentary metabolic **acidosis** in *sheep.* 119154
Sheep **adapt** to [toxic] halogeton. 119224
Aldosterone production by *sheep* **adrenal** glands in vitro. 117838
Lung inflation and alveolar permeability to non-electrolytes in the **adult** *sheep* in vivo. 117827
Some biochemical studies on Listeria monocytogenes strains [isolated from **adult** *sheep,* lambs, fetuses, and ensilaged forage]. 118995
Behaviours of pH [hydrogen-ion concentration] and volatile fatty acids in rumen juice of *sheep* **afflicted** with latent alimentary metabolic acidosis. 119153
Leucaena leucocephala—an evergreen protein-rich tree fodder and the possibility of using it in the dietary of **animals.** 1. *Sheep.* 118081
On the innervation of the nipple of Ovis **aries** *[Sheep].* 117617
Contact chemoreceptors on the ovipositor of Lucilia cuprina (Wied.), the **Australian** *sheep* blowfly. 123603
Volatile fatty acid metabolism in *sheep.* 1. **Average** daily volatile fatty acid production in the rumen of sheep fed lucerne hay. 117869
The sensitivity of the ovulation rate of Finnish Landrace and **Blackface** *ewes* to exogenous oestrogen. 118361
A comparison of horse, cow, and *sheep* **blood** in NYC medium: effect on recovery of Neisseria gonorrhoeae and urogenital mycoplasmas. 117702
Relation of adaptive response to conditions in an arid zone with types of potassium concentrations (HK, LK) in the **blood** of *sheep.* 117726
Persistency of lactation in the Improved Valachian **breed** of *sheep.* 117756
Starting at square one *[Sheep,* **breeds].** 118194
Possibilities of utilizing the results of fattening performance tests in the evaluation of *sheep* **breeds.** 118259
Plasma carotene and vitamin A levels in cows, *sheep* and **camels** of the Thar desert. 117746
Potassium movement during hyperpolarization of cardiac muscle *[Sheep,* **cats].** 117814
Design and analysis of mixed grazing experiments [with **cattle** and *sheep].* 117393
The use of pyrethrum as an insect repellent in dingo baits [Animal pests of *sheep* and **cattle** in Australia]. 117496
Care of hoof of **cattle** and *sheep.* 117511
Effects of prolonged cold and the outdoor winter environment on apparent digestibility in *sheep* and **cattle.** 117622
Cellulose acetate electrophoresis of soluble lens proteins of different species of mammals; the use of discontinuous buffer systems [Rats, mice, **cattle,** *sheep].* 117633
Studies on the occurrence of isozymes of alkaline phosphatase in various tissues of **cattle** and *sheep.* 117861
Studies on the characterization of straw pellets. 10. Methodological studies on the in vitro investigation of different kinds of straw **[Cattle,** *sheep].* 118003
Ruminant nutrition research, 1973 *[Sheep,* **cattle].** 118150
The value of grass in reducing farm wintering costs in Hawke's Bay *[Sheep,* **cattle].** 118154
Artificial insemination and estruc synchronization in ruminants *[Sheep,* **cattle].** 118368
Clinical importance of ketogenic and antiketogenic factors **[Cattle,** *sheep].* 119204
Tick paralysis in a *sheep* **caused** by nymphs of Amblyomma variegatum. A preliminary report. 123681
How long does the postpartum anoestrus last in *sheep* under **certain** conditions. 1. The service interval. 118219
How long does the post-partum anoestrus last in *sheep* under **certain** conditions. 2. Non-pregnant period. 118220
Alterations in the organism of *sheep* with **chronic** intoxication by trolene [phosphoric acid product]. 119287
Action of histamine and its receptor blockers on uterine **circulation** in *sheep.* 117893
Urea phosphate as a partial protein replacer in *sheep* **concentrate** diets. 117975
Parameters of acid-base balance in *sheep* in **conjunction** with latent alimentary metabolic acidosis. 119167
Changes in parotid salivary flow during intracarotid infusion of potassium chloride into **conscious** *sheep.* 117822
Incidence of haemorrhagic enteritis due to Clostridium perfringens type 'C' and its **control** [in *sheep].* 118733
Capacity of the rumen in **Corriedale** *sheep* (Ovis aries) [Anatomy]. 117899
Gamma-glutamyl cysteine and pyroglutamate in normal and glutathione-deficient erythrocytes of **Corriedale** *sheep.* 119197
Effect on liveweight gain and wool weights of anthelmintic and selenium drenching of mountain **country** *Merino* and halfbred ewe hoggets. 118851
Single ionizing radiation effect on limb **development** of *sheep.* 117614
On the epizootiology of **dicrocoeliasis** in *sheep.* 118655
Lamb production of *sheep* with **differing** haemoglobin and blood potassium types. 118323
Some observations on Dermatophilus [congolensis] infection in The Gambia with particular reference to the **disease** in *sheep.* 118713
Pathology of the maedi **disease** of *sheep.* 119081
Parasitism among white-tailed deer and **domestic** *sheep* on common range. 118813
Dermatophilus [congolensis] infection in cattle, goats and *sheep* in **East** Africa. 118704
Australian model of parasite control baths [Cattle, *sheep,* **ectoparasites].** 123642
Changes in the secretion of ovarian steroids and pituitary luteinizing hormone in the periovulatory period in the *ewe:* the **effect** of progesterone. 118341
Production of estrogenic preparations by the method of imfecting legume plants [alfalfa] with the fungus Alternaria brassicicola **[Effect** on *sheep].* 121094
The effect of compensatory growth in *sheep* on **empty** body weight, carcass weight and the weights of some offals. 117758
Toxic infections of Ovidae. II. **[Enterotoxemia,** *sheep].* 118868
Seasonal variations in *sheep* **erythrocyte** reduced glutathione. 117757
Indirect hemagglutination with the use of glutaraldehyde-treated *[sheep]* **erythrocytes** to determine anthrax antibodies. 118985
Ultrastructure of glandular epithelial cells in the endometrium of the *ewe* during the **estrous** cycle and early pregnancy. 117892
Effect of pre- and postweaning anthelmintic drenching on live-weight gain and wool weight in Romney **ewe** *hoggets.* 118850
Effect on liveweight gain and wool weights of anthelmintic and selenium drenching of mountain country Merino and halfbred **ewe** *hoggets.* 118851
The sensitivity of the ovulation rate of Finnish Landrace and *Blackface* **ewes** to exogenous oestrogen. 118361
Volatile fatty acid metabolism in sheep. 1. Average daily volatile fatty acid production in the rumen of *sheep* **fed** lucerne hay. 117869
Development of gluconeogenic enzymes in **fetal** *sheep* liver and kidney. 117645
Control of disease in small **flocks** of *sheep.* 118774
Effect of prostaglandin E2 on ovine maternal placental blood **flow** *[Sheep].* 118198
Macromolecular components of genital tract **fluids** from the *sheep.* 117834
Absence of a correlation between the secretion of adrenocorticotrophin and vasopressin in **foetal** *sheep.* 117807
Hypoglycaemia as a stimulus for adrenocorticotrophin secretion in **foetal** *sheep.* 117808
The effect of two synthetic steroids on plasma glucose concentration and total entry rae of **glucose** in *sheep.* 117759
The radiosensitivities of lymphocytes from pig, *sheep,* **goat** and cow. 117864
Transformation of Meckel's cartilage and ossification of the mandible in ovis and capra *[Sheep* and **goats].** 117695
Rift Valley Fever *[Sheep,* **goats** and cattle]. 118684
Double infection of *sheep* and **goats** in Kenya with orf virus and Dermatophilus [congolensis]. 118708
Serodiagnostic studies on larval and strobilar phase of Taenia hydatigena with in vitro precipitation test [Cysticercus tenuicollis, *sheep,* **goats,** dogs]. 118919
A note on the effect of *sheep* **grazing** on the yield of grass swards. 122020
Sheep **grazing** in a young Sitka spruce [Picea sitchensis] plantation. 122024
Effect on liveweight gain and wool weights of anthelmintic and selenium drenching of mountain country Merino and **halfbred** *ewe* hoggets. 118851
We ought not to generalize about *sheep* **husbandry** and [natural] resources. 117477
Demonstration of the antigens of the organism causing enzootic abortion in *sheep* by using the **immunoperoxidase** method. 119021
Policy of **improving** *sheep* populations raised on unirrigated land; objectives and means of action. 118205
The probable relationship of rainfall to Dermatophilus congolensis **infection** in *sheep.* 118715
Prophylaxis of gadfly [Oestrus ovis] **infestation** of *sheep.* 123679
A proton magnetic relaxation study of the interaction of **isolated** *sheep* methaemoglobins A, B and C with inositol hexaphosphate. 117748
Djaleonke [West African Dwarf] *sheep* of the **Ivory** Coast in village environment. Behaviour and feeding. 118157
Mycoplasmas [Mycoplasma conjunctivae, Mycoplasma ovipneumoniae] and ovine **keratoconjunctivits** *[Sheep].* 119009
Kinetic studies of *sheep* **kidney** gamma-glutamyl transpeptidase. 117786
Further studies on adaptation of sheep pox virus in sheep thyroid and *sheep* **kidney** monolayers. 118753
Some chemical changes in the colostrum, milk and blood at various stages of **lactation** in *sheep.* 117747
Winter shearing does have a major disadvantage [Heat **loss** from *sheep].* 117938
The nature of differences in the adaptive response of *sheep* to **low** environmental temperatures in mountainous Altai. 117735
Research into the problem of *sheep* **lying** prone after giving birth. 119082
Livestock farming in Soria Province *[Sheep,* **management,** housing]. 117390
Nutritional evaluation of dehydrated cattle **manure** using *sheep.* 118032
The proper planning of *sheep* **mating,** an economically decisive moment in husbandry. 118403
Stimulation of breeding activity in spring-mated **Merino** *ewes.* 118191
The genetic control of red cell glutathione deficiencies in Finnish Landrace and Tasmanian **Merino** *sheep* and in crosses between these breeds. 118333
Fertility of **Merino** *sheep* classified according to degree of development of face wool and bred by artificial insemination. 118353
Results in oral and intravaginal application of megestrol-acetate for heat synchronisation of **Merino** *sheep.* 118373
Mammalian carbonic anhydrase isozymes: evidence for a third locus *[Sheep,* **mice,** rabbits, chickens]. 117810
Chemoprophylaxis for Anoplocephala to infestations of *sheep* **[Moniezia,** Thysaniezia]. 119020
Circulatory responses of the **near-term** *sheep* fetus to prostaglandin E2. 118197
An evaluation of the peptic digestion technique (Herlich 1956) for the postmortem recovery of abomasal **nematodes** from *sheep.* 118849
Concentrations of intermediate metabolites in the blood and hepatic tissues of pregnant and **non-pregnant** *ewes.* 117755
Sheep **nose** bots—Oestrus ovis. 123669
Uridine diphosphoglucose dehydrogenase in the intervertebral disc [of an **old** *sheep* and a young pig]. 117705
Seasonal variation in oestrous and ovarian activity of five breeds of *ewes* in **Otago.** 118377
Passive immunization against oestradiol-17 beta and its effect on luteolysis, oestrus and **ovulation** in the *ewe.* 118354
Plasma relaxin and prolactin immunoactivities in pregnancy and at **parturition** in the *ewe.* 118357
Stimulation of uterine activity by administration of prostaglandin F-2 alpha during **parturition** in *sheep.* 118360
Photosensitizing effect of **phenothiazine** [in *sheep].* 117952
Further studies on adaptation of *sheep* **pox** virus in sheep thyroid and sheep kidney monolayers. 118753
Specificity of the embryonic development of **precocious** *sheep.* 117936
Uteroplacental blood flow during hyperthermia with and without respiratory alkalosis [in conscious **pregnant** *sheep].* 117778
Supplemental needs of **pregnant** *ewes* wintered on fescue [Festuca arundinacea] pasture. 118098
Production, chemical composition and prostaglandin F-2 alpha content of uterine fluid in **pregnant** *sheep.* 118359
A system for inducing hyperthermia in **[pregnant]** *sheep.* 118366
Changes of ruminal mucosa and blood of *sheep* in **presence** of latent alimentary metabolic acidosis. 119156
Restatement of pregnancy diagnosis **procedures** in *ewe.* 118394
Outlook for *sheep* **[Progress** and future for the industry]. 115940
Effects of *ewe* **proximity** on peripheral plasma testosterone levels and behaviour in the ram. 118351
The influence of the level of feeding on fermentation in the rumen of *sheep* **receiving** a diet of ground barley, ground hay and flaked maize. 118086
The masking mechanism studies by means of rabbit and *sheep* **red** cells. The hypothesis of blocking of some access structures. 117565
Growth of the parts of the alimentary tract of the rat, and the small intestine of the *sheep,* **relative** to growth in live weight. 117579
Effect of pre- and postweaning anthelmintic drenching on live-weight gain and wool weight in **Romney** *ewe* hoggets. 118850
Concentration gradients of acidic fermentation products in the **rumen** of *sheep.* 117921
Changes in live weight and body condition of rams of three breeds throughout the year **[Scottish** *Blackface,* North Country Cheviot and South Country Cheviot]. 117559

Preparation and partial physico-chemical characterization of *sheep* **serum** transferrin. 117665
Proposed definition on an anti-Chlamydia **serum** *[Sheep].* 118918
Shearing in the **seventities** *[Sheep].* 117459
Capacity of the rumen in *Corriedale* **sheep** (Ovis aries) [Anatomy]. 117899
Fertility of *Merino* **sheep** classified according to degree of development of face wool and bred by artificial insemination. 118353
Results in oral and intravaginal application of megestrol-acetate for heat synchronisation of *Merino* **sheep.** 118373
Gamma-glutamyl cysteine and pyroglutamate in normal and glutathione-deficient erythrocytes of *Corriedale* **sheep.** 119197
Exhibition at Comodoro Rivadavia *[Sheep* **shows].** 117479
Exhibition at Esquel *[Sheep* **shows].** 117480
Exhibition at Puerto Deseado *[Sheep* **shows].** 117481
Exhibition at Trelew *[Sheep* **shows].** 117482
Exposition at Rio Gallegos *[Sheep* **shows].** 117483
Morphological studies of the ruminal mucosa of *sheep* with **simultaneous** clinical sheck up during feeding various feed types. 117988
Stimulation of breeding activity in **spring-mated** *Merino* ewes. 118191
The **strengthening** *sheep* industry. 115964
Comparative developmental hematology: animal models [mouse and *sheep]* to **study** human fetal erythropoiesis. 117939
Studies on the feeding value of wine yeast in trials with *sheep* and **swine.** 117999
Further studies on Haematoxenus separatus (Sporozoa, Theileriidae) of *sheep* in **Tanzania.** 118901
The genetic control of red cell glutathione deficiencies in Finnish Landrace and **Tasmanian** *Merino* sheep and in crosses between these breeds. 118333
On the immunological detection of thyroglobulin peptides synthesized in cell-free system *[Sheep* **thyroid** glands]. 117600
Further studies on adaptation of sheep pox virus in *sheep* **thyroid** and sheep kidney monolayers. 118753
Constitutional differences of heat **tolerance** in *sheep.* 117716
Effects on growing swine and *sheep* of **two** polychlorinated biphenyls. 119226
Rodent vectors of Salmonella **[typhimurium,** *sheep].* 119011
Effects of antihistamines on the lung vascular response to histamine in **unanesthetized** *sheep.* Diphenhydramine prevention of pulmonary edema and increased permeability. 117805
Dermatophilus [congolensis] infection [of *sheep]* in the **United** Kingdom. 118705
A colorimetric technique using chromium-ethylene diamine tetra acetate for measuring rumen **volume** *[Sheep].* 117753
An examination of the net changes in amino-acid composition within the rumen of mature **wether** *sheep* using canonical variate analysis. 117754
Some effects of barley grass seed on **young** *sheep* [Contamination of wool and the damage to lambs' pelts]. 119279
An economic review of the New **Zealand** *sheep* and beef industry 1971-2 to 1975-6 [Prices]. 115720

SHELF

Effect of acidification of canned tomatoes on quality and *shelf* **life.** 117235
Performance testing of long *shelf-life* **meats.** Report on the German Agricultural Society's quality test on long shelf-life meats for 1975. 116127
Shelf-life of **prepacked** sausage products. 116995

SHELL

Active carbon from **coconut** *shell* [Waste utilization]. 117274
Influence of roughage level on the site and extent of digestion of whole *shelled* **corn** by beef steers. 118094
Translucent areas on **egg** *shell.* 117052
A review: recent researches in India on the preservation of *shell* **eggs.** 117048
Inheritance of some characters in crosses between inbred lines of Bombyx mori L. for commercial feeds during summer and autumn months. I. Cocoon, *shell* and **pupal** weights. 124530

SHELLFISH

Structures of gonyautoxin II and III from the east coast toxic dinoflagellate Gonyaulax tamarensis **[Paralytic** *shellfish* poisoning]. 116180

SHELTER

Action needed to discourage removal of trees that *shelter* **cropland** in the Great Plains. 119376

SHELTERBELT

Change of genetical and morphological features and some chemical properties of soils under the effect of **field** *shelterbelts* in the Kamennaia Steppe. 119410
Utilization of terraces with a wide base for gully **forest** *shelterbelts.* 119412
Development of barley root rots in fields surrounded by **forest** *shelterbelts* [Helminthosporium, Fusarium, Alternaria]. 122777
Effect of forest litter in *shelterbelts* in the **Kamennaia** Steppe on the emergence and development of oak seedlings [Quercus]. 121833
Current legislation relating to Great **Plains** *shelterbelts.* 119379
Protection of Great **Plains** *shelterbelts* from insects [Trees, control]. 119386
Shelterbelts on the Great **Plains,** proceedings of the symposium Denver, Colorado April 20-22, 1976. 119394
Effect of fast-growing [tree] species on the growth and condition of common oak [Quercus robur] in *[shelterbelt]* **plantings** created by a strip type of mixing on the soils of the Kamennaia Step'. 119411
Introduction of the **problems** *[Shelterbelts].* 119385
Shelterbelt **renovation** in the Great Plains. 119393
State Experiment Station programs [in the Great Plains, *shelterbelt* **research].** 119396
Chemical and mechanical maintenance [Control of weeds in young **windbreaks** and *shelterbelts].* 123184

SHEPHERD

Results of testing work clothes [for *shepherds],* made from **synthetic** fabrics, on reindeer farms. 124617

SHIELDING

Cage trial against **green** *shield* bug (Palomena prasina L.), which causes damage to the hazelnut [Corylus] in the east Black Sea region, using chemicals effective in the controlof the hazelnut weevil [Balanius nucum]. 123376
A **nutritional** *shield* against the arrows of stress [Vitamins, minerals, and other concentrated supplements]. 116528

SHIGELLA

Fecal steroids in diarrhea. I. Acute shigellosis *[Shigella* **flexneri,** malnutrition]. 116280

SHIGELLOSIS

Fecal steroids in diarrhea. I. **Acute** *shigellosis* [Shigella flexneri, malnutrition]. 116280

SHIITAKE

On the components of pileus and stipe of **dried** *shiitake* [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and hot water soluble polysaccharides. 117297

SHIPPING

Order filling and *shipping* of **container-grown** [ornamental] plants. 117234
Rationalization of the transport of hard candies up to palletization of *shipping* **contaners.** 116790
Shipping **fever** pneumonia in yearling feedlot cattle. 118783
Effect of conditioning treatments before *shipping* and **floral** preservatives on vase life of cut roses. 117283
Cooling bell peppers **[prior** to *shipping].* 117213

SHOCK

Shock **avoidance** learning in intact and headless preparations of grasshopper Poecilocerus pictus. 123869
Shock **therapy** and anesthetic management in gastric dilatation-volvulus [Dogs]. 119120

SHOOT

The cytoplasmic RNA in the *shoot* **apex** of Chrysanthemum segetum L.: concentration, amount per cell and synthesis. 121597
In vitro culture of *shoot* **apical** meristem of Petunia hybrida for Mass production of plants. 121690
Studies on the stolon development in the potato plant. I. The orientation of the **axillary** *shoot* growth in the potato seedlings. 121765
The **fir** *shoot* aphid, Dreyfusia nordmannianae (Eckstein). 123498
Overwintering of brinjal [eggplant] *shoot* and **fruit** borer, Leucinodes orbonalis Guen. (Lepidoptera, Pyralidae) in Kulu Valley, western Himalaya, India. 123372
Free amino acid contents in the healthy & **galled** *shoots* of rice caused by Pachydiplosis oryzae (Woodson). 123310
The effect of the supply of mineral nutrients on root morphology, nutrient uptake, and *shoot* **growth** in cereals. 121421
Effect of auxin cofactors on rooting and the effect of gibberellic acid on *shoot* **growth** of lilac [Syringa] softwood cuttings. 121627
Environmental control of *shoot* **initiation** by Rieger begonia [Begonia hiemalis] **leaf** cuttings. 121671
Effect of **lateral** *shoot* orientation on growth and flowering of young apple trees. 121667
Propagation of rhododendrons by tissue culture. 1. Development of a culture medium for **multiplication** of *shoots.* 121630
Flower bud atrophy in Baccara roses [Rosa]. IV. The activity of various growth substances in leaves of flowering and **non-flowering** *shoots.* 121747
Flower bud atrophy in Baccara roses [Rosa]. VI. The effect of environmental factors on gibberellin activity and ethylene production in flowering and **non-flowering** *shoots.* 121749
Wilt of the one-year **peach** *shoots* affected by Clasterosporium [carpophilum]. 122660
Protection of **peach** *shoots* against species of Leucostoma [cincta and Leucostoma persoonii] with benomyl and captafol. 122735
Relationship of *shoot-root* **ratio** to survival and growth of outplanted Douglas-fir [Pseudotsuga menziesii] and ponderosa pine seedlings. 121836
Effect of photoperiodic manipulation on seasonal variation in bud and *shoot* **regeneration** of Rieger begonia [Begonia hiemalis] leaf cuttings. 121668
Nitrogen nutrition of Myriophyllum spicatum: uptake and translocation of 15N [nitrogen isotope] by *shoots* and **roots.** 121069
Anatomical and linden histochemical study of the *shoots* of **[Tilia]** from ornamental plantings in Moscow. 120417
Shoot **tip** culture of strawberry Fragaria chiloensis Duch. Var. mananassa Bailey. 122395
Twin *shoots* borne on a Botryopteris frond [fossil fern] from the British Upper Carboniferous [morphological variation]. 120256

SHOULDER

Surgical repair of [canine] **lateral** *shoulder* luxation. 119147

SHREWS

"A giant in insect **control"** *[Shrew].* 123257

SHRIMPS

Cost and return analysis by selected vessel characteristics: Gulf of **Mexico** *shrimp* fishery, 1971-1975. 115524
Preservation tests of **prepacked** *shrimp* in simulated sales conditions. 116820
The shape of things to come crab cakes, *shrimp* **shapes,** onion rings, fish filets. 116628

SHRINKAGE

Never-dried cotton fibers. IV. *Shrinkage* on **mercerization.** 117196
Shrinking **sections** of a US decade [Farm machinery trade]. 124657
Thermometry of temperature-sensitive goods during *shrink* **wrapping,** shown by example of chocolate bars. 116791

SHRUB

The effect of fluor compounds on the health condition of trees and *shrubs* near the **aluminum** smelting works "Konin" [Air pollution injuries]. 122909
Tree **ans** *shrub* species for [soil] conservation use in the northern Great Plains. 125151
Growth pattern and seasonal behavior of buds of Colliguaya odorifera, a *shrub* from **Chilean** mediterranean vegetation. 120331
Residential traffic noise control using *tree-shrub-barrier* **combinations.** 119388
The woodland border and its *shrubs* **[Landscape** gardening]. 122280
Small woody plants, transplantable with *shrubs,* for **open,** sunny areas in the garden [Landscape gardening]. 122278
Direct canning of rooted cuttings [of **ornamental** *shrubs]* into one gallon containers. 122218
Studies on the frost resistance of selected ornamental trees and *shrubs* in **Poland** and on the selection of maternal individuals (Acer, Campsis, Deutzia, Forsythis). 122186
Studies on the utility of selected species of trees and *shrubs* for the **recultivation** of sand escarpments in Szczakowa. 122188
Shrub **roses** in Scotland [Varieties]. 122479
Evaluation of the degree of damage to trees and *shrubs* by **sulphur** dioxide for [Air pollution resistance] breeding purposes. 122908
Present position and future prospects for the British Nursery industry [Ornamental **trees** and *shrubs].* 115825
Allelopathic activity of fruits of **trees** and *shrubs.* 121651
Biological activity of volatile secretions of flowers [of forest **trees** and *shrubs].* 121810
Effect of organic substrates on slow **germinating** seeds of some forest **trees** and *shrubs.* 121811
Virus diseases of ornamental **trees** and *shrubs.* 122830
Evaluation of the growth of *shrub* **willows** [Salix] from the point of view of the suitability for the biological stabilization of stream banks. 119372

SIBLING

Compared toxicities of different alcohols for two **Drosophila** *sibling* species: Drosophila melanogaster and Drosophila simulans. 123867

SIDERITIS

Pollen morphology of the **genus** *Sideritis* L. 120068
Epoxy-isofoliol, a new diterpenoid from *"Sideritis* **paulii".** 120875

SIEROZEM

Effect of different forms of nitrogenous fertilizers on the productivity of potatoes on **irrigated** *Sierozem* soils in Uzbekistan. 124920
Application of fertilizers in sugarbeets on **irrigated** *Sierozems* in Kirghizia. 125004
Effect of ammonium polyphosphate on maize on *Sierozem* in **relation** to the provision rate with zinc. 121399
Effect of long-term application of fertilizers in a crop rotation on the content of humus and nitrogen in *Sierozem-meadow* **soils** of Kirghizia. 124928
Plowing under straw for growing sugarbeets on *Meadow-Sierozem* **soils** in Kirghizia. 125010

SIEVE

Sieve **cleaning** in the plane sorter [Grain equipment]. 117150
Protein component in *sieve* **elements** of Quercus rubra L. 120548

Molecular *sieve* chromatography of proteoglycans: a comparative analysis [Chick embryos]. 117551
Sieve-tube **plastids** in the electron microscope; development and fine structure of plastids in the sieve tubes of Allium porrum L. [Leeks]. 120524

SIGNALS
Audiospectrographic analysis of **stridulatory** *signals* of some North American Corixidae (Hemiptera). 123817

SILAGE
Studies on *silage* making. II. **Addition** of urea and limestone to hybrid napier silage [Cross between Pennisetum purpureum and Pennisetum thyphoides]. 117350
The *silage* **additive** controversy [Cattle, feeding]. 118056
Feeding of sugarbeet top *silage* **[Cattle].** 118024
Chopped *silage* proves popular. 117385
Nitrogen additives to **corn** *silage* fed to growing calves. 118031
High, medium and low **corn** *silage* diets with and without monensin for feedlot steers. 118091
Silage **cutters**—what they have to offer. 124691
Potatoes as a stock feed *[Silage,* **dairy** cattle]. 117965
Some biochemical studies on Listeria monocytogenes strains [isolated from adult sheep, lambs, fetuses, and *ensilaged* **forage**]. 118995
Farm production experiments comparing **formalin-treated** *silage* with conventional foods for wintering yearling beef cattle. 118125
Studies on assessment of quality of roughage. 4. The assessment of nutritive value of **grass** *silage* by the cellulase method. 117376
Rations based on *silage* of **guineagrass** (Pannicum maximum Jacq.) for beef cattle in a feedlot. 118021
Evaluation of turkey **litter** *silage* as a feed source for replacement dairy heifers. 118174
Effect of feeding hay and *silage* made from **maize** hybrid napier [Pennisetum purpureum] and sorghum on the growth of crossbred calves. 118075
Studies on silage making. II. Addition of urea and limestone to hybrid **napier** *silage* [Cross between Pennisetum purpureum and Pennisetum thyphoides]. 117350
Sorghum and **napiergrass** *silage* as winter feed for pregnant beef cows. 118022
Sorghum silage and **napiergrass** *silage* for beef cattle feeding in the dry season. 118023
Ensilage of **oat** with berseem [clover]/concentrate mixture. 117349
A preliminary investigation into the role of yeasts in the *ensiling* **process.** 117354
Sodium metabisulfite as a preservative for *silage* **produced** brom maize plants. 117388
Some biochemical characteristics of citrus **pulp** *ensiled* at different molasses and bagasse levels. 117332
Silage **secrets.** 117334
Sorghum *silage* and napiergrass silage for beef cattle feeding in the dry season. 118023
Evaluation of the acceptability of fresh chicken waste: **sudax** *silage* vs sudax silage for feeding feeder cattle. 118116
The studies on the development of a whole-crop feed. 1. The quality and nutritive value of **whole-crop** *silages* made of oats, wheat and barley. 117378

SILICA
Kinetics of silicic acid uptake and rates of *silica* **dissolution** in the marine diatom Thalassiosira pseudonana [Algae]. 121207
Beer filtration. IV. *Siliceous* **earth** filtration with kettle filters. Basics of layer filtration. 116670
Application of chromatography on *silica* **gel** to vitamin D assays in "Vitastol". 116268
Silica **hydrogels,** their properties and uses in chillproofing beer. 116689
Silica **incorporation** in the cel wall of the stinging cell of Urtica dioica. 120550
The regulation of *silica* **incorporation** into the stinging cell wall of Urtica Pilulifera. 120554
Fate of the *silica* in **prairie** hay and alfalfa hay consumed by cattle. 118028
Effects of ammonium chloride on formation of *siliceous* **urinary** calculi in calves. 119085
On the function of *silica* held in **water** and foods: the brown rice. 117190

SILICATE
Continuous culture of marine diatoms under *silicate* **limitation.** II. Effect of light intensity on growth and nutrient uptake of Skeletonema costatum [Algae]. 121203

SILICIC
The role of clarification with *silicic* **acid** in wine technology. 117222
Kinetics of *silicic* **acid** uptake and rates of silica dissolution in the marine diatom Thalassiosira pseudonana [Algae]. 121207

SILICON
Polarographic determination of emulsifiers on *silicon* **coated** articles for consumption [Food]. 116078
Polarographic determination of emulsifiers on *silicon* **coated** articles for consumption [Food]. 116710
Electron microscopy of *silicon* **deposits** in foliar idioblasts of Magnolia grandiflora. 120543
Effect of *silicon* on the **growth,** area size of leaves and adsorbing surface of plant roots [of cereals, soybeans and forage broadbeans]. 121402
Toward petroleum substitutes [**Soybeans** and *silicon].* 117064

SILIQUA
Recent progress in the analysis of gums and natural water soluble plant colloids. II. Carob [**Ceratonia** *siliqua]* flour. 116649

SILK
Studies on the **posterior** *silk* gland of the silkworm Bombyx mori. V. Electron microscope localization of fibroin in the posterior silk gland at the later stage of the fifth instar. 124537
Production of faeces, excreta, and *silk* in the **wolf** spider pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124115

SILKMOTHS
An improved protein binding assay for guanosine-3', 5'-monophosphate using a binding protein from the pupa of the *silkmoth,* **Bombyx** mori L. 124481

SILKWORM
Nucleic acids synthesis of nuclear polyhedrosis virus in cultured embryonic cells of *silkworm* [**Bombyx** mori]. 124482
Study on residues remaining on mulberry leaves treated with acaricides and their toxicity to the *silkworm,* **Bombyx** mori L. 124503
Depolyploidization of tetraploid parthenogenetic clones of *silkworm* [**Bombyx** mori] by the method of meiotic parthenogeneisis. 124506
Genetic analysis of the increased heterotic ability of parthenogenetic males of *silkworm* [**Bombyx** mori], homozygous at all loci. 124507
Induced mutants in *silkworm* (**Bombyx** mori L.). 124529
Small molecular weight DNA of the *silkworm,* **Bombyx** mori. 124536
Studies on the posterior silk gland of the *silkworm* **Bombyx** mori. V. Electron microscope localization of fibroin in the posterior silk gland at the later stage of the fifth instar. 124537
Portable outdoor cages for mating female **giant** *silkworm* moths (Saturniidae). 124066

SILOS
Development of *silo* **construction** in world wheat trade. 124612
Grain *silo* system in Syria. 124630
Modern *silo* construction for the storage of flour products. 124616
Threshed cereals in *silos* and **storage** rooms. 117149

SILPHIDAE
Results of the zoological research carried out by Dr. Z. Kaszab in Mongolia. 358. *Silphidae* and **Liodidae** (Coleoptera). 124448

SILVER
Notes on the diameter increment of *silver* **firs** (Abies alba Mill.) of the "Rothwald" in Lower Austria. 119437
Localization of chloride in leaf cells of the halophyte Suaeda maritima by *silver* **precipitation.** 121304

SILVICULTURE
Silvicultural **considerations** in timber inventory. 119506
Length of development and survival of Hylobius abietis as influenced by *silvicultural* **exposure** to sunlight [Picea abies]. 123447
Silviculture and **management** in relation to risk of windthrow in Northern Ireland. 119600
1975: the year of the Douglas fir [Pseudotsuga menziesii **menziesii,** *silviculture].* 119558
Natural *silviculture:* a promising method of forestry management. 119522
Soils and improvement of agricultural, *silvicultural* and **pastoral** conditions in the Wabi Schebelle basin (Ethiopia). 125110
The oceanic forest *[Silvicultural* **practice,** rotation]. 119601
What's the **problem?** *[Silviculture].* 119619
The stand treatment **specialist** *[Silviculture].* 119616

SIMAZINE
Studies on the effect of Gesatop 50 *[simazine]* on some **apple** clones.II. Quantitative changes in dry matter and sugar content in leaves of apple clones A2, MM104, MM106 and MM111. 123193
Studies on the effect of Gesatop 50 *[simazine]* on some **apple** clones. II. The content of nitrogen compounds in leaves of apple clones A2, MM104, MM106 and MM111. 123194
Metabolism and differential susceptibility of crabgrass [Digitaria sanguinalis] and witchgrass [Panicum capillare] to *simazine* and **atrazine** [herbicides]. 123211
Effect of different *simazine* **doses** on the content of nitrogen fractions and the amino acid composition of proteins in summer barley grains. 123191

SIMMENTAL
How to select the right one. Fertility check, manage properly *[Simmental* **beef** cattle, bulls]. 118404
Management + *Simmental* [**beef** cattle] makes his dream come true. 118405

SIMMONDSIA
Preliminary investigations for jojoba *[Simmondsia* **chinensis]** harvesting. 122551
Differential acceptance of toxic jojoba **seed** *(Simmondsia* chinensis) by four Sonoran desert heteromyid rodents [Seed toxicity]. 119234

SIMPLEX
Herpesvirus sylvilagus in cottontail rabbits: antibody prevalence and flea burden relationships [**Cediopsylla** *simplex].* 118812
The family Moniliaceae in Egypt. 1. **Gonatobotrys** *simplex* Corda. 120246

SIMULATION
A **computer** *simulation* of full-tree field chipping and trucking. 119834
Improving crossflow grain dryer **design** using *simulation.* 124738
Simulating **hydrologic** behavior on Ouachita Mountain drainages [Watershed management, computer models, Arkansas]. 119414
A retirement **income** *simulation* model for farm operators. 115555
A *simulation* **model** for predicting and analyzing manpower requirements [in rural communities]. 115448
Optimizing soil moisture conservation by mulch of hydrophobic aggregates using *simulation* and **numerical** search procedures. 125172
Simulating **overland** flow in border irrigation. 125355
Estimating marketing margin cost components: an application of *simulation* to **products** of the vegetable oil industry. 116004
Simulated **rainfall** and wind as factors dislodging nymphs of the cotton fleahopper, Pseudatomoscelis seriatus (Reuter), from cotton plants. 123349
Preservation tests of prepacked shrimp in *simulated* **sales** conditions. 116820
Simulation of **tractor** accidents and overturns. 124739
Suspended sediment filtration capacity of *simulated* **vegetation** [Soil erosion control]. 125174

SIMULIIDAE
The seven larval instars of Simulium arcticum (Diptera: *Simuliidae)* **[Biology** and control]. 123614
Simuliidae **(Diptera)** of Rendalen, Norway. II. Adult females attacking cows and humans. 123652
Evidence that blackfly larvae [Diptera: *Simuliidae]* can **feed** on particles of colloidal size. 124096
Relative response to coloured substrates by ovipositing black-flies (Diptera, *Simuliidae).* II. **Oviposition** by Simulium (Odagmia) ornatum Meigen. 123651
Epidemiologic importance of age groups i colonies of the Simulium metallicum (Diptera: *simuliidae)* in **Venezuela.** 123605

SIMULIUM
The seven larval instars of *Simulium* **arcticum** (Diptera: Simuliidae) [Biology and control]. 123614
Physiological studies on [the ecological importance of fungi in] an isolate of Saprolegnia ferax from the larval gut of the **blackfly** *Simulium* vittatum. 120381
Epidemiologic importance of age groups i colonies of the *Simulium* **metallicum** (Diptera: simuliidae) in Venezuela. 123605
Relative response to coloured substrates by ovipositing black-flies (Diptera, Simuliidae). II. Oviposition by *Simulium* **(Odagmia)** ornatum Meigen. 123651
Morphology of the neuroendocrine systems of two larval blackflies, Prosimulium mixtum/fuscum and *Simulium* **venustum.** 123860

SINAPIS
Formation of pea-white mustard *[Sinapis* **alba]** and pea-barley agrophytocoenoses [Nutritive relationships]. 120459
Mustards: Brassica spp. And *Sinapis* **alba** (Cruciferae). 122367

SINDBIS
Characteristics of *Sindbis* **virus** temperature-sensitive mutants in cultured BHK-21 [baby hamster kidney] and Aedes albopictus (mosquito) cells. 123641
Immunoperoxidase localization of *Sindbis* **virus** antigen in infected vertebrate and infected mosquito cells [Culicidae]. 123659

SINELLA
Antenal amputations in *Sinella* **curviseta** (Collembola: Entomobryidae). 123796

SINUS
Osteoma in the **maxillary** *sinus* of a yearling Thoroughbred colt. 119102
Snoring in a calf caused by congenital distension of the **maxillary** *sinuses.* 119103
The effects of amiodarone on the *sinus* **node** activity of the rabbit heart. 117670
Contribution to the study of the blood supply of the *sinus* **node** in Pekingese dogs. 117901
Diagnosis and surgical treatment of cystlike lesions of the equine **paranasal** *sinuses.* 119128

SIPHONAPTERA
Fleas *(Siphonaptera,* Insecta) caught on small mammals [rats, mice] at seven locations in eastern Denmark. 123627
Controlling **fleas** *[Siphonaptera].* 123629
Fleas *[Siphonaptera]* as **objects** of biological research. 124100
Importance of extemporaneous examination of *Siphonaptera* for the **study** of their parasites. 123809

SIRE
A note on the properties of the cumulative difference method for *sire* **evaluation** [Bulls]. 118207
How much emphasis should be put on type? *[Sire* **evaluation,** dairy cattle]. 118270
New facilities for *sire* **housing** and management [Bulls]. 117442
New facilities for *sire* **housing** and management [Bulls]. 117443
New facilities for *sire* **housing** and management "The Inn Between" [Bulls]. 117444
Sire **housing** and management [Bulls]. 117445
Sire **housing** and management at Universal Semen Service Ltd. [Bulls]. 117446
Sire **housing:** outside lots [Bulls]. 117447
Do the mates of A.I. [Artificial insemination] *sires* **influence** their proofs? [Bulls]. 118269
Avoid calving problems when picking A.I. [Artificial **insemination**] *sires.* 118268
[Bovine] semen evaluation at **select** *sires.* 118296
New index for **selecting** *sires* [Cattle]. 118190
A cowman's look at the new USDA [United States Department of Agriculture] *sire* **summary** [Bulls]. 118266
The why and how of those A.I. [Artificial insemination] **young** *sire* programs [Bulls]. 118272

SISAL
Sisal and **relatives** Agave (Agavaceae-Agaveae). 121960

SITE
Growth following initial thinning of loblolly pine [Pinus taeda] planted on a **cutover** *site* at five spacings. 119639
1975 annual report: field trials with isotopes, **Davis** *site* [Fertilizer application]. 125044
Influence of roughage level on the *site* and **extent** of digestion of whole shelled corn by beef steers. 118094
Influence of roughage level and corn processing method on the *site* and **extent** of digestion by beef steers. 118095
Running skylines reduce access road needs, minimize **harvest** *site* impact. I. 119846
Mass **hibernation** *site* for Nymphalis vau-album (Nymphalidae). 124062
Site **index** tables for shortleaf pine [Pinus echinata] in the Ozark Highlands of northern Arkansas and southern Missouri. 119549
Nitrogen nutrition of Myriophyllum spicatum: variation of plant tissue nitrogen concentration with season and *site* in **lake** Wingra. 121068
Impact of chemical and **mechanical** *site* preparation on wildlife habitat. 125414
Site & **mode** of action of neurotoxins released by insecticide poisoning [Periplaneta americana]. 123238
A climate room for precise regulation of temperature and humidity in connection with a temperature-regulated **nest** *site* for wood ants [Formica polyctena]. 124119
Studies on the **oviposition** *site* of Sitophilus oryzae on wheat and effect of size and outer surface. 123293
Ecological studies of the Bagac nuclear power **plant** *site:* a mosquito survey of Bagac, Bataan, Republic of Philippines. 123649
The chemical modification of proteins by group-specific and *site-specific* **reagents.** 116816
Regional *site* factors and revegetation studies in western North Dakota. 125129
Studies on the *site* of **sex** pheromone production in the cockroach, Byrsotria fumigata. 123805
Mechanism and *site* of **small** intestinal uptake of vitamin D3 in pharmacological concentrations [Rats]. 116287
Soil *site* determinations [for windbreaks]. 124889
Effect of *site* of **transfer** on pregnancy and twinning rates following bilateral egg transfer in the cow. 118350
Stimulation of corneal differentiation by interaction between cell surface and extracellular matrix. II. Further studies on the nature and *site* of **transfilter** "induction" [Chick embryos]. 117648

SITONA
A method for the extraction of *Sitona* **(Coleoptera:** Curculionidae) eggs from soil and occurrence of a mymarid (Hymenoptera: Chalcidoidea) in the Mediterranean region. 123900

SITOPHILUS
Physiology and systems analysis of gravity orientation in two insect species (Carausius morosus, *Calandra* **granaria).** 123915
Grain weevils *[Sitophilus* **granarius].** 123503
An energy budget for the granary weevil, *Sitophilus* **granarius** (L.). 123521
Comparative effects of dietary methoprene on symbiotic and aposymbiotic rice weevils and asymbiotic granary weevils [Sitophilus oryzae, *Sitophilus* **granarius].** 124036
Studies on the oviposition site of *Sitophilus* **oryzae** on wheat and effect of size and outer surface. 123293
Comparative effects of dietary methoprene on symbiotic and aposymbiotic rice weevils and asymbiotic granary weevils *[Sitophilus* **oryzae,** Sitophilus granarius]. 124036
Relative toxicity of some new insecticides against **rice-weevil** *Sitophilus* oryzae Linn. (Curculionidae: Coleoptera). 123292
The susceptibility of different types of maize to post-harvest infestation by *Sitophilus* **zeamais** and Sitotroga cerealella, and the importance of this factor at the small-scale farm level. 123571

SITOTROGA
The susceptibility of different types of maize to post-harvest infestation by Sitophilus zeamais and *Sitotroga* **cerealella,** and the importance of this factor at the small-scale farm level. 123571
Unwanted dinner guests [Angoumois grain moth, *Sitotroga* **cerealla,** rice]. 123216

SKELETON
Vulgarone, a sesquiterpene ketone with a new **carbon** *skeleton* from Chrysanthemum vulgare. 121781
Determination of the physiological levels of juvenile hormones in several insects and biosynthesis of the **carbon** *skeletons* of the juvenile hormones. 123936
Metabolic intermediates and lactate diffusion in active **dog** *skeletal* muscle. 117540
Osteolathyrismus, quantitative-morphological study of **experimental** *skeletal* disease of rat [Fed by lathyrogenic **agent**]. 116297
Clinical use of Osteum in the horse [when **handling** *skeletal* injuries]. 119288
Calcium, phosphate, and *skeletal* **metabolism** in latent alimentary metabolic acidosis in sheep. 119154
Assessment of effect of starvation, glucose, fatty acids and hormones on alpha-decarboxylation of leucine in *skeletal* **muscle** of rat. 116420
Effects of early severe malnutrition on heart and *skeletal* **muscle** lactate dehydrogenase [Rats]. 116429
The influence of breed of rat on protein efficiency ratio (PER), *skeletal* **muscle** and adipose tissue growth. 116510
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the liver, *skeletal* **muscle,** and brain of the piglet. A methodological and experimental study with special reference to protein synthesis. 117528
Developmental aspects of the innervation of *skeletal* **muscle** fibers in the chick embryo. 117628
Accumulation of cesium-134 [istope] in heart and *skeletal* **muscle** of dystrophic hamster. 117957
Ultrastructural changes in *skeletal* **muscle** of selenium-vitamin E-deficient chicks. 119069
Binding of nucleotides ATP [adenosine triphosphate] and aDP [adenosine diphosphate] to sarcoplasmic reticulum: study by rate of dialysis [**Rabbit** *skeletal* muscles]. 117599
Comparison of calcium-binding proteins. Bovine heart and brain protein activators of cyclic nucleotide phosphodiesterase and **rabbit** *skeletal* muscle troponin C. 117782
Effects of food deprivation on protein synthesis and degradation in **rat** *skeletal* muscles. 116290

SKIM
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary proteins. 1. Description of experimental methods: studies on the protein utilization of rations containing extracted peanut meal and **dried** *skim* milk. 117989
A gain for the market, also by decreasing the *skim* **milk** powder surplus. 115599
Investigations into the action of *skim* **milk** powder and hydrolysed milk protein with a view to lowering the level of nitrite added to heat-sterilised meat products. 116980
Studies on *skim* **milk** replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on *skim* **milk** replacements in the feeding of young pigs whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Quality of protein in milk replacers for young calves. II. Effects of heat treatment of *skim* **milk** powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and undenatured whey protein nitrogen content of *skim* **milk** powders and commercial milk replacers. 118037
Bovine colostral gamma-glutamyltransferase; its localization in *skim* **milk** membrane and irrelevance to secretory immunoglobulin A. 118685
Quality of protein in milk replacers for young calves. I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from **reconstituted** *skim* milk powder. 118035
Quality of protein in milk replacers for young calves. IV. Rennet (chymosin, rennin) coagulation of **reconstituted** *skim* milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038

SKIN
Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern **artificial** *skins;* seasoning; manufacture of low-fat cooked sausages; small sausages **fresh** from smoke. 116958
Use of **artificial** *skins* for the rational manufacture of scalded sausages. 2. 116964
Histopathological changes in natural and experimental Dermatophilus congolensis infection of the **bovine** *skin.* 118711
Some structural peculiarities of **buffalo-heifer** *skin.* 117920
Glycosaminoglycan staining in diseased **dog** *skin.* 118456
RNA metabolism in chick **embryonic** *skin.* 117602
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent **fruit** *skin.* 120642
Study of the role of the *skin* and **hair** coat in the adaptation of domestic animals to extreme environmental temperatures (Review). 117733
Studies into the heat balance of turkey hens. 3. **Insulation** of *skin.* 117859
Microscopic studies on the epidermis of **paralumbar** *skin* of the Indian buffalo calf. 117743
Effect of 1,4-naphthoquinones and saponins on the activity of polyphenoloxidase (in vitro) [isolated from **potato** *skin].* 121060
Isolation of a **purified** *skin* test antigen from Blastomyces dermatitidis yeast-phase cell wall [Guinea pigs]. 118762
Observation on the free formaldehyde dissolved into the liquid layer of the *skin* **surface** from resin finished fabrics. 2. [Cotton]. 116214
The *skin* **surface:** an environment of Dermatophilus congolensis [Fungal pathogen of mammals]. 118716
A note on variation of *skin-fold* **thickness** of Brown Swiss X Sahiwal/Red Sindhi (Karan Swiss) calves. 117744

SKULL
Is there a correlation between anomalous numbers of cheek teeth and the elongation of the *skull* in the **dog?** 117554
The head. I. Traumatic **lesions** of the *skull.* 119255

SLASH
Air and surface measurements of constituents of prescribed **forest** *slash* smoke. 119337
Distribution of fusiform rust [Cronartium fusiforme] on *slash* and **loblolly** pines [Pinus elliottii elliottii, Pinus taeda] in Texas. 122748

SLAUGHTER
Investigations into the lead and cadmium content of meat and organ samples from *slaughter* **animals.** 116119
Refeeding stomach content of *slaughtered* **animals.** 118067
On the retention of water in *slaughtered* **birds** [Poultry]. 117058
Hedging. 2. Hedged and unhedged show losses *[Slaughter* **cattle** prices]. 115621
Evaluation of performance at *slaughter* of twenty **combinations** of three-breed crosses of pigs. 116935
The presence of Clostridium perfringens in live chickens and possible **contamination** during *slaughter.* 118691
An investigation of calf carcass contamination by Escherichia coli from the **gut contents** at *slaughter.* 116186
Structures and functions of *slaughterhouse* **enterprises** and processing of poultry meat. 117054
Bulls vs steers for *slaughter:* an **evaluation** of feedlot and carcass differences. 118128
Figures and results for 1975 from the bacteriological meat inspection station at the **Munich** *slaughterhouse.* 116116
Pig *slaughtering* hygiene. IV. Bacteriological status of carcasses in various sections of the killing line. 116128
Pig *slaughtering* hygiene. III. The effects of a number of factors on dehairing. 116991
Proper organization of pasture fattening and of **planned** *slaughter* of reindeer—the basis for increasing reindeer husbandry productivity in the Magadan Region. 121991
Economic effectiveness of early **reindeer** *slaughter* in the conditions of the Nenets National Region. 115367
Improvement of the technology of **reindeer** *slaughter* for meat. 117010
Increase of the quantity and improvement of the quality of the products of **reindeer** *slaughter* in the Kamchatta Region. 117011
An improved system for driving pigs for *slaughter* to the **restrainer.** 117426
The great *slaughterhouse* **scandal** [Improper processing procedures]. 118564
Heat tolerant bacteria in water scalding tanks **[Swine,** *slaughtering].* 116038
Swine *slaughtering* in the Weimar and Apolda processing industry: higher capacity through rationalization, without any loss in production. 117018
Slaughtering **technique** in Austria. 116960
Effectiveness of rearing broilers in cages under different **timing** of *slaughter.* 117450
Carcass traits of lambs produced by crossbred dams of Finnsheep, Dorset and Rambouillet breeding and *slaughtered* at **two** weights. 117016
Effects of ration energy and *slaughter* **weight** on composition of empty body and carcass gain of beef cattle. 118090
Influence of *slaughtering* **weight** on carcass characteristics of F1 crossbred young bulls obtained by Friesian and Brown Alpine dams sired by Red Pied, Piemontese, Romagnola, Chianina and Marchigiana bulls. 118397

SLEEP
Improved *sleeping* bag roller [Forest fire equipment]. 119312
Ecology of Glossina palpalis gambiensis Vanderplank, 1949 [a principal vector of the *sleeping* **sickness** in West Africa]. 123661

SLEEVES
Performance of a rotating **perforated** *sleeve* sprayer [in food processing]. 116841

SLIDE
Work output and the worker's strain in cutting pulpwood for *slide-boom* **loading.** 119658
New *slide* insert for physical fitness calculator [Forest Service training]. 119306

SLIME
The plasmodium of a *slime* **fungus:** culture and biology of the noncellular plasmodium of Physarum polycephalum [Myxomycetes]. 121278
Notes on a collection of *slime* **moulds** [Myxomycetes, Fungi] from Nainital [India]. 120271
Slime-moulds [**Myxomycetes**] of Delhi. 120275
Myxomycetes *(slime* molds) [on trees]. 122682
Slime and **odor** elimination in process water of the paper industry [Air and water pollution]. 125538
Ultrastructure and morphology of the Neurospora crassa [Fungi] cell wall mutants, *slime* and **slime** X using TEM and SEM. 120559
Some *slime-moulds* from **southern** India. XI. [Fungi, new taxa]. 120146
Ultrastructure and morphology of the Neurospora crassa [Fungi] cell wall mutants, slime and *slime* X using **TEM** and SEM. 120559

SLOPE
Eroded plots of land on *slopes,* a **big** reserve of increased agricultural production (from the experience of the Farm Perieni). 125143
Soil cultivation and sowing of **crops** on *slopes.* 125145
Aspects of fertilization of land on *slopes* **cultivated** with wheat and maize. 125054
Work mechanization on *sloping* **land.** 124719
Positive results in using land **lots** on *slopes.* 125144
Alternation of ploughing and disk-tillage in cultivation of **maize** on *slopes.* 125139
Optimum size of **plots** on the *slopes.* 115290
Estimating solar radiation on *sloping* **surfaces.** 124839
Structure of crops and erosion control **systems** on *slopes.* 125146
Incoming [solar] radiation fluxes on *sloping* **terrain:** a general model for use in Southern Africa. 115114
Effect of soil tillage on a *slope* on the **yield** of the maize green mass. 122147

SLOTS
Air flow through hinged **baffle** *slotted* inlets [Animal housing]. 124650

SLUDGE
Activated *sludge* operations—integrating control testing and basic kinetics. 124997
Improved **activated** *sludge* treatment with carbon. 125411
Activated *sludge*—sludge wasting calculations. 125433
Viscous product from **activated** *sludge* by methanol fermentation. 125501
Modified **activated** *sludge* process for treatment of nitrogendeficient organic wastes. 125512
Operating experience with a high-purity—oxygen **activated** *sludge* waste treatment system [Pulp and paper mills]. 125565
Nitrification in *high-sludge* **age** contact stabilization. 125513
Interactions between *sludge* **conditioning,** vacuum filtration, and incineration. 125508
Crop response to tank truck application of **liquid** *sludge.* 125504
Toward a more meaningful index of *sludge* **quality.** 125518
Mineral composition of liver and kidney of rats fed corn, sorghum, and soybean grain grown with **sewage** *sludges* and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
Soybean yield responses and assimilation of Zn [zinc] and cd [cadmium] from **sewage** *sludge-amended* soil. 122026
Utilization of animal manures and **sewage** *sludges* in food and fiber production. 124973
The rotation aeration (system Fuchs) for treatment of liquid animal and municipal wastes. 4. Hygienic investigations during rotating aeration of **sewage** *sludge.* 125394
Activated **sludge**—*sludge* wasting calculations. 125433
Evaluation of metals in **wastewater** *sludge.* 125507

SLUGS
How to **control** *slugs*—or at least keep them from controlling you. 123000
Tip formation is regulated by an inhibitory gradient in the Dictyostelium **discoideum** *slug.* 121299

SLURRY
The rotating aeration (system Fuchs) for treatment of liquid animal and municipal wastes. 3. Hygienic investigations during rotating aeration of *slurry* from **cattle.** 125393
Chemicals **clean** up *slurry.* 125540
Slurry **fertiliser** value. 125048

SMEAR
Hog cholera. I. Immunofluorescent diagnosis using tissue sections and **blood** *smears.* 118692
A *smear* **technique** for staining elementary bodies of fowlpox virus [Chickens]. 118620

SMOG
Effect of air pollution on fruit trees: **photochemical** *smog* injury to Japanese pear tree. 122978

SMOKE
Laws, standards, and regulations for *smoke* **abatement** in Montana [Air pollution]. 115866
Laws, standards, and regulations for *smoke* **abatement** in Oregon [Air pollution control]. 115867
Long-term mean concentrations of **atmospheric** *smoke* and sulphur dioxide in country areas of England and Wales [Air pollution]. 125388
Characteristics and behavior of **bushfire** *smoke* [Pollutants]. 125441
Smoke **composition** [in burning forest fuels]. 125448
New technology for determining atmospheric influences on *smoke* **concentrations.** 125446
Industry programs for *smoke* **control** in forest management burning. 119339
State forestry programs for *smoke* **control.** 119344
The national forest view [for *smoke* and its **control].** 119346
U.S. Department of the Interior programs for *smoke* **control.** 125451
Results of the 1973 diagnosis of *smoke* **damage** of large areas in Lower Lusatia. 119418
Evaluation of some diagnostic methods which may be used for determination of injuries on Norway spruce [Picea excelsa] by fumes [Air pollution from industrial **exhaust** *smoke).* 123017
The maintenance of natural ecosystems: *smoke* as a **factor.** 125450
Observations on the presence of nitrites and nitrates in *smoked* **fish** products. 116040
Smoke and **forest** fire behavior [in the United States]. 119343
Scalded sausage manufacture in the meat trade. 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; small sausages **fresh** from *smoke.* 116958
Use of *smoke* and **heat** during scalded sausage manufacture with regard to technologies sparing the environment [Air pollution]. 116965
Scalded sausage manufacture in the meat trade. 10. Effect of exposure to light; cutting, filling, **hot** *smoking* and scalding. 116957
Factors **influencing** *smoke* management decision in forest areas. 119338
Chromatogrphic determination of hydrocarbon waxes in tobacco **leaf** and *smoke.* 117069
Genetic influence of chemical constituents of tobacco **leaf** and *smoke.* 120586
Investigations into aroma substances in seasonings smoked in **liquid** *smoke.* 116732
Meteorological problems in *smoke* **management** [Burning of forest fuels by both wild and prescribed fires]. 119340
Prescribed [forest] fire technology for **minimizing** *smoke* hazards. 119342
Carcinogenic polycyclic aromatic hydrocarbons in **Norwegian** *smoked* meat sausages. 116176
The production of optimum **particle** *smokes* in forest fires. 119347
Waste gas cleaning in *smoking* **plants** [Air pollution]. 125428
Goals of a national program in *smoke* **research** [Air pollution]. 125444
Methods and basic principles of reddening, drying, *smoking* and **scalding** sausages. 116987
Investigations into aroma substances in **seasonings** *smoked* in liquid smoke. 116732
Air and surface measurements of constituents of prescribed forest **slash** *smoke.* 119337
Scalded sausage manufacture in the meat trade. 12. *Smoking* of **small** sausages. 116959
Is there a danger of mycotoxins in Hungarian salami? II. The importance of the casing and of *smoke* **treatment.** 116120
The trade-offs between *smoke* from **wild** and prescribed forest fires. 119348
Problems of prescribed burning and *smoke* in **wildland-urban** areas of California. 125447

SMUTS
The development of **corn** *smut* on inoculated maize plants. 122657
Comparative primary infection characteristics of Ustilago striiformis and Urocystis agropyri [**leaf** *smuts]* on cultivars of Poa pratensis. 122725
The identity of the **potato** *smut* [Angiosorus solani, Fungi, new taxa, South America]. 120280
The recurring problem of *smut* [of **sugarcane**]**:** recognising it and basic control measures. 122776

SNAKES
Snake **menace** in poultry. 117490

SNAPBEAN
Effects of intraspecific competition on the components of the yield of **bush** *snapbeans.* 122463

SNAPDRAGON
Transpiration of *snapdragon* [**Antirrhinum** majus] under southern summer greenhouse conditions. 121684

SNOWS
Factors affecting *snow* **assessment** from LANDSAT data] Remote sensing]. 125258
Snows and **avalanches** in the South Carnic and West Julian Alps: Contribution to the improvement of knowledge and forecasts [Forest influences]. 119298
Studies on the extention of the grazing season. 6. Winter grazing on the south side of a *snow* **covered** hillland [Beef cattle]. 122103
Areal extent of *snow* **estimation** in the northern Sierra Nevada Mountains using LANDSAT-1 imagery [Remote Sensing]. 125254
Snow/cache [**forest** tree] seedling storage: successful systems. 119638
Influence of windbreaks on crop performance [wheat, soybeans] and *snow* **management** in North Dakota. 119384
Perennial grass [Agropyron elongatum] barriers for wind erosion control, *snow* **management** and crop production. 125149
Studies on the promotion of *snow* **melting** in a grassland. 2. Meteorological and climatological consideration on desirable time for scattering black powders and the period of the promotion of snow melting. 125345
Some methods of rye breeding for resistance to *snow* **mould** (fusarium nivale (Fr.) Ces.). 120680
Studies of the resistance of rye to *snow* **mould** (Fusarium nivale Fr.) [Varieties, **testing**]. 122619
Seasonal *snow* accumulation, melt and water input—a New England model. 115179
Snow **survey** from space, with emphasis on the results of the analysis of Skylab EREP S192 multispectral scanner data [Remote sensing]. 125274

SOCIALISM
Socialist **competition** in youth collectives in new production conditions [in rural areas of Moldavia]. 115392
[Communist] party guidance of *socialist* **competition** in production amalgamations in rural areas. 115397
Milk production in the Dresden district: *socialist* **competition** differentiated and made comprehensive; steps for inclusion of every [dairy] collective [East Germany]. 115412
How we are striving in *socialist* **competition** for a high material economy [Programs, East Germany]. 115934
Veterinary personnel involved in "food industry hygiene" sector, results of *socialist* **competition** honoring the the IXth Congress of the Socialist Unity Party. 116226
The new aspects of forest management in the *socialist* **countries.** 119443
Evaluation of the growth of hybrid aspen [Populus tremula x Populus tremuloides] on the experimental plots in the **Czech** *Socialist* Republic]. 119534
Results of mechanizing operations in the forestry of the **Czech** *Socialist* Republic [Logging]. 119756
Some data about the bionomy of spruce roller Epiblema tedella Cl. in the **Czech** *Socialist* Republic and possible control of it. 123497
Prophylaxis concepts and mastitis control in the dairy cow in intensive rearing in the **Czechoslovak** *Socialist* Republic. 118945
Improtance of Soviet varieties of winter wheat in increasing the production of grain in the **Czechoslovak** *Socialist* Republic. 122001
The Mockern State Farm industrial fattening combine: development of creative potential of workers in *socialist* **emulation** [East Germany]. 115420
Cooperation between *socialist* **farms** and fruit, vegetable and potato state farms in the cooperative associations for food potatoes of the Schwerin district. 115340
Intensification—the main direction of agricultural development in the Non-Chernozem Zone of the Russian Soviet **Federative** *Socialist* Republic. 115357
Results of introduction of North American woody plants in th Central-Chernozem regions of the Russian Soviet **Federative** *Socialist* Republic. 119872
State-controlled joint veterinary practice of Ludwigslust-its results in preparation of the **IXth** *Socialist* Unity party Congress. 118524
Bandelstorf interfarm organization in crop production: high yield of field crops through use of *socialist* **management** [East Germany]. 115404
Application of *socialist* **principles** of process organization to industrial apple production. 115460
Development of some elements of the *socialist* **reproduction** process in the transition to the industrially organized production of ornamental plants. 115461
Apiculture in the *Socialist* **Republic** of Romania. 124491
Growing Soviet varieties of winter wheat in the **Slovak** *Socialist* Republic. 122000
Present condition and prospects of development of reindeer husbandry in the Yakut Autonomous **Soviet** *Socialist* Republic. 117433
Results of scientific studies in reindeer husbandry in the Yakut Autonomous **Soviet** *Socialist* Republic. 117435
Prophylaxis of reindeer brucellosis of in the conditions of the Yakut Autonomous **Soviet** *Socialist* Republic. 118725
Distribution and conservation of the orchid calypso bulbosa (L.) Reichb. f. in the Udmurt Autonomous **Soviet** *Socialist* Republic. 119957
Absorption of nutrients by fiber flax and the effectiveness of inorganic fertilizers on Sod-Podzolic loamy soils in the Udmurt Autonomic **Soviet** *Socialist* Republic. 121395
Successful *socialist* economic integration from A to Z [Cooperative organization, Europe]. 115418
Lussow Agricultural Producers' Cooperative of Crop Production: joint responsibility for **successful** *socialist* intensification [Programs, prospects, East Germany]. 115935
Veterinary personnel involved in "food industry hygiene" sector, results of socialist competition honoring the the IXth Congress of the *Socialist* **Unity** Party. 116226
Progress of veterinary services in Grevesmuhlen district between the VIIIth and IXth Congresses of the *Socialist* **Unity** Party. 118513
Progress of veterinary services in Grimmen district after the VIIIth Congress of the *Socialist* **Unity** Party. 118514
Socialist **Unity** Party of Germany plays leading role in developing in the German Democratic Republic the Society of Veterinary Medicine. 118522

Achievements of state-controlled joint veterinary practice, Forst since the **VIIIth** *Socialist* Unity Party Congress and initiatives in preparation of the IXth Congress. 118500
Results and experience obtained from veterinary services on a state unit for pig breeding and fattening after the **VIIIth** *Socialist* Unity Party Congress. 118518
Results of veterinary services in Glauchau district in accomplishing principal task of the **VIIIth** *Socialist* Unity Party Congress. 118519
Work results of veterinarians in intensifying heifer production in Pasewalk district after the **VIIIth** *Socialist* Unity Party Congress. 118530

SOCIOLOGY
Study of **plant** *sociology* on the Guajira Peninsula (Northeast Colombia). 120354

SOD
Herbicides for no-tillage corn in **alfalfa** *sod* [Weed control]. 123210
Ground **cover** *sods*—an economic and production possibility? [in landscape gardening and erosion control]. 122226
Absorption of nutrients by fiber flax and the effectiveness of inorganic fertilizers on *Sod-Podzolic* **loamy** soils in the Udmurt Autonomic Soviet Socialist Republic. 121395
Yield of cereals and the removal of nitrogen, phosphorus and potassium on *Sod-Podzolic* **loamy** soil in the Belorussian SSR in relation to the level of nutrition. 124951
Effect of peat on the agrochemical properties of *Sod-Podzolic* **loamy-sandy** soil and the productivity of crop rotation. 124935
Allelopathic relations in the *sod* of **natural** meadows. 121459
Presence of phytotoxic form of bacteria in a *Sod-weak* **Podzolic** soil planted with lupine in a crop rotation and in monoculture. 122801
Migration and detoxication rate of some simm-triazines in *Sod-Podzolic* **soil** with average loam content. 122884
Availability of "natural" and "residual" phosphates for [barley and oats] plants in *Sod-Podzolic* **soils.** 121398

SODIUM
Sodium **alginate** as a gelling agent in diets for the cabbage looper, Trichoplusia ni. 123892
Permeability of vitelline membrane for ions of *sodium,* **calcium** and magnesium [Egg membranes]. 117041
Sodium **carbonate** salinization of soils and underground waters. 124797
Study on the effect of *sodium* **chloride** on the inactivation of Cysticercus cellulosae in the muscle meat of naturally infected swine [Storage of infected pork]. 116252
The influence of *sodium* **chloride** on viscose process [during fiber processing]. 119790
Growth and resource allocation responses of Spartina alterniflora Loisel. to three levels of NH4-N, Fe, and NaCl [ammonia, iron, *sodium* **chloride**] in solution culture. 121436
Primary physicochemical injuries in chloroplasts due to toxic concentrations of NaCl *[sodium* **chloride,** pea seedlings]. 123038
The peripheral inhibition of the tarsal sugar receptor by *sodium* **chloride** in the proboscis extension response of the blowfly, Phormia regina M. 124034
The effluent-free bleached kraft pulp mill. VII. *Sodium* **chloride** in alkaline pulping and chemical recovery [to eliminate a major source of pollution]. 125544
Contribution to the characterization of *sodium* **chlorite** delignification of spruce wood. III. Lignin and polysaccharide complexes in chlorite liquors. 119770
Energetic metabolism of pupae in Scotia segetum Den. Et Schiff. under normal conditions and under conditions of intoxication by *sodium* **fluoride.** 123833
Toxicity of *sodium* **fluoride** for the spider mite Tetranychus urticae Koch. 123835
An estuarine species of Phlyctochytrium (Chytridiales) having a transient requirement for *sodium* **[Fungi].** 121285
Reactivity and fine structure of cotton mercerized in *sodium* **hydroxide** or liquid ammonia. 117199
Studies with dairy cows investigating the dietary effect of mixtures of compressed straw + concentrates prepared from crude and NaOH *[sodium* **hydroxide]** treated cereal straw. 1. Digestibility and milk production. 118006
Studies with dairy cows investigating the dietary effect of compressed straw + concentrates prepared from crude and NaoH *[sodium* **hydroxide]** treated cereal straw. 2. Composition of ruminal fluid and protozoa population. 118007
Low *sodium* diet in heart disease: How low is low? [Dogs]. 119216
Sodium **metabisulfite** as a preservative for silage produced brom maize plants. 117388
An ultrastructural research of pancreatic islets in *sodium* **nirite** poisoned rabbits. 116033
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, *sodium,* **phosphorus,** zinc, iron, copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Effectiveness of the *aldosterone-sodium* and **-potassium** feedback control system [Dogs]. 117536
The movements of minerals in the digestive tract of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, *sodium,* **potassium** and chlorine]. 117963
Reducing flowering time in Aphelandra squarrosa Nees with high **pressure** *sodium* lighting. 121678
Manufacture, composition and properties of Gouda cheese with **reduced** *sodium* content. 116919
Roller-dried *sodium* caseinate. 116910
Reconstruction of a **single** *calcium-sodium* cell canal in a lipid bilayer [Algae, Nitella flexilis, Nitellopsis obtusa. 121036
Movement of *sodium* **trichloroacetate** in podzolized Chernozem under the effect of precipitations. 123058
Calcium and stimulus secretion coupling in the [ox] neurohypophysis. V. The effects of the Ca2+ ionophores A23187 and X537A on vasopressin release and 45Ca2+ efflux; interactions with *sodium* and a **verapamil** analogue (D600). 117525
Effect of *sodium* upon **yields** and fruiting characteristics of Acala and Pima cotton [Toxicity]. 123026

SOFT
Phenylalanine ammonia lyase & phenols in tubers of Kufri Dewa [a potato variety] in relation to resistance against **bacterial** *soft* rot [Erwinia carotovora carotovora]. 122804
Use of induced dwarf mutants in **breeding** *soft* winter wheat. 120751
Trends on the low **calorie** *soft* drink market. 115577
Soft **cheese** manufacture from ultrafiltration concentrate. 116869
Farmhouse production of lactic **curd** *soft* cheese. 116572
Manufacture of syrups and *soft* **drinks.** 116654
Substitutes for saccharose and invert sugar as sweeteners for *soft* **drinks.** 116681
Keep an eye on PSE [pale, *soft,* **exudative,** pork quality]. 116240
Investigations into SH [sulhydryl] groups and lactic acid in the PSE [pale, *soft,* **exudative]** musculature of pigs. 117687
An objective look at manual bone trimming and at *soft* and **hard** separated meat from poultry and large animals. 117046
Oiling-off properties and microscopic structures of butter, margarine, and *soft-type* **margarine.** 116857
The use of Orgotein in the treatment of *soft* **tissue** injuries of the horse. 119247
The disappearance [forest trees] of four leaf leachates in a hard and *soft* **water** stream in southwestern Ontario, Canada. 121817
The *soft* **wheat** market. 115578
Microstructure of grain and flour from durum and *soft* **wheat** varieties. 117181
Effectiveness of fertilizers in durum and *soft* **wheat** in the conditions of weakly leached Chernozems in the Kursk Region. 125077
Detection and determination of *soft* **wheats** in food pastes. 117066
Study of a new evaluation test of the baking property of *soft* **wheats:** preliminary results. 117085
Combining ability of **winter** *soft* wheat varieties for the amount and quality of protein in relation to the creation of heterotic hybrids. 120697
Content of pigments in the **winter** *soft* wheat hybrids of the first generation. 120824

SOFTWOOD
Effect of auxin cofactors on rooting and the effect of gibberellic acid on shoot growth of lilac [Syringa] *softwood* **cuttings.** 121627
Best opening face [Hardwood log or a *softwood* **grade** log]. 119685
Softwood **pulp** from Canada's boreal forest rated as prime market pulp. 119803

SOILS
Results of four-years grazing experiments with Dactylis glomerata in mixture with five leguminous species. II. Differences in *soil-covering* **ability.** 122133
Cellulose-decomposing microorganisms—producers of amino **acies** [in *soils].* 124814
Soil **adsorption** of humic color. 124837
The relationship between *soil* **aeration,** stability and growth of Sitka spruce (Picea sitchensis (Bong.) Carr.) on upland peaty gleys. 121820
The variability of *soil* **aeration** measurements. I. A statistical approach to define the aeration status in respect to denitrification. 124879
The variability of *soil* **aeration** measurements. II. Field measurements of N2O [nitrous oxide] concentrations, redox potentials, oxygen diffusion rates, and oxygen partial pressures as affected by NO3- [nitrate]-fertilization. 124880
Nitrate-nitrogen movement through *soil* as **affected** by soil profile characteristics [Eutrophication, denitrification]. 124874
Occurrence of natural radionuclides in the atmosphere near the *soil* **[Air** pollution]. 125454
Major features of *soil* **algae** dynamics in East Pamir. 124825
Allelopathic *soil* fatigue under flower crops. 121652
Phenolic acids in wheat and paddy rhizosphere *[soil]* **amended** with crop residue. 124885
Evaluation of actual cost of limestone *[Soil* **amendments,** Brazil]. 125028
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VI. Influence of a thermal factor on the *soil* **ammonium** nitrogen and the absorption of nitrogen by rice plant. 125051
Expenditure of fertilizers and limits of its profitableness in hops culture according to results of *soil* **analyses** and surveys in the Hallertau growing area. 124998
Use of cationic resins in the study of humic substances *[Soil* **analysis].** 124766
Fertility of soils occupied by cacao trees in the southern part of Bahia State *[Soil* **analysis].** 124783
Soil **analysis** as a tool. 124807
Comparative studies of the moisture and thermal regime on the Andosol-Brown and the **Andosol-Black** *soils* in Tokachi district. 124890
Melanin-like substances in the *soil* under **apple** trees. 121655
Comparison of *soil* **applied** growth regulators on height control of poinsettia [Euphorbia pulcherrima]. 121662
Boulbene soils [local type of *soil* in **Aquitaine]** and their problems in tillage. 125100
The value of specific surface of **arable** *soils* in the Estonian SSR. 124906
Influx and distribution of calcium, magnesium and radioactive strontium [90 isotope] in wheat in relation to their content in the *soils* of the **Armenian** SSR. 122883
The properties of volcanic **ash** *soils* in dry parts of the Colombian Andes and their relation to soil erodibility. 124790
Elemental composition of selected native plants and **associated** *soils* from major vegetation-type areas in Missouri. 120391
Elemental composition of corn grains, soybean seeds, pasture grasses, and **associated** *soils* from selected areas in Missouri. 120392
Cultivation and the oxygen content of the *soil* **atmosphere.** 124770
Competition between Phytophthora cinnamomi and Trichoderma spp. [Fungi] in **autoclaved** *soil.* 120336
The range of available moisture in **automorphic** *soils* of the Estonian SSR. 124904
Calibration of the **available** *soil* phosphorus values measured by the Olsen et. al. and Bray-Kurtz no. 1 methods with the phosphorus requirement of sugarbeets and economic analyses. 124908
Study of phytotoxic properties of Pseudomonas putida, strain 2181 *[Soil-borne* **bacteria].** 122802
Fractionation of stable isotopes of carbon monoxide by *[soil[* **bacteria.** 124796
Interrelationship of aerobic cellulose-fermenting *[soil]* **bacteria** with their companions on the basis of the synthesis of physiologically active substances. 124818
Production of B complex vitamins by oligonitrophyllic microorganisms *[Soil* **bacteria].** 124821
Winter leaching of nitrate from autumn-applied calcium nitrate, ammonium sulphate, urea and sulphur-coated urea in **bare** *soil.* 124834
Ethylene [plant growth regulator] in *soil* **biology** [control of soil-borne plant diseases]. 124774
Boulbene *soils* [local type of soil in Aquitaine] and their problems in tillage. 125100
The role of Dr Norman Taylor in the develoment of *Soil* **Bureau** [in New Zealand]. 124842
Study on uptake of mercury by mushroom from the compost and **casing** *soil.* 121726
Biological control of Verticillium malthousei by Trichoderma viride spray on **casing** *soil* in commercial mushroom [Agaricus bisporus] production [Dry bubble disease]. 122746
A tentative re-examination of the *soil* **catena** in the type area of Kware, northwest Tanzania. 124787
Prediction of infiltration into layered field soils in relation to profile characteristics [of a **Cecil** *soil].* 124914
The relative movement of water and nitrate through *soil* and **chalk.** 124773
Pedological investigations of the Lazienki Park in Warsaw in relation to environmental protection. I. *Soil* **characteristics.** 124896
Potassium nutrition of plants and the effectiveness of potassium fertilizers [as related to *soil* **chemical** properties]. 124943
Rational decontamination of the *soil* with **chemicals.** 122796
Soils of the Inangahua Depression, South Island, New Zealand. II. *Soil* **chemistry** & forestry appraisal. 124852
Effects of herbicides on the microflora and some hydrological and physical properties of **Chernozem** *soil* in young forest stands. 123758
Alteration of the fertility of light **Chestnut** *soil* and the productivity of sugarbeets in a crop rotation and in continuous growing in relation to the system of fertilizer application. 121971
Effect of fertilizers on the yield and quality of winter wheat grain on eroded mountainous **Chestnut** *soils.* 124923
Readily hydrolyzable nitrogen in the *soils* of the **Chimkent** Region. 124761
The legislative aspects of **chloropicrin** *soil* fumigation [Australia]. 123718
Soils of **Christchurch** Region, New Zealand: the soil factor in regional planning. 124845
Natural sites and industrial crop production *[Soil* **classification** and mapping, East Germany]. 124801
Chemical variation of soils in Missouri associated with selected levels of the *soil* **classification** system. 124887
Cereal production experiments on poorly drained **clay** *soils* [Yields, varieties]. 121857
New trends in preparing **clay** *soils.* 125104
Instrumental and chemical methods for characterizaton of *soil* **clays.** 124778
Limiting factors *[soil* and **climate]** for Pinus elliotti var. elliottii [Growth]. 121802
Rice growth and available phosphorus relationships on selected Gulf **Coast** *soils.* 125062
Short term nitrate losses and associated microbial populations in *soil* **columns.** 124877
Prediction of *soil* **compaction** due to off-road vehicle traffic. 124915
Response of particular crops to the degree of *soil* **compactness.** I. Winter wheat. 124897
Detection of nitrous oxide at ambient atmospheric **concentrations** [from *soil].* 124771

Relationship between moisture content, aggregate formation and aggregate stability of a loam soil treated with a *soil* **conditioner** in various concentrations. 124789
Current thoughts on the humidity **conditions** of *soils.* 124767
Effects of reduced cultivation on *soil* **conditions** and root development of cereals: Joint [Tillage] Project with the aRC [Agricultural Research Council] Weed Research Organization. 125096
SCS *[Soil* **Conservation** Service] sponsors workshop for Federal Women's Program coordinators [Assertiveness training for personnel]. 115201
SCS *[Soil* **Conservation** Service] technical assistance in windbreak forestry. 119392
Students, start your career in SCS *[Soil* **Conservation** Service] before you graduate. 124838
Soil **conservation:** western part of the Carcarana River basin. 125111
Soil **conservation** and production. 125117
Better plants for *[soil]* **conservation** in the Great Plains. 125148
Tree ans shrub species for *[soil]* **conservation** use in the northern Great Plains. 125151
Africa would be a desert *[Soil* **conservation**]. 125154
Research and survey for the National Water and *Soil* **Conservation** Organization. 125315
Retention of molecules of 1.1. Dichloro-2-2 bis (p-chlorophenyl)-ethylene on some metalic oxides [DDT decomposition, *soil* **contamination**]. 123684
Auxinic activity of metabolites of microorganisms from the rhizosphere and *soil* **covered** by tall herbaceous vegetation. 124812
Presence of biologically active substances in *soils* **covered** by tall herbaceous vegetation and meadow forbs. 124820
Cork-board for **covering** *soils;* variation of dimensions as a function of relative humidity and time. 125134
Causes and effects of *soil* **crusting.** 125138
Management of food resources by fungal colonists of **cultivated** *soils* [Plant pathogens]. 122572
Determination of the supply of unavailable water in **cultivated** *soils* of Pamir. 125252
1975 annual report of the Institute of Food Technology at the University of *Soil* **Cultivation** [Brewing, Austria]. 116798
Investigations on the "short grass mulching" method of *soil* **cultivation** in fruit culture. 122510
Studies on the physiology of pruning tea. 2. The effect of *soil* **cultivation** and resting on recovery after pruning. 122550
Soil **cultivation** and sowing of crops on slopes. 125145
Toxicity of secretions of some species of wild fruit plants in the conditions of water and *soil* **culture.** 121656
Annual report for 1975 of the Bavarian Institute for *Soil* **Culture** and Crop Cultivation and the German Association for Hops Research. 1. 122324
Annual report for 1975 of the Bavarian Institute for *Soil* **Culture** and Crop Cultivation and the German Association for Hops Research. 3. [Culture, breeding]. 122522
Annual report for 1975 of the Bavarian Institute for *Soil* **Culture** and Crop Cultivation and the German Association for Hops Research. 2. [Plant protection]. 122934
Mineralogical composition of a **Danish** *soil* developed on young morainic material. 124779
Removal of nutrients with the yield of crops [cereals, sugarbeets, alfalfa] on irrigated **Dark-Chestnut** *soils.* 121405
Degradation of **DDT** in *soil.* 123690
The response of understory herbs to *soil* **depth** gradients in high and low diversity communities. 120328
Soils of the Inangahua Depression, South Island, New Zealand. I. General **description** & *soils.* 124851
Distribution of organic compounds in mechanical fractions of *soils* **developed** from boulder loams. 124894
Control of field bindweed [Convolvulus arvensis] in cropland with **1,3-dichloropropene** *soil* fumigants. 123077
Experiences of *soil* **disinfection** in strawberry culture. 122984
Evaporation rate, leaf water potential and stomatal conductance in Lolium, Trifolium [clover] and Lysimachia in **drying** *soil.* 121518
Experimental results obtained in soybeans cultivated on sandy and black **earth** *soils* in the district of Dolj. 122066
Change of genetical and morphological features and some chemical properties of *soils* under the **effect** of field shelterbelts in the Kamennaia Steppe. 119410
Effective *subsoiling.* 125098
Extracting larvae of Chrysops hirsuticallus (Diptera: Tabanidae) from *soil:* **efficiency** of two methods. 123802
Studies on the algal flora of **Egyptian** *soils.* I. Different sites along a lake in the salines of Wadi el-Natrun. 120245
Electrometric methods of determining the activity of ions in *soils.* 9. **Electrodes** and the conditions of determining the activity of nitrate ions in soils. 124756
Effect of extended organic and mineral fertilization on the content on some trace **elements** in *soils.* 125069
Roses on chalk *[soils,* **England**]. 122477
Re-use of polythene in mechanised sterilisation of *soil* **[Equipment].** 124663
Fertilizers on **eroded** *soils.* 125079
The properties of volcanic ash soils in dry parts of the Colombian Andes and their relation to *soil* **erodibility.** 124790
The "Florentino Ameghino" plan: results of an integral plan for controlling floods, droughts and *soil* **erosion** [Argentina]. 125112
[Soil **erosion** in Santa Fe Province [Argentina]. 125113
[Soil] **erosion** in Plata Valley [Brazil]. 125114
Montana reclamation problems and remedial techniques *[Soil* **erosion**]. 125126
Wind patterns and *soil* **erosion** on the Great Plains. 125152
Latin America threatened by *[soil]* **erosion.** 125155
Suspended sediment filtration capacity of simulated vegetation *[Soil* **erosion** control]. 125174
The new nomenclature and diagnosis of **Estonian** *soils.* 124903
Biogeochemical limitations on western [land] reclamation. The high northern Great Plains **example** *[Soils].* 125120
Throughflow as a mechanism responsible for **excessive** *soil* salinisation in non-irrigated, previously arable lands in the Western Australian wheatbelt: a field study. 124791
Soils of Christchurch Region, New Zealand: the *soil* **factor** in regional planning. 124845
Comparative evaluation of different methods of studying the influx of cesium 137 [isotope] from the *soil* into **farm** plants [Radioactive contamination]. 116017
About *soil* **fatigue** under field crops [Accumulation of certain substances and plant nematodes as a result of monoculture]. 124804
Soil redeposition in solvent cleaning. 4. Redeposition and prevention of **fatty** *soils* [in tetrachloroethylene, wool, cotton and acrylics fabrics]. 116599
Soil redeposition in solvent cleaning. 5. Survey of **fatty** *soils* in solvents used by drycleaners [for various types of fabrics]. 116600
Influence of vegetation on humification in **ferallitic** *soils.* 124785
Genetic variation amongst swede varieties and their hybrids and their response to *soil* **fertility.** 120761
Effect of inorganic fertilizers, manure and lime in long-term application in a crop rotation on the yield of field crops and on *soil* **fertility.** 124925
Evaluation of *soil* **fertility** for natural pastures [Nitrogen, phosphorus and potassium fertilizers]. 124952
Nutrients removal by crops *[Soil* **fertility** maintenance]. 124980
Role of microorganisms in *soil* **fertility** and plant nutrition. 124981
Interaction of *soil* **fertility** and climate being studied in winter wheat response trials. 125040
Soil **fertility** research with forage crops. 125084
Breakdown and movement of 2,4-D in the *soil* under **field** conditions [Herbicidal residues]. 123765
Role of pH [hydrogen-ion concentration] on metribuzin [herbicide] dissipation in **field** *soils.* 123767
Prediction of infiltration into layered **field** *soils* in relation to profile characteristics [of a Cecil soil]. 124914
Effects of pure paraquat dichloride, "Gramoxone W" [herbicides], and formulation additives on soil microbiological activities. 3. Estimations of soil microflora and enzyme activity in **field-treated** *soil.* 123215
Effect of phosphorus fertility of soils and phosphate application on rice culture in cool regions. 2. Response of rice plant growth to the amounts of extractable phosphorus in **flooded** *soils* under field conditions. 125063
Effect of plant residue amendments and chemical treatments upon the inoculum potential of Cylindrocladium **floridanum** in *soil.* 122728
Mycorrhiza effects **following** *soil* fumigation [Citrus inoculation with mycorrhizal fungi]. 122235
Cochliobolus sativus conidia populations in *soils* **following** various cereal crops. 122724
Occurrence and thermoresistance of spores of psychrophilic and psychrotrophic aerobic sporeformers in *soil* and **foods.** 124835
Forms of potassium in the main types of *soils* from the **foothill** and mountainous zones in Dagestan. 124759
Influence of **forest** *soils* on the water requirements (amount and quality) from forested catchment areas of dams. 119305
More production from problem **forest** *soils.* 119423
Nutrient products from **forest** *soils.* 124799
Phosphorus in **forest** *soils.* 124883
The stratified structure of **forest** *soils* in the variegated sandstone area of East Thuringia. 124916
Influence of fertilization on the development of humus form on pseudogleys **[Forest** *soils].* 125049
Fixation of ammonium ion in *soils* in the **form** of complex compounds with aluminum and iron. 124758
Modeling of *soil* **formation** on various tills [Moraines and sands]. 124902
Silcon and aluminum in atmospheric aerosols: crust-air **fractionaton?** [Contribution of *soils].* 125390
Water permeability of **frozen** *soils* after different methods of main tillage. 124900
Some aspects of the control of damping off of [forest tree] seedlings [by disinfection of *soil* with **fumigants**]. 119374
Soil **fumigation** effects on early blight [caused by Alternaria solani] of tomato transplants. 122737
Growth and fermentative activity of spongy saprot, Fomitopsis annosa (Fr.) Karst., in different *soils* **[Fungi].** 121273
The effect of plant age on severity of pea wilt caused by Fusarium oxysporum f. sp. pisi race 5 *[Soil* **fungi].** 122738
Auxins and auxin-like substances synthesized by cellulose-decomposing *[soil]* **fungi.** 124813
Gibberellins and gibberellin-like substances synthesized by cellulose-decomposing *[soil]* **fungi.** 124817
Oxidizing enzymes of cellulose-decomposing *[soil]* **fungi.** 124819
The New Zealand **genetic** *soil* classification—its inception, development and future or "The soil is not a static body". 124841
The problems of methyl bromide [Sterilisation of **glasshouse** *soils].* 124808
Metabolism of o-phthalic acid by different gram-negative and **gram-positive** *soil* bacteria [Nocardia, Arthrobacter, Pseudomonas]. 124775
Effects of fertilizing moribund pines on a **granitic** *soil* in Northern Ireland. 125014
Some remarks on the potentialites and problems related to the **Gray** *soils* of Casamance (south Senegal). 124764
Measures for the long term use of **greenhouse** *soils* for growing tomatoes. 125176
Application of segment labelling techniques to studies of ion uptake by plants **growing** in *soil.* 120897
Preparation and management of *soils* for **growing** potatoes [Tillage]. 125105
Work with a view to preparing **harder** *soils* for cultivation in north Cameroon. Results [Reclamation]. 125093
Investigations into the cause of damage to sugarbeet by the *soil-applied* **herbicide** lenacil [Weed control]. 123064
Adsorption and mobility of metribuzin **[herbicide]** in *soil.* 123764
Damage to cereals caused by **high** *soil* temperature. 123036
Initial and residual responses to superphosphate by a legume (Macroptilium atropureum) on nigrescent **hill** *soils* in South West Viti Levu. 124995
Observations on **Holocene** *soil* formation and morphodynamic activity in non-calcareous regions of the Iberian peninsula. 124788
Cultural measures against excessive copper contents in the *soil* of a **hops** garden left open [Toxicity of economic poisons]. 122935
Effect of *soil* pH **[hydrogen-ion** concentration] on microbial degradation, adsorption, and mobility of metribuzin [herbicide]. 123205
Know your *soils* **[Identification].** 124884
Is there a worm farm in your future? [Raising earthworms for *soil* **improvement].** 124859
The earthworm—man's best friend [How to raise them for *soil* **improvement].** 124860
Soils and **improvement** of agricultural, silvicultural and pastoral conditions in the Wabi Schebelle basin (Ethiopia). 125110
Soil **improvement** and yield of sugarcane in the Sudan [Tillage, gypsum application]. 125135
Soils of **Inangahua** Depression, South Island, New Zealand. III. Soil unit sheets. 124846
Soils of the **Inangahua** Depression, South Island, New Zealand. I. General description & soils. 124851
Soils of the **Inangahua** Depression, South Island, New Zealand. II. Soil chemistry & forestry appraisal. 124852
Response of soybean cultivars grown in root-knot nematode [meloidogyne incognita] **inected** *soil* treated with Fumazone 86 and other nematicides. 122925
Effects of clear-cutting on numbers, biomass and community respiration of *soil* **invertebrates** [Includes insects]. 123818
Electrometric methods of determining the activity of ions in soils. 9. Electrodes and the conditions of determining the activity of nitrate **ions** in *soils.* 124756
Present fertility of **irrigated** *soils* with fruit trees in the bro Valley. 124765
Evaluation of thermal X/5-detector Skylab S-192 data for estimating evapotranspiration and thermal properties of *soils* for **irrigation** management [Remote sensing]. 125257
Vitamin-formation ability of cellulose-decomposing fungi **[isolated** from *soil].* 124824
Turnover of sulfur **isotopes** in *soils.* 124798
Effect of fast-growing [tree] species on the growth and condition of common oak [Quercus robur] in [shelterbelt] plantings created by a strip type of mixing on the *soils* of the **Kamennaia** Step'. 119411
Soybeans on the river **lacustrine** *soils* of the Danube alluvial plain. 122072
Proper procedures for *soil,* **leaf** and nematode sampling. 122920
Effect of fertilization with straw of **light** *soil* on its content of basic nutrients. 125070
Effect of long-term application of inorganic fertilizers in a crop rotation with sugarbeets on the nitrogenous regime of **Light-Chestnut** *soil* in the southeastern part of the Kazakhstan. 124929
Applications and **limits** of *subsoiling.* 125099
Relationship between moisture content, aggregate formation and aggregate stability of a **loam** *soil* treated with a soil conditioner in various concentrations. 124789
Absorption of nutrients by fiber flax and the effectiveness of inorganic fertilizers on Sod-Podzolic **loamy** *soils* in the Udmurt Autonomic Soviet Socialist Republic. 121395
Yield of cereals and the removal of nitrogen, phosphorus and potassium on Sod-Podzolic **loamy** *soil* in the Belorussian SSR in relation to the level of nutrition. 124951

Effect of peat on the agrochemical properties of Sod-Podzolic **loamy-sandy** *soil* and the productivity of crop rotation. 124935
A contribution to the **genesis** and classification of Polish **loess** *soils* (Lublin hill country). 124861
Trade-offs between farm income and selected environmental indicators. A case study of *soil* **loss,** fertilizer, and land use constraints. 115456
What about **magical** *soil* activators and conditioners? 124971
Quantity regularities of light reflection by soils . VII. Spectral reflectory capacity of the **main** *soils* of Kazakhstan. 124781
Effect of different methods of **main** *soil* tillage on the alteration of its volumetric weight and the yield of farm crops [Wheat, sugarbeets]. 125157
Current development of various methods of **maintaining** *soil* in fruit tree culture. 125102
Effect of methods of **major** *soil* tillage on the yield of crops in a rotation with sugarbeets. 121975
Land judging contest draws 1,000 competitors *[Soil* **management].** 125163
Soils of **Manukau** City Experimental Basin, Auckland, New Zealand. 124847
Soil **map** of Asau Block, Savai'i, Western Samoa. 124843
Soil **map** of government horticultural research areas, Pukekohe, New Zealand. 124844
Mapping Florida in an ATV [all-terrain vehicle, *soil* **mapping].** 124909
Supplies of available phosphates in the *soils* from the **Maritime** Territory and their variation under the effect of fertilizers and moistening. 124947
Laboratory measurement of SO2 [sulfur dioxide] deposition velocities on selected building **materials** and *soils.* 125387
Plowing under straw for growing sugarbeets on **Meadow-Sierozem** *soils* in Kirghizia. 125010
An improved spectrophotometer for *soil-water* **measurement.** 124776
Potassium availability in eighteen Brown **Mediterranean** *soils* derived from schists. 124762
A method of predicting the calibration curve for a neutron moisture **meter** *[Soils].* 124752
Effect of long-term atrazine [herbicide] application on *soil* **microbial** activity. 123204
Effects of pure paraquat dichloride, "Gramoxone W" [herbicides], and formulation additives on *soil* **microbiological** activities. 3. Estimations of soil microflora and enzyme activity in field-treated soil. 123215
Effect of continuous growing of sugarbeets and their growing in a crops rotation on the *soil* **microflora** in the conditions of irrigation. 121974
Effects of pure paraquat dichloride, "Gramoxone W" [herbicides], and formulation additives on soil microbiological activities. 3. Estimations of *soil* **microflora** and enzyme activity in field-treated soil. 123215
Effects of *soil* **microorganisms** and their products on the germination of seeds. 120898
Cellulose-decomposing *[soil]* **microorganisms**—producers of gibberellin and gibberellin-like substances. 124815
Decomposition of plant residues and the synthesis of vitamins by *[soil]* **microorganisms.** 124816
Production of gibberellin and gibberellin-like substances by oligonitrophyllic *[soil]* **microorganisms.** 124823
A partially computerized documentation system for **microscopic** *soil* fungi. 119886
Chemical variation of *soils* in **Missouri** associated with selected levels of the soil classification system. 124887
Relation between growth of Chrysanthemum [morifolium] and aeration of various container media *[Soil* **mixtures].** 121713
Growing cucumbers on *soil* and **mixtures** of soil and peat aggregated by hydrolyzed polyacrylonitrile. 124760
Modern *soil* cultivation in conjunction with cereal sowing [Equipment]. 124661
The effect of *soil* **moisture** and nitrogen on yield and quality of the Russet Burbank potato. 122184
Microwave remote sensing of *soil* **moisture.** 124829
Soil **moisture** detection from Skylab [Remote sensing]. 124830
The correlation of Skylab L-band brightness temperatures with antecedent precipitation *[Soil* **moisture,** remote sensing]. 124831
Compensating for environmental variability in the thermal inertia approach to remote sensing of *soil* **moisture.** 124836
Measurements of spectral reflectance and optical constants of selected rock samples for application to remote sensing of *soil* **moisture.** 124868
Irrigation timing for grain sorghum based on *soil* **moisture** tension, Texas High Plains. 125342
Water balance of a system of two-way regulation of water regime of *soils* in a **monsoon** climate. 125238
Influence of *soil* **mulching** on strawberries (Fragaria species). 125042
New additions to *soil* **mycoflora.** 124793
In situ estimation of [maize] root length at **natural** *soil* profiles. 121515
Practical guide for routine work with plant and *soil* **nematodes.** 122988
Revisions in Leptonchoidea (Nematoda: Dorylaimida). Tylencholaimellus, Doryllium, Gerthus n. gen. and Agmodorus in Tylencholaimellidae; and Aulolaimoides and Adenolaimus in Aulolaimoididae. *[Soil* **nematodes,** indicator species in environmental impact studies]. 124891
Effect of manure and peat on the balance and transformation of calcium **nitrate** in *soil.* 124933
Studies of field populations of Rhizovbium [trifolii]: relationships between strain effectiveness, *soil* **nitrogen** levels, and response to applied nitrogen in subterranean clover pastures in northeastern Victoria. 124803
Nitrate in effluents from irrigated lands—annual report [Leaching, **nitrogen,** *soil].* 124870
Use of immunoadsorbent affinity chromatography to purify component I of nitrogenase from extracts of Azotobacter vinelandii [a **nitrogen-fixing** *soil* bacterium]. 124800
Production of free amino acids by oligonitrophyllic microorganisms *[Soil* **nitrogen-fixing** bacteria]. 124822
Observations on some Actinedida (=Prostigmata) in *soils* in **North** America. V. Barbutiidae, a new family of mites (Acari: Raphignathoidae) and description of a new species belonging to the genus Barbutia [perretae]. 124195
Observations on some Actinedida (=Prostigmata) in *soils* in **North** America. IV. A new larval form and its adult belonging to the subfamily of Microthrombidiinae (Acari, Thrombidiidae) [New taxa]. 124196
Distribution and pathogenicity of Fusarium oxysporum in a [Pseudotsuga menziesii] forest **nursery** *soil.* 122727
Fertility of *soils* **occupied** by cacao trees in the southern part of Bahia State [Soil analysis]. 124783
A method for the extraction of Sitona (Coleoptera: Curculionidae) eggs from *soil* and **occurrence** of a mymarid (Hymenoptera: Chalcidoidea) in the Mediterranean region. 123900
An inventory of **Ohio** *soils,* Crawford County. 124832
Removal of **oily** *soils.* 2. The relation of yellowing and residue with hard ions on [laundered] fabrics. 116598
Response of four corn hybrids to different plant densities and row spacings on **Olivier** *soil.* 121892
Optimizing *soil* moisture conservation by mulch of hydrophobic aggregates using simulation and numerical search procedures. 125172
Grass and clover as organic matter on the spot **[Orchard** *soil* management]. 121936
Studies on the pollution of apple **orchard-surface** *soils* and its improvement in relation to inorganic spray residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VIII. Compartive studies of the behavior of basal nitrogen and the absorption of nitrogen by rice plant in different **paddy** *soils.* 125052
Growing cucumbers on soil and mixtures of *soil* and **peat** aggregated by hydrolyzed polyacrylonitrile. 124760
Effect of inorganic fertilizers on the yield, chemical composition of meadow foxtail [Alopecurus pratensis] and the regime of nutrients in **Peat-Bog** *soils* of the Kola Peninsula. 124927
Effectiveness of reserve application of phosphorus and potassium fertilizers on **peaty** *soils.* 124938
Effect of agricultural development of **peaty-boggy** *soils* on the humic acids. 124755
Erosion and zero-tillage of *soil* in **perenniel** culture. 125103
Study of the optimal load on White Ugni grapes on groies [Red Rendzina] *soils* **[Pest** and disease control, application of pesticides]. 122459
Concepts and methods in the measurement of isotopically exchangeable **phosphate** in *soil.* 124882
Effect of phosphorus fertility of *soils* and **phosphate** application on rice culture in cool regions. 2. Response of rice plant growth to the amounts of extractable phosphorus in flooded soils under field conditions. 125063
Effects of cultivation on *soil* **physical** characteristics which affect plant growth. 124772
Effect of *soil* on the **physiological** activity of apple tree secretions. 121654
Effect of pH [hydrogen-ion concentration] on metribuzin [herbicide] activity in the *soil* **[Phytotoxicity].** 123766
Microflora in an experimental crop rotation system and its antagonistic effects on *soil* **plant** pathogens [Fungi]. 122655
Determination of iron in agrochemical objects *[soil* and **plant** material] by the method of bi-amperometric titration. 124754
Ethylene [plant growth regulator] in soil biology [control of *soil-borne* **plant** diseases]. 124774
Breaking up and preparation of *soils* before **planting.** 125101
Soil, **plants** and protein [Effect of the properties of SodPodzolic soils on the protein content in field crops]. 121406
Behavior of quintozene and hexachlorobenzene in the *soil* and its up take by **plants.** 123711
Presence of phytotoxic form of bacteria in a Sod-weak **Podzolic** *soil* planted with lupine in a crop rotation and in monoculture. 122801
Fluorine content in some **Polish** *soils.* 124895
Occurence of natural radionuclides in the *soil* **[Pollution].** 125452
Dynamics of *soil* **populations** of Verticillium dahliae Kleb. under different cotton varieties. 122651
Fertilization effect on content of exchangeable cations and of more strongly fixed **potassium** [in the *soil].* 125072
Pilot study concentrates on *soil* **"potentials"** [Soil surveys, Florida]. 124910
Soil **preparation** and plant development on sandy soils in Jutland [Picea abies, Larix leptolepis, Abies alba]. 119572
Effects of **preplanting** *soil-incorporated* herbicides on metribuzin injury in soybeans. 123023
Effectiveness of combining **presowing** *soil* tillage and the sowing of sugarbeets in the conditions of irrigation in Kirghizia. 121977
Major and **presowing** *soil* tillage in crop rotations with sugarbeets in Kirghizia. 121980
Effects of chromium, manganese, nickel, lead, copper and zinc on the nitrification **process** of *soil.* 124751
Soil **productivity** [in Uganda]. 124809
Nitrate concentrations below root zones as related to *soil* **profile** characteristics. 124869
Nitrate-nitrogen movement through soil as affected by *soil* **profile** characteristics [Eutrophication, denitrification]. 124874
A chemical and physicochemical investigation of two Danish podzol **profiles** *[Soils].* 124777
Effect of fertilizers on the growth of pine seedlings in relation to agrochemical **properties** of the *soil.* 121787
Studies of applying wastewater discharged from the potato starch factories to arable land. 1. The influence of spray irrigation of wastewater in grassland on grasses and *soil* **properties.** 125546
Development of chemical characteristics of *soils* in **protected** cultures. Their fertilization as a function of water availability. 124768
Dynamics of litter fall in forests on Brown and **Pseudopodzolic** *soils* [and its decomposition]. 125552
Soils of **Purukohukohu** IHD Experimental Basin, Rotorua County, North Island, New Zealand. 124848
Investigations on **rationalizing** *soil* management in the production of vegetables in greenhouse systems. 125175
Binding of (14C) [carbon isotope] parathion in *soil:* a **reassessment** of pesticide persistence. 123759
Soil **redeposition** in solvent cleaning. 4. Redeposition and prevention of fatty soils [in tetrachloroethylene, wool, cotton and acrylics fabrics]. 116599
Soil **redeposition** in solvent cleaning. 5. Survey of fatty soils in solvents used by drycleaners [for various types of fabrics]. 116600
Development of characteristic principals of **reforestation** *soils* of Loudima (Congo). 124784
Balance of underground water and dynamics of moisture in the areation zone [in *soil]* in **relation** to meteorologic factors (1969-1973). 125216
Formation and development of **Rendzina** *soils.* 124901
Soils of **research** catchments, Manorburn Experimental Basin, Central Otago, New Zealand. 124849
Autointoxication mechanism of Oryza sativa [rice]. I. Phytotoxic effects of decomposing rice **residues** in *soil.* 122972
Identification and phytotoxic activity of compounds produced during decomposition of corn and rye **residues** in *soil.* 122973
Soil science and agrochemistry to the aid of high utilization of *soil* **resources.** 124886
About liming of *soils* **[Results** of 24 years of experiments on doses, ways and date of application]. 124918
Nitric oxide production in **rice** *soils.* 124769
Presence of Azotobacter chroococcum in *soils* of **Rio** Grande do Sul, Brazil. 124892
Features of phosphate regime of *soils* in the **root** zone of plants. 124757
Eolian **salinization** of *soils.* 124794
Determination of initial parameters for calculating the forecast of *[soil]* **salinization** in the Ingulets and Spask irrigation systems. 125218
The poplar [Populus]: A tree very sensitive to the presence of **salts** [in the *soil].* 121807
Tall wheat grass: its establishment in moderately **salty** *soils.* 122161
Improvement of alkali-rich **salty** *soil* by using salt water. 125109
Windbreak removal [on **sandy** *soils].* 119401
Soil preparation and plant development on **sandy** *soils* in Jutland [Picea abies, Larix leptolepis, Abies alba]. 119572
Effect of magnesium on the consumption of nutrients by potatoes on **sandy** *soils* of the Bryansk part of Poles'ye. 121587
Evaluation of preemergence herbicides for sorghum grown on **sandy** *soil.* 123177
NPK [nitrogen, phosphorus, potassium] requirement of crops in *soils* of **Saryu** alluviums in relation to their initial fertility status. 124990
Agricultural importance of the supply of potassium from the atmosphere on *soils* in the **savannah** zone. 124763
Soil **science** and agrochemistry to the aid of high utilization of soil resources. 124886
List of publications by Norman Taylor *[Soil* **scientists,** New Zealand]. 124840
Study of a climate sequence in the island of Reunion *[Soil* **sequences].** 124786
Effect of different forms of nitrogenous fertilizers on the productivity of potatoes on irrigated **Sierozem** *soils* in Uzbekistan. 124920
Effect of long-term application of fertilizers in a crop rotation on the content of humus and nitrogen in **Sierozem-meadow** *soils* of Kirghizia. 124928
Soil **site** determinations [for windbreaks]. 124889
Soybean yield responses and assimilation of Zn [zinc] and cd [cadmium] from sewage **sludge-amended** *soil.* 122026
Sodic *soils* respond to deep plowing [Wheat]. 125089

Availability of "natural" and "residual" phosphates for [barley and oats] plants in **Sod-Podzolic** *soils.* 121398
Soil, plants and protein [Effect of the properties of **SodPodzolic** *soils* on the protein content in field crops]. 121406
Migration and detoxication rate of some simm-triazines in **Sod-Podzolic** *soil* with average loam content. 122884
The possibility of using the method of electric resistance for the evaluation of infiltration parameters of *soil* (1970-1973). 124811
The study of iron 59 [isotope] **sorption** in *soils.* 124905
Entry and movement in vegetation of lead derived from air and *soil* **sources.** 125491
RX [prescription] for erodible **Southern** *soils* [No-tillage farming]. 125088
Quantity regularities of light reflection by *soils*. VII. **Spectral** reflectory capacity of the main soils of Kazakhstan. 124781
Wiregrass—catalyst for action *[Soil* **stabilization].** 125169
Use of **standardized** *soils* in the production of pot plants. 125177
The New Zealand genetic soil classification—its inception, development and future or "The *soil* is not a **static** body". 124841
Equivalent rates of *soil* **sterilants** [Herbicides]. 123127
A comparative study of the infection of perennial reygrass [Lolium perenne] by Fusarum nivale and Fusarium culmorum in **sterilized** *soil.* 122560
Soils of **Stewart** Island (Rakeiura), New Zealand. 124850
Learning the basics about *soil* **structure.** 124806
The methodology of extracting organic **substances** from the *soil.* 124805
Nitrous oxide concentration in lysimeters and the effect of *soil* **suction.** 124875
Preparation of *soils* for **sugarbeets.** Research on the homogeneity of the cultural profile, preparation in flat tillage. 125106
Grassland vegetation analysis using remote sensing techniques. 5. Remote sensing data processing for the grassland planning *[Soil* **survey].** 120394
Study of flood plains of Ob' and Irtysh rivers in relation to a planned redistribution of runoff in the middle area (1972-1973) *[Soil* **survey** and mapping]. 124810
LANDSAT-1 data, its use in a *soil* **survey** program [Remote sensing]. 124828
The Eads Bunch *[Soil* **survey** in Colorado]. 124911
Pilot study concentrates on soil "potentials" *[Soil* **surveys,** Florida]. 124910
The effect of depth of burial in *soil* on the **survival** of some common Rhodesian weed seeds. 123189
Prognosis of crops irrigation, based on the interrelation between *soil-water-plant-climate* **system** by means of electronic calculator. 125337
Root uptake of *soil-injected* **[systemic** fungicide] benomyl and its detection with Ulmus americana. 122640
Removal of nutrients by weeds on a cotton field on **Takyr** *soils* in the Karshi Steppe. 123059
The effect of *soil* **temperature** and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and tolerant variety of young tea (Camellia sinensis L.). 123040
The application and uses of **Terrazole** *soil* fungicide [Pythium, Phytophthora, water moulds, control, New Zealand]. 122594
Evaluation of *soil* **tests** for nitrogen. 124802
Soil-release and **textile** propeties of cotton/polyester-poly(methacrylic acid) copolymer fabrics. 117200
Competition for plant nutrients in *soil;* a **theoretical** approach. 121154
Joint effect of irrigation, fertilizers and *soil* **tillage** on the productivity of sugarbeets. 121979
Ways of improving the system of *soil* **tillage** in a crop rotation with sugarbeets and specifically for this crop in the conditions of irrigation. 121988
Effect of *soil* **tillage** on a slope on the yield of the maize green mass. 122147
Rooting of tobacco and **tillage** of *soil.* 125107
Soil **tillage** in culture systems. 125108
Improvement of anti-erosion practices of *soil* **tillage.** 125158
Study of the Korean fauna of Insecta Collembola. VI. On the family of *edaphic* **Tomoceridae** with the description of four new species and a new subspecies [in the genus Tomocerus]. 124263
Soils of **Tongatapu,** Tonga. 124854
Soils of **Totokoitu** Research Station, Rarotonga, Cook Islands. 124855
Investigation on [wheat] seed and *soil* **treatments** [with lindane] against larvae of Zabrus spp. and Anisoplia spp. cereal pests in Central Anatolia. 123290
Insecticidal control of greenbugs [Schizaphis graminum] in wheat with foliar and *soil* **treatments.** 123345
Delineation of the boundaries of a buried pre-glacial valley with LANDSAT-1 data **[Udoll** *soils,* remote sensing]. 124827
Observation of root growth of strawberry plants grown on black film-covered and **uncovered** *soil.* 121732
Sodium carbonate salinization of *soils* and **underground** waters. 124797
Interval of changes of the hydrophysical properties of *soil* and **underlying** layer under water condition effected by twoway regulation (1972-1973) [Irrigation, drainage]. 125229
Soils of Inangahua Depression, South Island, New Zealand. III. *Soil* **unit** sheets. 124846
Analytical solutions of a simplified flow equation [of water in **unsaturated** *soils].* 124913
Forms of natural and introduced zinc in *soils* and its **uptake** in plants [Contamination with radioactive zinc 65 isotope tested on oats and maize]. 116018
Lead contamination of **urban** *soils* and vegetation by emissions from secondary lead industries. 125493
Sampling the unsaturated zone of irrigated lands for reliable estimates of nitrate concentrations *[Soil* **variability].** 124876
Geomorphological expression of *soil* **variations** in the sedimentary terrain of Muttal & Salal areas of Udhampur district in Jammu Province of Jammu and Kashmir State. 124907
Occurence of heavy metals in *soils* of the **Warsaw** city green s [Pollution]. 125549
Soil **water** extraction by, and growth of [trees planted as] multi-row windbreaks. 119395
Effect of fertilizers and irrigation on the water and nutrient condition of *soil,* **water** consumption and productivity of sugarbeets in Bashkiria. 124924
Change of the chemical composition of *soils* and **water** during a time period as a result of flooding. 125217
Extensive overburden potentials for *soil* and **water** quality [Coal mining, environmental contamination prevention]. 125416
Optical vs. Electronic enhancement of remote sensing imagery [for information as to the amount and condition of such earth resources as timber, forage, *soils,* **water,** minerals and agricultural crops. 125487
Growth of oilseed rape under anaerobic conditions **[Waterlogged** *soil].* 121418
Hormones and the responses of tomato plants to **waterlogged** *soil.* 121598
Soils of the **Wellington** urban area. 124853
On probability of drought and of secondary salinization of *soils* of the **world.** 124780
Effect of different tillage practices on the biological activity of *soil* and the **yield** of sunflower. 122146
Annual report of field investigations of water and nitrogen movement in **Yolo** *Soil*—Rann GI-34733X. 124864
Response of 'Sweet Spanish' onion to *soil-applied* **zinc.** 121714
The balance of nutrients in the *soils* of the **Znamia** Oktiabria collective farm in the Talovskii District of the Voronezh Region. 124899

SOLANACEAE

Peppers: **Capsicum** *(Solanaceae).* 122373
Tomato: Lycopersicon **esculentum** *(Solanaceae).* 122381
Eggplant: Solanum **melongena** *(Solanaceae).* 122361
Identification of seed-like structures [formed by six fungus genera, Anguina nematode galls and *solanaceous* **sclerotic** granules]. 122762
Tobacco: Nicotiana **tabacum** *(Solanaceae).* 121967
Potatoes: Solanum **tuberosum** *(Solanaceae).* 122375

SOLANUM

Ultrastructural evaluation of parathyroid glands and thyroid C-cells from cattle **fed** *solanum* malacoxylon. 117890
Solasodine from curved spine mutant of *Solanum* **khasianum** Clarke. 121142
A method for the isolation of the active principle of *Solanum* **malacoxylon** [cause of a calcinotic disease of cattle]. 119228
Eggplant: *Solanum* **melongena** (Solanaceae). 122361
An experiment on the feeding habit of the large 28-spotted ladybird (Henosepilachna vigintioctomaculata) by an alternative grafting between potato **plant** *(Solanum* tuberosum) and Chinese lantern plant (Physalis alkekengi). 123254
Total nitrogen concentration in leaves of **potatoes** *(Solanum* tuberosum L.) as an index of nutritonal status [Foliar analysis]. 125020
Eggplant: **Solanum** *melongena* (Solanaceae). 122361
Re-examination of a numerical taxonomic study of *Solanum* **species** and hybrids. 120288
Potatoes: *Solanum* **tuberosum** (Solanaceae). 122375

SOLAR

Relationships of photosynthetically active radiation and shortwave irradiance [Photosynthesis and *solar* **energy].** 120861
Production and *solar* **energy** utilization by two different strains of ryegrass [Lolium, calculation]. 121422
Light in [plant] propagation *[Solar* **energy,** artificial lighting]. 122232
Estimating *solar* radiation on sloping surfaces. 124839
Incoming *[solar]* **radiation** fluxes on sloping terrain: a general model for use in Southern Africa. 115114
The carbon budget of a young apple tree [Photosynthesis, respiration, *solar* **radiation,** temperature]. 121717
A nice greenhouse for nasty **winters:** all *solar.* 124634

SOLASODINE

Solasodine from **curved** spine mutant of Solanum khasianum Clarke. 121142

SOLENOPSIS

Effects of juvenile hormone analogues on caste differentiation in the imported fire ant, *Solenopsis* **invicta.** 123246
Flight and survival of alate red imported fire ants *[Solenopsis* **invicta]** after mirex treatment. 123247

SOLID

Effects of **differential** *solid-liquid* removal rates on protozoa numbers in continuous cultures of rumen contents. 117768
Effects of **differential** *solid-liquid* removal rates on fermentation parameters in continuous cultures of rumen contents. 117769
Don't let your SNF *[solids-not-fat]* **fall** [Feeding dairy cattle]. 118123
Production of sterigmatocystin by Aspergillus versicolor and Bipolaris sorokiniana [Fungi] on semisynthetic liquid and *solid* **media.** 121223
Utilization of alumized red **mud** *solids* for phosphorus removal. 125519
Investigation of the problem of determining total **suspended** *solids* in pulp and paper effluents. 125563
Studies on the *solid-phase* **synthesis** of bovine pancreatic trypsin inhibitor (Kunitz) and the characterization of the synthetic material. 117820
Lake treatment with fly ash, lime, and gypsum *[Solid* **waste** disposal]. 125509
A *solid* **waste** plan for southeastern Oklahoma. 125561

SOLIDAGO

Vegetative reproduction [of *Solidago* **canadensis]** and close packing in a successional plant species. 120384
The mirid (Hemiptera) fauna of *Solidago* **canadensis** (Asteracea) in south-eastern Ontario. 124275

SOLONETZ

Formation of *Solonetz* and **Solod** on ancient weathering crusts. Some general laws of transformation of ancient weathering crusts in the hypergenesis zone in temperate latitudes. 124795

SOLUBILITY

A comparison of some kinetic properties of *soluble* and **bound** [chicken] lactate dehydrogenase isoenzymes at different temperatures. 117657
Solubilization of the **chromatin-bound** estrogen receptor from chicken liver and fractionation on hydroxylapatite. 117667
Water-soluble **components** of four fuel oils: chemical characterization and effects on growth of microalgae. 121269
Effect of *water-soluble* **excretions** from litter fall of woody plants on te germination of seeds. 120964
Production of potassium **fertilizers** with slow *solubility.* 124944
Characteristic of *water-soluble* **fraction** of proteins from organs of plants infested by root-knot nematodes [Vegetable and melon crops]. 123001
Composition of *soluble* **indigenous** saccharides from sugarcane. 117117
Cellulose acetate electrophoresis of *soluble* **lens** proteins of different species of mammals; the use of discontinuous buffer systems [Rats, mice, cattle, sheep]. 117633
Biochemical characterization of allelic forms of *soluble* **malate** dehydrogenase of Drosophila melanogaster. 123975
Grit for **poultry**—*soluble* and insoluble [Diet]. 118176
Changes in the *soluble* **protein** constitution of cucumber cotyledons following infection with two strains of cucumber mosaic virus. 122852
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of *salt-soluble* **proteins** from seeds of some varieties of lentils. 117320
Heterogeneity of *soluble* **proteins** from the cytoplasm in leaves of wintering plants [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Changes in *soluble* **proteins** in potato leaves infected with Phytophthora infestans. 122741
Changes in *soluble* **proteins** in callus cells of hypersensitive tobacco inoculated with tobacco mosaic virus. 122838
Tannin in persimmon (Diospyros kaki L.) fruits. II. Volatile compounds and *soluble* **tannin** of the fruits in the course of removal of astringency. 117294
Fractionation and amino acid composition of *acid-soluble* **trypsin** peptides of inclusion bodies protein of moth (Galleria mellonella) nuclear polyhedrosis virus. 123827
Peculiarities of tRNA that translate the synthesis of *soluble* and **unsoluble** proteins of the chloroplasts. 121348
Gel chromatographic separation of retinol, retinyl esters and other *fat-soluble* **vitamins.** 116411
Recent progress in the analysis of gums and natural **water** *soluble* plant colloids. II. Carob [Ceratonia siliqua] flour. 116649
On the components of pileus and stipe of dried shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and hot **water** *soluble* polysaccharides. 117297
Evaluation of nitric phosphates differing in **water** *solubility* of their phosphorus fraction [Fertilizers, wheat, berseem]. 125017

SOLUTION

Activity of the C-18 Hyalophora cecropia synthetic juvenile hormone in Locusta migratoria, with special reference to the **age** of the *solutions.* 123846
Alkali *solution* action on spruce wood. II. The change of mechanical properties. 119729
Study of oxidation-reduction interactions among conversion products of model compounds and carbohydrates in **alkali** *solutions* [Lignin]. 119745
Rheology and spinning of **alkaline** *solutions* of sunflower seed globulin and casein. 117154
Investigation of oxidation-reduction processes in lignin model compounds in **alkaline** *solutions.* 119736
Analytical *solutions* of a simplified flow equation [of water in unsaturated soils]. 124913
Mechanism of degradation of thiofanox [systemic insecticide] in **aqueous** *solutions.* 123240
A comparison between the protein-protein association in caseinate and in rennet-treated **caseinate** *solutions.* 116901
Growth and resource allocation responses of Spartina alterniflora Loisel. to three levels of NH4-N, Fe, and NaCl [ammonia, iron, sodium chloride] in *solution* **culture.** 121436
Lignin influence on thermomechanical polymerization of monomers. I. The influence al alkali birch lignin on styrol polymerization in **dimethylsulphoxide** *solution.* 119739
Induced feline urethral obstruction: response to hyperkalemia to relief of obstruction and administration of parenteral **electrolyte** *solution.* 119110
Rheological investigations of cellulose **ether** *solutions.* 119787
The vapour pressure of aqueous **fructose** *solutions.* 119767
Quantitative study of secondary structure of [calf thymus] histones H1, H2A, and H4 in *solution* by **infrared** spectroscopy. 117666
Heavy metal toxicity in vegetable crops. V. The effect of iron concentration in the **nutrient** *solution* on manganese toxicity in vegetable crops [Chlorosis]. 122980
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of **nutrient** *solutions* on the trace element nutrition of tomato and cucumber. 122981
Straw, a **possible** *solution* for the lack of forage [Dairy cattle]. 118107
Solutions to **problems** associated with the replanting of peaches. 122275
Veterinarians with no means of communication urge a **rapid** *solution.* 118428
Rote *solutions* [Behavioral problems in dogs]. 118498
Effects of **salt** *solution* treatment and low temperature storage on the elongation, weight, fiber and lignin contents of post-harvested green asparagus spears. 117285
Studies on the corrosion of cooking utensils. 1. Behaviors on the corrosion of mild steels in **seasoning** *solutions.* 116602
Crystallizing wine tartar by concentrating **tartaric** *solution* through hyperifiltration. 117240
A contribution to the *solution* of the **technology** of the harvesting and distribution of [forest tree] seedlings. 119621
X-ray study of crystalline character and mechanical properties of cotton fibers swollen in **zincoxen** *solution.* 117131

SOLVENT

Aqueous *solvents* for extracting glanded cottonseed protein without gland rupture. 117127
Soil redeposition in *solvent* **cleaning.** 4. Redeposition and prevention of fatty soils [in tetrachloroethylene, wool, cotton and acrylics fabrics]. 116599
Soil redeposition in *solvent* **cleaning.** 5. Survey of fatty soils in solvents used by drycleaners [for various types of fabrics]. 116600
Study of bound phospholipase activities of fungal mycelia using an **organic** *solvent* system [Rhizopus arrhizus, Mucor javanicus]. 121237

SOMATIC

Research [tests] on the presence of subclinical bovine mastitis accomplished by means of *somatic* **cell** counting of bulk milk with the Autoanalyzer II-OSCC (optic somatic cell counter) in the province of Parma. 118946
The effect of *somatic* **cells** on the reference method for the determination of dirt in milk. 116218
Incorporation of tritiated thymidine in germinal and *somatic* **cells** of the onion fly, Hylemya antiqua (Diptera: Anthomyidae), as determined by autoradiography. 123889
UV [ultraviolet]-induced mitotic recombinations in *somatic* **cells** of Drosophila melanogaster. 124090
Counting *somatic* cells in milk with a rapid flow-through cytophotometer. 116892
Chemical mutagenesis on rye; an analysis of the *somatic* **damage** caused by (NMH) n-methyl-n-nitrosourea. 120658
Somatic **hybridisation** of Penicillium roquefortii with Penicillium chrysogenum after protoplast fusion. 120787
The X-ray treatments to **induce** *somatic* mutation in Chrysanthemum morifolium Ram. II. The imductive dosage of somatic mutation in Chrysanthemum cultivars. 120771
Research [tests] on the presence of subclinical bovine mastitis accomplished by means of somatic cell counting of bulk milk with the Autoanalyzer II-OSCC (**optic** *somatic* cell counter) in the province of Parma. 118946

SONCHUS

The proteins of sowthistle *[Sonchus* **oleraceus]** yellow vein virus [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847
Application of oganoselenium chemistry to the total synthesis of (plus/minus)-tuberiferine [isolated from *Sonchus* **tuberifer].** 121007

SORBIC

Mycotoxins in foods. VIII. Inhibition of the formation of mycotoxins (aflatoxins) B1 and G1, patulin and sterigmatocystin) in whole wheat bread by *sorbic* **acid** and sorboylpalmitate. 116077
Degradation of *sorbic* **acid** by bacteria [Wine manufacture]. 117227

SORBUS

New representatives of the **genus** *Sorbus* L. In Bulgaria. 119964
Data on the taxonomic study of the pollen of Asiatic species of the **genus** *Sorbus* L. 120063

SORDARIA

The experiment: dikaryophase and formation of meiosporangia in higher fungi *[Sordaria* **macrospora,** Polyporus ciliatus]. 120956
William Grady Fields (1933-1975) [Geneticists, Fungi, United **States,** *Sordaria].* 120784

SORGHUM

Changes in area and production of jowar *[Sorghum* **bicolor]** in Karnataka from 1961-62 to 1972-73. 121916
Sorghum: *Sorghum* **bicolor** (Gramineae-Andropogoneae). 121961
Bifenox—results of the 1975 experimental permit on small grains and *sorghum* **[Control** of broadleaf weeds]. 123116
Seed development of four *sorghum* **cultivars.** 121553
Sorghums **[Cultivation].** 121854
Presence of virus in the *Sorghum* **culture** [Dwarfism, Colombia]. 122867
Measures for controlling **diseases** of *sorghum.* 122995
Hydrogen cyanide production by **field-grown** *sorghums* [Toxic when ingested by stock]. 121524
Direct sowing of **forage** *sorghum* in guinea pasture [Panicum maximum] during the dry season. 1. Effects of pasture availability and milk production. 121900
The effect of seed quantity and row spacing on yield of two varieties of **forage** *sorghum.* 122137
Forage *sorghum* variety and fertilizer trials in the Upper Gulf Coast Prairie of Texas, 1974. 125060
Grain *sorghum* performance trials at the Imperial Valley Field Station in 1975 [Varieties, yields]. 121858
Grain *sorghum* performance trials at the Imperial Valley Field Station in 1974 [Varieties, yields]. 121859
Effect of plant water deficits of various growth stages on growth, grain yield and leaf water potential of irrigated **grain** *sorghum* [Drought tolerance]. 122059
Grain *sorghum* hybrid performance in the Northern High Plains, 1967-1972 [Varieties, yields]. 122080
Grain *sorghum* yield response to cutting treatments at different stages of growth. 122081
A dynamic **grain** *sorghum* growth model [for calculating the daily growth and development of an average grain sorghum plant in a field stand]. 122164
Herbicides for **grain** *sorghum* in Nebraska. 123133
Experimental aphid [Rhopalosiphum maidis] control in **grain** *sorghum.* 123342
In-furrow applications of insecticides for white grub [Phyllophaga crinita] control in **grain** *sorghum.* 123343
Evaluation of tillage and herbicides for **grain** *sorghum* surface residue management in an irrigated wheat-sorghum-fallow cropping sequence. 123754
Energy production per acre and efficiency of energy production by **grain** *sorghum* and cotton as related to nitrogen fertilizer. 125059
No-till dryland **grain** *sorghum* after irrigated wheat with intervening fallow. 125147
Irrigation timing for **grain** *sorghum* based on soil moisture tension, Texas High Plains. 125342
No-till management of furrow irrigated continuous **grain** *sorghum.* 125343
Latitudinal variability in earliness of **grain-bearing** *Sorghum* hybrids. 120633
Producing hybrid seeds in *sorghum* for **grains** and sorghum X herb sudangrass. 120792
Evaluation of preemergence herbicides for *sorghum* **grown** on sandy soil. 123177
Effect of feeding hay and silage made from maize hybrid napier [Pennisetum purpureum] and *sorghum* on the **growth** of crossbred calves. 118075
Johnsongrass *[Sorghum* **halepense]**—as a weed. 123082
Johnsongrass *[Sorghum* **halepense]** control with herbicides prior to planting sorghum. 123179
Asulam [herbicide] for johnsongrass *[Sorghum* **halepense]** control in sugarcane. 123202
Producing hybrid seeds in sorghum for grains and *sorghum* X **herb** sudangrass. 120792
Situation of maize and *sorghum* on the **international** and national market [Colombia]. 115566
Evaluation of tillage and herbicides for grain sorghum surface residue management in an **irrigated** *wheat-sorghum-fallow* cropping sequence. 123754
Disposal of beef feedlot manure **[Maize,** *sorghum].* 125057
The *sorghum* **midge** [Contarinia sorghicola, biology and control]. 123277
Sorghum and **napiergrass** silage as winter feed for pregnant beef cows. 118022
The development of **pest-resistant** *sorghum* [Contarinia sorghicola, Oligonychus, Schizaphis graminum]. 120781
Johnsongrass [Sorghum halepense] control with herbicides prior to **planting** *sorghum.* 123179
A new biological technique of detecting the presence of systemic insecticides absorbed by **plants** *[Sorghum].* 123309
Implementation of an integrated pest management **program** in *sorghum.* 123326
Integrated control of arthropod pests of *sorghum* **[Schizaphis** graminum, Contarinia sorghicola]. 123327
Sorghum **silage** and napiergrass silage for beef cattle feeding in the dry season. 118023
Hydrogen cyanide detoxification by Gloeocercospora **sorghi** *[Sorghum].* 122704
Sorghum: **Sorghum** bicolor (Gramineae-Andropogoneae). 121961
Mineral composition of liver and kidney of rats fed corn, *sorghum,* and **soybean** grain grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
The storage of seeds **[Soybeans,** *sorghum].* 117208
Herbicides for row crops [Maize, **soybeans,** *sorghum].* 123198
Narrow rows pay **[Spacing** *sorghum].* 121838
Mineral requirements of *sorghum.* **Study** of a long stalked variety from Upper Volta. 121409
Another step forward: **sugar** from *sorghum.* 117060
Sorghum, a **summer** forage plant of interest for dry regions [Varieties]. 122169
A comparison of phosphorus fertilization in Central **Texas** *[Sorghum].* 125056
Protease & phosphatase activities in relation to presowing seed **treatments** in *sorghum.* 121506
Competition of *Sorghum* **varietis** for fresh forage production. 121883
The development of amylase and maltase during the malting of *sorghum* **vulgare** [Beer manufacture]. 117065
Suppressing **weeds** in *sorghum.* 123100

SOROR

Description of the male of **Criorrhina** *soror* Paramonov (Diptera: Syrphidae). 124231

SORT

What *sort* of **milk** board? [Policies]. 115832
Sieve cleaning in the **plane** *sorter* [Grain equipment]. 117150
Overfill or *sort* out? The **problem** of observing the regulations on correct amounts of fillings [Ready made foods]. 116092

SOUND

Fourier analysis of the *flight-sound* of the **pentatomid** bug tessaratoma javanica Thunberg & the pressure pattern of its wings. 123970
Development of user applications for earth resources [remote sensing] survey data in urban and regonal planning in the **Puget** *Sound* area. 115248

SOW *see* SWINE

SOWING

Effect of *sowing-time* **applied** fertilizer against the background of the main application on the yield of spring wheat. 125075
Modern soil cultivation in conjunction with **cereal** *sowing* [Equipment]. 124661
Sowing **coated** sugarbeet seeds in Kirghizia. 121985
Soil cultivation and *sowing* of **crops** on slopes. 125145
Effect of sowing rate and *sowing* **date** on lupin seed yield. 122047
Direct *sowing* of forage sorghum in guinea pasture [Panicum maximum] during the dry season. 1. Effects of pasture availability and milk production. 121900
Sowing **genetic** monogerm sugarbeet seeds with SPC-6 machines. 124718
Use of **low** *sowing* rates of sugarbeet seeds on irrigated lands in Kirghizia. 121987
Effects of planting pattern and *sowing* **method** on the seed yield of safflower, oilseed rape, and lupin. 122048
Effect of *sowing* **methods** and densities on winter wheat. 122118
Icata, a new wheat variety for *sowing* on **miniature** holdings [Colombia]. 122108
Influence of *sowing* **modalites** and thinning on alfalfa seed yield. 122124
Yield and *sowing* **qualities** of Mironovskaia 808 seeds at different sowing rates [Winter wheat]. 122154
Effect of *sowing* **rate** and sowing date on lupin seed yield. 122047
Effects of *sowing* **rate** and row width on the seed yield of three grasses [Lolium multiflorum, Dactylis glomerata, Festuca arundinacea]. 122119
Effect of the *sowing* **rate** on the yield of winter wheat sown on a cropped fallow. 122149
Yield and sowing qualities of Mironovskaia 808 seeds at different *sowing* **rates** [Winter wheat]. 122154
Effect of inorganic fertilizers and *sowing* **rates** on the sowing and yielding properties of spring wheat seeds. 125083
Dates of *sowing,* **seed** rates and [wheat] varieties. 122014
Effectiveness of combining presowing soil tillage and the *sowing* of **sugarbeets** in the conditions of irrigation in Kirghizia. 121977
Effectiveness of *sowing* **sugarbeets** under irrigation. 125245
Effect of *pre-sowing* **treatments** and temperatures on seed germination of Acacia cyanophylla Lindl. 121669
Method of *sowing* **[Wheat].** 122015

Effect of inorganic fertilizers and sowing rates on the *sowing* and **yielding** properties of spring wheat seeds. 125083

SOWTHISTLE

The proteins of *sowthistle* [**Sonchus** oleraceus] yellow vein virus [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847

SOYBEANS

The interrelation of fruit development and leaf senescence in **'Anoka'** *soybeans.* 121438
A rapid method for measuring net photosynthesis of excised leaves by using air-sealed chambers [Maize, Phalaris **arundinaceae,** *soybeans].* 121511
Effect of photo-induction on micronutrient content of leaves in **Biloxi** *soybean* glycine max Merrill. 121501
A comparison of *soybean* **blends** with pure stands in the Texas Gulf Coast [Varieties]. 122076
Soybean **breeding** and evaluation trials in the Texas Gulf Coast Prairie [Varieties, yields]. 122089
Purple seed stain of *soybeans* [**caused** by Cercospora kikuchii]. 122736
A survey of powdery mildew [Microsphaera diffusa] of *soybean* in **central** Iowa. 122744
Peculiarities of growth of maize and some legume plants *[soybeans,* **chickpeas,** kidney beans] in combined cultivation. 121462
Morphometry of T219 *soybean* **chloroplasts** during initial exposure to light. 120547
Plasma amino acids of infants **consuming** *soybean* proteins with and without added methionine. 116436
Oryzalin preplant surface applied for weed **control** in *soybeans.* 123141
Soybeans [**Cultivars**]. 121855
Response of *soybean* **cultivars** grown in root-knot nematode [meloidogyne incognita] inected soil treated with Fumazone 86 and other nematicides. 122925
Differential response of *soybean* **cultivars** to metribuzin. 123123
Experimental results obtained in *soybeans* **cultivated** on sandy and black earth soils in the district of Dolj. 122066
Work mechanization in **cultivation** of *soybeans.* 124720
Field competition between tall morningglory [Ipomoea purpurea, weeds] and *soybean.* II. **Development** and distribution of root systems. 123208
Pubescence characteristics as an aid in **differentiating** *soybean* cultivars. 120789
U.S. *Soybean* **estimate** cut, world meal supply lower. 115853
Performance of **experimental** *soybean* breeding lines in the Texas High Plains [Varieties, yields]. 122083
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing **extracted** *soyabean* meal, horse bean meal, fish meal, maize gluten and waste liq. 117990
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and **extracted** *soybean* meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Soybean **feed** usage gaining in Japan. 117345
Effects of bentazon on *soybeans* **following** various preemergence or preplanting treatments [for the control of certain broadleaf weeds]. 123125
Effect of silicon on the growth, area size of leaves and adsorbing surface of plant roots [of cereals, *soybeans* and **forage** broadbeans]. 121402
Regeneration of plants from cell suspensions [of carrot, Datura, tobacco and *soybean]* **frozen** at -20, -70 and -196 degrees C [Celsius]. 121528
Effects of light and substrate on the sproulation of Cercospora sojina Hara *[Soybean* **fungus** diseases]. 121344
Soybean, **Glycine** soja (L.) Sieb. Et Zucc. [Culture]. 121910
Soybeans: **Glycine** max (Leguminosae-Papilionatae). 121962
Insects found on *soybeans* **(Glycine** max (L.) Merrill) in the Yraizoz area (Buenos Aires Province, Argentina). 123307
Mineral composition of liver and kidney of rats fed corn, sorghum, and *soybean* **grain** grown with sewage sludges and NPk [nitrogen, phosphorus, potassium] fertilizers. 118083
U.S. *Soybean* **growers** may benefit from French push on soy oil. 115589
Field competition between tall morningglory [Ipomoea purpurea, weeds] and *soybean.* I. **Growth** analysis. 123209
Soybean **herbicide** trials in Nebraska in 1975. 123148
Soybean **herbicide** evaluations across Iowa in 1975. 123149
Soybeans, an **important** source of proteins and oil. 117169
Unite for action, get results *[Soybean* **industry,** policies]. 116006
Early history of the plant protein **industry** *[Soybeans].* 117090
Effects of preplanting soil-incorporated herbicides on metribuzin **injury** in *soybeans.* 123023
Predatory activity, reproductive potential and longevity of Geocoris spp. treated with *[soybean]* **insecticides.** 123320
World's developing nations express **interest** in *soybeans.* 115592
Nitrogen retention in men fed **isolated** *soybean* protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or inorganic sulfate. 116435
Kentucky *soybean* performance tests—1975 [Yields]. 122075
Do we have enough *soybeans?* **[Markets].** 115759
U.S. *Soybean,* **meal** exports to stage comeback in 1976. 115590
U.S. Exports of *soybeans* and **meal** recover sharply in 1975/76. 115632
Variation in protein content of *soybean* **meal** [Quality control, Arkansas]. 117340
Substitution of rapeseed meal for *soybean* **meal** as a source of protein for lactating cows. 118040
Penoxalin weed control performance in **Midwest** *soybeans* under an EPA [Environmental Protection Agency] permit program. 123142
Sensory study of *soybean* **milk** flavor. 117074
Yoghurt production by lactobacillus [acidophilus] fermentation of *soybean* **milk.** 117165
Imports help to meet Spain's feedgrain, *soybean* **needs.** 115650
Soybean in **Nigeria** (a review article). 122035
Weed control systems for **no-till** *soybeans.* 123165
Herbicide combinations for **no-tillage** *soybean* production. 123131
U.S. Soybean growers may benefit from French push on *soy* **oil.** 115589
Alteration of *soybean* **oil** composition by plant breeding. 120765
Flow properties of heated oils. 2. Flow properties and polymerization of fatty acids of *soybean* **oils.** 117132
Is the *soybean* **oversuccessful?** [World production]. 115827
Anatomical effects of preemergence oryzalin and **penoxalin** on *soybeans.* 123113
Soybean **performance** trials in the Rolling Plains of Texas [Varieties, yields]. 122090
Soybean **performance** trials in Southeast Texas [Varieties, yields]. 122091
Modeling and optimal control of insect pest populations [Nezara viridula (Linnaeus), a major **pest** of *soybeans].* 123322
Stabilization of fats with natural antioxidants. 4. Antioxidative effect of *soybean* **phospholipids.** 117155
Request by *soybean* **planters** to terminate discriminatory treatment [Exports, marketing, prices, Colombia]. 115739
Soybean **planting** date and seedling rate investigations in the Texas Gulf Coast Prairie. 122092
Studies on cool injury in bean plants. VII. Sensitive stages to sterile type low temperature injury during floral bud development in relation to nitrogen status of *soybean* **plants.** 123024
French harvest small first crop of *soybeans;* **potential** remains. 115585
Ammunition for the *soybean* **price** boom. 115758
[Soybean] **processing** centers in major production areas. 117182
Cost of **producing** *soybeans* in the U.S., 1974. 115494
Possibilities of increasing the **production** of *soybeans.* 122071
Soy **proteins** in confectionery products. 117107
Mixture of gums **replaces** *soybean* oil—savings are significant [Gum tragacanth]. 116744
Biological evaluation of *soy* **residue** protein: studies on PeR [protein efficiency ratio], plasma and tissue protein level and growth response in albino rat. 118076
Soybeans on the **river** lacustrine soils of the Danube alluvial plain. 122072
Invasion of *soybean* **root** cells in culture by Rhizobium japonicum [Changes in the morphology]. 120546
Cytoplasmic changes during and after infection of *soybean* **root** nodule cells with rhizobia [Nitrogen-fixing bacteria, Rhizobium japonicum]. 121530
Precipitation of protein in the presence of melanoidin [Pigment in *soy* **sauce].** 117059
Elemental composition of corn grains, *soybean* **seeds,** pasture grasses, and associated soils from selected areas in Missouri. 120392
Soy **serves** pet food market. 117381
U.S. *Soybean* **shortfall** reduces world's oil supplies for 1975. 115591
Toward petroleum substitutes *[Soybeans* and **silicon].** 117064
Influence of windbreaks on crop performance [wheat, *soybeans]* and **snow** management in North Dakota. 119384
The storage of seeds *[Soybeans,* **sorghum].** 117208
Herbicides for row crops [Maize, *soybeans,* **sorghum].** 123198
The significance of nitrogen nutrition to the seed yield and its relating characters of *soybeans,* with **special** reference to cool summer injury. 125064
Influence of peroxide and polyelectrolyte treatments on germination, seedling emergence and yield [Navy beans, *soybeans,* **sugarbeets].** 121545
The decade ahead for U.S. *Soybeans* **[Supply** and demand]. 115618
Penetration of Rhizopus oligosporus [Fungi] into *soybeans* in **tempeh** [Food spoilage]. 116209
No-till corn and double-cropped wheat and *soybeans* **[Tillage].** 125173
Scanning electron microscopy of syncytial transfer cells induced in *[soybean,* **tobacco]** roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
Initial light effects on chloroplast **ultrastructure** in *soybeans.* 120545
Soybean **variety** performance in the Cross Timbers Area of North Central Texas. 122093
Soybean **variety** trials in Northeast Texas [Yields]. 122094
Soybean **variety** performance in the northern High Plains of Texas [Yields]. 122095
Soybean **variety** evaluation in the Texas High Plains [Yields]. 122096
Results of *soybean* **weed** control trials with FMC-25213 and related compounds in the North Central states. 123147
Effect of inoculation with Rhizobium [japonicum] and Azotobacter [chroococcum] on nodulation, growth and **yield** of *soybean.* 121442
Soybean **yield** responses and assimilation of Zn [zinc] and cd [cadmium] from sewage sludge-amended soil. 122026
Effect of plant height on *soybean* **yield** in the Gulf Coast. 122079
Now: *soy* **yogurt.** 117063

SPACECRAFT

The interpretability of vegetation resources on various image types acquired from earth **orbiting** *spacecraft* [Remote sensing systems for identifying and delineating natural vegetation types]. 120372

SPACING

The effect of *spacing* of **children** on the nutrition and mortality of under-fives. 116391
Research on **close** *spacing* systems for intensive coffee production in Kenya. II. 122540
Effects of the hoeing period upon the productive behaviour of durum wheat **cultivated** at different *spacings.* 122120
Planting of peach trees with **dense** *spacing* [Varieties]. 122312
Growth following initial thinning of loblolly pine [Pinus taeda] planted on a cutover site at **five** *spacings.* 119639
Influence of *spacing* on **growth** of loblolly pines [Pinus taeda] planted on eroded sites [Mensuration]. 119548
Some observations on understanding ecotope [and other related terms used in studies on *spatial* **patterns** of environmental factors]. 120357
Influence of **plant** *spacing* on filling up planting and on the quality of Norway spruce and Scots pine [Picea excelsa, Pinus sylvestris]. 119622
Bark thickness of 17-year-old loblolly pine [Pinus taeda] **planted** at different *spacings.* 119640
Behavior of cultivars of Avena [oat] grown as *spaced* **plants** and at normal density. 122114
Response of four corn hybrids to different plant densities and **row** *spacings* on Olivier soil. 121892
Influence of harvesting, seed density and **row** *spacing* on alfalfa seed yield. 122121
The effect of seed quantity and **row** *spacing* on yield of two varieties of forage sorghum. 122137
Effect of **row** *spacing* on yield and grade distribution of Norgold Russet and other potato varieties grown on the Texas High Plains. 122419
Effects ofplant population and **row** *spacing* on yield and components of yield of navy beans (Phaseolus vulgaris L.). 122420
Yield response of sulla sweet vetch (Hedysarium coronarium L.) to different seed quantities and **seed** *spacing.* 122143
Effects of seed size and *spacing* of **seed** tubers and stems on yields of early and canning potatoes. 122387
Narrow rows pay *[Spacing* **sorghum].** 121838
Larval foodplants, *spatial* and **temporal** distribution for five skippers (Hesperiidae) from texas. 124319
Effect of seed size and *spacing* on the **yield** and grading of "pentland" potatoes [Varieties]. 122462

SPARTINA

Buergenerula spartinae sp. Nov., an ascomycete from salt marsh cordgrass, *Spartina* **alterniflora** [New taxa]. 119999
Macroinvertebrate colonization of *Spartina* **[alterniflora]** marshes artificially established on dredge spoil. 120349
Tidal energy subsidy and standing crop production of *Spartina* **alterniflora.** 120350
Leaching and microbial utilization of dissolved organic carbon from leaves of *Spartina* **alterniflora.** 121041
Growth and resource allocation responses of *Spartina* **alterniflora** Loisel. to three levels of NH4-N, Fe, and NaCl [ammonia, iron, sodium chloride] in solution culture. 121436
In vitro growth and nutrition of Buergenerula spartinae, a fungus associated with *Spartina* **alterniflora.** 122664
Interactions of Puccinia sparganioides with smooth **cordgrass** *(Spartina* alterniflora) [Rust]. 122751
Spartina M9. A **variant** Spartina in three regions north of Dublin. 120257

SPECIALIZATION

Improvement of organizational and [communist] party work in the present **stage** of concentation, *specialization* and **agrarian-industrial** integration of agriculture in Moldavia. 115918
Arrangement of ideological work in the conditions of *specialization* and **concentration** of farm production. 115162
Economic effectiveness of *specialization* and **concentration** of poultry industry. 115352
Effectiveness of *specialization* and **concentration** in the production of vegetables. 115355
Specialization and **concentration** of agriculture in the Estonian SSR. 115364
The dairy industry in the Karl-Marx-Stadt district: creation of **greater** supply efficiency by concentration and *specialization* **[Economic** aspects, East Germany]. 115937
Biochemical characters of evolution and *specialization* of **genera** Festuca and Poa. 119953
Concentration, *specialization* and **interfarm** cooperation. 115350
Physiologic *specialization* in Helminthosporium gramineum [barley, leaf stripe, resistance testing of Indian and USa varieties]. 122755
What **veterinar** *specialization* has to offer a private practitioner. 118479

SPECIMEN
A **female** *specimen* of Acanthocinus (Canonura) leechi. 124390
Use of sucrose-glycerol density gradients in the preparation of living cells for high-resolution complementary **freeze-fractured** *specimens* [Tobacco]. 120560
Electronic data processing of **herbarium** *specimens* data for the Flora of Veracruz program. 120041
The uses of electronic data processing for **herbarium** *specimen* label information. 120052
An efficient method for the capture and transmission of [plant] *specimen* **label** information. 120284
A **neotype** *specimen* for Amanita muscaria [Fungi]. 120201
Two *specimens* of the Henosepilachna beetles (Coleoptera: coccinellidae) from China. 124360
Memoranda on the **type** *specimens* of Radula [Hepaticae] taxa from Southeast Asia. 3. 120119
Type *specimens* of hypogeous fungi in the herbarium of the New York Botanical Garden. 120222
Type *specimens* of Tipulidae described by R. W. Doane in the collection of the California Academy of Sciences. 124388

SPECTROMETRY
Determination of traces of lead and cadmium in apertifs by flameless atomic **absorption** *spectrometry*. 116030
Determination of lead in wine through flameless atomic **absorption** *spectrometry*, concerning D. Mack's paper, DLR 71 (1975) 71. 116075
Atomic **absorption** *spectrometric* determination of eight trace metals in orange juice following hydrolytic preparation. 117275
Gas **chromatographic-mass** *spectrometric* study of fluid contents of molasses. 116661
A combined radio gas **chromatograph/mass** *spectrometer* detects intermediates in mycophenolic acid biosynthesis [Penicillium brevicompactum, Fungi]. 120879
Structure determination of polyunsaturated fatty acids by gas **chromatography-mass** *spectrometry*—a comparison of fragmentation patterns of various derivatives. 116779
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid **chromatography-mass** *spectrometry]* of methoxy derivatives of sterols [Olive and sunflower oils were employed]. 117318
A method for bromine determination in wool fabric by X-ray **fluorescence** *spectrometry*. 117030

SPECTROPHOTOMETRY
Direct determination of trace metals in cane juice, sugar & molasses by atomic **absorption** *spectrophotometry*. 117185
The quantitative determination of ortho- toluene sulfonamide (o-TS) in saccharin by U. V. [Ultraviolet] *spectrophotometry* and by **gas** chromatography. 116712
An **improved** *spectrophotometer* for soil-water measurement. 124776
Spectrophotometric **research** of Penicillium brevicompactum [Fungi] RNAse complexformation with adenyl nucleotides. 120945
Spectrophotometric **study** of naphtoquinone derivatives (vitamin K). 116465
Establishing the initial stage of fat autooxidation in dry dairy products by means of **ultraviolet** *spectrophotometry*. 116926

SPECTROSCOPY
Electron *spectroscopy* for chemical analyses (ESCA)—a tool for studying treated textiles. 116188
Use of **electron** *spectroscopy* for chemical analyses (ESCA) in a study of oil-repellent finishes [of textiles, cotton fabrics]. 117202
Quantitative study of secondary structure of [calf thymus] histones H1, H2A, and H4 in solution by **infrared** *spectroscopy*. 117666
Polarized **light** *spectroscopy* on oriented spinach chloroplasts fluorescence emission at low temperature. 121605
Electron microscopy and X-ray **photoelectron** *spectroscopy* of oxygen plasma-etched bacterial spores and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
Titration behavior of individual tyrosine residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic **resonance** *spectroscopy*. 117798

SPECTRUM
Spectral **absorptivity** of rapeseed. 117204
Spectral **characterization** of microrome P-450 from the midgut of the tobacco hornworm, Manduca sexta J. 123988
Frequency and *spectrum* of **chlorophyll-deficient** mutations in rice after treatment with radiation and alkylating agents. 120782
Development of plants in filtered sunlight. I. *Spectral* **composition,** light intensity and other experimental [greenhouse] conditions. 121693
Development ofplants in filtered sunlight. II. Effects off *spectral* **composition,** light intensity, daylength and red and far-red irradiations on long and short-day grasses. 123313
The mixture problem in computer mapping of terrain: improved techniques for **establishing** *spectral* signatures, atmospheric path radiance, and transmittance [Remote sensing, vegetative cover]. 120368
Fungicides and their *spectra*. 122593
Isoenzymatic *spectra* of peroxidase and nitratereductase from vegetative organs of maize heterotic hybrids and their parental forms. 121476
Mass *spectra* of acetylenic fatty acid methyl esters and derivatives. 116793
Lichens and fungi. XIII. Comparison of the nuclear magnetic resonance and **mass** *spectra* of 17,21-secohopane and 17,21-secoflavicane derivatives. 121177
Cycles in U.S. Pecan production 1919—1974 identified by **power** *spectral* analysis [Statistics, forecasting]. 115931
Measurements of *spectral* **reflectance** and optical constants of selected rock samples for application to remote sensing of soil moisture. 124868
Quantity regularities of light reflection by soils . VII. *Spectral* **reflectory** capacity of the main soils of Kazakhstan. 124781
Spectral **sensitivity** and variation in visual sensitivity of the colonized screwworm fly Cochliomyia hominivorax (Coquerel) as measured with electroretinogram. 123640

SPERM
Hydrolytic enzymes of **boar** *sperm*. 118418
Dominant lethal mutations in insects with holokinetic chromosomes: irradiation of pink **bollworm** *sperm* [Pectinophora gossypiella, Lepidoptera: Gelechiidae]. 123279
Radio electrocardiography during production of *sperm* in **bulls.** 118420
Cholinergic effects on bull and **chimpanzee** *sperm* motility. 118224
TEM [transmission electron microscopy] studies of hen's perivitelline membrane hydrolysis by **cock** *sperm* in vitro. 118386
Development and structure of the **conjugate** *sperm* of the dytiscidae Acilius sulcatus L., Dytiscus marginalis L. and Hydaticus transversalis Pont. (Coleoptera). 124192
Sperm-egg **interactions** in the pig: monospermy, extensive polyspermy, and the formation of chromatin aggregates. 118334
Scanning electron microscopy of **Marsilea** *sperm* [Pteridophyta]. 120549
Bull management to **maximize** *sperm* output. 118282
A sterilizing tail **stump** *sperm* defect in a Holstein-Friesian bull [Defective recessive genes, deep-freezing semen]. 119184
Titration behavior of individual tyrosine residues of myoblogins from *sperm* **whale,** horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798

SPERMATOCYTE
Spermatocyte **chromosome** aberrations induced by antibiotics in grasshoppers [Poecilocerus pictus. 2. Mitomycin-C. 124157

SPERMATOPHYTA
The seed: definition, origin and development, structural types, slowed life, **germination** *[Spermatophyta]*. 121090
Bibliography [Algae, Fungi, lichens, Bryophyta, **Pteridophyta,** *Spermatophyta]*. 119891

SPERMATOZOA
Histone transition during *spermiogenesis* is **absent** in segregation distorter males of Drosophila melanogaster. 124159
Immunofluorescent localization of acrosin in *spermatozoa* by **boar** acrosin antibodies. 118379
Evaluation of **bovine** *spermatozoal* morphologic features after staining or fixation. 118200
An ultrastructural study of the head region of **bovine** *spermatozoa*. 118246
Feulgen-DNA plug and two wavelength cytophotometry of **Bull** *spermatozoa*. 118370
Vacuoles in the nucleus of normal and abnormal **drake** *spermatozoa*. 118227
Observation of non **encysted** *spermatozoon* in a spider belonging to the genus Phoroncidia (Araneae, Theridiidae). 123852
Cytoplasmic cylinders associated with the nucleus and cell wall of **marchantia** *spermatids* [Hepaticae]. 120540
Histone synthesis & transition during *spermatogenesis* in the **mole** cricket Gryllotalpa fossor Scudder. 123972
Deep-freezing of **rabbit** *spermatozoa*. 118217
Release of DNA template restrictions in **rabbit** *spermatozoa* and rat liver nuclei. 118343
A study of the fluctuating factors in the seminiferous epithelial cycle in mice—with special attention to statistical studies on diurnal fluctuations and on variations due to testes and testis loci in the relative frequencies of the **stages** *[Spermatogenesis]*. 118365
Embryonic development in rabbits after insemination with *spermatozoa* **stored** at 37, 5 or -196 degrees Centigrade for various periods. 118352

SPHACELOMA
Studies on Elsinoe and *Sphaceloma* **diseases** of plants in Maharashtra State (India). VII. [Sphaceloma madhucae, Sphaceloma sideroxylonica, Fungi, new taxa]. 122791

SPHAERIACEAE
Two undescribed species of Leptosphaeria *[Leptosphaeria* **abuensis** and Leptosphaeria hyalina, Fungi, new taxa]. 120154
The influence of (2-chloroethyl)-trimethylammonium chloride (CCC) and Septoria nodorum Berk. *(Leptosphaeria* **nodorum,** Muller) on the yield of winter wheat. 122581

SPHAEROPSIDALES
Fungi causing plant diseases at Jabalpur (Madhya Pradesh). XV. Some *Sphaeropsidales* [New taxa]. 120269

SPHAEROTHECA
Inheritance of the powdery mildew *[Sphaerotheca* **pannosa]** resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642

SPHAERULARIA
Studies on the behaviour of Bombus Latr. Species (Hymenoptera, Apidae) parasitized by *Sphaerularia* **bombi** Dufour (nematoda) in an alpine area. 124549

SPHAGNUM
Sphagnum subsecundum Nees and *Sphagnum* **auriculatum** Schimp. In Britain [Bryophyta]. 120110

SPHECIDAE
Predatory behavior of the spider wasp, Chalybion californicum **(Hymenoptera:** *Sphecidae)*. 124121

SPHERE
A theoretical analysis of the contribution of algal cells to the attenuation of light within natural waters. III. Cylindrical and *spheroidal* **cells.** 121303
Problems of international cooperation in the *sphere* of **conservation** of rare and disappearing plant species. 119870
Food hygiene in the *sphere* of the **meat** industry. 116100
Recognized rules of control and application technique in the *sphere* of **pest** control. 123021
The goals of botanical gardens in the *sphere* of **plant** protection. 119879

SPHEROPHORUS
Organization of prophylactic and treatment measures to control necrobacillosis *[Spherophorus* **necrophorus]** of reindeer in the madadan Region. 118723
Prophylaxis and treatment of necrobacillosis of reindeer *[Spherophorus* **necrophorus].** 118724

SPHINGIDAE
Activity patterns, body temperature and thermal ecology in two desert caterpillars (Lepidoptera: *Sphingidae)* **[Hyles** lineata, Manduca sexta]. 123882
Forage plants of Acherontia atropos **(Lepidoptera,** *Sphingidae)*. 123231
Formation of subitaneous puppae at Celerio euphorbiae euphorbiae, a photoperiodically controlled primary process **(Lepidoptera,** *Sphingidae)*. 123897
Purification and characterization of the carrier protein for juvenile hormone from the hemolymph of the tobacco hornworm Manduca sexta Johannson **(Lepidoptera:** *Sphingidae)*. 124018
The mission of entomological exploration of the Museum of natural History in French Guiana: *Sphingidae* **(Lepidoptera).** 124270
Isolation mechanisms and species conservation in the genus Celerio **(Lepidoptera,** *Sphingidae)*. 124293
Ectoparasitic mites (Acarina: Otopheidomenidae) on *sphingid* **moths.** 123773

SPICES
Studies on the effects of the *spices* as an **appetizer** on the healthy and potassium deficient rats. 116472
Quality changes in *spice* **constitutnets** due to outside influences. 116131
Garlic, a *spice* and also a **drug** plant. 117245
Higher yield: cold **grinding** of *spices*. 117242
Aromatic substances in *spices* and **herbs.** I. 116727
Spices most **important** to the butcher and restaurateur. 2. 116735
The *spices* most **important** to the butcher and restaurateur. \$. 116736
The *spices* most **important** to the butcher and restaurateur. 116737
The *spices* most **important** to the butcher and restaurateur. 3. 116738
The *spices* most **important** to the butcher and restaurateur. L. 116739
Onions, an **important** *spice* vegetable. 117246
Spices and **supplements** for scalded sausage manufacture. 2. 116961
Sulfite compounds as neutralizers of *spice* **toxicity** for Salmonella [Food contamination]. 116207

SPIDERS
New localities for three species of *spiders* **(Aranea)** from Norway. 124373
Notes on eight species of *spiders* **(Araneae)** from the Saltfjellet area, Nordland. 124374
Species composition and distribution of *spiders* **(Araneae)** in Iceland. 124380
Discrimination between prey types: an innate component of the predatory behaviour of **araneid** *spiders* [Argiope argentata Argiope aemula]. 124176
Predation of pine cinaran aphids by *spiders* **[Biological** control]. 123478
African stations of *spiders* of the **genera** Nephila Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of Natural History [New taxa]. 124251
Observation of non encysted spermatozoon in a *spider* belonging to the **genus** Phoroncidia (Araneae, Theridiidae). 123852

Ground *spiders* on a cultivated field near Grossenzersdorf (Lower Austria) in the winter months. 123285
Toxicity of sodium fluoride for the *spider* **mite** Tetranychus urticae Koch. 123835
New *spider* records for Georgia [Agelenidae, Lycosidae]. 124315
New records of *spiders* as **predators** of maize borer [Chilo partellus] and maize jassid [Zygina nidia manaliensis]. 123302
Effect extracts of the venom gland of the **recluse** *spider,* Loxosceles laeta, on human cells in culture. 123670
Investigations on the identification of the species of **red** *spider* mites harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the two-spotted spider mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377
Some **remarkable** *spiders* from Slovakia [New taxa]. 124243
Spiders from **Spitzbergen** (Arachnida, Aranei). 124348
Ovicidal activity and its relation to chemical structure for the **two-spotted** *spider* mite (Tetranychus urticae Koch) in a new class of miticides containing the cyclopropyl group. 123241
New trial for the control of the **two-spotted** *spider* mite tetranychus urticae Koch, 1836, on cotton. 123330
Investigations on the identification of the species of red spider mites harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the **two-spotted** *spider* mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377
Predatory behavior of the *spider* **wasp,** Chalybion californicum (Hymenoptera: Sphecidae). 124121
A survey of distribution of the **wasp** *spider* Argyope bruennichi (Arachnida, Araneae). 124284
Black **widow** *spider* venom: effect of purified toxin on lipid bilayer membranes. 124158
Isolation of a neurotoxin with a presynaptic action from the venom of the black **widow** *spider* (Latrodectus mactans, Fabr.). 124165
Energy metabolism in the **wolf** *spider* Pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124113
Production of faeces, excreta, and silk in the **wolf** *spider* pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124115

SPIKE
Data on the differentiation of the **barley** *spike.* 120567
Quality of grain and malt from the main and lateral stems as well as from different parts of the **barley** *spike.* 121566

SPILOCAEA
The ultrastructure of the *Spilocaea* **state** of Venturia inaequalis in vivo [Fungi]. 120447

SPILOPSYLLUS
The establishment and spread of *Spilopsyllus* **cuniculi** (Dale) and its location on the host, Oryctolagus cuniculus (L.) [rabbits], in the Mallee region of Victoria. 123604

SPIN
Rheology and *spinning* of **alkaline** solutions of sunflower seed globulin and casein. 117154
Spin-off **benefits** in nutrition programmes [India Population Project]. 116390
Ca2+ [calcium ion] induced conformational changes of *spin-labeled* g2 **chain** bound to myosin [isolated from rabbit white muscle] and the effect of phosphorylation. 117779
Roller pressure in double apron drafting systems used in **cotton** *spinning.* 117120
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [**Electron** *spin* resonance] study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
Electron *spin* resonance studies of structure and conformation in anion radicals formed during the autoxidation of hydroxylated coumarins. 121193
Know your wool—a guide for **hand** *spinners* and rug-makers. 117029
A new contribution to the study of the influence of rotor cleanliness on the properties of **open-end** *spun* [cotton] yarns. 4. 117119
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: *spin* **transfer** in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895

SPINACH
The superoxide dismutase activity of various photosynthetic organisms measured by a new and rapid assay technique *[Spinach,* **Algae**]. 121053
X-ray diffraction from *[spinach]* **chloroplast** membranes oriented in a magnetic field. 120458
Interactions of metal cations with lipid-depleted *[spinach]* **chloroplasts.** 121601
The relationship between proton fluxes and the regulation of electron transport in *[spinach]* **chloroplasts.** 121646
Properties of *[spinach]* **chloroplasts** isolated by phase partition. 121737
Photoelectron microscopy of biomembranes: observation of external photoemission from *spinach* **chloroplasts.** 121767
Effects of 1,N6-ethenoadenylates on the regulation of photosynthetic activities by adenylates; a study of the nucleotide binding sites on chloroplast coupling **factor** *[Spinach].* 121754
Enzymic reconstitution of photosynthetic carbon assimilation. Pentose phosphate-dependent O2 [oxygen] evolution by illuminated envelope-free chloroplasts from *Spinacia* **oleracea** [spinach]. 121599
Interpretation of supermolecular organization of photosynthetic membranes [in algae and some higher plants, peas, **onion,** *spinach].* 121033
Polarized light spectroscopy on **oriented** *spinach* chloroplasts fluorescence emission at low temperature. 121605
The role of the gas phase in the greening and growth of illuminated cell suspension cultures of **spinach** *(Spinacia* oleracea, L.). 121688

SPINDLE
Regeneration of afferent and efferent fibres to **muscle** *spindles* after nerve injury in adult cats. 117830
Birefringence and ulrastructure of isolated, **stabilized** *spindles* [of the crane fly, Nephrotoma suturalis]. 124124

SPINE
Ascending pressor and depressor pathways in the **cat** *spinal* cord. 117531
Acetylcholinesterase distribution in **chick** *spinal* cord cultures. A light and electron microscope study. 117706
Solasodine from **curved** *spine* mutant of Solanum khasianum Clarke. 121142
Vascular patterns in the chick **embryo** *spinal* cord in normal and experimentally modified development. 117521
Particularities of myelin formation in *spinal* **roots** of the rabbit. 117519

SPIRAEA
Mutual interaction of taxonomic and phytogeographical features in the phenology of **species** of *Spiraea.* 119962

SPIRALIS
Effects of nitrate and ammonium enrichment on growth and nitrogen physiology in **Fucus** *spiralis* [Algae]. 121234
Three new [fungus] storage diseases of ginger (Zingiber officinale (L) Rosc) [Nectria inventa, **Trichurus** *spiralis,* Memnoniella echinata]. 122782

SPIRILLUM
Factors affecting growth and nitrogen fixation of *Spirillum* **lipoferum** [from several tropical grasses]. 121161
Nitrogen fiexaton in grasses [Pennisetum americanum, Panicum maximum] inoculated with *Spirillum* **lipoferum.** 121570

SPIROCERCA
Incidence of *Spirocerca* **lupi,** Rudolphi 1809, (Nematoda: spiruridae) in the Shiraz area of Iran [Dogs]. 118754
Note on infestation of Malagasy lemurs by *Spirocerca* **lupi** (Rudolphi, 1809). 118903

SPIRODELA
The effect of pH [hydrogen-ion concentration] on the population growth of three species of duckweed: *Spirodela* **oligorrhiza,** Lemna minor and Wolffia arrhiza. 121070

SPIROSTREPTIDAE
A new species of the genus Tibiozus [sixi] Attems collected in Uganda (Diplopoda, **Spirostreptoides,** *Spirostreptidae).* 124249

SPIRULINA
Spirulina, a **food** alga rich in proteins. 116822

SPIRURIDAE
Incidence of Spirocerca lupi, Rudolphi 1809, (Nematoda: *spiruridae)* in the **Shiraz** area of Iran [Dogs]. 118754

SPLEEN
Crystallization of a non-muscle actin [from **calf** *spleen].* 117816
Spleen **lesions** of hemorrhagic enteritis [virus] of turkeys. 118641
Age-dependent resistance of chickens to Salmonella in vitro: phagocytic and bactericidal activities of *splenic* **phagocytes.** 118596
Purification and properties of cathepsin D from **procine** *spleen.* 117792
DNA synthesis in **rabbit** *spleen* cell populations stimulated by various doses of concanavalin A. I. Autoradiographic analysis. 117673
DNA synthesis in **rabbit** *spleen* cell populations stimulated by various doses of concanavalin A. II. Equilibrium density sedimentation analysis. 117674
On the endogenous peroxidase in the *spleen* of **swine.** 117709
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, *spleen,* **thymus,** kidneys, brain, pancreas, "labile" N reservoir. 118004

SPLITTING
Investigation of deciduous wood lignin. II. *Splitting* of **aspen** lignin under nucleophilic action. 119737
Isolation of lipoxygenase from *split* **pea** seeds, snap beans, and peas. 117276
Analysing data with repeated observations on each experimental unit *[Split* **plot].** 115781
Investigation of deciduous wood lignin. III. **Reduction** *splitting* of aspen native lignin. 119738
Extended uses of the *split* **wheel** for measurement of tangential stress [Tillage machinery]. 124736

SPODOPTERA
Control of armyworms *[Spodoptera]* and **earworms** [Heliothus zea] on sweet corn in Florida with Lorsban 4E and other insecticides. 123392
Phospholipase activity in gut juice of lepidopterous larvae [Pieris brassicae, *Spodoptera* **exigu ens,** Trichoplusia ni]. 123985
Insecticide resistance of the Egyptian cotton **leafworm** *(Spodoptera* littoralis Boisd.)) in Antalya region. 123289
Juvenile hormone effects on the prepupal and pupal stages of the tobacco cutworm, *Spodoptera* **litura** Fabricius (Noctuidae: Lepidoptera). 123301

SPOILAGE
Investigation and nomenclature of cocci causing **beer** *spoilage:* a review [Bacteria]. 116061
Volatiles produced by microorganisms isolated from refrigerated **chicken** at *spoilage.* 116210
Hazards and criteria: use of plastics for food [**Contamination,** *spoilage].* 116089
Penetration of Rhizopus oligosporus [Fungi] into soybeans in tempeh [**Food** *spoilage].* 116209

SPONGE
The evolution of the *sponge* **feeding** habit in the caddisfly genus Ceraclea (Trichoptera: Leptoceridae). 123807

SPORES
Effect of nisin [an antibiotic, produced by certain strains of Streptococcus lactis] on the germination and proliferation of *spores* of some **aerobic** spore-formers in nutrient medium [Food processing]. 116844
Cell wall formation in *zoospores* of **Allomyces** arbuscula [Fungus]. II. Development of surface structure of encysted haploid zoospores, rhizoids, and hyphae. 120411
Gibberellic acid-induced germination of *spores* of **Anemia** phyllitidis: nucleic acid and protein synthesis during germination [Pteridophyta]. 120865
Spores in **Ascomyctes** [Fungi], their controlled differentiation. 121127
Electron microscopy and X-ray photoelectron spectroscopy of oxygen plasma-etched **bacterial** *spores* and cells [Bacillus megaterium, Bacillus subtilis, Micrococcus lysodeikticus]. 120542
The release, settlement and germination of *zoospores* in **Chorda** tomentosa [Algae] (Phaeophyceae, Laminariales). 121221
Prevention of the hypersensitive reaction of potato cells to infection with an incompatible race of Phytophthora infestans by **constituents** of the *zoospores.* 122712
The role of *spores* and **crystals** of Bacillus thuringiensis Berliner in the infection of Laspeyresia pomonella L. (Tortricidae). 123810
Propagation of tree ferns from *spores* [**Cyathea** medullaris, Dicksonia, New zealand]. 122250
The development of a method for **detecting** *spores* of Clostridium tyrobutyricum in milk [Contamination]. 116229
South American leaf blight of Hevea brasiliensis: *spore* **dispersal** of Microcyclus ulei. 122566
The **dormant** *spore* [Fungi]. 120470
An appartus for the mass collection of *spores* of **entomopathogenic** fungi [Nomuraea rileyi]. 123244
Rhizoid differentiation in fern [Onoclea sensibilis] *spores:* **experimental** manipulation. 121353
Myxomycetes [Fungi, *spore* **formation,** germination]. 121121
Cytological study of Ustilago hypodytes (Schlecht.) Fr. And its relations with its host at the level of *spore* **formation.** 122772
Fossil **fungal** *spores.* 120070
Mitochondrial biogenesis during **fungal** *spore* germination: products of mitochondrial protein synthesis in vivo [Botryodiplodia theobromae]. 120903
Activators of **fungal** *spore* germination. 121115
Lipid metabolism of **fungal** *spores* during sporogenesis and germination. 121119
Milestones and predictions of future trends in **fungal** *spore* research [Physiological and biochemistry aspects]. 121120
Nucleic acids and **fungal** *spore* germination. 121122
Organelle changes during **fungal** *spore* germination. 121123
Self-inhibitors of **fungal** *spore* germination. 121126
Form and function in Chytridiomycete **[Fungi]** *spores.* 120466
Form and function in Zygomycete **[Fungi]** *spores.* 120467
Form and function in Basidiomycete **[Fungi]** *spores.* 120468
Effects of some specific inhibitors on the germination of *spores* of the **fungus** Trametes badia (Berk) Cooke. 121021
Transient cyclic AMP [adenosine 3',5'-monophosphate] accumulation in **germinating** *zoospores* of Blastocladiella emersonii [Fungi]. 121054
Carbohydrate metabolism and *spore* **germination** [Fungi]. 121116
Regulation of protein metabolism during *spore* **germination** [Fungi]. 121124
Spore **germination** in axenic cultures of Smittium sp. (Trichomycetes) [Fungi]. 121289
Cell wall formation in zoospores of Allomyces arbuscula [Fungus]. II. Development of surface structure of encysted **haploid** *zoospores,* rhizoids, and hyphae. 120411
The developmental patterns of lysosomal enzyme activities during Ca2+ **[calcium ion]-induced** *sporangium* formation in Achyla bisexualis [Fungi]. III. Ribonucleases. 120917

Evidence of distant dispersal of **live** *spores* of Erysiphe graminis f. sp. hordei [Barley]. 122576
Ultrastructure and elemental composition of dormant and germinating Diplodia **maydis** *spores* [Fungi]. 120478
Dormant and germinating Diplodia **maydis** *spores:* ultrastructure and elemental composition. 120541
Some aspects of the form and function of **Oomycete** *spores* [Fungi]. 120469
A comparison of the control of Pithomyces chartarum with three fungicides applied at both the pre- and postdanger levels of *spores* in **pasture** [for the control of facial eczema]. 118848
Deposition of airborne Lycopodium and **Podaxis** *spores* released from an artificial point source. 119915
Combinations of *spores* and **pollen** from tertiary sedimentary deposits of the Oktemberian stratum. 120062
Effect of nisin [an antibiotic produced by certain strains of the common dairy organisms Streptococcus lactis] on heat resistance and gas **production** of some *spore-formers.* 116927
Sporicidal **properties** of chlorine compounds: applicability to cooling water for canned foods. 116205
Occurrence and thermoresistance of *spores* of **psychrophilic** and psychrotrophic aerobic spore-formers in soil and foods. 124835
Effect of nisin [antibiotic produced by Streptococcus lactis] in the presence of L-alanine on the germination and outgrowth of Bacillus **sublitis** *spores* [used in the food and dairy industry]. 116845
Remarks on the formation of different layers of the *spore* **wall** with the lamellar exine in some Marchantiales and Sphaerocarpales. 120511
Spore **wall** structure in Mniaceae and some adjacent bryophytes. 120512
Fine structure of the *spore* **wall** and germ tube change during germination [Fungi]. 121117
Spore **yield** of pathogens in investigations of the race-specificity of host [plant] resistance. 122905

SPOROBOLUS

Smutgrass *[Sporobolus* **poiretti]** control [in pastures]. 123073

SPOROCYTES

Sporocyte **development** in the Musci. I. Three genera of the Pottiaceae [Weissia controversa, Acaulon muticum rufescens, Astomum muhlenbergianum]. 120551

SPOROGENESIS

Microsporogenesis and **anther** development in male-sterile and male-fertile forms of rye. 120670
Study on the *microsporogenesis* of **Capsicum** annuum L. [Redpeppers] after gamma-irradiation. 120651
Lipid metabolism of fungal spores during *sporogenesis* and **germination.** 121119
Electron microscope observations on the *sporogenesis* in the **hornwort,** Anthoceros punctatus L. [Hepaticae]. 120489

SPOROPHYTES

Tracheids, apogamous leaves, and *sporophytes* in **gametophytes** of Botrychium dissectum. 120429
Anatomy and development of the *sporophyte* of **Gyrothyra** underwoodiana Howe [Hepaticae]. 120487
Correlation between protein content and cell elongation in setae of Lophocolea heterophylla **[Hepaticae]** *sporophytes.* 121186

SPOROTRICHUM

The importance of phenol oxidase activity in lignin degradation by the white-rot **fungus** *Sporotrichum* pulverulentum. 119650

SPOROZOA

Further studies on Haematoxenus **separatus** *(Sporozoa,* Theileriidae) of sheep in Tanzania. 118901
Studies on **Theileriidae** *(Sporozoa)* in Tanzania. I. Tick [Amblyomma variegatum] transmission of Haematoxenus veliferus. 123673

SPOROZOITES

Development of Sarcocystis hirsuta (=Sarcocystis fusiformis) in tissue culture [of chick fibroblasts] after inoculation with *sporozoites* **[obtained** from dog intestine]. 118927

SPORULATION

Asexual *sporulation* and mycelial growth in axenic cultures of Smittium spp. (Trichomycetes) [Fungi]. 121286
Some environmental and nutritional factors affecting growth and *sporulation* of **Aspergillus** tamarii associated with mouldy cocoa beans in Nigeria. 122699
Attack and *sporulation* of **Cercosporella** herpotrichoides Fron on winter wheat. 122670
Sporulation of **fungus** Puccinia graminis f. Sp. Tritici in axenic culture [Wheat, stem rust]. 122608
Sporogens, sterols, and *sporulation* of **Leptosphaerulina** briosiana [Fungi]. 120983
Cultural studies on the Monilia disease fungus of apples. VI. The effect of light on conidial germination, mycelial growth, and *sporulation* **[Monilinia** mali]. 122587
Electron microscope study of *sporulation* and **parasporal** crystal formation in Bacillus thuringiensis [Pathogenicity for larvae of Lepidoptera]. 123242
Stimulation of *sporulation* of **Phytophthora** fragariae [red stele of strawberries]. 122666
Sporulation in **Pichia** spartinae [Fungi]. 120526

SPOT

Oviposition and host selection by the *spotted* **cutworm,** Amathes c-nigrum L. [Among vegetables and upland crops]. 123259
The hibernation of the *spotted* **cutworm,** Amathes c-nigrum L. In Tokachi, Hokkaido. 124137
Two new genera of leaf parasitic fungi (Basidiomycetidae: Brachybasidiaceae) *[Leaf-spot* **diseases** of vascular plants]. 120206
Forensic examination of sawdasts by thin-layer chromatography and **flying** *spot* densitometry. 119722
An experiment on the feeding habit of the **large** *28-spotted* ladybird (Henosepilachna vigintioctomaculata) by an alternative grafting between potato plant (Solanum tuberosum) and Chinese lantern plant (Physalis alkekengi). 123254
A new species of Cercospora [Cercospora zinniicola, Fungi] on Zinnia elegans **[Leaf** *spot* disease]. 120139
Leaf *spot* disease of rubber [Hevea] caused by Curvularia pallescens Boedijn. 122604
Some new **leaf** *spot* diseases [caused by pathogenic fungi]. 122607
In vitro production of transelimanses by Helminthosporium apattarnae Desh. & Desh. [Isolated from **leaf** *spot* in Cynodon dactylon]. 122630
Grass and clover as organic matter on the *spot* **[Orchard** soil management]. 121936
Control of corky (silvery) *spots* [a **peel** disorder] of grapefruit by growth regulators. 122939
Ovicidal activity and its relation to chemical structure for the *two-spotted* **spider** mite (Tetranychus urticae Koch) in a new class of miticides containing the cyclopropyl group. 123241
New trial for the control of the *two-spotted* **spider** mite tetranychus urticae Koch, 1836, on cotton. 123330
Investigations on the identification of the species of red spider mites harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the *two-spotted* **spider** mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377

SPRAY

Influence of *spray* **adjuvants** and multiple applications of benomyl and oil on photosynthesis of apples leaves [Apple scab, Venturia inaequalis]. 122620
Commercial **apple** *spray* schedule. 122953
Spray and **dust** stagnant patterns, treated as Gaussian functions. 124740
Decision making—to spray or not to *spray* **[Economics** of pest control, nematodes, potatoes]. 122959
The effects of a granular nitrogen fertilizer and a **foliar** *spray* of urea on the yield and bread-making quality of ten winter wheats. 125019
Home fruit [insect] *spray* **guide** for small fruits. 123380
Influence of reduced spray amounts in the separate methods of application on the quantity and quality of the layer of *spray* on **hops** [Plant protection, equipment]. 122936
Hot *spray* jet, cleansing devices and detergents [in food sanitation]. 116090
Studies on the pollution of apple orchard-surface soils and its improvement in relation to **inorganic** *spray* residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Insect *sprays* boost grass yield. 123304
Studies of applying wastewater discharged from the potato starch factories to arable land. 1. The influence of *spray* **irrigation** of wastewater in grassland on grasses and soil properties. 125546
Pollen embryos; *celloidin-spray* **method** for paraffin sectioning. 120570
The influence of leaf surface roughness on the spreading of **oil** *spray* drops. 120407
The mechanisms of photosynthetic inhibition and the development of scorch in tomato plants treated with *spray* **oils.** 121594
Effect of some nutritional **plant** *sprays* on the population of Tetranychus arabicus (Attiah) (Acarina, Tetranychidae) [for controlling mites]. 123223
Spray **program** for grapes—South Carolina. 122954
Effect of eradicant and **protectant** *sprays* on differentiation of conidia of Monilia cinerea (Bon.) Schroet on almond [Prunus amygdalus, brown rot]. 122632
Influence of **reduced** *spray* amounts in the separate methods of application on the quantity and quality of the layer of spray on hops [Plant protection, equipment]. 122936
Performance of a rotating perforated **sleeve** *sprayer* [in food processing]. 116841
Decision making—to *spray* or not to **spray** [Economics of pest control, nematodes, potatoes]. 122959
Residues of four ethylenebis(dithiocarbamates) and their decomposition products on *field-sprayed* **tomatoes.** 116179
Biological control of Verticillium malthousei by Trichoderma **viride** *spray* on casing soil in commercial mushroom [Agaricus bisporus] production [Dry bubble disease]. 122746
Now U.S. Says MD [Marek's disease] *spray* must **wait** [Chicks]. 118885
Cooling short cylinders in air using as a **water** *spray* [in the food processing industry]. 116839

SPRAYING

Control of South American leaf blight (Microcyclus ulei) of the rubber plant [Hevea brasiliensis] in Bahia. II. Cost/benefit ratio of **aerial** *spraying* of fungicides in the Itubera region, 1972/73. 115546
Control of South American leaf blight (Microcyclus ulei) of the rubber plant [Hevea brasiliensis] in Bahia. I. **Aerial** *spraying* of fungicides in the Itubera region. 122775
Notes on the use of spraying equipment and methods of *spraying* for **berry** culture. 124687
Spraying **guide** [for control of weeds, pests and diseases of plants, equipment]. 122983
Spraying is not a **hobby** (Septoria control) [Wheat]. 122695
Chromatographic differentiation of tamarixetin and isorhamnetin by *spraying* **[Isomeric** flavonoids]. 121180
Douglas-fir tussock moth [Orgyia pseudotsugata] 1974 **operational** *spraying* of DDT. 123489
Our recommendations for *spraying* in 1976 **[Plant** protection in fruit culture]. 122992

SPRING

Farming practices and *spring* **barley** breeding in the eastern part of the Ukrainian forest-steppe. 120827
Leaching of nitrate fertilizer after **big** *spring* rains. 125025
Some problems of **breeding** *spring* wheat for resistance to lodging. 120749
Application of isopropylmethanesulfonate and isopropylethanesulfonate in **breeding** *spring* barley [Chemical mutagens]. 120804
Some results of **breeding** *spring* barley for grain quality in the conditions of the Kamennaia Steppe. 120814
Mechanization in preparing the germinative bed for *spring* **crops.** 124716
Seeding rate and characteristics of the seed in the technique of cultivating the potato in *autumn-spring* **cycle.** 122466
Yield, rate of growth an dmorphological characteristics of the roots of the carrot (Daucus carota L.) in *autumn-winter-spring* **cycle,** in relation with plant population and fertilization. 122467
Competition by, and chemical control of, natural weed populations in *spring-sown* **field** beans (Vicia faba). 123062
Elements of *spring* **floods** of small rivers in the Lithuanian SSR. 125223
Development of a method of **forecasting** *spring* runoff on the basis of recording uneven wter absorption [on forested and unforested land]. 119349
Spring **grain,** variety tests 1975. 122168
Use of penoxalin herbicide for weed control in *spring* **grains** and potatoes. 123160
Sun-shade ecotypes of a bluegreen alga [Plectonema notatum] in a **hot** *spring.* 121218
Stimulation of breeding activity in *spring-mated* **Merino** ewes. 118191
Factors affecting *spring* **runoff** on two forested watersheds. 125364
Breeding and testing short **stem** *spring* wheat varieties. 120737
Comparative productivity of short **stem** *spring* wheat varieties. 122009
Results of studying short **stem** *spring* wheat varieties under irrigation. 122010
Results of testing short **stem** *spring* wheat varieties from Mexico and USA in the Krasnoyarsk Territory. 122011
Preliminary studies on the measurement of evapotranspiration for Valencia orange in winter and *spring* in **Taitung** area. 121722
The reaction of **two** *spring* wheat varieties exposed to epidemics of Septoria nodorum and Septoria tritici of varying intensity and duration. 122642
Where fall is *spring* **[Vegetable** culture in Florida]. 122433
Breeding short stem winter and *spring* **wheat** varieties of an intensive type. 120742
Testing and breeding short stem varieties of *spring* **wheat** in the area eastward of the Volga River. 120750
Protein content in *spring* **wheat** varieties and its inheritance by hybrids. 120831
Effect of succinic acid on the activity of adenosinetriphosphatase in germinating seeds of *spring* **wheat.** 121433
Classification of Pacific Northwest winter and *spring* **wheat** cultivars by phenol reactions. 121543
Testing short stem foreign bred *[spring* **wheat]** varieties in the Zaporozh'I Region. 122013
Control of leaf rust [caused by Puccinia recondita] on *spring* **wheat** by seed treatment with 4-N-butyl-1,2,4-triazole. 122726
Wild oat [Avena fatua] control in *spring-seeded* **wheat** and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Regularity in the action of nitrogen in the main forms of nitrogenous fertilizers used at various rates [Effect on the yield of *spring* **wheat,** oats, barley]. 124945
Effect of sowing-time applied fertilizer against the background of the main application on the yield of *spring* **wheat.** 125075
Effect of inorganic fertilizers and sowing rates on the sowing and yielding properties of *spring* **wheat** seeds. 125083
The development of genotypical formations as a result of the hybridization of winter wheats with *spring* **wheats.** 120838
Effects of weather conditions on dynamics of Helminthosporium-Fusarium root rot on *spring* **wheats** in Krasnoyarsk territory. 122653

SPRINKLERS
Sprinkler **irrigation** as a measure to intensify cereal cropping. 125215
Compatibility of windbreaks and **pivot** *sprinklers.* 119378
A *sprinkler* for a **plastic** greenhouse. 124678
A **water** *sprinkler* for arbitrarily shaped areas. 124733

SPROUT
Ultrastructural modifications of plastids in leaflets of Laris decidua and PIcea excelsa during *sprouting* of **buds.** 120461
Sprout **control** of apple nursery stock with NAA [napthaleneacetic acid]. 121679
Selection of **high** *sprouting* disposition and seed dormancy in rye. 121467
Release of *sprouting* **resistant** rye in Sweden. 121466
Influence of the dates of tuberization and *sprouting* in **yam** tubers (Dioscorea sp.) on the emergence time in the field. 121589

SPRUCE
Spruce **bark** beetle, Ips typographus: pheromone production and field response to synthetic pheromones. 123484
Some problems on sulphite and bisulphite cooking chemistry [Birch and *spruce* **cellulose**]. 119742
Applying behavioral studies in entomological problems [to control a *spruce-budworm* **Choristoneura** fumiferana]. 123463
Four-step grafting for **frustrated** *blue-spruce* [Picea pungens] admirers. 122340
Suitability of multiple regression analysis for elucidating multicollinear ecological relations as demonstrated by **natural** *spruce* [Picea] regeneration. 120402
Influence of plant spacing on filling up planting and on the quality of **Norway** *spruce* and Scots pine [Picea excelsa, Pinus sylvestris]. 119622
Studies on upper timberline: morphology and anatomy of **Norway** *spruce* (Picea abies) and stone pine (Pinus cembra) needles from various habitat conditions. 120443
The effect of cone crops on growth in **Norway** *spruce* (Picea abies (L.) Karst.). 121794
The geotropic curvature in roots of **Norway** *spruce* (Picea abies) containing anthocyanins. 121825
Evaluation of some diagnostic methods which may be used for determination of injuries on **Norway** *spruce* [Picea excelsa] by fumes [Air pollution from industrial exhaust smoke]. 123017
Environmental demands, morphological variation and eco-geographical strain formation of *spruce* **[Picea].** 119590
Growth differences in a *spruce* **[Picea]** plantation with chemical and mechanical weed control (preliminary report). 123102
The wood basic density variation of pine and *spruce* **[Pinus** sylvestris, Picea abies] provenances. 119584
Studies on **processing** *spruce* [Picea] pulpwood lengths. 119661
Some data about the bionomy of *spruce* **roller** Epiblema tedella Cl. in the Czech Socialist Republic and possible control of it. 123497
Effect of *spruce* **root** constituents on extracellular enzymes of Fomes annosus [Picea abies]. 122697
The influence of tracheid length and density in **sitka** *spruce* [Picea sitchensis]. 119501
The **sitka** *spruce* [Picea sitchensis] as a tree for hill planting and general afforestation. 3. (With plate.). 119586
Pectinase production by bacteria associated with improved preservative permeability in **Sitka** *spruce* [Picea sitchensis, poles]: synthesis and secretion of polygalacturonate lyase by Cytophaga johnsonii. 119717
Photosynthesis in **Sitka** *spruce* (Picea sitchensis (Bong.) Carr.). VII. Measurements of stomatal conductance and 14cO2 [carbon dioxide isotope] uptake in a forest canopy. 121818
The relationship between soil aeration, stability and growth of **Sitka** *spruce* (Picea sitchensis (Bong.) Carr.) on upland peaty gleys. 121820
Photosynthetic electron transport in plants of **Sitka** *spruce* [Picea stitchensis] subjected to differing light environments during growth. 121824
Sheep grazing in a young **Sitka** *spruce* [Picea sitchensis] plantation. 122024
Thriving of species and forms of the genus Picea A. Dietr. *(Spruce)* in the **Tharandt** Forest Botanical Garden. 120300
Carbohydrate content of various *spruce* **tissues.** 119730
Alkali solution action on *spruce* **wood.** II. The change of mechanical properties. 119729
Dissolution of glucomannan in two staged sulphite cooking of *spruce* **wood.** 119731
Contribution to the characterization of sodium chlorite delignification of *spruce* **wood.** III. Lignin and polysaccharide complexes in chlorite liquors. 119770
Investigations on the accuracy of increment measurements of **young** *spruce* [Picea] stands. 119552

SQUARE
New *square* plastic petri dishes for routine bacteriological work [Meat inspection]. 116126
Starting at *square* **one** [Sheep, breeds]. 118194

SQUASH
Cellophane-tape for making rapid **permanent** *squash* preparations of plant material. 119909

SQUIRRELS
Warfarin: a question of balance [Forest tree injuries, *squirrels* **chemical** control]. 119362
Heavy metal concentrations in kidneys of urban **gray** *squirrels* [Environmental health]. 125520
Poisoning **grey** *squirrels:* a threat to wildlife? [Forest tree injuries]. 119361
Effect of type of dietary fat, cholesterol and chenodeoxycholic acid on gallstone formation, bile acid kinetics and plasma lipids in *squirrel* **monkeys.** 116426
Abortion and cannibalism in *squirrel* **monkeys** (Saimiri sciureus) associated with experimental protein deficiency during gestation. 119143

STABILIZATION
Role of ASCS **[Agricultural** *Stabilization* and Conservation Service] in cost-sharing and renovation of windbreaks. 119389
Evaluation of the growth of shrub willows [Salix] from the point of view of the suitability for the **biological** *stabilization* of stream banks. 119372
Scalded sausage manufacture in the meat trade. 7. Color formation and preservation, influence of the muscle coloring matter present, and **color** *stabilization* by means of blood additives. 116955
Scalded sausage manufacture in the meat trade. 8. Color formation and preservation, influence of **color** *stabilizers,* temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Nitrification in high-sludge age **contact** *stabilization.* 125513
Towards *stabilizing* **crop** production on drylands of western Rajasthan. 121920
Stabilized **dormancy** in sugarbeet fruits. I. Seed coats as a physicochemical barrier to oxygen. 121437
Stabilization of **fats** with natural antioxidants. 4. Antioxidative effect of soybean phospholipids. 117155
Beer **filtration.** VI. *Stabilization.* 116668
Effect of malt quality on polymerisation index, colloidal and **flavor** *stabilities* of beer. 116674
Alternative approaches to *stabilizing* **international** markets [in food supplies and prices]. 115751
Market *stabilization* action: producers association and trade take over the entire remaining amount of hops in Hallertau. 115678
Treatment of gastric dilatation-volvulus by gastric decompression and **patient** *stabilization* before major surgery [Dogs]. 119122
Stabilization of **ribose-5-phosphate** isomerase from tobacco. 121537
Physiological and biochemical prerequisites of **selecting** *stabilizers* of sterility and fertility restorers in maize. 121480
Wiregrass—catalyst for action **[Soil** *stabilization].* 125169
Birefringence and ulrastructure of isolated, *stabilized* **spindles** [of the crane fly, Nephrotoma suturalis]. 124124
Streambank *stabilization* with willows [Salix, erosion control]. 125090
Agrochemical properties of nepheline sands in relation to their *stabilization* by **vegetation.** 124753
On the purification of organically polluted wastewaters in the **Warnitz** *stabilization* pond system. 125372
The problem of *stabilizing* **world** wheat market by national market and price policy and international agreements. 115764

STABLES
High, *stable* **fodder** yields of maize by assuring its water and nutrient requirements. 121923
Heat exchanger in ventilation **installations** of *stables.* 124731
Fractionation of *stable* **isotopes** of carbon monoxide by [soil[bacteria. 124796
Polyadenylation of *stable* **mRNA** during swelling of seeds? [Cotton, rye, wheat]. 121430
Relation of mosquito density to bird: mammal feeding ratios of Culex tarsalis in *stable* **traps.** 123596

STACKING
The hand of the *stacked-disk* **aggregate** of tobacco mosaic virus protein. 122848

STAGNATION
Spray and **dust** *stagnant* patterns, treated as Gaussian functions. 124740
Aeration used for **keping** *stagnant* waters healthy: a survey of literature. 125178
Causes of *stagnation* and **paths** of growth in West Bengal's agriculture: a discursive review. 115900
Food development, innovation or *stagnation* **[Policies,** laws, regulations]. 116747

STAINING
Aldehyde-fuchsin *staining* of antral endocrine cells [Cats]. 117707
Black *stain* root disease [Verticicladiella wagenerii] of pinyon pine [Pinus edulis] in Colorado. 122747
A one-act **differential** *stain* of the acrosome with active dyes [Livestock, laboratory animals]. 118345
Mechanism of **differential** *staining* of BUdR-substituted Vicia faba [broadbeans] chromosomes. 120457
Differential *staining* of tannin in sections of epoxy-embedded plant cells [Pseudotsuga menziesii, Pinus taeda]. 120569
A smear technique for *staining* **elementary** bodies of fowlpox virus [Chickens]. 118620
Evaluation of bovine spermatozoal morphologic features after *staining* or **fixation.** 118200
Glycosaminoglycan *staining* in diseased dog skin. 118456
Purple **seed** *stain* of soybeans [caused by Cercospora kikuchii]. 122736
A simple and **sensitive** *staining* method for the detection of cellulase isozymes in polyacrylamide gels [Citrus sinensis, Trichodermata viride, Fungi]. 120881
Optimum **tetrazolium** *staining* of longleaf pine [Pinus palustris] seed [to estimate viability]. 121831
Repair in arterial tissue; electron microscopy of evans blue **vital** *stained* embolectomy catheter lesion of the rabbit thoracic aorta. 119067
Exfoliative vaginal cytology of the dog using **Wright's** *stain.* 117953

STALKS
Relationship of corn rootworm [Diabrotica] tolerance to yield in the BSSS [Iowa **Stiff** *Stalk* Synthetic] maize population. 123311
Mineral requirements of sorghum. Study of a long *stalked* **variety** from Upper Volta. 121409

STALLIONS *see* HORSES

STALLS
Laborsaving keeping, feeding and milking techniques *[Stalls* and **equipment].** 124655

STAMEN
Differentiation of self-fertility and self-sterility in Prunus by *stamen* **number/pistil** length ratio. 121664

STAMP
Characteristics of **food** *stamp* households: a report on the survey conducted by FNS [Food and Nutrition Service]. 116332
McDowell county 15 years later [First pilot **food** *stamp* project, West Virginia]. 116334

STANDARDS
Analytical *standards* [Beer, brewing]. 116058
Data *standards* for collection-holding organisations [including herbaria]. 120039
Criteria and *standards* of **efficiency** in agricultural production [East Germany]. 115405
Equipment *standards* [for forest fire control]. 119368
Standards for **filling** casks with beer [Hygiene, beer quality, cask cleaning and sterilization]. 116062
Review of investigation of the effects of **food** *standards* on pesticide use. 116069
Knottiness of European fir stem wood and its influence on [Yugoslav] **grading** *standards* for logs. 119451
Minimum *standards* for agricultural operations; livestock and forestry [Legislation, Colombia]. 115991
National *standards* for registration and for residues of pesticides in relation to trade and commerce in Europe. 123713
Economic assessment of proposed toxic **pollutant** *standards* for manufacturers and formulators of aldrin/dieldrin, DDT, endrin and toxaphene. 123743
Ambient air **quality** *standards* for particulate matter in the United States. 125440
Laws, *standards,* and **regulations** for smoke abatement in Montana [Air pollution]. 115866
Laws, *standards,* and **regulations** for smoke abatement in Oregon [Air pollution control]. 115867
Research and development for *standards* and **testing** in food hygiene. 116224
Determination of test errors in determining phosphorus and uura from the 80-21875/12 and 35 *standards* of **testing** feeds. 117369

STANDS
Good *stands* for top **alfalfa** production. 121912
Aspects of assessment of **cereal** *stands.* 121922
How do we manage understocked [forest] *stands?* The **challenge.** 119526
Specificity of the photosynthetic activity of cowpea plants as affected by different **density** of *stands.* 121777
The increment of white fir [Abies alba] *stands* and their **dieback** on the edges of the Krim-mountain (Slovenia). 119458
Phytosanitary state of *stands* of **field** crops in relation to crop rotation and fertilizer application [Disease, pest and weed control]. 122945
Plan and management of **forest** *stands* in catchment areas of drinking water dams from the view of forestry. 119441
An approach to finding management techniques for understocked **[forest]** *stands.* 119524
How do we manage understocked **[forest]** *stands?* 119525
One approach for managing understocked **[forest]** *stands.* 119527
Effects of herbicides on the microflora and some hydrological and physical properties of Chernozem soil in young **forest** *stands.* 123758
Principles of intensification of **grass** *stands* with regard to ecological conditions. 122036
Technological advances in the renovation of [forage] **grass** *stands* [and their mixtures with legumes]. 122037

Relationships between forest cutting and understory vegetation: an overview of Eastern **hardwood** *stands.* 119641
Reasons of variation in the physiological condition of eastern cottonwood [Populus deltoides] in **mixed** *stands.* 121813
Investigations on the accuracy of increment measurements of young spruce **[Picea]** *stands.* 119552
Recent findings on determining the harvesting ripeness, leaf development and yield of **potato** *stands.* 122296
A study of the physical load and work hygiene of woodcutter at felling in **pre-mature** *stands.* 119532
A comparison of soybean blends with **pure** *stands* in the Texas Gulf Coast [Varieties]. 122076
Pine [Pinus] *stands* **respond** favorably to management. 119424
Chemical protection of alfalfa **seed** *stands* against bugs [Heteroptera]. 123323
Studies on the structure and growh of **tree** *stands* in fields in Upper Bavaria. 119446

STAPHISAGRIA

The structure of staphigine and staphirine. Two novel bisditerpene alkaloids from **Delphinium** *staphisagria.* 121194

STAPHYLINIDAE

Morphology of Trigonurus asiaticus Reiche larva and relation of the tribe Trigonurini with other tribes of the subfamily Piestinae **(Coleoptera,** *Staphylinidae).* 124308
Some Stenus species (Coleoptera, *Staphylinidae)* **collected** by I. Lobl in Israel. 152. Contribution to the study of steninae [New taxa]. 124347
Larvae of rove beetles (Coleoptera, *Staphylinidae)* **developing** in wood [Ecology and morphology]. 123927
Ochthephilus aureus (Ancyrophorus aureus) Fauv. (Coleoptera, *Staphylinidae,* **Oxytelinae).** Ecological notes and morphological description of the larvae. 124081

STAPHYLOCOCCUS

The survival of *staphylococci* in **acid** medium [and in food products]. 116166
Prediction of microbial *[Staphylococcus* **aureus]** death during drying of a macaroni product [Quality]. 116202
Staphylococcal mastitis in cows, buffaloes and goats and their antibiotic sensitivity *[Staphylococcus* **aureus].** 118738
Acute mastitis in cows in the Harstad Veterinary District, 1972-1975 [Escherichia coli, *Staphylococcus* **aureus,** bacterial diseases]. 118856
Aminosidine [antibiotic] in the treatment of bovine mastitis *[Staphylococcus* **aureus,** Streptococcus agalactiae]. 118920
Development and resistance of *staphylococci* in **Bulgarian** sour milk [Contamination]. 116261
Coagulase-positive *Staphylococcus* occurrence in raw milk from the Pelotas area, Rio Grande do Sul [Milk bacteria and contamination]. 116251
The causes of *staphylococcal* **contamination** during the production of roasting chickens. 116140
Staphylococcal **growth** and enterotoxin production-factors for control [in foods]. 116206
Characteristic of *staphylococci* **isolated** from the udder of cows affected with mastitis. 118975
Staphylococcal **mastitis** in cows, buffaloes and goats and their antibiotic sensitivity [Staphylococcus aureus]. 118738
Trial with Pendistrin SH (Squibb) in clinical cases of [bovine] *staphylococcal* **mastitis.** 118757
Use of the microslide techinique to **measure** *staphylococcal* enterotoxin B [in food and in bacterial cultures]. 116208
Detection and enumeration of coagulase **positive** *Staphylococci* in dairy products. 1. New method. 116047

STARCHES

Fragments of Aesculus hippocastanum L. Cotyledons grown in vitro; first results on *starch* and **aescin** behavior [in the callus]. 120460
Cationic *starch* in papers with high contents of bagasse pulp. I. Influence on tensile properties of kraft papers. 119768
Influence of artificial conditions of prestockage and drying of maize-grain on the extraction and some physical-chemical and biochemical **characteristics** of its *starch.* 117384
Starch **compounds** as adjunct gelling agents in larval diet of the cabbage looper [Trichoplusia ni]. 123415
Starch **content** of oak roots on campsites [Quercus alba, Quercus velutina, Quercus coccinea]. 121834
Role of **damaged** *starch* in milling [Wheat flour]. 117084
Seasonal dynamics of accumulation and localization of *starch* in **[introduced]** broadleaf evergreens in the Crimea. 121619
A method for the reductometric determination of *starch* in **meat** products. 116968
Studies of applying wastewater discharged from the **potato** *starch* factories to arable land. 1. The influence of spray irrigation of wastewater in grassland on grasses and soil properties. 125546
Studies on *starch* **properties** and alpha-amylase activity in rye [in Sweden]. 121468
Functional characteristics of *starches* from **proso** and foxtail millets. 117121
Quality of potato varieties from the point of view of *starch* **yield.** 122496

STARVATION

Assessment of effect of *starvation,* **glucose,** fatty acids and hormones on alpha-decarboxylation of leucine in skeletal muscle of rat. 116420
Effect of *starvation* on **pituitary** growth hormone cells and blood growth hormone and prolactin levels in the rat. 116495
Lysome enzymes in *starving* after a **regimen** of sngle or all-day feeding [Rats]. 116486

STATIC

The New Zealand genetic soil classification—its inception, development and future or "The soil is not a *static* **body".** 124841
Layers: the influence of *static* **electricity** [on egg production]. 117397

STATIONS

African *stations* of spiders of the genera Nephila Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of Natural History [New taxa]. 124251
Genetic improvement of the grapevine in a course at the National **Agronomic** *Station* [Brazil]. 120844
Breeding of short-stem rye at Chlumec Plant **Breeding** *Station* [Chechoslovakia]. 120654
100 years with the brewing trade. Troubled history of the Scientific **Brewing** *Station* in Munich. 116683
The agricultural **experiment** *station* system reaches century mark [1875-1975]. 115187
Proceedings: 9th Beef Cattle Field Day, November 8, 1975, Mealani **Experiment** *Station,* Kamuela, Hawaii [Husbandry, feeds, feeding, pasture management]. 117472
State **Experiment** *Station* programs [in the Great Plains, shelterbelt research]. 119396
Entomology and the State Agricultural **Experiment** *Stations* [History]. 123959
Chickens of the cross 288 in the conditions of the Belorussian Zonal **Experimental** *Station* of Poultry Industry. 118300
Red oak [Quercus borealis] and bur oak [Quercus macrocarpa] in the Mariupol' Forest **Experimental** *Station.* 119556
Grain sorghum performance trials at the Imperial Valley **Field** *Station* in 1975 [Varieties, yields]. 121858
Grain sorghum performance trials at the Imperial Valley **Field** *Station* in 1974 [Varieties, yields]. 121859
Production and performance of common and durum wheats at the University of California Imperial Valley **Field** *Station* in 1974 and 1975 [Varieties, yields]. 121863
Occurrence of infection by bovine herpes virus (IBR-IPv) [infectious bovine rhinotracheitis/infectious pustular vulvovaginitis] in bulls at an **insemination** *station.* 118834
Figures and results for 1975 from the bacteriological meat **inspection** *station* at the Munich slaughterhouse. 116116
Thrifty calf nutrition methods introduced by the *stations* of the **Institute** for a Scientific System of Agriculture. 118115
Correct management of a continental **mating** *station* [Apis mellifera, Europe]. 124560
Excursions during the meeting of the **Regional** *Station* Directors of Flora Mapping in Wurzburg on July 5-6, 1975. 120030
Namulonge [Cotton **Research** *Station,* in Uganda]. 121937
Soils of Totokoitu **Research** *Station,* Rarotonga, Cook Islands. 124855
Sanitary-epidemiological *station* as a training centre of nutition hygiene. 116567
Erica erigena R. Ross: the **second** *station* in West Galway. 120084
Management activity of variety **test** *stations* as a means of good experimental work. 121906

STATISTICS

Feeding experiments with bacon pigs. 3. Some *statistical* **analyses.** 118013
Log linear representation for paired and multiple comparisons models *[Statistics* **applied** to food preference]. 115571
The variability of soil aeration measurements. I. A *statistical* **approach** to define the aeration status in respect to denitrification. 124879
A note on the *statistical* **aspects** of prgnancy diagnosis. 118229
Development of biometry in the past century. II. Development of *statistics* in **botany** as an example for biology in the more restricted sense. 119910
Cotton quality—supply, disappearance, **carryover;** 1974-75 *[statistics].* 115776
Cotton quality **crop** of 1974 *[Statistics].* 115777
Significance of *statistical* **documentation** in apiculture. 124581
Poultry and **egg** *statistics,* 1972-75. 115783
Possibilities of **employing** *statistic* tests of quality in the production of ornamental plants. 115465
Preliminary data of the *mathematical-statistical* **evaluation** of results of pig fattening capacity tests. 118260
Feed marketing and distribution [Production and **feeding** *statistics].* 117339
Agricultural **finance** *statistics.* 115773
Record world production of edible olive oil **forecast** for 1975/76 *[Statistics].* 115631
Cycles in U.S. Pecan production 1919—1974 identified by power spectral analysis *[Statistics,* **forecasting].** 115931
Forest *statistics* for southeast Texas counties. 119543
World milk production forecast to rise **fractionally** in 1976 *[Statistics].* 115629
Cottonseed Treatment Committee report—1973 **[Fungicides,** *statistics].* 122595
World exports of oilseeds, fats and oils to register above-trend **gains** in 1976 *[Statistics].* 115634
French consumption of liquid foods will pass 169 million **hectoliters** in 1980 *[Statistics].* 115736
One hundred years for forestry in Slovenia **[History,** *statistics].* 119453
State farm **income** *statistics.* 115784
The French canned food **industry** in 1975 *[Statistics].* 115973
Dairy **market** *statistics:* 1975 annual summary. 115782
World production and trade of peanut oil and **meal** up *[Statistics].* 115635
Models and *statistics* for **[moth]** species diversity. 124098
U.S. Fats and **oils** *statistics,* 1960-75. 115785
Forecast confirmed by poultry farming in Sao Paulo [Economic aspects, production, **prices,** *statistics].* 115809
World poultry **production** *[Statistics].* 115584
Third estimate of world sugar balance 1974/75 (1000 metric tons, raw value) **[Production,** *statistics].* 115614
Supply situation of Grana cheese at the 31st of March 1975 **[Production,** *statistics].* 115698
Forecast: poultry farming in Sao Paulo maintains its place [Economic aspects, **production** *statistics].* 115810
Meat **products** *[Statistics].* 117037
Wooden containers and miscellaneous wood **products** *[Statistics].* 119849
Incomplete block designs for three or four replicates of many treatments [Plant breeding **program,** *statistics].* 120592
Geochemical survey of Missouri—methods of sampling, laboratory analysis, and *statistical* **reduction** of data. 124888
Multivariate and **sequential** *statistical* procedures in the biological assessment of water quality. 125333
1975 world raisin and fig outturns up; currant and prune crops **smaller** *[Statistics].* 115630
World tobacco exports dropped sharply in 1975, but imports held **steady** *[Statistics].* 115638
A study of the fluctuating factors in the seminiferous epithelial cycle in mice—with special attention to *statistical* **studies** on diurnal fluctuations and on variations due to testes and testis loci in the relative frequencies of the stages [Spermatogenesis]. 118365
A *statistical* **study** of the oxygen index measurement [of fabrics]. 116834
The state of world **sugar** in 1974 *[Statistics].* 116002
Italian forest situation following the years 1964-1974 **[Surveys,** *statistics].* 119435
World forestry situation aspects **[Surveys,** *statistics].* 119436
Application of *statistical* **tests** for the interpretation of reslts of sensory analysis [Food industry]. 116785
The [forest] *statistician'* **viewpoint.** 119487
U.S. Tobacco exports in fiscal 1976 reach record value on reduced **volume** *[Statistics].* 115637
U.S. Grain and feed export value reaches $11.9 billion in fiscal **Year** 76 *[Statistics].* 115640

STATOR

The correct identity of *Stator* **bixae** (Drapiez) with lectotype designation (Coleoptera: Bruchidae). 124329

STEAM

Heating times of axially rotated cans [of liquid food] in a *steam* **pasteurizer.** 116657
Briquetting [wood] waste for *steam* and **sale.** 119686

STEATOSIS

Hepatic *steatosis* of poultry [Fatty liver]. 119077

STEEL

Studies on the corrosion of cooking utensils. 1. Behaviors on the corrosion of **mild** *steels* in seasoning solutions. 116602

STEERS *see* CATTLE

STELE

Stimulation of sporulation of Phytophthora fragariae **[red** *stele* of strawberries]. 122666

STELLARIA

Growth of *stellaria* **media,** capsella bursa-pastoris and Senecio vulgaris plantlets from cultured meristem tips. 121330
Common chickweed *[Stellaria* **media].** 123049

STEM

Root and *stem* **base** rot of Gerbera caused by Pythium species and Rhizoctonia solani. 122677
A new disease of Pilea [imperialis] caused by Phytophthora parasitica [Leaf, bud and *stem* **blight].** 122742
Pest management for control of *stem* **break** [caused by Cercosporella herpotrichoides in wheat and barley]. 122694

A factor in the break-down of resistance of 'Basmati-370' rice to *stem-rot* **disease** [Magnaporthe salvinii]. 122641
Stem **eelworm** on arable crops [Ditylenchus dipsaci, nematodes]. 122881
Influence of a substituted oxathiin, a localized growth inhibitor, on the *stem* **elongation**, branching, and flowering of Chrysanthemum morifolium Ramat. 121709
Knottiness of European **fir** *stem* wood and its influence on [Yugoslav] **grading** standards for logs. 119451
Quality of grain and malt from the main and **lateral** *stems* as well as from different parts of the barley spike. 121566
Can we *stem* this **life** blood flow? [Greenhouse horticulture, labor outlook, Great Britain]. 115862
Best decision: resistant varieties for control of **maize** *stem* rot [caused by Fusarium]. 122690
Developments in **maize** *stem-borer* [Busseola fusca] control in East Africa, including the use of insecticide granules. 123275
Correlation between beta-galactosidase and auxin-induced elongation growth in etiolated **pea** *stems*. 121753
Effects of monovalent cations on IAA [indoleaetic acid]-and FC [fusicoccin]-stimulated proton-cation exchange in **pea** *stem* segments. 121762
Haymaking speed, blade-stem ratio and protein percentage in the blades and *stems* of some **perennial** tropical legumes and molasses-grass [Varieties, Melinis minutiflora]. 121886
Protection of woody plants [from insects] by the method of injection of **pesticides** [into the *stem*]. 123449
The gradient of phytochrome and inhibitor distribution in *stems* of **plants** of photoperiodically neutral species. 121038
Enzymatic activity of protein fractions excreted by **potato** *stem* nematode [Ditylenchus destructor]. 123003
Haymaking speed, *blade-stem* **ratio** and protein percentage in the blades and stems of some perennial tropical legumes and molasses-grass [Varieties, Melinis minutiflora]. 121886
Evaluation of virulence in isolates of Sclerotium oryzae *[stem* **rot** of rice]. 122730
Study of some problems of the biology of the fungus Sclerotinia libertiana F. *[Stem* **rot,** sunflowers]. 122778
Sporulation of fungus Puccinia graminis f. Sp. Tritici in axenic culture [Wheat, *stem* **rust**]. 122608
Use of extremely shortstemmed wheat varieties for culturing aseptically a causal agent of *stem* **rust,** Puccinia graminis F. sp. tritici, on wheat seedlings. 122659
Hypersensitive response of near-isogenic wheat carrying the temperature-sensitive Sr6 allele for resistance to *stem* **rust** [Puccinia graminis tritici]. 122705
Races of Puccinia graminis f. Sp. Avenae *[stem* **rust** of oats] in the U.S.A. during 1975. 122758
Breeding of *short-stem* **rye** at Chlumec Plant Breeding Station [Chechoslovakia]. 120654
Stem-borer [**Sesamia** botanephaga] ecology and strategy for control [Stemborer of maize in West African areas]. 123276
Breeding and testing **short** *stem* spring wheat varieties. 120737
Breeding methods and initial material for creating **short** *stem* wheat varieties. 120738
Breeding of **short** *stem* winter wheat [varieties] in the Kyibyshev Region. 120739
Breeding **short** *stem* warieties [of wheat] for the conditions of the Ukrainian forest-steppe. 120741
Breeding **short** *stem* winter and spring wheat varieties of an intensive type. 120742
Briefly on results of breeding **short** *stem* productive varieties of winter wheat. 120743
Methods and results of breeding **short** *stem* winter wheat varieties in the conditions of Kirghizia. 120746
Present state and prospects of studies in breeding **short** *stem* varieties of winter wheat for irriation conditions. 120748
Testing and breeding **short** *stem* varieties of spring wheat in the area eastward of the Volga River. 120750
[World] breeding stock of dwarf and **short** *stem* wheat varieties. 120752
Comparative productivity of **short** *stem* spring wheat varieties. 122009
Results of studying **short** *stem* spring wheat varieties under irrigation. 122010
Results of testing **short** *stem* spring wheat varieties from Mexico and USA in the Krasnoyarsk Territory. 122011
Short *stem* USA-bred sping wheat varieties in the conditions of the Volgograd Region. 122012
Testing **short** *stem* foreign bred [spring wheat] varieties in the Zaporozh'I Region. 122013
Methods and results of developing highly productive **shot** *stem* winter wheat varieties for irrigated farming. 120747
Methods and results of breeding **stiff** *stem* and semi-dwarf varieties of winter wheat for the steppe areas of the Ukraine. 120745
The influence of tapering of [tree] *stem* on its **volume** calculation. 119536
Races of Puccinia **graminis** f. Sp. Tritici [**wheat** *stem* rust] in the U.S.A. during 1975. 122757
Effects of seed size and spacing of seed tubers and *stems* on **yields** of early and canning potatoes. 122387

STEMPELLIA

Ultrastructural study of *Stempellia* **mutabilis** Leger and Hesse, a microsporidian parasite of Ephemera vulgata. 124134

STEMPHYLIUM

Characterization of L-asparagine transport systems in *Stemphylium* **botryosum** [Fungi]. 121159
Studies into *Stemphylium* **floridanum** causing leaf blight of Viola. 122790

STENINAE

Some Stenus species (Coleoptera, Staphylinidae) collected by I. Lobl in Israel. 152. Contribution to the study of *steninae* [New taxa]. 124347

STENUS

Some *Stenus* **species** (Coleoptera, Staphylinidae) collected by I. Lobl in Israel. 152. Contribution to the study of steninae [New taxa]. 124347

STEPPES

Methods and results of breeding stiff stem and semi-dwarf varieties of winter wheat for the *steppe* **areas** of the Ukraine. 120745
Experience of establishing an **artificial** *steppe* phytocoenosis in the Donetsk Botanical Garden. 119857
Change of genetical and morphological features and some chemical properties of soils under the effect of field shelterbelts in the **Kamennaia** *Steppe*. 119410
Selection of promising forms of European walnut [Juglans regia] in the **Kamennaia** *Steppe*. 120813
Some results of breeding spring barley for grain quality in the conditions of the **Kamennaia** *Steppe*. 120814
Effect of forest litter in shelterbelts in the **Kamennaia** *Steppe* on the emergence and development of oak seedlings [Quercus]. 121833
Removal of nutrients by weeds on a cotton field on Takyr soils in the **Karshi** *Steppe*. 123059
Composition of the microflora of natural phytocoenoses from the **Khomutovskaia** *Steppe* [reservation]. 120351
Evaluation of the udder in **Red** *Steppe* cattle in relation to machine milking. 117933
Breeding short stem warieties [of wheat] for the conditions of the **Ukrainian** *forest-steppe*. 120741
Farming practices and spring barley breeding in the eastern part of the **Ukrainian** *forest-steppe*. 120827

STERCULIA

The use of *Sterculia* **Gum** for controlling intestinal tone in the dog and cat. 119139

STERCULIACEAE

Cacao: *Theobroma* **cacao** (Sterculiaceae). 122526
Yield characteristics of *Theobroma* **cacao** L. With special reference to studies in Nigeria. 122545
The use of whole plot data from progeny trials with **cocoa** *(Theobroma* cacao L.) in Ghana [Yields and growth]. 122539
Kola: **Cola** spp. *(Sterculiaceae)*. 122531
Pollen dimorphism and heterostyly in the genus **Waltheria** L. *(Sterculiaceae)*. 120509

STEREOSPECIFIC

Recurrent *stereospecific* synthesis of structures related to those of Hyalophora cecropia juvenile hormone. 124163

STEREOSTRUCTURE

The *stereostructure* of the **exine** and its evolutionary significance in Saxifragaceae sensu lato. 120517

STERILITY

A mycoplasma—abortion link? [Ciliostasis, *sterility* in **cattle**]. 118589
Determination of the most sensitive stage to *sterile-type* **cool** injury in rice plants [in Hokkaido]. 123030
A method for calculating the losses of milk in *sterile* **cows.** 117512
Physiological and biochemical prerequisites of selecting stabilizers of *sterility* and **fertility** restorers in maize. 121480
Induced **genetic** *sterility* in safflower. 120760
Genic *sterility* of pollen in sugarbeets. 120828
Particuliarities of the reproduction interrelations and type of *sterility* in **hybrids** between Lycopersicon esculentum Mill. [Tomatoes] and Lycopersicon chilense Dun. 120645
Association between defective stigmatic exudates & *sterility* in **Impatiens** [sultani]: chromatographic evidence. 120758
Investigations on the practical application of the *sterile* **insect** technique as a method for the control of the cherry maggot (Rhagoletis cerasi L.) in Austria. 123433
Contributions to the phimosis technique by means of surgical **intervention** *[Sterility]*. 118430
Infectious diseases **involving** *sterility* and fetal death/abortion in sows. 118855
Male *sterility* caused by cooling treatment at the young microspore stage in rice plants. XII. Classification of tapetal hypertrophy on the basis of ultrastructure. 120531
Male *sterility* caused by cooling treatment at the young microspore stage in rice plants. XIII. Ultrastructure of tapetal hypertrophy without primary wall. 120532
Male *sterility* caused by cooling treatment at the young microspore stage in rice plants. XIV. Floating tapetal materials in the locular cavity. 120533
Cytoplasmic **male** *sterility* in interspecific rye hybrids. 120660
Research on **male** *sterility* in rye. 120675
The use of chemicals and cytoplasmic **male** *sterility* for pollen development control in rye. 120686
Peculiarities of **male** *sterility* in perennial grasses during its induction by chemical mutagens. 120709
Phosphorus and nucleic metabolism in wheat with cytoplasmic **male** *sterility*. 121478
Quality control assessments of **male** *sterility* during the 1972 and 1973 pilot boll weevil [Anthonomus grandis] eradication experiment [Cotton]. 123355
Microsporogenesis and anther development in *male-sterile* and **male-fertile** forms of rye. 120670
Differentiation of self-fertility and *self-sterility* in **Prunus** by stamen number/pistil length ratio. 121664
Studies on cool injury in bean plants. VII. Sensitive stages to *sterile* **type** low temperature injury during floral bud development in relation to nitrogen status of soybean plants. 123024

STERILIZATION

Caution during *sterilization* [of **beekeeping** equipment infected with foulbrood]. 124497
Sterilization of **cereal** grain samples by gama-irriadiation [Wheat]. 117067
Status of fat globule membrane proteins in *sterilized* and **chilled** buffalo milk. 116886
Standards for filling casks with beer [Hygiene, beer quality, cask **cleaning** and *sterilization]*. 116062
Effect of nisin [antibiotic produced by Streptococcus lactis] on reducing the thermal process in **commercially** *sterilized* milk. 116929
Steriflamme: a general review [Canned **food** *sterilization]*. 116658
The problems of methyl bromide *[Sterilisation* of **glasshouse** soils]. 124808
The basis of [in-can] **heat** *sterilization* process evaluation. 116811
Re-use of polythene in **mechanised** *sterilisation* of soil [Equipment]. 124663
Development of an integrated control program for orchard pests in the Armenian S.S.R. by using a combination of methods, including insecticides, attractants and **sexual** *sterilization*. 123422
A comparative study of the infection of perennial reygrass [Lolium perenne] by Fusarum nivale and Fusarium culmorum in *sterilized* **soil.** 122560
Batch **surface** *sterilization* of chironomid [Chironomus tentans] **eggs**. 123611
A *sterilizing* **tail** stump sperm defect in a Holstein-Friesian bull [Defective recessive genes, deep-freezing semen]. 119184
Method of determining the *sterilisation* **value** of canned meat from tables. 116986

STEROID

Transformations of *steroid* **compounds** with Rhizopus sp. [Fungi]. II. 11 alpha-hydroxylation of delta 4-3-ketosteroides of the pregane and androstane groups. 120854
Steroid **derivatives.** LXXIX. Microbial 15 beta-hydroxylation of 17 alpha-acetoxy-16-methylene derivatives of the pregnane series by the action of Cunninghamella blakesleeana [Fungi]. 121067
Fecal *steroids* in diarrhea. I. Acute shigellosis [Shigella flexneri, malnutrition]. 116280
Mechanism of *steroid* **hormone** action: in vitro control of gene expression in chick oviduct chromatin by purified steroid receptor complexes. 117712
Induction of specific proteins in hyphae of Achlya ambisexualis by the *steroid* **hormone** antheridiol [Fungi]. 121296
Changes in the secretion of **ovarian** *steroids* and pituitary luteinizing hormone in the periovulatory period in the ewe: the effect of progesterone. 118341
Mechanism of steroid hormone action: in vitro control of gene expression in chick oviduct chromatin by **purified** *steroid* receptor complexes. 117712
Steroidal **sapogenins** from Trigonella occulta. 121260
The effect of an acute dose of biotin at a post-implantation stage and its relation with female **sex** *steroids* in the rat. 116462
Microbial conversion of tall oil **sterols** to C19 *steroids*. 119726
Biosynthesis of *steroid* **sulfates** by the boar testes. 118221
The effect of two **synthetic** *steroids* on plasma glucose concentration and total entry rae of glucose in sheep. 117759
Steroids of **Withania** plants. IV. Partial synthesis of withanolids. 120877

STEROL

Gas-chromatography in *sterol* **anlaysis.** GLC-MS [gas liquid chromatography-mass spectrometry] of methoxy derivatives of sterols [Olive and sunflower oils were employed]. 117318
Metabolism of Delta7- and **Delta5,7-** *sterols* by Phytophthora cactorum [Fungi]. 120934
In vitro binding of *sterols* by **extracts** from Mucor rouxii [Fungi] cells grown under different environmental conditions. 120985
Microbial conversion of tall **oil** *sterols* to C19 steroids. 119726
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid chromatography-mass spectrometry] of methoxy derivatives of *sterols* **[Olive** and sunflower oils were employed]. 117318
Autoxidation of 24-R-ethylcholesterol **[Plant** *sterols]*. 121244

The role of *sterols* in the **relations** between potato [plants] and Phytophthora infestans [Blight]. 122609
Sporogens, *sterols*, and **sporulation** of Leptosphaerulina briosiana [Fungi]. 120983

STIGMA
Varietal differences in cabbage of the hydrogen-ion concentration isoelectric point of the pollen and *stigma* in **relation** to heterosis. 121687

STIGMATIC
Association between **defective** *stigmatic* exudates & sterility in Impatiens [sultani]: chromatographic evidence. 120758

STILBESTROL *see* DIETHYLSTILBESTROL

STILLBIRTHS *see* BIRTH

STIMULATION
Farnesenic **acid** *stimulation* of juvenile hormone biosynthesis as an experimental probe in corpus allatum physiology [Schistocerca gregaria]. 123940
Stimulatory **action** of Azotobacter chroococcum from water hyacinth (Eichhornia crassipes Mort Solms) on germination of seeds of rye (Secale cereale). 121568
Hypoglycaemia as a *stimulus* for **adrenocorticotrophin** secretion in foetal sheep. 117808
An **aggression** *stimulating* substance in the cockroach, Periplaneta americana. 123795
Genetic approaches to the *stimulation* of **bacterial** protein synthesis. 116757
Facilitation of feeding in aphagic cats by rewarding **brain** *stimulation*. 116357
Stimulation of **breeding** activity in spring-mated Merino ewes. 118191
Stimulation of **corneal** differentiation by interaction between cell surface and extracellular matrix. II. Further studies on the nature and site of transfilter "induction" [Chick embryos]. 117648
Reactions of the red nucleus neurones in awake cat to **cutaneous** *stimulation*. 117523
The mechanisms of anabolic action of the PEFAG preparation [growth and **fattening** *stimulant* in livestock based on the mycelium of Actinomyces grseus]. 118068
Demonstration of **follicle** *stimulating* hormone (FSH) activity in hypophyseal extracts of various vertebrates by the response of the Sertoli cells of the chick. 117696
Effects of **follicle** *stimulating* hormone and luteinizing hormone on the incorporation of 32P [phosphorus isotope] into the testis of the immature Japanese quail. 117697
Stimulation of **germination** by gamma radiations of the dormant seeds of Avena fatua L. 121022
The effect of **germination** *stimulators* on wild oat (Avena fatua L.) emergence in the field [Weed control]. 123153
Stimulation of **growth** in Scenedesmus obliquus [Algae] (Chlorophyceae) by humic acids under iron limited conditions. 121217
Peripheral control of meal size: interaction of **gustatory** *stimulation* and postingestional feedback. 116369
Adenylate cyclase of the dog gastric mucosa: *stimulation* by **histamine** and inhibition by metiamide. 117866
Satiety: **hypothalamic** *stimulation*, anorectic drugs, and neurochemical substrates [Control of feeding]. 116374
Cholecystokinin both *stimulates* and **inhibits** human food intake. 116488
Molecular structure of sugars and their effectiveness in *stimulating* **insects** [Phormia, Apis mellifera]. 124101
Effect of ethephon **latex** *stimulant* on papaya (Carica papaya L.) [Papain yields and quality of fruits]. 122400
Synergism and antagonism of hormones with *stimulation* of **metabolism.** 117863
Stimulating **native** forage production for livestock and wildlife on fallow riceland [Herbicides]. 123181
Agriculture as the first activity **needing** *stimulation* for the development of the whole [Programs, Colombia]. 115985
Phenobarbital *stimulation* of housefly [Musca domestica] chromatin template activity. 123984
A new view of forestry incentives *[Stimulating* **private** landowners to practice forestry]. 119523
Stimulation of the **rabbit** hypothalamus: caudal projections to respiratory and cardiovascular centres. 117831
The effect of *stimulating* **rates** of ionizing radiation on the stability of liver cell mitochondria in chick embryos and young chickens. 117950
Calcium and *stimulus* **secretion** coupling in the [ox] neurohypophysis. V. The effects of the Ca2+ ionophores A23187 and X537A on vasopressin release and 45Ca2+ efflux; interactions with sodium and a verapamil analogue (D600). 117525
Progesterone and gravohormone for *stimulation* of the **sexual** function in cows. 118419
Stimulation of **sporulation** of Phytophthora fragariae [red stele of strawberries]. 122666
Evidence for a factor that *stimulates* **tissue** maceration by pectolytic enzymes [Aspergillus japonicus, Fungi]. 121316
Stimulation of **uterine** activity by administration of prostaglandin F-2 alpha during parturition in sheep. 118360
Territorial behaviour in Heodes virgaureae L. (Lepidoptera, Lycaenidae) with particular reference to **visual** *stimuli*. 124117
The effect of dry versus **wet** *stimulation* of milking cows on the fat absorption by teat cup liners. 117476
The use of premerge [herbicides] at low rates as a **yield** *stimulant* in corn—a status report. 123158

STINGS
Comparative survey of the sensory structures on the *sting* and **ovipositor** of hymenopterous insects. 124037
O killer bee [Apis mellifera adansonii] where is they *sting?* In the **press,** that's where. 124489

STIPE
On the components of pileus and *stipe* of **dried** shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and hot water soluble polysaccharides. 117297

STOCHASTIC
Stochastic **modeling** of light energy conversion in photosynthesis. 121315

STOCK
More protection against the risk of epidemics in large laboratory **animal** *stocks*. Is a legislative regulation necessary in laboratory animal units? [Swine]. 118652
Stomatal distribution as an index for predicting the growth potential of **apple** *stocks*. 121729
Selection of [Africander] calves after weaning [for future **breeding** *stock]*. 118187
[World] **breeding** *stock* of dwarf and short stem wheat varieties. 120752
Study of [fungus] disease resistance of *stock* and **breeding** material of winter wheat, barley, oats and red clover. 122626
Material balance for **brown** *stock* washing, screening, and oxygen bleaching in closed-mill systems [Pulps]. 119818
Action to improve reproduction of **cattle** *stock* in Gera district. 118371
Incidence of ketosis in dairy **cattle** *stock*. 119163
Closer to the dream [Prototype cotton processing system to continuously process raw **cotton** *stock* into yarn]. 117061
Potatoes as a *stock* **feed** [Silage, dairy cattle]. 117965
The breeding of cleistogamous **genetic** *stocks* of Secale cereale [in West Germany]. 120682
Hydrogen cyanide production by field-grown sorghums [Toxic when **ingested** by *stock]*. 121524
The purpose and operation of a **Nuclear** *Stock* Unit [Insect-proof, virus-free structures for selection plant propagation, New Zealand]. 122921
Sprout control of apple **nursery** *stock* with NAA [napthaleneacetic acid]. 121679
Evaluation of eight herbicides in container **nursery** *stock* [of ornamental plants]. 123071
Winter protection of **nursery** *stock* [of ornamental plants] Webfoot style [Plastic-covered structures]. 124605
Materials handling and mechanization of hardy [plant] **nursery** *stock*. 124662
Stock and **pasture** management for establishment of radiata pine in farmland. 122064
Floral anatomy of Boraginaceae. I. Sericostoma **pauciflorum** *stocks*. 120452
Growth rate of Corsican pine [Pinus nigra poiretiana] after grading of 1 + 1 **planting** *stock*. 119557
Tissue culture—a future source of **planting** *stock* [for reforestation]. 119618
The automation of *stock* **preparation** in the paper industry. 119789
Transport effect of some mineral nutrients and photosynthates with reference to *stock-scion* **relationship** in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727
Testing black current **root** *stocks* for their resistance to Septoria [ribis]. 122656
Boreholes [for domestic, *stock* **watering** and irrigation] and how to get them drilled. 125214
Stock of **weed** seeds in the arable layer and ways of decreasing it. 123196
Complex processing of the available **wood** *stock*. 119656

STOLBUR
Freeing tobaco from **mycoplasmic** *stolbur* infection by the method of tissue culture. 120343

STOLONS
Studies on the *stolon* **development** in the potato plant. I. The orientation of the axillary shoot growth in the potato seedlings. 121765
Effect of temperature and warming up time of potato tubers on detectability of the X, S, M viruses in *by-stolon* **tuber** parts. 122869

STOMACH
Sone anatomical observations on the topography and macroscopic distribution of the lymph vessels and nodes on the *stomach* of **buffalo,** Bos bubulis L., of Egypt. 117764
Extraction of liquid rennet from buffalo **calves'** *stomachs*. 116884
Stomach **capacity** of English Thoroughbred horses [Anatomy]. 117908
The effects of milk feeding on the pre- and post-weaning growth of calves, and on *stomach* **development** at weaning. 118085
Studies on the digesta distribution in the GIT [gastrointestinal tract] of pigs fed high-test molasses or maize. 1. *Stomach* **phase.** 117641
Refeeding *stomach* content of slaughtered animals. 118067

STOMATA
Study of the *stomatal* **apparatus** in the leaves of different species of onions [Allium] in relation to their resistance to downy mildew [Peronospora destructor]. 120424
Evaporation rate, leaf water potential and *stomatal* **conductance** in Lolium, Trifolium [clover] and Lysimachia in drying soil. 121518
Photosynthesis in Sitka spruce (Picea sitchensis (Bong.) Carr.). VII. Measurements of *stomatal* **conductance** and 14cO2 [carbon dioxide isotope] uptake in a forest canopy. 121818
Structure, ontogeny and taxonomic significance of *stomata* in some **Cucurbitaceae.** 120015
Stomatal **distribution** as an index for predicting the growth potential of apple stocks. 121729
Mehler-type reagents in the enhancement of *stomatal* opening in **epidermal** strips [Commelina benghalensis, peas]. 121339

STOMATITIS
SEM [scanning electron microscopy] of **vesicular** *stomatitis* virus infection in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Glycosylation sites of **vesicular** *stomatitis* virus glycoprotein. 118803
Interactions of **vesicular** *stomatitis* virus with murine cell surface antigens. 118804

STOMOXYS
New era in insect *[Stomoxys* **calcitrans,** Haematobia irritans] control [Dimilin]. 123595
Chemical control of *Stomoxys* **nigra** in Mauritius, its susceptibility to seven insecticides. 123660

STONEFLIES
Norwegian *stoneflies*. IV. Laboratory studies on ecological factors influencing distribution. 124114
The effect of copper on the oxygen consumption rates of the *stonefly* **nymph,** Phasganophora capitata (Pictet) (Plecoptera). 125369
Prey selection by a **setipalpian** *stonefly* nymph, Acroneuria (Calineuria) californica Banks (Plecoptera: Perlidae). 123883
Trichoptera and *stoneflies* of some **waters** of Sor Varanger (North Norway) (Plecoptera). V. Limnephilus minusculus (Banks 1907) new for Europe. 124300

STONES
Caddis flies and *stone* **flies** of the Varanger Peninsula (North Norway) (Trichoptera, Plecoptera). 124286
Cyanide content in *stone* **fruit** products [Alcoholic beverages]. 116055
Hydrocyanic acid content of *stone* **fruit** juices. 117249
Heat therapy: method and application to control plant viruses [of pippin and *stone* **fruit** trees]. 122829
Dwarfing rootstocks for *stone* **fruits.** 122219
Control scheme for monitoring debris in *stone* **groundwood** [Pulp quality]. 119798
Studies on upper timberline: morphology and anatomy of Norway spruce (Picea abies) and *stone* **pine** (Pinus cembra) needles from various habitat conditions. 120443
Training and **pruning** *stone* fruit. 122491
Anomaly of female cones in **Siberian** *stone* pine (Pinus siberica du Tour) as a possible form of apomixis. 121808

STORAGE
Controlling **apple** *storage* scald [Physiological disorders]. 122926
Investigations into the origin, development and control of caryedon serratus (Coleoptera, Bruchidae) **attacking** *stored* groundnuts in the Gambia. 123542
Gas interchange in freight containers [for the handling of both bulk and **bagged** *stored* products]. 116758
Studies on "ann" (bean jam). 5. Off-flavor of dried "koshiann" (mashed **beans**) in the *storage*. 117299
Storage **behavior** of ready-made cold meals in a regulated atmosphere. I. Storage in a controlled atmosphere. 116720
The *storage* **behavior** of ready-made cold meals in a regulated atmosphere. II. Storage in a quiet atmosphere. 116721
Treating odours arising from the *storage* of **blood.** 125429
Occurrence of Carpophilus dimidiatus F. (Coleoptera: Nitidulidae) in **bulk** *stored* wheat in Punjab. 123511
Bulk *storage* hoppers [for swine feed]. 124637
Climate and the infestation of *stored* **cereals** by insects. 123526
Knock on wood. *In-store* **checklist** for wood furniture. 116310
The inside story. *In-store* **checklist** for upholstery and upholstered furniture. 116582
Effect of addition of formalin and *storage* on **chemical** composition of ice cream. 116883
A treatment to preserve tall oil during **chip** *storage*. 119813
Economic views of **cold** *storage* in the brewery. 116672
Influence of fungicidal treatments on the quality and **cold** *storage* peservation of Imperatore apples. 117255
Thermal load in **cold** *storage* places destined for the preservation of vegetable and fruit products [Equipment]. 117259
Cold *storage* of fresh fruit and vegetables [Temperature injuries]. 117322
Cold *storage* of already after-ripened beech (Fagus silvatica L.) seeds. 121792

Prevention of browning and blemish by postharvest treatments and *storage* **conditions** for keeping better quality of fresh mushrooms. 117288
A study of effects of different *storage* **conditions** on survival of wild oat (Avena fatua) seeds. 123187
The role of low temperature to **control** *stored* food pests [Fungi, mites, insects]. 116759
Storage behavior of ready-made cold meals in a regulated atmosphere. I. *Storage* in a **controlled** atmosphere. 116720
Changes in the intensity of protein synthesis in the embryo axes of northern red oak (Quercus borealis Michx.) and English oak (Quercus robur L.) during *storage* under **controlled** conditions. 121791
Cool *storage* to improve the quality of Valencia oranges. 117291
Copper *storage* bodies in the hepatopancreas of the isopod, Oniscus asellus. 124126
Studies on the active form of Callosobruchus maculatus (F.) in Nigeria. III. The dynamics of active female production in Callosobruchus maculatus (F.) (Coleoptera, Bruchidae) in *stored* **cowpeas.** 123558
The development and extension of nonchemical [insect pest] control techniques for *stored* **cowpeas** in Nigeria. 123565
Notes on the necessity of *storing* different **crops** in different ways and what it means in investment, etc. 115428
Investigations on **dichlorvos** *storage* space treatment for protection of packaged food against insects in the warehouse in the Aegean region [Raisins]. 123509
Induction of textural changes in sweetpotato roots by chilling [Hardcore, *storage* **diseases**]. 117281
Three new [fungus] *storage* **diseases** of ginger (Zingiber officinale (L) Rosc) [Nectria inventa, Trichurus spiralis, Memnoniella echinata]. 122782
Motivation and method in ensuring protection of tropical produce from grower to his market *[Storage* and **disinfestation**]. 115684
Changes in the status of insect pests in *storage* and **domestic** habitats. 123524
Talk to first international working conference on *stored-product* **entomology.** 123560
Mold inhibitor prevents cottonseed quality loss [**Field** *stored* cotton]. 122588
Modern silo construction for the *storage* of **flour** products. 124616
FAO's [Food and Agriculture Organization] involvement in the international acceptance of pesticides for *stored* **food** products [Residues, hazards]. 123712
A critique on requirements for determination and interpretation of fumigant residues [in *stored* **foods**]. 116160
The influence of the **frozen** *storage* on the food quality of wheat flour products. 4. Frozen dough of the bread. 117133
Factor influencing dosage and choice of toxicant in [insect] *stored-product* **fumigation.** 123531
Chemical preservatives for maintaining moist rice in *storage* [**Fungus** diseases]. 117172
Better use of existing **grain** *storage* facilities and funds appropriated for building new granaries [Investments, East Germany]. 115510
Syria pushes improvements in **grain** *storage,* transport. 117109
A.I.D. [Agency for International Development] **grain** *storage* programs. 117110
Grain *storage* and handling in the Morogoro and Iringa regions of Tanzania. 117206
Insects and mites in *farm-stored* **grain.** 123504
Quest for a microbial alternative [Bacillus thuringiensis for controlling the Indian meal moth in *stored* **grain,** biological control]. 123505
The use of controlled atmospheres for the *storage* of **grain** [Insect control]. 123574
Inspection and sampling of *stored* **grains** [Insect and rodent contamination]. 116054
Laboratory evaluation of malathion used as a protectant for the prevention of damage by pulse beetles to *stored* **gram** [Chickpeas] (Cicer arietinum). II> Persistance of malathionresidue [Drosophila as test insects]. 123291
The *storage,* **handling** and distribution of malt. 116690
The effect of *storing* and **heating** frozen ready-to-eat meals on vitamins B1 and B2 in the meat. 116330
Improved *storage* structures for the preservation of food. 124618
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the muscle meat of naturally infected swine *[Storage* of **infected** pork]. 116252
The importance of taxonomy and of laboratory studies on the biology, nutrition and physiology of insects **infesting** *stored* products. 123567
Achievements and limitations of ionizing radiation for *stored-product* **insect** control. 123519
Potential for genetic control of *stored-product* **insect** populations. 123550
Effect of visible light on the behavior of *stored-product* **insects.** 123528
Evaluation of pesticides for control of *stored-product* **insects.** 123530
Invasion and penetration of consumer packages in short-term storage by *stored-product* **insects.** 123540
Radiofrequency, infrared, and ultraviolet radiation for control of *stored-product* **insects:** prospects and limitations. 123551
Resistance to malathion and dichlorvos in *stored-product* **insects** in New South Wales. 123554
Some consequences of the development of insecticide resistance in *stored-product* **insects.** 123555
The use of chemicals in processing and packaging of stored products to prevent infestation [by *stored-product* **insects**]. 123573
The use of infrared and microwave radiation for control of *stored-product* **insects.** 123575
Sensillum-like setae in the lumen of the spermathecal gland of Plodia interpunctella *[Stored-product* **insects**]. 123579
Quality characteristics of vacuum packaged beef as affected by postmortem chill, storage temperature, and *storage* **interval.** 116203
Storage of **irradiated** potatoes under artificially humidified conditions. 117254
Assessment of research at farm **level** *storage* [insect control] in Francophone Africa. 123522
Test of keeping quality: **long-term** *storage* of canned fish. 116093
Short and **long-term** *storage* of cereals. 117146
Storage of **maize** in an underground pit lined with polyethylene. 117075
[Insect] infestation problems in *farm-stored* **maize** in Nicaragua. 123577
Variation of nitrogenous fractions and of proteolytic enzymes in green, dried, cured and *stored* **malts.** 116687
Storage of **mammalian** oocytes and embryos: a review. 118245
Renewal of treatment, *storage* and **marketing** units for food potatoes, and integration of automatic E 691 mix separators. 124672
New possibilities of fresh **meat** *storage* with a special paper preserving freshness. 116949
Poultry farming still awaiting the **National** *Storage* Program [Brazil]. 124599
Keeping quality of commercial butter **oil** *stored* at different storage temperatures. 116885
Effect of different handling methods on cooling rate and moisture loss of 'd'Anjou' **pears** *stored* in bins. 117265
Screening of some relatively safe insecticides for impregnation of gunny bags against *stored-grain* **pests.** 123512
A general survey of physical means for control of *storage* **pests.** 123518
Biological evaluation of Bromophos for the control of [insect] *storage* **pests.** 123523
Quality of winter rye seeds, obtained from lodged **plants,** during *storage.* 121573
The effect of defoliation on *storage* **potential** of bulbs of the onion (Allium cepa). 117217
B-vitamin retention in meat during *storage* and **preparation.** A review. 117015
Decomposition of organic acids during processing and *storage[of* a **processed** food product]. 116781
Apple slice impregnation with fruit juices *[Storage,* **processing**]. 117264
Investigation on the effectiveness of bromophos (Nexton) preparations on some *stored* **product** insects compared with malathion. 123508
Future needs and developments for control of *stored* **product** insects. 123533
Polymorphism in the adult of Callosobruchus maculatus—a possible process of evolution to *stored* **product** pest. 123548
Reproduction biology of Tyrophagus putrescentiae (Schr.) (Acarina: Acaridae) *[Stored* **product** mites]. 123552
The possible role of aeration in the control of *stored* **product** insects in warm climates. 123569
The toxicity of phosphine [a *stored* **product** fumigant] to insects. 123572
Sex pheromones in *stored* **product** insects. Possibilities of practical applications. 123587
Classification of meat products under the headings of very perishable products, perishable products and **products** that can be *stored.* 116108
The significance of pesticide residues [on *stored* **products**]. 116164
Problems of *stored* **products** entomology in Britain arising out of the import of tropical products [Insect pest control]. 123507
Economic incidence of principal insect pests of *stored* **products** in India. 123513
Genetic control of insecticide-resistance in *stored* **products** insects: prospects and preliminary investigation. 123534
Research on pesticides and future requirements for chemicals in the protection of *stored* **products** from insect. 123553
The control of *stored* **products** insects with pirimiphos-methyl [insecticide]. 123563
The importance of sympathy between technical aspects of control programmes and industrial circumstances [Insect pests of *stored* **products**]. 123568
The use of chemicals in processing and packaging of *stored* **products** to prevent infestation [by stored-product insects]. 123573
Guidelines for the passive removal of insect pests in *stored* **products.** 123581
Some aspects governing the use of pesticides on *stored* **products** in Australia [Residues, legislation]. 123716
Studies on the effect of **prolonged** *storage* and antioxidant supplementation on nutritive value of rice polish [Poultry feed]. 118144
Ultrastructural changes in germinating Dicranum scoparium: a moss containing **protein** *storage* material [Musci]. 120435
The mechanism of synthesis of *storage* **proteins** in opaque-2 maize analogs. 120817
The storage behavior of ready-made cold meals in a regulated atmosphere. II. *Storage* in a **quiet** atmosphere. 116721
Rational *storage* of fodder straw for pelleting. 117342
Weight loss in **refrigerated** *storage* of broilers. 117040
Studies on ripening and **refrigerated** *storage* of the sapodilla (Achras sapota L.). 117244
Use of pirimiphos-methyl [organophosphorus insecticide] for the control of *stored* **rice** insect pests in southeast Asia. 123576
Threshed cereals in silos and *storage* **rooms.** 117149
Quality seed production, **seed** *storage* and packaging aspects. 115617
Snow/cache [forest tree] **seedling** *storage:* successful systems. 119638
The *storage* of **seeds** [Soybeans, sorghum]. 117208
Studies on the seed germination of Bupleurum falcatum L. II. Methods of hastening of germination and *storage* of the **seeds** [with low temperature treatment]. 121334
Invasion and penetration of consumer packages in **short-term** *storage* by stored-product insects. 123540
Embryonic development in rabbits after insemination with **spermatozoa** *stored* at 37, 5 or -196 degrees Centigrade for various periods. 118352
The *storage* **stability** of freeze-dried carrots. III. The content of carotene as affected by the addition of L-cysteine hydrochloride at various temperatures. 117295
Simple temperature regulation in fermentation and *storage* **tanks.** 116680
Effect of initial internal temperature and *storage* **temperature** on the microbial flora of vacuum packaged beef [Quality]. 116197
Quality characteristics of vacuum packaged beef as affected by postmortem chill, *storage* **temperature,** and storage interval. 116203
Effect of *storage* **temperature** on cell structure in post-harvested asparagus spears—light and electron microscopic study. 117284
Effects of salt solution treatment and low **temperature** *storage* on the elongation, weight, fiber and lignin contents of post-harvested green asparagus spears. 117285
Keeping quality of commercial butter oil stored at different *storage* **temperatures.** 116885
Storage **tests** on pre-packed beef in controlled gas atmospheres of high carbon dioxide content with oxygen largely excluded. 116996
Studies on the effect of *storage* **time** and conditions on physical characteristics of some powdered pesticides. 123689
Insecticidal value of phosphine in the control of *stored* **tobacco** insect pests [Ephestia elutella, Lasioderma serricorne]. 123537
Studies on the improved utilization of cooperative elevators for rice drying and *storage* in the **Tohoku** district. 117086
The *storage* and **transport** of fruits and vegetables. 117310
Tests on the meat quality of hares as a function of **treatment** and *storage.* 116135
Glassiness of apples [on the **tree** and in *storage].* 122930
Test water loss from [Christmas] **trees** in *storage.* 119648
Chemical intervention on all stages and on all scales of **tropical** *storage* practice [Insect pest control]. 123525
Lasioderma serricorne F. As a major pest of *stored* **turmeric.** 123510
Notes on principles of forest management covering the catchment areas of drinking **water** *storage* reservoirs. 119514
Degradation of bromophos in *stored* **wheat** [Insecticide residues]. 116161
Studies on the assessment of losses of *[stored]* **wheat** in Punjab [Damages caused by diseases]. 122917
Species of insects attacking different types of *stored* **wheat** and their control. 123557
Mechanized round **wood** *stores.* 119665

STORMS

Plant association and costs of cultivation of pine [Pinus]. Economic considerations on reafforestation of *storm-damaged* **areas** in Lower Saxony. I. 119591

STRAIGHTBRED *see* BREEDING

STRAIN

Brucella **abortus** *strain* 19 calfhood vaccination —a review. 118949
Cytopathic effect of tissue culture **adapted** *strain* of rinderpest virus in different cell systems. 118729
Study of ringerpest virus (tissue culture **adapted** *strain)* with reference to its infectivity and plaque formation in different cell system. 118739
The **aggressive** *strain* of Ceratocystis ulmi in the Netherlands [Ulmus, Dutch elm diseases]. 122683
On the regulation of the uptake of aminoacids, sugars and organic acids by Euglena gracilis, *strain* Z [**Algae**]. 121383
Uptake of pyrimidines by Euglena gracilis, *strain* Z [**Algae**]. 121388
Strain 13 of **Alternaria** brassicicola [Fungi]—a producer of estrogenic substances of a lipidic nature [Effect of hens and mice]. 118277
Antigenic analysis and immunologic studies on the uterotropic **bacterial** *strains* SH6 and O1 isolated from cows that have miscarried. 118973
Estrogenic effect [studied on laboratory animals] of the lipid fraction of the fungus Alternaria **brassicicola** *strain* 13 mycelium. 118276
Inoculation experiments with Bordetella **bronchiseptica** *strains* in SPF [specific pathogen free] pigs. 118861
Methods of testing the aggressiveness of different *strains* of a **causal** agent of apple scab, Venturia inaequalis (Cke.) Wint. 122654
Effect of nisin [an antibiotic, produced by **certain** *strains* of Streptococcus lactis] on the germination and proliferation of spores of some aerobic spore-formers in nutrient medium [Food processing]. 116844

Effect of nisin [an antibiotic produced by **certain** *strains* of the common dairy organisms Streptococcus lactis] on heat resistance and gas production of some spore-formers. 116927
Clinical blackleg [of cattle] associated with Arizona wild type (AWT) *strain* of **Clostridium** carnis. 119047
Influence of a **colicinogenic** *strain,* given perorally, on the occurence of various plasmids of Escherichia coli in piglets fed by flavomycin. 118678
Occurrence of *strains* of **Colletotrichum** coffeanum [the causal fungus of coffee berry disease] resistant to methyl benzimidazol-2-ylcarbamate (carbendazim) and chemically-similar compounds. 122565
Evaluation of **cotton** *strains* and varieties for field resistance to Verticillium [albo-atrum] wilt. 122663
A genetic map for the **cowpea** *strain* of TMV [tobacco mosaic virus]. 122871
Environmental demands, morphological variation and **eco-geographical** *strain* formation of spruce [Picea]. 119590
Studies of field populations of Rhizovbium [trifolii]: relationships between *strain* **effectiveness,** soil nitrogen levels, and response to applied nitrogen in subterranean clover pastures in northeastern Victoria. 124803
Environmental conditions for acetoin production by yeast [Torulopsis colliculosa] & bacterial **[Enterbacter]** *strains.* 121135
The newly **evolved** *strains* in Ocimum. 120821
Serological studies of male and **female** *strains* of Eudorina elegans (Chlorophyceae) [Algae]. 121215
Evaluation of the lipolytic and proteolytic effects of *strains* of the **genus** Bacillus [obtained from frankfurter and liver sausages] under laboratory conditions. 116114
Reproductive performance and fertility testing in *Strain* 13 and **Hartley** guinea pigs. 118367
The constancy and similarity of the amounts of free amino acids in **inbred** *strains* of Drosophila [Drosophila subobscura, Drosophila melanogaster] and outbred Calliphora [erythrocephala]. 124052
Serologic differences between *strains* of **infectious** bronchitis virus from New Zealand, Australia, and the United States [Chickens]. 118640
Pseudomonas aeruginosa. III. Identification of *strains* **isolated** from blue foxes (Alopex lagopus) in a Danish fur farm. 118863
Investigations of swabs from prepuce and from nose of horses for presence of bacteria like Klebsiella. III. Serological investigations on **klebsiella** *strains.* 118649
Investigations of swabs from prepuce and from nose of horses for presence of bacteria like Klebsiella. II. Morphological and biochemical investigations on **klebskella** *strains.* 118650
Some biochemical studies on Listeria **monocytogenes** *strains* [isolated from adult sheep, lambs, fetuses, and ensilaged forage]. 118995
Comparisons of some properties of crystalline acid proteinases produced by the parent and **mutant** *strains* of Irpex lacteus Fr. [Fungi]. 120856
Variability of **natural** *strains* of muscardine fungi [Beauveria, Paecilomyces, pathogens of a pyralidid moth, pest of honey bees, biological control]. 124543
Strains of **Neurospora** [Fungi] collected from nature. 120010
Two-step selection for **obtaining** *strains* of rye resistant to lodging [Breeding, East Germany]. 120689
Permeability measurements on mitochondria from wild-type and **poky** *strains* of Neurospora crassa [Fungi]. 121162
Rat *strain* differences in cyclic-AMP [adenosine monophosphate] levels in liver and epididymal fat pad tissue as influenced by glucagon. 116438
Strain **rate** effects in similitude modelling of plastic deformation of [protection] structures subject to impact loading [Tractors]. 124741
Mortality and adaptive mechanism of Oryza perennis [wild **rice**] *strains.* 121454
Experimental infection of the nutria with **RN** *strain* of toxoplasma. 119026
Metabolism and growth yields in Bacteroides **ruminicola** *strain* B14 [found in the rumen]. 117828
Production and solar energy utilization by two different *strains* of **ryegrass** [Lolium, calculation]. 121422
Study of phytotoxic properties of Pseudomonas putida, *strain* 2181 **[Soil-borne** bacteria]. 122802
On some problems concerning the production of a vaccine against Newcastle disease with the use of La **Sota** *strain.* 118988
Streptococcosis in chickens. II. Cultural, morphologic, and biochemical studies of **Streptococcus** *strains.* 118996
The behaviour of insects in the presence of insecticides: the effect of fenitrothion and malathion on resistant and **susceptible** *strains* of Tribolium castaneum Herbst. 123561
Preliminary studies on the RNA components of **three** *strains* of cucumber mosaic virus. 122854
A study of nucleotide sequence homology between *strains* of **tobacco** mosaic virus. 122873
Aldehyde oxidase activity in the **tumorous-head** *strain* of Drosophila melanogaster. 123874
Carcass yield in **two** *strains* in chickens for meat production. 117055
Anther and pollen infection in relation to the pollen and seed transmissibility of **two** *strains* of barley stripe mosaic virus in barley. 122826
Changes in the soluble protein constitution of cucumber cotyledons following infection with **two** *strains* of cucumber mosaic virus. 122852
Note on the use of glycerine in the preservation of the C.v.S. rabies **virus** *strain.* 118909
Metabolic control of microconidiogenesis in the **wild** *strain* of Neurospora crassa. 121311
Genetic analysis of resistance factors in a **wild** *strain* of the house fly (Musca domestica) resistant to DDT and some organophosphorous insecticides. 123675
Work output and the **worker's** *strain* in cutting pulpwood for slide-boom loading. 119658

STRAMONIUM

Sesquiterpenoid stress compounds of **Datura** *stramonium:* biosynthesis of the three major metabolites from (1,2-13C[carbon isotope]) acetate and X-ray structure of 3-hydroxylubimin. 121009

STRAND

Killer of Saccharomyces cerevisiae: a *double-stranded* **ribonucleic** acid plasmid [Yeasts, genetics]. 120585
Chromosomal genes essential for replication of a *double-stranded* **RNA** plasmid of Saccharomyces cerevisiae: the killer character of yeast. 120773

STRATEGY

Domestic consumption of **beer** *strategy* [West Germany]. 115574
Stem-borer [Sesamia botanephaga] ecology and *strategy* for **control** [Stemborer of maize in West African areas]. 123276
Environmental policy and multinational **corporate** *strategy.* 115922
Strategy for the **future**—based on the past [Poultry industry]. 115819
Hedging. 3. **Selective** *strategy* looks best [Cattle, marketing]. 115622

STRATIFICATION

Contribution to the investigation of citrus sampling. II. Problem of the *stratification* of a **mandarin** orange. 122301
Combinations of spores and pollen from tertiary sedimentary deposits of the **Oktemberian** *stratum.* 120062
The *stratigraphic* **setting** of early angiosperm pollen. 120180
The *stratified* **structure** of forest soils in the variegated sandstone area of East Thuringia. 124916

STRAW

Straw **alcohol,** an idea in fermentation. 117087
Response of some parameters of metabolism in dairy cows to **ammonified** *straw* pellet feed. 118121
Studies with **ammonized** *straw* pellets used as sole basal diet in the feeding of ruminants. 2. Studies on processes of ruminal fermentation in relation to milk composition and the milk yields of cows. 118005
Effects of fertilizer nitrogen and number of years in tillage on the protein content of feeding **barley** *straw* (cv. [Cultivar] Nessa) and on N uptake and recovery. 125016
What is "achieved" by **burning** *straw?* [Cereal diseases, control]. 123012
Studies on the characterization of straw pellets. 10. Methodological studies on the in vitro investigation of different kinds of *straw* **[Cattle,** sheep]. 118003
Studies with dairy cows investigating the dietary effect of mixtures of compressed straw + concentrates prepared from crude and NaOH [sodium hydroxide] treated **cereal** *straw.* 1. Digestibility and milk production. 118006
Studies with dairy cows investigating the dietary effect of compressed straw + concentrates prepared from crude and NaoH [sodium hydroxide] treated **cereal** *straw.* 2. Composition of ruminal fluid and protozoa population. 118007
Studies with dairy cows investigating the dietary effect of mixtures of **compressed** *straw* + concentrates prepared from crude and NaOH [sodium hydroxide] treated cereal straw. 1. Digestibility and milk production. 118006
Studies with dairy cows investigating the dietary effect of **compressed** *straw* + concentrates prepared from crude and NaoH [sodium hydroxide] treated cereal straw. 2. Composition of ruminal fluid and protozoa population. 118007
Feeding *straw* and molasses to dairy cattle. 118018
High quality by the application of *straw* **fertilizers** through adequate distribution equipment and proper introduction. 124983
Mechanized removal of *straw* from the **fields.** 124717
Rational storage of **fodder** *straw* for pelleting. 117342
Straw—the **food** of tomorrow [Feed for cattle]. 117335
Straw—the **food** of tomorrow [Feed for cattle]. 117336
Feeding **grass** *straws* to cattle and horses. 118060
Plowing under *straw* for **growing** sugarbeets on Meadow-Sierozem soils in Kirghizia. 125010
Experiences from the use of the K 453 high-pressure press in the recovery of *straw* in 1975 on the **Hadmersleben** State Farm of crop production. 124670
Effect of fertilization with *straw* of **light** soil on its content of basic nutrients. 125070
Tackifiers for *straw* **mulch.** 125092
A study on *straw* **mushroom** cultivation with waste compost of common mushroom. 125021
Straw, an **ofter** underrated raw material. 117363
Cost efficiency in gathering and **pelleting** *straw* for livestock feed [East Germany]. 115511
Use of *straw* **pellets** and poultry manure for feeding cattle [Costs, East Germany]. 115513
Studies on the characterization of *straw* **pellets.** 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Studies on the characterization of *straw* **pellets.** 10. Methodological studies on the in vitro investigation of different kinds of straw [Cattle, sheep]. 118003
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] urea straw pellets, 32P [phosphorus isotope] **phosphat** *straw* pellets or 3H [hydrogen isotope] straw pellets. 117326
Procedures for field handling of bovine semen in **plastic** *straws.* 118287
Straw, a **possible** solution for the lack of forage [Dairy cattle]. 118107
Effects of *straw* **residues** [toxicity] on the growth of cereals. 122891
Effect of the dominant charcter of **short** *straw* on some quantitative characters of winter rye. 120662
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] **urea** *straw* pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Investigation on [pesticide] residues in **wheat** *straw,* glumes and grain after chemical control of Eurygaster integriceps. 116051

STRAWBERRIES

Electrical measurement of feeding by the *strawberry* **aphid** [chaetosiphon fragaefolii] on susceptible and resistant strawberries and nonhost plants. 123368
Quality maintenance of **California** *strawberries* exported to Far Eastern markets. 115710
Euparen and benlate, fungicides for the control of gray mold (Botrytis **cinerea** Pers.) in *strawberries.* 122623
Frost tolerance in *strawberry* **cultivars.** 121672
Strawberry **culture** in Torino Province. 122317
Varietal problems of *strawberry* **culture.** 122320
Experiences of soil disinfection in *strawberry* **culture.** 122984
Strawberry: **Fragaria** ananassa (Rosaceae). 122378
Shoot tip culture of *strawberry* **Fragaria** chiloensis Duch. Var. mananassa Bailey. 122395
Influence of soil mulching on *strawberries* **(Fragaria** species). 125042
Field trials of fungicides to control red core [Phytophthora **fragariae]** of *strawberries.* 122563
Pollination service [with Apis mellifera] in *strawberry* **growing.** 124514
Prerequisites for developing methods of mechanical **harvesting** of *strawberries.* 115467
Fruit ripening **investigations** on *strawberry.* 122409
Investigation of the way generally used in the manual harvesting of *strawberries* **[Labor** productive capacity]. 115464
Do *strawberries* **like** it rough ? [Cultivation]. 122329
Strawberry **mite** [Tarsonemus pallidus]. 123363
Evaluation of *strawberry* **parent** clones for easy calyx removal [Heritability]. 120766
Importance and problems of **Piedmont** *strawberry* culture in the national surroundings. 122307
Regeneration of *strawberry* **plants** from tissue cultures. 121631
Observation of root growth of *strawberry* **plants** grown on black film-covered and uncovered soil. 121732
Mechanical harvesting of *strawberries:* **present** state and prospects. 124679
Aircraft transportation of *strawberries* **[Preservation].** 115673
Degerneration and qualification of material for **propagating** *strawberries* [Resistance to fungus, virus and nematode diseases]. 122929
Strawberry: **prospects** of commercial cultivation in the Nilgiris. II. 122445
Small fruits in Iowa *[Strawberries,* **raspberries,** introductions]. 122338
Small fruits for the small gardens *[Strawberries,* **raspberries,** blueberries]. 122342
Refrigeration of fruit with particular **regard** to *strawberries.* 117257
Proposal of a system of plant **renewal** of *strawberries.* 115469
Electrical measurement of feeding by the strawberry aphid [chaetosiphon fragaefolii] on susceptible and **resistant** *strawberries* and nonhost plants. 123368
Stimulation of sporulation of Phytophthora fragariae [red **stele** of *strawberries].* 122666
Modern aspects of **technical** *strawberry* culture. 122311
Strawberry **tissue** culture. 122331
Observations on Litomastix aretas, an encyrtid parasite of the *strawberry* **tortrix** moth. 123366
Adaptation and yield of *strawberry* **verieties** (Fragaria hibrida). 122457

STREAK

Electron microprobe analysis of particles in the insect vector of **maize** *streak* [Cicadulina mbila]. 123334

STREAM

Intermittent **arctic** *streams* and their influence on landforms. 125196
Lotic fauna of **Arna** *stream* at Solvig; an ecological study. 124092
Evaluation of the growth of shrub willows [Salix] from the point of view of the suitability for the biological stabilization of *stream* **banks.** 119372
Environmental impact of *stream* **channelization** [Floods, hurricanes, water quality]. 125575
Ecological role of Zelandopsyche ingens (Trichoptera: Oeconesidae) in a beech [Nothofagus solandri cliffortioides] **forest** *stream* ecosystem. 123825

The effects of various tertiary treatment nutrient removal schemes on periphyton communities in model **laboratory** *streams* [Water resources research]. 125194
Effect of a livestock wintering operation on a western **mountain** *stream* [Pollution]. 125570
Autotrophic production in Carnation Creek, a coastal **rainforest** *stream* on Vancouver Island, British Columbia [Algae, nitrate and phosphate concentrations]. 120376
Biological and chemical succession in Nahal Soreq: a freeflowing **wastewater** *stream*. 125494
The disappearance [forest trees] of four leaf leachates in a hard and soft **water** *stream* in southwestern Ontario, Canada. 121817
Autumnal processing of dissolved organic matter in a small **woodland** *stream* ecosystem [Leaf litter]. 120344

STREAMBANKS
Streambank **stabilization** with willows [Salix, erosion control]. 125090

STREPSIPTERA
Elenchus tenuicornis (Kirby, 1815) *(Strepsiptera,* **Elenchidae**) new to Norway. 124366

STREPTOCOCCUS
Effects of nutritional characteristics of *Streptococcus* **agalactiae** on inhibition of growth by lactoperoxidase-thiocyanate-hydrogen peroxide in chemically defined culture medium. 118798
Aminosidine [antibiotic] in the treatment of bovine mastitis [Staphylococcus aureus, *Streptococcus* **agalactiae**]. 118920
Enterococci in **cream** and butter [Contamination]. 116263
Esculin hydrolysis by *Streptococcus* **dysgalactiae** [Mastitis control]. 118600
A study of the comparative values of coliform and **faecal** *streptococci* as presumptive pollution indicator in rural drinking water. 125479
Effect of nisin [an antibiotic, produced by certain strains of *Streptococcus* **lactis**] on the germination and proliferation of spores of some aerobic spore-formers in nutrient medium [Food processing]. 116844
Effect of nisin [antibiotic produced by *Streptococcus* **lactis**] in the presence of L-alanine on the germination and outgrowth of Bacillus sublitis spores [used in the food and dairy industry]. 116845
Effect of nisin [antibiotic produced by *Streptococcus* **lactis**] on reducing the thermal process in commercially sterilized milk. 116929
Studies on *enterococci* in **milk** [Contamination]. 116265
Glucose metabolism of **orange-colored** *Streptococcus* bovis [isolated from bovine rumen]. 117811
Effect of nisin [an antibiotic produced by certain strains of the common dairy **organisms** *Streptococcus* lactis] on heat resistance and gas production of some spore-formers. 116927
Streptococcosis in chickens. II. Cultural, morphologic, and biochemical studies of *Streptococcus* **strains**. 118996

STREPTOMYCES
The role of the genome in secondary biosynthesis in *Streptomyces* **aureofaciens** [Fungi]. 120734
Approaches to the study of differentiation in *Streptomyces* **coelicolor** A3(2) [Fungi, mutants]. 120720
Interactions of the plasmid SCP1 with the chromosome of *Streptomyces* **coelicolor** A3(2) [Fungi]. 120726
Progressive fertilization in *Streptomyces* **coelicolor** [Fungi]. 120729
Suppressor-sensitive mutations of *Streptomyces* **coelicolor** A3(2) and actinophage phiC31 [Fungi]. 120732
Co-mutation in *Streptomyces* [**Fungi**]. 120722
Effectiveness and limits of using microorganisms in plant protection as exemplified by the common potato scab *[Streptomyces* **scabies**]. 122693
Sugar factory waste lime and potato scab *[Streptomyces* **scabies**]. 122800

STREPTOMYCIN
Effect of addition of phthalylsulfathiazole to *streptomycin* and **bentonite** in the treatment of diarrhea in newborn calves. 119013

STREPTOTRICOSIS
Bovine *streptothricosis* in Nigeria [caused by Dermatophilus congolensis]. 118699
The economic effects of **bovine** *streptothricosis* [Dermatophilus congolensis]. 118714
Anatomical location of Dermatophilus congolensis in bovine **cutaneous** *streptothricosis*. 118698
Cutaneous *streptothricosis* in Sudanese cattle [caused by Dermatophilus congolensis]. 118701
Cutaneous *streptothricosis* (dermatophilosis) of cattle in Israel. 118702
Economic aspects of *streptothricosis* in **livestock** in East Africa. 118709

STRESS
Need for a new **approach** *stressed* at Great Plains windbreak symposium [Erosion control]. 125165
Ultrastructure of *stressed* **bovine** muscle. 117891
Development and effect of parasitic crop rotation damages under *stress* **conditons** of long term cereal rotations. 122996
Studies into acid-base balance of blood and muscular pH [hydrogen-ion concentration] of swine exposed to **consecutive** *stress*. 119175
Lamb health linked to **feedlot** *stress* elimination. 118451
For 1976-80 [new five-year plan], U.S.S.R. To *stress* **greater** productivity and quality [in pulp, paper and paperboard production]. 119800
Relations between **growth** *stresses* and tension wood in beech (Fungus sylvatica L.) [Wood properties]. 119681
Effect of partial amelioration of **heat** *stress* on feed and water intake and some blood constituents in buffalo bulls. 117745
Internal *stresses* within rolls of cellophane. 119817
An easy method of estimating the *stress-relaxation* **parameters** To and b [for quantitative evaluation of mechanical properties of the cell wall of higher plants]. 121318
The action of cyclic 3', 5'-adenosine monophosphate in the blood of swine during **physical** *stress*. 117524
Effects of **post-weaning** *stress* and feeding management on return to oestrus and reproductive traits during early pregnancy in swine. 117973
Effect of immediate **preslaughter** *stress* on certain meat quality characteristics of bacon pigs. 116934
Sesquiterpenoid *stress* compounds of Datura stramonium: biosynthesis of the three major metabolites from (1,2-13C[carbon isotope]) acetate and X-ray structure of 3-hydroxylubimin. 121009
In vitro studies of mitochondrial and sarcoplasmic reticulum function in muscle of *stress* **susceptible** pigs. 117770
Extended uses of the split wheel for measurement of **tangential** *stress* [Tillage machinery]. 124736
Effect of acute **temperature** *stress* on the plasma catecholamine, corticosterone and metabolite levels in the pigeon. 117638
Protein changes in response to **temperature** *stress* in papulaspora thermophila [Fungi]. 121288
Pathophysiological aspects relating to **transport** *stress* on swine. 4. Muscular activity to exhaustion. 119168
A nutritional shield against the arrows of *stress* [**Vitamins**, minerals, and other concentrated supplements]. 116528
The different behaviour of rainfed rice and irrigated rice under **water** *stress* conditions. 1. Study of the factors of adaptation to drought. 121872

STRIDULATION
Audiospectrographic analysis of *stridulatory* **signals** of some North American Corixidae (Hemiptera). 123817

STRIP
Mehler-type reagents in the enhancement of stomatal opening in **epidermal** *strips* [Commelina benghalensis, peas]. 121339
Strip mine **rehabilitation** problems and research in Wyoming [Reclamation, revegetation]. 125131
Effect of fast-growing [tree] species on the growth and condition of common oak [Quercus robur] in [shelterbelt] plantings created by a *strip* **type** of mixing on the soils of the Kamennaia Step'. 119411

STRONGYLIDAE
Investigations concerning bovine **gastro-intestinal** *strongyles* [Ostertagia]. II. Seasonal variations in the herbage infestation with infective larvae [Parasitic worms]. 118862
Survival of infectious larvae of **horse** *strongylid* nematodes in pasture grass; a preliminary field study. 118956

STRONGYLOIDES
Pelodera *strongyloides* dermatitis in a horse in Iowa. 119055

STRONGYLUS
Septic thrombosis in a foal [Damage from migrating larvae of *Strongylus* **vulgaris**]. 119056

STRONTIUM
Adsorption of *strontium* 90 [**isotope**] by krill [Zooplankton as possible source of food, radioactive contamination]. 116072
Effect of the concentration of *strontium* 90 [**isotope**] on the coefficients of radioactive strontium accumulation in wheat seedlings [Contamination]. 125374
Influx and distribution of calcium, magnesium and **radioactive** *strontium* [90 isotope] in wheat in relation to their content in the soils of the Armenian SSR. 122883
Effect of the concentration of strontium 90 [isotope] on the coefficients of **radioactive** *strontium* accumulation in wheat seedlings [Contamination]. 125374

STUBBLE
Importance of *stubble* **processing** in industrial crop production. 121924
Effect of *stubble* **residues** of fallow grown crops on the germination and development of winter rye. 121460

STUDENTS
50th state [Hawaii]: food **fun** for *students*. 116555
Introducing *students* to plants through their relations with man. 119913
Students, **start** your career in SCS [Soil Conservation Service] before you graduate. 124838
Success in *student* **teaching** of home economics as related to selected factors. 116588

STUMP
A sterilizing **tail** *stump* sperm defect in a Holstein-Friesian bull [Defective recessive genes, deep-freezing semen]. 119184
Development of *stump* **utilization** in Finland. 119810

STUMPAGE
Southern [Pinus] **pulpwood** *stumpage* prices analyzed, price zones identified. 119805

STUNT
Studies on the chemical changes induced by the infection of the rootknot nematode (Meloidogyne incognita) in tomato & eggplant & the *stunt* **nematode** (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951

STYRAX
Styrax **species** deserve more attention. 122343

STYRENE
Effect of dose rate on the radiation graft copolymerization of *styrene* to **cellulose** in the presence of acid. 119651

SUAEDA
Localization of chloride in leaf cells of the **halophyte** *Suaeda* maritima by silver precipitation. 121304

SUBCELLULAR *see* CELLS

SUBCUTANEOUS
Hypodermin-chlorophos to **control** *subcutaneous* gadflies in yaks. 123678
Increases in the thickness of *subcutaneous* **fat** in pigs [in relation to feeding and keeping conditions]. 117503
Administration of [the antibiotic] Chloramphenicol in cats. Serum concentrations after oral, *subcutaneous* and **intramuscular** application. 118647
Interstitial fluid oncotic pressures in **rabbit** *subcutaneous* tissue. 117539

SUBLETHAL *see* LETHAL

SUBMERGENCE
Heat resistance of Trichoderma lignorum Harz [Fungi] in *submerged* **culture**. 121274
Large-scale production of the fungal pathogen Hirsutella thompsonii in *submerged* **culture** and its formulation for application in the field [to control the citrus rust mite, Phyllocoptruta oleivora]. 123399
Effect of *submergence* on some **physiological** changes in rice seedlings. 121502

SUBSIDY
In search of gentlemen for poultry farming [Prices, *subsidies,* **Brazil**]. 115570
Tidal **energy** *subsidy* and standing crop production of Spartina alterniflora. 120350
Rural credit: the policy of **granting** *subsidies* [Brazil]. 115478
Subsidy to **rural** families via and Agricultural Treasury [Legislation, Colombia]. 115545
The economics of Bolivian self-sufficiency in wheat production [**Supply,** *subsidies].* 115757

SUBSISTENCE
The adoption and effects of high-yielding [dwarf] wheats on **unirrigated** *subsistence* holdings in Pakistan [Farm management, acreage]. 115379

SUBSOILING *see* SOILS

SUBSTITUTION
Plant growth retarding activity of the *4-substituted-7-(beta-D-ribofuranosyl)pyrrolo[2,3-d]pyrimidine* **anticytokinins** [on the germination of rice]. 121393
Prophylaxis of bovine grass tetany on the basis of final liquor of MgCl2 [magnesium chloride]. 4. The *magnesium-substituting* **effect** of MgCl2 final liquor in fertilization of single crops. 119171
Cacao butter and *substitute* **fats:** chemistry and analysis. 116704
Performance of pigs fed different levels of Saccharomyces yeast [Saccharomyces cerevisiae] *substituting* **fish** meal in molasses diets. 118046
Application of ursokoxalin and vitamin K3 *substitution* to **influence** relative prothrombin concentration in laying hybrids with Eimeria tenella infection. 118825
Substitution of **lysine** supplemented high protein wheat in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of **lysine** supplemented high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Possible uses of potato-tuber water as a *substitute* for **meat** water [Utilization of wastewater]. 125404

Milk *substitutes* [in calf rations]. 118112
Inoculum [Rhizobium bacteria]: a *substitute* for **nitrogen** fertilizer. 124982
Influence of a *substituted* **oxathiin,** a localized growth inhibitor, on the stem elongation, branching, and flowering of Chrysanthemum morifolium Ramat. 121709
Toward **petroleum** *substitutes* [Soybeans and silicon]. 117064
Rennets: use of *substitutes* for **precessing** cheeses. 116877
Rennets: Uses of *substitutes* for **processing** cheeses. 116878
Effect of **protein** *substitution* on nonenzymatic browning in an intermediate moisture food system. 116766
Substitution of **proteins** [in feed]. 118183
Substitution of **rapeseed** meal for soybean meal as a source of protein for lactating cows. 118040
Manufacture of rennet casein using **rennet** *substitutes.* 116909
Calf **rennet** *substitutes* [Higher plant, bacterial and fungal rennets, cheese]. 116916
Substitutes for **saccharose** and invert sugar as sweeteners for soft drinks. 116681
Voluntary effort as a **tax** *substitute* in the revenue-sharing allocation formula. 115455
Truffles and **truffle** *substitutes.* 116740
Mechanism of differential staining of *BUdR-substituted* **Vicia** faba [broadbeans] chromosomes. 120457

SUBSTRATE

Cell to *substratum* **adhesion-promoting** activity released by normal and virus-transformed cells in culture [Chicken, mouse, and rat fibroblasts]. 117799
Comparison of the attached algal communities of a natural and an **artificial** *substrate* [in Lake Mize, Florida]. 120377
Seasonal and diel changes in the positioning of Glossosoma nigrior Banks (Trichoptera: Glossosomatidae) on **artificial** *substrates.* 123862
Is there a danger of mycotoxins in Hungarian salami? I. The influence of *substrate,* **aw-value** and temperature on toxin production in mixed cultures. 116121
Influence of *substrates* and **coenzymes** on the role of manganous ion in reactions catalyzed by pig heart triphosphopyridine nucleotide-dependent isocitrate dehydrogenase. 117589
Relative response to **coloured** *substrates* by ovipositing black-flies (Diptera, Simuliidae). II. Oviposition by Simulium (Odagmia) ornatum Meigen. 123651
Artificial nutrient media for the growth of plants on the basis of ion exchangeable materials. 6. *Substrates* of **continuous** structure. 121586
Similarities between L-phenylalanine and m-fluorophenylalanine as *substrates* for **L-phenylalanine** ammonia-lyase [Oats]. 121529
Influence of *substrate* **moisture** level on the germination of sweetgum and sand pine seed [Liquidambar styraciflua, Pinus clausa]. 121830
Satiety: hypothalamic stimulation, anorectic drugs, and **neurochemical** *substrates* [Control of feeding]. 116374
Effect of **organic** *substrates* on slow germinating seeds of some forest trees and shrubs. 121811
An unusual method for culture of unicellular marine algae [on various **paper** *substrates].* 121198
Physical characters and availability of water in *substrates* **[Plants].** 120887
Care required in **preparing** *substrates* for container plants. 124976
Oxidized lipids-proteins browning reaction. II. Effect of the **protein** *substrate* [Fish oil rancidity]. 116256
Substrate **specificity** of intracellular acid RNAse from Aspergillus clavatus [Fungi]. 120947
Properties and *substrate* **specificity** of proteinase from buckwheat seeds. 121428
Substrate **specificity** of flavanone synthase from cell suspension cultures of parsley and structure of release products in vitro. 121602
Effects of light and *substrate* on the **sproulation** of Cercospora sojina Hara [Soybean fungus diseases]. 121344
Effects of *substrate* **type** and microtopography on establishment of a mixture of bryophytes [Bryophyta] from vegetative fragments. 120326

SUBSURFACE *see* SURFACE

SUBTERRANEAN

Studies of field populations of Rhizovbium [trifolii]: relationships between strain effectiveness, soil nitrogen levels, and response to applied nitrogen in *subterranean* **clover** pastures in northeastern Victoria. 124803
Effect of pelleting on the availability of phosphate in calcined C-grade rock phosphate from Christmas Island *[Subterranean* **clover].** 124994
A **new** *subterranean* aquatic beetle [Haideoporus texanus] from Texas (Coleoptera: Dytiscidae-Hydroporinae). 124213
A comparison of two techniques for determining abundance of *subterranean* **termites** in an Arizona desert grassland. 123991

SUBTROPICAL

The post-harvest handling of *subtropical* **fruit** [Bananas, mangos, avocados, litchi fruit]. 117232
Dermatophilus [congolensis] infection [of livestock] in the *subtropical* **zone** of South America. 118706

SUBUNITS *see* UNITS

SUBURBS

Apple trees in the *suburban* **forest** as hosts for insects and mites. 123403
Vegetation in the **southeastern** *suburbs,* Melbourne. 2. Native and introduced plant communities in a Mount Waverley reserve. 120401

SUCCINATE

The activity of *succinate* **dehydrogenase,** content of lipoids and protein in the mitochondria of winter wheat [Varieties]. 121497
Effect of **dilauryl** *succinate* on reproduction of the cock and hen and preventive effect of vitamin E. 118102
Histochemical studies on pigeon definitive feathers during post-hatching, induced and regenerative modes of development. IV. *Succinate* and **malate** dehydrogenases. 117874

SUCCINIC

Effect of *succinic* **acid** on the activity of adenosinetriphosphatase in germinating seeds of spring wheat. 121433
Effect of *succinic* **acid** on protein complexes in seeds [Mung beans]. 121615

SUCCULENTS

Morphological, anatomical and development studies of the flowers and fruits of *succulent* **Mesembryanthemaceae** genera: a contribution to their taxonomy. 120008
Progress in the culture of Cactaceae and *succulents* in 1976. 122406

SUCKERS

Residue levels of fatty compounds and surfactants as *suckering* **agents** on tobacco. 117070
Great Lakes fish cookery: recipes for underutilized fish species—alewife, burbot, **carp,** and *sucker.* 116323
Enteric bacteria in carp (Cyprinus carpio) and **white** *suckers* (Catostomus commersoni). 116194

SUCKING

Present methods of controlling warble flies [Oestridae] and *blood-sucking* **Diptera** in northern reindeer husbandry. 123631
Prospects of controlling warble flies [Oestridae] and *blood-sucking* **Diptera** in the north-eastern zone [Pests of reindeer]. 123632
Control of warble fies [Oestridae] and *blood-sucking* **insects** [Diptera] in the Magadan Region [Pests of reindeer]. 123630

SUCKLING

The effect on growth of feeding supplemental milk or baby food to the *suckling* **rat.** 116477
Feeding and drinking in *suckling* **rats.** 116358
Studies on skim milk replacements in the feeding of young pigs **whose** *suckling* period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on skim milk replacements in the feeding of young pigs **whose** *suckling* period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997

SUCRASE *see* INVERTASE

SUCROSE

Effect of cations and *saccharose* on the **activity** of photopohosphrylation and processes conjugated with it in chloroplasts of wheat varieties with different productivity. 121577
Utilization of sugar alcohol [using maltitol syrup instead of *sucrose]* in **Angel** cake. 116473
Effect of flower age on *sucrose* **content** in nectar of citrus. 121666
Food intake and taste peferences for glucose and *sucrose* **decrease** after intestinal bypass surgery. 116359
Use of *sucrose-glycerol* **density** gradients in the preparation of living cells for high-resolution complementary freeze-fractured specimens [Tobacco]. 120560
Use of plant growth regulators in Hawaii for *sucrose* **enhancement** in sugarcane. 121523
Purification of *sucrose* **esters** by selective adsorption. 116771
Substitutes for *saccharose* and **invert** sugar as sweeteners for soft drinks. 116681
Heat resistance of ascospores of the genus Byssochlamys [Fungi]. Dependence of *saccharose* and **malic** acid in apple juice. 116023
New potential product from *sucrose* **micobial** gum [Xanthomonas manihotis]. 117187
Effect of *sucrose* on **response** of cut carnation [Dianthus caryophyllus] to kinetin, ethylene, and abscisic acid. 121702
Liquid **sugar** *[Saccharose].* 116653

SUCTION

Nitrous oxide concentration in lysimeters and the effect of **soil** *suction.* 124875

SUDANGRASS

Producing hybrid seeds in sorghum for grains and sorghum X **herb** *sudangrass.* 120792

SUGAR

Utilization of *sugar* **alcohol** [using maltitol syrup instead of sucrose] in Angel cake. 116473
Pigment degradation in discs of the thermophilic Cucumis sativus [cucumber] as affected by light, temperature, *sugar* **application** and inhibitors. 121751
Phenotypic variations in Fossombronia himalayensis Kash [hepaticae] in vitro-effect of *sugars,* **auxins,** growth substances and growth inhibitors. 121188
U.K. **Boosting** *sugar* output as consumption decreases. 115667
Effect of inhibition of flowering on improvement of *[sugar]* **cane** yield and juice quality under Coimbatore conditions. 122021
Transport of *sugars* in **chick** embryo fibroblasts. Evidence for a low-affinity system and a high-affinity system for glucose transport. 117587
Comparative *sugar* determination [in food] using gas chromatographic, enzymatic and reductometrical methods. 116705
Sugar **content** and climate [Sugarbeets]. 117073
Effect of pre- and postsowing rolling of sugarbeet fields on the yield and *sugar* **content** of the roots in the conditions of the Armenian SSR. 121976
Studies on the effect of Gesatop 50 [simazine] on some apple clones.II. Quantitative changes in dry matter and *sugar* **content** in leaves of apple clones A2, MM104, MM106 and MM111. 123193
Effect of different methods of applying microelements on the yield and *sugar* **content** of sugarbeets. 125007
Molecular structure of *sugars* and their **effectiveness** in stimulating insects [Phormia, Apis mellifera]. 124101
Estimate of West **European** *sugar* beet acreages 1976. 115778
European *sugar* beet growers express concern over possibility of increased HFCS [high fructose corn syrup] production]. 117105
Organisation of *sugar* **exporting** countries. 115745
Sugar **factory** waste lime and potato scab [Streptomyces scabies]. 122800
The hydrothermal degradation of cellulosic matter to *sugars* and their **fermentative** conversion to protein [Candida utilis, yeasts]. 121158
The role of *sugars* in the **formation** of frost resistance [Winter wheat]. 121561
Government accused of leaving the *sugar* **industry** in the lurch [Prices]. 115743
Sugar **industry** cannot run with changing rules and a hit or miss government policy. 115997
Substitutes for saccharose and **invert** *sugar* as sweeteners for soft drinks. 116681
Liquid *sugar* [Saccharose]. 116653
Sugar **maple** [Acer saccharum]: tree and bole weights, volumes, centers of gravity, and logging residue. 119835
Decay risk for *sugar* **maple** borer [Glycobius speciosus] scars [Acer saccharum]. 123477
USA has had no regrets at pursuing open **market** *sugar* policy. 115744
Samples for **measuring** *sugar* content of sugarcane varieties in mechinically harvested trials. 122016
Automated determination of chloride and phosphate in cane juice, **molasses** and *sugar.* 117184
Direct determination of trace metals in cane juice, *sugar* & **molasses** by atomic absorption spectrophotometry. 117185
Neutral *sugar,* uronic acid, cellulose, and protein content of cell walls isolated from gametophytes of the liverworts Lophocolea heterophylla and Conocephalum conicum. 121187
New *sugar* crisis ahead? Development perspectives of the world sugar economy in 1976/77. 115837
On the regulation of the uptake of aminoacids, *sugars* and **organic** acids by Euglena gracilis, strain Z [Algae]. 121383
Biosynthesis of polyprenol **phosphate** *sugars* by Ceratitis capitata extracts. 123911
Industrial molasses: production, consumption, and **prices** *[Sugar].* 115766
Assets engaged and rentability in the development of wheat, corn and *sugar-beet* **production.** 115499
Sugarbeets in the Duero area: *sugar* **production** and national needs [Economic aspects]. 115805
It's the next fifty years that will be the most challenging *[Sugar* **production].** 115996
Reserves for to increase effectivity in *sugar* **production.** 117104
The evaluation of **raw** *sugar* quality. 116173
Raw *sugar* and B [vitamin] complex for laying hens. 118047
Marketing spreads for **refined** *sugar.* 115767
Prospects in the utilization of fluid bed in the drying and cooling of **refined** *sugar.* 117111
Reactions between amino acids and *sugars:* **research** on the formation of basic products. 116818
Transport interactions among *sugars* in **Rhodotorula** glutinis [Yeasts]. 121387
Another step forward: *sugar* from **sorghum.** 117060
Start of the **Soviet** *sugar* beet [marketing] campaign 1976/77. 115613
Non-sugars of **sugarcane.** 117113
The peripheral inhibition of the **tarsal** *sugar* receptor by sodium chloride in the proboscis extension response of the blowfly, Phormia regina M. 124034
Pre-requisites of an efficient evaporator performance *[Sugar* **technology].** 117114
The **Thai** *sugar* story. 117183
Factory trial of a newly-developed continuous carbonation process for making plantation **white** *sugar* from cane juice. 117186
Important investments in the **world** *sugar* industry in recent years. 115554

Third estimate of **world** *sugar* balance 1974/75 (1000 metric tons, raw value) [Production, statistics]. 115614
Third estimate of **world** *sugar* balance 1975/76. 115615
New sugar crisis ahead? Development perspectives of the **world** *sugar* economy in 1976/77. 115837
The state of **world** *sugar* in 1974 [Statistics]. 116002

SUGARBEETS
The number of *sugarbeets* per **acre.** 121880
Irrigation of *sugarbeets* in various **agroclimatic** zones. 125246
Removal of nutrients with the yield of crops [cereals, *sugarbeets,* **alfalfa**] on irrigated Dark-Chestnut soils. 121405
Application of fertilizers in *sugarbeets* in the **Armenian** SSR. 125005
Effect of fertilizers and irrigation on the water and nutrient condition of soil, water consumption and productivity of *sugarbeets* in **Bashkiria.** 124924
Preliminary results of evaluating some physiological and biochemical characters in the process of **breeding** *sugarbeets.* 121481
Effect of different levels, ratio of inorganic fertilizers and irrigation regimes on the productivity and technological **characters** of *sugarbeets.* 125006
Resistance of *sugarbeets* to **clamp** rot in the early stage of the root growth. 122783
Sugar content and **climate** *[Sugarbeets].* 117073
Sowing **coated** *sugarbeet* seeds in Kirghizia. 121985
Effectiveness of combining presowing soil tillage and the sowing of *sugarbeets* in the **conditions** of irrigation in Kirghizia. 121977
Irrigation regime of and application of fertilizers in *sugarbeets* in the **conditions** of the Middle Volga River area. 125247
Effect of different methods of applying microelements on the yield and sugar **content** of *sugarbeets.* 125007
Alteration of the fertility of light Chestnut soil and the productivity of *sugarbeets* in a **crop** rotation and in continuous growing in relation to the system of fertilizer application. 121971
The place of *sugarbeets* in a **crop** rotation and the depth of plowing in the conditions of irrigation in the southern part of the Ukraine. 121986
A predictive nitrogen fertilizer budget for a better **crop** of *sugarbeets.* 125039
Consumption of water by, and the productivity of, *sugarbeets* in a **crop** rotation [under irrigation]. 125242
Conditions for mechanization in cultivation of *sugarbeet* **crops.** 124715
Work mechanization in the **cultivation** of *sugarbeet.* 124721
Sugarbeet **[Culture,** weed control, diseases, pests]. 122032
Problem of development of [irrigated] *sugarbeet* **culture** in the zone of the Konstantinovskoe Reservoir. 125248
Contribution to the study of new means of controlling the dominant insect pests in *sugarbeet* **cultures** [Myzus persicae]. 123350
Sugarbeets in the **Duero** area: sugar production and national needs [Economic aspects]. 115805
Calibration of the available soil phosphorus values measured by the Olsen et. al. and Bray-Kurtz no. 1 methods with the phosphorus requirement of *sugarbeets* and **economic** analyses. 124908
Second estimate of **European** *sugarbeet* acerages 1976 (hectares). 121915
Effect of pre- and postsowing rolling of *sugarbeet* **fields** on the yield and sugar content of the roots in the conditions of the Armenian SSR. 121976
Stabilized dormancy in *sugarbeet* **fruits.** I. Seed coats as a physicochemical barrier to oxygen. 121437
Effect of continuous growing of *sugarbeets* and their **growing** in a crops rotation on the soil microflora in the conditions of irrigation. 121974
Growing *sugarbeets* in irrigated conditions of the Middle Volga River area. 121978
Peculiarities of practices of **growing** *sugarbeets* on irrigated lands in the southern part of Ukraine. 121981
Reduction of the number of interrow cultivations when **growing** *sugarbeets* in irrigated conditions in the southern part of Ukraine. 121984
Study of some agrotechnical problems of **growing** *sugarbeets* in the Armenian SSR. 122385
Effectiveness of herbicides when **growing** *sugarbeets* in Kirghizia. 123087
Plowing under straw for **growing** *sugarbeets* on Meadow-Sierozem soils in Kirghizia. 125010
Effect of ultrahigh frequency electromagnetic fields on the productivity of *sugarbeet* **hybrids** and their parental forms. 121475
Crop rotations with *sugarbeets* on **irrigated** lands in the southern part of Kazakhstan. 121973
Productivity of *sugarbeets* on **irrigated** lands as related to the planting density and interrow width. 121982
Productivity of different forms of *sugarbeets* on **irrigated** lands in the southern part of Ukraine. 121983
Application of fertilizers in *sugarbeets* on **irrigated** Sierozems in Kirghizia. 125004
Some economic bases for the development of **irrigated** *sugarbeet* culture in the USSR. 125249
Major and presowing soil tillage in crop rotations with *sugarbeets* in **Kirghizia.** 121980
A system of fertilizer application in a crop rotation with *sugarbeets* in **Kirghizia.** 125003
Sowing genetic **monogerm** *sugarbeet* seeds with SPC-6 machines. 124718
Effect of long-term application of inorganic fertilizers in a crop rotation with *sugarbeets* on the **nitrogenous** regime of Light-Chestnut soil in the southeastern part of the Kazakhstan. 124929
Sugarbeet **pests** and diseases in the Latvian SSR and measures for controlling them. 122948
Use of the match for wireworm control [Maize and *sugarbeet* **pests].** 123332
Results of small **plot** *sugarbeet* variety trials 1971-1973. 121908
Genic sterility of **pollen** in *sugarbeets.* 120828
Fungicide control of *sugarbeet* **powdery** mildew [Erysiphe betae]. 122769
Proposal of organization of feed production for hot-air drying in the maize and *sugarbeet* **production** areas. 117364
Effect of irrigation and application of fertilizers in *sugarbeets* on their **production** in the Altai Territory. 125243
Effect of irrigation regime and mineral nutrition on the yield of seeds [of *sugarbeets]* and their **productive** properties. 125244
Joint effect of irrigation, fertilizers and soil tillage on the **productivity** of *sugarbeets.* 121979
Effect of organic and inorganic fertilizers on the **productivity** of *sugarbeets.* 124934
Effects of high amounts of potassium fertilizers on the yield and **quality** of *sugarbeets.* 125082
Preparation of soils for *sugarbeets.* **Research** on the homogeneity of the cultural profile, preparation in flat tillage. 125106
Effect of methods of major soil tillage on the yield of crops in a **rotation** with *sugarbeets.* 121975
Use of low sowing rates of *sugarbeet* **seeds** on irrigated lands in Kirghizia. 121987
Studies on the influence of infection with mosaic (Beta virus 2) and yellows (Beta virus 4) on the yield quality of *sugarbeet* **seeds.** 122836
Feeding of *sugarbeet* top **silage** [Cattle]. 118024
Investigations into the cause of damage to *sugarbeet* by the **soil-applied** herbicide lenacil [Weed control]. 123064
Effectiveness of applying concentrated and compound fertilizers in *sugarbeets* in the **southern** part of Kazakhstan. 125009
Effectiveness of **sowing** *sugarbeets* under irrigation. 125245
Influence of peroxide and polyelectrolyte treatments on germination, seedling emergence and yield [Navy beans, **soybeans,** *sugarbeets].* 121545
Ways of improving the system of soil tillage in a crop rotation with *sugarbeets* and **specifically** for this crop in the conditions of irrigation. 121988
Crop rotations on irrigated lands and the placement of *sugarbeets* on them. 121972
Aspects of epidemics of yellowing and mosaic of *sugarbeets.* I. **Symptoms,** means of transmission, methods of identification, vectors [Virus diseases, insect vectors]. 122866
Transport and accumulation of di- and monosaccharides in *sugarbeet* **tissues.** 121581
Changing ways with *sugarbeet* in **United** Kingdom. 121879
Trials of commercial **varieties** of *sugarbeet.* 121889
The conditions of the mycelium of the pathogen Peronospora [schachtii] in the tissue of *sugarbeet* **varieties** differing in their resistance. 122784
Tetrazolium bromide and pollen viability of *sugarbeets* (Beta **vulgaris** L.). 121411
Sugarbeet: Beta **vulgaris** (Chenopodiaceae). 121963
Effect of different methods of main soil tillage on the alteration of its volumetric weight and the yield of farm crops **[Wheat,** *sugarbeets].* 125157
The influence of level of topping and other cultural factors on *sugarbeet* **yield** and quality. 1. 122017
The influence of level of topping and other cultural factors on *sugarbeet* **yield** and quality. 2. 122018
Effectiveness of application of fertilizers in *sugarbeets* in **zones** of irrigated farming. 125008

SUGARCANE
Effects of frost on *sugarcane* and the **behaviour** of frost-affected cane in the factory. 122961
Effects of rate of planting on yield and some yield **components** of *sugarcane.* 121891
Asulam [herbicide] for johnsongrass [Sorghum halepense] **control** in *sugarcane.* 123202
Stage III Sugarcane variety tests and the Florida **Cooperative** *Sugarcane* Breeding Program. 121876
Critical irrigation period in *sugarcane* **crop** under limited irrigation facilities. 125295
Use of plant growth regulators in Hawaii for sucrose **enhancement** in *sugarcane.* 121523
A chemical ripener for *sugarcane* **[Ethrel].** 121558
Outbreaks and partial phase transformation of Locusta micratoria L. in *sugarcane* **fields** of Minami- and Kita-Daito Zima, Okinawa. 123267
A cottony cushion scale [Pulvinaria elongata] of *sugarcane* **newly** introduced in Morocco (Homoptera, Coccoidea, Coccidae). 123351
Non-sugars of *sugarcane.* 117113
Development of Diatraea saccharalis (Lepidoptera: Pyralidae) at constant temperatures *[Sugarcane* **pests,** biological control with Lixophaga diatraeae]. 123305
Intermediate technology in the chemical industry [Developing countries, *sugarcane* **processing].** 117092
Implementation of field layout for mechanization [of *sugarcane* **production].** 124730
The recurring problem of smut [of *sugarcane]:* **recognising** it and basic control measures. 122776
Composition of soluble indigenous **saccharides** from *sugarcane.* 117117
Sugarcanes: **Saccharum** (Gramineae-Andropogoneae). 121964
Soil improvement and yield of *sugarcane* in the **Sudan** [Tillage, gypsum application]. 125135
Samples for measuring sugar content of *sugarcane* **varieties** in mechinically harvested trials. 122016
Response of some *sugarcane* **varieties** to different levels of N, P and K [nitrogen, phosphorus, potassium] in Punjab. 125013
Stage III *Sugarcane* **variety** tests and the Florida Cooperative Sugarcane Breeding Program. 121876
The 1975 *sugarcane* **variety** census for Florida. 121877
Fertilized kikuyugrass [Pennisetum clandestinum] pasture **vs** *sugarcane* strippings for backgrounding weaner calves. 118118
Assessment of losses caused by wilt disease [Cephalosporium sacchari] of *sugarcane* in **western** Uttar Pradesh. 122631

SULFATE
Elimination of p,p-DDT, p,p-dichlorodipenyldichloroethylene, p,p-tetrachlorodiphenylethane and gamma-bezene hexachloride from water with **aluminum** *sulfate* coagulation. 125370
A note on the effect of ethylene diamine tetraacetic acid and ferrous **ammonium** *sulphate* on yield of Allium cepa [Onions]. 121778
Winter leaching of nitrate from autumn-applied calcium nitrate, **ammonium** *sulphate,* urea and sulphur-coated urea in bare soil. 124834
Distribution of molecular weight of lignosulphonic acids in *sulphate* **cooking** of lignin. 119732
Nitrogen retention in men fed isolated soybean protein supplemented with L-methionine, D-methionine, N-acetyl-L-methionine, or **inorganic** *sulfate.* 116435
Fundamental studies on physiological and pharmacological actions of **L-ascorbate** *2-sulfate.* I. On the hypolipidemic effects [Rats]. 116456
Studies on bamboo [Dendrocalamus strictus] thiolognins *[Sulphate* **pulping** process]. 118328
Biosynthesis of **steroid** *sulfates* by the boar testes. 118221

SULFHYDRYL
Detection of an **essential** *sulfhydryl* group in [rabbit muscle] phosphoglycerate mutase with an affinity-labeling reagent. 117783
Immunochemical studies on pinguinain, a *sulfhydryl* **plant** protease [Bromelia pinguin]. 120901

SULFIDE
Reaction products of alpha-dicarbonyl compounds, aldehydes, **hydrogen** *sulfide,* and ammonia [Flavor compounds]. 116636
Studies on the oxidation of **organic** *sulphides* in kraft black liquor [Pollution control]. 125543

SULFITE
Sulphite reductase and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite forming wine yeasts [Saccharomyces, Candida]. Relationship to *sulphite* **accumulation** during fermentation. 120916
Some problems on *sulphite* and **bisulphite** cooking chemistry [Birch and spruce cellulose]. 119742
Sulfite **compounds** as neutralizers of spice toxicity for Salmonella [Food contamination]. 116207
Study of *sulphite* **cooking** kinetics of isolated lignin. 119746
The formation of **exchangeable** *sulphite* from adenosine 3'-phosphate 5'-sulphatophosphate in yeast [Saccharomyces cerevisiae]. 120926
Sulphite reductase and ATP [adenosine triphosphate] sulfurylase in low- and *high-sulphite* **forming** wine yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916
Oxygen bleaching of *sulphite* **pulps.** 119784
Sulphite **reductase** and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite forming wine yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916
Dissolution of glucomannan in two **staged** *sulphite* cooking of spruce wood. 119731

SULFONAMIDE
Thin-layer chromatography of *sulphonamides* and **possibilities** for their use in [veterinary] practice. 118525
The quantitative determination of ortho- **toluene** *sulfonamide* (o-TS) in saccharin by U. V. [Ultraviolet] spectrophotometry and by gas chromatography. 116712

SULFONE
Sulphonium **analogue** of lecithin in diatoms [Algae]. 121298
Utilization of L-methionine sulfoxide, **L-methionine** *sulfone* and cysteic acid by the weaning rat. 116443

SULFOXIDE
Utilization of **L-methionine** *sulfoxide,* L-methionine sulfone and cysteic acid by the weaning rat. 116443

SULFUR
Pyrolysis of some *sulfur-containing* **amino** acids at 850 degrees Centigrade. 116769

Nonvolatile nitrogen and *sulfur* **compounds** in red meats and their reltion to flavor and taste. 116931
Simultaneous detection of nitrogen and *sulfur* **containing** flavor volatiles. 116638
A new approach to *sulphur* **dioxide** analysis [Food preservative]. 116807
Vintage heating and the use of *sulfur* **dioxide.** 117313
Evaluation of the degree of damage to trees and shrubs by *sulphur* **dioxide** for [Air pollution resistance] breeding purposes. 122908
Laboratory measurement of SO2 *[sulfur* **dioxide]** deposition velocities on selected building materials and soils. 125387
Long-term mean concentrations of atmospheric smoke and *sulphur* **dioxide** in country areas of Emgland and Wales [Air pollution]. 125388
Turnover of *sulfur* **isotopes** in soils. 124798
Phenolic, *sulfur,* and **nitrogen** compounds in food flavors; a symposium sponsored by the Division of Agricultural and Food Chemistry at the 170th meeting of the American Chemical Society, Chicago, Ill., August 25-26, 1975. 116635
Mycological production of citric acid in India. IV. Role of *sulphur* and **phosphorus** compounds [Aspergillus niger]. 121361
Sulfur **supplementation** and in vitro digestion of forage cellulose by rumen microorganisms [Cattle]. 117771
Winter leaching of nitrate from autumn-applied calcium nitrate, ammonium sulphate, urea and *sulphur-coated* **urea** in bare soil. 124834
Volatile *sulfur* compounds contributing to meat flavour. I. Components identified in boiled meat. 117023
Determination of copper, iron, nickel, and *sulphur* by **X-ray** fluorescence in lichens from the Mackenzie Valley, Northwest Territories, and the Sudbury District, Ontario. 120979

SULFURIC

Effect of organic and inorganic fertilizers on the transformation of *sulfuric* **compounds** in winter wheat plants, yield and quality of grain. 121401

SULFURYLASE

Sulphite reductase and ATP [adenosine triphosphate] *sulfurylase* in **low-** and high-sulphite forming wine yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916

SUMMER

Germination ecology of Althenia filiformis Petit in relation to habitat temperature and salinity fluctuations during *summer* and **autumn.** 121072
Inheritance of some characters in crosses between inbred lines of Bombyx mori L. for commercial feeds during *summer* and **autumn** months. I. Cocoon, shell and pupal weights. 124530
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, yield amount, morphology and tissue structure of leaves in *summer* **barley** varieties. 122610
Effect of different simazine doses on the content of nitrogen fractions and the amino acid composition of proteins in *summer* **barley** grains. 123191
The **beautiful** *summer* flowers of the Kiskunsag National Park [Hungary]. 119996
Trees for *summer* **blooms.** 122273
Summer in **Brussels**—stocktaking on CAP [Common Agricultural Policy]. 115863
The significance of nitrogen nutrition to the seed yield and its relating characters of soybeans, with special reference to **cool** *summer* injury. 125064
Plant population in polyploid varieties of fodder-beet cultivated in the *summer-autumn* **cycle.** 122128
Weed competition in **drilled** *summer* cabbage. 123063
The Douglas fir tussock moth [Orgyia pseudotsugata] DDT application of the *summer* of 1974: **effects** of the DDT on non-target organisms and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
Ecological studies on the aquatic insect in the upper region of the Chikuma-river, Nagano Prefecture, Japan. I. Life cycle and growth state of the Ephemerella trispina group (Ephemeroptera: Ephemerellidae), and aquatic insect **fauna** in *summer.* 124357
Sorghum, a *summer* **forage** plant of interest for dry regions [Varieties]. 122169
Summer **marine** algae at Vero Beach, Florida. 120247
Summer **milk** production [Cows]. 117418
Summer **monarch** (Danaus plexippus) in southern Texas (Danaidae). 124324
Harvest a rich crop of *summer* **moong** [Legumes]. 121918
Come sun, come shine; a symposium on the *summer* of 1975—**one** of the driest and hottest on record [Rose varieties, Great Britain, Ireland]. 122470
A tentative energy budget for a *summer* **population** of Arion ater L. (Gastropoda: Pulmonata) [Fagus sylvatica, forest ecology]. 124856
Transpiration of snapdragon [Antirrhinum majus] under **southern** *summer* greenhouse conditions. 121684
Environmental studies and *summer* **typology** of the phytoplankton and phytobenthos [Algae] along the Tropea coast (Calabria). II. 120019

SUN

Scorching of grass [from *sun* **burning** through a thin ice cover]—What can we possibly do to reduce winter damage? 122986
Sun-shade **ecotypes** of a bluegreen alga [Plectonema notatum] in a hot spring. 121218
Come *sun,* come **shine;** a symposium on the summer of 1975—one of the driest and hottest on record [Rose varieties, Great Britain, Ireland]. 122470

SUNFLOWERS

A new disease observed in our country [Romania], **Alternaria** of *sunflower.* 122764
Prospects of **breeding** *sunflower* for early ripening. 120811
Flax and *sunflowers* **[Cultivars].** 121848
Genotypic environment and its role in increasing the **efficiency** of selection in *sunflower.* 120829
Sunflower, an **expanding** crop, and its fungus diseases [and Orobanche]. 2. 122721
Translocation of 14C [carbon isotope]-metabolites to the **head** in *sunflower.* 121509
Sunflowers: **Helianthus** (Compositae-Heliantheae). 121965
Relationship of plant population of the *sunflower* **(Helianthus** annuus L) to NP [nitrogen phosphorus] fertilization and irrigation time. 122132
Biochemical features of *sunflower* **heterotic** hybrids. 120694
Content of B complex vitamins in the parental forms of the seeds of maize and *sunflower* and in **hybrids** in relation to the combining ability of lines. 120699
Seed production in *sunflower* **hybrids** created on base of cytoplasmatic androsterility with restored pollen fertility. 120793
Resistance to Plasmopara helianthi, a new property of the *sunflower* **hybrids.** 122765
Gas-chromatography in sterol anlaysis. GLC-MS [gas liquid chromatography-mass spectrometry] of methoxy derivatives of sterols [Olive and *sunflower* **oils** were employed]. 117318
Fluorescence microscopy and related enzyme activity of *sunflower* **plants** infected by Plasmopara halstedii. 122703
Sunflower **power** can energize your family [Nutritive value]. 116534
Responses in linoleic acid content of milkfat from cows receiving different levels of **protected** *sunflower* seed supplement [Effects of feeding]. 118014
Results of breeding and seed growing **research** with *sunflower.* 120812
Study of some problems of the biology of the fungus Sclerotinia libertiana F. [Stem **rot,** *sunflowers].* 122778
Effects of a good pollination [Rape, **safflower,** *sunflowers].* 121556
Rheology and spinning of alkaline solutions of *sunflower* **seed** globulin and casein. 117154
Cuticular waxes [of Brassica and *sunflower* **seed]** and chromatography. 117178
A partially **self-compatible** *sunflower.* 120616
Influence of plant density on yield and some bioagronomic characters in tall and **short** *sunflower* varieties. 122122
Effect of different tillage practices on the biological activity of soil and the **yield** of *sunflower.* 122146

SUNSHINE

Development of plants in **filtered** *sunlight.* I. Spectral composition, light intensity and other experimental [greenhouse] conditions. 121693
Development ofplants in **filtered** *sunlight.* II. Effects off spectral composition, light intensity, daylength and red and far-red irradiations on long and short-day grasses. 123313
Length of development and survival of Hylobius abietis as influenced by silvicultural exposure to *sunlight* **[Picea** abies]. 123447

SUPELLA

The brown-banded cockroach *[Supella* **supellectillium]** spreads farther north [Germany, Denmark]. 123584

SUPERMARKET *see* MARKETS

SUPERNATANTS

Production of single-cell protein by the cultivation of yeast [Candida utilis] in anaerobic **digester** *supernatant* supplemented with carbohydrates. 116722

SUPERVISION

Accurate account and *supervision,* a **prerequisite** for the effective organization of the [farm] production process [East Germany]. 115403
Disinfection and hygiene in food processing and their *supervision* **as well** as an arrangement of hygiene plans. 116020

SUPPLEMENTS

Effect of oral contraceptives and vitamin B6 *supplements* on **alanine** and glycine metabolism. 116277
Studies on the effect of prolonged storage and **antioxidant** *supplementation* on nutritive value of rice polish [Poultry feed]. 118144
Supplement to the **aphid** fauna of Switzerland. II. (Homoptera, Aphididae). 124349
Ascorbate *supplements* in vitamin A deficiency. 116511
A nutritional shield against the arrows of stress [Vitamins, minerals, and other **concentrated** *supplements].* 116528
Water conditions in California, basic **data** *supplement.* 125191
Spirostrepidae (Myriapoda-Diplopoda) from French Guiana. Description of two new genera. *Supplements* to the **diagnosis** of South American type species. 124262
Food intake, **dietary** *supplements* and survival time of scorbutic guinea pigs. 116496
Know your **feed** *supplements* [Poultry]. 118145
Mineral quality from the viewpoint of the practitioner **[Feed** *supplements,* nutritive value, cattle]. 118161
Food *supplement* in winter [Apis mellifera]. 124568
Vitamin E *supplementation* and **glutathione** peroxidase activity [Rats]. 116543
Substitution of lysine supplemented high protein wheat in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of graded **lysine** *supplements* fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high protein wheat in protein feeds fed in rearing and during the laying period of hens. 6. Graded **lysine** *supplements* as affecting the content of crude nutrients in the carcasses of laying hens. 118009
The use of pasture for beef production. 3. Different protein sources for **molasses/urea** *supplementation* to bulls during the dry season. 118050
Spices and *supplements* for **scalded** sausage manufacture. 2. 116961
Responses in linoleic acid content of milkfat from cows receiving different levels of protected sunflower **seed** *supplement* [Effects of feeding]. 118014
Sulfur *supplementation* and in vitro digestion of forage cellulose by rumen microorganisms [Cattle]. 117771
Diagrammatic climate maps of the separate continents and the ecological climate classification of the earth; a *supplement* to **vegetation** studies. 115203
Influence of breed and level of **winter** *supplement* on forage intake of range cows [Hereford, Hereford X Holstein, Holstein]. 118093
Effect of zinc deficiency and varying **zinc** *supplements* on the rate of zinc absorption and zinc retention in dairy cows. 117984

SUPPRESSION

Microbial colonization of plant roots *[Suppressing* **beneficial** symbionts]. 122902
Chemical *suppression* of the symptoms of two virus diseases [of tobacco]. 122813
Phototaxis in Cryptomonas [Algae] sp. Under **condition** *suppressing* photosynthesis. 121321
Suppression of **glycoprotein** formation of Semliki forest, influenza, and avian sarcoma virus by tunicamycin. 118809
Suppressor-sensitive **mutations** of Streptomyces coelicolor A3(2) and actinophage phiC31 [Fungi]. 120732
Nonsense *suppressors* of Saccharomyces cerevisiae can be generated by mutation of the tyrosine tRNA anticodon. 120785
Suppressing **weeds** in sorghum. 123100

SURFACE

Surface **active** agent to increase effectiveness of surface penetration of ancymidol on hydrangea [Hydrangea macrophylla] and Easter Lily [Lilium longiflorum]. 121680
Effect of silicon on the growth, area size of leaves and **adsorbing** *surface* of plant roots [of cereals, soybeans and forage broadbeans]. 121402
Studies on the pollution of **apple** *orchard-surface* soils and its improvement in relation to inorganic spray residues. I. Arsenic injury to adsuki bean (Phaseolus angularis cv. "Takara"). 122916
Effects of *surface* **area** upon bacterial denitrification rates. 124867
LANDSAT inventory of *surface-mined* **areas** using extendible digital techniques [Remote sensing]. 115256
Batch *surface* sterilization of chironomid [Chironomus tentans] eggs. 123611
Stimulation of corneal differentiation by interaction between **cell** *surface* and extracellular matrix. II. Further studies on the nature and site of transfilter "induction" [Chick embryos]. 117648
Cell *surface* mannosyl transferase activity in the liver of embryonic chick: a mannose containing glycolipid as intermediate in glycoprotein synthesis. 117850
Interactions of vesicular stomatitis virus with murine **cell** *surface* antigens. 118804
Surface **characteristics** of American elm [Ulmus americana] clones for identification by scanning electron microscopy. 120462
Skylab investigation of the upwelling off the northwest coast of Africa *[Surface* **chlorophyll** concentration, Algae, remote sensing]. 120366
Surface **coating** of germina apertures of pollen and evolution of apertures [Oxalis rosa]. 120552
The canopy of a Scots pine [Pinus sylvestris] forest: description of a *surface* of **complex** roughness. 121786
Photogrammetric stand mapping with automated drawing and *surface* **computation** [Switzerland]. 119433
Replicas of **cut** *surfaces* of apples as an aid in estimating cell size and cell number. 120492
Subsurface and *surface* **drainage** of grass sport fields. 125153
Coating of wood pulps with *surface* **finishes** from the reel. 1. Process technology. 119667
The *surface* and **function** of the protein layer of Ascaris suum eggs. 118665
The influence of **leaf** *surface* roughness on the spreading of oil spray drops. 120407
Influence of buffers on pH [hydrogen-ion concentration] of cotton **leaf** *surface* and activity of a Heliothis nuclear polyhedrosis virus. 123318
Air and *surface* **measurements** of constituents of prescribed forest slash smoke. 119337
Involvement of bristle coat structures in *surface* **mengrane** formations and membrane interactions during coenocytotomic cleavage in caps of Acetabularia mediterranea [Algae]. 120481

Surface **mines** can be regenerated. 125095
Revegetation of land disturbed by *surface* **mining** in Colorado. 125130
More recent developments in the field of *surface* **modification** of fiberboard. 1. Pressed lamination. 119671
More recent developments in the field of *surface* **modification** of fiberboards. 2. Coating with liquid. 119672
Surface **modifications** for water management and salinity control in a nonirrigated area. 125356
Studies on the oviposition site of Sitophilus oryzae on wheat and effect of size and **outer** *surface.* 123293
The finishing of *surfaces* with **paper** and foils by using a covering process with heated rollers [Wood pulp]. 119675
Measurement of electric charge of **paper** *surfaces* in water. 119782
Surface active agent to increase effectiveness of *surface* **penetration** of ancymidol on hydrangea [Hydrangea macrophylla] and Easter Lily [Lilium longiflorum]. 121680
Oryzalin **preplant** *surface* applied for weed control in soybeans. 123141
Surface mine **reclamation** in the Mountain State [West Virginia]. 125166
Economic impacts of *surface* mine **reclamation** [Mathematical model, environmental pollution control, regulation]. 125522
Fertilization of forest areas and its effect on water quality of *surface* **runoff** waters and water sources. 124977
Quality and quantity of nonpoint pollution sources in **rural** *surface* water runoff on Oahu, Hawaii. 125567
Effect of different light periods on the **seed** *surface* of fenugreek [Trigonella foenum-graecum] during the maturation phase. 121338
Observation on the free formaldehyde dissolved into the liquid layer of the **skin** *surface* from resin finished fabrics. 2. [Cotton]. 116214
The **skin** *surface:* an environment of Dermatophilus congolensis [Fungal pathogen of mammals]. 118716
Estimating solar radiation on **sloping** *surfaces.* 124839
Evaluation of tillage and herbicides for grain **sorghum** *surface* residue management in an irrigated wheat-sorghum-fallow cropping sequence. 123754
The value of **specific** *surface* of arable soils in the Estonian SSR. 124906
The repair of the *surface* **structure** of animal cells [Chick embryos]. 117804
Cell wall formation in zoospores of Allomyces arbuscula [Fungus]. II. Development of *surface* **structure** of encysted haploid zoospores, rhizoids, and hyphae. 120411
Subsurface and **surface** drainage of grass sport fields. 125153
The effect of *surface* **treatments** on the migration of organotin stabilizer from polyvinyl chloride films to contacting liquid media [Food packaging]. 116711
Cracking in **veneered** *surfaces.* 1. Bases and findings with carrier panels made of wood pulps. 119668
Cracking in **veneered** *surfaces.* 2. Veneers on noncombustible carrier panels. 119669
Resources of *surface* **water** in the Novosibirsk Region (1973) [Development of a scheme of reclamation measures]. 125233
Effects of the use of pesticides in drinking water dam catchment areas on the quality of *surface* **waters.** 123703
Total resources of *surface* **waters** of the river Plonka catchment area [in relation to agricultural needs]. 125335
Legal protection of *subsurface* **waters** and the problem of wastes. 125571
Localization of mannan at the *surface* of **yeast** protoplasts by scanning electron microscopy [Saccharomyces cerevisiae, candida utilis]. 120912

SURFACTANT

Studies on frost hardiness in Chlorella ellipsoidea [Algae]. II. Effects of inhibitors of RNA and protein synthesis and *surfactants* on the **process** of hardening. 121325
Particle-bound phytochrome: differential pigment release by *surfactants,* **ribonuclease** and phospholipase C [Pumpkins]. 121756
Residue levels of fatty compounds and *surfactants* as **suckering** agents on tobacco. 117070

SURGERY

New contributions to **bovine** *surgery* in Spain with Weingart's apparatus. 118432
Food intake and taste peferences for glucose and sucrose decrease after intestinal **bypass** *surgery.* 116359
Surgery of the **canine** elbow joint (a brief clinical review). 118580
Surgery of the **canine** stifle joint (a brief clinical review). 118581
Traumatology in **dog** *surgery;* description of personal techniques. 118436
Repair of an acquired oral-nasal fistula in a **dog** *[Surgery].* 119119
New contributions to the treatment of coxofemoral luxation in **dogs** *[Surgery].* 118433
Non-surgical **embryo** transplant in cattle; an outline. 118447
Double intervention in the same cow with a cesarean and abdominal **hernia** *surgery.* 118533
Contributions to the phimosis technique by means of *surgical* **intervention** [Sterility]. 118430
Intrathoracic *surgery* in the horse with a pictorial guide to partial lobectomy. 118578
The appearance of degenerating dorsal columm tract in the clava and cuneate tubercle of the dog after *surgical* and **ischaemic** injury. 117693
Treatment of gastric dilatation-volvulus by gastric decompression and patient stabilization before **major** *surgery* [Dogs]. 119122
General principles of veterinary **oncologic** *surgery* [Treatment of cancer]. 118470
Modification in the methods of **preliminary** *surgical* anesthesia. 118431
Surgical **repair** of [canine] lateral shoulder luxation. 119147
Peroneal nerve paralysis in the cat and dog: an experimental **study** *[Surgery].* 118484
Studies of superobesity. II. Psychiatric appraisal of *surgery* for **superobesity** [Diets]. 116378
Surgical **translocation** of the penis in the bull to obtain the teaser bull [Artificial insemination]. 118435
Medical and *surgical* **treatment** of canine acute gastric dilation. 119114
Diagnosis and *surgical* **treatment** of cystlike lesions of the equine paranasal sinuses. 119128
Surgical **treatment** of thoracolumbar disc herniation. 119221
Experimental studies of a method for *nonsurgical* **treatment** of leftsided abomasal displacement in cattle. 119285
Selective scar revision & elective incision techniques applicable to the legs of horses. 3. Application of combined fusiform excision and **W-plasty** *surgical* techniques in scar revision on the upper hind legs. 118579
An examination of graft alteration and recipient response to processed mare cortical bone **xenografting** *[Surgery].* 118485

SURPLUS

A gain for the market, also by decreasing the skim milk **powder** *surplus.* 115599

SURVIVAL

Flight and *survival* of **alate** red imported fire ants [Solenopsis invicta] after mirex treatment. 123247
Survival-curve **characteristics** in a desmid [Closterium moniliferum, Algae]. 121080
The effect of depth of burial in soil on the *survival* of some **common** Rhodesian weed seeds. 123189
Red blood **corpuscle** *survival* assessed with chromium 51 [isotope] and diisopropyl fluorophosphate-H3 in cattle. 117919
Survival and **development** of carpenterworms [Prionoxystus robiniae] reared aseptically on an artificial diet. 123445
To *survive,* **even** trainees must master five skills. 116621
Relationship of shoot-root ratio to *survival* and **growth** of outplanted Douglas-fir [Pseudotsuga menziesii] and ponderosa pine seedlings. 121836
Length of development and *survival* of **Hylobius** abietis as influenced by silvicultural exposure to sunlight [Picea abies]. 123447
Survival of **infectious** larvae of horse strongylid nematodes in pasture grass; a preliminary field study. 118956
Cotton producers continue to *survive* **labor** situation quite well. 115333
Survival of **larvae** of Anoplognathus porosus (Dalman) and sericesthis nigrolineata Boisd. (Coleoptera: Scarabaeidae). 124017
Effects of dietary amino acid level and nutritional balance on **larval** *survival* and development of the parasite Exeristes roborator [Pectinophora gossypiella, biological control]. 123280
The effect of some aspects of low temperature and radiation on the *survival* of **Latheticus** oryzae eggs. 123893
Suspected cannibalism in *survival* of **nymphs** of Triatoma protracta navajoensis. 124122
Influence of peach seedling rootstocks on growth, yield and *survival* of **peach** scion cultivars. 121710
Effect of environmental desiccation on **seedling** *survival* in rice. 121439
Survival-curve **shape** and oxygen enhancement ratio at low doses for Chlamydomonas [reinmhardii, Algae]. 121081
The *survival* of **staphylococci** in acid medium [and in food products]. 116166
Food intake, dietary supplements and *survival* **time** of scorbutic guinea pigs. 116496
A study of effects of different storage conditions on *survival* of **wild** oat (Avena fatua) seeds. 123187

SUSCEPTIBILITY

Assessing *susceptibility* of Hevea clones to Microcyclus ulei. 122561
A line of ring-necked pheasant **cells** *susceptible* to infection by avian oncornaviruses. 119037
Susceptibility of some **conifer** species [Pinus, Cedrus, Cupressus] to damping off [a fungal disease caused by Fusarium species]. 122592
Susceptibility to **cracking** of particle boards covered with decorative paper. 119674
Metabolism and **differential** *susceptibility* of crabgrass [Digitaria sanguinalis] and witchgrass [Panicum capillare] to simazine and atrazine [herbicides]. 123211
Susceptibility of **Digitaria** decumbens var. Pangola to blast rice [Pyricularia grisea] in the French West Indies. 122556
Yield performance and reliability of cereals after various preceding crops *[Susceptibility* to **Gaeumannomyces** graminis and Cercosporella herpotrichoides]. 122680
Testing of maize hybrids for *susceptibility* to **helminthosporiosis** (Helminthosporium turcicum Pass.) in a provocation trial. 122611
Susceptibility of the **Mongolian** gerbil (Meriones unguiculatus) to Mycobacterium paratuberculosis. 118606
The effect of iron on growth and bacterial canker [Pseudomonas syringae] *susceptibility* of **peach** seedlings. 122803
Susceptibility of twenty **potato** cultivars to the potato moth [Phthorimaea operculella] at Pukekohe: a preliminary assessment. 123423
Relative *susceptibility* of mammals to infection with Schistosoma incognitum. 118737
Electrical measurement of feeding by the strawberry aphid [chaetosiphon fragaefolii] on *susceptible* and **resistant** strawberries and nonhost plants. 123368
Studies on the resistance of chestnut trees (Castanea spp.) to chestnut gall wasps (Dryocosmus kuriphilus Yasumatsu). iX. Polyphenolic contents in *susceptible* and **resistant** varieties. 123416
Chemical control of Stomoxys nigra in Mauritius, its *susceptibility* to **seven** insecticides. 123660
Association between elemental content of dormant peach trees and *susceptibility* to **short** life [Predisposition to cold injuries and bacterial canker, Pseudomonas syringa]. 122964
The behaviour of insects in the presence of insecticides: the effect of fenitrothion and malathion on resistant and *susceptible* **strains** of Tribolium castaneum Herbst. 123561
In vitro studies of mitochondrial and sarcoplasmic reticulum function in muscle of **stress** *susceptible* pigs. 117770
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and nutrient status of a *susceptible* and **tolerant** variety of young tea (Camellia sinensis L.). 123040
The *susceptibility* of different **types** of maize to post-harvest infestation by Sitophilus zeamais and Sitotroga cerealella, and the importance of this factor at the small-scale farm level. 123571
In **vitro** *susceptibility* of Treponema hyodysenteriae to carbadox, virginiamycin, and tylosin [Swine dysentery]. 119051
A comparison of the development of Puccinia graminis tritici in resistant and *susceptible* **wheat** based on glucosamine content. 122700

SUSPENSION

Regeneration of plants from **cell** *suspensions* [of carrot, Datura, tobacco and soybean] frozen at -20, -70 and -196 degrees C [Celsius]. 121528
Substrate specificity of flavanone synthase from **cell** *suspension* cultures of parsley and structure of release products in vitro. 121602
Light-induced enzyme synthesis in **cell** *suspension* cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
The role of the gas phase in the greening and growth of illuminated **cell** *suspension* cultures of spinach (Spinacia oleracea, L.). 121688
Relation between photoinduced changes of the oxiation-reduction potential of the **chloroplast** *suspension* and the activity of the second photosystem [Peas]. 121639
Electrogenic pumps in cells of the *suspension* **culture** of Nicotiana tabacum [Tobacco]. 121446
Nitrate reductase inactivating factor from rice cells in *suspension* **culture.** 121535
Suspension **fencing.** 124595
Suspension **fencing.** 124644
Synergistic flocculation of **fibre-containing** *suspensions* of the pulp and paper industry. 119788
Materials for *suspending* **hops:** investigations on the possibility of using plastic materials for hanging hops. 124681
Action of some nitroso derivatives in **meat** *suspensions.* Antibacterial activity and interferences by components of the medium. 117012
Quantitative *suspended* sediment mapping using aircraft remotely sensed multispectral data [Water quality and movement]. 125266
Suspended **sediment** filtration capacity of simulated vegetation [Soil erosion control]. 125174
Investigation of the problem of determining **total** *suspended* solids in pulp and paper effluents. 125563
Determination of the cell count of a **yeast** *suspension* and computation of the yeast dose by means of a nomogram [Fermentation]. 116796

SWAMP

Rearing of *swamp* **beavers** with or without water? 117421
A study of helminth parasites in the gastrointestinal tract of the *swamp* **buffalo,** Bubalis bubalis Lydekker, in the Northern Territory. 118619
Automatic categorization of land-water cover types of the **Green** *Swamp,* **Florida,** using Skylab multispectral scanner (S-192) data [Remote sensing]. 125255

SWARD

Studies on the performance of **alfalfa** *swards.* IV. Effects of varieties, cutting frequency and fertilizer levels on the yield and plant numbers. 122060
Studies on the performance of **alfalfa** *swards.* V. Relationships between top weight and carbohydrate root reserves of individual plants under sward conditions. 122061
A note on the effect of sheep grazing on the yield of **grass** *swards.* 122020

SWARMS

A species of Chloromerus [near striatifrons] (Diptera: Chloropidae) *swarming* in the **Canberra** district. 123822
Drones in **honeybee** *swarming.* 124566

Is it easy to use honeybee performance to **prevent** *swarming?* 124572

SWEET

Controlling codling moths [Carpocapsa pomanella] in *sweet* **cherries.** 123364
Sweet **cherry** area, output up in Japan. 115664
Sweet **corn** production in Manitoba. 122450
Effects of selected herbicides on yield, weed control and nutrient content of *sweet* **corn.** 123126
Control of armyworms [Spodoptera] and earworms [Heliothus zea] on *sweet* **corn** in Florida with Lorsban 4E and other insecticides. 123392
On the germination of seeds of Comptonia peregrina, the *sweet* **fern** [Myricaceae]. 120973
Is pornofood X-rating your health? [Consumption of *sweet* **foods**]. 116531
Herbertus gray 1821, **Herbertia** *Sweet* 1827 and Herberta Gray mut. Lindb. 1875 [Hepaticae]. 120105
The **maple** *sweetener* situation—trends and prospects [U.S. And Canada]. 115768
Lupinus **mutabilis** *sweet*—a potent food source from the Andean region. 116286
New *sweeteners* [Stability, toxicity, quality]. 116700
Synthesis and metabolic fate of hesperetin-3-14C [carbon isotpe, the predominant flavonoid in lemons and *sweet* **oranges**]. 117279
Penetration of 59Fe [iron isotope] through isolated cuticles of citrus leaves *[Sweet* **oranges,** sour oranges]. 121675
Enzymatic proteolysis of monellin [Dioscoreophyllum cumminsii] absence of *sweet* **peptides** [isolated from protein]. 116767
Results of *sweet* **potato** (Ipomea batatas) research 1957-1966. 122415
The occurrence and some properties of 3-hydroxy-3-methylglutaryl coenzyme A reductase in *sweet* **potato** roots infected by Ceratocystis fimbriata. 122720
Substitutes for saccharose and invert sugar as *sweeteners* for **soft** drinks. 116681
Response of *'Sweet* **Spanish'** onion to soil-applied zinc. 121714
Seed rates used in cultural techniques for **sulla** *sweet* vetch (Hedysarum coronarium L.). 122135
Yield response of **sulla** *sweet* vetch (Hedysarum coronarium l.) to different seed types and seeding modalities. 122142
Yield response of **sulla** *sweet* vetch (Hedysarium coronarium L.) to different seed quantities and seed spacing. 122143
A rapid method for detection of aflatoxins from **xylitol** *[Sweeteners].* 116095

SWEETGUM

Influence of substrate moisture level on the germination of *sweetgum* and **sand** pine seed [Liquidambar styraciflua, Pinus clausa]. 121830

SWEETPOTATOES

The interrelationship between translocation of 14C [carbon isotope]-photosynthate and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of **Ipomoea** *[Sweetpotatoes].* 121766
Sweetpotato: **Ipomoea** batatas (Convolvulaceae). 122380
Dynamic structural **properties** of *sweetpotato.* 117323
Induction of textural changes in *sweetpotato* **roots** by chilling [Hardcore, storage diseases]. 117281
Subcellular localization of 3-hydroxy-3-methylglutaryl coenzyme A reductase and other membrane-bound enzymes in *sweetpotato* **roots** [healthy and infected with Ceratocystis fimbriata]. 121760

SWEETS *see* DESSERTS

SWELLING

Studies in *swelling* of **cotton.** I. Neutral salt technique to determine the true swelling parameters in cadoxen. 117130
X-ray study of crystalline character and mechanical properties of cotton **fibers** *swollen* in zincoxen solution. 117131
The *swelling* of **Hercosett** resin [Wool finishing processes]. 117032
Polyadenylation of stable mRNA during *swelling* of **seeds?** [Cotton, rye, wheat]. 121430
Studies in swelling of cotton. I. Neutral salt technique to determine the **true** *swelling* parameters in cadoxen. 117130

SWIETENIA

Decomposition of lignin and cellulose components of wood of *Swietenia* **mahogani,** Casuarina equisetifolia and Mimusops elengi by Fomes durissimus lloyd [Wood-destroying fungi]. 119678

SWINE

Immunofluorescent localization of acrosin in spermatozoa by *boar* **acrosin** antibodies. 118379
Protein utilization as affected by Mecadox [feed **additive,** *swine].* 118149
Isolation and properties of the DNA of **African** *swine* fever (ASF) virus. 118789
Purification and physicochemical characteristics of **African** *swine* fever virus. 118790
Titration of **African** *swine* fever (ASF) virus. 118791
Reproduction in the gilt. 2. The influence of *gilt* **age** at boar introduction on the attainment of puberty. 118210
Weimar and **Apolda** *pork* production cooperative: complex quality assurance in all production stages. 115424
The bacteriology of DFD [dark, firm, dry]-meat *[Pork,* **beef].** 116137
In vitro trypsin digestion of bovine and pig muscles both raw and cooked: peptides fractionations by molecular exclusion chromatography *[Pork* and **beef].** 116937
Concentration and composition of proteins of *swine* **blood** serum as affected by different factors (review). 117931
Europe's *[swine]* **breed** societies form federation. 118384
Breeds of *swine.* 118261
A place in the future for minor *[swine]* **breeds?** 118383
Swine **building**—finishing floor. 124629
Oxygen intake **capacity** of *swine.* 117856
Fertilization in *swine* and **cattle.** 118244
The 1973 epidemic of Japanese encephalitis [virus] in West Bengal: a serological survey of domestic animals *[Swine,* **cattle].** 118748
Experimental mastitis of *swine* **caused** by Klebsiella. 118877
Study on evagination "in vitro" of the Cysticerus **cellulosae** *[Swine].* 118912
Comparative studies on the methods for diagnosing Aujeszky's disease *[Swine,* **chick** embryos]. 118977
Purification and comparison of elastins from [10] different animal species [Includes cattle, *swine,* **chickens].** 117552
Hog **cholera.** I. Immunofluorescent diagnosis using tissue sections and blood smears. 118692
Reverse plaque formation by *hog* **cholera** virus of the GPEstrain inducing heterologous interference. 118765
Swann restrictions fail to cut resistant [Escherichia] **coli** *[Swine].* 118880
Neutralization of a transmissible gastroenteritis virus of *swine* by **colostral** antibodies elicited by intestine and cell culture-propagated virus. 118604
Confinement *swine* housing. 117494
Gas chromatographic methods for flavor testing in **cooked** *pork* (muscles semimembranosus). 117022
How big a margin do you need over feed? *[Swine,* **costs,** returns]. 115534
Results of a *[swine]* **crossing** experiment with Belgian Landrace, Pietrain and Large White. II. Growth and carcass characters. 118389
Infectious diseases involving sterility and fetal **death/abortion** in *sows.* 118855
Artificial insemination of *swine* in **Denmark.** 118410
Artificial insemination in swine. Influences of boar seminal plasma on breeding efficiency of **diluted** *boar* semen. 118382
Swine **disease** guide. 118454
Current research on enteric **disease** *[Swine].* 118879
On the role of Aujeszky's disease virus in the respiratory **diseases** of *swine.* 118991
Tritichomonas suis: isolation, morphology and incidence in the nasal cavity of **domestic** *swine* from Rio Grande do Sul. 118914
The biochemistry of DFD [dark, firm, **dry]-meat** *[Pork].* 116139
The topography of DFD [dark, firm, **dry]-meat** *[Pork].* 116146
Swine **dysentery:** history, recent discoveries and new concepts. 118888
Bay VA 9391 for prevention of *swine* **dysentery.** 119045
In vitro susceptibility of Treponema hyodysenteriae to carbadox, virginiamycin, and tylosin *[Swine* **dysentery].** 119051
Concepts for continuous monitoring [ruling out defects] of metabolism of *swine,* an **element** of general health and performance control. 119158
Experimental toxoplasmosis of *swine.* **Epidemiological** and food implications [Toxoplasma gondii, Contamination]. 118895
Comparative study of automatic drinking **equipments** for *swine.* 124696
Production and testing of a live freeze-dried bivaccine against Aujeszky's disease and **erysipelas** in *swine.* 118993
Changes of the histological structure of the endometrium of *sows* during the **estrus** cycle. 118400
Studies into acid-base balance of blood and muscular pH [hydrogen-ion concentration] of *swine* **exposed** to consecutive stress. 119175
First observations on the application of prostaglandin **F2alpha** in *swine.* 118248
Study of the technical and economic feasibility of *swine* **farming** in the Zona da Mata, of Minas Gerais. 115335
On a syndrome similar to transmissible gastroenteritis in *swine* **farms** in the Padana plain [Virus diseases]. 118680
Composition and value of *pork* **fat.** Experiments and comments. 116975
Recent findings on protein metabolism in *swine* during **fattening,** with particular reference to correlations with pork quality. 117857
Growth and cardiopathology in *boars* **fed** rapeseed oil. 119086
Bulk storage hoppers [for *swine* **feed].** 124637
Putting research into practice *[Swine,* **feeding].** 118134
Availability of trypotophan in some **feedstuffs** for *swine.* 118087
Swine **fever.** 118588
Problems in carrying out *swine* **fever** control. 118656
Studies on *swine* **fever.** VI. Investigations in pedigree breeding herds in Lower Saxony. 118658
Feedlot confinement and continuous and controlled grazing for growing and **finishing** *swine.* 118020
Effects on **growing** *swine* and sheep of two polychlorinated biphenyls. 119226
The reliability of grading of *pork* **halves** and beef. 116106
Reflections on *swine* **health.** 118541
Buy-in or **home-mix?** *Swine* feed]. 117371
Automatic watering in a *sow* **house.** 117514
Bacteria in the air of **housed** *swine* units. 118797
How ventilation systems work *[Swine* **houses].** 124639
Increasing the efficiency of production (experience of the veterinary service of a *swine* **husbandry** complex). 118572
Problems of oral **immunisation** of *swine.* 118837
Swine **improvement** lies with private companies. 118195
Study on incidence of puerperal diseases among *sows* in **industrialized** farms. 119181
Study on the effect of sodium chloride on the inactivation of Cysticercus cellulosae in the muscle meat of naturally **infected** *swine* [Storage of infected pork]. 116252
Cycles of *boar* **infertility** and pathology of the piglet in intensive swine rearing. 118247
The effect of gamma radiation on the cysticerci of Taenia solium [Tapeworm **infested** *swine,* meat contamination]. 118871
Reproduction in the *gilt.* 2. The **influence** of gilt age at boar introduction on the attainment of puberty. 118210
Artificial insemination in *swine.* **Influences** of boar seminal plasma on breeding efficiency of diluted boar semen. 118382
Testing of **insemination** *boars* following glandectomy of the bulbo-urethral glands. 118375
Cycles of boar infertility and pathology of the piglet in **intensive** *swine* rearing. 118247
Control of rats and warfarin **intoxication** of *swine.* 119264
Reproduction in the gilt. 2. The influence of gilt age at *boar* **introduction** on the attainment of puberty. 118210
Outline of serum electrophoresis of some diseases of the **Italian** *swine.* 118445
Observations on the occurrence of the dystrophic myositis in *swine* in **Italy** also. 119088
Results of a [swine] crossing experiment with Belgian Landrace, *Pietrain* and **Large** White. II. Growth and carcass characters. 118389
Quarterly prediction models for **live** *hog* prices. 115756
How the Dutch are tackling pollution *[Swine,* **manure].** 125541
Effects of rationing method on performances and quality of carcasses of **market** *swine.* 118027
Trade needs convincing on *boar* **meat.** 117025
Rearing and feeding of **meat** *swine.* 118041
Comparison between natural and artificial insemination in a **modern** *swine* farm. 118396
Pathophysiological aspects relating to transport stress on *swine.* 4. **Muscular** activity to exhaustion. 119168
Mucormycosis caused by Absidia corymbifera in the nymph **nodes** of *swine.* 118846
Some problems of the limb pathology of *swine.* **Note** on prevention. 119089
A plain man's guide to energy *[Swine,* **nutrition].** 118132
Making the most of energy *[Swine,* **nutrition].** 118133
Swine **nutrition** research, 1973. 118152
Swine **nutrition** research, 1974. 118153
Identifying ration deficiencies in the field is difficult *[Swine,* **nutritional** disorders]. 119094
Advances in *swine* **parasitology,** 1973. 118886
Sequential changes of estrogens and progesterone at prostaglandin-induced **parturition** in the *sow.* 118201
Prerinatal **pathology** of *swine.* 118446
The action of cyclic 3', 5'-adenosine monophosphate in the blood of *swine* during **physical** stress. 117524
Virginiamycin [Antibiotics, toxicity, residues, cattle, *swine,* **poultry].** 118924
Effects of post-weaning stress and feeding management on return to oestrus and reproductive traits during early **pregnancy** in *swine.* 117973
Pharmacologic control of vomiting [Dogs, cats, *swine,* **primates].** 118550
Improvement of *swine* **production** with a little money. Why not? [Switzerland]. 115439
Technical-scientific progress and its use *swine* **production.** 117474
Swine **production** and management. 117495
Field beans as a source of protein for *swine* **production.** 118122
Remodelling farm buildings for *swine* **production.** 124646
Experiental restriction of feed and addition of calcium chloride for *swine* **as a prophylaxis against** coli-enterotoxaemia. 118830
Keep an eye on PSE [pale, soft, exudative, *pork* **quality].** 116240
Recent findings on protein metabolism in swine during fattening, with particular reference to correlations with *pork* **quality.** 117857
Hormonal methods for raising the conception **rate** in *swine.* 118417
Keeping a finger on your herd's pulse *[Swine* **rearing,** costs]. 117484
Artificial insemination in *swine.* **Relationship** of conception to first and second insemination in heat with an interval of approximately 24 hours. 118381

Comparison of dietary zinc levels for **reproducing** *sows* and the effect of dietary zinc and calcium on the subsequent performance of their progeny. 118088
Experience and results in using methods of biological engineering for the **reproduction** of *swine.* 118372
Micronutrient **requirement** of *swine.* 118131
Nutrient **requirements** of *swine.* 118062
Protein and energy **requirements** for the *sow.* 118167
The riddle of atrophic **rhinitis** *[Swine].* 118881
Profitability of **rural** *swine* rearing [Costs, Switzerland]. 115547
Secondary **salmonellosis** in *swine.* 118869
Use of hypochlorine for disinfection in large **scale** *swine* rearing. 118574
Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in *boars* **selected** for rate of body weight gain and thickness of back fat during growth, sexual maturation and after mating. 118347
Artificial insemination in swine. Influences of *boar* **seminal** plasma on breeding efficiency of diluted boar semen. 118382
Studies on the feeding value of wine yeast in trials with **sheep** and *swine.* 117999
Meat quality in different grades of *pork* **sides.** 116124
Heat tolerant bacteria in water scalding tanks *[Swine,* **slaughtering].** 116038
Swine **slaughtering** in the Weimar and Apolda processing industry: higher capacity through rationalization, without any loss in production. 117018
Hydrolytic enzymes of *boar* **sperm.** 118418
On the endogenous peroxidase in the **spleen** of *swine.* 117709
Isolation and identification of a virus causing abortions and **stillbirths** in *swine.* 118986
Results of ethological **studies** in *swine.* 117858
Contribution to the study of the vascular, arterial and venous elements of the renal hilum in *swine* (**Sus** scrofa domestica). 117900
Effect of **Swedish** *boars* of the Yorkshire breed on the meat productivity of pigs from the Russian Large White breed. 118401
A mechanism of migration inhibition involving components of the coagulation **system** *[Swine].* 118937
Biosynthesis of steroid sulfates by the *boar* **testes.** 118221
Mecadox [for use in animal feeds]—a review and revelation [in preventing and **treating** *swine* dysentery]. 118887
More protection against the risk of epidemics in large laboratory animal stocks. Is a legislative regulation necessary in laboratory animal **units?** *[Swine].* 118652
Further results on genetic and environmental components of heart weight **variations** in *swine.* 118218
The influence of a chloramphenicol treatment of laying hens in batteries to air borne staphylocci in drinking **water** *[Swine].* 118664
Nutritional effects on age at puberty and plasma amino acid level in **Yorkshire** *gilts* and on chemical composition, nucleic acid, fatty acid and hydroxyproline contents of the uterus. 118097
New feed for **young** *swine*—increased growth and better economic results. 117360

SYMBIOSIS

Fertilizer and fuel from tiny plants? [**Algae-Pteridophyta** *symbiosis,* Anabena azolla]. 124917
Comparative effects of dietary methoprene on *symbiotic* and **aposymbiotic** rice weevils and asymbiotic granary weevils [Sitophilus oryzae, Sitophilus granarius]. 124036
Discovery of gibberellin and gibberellin-like substances in the metabolites of *symbiotic* **bacteria** of Calamagrostis. 121098
Effect of cultural conditions on the synthesis of heteroauxin by *symbiotic* **bacteria** of Carex enervis C.a.m. 121099
Effect of metabolites of *symbiotic* **bacteria** on the seeds and growth of seedlings of Carex enervis C.a.m. 121100
Effect of *symbiotic* **bacteria** of Carex enervis on some agricultural crops. 121101
Mutual effect of *symbiotic* **bacteria** of Carex enervis on the synthesis of auxins. 121102
Synthesis of B complex vitamins by *symbiotic* **bacteria** of nonlegumnous plants. 121103
Synthesis of gibberellin and gibberellin-like substances by *symbiotic* **bacteria** [of Carex enervis] as related to cultural conditions. 121104
The role of B complex vitamins and amino acids in the interrelationships of *symbiotic* **bacteria** of Carex enervis. 121105
Microbial colonization of plant roots [Suppressing **beneficial** *symbionts].* 122902
The intestinal protozoa of the wood-feeding roach **Cryptocercus.** II. *Symbionts.* 124076
Measuring rates of *symbiotic* **nitrogen** fixation by Alnus tenuifolia. 121788
Comparative effects of dietary methoprene on symbiotic and *aposymbiotic* **rice** weevils and asymbiotic granary weevils [Sitophilus oryzae, Sitophilus granarius]. 124036

SYMBOL

Northwest plant names and *symbols* for **ecosystem** inventory and analysis. 120399

SYMPHORICARPOS

The nectar-secreting hedge *[Symphoricarpos,* **honey** plants]. 122521

SYMPHYLA

Endoskeleton and cephalic musculature of Scutigerella immaculata **Newport** *(Symphyla:* Scutigerellidae). 123840

SYMPHYTA

Notes on the sawfly fauna of Nagykovacsi (Hymenoptera: *Symphyta)* II. **[Hungary].** 124445
Notes on the sawfly fauna of Nagykovacsi (Hungary). III-IV **(Hymenoptera:** *Symphyta).* 124446

SYNANTHEDON

Electrocutor grid traps vs. Sticky traps for capturing [the lesser peachtree borer] *Synanthedon* **pictipes** and Sanninoidea exitiosa. 123414

SYNAPSIS

Differentiation of insect sensory neurons in the absence of their **normal** *synaptic* targets [Manduca sexta]. 123875
Effects of two benzodiazepines, phenobartitone, and baclofen on *synaptic* **transmission** in the cat cuneate nucleus. 117868

SYNCHRONIZATION

Phosphate uptake kinetics in Euglena gracilis (Z) [Algae] (Euglenophyceae) grown on light-/dark cycles. I. *Synchronized* **batch** cultures. 121210
Artificial insemination and **estruc** *synchronization* in ruminants [Sheep, cattle]. 118368
Results in oral and intravaginal application of megestrol-acetate for **heat** *synchronisation* of Merino sheep. 118373

SYNCYTIAL

Scanning electron microscopy of *syncytial* **transfer** cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716

SYNDROME

Autonomic components of the hypothalamic **feeding** *syndromes.* 116352
Pulmonary arterial thrombo-embolism and pulmonary arterial mycoticaneurysms in cattle with vena caval thrombosis: a condition resembling the **Hughes-Stovin** *syndrome.* 119136
Brain catecholamines and the lateral **hypothalamic** *syndrome* [Hunger, mechanisms]. 116354
Appetite and hunger in experimental **obesity** *syndromes.* 116351
Angioneurotic **oedema-like** *syndrome* in bovines. 119099
Antigenic relationship of **paralytic** *syndrome* virus of chickens with other avian viruses as detected by immunofluorescence. 118742
On a *syndrome* **similar** to transmissible gastroenteritis in swine farms in the Padana plain [Virus diseases]. 118680
The **uremic** *syndrome.* 119121
Interaction effects of epidemiologic factors in the feline **urological** *syndrome* [associated with castration]. 119273

SYNECHOCOCCUS

Adaptive photosynthesis responses to temperature extremes by the thermophilic **cyanophyte** *Synechococcus* lividus [Algae]. 121197
Cyanophage SM-2: a new blue-green algal virus *[Synechococcus* **elongatus,** Microcystis aeruginosa]. 122874

SYNERGISM

Effect of *synergized* **allethrin** on Heteropeza pygmaea larva and mycelial growth of Agaricus bisporus [mushroom] in vitro. 123411
Synergism and **antagonism** of hormones with stimulation of metabolism. 117863
A *synergistic* **effect** of 2-ethyl-1-isopropoxycarbonyl-3-(4-tolylcarbamoyl) isourea with gibberellic acid on growth of rice seedlings. 121531
Synergistic **effect** of a pheromone and a kairomone on host selection and colonisation by Ips avulsus [Forest pests]. 123482
Synergistic **flocculation** of fibre-containing suspensions of the pulp and paper industry. 119788
The interaction of juvenile hormone and ecdysone: antagonistic, *synergistic,* or **permissive?** [Hyalophora cecropia, Oncopeltus fasciatus]. 123957
Evaluation of dillapiole [from Anethum sowa] and dihydrodillapiole as *synergists* for **pyrethrins** [insecticide] in dust formulations [Tribolium castaneum]. 123585

SYNOVIA

Study of glycoprotein extracted from *synovial* **membranes** of oxen. 117871

SYNTHESIS

Role of acetaldehyde in **acetoin** *synthesis* in yeasts [Torulopsis colliculosa] & bacteria [Enterobacter]. 121141
Nucleic **acids** *synthesis* of nuclear polyhedrosis virus in cultured embryonic cells of silkworm [Bombyx mori]. 124482
Light-induced enzyme synthesis in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine **ammonia-lyase** *synthesis.* 121642
Mutual effect of symbiotic bacteria of Carex enervis on the *synthesis* of **auxins.** 121102
Synthesis of **3-beta-glycosides** of diosgenin [from Dioscorea deltoidea], yamogenin and gitogenin [from the seed of Trigonella foenum-graecum]. 121261
Determination of the rate of *synthesis* and **catabolism** of tissue proteins in chickens. 117932
The cytoplasmic RNA in the shoot apex of Chrysanthemum segetum L.: concentration, amount per **cell** and *synthesis.* 121597
Inhibition of **chitin** *synthesis* in Plodia interpunctella. 123535
Inheritance and *synthesis* of **chloroplasts** and mitochondria of Euglena gracilis [Algae]. 120606
Cholesterol *synthesis* in germfree and conventional rats. 116421
8-azidoadenine analogs of NAD+ [nicotinamide 8-azidoadenine dinucleotide] and FAD [flavin 8-azidoadenine dinucleotide]. *Synthesis* and **coenzyme** properties with NAD+-dependent and FAD-dependent enzymes [Livestock extracts, Penicillium nitatum, Fungi]. 117669
Synthesis of B **complex** vitamins by symbiotic bacteria of nonlegumnous plants. 121103
Synthesis of **delta-aminolaevulinate** synthase by isolated liver polyribosomes [Chick embryos]. 117586
Synthesis of **1,2-diarylpropane-1,3-diols** and determination of their configurations [Lignin]. 119683
A 5-acetoxy-6-methoxykawain from Piper sanctum and *synthesis* of both **diastereoisomers.** 121000
Pigments of Gnomonia erythrostoma. IV. The *synthesis* of **5,8-dibenzyloxy-3-hydroxy-6-methoxy-1,4-napthoquinone** [Fungi]. 121367
DNA *synthesis* in rabbit spleen cell populations stimulated by various doses of concanavalin A. I. Autoradiographic analysis. 117673
DNA *synthesis* in rabbit spleen cell populations stimulated by various doses of concanavalin A. II. Equilibrium density sedimentation analysis. 117674
Thymidine metabolism and **DNA** *synthesis* in Newcastle disease virus-infected cells. 118810
Early post-embryonic changes in protein metabolism and **DNA** *synthesis* in the thymus of chicks, normal and infected with Salmonella pullorum; autoradiographic study. 118928
Relationship between **DNA** *synthesis,* juvenile hormone and metamorphosis in Galleria larvae. 123950
Patterns of **DNA** *synthesis* in polytenic chromosomes of hybrid Anopheles atroparvus X Anopheles labranchiae (Diptera: Nematocera). 124146
Systematic realization of **documentary** *synthesis* by the Documentation Center for Industries Using Agricultural Products. 116693
Arterial **elastin** *synthesis* in the young chick. 117591
Enzymatic *synthesis* of juvenile hormone in Manduca sexta. 123939
The regulation of **enzyme** *synthesis* in arginine metabolism of Saccharomyces cerevisiae [yeast, genetics]. 120733
Light-induced **enzyme** *synthesis* in cell suspension cultures of Petroselinum hortense [parsley]. Demonstration in a heterologous cell-free system of rapid changes in the rate of rapid changes in the rate of phenyalanine ammonia-lyase synthesis. 121642
Antioxidative properties of different liquid **fractions** *synthesized* by fungi. 121092
Synthesis of **gibberellin** and gibberellin-like substances by symbiotic bacteria [of Carex enervis] as related to cultural conditions. 121104
Cell surface mannosyl transferase activity in the liver of embryonic chick: a mannose containing glycolipid as intermediate in **glycoprotein** *synthesis.* 117850
Effect of cultural conditions on the *synthesis* of **heteroauxin** by symbiotic bacteria of Carex enervis C.a.m. 121099
Peculiarities of **histone** *synthesis* in meiosis and its relation to chromosome structure and behaviour [Lilium candidum]. 120591
Histone *synthesis* & transition during spermatogenesis in the mole cricket Gryllotalpa fossor Scudder. 123972
The *synthesis* of **lachnanthocarpone** [Lachnanthes tinctoria]. 121262
Synthesis of very **low** density lipoproteins in the cockerel. Effects of estrogen. 117806
Effect of salinity on photosynthesis and **mannitol** *synthesis* in the green flagellate Platymonas suecica [Algae]. 120980
Comparative effects of several inhibitors of chloroplast thylakoid **membrane** *synthesis* in greening jack bean. 121621
Synthesis and **metabolic** fate of hesperetin-3-14C [carbon isotpe, the predominant flavonoid in lemons and sweet oranges]. 117279
Abnormal rearrangement of isoprenoid epoxide: *synthesis* of **7-methoxy-8(2'-formyl-2'methylpropyl)-coumarin,** the lactonic constituent of grapefruit peel oil of Citrus decumana Linn. (Rutaceae). 117230
The tryptophan metabolism and the increase of **ommochromes** *synthesis* during the embryonic development of Carausius morosus. 124055
Reactions of protoberberine-type alkaloids. XI. *Synthesis* of **optically** active ochotensanes. 121368
Synthesis of **optically** pure (1S, 4S, 5S)-2-pinen-4-ol (cis-verbenol) and its antipode, the pheromone of Ips bark beetles. 123782
Initiation of **ovalbumin** *synthesis* in chicken oviduct magnum. Transient labeling of the NH2-terminus by methionine. 117569
Steroids of Withania plants. IV. **Partial** *synthesis* of withanolids. 120877
On the immunological detection of thyroglobulin **peptides** *synthesized* in cell-free system [Sheep thyroid glands]. 117600
Interrelationship of aerobic cellulose-fermenting [soil] bacteria with their companions on the basis of the *synthesis* of **physiologically** active substances. 124818

Isolation and *synthesis* of **pinoresinol** diglucoside, a major antihypertensive principle of Tu-Chung (Eucommia ulmoides, Oliver). 121156
Synthesis of **poncimarin,** a new cumarin from Poncirus trifoliata L. 121391
A comparative study of **porphyrin** *synthesis* by whole blood and haemolysates from different mammalian species [Livestock, laboratory animals]. 117632
Alteration of poly (ADP [adenosine diphosphate]-Rib) *synthesis* during **progesterone-caused** gene expression in oviducts of quails. 118222
Vasoactive intestinal peptide (VIP) from chicken. *Synthesis* and **properties** of the C-terminal hendecapeptide. 117616
Effects of food deprivation on **protein** *synthesis* and degradation in rat skeletal muscles. 116290
Genetic approaches to the stimulation of bacterial **protein** *synthesis.* 116757
Developmental changes of protein, RNA, DNA, lipid, and glycogen in the liver, skeletal muscle, and brain of the piglet. A methodological and experimental study with special reference to **protein** *synthesis.* 117528
Serum **protein** *synthesis* in the early chick embryo. 117647
Influence of roughage level and corn processing method on microbial **protein** *synthesis* by beef steers. 118096
Effect of bovine parvovirus replication on DNA, RNA, and **protein** *synthesis* in S phase cells. 119038
Gibberellic acid-induced germination of spores of Anemia phyllitidis: nucleic acid and **protein** *synthesis* during germination [Pteridophyta]. 120865
Mitochondrial biogenesis during fungal spore germination: products of mitochondrial **protein** *synthesis* in vivo [Botryodiplodia theobromae]. 120903
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial **protein** *synthesis* by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
A requirement for cytoplasmic **protein** *synthesis* during chloroplast senescence in the aquatic plant anacharis canadensis. 121317
Studies on frost hardiness in Chlorella ellipsoidea [Algae]. II. Effects of inhibitors of RNA and **protein** *synthesis* and surfactants on the process of hardening. 121325
The influence of a **protein** *synthesis* inhibitor on the acceptance and eventual dependance of the meristematic cells of Allium sativum L. [Garlic] on dimethylsulfoxide. 121596
Changes in the intensity of **protein** *synthesis* in the embryo axes of northern red oak (Quercus borealis Michx.) and English oak (Quercus robur L.) during storage under controlled conditions. 121791
Follicle cell **protein** *synthesis* and its contribution to the yolk of the Cecropia moth oocyte. 123876
The effects of juvenile hormone on imaginal discs of Drosophila in vitro: the role of the inhibition of **protein** *synthesis.* 123956
Synthesis of the **pulvinic** acid pigments of lichen and fungi [Gomphidius glutinosus, Lepraria flava]. 121012
Synthesis of (1S: 2R: 4S: **5R)-(-)-alpha-multistriatin,** the pheromone in the smaller European elm bark beetle Scolytus multistriatus. 124164
Genetic recombination in Coprinus [Iagopus, Fungi]. V. **Repair** *synthesis* of deoxyribonucleic acid and its relation to meiotic recombination. 120780
Progesterone-binding components of chick oviduct: in vitro effects of purified hormone-receptor complexes on the initiation of **RNA** *synthesis* in chromatin. 117789
Control of *synthesis* of **RNA** during morphogenesis of the chloroplast in Euglena gracilis [Algae]. 120896
Synthesis of **RNA** and protein, with ribonuclease activity, in carrot roots infested with Meloidogyne hapla Chitw. [Nematodes]. 123014
Effects of Weismann ring gland on **RNA** *synthesis* in imaginal wing disks of Calliphora erythrocephala. 124044
Pectinase production by bacteria associated with improved preservative permeability in Sitka spruce [Picea sitchensis, poles]: *synthesis* and **secretion** of polygalacturonate lyase by Cytophaga johnsonii. 119717
Absolute configuration of (-)-massoilactone as confirmed by a *synthesis* of its **(S)-(+)-isomer** [Bark oil of Cryptocarya massoia]. 119644
A novel pathway for the *synthesis* of **solanidine** in the isolated chloroplast from greening potatoes. 121641
Studies on the **solid-phase** *synthesis* of bovine pancreatic trypsin inhibitor (Kunitz) and the characterization of the synthetic material. 117820
Peculiarities of tRNA that translate the *synthesis* of **soluble** and unsoluble proteins of the chloroplasts. 121348
Recurrent **stereospecific** *synthesis* of structures related to those of Hyalophora cecropia juvenile hormone. 124163
The mechanism of *synthesis* of **storage** proteins in opaque-2 maize analogs. 120817
Auxins and auxin-like **substances** *synthesized* by cellulose-decomposing [soil] fungi. 124813
Gibberellins and gibberellin-like **substances** *synthesized* by cellulose-decomposing [soil] fungi. 124817
Syntheses of **tetra-** and hexadeuterated octadecenoates [for mass analysis of labeled fats]. 116794
Synthesis of **thio-analogous** Cannabis derivatives. 121006
Synthesis of **TMV** [tobacco mosaic virus] RNA at restrictive high temperatures. 122879
Application of oganoselenium chemistry to the **total** *synthesis* of (plus/minus)-tuberiferine [isolated from Sonchus tuberifer]. 121007
Attractant pheromone of the European elm bark beetle (Scolytus multistriatus): isolation, identification, *synthesis,* and **utilization** studies. 123464
Inhibition of turnip yellow mosaic **virus** *synthesis* by pyrimidine analogues. 122823
Decomposition of plant residues and the *synthesis* of **vitamins** by [soil] microorganisms. 124816
Juvenile hormone control of **vitellogenin** *synthesis* in Locusta migratoria. 123947
Genetics of cell **wall** *synthesis* in Chlamydomonas reinhardtii [Algae]. 120600
A *synthesis* of **(z)-6-heneicosen-11-one.** The sex pheromone of the Douglas fir tussock moth [Orgyia pseudotsugata]. 124070

SYNTHETASES

On the purification of a fatty **acid** *synthetase* complex from an insect [Lucilia sericata]. 123861
Comments on the translational and transcriptional origin of Euglena [gracilis] chloroplastic **aminoacyl-tRNA** *synthetases* [Algae]. 120908
Hydrolytic action of **aminoacyl-tRNA** *synthetases* from baker's yeast [Saccharomyces cerevisiae]: "chemical proofreading" preventing acylation of tRNA Ile with misactivated valine. 120927
Macromolecular complexes of **aminoacyl-tRNA** *synthetases* in Drosophila [melanogaster]. 123982
Purification and properties of the **dihydrofolate** *synthetase* from Serratia indica [Nutrition study]. 116460
Formyl-methenyl-methylenetetrahydrofolate *synthetase-(combined),* an ovine protein with multiple catalytic activities. 117785
Neurospora crassa [Fungi] **glutamine** *synthetase.* Purification by affinity chromatography and characterization of subunit structure. 121166

SYNTHETICS

Differences in the action of *synthetic* and **biogenic** ethylene on amino acid metabolism in pea seedlings. 121653
The development of *synthetic* **casings** [for meat products]. 116998
Activity of the C-18 Hyalophora **cecropia** *synthetic* juvenile hormone in Locusta migratoria, with special reference to the age of the solutions. 123846
Results of testing work clothes [for shepherds], made from *synthetic* **fabrics,** on reindeer farms. 124617
Effect of the preparation "Kampozan" [a *synthetic* **growth** regulator] (based on ethylene phosphonous acid) on winter rye. 121464
Synthetic **macaroni.** II. Study on the biological value of synthetic macaroni. 117156
Studies on the solid-phase synthesis of bovine pancreatic trypsin inhibitor (Kunitz) and the characterization of the *synthetic* **material.** 117820
Population density and mating frequency of Plodia interpunctella in the presence of *synthetic* **pheromone.** 123549
Spruce bark beetle, Ips typographus: pheromone production and field response to *synthetic* **pheromones.** 123484
Variation of parental forms in the intensity of *synthetic* **processes** and heterosis in tomatoes. 120715
The role of organo-phosphorus and *synthetic* **pyrethriod** insecticides in mothproofing [to prevent fabric-insect damage]. 123570
Relationship of corn rootworm [Diabrotica] tolerance to yield in the BSSS [Iowa Stiff **Stalk** *Synthetic]* maize population. 123311
The effect of **two** *synthetic* steroids on plasma glucose concentration and total entry rae of glucose in sheep. 117759
Studies on the breeding method of the *synthetic* **varieties** from the inbred lines in maize (Zea mays L.). 120797

SYPHACIA

Further studies on the efficacy of thiabendazole given in the diet of mice infected with Hymenolepis nana, *Syphacia* **obvelata** and Aspiculuris tetraptera. 119007

SYRINGA

Tentative international register of cultivar names in the **genus** *Syringa* L. 120798
Species of the **genus** *Syringa* L. Introduced by the Botanical Garden of the Uzbek SSR Academy of Sciences. 122274
Association between elemental content of dormant peach trees and susceptibility to short life [Predisposition to cold injuries and bacterial canker, **Pseudomonas** *syringa].* 122964
Effect of auxin cofactors on rooting and the effect of gibberellic acid on shoot growth of lilac *[Syringa]* **softwood** cuttings. 121627

SYRPHIDAE

Estimates of population size and longevity of adult narcissus bulb fly Merodon equestris Fab. **(Diptera:** *Syrphidae).* 123410
Panorpatae (Rhingia) as effective pollinators of highly develop nectar containing flowers **(Diptera,** *Syrphidae).* 123899
The effects of various aphids as larval prey on the development of Metasyrphus corollae **(Diptera:** *Syrphidae).* 123906
Description of the male of Criorrhina soror Paramonov **(Diptera:** *Syrphidae).* 124231
Eumerus compertus Villeneuve (Diptera, *Syrphidae);* **larvae** and puparium. 124476
Syrphus torvus Osten-Sacken (Diptera, *Syrphidae).* **Records** from Spitsbergen, Svalbard. 124382

SYRUP

European sugar beet growers express concern over possibility of increased HFCS [high fructose **corn** *syrup]* production]. 117105
Approach to computer interfacing with **corn** *syrup* refining processing. 117115
Determination of fruit juice constituents in **fruit** *syrups.* 117300
Utilization of sugar alcohol [using **maltitol** *syrup* instead of sucrose] in Angel cake. 116473
Use of lactic acid and calcium lactate in Nanica variety canned bananas in *syrup* **[Preservatives].** 117219
Manufacture of *syrups* and **soft** drinks. 116654
Degradation of the texture of fruits processed in *syrup.* **Study** on the hydrolysis of protopectin of apricots. 117267

SYSTEMATICS *see* TAXONOMY

SYSTEMIC

Strenghthening of *systemic* **approach** in the conditions of well-developed agrarian-industrial relations. 115278
Glasshouse evaluaton of *systemic* **compounds,** derivatives of dithiocarbamic acid and other fungicides for the control of clubroot [disease caused by Plasmodiophora brassicae]. 122564
Some *systemic* **effects** of [an anti-tumor antibiotic] adriamycin on the dog. 118778
A simple method of **evaluating** *systemic* insecticides [Bromophos] and examples of its application. 123768
Field evaluations of *systemic* **fngicides** and derivatives of dithiocarbamic acid for the control of clubroot [Plasmodiophora brassicae, cabbage]. 122562
Effect of the *systemic* **fungicide** PP 149 on rate of powdery mildew infection, yield amount, morphology and tissue structure of leaves in summer barley varieties. 122610
Root uptake of soil-injected *[systemic* **fungicide]** benomyl and its detection with Ulmus americana. 122640
Effect of *systemic* **fungicides** on different entomopathogenic Fungi imperfecti in vitro. 122672
Mechanism of degradation of thiofanox *[systemic* **insecticide]** in aqueous solutions. 123240
A new biological technique of detecting the presence of *systemic* **insecticides** absorbed by plants [Sorghum]. 123309
Tricyclazole: a **new** *systemic* fungicide for control of Piricularia oryzae [blast disease] on rice. 122739
"Mutant" neuron: Electrophysiological analysis [Genetic prerequisites of a *systemic* **organization** of the brain, experiments on Drosophila melanogaster]. 123880
Induction of local & *systemic* **resistance** in Nicotiana glutinosa against tobacco mosaic virus by leaf extract of dahlia. 122842

TABANIDAE

New North **American** *Tabanidae* (Diptera). XXII. New species in the tribe Diachlorini in Mexico [Stenotabanus, Dichelacera]. 124475
Vulnerative and sensory organs of the proboscis of the Tabanidae (Ochrops fulvus Mg., Tabanus bovinus L., *Chrysops* **caeecutiens** L., Chrysozona pluvialis L.); sexual dimorphism. 123816
Confirmation of the beach habitation of Apatolestes actites Philip and Steffan (Diptera: *Tabanidae)* on the **California** coast. 124397
Extracting larvae of *Chrysops* **hirsuticallus** (Diptera: Tabanidae) from soil: efficiency of two methods. 123802
Growth, abundance and distribution of **larval** *tabanids* in experimentally fertilized plots on a Massachusetts salt marsh [Tabanus nigrovittatus]. 124016
Problems set by *Chrysops* **melicharii** Mik (Tabanidae, Diptera) in Switzerland. 124345
Vulnerative and sensory organs of the proboscis of the *Tabanidae* **(Ochrops** fulvus Mg., Tabanus bovinus L., Chrysops caeecutiens L., Chrysozona pluvialis L.); sexual dimorphism. 123816
Extracting larvae of Chrysops hirsuticallus (Diptera: *Tabanidae)* from **soil:** efficiency of two methods. 123802

TABANUS

Vulnerative and sensory organs of the proboscis of the Tabanidae (Ochrops fulvus Mg., *Tabanus* **bovinus** L., Chrysops caeecutiens L., Chrysozona pluvialis L.); sexual dimorphism. 123816
Growth, abundance and distribution of larval tabanids in experimentally fertilized plots on a Massachusetts salt marsh *[Tabanus* **nigrovittatus].** 124016

TACHINIDAE

Conditions required for the mass-breeding of Lixophaga diatraeae **(Diptera:** *Tachinidae).* 123902

Effect of a juvenile hormone analogue on the development of a parasitic insect, Pales pavida (**Diptera:** *Tachinidae).* 123903
First notions on Tachinid flies from the Vysne Ruzbachy spa surroundings (**Diptera,** *Tachinidae).* 124241
Tachinid parasites of the gypsy moth, Lymantria dispar, with keys to adults and puparia *[Tachinidae,* **new** taxa, natural control, forest pests]. 123480
A survey of *tachinid* **parasites** of Heliothis zea and Heliothis virescens in North Carolina [Biological control of field crop pests]. 123317
Tachinid **parasites** of the gypsy moth, Lymantria dispar, with keys to adults and puparia [Tachinidae, new taxa, natural control, forest pests]. 123480
Status of **three** *tachinid* parasites of Diatraea spp. In Guadeloupe (French West Indies). 123815

TACHYCINES
Irish Orthoptera: some distribution records, including a first record of *Tachycines* **asynamorus** Adelung (Rhaphidophoridae). 124312

TAENIA
Serodiagnostic studies on larval and strobilar phase of *Taenia* **hydatigena** with in vitro precipitation test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919
The effect of gamma radiation on the cysticerci of *Taenia* **solium** [Tapeworm infested swine, meat contamination]. 118871

TAGGING
Why the **tail** *tags* for cattle? [Identification]. 118459

TAIGA
Characteristic of meat productivity of reindeer in the tundra and *taiga* **zones.** 117430

TAIL
The modified card agglutination test: an accurate tool for detecting anaplasmosis in **Columbian** *black-tailed* deer. 118815
Parasitism among *white-tailed* **deer** and domestic sheep on common range. 118813
White-tailed **deer** of U.S. Naval Ammunition Depot Crane. 119408
A **sterilizing** *tail* stump sperm defect in a Holstein-Friesian bull [Defective recessive genes, deep-freezing semen]. 119184
Why the *tail* **tags** for cattle? [Identification]. 118459

TALLOW
Comparison of some methods of determination of **polyethylene** in *tallows.* 117028

TAMARINDUS
Complementary study of the structure of three galactoxyloglucans (amyloids) of seeds [Balsamina, **Tropaeolum,** *Tamarindus].* 120991

TANACETUM
The first statewide war on *tansy* **ragwort** [Senecio jacobaea]. 123105

TANKERS
Developing performance guides for specific **air** *tankers* [Forest fire equipment]. 119309
Tankers and **spreaders.** 124707

TANKS
Use of cylinder conical **large** *tanks* in beer brewing. 116682
"Tank **mixtures"** in weed control in cereal and maize cultures. 123110
Heat tolerant bacteria in water **scalding** *tanks* [Swine, slaughtering]. 116038
Denitrification of nitrified **septic** *tank* effluent. 125505
Simple temperature regulation in fermentation and **storage** *tanks.* 116680
Crop response to *tank* **truck** application of liquid sludge. 125504
Use of *tank* **trucks** for fires in fire-sensitive forest areas. 119323

TANNING
Serum fibrinogen-related antigen concentrations in the normal dog as measured by the *tanned* **erythrocyte** hemagglutination-inhibition immunoassay. 117943
Genuine leather, a natural material for upholstering *[Tanning* and **properties].** 117007

TANNINS
Microbial degradation of **condensed** *tannins* [from Pinus radiata bark]. 119809
Tannin in **persimmon** (Diospyros kaki L.) fruits. II. Volatile compounds and soluble tannin of the fruits in the course of removal of astringency. 117294
Differential staining of *tannin* in **sections** of epoxy-embedded plant cells [Pseudotsuga menziesii, Pinus taeda]. 120569
Tannin in persimmon (Diospyros kaki L.) fruits. II. Volatile compounds and **soluble** *tannin* of the fruits in the course of removal of astringency. 117294

TANSY *see* **TANACETUM**

TAPE
Grapevine propagation—field budding, a modified cut, and the use of **plastic** *tape.* 122225
Cellophane-tape for making **rapid** permanent squash preparations of plant material. 119909

TAPETUM
Scanning, transmission and electron probe analysis of the **cat** *tapetum.* 117886

TAPEWORM
The efficiency of Praziquantel against *tapeworms* in **experimentally** infected dogs and cats. 118663
The effect of gamma radiation on the cysticerci of Taenia solium *[Tapeworm* **infested** swine, meat contamination]. 118871

TAPIOCA
Tapioca has **rich** food and export potential. 115726

TAR
Control of *coal-tar* **impregnation** of beech wood with red heartwood; success of impregnation according to thylosis frequency. 119725

TARAXACUM
New species of *Taraxacum* in the **Netherlands.** IV. 119921
New *Taraxacum* species from the Caucasus. 120013
Taraxacum **records** from Ireland. 120087

TARGET
A carrier protein for juvenile hormone in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with **epidermal** *target* tissue in vitro. 123517
The Douglas fir tussock moth [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on *non-target* **organisms** and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
Coenotic studies in botanical gardens and their significance in **solving** *targets* of conservation of plant world. 119854
Differentiation of insect sensory neurons in the absence of their normal **synaptic** *targets* [Manduca sexta]. 123875

TARSONEMIDAE
Contribution to the study of systematics, taxonomy, ontogeny, ecology and distribution of *Tarsonemidae.* II. **(Acari,** tarsonemida) [New taxa]. 124430
Two **new** *Tarsonemid* mites from Poland (Acari: Tarsonemida) [Siteroptes polonicus, Brennandania varsoviensis]. 124460
Bibliography of *Tarsonemidae.* I. (1971-1974). 124428

TARSONEMUS
Strawberry mite *[Tarsonemus* **pallidus].** 123363

TARSUS
Classification, management, and repair of **central** *tarsal* fractures in the racing Greyhound. 119251
The peripheral inhibition of the *tarsal* **sugar** receptor by sodium chloride in the proboscis extension response of the blowfly, Phormia regina M. 124034

TARTARIC
Crystallizing wine tartar by **concentrating** *tartaric* solution through hyperifiltration. 117240

TASTE
Improvement of food flavour. I. Addition of *taste* **active** matter. 116645
Influence of carcass maturity on the *palatability* of **beef.** 116185
Studies of *taste* in **childhood** obesity. 116379
Surveillance and control of phenolic tastes and odors in water to prevent their effects on *taste* and **flavor** of foods. 116639
The *taste* and **flavor** of good beer. 116831
Nonvolatile nitrogen and sulfur compounds in red meats and their reltion to **flavor** and *taste.* 116931
Food intake and *taste* **peferences** for glucose and sucrose decrease after intestinal bypass surgery. 116359
Surveillance and control of **phenolic** *tastes* and odors in water to prevent their effects on taste and flavor of foods. 116639
Peripheral control of meal size: interaction of *gustatory* **stimulation** and postingestional feedback. 116369
Contribution of polyphenolic compounds to the *taste* of **tea.** 116632

TAURUS
Cattle ecological zoning in the State of Sao Paulo [Breeds, **Bos** *taurus,* Bos indicus, crossing]. 118228

TAXATION
Bookkeeping and *taxes* **[Fur** animals]. 115558
Taxation of **income** from land in agriculture and forestry. 115502
Income *tax* and poultry farmers' obligations. 115535
Comparison of **property** *tax* circuit-breakers applied to farmers and homeowners. 115515
Tax **reform** and land registers. 115550
Agricultural **social** *taxes* deposited in 1975. 115481
Voluntary effort as a *tax* **substitute** in the revenue-sharing allocation formula. 115455
Application of the added **value** *tax* to the vegetable and fruit sector. 115497

TAXODIACEAE
Plant portraits: Montezuma cypress *[Taxodium* **mucronatum].** 119907

TAXONOMY
Contribution to the study of the Asclepiadaceae of Brazil. X. *Taxonomic* and **anatomic** studies of Gonioanthela odorata (Decne.) Malme and Gonioanthela hilariana (Fourn.) Malme. 120250
Research on the *taxonomy,* **bioecology,** damage of the rice blast fungus (Piricularia oryzae Bri. et Cav.) and the resistance of several rice varieties [in southeast Anatolia). 122583
Cicadas from the Central African savannas: *Systematics,* **biological** and biogeographical notes [New taxa]. 124252
Quercus calliprinos Webb and Quercus coccifera L.: studies of the leaf anatomy and *taxonomical* and **chorological** consideration [Mediterranean Region]. 120021
New notes on the Curculionidae of the French fauna (Coleoptera). *Taxonomy,* **chorology,** ecology, ethology. Second series [New taxa]. 124226
Comparison of multivariate analyses using *taxonomic* **data** of Oxalis. 120000
Yeasts and meat: occurrence, *systematology* and **differentiation.** 116148
The *taxonomy* and **ecology** of algae in the Appomattox River, Chesterfield County, Virginia. 120297
Taxonomic and **floristic** research in Greece during the last decade, 1961-1971 [New **taxa].** 120194
Description of new [plant] *taxa* from **France.** 120183
Dasyscyphus in India **[Fungi,** *taxonomy].* 120140
Morphological, anatomical and development studies of the flowers and fruits of succulent Mesembryanthemaceae **genera:** a contribution to their *taxonomy.* 120008
Morphology of leaves and the *taxonomy* of the **genera** Protophyllum Lesq. and Pseudoprotophyllum Hollick. 120075
Evolution and *taxonomy* in the **genus** Brucella: brucellosis of rodents. 118961
Some aspects of *taxonomy* of the **genus** Pestalotia. II. Observations on structure of conidia [Fungi]. 120145
Primary vasculature and **gymnosperm** *systematics.* 120255
The use of numerical methods in the *systematics* of **hawthorns** [Crataegus] occurring in Poland. 119945
The theme (mitotic cell division) and the variations (protists): implications for **higher** *taxa.* 120292
Karyotype of the onion and its *taxonomic* **implications** [Chromosomes, variations]. 120529
Studies on embryogenesis of the **Indian** *taxa* of Rutaceae—a review. 119930
Supplementary notes on *taxonomic* **information** in relation to E.d.p. [Electronic data processing]. 120045
A *taxonomic* **investigation** of Ulota bruchii Hornsch. Ex Brid., Ulota crispa (Hedw.) Brid. and Ulota crispula Brid. I. European material [Bryophyta]. 120100
Contributions to the morphology and *systematics* of **Klugieae** and Loxonieae (Gesneriaceae). II. Morphology, anatomy and ontogenesis of the flowers of Monophyllaea R. Br. 120432
The importance of *taxonomy* and of **laboratory** studies on the biology, nutrition and physiology of insects infesting stored products. 123567
Taxonomy, **morphology,** anatomy, and composition of yellow nutsedge [Cyperus esculentus, weed control]. 123150
Comparative zone electrophoresis and mating experiments in the *taxonomy* on **Mucor** hiemalis [Fungi]. 120211
A practical and **natural** *taxonomy* for Cannabis [Hemp]. 120283
New *taxa* and new localities for Portugese flora. XII. 119924
Evolution, cytology and subgeneric classification in Moraea (Iridaceae) **[New** *taxa].* 119932
Evolution of the Santa Lucia fir (Abies bracteata) ecosystem **[New** *taxa].* 119933
Studies in Bignoniaceae. 19. Generic mergers and new species of South American Bignoniaceae **[New** *taxa].* 119935
Revision of the genus Oryctanthus (Loranthaceae) **[New** *taxa].* 119976
Schistidium holmenianum, sp. Nov. From arctic North America **[New** *taxa].* 119988
Structure, reproduction and discussion on the systematic position of the genus Gibsmithia (Rhodophyceae) [Algae, **new** *taxa].* 119991
Buergenerula spartinae sp. Nov., an ascomycete from salt marsh cordgrass, Spartina alterniflora **[New** *taxa].* 119999
Contribution of the flora of Cuba: Osmundaceae, Schizaeaceae and Gleicheniaceae (Pteridophyta) **[New** *taxa].* 120011
A contribution to the knowledge of Laboulbeniales (Ascomycetes) parasitic on Italian carabids (Insecta, Coleoptera) [Laboulbenia agelaeae, Rhachomyces pacei, Fungi, **new** *taxa].* 120018
Fleshy fungi of north and central Israel. II. **[New** *taxa].* 120089
New *taxa* and new combinations in Flora Palestina. III. 120090
Pezizales of Israel. IV. Humariaceae [Fungi, **new** *taxa].* 120091
Pezizales of Israel. V. Ascobolaceae and Sarcoscyphaceae [Fungi, **new** *taxa].* 120092
A monograph of the genus Prosopis (Leguminosae subfam. Mimosoideae) **[New** *taxa].* 120096
Macrocoma [orthotrichoides] (Hornsch. Ex C. Muell.) Grout (Orthotrichaceae)—a *taxon* **new** to India. 120106
Miscellaneous Hepaticae, 141-150 **[New** *taxa].* 120107

Plagiochila atlantica F. Rose, sp. Nov. Plagiochila ambagiosa auct [New *taxa*]. 120108
A monograph of the genus Muelleriella Dusen [Musci, Orthotrichaceae, new *taxa*]. 120112
Bryological miscellanies. XXI-XXII. [Pseudoleskeopsis zippelii, Asiatic species of Diphyscium, new *taxa*]. 120113
Lepidoziaceae, subfamily Lepidozioideae from the Philippines [Hepaticae, new *taxa*, Telaranea fragilis]. 120117
Liverworts from New Guinea. 13. Gymnomitriaceae [New *taxa*]. 120118
Notes on the Asiatic species of the genus Frullania, Hepaticae. X. [New *taxa*]. 120123
Notes on the Plagiochilaceae [Hepaticae, new *taxa*]. V. Studies in the genus Plagiochila (Dum.) Dum. in the Hawaiian Islands. 120124
Studies of genus Metzgeria of Colombia collected by Mme. Helen Bischler, 1956-59 [New *taxa*]. 120125
A remarkable New Caledonian species of Frullania [tixieri] (Hepaticae) [New *taxa*]. 120130
A viviparous type of Eleocharis wichurai [New *taxa*]. 120131
Taxonomic notes on Rhodophysemopsis gen. Nov. (Rhodophyta) [New *taxa*, Algae]. 120135
On Thielavia angulata and some recently described Thielavia species [Fungi, new *taxa*]. 120143
Some slime-moulds from southern India. XI. [Fungi, new *taxa*]. 120146
South Indian Agaricales. I. Termitomyces [Fungi, new *taxa*]. 120147
Synnematous fungi. I. [New *taxa*]. 120148
Taxonomic studies on Indian Myxomycetes. VII. The genus Licea [Fungi, new *taxa*]. 120149
The ascigerous state of Phomopsis manihotis Swarup, Chauhan & Tripathi [Fungi, new *taxa*]. 120150
The classification of the genus Lentinus Fr. (Basidiomycota) [Fungi, new *taxa*]. 120151
Two undescribed species of Leptosphaeria [Leptosphaeria abuensis and Leptosphaeria hyalina, Fungi, new *taxa*]. 120154
Notes on some East African species of Aframomum (Zingiberaceae) [New *taxa*]. 120166
The genus Christella Leveille, sect. Christella. Studies in the family Thelypteridaceae. XI. [New *taxa*]. 120169
Two new *taxa* of Guttiferae from East Africa [Mammea usambarensis, Garcinia semseii]. 120170
Floristic and cytotaxonomic publications on the flora of Switzerland between 1960 and 1972 [New *taxa*]. 120184
Floristic literature published in the Netherlands mainly between 1962 and 1972 [New *taxa*]. 120185
Floristic report on West Germany, 1961-1971. A. Federal Republic of Germany [New *taxa*]. 120186
Floristic report on East Germany, 1961-1971. B. Democratic Republic of Germany [New *taxa*]. 120187
Floristic report for Ireland [New *taxa*]. 120188
Main aspects of research on cormophytes in Romania [New *taxa*]. 120189
Main results of floristic-geobotanic and taxonomic research in Hungary, 1962-1971 [New *taxa*]. 120190
Progress in the study of vascular plants in Finland, 1962-1971 [New *taxa*]. 120191
Report on floristic and taxonomic studies on the Swedish vascular flora during the period 1961-1972 [New *taxa*]. 120192
Report on the progress of floristic research in Italy since 1961 [New *taxa*]. 120193
Taxonomic and floristic research in Greece during the last decade, 1961-1971 [New *taxa*]. 120194
A new Homobasidiomycete with anomalous basidia [Chionsphaera apobasidialis, new *taxa*]. 120202
New *taxa* of boletes of northwestern California [Fungi]. 120205
An annotated index for Jacob Christian Schaeffer's "Bavarian fungi" [New *taxa*]. 120210
The genus Coprinus in western North America, I. Section Coprinus [Fungi, new *taxa*]. 120220
A synopsis of the genus Pulvinula [New *taxa*]. 120234
Subaerial diatom flora from Hong Kong, eastern Asia [Algae, new *taxa*]. 120248
A monograph of the lichen genus Bulbothrix Hale (Parmeliaceae) [New *taxa*]. 120259
A monograph of the lichen genus Pseudoparmelia Lynge (Parmeliaceae) [New *taxa*]. 120260
New records of marine algae from the 1974 R/V Dolphin cruise to the Gulf of California [New *taxa*]. 120261
Contribution to the Uredinales [rust fungi] flora of Iran and Afghanistan [Puccinia buffoniae, Aecidium iranicum, new *taxa*]. 120265
Fungi associated with moribund branches of Rosa species [New *taxa*]. 120268
Fungi causing plant diseases at Jabalpur (Madhya Pradesh). XV. Some Sphaeropsidales [New *taxa*]. 120269
Genus Massarina from India [Fungi, new *taxa*]. 120270
Results of a revision of the basic types of various genera of Ascomycetes and Fungi imperfecti [New *taxa*]. 120274
Some additions to fungi of India [Colletotrichum memecylonis, Diatrype syzygii, new *taxa*]. 120276
The genus Calyculosphaeria in India [Fungi, new *taxa*]. 120278
The genus Quaternaria in India [Fungi, new *taxa*]. 120279
The identity of the potato smut [Angiosorus solani, Fungi, new *taxa*, South America]. 120280
Southern Australian species of Champia and Chlocladia (rhodymeniales: Rhodophyta) [Algae, new *taxa*]. 120295
The morphology of some critical Brazilian species of Cyperaceae [New *taxa*]. 120409
Studies on Elsinoe and Sphaceloma diseases of plants in Maharashtra State (India). VII. [Sphaceloma madhucae, Sphaceloma sideroxylonica, Fungi, new *taxa*]. 122791
Tachinid parasites of the gypsy moth, Lymantria dispar, with keys to adults and puparia [Tachinidae, new *taxa*, natural control, forest pests]. 123480
Observations on some Actinedida (=Prostigmata) in soils in North America. IV. A new larval form and its adult belonging to the subfamily of Microthrombidiinae (Acari, Thrombidiidae) [New *taxa*]. 124196
The genus Holoparasitus Oudemans and some morphological characters of the family Parasitidae Oudem. (Parasitiformes) [New *taxa*]. 124197
Acarology [Uropodidae, Trachyuropoda, new *taxa*, South America, New Guinea]. 124198
The neotropical dendrophilous fauna. I. Review of the Proctolabinae (Orthoptera, Acridae) [New *taxa*]. 124199
New parasitic mites of the superfamily Listrophoroidea (Astigmata) [New *taxa*]. 124200
Aphidiidae (Hymenoptera) and aphids (Homoptera) of Corsica. I. Aphidiidae [New *taxa*]. 124221
Contribution to the study of Malagasy Tenebrionidae (Coleoptera). The genus Sphaerocaulus Fairmaire [New *taxa*]. 124222
Contribution to the fauna of Gabon Odonata. 1. [New *taxa*]. 124223
New notes on the Curculionidae of the French fauna (Coleoptera). Taxonomy, chorology, ecology, ethology. Second series [New *taxa*]. 124226
Note on the Megaceras and Golofa (Coleoptera, Dynastidae) [New *taxa*]. 124227
Revision of the west Palearctic species of the genus Chorinaeus Holmgren (Hymenoptera, Ichneumonidae) [New *taxa*]. 124228
Revision of the subgenus Euryglossa Smith (Apoidea: Colletidae: Euryglossinae) [New *taxa*]. 124236
Contribution to the knowledge of the Arachnid fauna in Slovakia [New *taxa*]. 124240
Some remarkable spiders from Slovakia [New *taxa*]. 124243
A notable endemism of the mountains of Mexico: the genus Xenodromius Bates (Coleoptera, lebiinae) [New *taxa*]. 124244
A revision of the therevine stiletto-flies (Diptera: Therevidae) of the Ethiopian region [New *taxa*]. 124246
Jumping plant lice of the tribe Ciriacremini (Homoptera: Psylloidea) in the Ethiopian region [New *taxa*]. 124247
African stations of spiders of the genera Nephila Leach and Nephilengys Koch (Araneae, Argiopidae), from the collections of the [French] National Museum of Natural History [New *taxa*]. 124251
Cicadas from the Central African savannas: Systematics, biological and biogeographical notes [New *taxa*]. 124252
Diplopoda from the Abidjan region of the Ivory Coast [Diopsiulus, Tonkouibolus, Villiersiellina, Aporodesmus, new *taxa*]. 124256
Results of the studies of some Nepticulidae types from the collection of the National Museum of Natural History, Paris (Lepidoptera, Nepticulidae) [New *taxa*]. 124259
Contribution to the study of Cerambycidae Lamiinae from the Andringitra massif, Central Madagascar (Coleoptera) [new *taxa*]. 124266
Note on Euprosthenops ellioti (Pickard-Cambridge O. 1877) (Araneae, Pisauridae, Pisaurinae) [New *taxa*]. 124271
Grylloblattidae—present representatives of the order of Protoblattodea (Insecta) [Blattogryllus karatavicus, Blattogryllidae, new *taxa*]. 124280
Contribution to the study of Dorcadion in Anatolia (Coleoptera, Cerambycidae) [New *taxa*]. 2. 124288
Systematic revision of the Carabidae fauna of Anatolia. 3. [New *taxa*]. 124303
The Agromyzidae of New Zealand (Insecta: Diptera) [New *taxa*]. 124326
The Arthropoda of the southern islands of New Zealand. 9. Diptera [Diptera, new *taxa*]. 124327
Description of unpublished Attacidae from Latin America (Lepidoptera) [New *taxa*]. 124331
The Nearctic genera of Perlidae (Pleocoptera) [New *taxa*]. 124333
Contribution to the study of Oriental Scaphisomini (Coleoptera, Scaphidiidae) [New *taxa*]. 124336
More Plecoptera from Anatolia [New *taxa*]. 124343
Revision of the genus Scotoplectus Reitt. (Coleoptera, Psephalidae) [New *taxa*]. 124346
Some Stenus species (Coleoptera, Staphylinidae) collected by I. Lobl in Israel. 152. Contribution to the study of steninae [New *taxa*]. 124347
The genus Tylocerus Dalm. (Coleoptera, Cantharidae). 32. Contribution to the study of Neotropical Cantharidae [New *taxa*]. 124351
61. Contribution to the study of Paleartic Cantharidae and Malachiidae [New *taxa*]. 124352
Contribution to the study of the genera Gamasiphoides Womersley, 1956 and Laelaptiella Womersley 1956 (Acarina, Parasitiformes) [New *taxa*, Chile]. 124353
Coleoptera from North-East Africa. Chrysomelidae: Clytrinae (zoological contribution from the Finnish expeditions to the Sudan no. 39) [New *taxa*]. 124385
Additions to the crane flies of California (Diptera: Tipulidae) [New *taxa*]. 124396
New species of North American Anomala (Scarabaeidae: Anomalinae) [New *taxa*]. 124401
Notes on North American Nepidae (Hemiptera: Heteroptera [Ranatra montezuma, new *taxa*]. 124402
The genus Triacetelus Bates (Coleoptera: Cerambycidae) [New *taxa*]. 124403
Classification of the Middle American genus Cyrtolaus Bates (Coleoptera: Carabidae: Pterostichini) [New *taxa*]. 124404
Classification and evolution of Rhinochenus Lucas (Coleoptera: Curculionidae: Cryptorhynchinae) and Quaternary Middle American zoogeography [New *taxa*]. 124405
Studies on boreal Agromyzidae (Diptera). X. Phytomyza miners on Crassulaceae [New *taxa*]. 124406
Synopsis of the supra-specific taxa of the tribe Harpalini (Coleoptera: Carabidae) [New *taxa*]. 124407
The Nearctic species of Dioctria and six related genera (Diptera, Asilidae) [New *taxa*]. 124409
Neotropical Miridae. CXCVII. Review of the genera Callichila Reuter and Platytylus Fieber (Hemiptera) [New *taxa*, Latin America]. 124416
Anthribidae from Ghana (Coleoptera, Anthribidae) [New *taxa*]. 124426
Contribution to the study of systematics, taxonomy, ontogeny, ecology and distribution of Tarsonemidae. II. (Acari, tarsonemida) [New *taxa*]. 124430
Contribution to the Braconid fauna of Yugoslavia (Hymenoptera: Braconidae). II. [New *taxa*]. 124432
Notes on the Leningrad types of Dermaptera described by Semenov and Bey-Bienko [New *taxa*]. 124444
Results of the zoological research carried out by Dr. Z Kaszab in Mongolia. 359. The genus Syntomus Hope (Coleoptera, Carabidae) [New *taxa*]. 124449
Results of zoological research carried out by Dr. Z. Kaszab in Mongolia. 372. Curculionidae (Coleoptera) [New *taxa*]. 124450
Revision of the tribe Pogonocherini (Coleoptera, Cermabycidae) [New *taxa*]. 124454
Scolytidae and Platypodidae (Coleoptera) from Papua New Guinea [New *taxa*]. 124455
Scolytidae and Platypodidae (Coleoptera) from the Hungarian Natural Science Museum [New *taxa*]. 124456
The British species of Aphelinus with notes and descriptions of other European Aphelinidae (Hymenoptera) [New *taxa*]. 124462
The ichneumonid genus Pseudanomalon (Hymenoptera) [New *taxa*]. 124464
The identification of British limnephilid larvae (Trichoptera) [New *taxa*]. 124465
A contribution to the knowledge of the Collembolan fauna in the Domica Cave (SE [southeast] Slovakia) [New *taxa*]. 124468
A revision of the Palaearctic Tachydromiine genus Dysaletria Loew (Diptera: Empididae) [New *Taxa*]. 124469
Bees of the genus Martinapis Cockerell in North America [Martinapis luteicornis, Martinapis occidentalis, new *taxa*]. 124473
Contribution to new *systematics* presented by the example of two Javesella [azorica, Javesella pellucida] species (Homoptera, Cicadina, Delphacidae). 124477
Mites of Tenerife [Canary Islands, New *taxa*]. 124478
Parnassiana nova L, new subspecies of Parnassiidae [New *taxa*]. 124480
Contribution to the determination of Amphipyra berbera svenssoni (Lepidoptera, **Noctuidae**) *[Taxonomy]*. 124289
Taxonomic **notes** on Rhodophysemopsis gen. Nov. (Rhodophyta) [New taxa, Algae]. 120135
Re-examination of a **numerical** *taxonomic* study of Solanum species and hybrids. 120288
Contribution to the study of systematics, *taxonomy*, **ontogeny**, ecology and distribution of Tarsonemidae. II. (Acari, tarsonemida) [New taxa]. 124430
Thermotolerance of Candida [yeasts]. Relationships with ecology, **pathology** and *taxonomy*. 120890
Phenetic *taxonomy* at the species level and above [in botany]. 120287
Mutual interaction of *taxonomic* and **phytogeographical** features in the phenology of species of Spiraea. 119962
Hookeria lucens [Musci, *taxonomy*, **phytogeography**, morphology]. 120196
Seed proteins in **plant** *taxonomy* and phylogeny. 120053
Pollen morphology of the genera Embolanthera, Ostrearia, Neostrearia, Matudea (Hamamelidaceae) in **relation** to their *taxonomy*. 120067
Morphology and biology of Typha angustifolia L. [In **relation** to its *taxonomy*]. 120074
A general survey of pollen types in Sapindaceae in **relation** to *taxonomy*. 120174
On problems of *taxonomic* **relationship** between Cryptocephalus hypochoeridis ssp. hypochoeridis (Linnaeus, 1758) and Cryptocephalus hypochoeridis ssp. transiens Franz, 1949 (Coleoptera, Chrysomelidae). 124242
Main results of floristic-geobotanic and *taxonomic* **research** in Hungary, 1962-1971 [New taxa]. 120190
Structure, ontogeny and *taxonomic* **significance** of stomata in some Cucurbitaceae. 120015
Memoranda on the type specimens of Radula [Hepaticae] *taxa* from **Southeast** Asia. 3. 120119
Historical retrospect of the *taxonomical* **status** of Erebia euryale adyte Hubner (Lepidoptera, Satyridae). 124292
Taxonomic **studies** in Centaurea sect. Calcitrapa. III. Cytotaxonomic notes. 120093
Taxonomic **studies** on Indian Myxomycetes. VII. The genus Licea [Fungi, new taxa]. 120149

Report on floristic and *taxonomic* **studies** on the Swedish vascular flora during the period 1961-1972 [New taxa]. 120192
Data on the *taxonomic* **study** of the pollen of Asiatic species of the genus Sorbus L. 120063
Taxonomic **study** on the larvae of Japanese Geometridae (Lepidoptera). II. Larvae of Apocheima. 124359
The use of the SELGEM system [of computer programs] in **support** of *systematics*. 120051
Synopsis of the **supra-specific** *taxa* of the tribe Harpalini (Coleoptera: Carabidae) [New taxa]. 124407
Contribution to the study of *systematics*, **taxonomy**, ontogeny, ecology and distribution of Tarsonemidae. II. (Acari, tarsonemida) [New taxa]. 124430
Patterns of pollen morphological **variation** within *taxa*. 120508

TEA

Tea is good for what **ails** you. 116559
A comparison of the performance of the Savage tea cutter, Tarry nipper breaker and the Nara tea granulator for the size reduction of particles of **black** *tea* [Equipment]. 124732
Tea: **Camellia** sinensis (Camelliaceae). 122537
Contrarieties in *tea* **cultural** practices in South India and Assam. 122541
Factors affecting productivity on *tea* **estates** in Sri Lanka. 1. The impact of each field on annual crop production. 122548
Factors affecting productivity on *tea* **estates** in Sri Lanka. 2. Infilling vacancies in tea fields. 122549
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in *tea* **fields**. 123266
Tea **market** 1974-75 in retrospect. 115727
A comparison of the performance of the Savage tea cutter, Tarry nipper breaker and the **Nara** *tea* granulator for the size reduction of particles of black tea [Equipment]. 124732
Studies on the physiology of **pruning** *tea*. 2. The effect of soil cultivation and resting on recovery after pruning. 122550
A comparison of the performance of the **Savage** *tea* cutter, Tarry nipper breaker and the Nara tea granulator for the size reduction of particles of black tea [Equipment]. 124732
Contribution of polyphenolic compounds to the **taste** of *tea*. 116632
Assessment of sex pheromone activity in virgin female moths of the *tea* **tortrix** (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and tolerant variety of **young** *tea* (Camellia sinensis L.). 123040

TEACHING

F. C. Napp's (1792-1867) interest in *teaching* **agricultural** science and in research of hybridization. 115130
Teaching of **agricultural** economics and policy in Italian uniersities. 115295
1975 activity report of the **German** *Teaching* and Research Institute for the Dairy Industry in Wolfpassing. 116871
Referral practice in a university veterinary **medical** *teaching* hospital. 118473
A personal approach to the *teaching* of **non-major** botany cources. 119911
Success in **student** *teaching* of home economics as related to selected factors. 116588
Teaching and **training** for the future [in the chemical weed control industries]. 123151

TEATS

The effect of dry versus wet stimulation of milking cows on the fat absorption by *teat* **cup** liners. 117476
Innervation of bovine mammary gland with particular reference to afferent (sensitive) *teat* **innervation.** 117854
Observations on the flex wearing variations of *teat-cup* **liners** in farm usage [Milking machine components]. 124701

TECHNICIANS

Weed science for **agronomic** *technicians* [Training]. 123167
Delegation of functions by dietitians to **dietetic** *technicians*. 116610
In-service educational program for **dietetic** *technicians* involved in geriatric nutrition. 116619
A.I. [Artificial insemination] training for *technicians* and **farmer** technicians [Cattle]. 118280
Training of **forest** *technicians* [in Slovenia]. 119333
Technician and **herdsman** inseminator training [Cattle]. 118289
Use of dye for *technician* **training** and retraining [Artificial insemination, cattle]. 118294
The situation of **young** *technicians* in the wood industry and possibilities for extension training. 119237

TEETH

Is there a correlation between anomalous numbers of **cheek** *teeth* and the elongation of the skull in the dog? 117554

TEGUMENT *see* **INTEGUMENTS**

TEMPEH

Penetration of Rhizopus oligosporus [Fungi] into soybeans in *tempeh* [**Food** spoilage]. 116209

TEMPERATE

Relationship of chemical analysis to in vitro digestibility for selected tropical and *temperate* **grasses.** 117353
Temperate **grasses:** Lolium, Festuca, Dactylis, Phleum, Bromus (Gramineae). 121966
A list of standard textbooks in *temperate* **horticulture.** 122451
Formation of Solonetz and Solod on ancient weathering crusts. Some general laws of transformation of ancient weathering crusts in the hypergenesis zone in *temperate* **latitudes.** 124795
Magnoliaceae Hardy in *temperate* **North** America. 120098
Flowering and fruiting [in Moscow area] of introduced woody plants from the *temperate* **zone** of North America. 119858

TEMPERATURE

Comparative investigations of the ability of Tettogoniidae (Orthoptera: Saltatoria) to **accumulate** *temperatures* during embryonic development. 124178
Effect of **acute** *temperature* stress on the plasma catecholamine, corticosterone and metabolite levels in the pigeon. 117638
Energy exchanges of veal calves in relation to body weight, food intake and **air** *temperature*. 117560
Increased feeding in rats in a low **ambient** *temperature*. 116362
The importance of *temperature* to the **aw-value** of meat and meat products. 116999
Influence of *temperature* on the **biological** treatment of paper industry effluents [Pollution control]. 125403
Activity patterns, **body** *temperature* and thermal ecology in two desert caterpillars (Lepidoptera: Sphingidae) [Hyles lineata, Manduca sexta]. 123882
Body *temperature* and flight performance of honey bees [Apis mellifera ligustica] in a servo-mechanically controlled wind tunnel. 124538
Relationship of temperatures in the cervical blood vessels to **brain** *temperatures* in chickens. 117944
Temperature-sensitive **breakdown** in vivo of polysomes with mutants of Chlamydomonas reinhardii [Algae]. 121283
The correlation of Skylab L-band **brightness** *temperatures* with antecedent precipitation [Soil moisture, remote sensing]. 124831
Relationship of *temperatures* in the **cervical** blood vessels to brain temperatures in chickens. 117944
Effect of *temperature* **conditions** for individual development on the formation of productive qualities and specificity of thermoregulation in cattle. 117717
Development of Diatraea saccharalis (Lepidoptera: Pyralidae) at **constant** *temperatures* [Sugarcane pests, biological control with Lixophaga diatraeae]. 123305
A *temperature* **controlled** inoculation room to increase the efficiency of preselection for resistance to coffee berry disease [Colletotrichum coffeanum]. 122648
The effect of *temperature* and **dehydration** of the dried seeds on the biological properties of rye introduction. 121469
Dewpoint *temperature*, production of water of condensation and determination of dewpoint [Foods]. 116729
Alteration of protein content in plants [of barley, oats and winter rye] in relation to the methods of its determination, fixation and *temperature* of **drying** of the plant material. 121397
Scalded sausage manufacture in the meat trade. 8. Color formation and preservation, influence of color stabilizers, *temperature* **effect** and rapid processing, and the effects of atmospheric oxygen and light. 116956
Temperature **effects** on emitter discharge rates [Trickle irrgiation]. 125357
Effects in the rat of **environmental** *temperature*, diet dilution and treadmill running on voluntary food intake, body compositon and endocrine organ mass: a multiple regression analysis. 116427
Effects in the rat of **environmental** *temperature*, diet dilution, and treadmill running on liver and adipose enzymes and metabolism of 14C [carbon isotope]-glucose: a multiple regression analysis. 116428
Activation of external way of free oxidation in liver mitochondria during cooling of rats [Response to sharp reduction of **environmental** *temperature]*. 117652
Importance of developmental conditions in the formation of the type of adaptive response to low **environmental** *temperature* in cattle. 117719
Relation between the specificity of the adaptive response of cattle to low **environmental** *temperature* and the typological features of higher nervous activity. 117724
Specificity of adaptive resonse of cattle to lower **environmental** *temperature*. 117730
Study of the role of the skin and hair coat in the adaptation of domestic animals to extreme **environmental** *temperatures* (Review). 117733
The nature of differences in the adaptive response of sheep to low **environmental** *temperatures* in mountainous Altai. 117735
Hereditary conditionality of the type of response to lower **environmental** *temperature* in cattle. 118315
Degreening of waxed citrus fruit with **ethephon** and *temperature*. 117280
Adaptive photosynthesis responses to *temperature* **extremes** by the thermophilic cyanophyte Synechococcus lividus [Algae]. 121197
Development of Anthocoris sibiricus Reuter (Heteroptera, Anthocoridae) at constant and **fluctuating** *temperatures* with the green peach aphid Myzus persicae (Sulzer) as prey. 123427
Effects of *temperature* and **genotype** on pollen tube growth in some self-incompatible and self-compatible almond cultivars [Prunus amygdalus]. 121704
Germination *temperatures* and prechill treatments for white ash (Fraxinus americana L.). 121829
Thermometry of *temperature-sensitive* **goods** during shrink wrapping, shown by example of chocolate bars. 116791
Effects of *temperature* on **growth** constants of [the green alga] Selenastrum capricornutum. 121227
Germination ecology of Althenia filiformis Petit in relation to **habitat** *temperature* and salinity fluctuations during summer and autumn. 121072
Effect of **high** *temperatures* in poultry houses on some indices of the carbohydrate metabolism in layers. 117948
Resistance of wheat-rye amphiploids to drought and **high** *temperatures*. 120833
High *temperature* inactivation of cucumber and alfalfa mosaic viruses in Nicotiana rustica cultures [Tobacco]. 122814
Synthesis of TMV [tobacco mosaic virus] RNA at restrictive **high** *temperatures*. 122879
High *temperature* poultry house operation. 124640
A climate room for precise regulation of *temperature* and **humidity** in connection with a temperature-regulated nest site for wood ants [Formica polyctena]. 124119
The storage stability of freeze-dried carrots. III. The content of carotene as affected by the addition of L-cysteine **hydrochloride** at various *temperatures*. 117295
Cold storage of fresh fruit and vegetables *[Temperature* **injuries].** 117322
Integrated *temperature* and chemical control methods against the cigarette beetle [Lasioderma serricorne]. 123538
Effect of initial **internal** *temperature* and storage temperature on the microbial flora of vacuum packaged beef [Quality]. 116197
A comparison of some kinetic properties of soluble and bound [chicken] lactate dehydrogenase **isoenzymes** at different *temperatures*. 117657
Effect of *temperature* and **length** heating time in rice cooking. 1. Cooking of rice by pressure cooker. 1. 116469
The role of **low** *temperature* to control stored food pests [Fungi, mites, insects]. 116759
Effects of salt solution treatment and **low** *temperature* storage on the elongation, weight, fiber and lignin contents of post-harvested green asparagus spears. 117285
Effects of **low** *temperature* and maturity at harvest on keeping quality of white flesh peaches during their distribution. 117292
Relation between adaptive response to high and **low** *temperature* and the hair coat structure [in Black Pied cattle]. 117725
Variability of the adaptive response in cattle to **low** *temperature* and its relation to productivity. 117738
Effect of **low** *temperature* extension of buffalo semen on preservation and fertility. 118320
Studies on the seed germination of Bupleurum falcatum L. II. Methods of hastening of germination and storage of the seeds [with **low** *temperature* treatment]. 121334
Differing sensitivity of pyruvate orthophosphate dikinase to **low** *temperature* in maize cultivars. 121533
Polarized light spectroscopy on oriented spinach chloroplasts fluorescence emission at **low** *temperature*. 121605
The **low** *temperature* limit for [cucumber and mung bean] seed germination. 121742
Resistance of different species of maple [Acer] to **low** *temperatures* in Dnepropetrovsk. 121798
Studies on the resistance of Forsythias to **low** *temperatures* [Varieties, testing, Poland]. 122187
Studies on cool injury in bean plants. VII. Sensitive stages to sterile type **low** *temperature* injury during floral bud development in relation to nitrogen status of soybean plants. 123024
Flies will strike at **low** *temperatures* [in meat processing areas]. 123516
California encephalitis virus proliferation in Yukon [Aedes communis] mosquitoes incubated at **low** *temperatures*. 123615
The effect of some aspects of **low** *temperature* and radiation on the survival of Latheticus oryzae eggs. 123893
Effect of **low** *temperature* on the mortality of butterfly eggs (Lepidoptera). 124167
Effect of **lower** *temperature* on malate and glutamate dehydrogenase of chloroplasts in winter wheat. 121445
Isozymic composition of aspartate and alanine aminotranspherases from roots of maize cultuvated at **lower** *temperature*. 121447
Development of earliness to fruiting and boll maturity in cotton under low **maturation** *temperatures*. 121552
Tolerance of cotton to low **maturation** *temperatures*. 121554
Changes in the content of tryptophane in layers under the effect of the *temperature* and **moisture** regime of the environment. 117946
Effect of *temperature* on the **morphogenesis** of Asparagus officinalis Linn. 121719
The defective maturation of viral progeny with a *temperature-sensitive* **mutant** of avian sarcoma virus [Chick embryos]. 119041

A climate room for precise regulation of temperature and humidity in connection with a *temperature-regulated* **nest** site for wood ants [Formica polyctena]. 124119
Influence of **night** *temperature* and daylength on fruit shape of grapefruit [Sheepnosing]. 122967
Optimal *temperature* of continuous processes in the food industry. 116788
Determination of biologically **optimum** *temperature* [Animals]. 117852
Effect of *temperature* on some **polymorphic** characters of Mastigocladus laminosus Cohn. [Algae]. 121342
The carbon budget of a young apple tree [Photosynthesis, respiration, solar **radiation,** *temperature].* 121717
Influence of the **raffinating** *temperature* on the quality of thermomechanical pulp. 119763
Temperature, **rainfall** and humidity at different exposures of the "Monte Pisano" for two years period [Effects of climate on Pinus pinaster]. 119293
Comparative experiments on *temperature* **responses** of bryophytes: assimilation, respiration and freezing damage. 121169
A rapid method for measuring the acute toxicity of pulpmill effluents and other toxicants to salmonid fish at ambient **room** *temperature.* 125497
Effect of pre-sowing treatments and *temperatures* on **seed** germination of Acacia cyanophylla Lindl. 121669
Simple *temperature* regulation in fermentation and storage tanks. 116680
Damage to cereals caused by high **soil** *temperature.* 123036
The effect of **soil** *temperature* and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and tolerant variety of young tea (Camellia sinensis L.). 123040
Temperature-induced **species** competition in mass cultures of marine phytoplankton [Algae]. 120319
Hypersensitive response of near-isogenic wheat carrying the *temperature-sensitive* **Sr6** allele for resistance to stem rust [Puccinia graminis tritici]. 122705
Effect of initial internal temperature and **storage** *temperature* on the microbial flora of vacuum packaged beef [Quality]. 116197
Quality characteristics of vacuum packaged beef as affected by postmortem chill, **storage** *temperature,* and storage interval. 116203
Keeping quality of commercial butter oil stored at different **storage** *temperatures.* 116885
Effect of **storage** *temperature* on cell structure in post-harvested asparagus spears—light and electron microscopic study. 117284
Protein changes in response to *temperature* **stress** in papulaspora thermophila [Fungi]. 121288
Effect of **sub-freezing** *temperatures* on bud break of pecan [Carya illinoensis]. 121670
Pigment degradation in discs of the thermophilic Cucumis sativus [cucumber] as affected by light, *temperature,* **sugar** application and inhibitors. 121751
Effect of pH [hydrogen-ion concentration] and *temperature* on **three** mutants of Aspergillus clavatus Desm. [Fungi]. 121358
Is there a danger of mycotoxins in Hungarian salami? I. The influence of substrate, aw-value and *temperature* on **toxin** production in mixed cultures. 116121
High-temperature **treatment** (blindstoken) of bulbs of tulip cv [cultivar] Rose Copland for flower killing and yield improvement. 122402
Ultrahigh *temperature* heated milk and its aseptic conditioning. 116917
Characteristics of Sindbis **virus** *temperature-sensitive* mutants in cultured BHK-21 [baby hamster kidney] and Aedes albopictus (mosquito) cells. 123641
Effect of *temperature* and **warming** up time of potato tubers on detectability of the X, S, M viruses in by-stolon tuber parts. 122869
The influence of body size and *temperature* on **worker** ant respiration [Formicidae]. 124093

TEMPLATE
Phenobarbital stimulation of housefly [Musca domestica] **chromatin** *template* activity. 123984
Release of **DNA** *template* restrictions in rabbit spermatozoa and rat liver nuclei. 118343

TENANTS
Free Cultivation Scheme of Yavatmal District *[Tenant* **farming].** 115338

TENDERNESS
Meat *tenderness* and muscle structure. 117005

TENDON
Radial paralysis in a goat: treatment by *tendon* **transplantation** [Trauma]. 119290

TENEBRIO
Neuroendocrine control of moulting cycle in mealworms *[Tenebrio* **molitor]:** histology and autoradiography of cephalic components. 123580
Integument of *Tenebrio* **molitor** L. (Insecta; Coleoptera). I. Histology of larval integument. 123834
Interaction of *Tenebrio* **molitor** L. Alpha-amylase with a wheat flour protein inhibitor. 123912
An analysis of leucine tRNAs during the development of *Tenebrio* **molitor.** 123933
Structure activity relationships in some juvenile hormone analogs [Galleria mellonella, *Tenebrio* **molitor].** 123951

TENEBRIONIDAE
Species of the *Tenebrionidae* **genus** Microcrypticus Gebien 1920 (Coleoptera). 124457
Contribution to the study of **Malagasy** *Tenebrionidae* (Coleoptera). The genus Sphaerocaulus Fairmaire [New taxa]. 124222

TENSILE
Cationic starch in papers with high contents of bagasse pulp. I. Influence on *tensile* **properties** of kraft papers. 119768

TENSION
Irrigation timing for grain sorghum based on soil **moisture** *tension,* Texas High Plains. 125342
Relations between growth stresses and *tension* **wood** in beech (Fungus sylvatica L.) [Wood properties]. 119681

TENTHREDINIDAE
Nematinae of Finland. IV. (Hymenoptera, *Tenthredinidae)* The **genus** Pristiphora Latreille. 124386
The dynamics of larch sawfly (Hymenoptera: *Tenthredinidae)* **populations** in southeastern Manitoba [Larix laricina, pests]. 123454

TENUIS *see* MOLLUSKS

TENURE
Land *tenure,* speculation, and the state of the aging metropolis. 115233

TEOSINTE
Improvement of biochemical features of hybrids by crossing maize with *teosinte* **[Euchlaena].** 120705

TEPHRITIDAE
Experimental determination of the dispositon the cherry fly of Rhagoletis cerasi L. (Diptera, *Trypetidae)* to **fly.** 123371
Latest development in fumigation of papayas and other fruits [Pesticide **residues,** *Tephritidae].* 116221

TERATOGENESIS
Teratogenic **effects** of magnesium deficiency in rats. 116439
Lupin alkaloids from *teratogenic* and **nonteratogenic** lupins. IV. Concentration of total alkaloids, individual major alkaloids, and the teratogen anagyrine as a function of plant part and stage of growth and their relationship to crooked calf disease [Pregnant cows]. 119258
The role of nerves in the developing vertebrate limb: a *teratogenic* **plea** for re-evaluation [Includes chicks and ducks]. 117694

TERATOLOGY
Data on morphology, *teratology,* **postembryonic** development, faunistics and ecology of Myriapoda Diplopoda that are harmful to crops in Senegal. 124254
Populational-ecologic aspects of *teratology* of **woody** plants [Witches broom, Betula, Pinus]. 120455

TERMATOPHYLIDEA
Miridae of the **genus** *Termatophylidea* (Hemiptera) as predators of cacao thrips [Selenothrips rubrocinctus]. 123233

TERMINAL
The oxidation of *terminal* **D-galactofuranose** residues of a galactan and a glycoprotein by a D-galactose oxidase preparation from Dactylium dendroidces [Fungi]. 120996
Vasoactive intestinal peptide (VIP) from chicken. Synthesis and properties of the *C-terminal* **hendecapeptide.** 117616
Cytophysiological approach of two neuroendocrine interfaces of the hypothalamus: the median eminence and vascular organ of the *terminal* **lamina.** Radioautographic study of the duck. 117567
Enzymatic removal of the 5' *terminal* **methylated** blocked structure of tobacco mosaic virus RNA and its effects on infectivity and reconstitution with coat protein. 122834
The isolation of cholinergic **nerve** *terminals* from fleshfly heads [Sarcophaga barbata]. 123990
Cellular differentiation of *terminal* **regions** of trichomes of Oscillatoria princeps (Cyanophyceae) [Algae]. 120496

TERMINOLOGY *see* NOMENCLATURE

TERMITE
Termites and **book** lice (Isoptera and Psocoptera) discovered by pest controllers and introduced into the German Federal Republic. 123583
Ultrastructure of the *termite-associated* **fungus** Laboulbeniopsis termitarius. 120528
Reaction of *termites* **[Heterotermes** indicola] to weak alternating magnetic fields. 124104
Caste determination in the **higher** *termites:* evidence for a royal control on the formation of the sexual caste in Macrotermes bellicosus Smeathman (Isoptera, Termitidae). 123994
Nasute *termite* soldier fromtal gland secretions. 1. Structure of trinervi-2beta,3alpha,9alpha-triol-9-O-acetate, a novel diterpene from Trinervitermes soldiers. 124012
Nasute *termite* soldier frontal gland secretions. 2. Structures of trinervitene congeners from Trinervitermes soldiers. 124013
Influence of carbon sources on the production of the *termite* **[Reticulitermes** virginicus] trail-following substance by [the brown-rot fungus] Gloeophyllum trabeum. 121175
A developmental study of the *termite* **[Reticulitermes]-associated** fungus Coreomycetopsis oedipus. 123481
A comparison of two techniques for determining abundance of **subterranean** *termites* in an Arizona desert grassland. 123991

TERMITIDAE
Anaerobiosis in the queen of Macrotermes bellicosus Smeathman **(Isoptera,** *Termitidae).* 123992
Caste determination in the higher termites: evidence for a royal control on the formation of the sexual caste in Macrotermes bellicosus Smeathman **(Isoptera,** *Termitidae).* 123994

TERMITOMYCES
South Indian Agaricales. I. *Termitomyces* **[Fungi,** new taxa]. 120147

TERPENES
Naturally **occurring** *terpene* derivatives. 60. On a new diterpene from Melampodium perfoliatum (Carv.) A. Gray. 121001
Naturally **occurring** *terpene* derivatives, 62. On the constituents of Senecia abrotanifolius L. 121002
Naturally **occurring** *terpene* derivatives. 63. On the constituents of Heterotheca inuloides Cass. 121003

TERPENOID
Terpenoids of **Pterocarpus** santalinus leaves. 121806
Some morphological and chemical characteristics of the **purified** *terpenoid* particles of the latex of Hoya australis R.br. Ex Traill [and Euphorbia milii]. 116640

TERRACE
Utilization of *terraces* with a wide **base** for gully forest shelterbelts. 119412
Distribution of fruit trees **planted** on *terraces.* 122493
Species determination of charcoals from the **Stahlnhain** *terrace* (Hintertaunus). 120227

TERRAIN
The mixture problem in computer mapping of *terrain:* **improved** techniques for establishing spectral signatures, atmospheric path radiance, and transmittance [Remote sensing, vegetative cover]. 120368
Geomorphological expression of soil variations in the **sedimentary** *terrain* of Muttal & Salal areas of Udhampur district in Jammu Province of Jammu and Kashmir State. 124907
Incoming [solar] radiation fluxes on **sloping** *terrain:* a general model for use in Southern Africa. 115114
Mapping Florida in an ATV *[all-terrain* **vehicle,** soil mapping]. 124909

TERRAZOLE
The application and uses of *Terrazole* **soil** fungicide [Pythium, Phytophthora, water moulds, control, New Zealand]. 122594

TERRITORY
Effect of irrigation and application of fertilizers in sugarbeets on their production in the **Altai** *Territory.* 125243
Territorial **behaviour** in Heodes virgaureae L. (Lepidoptera, Lycaenidae) with particular reference to visual stimuli. 124117
Floristic relics from the southern part of the *territory* **east** of the Tisza River [Hungary]. 119995
New species of Aster from the Badzhal'skii Ridge **(Khabarovsk** *Territory).* 119965
Results of testing short stem spring wheat varieties from Mexico and USA in the **Krasnoyarsk** *Territory.* 122011
Effects of weather conditions on dynamics of Helminthosporium-Fusarium root rot on spring wheats in **Krasnoyarsk** *territory.* 122653
Results of long-term testing of the world collection of barley in the high-altitude conditions of Pamir. 3. Barley entries from Europe, Siberia and **Maritime** *Territory.* 121995
Supplies of available phosphates in the soils from the **Maritime** *Territory* and their variation under the effect of fertilizers and moistening. 124947
Criteria for evaluating flowing water pollution: comparative examination of the mycological, bacteriological and chemical parameters of the Ticino River in the **municipal** *territory* of Pavia. 125482
A study of helminth parasites in the gastrointestinal tract of the swamp buffalo, Bubalis bubalis Lydekker, in the **Northern** *Territory.* 118619
Plant succession on an active tundra mud slump, Garry Island, Mackenzie River Delta, **Northwest** *Territories* [Senecio congestus, Arctagrostis latifolia, Eriophorum scheuchzeri, vegetation]. 120333
Determination of copper, iron, nickel, and sulphur by X-ray fluorescence in lichens from the Mackenzie Valley, **Northwest** *Territories,* and the Sudbury District, Ontario. 120979
Estimate of the *territorial* **systems** in relation to the biologico-productive directions for livestock rearing. 115445
Evaluation of the *territorial* **systems** related to the biologico-productive localities of livestock [Programs]. 115994
Resources of underground water of increased mineralization on the *territory* of the **USSR,** their location, formation and prospects of utilization (1970-1974). 125234

TERTIARY
Palynology of the Legler lignite: a deposit in the *Tertiary* **Cohansey** Formation of New Jersey, U.S.A. 120253
A *tertiary* **relict**—Danae racemosa (L.) Moench. 119949
Combinations of spores and pollen from *tertiary* **sedimentary** deposits of the Oktemberian stratum. 120062
The effects of various *tertiary* **treatment** nutrient removal schemes on periphyton communities in model laboratory streams [Water resources research]. 125194
Study of a *tertiary* **treatment** of phosphorus removal from the wastewater treatment plant of Thonon-Evian. 125378

TESSARATOMA
Fourier analysis of the flight-sound of the pentatomid **bug** *tessaratoma* javanica Thunberg & the pressure pattern of its wings. 123970

TESTES
Biosynthesis of steroid sulfates by the **boar** *testes*. 118221
In vitro correction of Hurler fibroblasts with **bovine** *testicular* hyaluronidase. 117894
Effects of follicle stimulating hormone and luteinizing hormone on the incorporation of 32P [phosphorus isotope] into the *testis* of the **immature** Japanese quail. 117697
A study of the fluctuating factors in the seminiferous epithelial cycle in mice—with special attention to statistical studies on diurnal fluctuations and on variations due to testes and *testis* **loci** in the relative frequencies of the stages [Spermatogenesis]. 118365
Testis **metabolism** in protein deficiency: effect of PMS [pregnant mare serum] gonadotrophin and testosterone propionate [Rats]. 117766
Pituitary-testicular **responses** in rams to prolonged infusions of luteinizing hormone-releasing hormone (LHRH). 118226
A study of the fluctuating factors in the seminiferous epithelial cycle in mice—with special attention to statistical studies on diurnal fluctuations and on variations due to *testes* and **testis** loci in the relative frequencies of the stages [Spermatogenesis]. 118365

TESTOSTERONE
The binding and metabolism of *testosterone* by the **chick** oviduct. 118364
Plasma concentrations of *testosterone* in the **developing** ram in different social environments. 118355
Seasonal Profiles of plasma luteinizing hormone, *testosterone* and **estradiol** in the ram. 118257
Diurnal variations of **plasma** *testosterone* in stallions. 118225
Concentrations of fat and plasma 5 alpha-androstenone and **plasma** *testosterone* in boars selected for rate of body weight gain and thickness of back fat during growth, sexual maturation and after mating. 118347
Effects of ewe proximity on peripheral **plasma** *testosterone* levels and behaviour in the ram. 118351
Testis metabolism in protein deficiency: effect of PMS [pregnant mare serum] gonadotrophin and *testosterone* **propionate** [Rats]. 117766

TETANUS
Tetanus [**Clostridium** tetani] in the horse. Clinical course, prognosis, and prophylaxis [Bacterial infections]. 118682

TETANY
Prophylaxis of bovine **grass** *tetany* on the basis of final liquor of MgCl2 [magnesium chloride]. 4. The magnesium-substituting effect of MgCl2 final liquor in fertilization of single crops. 119171
Studies into incidence, pathogenesis, and prophylaxis of bovine **grass** *tetany*. 5. Mineral fodder ad libitum mixes or mineral feeding in the milking parlour for prophylaxis against grass tetany. 119176
Studies on incidence, pathogenesis, and prophylaxis of bovine **grass** *tetany*. 6. Prophylactic adlibitum feeding of magnesium-enriched mineral fodder. 119177
Studies on incidence, pathogenesis, and prophylaxis of bovine **grass** *tetany*. 7. Use of different magnesium sources in mineral mixes for cattle on pasture. 119178
Studies on the incidence, pathogenesis, and prophylaxis of **grass** *tetany* of cattle. 8. Magnesium-enriched pelletized coarse feed for prophylaxis against grass tetany. 119179
Studies on the incidence, pathogenesis, and prophylaxis of **grass** *tetany* of cattle. 9. Further experiments on the use of magnesium-enriched pelleted coarse feed for. 119180

TETRAACETIC
A note on the effect of ethylene **diamine** *tetraacetic* acid and ferrous ammonium sulphate on yield of Allium cepa [Onions]. 121778

TETRACYCLINE
Tetracyclin **residues** in the bones of animals and their behaviour during processing. 116136
Determination of residual amounts of the *tetracycline* **series** antibiotics in meat products. 116267

TETRAD
Genetic analysis of flocculation in Saccharomyces cerevisiae and *tetrad* **analysis** of commercial brewing and baking yeasts. 120724
Arrangement of some monosulcate, disulcate, trisulcate, dicolpate, and tricolpate pollen types in the *tetrads*, and some **aspects** of evolution in the angiosperms. 120504

TETRAHYDROISOQUINOLINE
Alkaloids of Carnegiea gigantea. Arizonine, a **new** *tetrahydroisoquinoline* alkaloid. 121241

TETRAKIS
The electrostatic properties of THPOH-NH3 *[tetrakis(hydroxymethyl)-phosphonium* **hydroxide-ammonium**] flame-retardant cotton fibric as they pertain to potential mill problems and performance properties. 117201

TETRALOPHA
Pine tip moth and pine webworm [Rhyacionia, *Tetralopha* **robustella**] control with carbofuran in north Florida. 123501

TETRANYCHIDAE
Effect of some nutritional plant sprays on the population of Tetranychus arabicus (Attiah) (Acarina, *Tetranychidae)* [for **controlling** mites]. 123223

TETRANYCHUS
Effect of some nutritional plant sprays on the population of *Tetranychus* **arabicus** (Attiah) (Acarina, Tetranychidae) [for controlling mites]. 123223
Ovicidal activity and its relation to chemical structure for the two-spotted spider **mite** *(Tetranychus* urticae Koch) in a new class of miticides containing the cyclopropyl group. 123241
New trial for the control of the two-spotted spider **mite** *tetranychus* urticae Koch, 1836, on cotton. 123330
Investigations on the identification of the species of red spider mites harmful to vegetables in Aegean region, and on biolgy, control measures and naturaly enemies of the two-spotted spider **mite** *Tetranychus* urticae (Koch.) which is the most widely distributed species among them. 123377
Toxicity of sodium fluoride for the spider **mite** *Tetranychus* urticae Koch. 123835
Development of sampling technique for estimating population of *Tetranychus* **neocaledonicus** Andre, infesting brinjal [eggplants]. 123360
Biology of the mite, Anystis agilis (Acari: Anystidae): a California vineyard predator *[Tetranychus* **urticae,** Erythroneura elegantula]. 123367
Plictran: testing mite [Panonychus ulmi, *Tetranychus* **urticae,** Typhlodromus pyri] populations for suspected resistance. 123430

TETRAPLOIDS
A study of *tetraploids* from the **cabbage** variety Likorishko Bjalo 7. 120638
Methodology of **obtaining** *tetraploid* forms of watermelon for the creation of heterotic hybrids. 120707
Depolyploidization of *tetraploid* **parthenogenetic** clones of silkworm [Bombyx mori] by the method of meiotic parthenogeneisis. 124506
Comparative study of diploid and *tetraploid* **tomatoes.** 120823
The correlations between different *tetraploid* **winter** rye characters and properties and their role in plant breeding. 120684

TETRASTICHUS
Ultrastructural morphology of two sensilla placodea on the antenna of a parasitic wasp *[Tetrastichus* **hagenowii].** 124132

TETRAZOLIUM
Tetrazolium **bromide** and pollen viability of sugarbeets (Beta vulgaris L.). 121411
Optimum *tetrazolium* staining of longleaf pine [Pinus palustris] seed [to estimate viability]. 121831

TETTIGONIIDAE
Comparative investigations about number and durations of the larval instars of *Tettigoniidae* (**Orthoptera:** Saltatoria). 1. 124177

TEXTILES
Physical studies on **color** of *cloths*. 116597
Application of energy dispersive X-ray anaylsis to *textile* [**cotton**] fibers. 117162
Use of electron spectroscopy for chemical analyses (ESCA) in a study of oil-repellent finishes [of *textiles,* **cotton** fabrics]. 117202
Effects of the dimension of *cloth* and the ways to **dry** on the drying rate. 116595
Catalytic effects in the reaction of methylolamide crosslinking agents with cellulose *[Textile* **fibers].** 116836
Contribution to quantitative analytical evaluation of pulp and *textile* **fibers** in fier webs by microscopic methods. 119769
Consumer **perceptions** of *textiles*. 116587
Soil-release and *textile* **propeties** of cotton/polyester-poly(methacrylic acid) copolymer fabrics. 117200
Electron spectroscopy for chemical analyses (ESCA)—a tool for studying **treated** *textiles*. 116188

TEXTURE
Induction of *textural* **changes** in sweetpotato roots by chilling [Hardcore, storage diseases]. 117281
Studies on "ann" (bean jam). 4. *Texture* of [**dried** 'koshi-ann', one of the Japanese bean products]. 117298
Degradation of the *texture* of **fruits** processed in syrup. Study on the hydrolysis of protopectin of apricots. 117267
Pre- and postharvest factors affecting *textural* **quality** of fresh asparagus. 121711
Nutritional value and acceptability by humans of **vegetable** *textured* proteins. 116546
Better *texture* for **vegetable** protein foods. 117250

THALASSINA
Natural enemies of **Bathycoelia** *thalassina* (Herrich-Schaeffer) (Hemiptera: Pentatomidae), a pest of cocoa in Ghana. 123226

THALASSIOSIRA
Kinetics of silicic acid uptake and rates of silica dissolution in the marine **diatom** *Thalassiosira* pseudonana [Algae]. 121207
Phytoplankton response to wastewater nutrient enrichment in continuous culture [Dunaliella tertiolecta, Phaeodactylum tricornutum, *Thalassiosira* **pseudonana,** Algae]. 121183

THALICTRUM
Alkaloids of *thalictrum*. XV. **Isolation** and identification of the hypotensive alkaloids of the root of Thalictrum lucidum. 121242

THELAZIASIS
Treatment and prophylaxis of *thelaziasis* of **calves** on large dairy farms. 119015

THELYPTERIDACEAE
The genus Christella Leveille, sect. Christella. Studies in the **family** *Thelypteridaceae*. XI. [New taxa]. 120169

THEOBROMA *see* STERCULIACEAE

THEOPHYLLINE
Contribution to the quantitative determination of coffein, *theophyllin* and **theobromin** with high pressure liquid chromatography. 116706

THERAPY
Flowering plants as a *therapeutic/environmental* **agent** in a psychiatric hospital [Horticultural therapy, chrysanthemum]. 122336
Experimental studies into the pathophysiology and *therapy* of **dehydration** of calves. 119160
Current aspects of **diet** *therapy* applied to patients with chronic difuse **glomerulonephritis.** 116560
Milk fever [Dairy cattle, *therapeutic* **feeding].** 119144
Description of an apparatus for **fluid** *therapy* in large animals. 118439
Calf diarrhoea. II. **Fluid** *therapy*. 119071
Fluid *therapy* in a calf with diarrhea. 119072
Heat *therapy:* method and application to control plant viruses [of pippin and stone fruit trees]. 122829
Horticultural *therapy* [and rehabilitaton] how it's working [Training, Canada]. 122230
Flowering plants as a therapeutic/environmental agent in a psychiatric hospital [**Horticultural** *therapy,* chrysanthemum]. 122336
Further studies on the *therapeutic* and **immunologic** aspects of generalized demodectic mange in the dog [Demodex canis]. 123638
Cholecystokinin and satiety: theoretic and *therapeutic* **implications** [Food intake]. 116355
Contributions of **microwave** *therapy* in the rehabilitation of pet animals [Dogs]. 118429
Therapy and **prophylaxis** of edema disease of piglets. 119034
Radiation *therapy* of canine and feline tumors. 118471
Shock *therapy* and anesthetic management in gastric dilatation-volvulus [Dogs]. 119120
Ultrasound *therapy* for animals. 118499

THEREVIDAE
The first record of an authentic Dialineura [gorodkovi] species in North America (**Diptera:** *Therevidae).* 124408
A revision of the therevine stiletto-flies (Diptera: *Therevidae)* of the **Ethiopian** region [New taxa]. 124246

THERIDIIDAE
Observation of non encysted spermatozoon in a spider belonging to the genus Phoroncidia (**Araneae,** *Theridiidae).* 123852

THERMAL
Studies into *thermal* **balance** of turkey hens. 2. Emission of heat. 117860
Studies on *thermal* **balance** of turkey hens. 1. Generation of heat. 117862
Peculiarities of the *water-thermal* **balance** of Vasyugan'ye and ways of transforming the nature of the areas of oligotrophic swamping [Drainage, afforestation]. 125232
The algal flora in the *thermal* **baths** of Montegrotto Terme (Padua). Its distribution over one-year period. 120080
Thermal **conductivity** of rapeseed. 117205

Thermographic study of lignin model compounds. VII. *Thermal* **decomposition** of ethylguaiacylmethane and diisoeugenol. 119750
The *thermal* **degradation** of tobacco. VI. Influence of extraction on the formation of some major gas phase constituents. 117071
Influence of fat on the *thermal* **destruction** of bacteria in sausage products. 116118
Activity patterns, body temperature and *thermal* **ecology** in two desert caterpillars (Lepidoptera: Sphingidae) [Hyles lineata, Manduca sexta]. 123882
Effective *thermal* treatment of meat products. 117036
Effects of fertilizer nitrogen applied to the paddy field and its absorption by rice plant. VI. Influence of a *thermal* **factor** on the soil ammonium nitrogen and the absorption of nitrogen by rice plant. 125051
Compensating for environmental variability in the *thermal* **inertia** approach to remote sensing of soil moisture. 124836
Thermal **infrared** photography of forest fire control. 119322
Experimental study on the *thermal* **insulation** of the typical clothing among aged women in Nagano district. 116596
Thermal **load** in cold storage places destined for the preservation of vegetable and fruit products [Equipment]. 117259
Mathematical modelling of *thermal* **pollution** in rivers. 125456
Discharge pattern of medullary respiratory neurones during *thermal* **polypnea** [Cats]. 117833
Effect of nisin [antibiotic produced by Streptococcus lactis] on reducing the *thermal* **process** in commercially sterilized milk. 116929
Thermal **properties** of 2-oleodipalmitin and 2-elaidodipalmitin and some of their mixtures. 116772
Evaluation of thermal X/5-detector Skylab S-192 data for estimating evapotranspiration and *thermal* **properties** of soils for irrigation management [Remote sensing]. 125257
Thermal and **radiative** effects of atmospheric aerosols in the northern hemisphere calculated using a radiative-convective model [Air pollution, climate]. 125392
Comparative studies of the moisture and *thermal* **regime** on the Andosol-Brown and the Andosol-Black soils in Tokachi district. 124890
Application of *thermal* **scanning** to the study of transverse mixing in rivers [Remote sensing, pollutants]. 125458
On *thermal* **stability** of monoarylglycol ethers. 119740
Forecasting the heterotic effect in seeds of agricultural plants by the method of *thermal* **testing.** 120704
Thermal **treatments** of cereals in animal nutrition. 117329
Evaluation of *thermal* **X/5-detector** Skylab S-192 data for estimating evapotranspiration and thermal properties of soils for irrigation management [Remote sensing]. 125257

THERMOCHEMISTRY

Thermochemical **polymerization** of monomers in wood. II. Comparison of styrol polymerization in various wood species. 119749

THERMOMETER

Thermometry of **temperature-sensitive** goods during shrink wrapping, shown by example of chocolate bars. 116791

THERMOPHILA

Protein changes in response to temperature stress in **papulaspora** *thermophila* [Fungi]. 121288
The fine structure of conidial development in the genus Torula. IV. **Torula** *thermophila* Cooney & Emerson [Yeasts]. 120446

THERMOPHILIC

Thermophilic **actinomycetes** from the environment [as human and animal pathogens]. 118845
Some biophysical aspects of anomalous ion uptake by *thermophilic* [**cucumber**] plant roots. 121784
Pigment degradation in discs of the *thermophilic* **Cucumis** sativus [cucumber] as affected by light, temperature, sugar application and inhibitors. 121751
Adaptive photosynthesis responses to temperature extremes by the *thermophilic* **cyanophyte** Synechococcus lividus [Algae]. 121197
Tactics of host exploitation by a *thermophilic* **water** mite [partnuniella thermalis]. 124078

THERMOPSIS

Germination of the seeds of [the drug plant] *Thermopsis* **alterniflora.** 120965

THERMOREGULATION

Effect of temperature conditions for individual development on the formation of productive qualities and specificity of *thermoregulation* in **cattle.** 117717
The role of different mechanisms of *thermoregulation* in **heat** tolerance of cattle. 117736
Inhibition of *thermoregulatory* **outflow** in conscious rabbits during periods of sustained arousal. 117825

THERMORESISTANCE

Occurrence and *thermoresistance* of **spores** of psychrophilic and psychrotrophic aerobic sporeformers in soil and foods. 124835

THERMOTHERAPY

Thermotherapy of **Cardinal** Rouge [Grape variety, virus diseases]. 122865

THIABENDAZOLE

R23979, a new imidazole derivative effective against postharvest decay of citrus by molds [Penicillium italicum, Penicillium digitatum, Geotrichum candidum] resistant to *thiabendazole,* **benomyl** and 2-aminobutane. 122760
Further studies on the efficacy of *thiabendazole* given in the **diet** of mice infected with Hymenolepis nana, Syphacia obvelata and Aspiculuris tetraptera. 119007
Complementary note on the determination of *thiabendazole* **residues** in citrus fruits and bananas. 116028

THIADIAZOLE

Fungitoxicity of some urea derivatives of 1, 3, *4-thiadiazole* **[Fungicides].** 122602

THIAMINE

Thiamin **deficiency** and the pentose phosphate cycle in rats: intracerebral mechanisms. 116440
Physiological studies on the effects of nutritional imbalance on the central nervous system: effects of *thiamine* **deficiency** on the regional protein metabolism in the brain of chicken, Gallus domesticus. 117642
Thiamin and **riboflavin** retention in meats cooked uncovered and in oven film. 116338
Thiamin and **riboflavin** retention in meats cooked uncovered and in oven film. 116339
Distribution and ecological significance of vitamin B12 and *thiamin* in **three** lakes [Water composition]. 125180

THICKENING

New development in the area of continuous **milk** *thickening* and curd processing. 116865

THICKNESS

Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in boars selected for rate of body weight gain and *thickness* of **back** fat during growth, sexual maturation and after mating. 118347
Bark *thickness* of 17-year-old loblolly pine [Pinus taeda] planted at different spacings. 119640
Seasonal variations in **coat** *thickness* of Jersey breed cows and their correlations with milk production. 117907
Influence of different *thickness* of **green** malt layers in kiln drying on the process method, malt quality, and efficiency of the kiln drier. II. 116787
A note on variation of **skin-fold** *thickness* of Brown Swiss X Sahiwal/Red Sindhi (Karan Swiss) calves. 117744
Increases in the *thickness* of **subcutaneous** fat in pigs [in relation to feeding and keeping conditions]. 117503

THIELAVIA

On *Thielavia* **angulata** and some recently described Thielavia species [Fungi, new taxa]. 120143

THIELAVIOPSIS

Ultrastructure of melanin formation in *Thielaviopsis* **basicola** [Fungi]. 120558
Thielaviopsis **root** rot of arum lily [Zantedeschia aethiopica]. 122679

THINNING

Mechanism of the *thinning* **action** of NAA [naphthaleneacetic acid] in Japanese persimmon (kaki) fruits. II. Effects of NAA applied at various stages of fruit growth on the induction of fruit drop and the activity of endogenous growth substances and some enzymes in fruit tissues. 122404
Mineral nutrients as *thinning* **agents** in 'Wilking' mandarin trees [Citrus reticulata]. 121674
Influence of sowing modalites and *thinning* on **alfalfa** seed yield. 122124
Yield from the **first** *thinning* [Pinus, Picea]. 119444
Growth following **initial** *thinning* of loblolly pine [Pinus taeda] planted on a cutover site at five spacings. 119639
Black turpentine beetle [Dendroctonus frontalis] infestations after *thinning* in a **loblolly** pine [Pinus taeda] plantation. 123500
Rationalization of *thinning* by the use of **logging** equipment. 119839

THIO

Synthesis of *thio-analogous* **Cannabis** derivatives. 121006

THIOCYANATES

Effects of nutritional characteristics of Streptococcus agalactiae on inhibition of growth by *lactoperoxidase-thiocyanate-hydrogen* **peroxide** in chemically defined culture medium. 118798

THIOL

Requirement of an **essential** *thiol* group and ferric iron for the activity of the progesterone-induced procine uterine purple phosphatase. 117794

THIOUREA

Time of *thiourea-KNO3* [**potassium** nitrate] application on the rest requirement and bud development in 'Loring' peach. 121682

THISTLES

Biology of the flea beetle, Altica carduorum (Coleoptera: Chrysomelidae) on **Canada** *thistle* (Cirsium arvense) in South Daota [used for biological control of weeds]. 123080
Weed **control**—*thistles* [Cirsium arvense]. 123053
Plumeless *thistle* [Carduus acanthoides]—an increasing problem in Minnesota pastures—identification and control. 123143

THORACIC

Determination of the body mass of young cattle on large farms by *chest* **girth.** 117501
The membrane potential of the *prothoracic* **gland** cells in Galleria mellonella. 124191
A *chest* **harness** and pole-leash for routine transfer of rhesus monkeys from home cage to behavioral test apparatus and back. 117463
Repair in arterial tissue; electron microscopy of evans blue vital stained embolectomy catheter lesion of the **rabbit** *thoracic* aorta. 119067
Studies on the external metamorphosis of Musca domestica nebulo Fabr. (Diptera, Cyclorrhapha, Muscidae). II. Metamorphic changes in the *thoracic* **region.** 124015
Intrathoracic **surgery** in the horse with a pictorial guide to partial lobectomy. 118578
Functional significance of *thoracic* **vagal** branches in the chicken. 117896

THREONINE

Adaptive response of lysine and *threonine* **degrading** enzymes in adult rats. 116417
Metabolism of liver triacylglycerols in rats tube-fed a *threonine-devoid* **diet.** 116497

THRIPIDAE

Miridae of the genus Termatophylidea (Hemiptera) as predators of **cacao** *thrips* [Selenothrips rubrocinctus]. 123233
Research in **controlling** *thrips* [Trips angusticeps] in field beans. 123357
On the occurrence of Bacillidium sp. A microsporidian parasite infecting some thrips larvae *[Thrips* **flavus,** Scirtothrips oligochaetus, cotton pests]. 123303
An Entomophthora sp. (Entomophthorales: Entomophthoraceae) [Fungi] pathogenic to Thrips spp. (Thysanoptera: *Thripidae)* and its **potential** as a biological control agent in glasshouses. 123394
The role of nicotine in plant protection [Control of aphids, *thrips* and **whiteflies.** 123227

THROMBICULIDAE

Controlling *chiggers* [Eutrombicula]. 123628

THROMBIDIIDAE

Observations on some Actinedida (=Prostigmata) in soils in North America. IV. A new larval form and its adult belonging to the subfamily of Microthrombidiinae (Acari, *Thrombidiidae)* [**New** taxa]. 124196

THROMBOSIS

Pulmonary arterial thrombo-embolism and pulmonary arterial mycoticaneurysms in cattle with vena **caval** *thrombosis:* a condition resembling the Hughes-Stovin syndrome. 119136
Septic *thrombosis* in a foal [Damage from migrating larvae of Strongylus vulgaris]. 119056

THYLAKOIDS

Comparative effects of several inhibitors of **chloroplast** *thylakoid* membrane synthesis in greening jack bean. 121621

THYMIDINE

The incorporation of *3H-thymidine* during **induction** of callus of excised barley embryos [by 2,4-D as a growth substance]. 121431
Thymidine **kinase** [in animals and plants]. 117879
Thymidine **metabolism** and DNA synthesis in Newcastle disease virus-infected cells. 118810
Incorporation of **tritiated** *thymidine* in germinal and somatic cells of the onion fly, Hylemya antiqua (Diptera: Anthomyidae), as determined by autoradiography. 123889

THYMUS

Comparative study of X-ray action (LD 50/30) on the *thymus* and **bursa** Fabricii of young Wyandotte breed chicks (Gallus domesticus). 117916
Quantitative study of secondary structure of [**calf** *thymus]* histones H1, H2A, and H4 in solution by infrared spectroscopy. 117666
The action of ionizing radiation on [**calf** *thymus]* DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: spin transfer in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
Early post-embryonic changes in protein metabolism and DNA synthesis in the *thymus* of **chicks,** normal and infected with Salmonella pullorum; autoradiographic study. 118928
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] labelled wheat. 3. Blood, liver, spleen, *thymus,* **kidneys,** brain, pancreas, "labile" N reservoir. 118004
Transformation of a vital form of a dwarf semishrub in two Caucasus **species** of *Thymus.* 120971

THYROGLOBULIN

Comparative investigations on *thyroglobulin* **biosynthesis** in rabbit and guinea-pig thyroid in vitro. 117655
On the immunological detection of *thyroglobulin* **peptides** synthesized in cell-free system [Sheep thyroid glands]. 117600

THYROID
Properties of the interaction between bovine thyrotropin and **bovine** *thyroid* plasma membranes. 117791
A radioimmunoassay for **bovine** *parathyroid* hormone. 117832
Ultrastructural evaluation of parathyroid glands and *thyroid* **C-cells** from cattle fed solanum malacoxylon. 117890
An ultrastructural and cytochemical study of aging in the *thyroid* of the **domestic** cat. 117882
Ultrastructural and biochemical evaluation of *parathyroid* **function** of pregnant cows administered disodium ethane-1-hydroxy-1,1-diphosphonate (EHDP) and fed a low calcium prepartal diet. 117889
Study on the *thyroid* **function** of Thoroughbred horses by means of "in vitro" 125I-T3 modified and 125I-T4 tests [iodine isotope]. 117909
Study on the *thyroid* **function** of Thoroughbred females in varying stages of pregnancy, using "in vitro" tests 125I-T3 and 125I-T4 [Iodine isotope, horses]. 118392
Ultrastructural evaluation of *parathyroid* **glands** and thyroid C-cells from cattle fed solanum malacoxylon. 117890
Morphology and topography of *parathyroid* **glands** of cattle. 117925
Histological observations on the *thyroid* **gonad** relationship in male crossbred (New Hampshire x White Cornish) chicken. 117742
Comparative investigations on thyroglobulin biosynthesis in rabbit and **guinea-pig** *thyroid* in vitro. 117655
Genetic determinants of *thyroiditis* in the **OS** chicken. 119199
On the immunological detection of thyroglobulin peptides synthesized in cell-free system [**Sheep** *thyroid* glands]. 117600
Further studies on adaptation of sheep pox virus in **sheep** *thyroid* and sheep kidney monolayers. 118753
Effect of ascorbic acid on the *pituitary-thyroid* **system** in the rat. 116413
Fine structural and biochemical investigations of pheochromocytomas in bulls with C-cell (ultimobranchial) neoplasms of the *thyroid* **(UBT).** 119187

THYROTROPIN
Properties of the interaction between **bovine** *thyrotropin* and bovine thyroid plasma membranes. 117791
Prolactin-releasing factor (PRF) in porcine hypothalamic extract distinct from TRH *[thyrotropin-releasing* **hormone].** 118256

THYROXINE
Role of insulin, *thyroxin* and **cortisol** in luteinization of porcine granulosa cells grown in chemically defined media. 117612

THYSANIEZIA
Chemoprophylaxis for Anoplocephala to infestations of sheep **[Moniezia,** *Thysaniezia].* 119020

THYSANOPTERA
Thysanoptera of the **genus** Dichromothrips on Old World Orchidaceae. 123375
An Entomophthora sp. (Entomophthorales: Entomophthoraceae) [Fungi] pathogenic to Thrips spp. *(Thysanoptera:* **Thripidae)** and its potential as a biological control agent in glasshouses. 123394

THYSANURA
Ultrastructural modifications in the vesicular glands of the Machilidae (Insecta, *Thysanura)* during the **moulting** cycles. 124193
Thysanura of **Portugal.** II. Machilis sacarroi and Machilis fernandesi, two new species of the central-western area of Portugal. 124245

TIBIA
Electron microscopic localization of lactate dehydrogenase in osteoclasts of chick **embryo** *tibia.* 117704

TICKS
Study of Rickettsia living within *ticks* **(Acarina;** Ixodoidea) in southeastern France. First statement: Ecological context of encounter with humans. 123609
Studies on Theileriidae (Sporozoa) in Tanzania. I. *Tick* **[Amblyomma** variegatum] transmission of Haematoxenus veliferus. 123673
Field assay of the pesticide [used against *ticks* on **cattle]** 2-chloro-1-[2,4-dichlorophenyl] vinyldiethylphosphate. 123664
Neurosecretory activity as related to feeding, mating, and oogenesis in the female **cave** *tick,* Ornithodoros tholozani. 124048
Influce of host-parasite interations on the population **dynamics** of *ticks.* 123645
The ecology of the virus of *tick-borne* **encephalitis** in the natural foci in the Olomouc district [Ixodes ricinus]. 123618
Ecology of Ixodes triangulicaps Bir. In Moldavia [Vector of *tick* **encephalitis].** 123655
Pleomorphism of Rickettsia akari in *ticks* of **Hyalomma** dromedarii Koch. 123836
Ticks **[Hyalomme,** Rhipicephalus, Boophilus decoloratus] from the African buffalo (Syncerus caffer) in Ngamiland, Botswana. 123654
Effects of 60Co [cobalt isotope] irradiation of the early developmental stages of an **ixodid** *tick,* Hyalomma anatolicum. 124010
Possible role in uptake of water vapour by **ixodid** *tick* [Amblyomma americanum] salivary glands. 124049
Tick **paralysis** in a sheep caused by nymphs of Amblyomma variegatum. A preliminary report. 123681
Studies on some biologic properties of Argas **persicus** *[Ticks].* 123676
Cell cultures derived from the developing adults of three species of *ticks,* by a **simplified** technique [Haemaphysalis spinigera, Haemaphysalis obesa, Rhipicephatus sanguineus]. 123636
The fine structure of merozoites of Babesia bovis in the gut epithelium of Boophilus microplus *[Ticks* as **vectors** of protozoan diseases of cattle]. 123653

TIDE
Tidal **energy** subsidy and standing crop production of Spartina alterniflora. 120350

TILES
Nitrate-nitrogen in *tile* **drainage** effluents [Denitrification, water pollution]. 124873

TILIA
Anatomical and linden histochemical study of the shoots of *[Tilia]* from **ornamental** plantings in Moscow. 120417
Indicator properties of tree barks in the emmission area of Frankfurt a. M. [Fraxinus excelsior, Acer **platanoides,** *Tilia].* 120338

TILIACEAE
Jute: **Corchorus** spp. *(Tiliaceae).* 121949

TILIACORA
Constituents of West African medicinal plants. XV. Dinklacorine, a new biphenyl dibenzodioxin alkaloid from *Tiliacora* **dinklagei.** 121250

TILLAGE
1975 *no-till* **corn** herbicide results in northeast Iowa. 123171
Herbicides for *no-tillage* **corn** in alfalfa sod [Weed control]. 123210
No-till **corn** and double-cropped wheat and soybeans [Tillage]. 125173
Alternation of ploughing and *disk-tillage* in **cultivation** of maize on slopes. 125139
No-till **dryland** grain sorghum after irrigated wheat with intervening fallow. 125147
RX [prescription] for erodible Southern soils *[No-tillage* **farming].** 125088
Preparation of soils for sugarbeets. Research on the homogeneity of the cultural profile, preparation in **flat** *tillage.* 125106
Soil improvement and yield of sugarcane in the Sudan *[Tillage,* **gypsum** application]. 125135
Evaluation of *tillage* and **herbicides** for grain sorghum surface residue management in an irrigated wheat-sorghum-fallow cropping sequence. 123754
Long-term *tillage* experiments. 125097
Extended uses of the split wheel for measurement of tangential stress *[Tillage* **machinery].** 124736
Water permeability of frozen soils after different methods of **main** *tillage.* 124900
No-till **management** of furrow irrigated continuous grain sorghum. 125343
Minimum *tillage:* summary of cotton belt results. 125115
Modeling of soil formation on various *tills* **[Moraines** and sands]. 124902
Preparation and management of soils for growing **potatoes** *[Tillage].* 125105
Effect of different *tillage* **practices** on the biological activity of soil and the yield of sunflower. 122146
Boulbene soils [local type of soil in Aquitaine] and their **problems** in *tillage.* 125100
Effects of reduced cultivation on soil conditions and root development of cereals: Joint *[Tillage]* **Project** with the aRC [Agricultural Research Council] Weed Research **Organization.** 125096
Effects of fertilizer N [nitrogen] and number of years in *tillage* on the **protein** and non-protein content of feeding barley grain (cv. [Cultivar] Nessa) and on N uptake and recovery. 125015
Effects of fertilizer nitrogen and number of years in *tillage* on the **protein** content of feeding barley straw (cv. [Cultivar] Nessa) and on N uptake and recovery. 125016
Effect of methods of major **soil** *tillage* on the yield of crops in a rotation with sugarbeets. 121975
Effectiveness of combining presowing **soil** *tillage* and the sowing of sugarbeets in the conditions of irrigation in Kirghizia. 121977
Joint effect of irrigation, fertilizers and **soil** *tillage* on the productivity of sugarbeets. 121979
Major and presowing **soil** *tillage* in crop rotations with sugarbeets in Kirghizia. 121980
Ways of improving the system of **soil** *tillage* in a crop rotation with sugarbeets and specifically for this crop in the conditions of irrigation. 121988
Effect of **soil** *tillage* on a slope on the yield of the maize green mass. 122147
Erosion and *zero-tillage* of **soil** in perenniel culture. 125103
Rooting of tobacco and *tillage* of **soil.** 125107
Soil *tillage* in culture systems. 125108
Effect of different methods of main **soil** *tillage* on the alteration of its volumetric weight and the yield of farm crops [Wheat, sugarbeets]. 125157
Improvement of anti-erosion practices of **soil** *tillage.* 125158
Herbicide combinations for *no-tillage* **soybean** production. 123131
Weed control systems for *no-till* **soybeans.** 123165
No-till corn and double-cropped wheat and **soybeans** *[Tillage].* 125173

TILLERS
Mobility of water and the activity of adenosinetriphosphatase in the *tillering* **node** of winter wheat. 121496
Activity of some oxidation-reduction enzymes in the hyaloplasm isolated from *tillering* **nodes** of winter wheat. 121491
Studies on large vascular bundles in paddy rice plant and panicle formation. III. Relationship between the changes in the number of large vascular bundles in the *tillers* and the **panicle** formation. 120536

TIMBER
About the **combined** *timber* enterprise. 119654
Soybean variety performance in the **Cross** *Timbers* Area of North Central Texas. 122093
Timber **demand** and timber supply. I. 119727
Timber **demand** and timber supply. II. 119728
Developing *timber* management plans that reflect opportunities for intensive **management.** 119466
Optical vs. Electronic enhancement of remote sensing imagery [for information as to the amount and condition of such earth resources as *timber,* **forage,** soils, water, minerals and agricultural crops. 125487
Grading **hardwood** *timber* reliably. 119690
Evaluation of ergonomic factors in comparisons of technological variants in *timber* **harvesting.** 119837
Silvicultural considerations in *timber* **inventory.** 119506
Physical and mechanical properties of some *timbers* from **Java.** 119754
Timber **marketing** by the Northern Pacific Railway, 1920-1952 [History]. 119724
How to market your *timber* for more **money.** 119653
Labor expenditure for lumbering, *timber* **plantations** and forest care in Plenter Forest [Switzerland]. 119508
Proper dry kiln operation *[Timber* **processing].** 119698
The integration of manual and automatic image analysis techniques with supporting ground data in a multistage sampling framework for *timber* **resource** inventories: three examples [Remote sensing]. 119499
A cull estimation method for use in forest inventory and *timber* **sale** cruises. 119461
Study of the **selected** *timber* forest: the communal forest of Saint Laurent in Grandvaux (Jura). 119509
Harvesting a hobby *[Timber* **stand** improvement, Pinus]. 119637
The pine, a versatile **standard** *timber.* 3. Central American pines [Pinus, lumber industry]. 120036
The pine, a versatile **standard** *timber.* 4. The pines of southeastern Asia [Pinus, lumber industry]. 120037
Timber demand and *timber* **supply.** I. 119727
Timber demand and *timber* **supply.** II. 119728
Timber **supply** review [Australia]. 119827
Timber **trees.** 119598
Timber **type** separability in southeastern United States on LANDSAT-1 MSS [multispectral scanner] data [Remote sensing]. 119500
Timber **yields** from research plots and from real forests. Why are they different? 119530

TIMBERLINE
Studies on upper *timberline:* **morphology** and anatomy of Norway spruce (Picea abies) and stone pine (Pinus cembra) needles from various habitat conditions. 120443
Water deficits in *timberline* **trees** [Eucalyptus pauciflora] in the snowy mountains of southeastern Australia. 121822

TIME
Forms and *time* of **application** of nitrogenous fertilizers in winter cereals. 124940
Effect of the levels and *time* of the **application** of nitrogenous fertilizers on the yield and quality of winter wheat grain. 125076
Effect of *sowing-time* **applied** fertilizer against the background of the main application on the yield of spring wheat. 125075
Is the *time* of the **beehouse** and side-opening beehive past? 124494
The *time* **course** of flocculation of diluted dispersions of microcrystalline cellulose [Sedimentation]. 119791
Time **dependent** effects on contractile properties, fibre population, myosin light chains and enzymes of energy metabolism in intermittently and continuously stimulated fast twitch muscles of the rabbit. 117877
Studies on the promotion of snow melting in a grassland. 2. Meteorological and climatological consideration on **desirable** *time* for scattering black powders and the period of the promotion of snow melting. 125345

Heterochromatin and *timing* of **DNA** replication in morabine grasshoppers [Moraba virgo]. 123964
Influnce of **dwell** *time* of dissolved fibers in cooking liquor on the yield of paper pulps. 119781
Studies on the seed germination of Bupleurum falcatum L. I. Influence of the *time* **elapse** after seed harvest and light conditions on the germination. 121333
Influence of the dates of tuberization and sprouting in yam tubers (Dioscorea sp.) on the **emergence** *time* in the field. 121589
Brachiaria brizantha. Best **fallow** *time* [Forage crop cultivation]. 122106
Study of the effect of the *time* of **farrowing** and the type of harrows on the weediness and yield of barley. 122150
Effect of *time* **feeding** on performance of laying hens during hot weather. 118078
Inheritance of *time* to **flowering** and its relationship to crop maturity in cucumber. 120767
Reducing **flowering** *time* in Aphelandra squarrosa Nees with high pressure sodium lighting. 121678
Digestibility and nutritive value of pangola grass (Digitaria decumbens Stent) in relation to nitrogen fertilization and **harvesting** *time* [Lambs fattening]. 118044
Effect of temperature and length **heating** *time* in rice cooking. 1. Cooking of rice by pressure cooker. 1. 116469
Cork-board for covering soils; variation of dimensions as a function of relative **humidity** and *time*. 125134
Uterine luminal proteins at the *time* of **implantation** in rats. 118362
Relationship of plant population of the sunflower (Helianthus annuus L) to NP [nitrogen phosphorus] fertilization and **irrigation** *time*. 122132
Irrigation *timing* for grain sorghum based on soil moisture tension, Texas High Plains. 125342
Lead *time* for assessing land use: a case study [Colorado]. 115298
Determination of demand for **leisure** *time* and recreation [Land development program]. 115223
Private land area and **leisure** *time* research [Recreation use of land]. 115286
Are test markets a waste of *time* and **money?** 115606
Rates, methods and *time* of **nitrogen** application [Wheats]. 125011
Optimum *time* of first irrigation [Wheat]. 125289
Glyceryl guaiacolate **paralysis** *time* in rats pretreated with some microsomal drug metabolizing enzyme inducers. 118458
Change of the chemical composition of soils and water during a *time* **period** as a result of flooding. 125217
Modelling of aquifer behaviour for long *time* **periods** using interactive analogue-digital computers. 125241
Practical report on the manufacture of Gouda cheese according to *time* **plan.** 116866
"Now it is *time* to **plant**" or "you can plant anytime": ideas on greater use of container plants for selling. 119580
Time of **planting** and lifting of elite [seed] potatoes when growing them on a virus-free basis in the Voronezh Region. 122870
Effect of temperature and warming up *time* of **potato** tubers on detectability of the X, S, M viruses in by-stolon tuber parts. 122869
Timing of the **pre-winter** cut and relations between the species forming a polyphytic meadow [Grasses]. 122140
Flies [Diptera] and their hygienic importance in *leisure-time* and **recreational** areas. 123648
Notes on Limnephilus hirsutus Pict. (Trichoptera, Limnephilidae) [Recorded for the **second** *time* in Norway]. 124375
Effect of the *time* of **seedling** raising on the yield of cauliflower. 122282
If you believe in health foods, now's the *time* to **sell** out! 116529
Effectiveness of rearing broilers in cages under different *timing* of **slaughter.** 117450
Studies on the effect of **storage** *time* and conditions on physical characteristics of some powdered pesticides. 123689
Time to **strike** back! [Legally-available drug controversy]. 118565
Time-motion **studies** focus on feedlot waste efficiency. 125424
Food intake, dietary supplements and **survival** *time* of scorbutic guinea pigs. 116496
Time of **thiourea-KNO3** [potassium nitrate] application on the rest requirement and bud development in 'Loring' peach. 121682
Rubber hydrochloride: **useful** *'old-timer'* [Packaging materials]. 116746
Heterogeneity of soluble proteins from the cytoplasm in leaves of wintering plants [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the *time* of the **year.** 121494

TIPBURN

The effect of growth rate on *tipburn* [**injury**] occurrence in lettuce [Calcium utilization]. 122976

TIPULA

Leatherjackets *[Tipula* **paludosa,** field crop pests]. 123270

TIPULIDAE

Density and composition of crane fly larvae (Diptera, *Tipulidae)* from an **alpine** wet meadow at Stigstuv, Hardangervidda, south Norway. 124112
Type specimens of *Tipulidae* **described** by R. W. Doane in the collection of the California Academy of Sciences. 124388
Additions to the crane flies of California (Diptera: *Tipulidae)* [**New** taxa]. 124396

TISSUES

Testing of conifers on frost hardiness and biochemical changes in *tissues* **accompanying** increasing frost hardiness. 121828
Adipose *tissue* cell size and lipolysis in the rat: response to exercise intensity and food restriction. 116418
Fatty acid composition of **adipose** *tissue* and liver fats of the rats fed yeast grown on n-alkanes. 116455
The influence of breed of rat on protein efficiency ratio (PER), skeletal muscle and **adipose** *tissue* growth. 116510
Cellularity of **adipose** *tissue* in meat animals. 117682
Intermediary metabolism of [ruminant] **adipose** *tissue*. 117683
Theoretical model of ruminant **adipose** *tissue* metabolism in relation to the whole animal. 117685
Oxidative phosphorylaion in brown **adipose** *tissue* mitochondria from rats kept under normal environmental conditions. 117780
Antibiotic residues and their recovery from **animal** *tissues* [Meat, residues]. 116187
Repair in **arterial** *tissue;* electron microscopy of evans blue vital stained embolectomy catheter lesion of the rabbit thoracic aorta. 119067
A study of **autogenous** *tissues* transplants for the repair of canine collateral ligaments of stifle joint [Injuries]. 119243
The fine structure of pea root nodules. 2. Senescence and disintegration of the **bacteroid** *tissue* [Rhizobium leguminosarum]. 120530
Protein metabolism in **broiler** *tissues* at different levels of energy in feeding rations. 118173
Metabolism of 2,4-dichlorophenoxyacetic acid. 10. Identification of metablites in rice root **callus** *tissue* cultures. 121513
Studies on the occurrence of isozymes of alkaline phosphatase in various *tissues* of **cattle** and sheep. 117861
A new hypothesis of contact guidance in *tissue* **cells** [Chick heart fibroblasts]. 117671
A simplified method of determining the content of meat protein free of **connection** *tissue* protein in meat products. 116970
The effect of fetal bovine serum on polyene macrolide antibiotic cytotoxicity and antifungal activity [for control of *tissue* **culture** contamination]. 117740
Cytopathic effect of *tissue* **culture** adapted strain of rinderpest virus in different cell systems. 118729
Development of Sarcocystis hirsuta (=Sarcocystis fusiformis) in *tissue* **culture** [of chick fibroblasts] after inoculation with sporozoites [obtained from dog intestine]. 118927
Tissue **culture**—a future source of planting stock [for reforestation]. 119618
Freeing tobaco from mycoplasmic stolbur infection by the method of *tissue* **culture.** 120343
Propagation of rhododendrons by *tissue* **culture.** 1. Development of a culture medium for multiplication of shoots. 121630
Tissue **culture** in plant research and the ornamentals industry. 121632
Organogenesis in *tissue* **culture** of the greenhouse carnation (Dianthus caryophyllus L.). 121660
Tissue **culture** and differentiation of garlic. 121683
Mass production of Boston fern [Nephrolepsis exaltata] through *tissue* **culture.** 122233
Nursery understanding of *tissue* **culture** [Ornamental plants, propagation]. 122237
Using *tissue* **culture** for vegetatively propagating and improving asparagus production and quality. 122264
Vegetative propagation of Hemerocallis—including *tissue* **culture.** 122265
Establishment of *tissue* **cultures** of cotton. 121539
Regeneration of strawberry plants from *tissue* **cultures.** 121631
The grass Zingeria [biebersteiniana] with a low chromosome number—a new model object for the culture of plant cells and *tissues* [**Effect** of mutagenic agents on ploidic composition of populations]. 120624
Gibberellin-like substances in the **endosperm-nucellus** *tissues* of the developing almond, Prunus amygdalus Batsch cultivar Jordanolo. 121706
Distribution of residual DDT anounts in organs and *tissues* of **fish** in the Kiev water reservoir. 123761
Concentration of pigeon pox virus in different *tissues* and **fluids** of chick embryos. 118749
Tissue-specific **forms** of actin in the developing chick. 117627
Mechanism of the thinning action of NAA [naphthaleneacetic acid] in Japanese persimmon (kaki) fruits. II. Effects of NAA applied at various stages of fruit growth on the induction of fruit drop and the activity of endogenous growth substances and some enzymes in **fruit** *tissues*. 122404
Effect of acetone fixation on rabies immunofluorescence in **glycerine-preserved** *tissues* [Mice]. 118694
Quantitative gas chromatographic analysis of dimethoate and several metabolites in rape, quail, and **grasshopper** *tissues* by derivatization. 123723
Concentrations of intermediate metabolites in the blood and **hepatic** *tissues* of pregnant and non-pregnant ewes. 117755
The chick chorioallantoic membrane as a model system for the study of *tissue* **invasion** by viral transformed cells. 118674
Distribution of **lymphatic** *tissues* in duck caeca [Immunolbiological studies]. 117841
Measurement of basis weight and moisture on a *tissue* **machine** [Paper properties and processing]. 119783
Utilization of volatile fatty acids in ruminants. 8. Acetate activation in **mammary** *tissue* [cows]. 117752
Use of preformed cell aggregates and layers to **measure** *tissue-specific* differences in intercellular adhesion [Chick embryos]. 117651
Galactosyltransferase activities during embryonic development of chick **neural** *tissue*. 117593
Rat strain differences in cyclic-AMP [adenosine monophosphate] levels in liver and epididymal fat **pad** *tissue* as influenced by glucagon. 116438
Investigations on the ductility of **phloem** *tissues* of pines (Pinus sylvestris) in relation to resin gall formation. 121837
Plant *tissue* culture media. 119893
Plant *tissue* below the electron scanning microscope. 7. The roots. 120522
Effect of 1-silatranylmethylic ester of 3-indoleacetic acid on the growth of cultures of isolated **plant** *tissues*. 121030
Nitrogen nutrition of Myriophyllum spicatum: variation of **plant** *tissue* nitrogen concentration with season and site in lake Wingra. 121068
Biotransformations with **plant** *tissue* cultures [Catharanthus roseus, Apocynum cannabinum, and Conium maculatum]. 121246
The significance of unstirred layers for the kinetics of carrier mediated transport in **plant** *tissues* [of ion and other substances]. 121386
Plant *tissue* culture [in modern plant propagation]—possible applications in the New Zealand nursery industry. 122238
Conjugation in Agrobacterium fumefaciens in the absence of **plant** *tissue*. 122805
Biological evaluation of soy residue protein: studies on PeR [protein efficiency ratio], plasma and *tissue* **protein** level and growth response in albino rat. 118076
Determination of the rate of synthesis and catabolism of *tissue* **proteins** in chickens. 117932
Concentration of glycoproteins in the *tissue* of the **scorpion** Heterometrus scaber (Thor.). 123969
Hog cholera. I. Immunofluorescent diagnosis using *tissue* **sections** and blood smears. 118692
The use of Orgotein in the treatment of **soft** *tissue* injuries of the horse. 119247
Carbohydrate content of various **spruce** *tissues*. 119730
Evidence for a factor that **stimulates** *tissue* maceration by pectolytic enzymes [Aspergillus japonicus, Fungi]. 121316
Strawberry *tissue* culture. 122331
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, yield amount, morphology and *tissue* **structure** of leaves in summer barley varieties. 122610
Interstitial fluid oncotic pressures in rabbit **subcutaneous** *tissue*. 117539
Transport and accumulation of di- and monosaccharides in **sugarbeet** *tissues*. 121581
The conditions of the mycelium of the pathogen Peronospora [schachtii] in the *tissue* of **sugarbeet** varieties differing in their resistance. 122784
A carrier protein for juvenile hormone in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with epidermal **target** *tissue* in vitro. 123517
Gas-liquid chromatographic determination of iodofenphos [pesticide] and several related compounds in *tissues* and **urine** of cattle. 123720
Development and growth of the plant tip on Acnistus arborescens. II. Development of the procambium and the **vascular** *tissues* of the leaf, and growth of the foliar blade. 121343
Study of ringerpest **virus** *(tissue* culture adapted strain) with reference to its infectivity and plaque formation in different cell system. 118739
A messenger RNA for capsid protein isolated from tobacco mosaic **virus-infected** *tissue*. 122872
Study of carbohydrate content of various deciduous **wood** *tissues*. 119744

TITRATION

Titration of **African** swine fever (ASF) virus. 118791
Titration **behavior** of individual tyrosine residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798
Determination of nitrogen in biological materials by the method of **biamperometric** *titration* [Milk, meat, plants]. 116825
Determination of iron in agrochemical objects [soil and plant material] by the method of **bi-amperometric** *titration*. 124754
Molting **hormone** *titer* changes and their significance during development of the Colorado beetle, Leptinotarsa decemlineata. 124047
Titrimetric **microdetermination** of L-cysteine hydrochloride separately and in the presence of other natural amino acids. 116833

TOBACCO

Studies on the virus diseases and their ratio in *tobacco* in **Adana** and Hatay provinces. 122824
Residue levels of fatty compounds and surfactants as suckering **agents** on *tobacco*. 117070
Moisture diffusion in the cured **burley** *tobacco* leaf. 117203

Effects of DPX-1840 [3,3a-dihydro-2-(p-methoxypnenyl)-8H-pyrazolo (5,1-a) isoindol-8-one] and chlorflurenol on growth and redifferentiation of *tobacco* **callus** in vitro. 121521
Sensitivity of *tobacco* to **chromium** from mechanical draft cooling tower drift. 122910
Poros, a new **cigar** *tobacco* variety of the German Democratic Republic. 121878
Ammonium tolerance of *tobacco* **cultivars** with different nicotine contents [Toxicity]. 122938
Cell-wall column chromatographic identification of the native cell-wall acid phosphatase of **cultured** *tobacco* cells. 121532
High temperature inactivation of cucumber and alfalfa mosaic viruses in Nicotiana rustica **cultures** *[Tobacco].* 122814
Moisture diffusion in the **cured** *burley* tobacco leaf. 117203
Juvenile hormone effects on the prepupal and pupal stages of the *tobacco* **cutworm,** Spodoptera litura Fabricius (Noctuidae: Lepidoptera). 123301
Metabolism of N,N'-diphenylurea by **cytokinin-dependent** *tobacco* callus: identification of the glucoside. 121423
Chemical suppression of the symptoms of two virus **diseases** [of *tobacco].* 122813
Protect your *tobacco* from **diseases.** 122927
Biosynthetic studies with 13CO2 [carbon dioxide isotope] of secondary plant metabolites. Nicotiana alkaloids. 1. Initial **experiments** *[Tobacco].* 121516
U.S. *Tobacco* **exports** in fiscal 1976 reach record value on reduced volume [Statistics]. 115637
Pyrolytic formation of polynuclear aromatic hydrocarbons from petroleum ether extractable constituents of **flue-crued** *tobacco* leaf. 117123
Production of **flue-cured** *tobacco* plants. 122031
Free-world *tobacco* supply and distribution, 1965-1980; an evaluation. 115636
Ditylenchus dipsaci (Kuhn) Filipjev, the agent responsible for vermicular disease or lodging of *tobacco* in **French** Switzerland. 123034
Scanning electron microscopy of syncytial transfer cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, **Heterodera** *tabacum].* 122716
Spectral characterization of microrome P-450 from the midgut of the *tobacco* **hornworm,** Manduca sexta J. 123988
Purification and characterization of the carrier protein for juvenile hormone from the hemolymph of the *tobacco* **hornworm** Manduca sexta Johannson (Lepidoptera: Sphingidae). 124018
Changes in soluble proteins in callus cells of **hypersensitive** *tobacco* inoculated with tobacco mosaic virus. 122838
The thermal degradation of *tobacco.* VI. **Influence** of extraction on the formation of some major gas phase constituents. 117071
Stabilization of ribose-5-phosphate **isomerase** from *tobacco.* 121537
Mineral nutrition of cultured chlorophyllous cells of *tobacco.* IV. **Kinetic** studies of K [potassium] and Mg [magnesium] uptake by the cells. 121534
Chromatogrphic determination of hydrocarbon waxes in *tobacco* **leaf** and smoke. 117069
[Tobacco] **leaf** quality and usability: theoretical model. I. 117072
Genetic influence of chemical constituents of *tobacco* **leaf** and smoke. 120586
Purification and properties of ribose phosphate isomerase from *tobacco* **leaves.** 121536
Nicotiana velutina *[tobacco]* **mosaic** virus: purification, properties and affinities with other rod-shaped viruses. 122815
The influence of organophosphorus insecticides on the developemnt of local lesions of the *tobacco* **mosaic** virus in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Enzymatic removal of the 5' terminal methylated blocked structure of *tobacco* **mosaic** virus RNA and its effects on infectivity and reconstitution with coat protein. 122834
Changes in soluble proteins in callus cells of hypersensitive tobacco inoculated with *tobacco* **mosaic** virus. 122838
Induction of local & systemic resistance in Nicotiana glutinosa against *tobacco* **mosaic** virus by leaf extract of dahlia. 122842
The hand of the stacked-disk aggregate of *tobacco* **mosaic** virus protein. 122848
Tobacco **mosaic** virus and paramosaic virus in cigarettes. 122850
Ultrastructural changes in *tobacco* **mosaic** virus-induced local lesions in Nicotiana tabacum L. cv. "Samsun NN". 122857
Stereo electron microscopy of freeze-fractured cells reveals the three-dimensional continuity of *tobacco* **mosaic** virus crystals. 122864
A genetic map for the cowpea strain of TMV *[tobacco* **mosaic** virus]. 122871
A messenger RNA for capsid protein isolated from *tobacco* **mosaic** virus-infected tissue. 122872
A study of nucleotide sequence homology between strains of *tobacco* **mosaic** virus. 122873
Effects of viral protein, viral RNA, and some other polyelectrolytes on infection of tobacco protoplasts by TMV *[tobacco* **mosaic** virus]. 122875
Synthesis of TMV *[tobacco* **mosaic** virus] RNA at restrictive high temperatures. 122879
Effect of sera containing hepatitis B (HB-ag) antigen upon Nicotiana sylvestris *[Tobacco,* **necrosis].** 122828
Electrogenic pumps in cells of the suspension culture of **Nicotiana** *tabacum* [Tobacco]. 121446
Tobacco: **Nicotiana** tabacum (Solanaceae). 121967
The influence of organophosphorus insecticides on the developemnt of local lesions of the tobacco mosaic virus in Nicotiana glutinosa L. and on virus multiplication in **Nicotiana** *tabacum* L. "Samsun". 122822
Ultrastructural changes in tobacco mosaic virus-induced local lesions in **Nicotiana** *tabacum* L. cv. "Samsun NN". 122857
The carotenoids of a black variety of the larva of the moth, Manduca sexta *[Tobacco* **pests].** 124051
Effects of viral protein, viral RNA, and some other polyelectrolytes on infection of *tobacco* **protoplasts** by TMV [tobacco mosaic virus]. 122875
Effect of *tobacco* **redrying** process on insect mortality. 123527
Scanning electron microscopy of syncytial transfer cells induced in [soybean, *tobacco]* **roots** by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
Regeneration of plants from cell suspensions [of carrot, Datura, *tobacco* and **soybean]** frozen at -20, -70 and -196 degrees C [Celsius]. 121528
Use of sucrose-glycerol density gradients in the preparation of living cells for high-resolution complementary freeze-fractured **specimens** *[Tobacco].* 120560
Insecticidal value of phosphine in the control of **stored** *tobacco* insect pests [Ephestia elutella, Lasioderma serricorne]. 123537
Electrogenic pumps in cells of the suspension culture of Nicotiana **tabacum** *[Tobacco].* 121446
Rooting of *tobacco* and **tillage** of soil. 125107
West Germany imported less U.S. *Tobacco* in 1975. 115669
World *tobacco* exports dropped sharply in 1975, but imports held steady [Statistics]. 115638
World *tobacco* production set another record in 1975. 115639

TOCOPHEROLS

22 (3): 267-270. Reactivity of *alpha-tocopherol* with **hydroperoxide** of methyl linoleate [Foods]. 116464

TOLERANCE

Ammonium *tolerance* of tobacco cultivars with different nicotine contents [Toxicity]. 122938
Acid production, a possible basis for **benomyl** *tolerance* in verticillium malthousei [Mushroom disease]. 122723
Benzimidazole *tolerance* in Venturia inaequalis [apple scab] in New Zealand. 122745
Effects of diets on **cold** *tolerance* and metabolic responses to cold in fasted rats. 116467
Studies of **cold** *tolerance* in domestic animals (Review). 117731
Tolerance of **cotton** to low maturation temperatures. 121554
Effect of plant water deficits of various growth stages on growth, grain yield and leaf water potential of irrigated grain sorghum **[Drought** *tolerance].* 122059
Frost *tolerance* in strawberry cultivars. 121672
Relation of *tolerant* **[hardwood]** species to habitat in the White Mountains of New Hampshire. 120400
Heat *tolerant* bacteria in water scalding tanks [Swine, slaughtering]. 116038
Constitutional differences of **heat** *tolerance* in sheep. 117716
Modifying effect of daily milk yield on **heat** *tolerance* in cattle. 117720
Quantitative evaluation of **heat** *tolerance* in animals. 117721
Relation between some reproductive characters and **heat** *tolerance* in cattle reared under hot climate conditions. 117722
Relation between **heat** *tolerance,* growth and milk productivity of cattle. 117723
Relation of **heat** *tolerance* of cattle with typologic features of the higher nervous activity. 117727
Studies of **heat** *tolerance* in domestic animals (Review). 117732
The role of different mechanisms of thermoregulation in **heat** *tolerance* of cattle. 117736
Variability of **heat** *tolerance* in pigs. 117737
Variability and inheritance of **heat** *tolerance* in domestic animals. 118317
Grain protection and **pesticide-residues** *tolerances* in India. 116163
Salt *tolerance* of cotton [Damage]. 123028
Turfgrass *tolerance* and weed control with methazole and metribuzin [herbicides]. 123214
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and *tolerant* **variety** of young tea (Camellia sinensis L.). 123040
Relationship of corn rootworm [Diabrotica] *tolerance* to **yield** in the BSSS [Iowa Stiff Stalk Synthetic] maize population. 123311

TOLUENE

The quantitative determination of **ortho-** *toluene* sulfonamide (o-TS) in saccharin by U. V. [Ultraviolet] spectrophotometry and by gas chromatography. 116712

TOMATO

Effect of acidification of **canned** *tomatoes* on quality and shelf life. 117235
Evaluation of **canning** *tomato* varieties of Hungary on the basis of some relevant features. 122283
Observations on Ceratocystis adiposa [rot fungus on *tomatoes]* and the **conidial** ontogeny of its imperfect state. 122789
Effect of the plant growth retardant Pydanon on Verticillium [dahliae] wilt of **cotton** and *tomato.* 122729
Effects of plant density and manuring upon *tomato* **crops** for canning in dry conditions. 122464
Inheritance of resistance to Corynebacterium michiganense in *tomato* **[crosses].** 120790
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of nutrient solutions on the trace element nutrition of *tomato* and **cucumber.** 122981
Postharvest characteristics and natural preservation of fruits from hybrids between Alcobaca and some *tomato* **cultivars.** 117243
Studies on the chemical changes induced by the infection of the rootknot nematode (Meloidogyne incognita) in *tomato* **& eggplant &** the stunt nematode (Tylenchorhynchus brassicae) in cabbage & cauliflower roots. 122951
Residues of four ethylenebis(dithiocarbamates) and their decomposition products on **field-sprayed** *tomatoes.* 116179
The *tomato* **fruitworm** [Heliothis zea]: how to control it. 123417
Effect of carbon dioxide enrichment on growth, development and yield of **glasshouse** *tomatoes.* II. The duration of daily periods of enrichment. 122399
Photosynthetic rate—yield component relationships in winter **greenhouse** *tomatoes.* 121677
Measures for the long term use of greenhouse soils for **growing** *tomatoes.* 125176
Variation of parental forms in the intensity of synthetic processes and **heterosis** in *tomatoes.* 120715
Particuliarities of the reproduction interrelations and type of sterility in hybrids between Lycopersicon esculentum Mill. *[Tomatoes]* and **Lycopersicon** chilense Dun. 120645
Pigmentation types in BC1 and S1 from BC1 of Lycopersicon esaculentum Mill. *[Tomatoes]* X **Lycopersicon** chilense Dun. 120646
Tomato: **Lycopersicon** esculentum (Solanaceae). 122381
Soilless potting media for controlled-environment facilities [Growth of *tomato* and **maize].** 121291
Epidemiology and control of *tomato* **mosaic** virus. 122818
Comparison of **new** *tomato* varieties for mechanical harvesting: effects of mulching. 122386
Competition at the plot border among maize, *tomato,* **pepper** and Gladiolus L. 122115
State of knowledge of *tomato,* **pepper,** and eggplant nematode fauna in the Soviet Union. 123007
The mechanisms of photosynthetic inhibition and the development of scorch in *tomato* **plants** treated with spray oils. 121594
Hormones and the responses of *tomato* **plants** to waterlogged soil. 121598
Production of tomatine and rishitin in *tomato* **plants** inoculated with Fusarium oxysporum f. sp. lycopersici. 122713
Field evaluations of **processing** *tomatoes* on the Texas High Plains [Varieties, yields]. 122448
Tomato **production.** 122208
Production of *tomatine* and **rishitin** in tomato plants inoculated with Fusarium oxysporum f. sp. lycopersici. 122713
The sterolic fraction of *tomato* **seed** oil (Lycopersicon esculentum Miller). 117319
Evaluation of selected fungicides for control of early blight [Alternaria **solani]** of *tomato.* 122771
The hypothetic race 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the reaction of some *tomato* **species** and varieties to it [Leaf mold]. 122612
Comparative study of diploid and **tetraploid** *tomatoes.* 120823
Annotated bibliography on physiological disorders of *tomatoes,* 1969-1974. 123029
Soil fumigation effects on early blight [caused by Alternaria solani] of *tomato* **transplants.** 122737
Study of physiological and biochemical features of *tomato* **[varieties]** in relation to the forecasting of heterosis. 121686

TOMOCERUS

Study of the Korean fauna of Insecta Collembola. VI. On the family of edaphic Tomoceridae with the description of four new species and a new subspecies [in the **genus** *Tomocerus].* 124263

TONE

The use of Sterculia Gum for controlling **intestinal** *tone* in the dog and cat. 119139

TONGA

Soils of **Tongatapu,** *Tonga.* 124854

TONGUE

A further contribution on the proportion of *tongue* in **Zungenwurst** [Sausages]. 116967

TOOLS

The modified card agglutination test: an **accurate** *tool* for detecting anaplasmosis in Columbian black-tailed deer. 118815
Soil **analysis** as a *tool.* 124807
The LANDSAT-1 multispectral scanner as a *tool* in the **classification** of inland lakes [Trophic status, remote sensing]. 125277
Management *tools* that increase reproduction in beef cattle. 118284
Photography, a range **management** *tool.* 122056
"Velpar"—a **new** *tool* for industrial weed control in the Midwest. 123162
Grass cuticles: a new **paleoecological** *tool* for East African lake sediments [For reconstructing the past vegetation and climate of regions]. 120330

Organization of markets, a *tool* of a **policy** of income in agriculture. 115320
Economic importance of **proper** *tool* maintenance [Wood industries]. 119688
Factors affecting the use of mung bean cuttings as a **research** *tool* in vegetative propagation. 122223
Electron spectroscopy for chemical analyses (ESCA)—a *tool* for **studying** treated textiles. 116188
Remote sensing—a **valuable** *tool* in the forest service decisionmaking process. 119498
Choosing **workshop** *tools* [for the farm workshop]. 124690

TOPOGRAPHY
The *topography* of **DFD** [dark, firm, dry]-meat [Pork]. 116146
Seasonal changes and *topographic* **features** of the hair coat in nothern indigenous (Yakut) cattle. 117729
Sone anatomical observations on the *topography* and **macroscopic** distribution of the lymph vessels and nodes on the stomach of buffalo, Bos bubulis L., of Egypt. 117764
Morphology and *topography* of **parathyroid** glands of cattle. 117925

TOPPING
The influence of level of *topping* and other **cultural** factors on sugarbeet yield and quality. 1. 122017
The influence of level of *topping* and other **cultural** factors on sugarbeet yield and quality. 2. 122018

TORSION
Partial **gastric** *torsion* in two dogs. 119115
Management of acute gastric dilatation with *torsion* and **rupture:** a case report [Dogs]. 119113

TORTRICIDAE
Behavioral responses of male Argyrotaenia velutinana (Lepidoptera: *Tortricidae)* to **components** of its sex pheromone. 124023
Revision of Rhyacionia buoliana and Rhyacionia pinicolana (Lepidoptera, *Tortricidae)* **contained** in the collections of the Entomology Laboratory of the Paris Museum and preliminary data on the distribution of these two species in France. 124260
Rearing of the South African carnation tortrix Epichoristodes acerbealla Walk. **(Lepidoptera,** *Tortricidae).* 123425
The role of spores and crystals of Bacillus thuringiensis Berliner in the infection of Laspeyresia **pomonella** L. *(Tortricidae).* 123810
Assessment of sex pheromone activity in virgin female moths of the tea tortrix (Homona coffearia, Lepidoptera: *Tortricidae)* and its **utilization** in monitoring moth populations in tea fields. 123266

TORTRIX
Rearing of the South African **carnation** *tortrix* Epichoristodes acerbealla Walk. (Lepidoptera, Tortricidae). 123425
Observations on Litomastix aretas, an encyrtid parasite of the **strawberry** *tortrix* moth. 123366
Assessment of sex pheromone activity in virgin female moths of the **tea** *tortrix* (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
Control of a leafroller moth, *Tortrix* **viridana,** in an oak-dominated forest in the Main Botanical Garden [of the USSR Academy of Sciences. 123448

TORULA
The fine structure of conidial development in the **genus** *Torula.* IV. Torula thermophila Cooney & Emerson [Yeasts]. 120446

TORULOPSIS
Estimation of the molecular length of petite negative yeast *[Torulopsis* **colliculosa]** mitochondrial DNA. 121051
Environmental conditions for acetoin production by yeast *[Torulopsis* **colliculosa]** & bacterial [Enterbacter] strains. 121135
Role of acetaldehyde in acetoin synthesis in yeasts *[Torulopsis* **colliculosa]** & bacteria [Enterobacter]. 121141
Further studies on the intracellular behavior of *Torulopsis* **glabrata** [Yeasts]. 121144
Ultrastructure of microbodies of methanol-assimilating yeasts [Candida, **Saccharomyces,** *Torulopsis].* 120486

TORUS
Distance from *torus* **pyloricus** to papilla duodeni major and from the latter to papilla duodeni minor in European and Indian cattle [Anatomy]. 117902

TOUGHNESS
Polycarbonate: for the *tough* **jobs** [Food packaging]. 116745
Review on the *toughness* of **post-harvested** asparagus spears. 117289

TOURISM
A message too for the Irish farmer? **[Expansion** in *tourism].* 115213
The intact landscape in publicity for **foreign** *tourists:* guidelines for planning and executing 1976 publicity [Recreational use of land]. 115208

TOWERS
Sensitivity of tobacco to chromium from mechanical draft **cooling** *tower* drift. 122910
Feed intake and nutrient digestibility of growing lambs supplemented intragastrically with full-fat rapeseed (cv. **[Cultivar]** *Tower).* 118029

TOXAPHENE
Economic assessment of proposed toxic pollutant standards for manufacturers and formulators of aldrin/dieldrin, DDT, **endrin** and *toxaphene.* 123743
Analysis and GC-MS characterization of *toxaphene* **[insecticide]** in fish and water. 123708
Analysis and GC-MS characterization of *toxaphene* **[pesticide]** in fish and water. 123707

TOXICITY
Studies on the determination of *toxic* **actions** of derivatives of (2,4-dichlorophenoxy) acetic acid and 2,4-5-trichlorophenoxyacetic acid on eggs of pheasants, quails, and chickens. 123687
Use of insect-acaricide carbamide acid esters in livestock production. 2. **Acute** *toxicity* of insect-acaricide carbamide acid esters. 119266
Investigations on the **acute** *toxic* effect of pyrethrum [insecticide] on various haematological aspects of Meriones hurrianae Jerdon, the Indian desert gerbil. 123756
A rapid method for measuring the **acute** *toxicity* of pulpmill effluents and other toxicants to salmonid fish at ambient room temperature. 125497
Chemical characteristics and **acute** *toxicity* of foam on two aerated lagoons [kraft pulp effluents]. 125499
Naturally occurring mutagens [discovered as a result of outbreaks of disease in agricultural livestock, public health hazards, *toxic* **agents].** 119269
Toxicosis due to **Aspergillus** terreus [Fungi] in chick. 119241
Science and "the politics of cancer" [includes *toxicity* **caused** by chemicals, veterinary pathology]. 119231
Changes in paramagnetic properties of Chlorella [vulgaris, Algae] under the effect of *toxic* **chemical** compounds [Detergents, water pollution tests]. 122924
Use of insect-acaricide carbamide acid esters in livestock farming. 3. **Chronic** *toxicity* of insectacaricide carbamide acid esters. 119267
Structures of gonyautoxin II and III from the east **coast** *toxic* dinoflagellate Gonyaulax tamarensis [Paralytic shellfish poisoning]. 116180
Toxicity of **commonly** used food colours: a review. 116211
Compared *toxicities* of different alcohols for two Drosophila sibling species: Drosophila melanogaster and Drosophila simulans. 123867
Primary physicochemical injuries in chloroplasts due to *toxic* **concentrations** of NaCl [sodium chloride, pea seedlings]. 123038
Electrophysiological reaction of olfaction of the codling moth, Laspeyresia pomonella L., as a possible fast method for determining the *toxicity* and **content** of insecticides. 123391
Ammonium tolerance of tobacco cultivars with different nicotine **contents** *[Toxicity].* 122938
Effect of sodium upon yields and fruiting characteristics of Acala and Pima **cotton** *[Toxicity].* 123026
Toxicity of the PVC [polyvinyl chloride]-plasticizer **di(2-ethylhexyl)phthalate** *[Toxicity].* 119275
Physiological effects of sublethal levels of acid water on fish [River polution with coal mine **drainage,** *toxicity].* 125401
Cultural measures against excessive copper contents in the soil of a hops garden left open *[Toxicity* of **economic** poisons]. 122935
[Toxic] **effect** of large doses of [the coccidiostat] furacin on chicks. 119281
Toxic **effect** of [the insecticide] famophos on reindeer. 123760
Toxic **effects** of lead on growth & metabolism of germinating rice (Oryza sativa L.) seeds & on mitosis of onion (Allium cepa L.) root tip cells. 122952
Nitrates in cattle **feeding** *[Toxicity].* 119235
Effect of *toxic* **fungi** in poultry. 119276
Poisonous **fungi** and their *toxins.* 123066
Effects of straw residues *[toxicity]* on the **growth** of cereals. 122891
Sheep adapt to *[toxic]* **halogeton.** 119224
The effects of various components of water pollution on the behaviour of some aquatic macrophytes of the coastal rivers of Israel [Possible use as *toxicity* **indicator** plants]. 125381
Toxic **infections** of Ovidae. II. [Enterotoxemia, sheep]. 118868
Hydrogen cyanide production by field-grown sorghums *[Toxic* when **ingested** by stock]. 121524
Factor influencing dosage and choice of *toxicant* in **[insect]** stored-product fumigation. 123531
Differential acceptance of *toxic* **jojoba** seed (Simmondsia chinensis) by four Sonoran desert heteromyid rodents [Seed toxicity]. 119234
Spectroflurometric determination of zearalenone (F2) *toxin* in **maize.** 116080
Heavy metal toxicity in vegetable crops. V. The effect of iron concentration in the nutrient solution on **manganese** *toxicity* in vegetable crops [Chlorosis]. 122980
Current aspects of the aflatoxin problem [caused by *toxic* **metabolites** of a common fungus, Aspergillus flavus, livestock]. 119282
Toxic **metabolites** of Amanita pantherina, Amanita cothurnata, Amanita muscaria and other Amanita species. 121263
Heavy **metal** *toxicity* in vegetable crops. V. The effect of iron concentration in the nutrient solution on manganese toxicity in vegetable crops [Chlorosis]. 122980
Lead inhibition of chlorophycean **microalgae** *[Toxicity].* 122982
DDE [dichlorodiphenyldichloroethylene] feeding and plasma osmoregulation in ducks, guillemots, and puffins **[Organochlorine** *toxicity].* 123682
Toxicity, **penetration,** and metabolism of chlordimeform and its N-demethyl metabolite in cabbage looper larvae [Trichoplusia ni]. 123407
Mycotoxicosis in chicks produced by *toxins* from **Phomopsis** sp. or Diaporthe phaseolorum var. sojae. 118638
Ecological and nutritional studies on Dinobryon [divergens] Ehrenb.: seasonal periodicity and the **phosphate** *toxicity* problem. 121233
The *toxicity* of **phosphine** [a stored product fumigant] to insects. 123572
Toxicity and **plant** growth regulator effects of cytochalasin H isolated from Phomopsis sp. [Fungi]. 120990
Phytochemical and toxicological screening of household ornamental plants **potentially** *toxic* to humans. I. 116212
Is there a danger of mycotoxins in Hungarian salami? I. The influence of substrate, aw-value and temperature on *toxin* **production** in mixed cultures. 116121
Economic assessment of **proposed** *toxic* pollutant standards for manufacturers and formulators of aldrin/dieldrin, DDT, endrin and toxaphene. 123743
Inhibition of Neurospora crassa [Fungi] and yeast [Saccharomyces cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a *toxic* **protein** inactive on Escherichia coli protein synthesis. 121052
Black widow spider venom: effect of **purified** *toxin* on lipid bilayer membranes. 124158
Toxicity of the **PVC** [polyvinyl chloride]-plasticizer di(2-ethylhexyl)phthalate [Toxicity]. 119275
New sweeteners [Stability, *toxicity,* **quality].** 116700
K+ [potassium]-stimulated adenosine triphosphatase of maize roots: partial purificatin and inhibition by Helminthosporium maydis **race T** *toxin.* 122708
Relative *toxicity* of some new insecticides against rice-weevil Sitophilus oryzae Linn. (Curculionidae: Coleoptera). 123292
Virginiamycin [Antibiotics, *toxicity,* **residues,** cattle, swine, poultry]. 118924
Gentamycin in young turkeys [Antibiotic **residues,** *toxicity].* 119280
A rapid method for measuring the acute toxicity of pulpmill effluents and other *toxicants* to **salmonid** fish at ambient room temperature. 125497
Action of different *toxins* from the **scorpion** Androctonus australis on a locust [Locusta migratoria] nerve-muscle preparation. 124040
Preharvest development of aflatoxin B1 [a *toxic,* **secondary** metabolite produced by the fungus Aspergillus flavus] in corn in the United States. 122734
Toxicity of **secretions** of some species of wild fruit plants in the conditions of water and soil culture. 121656
Differential acceptance of toxic jojoba seed (Simmondsia chinensis) by four Sonoran desert heteromyid rodents **[Seed** *toxicity].* 119234
Study on residues remaining on mulberry leaves treated with acaricides and their *toxicity* to the **silkworm,** Bombyx mori L. 124503
Toxicity of **six** insecticides to three species of adult cockroaches [Blatella germanica, Blatta orientalis, Periplaneta fuliginosa]. 123264
Toxicity of **sodium** fluoride for the spider mite Tetranychus urticae Koch. 123835
Sulfite compounds as neutralizers of **spice** *toxicity* for Salmonella [Food contamination]. 116207
Toxicant **spread** in laboratory colonies of the leaf-cutting ant [Atta cephalotes]. 123220
Advances in testing the *toxicity* of **substances** to fish [Water pollution]. 125405
Heptachlor [a persistant organochlorine pesticide]: *toxicity* to and **uptake** by several estuarine organisms. 123733
In **vitro** *toxicity* of constituents of Rumex maritimus Linn. [Trichophyton mentagrophytes, Microsporum canis] to ringworm fungi. 122603
Toxic **[wheat]** proteins and celiac disease. 116272

TOXICOLOGY
Pharmacological and *toxicological* **characteristic** of rigecoccin [the coccidiostat meticloripindal]. 118933
Hunting poisons of the North Pacific region [Aconitum, **chemistry,** and *toxicology].* 120181
Biological methods of *toxicological* **evaluation** of medical, food, industrial and pesticide products. 116254
Hygienic-toxicological **evaluation** of single used plant protection materials in forest areas. 123705
A review of the *toxicological,* **residual,** and environmental effects of nitrapyrin and its metabolite 6-chloropicolinic acid. 125413
Phytochemical and *toxicological* **screening** of household ornamental plants potentially toxic to humans. I. 116212

TOXOPLASMA
Toxoplasma **antibody** in sera from Dublin dogs [Toxoplasma gondii]. 118773

Experimental *toxoplasmosis* of swine. Epidemiological and food implications [Toxoplasma gondii, Contamination]. 118895
Toxoplasma antibody in sera from Dublin dogs *[Toxoplasma* **gondii].** 118773
Experimental toxoplasmosis of swine. Epidemiological and food implications *[Toxoplasma* **gondii,** Contamination]. 118895
Sabin-Feldman and indirect flourescent antibody tests for detecting antibodies of *Toxoplasma* **gondii** in horse sera. 118910
Assessment of pevalence of antitoxoplasma antibodies in clinically healthy **horses** *[Toxoplasma].* 118907
Experimental infection of the nutria with RN **strain** of *toxoplasma.* 119026
Toxoplasmosis in **Thoroughbred** horses: serological study. 118913

TRACE

Atomic absorption spectrometric determination of **eight** *trace* metals in orange juice following hydrolytic preparation. 117275
Trace **element** nutrition of mushroom Pleurotus sajorcaju (Fr.) Singer. 121633
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of vegetable crops. 3. Effect of the concentration of nutrient solutions on the *trace* **element** nutrition of tomato and cucumber. 122981
Responses of two legumes to rhizobium inoculation and *trace* **elements.** 121457
Content of some *trace* **elements** and nitrogen at particular growth stages of winter wheat against the background of nitrogen fertilization. 125067
Effect of extended organic and mineral fertilization on the content on some *trace* **elements** in soils. 125069
The use of micronutrients as **Fritted** *Trace* Elements on tropical forage legumes. 124958
Determination of *traces* of **lead** and cadmium in apertifs by flameless atomic absorption spectrometry. 116030
Direct determination of *trace* **metals** in cane juice, sugar & molasses by atomic absorption spectrophotometry. 117185
Trace **mineral** deficiencies in rats caused by feeding rapeseed flours during growth, gestation and lactation. 116441
Ascorbic acid and other chelating agents in the *trace-mineral* **nutrition** of the aphid Myzus persicae on artificial diets. 123884

TRACHEIDS

Tracheids, **apogamous** leaves, and sporophytes in gametophytes of Botrychium dissectum. 120429
A study of loblloly pine [Pinus taeda] growth increments. III. Refining characteristics of *tracheids* from **kraft** pulps. 119840
The influence of *tracheid* **length** and density in sitka spruce [Picea sitchensis]. 119501

TRACKING

Resource *tracking* patterns in bird and mammal ectoparasites [Insect pests]. 123646

TRACT

Growth of the parts of the **alimentary** *tract* of the rat, and the small intestine of the sheep, relative to growth in live weight. 117579
The appearance of degenerating dorsal **column** *tract* in the clava and cuneate tubercle of the dog after surgical and ischaemic injury. 117693
Study of **commissural** *tracts* of the cerebroid ganglia of Calliphora vomitoria L. (Diptera, Brachycera, Thecostomata). 123853
The movements of minerals in the **digestive** *tract* of dry and lactating Jersey cows. 1. Net movements of Ca, P, Mg, Na, K and Cl [calcium, phosphorus, magnesium, sodium, potassium and chlorine]. 117963
Flow of digesta through the **Gastro-intestinal** *tract* in the bovine with special reference to nitrogen. 117578
Studies on the digesta distribution in the GIT **[gastrointestinal** *tract]* of pigs fed high-test molasses or maize. 1. Stomach phase. 117641
Studies on the amino acid absorption and the secretion of endogenic amino acids into the **gastrointestinal** *tract* of pigs [Diets]. 118000
A study of helminth parasites in the **gastrointestinal** *tract* of the swamp buffalo, Bubalis bubalis Lydekker, in the Northern Territory. 118619
Effect of deworming medication on the microbial flora of the upper **gastrointestinal** *tract* of dogs. 118816
Digesta compostion in the **gastrointestnal** *tract* of bovines fed forage and high-test molasses diets. Forage utilization [Pennisetum purpureum]. 117640
Macromolecular components of **genital** *tract* fluids from the sheep. 117834
A note on the developmental abnormalities of the female **genital** *tract* of bovines. 119098
Development of recommendations for designing and effective operation of irrigation systems on the basis of major **irrigated** *tracts* in the Azerbaijan SSR considering regularitiesof changing the regime of underground water and the hydrogeologic-reclamation situation effected by irrigation (1971-1973). 125221
Pseudomonas pyocyanea in the **urogenital** *tract* of a bull. 118736
Isolation and characterisation of Mycoplasma bovigenitalium from bovine **vaginal** *tract.* 118734

TRACTORS

Simulation of *tractor* **accidents** and overturns. 124739
Use of *tractor* **cable** systems in forestry. 119794
The occupation of the **farm** *tractor* driver. IV. [Colombia]. 124660
Results of the model test of training **forest** *tractor* drivers. 118264
Strain rate effects in similitude modelling of plastic deformation of [protection] structures subject to impact **loading** *[Tractors].* 124741
Repair of hydraulic **pumps** of the *tractor.* 124659
10 years of using the roll bar [on *tractors,* **safety].** 124632
Checking and renovation of *tractor* **seat** sprayers. 124703
Who shared the '75 **UK** *tractor* market? 124658

TRADE

100 years with the **brewing** *trade.* Troubled history of the Scientific Brewing Station in Munich. 116683
Development of production and *trade* **channels** of animal products in the European Economic Community. III. 115694
National standards for registration and for residues of pesticides in relation to *trade* and **commerce** in Europe. 123713
Bouyancy for Europe's **duck** *trade* [Production]. 115729
Italy's deposit plan **eases** *trade* deficit, fluidity problems. 115652
Sanitary control in the *trade* of **eggs** and egg products. 116048
Market stabilization action: producers association and *trade* take over the **entire** remaining amount of hops in Hallertau. 115678
Trade-offs between **farm** income and selected environmental indicators. A case study of soil loss, fertilizer, and land use constraints. 115456
Sales promotion from the viewpoint of the *trade* **[Food,** advertising]. 115705
Agricultural and food **foreign** *trade* of France in 1975. 115735
Foreing *trade* of agricultural products. 115604
Is **futures** *trading* gambling? 115772
Environmental control, economic structure, and **international** *trade.* 125467
Some effects of environmental controls on **international** *trade:* the Heckscher-Ohlin model. 125472
Shrinking sections of a US decade [Farm **machinery** *trade].* 124657
Manufacture of scalded sausage in the **meat** *trade.* 5. Use of foreign proteins and preparation of fat emulsions. 116948
Scalded sausage manufacture in the **meat** *trade.* 6. Scalded sausage with coarse fillers, crackling processing with and without extraneous protein, and frozen meat processing. 116954
Scalded sausage manufacture in the **meat** *trade.* 7. Color formation and preservation, influence of the muscle coloring matter present, and color stabilization by means of blood additives. 116955
Scalded sausage manufacture in the **meat** *trade.* 8. Color formation and preservation, influence of color stabilizers, temperature effect and rapid processing, and the effects of atmospheric oxygen and light. 116956
Scalded sausage manufacture in the **meat** *trade.* 10. Effect of exposure to light; cutting, filling, hot smoking and scalding. 116957
Scalded sausage manufacture in the **meat** *trade.* 11. Scalded sausages in modern artificial skins; seasoning; manufacture of low-fat cooked sausages; small sausages fresh from **smoke.** 116958
Scalded sausage manufacture in the **meat** *trade.* 12. Smoking of small sausages. 116959
U.S. Farm products still striking oil in **Mideast** *[Trade].* 115668
Trade **needs** convincing on boar meat. 117025
Canada likely to harvest smaller crop of **oilseeds** *[Trade].* 115643
Brazil's seesawing **orange** *trade.* 115642
Drought hits French grain **output,** *trade.* 115646
World production and *trade* of **peanut** oil and meal up [Statistics]. 115635
Is Austria's policy the way to success? [Cheese marketing, *trade* and **prices].** 115562
Too much hops throughout the world **[Prices,** *trade].* 115679
Flax in its economic aspect [Marketing, *trade,* **prices,** Argentina]. 115685
New provisions of the statute gazette of the German Federal Republic **[Seed** *trade* legislation]. 115979
The *trade-offs* between **smoke** from wild and prescribed forest fires. 119348
Further rise of consumption of canned fruits and **vegetables** *[Trade].* 115701
Development of silo construction in world **wheat** *trade.* 124612
Gabon, a country with more than 18 million hectares of forests (forest resources, industry and *trade* in **wood).** 119545
Gabon, a country with more than 18 million hectares of forests (forest resources, industry and *trade* in **wood).** 119808

TRAILER

Trailer for **cattle**—gooseneck type. 124699
The *trailer,* good for doing **everything** on the farm. 124676
What do you want from a **farm** *trailer?* 124692

TRAILS

Trails in **forest** history. 119355

TRAINING

[Communist] party guidance in the selection, placing and *training* of **administrative** personnel for interfarm and agrarian-industrial enterprises and amalgamations. 115396
Pesticide **applicator** *training* for use of restricted herbicides. 123749
Use of dye for technician training and *retraining* **[Artificial** insemination, cattle]. 118294
SCS [Soil Conservation Service] sponsors workshop for Federal Women's Program coordinators **[Assertiveness** *training* for personnel]. 115201
Horticultural therapy [and rehabilitaton] how it's working *[Training,* **Canada].** 122230
Training—a **case** for optimism in [forest] fire management. 119370
Curtiss Breeding Service A.I. [Artificial insemination] *training* **[Cattle].** 118283
Sanitary-epidemiological station as a *training* **centre** of nutition hygiene. 116567
From agronomic data to farmer recommendations; an **economics** *training* manual. 115399
To survive, **even** *trainees* must master five skills. 116621
The situation of young technicians in the wood industry and possibilities for **extension** *training.* 119237
Results of the model test of *training* **forest** tractor drivers. 118264
Training of **forest** technicians [in Slovenia]. 119333
Training of **forest** engineers [in Slovenia]. 119334
The oriented **forestry** *training* from the standpoint of the post-graduate professional training in Slovenia. 119330
Teaching and *training* for the **future** [in the chemical weed control industries]. 123151
Heart rate at rest of *trained* **galloping** racehorses. 117853
Some aspects of the phytoclimate of a vineyard in relation to the way of planting [and of *training* the **grapevines].** 122500
The national demonstrations, 'the pace setters' [Agronomy, *training,* **India].** 121917
Technician and herdsman **inseminator** *training* [Cattle]. 118289
The influence of *pre-training* on the **learning** process of the honey bee [Apis mellifica carnica, Apis mellifica ligustica]. 124540
We should *train* **managers** to be indecisive and to pass the buck. 116622
Currant varieties and *training* **methods** suitable for mechanical harvest. 122407
Training of **officially** certified claw attendants [for the care of foot condition of cattle]. 118527
Training **personnel** for low-level professions for agrarian-industrial amalgamations and enterprises. 115171
Training of **private** forest owners [Slovenia]. 119335
"Hands on" *training* **produces** skilled technologists [in the pulp and paper industry, Canada]. 119799
The oriented forestry training from the standpoint of the post-graduate **professional** *training* in Slovenia. 119330
The permanent **professional** *training* of forest workers [in Slovenia]. 119331
Program and instruction for awarding of **professional** *training* scholarships at the Forestry Institute [Brazil]. 119407
A.I. [Artificial insemination] *training* **program** and procedures [Cattle]. 118279
Training **programs** for [sawmill] management and operating personnel. 119703
Training and **pruning** stone fruit. 122491
Ten years' effort in promoting regional development: a review of the progress of the United Nations Programme of Research and *Training* in **Regional** Development [with emphasis on predominantly rural areas]. 115907
Activities of [communist] party organizations in the selection and *training* of a **reserve** of management personnel in agriculture [Moldavia]. 115382
New slide insert for physical fitness calculator [Forest **Service** *training].* 119306
Special *training* needs of IRD [integrated rural development]. 115885
Use of dye for **technician** *training* and retraining [Artificial insemination, cattle]. 118294
A.I. [Artificial insemination] *training* for **technicians** and farmer technicians [Cattle]. 118280
Weed science for agronomic **technicians** *[Training].* 123167
Twenty-five years of **university** *training* in forestry and wood industry of Slovenia. 119336
Training and **upgrading** of veterinarians in prevention and control of animal diseases. 118526
Training, **utilisation,** development, and balance [of sawmills]. 119704

TRAMETES

Effects of some specific inhibitors on the germination of spores of the **fungus** *Trametes* badia (Berk) Cooke. 121021

TRANSAMINASES

Changes in the activity of *transaminases* and **alkaline** phosphatases from blood serum as related to the age, sex and growth rate of pigs. 117922
Proteolytic enzyme, bound to **aspartate** *transaminase* from pig heart cytosol. 117609
Importance of the **glutamate-oxalacetate** *transaminase* activity in spermatological diagnosis [Bull semen]. 118426
Improved and effective assays of the glutamic **oxaloacetic** *transaminase* by the coenzyme-apoenzyme system (CAS) principle [Deficiencies of vitamin B6]. 116459

TRANSFER

Interfarm cooperation as a condition for **accelerated** *transfer* of animal husbandry to an industrial basis. 115390
Effect of site of transfer on pregnancy and twinning rates following bilateral **egg** *transfer* in the cow. 118350
Dependence of radiation response of diploid yeast [Saccharomyces cerevisiae] upon growth phase and LET [Lineal **energy** *transfer].* 121148
Effects of high-LET [lineal **energy** *transfer]* particles (40A [Angstrom]) on the brain of Drosophila melanogaster. 124009
The *transfer* and **expression** (transgenosis) of foreign genes in plant cells, reality and potential. 120757
Transfer of **Hily** character to Indian barley. 120620
Cooking of beef by oven roasting: a study of heat and **mass** *transfer.* 116623
Translocation and *transfer* of **nutrients** in vesicular-arbuscular mycorrhizas [roots of onion]. I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743
Effect of site of *transfer* on **pregnancy** and twinning rates following bilateral egg transfer in the cow. 118350
Role of *transfer* **ribonucleic** acids in the regulation of several biosyntheses in Saccharomyces cerevisiae [Yeasts]. 121048
Hybridization of maize chloroplast DNA with *transfer* **ribonucleic** acids. 121425
A chest harness and pole-leash for **routine** *transfer* of rhesus monkeys from home cage to behavioral test apparatus and back. 117463
The action of ionizing radiation on [calf thymus] DNA in the presence of quinacrine. III. E.s.r. [Electron spin resonance] study: **spin** *transfer* in gamma-irradiated lyophilized DNA-quinacrine complexes. 117895
Scanning electron microscopy of **syncytial** *transfer* cells induced in [soybean, tobacco] roots by cyst-nematodes [Heterodera glycines, Heterodera tabacum]. 122716
The water quality aspects of **water** *transfers.* 125198

TRANSFERASES

Interrelationships between the quality of dietary proteins and the functional state of the adrenal cortex. 6. Interrelationships between **amino** *transferase* activity and the functional state of the adrenal cortex [Rats]. 117985
Cell surface **mannosyl** *transferase* activity in the liver of embryonic chick: a mannose containing glycolipid as intermediate in glycoprotein synthesis. 117850

TRANSFERRIN

Investigations of *transferrins,* **albumins,** prealbumins and esterase in blood serum of some breeds of horses. 117701
Types of *transferrins* in the **blood** serum of turkeys. 117927
Transferrin **function** in zinc absorption and transport [Rats]. 116542
Failure of a cell-free system from rabbit reticulocytes to remove **iron** from *transferrin.* 117582
Preparation and partial physico-chemical characterization of sheep **serum** *transferrin.* 117665

TRANSFORMATION

Effect of the anthropogenic factor on the *transformation* of the **adaptive** response in aimals [Cattle]. 117718
Transformation of **agricultural** industry in Colombia [Economic aspects, programs and legislation]. 115993
Formation of Solonetz and Solod on ancient weathering crusts. Some general laws of *transformation* of **ancient** weathering crusts in the hypergenesis zone in temperate latitudes. 124795
Effect of manure and peat on the balance and *transformation* of **calcium** nitrate in soil. 124933
Cell to substratum adhesion-promoting activity released by normal and *virus-transformed* **cells** in culture [Chicken, mouse, and rat fibroblasts]. 117799
How waste lime is helping to *transform* **colliery** tips into productive grassland. 124962
Transformation of **Meckel's** cartilage and ossification of the mandible in ovis and capra [Sheep and goats]. 117695
Mutation, repair mechanisms and *transformation* in the **methane-utilizing** bacterium, Methylococcus capsulatus. 117347
Effects of cytochalasin B (CB) on the **morula-to-blastocyst** *transformation* and trophoblast outgrowth in the early mouse embryo. 117675
Peculiarities of the water-thermal balance of Vasyugan'ye and ways of *transforming* the **nature** of the areas of oligotrophic swamping [Drainage, afforestation]. 125232
Uptake of nitrogen by barley plants and the *transformation* of **nitrogenous** fertilizers on regraded Chernozem. 124949
Cell-free translation of virion RNA from **nondefective** *transformation-defective* Rous sarcoma viruses. 118800
Outbreaks and partial **phase** *transformation* of Locusta micratoria L. in sugarcane fields of Minami- and Kita-Daito Zima, Okinawa. 123267
Transformations of **steroid** compounds with Rhizopus sp. [Fungi]. II. 11 alpha-hydroxylation of delta 4-3-ketosteroides of the pregane and androstane groups. 120854
Effect of organic and inorganic fertilizers on the *transformation* of **sulfuric** compounds in winter wheat plants, yield and quality of grain. 121401
The chick chorioallantoic membrane as a model system for the study of tissue invasion by **viral** *transformed* cells. 118674
Transformation of a **vital** form of a dwarf semishrub in two Caucasus species of Thymus. 120971

TRANSLATION

Cell-free *translation* of foot-and-mouth disease virus RNA into identifiable non-capsid and capsid proteins. 118787
Cell-free *translation* of virion RNA from nondefective transformation-defective Rous sarcoma viruses. 118800
An efficient **mRNA-dependent** *translation* system from [rabbit] reticulocyte lysates. 117658
Messenger **RNA** *translation* in the presence of homologous and heterologous tRNA [prepared from oviduct or liver of laying hens]. 117664
Comments on the *translational* and **transcriptional** origin of Euglena [gracilis] chloroplastic aminoacyl-tRNA synthetases [Algae]. 120908

TRANSLOCATION

The effects of cycloheximide on the uptake and *translocation* of **amino** acids in leaves of Sagittaria graminea Michx. 120849
Translocation of 14C **[carbon** isotope]-metabolites to the head in sunflower. 121509
The interrelationship between *translocation* of 14C **[carbon** isotope]-photosynthate and 14CO [carbon dioxide isotope] exposed leaf position on the grafts of Ipomoea [Sweetpotatoes]. 121766
Translocated **heat** injury. II. [Pinto beans, cowpeas, cucumbers]. 123015
A survey of *translocation* in **Laminariales** (Phaeophyceae) [Algae]. 121265
Nitrogen nutrition of Myriophyllum spicatum: uptake and *translocation* of 15N **[nitrogen** isotope] by shoots and roots. 121069
The effect of the cereal cyst nematode [Heterodera avenae] on absorption and *translocation* of **nutrients** by the roots of oat plants. 122894
Effect of infection by Microsphaera alphitoides (powdery mildew) on carbohydrate levels and *translocation* in **seedlings** of Quercus robur. 122684
Surgical *translocation* of the penis in the bull to obtain the teaser bull [Artificial insemination]. 118435
Translocation and **transfer** of nutrients in vesicular-arbuscular mycorrhizas [roots of onion]. I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743

TRANSLUCENCE

Translucent **areas** on egg shell. 117052

TRANSMISSION

Transmission of **citrus** tristeza virus by the melon aphid [Aphis gossypii]. 122860
The early chick embryo in correlated SEM and TEM [scanning electron microscopy, *transmission* **electron** microscopy] studies. 117714
Scanning, *transmission* and **electron** probe analysis of the cat tapetum. 117886
TEM *[transmission* **electron** microscopy] studies of hen's perivitelline membrane hydrolysis by cock sperm in vitro. 118386
Transmission of **enteritis** in the Syrian hamster. 118819
Neutralization of a *transmissible* **gastroenteritis** virus of swine by colostral antibodies elicited by intestine and cell culture-propagated virus. 118604
On a syndrome similar to *transmissible* **gastroenteritis** in swine farms in the Padana plain [Virus diseases]. 118680
Why a bull's predicted difference goes up and down **[Genetic** *transmitting* ability for milk]. 118274
Studies on Theileriidae (Sporozoa) in Tanzania. I. Tick [Amblyomma variegatum] *transmission* of **Haematoxenus** veliferus. 123673
Laboratory *transmission* of Sharka [virus] from peach tree to peach tree by Myzus persicae Sulzer. 122868
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 1. description of three new species [Lutzomyia cuzquena, Lutzomyia machupicchu, Lutzomyia quechua, **leishmaniasis** *transmission].* 124419
Studies on the Phlebotominae of Peru (Diptera, Psychodidae). I. Cuzco Province. 3. description of the male and redescription of the female of Lutzomyia (Psychodopygus) amazonensis (Root, 1934), and list of species collected **[Leishmaniasis** *transmission].* 124421
The role of parasites in natural ecosystem [Water, pasture, **livestock** *transmission].* 118923
Viruses other than arenaviruses from West African wild mammals: factors affecting *transmission* to **man** and domestic animals. 118673
Aspects of epidemics of yellowing and mosaic of sugarbeets. I. Symptoms, means of *transmission,* **methods** of identification, vectors [Virus diseases, insect vectors]. 122866
Transmission of **mycoplasma** (PPLO) on breeding and broiler farms. 118594
The role of the helper virus, anthriscus yellows, in the *transmission* of **parsnip** yellow fleck virus by the aphid Cavariella aegopodii. 122817
An efficient method for the capture and *transmission* of **[plant]** specimen label information. 120284
The mixture problem in computer mapping of terrain: improved techniques for establishing spectral signatures, atmospheric path radiance, and *transmittance* **[Remote** sensing, vegetative cover]. 120368
Anther and pollen infection in relation to the pollen and **seed** *transmissibility* of two strains of barley stripe mosaic virus in barley. 122826
Effects of two benzodiazepines, phenobartitone, and baclofen on **synaptic** *transmission* in the cat cuneate nucleus. 117868
Vector control in seed potato farming [Insect pests, **virus** *transmission].* 122835

TRANSPARENCY

What this country needs is a good **nickel** *transparency.* 116618

TRANSPIRATION

Apparatus for determining the *transpiration* **activity** of plants. 121109
Crop characteristics and the ratio between **assimilation** and *transpiration.* 121517
Increased *transpiration* and the accumulation of root absorbed 86Rb [rubidium isotope] in barley leaves in infected by rhynchosporium secalis (leaf blotch). 122706
Calculation of **plant** *transpiration* and productivity in the conditions of water deficit on the basis of a mathematical model. 121350
Transpiration of **snapdragon** [Antirrhinum majus] under southern summer greenhouse conditions. 121684
Reduction of *transpiration* from **wheat** caused by germinating conidia of Erysiphe graminis f. sp. tritici. 122715

TRANSPLANTS

Quackgrass [Agropyron repens] and annual weed control in *transplanted* **blueberries.** 123145
Non-surgical **embryo** *transplant* in cattle; an outline. 118447
Rearing of *transplanted* **larvae** in artificial queen-cell cups in a queenright colony [Apis mellifera]. 124580
Ecophysiological response of **lichen** *transplants* to air pollution in the Murdochville Gaspe Copper Mines area, Quebec [Parmelia squarrosa, Hypogymnia physodes, Usnea]. 122974
Ovarian *transplantations* among five species of the **"saltans"** group of Drosophila. 124142
Effect of Fe-EDDHA [sequestrine of iron] on rhizogenesis and success of *transplanting* in **peach** almond hybrid plants. 122497
Seedling *transplant* and its effects on mechanized greenhouse lettuce production. 122505
Small woody plants, *transplantable* with **shrubs,** for open, sunny areas in the garden [Landscape gardening]. 122278
Radial paralysis in a goat: treatment by **tendon** *transplantation* [Trauma]. 119290
A study of autogenous **tissues** *transplants* for the repair of canine collateral ligaments of stifle joint [Injuries]. 119243
Soil fumigation effects on early blight [caused by Alternaria solani] of **tomato** *transplants.* 122737
Transplantation of **Typha** [angustifolia] and the distribution of vegetation and algae in a reclaimed estuarine marsh. 120329

TRANSPORTATION

Transport and **accumulation** of di- and monosaccharides in sugarbeet tissues. 121581
Studies on amino **acid** *transport* by the intestine of the stick insect, Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as well as ultrastructure of the midgut epithelium. 124190
Active *transport* of monosaccharides as a general property within the group of yeasts. 121379
Vehicles used for the *transportation* of **agricultural** products. 124664
Aircraft *transportation* of strawberries [Preservation]. 115673
O2 [oxygen] *transport* in the **alpaca** (Lama pacos) at sea level and at 3,300 meters. 117897
Promoting effect of DPX-1840 [3,3a-dihydro-2-(p-methoxyphenyl)-8H- pyrazolo (5,1-a) isoindol-3-one] and other **auxin** *transport* inhibitors on pollen tube growth in vitro. 121178
Auxin *transport* in tendril **segments** of Passiflora caerulea. 121745
Transport of 14C **[carbon** isotope] in cotton in the conditions of oxygen deficiency of roots. 121452
Current **cattle** *transport* study finds little need for change [Regulations]. 115619
Construction of roads for **commodity** *transportation:* cost explosion from excessly long construction periods [Austria]. 115561
2-deoxyglucose *transport* by intestinal epithelial cells isolated from the chick. 117815
Physiology of the carbohydrate utilization patterns of yeasts—a problem **desiring** *transport* resolution. 121384
Loss of inducible **D-galactose** *transport* by baker's yeast [Saccharomyces cerevisiae] after osmotic treatment. 121065
Transport **effect** of some mineral nutrients and photosynthates with reference to stock-scion relationship in citrus. I. Citrus tankan and Citrus unshiu [Oranges]. 121727
Peripheral plasma progesterone during **egg** *transport* in the rabbit. 118388
Role of cyclic **electron** *transport* in photosynthesis as measured by the photoinduced turnover of P700 in vivo [Algae, aphanocapsa]. 120928
On the localization of Mehler reaction with ethanolcatalase trap in the chain photosynthetic **electron** *transport.* 120942
The relationship between proton fluxes and the regulation of **electron** *transport* in [spinach] chloroplasts. 121646

Photosystem 2 mediated **electron** *transport* and phosphorylation with ferricyanide and dibromothymoquinone. The uncoupling activity of dibromothymoquinone [Lettuce chloroplasts]. 121763
Photosynthetic **electron** *transport* in plants of Sitka spruce [Picea stitchensis] subjected to differing light environments during growth. 121824
A sequential link approach to **evaluating** *transportation* facility adjustments [including agricultural commodity distribution]. 115748
Discussion of a sequential link approach to **evaluating** *transportation* facility adjustments [for distribution of agricultural commodities]. 115753
Current problems concerning modernization in manipulation and *transportation* of **foodstuffs**. 116812
Transportation [in the **fresh** fruit and vegetable industries of Florida]: the big step from the field to the mouth. 115583
The storage and *transport* of **fruits** and vegetables. 117310
Transport of sugars in chick embryo fibroblasts. Evidence for a low-affinity system and a high-affinity system for **glucose** *transport*. 117587
Rationalization of the *transport* of **hard** candies up to palletization of shipping contaners. 116790
Observations on [sanitary] problems associated with *transport* of **horses** from overseas. 118438
Hydromechanical *transport* of liquid manure in pressurized pipelines. 124614
Transport **interactions** among sugars in Rhodotorula glutinis [Yeasts]. 121387
Transportation **issues:** problems and projections [Papayas]. 115717
Transportation **issues:** problems and projections by major agencies [Papayas]. 115718
Characterization of **L-asparagine** *transport* systems in Stemphylium botryosum [Fungi]. 121159
In the *transportation* of **liquid** manure there is still reserve [Equipment]. 124693
Novelty in technical provision of reindeer husbandry *[Transportation,* **machinery** for establishing fences, communication facilities]. 124684
The significance of unstirred layers for the kinetics of carrier **mediated** *transport* in plant tissues [of ion and other substances]. 121386
Near ultraviolet light inactivation of an energy-independent **membrane** *transport* system in Saccharomyces cerevisiae [Yeasts]. 121313
Adaption of the Kotyk's carrier theory to the active **monosaccharide** *transport* of yeasts. 121380
The connection between active **monosaccharide** *transport* and cell energy metabolism of higher plants. 121385
Vacuum, ripening and *transport* **packaging** of beef. 116966
Transportation of **people** in agriculture [East Germany]. 115422
Plant *transport* control in 1975 [for disease and pest control in Austria]. 123011
Plasma *transport* forms of ingested fatty alcohols in the rat. 116479
Guidelines on the minimum supply of *transportable* **(pneumatic)** sprayers for plant protection in horticulture. 124705
Polar *transport* of auxin through embryos [Broadbean, Acer pseudoplatanus]. 121305
Computer modelling of **pollutant** *transports* in Lake Erie. 125455
A comparison of rail and barge grain **rates** *[Transportation].* 115624
Feeding, enzymes, carriers and *transport* **[Rats].** 116514
Transferrin function in zinc absorption and *transport* **[Rats].** 116542
Refrigerated *transportation* of fresh meat and sausage [Legislation, hygiene]. 115626
Binding proteins and *transport* in **Saccharomyces** cerevisiae [Yeasts]. 121381
Accelerated **salt** *transport* method for managing groundwater quality. 125362
Determination of the standard factors of the *transportation* **situation** of a region in interregional models of agriculture. 115695
Effects of anion exclusion upon the fitting of theoretical breakthrough equations to **solute** *transport* data [Negative adsorption]. 124866
Syria pushes improvements in grain **storage,** *transport*. 117109
Pathophysiological aspects relating to *transport* **stress** on swine. 4. Muscular activity to exhaustion. 119168
Transport of **sugars** in chick embryo fibroblasts. Evidence for a low-affinity system and a high-affinity system for glucose transport. 117587
Exhaust and *transport* **systems** for dust and chips in the wood industry and development trends. 119236
Unnecessary *transport* of [ornamental] woody plants? 115598
Some problems concerning the **wood** *transport* in Poland. 119666

TRANSPOSITION

Studies of dotted, a regulatory element in maize. III. *Transpositions* of **dotted** and its stability at various locations [Genetics]. 120843

TRANSVERSE

Application of thermal scanning to the study of *transverse* **mixing** in rivers [Remote sensing, pollutants]. 125458
Notes on Uredinales [rust fungi] of Chile. II. Uredinales from the *transversal* **valley** zones. 120273

TRAPS

Influence of weather on capture of adult southern potato wireworm [Conoderus falli] in **blacklight** *traps*. 121779
On the localization of Mehler reaction with **ethanolcatalase** *trap* in the chain photosynthetic electron transport. 120942
The detection of insects by *traps* in **grain-filled** boxcars during transit. 123564
Electrocutor **grid** *traps* vs. Sticky traps for capturing [the lesser peachtree borer] Synanthedon pictipes and Sanninoidea exitiosa. 123414
Records of insects taken at **light** *traps* in Tanzania. II. Distribution and seasonal change in catches of Belostomatidae (Hemiptera: Heteroptera) in relation to rainfall. 123250
Records of insects taken at **light** *traps* in Tanzania. III. Seasonal changes in catches and effect of the lunar cycle on insects of the families Cercopidae, Cicadidae and Fulgoridae (Hemiptera, Homoptera) and Corixidae (Hemiptera, Heteroptera). 123251
Captivated by automatization **(light** *trap* research in Hungary today) [Insect pests]. 123262
Results of insect collection carried out with special **light** *traps*. 123263
Use of microradiographic technics, instead of dissection for study of the mating status of female armyworm moths, Mythimna unipuncta, captured in **light** *traps* (Lepidoptere Noctuidae) capturees aux pieges lumineux. 124145
Study of the predatory ability of some **nematode** *trapping* fungi against the nematode Caenorhabditis elegans (Maupas 1900) Dougherty 1953 [Biological control of crop pests]. 123035
Neuroptera in *light-traps* at **Osteroy,** Hordaland [Insect distribution]. 124371
Field studies on sex **pheromone** *trapping* of the filbert leafroller, Arcips rosanus, in Oregon. 123370
Relation of mosquito density to bird: mammal feeding ratios of Culex tarsalis in **stable** *traps*. 123596
Electrocutor grid traps vs. **Sticky** *traps* for capturing [the lesser peachtree borer] Synanthedon pictipes and Sanninoidea exitiosa. 123414

TRASH *see* WASTE

TRAUMA

Correction of *traumatic* **avulsion** of the upper lip in two dogs. 119289
The head. I. *Traumatic* **lesions** of the skull. 119255
Traumatic **paraplegia** in young bulls. 119207
Radial paralysis in a goat: treatment by tendon **transplantation** *[Trauma].* 119290

TRAYS

Economics of plastic **egg** *trays*. 117053

TREADMILL

Effects in the rat of environmental temperature, diet dilution and *treadmill* **running** on voluntary food intake, body compositon and endocrine organ mass: a multiple regression analysis. 116427
Effects in the rat of environmental temperature, diet dilution, and *treadmill* **running** on liver and adipose enzymes and metabolism of 14C [carbon isotope]-glucose: a multiple regression analysis. 116428

TREES

The **almond** *tree* [Prunus amygdalus] in the southwestern Andalucia: notes on almond trees. 122176
Tree **ans** shrub species for [soil] conservation use in the northern Great Plains. 125151
Improvement of **apple** *trees* for resistance to parasitic fungi and harmful arthropods [Breeding]. 120610
Effect of soil on the physiological activity of **apple** *tree* secretions. 121654
Melanin-like substances in the soil under **apple** *trees*. 121655
Effect of lateral shoot orientation on growth and flowering of young **apple** *trees*. 121667
Effect of placement of phosphorus fertilizer and lime upon growth of Delicious and Golden Delicious **apple** *trees*. 121701
Responses of vigorous 'Delicious' **apple** *trees* to pruning and growth regulator treatments. 121715
The carbon budget of a young **apple** *tree* [Photosynthesis, respiration, solar radiation, temperature]. 121717
Evaluation of the nutrient status of **apple** *trees* [in various regions of Poland]. 121776
Contribution to the knowledge of standard and spur Red Delicious and to Stayman **apple** *trees* [Varieties]. 122306
Investigations on the **apple** *tree*. 9. Pomological and agronomic cards of Red Delicious spur clones [Varieties]. 122308
Investigations on the **apple** *tree*. 8. Behavior of a Golden Delicious spur clone on different rootstocks. 122309
Investigations on the rootstocks of **apple** *trees* grown without pruning. 122310
Productivity of the standard and spur Red Delicious, the golden Delicious and the Yellowspur **apple** *trees* in relation to the rootstock. 122315
Characterizing **apple** *tree* canopies by fisheye photography. 122333
Apple *trees* in the suburban forest as hosts for insects and mites. 123403
Problems and prospects of **apricot** *tree* culture. 122314
Names of *trees* of the **Bagielli** Pygmies in southwestern Cameroon. 119896
Tree **bark**—a usable commodity. 119796
Indicator properties of *tree* **barks** in the emmission area of Frankfurt a. M. [Fraxinus excelsior, Acer platanoides, Tilia]. 120338
Tree **biology** research and plant propagation. 121805
Sugar maple [Acer saccharum]: *tree* and **bole** weights, volumes, centers of gravity, and logging residue. 119835
Resistance of hybrid elm [Ulmus] progenies to Ceratocystis ulmi *[Tree* **breeding].** 120791
Winter hardiness in *trees* and **bushes.** 121815
Fertility of soils occupied by **cacao** *trees* in the southern part of Bahia State [Soil analysis]. 124783
Research marches on in **Canadian** *tree* improvement. 119633
Primary indications on the selection of **cherry** *tree* varieties. 122313
The **chestnut** *tree* [Castanea, ornamental trees]. 122279
Studies on the resistance of **chestnut** *trees* (Castanea spp.) to chestnut gall wasps (Dryocosmus kuriphilus Yasumatsu). iX. Polyphenolic contents in susceptible and resistant varieties. 123416
When to cull **Christmas** *trees*. 119555
Studies assess customer reaction to graded balsam fir [Abies balsamea] **Christmas** *trees*. 119647
U-cut tips **[Christmas** *trees].* 119649
The 1975 **citrus** *tree* census [Use of aerial photography]. 122209
Trees in the **city.** 122424
Residential traffic noise control using *tree-shrub-barrier* **combinations.** 119388
Protection of Great Plains shelterbelts from insects *[Trees,* **control].** 119386
The fertilization process in the Amur **cork** *tree,* Phellodendron amurense Rupr. 121809
Growth and yield of Lord Lambourne and Red **Delicious** *trees* [varieties] on eight apple rootstocks in Cyprus. 122401
What's behind and ahead in blister rust research and **development** *[Trees].* 122688
Protection of windbreaks from *[tree]* **diseases.** 119387
The **Dutch** *tree* nurseries and the European Economic Community. 119582
Techniques for *tree* **establishment.** 119631
Cultivation of **exotic** *tree* species and forest nurseries in South Africa. 1. Exotic species perform more in South Africa than their native areas. 119589
Pichia scutulata [yeasts], a new species from *tree* **exudates.** 120079
An evaluation of **farm** *tree* plantings in Idaho. 119599
The Verzy **Faux** *[Trees].* 119294
Propagation of *tree* **ferns** from spores [Cyathea medullaris, Dicksonia, New zealand]. 122250
A computer simulation of *full-tree* **field** chipping and trucking. 119834
Poisoning grey squirrels: a threat to wildlife? **[Forest** *tree* injuries]. 119361
Warfarin: a question of balance **[Forest** *tree* injuries, squirrels chemical control]. 119362
Some aspects of the control of damping off of **[forest** *tree]* seedlings [by disinfection of soil with fumigants]. 119374
Observations on the the interpretation of the second law of **[forest** *tree]* increment. 119427
Forest *tree* improvement in Japan. 119583
A contribution to the solution of the technology of the harvesting and distribution of **[forest** *tree]* seedlings. 119621
Collection, extraction and processing of **forest** *tree* seed. 119623
Snow/cache **[forest** *tree]* seedling storage: successful systems. 119638
Evaluating the prospects of introducing to Belorussia exotic conifer species [as ornamental and **forest** *trees].* 121616
Biological activity of volatile secretions of flowers [of **forest** *trees* and shrubs]. 121810
Effect of organic substrates on slow germinating seeds of some **forest** *trees* and shrubs. 121811
Physiological basis for using phosphorus 32 [isotope] in studying biochemical effect of **forest** *trees* on each other. 121812
The disappearance **[forest** *trees]* of four leaf leachates in a hard and soft water stream in southwestern Ontario, Canada. 121817
Diseases of shade and **forest** *trees* of the South. 122887
Insects attacking **forest** *trees* in the South. 123440
Key to damage of Southern **forest** *trees* by insects. 123441
Why **fruit** *trees* fail to bear. 121733
Fruit *trees* in Colombia [Varieties]. 122178
Distribution of **fruit** *trees* planted on terraces. 122493
Studies on fireblight [caused by Erwinia amylovora] in the German Federal Republic. 1. Disease development on **fruit** *trees* and ornamental plant after natural attack and artificial inoculation. 122808
Heat therapy: method and application to control plant viruses [of pippin and stone **fruit** *trees].* 122829
Effect of air pollution on **fruit** *trees:* photochemical smog injury to Japanese pear tree. 122978
An experimental hydraulic power module for use with harvestaids [Machines for **fruit** *tree* crops]. 124734
Present fertility of irrigated soils with **fruit** *trees* in the bro Valley. 124765
Current development of various methods of maintaining soil in **fruit** *tree* culture. 125102

Development of quantities offered in the **German** *tree* nursery industry [Supply and demand]. 119575
Phenology and leaf growth of defoliated **hardwood** *trees* [Quercus rubra, Acer rubrum]. 121816
Reproduction 12 years after *seed-tree* **harvest** cutting in Appalachian hardwoods. 119642
The sitka spruce [Picea sitchensis] as a *tree* for **hill** planting and general afforestation. 3. (With plate.). 119586
Interactions of permanent foliar pests with their **host** *tree* [Betula, Populus tremula]. 123457
Propagation using cuttings; a suitable method for supplying forestry with **improved** *trees.* 119571
Tree **improvement** does pay—but more economic analyses and application programs are needed to ensure this. 119541
Potential for the cutting in *tree* **improvement** and reforestation. 119612
Forest genetics and *tree* **improvement.** 119625
Genetic variation influences [forest] *tree* **improvement** strategies. 119632
Mineral nutrients as thinning agents in 'Wilking' **mandarin** *trees* [Citrus reticulata]. 121674
Gall **mites** [of *trees].* 123460
Myxomycetes (slime **molds**) [on *trees].* 122682
Multipurpose *tree* plantations. 119539
Farming areas for the cultivation of *tree* **nurseries.** 119439
Do the producers have it so bad because the *tree* **nurseries** selling the final products have it so good? Also a contribution for reconsidering the ratio of item prices to quantity prices. 119576
Investigation on the necessity of *tree* **nurseries** in West Berlin. 119578
Greenhouse container **nurseries** for better *trees.* 119627
Critical examination of *[tree* **nursery**] catalogues [Europe]. 119574
Experiments in 1976 in *tree* **nursery:** a survey of experimental and research projects in German experimental schools and institutes. 119577
Simple profit control for the *tree* **nursery.** 119581
Potting in the *tree* **nursery** [Ornamentals]. 122276
Research on the mineral nutrition of the **olive** *tree.* 121585
Rooting of **olive** *tree* cuttings. 121658
Present position and future prospects for the British Nursery industry **[Ornamental** *trees* and shrubs]. 115825
Studies on the frost resistance of selected **ornamental** *trees* and shrubs in Poland and on the selection of maternal individuals (Acer, Campsis, Deutzia, Forsythis). 122186
Prunus serrula **[Ornamental** *trees].* 122277
The chestnut tree [Castanea, **ornamental** *trees].* 122279
Virus diseases of **ornamental** *trees* and shrubs. 122830
A casa of flowering and fructification of the Springtime **peach** *tree* out of season in Sicily. 121657
Planting of **peach** *trees* with dense spacing [Varieties]. 122312
Laboratory transmission of Sharka [virus] from **peach** *tree* to peach tree by Myzus persicae Sulzer. 122868
Association between elemental content of dormant **peach** *trees* and susceptibility to short life [Predisposition to cold injuries and bacterial canker, Pseudomonas syringa]. 122964
Anotated bibliography on the effect of N, P, K, Mg and Ca [nitrogen, phosphorus, potassium, magnesium, calcium] on the growth of **pear** *trees* and levels in the leaves, 1958-1975. 121771
Effect of air pollution on fruit trees: photochemical smog injury to Japanese **pear** *tree.* 122978
Population fluctuations of field voles (Microtus): a background to the problems involved in predicting vole plagues **[Pest** of *trees].* 119356
Gypsy moth [Porthetria dispar] a major **pest** of *trees.* 123487
Hyperparasitism in populations of Hyphantria cunea *[Tree* **pests,** natural control]. 123452
Influence of genetic changes and other variables on the encapsulation of parasites by Hyphantria cunea *[Tree* **pests,** natural control]. 123453
Some pests of **plane** *tree* [Platanus, scorch, Gloeosporium nervisequum, Corythuca ciliata]. 122635
Soil water extraction by, and growth of *[trees* **planted** as] multi-row windbreaks. 119395
How to beat the cost of *tree* **planting.** 119554
Evergreen forest North Dakota style *[Tree* **planting** projects]. 119636
Genetic **potential** for better *trees.* 119626
Leucaena leucocephala—an evergreen **protein-rich** *tree* fodder and the possibility of using it in the dietary of animals. 1. Sheep. 118081
Climatic information from 18O/16O ratios of cellulose in *tree* **rings.** 119760
New technical concepts on the chemical control of South American leaf blight [Microcyclus ulei] of the **rubber** *tree* [hevea brasiliensis]. 122586
Nutritional and fertilizer requirements of **rubber** *tree* [Hevea brasiliensis] culture. 124960
Findings made in the cultivation of mycorrhizal inoculum [to be used for *tree* **seedling** propagation]. 120999
Relationship of fire blight [Erwinia amylovora] resistance of young pear seedlings inoculated in the greenhouse to mature **seedling** *trees* naturally infected in the field. 122811
Assembly line for *[tree]* **seedlings.** 119635
Damage to *[tree]* **seedlings** caused by Melolontha melolontha. 123479
The poplar [Populus]: A *tree* very **sensitive** to the presence of salts [in the soil]. 121807
Potential herbicide combinations for weed control in **shade** *trees.* 123072
Action needed to discourage removal of *trees* that **shelter** cropland in the Great Plains. 119376
Allelopathic activity of fruits of *trees* and **shrubs.** 121651
Studies on the utility of selected species of *trees* and **shrubs** for the recultivation of sand escarpments in Szczakowa. 122188
Evaluation of the degree of damage to *trees* and **shrubs** by sulphur dioxide for [Air pollution resistance] breeding purposes. 122908
The effect of fluor compounds on the health condition of *trees* and **shrubs** near the aluminum smelting works "Konin" [Air pollution injuries]. 122909
Results of the evaluation of a **single** *tree* fertilizer experiment on the Scotch pine [Pinus sylvestris]. 124967
Effect of fast-growing *[tree]* **species** on the growth and condition of common oak [Quercus robur] in [shelterbelt] plantings created by a strip type of mixing on the soils of the Kamennaia Step'. 119411
Provenance testing and introductions *[Tree* **species].** 119630
Branch-cutting and debarking on **standing** *trees* [Experiments with new machines in West Germany]. 119663
Studies on the structure and growh of *tree* **stands** in fields in Upper Bavaria. 119446
The influence of tapering of *[tree]* **stem** on its volume calculation. 119536
Test water loss from [Christmas] *trees* in **storage.** 119648
Glassiness of apples [on the *tree* and in **storage].** 122930
Budding and grafting techniques in the production of **street** *trees.* 122217
Trees for **summer** blooms. 122273
Timber *trees.* 119598
Water deficits in **timberline** *trees* [Eucalyptus pauciflora] in the snowy mountains of southeastern Australia. 121822
Rapid production of *trees.* 2. 119594
Host *[tree]* selection by **Trypodendron** lineatum. 123483
Investigations on the selection forest with *trees* of **varied** age of Belluno [Mensuration, Pinus, Picea]. 119426
Isolation of Mycobacterium avium serotype 3 from a **white-headed** *tree* duck (Dendrocygna viduata) [Pathogenicity in chickens]. 118636
Whose *trees?* Whose science? [Forestry in China]. 119363
Propagation techniques [of *trees* for **windbreak** purposes] on the horizon. 119629

TREFOIL

A flotation method for the analysis of chalcid-fly, Bruchophagus kolobovae Fedoseeva, infested **birdsfoot** *trefoil,* Lotus corniculatus L. seed. 123172
Alfalfa and *trefoil* **management** [Frequency of cutting]. 122155

TREHALOSE

Control of circadian rhythm of the *trehalose* **concentration** in the hemolymph of Periplaneta americana. 124187

TREMELLA

Quantitative microanalysis of cell walls of Saprolegnia diclina Humphrey and *Tremella* **mesenterica** Fries [Fungi, chemistry]. 120935
A **new** *Tremella* [dumontii] from Ecuador [Fungi]. 120208

TREPONEMA

In vitro susceptibility of *Treponema* **hyodysenteriae** to carbadox, virginiamycin, and tylosin [Swine dysentery]. 119051

TRIALEURODES

Biological control [with the parasite Encarsia formosa] of glasshouse **whitefly** *(Trialeurodes* vaporariorum) on cucumbers. 123396

TRIATOMA

Suspected cannibalism in survival of nymphs of *Triatoma* **protracta** navajoensis. 124122

TRIAZINE

Migration and detoxication rate of some *simm-triazines* in **Sod-Podzolic** soil with average loam content. 122884

TRIAZOLE

Control of leaf rust [caused by Puccinia recondita] on spring wheat by seed **treatment** with *4-N-butyl-1,2,4-triazole.* 122726

TRIBAL

Jumping plant lice of the *tribe* **Ciriacremini** (Homoptera: Psylloidea) in the Ethiopian region [New taxa]. 124247
New North American Tabanidae (Diptera). XXII. New species in the *tribe* **Diachlorini** in Mexico [Stenotabanus, Dichelacera]. 124475
Foliar anatomy of the Argentine species of the genus Gouinia Fournier (Gramineae, subfamily Eragrostoideae, *tribe* **Eragrosteae).** 120503
Synopsis of the supra-specific taxa of the *tribe* **Harpalini** (Coleoptera: Carabidae) [New taxa]. 124407
Revision of the *tribe* **Pogonocherini** (Coleoptera, Cermabycidae) [New taxa]. 124454
Note on new Buprestidae from Madagascar belonging to the **polycestini** *tribe* (Coleoptera) [Madecacesta guadroni, Madecastalia al bignaci, Pseudocastalia cobosi]. 124269
Cytotaxonomic studies in the *tribe* **Quillajeae** (Rosaceae). 119931
Morphology of Trigonurus asiaticus Reiche larva and relation of the tribe Trigonurini with other *tribes* of the **subfamily** Piestinae (Coleoptera, Staphylinidae). 124308

TRIBOLIUM

Insect growth regulators: some effects of Altosid on *Tribolium* **castaneum** (Herbst). 123536
Internal and external factors governing the fluctuation of *tribolium* **castaneum** populations. 123539
Multifactor ecological aspects of population performance of flour beetles, Tribolium confusum and *Tribolium* **castaneum.** 123545
The behaviour of insects in the presence of insecticides: the effect of fenitrothion and malathion on resistant and susceptible strains of *Tribolium* **castaneum** Herbst. 123561
Evaluation of dillapiole [from Anethum sowa] and dihydrodillapiole as synergists for pyrethrins [insecticide] in dust formulations *[Tribolium* **castaneum].** 123585
Multifactor ecological aspects of population performance of flour beetles, *Tribolium* **confusum** and Tribolium castaneum. 123545
Insect growth regulators. Analogues of TH-6038 and TH-6040 [Aedes aegypti, *Tribolium* **confusum,** Musca domestica, Manduca sexta]. 124011

TRICHINELLA

Mineral contents of the blood and chemical composition of the muscles of *Trichinella-infected* **piglets.** 118970
"Stomacher" *Trichinella* control method. Proposal for a new diagnostic routine technique for post mortem demonstration in routine control [Meat inspection]. 116071

TRICHLOROACETATE

Movement of **sodium** *trichloroacetate* in podzolized Chernozem under the effect of precipitations. 123058

TRICHLOROPHENOXYACETIC

Studies on the determination of toxic actions of derivatives of (2,4-dichlorophenoxy) acetic acid and *2,4-5-trichlorophenoxyacetic* **acid** on eggs of pheasants, quails, and chickens. 123687

TRICHODERMA

Competition between Phytophthora cinnamomi and *Trichoderma* spp. **[Fungi]** in autoclaved soil. 120336
Utilization of heptachlor by fungi [Aspergillus, Penicillium, Curvularia lunata, *Trichoderma* **lignorum].** 121143
Heat resistance of *Trichoderma* **lignorum** Harz [Fungi] in submerged culture. 121274
Cyclosporin A, a peptide metabolite from *trichoderma* **polysporum** (Link ex Pers.) Rifai [Fungi], with a remarkable immunosuppressive activity. 121073
Enzymes and agriculture [Utilization of cellulosic wastes, *Trichoderma* **viride,** food processing]. 116795
Degradation products from aflatoxin B1 by Cornyebacterium rubrum, Aspergillus niger, *Trichoderma* **viride** and Mucor ambiguus [Fungi]. 121042
Biological control of Verticillium malthousei by *Trichoderma* **viride** spray on casing soil in commercial mushroom [Agaricus bisporus] production [Dry bubble disease]. 122746

TRICHOGRAMMA

Possibility of biological control of the European corn borer [Pyrausta nubilalis] with *Trichogramma* **egg** parasites. 123324
Two new species of *Trichogramma* **(Hymenoptera:** Trichogrammatidae) from the U.S.A. [Trichogramma parkeri, Trichogramma minutum]. 124301
A natural mortality table for the corn earworm [Heliothis zea] on peanuts *[Trichogramma* and **Microplitis** for biological control]. 123340
Two new species of Trichogramma (Hymenoptera: Trichogrammatidae) from the U.S.A. [Trichogramma parkeri, *Trichogramma* **minutum].** 124301
Labeling of *Trichogramma* **pretiosum** by rearing on eggs from 32P [phosphorus isotope]-fed adults of Heliothis zea [corn earworm, biological control]. 123282

TRICHOGRAMMATIDAE

Two new species of Trichogramma (Hymenoptera: *Trichogrammatidae)* from the **U.S.A.** [Trichogramma parkeri, Trichogramma minutum]. 124301

TRICHOMES

The absorptive capacities of bromeliad **[Bromeliaceae]** *trichomes.* 120866
Cellular differentiation of terminal regions of *trichomes* of **Oscillatoria** princeps (Cyanophyceae) [Algae]. 120496

TRICHOMYCETES

Asexual sporulation and mycelial growth in axenic cultures of Smittium spp. *(Trichomycetes)* **[Fungi].** 121286
Spore germination in axenic cultures of Smittium sp. *(Trichomycetes)* **[Fungi].** 121289

TRICHOPHYTON
In vitro toxicity of constituents of Rumex maritimus Linn. *[Trichophyton* **mentagrophytes,** Microsporum canis] to ringworm fungi. 122603
Occurrence of keratinophilic fungi on lifeless organic substance in the environment of calfs infected by *Trichophyton* **verrucosum.** 118847

TRICHOPLUSIA
Occluded and nonoccluded nuclear polyhedrosis virus grown in *Trichoplusia* ni: **comparative** neutralization, comparative infectiviry, and in vitro growth studies. 124071
Toxicity, penetration, and metabolism of chlordimeform and its N-demethyl metabolite in cabbage looper larvae *[Trichoplusia* ni]. 123407
Starch compounds as adjunct gelling agents in larval diet of the cabbage looper *[Trichoplusia* ni]. 123415
Sodium alginate as a gelling agent in diets for the cabbage looper, *Trichoplusia* ni. 123892
Phospholipase activity in gut juice of lepidopterous larvae [Pieris brassicae, Spodoptera exiguens, *Trichoplusia* ni]. 123985

TRICHOPTERA
Seasonal and diel changes in the positioning of Glossosoma nigrior **Banks** *(Trichoptera:* Glossosomatidae) on artificial substrates. 123862
The evolution of the sponge feeding habit in the caddisfly genus **Ceraclea** *(Trichoptera:* Leptoceridae). 123807
Trichoptera **collected** by I. Miron in Morocco. 124459
The description and environmental characterization for, a new species of Ochrotrichia from **Colorado** *(Trichoptera:* Hydroptilidae) [Ochrotrichia (O.) susanae]. 124219
Sexual attraction in a *Trichoptera:* **Eniocyia** pusilla Burmeister. 123845
Caddis **flies** and stone flies of the Varanger Peninsula (North Norway) (Trichoptera, Plecoptera). 124286
Caddis **flies** (Trichoptera) from Vestfold, south-eastern Norway. 124364
The evolution of the sponge feeding habit in the *caddisfly* **genus** Ceraclea (Trichoptera: Leptoceridae). 123807
Ecological role of Zelandopsyche **ingens** *(Trichoptera:* Oeconesidae) in a beech [Nothofagus solandri cliffortioides] forest stream ecosystem. 123825
The identification of British limnephilid **larvae** *(Trichoptera)* [New taxa]. 124465
A new **Lepidostomatidae** *(Trichoptera)* from Greece [Lasiocephala doehleri]. 124281
A new Mesophylax [aethiopicus] *(Trichoptera,* **Limnephilidae)** from Ethiopia. 124282
Notes on Limnephilus hirsutus Pict. *(Trichoptera,* **Limnephilidae)** [Recorded for the second time in Norway]. 124375
Studies on the behaviour of adults of Phryganea bipunctata and Agrypnia **obsoleta** *(Trichoptera).* 124116
Caddis flies and stone flies of the Varanger Peninsula (North Norway) *(Trichoptera,* **Plecoptera).** 124286
Trichoptera and **stoneflies** of some waters of Sor Varanger (North Norway) (Plecoptera). V. Limnephilus minusculus (Banks 1907) new for Europe. 124300

TRICHOPTERYGIDAE
The identity of Acrotrichis sitkaensis (Motschulsky) **(Coleoptera,** *Ptiliidae).* 124383

TRICHURUS
Three new [fungus] storage diseases of ginger (Zingiber officinale (L) Rosc) [Nectria inventa, *Trichurus* **spiralis,** Memnoniella echinata]. 122782

TRICUSPID
Dysplasia of the *tricuspid* **value** in the dog and cat. 119129

TRIFOLIUM
The yields of leaf protein and fibre that can be obtained from fractionation of **berseem** *(Trifolium* alexandrinum L.) [egyptian clover]. 117351
Evaporation rate, leaf water potential and stomatal conductance in Lolium, *Trifolium* **[clover]** and Lysimachia in drying soil. 121518
Evaluation of 'Grasslands Huia' and 'Grasslands Pitau' white **clover** *(Trifolium* repens L.) varieties on hill country. 122049
Identification of **Egyptian** *Trifolium* L. [Clover] species by a punched card system. 120243
The effect of various growth regulators on stoloniferous and rhizomatous plants *[Trifolium* **fragiferum].** 123154
Clovers: *Trifolium* spp. **(Leguminosae-Papilionatae).** 121942

TRIGLYCERIDE
Eggs: *triglyceride,* and not **cholesterol,** the villain of heart attacks. 116296
Digestion and absorption of **dietary** *triglycerides.* 116466
Effect of dietary fat on hepatic metabolism of 14C [carbon isotope]-oleic acid and very low density **lipoprotein** *triglyceride* in the gerbil [Coconut or safflower oil]. 116425
Effect of free fatty acids on the **radiolysis** of *triglycerides.* 116765

TRIGONA
Volatile secretions of two Old World stingless bees [Trigona (Meliplebeia denoitti, *Trigona* **(Hypotrigona)** gribodoi]. 124153

TRIGONELLA
Purification and kinetic mechanism of a plant galactokinase *[Trigonella* **foenum-graecum].** 120939
Synthesis of 3-beta-glycosides of diosgenin [from Dioscorea deltoidea], yamogenin and gitogenin [from the seed of *Trigonella* **foenum-graecum].** 121261
Effect of different light periods on the seed surface of fenugreek *[Trigonella* **foenum-graecum]** during the maturation phase. 121338
Steroidal sapogenins from *Trigonella* **occulta.** 121260

TRIIODOBENZOIC
Effect of *2,3,5-triiodobenzoic* **acid** on te greening process in etiolated Euglena gracilis [Algae, growth inhibitors]. 121071

TRIMETHYLAMINE
Washing of *trimethylamine* by the **water** of the melting ice used for preserving sea bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052

TRIMETHYLAMMONIUM
The influence of *(2-chloroethyl)-trimethylammonium* **chloride** (CCC) and Septoria nodorum Berk. (Leptosphaeria nodorum, Muller) on the yield of winter wheat. 122581
Effect of **2-chloroethyl** *trimethylammonium* chloride on tuberization of potatoes. 121773

TRIMETHYLSILYL
Gas-liquid chromatography of *trimethylsilyl* **ethers** of naturally occurring anthraquinones [found as products of a number of fungal species]. 121181

TRIMMING
An objective look at manual **bone** *trimming* and at soft and hard separated meat from poultry and large animals. 117046

TRINERVITERMES
Nasute termite soldier fromtal gland secretions. 1. Structure of trinervi-2beta,3alpha,9alpha-triol-9-O-acetate, a novel diterpene from *Trinervitermes* **soldiers.** 124012
Nasute termite soldier frontal gland secretions. 2. Structures of trinervitene congeners from *Trinervitermes* **soldiers.** 124013

TRIOXIDE
Investigation of 6-O-trytilcellulose oxidation by system **chromium** *trioxide-pyridine.* 119735

TRIOZA
Trioza **chrysanthemi** Law (Homoptera, Psyllidae) new to Norway. 124384
Disappearance of citrus. Is there only hope in controlling citrus leaf psylla *[Trioza* **erytreae]** with insecticides? 123385

TRIPHOSPHATASE
K+ [potassium]-stimulated **adenosine** *triphosphatase* of maize roots: partial purificatin and inhibition by Helminthosporium maydis race T toxin. 122708
Oligomycin sensitivity of the mitochondrial ATPase **[adenosine** *triphosphatase]* as a marker for fly transmissability and the presence of functional kinetoplast DNA in African trypanosomes. 123619

TRIPHOSPHATE
Binding of nucleotides ATP **[adenosine** *triphosphate]* and aDP [adenosine diphosphate] to sarcoplasmic reticulum: study by rate of dialysis [Rabbit skeletal muscles]. 117599
Sulphite reductase and ATP **[adenosine** *triphosphate]* sulfurylase in low- and high-sulphite forming wine yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916
Chlorophyll A versus **adenosine** *triphosphate* as algal biomass indicators in lakes. 121201

TRIPLETS
Detection of *triplet* **states** in algae by zero-field resonance [Photosynthesis]. 120921

TRIPLOIDS
Cell proliferation in the gonads of *triploid* **intersexes** of drosophila melanogaster (Diptera). 123847

TRISTEZA
Transmission of **citrus** *tristeza* virus by the melon aphid [Aphis gossypii]. 122860

TRITICALE
Triticale in **Barani** areas. 121921
Triticale **[Breeding].** 120576
Meiotic behaviour of F1 hybrids between *Triticale* **forms** of different ploidy level exceedng the parents in fertility. 120644
Disturbances at meiosis in octoploid and **hexaploid** *Triticale* forms. 120640
Passing of rye chromosomes in *Triticale* as a **method** of development of new forms. 120671
Evolutional and genetic foundations of heterosis in remote hybridization and polyploidy [Wheat, **rye,** *Triticale].* 120703
Performance of *triticale* during 1974 and 1975 in the **Sacramento** and San Joaquin Valleys of California [Varieties, yields]. 121862
Triticale: **Triticosecale** spp. (Gramineae-Triticinae). 121968

TRITICINAE
Rye: Secale **cereale** *(Gramineae-Triticinae).* 121957
Triticale: **Triticosecale** spp. *(Gramineae-Triticinae).* 121968
Wheats: **Triticum** spp. *(Gramineae-Triticinae).* 121970
Barley: Hordeum **vulgare** *(Gramineae-Triticinae).* 121940

TRITICUM
Effects of awns of the photosynthesis and yield of wheat, *Triticum* **aestivum.** 121413
Ear and flag leaf photosynthesis of awned and **awnless** *Triticum* species [Wheat]. 121412
Weak magnetic fields and germination in *Triticum* **[Durum** wheat]. 121463
Wheats: *Triticum* spp. **(Gramineae-Triticinae).** 121970
Reduction in anaphase bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in irradiated & normal **wheat** *(Triticum* aestivum L.) root tips. 120475
Results of trials on **wheat** *(Triticum* vulgare, L.) weed control by recent post-emergence herbicides. 123055

TRITIUM
Environmental pollution by *tritium* **[Food** contamination]. 125531
Incorporation of *tritiated* **thymidine** in germinal and somatic cells of the onion fly, Hylemya antiqua (Diptera: Anthomyidae), as determined by autoradiography. 123889

TROGODERMA
Chemical communication in the mating behavior of *Trogoderma* **glabrum** (Herbst) (Coleoptera: Dermestidae). 124024
The biochemical studies on diapause, its induction & termination in *Trogoderma* **granarium** Everts (Coleoptera: Dermestidae). 123974
Evidence and function of a "repellent pheromone" of larvae of *Trogoderma* **granarium** Everts (Coleoptera, Dermestidae). 124188

TROILUS
Papilio *troilus* (Papilionidae) in pursuit of fish crow. 124065

TROMBIDIIDAE
The autumn mite [Neotrombicula **autumalis** *(Trombidiidae)],* a serious local [human] pest. 123658

TROPAEOLUM
Heterochromatin underreplication in *Tropaeolum* **[majus]** embryogenesis. 120788
Foliar ontogenesis and leaf lobing of *Tropaeolum* **peregrinum** L. II. The development of the lobe after the formation of the lobulets. 120895
Complementary study of the structure of three galactoxyloglucans (amyloids) of seeds [Balsamina, *Tropaeolum,* **Tamarindus].** 120991

TROPHIC
The LANDSAT-1 multispectral scanner as a tool in the classification of inland lakes *[Trophic* **status,** remote sensing]. 125277
Trophic **status** of inland lakes from LANDSAT [Computer programs, remote sensing]. 125281

TROPHOBLAST
Effects of cytochalasin B (CB) on the morula-to-blastocyst transformation and *trophoblast* **outgrowth** in the early mouse embryo. 117675

TROPICAL
CTA [College of *Tropical* **Agriculture]** papaya research progress report [Culture]. 122417
Food of *tropical* **ants.** I. Activity cycle and diet of Camponotus solon (Forel) (Hymenoptera, Formicidae). 123997
Food of *tropical* **ants.** II. Feeding bahaviour and diet of Camponotus vividus (Smith) (Hymenoptera, Formicidae). Intrageneric comparisons. 123998
Methodological principles and problems in the development of inventorying of land utilization in *tropical* **areas.** 115313
The genus Tylocerus Dalm. (Coleoptera, Cantharidae). 32. Contribution to the study of *Neotropical* **Cantharidae** [New taxa]. 124351
Tropical **cattle** nutrition under grazing range conditions in the Sahel: measurement of the dry matter intake and estimation of digestibility and feeding value of forages. I. Theoretical basis, purposes and methods. 118158
The *neotropical* **dendrophilous** fauna. I. Review of the Proctolabinae (Orthoptera, Acridae) [New taxa]. 124199
A comparison of **five** *tropical* legumes [Forage yields]. 121881
Autogeny and endocrine involvement in the reproduction of *tropical* **flesh** flies (Diptera: Sarcophagidae). 123885
The use of micronutrients as Fritted Trace Elements on *tropical* **forage** legumes. 124958
Factors affecting growth and nitrogen fixation of Spirillum lipoferum [from several *tropical* **grasses].** 121161
Tropical and *sub-tropical* **grasses:** various genera (Gramineae). 121969
Effect of fire and grazing in the maintenance of *tropical* **grasslands.** 120337

Production methods for *tropical* **hardwoods.** 119697
The market for *tropical* **hardwoods:** the North American market. 119700
The market for *tropical* **hardwoods:** the European market. 119701
The market for *tropical* **hardwoods:** the Japanese market. 119702
Veneering and layup of *tropical* **hardwoods.** 119706
Reproductive performance of Zebu compared with Charolais X Zebu females in a **humid** *tropical* environment. 118211
Neotropical **Miridae.** 196. Descriptions of five new genera and six new species (Hemiptera) [Brazil]. 124414
Neotropical **Miridae.** 197. Description of Urubumiris gen. Nov. and two new species of Minytus (Hemiptera) [Brazil]. 124415
Neotropical **Miridae.** CXCVII. Review of the genera Callichila Reuter and Platytylus Fieber (Hemiptera) [New taxa, Latin America]. 124416
Tropical **orchids** as an endangered plant group. 122298
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some **perennial** *tropical* legumes and molasses-grass [Varieties, Melinis minutiflora]. 121886
Design of an air curtain growth chamber [with high humidity control system for *tropical* **plant** study]. 124651
Pre- and postemergence control of [the **poisonous** *neotropical* weed] Parthenium hysterophorus Linn. 123197
Motivation and method in ensuring protection of *tropical* **produce** from grower to his market [Storage and disinfestation]. 115684
Problems of stored products entomology in Britain arising out of the import of *tropical* **products** [Insect pest control]. 123507
Xylobotryum andinum, a *tropical* **pyrenomycete** from northern California [Fungi]. 120223
Problems of rodent control in **rural** *tropical* areas [Public health]. 116066
Purple nutsedge [Cyperus rotundus]: *tropical* **scourge** [Brazil]. 123086
Relationship of chemical analysis to in vitro digestibility for **selected** *tropical* and temperate grasses. 117353
Dermatophilosis in *tropical* **South** America [Dermatophilus congolensis, livestock]. 118703
Chemical intervention on all stages and on all scales of *tropical* **storage** practice [Insect pest control]. 123525
Tropical and **sub-tropical** grasses: various genera (Gramineae). 121969
Tropical **veterinary** medicine [course] for the veterinary laboratory [Education, Scotland]. 118556

TROPICS
Development of agricultural production systems, a **necessity** for the *tropics.* 115343

TROUT *see* FISH

TRUCKS
A computer simulation of full-tree field **chipping** and *trucking.* 119834
Use of **tank** *trucks* for fires in fire-sensitive forest areas. 119323
Crop response to **tank** *truck* application of liquid sludge. 125504

TRUFFLES
Judging *truffles* in meat products [Mushrooms]. 116981
Truffles and *truffle* **substitutes.** 116740

TRUNK
Some problems concerned with the organization of catering to the builders of the Baikalamur **railroad** *trunk* line [Choice of foods]. 116569

TRYPANOSOMA
A refinement of the immunofluorescent complement fixation test for *Trypanosoma* **infections** [in animals]. 118969

TRYPANOSOMES
Oligomycin sensitivity of the mitochondrial ATPase [adenosine triphosphatase] as a marker for fly transmissability and the presence of functional kinetoplast DNA in **African** *trypanosomes.* 123619

TRYPANOSOMIASIS
Trypanosomiasis of **domesticated** animals of South America. 118968

TRYPETIDAE *see* TEPHRITIDAE

TRYPODENDRON
Host [tree] selection by *Trypodendron* **lineatum.** 123483

TRYPSIN
Fractionation and amino acid composition of **acid-soluble** *trypsin* peptides of inclusion bodies protein of moth (Galleria mellonella) nuclear polyhedrosis virus. 123827
Enhancement of hemagglutinating activity of Haemophilus gallinarum by *trypsin* **[Chicken].** 118629
The endopeptidase nature of a *trypsin-like* **enzyme** from rye seeds. 121451
Studies on the solid-phase synthesis of bovine **pancreatic** *trypsin* inhibitor (Kunitz) and the characterization of the synthetic material. 117820
In **vitro** *trypsin* digestion of bovine and pig muscles both raw and cooked: peptides fractionations by molecular exclusion chromatography [Pork and beef]. 116937

TRYPTOPHAN
Identification of *D-valyl-L-tryptophan* **anhydride** from Aspergillus chevalieri [Fungi]. 121253
The *tryptophan* **metabolism** and the increase of ommochromes synthesis during the embryonic development of Carausius morosus. 124055
An automated fluorometric method for the measurement of *tryptophan* in **plasma.** 117751
Osmolyte and *tryptophan* **receptors** controlling gastric emptying in the dog. 117541

TSETSE
The work of Veterinary and *Tsetse* **[Glossina]** Control services [in Zambia]. 123625
Tsetse **[Glossina]** control, present and future. 123671

TSUGA
Mineral fertilization of *Tsuga* **heterophyla** Sarg. In nursery conditions. 124965

TUBE
Experimental studies in intestinal healing of the dog. III. An end-to-end intestinal anastomosis using a decalcified **bone** *tube.* 119142
The cleaning of *tubular* **cellulose** acetate ultrafiltration membranes [Whey proteins, cleaning procedure]. 116911
Neural-tube **defects** caused by 5-bromodeoxyuridine in chicks. 119193
Medication of piglets via **feeding** *tube.* 118510
Tube **gastrostomy** for the treatment of gastric volvulus. 119123
Fine structure of the spore wall and **germ** *tube* change during germination [Fungi]. 121117
Gas chromatography of pesticides; *tubular* **literature** abstracts. V. 123737
Collapsible **metal** *tubes* as containers for semi-fluid dairy products. 124685
Sieve-tube **plastids** in the electron microscope; development and fine structure of plastids in the sieve tubes of Allium porrum L. [Leeks]. 120524
Promoting effect of DPX-1840 [3,3a-dihydro-2-(p-methoxyphenyl)-8H- pyrazolo (5,1-a) isoindol-3-one] and other auxin transport inhibitors on **pollen** *tube* growth in vitro. 121178
Effects of temperature and genotype on **pollen** *tube* growth in some self-incompatible and self-compatible almond cultivars [Prunus amygdalus]. 121704
Metabolism of liver triacylglycerols in **rats** *tube-fed* a threonine-devoid diet. 116497
Sieve-tube plastids in the electron microscope; development and fine structure of plastids in the **sieve** *tubes* of Allium porrum L. [Leeks]. 120524
Ultrastructural studies of prepubertal porcine **uterine** *tube* epithelium. 117547

TUBER
Effect of temperature and warming up time of potato tubers on detectability of the X, S, M viruses in **by-stolon** *tuber* parts. 122869
Tuber **chemical** composition variation among yellow nutsedges [Cyperus esculentus]. 123159
Phenylalanine ammonia lyase & phenols in *tubers* of **Kufri** Dewa [a potato variety] in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804
Behaviour of Phytophthora infestans (Mont.) de Bary on **potato** *tubers* in relation to lenticel resistance. 122701
Effect of temperature and warming up time of **potato** *tubers* on detectability of the X, S, M viruses in by-stolon tuber parts. 122869
Cyanide-insensitive respiration in **root** *tubers* of cassava (Manihot esculenta Crantz.). 121761
Effects of seed size and spacing of **seed** *tubers* and stems on yields of early and canning potatoes. 122387
Possible uses of *potato-tuber* **water** as a substitute for meat water [Utilization of wastewater]. 125404
Influence of the dates of tuberization and sprouting in **yam** *tubers* (Dioscorea sp.) on the emergence time in the field. 121589
Wound repair in **yam** *tubers:* physiological processes during repair. 121744

TUBERCLES
The appearance of degenerating dorsal columm tract in the clava and **cuneate** *tubercle* of the dog after surgical and ischaemic injury. 117693

TUBERCULOSIS
Research of Koch bacillus in *tuberculous* **cattle** muscles and blood. 118905
Corynebacterium *pseudotuberculosis* as a cause of subacute interstitial nephritis in a chimpanzee. 119050
Tuberculous **metritis** in a buffalo (Bos bubalus). 118740
Tuberculosis in **non-human** primates [Zoonoses]. 119061

TUBERIZATION
Effect of 2-chloroethyl trimethylammonium chloride on *tuberization* of **potatoes.** 121773
Influence of the dates of *tuberization* and **sprouting** in yam tubers (Dioscorea sp.) on the emergence time in the field. 121589

TUBULES
[Pig] platelet tubulin and [bovine] brain tubulin antibodies: immunofluorescence of **cell** *microtubules.* 117644
Microtubules and **cell** movements in the islets of imaginal histoblasts of the abdominal epidermis in Calliphora erythrocephala (Diptera). 123850
Cachonina illdefina sp. Nov. (Dinophyceae): **chloroplast** *tubules* and degeneration of the pyrenoid [Algae]. 120136
Microtubules and **control** of insect egg shape [of the gall midge Heteropeza and the cockroach Periplaneta]. 124021
Morphological and histochemical data on the imaginal **Malpighian** *tubules* of Pieris brassicae (L.) (Lepidoptera). 123812
The development of larval **Malpighian** *tubules* in Corcyra cephalonica Staint. (Lepidoptera: Pyralididae). 124186
Structural *microtubules* in hindgut epithelial cells of the mosquito [Culex pipens]. 124130
Protein crystals and bundles of *tubules* in **yeast** cells. IV. Biochemical and electronmicroscopical studies on the induction of crystals of alcohol dehydrogenase (ADH) [Saccharomyces carlsbergensis]. 121389

TULIP
High-temperature treatment (blindstoken) of bulbs of *tulip* cv **[cultivar]** Rose Copland for flower killing and yield improvement. 122402
Dynamics and character of infection rate of *tulips* by **[fungus** and bacterial] diseases in the Main Botanical Garden of the USSR Academy of Sciences. 122585

TULIPAE
Studies on vegetative propagation of *Tulipa* **[varieties].** I. Organ formation from excised bulb scales in vitro. 122405

TULLBERGIA
Tullbergia **(Mesaphorura)** spelaea sp. N. A new species of Collembola. 124470

TUMOR
Public health aspects of **animal** *tumor* viruses. 118964
Some systemic effects of [an *anti-tumor* **antibiotic]** adriamycin on the dog. 118778
Agglutination of human erythroytes and **ascites** *tumor* cells of the mouse by using extracts of the European mistletoe (Viscum album L.). 120847
Granulosa **cell** *tumor* in a broodmare. 119133
Biopsy cytology of mast **cell** *tumour.* 119210
An ultrastructure study of *tumor* **cells** of Haworthia [variegata] plants induced by 2,4-D [(2,4-dichlorophenoxy) acetic acid]. 120537
Effect of varying levels of dietary protein on *tumor* **development** and lipid metabolism in rats exposed to aflatoxin. 116184
Chemotherapy of canine and **feline** *tumors.* 118463
Cryosurgery of canine and **feline** *tumors.* 118465
Epidemiology of canine and **feline** *tumors.* 118466
General concepts of canine and **feline** *tumors.* 118468
Radiation therapy of canine and **feline** *tumors.* 118471
The etiology of canine and **feline** *tumors.* 118475
The prevention of canine and **feline** *tumor* development. 118476
General concepts of **immunotherapy** of *tumors.* 118777
Tumor **inhibitors.** 114. Aloe emodin: antileukemic principle isolated from Rhamnus frangula L. 121264
General concepts of *tumor* **metastasis** in the dog and cat. 118469
Experimental pathologic structures in the oak [Quercus] in relation to histology of **natural** *tumors.* 123031
Indicine-N-oxide: the *antitumor* **principle** of Heliotropium indicum. 121254
RNA-dependent DNA polymerase activity of **RNA** *tumor* virus. VI. Processive mode of action of avian myeloblastosis virus polymerase. 118808
Subgroup-specific antigenic determinants of avian **RNA** *tumor* virus structural proteins: analysis of virus recombinants. 119040
Further studies in genetic resistance of fowl to RSV (RaV 0): evidence for interaction between independently **segregating** *tumour* virus b and tumour virus e genes. 118344
Aldehyde oxidase activity in the *tumorous-head* **strain** of Drosophila melanogaster. 123874
The *tumor-inducing* **substance** of Agrobacterium tumefaciens. 122798
Further studies in genetic resistance of fowl to RSV (RaV 0): evidence for interaction between independently segregating tumour virus b and *tumour* **virus** e genes 118344
Experiment on the isolation of *tumor* **viruses** from cell cultures of human neoplasms by inoculation into chicks. 118677

TUNA *see* FISH

TUNDRA
Plant succession on an **active** *tundra* mud slump, Garry Island, Mackenzie River Delta, Northwest Territories [Senecio congestus, Arctagrostis latifolia, Eriophorum scheuchzeri, vegetation]. 120333
A model of stand photosynthesis for the wet **meadow** *tundra* at Barrow, Alaska. 121040
Characteristic of meat productivity of reindeer in the *tundra* and **taiga** zones. 117430

TUNG
Tung: **Aleurites** spp. (Euphorbiaceae). 122538

TUNICA
Vegetative innervation of the esophagus. IV. Endings in the tela submucosa and *tunica* **muscularis** [Cats, monkeys]. 117522

TUNNELING
Body temperature and flight performance of honey bees [Apis mellifera ligustica] in a servo-mechanically controlled **wind** *tunnel*. 124538

TURF
Control of yellow nutsedge [Cyperus **esculentus**] in *turf*. 123120
Effects of glyphosate and siduron [herbicides] on *turfgrass* **establishment.** 123206
Renovation of *turfgrasses* with **herbicides.** 123212
Turfgrass **tolerance** and weed control with methazole and metribuzin [herbicides]. 123214

TURKEY
Turkey [**Agricultural** production]. 115683
Indirect fluorescent antibody test for the diagnosis of coronaviral enteritis of *turkeys* (**Bluecomb**). 118603
Studies on the pellicular complex of the exocrythrocytic merozoites of the avian malarial parasite (Plasmodium lophurae) [Derived from *turkey* **brains**]. 118890
Semen volume, insemination frequency and initial fertility of *turkey* **breeders.** 118415
Ontogenetic changes in the haemoglobins of geese, ducks, **chickens** and *turkeys*. 117636
Nutrient requirements of **chickens,** *turkeys*. 118065
Influence of different and final protein levels on productive and reproductive activities of *turkeys*. II. **Dressing** percentage and carcass composition. 117977
Turkeys must **fit** the profig picture. 115537
The fine structure of the leucocytes of the domestic birds. Electron microscopical studies of the blood leucocytes of the fowl, *turkey,* **goose** and duck. 117960
Studies into the heat balance of *turkey* **hens.** 3. Insulation of skin. 117859
Studies into thermal balance of *turkey* **hens.** 2. Emission of heat. 117860
Studies on thermal balance of *turkey* **hens.** 1. Generation of heat. 117862
Brain monoamine metabolism of *turkey* **hens** in various stages of their reproductive life cycle. 118223
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT *[turkey* **herpesvirus**] vaccine. II. Effectiveness of the deptavac HVT vaccine with broiler parents during the egg-laying period. 118972
Interesting doctoral work by a Norwegian veterinarian [Pasteurella multocida, bacterial **infections** in *turkeys]*. 118859
Distribution of species from the genus Betula L. In *Turkey,* **Iran** and Iraq. 119940
Operational characteristics of meat animails. IV. *Turkeys,* **Large** White and Bronze [Breeds]. 117507
Evaluation of *turkey* **litter** silage as a feed source for replacement dairy heifers. 118174
Integrating IRD [integrated rural development] projects into the national **plan** of *Turkey*. 115873
Survey of the determination of the occurrence of ergot (Claviceps purpurea (Fr.) Tul) on the domestic and foreign wheat varieties and wild Gramineae grown in the Black Sea **region** of *Turkey*. 122584
Possibilities of extending the zootechnical exploitation of *turkeys* in **relation** to the availability of technological facilities to the order of meat consumption. 117392
Types of transferrins in the blood **serum** of *turkeys*. 117927
Effect of furazolidone in feed on immune response of *turkeys* **vaccinated** with live Pasteurella multocida in drinking water. 118626
Spleen lesions of hemorrhagic enteritis [**virus**] of *turkeys*. 118641
Influence of different initial and final protein levels on productive and reproductive activities of *turkeys*. I. **Weight,** growth, conformation, feed and water consumption. 117976
Leucocyte formula of the blood from Broad Breasted **White** *turkeys* in relation to their age and productivity. 117924
How many will the market stand? [**World** *turkey* expansion]. 115966
Amputation of wings in **young** *turkeys* and the effect of this operation on their growth and development. 117500
Gentamycin in **young** *turkeys* [Antibiotic residues, toxicity]. 119280

TURMERIC
Lasioderma serricorne F. As a major pest of **stored** *turmeric*. 123510

TURNIPS
Turnip and **relatives:** Brassica campestris (Cruciferae). 122382
Inhibition of *turnip* **yellow** mosaic virus synthesis by pyrimidine analogues. 122823
Sites of coat protein accumulation in *turnip* **yellow** mosaic virus-infected cells. 122878

TURPENTINE
Black *turpentine* beetle [Dendroctonus frontalis] infestations after thinning in a loblolly pine [Pinus taeda] plantation. 123500

TUSSOCK
Life tables for a declining population of the **Douglas-fir** *tussock* moth [Orgyia pseudotsugata] in northeastern Oregon. 123444
Douglas-fir *tussock* moth [Orgyia pseudotsugata] 1974 operational spraying of DDT. 123489
An expanded research and development program for the Douglas **fir** *tussock* moth [Orgyia pseudotaugata]—1975 to 1978. 123488
Pilot control projects of chemical and microbial insecticides against Douglas **fir** *tussock* moth [Orgyia pseudotsugata]-1974. 123491
The Douglas **fir** *tussock* moth [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on non-target organisms and residue, accumulation in vertebrate animals. A progress report—February 1975. 123494
Douglas **fir** *tussock* moth [Orgyia pseudotsugata] egg hatch and larval development in relation to phenology of grand fir and Douglas-fir [Abies grandis, Pseudotsuga menziesii] in northeastern Oregon. 123502
A synthesis of (z)-6-heneicosen-11-one. The sex pheromone of the Douglas **fir** *tussock* moth [Orgyia pseudotsugata]. 124070

TWILIGHT
Twilight **pests** in imported feed raw material. The copra beetle (Necrobia rufipes Degeer), the sap beetle (Carpophilus spp.) and the Siamese flat beetle (Lophocateres pusillusKlug). 123582

TWINS
Identical *twin* heifer calves wanted. 118253
Effect of site of transfer on pregnancy and *twinning* **rates** following bilateral egg transfer in the cow. 118350
Twin **shoots** borne on a Botryopteris frond [fossil fern] from the British Upper Carboniferous [morphological variation]. 120256

TYLENCHORHYNCHUS
Studies on the chemical changes induced by the infection of the rootknot nematode (Meloidogyne incognita) in tomato & eggplant & the stunt **nematode** *(Tylenchorhynchus* brassicae) in cabbage & cauliflower roots. 122951

TYLENCHULUS
Effects of nonfumigant nematicides on root populations and manganese and zinc levels in rough lemon seedlings infected with the citrus nematode, *Tylenchulus* **semipenetrans.** 123016

TYLOSIN
In vitro susceptibility of Treponema hyodysenteriae to carbadox, virginiamycin, and *tylosin* [Swine dysentery]. 119051

TYMPANUM
The **mesothoracic** *tympanic* organ of Corixa punctata Ill. (Heteroptera, Corixidae). 124032
Functional organization of the *tympanal* **organ** of the flour moth, Ephestia kuehniella. 124045
Action of depressant drugs on *tympanic* **reflexes** [Cats]. 117566

TYPHA
Morphology and biology of *Typha* **angustifolia** L. [In relation to its taxonomy]. 120074
Transplantation of *Typha* **[angustifolia]** and the distribution of vegetation and algae in a reclaimed estuarine marsh. 120329
Insect fauna of **male** *Typha* angustofolia flowers [Coleoptera, Diptera]. 124179

TYPHLODROMUS
Insecticide-resistant predatory mites *[Typhlodromus* **pyri]** feed on European red mite, Panonychus ulmi] in apple orchards. 123428
Plictran: testing mite [Panonychus ulmi, Tetranychus urticae, *Typhlodromus* **pyri]** populations for suspected resistance. 123430

TYPOLOGY
Environmental studies and **summer** *typology* of the phytoplankton and phytobenthos [Algae] along the Tropea coast (Calabria). II. 120019

TYROPHAGUS
Nutritional requirements and metabolic inhibition of some acarid mites *[Tyrophagus* **putrescentiae,** Caloglyphus berlesei, control]. 123547
Reproduction biology of *Tyrophagus* **putrescentiae** (Schr.) (Acarina: Acaridae) [Stored product mites]. 123552

TYROSINE
Affinity chromatography of Aspergillus [saitoi] acid proteinase on an *N,O-dibenzyloxycarbonyl-tyrosine-AH-sepharose* 4B **column** [Fungi]. 120882
Titration behavior of **individual** *tyrosine* residues of myoblogins from sperm whale, horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798
Nonsense suppressors of Saccharomyces cerevisiae can be generated by mutation of the *tyrosine* **tRNA** anticodon. 120785

UBIQUINONE
Ubiquinones and their **role** in intact and ill fowl. 118528

UDDERS
Sanitation service of the [dairy cow] *udder* in **Bavaria.** 118549
Characteristic of staphylococci isolated from the *udder* of **cows** affected with mastitis. 118975
Inspection of milking machines and equipment and the sanitation problem of the *udder* **[Dairy** cows]. 118548
Control and safeguarding of *udder* **health** of conventionally reared heifers and young cows in preparation of the opening of a dairy cattle unit for 2,000 animals. 118504
Milking, *udder* **health** and milk quality. 118559
The officially **recognized** *udder* health service. 118560
Evaluation of the *udder* in **Red** Steppe cattle in relation to machine milking. 117933
Occurrence of Immunoglobulin A in milk of cows with **subclinical** *udder* diseases. 118833

ULCER
Fatal **abomasal** *ulcers* in yearling feedlot cattle. 119131

ULMUS
Surface characteristics of American elm *[Ulmus* **americana]** clones for identification by scanning electron microscopy. 120462
Root uptake of soil-injected [systemic fungicide] benomyl and its detection with *Ulmus* **americana.** 122640
A bicentennial elm *[Ulmus,* **Ceratocystis** ulmi, Dutch elm disease]. 122553
Four steps may help elmowners fight Dutch elm disease **[Dieback** *(Ulmus)]*. 122621
Dutch elm *[Ulmus]* **disease** [caused by Ceratocystis ulmi, transmitted by Scolytus multistriatus]. 122687
The aggressive strain of Ceratocystis ulmi in the Netherlands *[Ulmus,* **Dutch** elm diseases]. 122683
Three new clones of **elm** *[Ulmus]*. 119607
Resistance of hybrid elm *[Ulmus]* **progenies** to Ceratocystis ulmi [Tree breeding]. 120791

ULTRAFILTRATION *see* FILTRATION

ULTRASONICS
Comparative characteristics of *"ultrasonic"* **chromatin** fractions from leukocytes (neutrophils) and rabbit brain. 117606
Attempts to influence the feeding behaviour of brown rats using *ultrasonic* **noise** generators [for rodent control]. 122958
Ultrasound **therapy** for animals. 118499

ULTRASTRUCTURE
Ultrastructure and **acid** phosphatase in pedicel abscission of hibiscus [rosa-sinensis]. 120405
Ultrastructural **aspects** of seed cells. Relations between ultrastructure and function. 120463
Male sterility caused by cooling treatment at the young microspore stage in rice plants. XII. Classification of tapetal hypertrophy on the **basis** of *ultrastructure*. 120531
Ultrastructural and **biochemical** evaluation of parathyroid function of pregnant cows administered disodium ethane-1-hydroxy-1,1-diphosphonate (EHDP) and fed a low calcium prepartal diet. 117889
Ultrastructural **changes** in skeletal muscle of selenium-vitamin E-deficient chicks. 119069
Ultrastructural **changes** in germinating Dicranum scoparium: a moss containing protein storage material [Musci]. 120435
Ultrastructural **changes** in the root meristem cells of Rubus chamaemorus L. (Cloudberry). 120555
Ultrastructural **changes** in leaf cells of Chenopodium quinoa infected with potato virus S. 122856
Ultrastructural **changes** in tobacco mosaic virus-induced local lesions in Nicotiana tabacum L. cv. "Samsun NN". 122857
Initial light effects on **chloroplast** *ultrastructure* in soybeans. 120545
Phylogenetic relationships of Caulerpa (Chlorophyta) based on comparative **chloroplast** *ultrastructure*. 120774
Activity of Hill reaction and the *ultrastructure* of **chloroplasts** in maize hybrids and their initial forms. 121473
Comparative *ultrastructural* study of the exine of some genera of Labiatae. 120506
Comparative *ultrastructure* of green and xantha redwood (Sequoia sempervirens) chlorplasts. 120538
Naturally-occurring degeneration in chick muscle development: *ultrastructure* of the M. **complexus.** 117763
An *ultrastructural* and **cytochemical** study of aging in the thyroid of the domestic cat. 117882
Ultrastructure during **development** of the nucleus of Batophora oerstedii (Chlorophyta; Dasycladaceae) [Algae]. 120498
The *ultrastructure* of **early** generation development and later schizonts of Eimeria tenella in the chicken [Coccidiosis]. 118896
Ultrastructure and **elemental** composition of dormant and germinating Diplodia maydis spores [Fungi]. 120478
Dormant and germinating Diplodia maydis spores: *ultrastructure* and **elemental** composition. 120541
Ultrastructural **evaluation** of parathyroid glands and thyroid C-cells from cattle fed solanum malacoxylon. 117890

Ultrastructural and ultrahistochemical examinations of the canine mammary gland. I. *Ultrastructural* **examinations.** 117557
The evolutionary significance of the *ultrastructure* of the **exine** in umbelliferous pollen grains. 120179
Ultrastructural aspects of seed cells. Relations between *ultrastructure* and **function.** 120463
Ultrastructure of **glandular** epithelial cells in the endometrium of the ewe during the estrous cycle and early pregnancy. 117892
Southern corn leaf blight [Helminthosporium maydis]: *ultrastructure* of **host-pathogen** association. 122718
Ultrastructure of **infection** of Cokeromyces recurvatus by Piptocephalis unispora (Mucorales) [Fungi]. 120415
Ultrastructural **localization** of acetylcholinesterase in cultured cells. I. Embryo muscle [Chick embryos]. 117812
Ultrastructural **localization** of acid phosphatase in root meristem of Alfalfa vulgaris. 120556
Ultrastructure and **mechanics** of the conidium-conidiophore attachment of Helminthosporium maydis [Corn leaf blight]. 122740
Ultrastructure of **melanin** formation in Thielaviopsis basicola [Fungi]. 120558
Ultrastructure of **microbodies** of methanol-assimilating yeasts [Candida, Saccharomyces, Torulopsis]. 120486
Studies on amino acid transport by the intestine of the stick insect, Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as well as *ultrastructure* of the **midgut** epithelium. 124190
Ultrastructure of **mitosis** in the cowpea rust fungus Uromyces phaseoli var. vignae. 120483
Ultrastructural **modifications** of plastids in leaflets of Laris decidua and PIcea excelsa during sprouting of buds. 120461
Ultrastructural **modifications** in the vesicular glands of the Machilidae (Insecta, Thysanura) during the moulting cycles. 124193
Connecting ontogenic events in seeds to the *ultrastructural* and **molecular** levels. 121083
Ultrastructure and **morphology** of the Neurospora crassa [Fungi] cell wall mutants, slime and slime X using TEM and SEM. 120559
Ultrastructural **morphology** of two sensilla placodea on the antenna of a parasitic wasp [Tetrastichus hagenowii]. 124132
Development dynamics of **myocardium** *ultrastructure* in embryonal and early postnatal stage in chickens. 117613
Ultrastructure of the **neural** canal closure in the chicken embryo. 117520
Ultrastructure of **persisting** mitotic nucleoli of mung beans. 120557
Translocation and transfer of nutrients in vesicular-arbuscular mycorrhizas [roots of onion]. I. The arbuscule and phosphorus transfer: a **quantitative** *ultrastructural* study. 121743
An *ultrastructural* **research** of pancreatic islets in sodium nirite poisoned rabbits. 116033
Ultrastructure of **retrocerebral** complex of the earwig, Euborellia annulipes, and role of aorta as a neurohaemal organ. 124056
The *ultrastructure* of the **Spilocaea** state of Venturia inaequalis in vivo [Fungi]. 120447
Ultrastructure of **stressed** bovine muscle. 117891
Ultrastructural **studies** of prepubertal porcine uterine tube epithelium. 117547
Ultrastructural **studies** of bovine respiratory disease complex. 118892
Ultrastructural **studies** of isolated polytene chromosomes by scanning electron microscopy [Chironomus stigmaterus]. 124133
An *ultrastructural* **study** of the head region of bovine spermatozoa. 118246
An *ultrastructure* **study** of tumor cells of Haworthia [variegata] plants induced by 2,4-D [(2,4-dichlorophenoxy) acetic acid]. 120537
An *ultrastructural* **study** of spermatium formation in the rust fungus Gymnosporangium juniperi-virginianae. 122557
Ultrastructural **study** of Stempellia mutabilis Leger and Hesse, a microsporidian parasite of Ephemera vulgata. 124134
Ultrastructural **survey** of Onagraceae pollen. 120518
Male sterility caused by cooling treatment at the young microspore stage in rice plants. XIII. *Ultrastructure* of **tapetal** hypertrophy without primary wall. 120532
Ultrastructure of the **termite-associated** fungus Laboulbeniopsis termitarius. 120528
Ultrastructural and **ultrahistochemical** examinations of the canine mammary gland. I. Ultrastructural examinations. 117557

ULTRAVIOLET

Recent results concerning the migration behaviour of **benzophenone-based** *ultraviolet* absorbents from polyolefines in foods [Contamination]. 116233
Differential responses to *ultraviolet* **irradiation** of the polar cytoplasm of Drosophila [melanogaster] eggs. II. Response to dose. 124171
Effects of photoprotection and reversible inactivation of yeast Candida guilliermondii induced by 313nm *[ultraviolet]* **light.** 121031
Near *ultraviolet* **light** inactivation of an energy-independent membrane transport system in Saccharomyces cerevisiae [Yeasts]. 121313
Photosynthesis and carbonic anhydrase activity in Zn[zinc] deficient peaches irradiated with *ultraviolet* **light.** 121676
UV *[ultraviolet]-induced* **mitotic** recombinations in somatic cells of Drosophila melanogaster. 124090
Peculiarities of the response of maize heterotic plants to *ultraviolet* **radiation.** 121477
Radiofrequency, infrared, and *ultraviolet* **radiation** for control of stored-product insects: prospects and limitations. 123551
Changes in the total protein and the protein fractions in cow's milk treated with *ultraviolet* **rays.** 116925
Effect of **short-wave** *ultraviolet* radiation on growth and development of Gladiolus. 121614
The quantitative determination of ortho- toluene sulfonamide (o-TS) in saccharin by U. V. *[Ultraviolet]* **spectrophotometry** and by gas chromatography. 116712
Establishing the initial stage of fat autooxidation in dry dairy products by means of *ultraviolet* **spectrophotometry.** 116926

UMBELLALES

The evolutionary significance of the ultrastructure of the exine in *umbelliferous* **pollen** grains. 120179

UMBELLIFERAE

Carrot: Daucus **carota** *(Umbelliferae).* 122350
Components of *Umbelliferae.* VI. **Coumarins** of Peucedanum offinale L. 120872
Investigation of secondary plant substances. I. Essential oils *[Umbelliferae,* **Labiatae].** 121276
Components of *Umbelliferae.* IX. **THree** new coumarins of Seseli tortuosum L. 120874

UMBILICARIA

Chemical constituents of *Umbilicaria* **indica** Frey and Ramalina farinacea L. Ach. [Lichens]. 121018

UMBROSA

Differentiation of Scrophularia auriculata L. And **Scrophularia** *umbrosa* Dum. 120028

UNANESTHETIZED *see* ANESTHESIA

UNDENATURED *see* DENATURATION

UNDERDRAINAGE *see* DRAINAGE

UNDERGROUND

Storage of maize in an *underground* **pit** lined with polyethylene. 117075
Balance of *underground* **water** and dynamics of moisture in the areation zone [in soil] in relation to meteorologic factors (1969-1973). 125216
Development of recommendations for designing and effective operation of irrigation systems on the basis of major irrigated tracts in the Azerbaijan SSR considering regularitiesof changing the regime of *underground* **water** and the hydrogeologic-reclamation situation effected by irrigation (1971-1973). 125221
Methodology of determining the losses of *underground* **water** in evaporation. 125231
Resources of *underground* **water** of increased mineralization on the territory of the USSR, their location, formation and prospects of utilization (1970-1974). 125234
Study of hydrogeologic conditions of the Fairzabad area (Tadzhik SSR) for the purpose of increasing operational supplies of *underground* **water** [for irrigation and drinking]. 125236
Sodium carbonate salinization of soils and *underground* **waters.** 124797

UNDERSTORY

Resource division in an *understory* **herb** community: responses to temporal and microtopographic gradients. 120310
The response of *understory* **herbs** to soil depth gradients in high and low diversity communities. 120328
Relationships between forest cutting and *understory* **vegetation:** an overview of Eastern hardwood stands. 119641

UNDERWEIGHT *see* WEIGHT

UNGUICULATA

Cowpeas: **Vigna** *unguiculata* (Leguminosae-Papilionatae). 122356

UNICELLULAR *see* CELLS

UNIRRIGATED *see* IRRIGATION

UNITS

Interconversion of cholinesterase enzyme **activity** *units* by the manual Delta pH [hydrogen-ion concentration] method and a recommended automated method [Organophosphorus and carbamate pesticide intoxication]. 123694
More protection against the risk of epidemics in large laboratory animal stocks. Is a legislative regulation necessary in laboratory **animal** *units?* [Swine]. 118652
Hexamita muris infection in a mouse and European hamster **breeding** *unit.* 119065
Possibilities for prophylaxis of perosis in poultry. 2. Testing of a preparation with manganese and selenium, supplied by the State Farm Agraria Dresden, for perosis prophylaxis in a **broiler** *unit.* 119170
The intensive **care** *unit* in small animal practice. 3. Observations on monitored parameters. 118582
The intensive **care** *unit* in small animal practice. 2. Personnel and equipment. 118583
The intensive **care** *unit* in small animal practice. I. Intensive care and the traumatized patient. 119291
Control and safeguarding of udder health of conventionally reared heifers and young cows in preparation of the opening of a dairy **cattle** *unit* for 2,000 animals. 118504
Subunit **compositions** of vertebrate alpha crystallins [Livestock, laboratory animals, poultry]. 117637
Methods of determining grain losses on the **cutting** *unit* of the combine harvester. 124749
Organization of metabolic control in a **dairy** *unit* with 2,000 head of cattle [Detection of disorders]. 119166
Results obtained from metabolism checks on idustrialized **dairy** *units.* 119174
The management and planning of social and economic processes of development as a *unit* [**East** Germany]. 115419
Optimization of diesel **electric** *units* for livestock production. 124750
Analysing data with repeated observations on each **experimental** *unit* [Split plot]. 115781
Application of a metabolic control program in industrialized cattle **farming** *units.* 119151
Wildlife management by **habitat** *units*—a preliminary plan of action [Vegetation maps, remote sensing]. 120370
Hypothalamic *unit* activity related to lever pressing and eating in the chronic monkey. 116361
A veterinary institute at regional level and its approach to metabolic control of dairy cows on **industrialized** *units.* 119149
[Classification of] **inflorescence** *units* in the Cyperaceae. 119936
International *unit* of measure (SI) applied to macaroni dryers. 117189
Renewal of treatment, storage and **marketing** *units* for food potatoes, and integration of automatic E 691 mix separators. 124672
Hypothalamic glucoreceptor response—biphasic nature of *unit* **potential** changes [Food intake]. 116360
The concentration of dairy companies and **production** *units* in the Netherlands. 115945
Advisory services of veterinary medicine attached to regional institute in Halle and its role in encouraging beginning of industralized livestock **production** *units.* 118501
Clinical-chemical examinations to protect industrialized dairy **production** *units* against metabolic diseases. 119157
A technical description of three [ornamental plant] **propagating** *units* in Guernsey. 122211
The [plant] **propagation** *unit:* layout and equipment to aid handling. 124604
Non-identical behaviour of the *subunits* of **rabbit** muscle creatine kinase. 117597
Progesterone-binding components of chick oviduct: in vitro effect of **receptor** *subunits* on gene transcription. 117790
Mobility restriction in vivo of the heavy **ribosomal** *subunit* in a secretory cell [Chironomus tentans]. 124022
The ribosomes of Drosophila. IV. Electrophoretic identity among **ribosomal** *subunit* proteins from wild type and mutant Drosophila melanogaster and Drosophila simulans. 124088
Soils of Inangahua Depression, South Island, New Zealand. III. **Soil** *unit* sheets. 124846
Results and experience obtained from veterinary services on a **state** *unit* for pig breeding and fattening after the VIIIth Socialist Unity Party Congress. 118518
The purpose and operation of a Nuclear **Stock** *Unit* [Insect-proof, virus-free structures for selection plant propagation, New Zealand]. 122921
Neurospora crassa [Fungi] glutamine synthetase. Purification by affinity chromatography and characterization of *subunit* **structure.** 121166
Pumpkin (Cucurbita sp.) seed globulin. I. Purification characterization, and *subunit* **structure.** 121757
Bacteria in the air of housed **swine** *units.* 118797

UNSAPONIFIABLE *see* SAPONIFICATION

UPGRADING

Training and *upgrading* of **veterinarians** in prevention and control of animal diseases. 118526

UPHOLSTERING

The inside story. In-store checklist for upholstery and *upholstered* **furniture.** 116582
Genuine leather, a natural material for *upholstering* **[Tanning** and properties]. 117007
The inside story. In-store checklist for *upholstery* and **upholstered** furniture. 116582

UPLANDS

A geological perspective of the *upland* **biota** of Laysan atoll (Hawaiian Islands) [Animals and plants]. 117611
Oviposition and host selection by the spotted cutworm, Amathes c-nigrum L. [Among vegetables and *upland* **crops].** 123259
The relationship between soil aeration, stability and growth of Sitka spruce (Picea sitchensis (Bong.) Carr.) on *upland* **peaty** gleys. 121820

URACIL

Depression of *uracil* **uptake** by ammonium in Neurospora crassa [Fungi]. 121160

URANIUM

A sensitive procedure to **determine** *uranium* in [food] colouring materials [Food]. 116703

URBAN
Toward a food policy for Latin **America's** *urban* areas: Lima as a case study. 115826
Problems of prescribed burning and smoke in *wildland-urban* **areas** of California. 125447
Urban **climates** and the natural environment [Pollution]. 125485
Contents and methodical aspects of *urban* **environmental** models [Social causes]. 125383
Fuels—the source of the matter *[Urban* **fires** and forest fires, air quality]. 125442
Heavy metal concentrations in kidneys of *urban* **gray** squirrels [Environmental health]. 125520
Urban **land** use: remote sensing of groundbasin permeability [Remote sensing]. 125282
Three examples of applied remote sensing of vegetation [Aquatic weeds, *urban* **planning,** plant disease quarantine]. 115159
The rural youth *[Rural-urban* **population** migration]. 115127
According to Pardo Buelvas, the welfare of the *urban* **population** cannot be constructed on the accumulated impoverishment of the peasant classes [Economic aspects, programs, Colombia]. 115983
Development of user applications for earth resources [remote sensing] survey data in *urban* and **regonal** planning in the Puget Sound area. 115248
Lead contamination of *urban* **soils** and vegetation by emissions from secondary lead industries. 125493
Windbreaks for *urban* **uses.** 119406
Study concerning disinfection and hygienic treatment of *urban* **wastes** by pit composing as well as conclusions about the standardization of control methods. 125086
Interactions between land use and *urban* **water** resources planning. 115312
Soils of the **Wellington** *urban* area. 124853

UREA
Studies investigating the excretion of **acetyl** *urea* in the milk of dairy cows receiving oral doses of 14C [carbon isotope] acetyl urea. 117993
Experiments on determining the magnitudes affecting the pressing of cattle feed with *urea* **additives.** 117368
Rapid det4ection and estimation of extraneous urea in buffalo milk and effects of added *urea* on **certain** physico-chemical properties of milk [Adulteration]. 116168
Fungitoxicity of some *urea* **derivatives** of 1, 3, 4-thiadiazole [Fungicides]. 122602
Rapid det4ection and estimation of **extraneous** *urea* in buffalo milk and effects of added urea on certain physico-chemical properties of milk [Adulteration]. 116168
Urea **[fed** to dairy cows] proved harmless at twice the rate. 118114
Effect of *urea* **feeding** on the blood haemoglobin content of Haryana heifers. 118074
The potential [adverse] effects of *urea* **fertilization** on Peromyscus maniculatus in northwest forests. 122999
Production of **glycosyl** *urea* on the basis of hydrolysates of deciduous wood hemicelluloses. 119741
Effect of various amounts of *urea* on the **health** of broilers. I. 118181
Use of **insect-acaricide** *carbamide* acid esters in livestock production. 2. Acute toxicity of insect-acaricide carbamide acid esters. 119266
Use of **insect-acaricide** *carbamide* acid esters in livestock farming. 3. Chronic toxicity of insectacaricide carbamide acid esters. 119267
Use of **insect-acaricide** *carbamide* acid esters in livestock farming. Dynamics of residues of insect-acaricide carbamide acid esters with particular reference to carbaryl. 119268
Use of **insect-acaricide** *carbamide* acid esters in livestock production. 1. Range and mechanism of action of insect-acaricide carbamide acid esters [Review of literature]. 123647
Studies on silage making. II. Addition of *urea* and **limestone** to hybrid napier silage [Cross between Pennisetum purpureum and Pennisetum thyphoides]. 117350
Effectiveness of supplementary feeding of reindeer with *urea-mineral* **mixture.** 118069
Induction of meiotic anomalies in Allium cepa L. **[Onions]** by *urea.* 120474
Urea **phosphate** as a partial protein replacer in sheep concentrate diets. 117975
Influence of *urea* on **proteolytic** enzyme of cultivated land. 125012
Studies on the characterization of straw pellets. 9. Preparation and investigation of 14C-15N [carbon and nitrogen isotopes] *urea* **straw** pellets, 32P [phosphorus isotope] phosphat straw pellets or 3H [hydrogen isotope] straw pellets. 117326
Winter leaching of nitrate from autumn-applied calcium nitrate, ammonium sulphate, *urea* and **sulphur-coated** urea in bare soil. 124834
The use of pasture for beef production. 3. Different protein sources for *molasses/urea* **supplementation** to bulls during the dry season. 118050
The effects of a granular nitrogen fertilizer and a foliar spray of *urea* on the **yield** and breadmaking quality of ten winter wheats. 125019

UREDINALES
Studies in some rust fungi *[Uredinales]* from **India.** 120277
Contribution to the *Uredinales* **[rust** fungi] flora of Iran and Afghanistan [Puccinia buffoniae, Aecidium iranicum, new taxa]. 120265
Notes on *Uredinales* **[rust** fungi] of Chile. 120272
Notes on *Uredinales* **[rust** fungi] of Chile. II. Uredinales from the transversal valley zones. 120273

UREDOSPORES
Effects of the concentration of *uredospores* of **brown** rust causal agent, Puccinia recondita Rob. ex Desm., on inoculation rates of wheat plants. 122652

UREMIA
The *uremic* **syndrome.** 119121
Control of breathing in *uremia:* **ventilatory** response to CO2 [carbon dioxide] after hemodialysis. 117772

URETER
Clinical experiences with the combined technique of ureterovesicular anastomosis for treatment of **ectopic** *ureters* [in the dog]. 118464

URETHRA
Induced **feline** *urethral* obstruction: response to hyperkalemia to relief of obstruction and administration of parenteral electrolyte solution. 119110
Testing of insemination boars following glandectomy of the *bulbo-urethral* **glands.** 118375

URIDINE
Precocious development of UDP *[uridine* **diphosphate]-glucuronyltransferase** activity in chick-embryo liver after administration of adrenocorticotropic hormone and of certain 11beta-hydroxy corticosteroids. 117584
Uridine **diphosphoglucose** dehydrogenase in the intervertebral disc [of an old sheep and a young pig]. 117705
Uptake of *uridine* by a **long-day** duckweed, Lemna gibba G3. 121327
Hormonal studies of *uridine* **utilization** in an insect cell line CP-1268 derived from the codling moth Laspeyresia pomonella. 123967

URINE
Laser light scattering bioassay for veterinary drug residues in food producing animals. 1. Dose-response results for milk, serum, *urine,* and **bile.** 118460
Gas-liquid chromatographic determination of iodofenphos [pesticide] and several related compounds in tissues and *urine* of **cattle.** 123720
Bacterial isolations from canine and **feline** *urine.* 118822
Urinary **infiltration** of the young bull. 119073
Effects of ammonium chloride on formation of **siliceous** *urinary* calculi in calves. 119085

UROCYSTIS
Comparative primary infection characteristics of Ustilago striiformis and *Urocystis* **agropyri** [leaf smuts] on cultivars of Poa pratensis. 122725

UROGENITAL
A comparison of horse, cow, and sheep blood in NYC medium: effect on recovery of Neisseria gonorrhoeae and *urogenital* **mycoplasmas.** 117702
Pseudomonas pyocyanea in the *urogenital* **tract** of a bull. 118736

UROLOGY
Interaction effects of epidemiologic factors in the **feline** *urological* syndrome [associated with castration]. 119273

UROMYCES
Ultrastructure of mitosis in the cowpea rust **fungus** *Uromyces* phaseoli var. vignae. 120483

URONIC
Neutral sugar, *uronic* **acid,** cellulose, and protein content of cell walls isolated from gametophytes of the liverworts Lophocolea heterophylla and Conocephalum conicum. 121187

UROPODIDAE
Acarology *[Uropodidae,* **Trachyuropoda,** new taxa, South America, New Guinea]. 124198

URSIDAE
Beetle fauna associated with scats of Brown **bear** *(Ursus* arctos) from Trysil, south Norway 1974. 123650

URTICACEAE
Silica incorporation in the cel wall of the stinging cell of *Urtica* **dioica.** 120550
The regulation of silica incorporation into the stinging cell wall of *Urtica* **Pilulifera.** 120554
Living plants continue to grow after examination by scanningelectron microscopy *[Urtica* **pilulifera].** 121336

USNEA
Ecophysiological response of lichen transplants to air pollution in the Murdochville Gaspe Copper Mines area, Quebec [Parmelia squarrosa, Hypogymnia **physodes,** *Usnea].* 122974

USTILAGO
Dimorphism in *Ustilago* **cynodontis** [Fungi]. II. Glucidic metabolism. 120888
Lysine and arginine requirement of *Ustilago* **cynodontis** [Fungi] 4001 yeast-like cells. I. Growth in the presence and in the absence of lysine. 120889
Effect of chloramphenicol on the electron systems in *Ustilago* **cynodontis** [Fungi]. 122644
Cytological study of *Ustilago* **hypodytes** (Schlecht.) Fr. And its relations with its host at the level of spore formation. 122772
Comparative primary infection characteristics of *Ustilago* **striiformis** and Urocystis agropyri [leaf smuts] on cultivars of Poa pratensis. 122725

UTERUS
Stimulation of *uterine* **activity** by administration of prostaglandin F-2 alpha during parturition in sheep. 118360
Electrostimulation in the **cervix** *uteri* in the mare; contribution to the treatment of functional disturbances of the ovaries. 118425
Action of histamine and its receptor blockers on *uterine* **circulation** in sheep. 117893
Nutritional effects on age at puberty and plasma amino acid level in Yorkshire gilts and on chemical composition, nucleic acid, fatty acid and hydroxyproline **contents** of the *uterus.* 118097
Obesity in young men after famine exposure in *utero* and **early** infancy. 116491
A rare case of maduromycosis [Monosporium apiospermum] of the **equine** *uterus.* 119044
Production, chemical composition and prostaglandin F-2 alpha content of *uterine* **fluid** in pregnant sheep. 118359
Uterine **luminal** proteins at the time of implantation in rats. 118362
Extrauterine **migration** of haematic mummy in a she-buffalo. 119100
Ultrastructural studies of prepubertal **porcine** *uterine* tube epithelium. 117547
Requirement of an essential thiol group and ferric iron for the activity of the progesterone-induced **procine** *uterine* purple phosphatase. 117794
Uterine **proteins** and development in vitro of rabbit preimplantation embryos. 118363

UVEITIS
Problem-oriented ophthalmology. 2. **Anterior** *uveitis.* 118497

VACCINATION
Brucella abortus strain 19 **calfhood** *vaccination* —a review. 118949
Marek's disease vaccine breaks: differences in viremia of *vaccinated* **chickens** between those with and without Marek's disease. 118637
Prevention: the necessity of *vaccination* [for the **control** of poultry diseases]. 118645
Effect of infectious bursal agent on the response of chickens to Newcastle disease and Marek's **disease** *vaccination.* 118627
Control of animal **diseases** through *vaccinations.* 118683
The immune response of birds from immune layers, *vaccinated* on the **first** and fourth day against Newcastle disease. 119001
Studies on **simultaneous** *vaccination* of cattle against rinderpest and foot and mouth disease. 118756
Vaccination **trials** against bovine dermatophilosis in southern Chad [Dermatophilus congolensis]. 118718
Effect of furazolidone in feed on immune response of **turkeys** *vaccinated* with live Pasteurella multocida in drinking water. 118626

VACCINES
Uan'e reaction in cows immunized with the STI [Sanitary Technical Institute] *vaccine* **[Anthrax].** 119036
Do *vaccines* & **antibiotics** mix? [Cattle]. 118686
Treatment of fungal sinusitis with **autogenous** *vaccine* (a case report) [Aspergillus fumigatus, dogs]. 119060
Efficacy of the **Bulgarian** *vaccine* against Marek's disease in broilers. 118982
Marek's **disease** *vaccine* breaks: differences in viremia of vaccinated chickens between those with and without Marek's disease. 118637
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [turkey herpesvirus] *vaccine.* II. **Effectiveness** of the deptavac HVT vaccine with broiler parents during the egg-laying period. 118972
Immunizing activity of a *vaccine* against **Gumboro** disease [chickens]. 118922
A study on the effectivity of immunoprophylaxis of Marek's disease with the deptavac HVT [turkey herpesvirus] vaccine. II. Effectiveness of the deptavac **HVT** *vaccine* with broiler parents during the egg-laying period. 118972
On the immunogenic properties of a polyvalent **inactivated** *vaccine* from respiratory viruses (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990
Study on the immunogenic properties of **inactivated** *vaccines* produced with the infectious bovine rhinotracheitis virus. 118997
FMD [foot-and-mouth disease] *vaccine*—**a new** concept [Livestock]. 118590
On some problems concerning the production of a *vaccine* against **Newcastle** disease with the use of La Sota strain. 118988
Institute to control veterinary products **[Rabies** *vaccine* and control, livestock health, Brazil]. 118492
Rabies *vaccines* for animals and man. 119010
Safe *vaccine* for pregnant cows [Bovine viral diarrhea]. 118591
Testing effectivity of Salmonella **typhi** *vaccine* in animal experimentation. 118878
Antibody class and complement requirement of neutralizing antibodies in the primary and secondary antibody response of cattle to infectious bovine rhinotracheitis **virus** *vaccine.* 118618
Persistence of antibody of feline panleucopaenia induced by a modified live **virus** *vaccine.* 118799

VACCINIUM
Potential fertility levels in four **diploid** *Vaccinium* species [Blueberries]. 120768

VACUOLE
Asymmetric distribution of concanavalin A binding sites on yeast plasmalemma and *vacuolar* **membrane** [Saccharomyces cerevisiae]. 120906
Vacuoles in the **nucleus** of normal and abnormal drake spermatozoa. 118227
Golgi apparatus secretion of *vacuolar* **substances** in maize root cells. 120544

VACUUM
Using edible protein casings for sausages in *vacuum-packed,* **air-tight** containers. 117002
Resistance monitor and control for *vacuum* **evaporation** of metals and carbon [Plant protection]. 123025
Interactions between sludge conditioning, *vacuum* **filtration,** and incineration. 125508
Effect of initial internal temperature and storage temperature on the microbial flora of *vacuum* **packaged** beef [Quality]. 116197
Quality characteristics of *vacuum* **packaged** beef as affected by postmortem chill, storage temperature, and storage interval. 116203
Vacuum, **ripening** and transport packaging of beef. 116966

VAGINA
Results in oral and *intravaginal* **application** of megestrol-acetate for heat synchronisation of Merino sheep. 118373
Isolation and characterisation of Mycoplasma bovigenitalium from **bovine** *vaginal* tract. 118734
Pheromones of mammals: an investigation of volatile acids in *vaginal* **excretions** of minks, Mustela vison Briss. 118255
Exfoliative *vaginal* cytology of the dog using Wright's stain. 117953
Measurement of electric resistance of the *vaginal* **mucus** as an aid for heat detection [Livestock, dogs]. 118414

VAGUS
Conduction velocity along the **afferent** *vagal* dendrites: a new type of fibre [Cats]. 117823
Functional significance of **thoracic** *vagal* branches in the chicken. 117896

VALENCE
Further observations on the use of a *bivalent* **bacterin** against Haemophilus gallinarum [Chickens]. 118632
Effects of *divalent* **cations** on vitamin B12 adsorption to brush borders of rat intestine. 116454
Effects of *monovalent* **cations** on IAA [indoleaetic acid]-and FC [fusicoccin]-stimulated proton-cation exchange in pea stem segments. 121762
Permeability of a cell junction during intracellular injection of *divalent* **cations** [Chironomus thummi]. 124068
On the immunogenic properties of a *polyvalent* **inactivated** vaccine from respiratory viruses (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990

VALERIANA
Medicinal species of *Valeriana* in the **USSR.** 119961

VALLEY
Present fertility of irrigated soils with fruit trees in the **bro** *Valley.* 124765
Seasonal use of water by date palms in **Coachella** *Valley,* southeastern California. 121785
Design gardens inside-out in **Delaware** *Valley* [Landscapes]. 122339
Endolithic blue-green algae in the **dry** *valleys:* primary producers in the Antarctic desert ecosystem. 120397
Emergency underdrainage in the **Goulburn** *Valley* [Groundwater balance]. 125302
Grain sorghum performance trials at the **Imperial** *Valley* Field Station in 1975 [Varieties, yields]. 121858
Grain sorghum performance trials at the **Imperial** *Valley* Field Station in 1974 [Varieties, yields]. 121859
Production and performance of common and durum wheats at the University of California **Imperial** *Valley* Field Station in 1974 and 1975 [Varieties, yields]. 121863
Performance of triticale during 1974 and 1975 in the Sacramento and San **Joaquin** *Valleys* of California [Varieties, yields]. 121862
Summary of 1975 regional wheat variety performance trials for the Sacramento and San **Joaquin** *Valleys* of California [Yields]. 121864
Wheat variety performance in California's Sacramento and san **Joaquin** *Valleys,* 1974 [Yields]. 121866
Notes on baji in the **Kathmandou** *valley* [Production and use of rice cakes; ethnosociology of the villagers]. 117126
Overwintering of brinjal [eggplant] shoot and fruit borer, Leucinodes orbonalis Guen. (Lepidoptera, Pyralidae) in **Kulu** *Valley,* western Himalaya, India. 123372
The **Loire** *Valley* wines: their geographical situation, their [grape] vineyards, and their characteristics. 122461
Determination of copper, iron, nickel, and sulphur by X-ray fluorescence in lichens from the **Mackenzie** *Valley,* Northwest Territories, and the Sudbury District, Ontario. 120979
Effects of pulp mill emissions on lichens in the **Missoula** *Valley,* Montana. 125398
Response of American Pima cotton varieties to skip-row planting in the El **Paso** *Valley* [Yields]. 122084
[Soil] erosion in **Plata** *Valley* [Brazil]. 125114
The **Po** *valley* climate and its influence on pedogenesis. 124833
Delineation of the boundaries of a buried **pre-glacial** *valley* with LANDSAT-1 data [Udoll soils, remote sensing]. 124827
Rift *Valley* Fever [Sheep, goats and cattle]. 118684
Short-season, narrow-row cotton studies in the Coastal Bend and Brazos **River** *Valley.* 122086
Community and authority response to the **Saginaw** *Valley* lumber strike of 1885 [Michigan, forest history]. 119353
User requirements for project-oriented remote sensing [**Tennessee** *Valley* Authority]. 115273
Notes on Uredinales [rust fungi] of Chile. II. Uredinales from the **transversal** *valley* zones. 120273

VALONIA
Ionic relations and the regulation of turgor pressure in the marine alga, *Valonia* **macrophysa.** 121192

VALUATION
Valuation of **molasses** [Extraction, processing, used as cattle feed]. 117180

VALVE
Emergence of Hyalophora cecropia (Saturniidae) blocked by seeds in the **cocoon** *valve.* 124060

VANESSA
A migration of *Vanessa* **kerhawi** (McCoy) (Lepidoptera: Nymphalidae) in Tasmania. 123821

VAPOR
The *vapour* **pressure** of aqueous fructose solutions. 119767
Changes in CO2 [carbon dioxide] and **water** *vapour* exchange rates in leaves of Quercus robur infected by Microsphaera alphitoides (powdery mildew). 122702
Possible role in uptake of **water** *vapour* by ixodid tick [Amblyomma americanum] salivary glands. 124049

VARIA
Isolation and identification of phytotoxic substances from seeds of **Coronilla** *varia* L. 121332

VARIANCE
Estimate of **genetic** *variance* in open-pollinated varieties of rye (Secale cereale L.). 120664

VARIEGATED
An ultrastructure study of tumor cells of Haworthia *[variegata]* **plants** induced by 2,4-D [(2,4-dichlorophenoxy) acetic acid]. 120537
The stratified structure of forest soils in the *variegated* **sandstone** area of East Thuringia. 124916
Propagation of Phormium **tenax** *'variegata'* and Phormium tenaxrubrum. 122252

VARIETIES
Activities of tne National Institute for **Agricultural** *Variety* Testing, 1973 [Hungary]. 121904
Morphological study of edible **amaranth** *varieties* and the natural cross-pollination test. 120485
Old garden roses, a personal **anthology** *[Varieties].* 122441
Forecasting the flowering stages of **apple** *varieties* in Kent, England, by the use of meteorological data. 122173
Apple *varieties* in Spain. 122185
Behavior of **apple** *varieties* on different beds in the Havelland fruit growing area [East Germany]. 122509
Lighting of leaf canopy and the yielding ability of Zimny Zolotoy Parmen as affected by the planting pattern and the form of the crown [**Apples,** *varieties].* 122499
Asparagus *varieties* and measures for their improvement in Taiwan. 122391
Fatty acid composition of the oil of different **avocado** *varieties* cultivated in Sao Paulo State. 117309
Comparative study of the [mutagenic] effect of ethylenimine and gamma-rays on wheat and **barley** *varieties* in the first generation. 120718
Results of the comparison of domestic [Hungarian] and foreign malting **barley** *varieties.* 122546
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, yield amount, morphology and tissue structure of leaves in summer **barley** *varieties.* 122610
Varieties of **black** currant for [large] production planting. 122492
The carotenoids of a **black** *variety* of the larva of the moth, Manduca sexta [Tobacco pests]. 124051
Evaluation of chilling requirements of almond [Prunus amygolalus] *varieties* for **breaking** dormancy. 121591
Bisexual papaws *[Varieties,* **breeding].** 120615
Physiological characteristic of drought and heat resistance in maize *[Varieties,* **breeding].** 121572
A study of tetraploids from the **cabbage** *variety* Likorishko Bjalo 7. 120638
Sasanqua—the step-child **Camellia** *[Varieties].* 122442
Stocking rate estimates of grasses associated with legumes *[Varieties,* **cattle** grazing]. 121888
Some old roses from accounts and catalogues of the eighteenth **century** *[Varieties].* 122480
Assortment of **cereal** *varieties.* 122110
Evaluation of sour **cherry** *varieties* and new selections on the basis of preserves tests. 122284
Lebonnet rice **(CI** 9882) *[Varieties].* 122082
Androgenesis "in vitro" in Oryza sativa [rice] **(Cigalon** *variety).* 121407
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some vegetative organs in F1 [generation] from crosses between freestone and **clingstone** *varieties* with pubescent fruit skin. 120642
Investigations on the apple tree. 9. Pomological and agronomic cards of Red Delicious spur **clones** *[Varieties].* 122308
A comparison of soybean blends with pure stands in the Texas Gulf **Coast** *[Varieties].* 122076
Fruit trees in **Colombia** *[Varieties].* 122178
Trials of **commercial** *varieties* of sugarbeet. 121889
Pima regional **cotton** *variety* testing in Texas and New Mexico, 1970-72 [Fiber properties]. 117175
Response of American Pima **cotton** *varieties* to skip-row planting in the El Paso Valley [Yields]. 122084
Dynamics of soil populations of Verticillium dahliae Kleb. under different **cotton** *varieties.* 122651
Structural properties of polysaccharides from gums of some different **cultural** *varieties* of the peach Prunus persica (L.)Bartsch. 121610
Phyllorhodomacy [Rose, **culture,** *varieties].* 122474
Currant *varieties* and training methods suitable for mechanical harvest. 122407
Effect of position, length of cuttings and date of planting of cuttings on rooting in the red **currant** *variety* Heinemanns Rote Spatlese (Preliminary report). 122408
Studies on the performance of alfalfa swards. IV. Effects of *varieties,* **cutting** frequency and fertilizer levels on the yield and plant numbers. 122060
Alicia Bermudagrass (Cynondon **dactylon** var.) *[Varieties].* 121896
Ornamental aspects of *[varieties* of] **deciduous** woody plants in the beautification of Moscow. 122197
The growing and marketing of potatoes for seed [Culture, *varieties,* **diseases].** 122413
Investigations on chosen problems on biology of blooming and fruit-bearing of sour cherries . I. Observations on sour cherry fruit **drop** *[Varieties].* 121774
The effect of the seed rate on the biological and productive response of different *varieties* of **durum** wheat. 122138
Growth and yield of Lord Lambourne and Red Delicious trees *[varieties]* on **eight** apple rootstocks in Cyprus. 122401
The California poppy [Eschscholzia californica]—garden hybrids *[Varieties,* **England].** 122443
Roses in Miss Jekyll's garden plans *[Varieties,* **England].** 122476
The rose analysis *[Varieties,* **England].** 122486
Some ornamental *[varieties* of] **eucalypts** for dry areas [Australia]. 122255
About the Dahlia *[Varieties,* **evolution].** 122202
Abundant abutilons **("the** hummingbird **feeder")** *[Varieties].* 122435
Formation of the major structural elements of the cotton yield in relation to the *variety* and **fertilizer** [Applied]. 121403
Evaluation of cotton strains and *varieties* for **field** resistance to Verticillium [albo-atrum] wilt. 122663
Competition of **five** *varieties* of elephantgrass, Pennisetum purpureum Schum. 121885
Use of natural infectious backgrounds in the breeding and pomological studies of **fruit** *varieties* [Immunological evaluatin, fungus diseases]. 122785
Effect of honey bee saturation on the pollination of Chinese **gooseberries** *variety* 'Hayward'. 121738
Performance of small **grain** *varieties* in Georgia, 1975-1976 [Yields]. 122104
Fruit bud formation of the Kyoho **grape** *variety* (Vitis vinifera X Vitis labrusca) in Taiwan. 120484
On the bud dormancy of **grape** *varieties.* 1. Effect of endogenous free abscisic acid and gibberellic acid on the bud dormancy and the induction of their regrowth during the growing season. 121721
Thermotherapy of Cardinal Rouge [**Grape** *variety,* virus diseases]. 122865
Reproductive performance of cattle as affected by fertilizer treatment and **grass** *variety* [Effects of feeding]. 118119
Grass *varieties* for Mauka pastures. 122039
Kinman and Esser: new **guar** *varieties* [Yields]. 122033
Propagation of dogwood [Cornus, *varieties]* by **hardwood** cuttings. 122243
Development and spread of **high-yielding** *varieties* of wheat and rice in the less developed nations. 121927
Evaluation of 'Grasslands Huia' and 'Grasslands Pitau' white clover (Trifolium repens L.) *varieties* on **hill** country. 122049
Guided fertilizer application to separate **hops** *varieties.* 125119
Experimental basis for breeding **hybrid** *varieties* in rye. 120665
Breeding **intensive** *varieties* of winter wheat. 120736

Morphobiological features and agronomic characteristic of **intensive** *varieties* of winter wheat. 122004
National economic significance of **intensive** *varieties* of winter wheat. 122005
Peculiarities of agronomic practives and the seed production of **intensive** *varieties* of winter wheat. 122006
Performance of maize crosses between inbred lines developed from a open pollinated **Italian** *variety* "Marano" at different plant populations. 122127
Breeding of short stem winter wheat *[varieties]* in the **Kyibyshev** Region. 120739
The hypothetic race 1.3 of Cladosporium fulvum Cooke found in Bulgaria and the reaction of some tomato species and *varieties* to it **[Leaf** mold]. 122612
Study of proteins from seeds of pulses. 3. Disk-elektrophoretic study of salt-soluble proteins from seeds of some *varieties* of **lentils.** 117320
Grain **maize** *variety* tests in 1975 [Austria]. 122167
Studies on the determination of maturity of Irwin and Keitt **mango** *varieties.* 121725
Early **maturing** *variety* of perennial ryegrass, Drogobychskii 1 [Lolium perenne]. 122152
Haymaking speed, blade-stem ratio and protein percentage in the blades and stems of some perennial tropical legumes and molasses-grass *[Varieties,* **Melinis** minutiflora]. 121886
Speed of establishment and hay production of ten forage legumes and molassesgrass *[Varieties,* **Melinis** minutiflora]. 121887
The new **mint** *variety"Wasenami"* [Mentha arvensis var. Piperacens X Mentha spicata var. crispa]. 122542
Some hints on choosing clover and grass **mixtures** *[Varieties].* 122111
Use of lactic acid and calcium lactate in **Nanica** *variety* canned bananas in syrup [Preservatives]. 117219
Spanish dwarf wheats. II. **New** *variety* of durum wheat: Abadia. 121874
Cauliflowers under the microscope **[New** *varieties,* Great Britain]. 122328
New *variety* of peas, Mironovskii 186. 122498
Loquat [fruit crop] *varieties* for **Northern** India. 122291
Estimate of genetic variance in **open-pollinated** *varieties* of rye (Secale cereale L.). 120664
Studies on vegetative propagation of Tulipa *[varieties].* I. **Organ** formation from excised bulb scales in vitro. 122405
Effect of natural ultra-violet radiation on the content of auxins and growth inhibitors in barley *[varieties]* in **Pamir** in their natural condition and with artificial treatment with beta-indole acetic acid. 121487
PGRO [Processors' and Growers' Research Organisation] scheme aims to improve **pea** *varieties* and husbandry. 117211
Creation of **pea** *varieties* by the method of multiple crossings. 120825
"Cressy Blue," a new **pea** *variety.* 122504
Peach *variety* performance. 122322
Performance of Spanish **peanut** *varieties* in Texas [Yields]. 122045
Comparisons of Florunner with Spanish **peanut** *varieties* in Texas [Yields]. 122078
Seed and forage yields in the alfalfa for dryland culture as affected by seed rate, *variety* and **period** of use. 122134
Electronic data processing system of **plant** *variety* trials. 121905
State of ornamental **plant** *variety* qualification and some methodological problems. 122286
A success story: from [Arizona] desert to gardens in fifteen years [Ornamental **plants,** *varieties].* 122434
Close-ups for connoisseurs [Ornamental **plants,** *varieties].* 122438
Winterhardiness of **plum** *varieties* in the conditions of the Rudnyi Altai. 121620
Preliminary investigations into the effect of planting dates and types of setts on the flowering of white yam (Dioscorea rotundata, **Poir)** *varieties.* 122414
Dwarf plants and the effect of their transpollination in Wojcieszyckie rye *[variety,* **Poland].** 120661
Inheritance of dwarfing and some characters in the mutants of Zeelandzkie rye *[Varieties,* **Poland].** 120668
Plant population in **polyploid** *varieties* of fodder-beet cultivated in the summer-autumn cycle. 122128
Situation in breeding injury resistant **potato** *varieties* in the German Democratic Republic. 120628
Investigations into the productivity of recently qualified hungarian bred **potato** *varieties.* 122285
Effect of row spacing on yield and grade distribution of Norgold Russet and other **potato** *varieties* grown on the Texas High Plains. 122419
Potato *variety* and advanced selection evaluations on the Texas High Plains [Yields]. 122449
Quality of **potato** *varieties* from the point of view of starch yield. 122496
Phenylalanine ammonia lyase & phenols in tubers of Kufri Dewa [a **potato** *variety]* in relation to resistance against bacterial soft rot [Erwinia carotovora carotovora]. 122804
Effect of seed size and spacing on the yield and grading of "pentland" **potatoes** *[Varieties].* 122462
Potatoes—*variety* tests in 1975. 122507
Brazos rice (CI 9875): description and yield **potential** *[Varieties].* 122077
A comparison of four annual forage plants for roughage **production** *[Varieties].* 121882
Competition of grasses for dry matter **production** *[Varieties].* 121884
Briefly on results of breeding short stem **productive** *varieties* of winter wheat. 120743
Effect of the location of seeds on the peavine plant on the yielding **qualities** *[Varieties].* 122148
Sorghum, a summer forage plant of interest for dry **regions** *[Varieties].* 122169
Study of physiological and biochemical features of tomato *[varieties]* in **relation** to the forecasting of heterosis. 121686
Best decision: **resistant** *varieties* for control of maize stem rot [caused by Fusarium]. 122690
Studies on the resistance of chestnut trees (Castanea spp.) to chestnut gall wasps (Dryocosmus kuriphilus Yasumatsu). iX. Polyphenolic contents in susceptible and **resistant** *varieties.* 123416
Spanish dwarf wheats. I. First **results** *[Varieties].* 121873
Introduction and use of improved **rice** *varieties:* who benefits? [Effect of the green revolution on farmers, farming practices]. 115378
Studies on large vascular bundles in paddy rice plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in **rice** *varieties.* 120535
Improvement of scented **rice** *varieties* (Basmati 370) through induced mutation. 120619
Compared outgrowth rate of nodal roots in three **rice** *varieties* (Oryza sativa L.). 121408
Variation of Young's modulus caused by fertilizer ratios & chemical composition of **rice** *varieties* at flowering **stage.** 121510
Summary of 1975 standard **rice** *variety* performance trials in California [Yields]. 121865
Ten year results of large-scale **rice** *variety* trials 1964-1973. 121911
Research on the taxonomy, bioecology, damage of the rice blast fungus (Piricularia oryzae Bri. et Cav.) and the resistance of several **rice** *varieties* [in southeast Anatolia). 122583
Changes in ascorbic acid content of developing rose hips **[Rosa** *varieties].* 121728
Come sun, come shine; a symposium on the summer of 1975—one of the driest and hottest on record **[Rose** *varieties,* Great Britain, Ireland]. 122470
Miniatures in modern gardens **[Rose** *varieties].* 122472
What have I got? [Identifying **rose** *varieties].* 122488
Studies on lodging resistance of diploid winter **rye** *varieties* and their hybrids [USSR]. 120681
The breeding of dwarf winter **rye** *varieties* [in USSR]. 120683
Variability of yield components of **rye** *varieties* in dependence on some agronomical practices. 121935
Annurca, an apple that should be **saved** *[Varieties].* 122304
Shrub roses in **Scotland** *[Varieties].* 122479
Select cereal **seeds** *[Varieties].* 121840
Methods and results of breeding stiff stem and **semi-dwarf** *varieties* of winter wheat for the steppe areas of the Ukraine. 120745
Forage **sorghum** *variety* and fertilizer trials in the Upper Gulf Coast Prairie of Texas, 1974. 125060
Growing **Soviet** *varieties* of winter wheat in the Slovak Socialist Republic. 122000
Improtance of **Soviet** *varieties* of winter wheat in increasing the production of grain in the Czechoslovak Socialist Republic. 122001
Soviet *varieties* of winter wheat in the Polish People's Republic. 122007
Spreading of **Soviet** *varieties* of winter wheat in the People's Republic of Bulgaria. 122008
Soybean *variety* performance in the Cross Timbers Area of North Central Texas. 122093
Soybean *variety* trials in Northeast Texas [Yields]. 122094
Soybean *variety* performance in the northern High Plains of Texas [Yields]. 122095
Soybean *variety* evaluation in the Texas High Plains [Yields]. 122096
Planting of peach trees with dense **spacing** *[Varieties].* 122312
Mineral requirements of sorghum. Study of a long **stalked** *variety* from Upper Volta. 121409
Present state and prospects of studies in breeding short **stem** *varieties* of winter wheat for irriation conditions. 120748
Testing and breeding short **stem** *varieties* of spring wheat in the area eastward of the Volga River. 120750
Results of small plot **sugarbeet** *variety* trials 1971-1973. 121908
The conditions of the mycelium of the pathogen Peronospora [schachtii] in the tissue of **sugarbeet** *varieties* differing in their resistance. 122784
Stage III **Sugarcane** *variety* tests and the Florida Cooperative Sugarcane Breeding Program. 121876
The 1975 **sugarcane** *variety* census for Florida. 121877
Samples for measuring sugar content of **sugarcane** *varieties* in mechinically harvested trials. 122016
Response of some **sugarcane** *varieties* to different levels of N, P and K [nitrogen, phosphorus, potassium] in Punjab. 125013
Influence of plant density on yield and some bioagronomic characters in tall and short **sunflower** *varieties.* 122122
Genetic variation amongst **swede** *varieties* and their hybrids and their response to soil fertility. 120761
Studies on the breeding method of the **synthetic** *varieties* from the inbred lines in maize (Zea mays L.). 120797
Management activity of *variety* **test** stations as a means of good experimental work. 121906
5-alkyl-resorcinol content influenced through [rye] grain size, genetical and environmental conditions *[Varieties,* **testing,** West Germany]. 121471
Amino acids limiting the nutritional value of rye grain protein *[Varieties,* **testing,** Poland]. 121932
Studies on the resistance of Forsythias to low temperatures *[Varieties,* **testing,** Poland]. 122187
Studies of the resistance of rye to snow mould (Fusarium nivale Fr.) *[Varieties,* **testing].** 122619
Forage plants, *variety* **tests** 1974-1975 [Austria]. 122166
Spring grain, *variety* **tests** 1975. 122168
Poros, a new cigar **tobacco** *variety* of the German Democratic Republic. 121878
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and **tolerant** *variety* of young tea (Camellia sinensis L.). 123040
Evaluation of canning **tomato** *varieties* of Hungary on the basis of some relevant features. 122283
Comparison of new **tomato** *varieties* for mechanical harvesting: effects of mulching. 122386
Primary indications on the selection of cherry **tree** *varieties.* 122313
Contribution to the knowledge of standard and spur Red Delicious and to Stayman apple **trees** *[Varieties].* 122306
The effect of seed quantity and row spacing on yield of **two** *varieties* of forage sorghum. 122137
Quality of malt from some **two-rowed** *varieties* of barley. 117179
Blueberries for the South *[Varieties,* **USA].** 122429
Physiologic specialization in Helminthosporium gramineum [barley, leaf stripe, resistance testing of Indian and **USa** *varieties].* 122755
The significance of polyploids in the breeding of winter rye *[Varieties,* **USSR].** 120685
Production of certified seed potatoes by *varieties,* 1974-75. 122182
Choice of *variety* of **vat.** Origin of material, selection, hybridization. Intervention of authority: objectives, fundamental basis, ways and means, results [Grape culture]. 122204
Flour and baking test of a new winter **wheat** *variety.* 117100
Variations in concentrations and interrelationships of phytate, phosphorus, magnesium, calcium, zinc, nd iron in **wheat** *varieties* during two years. 117125
Flour and baking tests with a new winter **wheat** *variety.* 117141
Quality evaluation of 1976 German **wheat** *varieties.* 117144
Microstructure of grain and flour from durum and soft **wheat** *varieties.* 117181
Karyometric studies of winter **wheat** *varieties* in relation to frost resistance. 120566
Combining ability of winter soft **wheat** *varieties* for the amount and quality of protein in relation to the creation of heterotic hybrids. 120697
Breeding and testing short stem spring **wheat** *varieties.* 120737
Breeding methods and initial material for creating short stem **wheat** *varieties.* 120738
Breeding semi-dwarf winter **wheat** *varieties* for the Transcaucasian areas. 120740
Breeding short stem winter and spring **wheat** *varieties* of an intensive type. 120742
Methods and results of breeding short stem winter **wheat** *varieties* in the conditions of Kirghizia. 120746
Methods and results of developing highly productive shot stem winter **wheat** *varieties* for irrigated farming. 120747
[World] breeding stock of dwarf and short stem **wheat** *varieties.* 120752
Protein content in spring **wheat** *varieties* and its inheritance by hybrids. 120831
Phosphatase activity in the roots of some winter **wheat** *varieties* as related to the application of fertilizers. 121404
The activity of succinate dehydrogenase, content of lipoids and protein in the mitochondria of winter **wheat** *[Varieties].* 121497
Response of dwarf **wheat** *varieties* to nitrogen. 121499
Effect of cations and saccharose on the activity of photopohosphrylation and processes conjugated with it in chloroplasts of **wheat** *varieties* with different productivity. 121577
Performance and description of three new **wheat** *varieties* for California—Portola, Tanori 71, and Yecora Rojo. 121861
Summary of 1975 regional **wheat** *variety* performance trials for the Sacramento and San Joaquin Valleys of California [Yields]. 121864
Wheat *variety* performance in California's Sacramento and san Joaquin Valleys, 1974 [Yields]. 121866
Quality index of baking characteristics of winter **wheat** *varieties.* 121907
Introduction of soviet bred winter **wheat** *varieties* into the Hungarian People's Republic. 122002
Comparative productivity of short stem spring **wheat** *varieties.* 122009
Results of studying short stem spring **wheat** *varieties* under irrigation. 122010
Results of testing short stem spring **wheat** *varieties* from Mexico and USA in the Krasnoyarsk Territory. 122011
Short stem USA-bred sping **wheat** *varieties* in the conditions of the Volgograd Region. 122012
Dates of sowing, seed rates and **[wheat]** *varieties.* 122014
New **wheat** *varieties* and the Green Revolution. 122023
Skjaldar and Rida—two new Norwegian autumn **wheat** *varieties.* 122028
Icata, a new **wheat** *variety* for sowing on miniature holdings [Colombia]. 122108
Survey of the determination of the occurrence of ergot (Claviceps purpurea (Fr.) Tul) on the domestic and foreign **wheat** *varieties* and wild Gramineae grown in the Black Sea region of Turkey. 122584

The reaction of two spring **wheat** *varieties* exposed to epidemics of Septoria nodorum and Septoria tritici of varying intensity and duration. 122642
Use of extremely shortstemmed **wheat** *varieties* for culturing aseptically a causal agent of stem rust, Puccinia graminis F. sp. tritici, on wheat seedlings. 122659
They fend off insects [**Wheat** *varieties* resistant to the Hessian fly, Mayetiola destructor and the leaf beetle, Chrysomelidae]. 123272
Seasonal dependence of **wheat** *variety* response to superphosphate. 125018
Evaluation of the High **Yielding** *Varieties* Programme (paddy) in West Bengal [rice]. 115901
Cereal production experiments on poorly drained clay soils [**Yields,** *varieties].* 121857
Grain sorghum performance trials at the Imperial Valley Field Station in 1975 *[Varieties,* **yields].** 121858
Grain sorghum performance trials at the Imperial Valley Field Station in 1974 *[Varieties,* **yields].** 121859
Introduction and evaluation of wheat breeding lines from Mexico *[Varieties,* **yields].** 121860
Performance of triticale during 1974 and 1975 in the Sacramento and San Joaquin Valleys of California *[Varieties,* **yields].** 121862
Production and performance of common and durum wheats at the University of California Imperial Valley Field Station in 1974 and 1975 *[Varieties,* **yields].** 121863
Feed grain and forage production in Hawaii [**Yields,** *varieties].* 122038
Grain sorghum hybrid performance in the Northern High Plains, 1967-1972 *[Varieties,* **yields].** 122080
Performance of experimental soybean breeding lines in the Texas High Plains *[Varieties,* **yields].** 122083
Soybean breeding and evaluation trials in the Texas Gulf Coast Prairie *[Varieties,* **yields].** 122089
Soybean performance trials in the Rolling Plains of Texas *[Varieties,* **yields].** 122090
Soybean performance trials in Southeast Texas *[Varieties,* **yields].** 122091
1975 rice performance trials *[Varieties,* **yields].** 122105
Renovation and legume selection *[Varieties,* **yields].** 122156
Small grains research *[Varieties,* **yields].** 122157
Field evaluations of processing tomatoes on the Texas High Plains *[Varieties,* **yields].** 122448
Testing short stem foreign bred [spring wheat] *varieties* in the **Zaporozh'l** Region. 122013

VASCULAR

Contribution to the study of the *vascular,* **arterial** and venous elements of the renal hilum in swine (Sus scrofa domestica). 117900
The ontogeny of the *vascular* **cambium** in Hoheria angustifolia Raoul. 121308
Studies on **large** *vascular* bundles in paddy rice plant and panicle formation. I. Relationships between the number of large vascular bundles in the clum and the plant types. 120534
Studies on **large** *vascular* bundles in paddy rice plant and panicle formation. II. Relationship between the number of large vascular bundles in the blades of high-ranking leaves and the number per primary branch of the panicle in rice varieties. 120535
Studies on **large** *vascular* bundles in paddy rice plant and panicle formation. III. Relationship between the changes in the number of large vascular bundles in the tillers and the panicle formation. 120536
Effects of antihistamines on the **lung** *vascular* response to histamine in unanesthetized sheep. Diphenhydramine prevention of pulmonary edema and increased permeability. 117805
Comparative studies of the vascular system of node-leaf continuum in woody Ranales. II. **Node-leaf** *vascular* system of Eupomatia laurina R. Br. 120493
Cytophysiological approach of two neuroendocrine interfaces of the hypothalamus: the median eminence and *vascular* **organ** of the terminal lamina. Radioautographic study of the duck. 117567
Vascular **patterns** in the chick embryo spinal cord in normal and experimentally modified development. 117521
Aspects of the flora of Adak Island, Alaska: *vascular* **plants.** 120081
Recording of *vascular* **plants** on the Irish grid. 120085
Progress in the study of *vascular* **plants** in Finland, 1962-1971 [New taxa]. 120191
Two new genera of leaf parasitic fungi (Basidiomycetidae: Brachybasidiaceae) [Leaf-spot diseases of *vascular* **plants].** 120206
Primary *vasculature* and gymnosperm systematics. 120255
Report on floristic and taxonomic studies on the **Swedish** *vascular* flora during the period 1961-1972 [New taxa]. 120192
Comparative studies of the *vascular* **system** of node-leaf continuum in woody Ranales. II. Node-leaf vascular system of Eupomatia laurina R. Br. 120493
Development and growth of the plant tip on Acnistus arborescens. II. Development of the procambium and the *vascular* **tissues** of the leaf, and growth of the foliar blade. 121343

VASECTOMY

Semen characteristics of normal & *vasectomized* **dogs.** 118327

VASOACTIVE

Vasoactive **intestinal** peptide (VIP) from chicken. Synthesis and properties of the C-terminal hendecapeptide. 117616

VASOPRESSIN

Absence of a correlation between the secretion of adrenocorticotrophin and *vasopressin* in **foetal** sheep. 117807
Calcium and stimulus secretion coupling in the [ox] neurohypophysis. V. The effects of the Ca2+ ionophores A23187 and X537A on *vasopressin* **release** and 45Ca2+ efflux; interactions with sodium and a verapamil analogue (D600). 117525

VATS

Comparison of economical aspect of various systems of *vat* **fermentation** and preservation of wine. 117226
Choice of variety of *vat.* **Origin** of material, selection, hybridization. Intervention of authority: objectives, fundamental basis, ways and means, results [Grape culture]. 122204

VAUCHERIA

Dynamics of algal vegetations dominated by *Vaucheria* **species.** 120304

VEAL

Stretch your beef dollars. Buy: *veal,* **baby** beef, grass-fed beef, less tender cuts [Recipes]. 116312
Energy exchanges of *veal* **calves** in relation to body weight, food intake and air temperature. 117560

VECTORS

Malaria: successful immunization against the sexual stages of Plasmodium gallinaceum [Aedes **aegypti** as *vectors].* 123665
Relations of the semi-persistent viruses, parsnip yellow fleck and anthriscus yellows, with their *vector,* **Cavariella** aegopodii. 122816
Bibliography of nematode interactions with other organisms in plant disease **complexes** *[Vectors].* 123039
Vector **control** in seed potato farming [Insect pests, virus transmission]. 122835
Results of a survey of **dengue** *vectors* in New Hebrides [Aedes aegypti, Aedes hebrideus]. 123608
Virus and virus-like diseases of cereal crops [Transmitted by **insect** *vectors].* 122819
Mycoplasmalike bodies associated with rice orange leaf disease [Recilia dorsalis as **insect** *vector].* 122862
Aspects of epidemics of yellowing and mosaic of sugarbeets. I. Symptoms, means of transmission, methods of identification, vectors [Virus diseases, **insect** *vectors].* 122866
Electron microprobe analysis of particles in the **insect** *vector* of maize streak [Cicadulina mbila]. 123334
Studies on the *vector* of **loofah** witches' broom. 1. Identification and morphology of Hishimonus concavus Knight. 123412
The development of anophelism in south Moravia [Anopheles as pests of animals, **malaria** *vectors].* 123617
Testing nemagon in the control of **nematodes**—*vectors* of virus diseases [of perennial crops]. 123008
Fire and flame for plant disease control [including control of insect **pests** as *vectors].* 122899
The mosquitoes, Aedes canadensis and Aedes vexans as **potential** *vectors* of Dirofilaria immitis in Maryland [Dogs]. 123602
Ecology of Glossina palpalis gambiensis Vanderplank, 1949 [a **principal** *vector* of the sleeping sickness in West Africa]. 123661
The fine structure of merozoites of Babesia bovis in the gut epithelium of Boophilus microplus [Ticks as *vectors* of **protozoan** diseases of cattle]. 123653
Rodent *vectors* of Salmonella [typhimurium, sheep]. 119011
Ecology of Ixodes triangulicaps Bir. In Moldavia *[Vector* of **tick** encephalitis]. 123655
Recent studies on epizootic bovine abortion [Ornithodoros coriaceus as *vector* of **virus** disease]. 118965
Aspects of epidemics of yellowing and mosaic of sugarbeets. I. Symptoms, means of transmission, methods of identification, *vectors* [**Virus** diseases, insect vectors]. 122866

VEGETABLE

Investigations on the identification of the species of red spider mites harmful to *vegetables* in **Aegean** region, and on biolgy, control measures and naturaly enemies of the two-spotted spider mite Tetranychus urticae (Koch.) which is the most widely distributed species among them. 123377
A look at Eastern Europe. II. **Bulgarian** *vegetable* production in plastic structures. 122325
Green food *[vegetables]* for **carnivorous** fur-bearing animals. 118058
Helicopters as frost protection devices [**Citrus,** *vegetables].* 123041
Hospital supplies [of fresh fruit and *vegetables]*—**a complex** question [Great Britain]. 115681
Botanical and varietal classification of *vegetable* **crops.** 120197
Studies on calcium absorption in *vegetable* **crops.** I. The absorption and physiological significance of calcium in vegetative and reproductive phases of plant growth. 121730
Effects of nematodes on the physiology of *vegetable* **crops.** V. Influence of farmyard manure application on the root-knot nematode [Meloidogyne incognita] injury in some vegetable-crops. 122979
Heavy metal toxicity in *vegetable* **crops.** V. The effect of iron concentration in the nutrient solution on manganese toxicity in vegetable crops [Chlorosis]. 122980
Studies on the fertilization and cultivation of horticultural crops under covering conditions. III. On salt injury of *vegetable* **crops.** 3. Effect of the concentration of nutrient solutions on the trace element nutrition of tomato and cucumber. 122981
Pests of **cruciferous** *vegetable* crops in West Pamir. 123404
Where fall is spring *[Vegetable* **culture** in Florida]. 122433
Sclerotina to sex attractants—ADAS [Agricultural Development and Advisory Services] Eastern Region work *[Vegetables,* **disease** and pest control research, Great Britain]. 122937
New sources of **edible** *vegetable* oils. 116814
Iodine number determination of milk fat and *vegetable* **fats** by refractometry. 116888
Analysis of Australian wool sold at auction in Australia 1973/74 season. Analyses by: microns, combining and carding classifications, degrees of *vegetable* **fault,** areas of origin. 115760
Problems related to **flavoring** *vegetable* protein analogs. 116696
The importance of *vegetable* **food** in covering the requirements for vitamins and minerals. 116321
Vegetables and **foreign** currency [Exports, Colombia]. 115740
Application of the added value tax to the *vegetable* and **fruit** sector. 115497
Facing the cost of EEC [European Economic Community] road haulage legislation [**Fruit** and *vegetables].* 115680
Thermal load in cold storage places destined for the preservation of *vegetable* and **fruit** products [Equipment]. 117259
Home canning of **fruits** and *vegetables.* 116342
Research protects fresh quality [of **fruits** and *vegetables].* 117233
The storage and transport of **fruits** and *vegetables.* 117310
Canning Canadian **fruits** and *vegetables.* 117314
Investigations on rationalizing soil management in the production of *vegetables* in **greenhouse** systems. 125175
A survey study on root-knot nematodes (Meloidogyne spp.) in *vegetable* **growing** greenhouses in South Anatolia region. 122913
Eradication of seed-borne organisms from **imported** *vegetable* seeds by hot-water treatment [Fungi, germination test]. 122645
Preparation of indices for planning **industrial** *vegetable* production—goals and way of reaching them. 115466
Transportation [in the fresh fruit and *vegetable* **industries** of Florida]: the big step from the field to the mouth. 115583
Gas chromatographic analysis of heptafluorobutyryl derivatives of some carbamate **insecticides** [in *vegetables].* 123726
Frankfurt on the Oder district: measures for **intensifying** *vegetable* production [Prospects]. 115407
Purification of *vegetable* **marrow** mosaic virus. 122844
Characteristic of water-soluble fraction of proteins from organs of plants infested by root-knot nematodes *[Vegetable* and **melon** crops]. 123001
Response of plants [of *vegetable* and **melon** crops] to a combined action of nematocides and ultra-violet irradiation in the conditions of protected cultivation. 123006
Estimating marketing margin cost components: an application of simulation to products of the *vegetable* **oil** industry. 116004
Vegetable **oils** and animal fats as renewable resources for plastics and coatings applications. 116806
Lipid oxidation. 4. Products of thermooxidative polymerization of *vegetable* **oils.** 117308
India boosting fruit and *vegetable* **output** for export. 115651
Conveyor handling comes to horticulture *[Vegetables,* **packaging].** 117262
Development of Ascia [Pieris] monuste monuste (Linnaeus, 1764) (Lepidoptera, Pieridae) in the laboratory *[Vegetables,* **pests].** 124141
Colour changes in *vegetables* through **phenolic** ingredients. 117238
Cooperation between socialist farms and fruit, *vegetable* and **potato** state farms in the cooperative associations for food potatoes of the Schwerin district. 115340
Economies of raw materials by planned reduction of the consumption of raw materials [Fruits and *vegetables,* **processing].** 117301
Effectiveness of specialization and concentration in the **production** of *vegetables.* 115355
Better texture for *vegetable* **protein** foods. 117250
All-vegetable **protein** poultry ration. 118139
Influence of the action of **proteolytic** *vegetable* enzymes on meat. 117027
Studies on the flesh quality of fruit and *vegetables.* II. **Relation** between the pulp quality and properties of pectic substances during post-harvest ripening of peaches. 117293
Household equivalents of fruit & *vegetable* **retail** packs. 116324
Onions, an important **spice** *vegetable.* 117246
Cold storage of fresh fruit and *vegetables* [**Temperature** injuries]. 117322
Nutritional value and acceptability by humans of *vegetable* **textured** proteins. 116546
Further rise of consumption of canned fruits and *vegetables* [**Trade**]. 115701
Oviposition and host selection by the spotted cutworm, Amathes c-nigrum L. [Among *vegetables* and **upland** crops]. 123259
Containers must match the improved **value** of *vegetables.* 117261
Annotated bibliography on irrigation of *vegetables,* 1970-1975. 125344

VEGETARIANS
Angina and *vegetarian* **diet.** 116474

VEGETATION
Computer implemented classification of *vegetation* using **aircraft** acquired multispectral scanner data [Parks and forests]. 119496
Transplantation of Typha [angustifolia] and the distribution of *vegetation* and **algae** in a reclaimed estuarine marsh. 120329
Dynamics of **algal** *vegetations* dominated by Vaucheria species. 120304
Dynamics of environment and **algal** *vegetation* in salt marshes in the southwestern Netherlands. 120305
Dynamics of the **algal** *vegetation* of saltmarshes in the Wadden Sea. 120306
Three examples of applied remote sensing of *vegetation* [**Aquatic** weeds, urban planning, plant disease quarantine]. 115159
The flora and **aquatic** *vegetation* of the southern and Pallanza waters of lake Maggiore. I. Preliminary observations. 120182
Control of **aquatic** *vegetation* in farm dams. 123188
The rationale for attempting to define salt marsh mosquito [Aedes sollicitans]-breeding areas in Galveston County by remote sensing the **associated** *vegetation* [Distichlis spicata]. 123634
Ecological map of the Alps at 1/50,000. Sheets of Cluses and **Chamonix** *[Vegetation].* 120340
Grass cuticles: a new paleoecological tool for East African lake sediments [For reconstructing the past *vegetation* and **climate** of regions]. 120330
Railroad [weed] *vegetation* **control** in the Midwest, when and how. 123146
The application of bare ground chemicals *[Vegetation* **control].** 123152
Prospects of **controlling** *vegetation* in new forest plantations [Weeds]. 123144
Vegetation of the **copper** and antimony mine heaps. 120316
The mixture problem in computer mapping of terrain: improved techniques for establishing spectral signatures, atmospheric path radiance, and transmittance [Remote sensing, *vegetative* **cover].** 120368
Lead contamination of urban soils and *vegetation* by **emissions** from secondary lead industries. 125493
Effect of anthropogenic factors on the *vegetation* in the **environs** of Yakutak. 120320
Estimating *vegetative* biomass from LANDSAT-1 imagery for range management [Remote sensing]. 121997
Climatology and *vegetation* on **farm** lands: problems of local climatology. 120385
The vegetation of the western Julian Prealps; illustrative notes to the **forest** *vegetation* maps of the Chiampon-Cuel di Lanis section. 119430
The **forest** *vegetation* map and its use in the economy [Slovenia]. 119457
Effects of substrate type and microtopography on establishment of a mixture of bryophytes [Bryophyta] from *vegetative* **fragments.** 120326
Grassland *vegetation* analysis using remote sensing techniques. 5. Remote sensing data processing for the grassland planning [Soil survey]. 120394
Vegetation and **groundwater** regulation in Chaco Boreal [Bolivia, Paraguay, Argentina]. 120382
Auxinic activity of metabolites of microorganisms from the rhizosphere and soil covered by tall **herbaceous** *vegetation.* 124812
Presence of biologically active substances in soils covered by tall **herbaceous** *vegetation* and meadow forbs. 124820
The function of dispersed **high** *vegetation* [Beautification, landscaping, conservation of natural resources]. 122501
The *vegetational* **history** of parts of south and east Durham. 120231
Vegetation **history** studies in the Thur Alps and Fanin area (Appenzell canton, St. Gallen, Graubunden, Switzerland) [Pollen analysis]. 120324
Influence of *vegetation* on **humification** in ferallitic soils. 124785
The *vegetational* **importance** and conservational value of Breiniger Mountain near Stolberg (MTB 5203), with consideration of geological and historical aspects [Flora]. 120034
Vegetative **innervation** of the esophagus. IV. Endings in the tela submucosa and tunica muscularis [Cats, monkeys]. 117522
Revegetation of **land** disturbed by surface mining in Colorado. 125130
Factors determining the character of *vegetation* **landscape.** 120321
The **late-Quaternary** *vegetational* history of the western interior of Canada [Paleobotany]. 120001
Entry and movement in *vegetation* of **lead** derived from air and soil sources. 125491
Lichens of the military domaine of Lagland (province of Luxembourg). Contribution to the knowledge of the **lichen** *vegetation* of the Lorrain district. 120225
Vegetation and **livestock** response at three grazing intensities on sandhill rangeland in eastern Colorado [Grasses]. 122162
Elemental composition of selected native plants and associated soils from **major** *vegetation-type* areas in Missouri. 120391
Utilization of LANDSAT imagery for **mapping** *vegetation* on the millionth scale. 120369
Wildlife management by habitat units—a preliminary plan of action *[Vegetation* **maps,** remote sensing]. 120370
The mapping of **marsh** *vegetation* using aircraft multispectral scanner data [Remote sensing]. 120367
Salt **marsh** *vegetation:* latitudinal gradients in the zonation patterns. 120388
Amino acid and fractional composition of protein of the *vegetative* **mass** of maize at different levels of mineral nutrition and water supply. 121575
Growth pattern and seasonal behavior of buds of Colliguaya odorifera, a shrub from Chilean **mediterranean** *vegetation.* 120331
Vegetation of the **Mima** Mounds, Washington State. 120348
Wildlife wetland evaluation **model** *[Vegetation].* 120389
Monitoring *vegetation* conditions from LANDSAT for use in range management [Remote sensing]. 121998
Map of the *vegetation* of the **moraine** amphitheater of Rivoli (Turino) (lower Cottian and Graian Alps). 120341
Stages of *vegetation* in the **mountains** of the Mediterranean basin. 120342
The interpretability of vegetation resources on various image types acquired from earth orbiting spacecraft [Remote sensing systems for identifying and delineating **natural** *vegetation* types]. 120372
Inheritance of the powdery mildew [Sphaerotheca pannosa] resistance in peach. II. Resistance of some *vegetative* **organs** in F1 [generation] from crosses between freestone and clingstone varieties with pubescent fruit skin. 120642
Isoenzymatic spectra of peroxidase and nitratereductase from *vegetative* **organs** of maize heterotic hybrids and their parental forms. 121476
Accumulation of dry phytomass of barley in the second half of the *vegetational* **period.** 121562
Comparative anatomic and chemical studies of six selected species of the genus Ruta. II. Content of the essential oil at different development phases and *vegetation* **periods.** 120852
Gel electrophoretic studies of proteins in photo-induced and *vegetative* **plants** of Impatiens balsamina. 121755
Using tissue culture for *vegetatively* **propagating** and improving asparagus production and quality. 122264
Vegetative **propagation** of Pinus strobus by needle fascicles. 119568
Diatoms [Algae] from the sea; investigative methods and life cycle. I. Methods and *vegetative* **propagation.** 121275
Factors affecting the use of mung bean cuttings as a research tool in *vegetative* **propagation.** 122223
Vegetative **propagation** of Hemerocallis—including tissue culture. 122265
Studies on *vegetative* **propagation** of Tulipa [varieties]. I. Organ formation from excised bulb scales in vitro. 122405
The **Quaternary** *vegetational* history of the French Pays Basque. II. Plant macrofossils and additional pollen-analytical data. 120230
Late **Quaternary** *vegetation* history of the Yellowstone Lake Basin, Wyoming. 120242
Strip mine rehabilitation problems and research in Wyoming **[Reclamation,** *revegetation].* 125131
Ecological map of Nepal VI. The Biratnagar-Kangchenjunga **region** 1/250,000 *[Vegetation].* 120339
Vegetative **reproduction** [of Solidago canadensis] and close packing in a successional plant species. 120384
Studies on calcium absorption in vegetable crops. I. The absorption and physiological significance of calcium in *vegetative* and **reproductive** phases of plant growth. 121730
The interpretability of *vegetation* **resources** on various image types acquired from earth orbiting spacecraft [Remote sensing systems for identifying and delineating natural vegetation types]. 120372
Vegetational **responses** following biological control of Hypericum perforatum in Idaho. 123104
Vegetation of the **rocky** shore of northwestern Nurra (northern Sardinia). 120353
Plant succession on an active tundra mud slump, Garry Island, Mackenzie River Delta, Northwest Territories [Senecio congestus, Arctagrostis latifolia, Eriophorum **scheuchzeri,** *vegetation].* 120333
Vegetation **series** in the Alps chain and their equivalences in other phytogeographic systems. 120009
Suspended sediment filtration capacity of **simulated** *vegetation* [Soil erosion control]. 125174
Vegetation in the **southeastern** suburbs, Melbourne. 2. Native and introduced plant communities in a Mount Waverley reserve. 120401
Agrochemical properties of nepheline sands in relation to their **stabilization** by *vegetation.* 124753
Ecological factors in the development of intensive-management ecosystems in the midwestern United **States** *[Vegetation].* 120346
Diagrammatic climate maps of the separate continents and the ecological climate classification of the earth; a supplement to *vegetation* **studies.** 115203
Regional site factors and *revegetation* **studies** in western North Dakota. 125129
Relationships between forest cutting and **understory** *vegetation:* an overview of Eastern hardwood stands. 119641
Flora and *vegetation* of the **Verkhne-Bikinskoe** Plateau. 119958
The *vegetation* of **Volcan** Poas National Park, Costa Rica. 120395
The *vegetation* of the **western** Julian Prealps; illustrative notes to the forest vegetation maps of the Chiampon-Cuel di Lanis section. 119430
The seed banks of parairie glacial marshes *[Vegetation* **zones,** seed viability]. 120335

VEHICLE
Mapping Florida in an ATV [**all-terrain** *vehicle,* soil mapping]. 124909
Prediction of soil compaction due to **off-road** *vehicle* traffic. 124915
Vehicles used for the **transportation** of agricultural products. 124664

VEIN
Acid-based measurements of arterial, *venous* and **capillary** blood in the dog. 118532
Pulmonary arterial thrombo-embolism and pulmonary arterial mycoticaneurysms in cattle with *vena* **caval** thrombosis: a condition resembling the Hughes-Stovin syndrome. 119136
Contribution to the study of the vascular, arterial and *venous* **elements** of the renal hilum in swine (Sus scrofa domestica). 117900
Hepatic *venous* compliance and role of liver as a blood reservoir [Cats]. 117538
The proteins of sowthistle [Sonchus oleraceus] **yellow** *vein* virus [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847

VELOCITY
Conduction *velocity* along the afferent vagal dendrites: a new type of fibre [Cats]. 117823
Laboratory measurement of SO2 [sulfur dioxide] **deposition** *velocities* on selected building materials and soils. 125387
Effect of **flow** *velocity* on cleaning processes [Beer brewing]. 116673
A new device to derive the *force-velocity* **relationship** of the isolated papillary muscle using a sonomicrometer and an electromagnet [Cats]. 117875

VELUTINA *see* MOLLUSKS

VENATION
A new and **unique** *venation* pattern in the diapensiaceae. 119993

VENEERS
Cracking in veneered surfaces. 2. *Veneers* on **noncombustible** carrier panels. 119669

VENOM
Bee *venom* as a remedy and its effects. 116558
Isolation of a neurotoxin with a presynaptic action from the *venom* of the **black** widow spider (Latrodectus mactans, Fabr.). 124165
Effect extracts of the *venom* **gland** of the recluse spider, Loxosceles laeta, on human cells in culture. 123670
Black widow **spider** *venom:* effect of purified toxin on lipid bilayer membranes. 124158

VENTILATION
Don't get caught with your air down [Poultry **houses,** *ventilation].* 124608
How *ventilation* systems work [Swine houses]. 124639
Heat exchanger in *ventilation* **installations** of stables. 124731
Experiences with known and new forms of **large** *ventilated* clamps and their covers [East Germany]. 124613
Results and experiences of the Luderitz Cooperative Farm in using **large** *ventilated* clamps [East Germany]. 124615
Deoderization of liquid manure by **means** of *ventilation.* 125427
Ventilation **movements** in Solifugae (Arachnida, Solifugae). 124183
Control of breathing in uremia: *ventilatory* **response** to CO2 [carbon dioxide] after hemodialysis. 117772
The microbial contamination of air at various distances from the poultry house *[Ventilation* **system].** 124656
Heat and moisture in piggeries *[Ventilation* **systems].** 124638

VENTRICULAR
Inotropic effect of cyclic AMP [adenosine 3',5'-monophosphate] in **calf** *ventricular* muscle studied by a cut end method. 117826

VENTURIA *see* MYCOSPHAERELLACEAE

VERMICULITE
Volatility, in an aqueous medium, of DDT retained on **homoionic** *vermiculite* [Water and air pollution]. 123685

VERMIN *see* WILDLIFE

VERNALIZATION
Effect of plant growth substances & *vernalization* on **sex** expression in Momordica charantia L. 121132

VERSICOLOR *see* COLOR

VERTEBRATES
Subunit compositions of *vertebrate* **alpha** crystallins [Livestock, laboratory animals, poultry]. 117637
The Douglas fir tussock moth [Orgyia pseudotsugata] DDT application of the summer of 1974: effects of the DDT on non-target organisms and residue, accumulation in *vertebrate* **animals.** A progress report—February 1975. 123494

The role of nerves in the **developing** *vertebrate* limb: a teratogenic plea for re-evaluation [Includes chicks and ducks]. 117694
Detection of beta 2-microglobulin in sera from **diverse** *vertebrate* species by the use of a heterologous radioimmunoassay [Goats, immunology]. 118938
Nutritional contributions of oceans **excluding** *vertebrates* (fish, reptiles, mammals). 116691
Immunoperoxidase localization of Sindbis virus antigen in **infected** *vertebrate* and infected mosquito cells [Culicidae]. 123659
Insect virus infection of a **poikilothermic** *vertebrate* cell line: electron microscopy [Chilo iridescent virus]. 124127
Comparative histological investigation of receptor structures in aortic wall of some *vertebrate* **representatives** [Includes chickens and rabbits]. 117689
Demonstration of follicle stimulating hormone (FSH) activity in hypophyseal extracts of various *vertebrates* by the **response** of the Sertoli cells of the chick. 117696
Life and activity of Johann Karl Wilhelm Illigers (17751813) as an entomologist, *vertebrate* **scientist** and founder of the zoological museum of the Humboldt University in Berlin. 2. 124084

VERTICAL

Vertical **distribution** of dry matter in some forage legumes. 117387
Vertical **line** sampling for regeneration surveys [Forest inventory]. 119488
Technical aspects of the mechanical harvesting of grapes by *vertical* **shaking.** 124729

VERTICILLIUM

Influence of *Verticillium* **albo-atrum** Rke et Berth. On the course of mitosis in apical meristem cells of lucerne (Medicago media Pers.) roots. 122618
Evaluation of cotton strains and varieties for field resistance to *Verticillium* **[albo-atrum]** wilt. 122663
Dynamics of soil populations of *Verticillium* **dahliae** Kleb. under different cotton varieties. 122651
Significance of endo-polygalacturonase activity to symptom expression of verticillium wilt in cotton, assessed by the use of mutants of *Verticillium* **dahliae** Kleb. 122717
Effect of the plant growth retardant Pydanon on *Verticillium* **[dahliae]** wilt of cotton and tomato. 122729
The relationship between plant parasitic nematodes and cotton wilt disease and their control methods *[Verticillium* **dahliae,** Fusarium]. 122914
Effect of different forms of nitrogenous fertilizers on the resistance of cotton to wilt *[Verticillium* **dahliae].** 124921
Verticillium **diseases** of the eggplant. 122636
Artificial infection of scale-insect with entomophagous **fungi** *Verticillium* lecanii and Aspergillus candidus [Biological control of the citrus pest Coccus Hesperidum]. 123395
Phytoalexin production by lucerne (Medicago sativa L.) in response to **infection** by *Verticillium.* 122710
Acid production, a possible basis for benomyl tolerance in *verticillium* **malthousei** [Mushroom disease]. 122723
Biological control of *Verticillium* **malthousei** by Trichoderma viride spray on casing soil in commercial mushroom [Agaricus bisporus] production [Dry bubble disease]. 122746
Significance of endo-polygalacturonase activity to symptom expression of *verticillium* **wilt** in cotton, assessed by the use of mutants of Verticillium dahliae Kleb. 122717

VESICLE

Clinical problem of *vesical* **calculosis** in carnivora [Dogs]. 119070
Ultrastructural modifications in the *vesicular* **glands** of the Machilidae (Insecta, Thysanura) during the moulting cycles. 124193
Lipid *vesicle-cell* interactions. I. Hemagglutination and hemolysis [Sheeep erythrocytes]. 117800
Lipid *vesicle-cell* interactions. II. Induction of cell fusion [Chicken blood]. 117801
Translocation and transfer of nutrients in *vesicular-arbuscular* **mycorrhizas** [roots of onion]. I. The arbuscule and phosphorus transfer: a quantitative ultrastructural study. 121743
Electrophoretic fractionation of **seminal** *vesicle* fluid and seminal plasma of ram. 118321
Calcium-binding protein in bull **seminal** *vesicle* secretion and seminal plasma. 118346
SEM [scanning electron microscopy] of *vesicular* **stomatitis** virus infection in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Glycosylation sites of *vesicular* **stomatitis** virus glycoprotein. 118803
Interactions of *vesicular* **stomatitis** virus with murine cell surface antigens. 118804

VESSEL

Relationship of temperatures in the cervical **blood** *vessels* to brain temperatures in chickens. 117944
Polysulfide pulping in a *dual-vessel* **Kamyr** digester. 119822
Some anatomical observations on the topography and macroscopic distribution of the **lymph** *vessels* and nodes on the stomach of buffalo, Bos bubulis L., of Egypt. 117764
Cost and return analysis by **selected** *vessel* characteristics: Gulf of Mexico shrimp fishery, 1971-1975. 115524
Generation of electric potentials during flow of fluids in the **xylem** *vessels* (Preliminary report) [Cucurbita sechium]. 121659

VETCH

Seed rates used in cultural techniques for sulla **sweet** *vetch* (Hedysarum coronarium L.). 122135
Yield response of sulla **sweet** *vetch* (Hedysarum coronarium l.) to different seed types and seeding modalities. 122142
Yield response of sulla **sweet** *vetch* (Hedysarium coronarium L.) to different seed quantities and seed spacing. 122143

VETERINARIANS

Change in government agricultural regulations concerning [the *veterinarians's]* **duty** to report diseases (K21). 118553
Prof. Dr. Friedrich Mussemeier, life and work *[Veterinarians,* **East** Germany]. 118512
For services rendered *[Veterinarian* **fees].** 118561
Professor Andre Charton (1911-1976) *[Veterinarians,* **France].** 118540
What *veterinarian* will be for the **immediate** future? 118544
Work results of *veterinarians* in **intensifying** heifer production in Pasewalk district after the VIIIth Socialist Unity Party Congress. 118530
Rene van Saceghem: Bruges, September 11, 1884-Brussels, **March** 17, 1965 *[Veterinarians].* 118457
Veterinarians with no **means** of communication urge a rapid solution. 118428
Interesting doctoral work by a **Norwegian** *veterinarian* [Pasteurella multocida, bacterial infections in turkeys]. 118859
The **practicing** *veterinarian*—Contributions to comparative medicine. 118551
Training and upgrading of *veterinarians* in **prevention** and control of animal diseases. 118526
In memoriam [Gerry B. **Schnelle,** *veterinarians].* 118555
A *veterinarian* in a **solo** specialty practice. 118462

VETERINARY

The civil code of the German Democratic Republic legal basis with strong relevance to *veterinary* **activities** at all level. 115955
Reports of the World Association of *Veterinary* **Anatomists** and other pertinent organisations. I. Meeting of the World Association of Veterinary Anatomists Thessaloniki, Greece, July 1975. Abstracts of the scientific papers. 117555
Answers to some common questions about Vetalar (ketamine HC1) *[Veterinary* **anesthetics].** 118575
Referral guidelines for the **Berkeley** *Veterinary* Medical group. 118472
The **Berkeley** *Veterinary* Medical Group: a speciality practice. 118474
Institute to **control** *veterinary* products [Rabies vaccine and control, livestock health, Brazil]. 118492
Laser light scattering bioassay for *veterinary* **drug** residues in food producing animals. 1. Dose-response results for milk, serum, urine, and bile. 118460
Vecol, an example of excellency in the scientific field *[Veterinary* **drugs,** Colombia]. 118542
Purpose-oriented political-ideological and vocational **effortof** *veterinary* personnel and cooperative farmers yields good results in implementing principal task formulated by. 115954
Acute mastitis in cows in the **Harstad** *Veterinary* District, 1972-1975 [Escherichia coli, Staphylococcus aureus, bacterial diseases]. 118856
Experiences and results of *veterinary* **hygiene** inspection in Suhl as an example of the expertise in meat products of the Bureau for Standardization, Measurement and Product Testing. 116222
Veterinary **hygiene** inspection of Rostock district fulfilled tasks in 1971 to 1975. 116225
Improving *veterinary* service of livestock [farm] complexes. 118571
Organisation and performance of fur animal section at the *Veterinary* **Institute** of Leipzig region. 118511
A *veterinary* **institute** at regional level and its approach to metabolic control of dairy cows on industrialized units. 119149
Veterinary **institutes** at district level—their scope regarding extremities and foot health service. 118529
Achievements of state-controlled **joint** *veterinary* practice, Forst since the VIIIth Socialist Unity Party Congress and initiatives in preparation of the IXth Congress. 118500
Competition in state-controlled **joint** *veterinary* practice of Triptis/Knau, Possneck district. 118502
Experience and results of state-controlled **joint** *veterinary* practice in Parchim district. 118505
State-controlled **joint** *veterinary* practice of Ludwigslust-its results in preparation of the IXth Socialist Unity party Congress. 118524
Tropical veterinary medicine [course] for the *veterinary* **laboratory** [Education, Scotland]. 118556
Considerations on an adequate terminology of institutes and diplomas in *veterinary* **medecine.** 118539
Medical psychology and *veterinary* **medicine.** 118440
Corticosteroids in *veterinary* **medicine.** 118448
Ethical referrals [in *veterinary* **medicine].** 118467
European Community study on information retrieval systems for the field of literature in *veterinary* **medicine.** 118494
Advisory services of *veterinary* **medicine** attached to regional institute in Halle and its role in encouraging beginning of industralized livestock production units. 118501
Involvement of *veterinary* **medicine** in organizing an industrialized pig farm. 118507
Literature on *veterinary* **medicine** in the German Democratic Republic: postulates, positions, prospects. 118508
Regional Institute of *Veterinary* **Medicine** in Dresden—its responsibility for full implementation of technical-scientific progress. 118516
Socialist Unity Party of Germany plays leading role in developing in the German Democratic Republic the Society of *Veterinary* **Medicine.** 118522
Rationalisation of clinical-chemical methods for examinations in *veterinary* **medicine** [for metabolic control in industrialized livestock farming]. 119172
General principles of *veterinary* **oncologic** surgery [Treatment of cancer]. 118470
The role of communications in *veterinary* **oncology** [Cancer study]. 118478
The Environmental Protection Agency's nine 'principles' of carcinogenicity [Includes *veterinary* **pathology].** 119092
Science and "the politics of cancer" [includes toxicity caused by chemicals, *veterinary* **pathology].** 119231
Veterinary **personnel** involved in "food industry hygiene" sector, results of socialist competition honoring the the IXth Congress of the Socialist Unity Party. 116226
The role of a specialist in a general *[veterinary]* **practice.** 118477
Thin-layer chromatography of sulphonamides and possibilities for their use in *[veterinary]* **practice.** 118525
Checking up on Persteril disinfection procedures employed in *veterinary* **practice.** 118676
Resistance testing of pathogenic germs and their results in the German Democratic **Republic** *Veterinary* Institutes. 118841
Antibiotic residues in milk—an area of *veterinary* **responsibility.** 118857
Outstanding scientist and organizer of **Russian** *veterinary* medicine (125th anniversary of the birthday of S. S. Evseenko). 118573
Increasing the efficiency of production (experience of the *veterinary* **service** of a swine husbandry complex). 118572
Competition of *veterinary* **services** in Plauen district. 118503
Livestock production and tasks of the *veterinary* **services** in the Democratic Republic of Somalia. 118509
Progress of *veterinary* **services** in Grevesmuhlen district between the VIIIth and IXth Congresses of the Socialist Unity Party. 118513
Progress of *veterinary* **services** in Grimmen district after the VIIIth Congress of the Socialist Unity Party. 118514
Progress of *veterinary* **services** in Gardelegen district between 1971 and 1975. 118515
Responsibilities of *veterinary* **services** in the USSR in promoting industrized livestock farming. 118517
Results and experience obtained from *veterinary* **services** on a state unit for pig breeding and fattening after the VIIIth Socialist Unity Party Congress. 118518
Results of *veterinary* **services** in Glauchau district in accomplishing principal task of the VIIIth Socialist Unity Party Congress. 118519
Results of *veterinary* **services** on state farm Spreenhagen for laying hybrid breeding, between 1972 and 1975. 118520
Tropical *veterinary* medicine [course] for the veterinary laboratory [Education, Scotland]. 118556
The work of *Veterinary* and **Tsetse** [Glossina] Control services [in Zambia]. 123625
Referral practice in a **university** *veterinary* medical teaching hospital. 118473
A complex preparation of ferrodextran, gamma-globulin, microelements and vitamins [for *veterinary* use]. 118566

VIABILITY

Lichen ecology of metal spoil tips: effects of metal ions on **ascospore** *viability.* 120327
Viability of the **epizoic** lichen flora carried and dispersed by green lacewing (Nodita pavida) larvae. 120984
Optimum tetrazolium staining of longleaf pine [Pinus palustris] seed [to **estimate** *viability].* 121831
Induced mutations in foxtail millet (Setaria italica Beauv.). II. *Viable* **mutations** in ear characters induced by gamma rays, EMS and dES [ethyl methanesulphonate, diethylsulphate]. 120840
Tetrazolium bromide and **pollen** *viability* of sugarbeets (Beta vulgaris L.). 121411
The seed banks of parairie glacial marshes [Vegetation zones, **seed** *viability].* 120335
Plate loop method for determining **total** *viable* count of orange juice. 117296

VIBRATIONS

Analytical model for rigid **body** *vibration* of a hand-held chain saw. I. The gasoline engine. 119828
A *vibrating* **pallet** for controlling bee flight from colonies [Apis mellifera]. 124486

VIBRIO

Epidemiological research into *Vibrio* **fetus** infection in cattle. 118648

VICIA
Pollination [self and cross-pollinating] as a factor limiting the yield of field **beans** *(Vicia* faba L.). 120763
Competition by, and chemical control of, natural weed populations in spring-sown field **beans** *(Vicia* faba). 123062
Effect of some chemicals on symptom expression & concentration of broadbean mosaic virus in **broadbean** *(Vicia* faba L.). 122841
Mechanism of differential staining of **BUdR-substituted** *Vicia* faba [broadbeans] chromosomes. 120457
Oxygen enhancement ratio for small x-ray doses measured in *Vicia* **faba** roots [Broadbeans]. 121685
Field bean: *Vicia* **faba** (Leguminosae-Papilionatae). 121944
Modification of chromosome damage in *Vicia* **faba** [broadbeans] by caffeine & cysteine applied at varying times before & after irradiation. 122950

VIGNA
Association **analysis** *Vigna* aconitifolia [moth bean] (Jacq.) Marechal [for selection of high yielding lines]. 120819
The effect of kinetin and gibberellic acid on some morphological characteristics of *Vigna* **sinensis** [Cowpeas]. 120440
Relationship between plant population and lay to yield of forage corn and *Vigna* **sinensis** [cowpeas] intercropping. 122131
Cowpeas: *Vigna* **unguiculata** (Leguminosae-Papilionatae). 122356

VILLAGES
Djaleonke [West African Dwarf] sheep of the Ivory Coast in *village* **environment.** Behaviour and feeding. 118157
Notes on baji in the Kathmandou valley [Production and use of rice cakes; **ethnosociology** of the *villagers].* 117126

VINES
Ice damage in a mixed hardwood forest in Connecticut in relation to Vitis **[Grape** *vines]* infestation. 122918
Seasonal population fluctuations of parasitic nematodes in the **rhizosphere** of *grape-vines.* 123048
The study of lianas [Larger **woody** *vines].* 120017

VINEYARDS
Biology of the mite, Anystis agilis (Acari: Anystidae): a **California** *vineyard* predator [Tetranychus urticae, Erythroneura elegantula]. 123367
On the subject of damages to *vineyards* **caused** by synthetized hormones destined for weeding large culture crops [Rice]. 123175
The Loire Valley wines: their geographical situation, their [grape] *vineyards,* and their **characteristics.** 122461
The Chablis [production] area limits **[Grape** *vineyards].* 122460
Some aspects of the phytoclimate of a *vineyard* in **relation** to the way of planting [and of training the grapevines]. 122500
The *vineyard* of **tomorrow.** Influence of mechanization of grape harvests. IV. Some elements of comparison between mechanized and manual grape harvests. 124722
The *vineyard* to **tomorrow.** Influence of mechanization of grape harvests. 124723
Vineyards and **vintages.** Report on a Mouton-Rothschild tasting session: what makes a wine great? 117317
Across the **world** *vineyards.* Observations on Egyptian grape culture. 122446

VINIFERA
Fruit bud formation of the Kyoho grape variety **(Vitis** *vinifera* X Vitis labrusca) in Taiwan. 120484
Lipids of grape **(Vitis** *vinifera)* leaves & their chloroplasts. 121692

VINTAGE *see* **WINE**

VINYL
Grafting of *vinyl* **monomers** onto wool fibers. 117017

VIOLA
Studies into Stemphylium floridanum causing leaf **blight** of *Viola.* 122790
Genecological investigations on zinc plants. I. Genetics of flower colour in crosses between *Viola* **calaminaria** Lej. and its subspecies westfalica (Lej.) Ernst. 120574
Viola **lactea** Sm. New to County Waterford. 120088

VIOLETS
Propagation and culture of **African** *violets* [Saintpaulia]. 122242
My no-care system for **African** *violets* [Saintpaulia]. 122431
Response of plants [of vegetable and melon crops] to a combined action of nematocides and *ultra-violet* **irradiation** in the conditions of protected cultivation. 123006
Content of gibberellin-like substances in the leaves of Heracleum olgae Rgl. et Schmalh. in relation to the effect of gibberellin and **natural** *ultra-violet* radiation. 121106
Effect of **natural** *ultra-violet* radiation on the content of auxins and growth inhibitors in barley [varieties] in Pamir in their natural condition and with artificial treatment with beta-indole acetic acid. 121487
Change in the content of auxins and growth inhibitors in the leaves of barley as a result of *ultra-violet* **radiation** in the conditions of West Pamir. 121486

VIREMIA
Marek's disease vaccine breaks: differences in *viremia* of **vaccinated** chickens between those with and without Marek's disease. 118637

VIRGIN
Assessment of sex pheromone activity in *virgin* **female** moths of the tea tortrix (Homona coffearia, Lepidoptera: Tortricidae) and its utilization in monitoring moth populations in tea fields. 123266
Natural regeneration and development of English oak (Quercus robur L.) and common hornbeam (Carpinus betulus L.) in the **Krakovo** *virgin* forest preserve. 119595
The introduction of cells, *virgins* and **queens** [Apis mellifera]. 120355
Piping of *virgin* **queens** of the honeybee (Apis mellifera L.). 124552

VIRGO
Heterochromatin and timing of DNA replication in morabine grasshoppers **[Moraba** *virgo].* 123964

VIROLA
Investigation on the lipids of *Virola* **surinamensis.** I. Acid and glyceride composition and chemical nature of some components of the unsaponifiable part. 121346

VIROLOGY
A new micromethod for serological tests in **plant** *virology* [cymbidium]. 122821

VIRULENCE
Protection of Bartlett pear against fire blight with deoxyribonucleic acid from *virulent* and **avirulent** Erwinia amylovora. 122809
Studies on increasing the *virulence* of the **bovine** leukosis virus. 118966
Protection of Bartlett pear against fire blight with deoxyribonucleic acid from virulent and *avirulent* **Erwinia** amylovora. 122809
Evaluation of *virulence* in **isolates** of Sclerotium oryzae [stem rot of rice]. 122730
Inheritance of *virulence* in **Puccinia** recondita on six backcross lines of wheat with single genes for resistance to leaf rust. 120611

VIRUSES
Cyanophage SM-2: a new blue-green **algal** *virus* [Synechococcus elongatus, Microcystis aeruginosa]. 122874
Hemagglutination by equine infectious **anemia** *virus.* 118761
Equine infectious **anemia** *virus:* evidence favoring classification as a retravirus. 118802
Apparent propagation of the equine infectious **anemia** *virus* in a mosquito (Culex pipiens quinquefasciatus Say) orvarian cell line. 123597
Suitability of carriers for the examination of disinfectants against **[animal]** *viruses.* 118660
Suitability of carriers for the examination of disinfectants against **[animal]** *viruses.* 118661
Viruses other than **arenaviruses** from West African wild mammals: factors affecting transmission to man and domestic animals. 118673
The structural proteins of equine **arteritis** *virus.* 119042
Isolation and properties of the DNA of African swine fever **(ASF)** *virus.* 118789
Titration of African swine fever **(ASF)** *virus.* 118791
Antigenic relationship of paralytic syndrome virus of chickens with other **avian** *viruses* as detected by immunofluorescence. 118742
Time of planting and lifting of elite [seed] potatoes when growing them on a *virus-free* **basis** in the Voronezh Region. 122870
Safe vaccine for pregnant cows **[Bovine** *viral* diarrhea]. 118591
Fetal and adult bovine interferon production during **bovine** *viral* diarrhea virus infection. 118760
Infection of dairy calves with corona virus and **bovine** *virus* diarrhea. 118951
Isolation of infectious **bronchitis** *virus* from broiler chickens in Chile. 118635
Serologic differences between strains of infectious **bronchitis** *virus* from New Zealand, Australia, and the United States [Chickens]. 118640
Effect of temperature and warming up time of potato tubers on detectability of the X, S, M *viruses* in **by-stolon** tuber parts. 122869
Electron-microscope studies on the pathogenesis of infectious bursal disease after intrabursal application of the **causal** *virus.* 118628
Isolation and identification of a *virus* **causing** abortions and stillbirths in swine. 118986
Cell to substratum adhesion-promoting activity released by normal and *virus-transformed* **cells** in culture [Chicken, mouse, and rat fibroblasts]. 117799
Reverse plaque formation by hog **cholera** *virus* of the GPEstrain inducing heterologous interference. 118765
Antiviral **components** of Ophiorrhiza mungos, isolation of camptothecin and 10-methoxycamptothecin. 121243
Infection of dairy calves with **corona** *virus* and bovine virus diarrhea. 118951
Neutralization of a transmissible gastroenteritis virus of swine by colostral antibodies elicited by intestine and cell **culture-propagated** *virus.* 118604
Fetal and adult bovine interferon production during bovine viral **diarrhea** *virus* infection. 118760
Host range of Drosophila melanogaster C *virus* among **Diptera** and Lepidoptera. 123808
Postnatal developement and serological specificity of natural NDV-0 [Newcastle **disease** *virus]* agglutinins in laboratory animals. 118615
Immunization of adult hens against infectious bursal **disease** *virus.* 118633
Role of the bursa of Fabricius in the pathogenicity of inclusion body hepatitis and infectious bursal **disease** *viruses* [Chickens]. 118639
Cell-free translation of foot-and-mouth **disease** *virus* RNA into identifiable non-capsid and capsid proteins. 118787
Isolation of a transcriptive complex from Newcastle **disease** *virions* [Chick embryos]. 118805
Thymidine metabolism and DNA synthesis in Newcastle **disease** *virus-infected* cells. 118810
Newcastle **disease** *virus* mRNA lacks 2'-O-methylated nucleotides. 118853
Exotic Newcastle disease; a new form of a familiar poultry *[viral]* **disease.** 118873
Recent studies on epizootic bovine abortion [Ornithodoros coriaceus as vector of *virus* **disease].** 118965
Diffusion precipitation in agar gel and immunoelectrophoresis in studying Aujeszky's **disease** *virus.* 118979
On the role of Aujeszky's **disease** *virus* in the respiratory diseases of swine. 118991
Study on the replication of the Aujeszky's **disease** *virus* using the immunofluorescence method [Chick embryo cells]. 118998
The effect of rifampicin on the reproduction of Aujeszky's **disease** *virus.* 118999
The best weapon against EIA [Equine infectious anemia, *viral* **diseases** of horses]. 118592
On a syndrome similar to transmissible gastroenteritis in swine farms in the Padana plain *[Virus* **diseases].** 118680
Equine infectious anemia *[Viral* **diseases].** 118681
Virus and *virus-like* **diseases** of cereal crops [Transmitted by insect vectors]. 122819
Studies on the *virus* **diseases** and their ratio in tobacco in Adana and Hatay provinces. 122824
Virus **diseases** of ornamental trees and shrubs. 122830
Virus **diseases** of potatoes. 122839
Virus **diseases** of orchids caused by Cymbidium mosaic virus in Taiwan. 122845
Thermotherapy of Cardinal Rouge [Grape variety, *virus* **diseases].** 122865
Aspects of epidemics of yellowing and mosaic of sugarbeets. I. Symptoms, means of transmission, methods of identification, vectors *[Virus* **diseases,** insect vectors]. 122866
Testing nemagon in the control of nematodes—vectors of *virus* **diseases** [of perennial crops]. 123008
Genesis and maintenance of a persistent infection by canine **distemper** *virus.* 118788
Duck *viral* enteritis: a comparison of replication by CCL141 and primary cultures of duck embryo fibroblasts. 118625
Properties of maize chlorotic **dwarf** *virus* and its ribonucleic acid. 122877
Electrophoretic separation of dsRNA genome segments from maize wallaby **ear** *virus* and its relationship to other phytoreoviruses. 122876
California **encephalitis** *virus* proliferation in Yukon [Aedes communis] mosquitoes incubated at low temperatures. 123615
SEM [scanning electron microscopy] of vesicular stomatitis virus infection in cell cultures grown on aluminum foil [Venezuelan equine **encephalomyelitis** *virus].* 118726
Properties of grapevine **fanleaf** *virus.* 122846
Purification and physicochemical characteristics of African swine **fever** *virus.* 118790
The role of the helper virus, anthriscus yellows, in the transmission of parsnip yellow **fleck** *virus* by the aphid Cavariella aegopodii. 122817
A smear technique for staining elementary bodies of **fowlpox** *virus* [Chickens]. 118620
Neutralization of a transmissible **gastroenteritis** *virus* of swine by colostral antibodies elicited by intestine and cell culture-propagated virus. 118604
Nonpermissive infection of L cells by an avian reovirus: restricted transcription of the *viral* **genome** [Chicken embryo fibroblasts]. 118806
On biological control of Boarmia bistortata Goeze (Lepidoptera, **Geometridae**) by help of a *virus.* 123224
Atrophy of nodular system in the *virus-affected* **groundnut,** Arachis hypogaea L. 122832
Foot-and-mouth disease in Ethiopia: serological and immunological study of FMDV type A *[virus,* **guinea** pigs]. 118900
The role of the **helper** *virus,* anthriscus yellows, in the transmission of parsnip yellow fleck virus by the aphid Cavariella aegopodii. 122817
Application of freeze-dried, one-day-old chick erythrocytes to *viral* **hemagglutination** and hemagglutination-inhibition tests. 118786
Polyethylene/glycol for concentration and purification of duck **hepatitis** *virus.* 118836
Occurrence of infection by bovine **herpes** *virus* (IBR-IPv) [infectious bovine rhinotracheitis-/infectious pustular vulvovaginitis] in bulls at an insemination station. 118834
Viruses of **industrial** fungi. 122837
Ecology of **insect** *viruses* [in microbial control of insect pests]. 123235
Further X-ray studies of nuclear-polyhedrosis inclusions **[insect** *viruses].* 124102

Insect *virus* infection of a poikilothermic vertebrate cell line: electron microscopy [Chilo iridescent virus]. 124127
Intracisternal *virus-like* particles in two guinea pig mammary adenocarcinomas. 118817
Insect virus infection of a poikilothermic vertebrate cell line: electron microscopy [Chilo **iridescent** *virus].* 124127
A technique for the differential isolation of hop mosaic virus and hop **latent** *virus.* 122827
A case of feline infectious anemia (haemobartonellosis) [Haemobartonella felis] with simultaneous feline **leukemia** *virus.* 119043
Studies on increasing the virulence of the bovine **leukosis** *virus.* 118966
Persistence of antibody of feline panleucopaenia induced by a modified **live** *virus* vaccine. 118799
Optimum conditions for high-resolution gradient analysis [pea polyribosomes, southern bean **mosaic** *virus].* 120406
High temperature inactivation of cucumber and alfalfa **mosaic** *viruses* in Nicotiana rustica cultures [Tobacco]. 122814
Nicotiana velutina [tobacco] **mosaic** *virus:* purification, properties and affinities with other rod-shaped viruses. 122815
Epidemiology and control of tomato **mosaic** *virus.* 122818
The influence of organophosphorus insecticides on the developemnt of local lesions of the tobacco **mosaic** *virus* in Nicotiana glutinosa L. and on virus multiplication in Nicotiana tabacum L. "Samsun". 122822
Inhibition of turnip yellow **mosaic** *virus* synthesis by pyrimidine analogues. 122823
Anther and pollen infection in relation to the pollen and seed transmissibility of two strains of barley stripe **mosaic** *virus* in barley. 122826
A technique for the differential isolation of hop **mosaic** *virus* and hop latent virus. 122827
Enzymatic removal of the 5' terminal methylated blocked structure of tobacco **mosaic** *virus* RNA and its effects on infectivity and reconstitution with coat protein. 122834
Changes in soluble proteins in callus cells of hypersensitive tobacco inoculated with tobacco **mosaic** *virus.* 122838
Effect of infection by arhar **mosaic** *virus* on the Hill reaction and primary productivity of pigeonpea (arhar) leaves. 122840
Effect of some chemicals on symptom expression & concentration of broadbean **mosaic** *virus* in broadbean (Vicia faba L.). 122841
Induction of local & systemic resistance in Nicotiana glutinosa against tobacco **mosaic** *virus* by leaf extract of dahlia. 122842
Post infection changes in nitrogen metabolism of pumpkin (Cucurbita maxima D.) as affected by yellow **mosaic** *virus.* 122843
Purification of vegetable marrow **mosaic** *virus.* 122844
Virus diseases of orchids caused by Cymbidium **mosaic** *virus* in Taiwan. 122845
The hand of the stacked-disk aggregate of tobacco **mosaic** *virus* protein. 122848
Tobacco **mosaic** *virus* and paramosaic virus in cigarettes. 122850
Changes in the soluble protein constitution of cucumber cotyledons following infection with two strains of cucumber **mosaic** *virus.* 122852
Effect of host enzyme extracts on the electrophoretic forms and specific infectivity of cowpea **mosaic** *virus.* 122853
Preliminary studies on the RNA components of three strains of cucumber **mosaic** *virus.* 122854
Serological demonstration of virus-specified proteins associated with cucumber **mosaic** *virus* infection of cucumber cotyledons. 122855
Ultrastructural changes in tobacco **mosaic** *virus-induced* local lesions in Nicotiana tabacum L. cv. "Samsun NN". 122857
Stereo electron microscopy of freeze-fractured cells reveals the three-dimensional continuity of tobacco **mosaic** *virus* crystals. 122864
A genetic map for the cowpea strain of TMV [tobacco **mosaic** *virus].* 122871
A messenger RNA for capsid protein isolated from tobacco **mosaic** *virus-infected* tissue. 122872
A study of nucleotide sequence homology between strains of tobacco **mosaic** *virus.* 122873
Effects of viral protein, viral RNA, and some other polyelectrolytes on infection of tobacco protoplasts by TMV [tobacco **mosaic** *virus].* 122875
Sites of coat protein accumulation in turnip yellow **mosaic** *virus-infected* cells. 122878
Synthesis of TMV [tobacco **mosaic** *virus]* RNA at restrictive high temperatures. 122879
The influence of organophosphorus insecticides on the developemnt of local lesions of the tobacco mosaic virus in Nicotiana glutinosa L. and on *virus* **multiplication** in Nicotiana tabacum L. "Samsun". 122822
RNA-dependent DNA polymerase activity of RNA tumor virus. VI. Processive mode of action of avian **myeloblastosis** *virus* polymerase. 118808
In vitro sensitivity of **myxomatosis** *virus* to 6-azauridine. 118617
Degerneration and qualification of material for propagating strawberries [Resistance to fungus, *virus* and **nematode** diseases]. 122929
A **new** *virus* disease of arhar (Cajanus cajan (L.) Millsp. [Pigeonpeas]. 122831
Sunnhemp rosette: a **new** *virus* disease of sunnhemp. 122833
Double infection of sheep and goats in Kenya with **orf** *virus* and Dermatophilus [congolensis]. 118708
Tobacco mosaic virus and **paramosaic** *virus* in cigarettes. 122850
Laboratory transmission of Sharka *[virus]* from **peach** tree to peach tree by Myzus persicae Sulzer. 122868
Duck **plague** *virus* replication in Muscovy duck fibroblast cells. 118624
Heat therapy: method and application to control **plant** *viruses* [of pippin and stone fruit trees]. 122829
Influence of buffers on pH [hydrogen-ion concentration] of cotton leaf surface and activity of a Heliothis nuclear **polyhedrosis** *virus.* 123318
Nuclear **polyhedrosis** *virus* replication in permanent cell lines of the cabbage moth (Mamestra brassicae L.). 123426
Fractionation and amino acid composition of acid-soluble trypsin peptides of inclusion bodies protein of moth (Galleria mellonella) nuclear **polyhedrosis** *virus.* 123827
Changes in protein, fat & glycogen in the larvae of rice moth Corcyra cephalonica St. during nuclear **polyhedrosis** *virus* infection. 123968
Occluded and nonoccluded nuclear **polyhedrosis** *virus* grown in Trichoplusia ni: comparative neutralization, comparative infectiviry, and in vitro growth studies. 124071
Nucleic acids synthesis of nuclear **polyhedrosis** *virus* in cultured embryonic cells of silkworm [Bombyx mori]. 124482
Potato *virus* X on Chrysanthemum. 122825
Ultrastructural changes in leaf cells of Chenopodium quinoa infected with **potato** *virus* S. 122856
Haemagglutinating property of buffalo **pox** *virus.* 118744
Concentration of pigeon **pox** *virus* in different tissues and fluids of chick embryos. 118749
Further studies on adaptation of sheep **pox** *virus* in sheep thyroid and sheep kidney monolayers. 118753
Virus-indexed **production** of raspberries and grapes. 122266
Resistance of *viruses* in **products** of animal origin. 118758
The defective maturation of *viral* **progeny** with a temperature-sensitive mutant of avian sarcoma virus [Chick embryos]. 119041
Yaba 1-Lednice 110 *virus* **proliferation** in chicken embryos. 118679
Effects of *viral* **protein,** viral RNA, and some other polyelectrolytes on infection of tobacco protoplasts by TMV [tobacco mosaic virus]. 122875
Serological demonstration of *virus-specified* **proteins** associated with cucumber mosaic virus infection of cucumber cotyledons. 122855
Development of a method for reproducing the **pseudorabies** *virus.* 119022
Isolation of **rabies** *virus* from apparently healthy dogs experimently infected. 118908
Note on the use of glycerine in the preservation of the C.v.S. **rabies** *virus* strain. 118909
Subgroup-specific antigenic determinants of avian RNA tumor virus structural proteins: analysis of *virus* **recombinants.** 119040
Identification and prevalence of *viruses* in **red** clover in central Kentucky. 122861
Comparative study "in vitro" between rabies and rabies **related** *viruses* by the sensitized lymphocytes technique. 118613
On the immunogenic properties of a polyvalent inactivated vaccine from **respiratory** *viruses* (IBR [infectious bovine rhinotracheitis], Pi-3, Ad-1, Ad-3). 118990
A new way to prove black currant **reversion** *virus* in Ribes nigrum L. 122849
Antibody class and complement requirement of neutralizing antibodies in the primary and secondary antibody response of cattle to infectious bovine **rhinotracheitis** *virus* vaccine. 118618
Study on the immunogenic properties of inactivated vaccines produced with the infectious bovine **rhinotracheitis** *virus.* 118997
Cytopathic effect of tissue culture adapted strain of **rinderpest** *virus* in different cell systems. 118729
Study of **ringerpest** *virus* (tissue culture adapted strain) with reference to its infectivity and plaque formation in different cell system. 118739
Cell-free translation of *virion* **RNA** from nondefective transformation-defective Rous sarcoma viruses. 118800
Effects of viral protein, *viral* **RNA,** and some other polyelectrolytes on infection of tobacco protoplasts by TMV [tobacco mosaic virus]. 122875
Nicotiana velutina [tobacco] mosaic virus: purification, properties and affinities with other **rod-shaped** *viruses.* 122815
Morphological and antigenic relationships between *viruses* **(rotaviruses)** from acute gastroenteritis of children, calves, piglets, mice, and foals. 118763
Cell-free translation of virion RNA from nondefective transformation-defective Rous **sarcoma** *viruses.* 118800
Suppression of glycoprotein formation of Semliki forest, influenza, and avian **sarcoma** *virus* by tunicamycin. 118809
The defective maturation of viral progeny with a temperature-sensitive mutant of avian **sarcoma** *virus* [Chick embryos]. 119041
Relations of the **semi-persistent** *viruses,* parsnip yellow fleck and anthriscus yellows, with their vector, Cavariella aegopodii. 122816
Observations on the diffusion and detection of **Sharka** *virus* in a peach orchard in Aquitaine. 122858
Characteristics of **Sindbis** *virus* temperature-sensitive mutants in cultured BHK-21 [baby hamster kidney] and Aedes albopictus (mosquito) cells. 123641
Immunoperoxidase localization of **Sindbis** *virus* antigen in infected vertebrate and infected mosquito cells [Culicidae]. 123659
Presence of *virus* in the **Sorghum** culture [Dwarfism, Colombia]. 122867
SEM [scanning electron microscopy] of vesicular **stomatitis** *virus* infection in cell cultures grown on aluminum foil [Venezuelan equine encephalomyelitis virus]. 118726
Glycosylation sites of vesicular **stomatitis** *virus* glycoprotein. 118803
Interactions of vesicular **stomatitis** *virus* with murine cell surface antigens. 118804
The purpose and operation of a Nuclear Stock Unit [Insect-proof, *virus-free* **structures** for selection plant propagation, New Zealand]. 122921
Infection of chick cells by **subgroup** E *viruses.* 119039
Advantages and limitations of animal models in the evaluation of *antiviral* **substances.** 118795
Antigenic relationship of paralytic **syndrome** *virus* of chickens with other avian viruses as detected by immunofluorescence. 118742
Assay of bovine interferons in cultures of the procine cell line IB-RS-2 [Comparative **test** of different *viruses].* 118759
The ecology of the *virus* of **tick-borne** encephalitis in the natural foci in the Olomouc district [Ixodes ricinus]. 123618
The chick chorioallantoic membrane as a model system for the study of tissue invasion by *viral* **transformed** cells. 118674
Vector control in seed potato farming [Insect pests, *virus* **transmission].** 122835
Transmission of citrus **tristeza** *virus* by the melon aphid [Aphis gossypii]. 122860
Experiment on the isolation of **tumor** *viruses* from cell cultures of human neoplasms by inoculation into chicks. 118677
RNA-dependent DNA polymerase activity of RNA **tumor** *virus.* VI. Processive mode of action of avian myeloblastosis virus polymerase. 118808
Public health aspects of animal **tumor** *viruses.* 118964
Subgroup-specific antigenic determinants of avian RNA **tumor** *virus* structural proteins: analysis of virus recombinants. 119040
Further studies in genetic resistance of fowl to RSV (RaV 0): evidence for interaction between independently segregating **tumour** *virus* b and tumour virus e genes. 118344
Spleen lesions of hemorrhagic enteritis *[virus]* of **turkeys.** 118641
Chemical suppression of the symptoms of **two** *virus* diseases [of tobacco]. 122813
The proteins of sowthistle [Sonchus oleraceus] yellow **vein** *virus* [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847
Virus and **virus-like** diseases of cereal crops [Transmitted by insect vectors]. 122819
The 1973 epidemic of Japanese encephalitis *[virus]* in **West** Bengal: a serological survey of domestic animals [Swine, cattle]. 118748
Studies on the influence of infection with mosaic (Beta *virus* 2) and **yellows** (Beta virus 4) on the yield quality of sugarbeet seeds. 122836

VISCERAL

Visceral **mechanisms** in the control of food intake. 116385

VISCOSITY

The influence of sodium chloride on *viscose* **process** [during fiber processing]. 119790
Viscous **product** from activated sludge by methanol fermentation. 125501

VISCUM

Agglutination of human erythroytes and ascites tumor cells of the mouse by using extracts of the European **mistletoe** *(Viscum* album L.). 120847

VISUAL

Abnormal *visual* resolution in the Siamese cat. 119192
Organization of *visual* **axes** in the compound eye of the fly Musca domestica L. and behavioural consequences. 124029
Resolution of intraneuronal and transynaptic migration of cobalt in the **insect** *visual* and central nervous systems [Calliphora erythrocephala, Calliphora vomitoria, Musca domestica. 124030
Effect of *visible* **light** on the behavior of stored-product insects. 123528
Polarized light orientation of the honey bee: the **minimum** *visual* angle. 124539
The face of rural America [A *visual* **record** of America's agriculture in the Bicentennial year]. 115205
Spectral sensitivity and variation in *visual* **sensitivity** of the colonized screwworm fly Cochliomyia hominivorax (Coquerel) as measured with electroretinogram. 123640
Territorial behaviour in Heodes virgaureae L. (Lepidoptera, Lycaenidae) with particular reference to *visual* **stimuli.** 124117
Visual-cultural **sub-model** [Wetlands]. 115289
Space constancy of the *visual* **world** in insects. 123916

VITACEAE

Comparative morphological and anatomical study of the petiole and epidermis of the leaf of the representatives of the **family** *Vitaceae* Juss [including grapes]. 120073
Grapes: Vitis, **Muscadinia** *(Vitaceae).* 122363
Fruits and seeds of the Brandon Lignite. I. *Vitaceae* **[Vermont].** 120252

VITALITY
Methods and criteria for grading the **economic** *vitality* of the agricultural farm. 115444

VITAMIN
Vitamin-formation **ability** of cellulose-decomposing fungi [isolated from soil]. 124824
Influence exerted by a protracted administration of *vitamin* A on the **acid** fastness and biochemical properties of erythrocytes [Rats]. 116561
Effects of divalent cations on *vitamin* B12 **adsorption** to brush borders of rat intestine. 116454
Application of chromatography on silica gel to *vitamin* D **assays** in "Vitastol". 116268
Metabolites of *vitamin* D and their **biological** function [in animals and man]. 116527
The regulation of vitamin D metabolism: interaction of *vitamin* D and **calcium** [Chicks]. 117711
The influence of some *vitamins* on **citric** acid fermentation [Aspergillus niger, Fungi]. 121363
Raw sugar and B *[vitamin]* **complex** for laying hens. 118047
Content of B **complex** *vitamins* in the parental forms of the seeds of maize and sunflower and in hybrids in relation to the combining ability of lines. 120699
Synthesis of B **complex** *vitamins* by symbiotic bacteria of nonlegumnous plants. 121103
The role of B **complex** *vitamins* and amino acids in the interrelationships of symbiotic bacteria of Carex enervis. 121105
Production of B **complex** *vitamins* by oligonitrophyllic microorganisms [Soil bacteria]. 124821
Vitamin **content** of mixed feed for piglets. 117380
Introduction of wheat-Agropyron hybrids of a forage-grain type in Donbass [Yield, protein and *vitamins* **content**]. 121434
High-pressure liquid chromatographic method for the determination of 25-hydroxycholecalciferol [Metabolite of *vitamin* D3] in **cow** plasma. 117549
Ascorbate supplements in *vitamin* A **deficiency.** 116511
Pernicious anemia and mental dysfunction [due to *vitamin* B12 **deficiency**]. 116520
Spectrophotometric study of naphtoquinone **derivatives** *(vitamin* K). 116465
Vitamin D in the **diet** of thoroughbred yearlings. 118082
Genetics and environment in the pathogenesis of nutritional *[vitamin* **D-responsive**] rickets. 116516
Vitamin **D-stimulated** intestinal calcium absorption may not involve calcium-binding protein directly. 116489
Ultrastructural changes in skeletal muscle of *selenium-vitamin* **E-deficient** chicks. 119069
Gel chromatographic separation of retinol, retinyl esters and other **fat-soluble** *vitamins.* 116411
The application of *vitamins* in **food** fortification. 116335
Influence of vitamin B6 intake on the content of the *vitamin* in **human** milk. 116285
Regulation of intestinal calcium absorption in the laying quail: independent of **kidney** *vitamin* D hydroxylation. 117819
Plasma carotene and *vitamin* A **levels** in cows, sheep and camels of the Thar desert. 117746
The effect of storing and heating frozen ready-to-eat meals on *vitamins* B1 and B2 in the **meat.** 116330
The regulation of *vitamin* D **metabolism:** interaction of vitamin D and calcium [Chicks]. 117711
Changes of the *vitamin* and **mineral** content of nutritional plants due to technological treatment. 116317
Influence of plant breeding and cultivation practices on *vitamin* and **mineral** content of plants. 116318
The importance of vegetable food in covering the requirements for *vitamins* and **minerals.** 116321
A nutritional shield against the arrows of stress *[Vitamins,* **minerals,** and other concentrated supplements]. 116528
Gas-liquid chromatographic determination of *vitamin* D in **multivitamin** preparations containing excess amount of vitamin E. 116457
Mechanism and site of small intestinal uptake of *vitamin* D3 in **pharmacological** concentrations [Rats]. 116287
Gas-liquid chromatographic determination of vitamin D in *multivitamin* **preparations** containing excess amount of vitamin E. 116457
A method for the gas chromatographic determination of *vitamin* D and **related** structures. 116412
Vitamin **requirements** [for mink]. 117970
Studies on the *vitamin* B **requirements** of broilers. 3. Influence of varying vitamin B6 levels on body composition and rate of retention. 118001
Gas-liquid chromatographic determination of vitamin D3 in tuna liver and *vitamin* D3 **resin** oils. 116458
B-vitamin **retention** in meat during storage and preparation. A review. 117015
Physiologically active substances of the B complex *[vitamins]* in the **seeds** of maize inbred lines and in initial forms. 120711
Serum *vitamin* B12 levels in protein-malnourished children. 116498
Decomposition of plant residues and the synthesis of *vitamins* by **[soil]** microorganisms. 124816
Vitamin B2 **status** in athletes and the influence of riboflavin administration on neuromuscular irritability. 116499
Application of ursokoxalin and *vitamin* K3 **substitution** to influence relative prothrombin concentration in laying hybrids with Eimeria tenella infection. 118825
Vitamin E **supplementation** and glutathione peroxidase activity [Rats]. 116543
Effect of oral contraceptives and *vitamin* B6 **supplements** on alanine and glycine metabolism. 116277
Distribution and ecological significance of *vitamin* B12 and **thiamin** in three lakes [Water composition]. 125180
Gas-liquid chromatographic determination of *vitamin* D3 in **tuna** liver and vitamin D3 resin oils. 116458
Studies on the vitamin B requirements of broilers. 3. Influence of **varying** *vitamin* B6 levels on body composition and rate of retention. 118001
A complex preparation of ferrodextran, gamma-globulin, microelements and *vitamins* [for **veterinary** use]. 118566
An improved method for determination of *vitamin* K. 116294
Gas-liquid chromatographic determination of vitamin D in multivitamin preparations containing excess amount of *vitamin* E. 116457
Improved and effective assays of the glutamic oxaloacetic transaminase by the coenzyme-apoenzyme system (CAS) principle [Deficiencies of *vitamin* B6]. 116459
Effect of dilauryl succinate on reproduction of the cock and hen and preventive effect of *vitamin* E. 118102

VITELLINE
Permeability of *vitelline* **membrane** for ions of sodium, calcium and magnesium [Egg membranes]. 117041

VITELLOGENESIS *see* OOGENESIS

VITICULTURE
First measures for the support of the European Economic **Community** *viticultural* market. 115686
Cotes de Buzet, a nice success in active *[viticultural]* **cooperation.** 115319
Clones and clone selection in the *viticulture* of **eastern** Switzerland—what is the present situation? 120818
New regulations for *viticulture* **[European** Economic Community]. 115971
Protection of the *viticultural* **market** [by the European Economic Community] in the new 1975-76 campaign. 115688
The decisions [made by the European Economic Community] at Brussels for the *viticultural* **sector** [Marketing, prices, France, Italy]. 115689
Productive structure of the *viticultural* **sector** [Prospects and economic aspects, Europe, Italy]. 115930
A brief report on the development of *viticulture* and **wine** production of state farms. 122200

VITIS
Lipids of **grape** *(Vitis* vinifera) leaves & their chloroplasts. 121692
Ice damage in a mixed hardwood forest in Connecticut in relation to *Vitis* **[Grape** vines] infestation. 122918
Fruit bud formation of the Kyoho grape variety (Vitis vinifera X *Vitis* **labrusca)** in Taiwan. 120484
Grapes: *Vitis,* **Muscadinia** (Vitaceae). 122363
Organic growth factor requirements of **Pseudocercospora** *vitis* (Lev.) Speg. and Cercospora mitteriana Syd. [Fungi]. 121340
Fruit bud formation of the Kyoho grape **variety** *(Vitis* vinifera X Vitis labrusca) in Taiwan. 120484

VITRO
In *vitro* **anthelmintic** activity of disalts of embelin [Embelia ribes]. 118745
Antifungal action of cyanamide added, in *vitro,* with **atrazine** [herbicide, Alternaria brassiciola, Dreschslera maydis]. 122552
On the in *vitro* **behaviour** of carbon-14-labelled lindane in the blood. 123741
In *vitro* **binding** of sterols by extracts from Mucor rouxii [Fungi] cells grown under different environmental conditions. 120985
Effects of DPX-1840 [3,3a-dihydro-2-(p-methoxypnenyl)-8H-pyrazolo (5,1-a) isoindol-8-one] and chlorflurenol on growth and redifferentiation of tobacco **callus** in *vitro.* 121521
Selective control of fibroblast proliferation and its effect on cardiac muscle differentiation in *vitro* **[Chick** embryos]. 117646
Mechanism of steroid hormone action: in *vitro* **control** of gene expression in chick oviduct chromatin by purified steroid receptor complexes. 117712
In *vitro* **correction** of Hurler fibroblasts with bovine testicular hyaluronidase. 117894
In *vitro* **culture** of the immature embryo of Capsella bursa-pastoris Moench. 120562
In *vitro* **culture** of shoot apical meristem of Petunia hybrida for Mass production of plants. 121690
The allatotropic activity of the larval brain of Galleria mellonella **cultured** in *vitro.* 123922
Quality of protein in milk replacers for young calves. I. Factors affecting in *vitro* **curd** formation by rennet (chymosin, rennin) from reconstituted skim milk powder. 118035
Study on evagination "in *vitro*" of the **Cysticerus** cellulosae [Swine]. 118912
In *vitro* **digestibility** of some leaf protein preparations using papain. 116505
Relationship of chemical analysis to in *vitro* **digestibility** for selected tropical and temperate grasses. 117353
Sulfur supplementation and in *vitro* **digestion** of forage cellulose by rumen microorganisms [Cattle]. 117771
Influence of alkali treatments of corn cobs on in *vitro* **dry** matter disappearance and lamb performance. 118092
Progesterone-binding components of chick oviduct: in *vitro* **effect** of receptor subunits on gene transcription. 117790
Progesterone-binding components of chick oviduct: in *vitro* **effects** of purified hormone-receptor complexes on the initiation of RNA synthesis in chromatin. 117789
The possible differentiation of osteogenic elements in *vitro* from **[embryonic]** chick limb mesodermal cells. I. Morphological evidence. 117649
Differentiation of adventitious buds on Douglas-fir [Pseudotsuga menziesii] **embryos** in *vitro.* 121804
Depletion of complement in vivo and in *vitro* by **extracts** of Aspergillus fumigatus [Fungi, aspergillosis, man, animals]. 118767
Fragments of Aesculus hippocastanum L. Cotyledons grown in *vitro;* **first** results on starch and aescin behavior [in the callus]. 120460
Aldosterone production by sheep adrenal **glands** in *vitro.* 117838
Promoting effect of DPX-1840 [3,3a-dihydro-2-(p-methoxyphenyl)-8H- pyrazolo (5,1-a) isoindol-3-one] and other auxin transport inhibitors on pollen tube **growth** in *vitro.* 121178
In *vitro* **growth** and nutrition of Buergenerula spartinae, a fungus associated with Spartina alterniflora. 122664
Occluded and nonoccluded nuclear polyhedrosis virus grown in Trichoplusia ni: comparative neutralization, comparative infectivity, and in *vitro* **growth** studies. 124071
Effect of systemic fungicides on different entomopathogenic Fungi **imperfecti** in *vitro.* 122672
The in *vitro* **induction** of puffing in salivary glands of the mutant l (2)gl of Drosophila melanogaster by ecdysone. 124173
Studies on the characterization of straw pellets. 10. Methodological studies on the in *vitro* **investigation** of different kinds of straw [Cattle, sheep]. 118003
Effect of 1,4-naphthoquinones and saponins on the activity of polyphenoloxidase (in *vitro)* **[isolated** from potato skin]. 121060
Induction of the insect vitellogenin in vivo and in *vitro* **[leucophaea** maderae]. 123941
Mineral and crystal formation in *vitro* by **lipids** extracted from bovine compact bone. 117870
Juvenile hormone control of epidermal commitment in vivo and in *vitro* **[Manduca** sexta]. 123945
Reversible particle movements associated with unstacking and restacking of chloroplast **membranes** in *vitro.* 120482
Study on the thyroid function of Thoroughbred horses by means of "in *vitro*" 125I-T3 **modified** and 125I-T4 tests [iodine isotope]. 117909
Effect of synergized allethrin on Heteropeza pygmaea larva and mycelial growth of Agaricus bisporus **[mushroom]** in *vitro.* 123411
Chemical composition and in *vitro* **nutrient** digestibility of dinanath grass (Pennisetum pedicellatum). 117348
Androgenesis "in *vitro*" in **Oryza** sativa [rice] (Cigalon variety). 121407
Application of an in *vitro* **peroxydase** test in choosing asparagus plants for in propagation. 122456
Age-dependent resistance of chickens to Salmonella in *vitro:* **phagocytic** and bactericidal activities of splenic phagocytes. 118596
In *vitro* **photosynthesis.** 121150
Serodiagnostic studies on larval and strobilar phase of Taenia hydatigena with in *vitro* **precipitation** test [Cysticercus tenuicollis, sheep, goats, dogs]. 118919
In *vitro* **production** of transelimanses by Helminthosporium apattarnae Desh. & Desh. [Isolated from leaf spot in Cynodon dactylon]. 122630
Substrate specificity of flavanone synthase from cell suspension cultures of parsley and structure of release **products** in *vitro.* 121602
Uterine proteins and development in *vitro* of **rabbit** preimplantation embryos. 118363
Comparative study "in *vitro*" between **rabies** and rabies related viruses by the sensitized lymphocytes technique. 118613
The effects of juvenile hormone on imaginal discs of Drosophila in *vitro:* the **role** of the inhibition of protein synthesis. 123956
Studies on vegetative propagation of Tulipa [varieties]. I. Organ formation from excised bulb **scales** in *vitro.* 122405
In *vitro* **sensitivity** of myxomatosis virus to 6-azauridine. 118617
TEM [transmission electron microscopy] studies of hen's perivitelline membrane hydrolysis by cock **sperm** in *vitro.* 118386
Exchange of phospholipids between mitochondria and microsomes in *vitro* **stimulated** by yeast cell cytosol [Saccharomyces cerevisiae]. 120929
In *vitro* **studies** of mitochondrial and sarcoplasmic reticulum function in muscle of stress susceptible pigs. 117770
An in *vitro* **study** of the non-specific esterases of the melon fly, Dacus cucurbitae Coq. and their reactions with organophosphate and carbamate compounds. 123388

Phenotypic variations in Fossombronia himalayensis Kash [hepaticae] in *vitro-effect* of **sugars**, auxins, growth substances and growth inhibitors. 121188
In *vitro* **susceptibility** of Treponema hyodysenteriae to carbadox, virginiamycin, and tylosin [Swine dysentery]. 119051
Study on the thyroid function of Thoroughbred females in varying stages of pregnancy, using "in *vitro*" **tests** 125I-T3 and 125I-T4 [Iodine isotope, horses]. 118392
Comparative investigations on thyroglobulin biosynthesis in rabbit and guinea-pig **thyroid** in *vitro*. 117655
A carrier protein for juvenile hormone in the haemolymph of the Indian meal moth [Plodia interpunctella] interactions with epidermal target **tissue** in *vitro*. 123517
In *vitro* **toxicity** of constituents of Rumex maritimus Linn. [Trichophyton mentagrophytes, Microsporum canis] to ringworm fungi. 122603
In *vitro* **trypsin** digestion of bovine and pig muscles both raw and cooked: peptides fractionations by molecular exclusion chromatography [Pork and beef]. 116937
Comparison of the binding of various bile acids and bile salts in *vitro* by several **types** of [dietary] fiber [on lipid metabolism]. 116422
Studies on niacin biosynthesis from 3-hydroxyanthranilic acid in streptozotocin diabetic rats in **vivo** and *vitro*. 116461

VIVIPAROUS

A *viviparous* **type** of Eleocharis wichurai [New taxa]. 120131

VIVO

Role of cyclic electron transport in photosynthesis as measured by the photoinduced turnover of P700 in *vivo* **[Algae,** aphanocapsa]. 120928
Mitochondrial biogenesis during fungal spore germination: products of mitochondrial protein synthesis in *vivo* **[Botryodiplodia** theobromae]. 120903
Protocols for the dominant lethal test, host-mediated assay, and in *vivo* **cytogenetic** test used in the Food and Drug administration's review of substances in the GRAS (generally recognized as safe) list. 116213
Electric activity of the rat myometrium in *vivo* during the **estrous** cycle. 119643
The ultrastructure of the Spilocaea state of Venturia inaequalis in *vivo* **[Fungi].** 120447
A calcium ionophore-induced secretion in rabbit lacrimal **gland** in *vivo*. 117846
In *vivo* **growth** and development of equine adenovirus in the lung of Arabian horse. 118889
Mobility restriction in *vivo* of the **heavy** ribosomal subunit in a secretory cell [Chironomus tentans]. 124022
Temperature-sensitive breakdown in *vivo* of **polysomes** with mutants of Chlamydomonas reinhardii [Algae]. 121283
In *vivo* **purification** of mitochondrial genes in petite mutants of yeast: the genetic and biochemical characterization of mutants enriched in mitochondrial ribosomal RNA cistrons. 120754
Lung inflation and alveolar permeability to non-electrolytes in the adult **sheep** in *vivo*. 117827
Studies on niacin biosynthesis from 3-hydroxyanthranilic acid in streptozotocin diabetic rats in *vivo* and **vitro.** 116461
Depletion of complement in *vivo* and in **vitro** by extracts of Aspergillus fumigatus [Fungi, aspergillosis, man, animals]. 118767
Induction of the insect vitellogenin in *vivo* and in **vitro** [leucophaea maderae]. 123941
Juvenile hormone control of epidermal commitment in *vivo* and in **vitro** [Manduca sexta]. 123945

VOCATIONS

Fur farming education now within the scope of *vocational* **education** for the livestock farmer. 117419
Purpose-oriented political-ideological and *vocational* **effortof** veterinary personnel and cooperative farmers yields good results in implementing principal task formulated by. 115954

VOGTIA

The biological control of alligatorweed, Alternanthera philoxeroides, in the United States of America [Agasicles hygrophila, Amynothrips andersoni, *Vogtia* **malloi].** 123065

VOLATILE

Pheromones of mammals: an investigation of *volatile* **acids** in vaginal excretions of minks, Mustela vison Briss. 118255
Volatility, in an **aqueous** medium, of DDT retained on homoionic vermiculite [Water and air pollution]. 123685
Identification of some *volatile* **compounds** in cooked chicken. 117050
Tannin in persimmon (Diospyros kaki L.) fruits. II. *Volatile* **compounds** and soluble tannin of the fruits in the course of removal of astringency. 117294
Volatile fatty acid metabolism in sheep. 1. Average **daily** *volatile* fatty acid production in the rumen of sheep fed lucerne hay. 117869
Studies on Provolone cheese. II. Changes in the *volatile* **fatty** acids during processing and ripening. 116887
Determination of *volatile* **fatty** acids [in ruminal fluid] by gas chromatography. 117573
Utilization of *volatile* **fatty** acids in ruminants. 8. Acetate activation in mammary tissue [cows]. 117752
Volatile **fatty** acid metabolism in sheep. 1. Average daily volatile fatty acid production in the rumen of sheep fed lucerne hay. 117869
Behaviours of pH [hydrogen-ion concentration] and *volatile* **fatty** acids in rumen juice of sheep afflicted with latent alimentary metabolic acidosis. 119153
Simultaneous detection of nitrogen and sulfur containing **flavor** *volatiles*. 116638
The involvement of **flavour** *volatiles* in the resistance to downy mildew [Peronospora parasitica] of wild and cultivated forms of Brassica oleracea. 122685
Nonvolatile **nitrogen** and sulfur compounds in red meats and their reltion to flavor and taste. 116931
A comparison of some chromatographic detectors for the analysis of *volatile* **N-nitrosamines** [Potent carcinogens in food]. 116174
Analysis of **nonionic** *nonvolatile* N-nitroso compounds in foodstuffs. 116764
Volatiles **produced** by microorganisms isolated from refrigerated chicken at spoilage. 116210
Biological activity of *volatile* **secretions** of flowers [of forest trees and shrubs]. 121810
Volatile **secretions** of two Old World stingless bees [Trigona (Meliplebeia denoitti, Trigona (Hypotrigona) gribodoi]. 124153
Volatile **sulfur** compounds contributing to meat flavour. I. Components identified in boiled meat. 117023

VOLCANOES

The properties of *volcanic* **ash** soils in dry parts of the Colombian Andes and their relation to soil erodibiiity. 124790
Effect of the ash of the **Irazu** *volcano* (Costa Rica) on some insects [including Apis mellifera]. 124138

VOLES

Population fluctuations of **field** *voles* (Microtus): a background to the problems involved in predicting vole plagues [Pest of trees]. 119356
The **meadow** *vole* as an experimental animal. 117467
Population fluctuations of field voles (Microtus): a background to the problems involved in **predicting** *vole* plagues [Pest of trees]. 119356

VOLUMETRY

Effect of different methods of main soil tillage on the alteration of its *volumetric* **weight** and the yield of farm crops [Wheat, sugarbeets]. 125157

VOLVOCALES

Genetic aspects of sexuality in *Volvocales* **[Algae].** 120597

VOLVOX

Bacterial endosymbionts in *Volvox* **carteri** (Chlorophyceae) [Algae]. 121200

VOLVULUS

Acute **gastric** *dilatation-volvulus:* a breeder's point of view [Dogs]. 119104
Gastrocolopexy for prevention of recurrent **gastric** *volvulus* [Dogs]. 119109
Pathophysiology associated with **gastric** *dilatation-volvulus* in the dog. 119116
"Permanent" gastropexy, as a prophylactic measure against **gastric** *volvulus* [in the dog]. 119117
Radiographic interpretation of the **gastric** *dilatation-volvulus* complex in the dog. 119118
Shock therapy and anesthetic management in **gastric** *dilatation-volvulus* [Dogs]. 119120
Treatment of **gastric** *dilatation-volvulus* by gastric decompression and patient stabilization before major surgery [Dogs]. 119122
Tube gastrostomy for the treatment of **gastric** *volvulus*. 119123
Reactions to subconjunctival inoculation of **Onchocerca** *volvulus* microfilariae in pre-immunized rabbits. 118971

VOMITING

Pharmacologic control of *vomiting* **[Dogs,** cats, swine, primates]. 118550
Jamaican *vomiting* sickness: biochemical investigation of twocases [Blighia sapida, akee, hypoglycin]. 116237

VULPES *see* FOXES

VULVOVAGINITIS

Service infections, especially IBR/IPV [infections bovine rhinotracheitis/infectious **pustular** *vulvovaginitis],* a problem for state animal disease control [West Germany]. 118657
Occurrence of infection by bovine herpes virus (IBR-IPv) [infectious bovine rhinotracheitis/infectious **pustular** *vulvovaginitis]* in bulls at an insemination station. 118834
Determination of antibodies in infectious bovine rhinotracheitis-infectious **pustular** *vulvovaginitis* of cattle. 118876

WAGES

Aspects of **additonal** *earnings* by farmers through forestry work: forestry educaton as a prerequisite [Austria]. 119292
Making efficient use of material incentives *[Wages,* **East** Germany]. 115512
Low *wage* industries: endangerment of jobs of sideline farmers [Industry and agriculture, Austria]. 115207
Development of **standard** *wages* and related incidental costs [for gardening]. 115488

WALL

Comparative histological investigation of receptor structures in **aortic** *wall* of some vertebrate representatives [Includes chickens and rabbits]. 117689
Distribution of bound hydroxyproline & *cell-wall* **associated** homospermidine in the leaves of sandal, Santalum album L. 121129
Electron microscopy analysis of differentiation of the *wall* and **capillary** bed of the chick embryo allantochorion. 117691
Silica incorporation in the **cel** *wall* of the stinging cell of Urtica dioica. 120550
Isolation of a purified skin test antigen from Blastomyces dermatitidis yeast-phase **cell** *wall* [Guinea pigs]. 118762
Cell *wall* formation in zoospores of Allomyces arbuscula [Fungus]. II. Development of surface structure of encysted haploid zoospores, rhizoids, and hyphae. 120411
Cytoplasmic cylinders associated with the nucleus and **cell** *wall* of marchantia spermatids [Hepaticae]. 120540
The regulation of silica incorporation into the stinging **cell** *wall* of Urtica Pilulifera. 120554
Ultrastructure and morphology of the Neurospora crassa [Fungi] **cell** *wall* mutants, slime and slime X using TEM and SEM. 120559
Genetics of **cell** *wall* synthesis in Chlamydomonas reinhardtii [Algae]. 120600
The occurrence of ethanolamine and galactofuranosyl residues attached to Penicillium charlesii **cell** *wall* saccharides [fungi]. 120923
Quantitative microanalysis of **cell** *walls* of Saprolegnia diclina Humphrey and Tremella mesenterica Fries [Fungi, chemistry]. 120935
The mycelial **cell** *wall* of Penicillium charlesii G. Smith NRRL 1887 [Fungi, chemistry]. 120937
Cytological and chemical changes in **cell** *walls* of Rhodotorula gracilis. III. Characteristics and live cycle of the yeast. 121064
Neutral sugar, uronic acid, cellulose, and protein content of **cell** *walls* isolated from gametophytes of the liverworts Lophocolea heterophylla and Conocephalum conicum. 121187
An easy method of estimating the stress-relaxation parameters To and b [for quantitative evaluation of mechanical properties of the **cell** *wall* of higher plants]. 121318
Cell-wall **column** chromatographic identification of the native cell-wall acid phosphatase of cultured tobacco cells. 121532
Plantlet formation in callus cultures of Dioscorea **deltoidea** *Wall.* 121139
The phylogenetic significance of the development of pollen **grain** *walls* in Liliaceae, Juncaceae and Cyperaceae. 120516
Comparative study of **hyphal** *wall* components of oomycetes [Fungi]: Saprolegniaceae and Pythiaceae. 120868
Cell-wall column chromatographic identification of the **native** *cell-wall* acid phosphatase of cultured tobacco cells. 121532
Dynamic changes in **pollen** *wall* morphology. 120507
Male sterility caused by cooling treatment at the young microspore stage in rice plants. XIII. Ultrastructure of tapetal hypertrophy without **primary** *wall.* 120532
Remarks on the formation of different layers of the **spore** *wall* with the lamellar exine in some Marchantiales and Sphaerocarpales. 120511
Spore *wall* structure in Mniaceae and some adjacent bryophytes. 120512
Fine structure of the **spore** *wall* and germ tube change during germination [Fungi]. 121117
Variation in the *capsule-wall* **structure** in three common species of Metzgeria (Hepaticae), with special reference to the gametophytic features. 120491

WALLABY

Electrophoretic separation of dsRNA genome segments from **maize** *wallaby* ear virus and its relationship to other phytoreoviruses. 122876

WALNUTS

Propagation of *walnuts,* **almonds** and pistachios in California [Juglans, Prunus amygdalus, Pistacia]. 122245
The **black** *walnut* [Juglans nigra] as a fruit culture. 122318
Life history and laboratory rearing of Brochymena quadripustulata [on **black** *walnut* Juglans nigra] with descriptions of immature stages and additional notes on Brochymena arborea (Hemiptera: Pentatomidae). 124215
Walnut **caterpillar** [Datana integerrima] response to insecticides [Bacillus thuringiensis, Carya illinoensis, biological control]. 123436
Selection of promising forms of **European** *walnut* [Juglans regia] in the Kamennaia Steppe. 120813
The *walnut* **husk** fly [Rhagoletis completa, Juglans]. 123400

WARBLE

Present methods of **controlling** *warble* flies [Oestridae] and blood-sucking Diptera in northern reindeer husbandry. 123631
Prospects of **controlling** *warble* flies [Oestridae] and blood-sucking Diptera in the northeastern zone [Pests of reindeer]. 123632
Control of *warble* **flies** [Oestridae] and blood-sucking insects [Diptera] in the Magadan Region [Pests of reindeer]. 123630

Warble **fly** eradication in Ireland [Hypoderma bovis, Hypoderma lineatum, cattle pests]. 123637

WAREHOUSES
Investigations on dichlorvos storage space treatment for protection of packaged food against insects in the *warehouse* in the **Aegean** region [Raisins]. 123509

WARFARIN
Control of rats and *warfarin* **intoxication** of swine. 119264
Warfarin: a **question** of balance [Forest tree injuries, squirrels chemical control]. 119362

WARMTH
The possible role of aeration in the control of stored product insects in *warm* **climates.** 123569
Herbicides for the control of weeds in *warm-season* **forage** grasses. 123132
Effect of temperature and *warming* up **time** of potato tubers on detectability of the X, S, M viruses in by-stolon tuber parts. 122869

WASHING
Material balance for brown **stock** *washing,* screening, and oxygen bleaching in closed-mill systems [Pulps]. 119818
Washing of **trimethylamine** by the water of the melting ice used for preserving sea bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052

WASPS
Studies on the resistance of chestnut trees (Castanea spp.) to chestnut **gall** *wasps* (Dryocosmus kuriphilus Yasumatsu). iX. Polyphenolic contents in susceptible and resistant varieties. 123416
Ultrastructural morphology of two sensilla placodea on the antenna of a **parasitic** *wasp* [Tetrastichus hagenowii]. 124132
Predatory behavior of the **spider** *wasp,* Chalybion californicum (Hymenoptera: Sphecidae). 124121
A survey of distribution of the *wasp* **spider** Argyope bruennichi (Arachnida, Araneae). 124284

WASTE
Making the most of **animal** *wastes.* 116940
Enzymes and agriculture [Utilization of **cellulosic** *wastes,* Trichoderma viride, food processing]. 116795
Evaluation of the acceptability of fresh **chicken** *waste:* sudax silage vs sudax silage for feeding feeder cattle. 118116
Arbuscular mycorrhizas in the anthracite and bituminous **coal** *wastes* of Pennsylvania. 120373
A study on straw mushroom cultivation with *waste* **compost** of common mushroom. 125021
Unifilter collecting system for **cotton-gin** *waste* materials [Air pollution]. 125385
[Cotton] gin trash holds huge energy potential *[Waste* **disposal].** 117088
Salt water **domestic** *waste* treatment. 125517
Don't *waste* waterweeds. 123103
Physical-chemical methods for the recovery of protein from *waste* **effluent** of potato chip processing. 117277
Protein quality of precipitate from *waste* **effluent** of potato chip processing measured by biological methods. 117278
Sugar **factory** *waste* lime and potato scab [Streptomyces scabies]. 122800
Time-motion studies focus on **feedlot** *waste* efficiency. 125424
Waste **gas** cleaning in smoking plants [Air pollution]. 125428
[Cotton] **gin** *trash* holds huge energy potential [Waste disposal]. 117088
Discharge of **hazardous** *wastes* into public swereage systems. 125434
How *waste* lime is helping to transform colliery tips into productive grassland. 124962
Waste **injection** into the Hawaiian Ghyben-Herzberg aquifer: a laboratory study using a sand-packed hydraulic model. 125568
Composition properties and suitability of *waste* **lands** from the Baidakovskii coal mine for recultivation. 125091
Protein utilization of mixed feed rations by lactating pigs, with special reference to the content of essential amino acids in the dietary protein. 2. Studies on the utilization of dietary protein in rations containing extracted soyabean meal, horse bean meal, fish meal, maize gluten and *waste* **liq.** 117990
Effluent control—demonstrated on the profile of a river [Effluent **mill** *wastes,* Austria]. 125537
The rotating aeration (system Fuchs) for treatment of liquid animal and **municipal** *wastes.* 3. Hygienic investigations during rotating aeration of slurry from cattle. 125393
The rotation aeration (system Fuchs) for treatment of liquid animal and **municipal** *wastes.* 4. Hygienic investigations during rotating aeration of sewage sludge. 125394
Uptake of plutonium and other **nuclear** *wastes* by plankton [Includes algae]. 121270
Modified activated sludge process for treatment of nitrogendeficient **organic** *wastes.* 125512
Mango **peel** *waste* as a source of pectin [Physico-chemical properties]. 117236
The battle begins meal quality, **plate** *waste,* fast food, the bloc grant. 116607
Liquid diets containing **poultry** *wastes* for ruminants. 118030
Layers improve with DPW [Dried **poultry** *waste,* feed ingredient]. 118146
Seasonal density, distribution and interactions of predatory and scavenger arthropods in accumulating **poultry** *wastes* in coastal and interior southern California [Livestock pests, biological control]. 123623
Legal protection of subsurface waters and the **problem** of *wastes.* 125571
Red crab **processing** *waste* as a carotenoid source for rainbow trout. 125375
The spread of salmonellae by waste waters and *waste* **products.** 116144
Utilization of [school food services] *waste* **products** [as compost]. 125035
Use of edgers in **reducing** *waste* and speeding mill flow [Lumber]. 119705
Refeeding *wastes* to beef cattle. 117324
Activated sludge—**sludge** *wasting* calculations. 125433
Operating experience with a high-purity—oxygen activated **sludge** *waste* treatment system [Pulp and paper mills]. 125565
Lake treatment with fly ash, lime, and gypsum **[Solid** *waste* disposal]. 125509
A **solid** *waste* plan for southeastern Oklahoma. 125561
Briquetting [wood] *waste* for **steam** and sale. 119686
Are test markets a *waste* of **time** and money? 115606
Study concerning disinfection and hygienic treatment of **urban** *wastes* by pit composing as well as conclusions about the standardization of control methods. 125086
Active carbon from coconut shell *[Waste* **utilization].** 117274
Protein and other compositional analyses of Saccharomyces fragilis [yeasts] grown on coconut **water** *waste.* 116773
Studies of the utilization of coconut **water** *waste* for the production of the food yeast Sacharomyces fragilis. 116774
Waste **water** for crop production [Irrigation]. 125367
Microbiological pollution of Munich: phytoplankton under the influence of *waste* **water;** investigations in the Amper River, near Dachau. 125527
The spread of salmonellae by *waste* **waters** and waste products. 116144

WASTEWATERS *see* **WATER**

WATER
Physiological effects of sublethal levels of **acid** *water* on fish [River polution with coal mine drainage, toxicity]. 125401
Mobility of *water* and the **activity** of adenosinetriphosphatase in the tillering node of winter wheat. 121496
Volatility, in an aqueous medium, of DDT retained on homoionic vermiculite *[Water* and **air** pollution]. 123685
Remote reconnaissance of *water* and **air** pollution in the European area of concentrated population by means of environmental research satellites. 125533
Alkaline *water* can cause pesticide failures. 123691
Elimination of p,p-DDT, p,p-dichlorodipenyldichloroethylene, p,p-tetrachlorodiphenylethane and gamma-bezene hexachloride from *water* with **aluminum** sulfate coagulation. 125370
Studies of **applying** *wastewater* discharged from the potato starch factories to arable land. 1. The influence of spray irrigation of wastewater in grassland on grasses and soil properties. 125546
Automatic *watering* in a sow house. 117514
Development of chemical characteristics of soils in protected cultures. Their fertilization as a function of *water* **availability.** 124768
Water **availability** to some arctic ecosystems. 125326
Sudden alterations in *water* **balance** associated with flower bud opening in coffee plants [Coffee arabica]. 121190
Peculiarities of the *water-thermal* **balance** of Vasyugan'ye and ways of transforming the nature of the areas of oligotrophic swamping [Drainage, afforestation]. 125232
Water **balance** of a system of two-way regulation of water regime of soils in a monsoon climate. 125238
Estimation of evapotranspiration for *water* **balance** studies in a semi-arid region. 125293
Longitudinal movement and loss of solutes and *water* in **barley** roots. 121419
Rearing of swamp **beavers** with or without *water?* 117421
Seasonal patterns in abundance of *water* **beetles** belonging to the Hydrophiloidea (Coleoptera). 123919
The variability of the net radiation ratio [for estimating evaporation from **bodies** of *water].* 125325
Quality hazards to **brewery** *water* supplies. 125190
Study of correlation dependences of the ionic composition and indices of the quality of irrigation and **carrier-drain** *water* (1971—1972). 125235
Use of herbicides, fungicides and insecticides in forestry with special regard to the special importance of *water* **catchment** areas of dams. 123706
Protein and other compositional analyses of Saccharomyces fragilis [yeasts] grown on **coconut** *water* waste. 116773
Studies of the utilization of **coconut** *water* waste for the production of the food yeast Sacharomyces fragilis. 116774
Importance of the new drinking water ordinance for the surveillance of **commercial** *water* supply in the food industry. 116056
Water-soluble **components** of four fuel oils: chemical characterization and effects on growth of microalgae. 121269
Distribution and ecological significance of vitamin B12 and thiamin in three lakes *[Water* **composition].** 125180
Dewpoint temperature, production of *water* of **condensation** and determination of dewpoint [Foods]. 116729
Interval of changes of the hydrophysical properties of soil and underlying layer under *water* **condition** effected by twoway regulation (1972-1973) [Irrigation, drainage]. 125229
Water **conditions** in California, basic data supplement. 125191
Water-energy **conflicts** in Montana's Yellowstone River Basin. 125366
Influence of different initial and final protein levels on productive and reproductive activities of turkeys. I. Weight, growth, conformation, feed and *water* **consumption.** 117976
Effect of fertilizers and irrigation on the water and nutrient condition of soil, *water* **consumption** and productivity of sugarbeets in Bashkiria. 124924
Efficiency of *water* **consumption** by various plants and its application to valorization of irrigation. 125193
Sporicidal properties of chlorine compounds: applicability to **cooling** *water* for canned foods. 116205
Maintenance of *water* **courses** with a high degree of efficiency [East Germany]. 125307
Automatic categorization of *land-water* **cover** types of the Green Swamp, Florida, using Skylab multispectral scanner (S-192) data [Remote sensing]. 125255
Treatment of *wastewaters* of the **dairy** industry. 125529
Factors contributing to *waterlogging* **damage** in cereals. 122893
Importance of areas used for forestry for protecting drinking water dams and maintenance of quality of **dammed** up *waters.* 119304
Information flow of land- and *water-related* **data** in the state of Wisconsin [Remote sensing]. 115251
Seasonal use of *water* by **date** palms in Coachella Valley, southeastern California. 121785
Calculation of plant transpiration and productivity in the conditions of *water* **deficit** on the basis of a mathematical model. 121350
Water **deficits** in timberline trees [Eucalyptus pauciflora] in the snowy mountains of southeastern Australia. 121822
Ethanol-water **delignification** of wood—rate constants and activation energy [Pulping]. 119815
Remote sensing inputs to *water* **demand** modeling. 125272
Water **demand** studies in central California. 125300
A study on the changes of the blood electrolyte of camel (Camelus dromedarius) during *water* **deprivation.** 117741
They help **determine** *water* quality—aquatic invertebrates. 125536
Marine organisms around outfall pipes in Santa Monica Bay *[Wastewater* **discharge,** includes algae]. 125510
Activities of the South Transdanuvia **District** *Water* Authority during the fourth five-year plan period. 125358
Activities of the Trans-Tisza **District** *Water* Authority during the fourth five-year plan period. 125359
Drinking *water* ordinance [Legislation]. 115976
Importance of the new **drinking** *water* ordinance for the surveillance of commercial water supply in the food industry. 116056
Contribution to the investigation into the migration into liquid foodstuffs of auxiliary substances used in plastics manufacturing and processing. II. Migration of auxiliary substances of polyvinyl chloride into **drinking** *water.* 116073
Drinking *water* and industrial water supplies in food factories. 116730
Effect of furazolidone in feed on immune response of turkeys vaccinated with live Pasteurella multocida in **drinking** *water.* 118626
The influence of a chloramphenicol treatment of laying hens in batteries to air borne staphylocci in **drinking** *water* [Swine]. 118664
Importance of areas used for forestry for protecting **drinking** *water* dams and maintenance of quality of dammed up waters. 119304
Plan and management of forest stands in catchment areas of **drinking** *water* dams from the view of forestry. 119441
Notes on principles of forest management covering the catchment areas of **drinking** *water* storage reservoirs. 119514
Effects of the use of pesticides in **drinking** *water* dam catchment areas on the quality of surface waters. 123703
A study of the comparative values of coliform and faecal streptococci as presumptive pollution indicator in rural **drinking** *water.* 125479
Bacteriocenotic studies on a weakly **dystrophic** *waters* [Aquatic plant communities, Austria]. 121355
Science and the problems of *water* **economy** in Poland [including agricultural uses]. 125317
Scientific problems of *water* **economy** [in Poland]. 125318
The participation of technical sciences in solving the problems of the *water* **economy** in Poland; [a joint meeting including representatives of the Ministry of Agriculture] (Cracow, October 13-14, 1975). 125319
Effects of windbreaks on the microclimate, energy balance and *water* use **efficiency** of crops growing on the Great Plains. 119381
Contamination of *water* of **electric** boilers with lead. 116189
From the beginning of **European** *water* resource protection. 5 [Pollution]. 125425

The beginnings of **European** *water* protection [Pollution, Switzerland]. 125426
Effect of *water-soluble* **excretions** from litter fall of woody plants on te germination of seeds. 120964
Forecasts of *water* **expenditure** [during floods] on the basis of recording runnoff distribution and its lag in the river network (1971-1972). 125227
An evaporation equation for an open body of *water* **exposed** to the atmosphere. 125363
Some thoughts on *water* & **feed** in poultry. 118143
The effect of plant population and nitrogen on corn yield in a *well-watered* **field.** 122136
Analysis and GC-MS characterization of toxaphene [pesticide] in **fish** and *water.* 123707
Analysis and GC-MS characterization of toxaphene [insecticide] in **fish** and *water.* 123708
Laboratory culture of *water* **fleas** [Daphina pulex]. 124075
Sealing processes in *water* **floors.** 125209
Influences on the carbon dioxide balance of submersed higher aquatic plants in **flowing** *water* by noxious substances contained in water [Potamogeton pectinatus, Amblystegium riparium]. 120850
Criteria for evaluating **flowing** *water* pollution: comparative examination of the mycological, bacteriological and chemical parameters of the Ticino River in the municipal territory of Pavia. 125482
Description of an infrared irradiation of quartz glass for the determination of mercury in *water* and **food.** 116074
Electrocoagulation clarifies **food** *wastewater.* 125409
On the function of silica held in *water* and **foods:** the brown rice. 117190
Analytical studies of pyrethrin [insecticide] formulations by **gas** chromatography. II. Isolation of the pyrethrins from *water-based* **formulations.** 123755
Characteristic of *water-soluble* **fraction** of proteins from organs of plants infested by root-knot nematodes [Vegetable and melon crops]. 123001
Biological and chemical succession in Nahal Soreq: a **freeflowing** *wastewater* stream. 125494
Studies of applying wastewater discharged from the potato starch factories to arable land. 1. The influence of spray irrigation of *wastewater* in **grassland** on grasses and soil properties. 125546
Effects of *waterlogging* on the **growth** of peas [Chlorosis, reduction of yield]. 122892
On the components of pileus and stipe of dried shiitake [mushrooms] (Lentinus edodes (Berk.) Sing): chemical components and **hot** *water* soluble polysaccharides. 117297
An overview: so you want to recycle your *wastewater?* **How** should you begin? Is it feasible? 125476
Stimulatory action of Azotobacter chroococcum from *water* **hyacinth** (Eichhornia crassipes Mort Solms) on germination of seeds of rye (Secale cereale). 121568
Water **hyacinths** [Eichhornia crassipes] for removal of phenols from polluted waters. 125382
Improved *water* economy in the production of cultured-cream butter. 1. Technological possibilities. 116863
Improved *water* economy in the production of cultured-cream butter. 2. Chemical and bacteriological analysis. 116864
Drinking water and **industrial** *water* supplies in food factories. 116730
Views on the present situation of the **"industrial** *wastewater"* problem area. 125475
Influence of fabric construction and treatment on the reaction of cotton, half-linen and pure-linen fabrics, as well as polyester and linen mixed fabrics, to the effect of *water.* I. **Influence** on absorptive capacity. 117193
Seasonal snow accumulation, melt and *water* **input**—a New England model. 115179
Neuroanatomy of food and *water* **intake.** 116367
Effect of partial amelioration of heat stress on feed and *water* **intake** and some blood constituents in buffalo bulls. 117745
Historical review of the **International** *Water-Resources* Program of the U.s. Geological Survey 1940-70. 125340
Use of remote sensing to **investigate** *water* and other resource allocations [land use] in southern California. 125299
Water use by **irrigated** cotton in the Sudan. IV. Water use potential evaporation and yield. 125304
Distribution of residual DDT anounts in organs and tissues of fish in the **Kiev** *water* reservoir. 123761
Evaporation rate, **leaf** *water* potential and stomatal conductance in Lolium, Trifolium [clover] and Lysimachia in drying soil. 121518
Effect of plant water deficits of various growth stages on growth, grain yield and **leaf** *water* potential of irrigated grain sorghum [Drought tolerance]. 122059
Experience of analysing the *[water]* **level** of lakes in the Latvian SSR in relation to their economic utilizaton (1972-1973). 125225
Effects of *wastewaters* on a **like** ecosystem. 125379
Kinetics of absorption of **liquid** *water* by paddy grains durin g parboiling [Rice]. 117112
Effect of ponds on the runoff, their conservation and effective utilization [for irrigation and for **livestock** *watering].* 125222
Kidney development in newborn lambs: response to *water* **load** and antidiuretic hormone (ADH). 117941
Multi-criterion ranking of alternative **long-range** *water* resource systems. 125365
Water **management:** an autonomous instrument of planning? 125250
Water **management:** a note on the resource situation in West Bengal. 125251
Socio-economic aspect of *water* **management** activities in California. 125298
No need for drought *[Water* **management].** 125320
Surface modifications for *water* **management** and salinity control in a nonirrigated area. 125356
Methods of sampling aquatic beetles in the transitional habitats at *water* **margins.** 123918
An improved spectrophotometer for *soil-water* **measurement.** 124776
Possible uses of potato-tuber water as a substitute for **meat** *water* [Utilization of wastewater]. 125404
Washing of trimethylamine by the *water* of the **melting** ice used for preserving sea bob shrinp (Xiphopeneus kroyeri) [Food freshness test]. 116052
Effect of different planes of nutrition on *water* **metabolism** in dry Zebu cows. 118077
Interactions between *water* and **mineral** nutrition of the plant. 120886
Optical vs. Electronic enhancement of remote sensing imagery [for information as to the amount and condition of such earth resources as timber, forage, soils, *water,* **minerals** and agricultural crops. 125487
Analysis of quantitative and qualitative study of the condition of *water* in the **mitochondria** [of winter wheat]. 121492
Methodology of determining the content and state of *water* in the **mitochondria** of wintering plants [Winter wheat]. 121495
Changes of nitrogen and phosphorus content during waterfall destruction in standing **model** *waters.* 125199
Water-management **model** in Florida from LANDSAT-1 data [Remote sensing]. 125286
LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia State Water Control Board. II. **Monitoring** *water* quality from LANDSAT [Remote sensing]. 125264
The application and uses of Terrazole soil fungicide [Pythium, Phytophthora, *water* **moulds,** control, New Zealand]. 122594
Research and survey for the **National** *Water* and Soil Conservation Organization. 125315
Recent progress in the analysis of gums and **natural** *water* soluble plant colloids. II. Carob [Ceratonia siliqua] flour. 116649
A theoretical analysis of the contribution of algal cells to the attenuation of light within **natural** *waters.* III. Cylindrical and spheroidal cells. 121303
Effects of selected ions on the removal of chrome (III) hydroxide [in **natural** *waters,* chromium]. 125506
Allocation planning and quality control of *water* in **New** Zealand. 125313
The relative movement of *water* and **nitrate** through soil and chalk. 124773
Annual report of field investigations of *water* and **nitrogen** movement in Yolo Soil—Rann GI-34733X. 124864
Phytoplankton response to *wastewater* **nutrient** enrichment in continuous culture [Dunaliella tertiolecta, Phaeodactylum tricornutum, Thalassiosira pseudonana, Algae]. 121183
High, stable fodder yields of maize by assuring its *water* and **nutrient** requirements. 121923
Effect of fertilizers and irrigation on the *water* and **nutrient** condition of soil, water consumption and productivity of sugarbeets in Bashkiria. 124924
Development of an optimal scheme of a rotational utilization of *water* in the **Old-Terek** Irrigation System (1972-1973). 125220
Operational *water* management applications of snowcovered area observations [Remote sensing]. 125265
Safety programs in *wastewater* **operations.** 125435
Investigations concerning the purification of *wastewaters* in **oxidation** ponds. 125371
The flora and aquatic vegetation of the southern and **Pallanza** *waters* of lake Maggiore. I. Preliminary observations. 120182
Apollo County **Park** *wastewater* reclamation project. 125539
The role of parasites in natural ecosystem *[Water,* **pasture,** livestock transmission]. 118923
Water **permeability** of frozen soils after different methods of main tillage. 124900
Methods of studying the condition of *water* in a **plant** and the interpretation of the obtained data. 121111
Effect of **plant** *water* deficits of various growth stages on growth, grain yield and leaf water potential of irrigated grain sorghum [Drought tolerance]. 122059
Performance of yam (Dioscorea spp.) setts **planted** without *water.* 122388
The Adige and Po rivers: chemical analysis and various investigations of the *water* in **Polesine** in 1974. 125296
UK [United Kingdom] *water* **policy** and public scrutiny. 125321
On the purification of organically **polluted** *wastewaters* in the Warnitz stabilization pond system. 125372
Water hyacinths [Eichhornia crassipes] for removal of phenols from **polluted** *waters.* 125382
Changes in paramagnetic properties of Chlorella [vulgaris, Algae] under the effect of toxic chemical compounds [Detergents, *water* **pollution** tests]. 122924
Nitrate-nitrogen in tile drainage effluents [Denitrification, *water* **pollution].** 124873
The effects of various components of *water* **pollution** on the behaviour of some aquatic macrophytes of the coastal rivers of Israel [Possible use as toxicity indicator plants]. 125381
Advances in testing the toxicity of substances to fish *[Water* **pollution].** 125405
Review of control of *water* **pollution** from cropland. I. A manual for guideline development. 125408
Integral quantitative methods of biological determination of *water* **pollution** in the conditions of a large oligotrophic reservoir. 125412
Mussel-test for biological control of *water* **pollution.** 125431
WPCF *[Water* **Pollution** Control Federation] and the operator. 125436
WPFC's *[Water* **Pollution** Control Federation] efforts to learn about and improve safety. 125437
Occurrence of natural radionuclides in *water* **[Pollution].** 125453
Anticipations of the effects of the floodwaters of the Olona and Ticino rivers. 2. *[Water* **pollution].** 125480
Anticipations of the effects of the floodwaters of the Olono and Ticino rivers *[Water* **pollution].** 125481
Water **pollution** in the Greve River basin. 125483
Perception of *water* **pollution** in a rural area: a cognitive dissonance approach. 125489
Chemical threat to Lake Nakuru *[Water* **pollution].** 125534
Slime and odor elimination in process water of the paper industry [Air and *water* **pollution].** 125538
A note on the use of economic incentives in *water* **pollution** abatement. 125573
Dispersion of pollutants in the Strait of Canso *[Water* **pollution].** 125574
A test of alternatives for meeting public **potable** *water* requirements. 125361
Influences on the carbon dioxide balance of submersed higher aquatic plants in flowing water by noxious substances contained in *water* **[Potamogeton** pectinatus, Amblystegium riparium]. 120850
Possible uses of **potato-tuber** *water* as a substitute for meat water [Utilization of wastewater]. 125404
Water **potential** and leaf elongation in radiata pine [Pinus radiata] and wheat. 121826
Water use by irrigated cotton in the Sudan. IV. *Water* use **potential** evaporation and yield. 125304
Watering **potted** plants [Equipment]. 124680
Surveillance and control of phenolic tastes and odors in *water* to **prevent** their effects on taste and flavor of foods. 116639
Water **problems** and research needs for Hawaii: 1975. 125353
Wastewater **problems** in beverage filling areas. 125397
Slime and odor elimination in **process** *water* of the paper industry [Air and water pollution]. 125538
Consumption of *water* by, and the **productivity** of, sugarbeets in a crop rotation [under irrigation]. 125242
Experiences of a water supply enterprise with the operation and use of a *water* **protection** forest. 125202
Importance of *water* **protection** for the permanence of our ecosphere. 125290
Mathematical model for self purification as an instrument of *water* **protection.** 125291
Operating experience with an advanced color removal system *[Wastewater* from **pulp** and paper mills]. 125566
Water **quality** and plant growth [Injuries due to contamination with pesticides and excess salts]. 122922
Is there a relationship between aquatic herbicides and *water* **quality?** [Residues, pollution]. 123748
Fertilization of forest areas and its effect on *water* **quality** of surface runoff waters and water sources. 124977
Leaching and *water* **quality** on service life of Copper-treated [jute] burlap. 125000
Land reclamation, *water* **quality** control, and environmental concern at Centralia (Washington) coal mine. 125124
Model farm ponds with automated monitoring of *water* **quality.** 125183
Hydrochemical balance of a British Columbia mountainous watershed *[Water* **quality].** 125195
The *water* **quality** aspects of water transfers. 125198
A *water* **quality** optimization model for nonserial river systems. 125240
Cases in the relation of research on remote sensing to decisionmakers in a state agency *[Water* **quality,** land use]. 125256
LANDSAT-1 data as it has been applied for land use and *water* **quality** data by the Virginia State Water Control Board. I. The state project [Remote sensing]. 125263
LANDSAT-1 data as it has been applied for land use and *water* **quality** data by the Virginia State Water Control Board. II. Monitoring water quality from LANDSAT [Remote sensing]. 125264
Quantitative suspended sediment mapping using aircraft remotely sensed multispectral data *[Water* **quality** and movement]. 125266
The use of LANDSAT-1 imagery for *water* **quality** studies in southern Scandinavia [Remote sensing]. 125278
Utilization of Landsat data for *water* **quality** [Remote sensing] surveys in the Choptank River. 125283
Multivariate and sequential statistical procedures in the biological assessment of *water* **quality.** 125333
Extensive overburden potentials for soil and *water* **quality** [Coal mining, environmental contamination prevention]. 125416

The national commission on *water* **quality** study of the impacts of Public Law 92-500 on industry [Pollution control]. 125478
Environmental impact of stream channelization [Floods, hurricanes, *water* **quality].** 125575
Quantitative *water* quality with LANDSAT and Skylab [Remote sensing, reservoirs]. 125267
Overland flow treatment of **raw** *wastewater* with enhanced phosphorus removal. 125421
Water balance of a system of two-way regulation of *water* **regime** of soils in a monsoon climate. 125238
New evaluation of *water* **repellency** of wood by contact angle. 119842
Influence of forest soils on the *water* **requirements** (amount and quality) from forested catchment areas of dams. 119305
Systems approach to *water* **resource** planning. 125294
Political resolution of environmental conflicts *[Water* **resources** management problems]. 116010

Cooling short cylinders in air using as a *water* **spray** [in the food processing industry]. 116839
A *water* **sprinkler** for arbitrarily shaped areas. 124733
Role of *water* **staggers** imagination, and it's deserving of attention. 125309
Aeration used for keping **stagnant** *waters* healthy: a survey of literature. 125178
LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia **State** *Water* Control Board. I. The state project [Remote sensing]. 125263
LANDSAT-1 data as it has been applied for land use and water quality data by the Virginia **State** *Water* Control Board. II. Monitoring water quality from LANDSAT [Remote sensing]. 125264
Boreholes [for domestic, **stock** *watering* and irrigation] and how to get them drilled. 125214
The different behaviour of rainfed rice and irrigated rice under *water* **stress** conditions. 1. Study of the factors of adaptation to drought. 121872
Physical characters and availability of *water* in **substrates** [Plants]. 120887
Legal protection of **subsurface** *waters* and the problem of wastes. 125571
Amino acid and fractional composition of protein of the vegetative mass of maize at different levels of mineral nutrition and *water* **supply.** 121575
Influence of ploughing on the root development of different crop plants in Senegal. Consequences on their *water* **supply.** 121868
Experiences of a *water* **supply** enterprise with the operation and use of a water protection forest. 125202
Water **supply** studies by the Davis Campus Group. 125301
Achieving a goal of *water* **supply.** 125349
Effects of the use of pesticides in drinking water dam catchment areas on the quality of **surface** *waters.* 123703
Resources of **surface** *water* in the Novosibirsk Region (1973) [Development of a scheme of reclamation measures]. 125233
Total resources of **surface** *waters* of the river Plonka catchment area [in relation to agricultural needs]. 125335
Quality and quantity of nonpoint pollution sources in rural **surface** *water* runoff on Oahu, Hawaii. 125567
Measurement of electric charge of paper **surfaces** in *water.* 119782
Prognosis of crops irrigation, based on the interrelation between *soil-water-plant-climate* **system** by means of electronic calculator. 125337
Cranberry growth and production in relation to *water* **table** depth. 121699
Banana plant response to *water* **table** levels. 121782
Test *water* loss from [Christmas] trees in storage. 119648
Tactics of host exploitation by a **thermophilic** *water* mite [partnuniella thermalis]. 124078
Change of the chemical composition of soils and *water* during a **time** period as a result of flooding. 125217
Total *water* consumption by barley crops in Pamir. 121490
The water quality aspects of *water* **transfers.** 125198
Eradication of seed-borne organisms from imported vegetable seeds by *hot-water* **treatment** [Fungi, germination test]. 122645
Study of a tertiary treatment of phosphorus removal from the *wastewater* **treatment** plant of Thonon-Evian. 125378
Determination of the supply of **unavailable** *water* in cultivated soils of Pamir. 125252
Sodium carbonate salinization of soils and **underground** *waters.* 124797
Balance of **underground** *water* and dynamics of moisture in the areation zone [in soil] in relation to meteorologic factors (1969-1973). 125216
Development of recommendations for designing and effective operation of irrigation systems on the basis of major irrigated tracts in the Azerbaijan SSR considering regularitiesof changing the regime of **underground** *water* and the hydrogeologic-reclamation situation effected by irrigation (1971-1973). 125221
Methodology of determining the losses of **underground** *water* in evaporation. 125231
Resources of **underground** *water* of increased mineralization on the territory of the USSR, their location, formation and prospects of utilization (1970-1974). 125234
Study of hydrogeologic conditions of the Fairzabad area (Tadzhik SSR) for the purpose of increasing operational supplies of **underground** *water* [for irrigation and drinking]. 125236
Analytical solutions of a simplified flow equation [of *water* in **unsaturated** soils]. 124913
Interactions between land use and **urban** *water* resources planning. 115312
Determination of optimal norms of *water* **usage,** irigation regime and techniques of irrigation following crops in a rice growing crops rotation in the conditions of the lower part of Ili River (1971-1974). 125219
Possible uses of potato-tuber water as a substitute for meat water **[Utilization** of *wastewater].* 125404
Changes in CO2 [carbon dioxide] and *water* **vapour** exchange rates in leaves of Quercus robur infected by Microsphaera alphitoides (powdery mildew). 122702
Possible role in uptake of *water* **vapour** by ixodid tick [Amblyomma americanum] salivary glands. 124049
The spread of salmonellae by **waste** *waters* and waste products. 116144
Waste *water* for crop production [Irrigation]. 125367
Microbiological pollution of Munich: phytoplankton under the influence of **waste** *water;* investigations in the Amper River, near Dachau. 125527
Remote sensing-aided procedures for *water* **yield** estimation. 125297

WATERCRESS

Watercress: **Rorippa** nasturtium-aquaticum (Cruciferae). 122383
Annotated bibliography on *watercress,* 1967-1974. 122452

WATERFOWL

The *waterfowl* **business** [Ducks and geese, economic aspects]. 115218

WATERMELONS

Methodology of obtaining tetraploid forms of *watermelon* for the **creation** of heterotic hybrids. 120707

WATERSHED

Snowmelt runoff efficiencies on **Arizona** *watersheds.* 119409
Factors affecting spring runoff on two **forested** *watersheds.* 125364
Simulating hydrologic behavior on Ouachita Mountain drainages *[Watershed* **management,** computer models, Arkansas]. 119414
Hydrochemical balance of a British Columbia **mountainous** *watershed* [Water quality]. 125195
Hydrologic land use classification of the Patuxent **River** *watershed* using remotely sensed data. 125261
Remote sensing techniques for prediction of *watershed* **runoff.** 125270
Runoff studies on **small** *watersheds.* 125334
Snowmelt runoff from planted conifers in southwestern **Wisconsin** *[Watersheds].* 119415

WATERWEEDS

Don't **waste** *waterweeds.* 123103

WAVELENGTH

Feulgen-DNA plug and **two** *wavelength* cytophotometry of Bull spermatozoa. 118370

WAVES

Effect of *short-wave* **ultraviolet** radiation on growth and development of Gladiolus. 121614

WAX

Genetic modification of the *waxy* **character** in barley aftrer an injection of wild-type exogenous DNA. Analysis of the second seed generation. 120783
Citrus *waxy* scale [Gascardia]: further aspects of extermination using insecticides. 123384
Cuticular *waxes* [of Brassica and sunflower seed] and chromatography. 117178
Chromatogrphic determination of **hydrocarbon** *waxes* in tobacco leaf and smoke. 117069
Wax **secretion** in the infrared sensory pit of Melanophila acuminata (Coleoptera: Buprestidae). 124136

WEANING

Fertilized kikuyugrass [Pennisetum clandestinum] pasture vs sugarcane strippings for **backgrounding** *weaner* calves. 118118
Cow culling on first **calf** *weaning* weight in record of performance tested herds. 117408
The effects of milk feeding on the pre- and post-weaning growth of calves, and on stomach **development** at *weaning.* 118085
Artificial milks and mixtures for **early** *weaning* of lambs. 118162
Selection of [Africander] calves after *weaning* [for **future** breeding stock]. 118187
The effects of milk feeding on the pre- and *post-weaning* **growth** of calves, and on stomach development at weaning. 118085
Effect of anthelminthic residual action in *weaned* **heifers** in the dry season. 118669
The effect of **implanting** *weaner* calves with growth promotants under feedlot conditions [Finishing]. 118120
The performance of Santa Gertrudis, Sahiwal, Brahman and crossbred animals in the intermediate savannahs of Guyana. 2. Birth weight and *preweaning* **performance** [Cattle]. 117760
Utilization of L-methionine sulfoxide, L-methionine sulfone and cysteic acid by the *weaning* **rat.** 116443
Zinc deficiency in the *weanling* **rat:** effects on liver compositon and polysomal profiles. 116444
Effects of *post-weaning* **stress** and feeding management on return to oestrus and reproductive traits during early pregnancy in swine. 117973
Estimated genetic improvement in *weaning* **weight** of beef cattle. 118338
Birth and *weaning* **weights** of Herefords and crosses among the Hereford, Highland, and Angus breeds. 117621

WEAR

Observations on the **flex** *wearing* variations of teat-cup liners in farm usage [Milking machine components]. 124701
Women's *wear* fashioned to fit. 116586

WEATHER

Influence of *weather* on **capture** of adult southern potato wireworm [Conoderus falli] in blacklight traps. 121779
Effects of *weather* **conditions** on dynamics of Helminthosporium-Fusarium root rot on spring wheats in Krasnoyarsk territory. 122653
The seasonal development of mushrooms and its **contributory** *weather* conditions. 121734
Weather **control,** present state and prospects. 115186
Mechanical design of growth-chamber for studying **cool** *weather* **damage** of [rice] crops. 122915
General characterization of *weather* in the **economic** year 1972/73. 115136
Application of the National Weather Service Flash-Flood Program in the Western Region *[Weather* **forecasting,** precipitation]. 125329
How severe the drought? *[Weather* **forecasts].** 115202
Effect of time feeding on performance of laying hens during **hot** *weather.* 118078
Roof insulation and its effect on broiler chicken mortality in **hot** *weather* [Poultry house]. 124653
Present state of knowledge on the possibilities of **influencing** the *weather.* 115185
Application of the **National** *Weather* Service Flash-Flood Program in the Western Region [Weather forecasting, precipitation]. 125329

Embryonic growth and hatchability of eggs of the two-striped grasshopper, Melanoplus bivittatus (Orthoptera: Acrididae), in relation to date of **oviposition** and *weather.* 123857
Growers urged to ask for better *weather* **service.** 115128
Do sunspot cycles affect [field] crop **yields?** *[Weather].* 115112

WEATHERING

Formation of Solonetz and Solod on **ancient** *weathering* crusts. Some general laws of transformation of ancient weathering crusts in the hypergenesis zone in temperate latitudes. 124795

WEB

Contribution to quantitative analytical evaluation of pulp and textile fibers in **fier** *webs* by microscopic methods. 119769

WEBWORMS

Biology of the **grass** *webworm,* Herpetogramma licarsisalis (lepidoptera: Pyraustidae) in Hawaii. 123799
Pine tip moth and **pine** *webworm* [Rhyacionia, Tetralopha robustella] control with carbofuran in north Florida. 123501

WEED

Map drawing of *weeds* in **agricultural** crops in the districts of Timis and Arad (1973-1975). 123174
Fungi in the root region of Parthenium hysterophorus Linn. [an **allergic** *weed].* 122601
Quackgrass [Agropyron repens] and **annual** *weed* control in transplanted blueberries. 123145
Three examples of applied remote sensing of vegetation **[Aquatic** *weeds,* urban planning, plant disease quarantine]. 115159
Bifenox—results of the 1975 experimental permit on small grains and sorghum [Control of **broadleaf** *weeds].* 123116
Effects of bentazon on soybeans following various preemergence or preplanting treatments [for the control of certain **broadleaf** *weeds].* 123125
How can we increase the effectiveness of the North **Central** *Weed* Control Conference, Inc.? 123136
Teaching and training for the future [in the **chemical** *weed* control industries]. 123151
Guide to **chemical** *weed* control. 123182
Weed **competition** in drilled summer cabbage. 123063
The effect of nitrogen on young, newly-planted, apple rootstocks in the presence and absence of grass [and *weed]* **competition.** 123093
Effects of some nutritional factors on *wheat-weeds* **competition.** 123190
The role of the North Central Region in meeting world food needs *[Weed* **control].** 115967
Sugarbeet [Culture, *weed* **control,** diseases, pests]. 122032
Phytosanitary state of stands of field crops in relation to crop rotation and fertilizer application [Disease, pest and *weed* **control].** 122945
Weed **control:** docks [Rumex]. 123051
Weed **control**—ragwort [Senecio jacobaea]. 123052
Weed **control**—thistles [Cirsium arvense]. 123053
Results of trials on wheat (Triticum vulgare, L.) *weed* **control** by recent post-emergence herbicides. 123055
Investigations into the cause of damage to sugarbeet by the soil-applied herbicide lenacil *[Weed* **control].** 123064
Weed **control** in forage crops. 123069
Potential herbicide combinations for *weed* **control** in shade trees. 123072
Biology of the flea beetle, Altica carduorum (Coleoptera: Chrysomelidae) on Canada thistle (Cirsium arvense) in South Daota [used for biological **control** of *weeds].* 123080
Weed **control** in coffee. 123095
New [method of] *weed* **control** of great interest. 123097
New information on *weed* **control** in rape. 123106
New information in the field of *weed* **control** in cereals. 123107
State of *weed* **control** in potato farming. 123109
"Tank mixtures" in *weed* **control** in cereal and maize cultures. 123110
Weed **control** in chicory. 123111
Effects of selected herbicides on yield, *weed* **control** and nutrient content of sweet corn. 123126
Growth, development, and physiology of yellow nutsedge [Cyperus esculentus, *weed* **control].** 123130
Oryzalin preplant surface applied for *weed* **control** in soybeans. 123141
Taxonomy, morphology, anatomy, and composition of yellow nutsedge [Cyperus esculentus, *weed* **control].** 123150
The effect of germination stimulators on wild oat (Avena fatua L.) emergence in the field *[Weed* **control].** 123153
Use of penoxalin herbicide for *weed* **control** in spring grains and potatoes. 123160
Weed **control** in field beans in Nebraska. 123163
Weed **control** in corn across Nebraska in 1975. 123164
Weed **control** systems for no-till soybeans. 123165
Weed **control** with RP-23465 on noncrop sites. 123166
Weeds and their **control** in Wisconsin. 123168
Herbicides for no-tillage corn in alfalfa sod *[Weed* **control].** 123210
Tall morningglory [Ipomoea purpurea] response to planting depth *[Weed* **control].** 123213
Turfgrass tolerance and *weed* **control** with methazole and metribuzin [herbicides]. 123214
Experimental results obtained with the herbicide Dual, associated with Gesaprim and Venzar, in **controlling** *weeds* in maize and beet crops. 123173
Removal of nutrients by *weeds* on a **cotton** field on Takyr soils in the Karshi Steppe. 123059
Coding of *weed* and **crop** names for documentation in crop protection research. 122991
Control of crowfoot [Ranunculus] and annual **dicotyledonous** *weeds* in maize; interprovincial trials, 1973. 123199
Conservation of water by Salvinia [auriculata] sp. [Aquatic **fern** *weeds].* 121128
HOE-23408 for **grassy** *weed* control in small grains. 123134
Johnsongrass [Sorghum **halepense**]—as a *weed.* 123082
Herbicidal *weed* control in maize. 123081
Horticultural *weed* control in Oregon. 123135
The ecology of Chondrilla [an **important** *weed* of wheat crops] in the eastern Mediterranean. 123092
"Velpar"—a new tool for **industrial** *weed* control in the Midwest. 123162
On the subject of damages to vineyards caused by synthetized hormones destined for *weeding* **large** culture crops [Rice]. 123175
Growth differences in a spruce [Picea] plantation with chemical and **mechanical** *weed* control (preliminary report). 123102
The **Minnesota** *weed* law. 123156
Competition by, and chemical control of, **natural** *weed* populations in spring-sown field beans (Vicia faba). 123062
Pre- and postemergence control of [the poisonous **neotropical** *weed]* Parthenium hysterophorus Linn. 123197
Kansas **noxious** *weed* law. 123137
Noxious *weed* control program in Nebraska. 123140
The Federal **Noxious** *Weed* Act [Legislation]. 123155
Forest **nursery** *weed* control results. 123129
Penoxalin *weed* control performance in Midwest soybeans under an EPA [Environmental Protection Agency] permit program. 123142
Biological control for the **pernicious** *weed* Parthenium hysterophorus Linn. 123076
Spraying guide [for control of *weeds,* **pests** and diseases of plants, equipment]. 122983
Prospects of controlling vegetation in new forest **plantations** *[Weeds].* 123144
Postemergence *weeding* of Scorzonera. 123186
Absinth wormwood [Artemisia absinthium]—a **problem** *weed?* 123112
Application aspects of **railroad** *weed* control. 123114
Economic aspects of **railroad** *weed* control. 123124
Yellow starthistle [Centaurea solstitialis]: a major **range** *weed* problem. 123079
Effects of reduced cultivation on soil conditions and root development of cereals: Joint [Tillage] Project with the aRC [Agricultural Research Council] *Weed* **Research** Organization. 125096
Control of 2,4-D [(2,4-dichlorophenoxy) acetic acid] **resistant** *weeds* in small grains with Dowco 290 herbicide. 123078
The effect of depth of burial in soil on the survival of some common **Rhodesian** *weed* seeds. 123189
Weed **science** for agronomic technicians [Training]. 123167
Stock of *weed* **seeds** in the arable layer and ways of decreasing it. 123196
Results of **soybean** *weed* control trials with FMC-25213 and related compounds in the North Central states. 123147
Field competition between tall morningglory [Ipomoea purpurea, *weeds]* and **soybean.** II. Development and distribution of root systems. 123208
Field competition between tall morningglory [Ipomoea purpurea, *weeds]* and **soybean.** I. Growth analysis. 123209
Distribution of Carduus nutans, Carduus acanthoides, Carduus pycnocephalus, and Carduus crispus, in the United **States** *[Weeds].* 123203
Suppressing *weeds* in sorghum. 123100
Railroad *[weed]* **vegetation** control in the Midwest, when and how. 123146
Herbicides for the control of *weeds* in **warm-season** forage grasses. 123132
The role of *weeds* in **world** food production. 115968
Notes on this **year's** *weed* control in Maize [Austria]. 123108
Study of the effect of the time of farrowing and the type of harrows on the *weediness* and **yield** of barley. 122150
Chemical and mechanical maintenance [Control of *weeds* in **young** windbreaks and shelterbelts]. 123184

WEEVILS

Alfalfa and the Egyptian **alfalfa** *weevil* [Hypera brunneipennis] (Coleoptera: Curculionidae). 123295
Effect of field applications of carbofuran on Hypera postica **[Alfalfa** *weevil]* (Coleoptera: Curculionidae) and its parasitoids. 123296
Alfalfa *weevil* [Hypera postica] research [Bathyplectes curculionis, biological control]. 123354
Neohydronomus pulchelus, a *weevil* **attacking** Pistia stratiotes in South America: biology and host specificity. 123222
Studies on the resistnace of hazelnut [Corylus] *weevil* **(Balanicus** nucum L.) to carbaryl and methiocarb. 123378
Effects of gamma- and X-ray irradiation on different developmental stages of the **bean** *weevil* (Acanthoscelides obtectus Say. (Coleoptera: Bruchidae). 123438
New chemosterilants for **boll** *weevils* [Anthonomus grandis, cotton]. 123288
Quality control assessments of male sterility during the 1972 and 1973 pilot **boll** *weevil* [Anthonomus grandis] eradication experiment [Cotton]. 123355
A **cone** *weevil,* Conotrachelus neomexicanus, on ponderosa pine [Pinus ponderosa] in Colorado: life history, habits, and ecological relationships (Coleoptera: Curculionidae). 123451
Grain *weevils* [Sitophilus granarius]. 123503
An energy budget for the **granary** *weevil,* Sitophilus granarius (L.). 123521
Comparative effects of dietary methoprene on symbiotic and aposymbiotic rice weevils and asymbiotic **granary** *weevils* [Sitophilus oryzae, Sitophilus granarius]. 124036
Cage trial against green shield bug (Palomena prasina L.), which causes damage to the hazelnut [Corylus] in the east Black Sea region, using chemicals effective in the controlof the **hazelnut** *weevil* [Balanius nucum]. 123376
Morphology of *weevil* **larvae** (Coleoptera, Curculionidae) and ecological ways of their adaptation to living in wood. 123929
Comparative effects of dietary methoprene on symbiotic and aposymbiotic **rice** *weevils* and asymbiotic granary weevils [Sitophilus oryzae, Sitophilus granarius]. 124036
Relative toxicity of some new insecticides against *rice-weevil* **Sitophilus** oryzae Linn. (Curculionidae: Coleoptera). 123292
Seed-applied insecticides for rice **water** *weevil* [Lissorhoptrus oryzophilus] control. 123348

WEIGHT

Measurement of **basis** *weight* and moisture on a tissue machine [Paper properties and processing]. 119783
Soviets double their **beef** *weights* with American-style lots. 117424
The performance of Santa Gertrudis, Sahiwal, Brahman and crossbred animals in the intermediate savannahs of Guyana. 2. **Birth** *weight* and preweaning performance [Cattle]. 117760
Mortality of lambs on the first month of life. I. Mortality and **birth** *weight.* 118213
Insulin and the set-point regulation of **body** *weight.* 116363
Neural and hormonal determinants of sex differences in food intake and **body** *weight* [Rats]. 116365
Situational determinants of the **body** *weights* defended by normal rats with hypothalamic lesions. 116376
The role of the lateral hypothalamus in determining the **body** *weight* set point [in control animals]. 116384
Body *weight* as a health index: a minicourse in nutrition. 116446
Energy exchanges of veal calves in relation to **body** *weight,* food intake and air temperature. 117560
The effect of compensatory growth in sheep on empty **body** *weight,* carcass weight and the weights of some offals. 117758
Effect of caging variables on **body** *weight* and weight gain in mice. 117844
Concentrations of fat and plasma 5 alpha-androstenone and plasma testosterone in boars selected for rate of **body** *weight* gain and thickness of back fat during growth, sexual maturation and after mating. 118347
Sugar maple [Acer saccharum]: tree and **bole** *weights,* volumes, centers of gravity, and logging residue. 119835
Processing: *weight* of **broilers** and how the packages hold up. 117039
Studies on the performance of alfalfa swards. V. Relationships between top *weight* and **carbohydrate** root reserves of individual plants under sward conditions. 122061
The effect of compensatory growth in sheep on empty body weight, **carcass** *weight* and the weights of some offals. 117758
Weight **change,** body condition and beef cow reproduction. 118295
Some hemato-chemical constnats of pigs of **diverse** *weight* and age. 117629
Routine methods of examining meat and meat products. 11. Determination of **drained** *weight* of canned cooked meats containing jelly and of meat brawns. Determination of free fat, pure gelatine and jelly contents. 116133
Changes in loblolly pine [Pinus taeda] seedling **dry** *weight* and top to root ration between October and March. 121821
Influence of light intensity on layers **[Egg** *weight].* 117918
Effects of salt solution treatment and low temperature storage on the elongation, *weight,* **fiber** and lignin contents of post-harvested green asparagus spears. 117285
Six months Friesian calf production. II. Correlations among some plasma components and *weight* **gain,** carcass and fatty acids composition. 117563
Effect of caging variables on body weight and *weight* **gain** in mice. 117844
Effect of pre- and postweaning anthelmintic drenching on *live-weight* **gain** and wool weight in Romney ewe hoggets. 118850
Interrelations of seed color, *weight,* **germination** and origin in alsike, red and white clovers. 121546
Influence of different initial and final protein levels on productive and reproductive activities of turkeys. I. *Weight,* **growth,** conformation, feed and water consumption. 117976

Further results on genetic and environmental components of **heart** *weight* variations in swine. 118218
Plan now for impending changes in United **Kingdom** *weights* and measures legislation [Dairy industry]. 115714
Cellular patterns of postmortem glycogenolysis in longissimus dorsi muscles of pigs at different **live** *weights.* 117006
Changes in **live** *weight* and body condition of rams of three breeds throughout the year [Scottish Blackface, North Country Cheviot and South Country Cheviot]. 117559
Growth of the parts of the alimentary tract of the rat, and the small intestine of the sheep, relative to growth in **live** *weight.* 117579
Weight **loss** in refrigerated storage of broilers. 117040
Notes on **molecular** *weights* of aroma compounds. 116801
Mycological production of citric acid in India. V. Effect of some low **molecular** *weight* alcohols [Aspergillus niger, Fungi]. 116832
Distribution of **molecular** *weight* of lignosulphonic acids in sulphate cooking of lignin. 119732
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. I. Kinetic analysis by labelling of high **molecular** *weight* rRNA species. 120932
Maturation of ribosomes in yeast [Saccharomyces carlsbergensis]. II. Position of the low **molecular** *weight* rRNA species in the maturation process. 120933
Presence of polyphosphate of low **molecular** *weight* in Zygomycetes [Fungi]. 121163
Small **molecular** *weight* DNA of the silkworm, Bombyx mori. 124536
Underweight of **nursed** piglets, causes and importance. 119182
The effect of compensatory growth in sheep on empty body weight, carcass weight and the *weights* of some **offals.** 117758
Inheritance of some characters in crosses between inbred lines of Bombyx mori L. for commercial feeds during summer and autumn months. I. Cocoon, shell and **pupal** *weights.* 124530
Ineffectiveness of human chorionic gonadotropin in *weight* **reduction:** a double-blind study [Obesity]. 116284
Weight **regulation** in hamsters and rats: differences in the effects of exercise and neonatal nutrition. 116386
Effects of ration energy and **slaughter** *weight* on composition of empty body and carcass gain of beef cattle. 118090
Influence of **slaughtering** *weight* on carcass characteristics of F1 crossbred young bulls obtained by Friesian and Brown Alpine dams sired by Red Pied, Piemontese, Romagnola, Chianina and Marchigiana bulls. 118397
The effect of neonatal diarrhea on **subsequent** *weight* gains in beef calves. 119059
Carcass traits of lambs produced by crossbred dams of Finnsheep, Dorset and Rambouillet breeding and slaughtered at **two** *weights.* 117016
Effect of different methods of main soil tillage on the alteration of its **volumetric** *weight* and the yield of farm crops [Wheat, sugarbeets]. 125157
Cow culling on first calf **weaning** *weight* in record of performance tested herds. 117408
Birth and **weaning** *weights* of Herefords and crosses among the Hereford, Highland, and Angus breeds. 117621
Estimated genetic improvement in **weaning** *weight* of beef cattle. 118338
Effect of pre- and postweaning anthelmintic drenching on live-weight gain and **wool** *weight* in Romney ewe hoggets. 118850
Effect on liveweight gain and **wool** *weights* of anthelmintic and selenium drenching of mountain country Merino and halfbred ewe hoggets. 118851

WELFARE

According to Pardo Buelvas, the *welfare* of the **urban** population cannot be constructed on the accumulated impoverishment of the peasant classes [Economic aspects, programs, Colombia]. 115983

WELLS

Strenghthening of systemic approach in the conditions of *well-developed* **agrarian-industrial** relations. 115278
Disinfection and hygiene in food processing and their supervision as *well* as an **arrangement** of hygiene plans. 116020
Study concerning disinfection and hygienic treatment of urban wastes by pit composing as *well* as **conclusions** about the standardization of control methods. 125086
Performance variation and heritability of milk performance traits in cattle and their correlations as *well* as with other **economically** important characters. 118265
The effect of plant population and nitrogen on corn yield in a *well-watered* **field.** 122136
Quality of grain and malt from the main and lateral stems as *well* as from different **parts** of the barley spike. 121566
Influence of fabric construction and treatment on the reaction of cotton, half-linen and pure-linen fabrics, as *well* as **polyester** and linen mixed fabrics, to the effect of water. I. Influence on absorptive capacity. 117193
Cotton producers continue to survive labor situation **quite** *well.* 115333
Studies on amino acid transport by the intestine of the stick insect, Carausius morosus Br. I. Locality, temporal course and general characterization of the amino acid transport as *well* as **ultrastructure** of the midgut epithelium. 124190

WELWITSCHIA

Environmental control of crassulacean acid metabolism in *Welwitschia* **mirabilis** Hook. Fil. in its range of natural distribution in the Namib desert. 120387

WESTERN

Thysanura of Portugal. II. Machilis sacarroi and Machilis fernandesi, two new species of the *central-western* **area** of Portugal. 124245
Distribution of woody Rosaceae in *western* **Asia.** XV. Cerasus prostrata (Lab.) Ser. [In southwestern Asia and the Mediterranean area]. 119939
The wildflower industry in *Western* **Australia** [Forest produce]. 119634
Eremophila ramiflora (Myoporaceae), a new species from *Western* **Australia.** 120137
The changing ecology of *Western* **Australian** wheat production. 122025
Throughflow as a mechanism responsible for excessive soil salinisation in non-irrigated, previously arable lands in the *Western* **Australian** wheatbelt: a field study. 124791
Peanuts in altitude zones of *western* **Cameroon.** 121869
Seligeria careyana, a new species from the Queen Charlotte Islands, *Western* **Canada** [Musci]. 119989
Ceratozetes kananaskis (Acari: Cryptostigmata: Ceratozetidae): a new mite species from *western* **Canada** [Forest zoology]. 124273
Fiber in bread *[Western* **diets].** 116270
Fertiliser handling on the farm in *Western* **Europe,** the United States, Iran and Tunisia. 125046
Overwintering of brinjal [eggplant] shoot and fruit borer, Leucinodes orbonalis Guen. (Lepidoptera, Pyralidae) in Kulu Valley, *western* **Himalaya,** India. 123372
The late-Quaternary vegetational history of the *western* **interior** of Canada [Paleobotany]. 120001
The vegetation of the *western* **Julian** Prealps; illustrative notes to the forest vegetation maps of the Chiampon-Cuel di Lanis section. 119430
Biogeochemical limitations on *western* **[land]** reclamation. The high northern Great Plains example [Soils]. 125120
Distribution of some notable plants and animals of *western* **Maryland.** 119852
Effect of a livestock wintering operation on a *western* **mountain** stream [Pollution]. 125570
The genus Coprinus in *western* **North** America, I. Section Coprinus [Fungi, new taxa]. 120220
Regional site factors and revegetation studies in *western* **North** Dakota. 125129
Some Coleoptera from the outer part of Sogn and Fjordane, *western* **Norway.** 124378
Species composition of Oribatei (Acari) on oceanic mountain ground in *western* **Norway.** 124379
The *western* **Palaearctic** Ichneumonidae (Hymenoptera) of British authors. 124248
Soil conservation: *western* **part** of the Carcarana River basin. 125111
Towards stabilizing crop production on drylands of *western* **Rajasthan.** 121920
Application of the National Weather Service Flash-Flood Program in the *Western* **Region** [Weather forecasting, precipitation]. 125329
Rice herbicide evaluation for the *western* **rice** belt [Echinochloa colonum]. 123180
Soil map of Asau Block, Savai'i, *Western* **Samoa.** 124843
Multiple use of public lands in the **seventeen** *western* states. 115220
Assessment of losses caused by wilt disease [Cephalosporium sacchari] of sugarcane in *western* **Uttar** Pradesh. 122631
Study of influence of seed microflora on barley planting quality in the *western* **zone** of the Latvian SSR. 122625

WET

Density and composition of crane fly larvae (Diptera, Tipulidae) from an **alpine** *wet* meadow at Stigstuv, Hardangervidda, south Norway. 124112
Study of the centrifuge rudder equipped with *wetting* **devices** for the separation of dust-free fertilizers. 124957
Method of **increasing** *wet* stiffness of corrugated boards by means of batchwise hot air treatment—design and costs of process [Fiberboard]. 119821
A model of stand photosynthesis for the *wet* **meadow** tundra at Barrow, Alaska. 121040
Packaging review: *Wet* **strength** box developments [Horticultural produce]. 117263
The effect of dry **versus** *wet* stimulation of milking cows on the fat absorption by teat cup liners. 117476

WETHERS

An examination of the net changes in amino-acid composition within the rumen of **mature** *wether* sheep using canonical variate analysis. 117754

WETLANDS *see* **MARSHES**

WETWOOD

Some aspects of *wetwood* **formation** in fir [Abies alba]. 119682

WHALES

Titration behavior of individual tyrosine residues of myoblogins from **sperm** *whale,* horse, and red kangaroo. Application of natural abundance carbon 13 nuclear magnetic resonance spectroscopy. 117798

WHEAT

Tunisia and Montana—a *wheat* **alliance** [for Septoria tritici, Fusarium, Cercosporella control]. 122686
Cytologic peculiarities of wheat-rye and *wheat-Agropyron* **amphidiploids.** 120807
Resistance of *wheat-rye* **amphiploids** to drought and high temperatures. 120833
Rates, methods and time of nitrogen **application** *[Wheats].* 125011
Appearance and control of yellow rust (Puccinia striiformis) on *wheat* in the **area** of the Hanover Plant Protection Board in 1975. 122669
Assured *wheat* supply by the United States of America and other wheat-producing countries [Marketing]. 115719
Crop, export prospects dim for **Australian** *wheat* farmers. 115645
Drought clouds **Australian** *wheat,* livestock prospects [Outlook]. 115847
The changing ecology of Western **Australian** *wheat* production. 122025
Skjaldar and Rida—two new Norwegian **autumn** *wheat* varieties. 122028
Changes of cell structure of *wheat* and **barley** after granulation; investigations made with electron scanning microscopy. 117136
The studies on the development of a whole-crop feed. 1. The quality and nutritive value of whole-crop silages made of oats, *wheat* and **barley.** 117378
Comparative study of the [mutagenic] effect of ethylenimine and gamma-rays on *wheat* and **barley** varieties in the first generation. 120718
Pest management for control of stem break [caused by Cercosporella herpotrichoides in *wheat* and **barley].** 122694
New pests on the crops of Castilla la Vieja *[Wheat,* **barley,** Hemiptera, Lepidoptera]. 123274
Evaluation of nitric phosphates differing in water solubility of their phosphorus fraction [Fertilizers, *wheat,* **berseem].** 125017
Mycotoxins in foods. VIII. Inhibition of the formation of mycotoxins (aflatoxins) B1 and G1, patulin and sterigmatocystin) in whole *wheat* **bread** by sorbic acid and sorboylpalmitate. 116077
Early determination of quality characteristics as a basis for an effective selection in *wheat* **breeding.** II. The mixogram as a guage of physical dough criteria [Flour properties]. 117139
Introduction and evaluation of *wheat* **breeding** lines from Mexico [Varieties, yields]. 121860
Biological control in Morocco of the *wheat* **bug** Aelia germari. Comparative value of two egg eating parasites: Asolcus grandis and Ooencyrtus fecundus (Hymenoptera, Scelionidae and Encyrtidae). 123283
Resistance to Septoria [tritici] leaf blotch of *wheat* in **California.** 122555
Relationships between metabolizable energy values for poultry and some physical and chemical data describing **Canadian** *wheats,* oats and barleys. 118039
Reduction of transpiration from *wheat* **caused** by germinating conidia of Erysiphe graminis f. sp. tritici. 122715
Modern method of *wheat* **cleaning.** 117101
Effects of some nutritional factors on *wheat-weeds* **competition.** 123190
Breeding short stem warieties [of *wheat]* for the **conditions** of the Ukrainian forest-steppe. 120741
Chemical and biological investigations on Fusarium mycotoxins [Fungal molds of food, *wheat* **contamination].** 116034
Spraying is not a hobby (Septoria **control)** *[Wheat].* 122695
Agronomical aspects of disease **control** in *wheat.* 122956
Barban nitrogen combinations for wild oat **control** in *wheat.* 123115
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or **cooked** *wheat* in a type of liquid feed. 117997
Assets engaged and rentability in the development of *wheat,* **corn** and sugar-beet production. 115499
Assured wheat supply by the United States of America and other *wheat-producing* **countries** [Marketing]. 115719
The ecology of Chondrilla [an important weed of *wheat* **crops]** in the eastern Mediterranean. 123092
Direct, residual and cumulative effects of applied zinc on yield, chemical composition and ion uptake by rice and *wheat* **crops** in a fixed rotation under field condition. 1. Effect on rice crop. 124985
Wheat **[Cultivation].** 121856
Influence of *wheat* **cultivation** measures on the unfavorable effects of monoculture. 122042
Phosphorus and nucleic metabolism in *wheat* with **cytoplasmic** male sterility. 121478
Nutritional evaluation of *wheat.* 5. **Disappearance** of components in digesta of pigs prepared with two re-entrant cannulae. 117974
No-till corn and **double-cropped** *wheat* and soybeans [Tillage]. 125173
Handling of flour made from **durum** *wheat* for the manufacture of crackers. 117102
Weak magnetic fields and germination in Triticum **[Durum** *wheat].* 121463
Production and performance of common and **durum** *wheats* at the University of California Imperial Valley Field Station in 1974 and 1975 [Varieties, yields]. 121863
Spanish dwarf wheats. II. New variety of **durum** *wheat:* Abadia. 121874
Effects of the hoeing period upon the productive behaviour of **durum** *wheat* cultivated at different spacings. 122120
The effect of the seed rate on the biological and productive response of different varieties of **durum** *wheat.* 122138

Wild oat [Avena fatua] control in spring-seeded wheat and **durum** *wheat* with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Energy requirement investigation for production of **durum** *wheat* in Sicily [Fuel consumption by farm equipment]. 124726
Response of **dwarf** *wheat* varieties to nitrogen. 121499
Spanish **dwarf** *wheats.* I. First results [Varieties]. 121873
Spanish **dwarf** *wheats.* II. New variety of durum wheat: Abadia. 121874
Studies on the oviposition site of Sitophilus oryzae on *wheat* and **effect** of size and outer surface. 123293
Effect of nitrogen and zinc on yield, protein content and quality of *wheat* in **Egypt.** 121514
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and *wheat* and the **feeding** of crude or cooked wheat in a type of liquid feed. 117997
Aspects regarding nitrogen **fertilization** of *wheat.* 125055
Role of damaged starch in milling *[Wheat* **flour**]. 117084
The influence of the frozen storage on the food quality of *wheat* **flour** products. 4. Frozen dough of the bread. 117133
Interaction of Tenebrio molitor L. Alpha-amylase with a *wheat* **flour** protein inhibitor. 123912
Insecticidal control of greenbugs [Schizaphis graminum] in *wheat* with **foliar** and soil treatments. 123345
Baisakhi moong [mung beans] successfully **follows** *wheat.* 122289
Survey of the determination of the occurrence of ergot (Claviceps purpurea (Fr.) Tul) on the domestic and **foreign** *wheat* varieties and wild Gramineae grown in the Black Sea region of Turkey. 122584
Sterilization of cereal grain samples by **gama-irriadiation** *[Wheat].* 117067
Concanavalin A and *wheat* **germ** agglutinin receptors on Dictyostelium discoideum [Fungi]: their visualization by scanning electron microscopy with microspheres. 120480
Wheat **germ** agglutinin. Evidence for a genetic basis of multiple forms. 120588
Quality evaluation of 1976 **German** *wheat* varieties. 117144
Insecticide resistance in the greenbug [Schizaphis **graminum**] in *wheat.* 123346
The best production areas of *wheat* **growing.** 121926
Concerning **hard** *wheat* [Situation]. 115806
Use of biochemical methods in studying the phenomenon of heterosis during breeding **hybrid** *wheat.* 121484
Giemsa-banding of MI chromosomes in *wheat-rye* **hybrids.** 120590
Introduction of *wheat-Agropyron* **hybrids** of a forage-grain type in Donbass [Yield, protein and vitamins content]. 121434
42-Chromosome **imcomplete** *wheat-Elymus* amphidiploids. 120456
Genetics to the rescue [to **increase** *wheat* protein]. 120575
International *wheat* agreement and world cereal reserves. 115956
Effect on the reproductive functions of female rhesus monkeys of feedng **irradiated** *wheat* flour and potato diet [Metabolic studies]. 116396
Dominant lethal mutations in rats fed on **irradiated** *wheat* [health hazard]. 119244
Evaluation of tillage and herbicides for grain sorghum surface residue management in an **irrigated** *wheat-sorghum-fallow* cropping sequence. 123754
No-till dryland grain sorghum after **irrigated** *wheat* with intervening fallow. 125147
Critical stages for **irrigation** *[Wheat].* 125288
Optimum time of first **irrigation** *[Wheat].* 125289
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] **labelled** *wheat.* 1. Problems, experimental programme and excretion. 118002
Studies on the nitrogen metabolism of broilers fed 15N [nitrogen isotope] **labelled** *wheat.* 3. Blood, liver, spleen, thymus, kidneys, brain, pancreas, "labile" N reservoir. 118004
Epidemiology of the **main** *wheat* [fungal] parasites: survey carried out in Italy during 1973-1975. 122633
Aspects of fertilization of land on slopes cultivated with *wheat* and **maize.** 125054
The epidemiology of common root rot [Cochliobolus sativus] in **Manitou** *wheat.* IV. Appraisal of biomass and grain yield in naturally infected crops. 122590
Studies on skim milk replacements in the feeding of young pigs whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole *wheat* **meal** in a type of liquid feed. 117996
Comparative characteristics of the amino acids composition of the hydrogen bacteria Hydrogenomonas eutropha in **meat** and *wheat.* 117035
Development of *wheat* **milling** diagrams from the 1920's to the 1960's. 117138
Mironovskaia *wheat* on the fields of the German Democratic Republic. 122003
Hypersensitive response of **near-isogenic** *wheat* carrying the temperature-sensitive Sr6 allele for resistance to stem rust [Puccinia graminis tritici]. 122705
Performance and description of three **new** *wheat* varieties for California—Portola, Tanori 71, and Yecora Rojo. 121861
New *wheat* varieties and the Green Revolution. 122023
Icata, a **new** *wheat* variety for sowing on miniature holdings [Colombia]. 122108
Yield structure of barley and *wheat* at different **nitrogen** levels and at different plant densities. 124955
Reduction in anaphase bridge frequency by 2,4-D [2,4-dichlorophenoxyacetic acid] in irradiated & **normal** *wheat* (Triticum aestivum L.) root tips. 120475
Wheat and **oat** production. 121898
Phenolic acids in *wheat* and **paddy** rhizosphere [soil] amended with crop residue. 124885
Effects of the concentration of uredospores of brown rust causal agent, Puccinia recondita Rob. ex Desm., on inoculation rates of *wheat* **plants.** 122652
Sodic soils respond to deep **plowing** *[Wheat].* 125089
The economics of Bolivian self-sufficiency in *wheat* **production** [Supply, subsidies]. 115757
Ideas concerning the domestic **production** and use of *"durum"wheat.* 121929
Studies on the residues in wheat and *wheat* **products** fumigated with ethylene dibromide. 116064
Protein quality of high **protein** *wheats* for young children. 116522
Substitution of lysine supplemented high **protein** *wheat* in protein feeds fed in the rearing and during the laying period of hens. 5. Influence of graded lysine supplements fed in the laying period on the production characteristics of hens. 118008
Substitution of lysine supplemented high **protein** *wheat* in protein feeds fed in rearing and during the laying period of hens. 6. Graded lysine supplements as affecting the content of crude nutrients in the carcasses of laying hens. 118009
Toxic *[wheat]* **proteins** and celiac disease. 116272
Studies on the assessment of losses of [stored] *wheat* in **Punjab** [Damages caused by diseases]. 122917
Water potential and leaf elongation in radiata pine [Pinus **radiata**] and *wheat.* 121826
Summary of 1975 **regional** *wheat* variety performance trials for the Sacramento and San Joaquin Valleys of California [Yields]. 121864
Influx and distribution of calcium, magnesium and radioactive strontium [90 isotope] in *wheat* in **relation** to their content in the soils of the Armenian SSR. 122883
Development and spread of high-yielding varieties of *wheat* and **rice** in the less developed nations. 121927
Evolutional and genetic foundations of heterosis in remote hybridization and polyploidy *[Wheat,* **rye,** Triticale]. 120703
Telomeric association of chromosomes *[wheat* X **rye** X Agropyron hybrids]. 120816
Polyadenylation of stable mRNA during swelling of seeds? [Cotton, **rye,** *wheat].* 121430
Varied effect of chlorcholinchloride [growth substances] on *wheat* and **rye** stability. 121525
Investigation on *[wheat]* **seed** and soil treatments [with lindane] against larvae of Zabrus spp. and Anisoplia spp. cereal pests in Central Anatolia. 123290
Use of extremely shortstemmed wheat varieties for culturing aseptically a causal agent of stem rust, Puccinia graminis F. sp. tritici, on *wheat* **seedlings.** 122659
An apparatus for the production of *wheat* **seedlings** for feeding locusts in the laboratory. 123775
Effect of the concentration of strontium 90 [isotope] on the coefficients of radioactive strontium accumulation in *wheat* **seedlings** [Contamination]. 125374
Brazil—striving for *wheat* **self-sufficiency.** 115846
Field reactions of *wheat* to **Septoria** [tritici] leaf blotch. 122750
Use of extremely **shortstemmed** *wheat* varieties for culturing aseptically a causal agent of stem rust, Puccinia graminis F. sp. tritici, on wheat seedlings. 122659
Inheritance of virulence in Puccinia recondita on six backcross lines of *wheat* with **single** genes for resistance to leaf rust. 120611
The **soft** *wheat* market. 115578
Detection and determination of **soft** *wheats* in food pastes. 117066
Study of a new evaluation test of the baking property of **soft** *wheats:* preliminary results. 117085
Microstructure of grain and flour from *durum* and **soft** wheat varieties. 117181
Combining ability of winter **soft** *wheat* varieties for the amount and quality of protein in relation to the creation of heterotic hybrids. 120697
Content of pigments in the winter **soft** *wheat* hybrids of the first generation. 120824
Effectiveness of fertilizers in *durum* and **soft** wheat in the conditions of weakly leached Chernozems in the Kursk Region. 125077
Method of **sowing** *[Wheat].* 122015
Influence of windbreaks on crop performance *[wheat,* **soybeans**] and snow management in North Dakota. 119384
A model for the origin of diploidizing mechanisms in polyploid **species** *[Wheat].* 120578
Ear and flag leaf photosynthesis of awned and awnless Triticum **species** *[Wheat].* 121412
Short stem USA-bred **sping** *wheat* varieties in the conditions of the Volgograd Region. 122012
Breeding and testing short stem **spring** *wheat* varieties. 120737
Breeding short stem winter and **spring** *wheat* varieties of an intensive type. 120742
Some problems of breeding **spring** *wheat* for resistance to lodging. 120749
Testing and breeding short stem varieties of **spring** *wheat* in the area eastward of the Volga River. 120750
Protein content in **spring** *wheat* varieties and its inheritance by hybrids. 120831
The development of genotypical formations as a result of the hybridization of winter wheats with **spring** *wheats.* 120838
Effect of succinic acid on the activity of adenosinetriphosphatase in germinating seeds of **spring** *wheat.* 121433
Classification of Pacific Northwest winter and **spring** *wheat* cultivars by phenol reactions. 121543
Comparative productivity of short stem **spring** *wheat* varieties. 122009
Results of studying short stem **spring** *wheat* varieties under irrigation. 122010
Results of testing short stem **spring** *wheat* varieties from Mexico and USA in the Krasnoyarsk Territory. 122011
Testing short stem foreign bred **[spring** *wheat]* varieties in the Zaporozh'l Region. 122013
The reaction of two **spring** *wheat* varieties exposed to epidemics of Septoria nodorum and Septoria tritici of varying intensity and duration. 122642
Effects of weather conditions on dynamics of Helminthosporium-Fusarium root rot on **spring** *wheats* in Krasnoyarsk territory. 122653
Control of leaf rust [caused by Puccinia recondita] on **spring** *wheat* by seed treatment with 4-N-butyl-1,2,4-triazole. 122726
Regularity in the action of nitrogen in the main forms of nitrogenous fertilizers used at various rates [Effect on the yield of **spring** *wheat,* oats, barley]. 124945
Effect of sowing-time applied fertilizer against the background of the main application on the yield of **spring** *wheat.* 125075
Effect of inorganic fertilizers and sowing rates on the sowing and yielding properties of **spring** *wheat* seeds. 125083
Wild oat [Avena fatua] control in **spring-seeded** *wheat* and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Breeding methods and initial material for creating short **stem** *wheat* varieties. 120738
[World] breeding stock of dwarf and short **stem** *wheat* varieties. 120752
Sporulation of fungus Puccinia graminis f. Sp. Tritici in axenic culture *[Wheat,* **stem** rust]. 122608
Races of Puccinia graminis f. Sp. Tritici *[wheat* **stem** rust] in the U.S.A. during 1975. 122757
Degradation of bromophos in **stored** *wheat* [Insecticide residues]. 116161
Occurrence of Carpophilus dimidiatus F. (Coleoptera: Nitidulidae) in bulk **stored** *wheat* in Punjab. 123511
Species of insects attacking different types of **stored** *wheat* and their control. 123557
Investigation on [pesticide] residues in *wheat* **straw,** glumes and grain after chemical control of Eurygaster integriceps. 116051
Effect of different methods of main soil tillage on the alteration of its volumetric weight and the yield of farm crops *[Wheat,* **sugarbeets].** 125157
A comparison of the development of Puccinia graminis tritici in resistant and **susceptible** *wheat* based on glucosamine content. 122700
Tall *wheat* grass: its establishment in moderately salty soils. 122161
Performance trials and nitrogen fertilization responses of *wheat* on the **Texas** Gulf Coast Prairie. 125061
Effects of awns of the photosynthesis and yield of *wheat,* **Triticum** aestivum. 121413
Wheats: **Triticum** spp. (Gramineae-Triticinae). 121970
Results of trials on *wheat* (**Triticum** vulgare, L.) weed control by recent post-emergence herbicides. 123055
The adoption and effects of high-yielding [dwarf] *wheats* on **unirrigated** subsistence holdings in Pakistan [Farm management, acreage]. 115379
Variations in concentrations and interrelationships of phytate, phosphorus, magnesium, calcium, zinc, nd iron in *wheat* **varieties** during two years. 117125
Effect of cations and saccharose on the activity of photopohosphrylation and processes conjugated with it in chloroplasts of *wheat* **varieties** with different productivity. 121577
Dates of sowing, seed rates and *[wheat]* **varieties.** 122014
They fend off insects *[Wheat* **varieties** resistant to the Hessian fly, Mayetiola destructor and the leaf beetle, Chrysomelidae]. 123272
Wheat **variety** performance in California's Sacramento and san Joaquin Valleys, 1974 [Yields]. 121866
Seasonal dependence of *wheat* **variety** response to superphosphate. 125018
Importance of application of potassium fertilizers for saltsensitive cultivated plants irrigated with saline **water** *[Wheat].* 125085
Studies on the residues in *wheat* and **wheat** products fumigated with ethylene dibromide. 116064
Handling of flour made from *durum* **wheat** for the manufacture of crackers. 117102
Weak magnetic fields and germination in Triticum *[Durum* **wheat].** 121463
Spanish dwarf wheats. II. New variety of *durum* **wheat:** Abadia. 121874
Effects of the hoeing period upon the productive behaviour of *durum* **wheat** cultivated at different spacings. 122120
The effect of the seed rate on the biological and productive response of different varieties of *durum* **wheat.** 122138
Wild oat [Avena fatua] control in spring-seeded wheat and *durum* **wheat** with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Energy requirement investigation for production of *durum* **wheat** in Sicily [Fuel consumption by farm equipment]. 124726

Cytologic peculiarities of *wheat-rye* and **wheat-Agropyron** amphidiploids. 120807
Production and performance of common and *durum* **wheats** at the University of California Imperial Valley Field Station in 1974 and 1975 [Varieties, yields]. 121863
Flour and baking test of a new **winter** *wheat* variety. 117100
Flour and baking tests with a new **winter** *wheat* variety. 117141
Barrier-induced microclimate and its influence on growth and yield of **winter** *wheat* [Windbreaks]. 119377
Karyometric studies of **winter** *wheat* varieties in relation to frost resistance. 120566
Breeding intensive varieties of **winter** *wheat.* 120736
Breeding of short stem **winter** *wheat* [varieties] in the Kyibyshev Region. 120739
Breeding semi-dwarf **winter** *wheat* varieties for the Transcaucasian areas. 120740
Briefly on results of breeding short stem productive varieties of **winter** *wheat.* 120743
Genetic aspects of breeding **winter** *wheat* in irrigation conditions. 120744
Methods and results of breeding stiff stem and semi-dwarf varieties of **winter** *wheat* for the steppe areas of the Ukraine. 120745
Methods and results of breeding short stem **winter** *wheat* varieties in the conditions of Kirghizia. 120746
Methods and results of developing highly productive shot stem **winter** *wheat* varieties for irrigated farming. 120747
Present state and prospects of studies in breeding short stem varieties of **winter** *wheat* for irriation conditions. 120748
Use of induced dwarf mutants in breeding soft **winter** *wheat.* 120751
Breeding of **winter** *wheat* for frost resistance in the conditions of the Tambov Region. 120806
Study of the structure and functions of chromatin in **winter** *wheat* in relation to frost resistance. 120815
Inheritance of some features in **winter** *wheat* hybrids. 120830
The development of genotypical formations as a result of the hybridization of **winter** *wheats* with spring wheats. 120838
Effect of chlorocholine chloride on the mineral nutrition and productivity of **winter** *wheat* on Chernozem. 121400
Effect of organic and inorganic fertilizers on the transformation of sulfuric compounds in **winter** *wheat* plants, yield and quality of grain. 121401
Phosphatase activity in the roots of some **winter** *wheat* varieties as related to the application of fertilizers. 121404
Effect of lower temperature on malate and glutamate dehydrogenase of chloroplasts in **winter** *wheat.* 121445
Content of phosphorus compounds in **winter** *wheat* hybrids differing by the heterotic effect. 121474
Activity of some oxidation-reduction enzymes in the hyaloplasm isolated from tillering nodes of **winter** *wheat.* 121491
Analysis of quantitative and qualitative study of the condition of water in the mitochondria [of **winter** *wheat].* 121492
Methodology of determining the content and state of water in the mitochondria of wintering plants [**Winter** *wheat].* 121495
Mobility of water and the activity of adenosinetriphosphatase in the tillering node of **winter** *wheat.* 121496
The activity of succinate dehydrogenase, content of lipoids and protein in the mitochondria of **winter** *wheat* [Varieties]. 121497
Effect of proline on metabolic processes related to frost resistance of **winter** *wheat.* 121559
The role of sugars in the formation of frost resistance [**Winter** *wheat].* 121561
Using the method of biological evaluation of **winter** *wheat* seeds [for winterhardiness]. 121574
Quality index of baking characteristics of **winter** *wheat* varieties. 121907
Growing Soviet varieties of **winter** *wheat* in the Slovak Socialist Republic. 122000
Improtance of Soviet varieties of **winter** *wheat* in increasing the production of grain in the Czechoslovak Socialist Republic. 122001
Introduction of soviet bred **winter** *wheat* varieties into the Hungarian People's Republic. 122002
Morphobiological features and agronomic characteristic of intensive varieties of **winter** *wheat.* 122004
National economic significance of intensive varieties of **winter** *wheat.* 122005
Peculiarities of agronomic practives and the seed production of intensive varieties of **winter** *wheat.* 122006
Soviet varieties of **winter** *wheat* in the Polish People's Republic. 122007
Spreading of Soviet varieties of **winter** *wheat* in the People's Republic of Bulgaria. 122008
Effect of sowing methods and densities on **winter** *wheat.* 122118
Effect of the sowing rate on the yield of **winter** *wheat* sown on a cropped fallow. 122149
Yield and sowing qualities of Mironovskaia 808 seeds at different sowing rates [**Winter** *wheat].* 122154
The influence of (2-chloroethyl)-trimethylammonium chloride (CCC) and Septoria nodorum Berk. (Leptosphaeria nodorum, Muller) on the yield of **winter** *wheat.* 122581
Study of [fungus] disease resistance of stock and breeding material of **winter** *wheat,* barley, oats and red clover. 122626
Attack and sporulation of Cercosporella herpotrichoides Fron on **winter** *wheat.* 122670
Leaf diseases of **winter** *wheat* [caused by fungi and bacteria]in Montana and losses from them in 1975. 122753
Etiology of brown bacteriosis of **winter** *wheat* [Pseudomonas, Pectobacterium]. 122812
Effect of the degree of **winter** *wheat* grain damage by Scutelleridae bugs on the biochemical and technological properties of flour. 123353
Response of particular crops to the degree of soil compactness. I. **Winter** *wheat.* 124897
Effect of fertilizers on the yield and quality of **winter** *wheat* grain on eroded mountainous Chestnut soils. 124923
Effect of potassium fertilizers on the grain quality of **winter** *wheat* Mironovskaia 808. 124936
Increase of yield and quality of **winter** *wheat* grain as affected by fertilizers in dryland farming in the zone of unstable moistening in Azerbaijan. 124941
Mineral nutrition and the yield of **winter** *wheat* as related to systematic application of fertilizers in a crop rotation on typical Chernozem. 124942
The effects of a granular nitrogen fertilizer and a foliar spray of urea on the yield and bread-making quality of ten **winter** *wheats.* 125019
Interaction of soil fertility and climate being studied in **winter** *wheat* response trials. 125040
Content of some trace elements and nitrogen at particular growth stages of **winter** *wheat* against the background of nitrogen fertilization. 125067
Effect of the levels and time of the application of nitrogenous fertilizers on the yield and quality of **winter** *wheat* grain. 125076
The problem of stabilizing **world** *wheat* market by national market and price policy and international agreements. 115764
Development of silo construction in **world** *wheat* trade. 124612

WHEEL

Morphology of the myrmecophilous cockroach Attaphila **fungicola** *Wheeler.* 123999
Extended uses of the **split** *wheel* for measurement of tangential stress [Tillage machinery]. 124736

WHEY

Characterization of **bovine** *whey* proteins by crossed immunoelectrophoresis. 116922
Preservation characteristics of buffalo semen in **citric** *acid-whey* as an extender. 118358
Whey: **considerations** on its use in nutrition [Composition]. 116879
Contribution to the problem of *whey* **evaluation.** Manufacture of model cheeses with the addition of whey proteins. 116923
Kraft seeks improved uses for *whey* and **finds** new applications [for baked food]. 116848
The cleaning of tubular cellulose acetate ultrafiltration membranes *[Whey* **proteins,** cleaning procedure]. 116911
Contribution to the problem of whey evaluation. Manufacture of model cheeses with the addition of *whey* **proteins.** 116923
Whey makes it **richer** [Protein enriched food products]. 116273
Quality of protein in milk replacers for young calves. IIi. Rennet coagulation and **undenatured** *whey* protein nitrogen content of skim milk powders and commercial milk replacers. 118037
Whey **utilization** [Livestock feeding]. 116849
Traditional lactalbumin, manufacture, properties and uses *[whey* **utilization].** 116912
Some factors involved in the clarification of *whey* **wine.** 116894

WHISKEYS

Gas-chromatographic characterization of *whiskey.* I. **Method** of investigation. 116662

WHITEFLIES

Whitefly **[Aleyrodidae]-transmitted** plant diseases. 122820
Biological control [with the parasite Encarsia formosa] of **glasshouse** *whitefly* (Trialeurodes vaporariorum) on cucumbers. 123396
The *"whitefly",* a **serious** problem for horticulture. 123382
The role of nicotine in plant protection [Control of aphids, **thrips** and *whiteflies.* 123227

WIFE

The **farmer's** *wife* on the sideline farm. 115317

WILD

Viruses other than arenaviruses from West **African** *wild* mammals: factors affecting transmission to man and domestic animals. 118673
The nature of adaptational plasticity (ecologic valency) in [domestic and *wild]* **animals.** 117734
Clinical blackleg [of cattle] associated with **Arizona** *wild* type (AWT) strain of Clostridium carnis. 119047
Rabies antibodies in sera of *wild* **birds.** 118814
The species of Mallophaga in *wild* **birds** in Iran. 123610
Gas chromatographic determination of polychlorinated biphenyls (PCBs) in the presence of chlorinated hydrocarbon pesticides in eggs of *wild* **birds.** 123738
Hematologic values of conditioned, **captive** *wild* coyotes. 117839
The involvement of flavour volatiles in the resistance to downy mildew [Peronospora parasitica] of *wild* and **cultivated** forms of Brassica oleracea. 122685
Genetic modification of the waxy character in barley aftrer an injection of *wild-type* **exogenous** DNA. Analysis of the second seed generation. 120783
Toxicity of secretions of some species of *wild* **fruit** plants in the conditions of water and soil culture. 121656
Investigations with pen raised and *wild* **fur** bearing animals. 117510
Survey of the determination of the occurrence of ergot (Claviceps purpurea (Fr.) Tul) on the domestic and foreign wheat varieties and *wild* **Gramineae** grown in the Black Sea region of Turkey. 122584
Comparison of flight ability of *wild-type* and **laboratory-reared** Caribbean fruit flies [Anastrepha suspensa] on a flight mill. 123413
Mercury poisoning in a *wild* **mink.** 119261
Barban nitrogen combinations for *wild* **oat** control in wheat. 123115
The effect of germination stimulators on *wild* **oat** (Avena fatua L.) emergence in the field [Weed control]. 123153
Variation among *wild* **oat** [Avena fatua] biotypes. 123161
Wild **oat** [Avena fatua] control in spring-seeded wheat and durum wheat with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123169
Wild **oat** [Avena fatua] control in barley with difenzoquat alone and in combination with broadleaf herbicides during 1975 under an EPA [Environmental Protection Agency] experimental permit. 123170
A study of effects of different storage conditions on survival of *wild* **oat** (Avena fatua) seeds. 123187
State inspection in Trondelag for *wild* **oats** [Avena fatua] in seed grain. 117134
Permeability measurements on mitochondria from *wild-type* and **poky** strains of Neurospora crassa [Fungi]. 121162
Meteorological problems in smoke management [Burning of forest fuels by both *wild* and **prescribed** fires]. 119340
The trade-offs between smoke from *wild* and **prescribed** forest fires. 119348
Microorganisms and flavor development associated with the *wild* **rice** fermentation [Quality]. 116200
Mortality and adaptive mechanism of Oryza perennis *[wild* **rice]** strains. 121454
Metabolic control of microconidiogenesis in the *wild* **strain** of Neurospora crassa. 121311
Genetic analysis of resistance factors in a *wild* **strain** of the house fly (Musca domestica) resistant to DDT and some organophosphorous insecticides. 123675
Interralationsips between pterin and ommochrome pigments in Drosophila melanogaster. III. Xanthommatin content in *wild* **type,** mal, bw, and mal bw double mutant. 123837
The ribosomes of Drosophila. IV. Electrophoretic identity among ribosomal subunit proteins from *wild* **type** and mutant Drosophila melanogaster and Drosophila simulans. 124088

WILDERNESS

Wilderness **fire** management. 119314

WILDFLOWERS

The *wildflower* **industry** in Western Australia [Forest produce]. 119634

WILDLIFE

Arkansas *Wildlife* Unlimited [Establishing wildlife food plots]. 125553
Vermin **control** in food plants and inns on the basis of Swiss legislation. 123022
Arkansas Wildlife Unlimited **[Establishing** *wildlife* food plots]. 125553
Stimulating native forage production for livestock and *wildlife* on **fallow** riceland [Herbicides]. 123181
Poisoning grey squirrels: a threat to *wildlife?* **[Forest** tree injuries]. 119361
Impact of chemical and mechanical site preparation on *wildlife* **habitat.** 125414
Forest, *wildlife* and **land** maintenance. 119550
Importance of forest structure for the conservation of the hazel grouse (Tetrastes bonasia L.) [Switzerland, *wildlife* **management].** 119507
Wildlife **management** by habitat units—a preliminary plan of action [Vegetation maps, remote sensing]. 120370
Conservation benefits at Blackwater **[National** *Wildlife* Refuge, Maryland]. 125554
Wildlife for **tomorrow.** 119364
Wildlife **wetland** evaluation model [Vegetation]. 120389
Role of **windbreaks** for *wildlife.* 119390

WILLOWS

Streambank stabilization with *willows* **[Salix,** erosion control]. 125090
Evaluation of the growth of **shrub** *willows* [Salix] from the point of view of the suitability for the biological stabilization of stream banks. 119372

WILT

Evaluation of cotton strains and varieties for field resistance to Verticillium **[albo-atrum]** *wilt.* 122663
Phytophthora [cryptogea] *wilt* of **chestnuts** in South Australia. 122756
Effect of the plant growth retardant Pydanon on Verticillium [dahliae] *wilt* of **cotton** and tomato. 122729
The relationship between plant parasitic nematodes and **cotton** *wilt* disease and their control methods [Verticillium dahliae, Fusarium]. 122914
Assessment of losses caused by *wilt* **disease** [Cephalosporium sacchari] of sugarcane in western Uttar Pradesh. 122631

Malate dehydrogenase in the **fusarial** *wilt* disease of peas [fusarium oxysporum]. 122709
A **new** *wilt* disease [Fusarium] of muskmelon in India. 122599
Wilt of the **one-year** peach shoots affected by Clasterosporium [carpophilum]. 122660
The effect of plant age on severity of **pea** *wilt* caused by Fusarium oxysporum f. sp. pisi race 5 [Soil fungi]. 122738
A **sclerotial** *wilt* of pineapple from India [Sclerotium rolfsii]. 122786
Significance of endo-polygalacturonase activity to symptom expression of **verticillium** *wilt* in cotton, assessed by the use of mutants of Verticillium dahliae Kleb. 122717
Effect of different forms of nitrogenous fertilizers on the resistance of cotton to *wilt* **[Verticillium** dahliae]. 124921
Downy mildew **(yellow** *wilt)* of rice caused by Sclerophthora macrospora: first report of the occurrence of the disease in India. 122749

WIND

The use of **annual** *wind* barriers [corn rows] for protecting row-crops. 122100
Body temperature and flight performance of honey bees [Apis mellifera ligustica] in a servo-mechanically **controlled** *wind* tunnel. 124538
Perennial grass [Agropyron elongatum] barriers for *wind* **erosion** control, snow management and crop production. 125149
Great Plains hit by most **extensive** *wind* damage in 20 years [Erosion]. 125162
Simulated rainfall and *wind* as **factors** dislodging nymphs of the cotton fleahopper, Pseudatomoscelis seriatus (Reuter), from cotton plants. 123349
Windbreak design for **optimum** *wind* erosion control. 119400
Wind **patterns** and soil erosion on the Great Plains. 125152
On the role of **strong** *winds* in damage to crops by hail and its estimation with a simple instrument. 122971

WINDBREAKS

Windbreak in **action** [Erosion control]. 125168
Economics of *windbreaks* and our **cattle** industry. 119380
Roadside **coniferous** *windbreaks* as sinks for vehicular lead emmissions. 119351
Influence of *windbreaks* on **crop** performance [wheat, soybeans] and snow management in North Dakota. 119384
Windbreak **design** for optimum wind erosion control. 119400
Soil site **determinations** [for *windbreaks].* 124889
Farmstead *windbreaks.* 119382
SCS [Soil Conservation Service] technical assistance in *windbreak* **forestry.** 119392
Studies on the land use assessment of grasslands. 1. Landscape comparison of *windbreak* **forests** in the Tokachi farm area and the Konsen grassland farm area. 115291
Windbreaks for **livestock** protection in the Central Great Plains. 119403
Windbreaks for **livestock** protection in the southern Great Plains. 119404
Effects of *windbreaks* on the **microclimate,** energy balance and water use efficiency of crops growing on the Great Plains. 119381
Soil water extraction by, and growth of [trees planted as] **multi-row** *windbreaks.* 119395
Using **old** *windbreaks* for outdoor classrooms. 119398
Compatibility of *windbreaks* and **pivot** sprinklers. 119378
Great **Plains** *windbreak* history: an overview. 119383
Role of *windbreaks* in Great **Plains** agriculture: current and future. 119391
Need for a new approach stressed at Great **Plains** *windbreak* symposium [Erosion control]. 125165
Propagation techniques [of trees for *windbreak* **purposes**] on the horizon. 119629
Windbreaks for **recreational** uses. 119405
Windbreak **removal** [on sandy soils]. 119401
Role of ASCS [Agricultural Stabilization and Conservation Service] in cost-sharing and **renovation** of *windbreaks.* 119389
Windbreak **studies** on the Canadian Prairie. 119402
Protection of *windbreaks* from **[tree]** diseases. 119387
Windbreaks for **urban** uses. 119406
Barrier-induced microclimate and its influence on growth and yield of winter **wheat** *[Windbreaks].* 119377
Role of *windbreaks* for **wildlife.** 119390
Chemical and mechanical maintenance [Control of weeds in **young** *windbreaks* and shelterbelts]. 123184

WINDOW

How to spend more sense than dollars on *window* **shades.** 116577

WINDROW

Experiences in using the E 301 side delivery rake for *windrow* **treatment** in the Selbelang Cooperative Plant Production Section [East Germany]. 124671

WINDTHROW

Silviculture and management in relation to risk of *windthrow* in **Northern** Ireland. 119600

WINE

The farm *[wine]* **cellar** [Manufacturing equipment]. 117258
Precipiation **characteristics** of must and *wine.* 117221
Crystallizing *wine* tartar by concentrating tartaric solution through hyperifiltration. 117240
Wine **destillation** and the marketing of brandy in the European Economic Community. 117260
Determination of lead in *wine* through **flameless** atomic absorption spectrometry, concerning D. Mack's paper, DLR 71 (1975) 71. 116075
Wine **flavor** and phenolic substances. 117209
Sulphite reductase and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite **forming** *wine* yeasts [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916
Cider, **fruit** *wines* and sparkling fruit wines in 1975. 117247
Aroma qualification of *wines* by **gas** chromatography. I. Experimental method for head space analysis. 116230
Aroma qualification of *wines* by **gas** chromatography. II. Determination of an index number defining aroma quality; its relationship with gas chromatographic peak areas and conditions of application. 117307
German *wine* in a dead end? [Quality]. 116022
Means of controlling pollution caused by the use of installations for treating products derived from **grapes** and *wine.* 125399
Means of controlling pollution caused by the use of installations for treating products derived from **grapes** and *wine.* 125400
Vintage **heating** and the use of sulfur dioxide. 117313
Marketing methods in *wine* **industry.** 115572
Wine **industry** of the German Democratic Republic. 117224
Influence of modernization and intensification of [grape] culture on the economic results of production and characteristics of *wine.* **Influence** on consumption [Romania, Luxembourg]. 122205
Application of physical and chemical methods for determining **lead** in *wine.* 116026
Utilization of complex forming substances in *wine* **manufacture.** 117223
Degradation of sorbic acid by bacteria *[Wine* **manufacture].** 117227
Some aspects of the intervention of enzymes in *wine* **manufacture.** Case of pectolytic enzymes and invertase. 117229
The *wine* **market** in Greece. 115732
The *wine* **market** in Greece. 115733
On a late retraction *[Wine,* **markets].** 115731
Where is the [French] south going? *[Wine,* **markets].** 115734
Importance of **personalized** *wines* other than controlled origin names in Spain. 117228
Comparison of economical aspect of various systems of vat fermentation and **preservation** of *wine.* 117226
Degree of optimal maturity of the grape in relation with the type of *wine* to **process.** 121768
Degree of optimal maturity of the grape in relation with the type of *wine* to **process.** 121769
Application of membrane process in *wine* **production.** 117220
A brief report on the development of viticulture and *wine* **production** of state farms. 122200
Effect of yeild increase [of grapes] on the **quality** of must and *wine.* 122201
An office [National interprofessional office for **table** *wines,* France]. 117312
The role of clarification with silicic acid in *wine* **technology.** 117222
A reason for lead addition in **unsafe** *wines.* 116024
The Loire **Valley** *wines:* their geographical situation, their [grape] vineyards, and their characteristics. 122461
The *"wine* **war"** started again [France, Italy, marketing]. 115690
Some factors involved in the clarification of **whey** *wine.* 116894
Vineyards and vintages. Report on a Mouton-Rothschild tasting session: what makes a *wine* great? 117317
Investigation of aroma-producing substances in *wine* **yeast.** 117237
Studies on the feeding value of *wine* **yeast** in trials with sheep and swine. 117999

WING

Wing **color** [seasonal] variation in Callosamia (Saturniidae). 124067
Structure, innervation, and distribution of sensilla on the *wings* of a **grasshopper** [Melanoplus sanguinipes]. 123864
Effects of Weismann ring gland on RNA synthesis in **imaginal** *wing* disks of Calliphora erythrocephala. 124044
Study of the cellular necrosis and *wing* **morphogenesis** in some Lepidoptera. 123854
Fourier analysis of the flight-sound of the pentatomid bug tessaratoma javanica Thunberg & the pressure **pattern** of its *wings.* 123970
Wing **polymorphism** in the insect species Agonum retractum Leconte (Coleoptera: Carabidae). 123865
Amputation of *wings* in **young** turkeys and the effect of this operation on their growth and development. 117500

WINTER

Food supplement in *winter* **[Apis** mellifera]. 124568
Results of a seven year trial of nutrition replacement in **autumn-** and *winter-pears.* 125024
Start now, you'll cut costs [of *wintering* the **beef** herd]. 115523
Introduction of soviet **bred** *winter* wheat varieties into the Hungarian People's Republic. 122002
Genetic aspects of **breeding** *winter* wheat in irrigation conditions. 120744
Overwintering of **brinjal** [eggplant] shoot and fruit borer, Leucinodes orbonalis Guen. (Lepidoptera, Pyralidae) in Kulu Valley, western Himalaya, India. 123372
Ecological studies on the photosynthesis of *winter* **cereals.** III. Changes of the photosynthetic ability of various organs with growth. 121547
Forms and time of application of nitrogenous fertilizers in *winter* **cereals.** 124940
Simplified double **chamber** *wintering* by raising the brood chamber skid [Apiculture, equipment]. 124518
A *winter* **crop** of kale in New England. 122426
Timing of the *pre-winter* **cut** and relations between the species forming a polyphytic meadow [Grasses]. 122140
Yield, rate of growth an dmorphological characteristics of the roots of the carrot (Daucus carota L.) in *autumn-winter-spring* **cycle,** in relation with plant population and fertilization. 122467
Studies on lodging resistance of **diploid** *winter* rye varieties and their hybrids [USSR]. 120681
Differences in *winter* **drying** resistance of Douglas fir [Pseudotsuga menziesii] provenances [Damage]. 119371
The breeding of **dwarf** *winter* rye varieties [in USSR]. 120683
Effects of prolonged cold and the outdoor *winter* **environment** on apparent digestibility in sheep and cattle. 117622
The value of grass in reducing **farm** *wintering* costs in Hawke's Bay [Sheep, cattle]. 118154
Sorghum and napiergrass silage as *winter* **feed** for pregnant beef cows. 118022
Winter **feeding** of the reindeer. 118070
Studies on the extention of the grazing season. 6. *Winter* **grazing** on the south side of a snow covered hillland [Beef cattle]. 122103
Photosynthetic rate—yield component relationships in *winter* **greenhouse** tomatoes. 121677
Biological control in the technique of **growing** *winter* rape. 122989
Results on the longevity and *winter* **hardiness** of Cotoneaster in Weihenstephan. 121640
Winter **hardiness** in trees and bushes. 121815
Feeding of **honeybees** in *winter.* 124567
Overwintering of **introduced** species of pines in the Apsheron Peninsula (1971/72). 121797
How we solved the problem of *wintering* **Italian** honeybees in Finland. 124570
Predation of *overwintering* **larvae** of codling moth (Cydia pomonella (L.) by birds. 121819
Winter **leaching** of nitrate from autumn-applied calcium nitrate, ammonium sulphate, urea and sulphur-coated urea in bare soil. 124834
Effect of a **livestock** *wintering* operation on a western mountain stream [Pollution]. 125570
Ground spiders on a cultivated field near Grossenzersdorf (Lower Austria) in the *winter* **months.** 123285
A nice greenhouse for **nasty** *winters:* all solar. 124634
Flour and baking test of a **new** *winter* wheat variety. 117100
Flour and baking tests with a **new** *winter* wheat variety. 117141
Classification of Pacific **Northwest** *winter* and spring wheat cultivars by phenol reactions. 121543
Heterogeneity of soluble proteins from the cytoplasm in leaves of *wintering* **plants** [winter rye and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Methodology of determining the content and state of water in the mitochondria of *wintering* **plants** [Winter wheat]. 121495
Winter **protection** of nursery stock [of ornamental plants] Webfoot style [Plastic-covered structures]. 124605
Development of Heterodera schachtii in the roots of *winter* **rape** and oil radish. 123047
Scorching of grass [from sun burning through a thin ice cover]—What can we possibly do to **reduce** *winter* damage? 122986
A study of combining ability and heterosis in *winter* **rye** [Czechoslovakia]. 120652
Breeding of *winter* **rye** in the northeastern European part of the USSR. 120655
Breeeding of *winter* **rye** resistant to powdery mildew [Erysiphe graminis]. 120656
Effect of the dominant charcter of short straw on some quantitative characters of *winter* **rye.** 120662
Results and perspectives on *winter* **rye** breeding in the Estonian SSR. 120677
The significance of polyploids in the breeding of *winter* **rye** [Varieties, USSR]. 120685
The use of multiple correlation in *winter* **rye** breeding. 120687
Effectiveness of *winter* **rye** selection for large grain. 120826
Alteration of protein content in plants [of barley, oats and *winter* **rye**] in relation to the methods of its determination, fixation and temperature of drying of the plant material. 121397
Effect of stubble residues of fallow grown crops on the germination and development of *winter* **rye.** 121460
Effect of the preparation "Kampozan" [a synthetic growth regulator] (based on ethylene phosphonous acid) on *winter* **rye.** 121464
Effect of protective substances on the activity of catalase in the mitochondria in *winter* **rye** leaves. 121493

Heterogeneity of soluble proteins from the cytoplasm in leaves of wintering plants *[winter* **rye** and perennial blue lupine] and the activity of dehydrogenases in relation to the time of the year. 121494
Quality of *winter* **rye** seeds, obtained from lodged plants, during storage. 121573
Culture and seed production of *winter* **rye** in eastern foreststeppe Ukraine. 121933
Effect of monuron and monolinuron on growth dynamics, yields and qualitative changes of *winter* **rye** against the background of various nitrogen, phosphorus and potassium fertilization rates. 123192
Effect of potassium fertilizers on [crop] yields and removal and utilization of nitrogen, phosphorus, and potassium by *winter* **rye.** 124937
Breeding **semi-dwarf** *winter* wheat varieties for the Transcaucasian areas. 120740
Winter **shearing** does have a major disadvantage [Heat loss from sheep]. 117938
Combining ability of *winter* **soft** wheat varieties for the amount and quality of protein in relation to the creation of heterotic hybrids. 120697
Use of induced dwarf mutants in breeding **soft** *winter* wheat. 120751
Content of pigments in the *winter* **soft** wheat hybrids of the first generation. 120824
Preliminary studies on the measurement of evapotranspiration for Valencia orange in *winter* and **spring** in Taitung area. 121722
Breeding of short **stem** *winter* wheat [varieties] in the Kyibyshev Region. 120739
Breeding short **stem** *winter* and spring wheat varieties of an intensive type. 120742
Methods and results of breeding short **stem** *winter* wheat varieties in the conditions of Kirghizia. 120746
Methods and results of developing highly productive shot **stem** *winter* wheat varieties for irrigated farming. 120747
Prevention of *winter* **sunscald** injury in Michigan [cherry] orchards. 122969
Influence of breed and level of *winter* **supplement** on forage intake of range cows [Hereford, Hereford X Holstein, Holstein]. 118093
Influence of *winter* **supplies** on the productivity of honeybee colonies. 124571
The effects of a granular nitrogen fertilizer and a foliar spray of urea on the yield and breadmaking quality of **ten** *winter* wheats. 125019
The correlations between different **tetraploid** *winter* rye characters and properties and their role in plant breeding. 120684
Barrier-induced microclimate and its influence on growth and yield of *winter* **wheat** [Windbreaks]. 119377
Karyometric studies of *winter* **wheat** varieties in relation to frost resistance. 120566
Breeding intensive varieties of *winter* **wheat.** 120736
Briefly on results of breeding short stem productive varieties of *winter* **wheat.** 120743
Methods and results of breeding stiff stem and semi-dwarf varieties of *winter* **wheat** for the steppe areas of the Ukraine. 120745
Present state and prospects of studies in breeding short stem varieties of *winter* **wheat** for irriation conditions. 120748
Breeding of *winter* **wheat** for frost resistance in the conditions of the Tambov Region. 120806
Study of the structure and functions of chromatin in *winter* **wheat** in relation to frost resistance. 120815
Inheritance of some features in *winter* **wheat** hybrids. 120830
Effect of chlorocholine chloride on the mineral nutrition and productivity of *winter* **wheat** on Chernozem. 121400
Effect of organic and inorganic fertilizers on the transformation of sulfuric compounds in *winter* **wheat** plants, yield and quality of grain. 121401
Phosphatase activity in the roots of some *winter* **wheat** varieties as related to the application of fertilizers. 121404
Effect of lower temperature on malate and glutamate dehydrogenase of chloroplasts in *winter* **wheat.** 121445
Content of phosphorus compounds in *winter* **wheat** hybrids differing by the heterotic effect. 121474
Activity of some oxidation-reduction enzymes in the hyaloplasm isolated from tillering nodes of *winter* **wheat.** 121491
Analysis of quantitative and qualitative study of the condition of water in the mitochondria [of *winter* **wheat**]. 121492
Methodology of determining the content and state of water in the mitochondria of wintering plants *[Winter* **wheat**]. 121495
Mobility of water and the activity of adenosinetriphosphatase in the tillering node of *winter* **wheat.** 121496
The activity of succinate dehydrogenase, content of lipoids and protein in the mitochondria of *winter* **wheat** [Varieties]. 121497
Effect of proline on metabolic processes related to frost resistance of *winter* **wheat.** 121559
The role of sugars in the formation of frost resistance *[Winter* **wheat**]. 121561
Using the method of biological evaluation of *winter* **wheat** seeds [for winterhardiness]. 121574
Quality index of baking characteristics of *winter* **wheat** varieties. 121907
Growing Soviet varieties of *winter* **wheat** in the Slovak Socialist Republic. 122000
Improtance of Soviet varieties of *winter* **wheat** in increasing the production of grain in the Czechoslovak Socialist Republic. 122001
Morphobiological features and agronomic characteristic of intensive varieties of *winter* **wheat.** 122004
National economic significance of intensive varieties of *winter* **wheat.** 122005
Peculiarities of agronomic practives and the seed production of intensive varieties of *winter* **wheat.** 122006
Soviet varieties of *winter* **wheat** in the Polish People's Republic. 122007
Spreading of Soviet varieties of *winter* **wheat** in the People's Republic of Bulgaria. 122008
Effect of sowing methods and densities on *winter* **wheat.** 122118
Effect of the sowing rate on the yield of *winter* **wheat** sown on a cropped fallow. 122149
Yield and sowing qualities of Mironovskaia 808 seeds at different sowing rates *[Winter* **wheat**]. 122154
The influence of (2-chloroethyl)-trimethylammonium chloride (CCC) and Septoria nodorum Berk. (Leptosphaeria nodorum, Muller) on the yield of *winter* **wheat.** 122581
Study of [fungus] disease resistance of stock and breeding material of *winter* **wheat,** barley, oats and red clover. 122626
Attack and sporulation of Cercosporella herpotrichoides Fron on *winter* **wheat.** 122670
Leaf diseases of *winter* **wheat** [caused by fungi and bacteria]in Montana and losses from them in 1975. 122753
Etiology of brown bacteriosis of *winter* **wheat** [Pseudomonas, Pectobacterium]. 122812
Effect of the degree of *winter* **wheat** grain damage by Scutelleridae bugs on the biochemical and technological properties of flour. 123353
Response of particular crops to the degree of soil compactness. I. *Winter* **wheat.** 124897
Effect of fertilizers on the yield and quality of *winter* **wheat** grain on eroded mountainous Chestnut soils. 124923
Effect of potassium fertilizers on the grain quality of *winter* **wheat** Mironovskaia 808. 124936
Increase of yield and quality of *winter* **wheat** grain as affected by fertilizers in dryland farming in the zone of unstable moistening in Azerbaijan. 124941
Mineral nutrition and the yield of *winter* **wheat** as related to systematic application of fertilizers in a crop rotation on typical Chernozem. 124942
Interaction of soil fertility and climate being studied in *winter* **wheat** response trials. 125040
Content of some trace elements and nitrogen at particular growth stages of *winter* **wheat** against the background of nitrogen fertilization. 125067
Effect of the levels and time of the application of nitrogenous fertilizers on the yield and quality of *winter* **wheat** grain. 125076
The development of genotypical formations as a result of the hybridization of *winter* **wheats** with spring wheats. 120838
Farm production experiments comparing formalin-treated silage with conventional foods for *wintering* **yearling** beef cattle. 118125

WINTERHARDINESS
Winterhardiness of **plum** varieties in the conditions of the Rudnyi Altai. 121620
Using the method of biological evaluation of winter wheat **seeds** [for *winterhardiness].* 121574

WIRE
Wires: **agricultural** pilot's number one nemesis [Safety]. 124747
Calculation of *wire* **ropes** in forest and other cable-railways. 119664

WIREWORMS
Use of the match for *wireworm* **control** [Maize and sugarbeet pests]. 123332
Influence of weather on capture of adult southern **potato** *wireworm* [Conoderus falli] in blacklight traps. 121779

WITCHES
Populational-ecologic aspects of teratology of woody plants *[Witches* **broom,** Betula, Pinus]. 120455
Studies on the vector of **loofah** *witches'* broom. 1. Identification and morphology of Hishimonus concavus Knight. 123412

WITHANIA
Steroids of *Withania* **plants.** IV. Partial synthesis of withanolids. 120877

WITHANOLIDS
Steroids of Withania plants. IV. Partial **synthesis** of *withanolids.* 120877

WOLVES
Energy metabolism in the *wolf* **spider** Pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124113
Production of faeces, excreta, and silk in the *wolf* **spider** pardosa palustris (L.) (Araneae, Lycosidae) from Hardangervidda, southern Norway. 124115

WOMEN
Experimental study on the thermal insulation of the typical clothing among **aged** *women* in Nagano district. 116596
Women and **agriculture** [India]. 115113
Nutritional disorders of **American** *women.* 116523
A basic study on the pattern making for *women's* **clothes:** the classification of the physical-type by the Pignet-Vervaeck Index. 116591
SCS [Soil Conservation Service] sponsors workshop for **Federal** *Women's* Program coordinators [Assertiveness training for personnel]. 115201
Experiences o an [agricultural] engineer, who **happens** to be a *woman.* 124619
Efficiency and effectiveness in the W.I.C. Program delivery system. The Special Supplemental Food Program for *Women,* **Infants,** and Children [intended to serve individuals at "nutritional risk"]. 116484
Nutritional beliefs and practices in primigravid **Mexican-American** *women* [Pregnancy]. 116403
Nutritional beliefs and practices in primigravid **Mexican-American** *women.* 116404
Women are **participating** in research at the Institute for Edible Oil and Margarine. 116792
Role of EFNEP [Expanded Food and Nutrition Education Program] aides in improving diets of **pregnant** *women.* 116451
Women's **wear** fashioned to fit. 116586
The role of *women* and **youth** in IRD [integrated rural development] projects. 115887
The role of *women* and **youth** in IRD [integrated rural development] projects [Iran]. 115888

WOOD
Juvabione and its analogues. II. Isolation, identification, and occurrence of juvabiol and its epimer isojuvabiol from the whole *wood* of **Abies** balsamea. 119652
Wood and **adhesives** problems—a look at the future. 119844
Wood: **ally** in war on pests [Cinnamylphenols of Dalbergia as a new, more biodegradable insecticide]. 123217
Results of introduction of North **American** *woody* plants in th Central-Chernozem regions of the Russian Soviet Federative Socialist Republic. 119872
Wood **anatomy** of Roridulaceae: ecological and phylogenetic implications [Roridula gorgonias, Roridula dentata]. 119927
Importance of photosynthetic cotyledons for early growth of *woody* **angiosperms.** 121823
A climate room for precise regulation of temperature and humidity in connection with a temperature-regulated nest site for *wood* **ants** [Formica polyctena]. 124119
Matching Southeast **Asia's** *wood* resources to its opportunities. 119692
Complex processing of the **available** *wood* stock. 119656
The *wood* **basic** density variation of pine and spruce [Pinus sylvestris, Picea abies] provenances. 119584
Control of coal-tar impregnation of **beech** *wood* with red heartwood; success of impregnation according to thylosis frequency. 119725
Morphology of the larvae of beetles, predaceous and associated with *wood* **borers,** from the northwestern part of the Caucasus. 124309
Structure of **brazilian** *woods* of dicotyledonous angiosperms. XIV. Icacinaceae (Discophora guinanensis Miers). 120434
The growing efficiency of *wood* in **buildings.** 119843
The properties and composition of *wood* **cellulose** decomposition products obtained under the action of hydrogen chloride at pressure. 119748
Wood as **chemical** raw material. 119662
Rhythm of growth and flowering of *woody* **[chiefly** ornamental] plants from the Mediterranean floristic area on the Black Sea coast. 121618
Watch out for fragments in the bedding [of poultry]! [Litter, *wood* **chips,** chicken injuries]. 117399
Commercial *woods* of Indonesia: their properties and uses. 2. 119753
Thermochemical polymerization of monomers in *wood.* II. **Comparison** of styrol polymerization in various wood species. 119749
Interaction between wood and polymers. IV. Dielectric properties of polyvinyl acetate filled with *wood* **components** [Wood properties, cellulose, lignin]. 119680
New evaluation of water repellency of *wood* by **contact** angle. 119842
Wooden **containers** and miscellaneous wood products [Statistics]. 119849
Impact of uncertain end-use on *wood* **costs** and its implications for forest planning. 119518
Investigation of **deciduous** *wood* lignin. II. Splitting of aspen lignin under nucleophilic action. 119737
Investigation of **deciduous** *wood* lignin. III. Reduction splitting of aspen native lignin. 119738
Production of glycosyl urea on the basis of hydrolysates of **deciduous** *wood* hemicelluloses. 119741
Study of carbohydrate content of various **deciduous** *wood* tissues. 119744
Ornamental aspects of [varieties of] **deciduous** *woody* plants in the beautification of Moscow. 122197
Diffusion of humidity in *wood* from 20 **degress** to 95 degrees Celsius in function of its state of sorption. 119765
Marketplace **dictation** *[Wood].* 119793
Seasonal rhythm of development of the [Soviet] Far **East** *woody* plants in the Ukraine. 121800
Morphological types of larvae of *beetles-wood* **eaters** (Coleoptera, Eucnemidae) and their evolutionary significance. 123928
Larvae of rove beetles (Coleoptera, Staphylinidae) developing in *wood* **[Ecology** and morphology]. 123927
Birth of the age of *wood;* **employment** and use of wood in rural buildings. 124647
Birth of the age of *wood;* **employment** and use of wood in rural buildings. 124648
Birth of the age of *wood;* **employment** and uses of wood in rural buildings. 124649
The mallee country [Scrub **eucalypt** *woodlands].* 119365
Farm *woodlots.* 119547

Fire and *wood.* 119419
Preliminary study on woodwool board made of **five** *wood* species from West Java. 119755
Decomposition of lignin and cellulose components of wood of Swietenia mahogani, Casuarina equisetifolia and Mimusops elengi by Fomes durissimus lloyd *[Wood-destroying* **fungi**]. 119678
Knock on wood. In-store checklist for *wood* **furniture.** 116310
The natural resistance of some **indigenous** *woods* against Reticulitermes lucifugus [Pinus sylvestris, Abies alba, Picea abies, Fagus silvatica, Quercus robur]. 123462
Economic importance of proper tool maintenance *[Wood* **industries**]. 119688
Exhaust and transport systems for dust and chips in the *wood* **industry** and development trends. 119236
The situation of young technicians in the *wood* **industry** and possibilities for extension training. 119237
Twenty-five years of university training in forestry and *wood* **industry** of Slovenia. 119336
Possibilities for discovery of intensive reserves during the production process *[Wood* **industry**]. 119657
Study of alkali absorption by *wood* as **initial** stage of alkali cooking. 119743
Knock on *wood.* **In-store** checklist for wood furniture. 116310
Flowering and fruiting [in Moscow area] of **introduced** *woody* plants from the temperate zone of North America. 119858
Diurnal intensity of photosynthesis in **introduced** *woody* plants in the Crimea. 120963
The study of lianas [**Larger** *woody* vines]. 120017
Morphology of weevil larvae (Coleoptera, Curculionidae) and ecological ways of their adaptation to **living** in *wood.* 123929
Effect of a high hydrostatic pressure on *wood* **membranes.** 2. Hygroscopic and mechanical properties of wood. 119766
Wooden containers and **miscellaneous** *wood* products [Statistics]. 119849
Evaluation of conifer pulpwood quality—a contribution of **optimum** *wood* utilization. 119773
Evaluation of conifer pulpwood quality, a contribution to **optimum** *wood* utilization. II. 119774
Evaluation of conifer pulpwood quality, a contribution to **optimum** *wood* utilization. III. 119775
Growth regulators and rooting of cuttings of *woody* **ornamental** plants. 121629
Root hardiness of *woody* **ornamentals** [Cold injuries]. 122940
Status of technology of molded parts made of *wood* **particles.** 119673
Unnecessary transport of [ornamental] *woody* **plants?** 115598
Results of introduction of *woody* **plants** in the Perkalskii Arboretum. 119873
Populational-ecologic aspects of teratology of *woody* **plants** [Witches broom, Betula, Pinus]. 120455
Effect of water-soluble excretions from litter fall of *woody* **plants** on te germination of seeds. 120964
Protection of *woody* **plants** [from insects] by the method of injection of pesticides [into the stem]. 123449
Interaction between *wood* and **polymers.** IV. Dielectric properties of polyvinyl acetate filled with wood components [Wood properties, cellulose, lignin]. 119680
Scandinavian drumbarking and conveying equipment *[Wood* **processing**]. 119823
Long-term prospects for demands of *wood* **production.** 119513
Interaction between wood and polymers. IV. Dielectric properties of polyvinyl acetate filled with wood components *[Wood* **properties,** cellulose, lignin]. 119680
Relations between growth stresses and tension wood in beech (Fungus sylvatica L.) *[Wood* **properties**]. 119681
Effect of a high hydrostatic pressure on wood membranes. 2. Hygroscopic and mechanical **properties** of *wood.* 119766
The finishing of surfaces with paper and foils by using a covering process with heated rollers *[Wood* **pulp**]. 119675
Identification of polysaccharide-producing black yeasts [Rhinocladiella, decay of *wood* **pulp** and paper]. 119757
Formation of carboxylic acids by degradation of carbohydrates during kraft cooking of pine *[Wood* **pulping**]. 119816
Coating of *wood* **pulps** with surface finishes from the reel. 1. Process technology. 119667
Cracking in veneered surfaces. 1. Bases and findings with carrier panels made of *wood* **pulps.** 119668
Beech bark disease and *wood* **quality** [Fagus silvatica]. 119660
Comparative studies of the vascular system of node-leaf continuum in *woody* **Ranales.** II. Node-leaf vascular system of Eupomatia laurina R. Br. 120493
Ethanol-water delignification of *wood*—**rate** constants and activation energy [Pulping]. 119815
From the practice: an interesting court judgment [**regarding** *wood* preservation]. 119795
Sawdust [and other *wood-processing* **residues**] as a container growing medium. 124969
The intestinal protozoa of the *wood-feeding* **roach** Cryptocercus. II. Symbionts. 124076
Distribution of *woody* **Rosaceae** in western Asia. XV. Cerasus prostrata (Lab.) Ser. [In southwestern Asia and the Mediterranean area]. 119939
Comparative anatomy of the digestive system of larvae of **roundheaded** *wood* borers (Coleoptera, Cerambycidae). 123925
Birth of the age of wood; employment and use of *wood* in **rural** buildings. 124647
Birth of the age of wood; employment and use of *wood* in **rural** buildings. 124648
Birth of the age of wood; employment and uses of *wood* in **rural** buildings. 124649
Change of morphological characters of the parenchyma of **secondary** *wood* in the pine family (Pinaceae) in relation to age. 120471
Small *woody* plants, transplantable with shrubs, for open, sunny areas in the garden [Landscape gardening]. 122278
Economic advantages and disavantages of producing pulp chips in the *woods* in the **Southwest.** 119829
Thermochemical polymerization of monomers in wood. II. Comparison of styrol polymerization in various *wood* **species.** 119749
Alkali solution action on **spruce** *wood.* II. The change of mechanical properties. 119729
Dissolution of glucomannan in two staged sulphite cooking of **spruce** *wood.* 119731
Contribution to the characterization of sodium chlorite delignification of **spruce** *wood.* III. Lignin and polysaccharide complexes in chlorite liquors. 119770
Wood in the **standardization** of sports and recreational equipment. 119676
Knottiness of European fir **stem** *wood* and its influence on [Yugoslav] grading standards for logs. 119451
Mechanized round *wood* **stores.** 119665
Evolution of *wood* **structure** in Pinaceae. 120476
Decomposition of lignin and cellulose components of *wood* of **Swietenia** mahogani, Casuarina equisetifolia and Mimusops elengi by Fomes durissimus lloyd [Wood-destroying fungi]. 119678
Modern gluing and binding **technique** *[Wood].* 119670
Relations between growth stresses and **tension** *wood* in beech (Fungus sylvatica L.) [Wood properties]. 119681
Gabon, a country with more than 18 million hectares of forests (forest resources, industry and **trade** in *wood).* 119545
Gabon, a country with more than 18 million hectares of forests (forest resources, industry and **trade** in *wood).* 119808
Some problems concerning the *wood* **transport** in Poland. 119666
"Krenite"—brush control agent, a new concept for brush control [of **undesirable** *woody* plants]. 123138
Briquetting *[wood]* **waste** for steam and sale. 119686
What *wood* could do. 119659
Investigations of the competition between valuable broadleaved species in **young** *woods.* 120352

WOODLAND

The *woodland* **border** and its shrubs [Landscape gardening]. 122280
Patterns of life in *woodland* **communities.** 15. Some strange galls of the oak [Andricus quercuscalicis, Andricus lignicolus]. 123499
Autumnal processing of dissolved organic matter in a **small** *woodland* stream ecosystem [Leaf litter]. 120344

WOOL

Analysis of **Australian** *wool* sold at auction in Australia 1973/74 season. Analyses by: microns, combining and carding classifications, degrees of vegetable fault, areas of origin. 115760
Analysis of **Australian** *wool* sold at auction in Australia 1973/74 season. Analyses by: wool types, average yields, average clean prices. 115761
Soil redeposition in solvent cleaning. 4. Redeposition and prevention of fatty soils [in tetrachloroethylene, *wool,* **cotton** and acrylics fabrics]. 116599
Some effects of barley grass seed on young sheep [Contamination of *wool* and the **damage** to lambs' pelts]. 119279
A method for bromine determination in *wool* **fabric** by X-ray fluorescence spectrometry. 117030
Fertility of Merino sheep classified according to degree of development of **face** *wool* and bred by artificial insemination. 118353
An instrument for the rapid automatic measurement of *[wool]* **fiber** fineness distribution. 117031
Grafting of vinyl monomers onto *wool* **fibers.** 117017
The swelling of Hercosett resin *[Wool* **finishing** processes]. 117032
Know your *wool*—a **guide** for hand spinners and rug-makers. 117029
Wool **marketing,** alternatives and pricing. 115721
Influence of the methylamine and dyeing treatment on *wool* **mechanical** properties. 117014
Wool **structure** and biosynthesis. 117024
Analysis of Australian wool sold at auction in Australia 1973/74 season. Analyses by: *wool* **types,** average yields, average clean prices. 115761
Effect of pre- and postweaning anthelmintic drenching on live-weight gain and *wool* **weight** in Romney ewe hoggets. 118850
Effect on liveweight gain and *wool* **weights** of anthelmintic and selenium drenching of mountain country Merino and halfbred ewe hoggets. 118851

WORK

Improvement of the system of morale incentives in the competition of the *workers* of **agrarian-industrial** amalgamations and interfarm enterprises. 115388
Querfurt agrochemical center: assuring high quality of **agrochemical** *work* [Cooperation, fertilization]. 115416
An introduction to the *work* and **aims** on nutritional science. 116328
Pride in our *work* [**Artificial** insemination, cattle]. 118286
New square plastic petri dishes for routine **bacteriological** *work* [Meat inspection]. 116126
Ratio of citric acid: isocitric acid in orange juice. On the *work* of B. **Bergner-Lang,** German food review, 71, 348 (1975). 117241
Major breeds of zebu cattle from India and its utilization in **breeding** *work.* 118313
Cash flow and *working* **capital** as indicators of the financial economy of agricultural enterprises. 115501
Leipzig Market Milk Cooperative: supply to meet demand, a daily task of **collective** *work.* 115693
Advice and tips for *working* with **concrete.** 124631
Implementation of the scientific organization of work on industrially organized greenhouse farms with special consideration of living and *working* **conditions.** 115463
Interesting **doctoral** *work* by a Norwegian veterinarian [Pasteurella multocida, bacterial infections in turkeys]. 118859
Management activity of variety test stations as a means of good **experimental** *work.* 121906
Heavy machines for **field** *work:* possibilities and limits of utilization. 124688
[Forest] **firefighter's** *work* environment and physical demands studied. 119316
Erecting hygiene chains through interruption of infection chains and motivation of *co-workers* [**Food** handling]. 116088
The permanent professional training of **forest** *workers* [in Slovenia]. 119331
The status and future prospects of **forest** *work* science at the Finnish Forest Research Institute. 119413
Subjective factors in accidents during **forest** *work.* 119454
Aspects of additonal earnings by farmers through **forestry** *work:* forestry educaton as a prerequisite [Austria]. 119292
Strenghtening of the influence of the *working* class on the **formation** of communist consciousness of rural population. 115167
Working the **futures** to predict net profit [Poultry industry]. 115479
Shift-working **group** form of labor organization in reindeer husbandry in the Nenets National Region. 115368
Physical and biological characteristics of grain dust [Microbiological contamination, health **hazards** to *workers].* 116259
Behavior of **honeybee** *workers* toward drones. 124546
A study of the physical load and *work* **hygiene** of woodcutter at felling in pre-mature stands. 119532
Arrangement of **ideological** *work* in the conditions of specialization and concentration of farm production. 115162
Characterization of cotton dust by elemental analysis [Health hazards to **industrial** *workers].* 117163
Implementation of the scientific organization of *work* on **industrially** organized greenhouse farms with special consideration of living and working conditions. 115463
Talk to first **international** *working* conference on stored-product entomology. 123560
Niederpollnitz Agricultural Producers' Cooperative: continues development of production, including *working* and **living** conditions [East Germany]. 115413
Work **mechanization** on sloping land. 124719
Work **mechanization** in cultivation of soybeans. 124720
Work **mechanization** in the cultivation of sugarbeet. 124721
Work **output** and the worker's strain in cutting pulpwood for slide-boom loading. 119658
Coordination of [communist] **party** *work* in agrarian-industrial and interfarm amalgamations [Moldavia]. 115385
Improvement of organizational and [communist] **party** *work* in the present stage of concentation, specialization and agrarian-industrial integration of agriculture in Moldavia. 115918
Coconut varietal selection and breeding. 2. **Recent** *work* in Fiji. 120631
Sclerotina to sex attractants—ADAS [Agricultural Development and Advisory Services] Eastern **Region** *work* [Vegetables, disease and pest control research, Great Britain]. 122937
Work **results** of veterinarians in intensifying heifer production in Pasewalk district after the VIIIth Socialist Unity Party Congress. 118530
Practical guide for **routine** *work* with plant and soil nematodes. 122988
Length of *work* of **salaried** workers in agriculture, weekly rest [Laws]. 115425
The *work* **scene:** a network of nerves, brains - and values. 116613
The popular **scientific** *work* in forestry for the public. 119332
The Mockern State Farm industrial fattening combine: development of creative potential of *workers* in **socialist** emulation [East Germany]. 115420
Activities of [communist] party committees in the improvement of the *working* **style** of management personnel in agricultural collectives. 115381
How ventilation **systems** *work* [Swine houses]. 124639
Results of **testing** *work* clothes [for shepherds], made from synthetic fabrics, on reindeer farms. 124617
Horticultural therapy [and rehabilitaton] how it's *working* [**Training,** Canada]. 122230

The economic situation of the basic organization of the **united** *work* and of the forest cooperative productive organizations from the standpoint of self-management [Slovenia]. 119456
Prof. Dr. Friedrich Mussemeier, life and *work* [**Veterinarians,** East Germany]. 118512
The *work* of **Veterinary** and Tsetse [Glossina] Control services [in Zambia]. 123625
Work with a **view** to preparing harder soils for cultivation in north Cameroon. Results [Reclamation]. 125093
Nutrition: food at *work* for you. 116311

WORKSHOPS
A new look into organic classroom [at schools, colleges, *workshops,* **farms,** gardens, and kitchens]. 115188

WORMS
Is there a *worm* **farm** in your future? [Raising earthworms for soil improvement]. 124859
Dracunculus medinensis (**guinea** *worm)* infestation in a dog and its treatment with "Flagyl." A case report. 118752
A case of bovine hydatidosis [**Parasitic** *worms].* 118771
Investigations concerning bovine gastro-intestinal strongyles [Ostertagia]. II. Seasonal variations in the herbage infestation with infective larvae [**Parasitic** *worms].* 118862
The influence of Ascaris suum infection upon growth rates in pigs [**Parasitic** *worms].* 118864
The serum pepsinogen analysis and its relation to bovine ostertagiasis [Ostertagia ostertagi, **parasitic** *worms].* 118865

WORTS
Economical comparison of the continuous and up to date, **traditional** *wort* manufacture. 2. 116829

WOUND
Influence of a **cutaneous** *wound* on the development of the densonucleosis in larvae of Galleria mellonella L., Lepidoptera, infected by ingestion. 123904
Papillae and **related** *wound* plugs of plant cells. 122903
Wound **repair** in yam tubers: physiological processes during repair. 121744

XANTHOMONAS
New potential product from sucrose micobial gum *[Xanthomonas* **manihotis].** 117187

XANTHORRHOEACEAE
Pollen morphology and its evolutionary **significance** in *Xanthorrhoeaceae.* 120177

XANTHOSOMA
Edible aroids: Alocasia, Colocasia, Cyrtosperma, *Xanthosoma* **(Araceae).** 122360

XENOGRAFTING *see* **HETEROGRAFT**

XUTHUS
Papilio *xuthus* (Papilionidae) in Hawaii. 124323

XYLANASES
Enzymatic hydrolysis of hardwood xylans. III. Characterization of five isolated **beta-I** over to 4 *xylanases.* 119679

XYLANS
Enzymatic hydrolysis of **hardwood** *xylans.* III. Characterization of five isolated beta-I over to 4 xylanases. 119679

XYLEM
Generation of electric potentials during flow of fluids in the *xylem* **vessels** (Preliminary report) [Cucurbita sechium]. 121659

XYLITOL
A rapid method for detection of aflatoxins from *xylitol* **[Sweeteners].** 116095

XYLOSANDRUS
Biology of an introduced ambrosia beetle, *Xylosandrus* **compactus,** in Florida [Cornus florida, pests]. 123798

YAKS
Hypodermin-chlorophos to control subcutaneous **gadflies** in *yaks.* 123678
Latest developments in planned hypodermosis control [cattle and *yak]* in the **Mongolian** People's Republic. 118831

YAMOGENIN
Synthesis of 3-beta-glycosides of diosgenin [from Dioscorea deltoidea], *yamogenin* and **gitogenin** [from the seed of Trigonella foenum-graecum]. 121261

YAMS
Yams: **Dioscorea** spp. (Dioscoreaceae). 122384
Performance of *yam* **(Dioscorea** spp.) setts planted without water. 122388
Influence of the dates of tuberization and sprouting in *yam* **tubers** (Dioscorea sp.) on the emergence time in the field. 121589
Wound repair in *yam* **tubers:** physiological processes during repair. 121744
Preliminary investigations into the effect of planting dates and types of setts on the flowering of **white** *yam* (Dioscorea rotundata, Poir) varieties. 122414
White *yam* (Dioscorea rotundata) yield trials: summary of results 1957-1964. 122416

YARNS
A contribution to the study of cotton, polyester and **blend** *yarn* hairiness. 117118
Processing of **rotor** *yarns* [Cotton]. 117194
Closer to the dream [Prototype cotton processing system to continuously process raw cotton **stock** into *yarn].* 117061
A new contribution to the study of the influence of rotor cleanliness on the properties of open-end spun [cotton] *yarns.* 4. 117119

YEARLINGS
Diseases of *yearling* **feedlot** cattle in Colorado. 118480
Sudden deaths in *yearling* **feedlot** cattle. 118481
Atypical interstitial pneumonia in *yearling* **feedlot** cattle [Micropolysporum faeni as possible causal agent]. 118780
Bronchiectasis in *yearling* **feedlot** cattle. 118781
Shipping fever pneumonia in *yearling* **feedlot** cattle. 118783
Brisket disease in *yearling* **feedlot** cattle. 119125
Bulling [an abnormal behavioral trait] among *yearling* **feedlot** steers. 119126
Embolic pulmonary aneurysms in *yearling* **feedlot** cattle. 119130
Fatal abomasal ulcers in *yearling* **feedlot** cattle. 119131
Vitamin D in the diet of **thoroughbred** *yearlings.* 118082
Osteoma in the maxillary sinus of a *yearling* **Thoroughbred** colt. 119102
Farm production experiments comparing formalin-treated silage with conventional foods for **wintering** *yearling* beef cattle. 118125

YEAST
Dry **active** *yeasts* [in human medicine]. 116295
Metabolic activity of Candida lipolytica *[yeasts]* **adsorbed** on bentonites with hydrophobic chains. 120986
Quantitative of unsaturated fatty acids in microbial mutants. VI. Selective growth responses of *yeast* and **bacteria** to cis-octadecenoate isomers [Saccharomyces cerevisiae, Escherichia coli]. 120978
Effect of the abiogenic link on the predator [Protozoa] population in the development of a simple coenosis in a chemostat *[Yeasts* and **bacteria** as prey]. 121029
Composition and nutritional effectiveness of membranes of **bakers'** *yeast* (Saccharomyces cerevisiae) [Rats]. 116306
The partial purification of L-glutamine D-fructose 6-phosphate amidotransferase from **baker's** *yeast.* 116641
Hydrolytic action of aminoacyl-tRNA synthetases from **baker's** *yeast* [Saccharomyces cerevisiae]: "chemical proofreading" preventing acylation of tRNA Ile with misactivated valine. 120927
Affinity labelling of tRNA nucleotidyltransferase from **Baker's** *yeast* [Saccharomyces cerevisiae] with tRNAPhe modified on the 3'-terminus. 121045
Loss of inducible D-galactose transport by **baker's** *yeast* [Saccharomyces cerevisiae] after osmotic treatment. 121065
Genetic analysis of flocculation in Saccharomyces cerevisiae and tetrad analysis of commercial brewing and **baking** *yeasts.* 120724
Invertase biosynthesis by Saccharomyces carlsbergensis *[yeasts]* in **batch** and continuous cultures. 120960
Identification of polysaccharide-producing **black** *yeasts* [Rhinocladiella, decay of wood pulp and paper]. 119757
Toast your good health with **brewer's** *yeast* [Health foods]. 116537
Microecological studies on lactic acid bacterial flora of molasses distilleries. III. Cultivation of the **brewers'** *yeast* Saccharomyces cerevisiae race M with some isolated lactic acid bacteria from molasses distilleries in continuous mixed cultures. 116664
Production of single-cell protein by the cultivation of *yeast* **[Candida** utilis] in anaerobic digester supernatant supplemented with carbohydrates. 116722
Candidiasis in ducks [caused by the *yeast* **Candida** albicans]. 118727
Effects of photoprotection and reversible inactivation of *yeast* **Candida** guilliermondii induced by 313nm [ultraviolet] light. 121031
Oxyhydroquinone—an intermediate compound of the preparatory metabolism of para-oxybenzoic acid in *yeast,* **Candida** tropicalis. 121035
Cyanide and antimycin A nonsensitive respiration of mitochondria of the *yeast* **Candida** lipolytica. 121096
Some properties of mitochondria of the *yeast* **Candida** lipolytica. 121097
Environmentally induced changes in mitochondria and endoplasmic reticulum of Saccharomyces **carlbergensis** *yeast.* 121174
Dual control of invertase biosynthesis in chemostat culture [Saccharomyces **carlsbergensis,** *yeasts].* 120959
Instability of *yeast* **cell** sensitivity to the [lethal] action of nitrous acid [Genetic factors]. 120622
Exchange of phospholipids between mitochondria and microsomes in vitro stimulated by *yeast* **cell** cytosol [Saccharomyces cerevisiae]. 120929
Modes of flocculation of *yeast* **cells** with flocculant produced by Aspergillus sojae AJ7002. 120858
Lysine and arginine requirement of Ustilago cynodontis [Fungi] 4001 *yeast-like* **cells.** I. Growth in the presence and in the absence of lysine. 120889
Dielectric properties of *yeast* **cells** [Saccharomyces cerevisiae]. 121191
Protein crystals and bundles of tubules in *yeast* **cells.** IV. Biochemical and electronmicroscopical studies on the induction of crystals of alcohol dehydrogenase (ADH) [Saccharomyces carlsbergensis]. 121389
Isolation and purificaton of the sexual agglutination substance of mating type a cells in Saccharomyces **cerevisiae** *[Yeast].* 120587
Organelle genetics in Saccharomyces **cerevisiae** *[Yeast].* 120728
Inactivation by glucose of phosphoenolpyruvate carboxykinase from Saccharomyces **cerevisiae** *[Yeasts].* 120910
Isolation and characterization of the liponucleotides of Saccharomyces **cerevisiae** *[Yeasts].* 120930
Role of transfer ribonucleic acids in the regulation of several biosyntheses in Saccharomyces **cerevisiae** *[Yeasts].* 121048
A simple method for the isolation and characterization of tyhymidylate uptaking mutants in Saccharomyces **cerevisiae** *[Yeasts].* 121281
Near ultraviolet light inactivation of an energy-independent membrane transport system in Saccharomyces **cerevisiae** *[Yeasts].* 121313
Binding proteins and transport in Saccharomyces **cerevisiae** *[Yeasts].* 121381
Chromosomal genes essential for replication of a double-stranded RNA plasmid of Saccharomyces cerevisiae: the killer **character** of *yeast.* 120773
Assay of phosphoenolpyruvate carboxykinase in **crude** *yeast* extracts [Saccharomyces cerevisiae]. 120883
Proteins of *yeasts* **cultivated** on alkanes. 116551
Cytological and chemical changes in cell walls of Rhodotorula gracilis. III. Characteristics and live **cycle** of the *yeast.* 121064
Isolation of a purified skin test antigen from Blastomyces **dermatitidis** *yeast-phase* cell wall [Guinea pigs]. 118762
The shape of dose-effect curves for **diploid** *yeast* cell irradiated with ionizing particles. 121082
Delayed plating recovery in **diploid** *yeast* [Saccharomyces cerevisiae] of different sensitivities after X-ray and alphaparticle exposure. 121147
Dependence of radiation response of **diploid** *yeast* [Saccharomyces cerevisiae] upon growth phase and LET [Lineal energy transfer]. 121148
Determination of the cell count of a yeast suspension and computation of the *yeast* **dose** by means of a nomogram [Fermentation]. 116796
The fine structure of conidial development in the genus Torula. IV. Torula thermophila Cooney **& Emerson** *[Yeasts].* 120446
A preliminary investigation into the role of *yeasts* in the **ensiling** process. 117354
Production of *yeasts* on **fatty** matters of animal and plant origin for human nutrition. 116760
Fatty acid composition of adipose tissue and liver fats of the rats **fed** *yeast* grown on n-alkanes. 116455
Studies of the utilization of coconut water waste for the production of the **food** *yeast* Saccharomyces fragilis. 116774
Yeasts in **freshwater** fishes [Contamination]. 116045
Antibiotic activity of phospholipids from some microorganisms [including *yeasts* and other **fungi].** 121091
Disseminated cryptococcosis [an infection caused by the *yeast-like* **fungus** Cryptococcus neoformans] with ocular involvement in a dog. 118776
In vivo purification of mitochondrial genes in petite mutants of *yeast:* the **genetic** and biochemical characterization of mutants enriched in mitochondrial ribosomal RNA cistrons. 120754
Killer of Saccharomyces cerevisiae: a double-stranded ribonucleic acid plasmid *[Yeasts,* **genetics].** 120585
The regulation of enzyme synthesis in arginine metabolism of Saccharomyces cerevisiae *[yeast,* **genetics].** 120733
Further studies on the intracellular behavior of Torulopsis **glabrata** *[Yeasts].* 121144
Transport interactions among sugars in Rhodotorula **glutinis** *[Yeasts].* 121387
Effect of the composition of the nutrient medium on the biosynthesis of lipids by Rhodotorula **gracilis** K-1 [the *yeast].* 121093
Active transport of monosaccharides as a general property within the **group** of *yeasts.* 121379
Protein and other compositional analyses of Saccharomyces fragilis *[yeasts]* **grown** on coconut water waste. 116773
Yeasts **grown** on normal alkanes as protein source for dairy cows. 117978
N-alkane oxidation by Candida tropicalis. I. Hypothetical role of catalase enzyme and the microbodies in **hydrocarbonassimilating** *yeast.* 121043
Mutants of Saccharomyces cerevisiae utilizing **hydrocarbons** *[Yeast].* 120727
Isolation and properties of cytoplasmic L(+)-lactatoxydase of Candida **lipolytica** *yeasts.* 120941
Yeasts and **meat:** occurrence, systematology and differentiation. 116148

Discrimination between cholesterol and ergosterol by *yeast* **membranes** [Saccharomyces cerevisiae]. 120922
Ultrastructure of microbodies of **methanol-assimilating** *yeasts* [Candida, Saccharomyces, Torulopsis]. 120486
Binding of complementary oligonucleotides to amino-acylated tRNAPhe from *yeast* **[Micrococcus** luteus]. 120920
The isolation and properties of a DNA-directed RNA polymerase from *yeast* **mitochondria** [Saccharomyces cerevisiae]. 120936
Permeability of the inner membrane of *yeast* **mitochondria:** relationship between structure and activity [Saccharomyces cerevisiae]. 120938
Kluyveromyces blattae sp. N., a new **multispored** *yeast* from blatta orientalis. 119946
Controlling protein evolution [Saccharomyces cerevisiae, *yeasts,* **mutation].** 120627
Estimation of the molecular length of petite **negative** *yeast* [Torulopsis colliculosa] mitochondrial DNA. 121051
Pichia scutulata *[yeasts],* a **new** species from tree exudates. 120079
On the effect of glucono-delta-lactone on the *yeast* **Pichia** polymorpha. 120913
Asymmetric distribution of concanavalin A binding sites on *yeast* **plasmalemma** and vacuolar membrane [Saccharomyces cerevisiae]. 120906
Physiology of the carbohydrate utilization patterns of *yeasts*—a **problem** desiring transport resolution. 121384
Localization of mannan at the surface of *yeast* **protoplasts** by scanning electron microscopy [Saccharomyces cerevisiae, candida utilis]. 120912
Thermotolerance of Candida *[yeasts].* **Relationships** with ecology, pathology and taxonomy. 120890
Phenylalanine ammonia-lyase. Induction and purification from *yeast* **[Rhodotorula** glutinis] and clearance in mammals [Rabbits]. 121168
Performance of pigs fed different levels of **Saccharomyces** *yeast* [Saccharomyces cerevisiae] substituting fish meal in molasses diets. 118046
Saccharomyces *yeast* as a by-product from alcohol production on final molasses in diets for broilers. 118048
Naturally occurring cross-links in *yeast* **[Saccharomyces** cerevisiae] chromosomal DNA. 120449
Circular DNA in the *yeast* **Saccharomyces** cerevisiae in relation to informosomal DNA and mitochondrial genetics. 120753
The formation of exchangeable sulphite from adenosine 3'-phosphate 5'-sulphatophosphate in *yeast* **[Saccharomyces** cerevisiae]. 120926
Maturation of ribosomes in *yeast* **[Saccharomyces** carlsbergensis]. I. Kinetic analysis by labelling of high molecular weight rRNA species. 120932
Maturation of ribosomes in *yeast* **[Saccharomyces** carlsbergensis]. II. Position of the low molecular weight rRNA species in the maturation process. 120933
The role of cell proteinases in the biogenesis of mitochondria [in *yeast,* **Saccharomyces** cerevisiae]. 121039
Formation of dolichol monophosphate 2-deoxy-D-glucose and its interference with the glycosylation of mannoproteins in *yeast* **[Saccharomyces** cerevisiae]. 121046
Inhibition of Neurospora crassa [Fungi] and *yeast* **[Saccharomyces** cerevisiae] mitochondrial protein synthesis by ricin [from castorbeans], a toxic protein inactive on Escherichia coli protein synthesis. 121052
Yeast **[Saccharomyces** cerevisiae] chromatin structure. 121055
Alterations of the heterogeneity of mitochondria in the aerobic growth of the *yeast* **Saccharomyces** cerevisiae. 121095
Replication initiation in *yeast* **[Saccharomyces** cerevisiae] chromosomes. 121114
The molecular biology of *yeast* **[Saccharomyces** cerevisiae] killer factor. 121145
Characterization of *yeast* **[Saccharomyces** cerevisiae] ribosomal DNA fragments generated by EcoR1 restriction endonuclease. 121282
Determination of the cell count of a *yeast* **suspension** and computation of the yeast dose by means of a nomogram [Fermentation]. 116796
Environmental conditions for acetoin production by *yeast* **[Torulopsis** colliculosa] & bacterial [Enterbacter] strains. 121135
Role of acetaldehyde in acetoin synthesis in *yeasts* **[Torulopsis** colliculosa] & bacteria [Enterobacter]. 121141
Adaption of the Kotyk's carrier theory to the active monosaccharide **transport** of *yeasts.* 121380
On the mechanism of microbial cell destruction during ballistic disintegration processes [Schizosaccharomyces pombe, Candida **utilis,** *yeasts].* 121044
The hydrothermal degradation of cellulosic matter to sugars and their fermentative conversion to protein [Candida **utilis,** *yeasts].* 121158
Investigation of aroma-producing substances in **wine** *yeast.* 117237
Studies on the feeding value of **wine** *yeast* in trials with sheep and swine. 117999
Sulphite reductase and ATP [adenosine triphosphate] sulfurylase in low- and high-sulphite forming **wine** *yeasts* [Saccharomyces, Candida]. Relationship to sulphite accumulation during fermentation. 120916

YELLOW

Relations of the semi-persistent viruses, parsnip yellow fleck and **anthriscus** *yellows,* with their vector, Cavariella aegopodii. 122816
The role of the helper virus, **anthriscus** *yellows,* in the transmission of parsnip yellow fleck virus by the aphid Cavariella aegopodii. 122817
Barley *yellow* rust [caused by Puccinia striiformis]. 122773
Barley *yellow* rust [caused by Puccinia striiformis] and its control. 122774
Biology of germination of the seed of *yellow* **gentian** [Gentiana lutea]. 120961
Field control of coconut **lethal** *yellowing* [caused by mycoplasmalike organisms] with oxytetracycline hydrochloride. 122859
Effect of various levels of molybdenum fertilizer on the *yellow* **lupine.** 125081
Downy **mildew** *(yellow* wilt) of rice caused by Sclerophthora macrospora: first report of the occurrence of the disease in India. 122749
Preferential pollination of *yellow-flowered* **morphs** of Raphanus raphanistrum by Pieris and Eristalis spp. 121297
Post infection changes in nitrogen metabolism of pumpkin (Cucurbita maxima D.) as affected by *yellow* **mosaic** virus. 122843
Aspects of epidemics of *yellowing* and **mosaic** of sugarbeets. I. Symptoms, means of transmission, methods of identification, vectors [Virus diseases, insect vectors]. 122866
Studies on the natural pigment of horticultural crops. 3. Some properties of **natural** *yellow* color in Curcuma [longa] rhizome and its application. 121724
Control of *yellow* **nutsedge** [Cyperus esculentus] by various herbicides. 123118
Control of *yellow* **nutsedge** [Cyperus esculentus] in field crops. 123119
Control of *yellow* **nutsedge** [Cyperus esculentus] in turf. 123120
Growth, development, and physiology of *yellow* **nutsedge** [Cyperus esculentus, weed control]. 123130
Taxonomy, morphology, anatomy, and composition of *yellow* **nutsedge** [Cyperus esculentus, weed control]. 123150
The problem: *yellow* **nutsedge** [Cyperus esculentus]. 123157
Tuber chemical composition variation among *yellow* **nutsedges** [Cyperus esculentus]. 123159
Relations of the semi-persistent viruses, **parsnip** *yellow* fleck and anthriscus yellows, with their vector, Cavariella aegopodii. 122816
The role of the helper virus, anthriscus yellows, in the transmission of **parsnip** *yellow* fleck virus by the aphid Cavariella aegopodii. 122817
Pigments of Cytinus hypocistis. I. Isoterchebin, the *yellow* **pigment** of Cytinus hypocistis (Rafflesiaceae, parasitic plants). 121228
Removal of oily soils. 2. The relation of *yellowing* and **residue** with hard ions on [laundered] fabrics. 116598
Appearance and control of *yellow* **rust** (Puccinia striiformis) on wheat in the area of the Hanover Plant Protection Board in 1975. 122669
Yellow **starthistle** [Centaurea solstitialis]: a major range weed problem. 123079
Inhibition of **turnip** *yellow* mosaic virus synthesis by pyrimidine analogues. 122823
Sites of coat protein accumulation in **turnip** *yellow* mosaic virus-infected cells. 122878
The proteins of sowthistle [Sonchus oleraceus] *yellow* **vein** virus [transmitted by the aphid Hyperomyzus lactucae]: characterization and location. 122847
Studies on the influence of infection with mosaic (Beta virus 2) and *yellows* (Beta **virus** 4) on the yield quality of sugarbeet seeds. 122836

YIELD

Yielding **ability** of major [field] crop species in various environmental conditions of Poland. 122057
Lighting of leaf canopy and the *yielding* **ability** of Zimny Zolotoy Parmen as affected by the planting pattern and the form of the crown [Apples, varieties]. 122499
A note on the effect of ethylene diamine tetraacetic acid and ferrous ammonium sulphate on *yield* of **Allium** cepa [Onions]. 121778
Effect of the systemic fungicide PP 149 on rate of powdery mildew infection, *yield* **amount,** morphology and tissue structure of leaves in summer barley varieties. 122610
Analysis of Australian wool sold at auction in Australia 1973/74 season. Analyses by: wool types, **average** *yields,* average clean prices. 115761
Study of the effect of the time of farrowing and the type of harrows on the weediness and *yield* of **barley.** 122150
Grading procedure found to reflect retail yields **[Beef** *yield* grades]. 116096
Influence of plant density on *yield* and some **bioagronomic** characters in tall and short sunflower varieties. 122122
Influence of seedling methods and nitrogen fertilization on *yield* and **botanical** composition of a white clover-tall fescue mixture in mountain. 122123
The effects of a granular nitrogen fertilizer and a foliar spray of urea on the *yield* and **breadmaking** quality of ten winter wheats. 125019
Relationship of corn rootworm [Diabrotica] tolerance to *yield* in the **BSSS** [Iowa Stiff Stalk Synthetic] maize population. 123311
Effects of planting systems on *yield,* **bulb** quality nitrogen fertilizer utilization of garlic (Allium sativum L.). 122297
Effects of intraspecific competition on the components of the *yield* of **bush** snapbeans. 122463
Summary of 1975 regional wheat variety performance trials for the Sacramento and San Joaquin Valleys of **California** *[Yields].* 121864
Summary of 1975 standard rice variety performance trials in **California** *[Yields].* 121865
Candy technology. II. Brining of pitted cherries and **candying** *yield.* 117270
Effect of inhibition of flowering on improvement of [sugar] **cane** *yield* and juice quality under Coimbatore conditions. 122021
Genetic analysis of some quantitative characters determining the *yield* **capacity** of maize. 120641
Carcass *yield* in two strains in chickens for meat production. 117055
Effect of the time of seedling raising on the *yield* of **cauliflower.** 122282
Yield of **cereals** and the removal of nitrogen, phosphorus and potassium on Sod-Podzolic loamy soil in the Belorussian SSR in relation to the level of nutrition. 124951
Yield **characteristics** of Theobroma cacao L. With special reference to studies in Nigeria. 122545
Effect of inorganic fertilizers on the *yield,* **chemical** composition of meadow foxtail [Alopecurus pratensis] and the regime of nutrients in Peat-Bog soils of the Kola Peninsula. 124927
Direct, residual and cumulative effects of applied zinc on *yield,* **chemical** composition and ion uptake by rice and wheat crops in a fixed rotation under field condition. I. Effect on rice crop. 124985
Agronomic aspects of plant **competition** *[Yields].* 122113
Effects of rate of planting on yield and some *yield* **components** of sugarcane. 121891
Variability of *yield* **components** of rye varieties in dependence on some agronomical practices. 121935
Effects ofplant population and row spacing on *yield* and **components** of yield of navy beans (Phaseolus vulgaris L.). 122420
Yield and **compostion** of tall oil from oxygen-alkali pulped thermomechanical fiber. 119826
Senility problem in the greenhouse cucumber (Cucumis sativus) crop: effect of daylength on *yield* and **content** of abscisic acid-like growth inhibitors. 121603
Leaf area and photosynthetic active radiation as related to **corn** *yield.* 121557
The effect of plant population and nitrogen on **corn** *yield* in a well-watered field. 122136
Corn *yield* response to limited irrigations, High Plains of Texas. 125341
Formation of the major structural elements of the **cotton** *yield* in relation to the variety and fertilizer [Applied]. 121403
Do sunspot cycles affect [field] **crop** *yields?* [Weather]. 115112
Management problems for assuring a high field **crop** *yield* in all Cooperative Plant Production Sections, Agricultural Producers' Cooperatives and State Farms [East Germany]. 115411
Removal of nutrients with the *yield* of **crops** [cereals, sugarbeets, alfalfa] on irrigated Dark-Chestnut soils. 121405
Effect of methods of major soil tillage on the *yield* of **crops** in a rotation with sugarbeets. 121975
A possible relationship between chemotype and *yield* of **cultivated** guavas. 121647
The adoption and effects of *high-yielding* **[dwarf]** wheats on unirrigated subsistence holdings in Pakistan [Farm management, acreage]. 115379
Effects of seed size and spacing of seed tubers and stems on *yields* of **early** and canning potatoes. 122387
Relationship of plant population and arrangement on *yield* and **early** maturing of bush snap beans. 122465
The normal forest. Economy and forest *[yield]* **estimate.** 119502
The large area crop inventory experiment (Lacie). II. *Yield* **etimates** from meteorological information [Remote sensing]. 115157
Water use by irrigated cotton in the Sudan. IV. Water use potential **evaporation** and *yield.* 125304
Some relationships among mathematical laws of plant competition and laws of *yield* **factors.** 120396
Dispersion analysis of the data of a four-factor field experiment [on the *yield* of **farm** crops]. 121843
Effect of different methods of main soil tillage on the alteration of its volumetric weight and the *yield* of **farm** crops [Wheat, sugarbeets]. 125157
Purpose-oriented political-ideological and vocational effortof veterinary personnel and cooperative **farmers** *yields* good results in implementing principal task formulated by. 115954
Pollination [self and cross-pollinating] as a factor limiting the *yield* of **field** beans (Vicia faba L.). 120763
Effect of inorganic fertilizers, manure and lime in long-term application in a crop rotation on the *yield* of **field** crops and on soil fertility. 124925
Yield from the **first** thinning [Pinus, Picea]. 119444
High, stable **fodder** *yields* of maize by assuring its water and nutrient requirements. 121923
A comparison of five tropical legumes **[Forage** *yields].* 121881
Effect of plant density, irrigation and fertilization on grain and **forage** *yield* of different corn hybrids. 122117
Relationship between plant population and lay to *yield* of **forage** corn and Vigna sinensis [cowpeas] intercropping. 122131
Seed and **forage** *yields* in the alfalfa for dryland culture as affected by seed rate, variety and period of use. 122134
Yields of **forages,** leaching of nitrate and nitrogen balances in an irrigated field treated with dry and liquid manures. 124881

Effect of nitrogen nutrition of barley on the *yield* **formation** and brewing characteristics of grain. 125080
Performance of Marsh seedless grapefruit on six rootstocks in Cyprus *[Yields,* **fruit** quality, growth]. 122403
Effect of sodium upon *yields* and **fruiting** characteristics of Acala and Pima cotton [Toxicity]. 123026
Quick-yielding **fruits** for the new property [Berries]. 122432
Performance of small grain varieties in **Georgia,** 1975-1976 *[Yields].* 122104
Effect of carbon dioxide enrichment on growth, development and *yield* of **glasshouse** tomatoes. II. The duration of daily periods of enrichment. 122399
Effect of row spacing on *yield* and **grade** distribution of Norgold Russet and other potato varieties grown on the Texas High Plains. 122419
Effect of seed size and spacing on the *yield* and **grading** of "pentland" potatoes [Varieties]. 122462
Effect of plant water deficits of various growth stages on growth, **grain** *yield* and leaf water potential of irrigated grain sorghum [Drought tolerance]. 122059
The epidemiology of common root rot [Cochliobolus sativus] in Manitou wheat. IV. Appraisal of biomass and **grain** *yield* in naturally infected crops. 122590
A note on the effect of sheep grazing on the *yield* of **grass** swards. 122020
Insect sprays boost **grass** *yield.* 123304
Effect of oat companion crop on the growth and *yield* of **grasses** and legumes [in Hokkaido]. 122101
Metabolism and **growth** *yields* in Bacteroides ruminicola strain B14 [found in the rumen]. 117828
The use of whole plot data from progeny trials with cocoa (Theobroma cacao L.) in Ghana *[Yields* and **growth].** 122539
Proven practices to boost bajra [pearmillet] *yield* in **Haryana.** 121919
Bandelstorf interfarm organization in crop production: **high** *yield* of field crops through use of socialist management [East Germany]. 115404
Evaluation of the **High** *Yielding* Varieties Programme (paddy) in West Bengal [rice]. 115901
Association analysis Vigna aconitifolia [moth bean] (Jacq.) Marechal [for selection of **high** *yielding* lines]. 120819
Higher *yield:* cold grinding of spices. 117242
High-temperature treatment (blindstoken) of bulbs of tulip cv [cultivar] Rose Copland for flower killing and *yield* **improvement.** 122402
The *"yield* **increase"** of malting barleys and other replies ng from around an emission source. 122043
The application of the Backman-equation on R. **Kiss'** *yield* tables of Quercus robur. 119442
The *yields* of **leaf** protein and fibre that can be obtained from fractionation of berseem (Trifolium alexandrinum L.) [egyptian clover]. 117351
Investigation on competition among Brachypodium pinnatum Beauv. and some forage grasses and **legumes** *[Yields].* 122125
Growth and *yield* of **Lord** Lambourne and Red Delicious trees [varieties] on eight apple rootstocks in Cyprus. 122401
Yield **losses** in south Georgia field corn resulting from damage by several insects [Heliothis zea, Sathrobrota rileyi, Sithophilus zeamaize]. 123321
Contribution of climatic variables in predicting **maize** *yield* under monsoon conditions. 121394
Magnitude and quality of *yield* of **maize** cultivated within crop rotation and in monoculture. 122145
Effect of soil tillage on a slope on the *yield* of the **maize** green mass. 122147
Relationship between milk progesterone concentration and **milk** *yield,* fat and total nitrogen content. 116855
Genotype-environment interaction for **milk** *yield* in dairy cattle. 117455
Modifying effect of daily **milk** *yield* on heat tolerance in cattle. 117720
Studies with ammonized straw pellets used as sole basal diet in the feeding of ruminants. 2. Studies on processes of ruminal fermentation in relation to milk composition and the **milk** *yields* of cows. 118005
High **milk** *yields* from dried lucerne [Dairy cattle]. 118066
Aggressiveness of grasses in polyphytic associations in **mountain** *[Yields].* 122112
Influence of peroxide and polyelectrolyte treatments on germination, seedling emergence and *yield* [**Navy** beans, soybeans, sugarbeets]. 121545
Effects ofplant population and row spacing on yield and components of *yield* of **navy** beans (Phaseolus vulgaris L.). 122420
Yield of **old** field shortleaf pine plantations in Virginia. 118870
Effect of ethephon on rate of bulb enlargement, maturity, and *yield* in **onions.** 121665
Evaluation of New Zealand herbage cultivars **overseas** *[Yields].* 122063
Effect of ethephon latex stimulant on papaya (Carica papaya L.) **[Papain** *yields* and quality of fruits]. 122400
Influnce of dwell time of dissolved fibers in cooking liquor on the *yield* of **paper** pulps. 119781
Effects of blending gynoecious and monoecious cucumber seeds on *yield* **patterns.** 122334
Response of Pima and Acala cottons to planting over a 3-month period at **Pecos** *[Yields].* 122085
Yield **performance** and reliability of cereals after various preceding crops [Susceptibility to Gaeumannomyces graminis and Cercosporella herpotrichoides]. 122680
Biomass and *yield* of **phytoplankton** and the eutriphication of the Lake Balaton [Hungary]. 121076
Soybean variety evaluation in the Texas High **Plains** *[Yields].* 122096
Potato variety and advanced selection evaluations on the Texas High **Plains** *[Yields].* 122449
Studies on the performance of alfalfa swards. IV. Effects of varieties, cutting frequency and fertilizer levels on the *yield* and **plant** numbers. 122060
Effect of dichlorophenoxyacetic acid on fiber flax **plants** *[Yields].* 123057
Recent findings on determining the harvesting ripeness, leaf development and *yield* of **potato** stands. 122296
Brazos rice (CI 9875): description and *yield* **potential** [Varieties]. 122077
Effect of inorganic fertilizers and sowing rates on the sowing and *yielding* **properties** of spring wheat seeds. 125083
Introduction of wheat-Agropyron hybrids of a forage-grain type in Donbass *[Yield,* **protein** and vitamins content]. 121434
Effect of nitrogen and zinc on *yield,* **protein** content and quality of wheat in Egypt. 121514
Effect of monuron and monolinuron on growth dynamics, *yields* and **qualitative** changes of winter rye against the background of various nitrogen, phosphorus and potassium fertilization rates. 123192
Effect of the location of seeds on the peavine plant on the *yielding* **qualities** [Varieties]. 122148
Combination of *yield* and **quality** in brewing barley. 117076
Effect of organic and inorganic fertilizers on the transformation of sulfuric compounds in winter wheat plants, *yield* and **quality** of grain. 121401
Effect of growing location of barley on the amount and **quality** of the *yield.* 121564
Effects of four rootstocks on *yield* and **quality** of pistachio [Pistacia] nuts. 121703
The effect of soil moisture and nitrogen on *yield* and **quality** of the Russet Burbank potato. 122184
Studies on the influence of infection with mosaic (Beta virus 2) and yellows (Beta virus 4) on the *yield* **quality** of sugarbeet seeds. 122836
Effect of treating barley crops with dichlorophenoxyacetic acid and the retardant chlorocholine chloride on the **quality** of the *yield.* 123195
Effect of fertilizers on the *yield* and **quality** of potatoes grown in crop rotation and in monoculture. 124922
Effect of fertilizers on the *yield* and **quality** of winter wheat grain on eroded mountainous Chestnut soils. 124923
Increase of *yield* and **quality** of winter wheat grain as affected by fertilizers in dryland farming in the zone of unstable moistening in Azerbaijan. 124941
Effect of the levels and time of the application of nitrogenous fertilizers on the *yield* and **quality** of winter wheat grain. 125076
Effects of high amounts of potassium fertilizers on the *yield* and **quality** of sugarbeets. 125082
Effect of increasing liquid manure fertilization rates on magnitude and quality of black **radish** *yield.* 125071
Photosynthetic **rate**—*yield* component relationships in winter greenhouse tomatoes. 121677
Yield, **rate** of growth an dmorphological characteristics of the roots of the carrot (Daucus carota L.) in autumn-winter-spring cycle, in relation with plant population and fertilization. 122467
Effects of waterlogging on the growth of peas [Chlorosis, **reduction** of *yield].* 122892
Barley and its environment. VI. Growth and development in **relation** to *yield.* 121157
Effect of potassium fertilizers on [crop] *yields* and **removal** and utilization of nitrogen, phosphorus, and potassium by winter rye. 124937
Yield **response** of eight forage species subjected to inter-and intraspecific competition. 122141
Yield **response** of sulla sweet vetch (Hedysarum coronarium l.) to different seed types and seeding modalities. 122142
Yield **response** of sulla sweet vetch (Hedysarium coronarium L.) to different seed quantities and seed spacing. 122143
Grading procedure found to reflect **retail** *yields* [Beef yield grades]. 116096
Effects of aerating rice during laboratory milling on milled **rice** *yields.* 117174
Effects of molinate-propanil combinations on **rice** *yield* [Commelina, Leptochloa, Echinochloa]. 123176
Effect of phosphorus fertilization on **rice** *yield.* 125058
Effect of sowing rate and sowing date on lupin **seed** *yield.* 122047
Effects of planting pattern and sowing method on the **seed** *yield* of safflower, oilseed rape, and lupin. 122048
Effects of sowing rate and row width on the **seed** *yield* of three grasses [Lolium multiflorum, Dactylis glomerata, Festuca arundinacea]. 122119
Influence of harvesting, seed density and row spacing on alfalfa **seed** *yield.* 122121
Influence of sowing modalites and thinning on alfalfa **seed** *yield.* 122124
Effects of fertilizer and moisture on **seed** *yield* of onion. 122335
The significance of nitrogen nutrition to the **seed** *yield* and its relating characters of soybeans, with special reference to cool summer injury. 125064
Effect of irrigation regime and mineral nutrition on the *yield* of **seeds** [of sugarbeets] and their productive properties. 125244
Effect of the nematode Pratylenchus brachyurus on the growth, nutrition and *yields* of **"Smooth** Cayenne" pineapple. Influence of fertilizer placement. 122928
Grain **sorghum** *yield* response to cutting treatments at different stages of growth. 122081
Yield and **sowing** qualities of Mironovskaia 808 seeds at different sowing rates [Winter wheat]. 122154
Effect of inoculation with Rhizobium [japonicum] and Azotobacter [chroococcum] on nodulation, growth and *yield* of **soybean.** 121442
Soybean *yield* responses and assimilation of Zn [zinc] and cd [cadmium] from sewage sludge-amended soil. 122026
Effect of plant height on **soybean** *yield* in the Gulf Coast. 122079
Spore *yield* of pathogens in investigations of the race-specificity of host [plant] **resistance.** 122905
Regularity in the action of nitrogen in the main forms of nitrogenous fertilizers used at various rates [Effect on the *yield* of **spring** wheat, oats, barley]. 124945
Effect of sowing-time applied fertilizer against the background of the main application on the *yield* of **spring** wheat. 125075
Yield and **stability** in intraspecific mixtures [Breeding, barley, peas]. 120634
Quality of potato varieties from the point of view of **starch** *yield.* 122496
The use of premerge [herbicides] at low rates as a *yield* **stimulant** in corn—a status report. 123158
Adaptation and *yield* of **strawberry** verieties (Fragaria hibrida). 122457
Yield **structure** of barley and wheat at different nitrogen levels and at different plant densities. 124955
Effect of pre- and postsowing rolling of sugarbeet fields on the *yield* and **sugar** content of the roots in the conditions of the Armenian SSR. 121976
Effect of different methods of applying microelements on the *yield* and **sugar** content of sugarbeets. 125007
The influence of level of topping and other cultural factors on **sugarbeet** *yield* and quality. 1. 122017
The influence of level of topping and other cultural factors on **sugarbeet** *yield* and quality. 2. 122018
Soil improvement and *yield* of **sugarcane** in the Sudan [Tillage, gypsum application]. 125135
Effect of different tillage practices on the biological activity of soil and the *yield* of **sunflower.** 122146
Influence of peach seedling rootstocks on growth, *yield* and **survival** of peach scion cultivars. 121710
Kentucky hybrid corn performance **test,** 1975 *[Yields].* 122074
Kentucky soybean performance **tests**—1975 *[Yields].* 122075
Performance of Spanish peanut varieties in **Texas** *[Yields].* 122045
Comparisons of Florunner with Spanish peanut varieties in **Texas** *[Yields].* 122078
Soybean variety trials in Northeast **Texas** *[Yields].* 122094
Soybean variety performance in the northern High Plains of **Texas** *[Yields].* 122095
Timber *yields* from research plots and from real forests. Why are they different? 119530
White yam (Dioscorea rotundata) *yield* **trials:** summary of results 1957-1964. 122416
The effect of seed quantity and row spacing on *yield* of **two** varieties of forage sorghum. 122137
Response of American Pima cotton varieties to skip-row planting in the El Paso **Valley** *[Yields].* 122084
Wheat variety performance in California's Sacramento and san Joaquin **Valleys,** 1974 *[Yields].* 121866
Cereal production experiments on poorly drained clay soils *[Yields,* **varieties].** 121857
Grain sorghum performance trials at the Imperial Valley Field Station in 1975 **[Varieties,** *yields].* 121858
Grain sorghum performance trials at the Imperial Valley Field Station in 1974 **[Varieties,** *yields].* 121859
Introduction and evaluation of wheat breeding lines from Mexico **[Varieties,** *yields].* 121860
Performance of triticale during 1974 and 1975 in the Sacramento and San Joaquin Valleys of California **[Varieties,** *yields].* 121862
Production and performance of common and durum wheats at the University of California Imperial Valley Field Station in 1974 and 1975 **[Varieties,** *yields].* 121863
Development and spread of *high-yielding* **varieties** of wheat and rice in the less developed nations. 121927
Kinman and Esser: new guar **varieties** *[Yields].* 122033
Feed grain and forage production in Hawaii *[Yields,* **varieties].** 122038
Grain sorghum hybrid performance in the Northern High Plains, 1967-1972 **[Varieties,** *yields].* 122080
Performance of experimental soybean breeding lines in the Texas High Plains **[Varieties,** *yields].* 122083
Soybean breeding and evaluation trials in the Texas Gulf Coast Prairie **[Varieties,** *yields].* 122089
Soybean performance trials in the Rolling Plains of Texas **[Varieties,** *yields].* 122090
Soybean performance trials in Southeast Texas **[Varieties,** *yields].* 122091
1975 rice performance trials **[Varieties,** *yields].* 122105
Renovation and legume selection **[Varieties,** *yields].* 122156
Small grains research **[Varieties,** *yields].* 122157
Field evaluations of processing tomatoes on the Texas High Plains **[Varieties,** *yields].* 122448

Remote sensing-aided procedures for **water** *yield* estimation. 125297
Effects of selected herbicides on *yield,* **weed** control and nutrient content of sweet corn. 123126
Effects of awns of the photosynthesis and *yield* of **wheat,** Triticum aestivum. 121413
Barrier-induced microclimate and its influence on growth and *yield* of **winter** wheat [Windbreaks]. 119377
Effect of the sowing rate on the *yield* of **winter** wheat sown on a cropped fallow. 122149
The influence of (2-chloroethyl)-trimethylammonium chloride (CCC) and Septoria nodorum Berk. (Leptosphaeria nodorum, Muller) on the *yield* of **winter** wheat. 122581
Mineral nutrition and the *yield* of **winter** wheat as related to systematic application of fertilizers in a crop rotation on typical Chernozem. 124942
Effects of rate of planting on *yield* and some **yield** components of sugarcane. 121891

YOGHURT

Presence of Lactobacillus acidophilus and Lactobacillus delbrueckii in changes of **commercial** *yoghurt* [Excessive acidity]. 116851
New aseptic installation for the production of *yoghurt* [**Processing** equipment, sterilizaton]. 116895
Yoghurt **production** by lactobacillus [acidophilus] fermentation of soybean milk. 117165
Now: **soy** *yogurt.* 117063

YOLKS

Follicle cell protein synthesis and its contribution to the *yolk* of the **Cecropia** moth oocyte. 123876
The administration of oxytetracycline [antibiotics] into **chick** *yolk* sacs. 118772
Polypeptide composition of hen's **egg** *yolk* very low density lipoprotein. 117038

YOUNG

Effect of lateral shoot orientation on growth and flowering of *young* **apple** trees. 121667
The carbon budget of a *young* **apple** tree [Photosynthesis, respiration, solar radiation, temperature]. 121717
Effects of mechanical impedance on cell development in *young* **barley** roots. 121414
Urinary infiltration of the *young* **bull.** 119073
Relationships between the method of manuring and animal behavior on pastures [Dactylis glomerata]. 3. Effects of lime manuring on pastures and the grazing behavior of *young* **bullocks.** 122102
Traumatic paraplegia in *young* **bulls.** 119207
Quality of protein in milk replacers for *young* **calves.** I. Factors affecting in vitro curd formation by rennet (chymosin, rennin) from reconstituted skim milk powder. 118035
Quality of protein in milk replacers for *young* **calves.** II. Effects of heat treatment of skim milk powder and fat levels on calf growth, feed intake and nitrogen balance. 118036
Quality of protein in milk replacers for *young* **calves.** IIi. Rennet coagulation and undenatured whey protein nitrogen content of skim milk powders and commercial milk replacers. 118037
Quality of protein in milk replacers for *young* **calves.** IV. Rennet (chymosin, rennin) coagulation of reconstituted skim milk powder containing added proteins, fat, calcium, phosphate and citrate. 118038
Immune defenses in *young* **calves.** 118954
Determination of the body mass of *young* **cattle** on large farms by chest girth. 117501
Experience in rearing of *young* **cattle** [Hygiene, prophylaxis]. 118569
Nutritive muscular dystrophy of cattle. 6. Activity of serum enzymes alkaline phosphatases, aldolases, lactate-dehydrogenases and creatine-phosphokinases in the course of "white muscle disease in *young* **cattle.** 119202
Effect of stocking rate on pasture production under irrigation and growth of *young* **cattle** [Grazing]. 122062
Arterial elastin synthesis in the *young* **chick.** 117591
The effect of stimulating rates of ionizing radiation on the stability of liver cell mitochondria in chick embryos and *young* **chickens.** 117950
Protein quality of high protein wheats for *young* **children.** 116522
Growth and branching of *young* **cottonwoods** [Populus deltoides] after pruning. 121835
Control and safeguarding of udder health of conventionally reared heifers and *young* **cows** in preparation of the opening of a dairy cattle unit for 2,000 animals. 118504
Influence of slaughtering weight on carcass characteristics of F1 **crossbred** *young* bulls obtained by Friesian and Brown Alpine dams sired by Red Pied, Piemontese, Romagnola, Chianina and Marchigiana bulls. 118397
Flavomycin in **fattening** *young* bulls. 118106
Results of **fattening** *young* rams in pens. 118170
Effects of herbicides on the microflora and some hydrological and physical properties of Chernozem soil in *young* **forest** stands. 123758
Some very *young* **grapes** died in Bas-Longuedoc and Provence [caused by mildew]. 122766
New loans to *young* **households** [Agriculture]. 115483
The energy metabolism of *young* **Jersey** and Friesian calves fed fresh milk. 117561
Continuous recording of physiological variables and behaviour in *young* **lambs.** 117824
Obesity in *young* **men** after famine exposure in utero and early infancy. 116491
Male sterility caused by cooling treatment at the *young* **microspore** stage in rice plants. XII. Classification of tapetal hypertrophy on the basis of ultrastructure. 120531
Male sterility caused by cooling treatment at the *young* **microspore** stage in rice plants. XIII. Ultrastructure of tapetal hypertrophy without primary wall. 120532
Male sterility caused by cooling treatment at the *young* **microspore** stage in rice plants. XIV. Floating tapetal materials in the locular cavity. 120533
Variation of *Young's* **modulus** caused by fertilizer ratios & chemical composition of rice varieties at flowering stage. 121510
Mineralogical composition of a Danish soil developed on *young* **morainic** material. 124779
The effect of nitrogen on *young,* **newly-planted,** apple rootstocks in the presence and absence of grass [and weed] competition. 123093
Relationship of fire blight [Erwinia amylovora] resistance of *young* **pear** seedlings inoculated in the greenhouse to mature seedling trees naturally infected in the field. 122811
Irrigation management of *young* **pecan** [Carya illinoensis] orchards for best growth under saline conditions [Injuries]. 123027
Uridine diphosphoglucose dehydrogenase in the intervertebral disc [of an old sheep and a *young* **pig].** 117705
Studies on skim milk replacements in the feeding of *young* **pigs** whose suckling period was drastically restricted. 1. Comparative studies with skim milk, fish meal and extracted soybean meal fed as protein source in conjuction with whole wheat meal in a type of liquid feed. 117996
Studies on skim milk replacements in the feeding of *young* **pigs** whose suckling period was drastically restricted. 2. Replacement of skim milk by fish meal and wheat and the feeding of crude or cooked wheat in a type of liquid feed. 117997
Nutritive value of broken rice and ground flint corn for *young* **pigs** and rats. 118033
Studies on lichen-dominated systems. XVII. The colonization of *young* **raised** beaches in northwestern Ontario. 120334
Cellular immunity in Listeria [monocytogenes] **sensitized** *young* chickens: assayed by an agarose drop macrophage migration inhibition test. 118821
Some effects of barley grass seed on *young* **sheep** [Contamination of wool and the damage to lambs' pelts]. 119279
The why and how of those A.I. [Artificial insemination] *young* **sire** programs [Bulls]. 118272
Sheep grazing in a *young* **Sitka** spruce [Picea sitchensis] plantation. 122024
Investigations on the accuracy of increment measurements of *young* **spruce** [Picea] stands. 119552
New feed for *young* **swine**—increased growth and better economic results. 117360
The effect of soil temperature and of infestation by Pratylenchus loosi on the growth and nutrient status of a susceptible and tolerant variety of *young* **tea** (Camellia sinensis L.). 123040
The situation of *young* **technicians** in the wood industry and possibilities for extension training. 119237
Amputation of wings in *young* **turkeys** and the effect of this operation on their growth and development. 117500
Gentamycin in *young* **turkeys** [Antibiotic residues, toxicity]. 119280
Thyroidal influence on gastrocnemius and sartorius muscle growth in *young* **White** Leghorn cockerels. 117700
Chemical and mechanical maintenance [Control of weeds in *young* **windbreaks** and shelterbelts]. 123184
Investigations of the competition between valuable broadleaved species in *young* **woods.** 120352
Comparative study of X-ray action (LD 50/30) on the thymus and bursa Fabricii of *young* **Wyandotte** breed chicks (Gallus domesticus). 117916

YOUTH

Socialist competition in *youth* **collectives** in new production conditions [in rural areas of Moldavia]. 115392
Spotlight on a *youth* **conservation** commission [South Carolina]. 125559
The role of women and *youth* in **IRD** [integrated rural development] projects. 115887
The role of women and *youth* in **IRD** [integrated rural development] projects [Iran]. 115888
The **rural** *youth* [Rural-urban population migration]. 115127

ZABRUS

Investigation on [wheat] seed and soil treatments [with lindane] against larvae of *Zabrus* spp. and **Anisoplia** spp. cereal pests in Central Anatolia. 123290

ZANTEDESCHIA

Thielaviopsis root rot of arum lily *[Zantedeschia* **aethiopica].** 122679

ZEA *see* MAIZE

ZEARALENONE

Use of the insecticide naled to **control** *zearalenone* production [by the fungus Fusarium graminearum]. 123724
Zearalenone-producing **species** of Fusarium on barley seed. 122569
Spectroflurometric determination of *zearalenone* (F2) **toxin** in maize. 116080

ZEBUS

Major breeds of *zebu* **cattle** from India and its utilization in breeding work. 118313
Reproductive performance of *Zebu* **compared** with Charolais X Zebu females in a humid tropical environment. 118211
Effect of different planes of nutrition on water metabolism in **dry** *Zebu* cows. 118077
Reproductive performance of Zebu compared with Charolais X *Zebu* **females** in a humid tropical environment. 118211

ZEDOARIA *see* CURCUMA

ZERCONIDAE

Contribution to the knowledge of *Zerconidae* **fauna** from North Korea (Acari: Mesostigmata). 124431

ZETA

Zeta **potential** measurements during paper manufacture. 119792

ZINC

Transferrin function in *zinc* **absorption** and transport [Rats]. 116542
Effect of zinc deficiency and varying zinc supplements on the rate of *zinc* **absorption** and zinc retention in dairy cows. 117984
Regulation by *zinc* and **adenosine** 3',5'-cyclic monophosphate of growth and citric acid accumulation in Aspergillus niger [Fungi]. 120987
Direct, residual and cumulative effects of **applied** *zinc* on yield, chemical composition and ion uptake by rice and wheat crops in a fixed rotation under field condition. I. Effect on rice crop. 124985
Soybean yield responses and assimilation of Zn *[zinc]* and **cd** [cadmium] from sewage sludge-amended soil. 122026
Airborne Pb [lead], Cd [cadium], Zn *[zinc],* and **Cu** [Copper] concentration by particle size near a Pb smelter [Farm]. 125386
Zinc **deficiency** in the weanling rat: effects on liver compositon and polysomal profiles. 116444
Effect of *zinc* **deficiency** and varying zinc supplements on the rate of zinc absorption and zinc retention in dairy cows. 117984
Photosynthesis and carbonic anhydrase activity in *Zn[zinc]* **deficient** peaches irradiated with ultraviolet light. 121676
Comparison of **dietary** *zinc* levels for reproducing sows and the effect of dietary zinc and calcium on the subsequent performance of their progeny. 118088
Photoperiodicity, 65Zn *[zinc]* **elimination,** and egg production in Heliothis virescens. 124038
The citric acid fermentation by Aspergillus niger [Fungi]: regulation by *zinc* of **growth** and acidogenesis. 120989
Forms of natural and **introduced** *zinc* in soils and its uptake in plants [Contamination with radioactive zinc 65 isotope tested on oats and maize]. 116018
Effect of endogenic factors on the ash content and the content of calcium, magnesium, potassium, sodium, phosphorus, *zinc,* **iron,** copper and manganese in the bristles of pigs. 5. Mineral composition of pig bristles as influenced by pregnancy and lactation. 117574
Magnesium, calcium and *zinc* **levels** of maternal and fetal tisues in magnesium deficient rats. 116434
Effects of nonfumigant nematicides on root populations and manganese and *zinc* **levels** in rough lemon seedlings infected with the citrus nematode, Tylenchulus semipenetrans. 123016
New Zealand peat-sand **mixes,** including the use of *zinc.* 124968
Variations in concentrations and interrelationships of phytate, phosphorus, magnesium, calcium, *zinc,* **nd** iron in wheat varieties during two years. 117125
Some effects of copper, cobalt, cadmium, *zinc,* **nickel,** and chromium on growth and mineral element concentration in Chrysanthemum [morifolium]. 121716
Effects of chromium, manganese, nickel, lead, copper and *zinc* on the **nitrification** process of soil. 124751
Zinc **nutrition** of onions as influenced by phosphorus. 121695
Genecological investigations on *zinc* **plants.** I. Genetics of flower colour in crosses between Viola calaminaria Lej. and its subspecies westfalica (Lej.) Ernst. 120574
Role of copper, manganese & *zinc* in **poultry** [feeding]. 118142
Forms of natural and introduced zinc in soils and its uptake in plants [Contamination with **radioactive** *zinc* 65 isotope tested on oats and maize]. 116018
Effect of ammonium polyphosphate on maize on Sierozem in relation to the provision **rate** with *zinc.* 121399
Effect of zinc deficiency and varying zinc supplements on the rate of zinc absorption and *zinc* **retention** in dairy cows. 117984
Response of 'Sweet Spanish' onion to **soil-applied** *zinc.* 121714
Effect of zinc deficiency and **varying** *zinc* supplements on the rate of zinc absorption and zinc retention in dairy cows. 117984
Average content of calcium, copper, iron, magnesium and *zinc* in the **water** used at the Rural Sciences Center of the Federal University of Santa Maria. 125346
Effect of nitrogen and *zinc* on **yield,** protein content and quality of wheat in Egypt. 121514

ZINEB

Influence of **Cynkotox** *(zineb)* on mitotic activity and course of mitosis in root meristem of Allium cepa L. seedlings [Onions]. 122617
Determination of *zineb* **[fungicide]** by oxidation with chloramine-T. 122638
